Miss Tina Sparkman

Is Shower Honoree

A shower Saturday afternoon at the home of Mrs. Jeff Terrell in the Lone Star community honored Miss Tina Sparkman, bride-elect of Henry Presley III. Presley and Miss Sparkman have chosen a May 19, 1979 wedding date.

Joining the honoree and the hostess in the receiving line was Miss Sparkman's mother, Mrs. George Sparkman. They wore corsages of yellow daisies tied with apricot tulle and satin.

A special guest was Miss Sparkman's grandmother, Mrs. Faye Hinkson of Hurst.

Miss Robbie Sparkman, sister of the honoree, assisted in displaying the shower gifts.

Refreshments were served by Mitzi Glenn and Jo Beth Stallings. Punch, finger

sandwiches, and assorted cookies were served from a round table covered with a floor-length yellow cloth overlaid with a white eyelet cloth. The centerpiece was an arrangement of yellow roses and baby's breath. The napkins were orange, and a crystal punch bowl and service were used.

The hostesses gave Miss Sparkman a cream-colored bedspread and dust ruffle.

Hostesses were Virginia Owens, Jackie Holt, Sally Carthel, Sheryl Bybee, Jo Ann Duvall, Agnes Frizzell, Jeanette Marr, Violet Cooper, Jontha Mercer, Marty Smith, Naomi Johnston, Ann Lee, Emma Thomas, Doylene Dipprey, Fay Crader, Nellie Webb, Linda Stallings, Emma Collins, Sally Shaw and Rubye Terrell.

Treat me as a person, not a thing" stems from everyout of con low self-esteet one's need for recognition as an individual.

There are times when the idea on a message card could come in handy as a reminder to others and to ourselves. Every person has a need to feel good about himself. Part of our self-concept is determined by how others treat us and part is determined by how one perceives himself.

Actions, gestures, words, all communicate in both positive and negative ways the manner in which one is received by others.

For example, an adult recogniz becomes frustrated when someone pulls into a parking as failures space he was waiting for. LUBBOCK-America one hundred and more years ago will go on exhibit with a collection of 125 Currier & Ives lithographic prints to be shown April 25-May 30 in The Museum of Texas Tech University.

The prints are from the Esmark Collection of 650 originals made between 1835 and 1890. The collection was acquired by Esmark Inc., a Chicago holding company, in celebration of the nation's Bicentennial. Four touring collections are being shown in major art museums, outstanding university art centers in the United States, as a special exhibit in Asia, Africa and Europe and by Esmark companies.

The Texas Tech museum exhibit is sponsored by the West Texas Museum Association. The WTMA Women's Council will hold a reception from 3:30-5 p.m. May 2 for all persons of retirement age-plus who would like to see the Currier & Ives reminders of times past.

Other than historical events, the prints depict almost every phase of American life-hunting, fishing, whaling. The views include steamboats, railroads, the great clipper ships, rural scenes and urban views.

> Well, they're after him again ... as if that's any big surprise. Certain members of Congress have apparantly always been jealous of Cotton apparantly always been jealous of Cotton

apparantly always been Jealous of Cotton Incorporated's high-powered president J. Dukes Wooters Jr. Basically, the Washington fat cats (talk about the pot calling the kettle black!) are after Wooters because they think he just makes too puch money.

'BIG BROTHER' ATTACKING COTTON PRESIDENT after Wooters because they traink he just makes too much money. You see, in 1975, congress let Cotton Incorporated have a S3 million allocation for some research activity. I guess the farmers would have been better off now (in hindsight) to have refused the federal money and just continued to operate totally on farmers' collective per bale assessments of their own self-help research and promotion program.

romotion program. Yes, because when CI took the bait, the fed, in effect said: "Now you've accepted some federal funds...now, we (the feds) are going to tell you how much money your

Wooters was making about \$121,000 a year. The feds didn't like that because they said it was more than the \$63,000 the Agriculture Secretary makes. Heaven knows we can't have the president of Cotton Incorporated making more in private enterprise than the ag-secretary

makes in his government job. Wooters went without salary for nine months to make his salary low enough to satisfy the feds.

In December 1976, three months after Wooters' mandatory pay reduction had ended (since the federal allocation funds had run out and CI was back to being totally funded by farmers again), Wooters took on a consulting job for another cotton company on his side

1979

This would seem his right. Nobody at CI was objecting. Directors are behind Wooters 100 percent as a recent statement released to this farm writer showed. I haven't heard any farmers yelling. They want top men running their company But some congressmen saw Wooters taking his consultant job to supplement his CI salary (that he'd lost because of the government in the first place) as "de-

fying" their original mandate. In fact, the CI directors acknowledge that the consulting job actually helps Wooters in his vital role as chief of Cotton Incorporated. The bottom line is, if I were a cotton

farmer. I'd be pretty angry. I'd tell the government to quit messing with my self-help promotion and research arm. I'd do this even if it meant a little greater check-off per bale of cotton just so I could tell the government: "Take your money. and you know what you can do with it ... we're going to run our company." Do you remember what Wooters was

doing when you hired him, cotton farmers? He was an executive over several departments at Readers Digest magazine. one of the highest-paid executives in the

Do you know what Wooters IRS quarterly report showed the last three months he worked for Readers Digest? It showed more than \$99,000 for three months That's nearly what he makes at Cl in a year. He makes no secret of that...he took a tremendous salary cut to go to work as chief of CL.

Why? Because Wooters is one of the most competive men this farm writer has ever met. He considered CI a challenge over his magazine job. He loves to kick the competitors - synthetic fiber companies in the rump.
I've watched him before groups in New

I can't emphasize enough to you cotton farmers to get behind your company and get behind your man. Write a letter to Rep. Charles Stenholm and other Texas congressmen and Senators. Let them know it's going to take all they can do to offset these other congressmen's attempts to destroy Cotton Incorporated.

If you don't you're going to lose the best thing you ever had. The synthetic fiber companies (now

running scared since they're produced from ever-rising petro-chemicals), those companies - which spend \$10 to every dollar that CI spends on their collective executives and promotional activities — can enjoy a big belly laugh. In fact, they'd hire Wooters tomorrow if

the farmers were to lose him. -Abilene Reporter

When you buy something in Lubbock or any place outside of Slaton, you pay the one per cent city sales tax in that city and help support that city's government rather than your own. ted as co-recipients of the award in basketball. Helms was the track honor-

Kary Helms was a double winner

Kim Curry, who coach Tommy Baxter identified as owning a multitude of FHS girls basketball records, was chosen as Fighting Whirlette in basketball. The Fighting Whirlette in track was revealed as Jaine Guest.

ATHLETES INTRODUCED

Each FHS varsity, junior varsity and freshman athlete in spring semester sports - basketball, golf, tennis, and track - were introduced by their respective coaches.

Representatives of various teams presented gifts to their coaches. Janet Milam, cheerleader sponsor, also was the recipient of a gift from the cheerleaders.

Miss Milan handed tokens of appreciation to the cheerleaders, who also

were cited by Athletic Director L.G. Wilson.

Coaches making presentations were: ninth grade girls basketball, Sally Wylie; junior varsity and varsity girls basketball, Tommy Baxter; ninth grade boys basketball, Dudley Kelm; junior varsity boys basketball, Daniel Coward; varsity boys basketball, Mike Cocanougher; girls and boys golf, Dale Tyer; girls and boys tennis, Baxter; girls track, Coward; ninth grade boys track, Cocanougher; varsity track, Joe Paty.

WILSON EMCEE

Athletic Director Wilson served as banquet emcee. He explained that the banquet was being held before the completion of some sports because of the school year end nearing.

Following dinner prepared by the lunchroom staff, Coach Cocanougher voiced the invocation. Guests were introduced by Wilson.

No speaker was invited in order to devote more time to honoring athletes. Coaches paid homage to their teams while making introductions.

Cheerleaders led the school song to conclude the banquet.

Sales Tax Returns Increase In Counteriday.

State Comproller Bob Bullock said in a Friday news release that local one percent sales tax rebates to Texas cities for April were up over the same month last year. This was true in both Floyd County

towns.

Floydada's net payment for the period ending April 3 stood at \$7,503.04, compared with \$6,262.41 the previous year.

Lockney's sales tax payment for this period was \$2,935.53. This was a strong increase over \$1,603.68 for the same reporting period last year.

Light Agenda Faces Commissioners Court

A comparatively light a-genda faced Floyd County ommissioners Court during its April meeting.

DPS Patrolman Keith Gross discussed purchase of a scanner for the new patrol car. This action received unanimous approval following a motion by Commis-

sioner Grigsby Milton. Margaret Collier met with the county governing body to discuss salary increases for deputies in the tax and clerk offices. No action was taken. Also tabled was a pro-

posed cancer plan for county the district rowned as employees. Jon Chapman of Blue ub newsCross discussed changes in insurance for county employees. The court voted to retain the present plan without change.

Another matter tabled was equipment signs for each precinct. Ken Howell of a sign company made the proposal.

The commissioners court voted to reinvest \$75,000 in certificates of deposit for the county and to reinvest \$20,000 in CDs for Precinct Three. Official bond for Walter

Hollums, justice of the peace, was unanimously adopted.

County Youth Prepare For State 4-H Roundup

Fun, meeting people, and sharing ideas are all a part of the annual State 4-H Roundup at Texas A&M University. And 4-H'ers in Floyd County are working hard to prepare for qualification for the event to be held June 5-6, points out Birch L. Lobban, county agent with the Texas Agricultural Extension Service.

Roundup includes a number of "show and tell" activities or method demonstrations and illustrated talks, judging, speaking, share-the-fun, and food show. The second annual State 4-H Project Show will also be held in conjunction with Roundup. Each Extension district

throughout Texas has a District 4-H Roundup during the spring. For seniors (14 and older), winners are selected to participate in the state roundup.

4-H'ers gain in communication skills by learning how to get up in front of an audience and present to an audience can be a great help not only in 4-H but in school, business, or at work.

Linda Lemons and children Through "show and tell" were among those of the 4-H'ers help others to learn skills that they know how to Cooper family that enjoyed a picnic lunch in the park at do themselves. Older 4-H'ers often have an opportunity to gain and leadership experience. In turn, they help younger 4-H'ers develop their "show and tell" or prepare for other

events and activities. It's a big help for younger 4-H'ers to be involved in Roundup activities at an early age, contends Birch Lobban. In addition to gaining expereince and self-confidence, they also have an opportunity to participate in contests at county and district levels.

Become involved in 4-H Roundup today, suggests Birch Lobban. Contact the county Extension office to learn more about the many opportunities for 4-H'ers to participate in 37 different categories

A Floydada resident is among 100 students at Baylor University who will receive a \$500 scholarship from the Baylor Student Foundation for the 1979-80 school vear

D'Alan Ann Benson, junior, daughter of Mr. and Mrs. D.A. Benson Jr., was selected to receive a scholarship.

This year's scholarship presentation will be the largest number of scholarships awarded by the Student Foundation, a Baylor student organization working in the areas of University public relations, student recruitment and student scholarships

Scholarship donors and recipients will meet at the Foundation's Advisory Board banquet April 20 at 7:30 p.m. In addition to the banquet, recipients also will be intro-

duced at Bear Downs, a student bicycle race, to be held April 21 at Waco's Heart O' Texas Coliseum.

Three hundred sixteen Baylor students applied for a Foundation scholarship this year. Applicants must be juniors or seniors with a 2.5 grade point average on a 4.0 scale during the preceding two semesters. Financial

need, and campus, church and city involvement are also considered by the scholarship selection committee.

Even though a different textbooks is used, Health II is simply a continuation of Health I - possibly more detailed but just as important.

GOLF

Golf is a lifetime sport taught all three quarters with the participants competing actively with other golfers from various size high schools. Both the boys and girls teams compete in several invitational tournaments as well as represent their school in District play.

This year there are 13 girls and 16 boys competing for F.H.S. During the six years we have had U.I.L. golf, the girls have won district every year and have had the district medalist each year. The girls have also won regional once, placed second one year, were third one and had the district medalist one year. The boys have not fared quite so well but this years golfers looks very promising.

The top 2 sorghum hybrids on the High Plains are both from **Pioneer.**

Even in a rough sorghum year like 1978, farmers all over the High Plains brought in good yields with 8501 and 8451 from Pioneer. Both of these hybrids have outstanding qualities that make them ideal for High Plains growing conditions. Talk to your Pioneer dealer soon about one . . . or both of these hybrids for your place.

8501

Greenbug tolerance without sacrificing yield! Even in marginal conditions this outstanding hybrid makes a good stand. Extremely good earlyseason vigor coupled with outstanding stress tolerance makes 8451 the kind of sorghum you'd choose even if it weren't tolerant to greenbugs. In side-by-side yield comparisons over a three-year period, 8451 has proven its performance potential by out-yielding later maturing hybrids by almost 350 lbs. per acre. If you need greenbug tolerance, but don't want to give up yield, plant 8451 from Pioneer

Drouth tolerance with high yield potential. In 56 tests over the last three years 8501 has shown a yield advantage of 339 pounds per acre over competitive varieties. A strong stalk and root system give 8501 excellent standability and add to its exceptional drouth tolerance. 8501 has good tolerance to smut and MDMV. Very uniform head height, excellent head exsertion and beautiful, bronze grain help make its field appearance outstanding.

The electric heat pump is a remarkable device that uses about one half as much electricity to heat your home as a conventional electric heating system. This means substantial savings on your winter heat-Ing bills.

Operating costs for summer cooling are about the same as conventional central air conditioning systems. During summer a heat pump works like a regular air conditioner. A blower pulls hot air from the house and passes it through a filter to remove dust and dirt. The air then flows across a cooling coil to cool and de-humidify the air. It then moves through ducts to all rooms in your home.

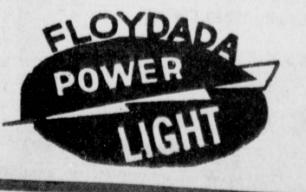

conserves

During winter months this cycle is reversed. For the heating cycle, the heat pump does an unusually efficient job. The only electricity it uses is to run the fan and the compressor. This is why heating costsare dramatically lower. Heat is removed from outdoors and pumped inside to heat the house. This is the feature that surprises most people, until they realize that there is always some heat in winter air.

saves m

Original installation costs for a heat pump are usually slightly more than for separate heating and central air conditioning systems. But depending on your installation, costs may be about the same-or even less than for separate systems.

A properly engineered heat pump . . . large enough to do the job . . . will mean important savings to you.

Our bus trip was cancelled due to bad weather Wednesday. However, twenty three residents enjoyed a movie, "Country Cyote Goes to Hollywood". It was a very enjoyable movie. Pop-corn was served.

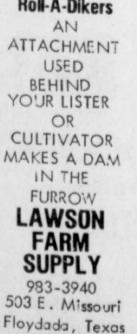

We have three new residents. Mr. John Lloyd is in Room 8 down the south hall. Mr. Lloyd has been a resident here before. Mr. and Mrs. Walter Newell of Floydada live in Room 9 down the north hall. Be sure to visit with these residents when you visit our home.

BRENDA JACKSON was recipient of Outstanding OEA Chapter Member. Sponsor Janet Milam made the presentation during Tuesday night banquet.

HONORARY OEA membership is being presented to J.E. Waller by Betty Gonzales during Tuesday night banquet.

"April Showers" was the theme Tuesday evening of the OEA Employer Appreciation Banquet. Sixteen OEA students of Floydada High School, their employers, and school officials attended the event in Massie Activity Center.

Brenda Jackson, chapter president, was singled out as outstanding student." Advisor Janet Milam explained that the selection was based on effort during fund raising projects, in-class performance, and endeavors at the students' work station.

Special certificates were given by Miss Milan to a trio of two-year OEA students: Betty Gonzales, Doris Robinson, and Shandra Young. An honorary life membership was presented to J.E. Waller. The certificate was handed to Waller by Betty

Gonzales. Brenda Jackson also was recipient of a gift certificate for leading a fund-raising project.

What Does Easter Really Mean?

EASTER - that beautiful day which the Church and Christians celebrate around the world will soon be here. BUT WHAT DOES IT REALLY MEAN TO US TODAY?

To some, Easter only spells fashions-new clothes and bonnets. To others, Easter is an exciting search for bunnies and colored eggs that have been hidden somewhere in a yard or a park. Still to others, it is just another day to read Sunday comics or to have a reunion dinner with relatives and friends whom they have not seen for a long time. Others even think it is a time to go to church and display their new garments which they have purchased for this special occasion.

These things are all good in their own way, yet, is this

the real Easter Message, "CHRIST IS RISEN INDEED." Matthew 28:6 says, "HE IS NOT HERE, FOR HE IS RISEN, AS HE SAID. COME SEE THE PLACE WHERE THE LORD LAY." Yes, this is the real meaning of Easter. THE TOMB IS EMPTY! THE STONE HAS BEEN ROLLED AWAY! CHRIST, OUR LORD, HAS RISEN AS HE SAID HE WOULD

Lighthouse Electric Cooperatives, Inc., P.O. Box 580, Floydada, Texas, 79235, proposes to construct 19.5 miles of 69 KV line in Floyd County and 3.5 miles of 69 KV transmission line in Hale County. Two new distribution substations are planned in Floyd County, near Cedar Hill and Starkey respectively. One new distribution substation is proposed north of Memphis, Texas, in Donley County. Another new distribution substation is planned near the Finney community in Hale County. Improvements on existing South Plains substation in Floyd County and Petersburg substation in Hale County are also proposed.

These facilities along with 146 miles of associated distribution line are required for the Cooperative to provide service to an additional 731 consumers that it will be serving and to improve service conditions and reliability of service to the existing consumers. The transmission line will conform to R.E.A. specifications and will consist of single pole structures carrying three energized wires and one ground static, and is similar to existing facilities owned by the Cooperative.

Any person having questions regarding these proposed facilities should contact Lighthouse Electric Cooperative before May 23, 1979.
