## Cotton Harvest Reaches Halfway Mark

By Wendell Tooley

Over 208,000 acres of cotton were harvested in Floyd County this year. How much more will be harvested and how much will be stored in the bales is still anyone's guess.

Bob Hambright of the Employment Commission office says by gin count Tuesday and Wednesday that half the crop was harvested across the scales.

Many bales are stacked in the field or still on the stalk is yet to be ginned.

Of 68,900 bales were reported harvested Tuesday noon. If this is the total, then a total of 140,000 bales are expected for Floyd County this year's cotton harvest was a record with a total of 185,000 bales reported.

Farmers have been working hard for the last two weeks and are making good progress in getting the cotton harvested. Some are following the stripper with stalk cutter and the field's appearance has changed from white to brown almost

grades 45,000 samples this week, bringing the season's total to 228,000. This compares to 1,813,000 graded by December 1 last year, Dickson said.

Predominant High Plains grades this week were grade 41 at 15 percent, grade 51 accounted for 20 percent, grade 42 amounted to 37 percent and grade 52 was 20 percent. Twenty-three percent were reduced one grade because of bark, according to USDA's Agricultural Marketing Service. Five percent was reduced because of grass.

Staple lengths were mostly staple 31 at 26 percent, staple 32 was 38 percent and staple 33 accounted for 19 percent.

Micronaire was mostly in the desirable 3.5 - 4.9 range at 80 percent of the total. Twenty percent was lower. Breaking strength averaged 87,000 pounds per square inch. Cotton prices were steady to firm the week ending November 30.

Growers sold mixed lots of mostly grades 42 and better, staples 30 - 33, mikes 3.5 - 4.9 around 59.45 cents per pound. New crop lots of mostly grades 43 and 53, staples 30 and 31, mikes 3.5 - 4.9 brought about 54.35 cents.

Gins paid growers \$110 to \$130 per ton for cottonseed, mostly \$115 to \$130.

## Federal Land Bank Interest Goes To 8 1/2%

Jordan, Manager of the Federal Land Bank Association of Texas announced today that the Land Bank's billing rate on ranch loans and rural residences will be increased from 8% to 8 1/2%, effective December 1, 1978. The increase in billing rate will affect loans in the total amount of \$1.2

In making this announcement, Jordan stated, "The rapid acceleration of the cost of money in the recent weeks, with the dramatic 1% increase in the discount rate to an all time high of 9 1/2% and an 11% prime rate being charged by commercial banks, are indications of the significant effect in the average cost of funds to finance the Bank's lending programs." Also, he

mentioned that the 8 1/2% rate is a very competitive rate in today's economic climate.

The Federal Land Bank of Houston makes long-term real estate loans on farm and ranch land and rural resi-

dences throughout Texas, and now has more than \$1.4 billion in loans outstanding. The local association makes and services loans in Floyd, Briscoe, Motley and parts of Hall counties.

The board of trustees made a decision wives were to stand facing a wall their toes touching the wall. If they stood erect and their feet didn't touch the wall, they couldn't teach.

Wives accepted the rule, but insisted it must apply to the male members as well.

The trustees put the men to the test they lost five professors and department heads!"

**IT MIGHT TAKE ME** two or three days to run the 26 miles to Plainview. However, we now know that Frank Barrow can run 26 miles in four hours and one minute. Frank entered the Dallas Marathon where 2400 runners entered the 26 mile race around White Rock Lake.

Some 1600 runners participated in the five mile run.

Frank encountered James McKinney of Dallas who was in Floydada High School about the same time, and they ran the 26 miles together. Each had prepared for the marathon by running 50 to 55 miles per week.

Frank credits James with the encouragement he needed to stay in the race and complete it.

A runner from SMU won the race with a time of two hours and 18 minutes. A six year old boy set a new world record in his age division by running the 26 miles in three hours and 27 minutes.

Frank said although the temperature was 69 degrees, the humidity was 95 and the paved part of the race got pretty hot.

Second place runner was from Ireland. Frank says he and James finished about "the middle of the pack".

The Dallas Marathon is considered the biggest in the Southwest.

## NEWS 'N' NOTES

(By Sharon Hillis)

**STUDY INCOME, EXPENSES**  
If you do not already have a budget, now is the time to make one. First, list all income and expenses. If expenses are greater than income, do not buy anything on credit - or even consider it for this holiday season. Also, if your income meets expenses but leaves no extra money, be just as strict. Do not buy anything on credit until income is higher or expenses are lower. This is especially important for consumers already making credit payments.

**MAKE BUDGET**  
After studying income and expenses, make a budget - or spending plan - to cover all expenses and other things you need or want. Be sure the budget allows your monthly income to cover monthly expenses - plus savings. Consider credit buying ONLY if the budget shows more income than expenses each month.

**SET LIMITS ON CREDIT**  
Set limits on credit. This is the first and most important one factor in controlling credit. Limit credit to amounts you can pay safely out of current and future income. Be sure future income is a "certainty."

**CREDIT DANGER SIGNALS**  
Crisis can threaten even the most workable budget or spending plan. Stay alert for credit danger signals. If the answer "yes" to any of the danger signals below, it is time to postpone buying any more on credit - until you can answer "no" to all the signals:

- Are you near, or at the limit, on your lines of credit?
- Are you extending payment schedules? That means are you taking 60 to 90 days to pay bills you once paid in 30 days?
- Can you only make the "minimum" payment on your revolving charge accounts?

## Tips On Buying A Christmas Tree

**COLLEGE STATION** -- Many people still enjoy and appreciate the beauty, color and aroma of a traditional cut Christmas tree. Everett Janne, landscape horticulturist with the Texas Agricultural Extension Service, offers some tips to help you select your Yule tree and maintain it in the best possible condition throughout the holiday season.

1. Choose your tree early. Most Christmas trees are cut four or five weeks before they arrive on the lot. The sooner you can get the tree home and into water, the better.

2. Select a full, dense tree that is evenly branched. The branches should be firm and flexible. Shake the branches when selecting to see if needles fall. Fresh, healthy Yule trees do not drop their needles.

3. Select a tree with good green color. This indicates that the choice is fresh, has good needle retention, fragrance, fire resistance and longer holiday beauty.

4. Once you have selected your tree, saw off the lower two inches of the trunk. This will help the tree absorb water which will insure freshness and lasting qualities.

5. Stand the tree in water in a cool location outdoors until you are ready to trim. Then, place it in a tree stand that holds water and keeps filled during the holiday season.

6. Place your tree in the coolest location possible indoors, away from the fireplace, radiators and other heat sources.

"While it might seem great waste to cut down thousands of trees every year just to have something to hang on our walls at Christmas, we really should criticize this practice," says Janne.

"The majority of trees for Christmas are grown specifically for that purpose on commercial Christmas tree farms. They are just as much a crop as fruits and vegetables.

In addition, we can be sure that, like fruits and vegetables, these trees are fully replanted for future harvests."

**AUTOMOBILE CO-** PLANTS rank number among consumer problems with poor auto repairs being the major problem, reports Claudia Kerbel, consumer information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

## TDA Asks Texas Cooks To Send In Best Recipes

AUSTIN--The Texas Department of Agriculture is asking Texas cooks to share some of their favorite recipes by allowing them to be published in the TDA Quarterly, a magazine distributed throughout the state.

Recipes from readers are a regular feature in the general-interest magazine, which features articles on Texas food and fiber. The upcoming January issue will feature carrots, potato chips and fruit from Texas-grown trees.

"There's nothing to beat Texas cooking," said Agriculture Commissioner

Reagan V. Brown, "and we'd like to help pass along some of those recipes which help our state maintain its culinary reputation.

"Of course, a big part of the reason our Texas cooks are so good is that just about every ingredient needed is produced in abundance right here in our state," Brown added.

TDA Quarterly magazine is available without charge to Texas residents. To be placed on the mailing list or to submit recipes, write TDA Quarterly, Texas Department of Agriculture, P. O. Box 12847, Austin, Texas 78711.

## Graduates Compared Through With Other U. S. Schools

...of the "questioning" approach and a call for a curriculum which emphasizes the basics, such as writing and mathematics. The reemphasis on the result of testing which indicated that a large percentage of school graduates are illiterate—a term usually applied to the lack of ability to operate in society... read a road map or a yellow page... across the nation... many students are being passed on to higher grades regardless of whether they have mastered the material at their own level. These promotions have been justified in terms of "social salvation" and "ego security" behind the "loses" with his peer group. The argument has some merit, but fails to handle cumulative problems as the student is given increasingly advice. He becomes more lost and more incompetent in the face of the graduates and must find a way in a literate

...national ratings, Floydada was "average". When the test was broken down into various skills areas, Floydada's ratings were often above the national norm. The test will be given this month by Joanne Cagle, new counselor of Floydada schools. In Floydada High School, the curriculum has been developed and is continuing to be improved in such a way that gives each student the opportunity to learn without sacrificing the potentialities of the top learners or frustrating the efforts of those with less learning capabilities. These adjustments in approach and application have come about through the joint efforts of principal Charles Tyer, the teachers and other administrators with parental support. Parents are urged to feel free to discuss their children's academic and social progress with those who guide the very important social institution—the school. In addition to the principal and teachers, Floydada counselor Joanne Cagle may be contacted by calling the high school. She and the entire school staff share a common goal with the community and with parents—to provide a learning situation conducive to personal growth.

In "Community Resources" Floydada scored above the national norm in areas such as social security number application, library use and reading a bus schedule. High scores in "Occupational Knowledge" were evident in such areas as "help finding job as sales clerk"; lower in "jobs ads" and "employment agency fee." Strong "Health" points were in bleach antidote, first aid kit list and calories; low in high-protein meal. Other high practical areas including knowing how to fill out an income tax return, credit check knowledge, motorcycle owner's manual, and the number needed to pass a bill in government.

In overall scoring, 28.9% of the 76 seniors participating in the test scored above average, 47.4% scored average, and 23.7% scored below average. Compared to

## DECA Student of the Month

DECA "Student of the Month" of November is Calvin Dick, who is a senior student in FHS and the son of Mr. and Mrs. R. Elvin Dick.

The student of the month is selected by D.E. coordinator, Bill Neeley, and is given each month to the D.E. student who excels in the three areas of the program, which are: classroom, work

and club activities. Calvin is employed at Kirk & Son in Floydada, where his responsibilities include salesmanship, management of displays, and the stocking of shelves. Calvin's activities in FHS include being president of the Drama Club; parliamentarian of D.E. Club; member of the cast of "Annie Get Your Gun" and a member of the National Honor Society.

Morehead is stepping down as head of the Dallas Morning News state capital bureau after a career spanning 36 years. He plans to continue writing a column.

Briscoe, Clements and former governors, John Connally, Preston Smith and Price Daniel praised Morehead during a retirement party at the Headliners Club.

The newsmen's boss, Morning News executive editor Tom Simmons, former state senators Carlos Ashley and James Taylor and Jack McGuire, an old friend, also spoke at the party honoring Morehead. The ex-governors couldn't resist poking a little fun at each other during the ceremonies. Smith said that Briscoe was absent so much from Austin during his administration that the old Smith desk is still displayed in the governor's office, nameplate and all. "If I had my rubber chicken, I'd present it to you, Preston, retorted Clements.

"Nobody but the Moreheads could get all of us together tonight, and it may never happen again," said Briscoe. "Dick Morehead exemplifies the very best in free journalism in this state."

Connally, subject of several jibes from his colleagues about the possibility he may be a Republican contender for president in 1980, turned his famed oratorical talents into this moving remark: "From the time I first knew you, you always asked the right questions, you asked them in the right places, you asked them in the right way,

Superintendent of Schools  
Floydada, Texas

Dear Sir:

I am wondering if any member of the Senior class of 1929 at Floydada High School still lives in Floydada. I would like to find out if there is to be a 50th year reunion of that class and who would be the chairman of it. My maiden name was Ruth Enoch.

You might put in the school records that my sister, Blanche Enoch (Foster) passed away March 5, 1978. She graduated in 1930.

Please let me hear from in regard to this reunion. Thank you.

Sincerely yours  
Mrs. Ruth E. Whitaker

Most good farmers don't wait until planting time to buy Pioneer brand seed... not anymore. The best farmers seem to think that having the seed with the greatest potential is too important to leave to chance. Ordering next year's seed as soon as they've seen this year's results is becoming a habit... practically a tradition. Why? Because, when you compare Pioneer performance brands that are always available and compare the advantages of ordering early to the disadvantages, you've got to pick up the phone and call a Pioneer dealer.

AND TO CAP IT OFF — Pioneer will acknowledge your early order by sending you a sprightly green, foam-lined gabardine cap.

## Students Enjoy Williams Ranch Outing

Monte Williams and his Texas Tech University roommates Garvin Thorn and Dave Carthel of Friona, were hosts to the University's Horseman Association, Aggie Council, and Block and Bridle Club for a trail ride through Blanco Canyon Saturday, December 2. The

students entered the canyon at the Baptist Encampment and rode through J.S. Hale's ranch on to the T-Bar Ranch. There the Q.D. Williams family served them a campfire dinner at noon.

As guests sat under the cottonwood trees along the river bed, Jim Word narrated

the history of the canyon and the Indian tribes that had used the waterway for centuries as a highway. A group of Floydada Boy Scouts accompanied Mr. Word.

Guests present included faculty sponsors Mrs. Jim Hurd, Mr. and Mrs. Boyd Ramsey, and students Karla

Jackson, of Anahauc; Dirk Jones, Tatum, New Mexico; Sandy Mandel of Parker, Colorado; Maureen Roberts, Indianapolis, Indiana; Terri Moore, New Braunfels; Gary

Reynolds, Canyon; Suzy Smith, Plano; Julie Paux, Liz Lilly, and Suzy Harrison, all of Dallas; Homer Barnett, Ronie Barnett, and Bobby Stewart of Lubbock, and Jim Word, of Floydada.

## Cattle Brands Needed For A&M Stairway

COLLEGE STATION -- The search continues throughout Texas for outstanding cattle brands to include in another chapter of

their history by "burning 'em in" Texas A&M University's "branded stairway." L.A. Maddox, chairman of the unique branding project,

said that some 3,500 brands, or more, are expected to be imprinted on the 254 "county oak panels" in the University's new \$9.5 million Robert J. Kleberg Animal and Food Sciences Center.

"County Extension agents are working with their local beef cattle committees to select eight brands per county, and with historical societies to select other brands for the panels," Maddox, Texas Agricultural Extension Service beef cattle specialist, said "We now have slightly more than 500 burned in."

There are some 200,000 brands recorded in Texas and on file with the Texas and Southwestern Cattle Raisers Association in Fort Worth. This is the state's most complete record.

The "branding" was an idea of Dr. O.D. Butler, for many years head of Texas A&M's Animal Science Department and now associate

vice president for agriculture and renewable resources. He said that not only are cattle brands a rich part of Texas livestock history but a prized possession of ranchers in identification of their cattle.

"We felt that the branding ceremonies would bring about a closer tie-in between cattlemen and our animal science facilities on campus as well as with research and educational work throughout Texas," Butler said.

Application of the brands was initiated last June during a meeting of directors of the Texas and Southwestern Cattle Raisers Association. Officials of other livestock groups also are being invited for a "branding party."

Maddox said that branding ceremonies also will be conducted by Extension district groups until "all panels are branded." This probably will be about next April 2-3 when the annual Texas Animal Agriculture Conference is staged at Texas A&M.

### Letter To The Editor

Mr. Wendell Tooley  
Editor & Publisher  
Floyd County Hesperian  
Floydada, Texas 79235

Dear Mr. Tooley:

I have just received the attached report from the Director of the Southwestern Region, Economic Development Administration, concerning the MacKenzie Municipal Water Authority.

I regret that the report is not encouraging but it is good to know the situation as it now stands. At the very least, the proposal is still under active consideration.

Be assured of my continued interest in this matter and with good wishes, I remain.

Sincerely yours,

Dear Mr. Burleson:

Thank you for your recent letter in which you expressed your continuing interest in and support of the MacKenzie Municipal Water Authority's request for EDA assistance.

Because of the pending amendments to the regulations governing Title IX assistance, and because of the marginal aspects of the eligibility of the MacKenzie project, we have been unable to make a recommendation to our Washington office. This proposal is still under active consideration at the present time. We are hopeful that a final decision can be made soon.

Your interest is appreciated.

Sincerely,  
Joseph B. Swanner

### Lock Gifts In Car Trunk

**COLLEGE STATION** -- Lock Christmas gifts in the car trunk during shopping trips, advises a consumer information specialist.

"Packages left inside a car 'on display' make tempting items for thieves-- even if the car is locked, warns Claudia Kerbel.

Mrs. Kerbel is with the Texas Agricultural Extension Service, The Texas A&M University System.

For those who must leave the car for only a few minutes--and who feel they cannot take time to lock gifts in the trunk, be sure to close all the car windows and lock

all the doors.  
**INSURANCE COVERAGE** "IF'S"

It is risky, also, to depend on an insurance policy to cover any loss from stolen property, unless that type of coverage is actually part of the policy.

A loss may be covered in a homeowners "package" policy, and it may be covered if the shopper has a personal-property floater type of policy.

However, the loss may be covered only if the thief forces the vehicle open in spite of locked doors, windows and other openings.

### Rapid Completion of Forms Urged on 1978 Ag Census

**AUSTIN**--Agriculture Commissioner Reagan V. Brown urges Texas farmers and ranchers to complete and return all 1978 Farm Census reports as soon as they are received early next year.

"The report forms which will be used for the 21st national agriculture census will take just one-third the time to complete as the old forms," Brown said. "Prompt completion of the forms will allow the U. S. Department of Agriculture

to quickly and accurately compile this benchmark data for its current agriculture statistical series.

"In addition, this census

is the only source of uniform data at the county level on agricultural production and inventories," he noted. "It is widely used across the nation by decision-makers in both the public and private sector."

### 4-H Awards Motivate Youth

Historically, awards as incentives in 4-H have played a significant role in motivating young people to excellence, says Birch Lobban, county agent with the Texas Agriculture Extension Service.

Even before the 4-H program formally began in 1914, the private sector saw the importance of recognizing youth for their accomplishments.

In October 1856, for example, young Franklin Spaulding stood proudly by his exhibit of Dutton Yellow Corn at the Watertown (New York) Fair as the judges filed past. His months of hard work paid off when he was awarded the \$50 first prize in the state corn contest.

The donor of his award was Horace Greeley, famous newspaper editor and politician.

Following the precedent set by such early supporters of America's youth, about 60 private sector donors will provide incentives to 4-H members this year through national 4-H awards programs, notes Agent Lobban.

Nearly 200,000 4-H'ers will be recognized each year with educational scholarships, trips to National 4-H Congress in Chicago and other events, U.S. savings bonds, stocks and other awards.

These awards are arranged by the National 4-H Council, a non-profit educational organization using private funds to serve the 4-H work of the Cooperative Extension Service. They recognize excellence at local, state, sectional and national levels in nearly 50 programs areas.

Some of these programs and their sponsors are bicycle, the Goodyear Tire & Rubber Co.; dog care and training, Purina Dog Foods Group, Ralston Purina Co.; gardening, Ortho Division, Chevron Chemical Co.; and veterinary science, The Upjohn Co.

Young people in 39 states are eligible for expense-paid trips to the annual 4-H Commodity Marketing Symposium sponsored by the Chicago Board of Trade.

4-H members, plus outstanding clubs and counties in all states, can earn recognition from John Deere in the conservation of natural resources program. And 4-H'ers and clubs are eligible for health awards donated by Eli Lilly and Co. and Kraft, Inc.

Other national 4-H donors offer scholarships for college studies in specified fields: Educational Foundation of Alpha Gamma Rho, agriculture; Allied Mills, Inc., animal science; and Champion Valley Farms, Inc., Recipe Division, veterinary medicine.

Five donors provide scholarships and other awards on a regional basis: the Santa Fe Railway System and DeKalb Central Pipeline Co.; DeKalb AgResearch, Inc.; Burlington

ton Northern Inc.; Chicago & North Western Transportation Co.; and Edwin T. Meredith Foundation.

All winners are chosen by the Cooperative Extension Service. Young people can learn more about these and other national 4-H awards programs by contacting the county Extension office, explains Agent Lobban.

Educational programs conducted by the Texas Agriculture Extension Service serve people of all ages regardless of socioeconomic level, race, color, sex, religion, or origin.

### Waggoner Carr Says Texans Demand Tax Relief

Former Attorney General Waggoner Carr, one of the leaders in the new statewide organization TEXAS 13 today issued the following statement.

"The deep concern of all Texas Taxpayers over huge government spending and the crushing tax burden was clearly evident in this year's political races from the courthouse to the State house. The people have sent a strong message to all levels of government that they demand relief.

There is not doubt that the approaching session of the legislature will be a taxpayers relief session. TEXAS 13 will be highly visible and vocal in its fight for tax and spending relief and to gain the right of initiative and referendum for Texas citizens to enable them to reduce their taxes themselves if the legislature refuses to do so.

The present 3 billion dollar surplus resulted from overtaxing our people. The government did not need it

and it was taken away by the tax collector anyway. That \$3 billion belongs to the people, not the tax collector and should be returned to the people through tax reduction.

It is alarming to the already angry taxpayer that a special Senate study committee is now holding hearings on increasing taxes at the State level by two billion dollars to replace the revenue lost from the Tax Relief Amendment which the people organized with TEXAS 13

ago. One proposal is to increase our State Sales tax to 8 percent which would make Texas the highest in the nation. For one level of government to lower taxes and another level to increase taxes to make up for the lost revenue, gives absolutely no relief to the taxpayer since he supports both levels of government. Such attempted fraud by a government against its people only feeds the fire of Tax Revolt."

Working with Carr in the organization of TEXAS 13

are prominent citizens such as Julian Zimmerman, former Director of Federal National Mortgage Association; Frank Debus, Austin attorney; Logan Wilson, former Chancellor of the University of Texas; Sale Lewis, former Commissioner of Texas Savings & Loan Department; M.J. Anderson, insurance and real estate executive; Rudy Cisneros and Matt Martinez, Jr., well known Mexican food restaurant owners; Ben Woodson, retired Chairman of the Board, American General Life Insurance Company; Josiah Wheat, former President, State Bar of Texas; W.W.

McAllister, former Mayor, San Antonio; Taylor Glass, former Mayor, Austin; William H. Gardner, former Capitol Correspondent, Houston Post; Harmon Schepps Dairy, Dallas; O.R. Crawford, Austin business executive; Colonel Perry Brown, former National Commander, American Legion; Rex Baker, Jr., Savings and Loan executive, Houston; Mrs. Barbara O'Chester, wife of Reverend Harold O'Chester and spiritual leader of statewide retreats; and Judson Williams, former Mayor, El Paso.

"Each of these advertised items is required to be readily available for sale at or below the advertised price in each store, except as specifically noted in this ad." PRICES EFFECTIVE DEC. 7 THRU DEC. 9, 1978.
