KEEP ON PUMPING — Jan Thayer, one of 29 Floydada residents who participated in the blood drive held from 4 until 8 p.m. at the Chinese Electric headquarters.

New Doctors?

Two Possibilities Loom

Floydada has another doctor prospect... hopefully!

Dr. McClung, administrator of Caprock Hospital, told Hesperian late Wednesday that "prospects are awfully good" that Dr. Hong will establish a general and family practice starting early in July.

Dr. Hong announced his plans Wednesday to move his family to Floydada. However, no contract has been signed.

Dr. Hong is a Korean native and his wife is a nurse. They were honored Tuesday at a reception, hosted by the Women's Division of the Chamber of Commerce in the lobby of Caprock Hospital.

ANOTHER 'PRIME' PROSPECT TO LOOK

"Chances are excellent for yet another doctor," Mrs. McClung said. A general practitioner, who presently resides in another West Texas town, is due to visit Floydada Saturday.

He is "extremely interested" in a Floydada practice.

BEING 'IMPRESSED'

Dr. Hong is senior resident at Jamaica Hospital in New York City.

The 36-year-old doctor and his wife are parents of two children, Sue, 7½, and Daniel, 3½.

Commissioners Adopt Revised Plan For Jail

Meeting in special session Tuesday, the Floyd County Commissioners Court rejected all bids opened March 29 for improvement of the county jail.

The county governing body then instructed architect Marvin Stiles and Stiles in Lubbock to proceed with architect work on revised plans. A rough draft of these plans were approved last week by Robert O. Viterna, acting executive director of the Texas Commission on Jail Standards.

County Judge Choise and Stiles flew to Austin Wednesday of last week to show a rough draft of the revised plans to Viterna.

Stiles told the Floyd governing body that he anticipated two months would be required to complete the architectural design and another month would be needed to seek bids.

Who Is Floydada's 'Outstanding Mother'?

Floydada will salute a "special mother" this Mother's Day.

The woman selected as Floydada's Mother of the Year is to receive a plaque and a long stem rose.

An anonymous committee will choose the honoree May 10. This date is the Thursday prior to Mother's Day.

The Retail Trades Committee of Floydada Chamber of Commerce is sponsoring the salute to mothers.

The public is encouraged to nominate their moms for the honor. In 25 words or less, persons should explain why "my Mom is the best in the world!"

Nominations may be left with Floydada merchants, Noon Thursday, May 10, is the deadline.

The Mother of the Year will be picked that afternoon.

OLD SETTLERS EVENT

During its Monday morning meeting, the Retail Trades Committee also decided to give a personalized belt free during Old Settlers. Persons 18 years and older are invited to register for the belt, which will be given during a Saturday afternoon, May 26, drawing.

Carrol Sims of Dyson's Shoe Shop is to make the belt. The name will be placed after the winner is determined.

Registration will be held through sponsoring firms, who are to be announced in the near future.

MEMORIAL DAY CLOSING

Most Floydada merchants are to be closed Memorial Day.

Attending the Monday morning committee sessions were Randy Hardin, Sue Williams, Bob Gilliland, Lance Barrow, and Carolyn Fuqua.

The citizens airport fund grew another \$100 Monday. Chairman Tom Farris says this leaves the fund within \$125 of its \$7,500 goal.

Anyone wishing to contribute to the airport improvement project should contact Farris at First National Bank or another committee member.

KETTLE BOILING

Floydada's kettle is boiling! Could there be a new payroll and a new doctor in our future?

SATURDAY ENTERTAINMENT

Several persons say they like the idea of having Saturday evening entertainment in downtown Floydada during summer months.

Let's get the ball rolling!

PHENOMINAL

From this viewpoint, attracting 102 persons to make the Chamber of Commerce sponsored trip to see a Dallas Cowboys football game in September is amazing.

The fact that this was done in little over a week — five days, I believe — makes the feat phenomenal.

COMPLIMENTS AND PERFUME

Compliments are like perfume. They should be inhaled, but not swallowed.

FHS Trio Seeks State Honors

Competition Friday, Saturday In Austin

Floydada High has four chances to gain state honors in UIL competition this Friday and Saturday. Austin is the site.

A trio of FHS students have qualified for state. Becky Crabtree will be vying in poetry interpretation. Kim Curry is seeking honors in two track events — discus throw and shot — and Rosemary Barnes will be a triple jump participant.

POETRY EVENT

Miss Crabtree, a FHS junior and daughter of Mr. and Mrs. Kay Crabtree, won the District 4-AA poetry interpretation event April 7 in Abernathy and placed third April 21 in Region 1 competition in Lubbock as she progressed down the road to state.

The FHS junior is to give two of the three following poems: "Pied Piper of Hamelin," "Victor," and "Nellie Myers."

Her advisor, Diane Lewallen, says contestants will draw for categories and this will determine which readings the local student presents.

TWO EVENTS

Kim Curry carries Green and White hopes to Austin in two events. The Whirllette athlete established a new Region 1 record when she

threw the discus 124'5". She also won the regional shot put event with a toss of 40'3½".

A daughter of Mr. and Mrs. Johny Curry, the all-around

FHS athlete also claimed first place in both events during district trials. She has been defeated only one time this season in each event.

Miss Curry is no stranger to the winner's circle. She also

She will be assisted by Kathy Kellison, vice president; Cheryl Bradley and Reeda Smith, yearbook chairmen; Kay Martin, secretary; Janette Workman, treasurer and Sandy Adrian, reporter.

NEWS 'N' NOTES

(by Sharon Hillis)

REPAIRING CRACKS IN CONCRETE SIDEWALKS

If small cracks in sidewalks are becoming larger or uneven surfaces dangerous, follow a few easy steps to repair them.

To begin repairing cracks in concrete sidewalks, obtain the following:

1. Packaged ready-mix mortar.
2. Epoxy concrete-"clear" type for narrow cracks and "gray" type for wide cracks and concrete breaks.
3. Wire brush.
4. Pointed trowel and pair the cracks.
5. Heavy-duty paint brush.

Follow these steps to repair the cracks:

1. Caution--repair only when concrete is dry.
2. Chisel out the crack or hole wide under the surface.
3. Clean the concrete surface thoroughly with the wire brush.
4. Mix a batch of mortar according to the direction on the epoxy container.
5. Using the trowel, put mixture into the crack.
6. Using the wood float, smooth the mixture even with concrete surface.
7. Clean the tools immediately with paint thinner.
8. Work fast--most epoxies will harden in an hour. If the patch should harden before the operation is completed, apply a second coat and

smooth the surface again. For big cracks, spread the mixture over the full width of the crack until the level of mortar is slightly above the concrete surface.

Athena, El Progreso

Clubs Enjoy Fellowship

Sixteen members of the Athena Jr. Study Club met in the home of Karen Koonsman, Thursday, April 26. Nine members of the El Progreso Study Club came as guests. An evening of fun and sharing was enjoyed by all.

The evening began with a devotional given by Sally Carthel on "Lighting A Candle In The Dark."

Jill Golden and Barbara Mather introduced a fun evening with a clever get-acquainted game. Each woman described herself with one adjective beginning with her first name initial, and then told briefly why she came to Lockney. The ladies shared experiences in their lives that had taught them a lesson. Some of the lessons learned over the years were: Learning to really listen to people; Learning to acknowledge a mistake; Realizing that God never gives us more than we can bear; Most people are likable if we really take the time to get to know them. There were others, too numerous to mention. Everyone was enriched by the sharing experience. Exchanging favorite home remedies was another part of the program. It seems that the lemon has the most versatile uses in home remedies, or it was mentioned often.

The El Progreso members were presented mementos

which were given by the Athena Jr. Study Club. These mementos were given to the El Progreso members as a token of appreciation for their participation in the evening.

The evening was a success and all enjoyed the fellowship and sharing of experiences. The ladies will meet again in the future.

On How To Stretch Beef Dollars

spending money saved on costly items such as out-of-season or exotic produce, gourmet spices, sauces or frozen items in rich sauces. Determine costs of adding fresh, frozen or canned vegetables to stews. Read labels of all foods for costs per serving. Store brands and unlabeled brands of canned goods may carry best prices. Figure how to use more nonfat dry milk and pastas in the menu.

* Make better use of freezer space with advertised or unadvertised specials on beef for future use.

Store prepackaged beef in original wrapper from one to two weeks. Longer storage in the freezer requires overwrapping in moisture-vapor-proofed wrapping.

The freezer also provides a better way to save leftovers for later use.

* Protect valuable beef with proper home storage in the meat compartment or coldest part of the refrigerator.

The refrigerator should keep food 40 degrees F. or below. Store beef in its original wrapper one to two days in the refrigerator.

* Money-saving meat cookery depends on low to moderate heat whether roasting, braising, broiling or cooking in liquid. High heat causes meats to shrink and lose the natural juices.

* Cook the beef by the recommended method for the various cuts of meat. Cook

tender cuts from the rib and loin by dry heat.

Round, chuck, shanks, brisket, short plate and flank—less tender and more economical cuts—require the addition of liquid for simmering or braising.

If marinated with an acid mixture such as vinegar or lemon juice or mechanically tenderized by pounding, these cuts can be satisfactorily roasted, broiled, pan-broiled or panfried.

* Use only reliable recipes which require economical ingredients. Failures with expensive ingredients can be devastating to the budget.

Use less tender cuts of beef in tasty casseroles, hearty stews or chowders mixed with rice, beans or pastas to stretch the great beef flavor.

* Quick and easy recipes help save time and money.

Use ground beef—it's economical money- and time-wise. Double recipes preparing half for the freezer and make at-home convenience foods.

Save cooking time on pot roast by cutting it into serving sized pieces—smaller portions of meat cook faster.

Leftover beef and beef casseroles store in the refrigerator. Eat them later or use as an ingredient in casseroles or soups.

* Beef provides a high-quality complete protein, iron and all B vitamins.

Eating two and one-half to three ounce servings of meat group foods daily will provide the recommended amount of meat group nutrients.

Floydada Man's Mother Celebrates

98th Birthday

Mrs. Lena Moore has done what is rather unusual in that she celebrated her 98th birthday on April 20, 1979. She was born to Asa Franklin and Mary Ann Eades on April 20, 1881 in a log cabin in Garland County, Arkansas.

She was the twelfth child in a family with thirteen children. She is the only

surviving member of her family. There were twelve girls and one boy in the family.

For family entertainment in her early years one of her sisters played the accordion while the other family members would gather around and sing. The family attended singing school in a group.

She was converted at the age of 17 and joined the Baptist church. She was baptized in a creek in Arkansas. She is presently a member of the First Baptist Church of Crosbyton.

Mrs. Moore has had the rare opportunity to do some things which few people today have ever done. She and her sisters used a loom and spun their own material. She has ridden in a covered wagon and she took her first airplane trip at the age of 97.

Mrs. Moore was attending school in her earlier years, the school terms were only three months during the year. She attended school until the day before she married at the age of 21.

She and Charles Henry Moore were married Nov. 12, 1902 in Garland County, Arkansas. To this union was born five boys and four girls. Two of her daughters and one son are deceased. Mr. Moore died March 30, 1955.

The Moores moved to Texas on Nov. 16, 1926. They farmed on the East Plains until they moved to Crosbyton on Dec. 14, 1946. She still maintains the same home since 1946 and continues to do her own housework even today.

Her daughters are: Gertie Ratheal and Bonnie Lee Flemings both of Crosbyton. Rosa died when a child and another daughter, Myrtle Gerlach of Littlefield, is also deceased.

Her sons include: Ola and Arvis both of Crosbyton, Doyle of Floydada and Reed L. of Ralls. Another son, Frank, is deceased.

Mrs. Moore was honored with a 98th birthday celebration on Sunday, April 22 at the Senior Citizens Building with 74 members of her family present for lunch. Several friends called in the afternoon and enjoyed birthday cake.

She has seven children, 20 grandchildren, 31 great-grandchildren and seven great-great-grandchildren.

Attending from Floydada: Doyle and Sue Moore; Vernie Moore and daughter Shayla; Randall Moore of Dallas, and Carolyn Moore of Lubbock, both formerly of Floydada; Mr. and Mrs. Arnold Ratheal, Rodney Ratheal, and Mr. and Mrs. Joe Womack.

TEENAGE SMOKING

One million teenagers start smoking every year. To be one of the gang? To look like an adult? To defy parents and teachers? To take risks? To seek pleasure?

According to studies included in the new Surgeon General's report on smoking, children, usually between 4 and 10, take quite literally the dangers of smoking. They are especially worried if their own parents or older brothers or sisters smoke. But as many of these same children begin smoking themselves...

Smoking is forbidden to young children. It is adult behavior; and smoking announces to the world that the teenager has left childhood far behind. Younger adolescents, some investigators have found, live almost completely in the present and are not preoccupied with the future or its dangers. Since they see that people around them who smoke do not die instantly or may not show any apparent ill effects from smoking, that's enough evidence for them.

Everyone, including teenagers, is bombarded by cigarette ads; and teenagers are especially influenced by hip images projected by young adults in the ads. Peer pressure as well as the behavior of people older than themselves, including other family members, have an impact on teenagers. The percentage of teens who smoke is higher when one parent smokes — compared to teens with nonsmoking parents — and still higher when both parents smoke.

If an older brother or sister as well as both parents smoke, the chances are four times higher that the teenager will smoke than if there are no smokers in the family.

capitol comments

Despite the marathon debates in the House on the appropriations bill this week, the House has moved along on other legislation. We've dealt with production of alcohol as fuel (H.B. 1986 and H.B. 1803); limits on alien ownership of land (H.B. 431); mandatory automobile liability (H.B. 22); allowance of petitions for the consolidation of school districts (H.B. 1058); and school discipline bills such as H.B. 8, which spoke to the issue of more restrictions on abusive or disruptive students in public schools.

Extended day and night sessions on the floor of the House have kept me out of my office in the capitol much of the time in recent days. However, if you have questions or need immediate help with any department in state government, you can always get a message to me. Several constituents needed assistance this week in dealing with state agencies. I'm always glad to do what I can.

As a general rule, I've found the state agencies to be cooperative and helpful in answering questions and taking necessary action. Some agencies, of course, have outlived their usefulness or have failed to serve the public properly. They are subject to the Texas Sunset Act and, unless continued by legislation, will be abolished either this year or in following years.

The frustrating thing for private citizens is trying to find the way through the bureaucratic maze of state boards, commissions and agencies. It's difficult at times to determine who handles what. Here is a good toll-free number to record in your personal telephone directory: 1-800-252-9600. This is the Citizen Assistance office in the capitol.

Floydada Nursing Home Happenings

We have really had some nice devotions this week, with a large number of residents out each morning.

Monday afternoon Anis Franks, Mamie Gray, Victoria Asher, Myrtle Ray, Docia Manning, Willie Stambaugh and Juanita Bailey and I worked on wishing wells. They were made from baby food jars and clothes pins.

Victoria Asher shared her skillet cookie recipe with us this week. We hope to make some before too long.

We would like to thank Mrs. Jewell Price for the delicious lemon pound cakes. The residents enjoyed one for supper Monday night.

Mrs. Jessie Freeman, Emmit Lawrence, Green Bostick and Juanita Bailey enjoyed a visit with Corkey Marshel from Lubbock Tuesday morning. Corkey grew up with Jessie's children in Roaring Springs.

Those enjoying the bus trip to Matador Wednesday were Juanita Bailey, Green Bostick, Docia Manning, Anis Franks, Mollie Jones and Victoria Asher. Albert Martin had a headache and didn't feel like making the trip. We visited with several friends and relatives of the residents while in Matador.

Thursday afternoon Revis Pernel and Pat Cates of the Alpha Mu Delta Sorority hosted a bingo party in the dining room for our residents. Cookies and punch were served to all residents along with party favors of candy sacks.

Bingo winners were Hallie Bertrand who won a catch all box, Albert Martin and Ray Reed, who won a handkerchief each. Juanita Bailey won stationary. Susie Mooney won a pair of slipper socks, and Anis Franks won two bars of scented soap. Everyone really had a nice time and we thank these girls very much for their love and time. Friday afternoon the residents enjoyed a movie, "Dan Nature Adventures," which was a very delightful movie.

We will miss a dear resident, Mrs. Lydia Patrick of Matador, who had not been with us long but whom we loved. We extend our deepest sympathy to her family.

We have a new resident, but an old and dear friend, who lived with us a short time back. Mr. Alma Eubanks is living in room eight down the north hall. Come out and visit with him.

Thanks to our visitors: Rena Barris, Ola Mae Sullivan, Clara Redd, Ruth Hill, Dorris Tobin, Jewel Lawrence, Corky Marshall, Evelyn Crull, Doris Snodgrass, Sherry Colston, Hazel Bradley and Kim, Cora and Thanie Smallwood;

South Plains News

Cotton showers here Friday, Saturday and Sunday nights left just a little precipitation, but Saturday night in a few places one quarter to three tenths rain fell, which is wonderful at this time of year. Cold temperatures of 40 degrees and around 46 degrees this Monday morning kept us all shivering in

homes where we had turned off the heat, and had used air-conditioning a few days. Not many farmers have started their cotton planting, but most of them are finishing their irrigation preparatory to cotton planting.

... spent this Monday at South Plains visiting her sister-in-law, Mrs. Arby Mulder, and having dinner and spending the day with her.
 Rev. and Mrs. Nathan Mulder and children are home after they were in a revival service over the weekend at their Faith Baptist Church in Wellington, where Nathan is pastor.
 The Area Baptist Missionary Day will be held at the Plains Baptist Encampment Tuesday May 1, with registration beginning at 9:30 a.m. Luncheon will be served at noon, and guest speakers

will be with the women during the days meeting. Those planning to go from the South Plains Baptist Church are Mrs. Mamie Wood, Mrs. Fred Blake, Mrs. Tillman Powell and Mrs. M. M. Julian.
 Those celebrating birthdays and anniversaries from South Plains in May are Tracy Lee Johnson, May 9; Barbara Sue Edwards, May 12; Zacha C. Gregory, May 17; Frank McClure, May 22; Fred Blake, May 28; Brittany K. Gregory, May 29; Letha Mulder, May 29; and an anniversary on May 22 is that of Fanny Bell and Frank

McClure. Congratulations and best wishes to all.
 Monday, May 14, at 7:30 p.m. there will be an Associational Youth Rally at the First Baptist Church in Spur, and on Tuesday, May 15 the Associational Baptist Conference will be held at the Cone Baptist Church, with Emphasis on "Christian Home."
 We extend sympathy to Mrs. Raymond Teeple (Sybil) in the death of her husband, Raymond, who died Sunday evening in Methodist Hospital in Lubbock after many weeks of illness, and being in the hospitals in Plainview and Lubbock. The services are to be held at the First Baptist Church in Silverton at 2:30 p.m. on Wednesday, May 2.
 Shawnda Sanders, daughter of Mr. and Mrs. Curtis Sanders, became ill suddenly Friday afternoon, and was taken to Nichols Hospital in Plainview where she underwent an emergency appendectomy. She is getting along fine, and the doctors allowed her folks to bring her home Sunday afternoon. Shawnda was to be in a musical graduation recital at the First Baptist Church in Lockney Sunday afternoon at 2:30. She and six others are students of Elaine Hardy of Lockney. Shawnda will have to be out of school all this week, but we hope she can be back in school next week.
 Mr. and Mrs. Harold Ham went to Arlington last week where they visited their youngest daughter, Mrs. Robt. Michael Berkes and husband and helped in celebration of Arlain's birthday.
 Philip Smitherman came home last Sunday for a short visit with his wife Mildred and other members of his family. He has been stationed with an oil drilling rig out from Mexico City. He planned to be home about a week with his family, and left by plane Sunday morning.
 Mrs. Sylvin Kinnibrugh and granddaughter, Melissa Horne of Plainview, left Friday to spend the weekend in Vera and Truscott with relatives.
 Mrs. Alvin Nichol's brother, Johns Cox, who has been in the Central Plains Hospital in Plainview, was taken home last Wednesday, and is doing well at this time.
 John Cummings, son of Mr. and Mrs. Sterling Cummings, placed 4th in the Regional Track Meet in Lubbock Friday in the 1-AA class. Congratulations to you John.
 Mrs. Rigdon, of Lockney, grandmother of Mrs. Zach Cummings of Canyon, is very ill at this time, in Methodist Hospital in Lubbock.
 Hobby Club members will meet on Wednesday, May 9, at 2 p.m. at the home of Mrs. Keith Marble with a program on Plant Exchange. Mrs. J. P. Taylor will be demonstrating Flower Making, and Roll Call will be "How to care for the plant you brought to the club."
 Services for former South Plains resident, Lee Pearson, 93, of Truth or Consequences, New Mexico, were held at Lockney at the First Baptist Church with Rev. Fred Blake, pastor of the South Plains Baptist church preaching the funeral, with Rev. John Jenkins of Lockney, assisting. Interment was in the Lockney Cemetery. Lee Pearson had been ill for some time, and had been in Waco, but was in Scott and White Hospital at Temple when he died Tuesday night. Funeral services were at 10:30 a.m. Friday morning at Lockney.
 Zach Cummings, son of Mr. and Mrs. Sterling Cummings received the outstanding Plant Science Award at the Ag. Banquet held at West Texas University in Canyon on Saturday evening. Zach also set a new Wayland Meet record in the high hurdles, with a 13.88 last Friday night. Congratulations and best wishes to him.
 Mr. and Mrs. Sylvin Kinnibrugh and other members of her family from Plainview, Mr. and Mrs. Teddy Horne and Melissa will go to Gilliland Tuesday for the funeral services of Teddy's grandmother, Mrs. O. W. Welch, of Gilliland, who died Monday day morning after a long illness. Final plans for the funeral are pending at this time, but services will be Tuesday. Mrs. Welch was in the hospital at Knox City.
 Mrs. Ruby Higginbotham arrived home Sunday evening, after spending the past week in Cloudercroft, New Mexico, as the guest of Mr. and Mrs. John Wilson. They had left last Tuesday. They came home for Mrs. Wilson to be with her father, Menard Field, who is going to have surgery in Lubbock this week for gall bladder. We wish a complete recovery for Mr. Field.

Postal Service To Implement Mail Size Standards In July

Size standards for envelopes, cards and other pieces of mail become effective July 15, 1979. A seven cents surcharge for oversized and odd-shaped pieces of mail takes effect the same day.

Both the surcharge and the effective date for implementing size standards were adopted by the Postal Service's Board of Governors at its April 3 meeting. The new size standards were recommended to the Postal Rate Commission in April, 1976, and adopted shortly after that by the Service's governors. It was stipulated that they would not become effective until after the spring of 1978, giving customers at least two years to prepare for the change and exhaust their supplies of non-conforming envelopes and cards.

After July 15, pieces will be **non-mailable** if they are less than 3 1/2 inches high, 5 inches long, or seven thousandths (.007) of an inch thick.

The seven cents surcharge will be applied to first-class mail weighing one ounce or less and single piece third-class mail or two ounces or less that exceed any of the following dimensions:

- * 6 1/8 inches high
- * 11 1/2 inches long, or
- * 1/4 inch thick.

ODD-SHAPED PIECES

Also subject to the surcharge are odd-shaped pieces within the weight units noted above. The acceptable size ratio for

such pieces is: length must be between 1.3 times and 2.5 times the height.

There are certain exceptions to the minimum size prohibition. If a piece is more than 1/4 of an inch thick, it does not have to measure at least 3 1/2 inches high or 5 inches long since thicker pieces, such as film mailers, can be mechanically culled. Also exempted — from all but the minimum thickness standard — are keys, identification cards and tags.

Postmaster Ed Wester said this all sounds complicated but actually "the public has very little to worry about because manufacturers have known this since 1976 and have had time to get rid of odd size envelopes. Occasionally, we find 'thank you notes' that are under size, so make sure you don't buy old stock in July. Churches and clubs try to create something different and attractive to catch the eye, so they must be careful, as three-pointed designs are out for mailing."

Wester adds that the mailing public is always in a hurry to mail and will cram anything in an envelope to get it off, when actually the envelope is too light to afford any protection and should be mailed in a small box. The surcharge is for something like this that takes special handling when it gets in the mail. "It can be avoided by the mailer, if he wants to," the postmaster stated.

Call the Post Office if you have any type of large mailings that you think may require a surcharge.

Rabies Clinic Slated May 10

A rabies clinic, sponsored by City of Floydada and assisted by Floydada FFA Chapter, is scheduled from 4 until 5:30 p.m. Thursday of next week, May 10. Floydada fire station will be the site.

Due to inclement weather during the last rabies clinic, Dr. Charles Overstreet is planning a second clinic "to vaccinate as many of the dogs and cats of Floydada and community as possible."

Dr. Overstreet points out that "since there have been some animals with rabies (a rabid skunk was confirmed at Dougherty), it is very important that as many of the pets be vaccinated as possible" for the protection of local residents and their pets.

TRIPLE JUMP

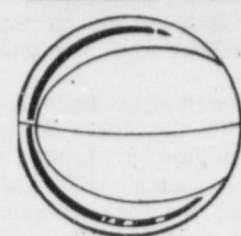

Two of the three FHS state finalists are junior students. Rosemary Barnes, a talented junior athlete, has scored track points in several events this year and earned her ticket to the state finals by placing second in the Region 1 triple jump. Her mark was 36'7 1/2".

The tall Whirllette captured the district crown in this event.

Miss Barnes is a daughter of Mr. and Mrs. Aslee Barnes.

Misses Curry and Barnes own schools records in their respective specialty events, according to Whirllette track coach Daniel Coward. He guided the track Green and White to a district championship and a fourth place regional finish.

230 LEVEL-ACTION™ DISK
 3-section flexibility with hydraulic fold

Three-section flexibility makes this disk an ideal match for rolling land; it can follow three separate ground contours in each pass. Choose working widths from 20 to 25 1/2 feet. Overlapping front gangs cut away the center ridge most disks leave under the surface. Offset rear gangs pull in the same amount of soil front gangs throw out — and spring-loaded scrapers keep blades working. An exclusive self-leveling hitch puts up to 100 percent working weight — 95 to 120 pounds — on every blade.

electric heat pump

heats

The electric heat pump is a remarkable device that uses about one half as much electricity to heat your home as a conventional electric heating system. This means substantial savings on your winter heating bills.

cools

Operating costs for summer cooling are about the same as conventional central air conditioning systems. During summer a heat pump works like a regular air conditioner. A blower pulls hot air from the house and passes it through a filter to remove dust and dirt. The air then flows across a cooling coil to cool and de-humidify the air. It then moves through ducts to all rooms in your home.

conserves energy

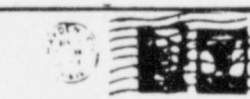

During winter months this cycle is reversed. For the heating cycle, the heat pump does an unusually efficient job. The only electricity it uses is to run the fan and the compressor. This is why heating costs are dramatically lower. Heat is removed from outdoors and pumped inside to heat the house. This is the feature that surprises most people, until they realize that there is always some heat in winter air.

saves money

Original installation costs for a heat pump are usually slightly more than for separate heating and central air conditioning systems. But depending on your installation, costs may be about the same — or even less than for separate systems.

A properly engineered heat pump . . . large enough to do the job . . . will mean important savings to you.

Sunday, my children — all but Clyde — came home and decided for me to go home with Margaret and Doc, so here I am in Hubbard Hospital, feeling better. But I probably won't be home before June.

There are two graduations coming up around here I plan to attend for grandchildren, one high school and one university.

So if you wish a substitute writer maybe it can be Mrs. Bobby Kozby, who served beautifully over two years ago.

I am grateful for the company, prayers, phone calls, cards and flowers and for the kind and efficient help in Caprock Hospital. I hope to see all later.

A simple "Thank You" seems inadequate to express my sincere appreciation for the many ways you chose to show your concern for me during my stay in the hospital, and since I have been home. The cards, flowers, calls and food, have made me feel very humble and so proud to have friends such as you. May God bless each of you.
