Floyd Ninth In State Ag Income

Over \$89 Million In 1977

The Texas Department of Agriculture recently published its "1977 Texas Agricultural Cash Receipts Statistics" book which reveals Floyd County now in the top ten in agriculture income. Floyd agriculture income amounted to \$89,707,000 in 1977 for crops, livestock and government payments. County Agent Doyle Warren is advancing from the number nine county to the number one county in the state. Here are the state top ten:

- Hidalgo \$220,445; Deaf Smith \$209,403; Parmer \$164,232; Hale \$157,582; Castro \$156,272; Lubbock \$116,507; Lamb \$112,368; Swisher \$110,059; Floyd \$89,707; Cameron \$89,097.
- Floyd County income breakdown includes a little over \$74 million for crops, 11 million for livestock, four

million government payments. Most of Hidalgo's money was from crops, mostly cotton. Deaf Smith cattle feedlots made it strong in livestock income. Castro, Swisher and Parmer were all strong in livestock money. Floyd County vegetable income was a little over a million dollars in 1977. Of course the number one Floyd income is cotton, second is corn, third grain sorghum, cottonseed nosed out wheat for fourth place. Soybean income ranks sixth in crop money.

Santa Comes To Floydada Saturday!

Two committees of the Floydada Chamber of Commerce have been working together to coordinate various Christmas activities for a week of Christmas observances. The retail merchant committee and the community appearance committee have announced that the first ten days of December will be filled with many things to do.

cleverly decorated workshop. Santa Land will be open from 9:30 to 11:30 a.m. and 2:00 to 4:00 p.m. Thursday, Friday and Saturday, December 7, 8, & 9.

To kick off the activities there will be a treat for the children on Friday, December 1. The friends of the Library Association invite all children ages 5 to 10, and their mothers to attend an autograph party for Wallene (Mrs. Rex) Dockery. Mrs. Dockery will review her latest children's book, GABBY'S CHRISTMAS WISH. This party, with refreshments, will be from 3:30 to 5 in the Floyd Co. Library.

The merchants in the down town area have been contacted and requested to do some kind of outside lighting on their building or windows. The committees are suggesting that if they have to buy lights to do this that gold (yellow) lights be purchased with the plan in mind to do this lighting every year and each year to add to the displays. There will be the usual Christmas music played in town—that is, there will be if the loud speakers are fixed in time.

The next day, December 2nd, the Lions Club Arts and Crafts Show will open at the MAC at 10 a.m. This show has become quite popular with the Floydada people and is an excellent way to start the Christmas shopping season.

The Women's Division is again undertaking the adding of more lights to the tree on the southwest corner of the Courthouse Square. It is hoped that the weather will be better than year when the "lighting" took place. Again at the Christmas Tree lighting the high school band will present a program of Christmas carols. Everybody is invited to come and sing along with the band. If you don't know the words hum. There may be some sheets with words of the carols printed, and available for those with poor memories. Mrs. Carolyn Cheek's 6th graders will be there to add their voices to the festivities and the Methodist Youth are planning on staging a Nativity scene to add to the spirit of a country Christmas.

On Thursday, December 7th, the 1956 Study Club will again open a Santa Land. This is a popular event with the youngsters. They are taken from school to meet Santa Claus in his

The merchants are planning Christmas promotions in their stores. There will be more publicity about Christmas Activities Week.

Time To Write Santa.

The Hesperian is already receiving letters to Santa, so you youngsters had better get your letters written. The Hesperian will publish the letters, then forward them on to ole Santa.

By the way...Santa will be in Floydada at 9 a.m. Saturday to visit with all the little boys and girls...you may want to tell him in person what you want for Christmas.

Salinas, Cox Vows Pledged

In Plainview

Sandra Lee Salinas of Lockney and Leonard B. Cox of Levelland were united in marriage November 23 in the First Spanish Baptist Church in Plainview. Glen E. Godsey, minister of the church, officiated at the 6:30 p.m. double ring ceremony. The special Thanksgiving marriage service was scheduled to "change the family Thanksgiving tradition."

The bride is the daughter of Mrs. A.Z. Salinas of Lockney and the late Mr. A.Z. Salinas. Mr. and Mrs. Emory H. Cox of Floydada are the parents of the groom. The groom is a police officer in Levelland.

Rev. W.C. Carrasco gave the bride in marriage. Miss Salinas wore a floor length dress of lime satin organza which featured a high waist, U-neckline, and lace edged chiffon sleeves. The back skirt fell into a chapel train, which was outlined in lace. The dress was made by her mother. She wore a crocheted headpiece trimmed in pearls and carried an arm bouquet of voile material roses, beige shade, with baby's breath and crystals trimmed in greenery. She also carried a white Bible in a lime satin cover given to her by her father on her 15th birthday. She wore a diamond dinner ring given to her on her 15th birthday by Mrs. V.E. Robles of Lubbock and the late Mr. V.E. Robles, uncle and aunt of the bride; and a three sapphire stone

golden bracelet the bride's mother wore at her wedding which was passed down by her great grandmother.

Maid of Honor for the occasion was Sonia L. Salinas, sister of the bride of Lockney, Sylvia T. Salinas, Sue E. Salinas, and Sally E. Salinas, also sisters of the bride, were bridesmaids. Flower girl was Holly Daniels of Floydada. The bridesmaids wore yellow floor length dresses and carried yellow carnations decorated with lime ribbon.

Kenneth Cox of Levelland, brother of the groom, was best man. Ushers were Ricky Rigas of Plainview; Teddy Salinas, brother of the bride from Lockney; and Andy Castillo, also of Lockney. The groom and his groomsmen wore lime green tuxedos.

The altar was decorated with candlelight yellow chrysanthemums and ivy. The bridal chorus and Wedding March were played by Cynthia L. Salinas, sister of the bride and registration was presided over by Karen Cox, sister of the groom. Songs were presented by Sylvia Salinas and Oseas Alaniz of Lockney with Kim McKade playing the accompaniment. Others contributing to the music were David Morin and Mrs. Morin; and Miss Yolanda Godsey.

Other attendants were Mr. and Mrs. Ruben Rodriguez of Plainview; Mr. and Mrs. Noe Blanco, Lockney; Mr. and Mrs. Richard Luna,

Lockney; Mr. and Mrs. Dennis, Lockney (Wedding Sponsors) Mr. and Mrs. Joe Ortiz; and Mrs. Uvaldina Gaitan of Plainview.

Special out of town guests included Reverend and Mrs. W.C. Carrasco from Monahans; Silver L. Robles' two sons and daughter of Phoenix, Arizona; Mr. and Mrs. Cox of Amarillo; Mrs. Joan Cox, Amarillo and Mrs. Andy Mendoza, son and daughter from Lubbock.

The reception which followed the wedding ceremony was given by Mr. and Mrs. Ruben Rodriguez of Plainview. The brides table was centered with a five-tier cake, forming an altar decorated in white and lime colors with wedding doll figurines. The table was laid with a lace cloth and was candle lighted.

Serving at the bride's table were Miss Linda Mendoza of Plainview; Selma Ortiz, sister of the bride; and Mrs. Anita Maldonado of Plainview. The groom's table was decorated with a white lace table cloth and centered with the groom's cake and silver appointments. Parental Acceptance Aids Personal Growth

COLLEGE STATION--Parents can help their grown children seek independence and acceptance--and they too can grow, learn and adapt to continue improving family relationships.

At age two, children become aware of themselves as individuals, and they begin the struggle between clinging to mother and family and setting out to try things on their own, Patricia Lamson, a family life education specialist, explains.

From these early attempts right on through adulthood, the process of separating and achieving independence continues, she says.

Ms. Lamson is with the Texas Agricultural Service, The Texas A&M University System.

Parents can help smooth this phase of their children's development and ease some of the pains for themselves by preparing for the inevitable changes to come.

ACCEPTING CHANGE Parents often find it difficult to accept the actions of their grown children, or are unsympathetic to them. They must take into account how strong the impact of the changing outside world is

upon young adults, the specialist points out.

Young adults must function in many situations which force them to compromise or alter values they learned from their parents.

Parents must recognize that their children are not rejecting them personally even though they may reject their values or standards. Parents and children can accept each other even if they cannot accept different habits and ways, she says.

HUMAN NEEDS Even though values and habits change, the basic human needs do not change from generation to generation.

"Underneath the sometimes exterior or seeming indifferent attitude lie the same human needs to be loved and accepted by the families they love.

"Regardless of the differences that may exist between the attitudes and ways of life,

young people do wish to remain close to their families.

"They want their families' support," Ms. Lamson says. In a world in which little is permanent, the only thing that offers some permanence and continuity is the family.

FAMILY TIES

However, often it is close family ties which make it difficult for young adults to leave the cozy home situation and set out on their own.

They are caught between the urge to become independent and their guilt about wanting to leave home, she contends.

If warm, supportive family contacts are to be maintained over the years, roles need to be modified.

Both parents and grown children must give and take.

Communications must involve talking "with" each other, not "at" or "past" one another, the specialist recommends.

Trilateral Government Plot Seen

By SHAUNA HILL
Avalanche-Journal Staff
LEVELLAND — The Trilateral Commission, a group of prominent business and finance leaders, and the Council on Foreign Relations, a national study group, is "trying to bring a loosely knit world government into existence by 1980," charged an Oklahoma farmer here Monday night.

J. C. Lewis, a retired Air Force colonel and a member of the American Agriculture Movement, told about 1,000 persons at a junior high school here that "the Trilateral Commission and the CFR can control the world through our food, energy and international commodities systems."

Trilateral Commission members include business, finance and political leaders from the U.S., Japan and Western Europe. The CFR is a group of prominent educators, professionals and public leaders from across the U.S.

Food, Energy Threat
During his two hour speech, Lewis claimed the two groups could control "our food, energy and money by destroying our families, our willingness to sacrifice for our country and our belief in God." "The methods they will use have been used throughout history by all of the dictators in the world. They will use power over education, the media and the national police force," he said.

"Eighteen members of President Carter's executive staff are high ranking officials in the Trilateral Commission," Lewis said.

"Every president since Franklin D. Roosevelt, with the possible exception of Lyndon B. Johnson and all presidential candidates except Berry Goldwater have been members of the CFR, and you can bet the next president-elect will be a member, too," the former officer said.

Textbooks Criticized
He also alleged that "every textbook published since World War II has helped destroy Americans' belief and sacrifice for their country."

According to Lewis, the national media is virtually controlled by members of CFR. He cites statistics showing 121 of the top brass of the New York Times, the Washington Post, the three television networks and Time and Life magazines are members of the CFR.

"Local media in Washington covered the national agricultural strike earlier this year, but the national networks ignored the whole issue. The 27,000 farmers who participated might as well have stayed home, judging by the national coverage," Lewis said.

Cited "American Conspiracy"
What Lewis called "the American conspiracy" controls world food and energy supplies.

Lewis said the American corporations which have supposedly lost control of Middle East oil production still have a great deal of control.

"The oil companies would not still be there unless they were making a profit through the prices they helped to raise," Lewis said.

He claimed the U.S. branch of the Trilateral Commission controls food supplies to Japan and western Europe because those countries are dependent on imports.

Incredible Edible Cut-Outs

Deck the boughs with edible decorations made from a basic confection mixture. Pack wafers into gift boxes. This treasured recipe uses Certo fruit pectin and gives the option of flavoring or tinting the mixture. It's time to get out your cookie cutters!

QUICK CREAMY WAFERS

- 2 pouches liquid fruit pectin*
 - 2 pounds confectioners sugar
 - 1 pound (about) confectioners sugar
 - 1/2 teaspoon peppermint, rum, almond or orange extract (optional)
 - 6 drops food coloring (optional)
- * Or use 1 bottle (6 fl. oz.) liquid fruit pectin

Pour fruit pectin into a bowl. Gradually add 2 pounds confectioners sugar, mixing well after each addition. (Mixture will be very stiff.) Divide into four parts; wrap in wax paper or cover with a wet cloth. Use remaining 1 pound (about) confectioners sugar to dust board and rolling pin. Place one fourth of the mixture at a time on a pastry board, well dusted with sugar. Add flavoring and food coloring, if desired. Knead until smooth, adding sugar to board as needed and lifting with a spatula to prevent sticking. (Any unrolled portion may be wrapped in wax paper or plastic wrap and stored at room temperature overnight.)

Roll out with sugar-dusted rolling pin, about 1/4 inch thick, turning often and dusting with sugar to prevent sticking. Cut with cookie cutters dipped in confectioners sugar. Cut desired, make a small hole at top of each wafer with a wooden pick. Place, top side down, on wax paper on baking sheets or trays. Press leftover mixture together; knead again until smooth, roll and cut, or shape into small balls. Allow to dry, uncovered, for 24 hours, turning once. Pack wafers in layers between wax paper in a loosely covered box. Makes about 2-3/4 pounds.

How To Be A Better Driver

Competition driving's great—on the race track. It has no place on the freeway.

Don't isolate yourself. Let other drivers know what you plan to do. Use your signals.

Drive defensively. Be alert. Keep your mind on driving.

Another idea: stay alert by sitting up straight. Use the rear-view mirror often. Keep your eyes moving.

One tip: try to keep a moving oval of space around your car — front, sides and back. This way, you can move to avoid trouble. Traffic conditions may make this difficult to do all the time, but do it when you can.

Q -- What is the current amount of compensation payable for a 10 per cent service-connected disability? A-- Effective Oct. 1, 1978, compensation rates were increased by 7.3 per cent. The 10 per cent rate was increased from \$41 to \$44 per month.

Q -- Did the Veterans Housing Benefits Act of 1978 increase the amount of loan guaranty from \$17,500 to \$25,000. The law provides for a guaranty not to exceed 60 per cent of the amount of the loan, or \$25,000, whichever is less.

Q -- I have maintained my Ordinary Life NSLI policy since WWII. How can I obtain a loan against this policy and how much can I borrow?

A-- A veteran may borrow against the cash value of his permanent insurance policy. The loan amount cannot exceed 94 per cent of the cash value of the policy at the time of the loan. Veterans should submit VA form 29-1547, Insurance Loan Request, to the VA insurance center which maintains their policy.

Bill To Benefit Veterans More

An increase from \$17,500 to \$25,000 as the maximum guaranty for Veterans Administration home loans is one of several important features of the "Veterans Housing Benefits Act of 1978," according to Jack Coker, Director of the Waco VA Regional Office.

The legislation, which was signed on October 18, by President Carter, also permits certain severely disabled veterans to obtain a VA grant of up to \$30,000 to buy or adapt a residence to meet their special needs, Coker said.

VA grants for these so-called "wheelchair homes" were formerly limited to \$25,000.

Coker pointed out that the new bill should be of special benefit to an estimated \$168,000 Vietnam Era veterans because it reduces the length of active duty service required for eligibility for VA home, condominium or mobile home loan guaranty benefits.

Vietnam Era veterans now need to have served only 90 days on active duty--one day of which must have been during the period of August 5, 1964, to May 7, 1975--to be eligible for these VA benefits.

In addition, the law authorizes VA to guarantee loans for converted condominiums as of July 1, 1979. The agency currently is authorized to guarantee condominium loans in buildings constructed and sold as this type of dwelling.

Coker said another significant section of the legislation restructures VA's mobile home loan program--setting a \$17,500 loan maximum and extending the maximum loan term for single-wide mobile homes to 15 years, an increase of 36 months.

Our Basic Economic Need

While unemployment continues to be billed as a major national problem, personally we can't become too excited over the problem.

For one thing, not since we became associated with this newspaper 32 years ago have we been able to find competent help... with a VERY FEW exceptions. And this is the experience of most every businessman in Tulia, whatever his field. It just seems to us that if there was "legitimate" unemployment, things would sort of straighten themselves out over a period of 32 years.

Before we start talking about 6 per cent unemployment rates, let us examine the figures a little more closely.

Racially, 11.9 per cent of blacks are unemployed compared with only 4.9 per cent whites. It isn't that we must not be concerned about black unemployment—quite the opposite. But the problem is somewhat different. We must ask ourselves in this day when unskilled labor is no longer in demand at any time, are these unemployed blacks only unemployed—or are they unemployable? All the boosts to the economy we can dream up, all the shots in the arm the government can give, all the new jobs made available by industry aren't going to do anything for the unemployable—those without skills!

Women have a harder time than men in finding work. Their unemployment rate is 6.1 per cent, against 3.9 per cent for men.

There are many situations where women MUST be breadwinners. There are many times when it is highly desirable that women hold jobs as well as their husbands... but there are also many situations where unemployment figures should not be inflated merely by wives who want to supplement their husbands' incomes so that they can have some of the economic goodies they could not otherwise afford.

The rate of unemployment among teenagers, those aged 16-19, is 14.2 per cent as against 4.8 per cent for everyone 20 and over. Again, this is a problem to be dealt with. Teenagers need jobs, especially those who have graduated from high school. However, many without skills are not worth minimum wage. Perhaps this group needs some-

thing other than a stimulus to the economy, new jobs, and the like. Perhaps they need on-the-job training at a figure a business can afford to pay.

Comparing the extremes, unemployment for minority teenagers, 37.1 per cent, is more than ten times as high as the 3.4 per cent rate for adult men.

In 1950, only about one third of all women over age 16 had jobs or were looking for work; today almost half of all women are doing so.

The preponderance of adult male workers has been sharply reduced. In 1950 men over age 24 accounted for 59 per cent of the work force; by 1975 their share had fallen to 46.9 per cent.

Changes in the work force have added 1.5 percentage points to what

would be considered the "full employment" rate. That means that if unemployment could drop to four per cent in the 1950s without spurring inflation, today the trigger level would be 5.5 per cent.

Deducting our chronic unemployables among our adult white work force, our low unemployment figure is no problem among that group.

If we have a large number of female breadwinners who are unable to find jobs, the problem deserves national attention.

If we have large numbers of black breadwinners who are unable to find jobs due to lack of skills, certainly the problem deserves national attention... but not created jobs!

Certainly something should be done for teenagers of all colors who are without skills.

Lowest priority should be given jobs for the second or more breadwinners within a family unit. If a community wants to develop jobs for wives who want to work, fine! But this should not be the concern of either the state or local government and this category should NOT be considered in setting goals in connections with Humphrey-Hawkins type legislation.

Our basic need today is not for WPA-type or artificially created jobs... our basic need is for skills for all breadwinners and teenagers.

Your Personal MONEY Management

If it appears you may face serious financial problems during the next holiday season, you'll welcome these suggestions from the personal money management experts at The Consumer Credit Institute—a counseling service of over 800 consumer finance companies nationwide.

Keep in mind that the so-called Christmas shopping season is probably the worst time to purchase quality merchandise at a good price. You can buy more for less if you shop throughout the year.

Save in advance. If you aren't disciplined enough to save regularly on your own, you may want to join a Christmas Club at your local bank.

You can take advantage of consumer credit, repaying the loan out of regular budget allowances over a predetermined period of time. Credit costs money, so you should borrow only when benefits are worth the cost.

Your Personal MONEY Management

College expenses have doubled in the last decade, so shopping for the right college is more essential than ever. Here are suggestions from The Consumer Credit Institute, a counseling service of over 800 consumer finance companies. ***

Consider work-study programs, three-year degree programs and living at home while attending a state university. Other least-expensive options—in order—are living on campus at your home state university, attending a state university in another state and enrolling in a private college. ***

Obtain comparative estimates of annual expenses at a minimum of three colleges before making a selection: Carefully read college catalogues, talk with students there and make adjustments for your own living costs. Once you've determined the average annual cost of attending a college, add about 15 percent per year for the last three years to allow for inflation. ***
