## Commissioners Defer Child Welfare Board; Approve Detention Contract

The Floyd County Commissioners in regular session last week deferred action on establishing a child welfare board for the county, Judge Choise Smith reported.

While the project has support in the commissioners court, the members decided to put off a final decision until further study could be completed. Judge Smith said that the commissioners may take another vote today.

Boyce Mosley, along with Mr. and Mrs. Jack Gibson, Bill Sherman, Bill Gardner and Regie Euer, of the Texas Department of Human Resources, presented the proposal and 56 letters from concerned Floydada residents to the court.

Lloyd Watts, of the Lubbock Juvenile Department, appeared before the commissioners to explain the new juvenile detention center to be built in Lubbock. The commissioners agreed to sign a contract with the Lubbock facility.

Floyd County will be allowed one slot in the detention center. Funding will come from Community Assistance funds. The cost for the use of the center will be \$14 each day, whether there is a juvenile in the center or not.

The court also accepted a bid from Hammonds Sheet Metal to install heating and air conditioning in the county courthouse. Work on the \$60,000 project was scheduled to begin immediately, with completion expected in 60 to 90 days.

The commissioners unanimously approved a motion by Aaron Carthel to accept the Baker Insurance Co.'s proposal to insure the radio dispatch tower and equipment as well as the radios in the Sheriff's Department vehicles at a cost of \$400 each year.

The tower was insured for \$9,000, with \$100 deductible on each loss. The equipment was insured for \$16,000 with the same deductible.

The Sheriff's radios were insured for a total of \$2,880, or \$720 each, with the same deductible.

Mrs. Janice Lloyd and a group of Friends of the Library met with the

court about a proposal from Lighthouse Electric to sell a building across the street from the Post Office for use as a library. The court took no immediate action on the proposal.

Truett Hutto and Mr. Wright of the Caprock Telephone Co. discussed an easement for crossing county roads and maintained rights of way for underground telephone lines.

The court approved the easement agreement with the stipulation that Floyd County is not in any way responsible for those lines. The buried cables must be at least 36 inches deep.

The commissioners approved a bid by the Quality Body Shop to paint the bed of the old Floydada Volunteer Fire Department truck. Quality set the price for the work at \$426.

The court members supported a motion by Bob Jarrett for the county to pay \$201.49 in unemployment tax for the former Noxious Weed Office employees. By paying the tax, Judge Smith explained, the county is not liable for unemployment claims made by any of the three former employees. The judge noted that no claims had been filed, but the commissioners' action was a precautionary measure. The Noxious Weed Office was voted out of existence early this year.

At the July 5 special session, the commissioners authorized advertisement for bids for construction at the county jail. The bids are scheduled to be opened and read at 2 p.m. during the August regular session, August 13.

The court also agreed to pay Stiles & Stiles \$10,000 for the work drawings and specifications on the jail renovation. The commissioners also empowered the following persons to hold general and special elections at the locations noted:

## Businessmen Discuss City's Growth Potential

Floydada business leaders met Tuesday afternoon with an intent to explore possibilities for new industries in the area.

Melvin Lloyd and Fred [unclear] in the Floydada First Community room with a number of the syndicate members of the Hesperian and John Carroll, publisher of the newspaper.

Most of the conversation centered on local efforts with the state and private sectors.

In a meeting, Carroll also discussed the local print media and business groups to present in a favorable light to persons looking for a

economic and social structure of the city, the availability of rail service to ship raw materials and finished goods and the nearness to large population centers as selling points for the community.

With 95 percent of its commerce related to agriculture, Floydada has kept a steady population in recent years, Thayer said.

"But if you look at the towns that are growing," he added, "you'll see that they're the ones who brought in light industry."

While Floydada has many things on the plus side for attracting new industry, the financial conservatism of the people could deter firms from locating here, the group noted. Many industries

## Floydada Sales Tax Rebate Down Two Percent From Last Year

For the first half of this year, Lockney received a total of \$19,377, compared to \$19,512 for the same period in 1978.

State comptroller Bob Bullock said rebates statewide were running about 10 percent ahead of payments for last year.

The July allocations for more than 900 Texas cities who share in the rebates amounted to \$23.5 million, Bullock said. A total of \$241.5 million was rebated to Texas cities for the first seven months of 1979, compared with \$216.3 million in the same period of 1978.

City sales taxes are collected along with state sales taxes by merchants and other permit holders and are rebated monthly by the comptroller's office.

who wish to relocate also want some type of capital incentive, like land or subsidies, to move into a new city.

The businessmen also discussed the possibility of renovating an existing building downtown or the old railroad depot for use as a plant site.

Work has already begun on applications for grants to locate and compete for new industries.

The meeting produced no dramatic proposals, but the conferees did agree to work closely together to help ensure a continuance of the good business climate in Floydada and the surrounding area.

"If any prospects come up, we're willing to go anywhere and talk to anybody," Thayer concluded.

Floydada's rebate from the one-percent optional sales tax for the month of July brought the payments for the year to date to two percent less than was collected last year by this time.

While the city's rebate payment was \$3,092, a slight increase from last July's payment of \$2,789, the total so far this year is running about \$1,000 less than 1978.

This year, Floydada has received \$44,724 in rebates, compared to \$45,717 to date last year.

The Lockney rebate for July was \$1,341, a drop from July, 1978's figure of \$2,062.

However, the payments for the year to date remain essentially unchanged.

### Correction

Through a typographical mistake in Sunday's Hesperian, Mrs. Jaynette Harrison was inadvertently referred to as Mrs. Ramsey. The Hesperian regrets the error.

## Hereford Grain Station Closes

The official grain inspection service point at Hereford, Tex., is being discontinued, effective July 16, the U.S. Department of Agriculture (USDA) has announced.

Leland E. Bartelt, administrator of

USDA's Federal Grain Inspection Service (FGIS), said the Plainview Grain Inspection & Weighing Service, Inc., Plainview, will continue to provide official inspection services at Hereford on an as-needed basis.

## Floyd History Book Sent To Publisher

The Floyd County History Book was sent to the publisher Tuesday July 17.

Virginia Taylor, chairman of the book committee, said the prepublication book sale has been extended until August 1. Until that date price of the book will be \$25.73, after which the cost will be \$39.38.

The book, compiled by the book committee of the Floyd County Historical Museum, has been titled **Memories**. The manuscript was sent to Craftsman Printers in Lubbock and will be forwarded to Dallas for publication.

## Police Still Investigating Tuesday Shooting

Lockney police Wednesday morning were still investigating a shooting incident which occurred about 11:15 a.m. Tuesday at the Anderson Apartments, located in the 100 block of West Guest Street.

Jessie Soliz, 16, a resident of the apartments, was shot in the right ankle with a 22-caliber rifle. Christino Ortega, 21, also a resident of the Guest-Street apartments, was holding the gun when it accidentally discharged, according to statements given to the police.

Police Chief Bill McConnell said there were conflicting reports about exactly how the shooting occurred, but both Soliz and Ortega said it was accidental. Reports agree that Soliz was standing behind apartment number seven when he was shot.

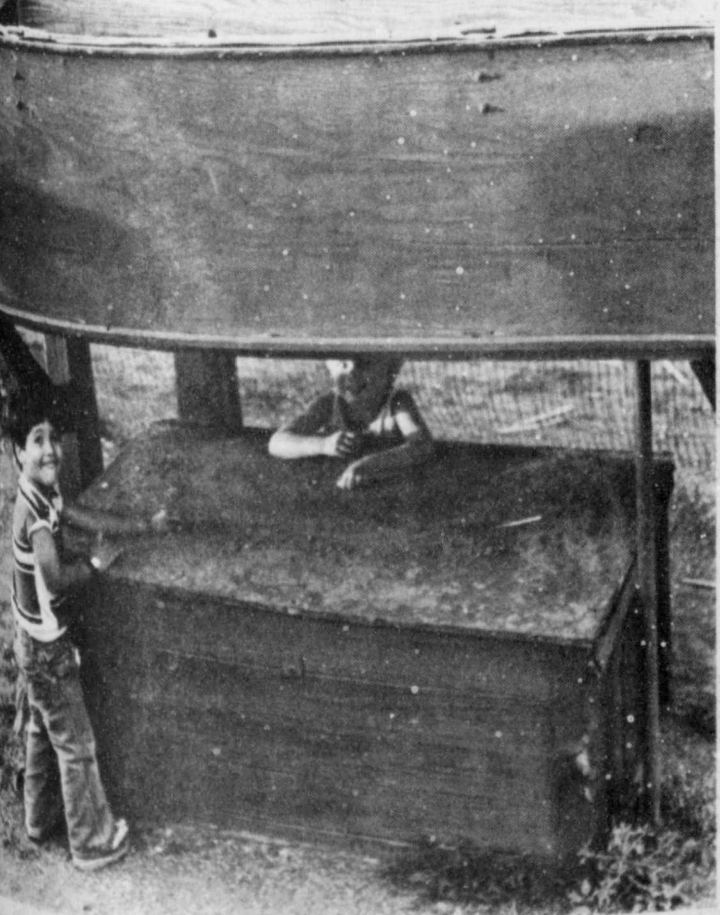

Soliz was treated for the minor gunshot wound and released Tuesday at Lockney General Hospital.

At 10 a.m. Wednesday, no charges had been filed in connection with the incident. McConnell said at that time that the police investigation was continuing "...to make certain it was an accident."

Floyd County sheriff's deputies backed up the Lockney Police Department in the initial investigation of the Tuesday morning shooting.

**LAKE PUMP IRRIGATION** saves money, water and energy. This lake system located on a farm in Blanco community is one of many such alternative methods which

utilized surface water in a county where water is becoming a scarce, and therefore more highly valued, natural resource.

## County Officials Seek Grants For Juvenile, Adult Probation And Jail Fire Safety Equipment

A small group of Floyd County officials, headed by county judge Choise Smith, traveled to Austin last week to seek funding for local projects.

While attending a tax meeting with county tax assessor-collector Jonelle Fawver, Judge Smith took time out to accompany Bill Hendrix, the juvenile probation officer, on a visit to the Texas Youth Council to try to get funding for a permanent juvenile officer for the 110th Judicial District.

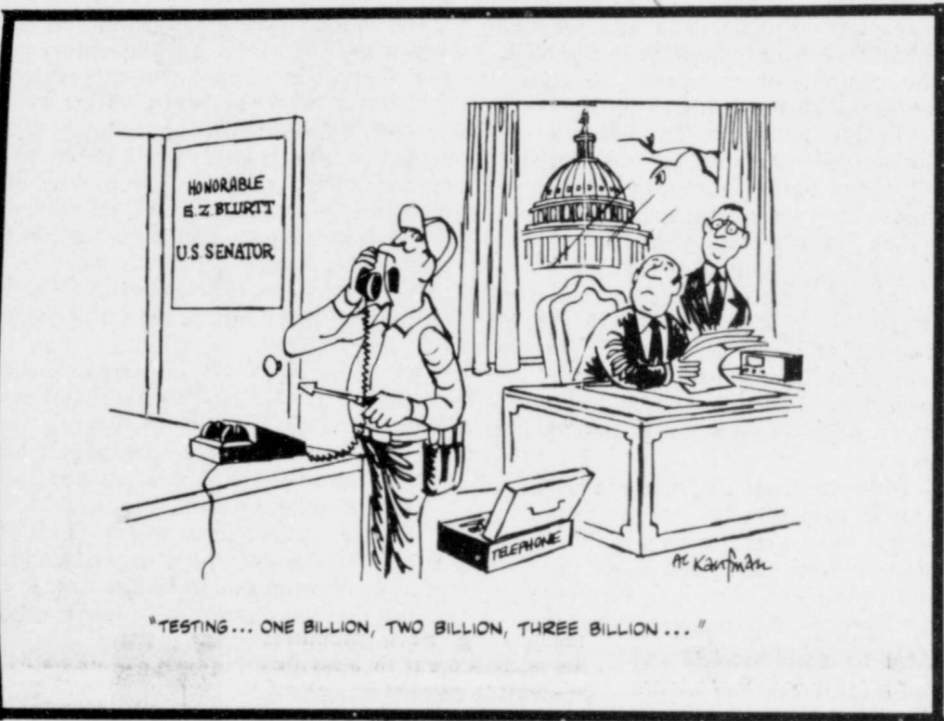

Judge Smith also approached the Adult Probation Commission to try and get another probation officer for those duties. While no definite commitment was made, Judge Smith noted that it was "in the making."

The judge also met with representatives of the Texas Jail Standards Commission and the Criminal Justice Commission to explore the possibility of getting a grant for life-safety equipment for the jail.

Fire and smoke alarms, extinguish-

ers, lights, a communication system and a smoke-proof evacuation tower were all high on the judge's list of priorities.

Judge Smith estimated the total cost of the lifesaving improvements at slightly more than \$50,000.

## Floyd County Farmers Use Lake Pump Irrigation To Save Money And Energy

Many Floyd County farmers are saving money, energy and underground water supplies by making use of lake water irrigation.

Above average rainfall during the late spring and early summer months (some 10 inches in June alone) filled most area lakes to capacity.

The availability of surface water for irrigation purposes is welcomed by most farmers because it provides a method for watering crops that nets definite monetary savings. Estimates on savings vary because cost of fuel and other expenses depends on many variables, such as the type of motor and size of pump involved.

Estimated cost per month to run a 6 inch, 400 gallon per minute under-

ground irrigation well on natural gas is about \$1,500 plus (figured at \$2 per hour, 24 hours a day). Operating expense for a 30 h.p. four inch submergible with a 350' lift and pumping approximately 250 gallons a minute is estimated at \$500 per month.

Comparatively, one area farmer who is using a 292 Chevrolet six inch lake pump, pumping 1000 gallons a minute and fueled by 38-cents-a-gallon butane, is estimated to run in the neighborhood of \$1,368 a month. Monthly operational expense estimate for the same farmer using a four cylinder Leroy motor from an old combine, using about two gallons of fuel per hour and pumping about 800 gallons a minute, is \$545. Savings in this instance are evident in the amount of water pumped — 800

—1000 gallons as compared to amount in cited underground well. Additionally, the lake pump is tied up in equipment, while the irrigation as compared to the lake pump is valued at approximately \$20,000 and three wells entail a \$30,000 investment. Late replanting as a result of amounts of rainfall and the number of farmers who have the right age for each crop rains continue, many farmers all, but for those who have availability provides a...

## Rabies Cases Increasing Statewide

A single case of animal rabies was confirmed in Floyd County through the first six months of 1979, according to the Texas Department of Health.

The one case discovered in Floyd County this year showed up in a skunk. Another case, this one dog rabies, was reported in Dickens County, the other member of TDH's Region Two.

Through the first six months of 1979, the TDH reported, the rabies total statewide reached 613 cases. Last year's complete total was only 563 cases.

Three children from the Eagle Pass - Piedras Negras area on the Rio Grande have died from rabies, the first outbreak of natural exposure in Texas since 1962.

The 1979 mid-year total passed the full year figures for every year since 1961, when 658 cases were reported.

The record year, since statistics have been kept, was 1953, when 1,325 cases were reported.

Though Floydada is far from the center of the epidemic, some exposure can be expected. Mayor Parnell Powell urged pet owners to have their animals vaccinated and to keep them leashed or penned. Children should be warned against playing with unfamiliar animals. Any animal acting strangely should be reported to the police or the county sheriff's department.

## Floyd Philosopher Takes

### A Dim View Of The New

### Susan B. Anthony Quarter-sized Dollars

Editor's note: The Floyd Philosopher on his Johnson grass farm takes a sidelong glance at the new dollar this week.

Dear editor:

One trouble with Washington these days is that there doesn't seem to be very many people there who can think further than one week ahead.

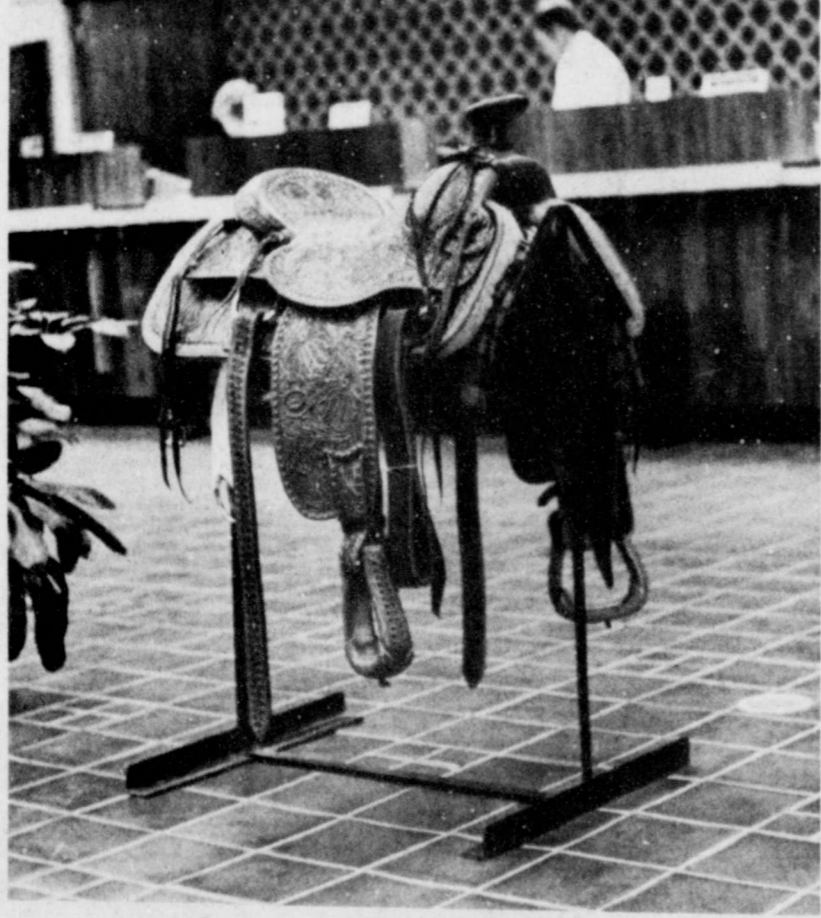

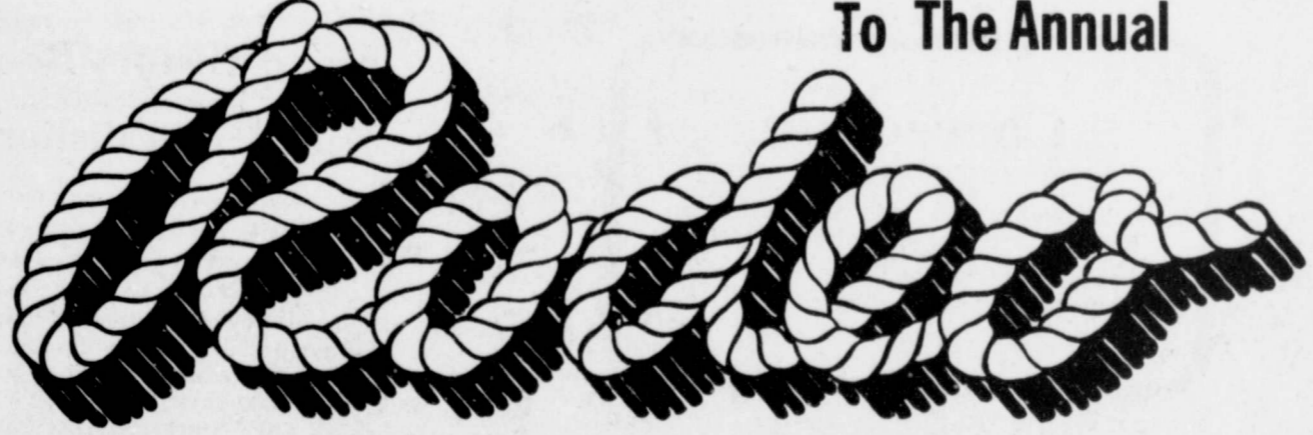

Take the new Susan B. Anthony dollar. Sure, it's nice that finally a woman's face has shown up on a piece of money. For all I know thousands of women late at night may have been sobbing in their pillows for years because none of them had her face on a coin.

Me, I can't for the life of me tell you whose picture is on a piece of money, whether it's a 5-dollar bill, or a 10 or a 20. I look at the corners, where the numbers are. I know George Washington is on a dollar bill. But what's on the back of it?

Just to be doing, and for the first time, I looked. I didn't know, did you? that there's a picture of a pyramid on it with a big eye looking out of the top, surrounded by the words "Annuit

Coeptis Novus Seclorum... dollar bill has a one-dollar coin. No wonder people get fast these days. But back to the dollar. Without thinking, I have produced a dollar from a quarter. The same size and the same keepers are having a mistaking dollars for quarters. Cashiers are receiving a quarter-size bill out of the register to avoid short-changing the store. You'd think that when designing the new dollar, the leading production of a few store people who have what they think is a dollar has appropriated the people into using the horse, but Washington's producing carts when the horse. It's one thing to produce the horse, but Washington's producing carts when the horse. It's one thing to produce the horse, but Washington's producing carts when the horse.

## Family Perspective

### Kathy Chappell, George Lange Married In Slaton

Mrs. Kent Hale

Miss Kathy Chappell became the bride of George Lange in a double ring ceremony performed by Rev. Kenneth Winchester Saturday July 14 in the Chapel of the First Baptist Church in Slaton. Parents of the bride are Mr. and Mrs. Ozell Chappell of Floydada; and the groom is the son of Mr. and Mrs. George H. Lange of Moore, Oklahoma.

The wedding scene featured an arch of white candles entwined with greenery. Guests were registered by Donna Lange of Moore, Oklahoma. Ushers were Jerry Chappell of Duncan, Oklahoma, and Bob Lange of San Antonio. Traditional wed-

ding music was played by Darla Chappell. Honor attendants were Mrs. Steve Lloyd, sister of the bride, and Carlton Jones of Slaton. Mrs. Lloyd's floor-length dress of baby blue knit featured an off-the-shoulder neckline. She carried a nosegay of daisies trimmed with blue ribbon streamers.

Escorted to the altar by her father, the bride wore a formal length gown of white dotted swiss, featuring a sweetheart neckline trimmed with white lace. A lace-trimmed ruffle featured at the hemline, a wide-brimmed white hat and a crescent bridal bouquet

featuring a single orchid and white roses accented her ensemble. A mother-of-pearl prayer book brought to the bride from Jerusalem by her maternal grandparents, Mr. and Mrs. Burl Huckabee of Floydada, formed the base of the bouquet.

For the traditional something old, the bride wore an 87 year old watch which belonged to her maternal great-great aunt. For something borrowed, she wore a Cloisonne Cross necklace given to her mother by her father. Something blue was a blue garter belonging to Mrs. Steve Lloyd. Her dress and shoes were something new. Pennies minted during the couple's birth years were worn in her shoes.

Following the ceremony, the couple was honored with a reception in the church parlor. Mrs. Gary Riddle of Hereford and Mrs. Carlton Jones of Slaton presided at the table. Punch and a two-tiered wedding cake featuring daisy chains and pas-

tel blue icing were served. A basket arrangement of blue silk flowers and candles graced the table. Miss Donna Templeton of Kemah passed out rice bags during the reception.

The bride graduated from Floydada High School, South Plains College in Levelland, and attended Texas Tech University. The groom is a graduate of Happy High School and Texas Tech University. Following a wedding trip to New Mexico, the couple will be at home in Lubbock.

#### FLOYD DATA

Mr. and Mrs. Doyle Mount of Vernon visited over the weekend with Mrs. Mount's sister, Mrs. V.L. McNeill and husband, and also with the Howard Bishops. The Mounts were former residents of Floydada.

### Miss Latura, Kent Hale Vows Pledged In Methodist Church

White wicker baskets of pastel flowers illuminated by tapers in a candelabra framed the altar area of the First United Methodist

Church in Burleson as Cynthia Latura and Kent Hale exchanged wedding vows. Reverend Dean Frankin, of Fort Worth, officiated at the July 14, 3 p.m. ceremony.

The bride is the daughter of Mr. and Mrs. P.T. Latura of Burleson and the groom is the son of Mr. and Mrs. J.S. Hale of Floydada.

As guests were being seated, David Bradford of Fort Worth played the guitar and sang "Sunrise Sunset." He sang "The Wedding Song" after the exchange of rings, and following the recessional, presented a special arrangement of "Our House."

The bride wore a floor length gown of silk organza featuring a Queen Anne neckline, Bishop sleeves and re-embroidered lace bodice. A silk illusion veil and a cascade bouquet of silk carnations, daisies, tea roses and baby's breath completed her attire.

Matron of honor was Mrs. Lee (Kathleen) McCoubrey, sister of the bride of Orlando, Florida. Mrs. Cindy Hart, Mrs. Alice Peacock, and Miss Brenda Owen, all of Lubbock, and Miss Cindy Hayes of Weslaco were bridesmaids.

Jay S. Hale, father of the groom was best man. Groomsmen were Bucky Sheffield, Steve Schultz and Jeff Hobgood of Lubbock and Nick Buckelew of Tucson, Arizona.

Ushers for the occasion were Michael Simon of Dallas and Randy Hale, Lubbock.

Following the wedding ceremony a reception was held in the Fellowship Hall of the church. Members of the wedding party and out of town guests attended a wedding buffet dinner at the home of the bride's parents.

The bride is a graduate of Burleson High School and has a B.S. degree in Education from Texas Tech University of Lubbock. The groom is a graduate of Floydada High School; holds a B.B.A. from the University of Arizona, Tucson; and is a 3rd year law student at Texas Tech.

Following a wedding trip to San Francisco and Carmel, California, the couple will reside in Lubbock.

### Sixty-seven Attend Jones Family Reunion

The seventh annual reunion of the late E.F. Jones family was held Sunday July 15 at the Massey Activity Center in Floydada. A musical devotion was presented by Mr. and Mrs. Richard Hale and Mr. and Mrs. George Ray Finley. A bountiful basket lunch was enjoyed by 67 persons.

Relatives present for the occasion were: Mr. and Mrs. David Miller of Bonham; Mrs. Jewell Jarius of White- wright; Mr. and Mrs. Ralph Jones of Stephenville and great-grandson Chad Ratliff of Gunnison, Colorado;

Mr. and Mrs. Manuel Alexander and granddaughter Sharon McKinney; Mr. and Mrs. Lloyd Alexander and daughter Deanna of White- wright; Mr. and Mrs. James Alexander of Garland; Mr. and Mrs. Homer Long; Mr. and Mrs. Noel Jones; Mrs. Ireta Shelley and Rita; Mr. and Mrs. Harold Jones and Jayme; Mr. and Mrs. J.C. Jones; Mr. and Mrs.

Mark Goen, Tiffany and Amy, all of Amarillo; Mr. and Mrs. Bill Parrett of Richardson; Mrs. Ann McCarty of Lefors;

Mr. and Mrs. Jerry Phillips of Vernon; Mr. and Mrs. Billy Hinkle and Joe; Mr. and Mrs. Max Yeary and Charla; Mr. and Mrs. Wayne Poteet; Mr. and Mrs. Billy Gene Hinkle, Pepper and Chad; Mr. and Mrs. Ray Gene Ferguson, Kelly and LeAnne; Mr. and Mrs. Billy M. Fulton; Mr. and Mrs. George Ray Finley; Mr. and Mrs. C.W. Jones and Mrs. Georgia Finley all of Floydada.

Guests were Mr. and Mrs. Dale Wright of Pasedena; Mrs. Tulah Elliott of Tom Bean; Mrs. Grace Hamilton and Mr. and Mrs. Richard Hale of Floydada and Mr. and Mrs. John Lyles of Hale Center.

The reunion will be held next year in July at Stephenville with the children of the late Will Jones hosting.

#### Pattern Effect In Decorating

Incorporate pattern into the over-all decorating scheme, says Sue Young, a housing and home furnishings specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Use room size and location to determine whether or not to use pattern in the first place, she suggests.

A living room is no place for a large, decorative wallpaper. An overpowering pattern tends to make the space look busy and visually jarring.

An effective living room should be easy on the eyes and inviting.

Conversely, patterned fabrics, such as a colorful chintz spread for the sofa or the same fabric used as draperies, can give a room a sense of warmth.

Small rooms or tiny areas — such as the ceiling and walls above the tops of kitchen cabinets — will do justice to patterned wallpa-

per. Rooms that are used infrequently are other candidates for wallpaper, Mrs. Young continues.

Bathrooms are fine for all kinds of small prints.

The size of the pattern or design is important. Wallpaper patterns range from large, insistent designs to tiny, small-scaled geometrics, narrow stripes, and linen textures, which are subtle enough to lend texture rather than pattern to a scheme.

Avoid trend-setting patterns. Their popularity may wear thin in a year, and the room will look as dated as last season's hemline, the specialist cautions.

When using a pattern, select it first, with the color for walls, trim and ceiling

cue to it. Otherwise, you may search in vain for a pattern which blends in with a desired scheme and an established wall color, she adds.

Visits Floydada Lodge

Mrs. Jerry Miller, president of the Rebekah Assembly of Texas, and Betty Medford, vice president, visited Floydada Rebekah Lodge No. 77 on Saturday, July 14.

The pair were entertained with a tea and an open house Saturday afternoon, giving the lodge members a chance to meet and visit with the president and vice president.

The Floydada, Lockney, Plainview and Abernathy lodges were present Saturday night for the official visit. The assembled members ate

a fried chicken dinner before turning the meeting over to President Miller.

The president gave an inspiring talk on fellowship, love for one another and love of God.

Following the president's message, she received love gifts from the district lodges. Amanda Hart, lodge deputy from Floydada, presented that lodge's gift. The group then sang the president's song, "Because He Lives."

Mrs. Miller's husband, Bill, also attended the meeting.

### A Rich Chicken Extravaganza

Forget that diet today. Spoil yourself and your family by serving this rich and colorful chicken dish.

Brown chicken pieces and drain fat. Simmer with onion and seasonings until almost done. Add sliced mushrooms, green beans and dark California ripe olives. Pour in that thick cream and cook until smooth. Add pimiento strips for final color accent.

Now doesn't that look good! This extravagant recipe will delight everyone. Try serving with rice and a fresh green salad.

Ripe Olive Chicken, California Style

- |  |                                     |
|--|-------------------------------------|
| 1 (2 1/2 lb.) frying chicken, disjointed | 1/2 teaspoon salt                   |
| 1 tablespoon butter                      | 2 cups sliced mushrooms             |
| 1 tablespoon oil                         | 1 cup frozen green beans            |
| 1 medium-size onion                      | 1 cup pitted California ripe olives |
| 1/4 cup liquid from ripe olives          | 1 tablespoon cornstarch             |
| 1/4 cup water                            | 1 cup heavy cream                   |
| 1/2 teaspoon poultry seasoning           | 2 tablespoons pimiento strips       |

Melt butter; add oil and heat. Add chicken and brown well. Drain off fat. Peel onion and cut into eighths. Drain ripe olives, saving liquid. Add onion, 1/4 cup liquid from ripe olives, water, poultry seasoning and salt to chicken, and heat to simmering. Cover and cook slowly for 25 minutes, until chicken is almost done. Add mushrooms, green beans and ripe olives. Cook for 5 minutes longer. Stir gently with liquid on chicken. When mixture boils and is smooth, add pimiento strips. Simmer 3 or 4 minutes longer. Makes 4 servings.

### CAR MAINTENANCE

Keep a car well-tuned longer by keeping engine filters clean and using the gasoline octane and oil grade recommended for that car, advises Claudia Kerbel, a consumer information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

### SOAP OF YOUR CHOICE

There are many different kinds of bath soap — clear, castile, cocoa-butter, fruit, deodorant and more, a clothing specialist says.

Use one that doesn't dry your skin — and remember to rinse thoroughly, advises Nancy Brown with the Texas Agricultural Extension Service, The Texas A&M University System.

### FROM THE FILES OF THE LOCKNEY BEACON July 25, 1929

"When that bunch of Rotarians who infest Floydada learn how to play ball, maybe Lockney Rotarians will take them on again. You heard the story about 'Like taking candy from a baby,' that is just how the game was at Floydada Friday afternoon, but what chance did Floydada have when they allowed the editor of the Beacon to umpire the game for balls and strikes...We will give them credit for playing a good game under the circumstances, as the score at the windup was only 5 to 4, in favor of Lockney..."

"New Brooms," a clever comedy from the pen of Frank Craven, who has given the American stage a number of rollicking plays, will be presented Monday night by Harley Sadler and his company as the opening feature of his week's engagement in Lockney...Sadler will be in Lockney a week, with a change of program every night."

"The new city auditorium, being built out of the old college building, will be ready for occupancy within the next two or three weeks, according to Mr. E. Guthrie, who has the work in hand. The grand stand of the baseball park is to be ready for use by the close of this week."

"The old bell that told the people for many years that school was in session at the old college building, and later used as a church bell for the Church of Christ in Lockney, is now resting in a

new position on top of the Baker Hotel building, at the rear, where Artie Baker intends to inform the people of the town on each Monday that it is the chamber of commerce luncheon day, and on each Friday he will call the Rotary Club together for luncheon by ringing the bell."

"Mr. J. Marvin Cox and Mrs. Ruth Puckett, both of Lockney, were married at 5 o'clock Saturday afternoon at Floydada, Rev. O'Brien, pastor of the Baptist church, performing the ceremony. Mr. Cox is the son of Mr. and Mrs. J.M. Cox of Floydada, and is now employed as a mechanic in the Lockney Auto Co. of this city. Mrs. Puckett is the daughter of Mr. and Mrs. E.A. Cox, of this city, and has been in the employ of the Cozy Cafe for some time..."

"Mr. Heston Bennett and Miss Ruby Tinnin, both of Lockney, were married in Clovis, N.M., Saturday afternoon at 4:30 o'clock, the county judge of that county performing the ceremony. The couple visited with Mr. Bennett's brother, C.K. Bennett, and family, Saturday and Sunday, and then went to Amarillo and Dumas, where they visited friends, returning home to Lockney, Tuesday. Mrs. Bennett is the daughter of Mr. and Mrs. W.B. Tinnin of the Sand Hill Community, and Mr. Bennett is the son of Mr. and Mrs. R.C. Bennett of Lockney. They are very popular among the younger set in Lockney, and have many friends here who wish them happiness in their married relations. They will make their home in Lockney."

"Mr. Marvin Gilbert of Lockney, and Miss Pauline Stovall of Floydada, were married at the home of the bride's parents in Floydada, Friday afternoon at 7:30 o'clock, Rev. O'Brien, pastor of the Baptist church, officiating."

"The bride, whose parents live in Floydada, has been a teacher in the Lockney Public Schools for the past two

years, and has been elected for the coming year on the school faculty....The groom is the manager of the Merchants Tailoring Parlor, in Lockney, and is the son of Mr. and Mrs. T.J. Gilbert, who live east of town..."

"On Saturday afternoon the groom was chained by a number of his friends to the telephone post in front of the Baker Hotel Soda Grill, where he dispensed of a 'roll of tissue writing paper,' at one cent a sheet and the roll brought \$10.23, which those tying up Marvin intended to spend, but he managed to work a scheme by which he was freed from the pole, and hid the money, making a clean getaway with same, and now the laugh is on the bunch who chained him to the post."

"The young couple's friends wish them a long and happy married life."

### FOOD WASTE DISPOSERS

Question: I'd like to install a food waste disposer, but my home has a septic tank. Does that mean I can't have a disposer?

Answer: No, it doesn't. Most septic tank manufacturers recommend that some wastes, such as lobster shells, oyster shells, cigar and cigarette stubs not be put into the food waste disposer if you have a septic tank. But other foods can be put into the disposer.

**THE TAX PICTURE**  
 Who Pays The Most Income Taxes?

You may be surprised to learn how many of your closest friends and relatives are rich-according to the Treasury's definition!

The Robin Hood in you will probably rejoice to know that the rich pay the most taxes.

A U.S. Treasury study concludes that 70 percent of all personal income taxes in the country are paid by the richest one-fourth of the population. Does that sound fair to you?

You may change your mind when you learn that households in which the annual income exceeds \$17,000 are considered "rich." While they earn 50 percent of the nation's income, they pay 70 percent of all personal taxes.

Financial planning is crucially important to most families, no matter how "rich" they are considered. The American Society of Chartered Life Underwriters, the national association of life insurance professionals, points out that the tax benefits offered by qualified retirement plans make them a sound investment for future security.

**Weed Walk Can Help**  
 Crop growers should assess their weed control program by walking through their fields and taking note of established weeds, according to agronomists surveyed by Stauffer Chemical Co.

Agronomists say a scrutinizing weed inspection will help growers identify their problem weeds, evaluate their weed control program and plan more effective weed control in the future.

Growers should consider variables that affect herbicide performance like weather, soil texture, pH, fertilization, planting dates, and other cultural and tillage practices when evaluating a particular herbicide or tank mix.

For example, a surface-applied herbicide that relies on rain for activation is usually not effective in a dry spring. A grower may find it better insurance to use an incorporated herbicide like Eptam, Vernam or Sutan +, which do not need rain for activation.

## Eldon B. Howard

Mr. Eldon Bishop Howard, 58-year-old Director of the Office of Navajo Economic Opportunity Administration department, suffered a fatal heart attack late Wednesday at his home in Fort Defiance, Arizona.

A native of Floydada, Texas, Mr. Howard was employed by the ONEO for a total of eight years. Prior to that Mr. Howard was employed with Baker Industries, Soda Springs, Idaho and the University of New Mexico as a business systems analyst. Mr. Howard's experiences in bank management, mechanical chemical engineering, and materials control management contributed greatly to ONEO where he served as a placement and counseling officer, day care director and as the director of administration.

Mr. Howard was born November 5, 1920 in Floydada, Texas, where both he and his wife Worth attended high school. He attended Utah State Agriculture College and served as a Captain with the Air Corps from 1942-1947, and again in the Korean conflict from 1950-1952.

Mr. Howard is survived by

his wife, Worth Gwendolyn and her daughter and grandson, Dr. Linda Merry and grandson Worth Anderson; his son Sergeant Wesley R. Howard, Pentagon, Washington, D.C. and daughter, Diana Edwards.

Mr. and Mrs. Howard celebrated their 10th wedding anniversary July 3rd.

Mrs. Howard will accompany Mr. Howard's return to Floydada, Texas and will return to attend a memorial service at the Good Shepherd Mission Episcopal church officiated by Father Phillip Allen. Service schedule is still pending. Mr. Wilbert Willie, ONEO Executive Director, will represent ONEO in Floydada.

The Navajo People and ONEO lost more than a leader, they've lost a friend and a champion. Mr. Howard was an extraordinary man who's love for the Navajo people stirred his interest in learning silversmithing and learning the Navajo language at the University of New Mexico. His dedicated service and commitment to serve the Navajo people will not be forgotten.

The Navajo's bid farewell to their friend by wishing him "Haagon'e shi kiis" — Goodbye, Friend.

# Bentsen Seeks To Reform, Toughen Bail Bond Procedures

Washington, D.C. — Senator Lloyd Bentsen on Thursday introduced two bills to reform federal bail bond laws and "better protect society from dangerous criminals."

One of the two Bentsen bills provides increased punishment for anyone convicted of a crime committed while free on bail for a previous

crime. The second Bentsen bill allows a federal judge to deny bail for an accused terrorist if the judge determines that the terrorist is a danger to the community.

"I am also calling today on the Senate Judiciary Committee to conduct a major review of bail laws to deter-

mine how we can best reduce the amount of violent crimes in this country while maintaining the basic protections guaranteed by the Constitution," Bentsen said in Senate remarks accompanying his legislation.

"I believe that we can reform bail laws in a manner that can better protect so-

ciety from dangerous criminals and improve the odds that the administration of justice will be fair and effective."

Bentsen explained that one of his bills would provide consecutive sentencing for persons convicted of crimes while out on bail for previous crimes. It would require that in these cases the sentence for the second crime should be in addition to, and not run concurrently with, the sentence for the first crime.

He said his second bill would change a provision in federal law that, for practical purposes, permits a judge setting bail to consider only whether the accused will show up for trial. Bentsen proposes that judges, in crimes involving terrorism, be permitted to also consider whether the defendant poses a risk to the community.

Senator Bentsen noted that a study of individuals being prosecuted under the Career Criminals Program in Dallas indicated that more than 36 percent of them were out of jail on bail for previous crimes at the time of their

most recent arrests. "I would urge the Judiciary Committee to carefully evaluate my bills and conduct a full review of bail laws, to determine how community safety can best be protected in accordance with our laws. Crimes are committed every day by violent, dangerous people who are out on bail," Bentsen said. "I look forward to working with the Judiciary Committee on this important task and I believe that in the coming year we have an opportunity to pass important reforms," Senator Bentsen said.

# Game Warden Academy Set For Oct.

THE NEXT Texas game warden academy will be held in Austin beginning in October and persons interested in this outdoor career opportunity should apply by July 31, 1979.

Application forms may be obtained at the Texas Parks and Wildlife Department's offices in Abilene, Amarillo, Lubbock, Midland, and Wichita Falls, or write the P&WD, 4200 Smith School Road, Austin, Texas 78744.

Game warden applicants are required to have graduated from an accredited senior high school and the applicant must be at least 21 years of age and possess good health and vision.

The P&WD's game warden training program will encompass 1,000 hours of study and training in fish and game laws and identification, Texas Penal Code, defensive driving, wildlife habitat study, civil defense, hunter and

water safety, and self defense.

Upon successfully completing the training program four and one-half months later, the officers will be assigned duty stations across the state.

The new wardens will then perform work involving the enforcement of all game and fish laws, Texas Water Safety Act, water pollution laws, and sand, shell, and gravel laws within an assigned area.

All P&WD game wardens maintain a 24-hour on-call status which means they may leave home before sunup and not return till late at night. Many game and fish violations occur at night and to stop this type of thief, the game warden will work at night during these peak violation periods.

The P&WD is an equal opportunity employer and hopes all persons interested in a game warden career will apply in July.

## KEEP YOUNG, OLD 'OUT OF HOT WATER'

Being in "hot water" is especially scary if you're among thousands of people injured each year in scalding accidents.

Burn injuries are especially common among children under age five and older adults over age 65.

Many in these age groups are unaware of the hazard — and most cannot react quickly to it.

Bathtubs are the scene of many scalding injuries, when children climb into a tub full of hot water or play with the hot water faucet.

For older adults, a major problem is slipping or falling into a tub of hot water.

To prevent scalding injuries, remember these tips:

\*Never leave a baby or small child alone in the bathroom for any reason.

\*Always test the water before bathing small children.

\*Always test the water before entering a tub or shower.

\*Consider installing "antiscald" devices at water outlets to reduce scalding dangers.

## HINTS FOR THE HOME

(1) Consumers, make shopping lists for clothing. Put items needed down on paper before shopping.

Begin with a list of what workable clothes you already own, then decide what you need to go with them.

(2) Crying is a healthy human response, and boys as well as girls need to know that it is OK.

(3) The median annual income of female-headed households in Texas is about half that of all families — \$6,136 compared to \$12,672 for all families.

(4) When choosing ground beef, consider use.

Regular grind of ground beef may also be bought with no less than 75 percent lean and no less than 80 percent lean.

(5) Some drugs, both prescription and non-prescription, and cause drowsiness and blurred vision.

These drugs, when combined with driving, can be dangerous.

# Accent On Health

Texas Department of Health

While the threat of typhoid and cholera has almost been eliminated in drinking water, the Texas Department of Health must still deal with the danger of organic contaminants, viruses and other disease-carrying organisms in the water you drink every day.

Safe water has been the responsibility of the Department for 64 years. Regulation of public drinking water in Texas had its beginnings with a 1915 statute requiring that water be "chemically tested for any contaminated infusion of sand, dirt or filth or dangerous bacteria or disease-causing germs." Since that time, drinking water quality has been regulated by subsequent statutes and rules and regulations adopted by the Texas Department of Health.

Congress passed the Safe Drinking Water Act in 1974, which, in effect, gives the states and the Environmental Protection Agency the responsibility for the new

minimum drinking water standards established by the EPA.

"The Act requires your water supplier to periodically sample and test the water pumped to your tap," says Mark V. Lowry, Surveillance and Technical Assistance Branch Chief of the Water Hygiene Division. "If tests reveal that the national drinking water standards have been violated, then your supplier must take action to correct the situation."

"When violations of any maximum contaminant level occur, the supplier is required by the Safe Drinking Water Act to notify the user and to announce the violation to the newspapers, radio and television stations," Lowry added. "The supplier must also explain what is being done to correct the situation."

Lowry said it is important for water users not to panic if they receive or read a notice about their drinking water. "The announcement will explain the problem and tell you what precautions, if any, you should take. Most notices will not mean that your health is immediately endangered. A large safety margin was built into most standards so that it won't be harmful for people to drink water exceeding some of the maximum contaminant levels for short periods of time."

The theory behind the public notification provisions is that an informed populace will support

bond issues and rate increases necessary to make required improvements to deficient drinking water system facilities.

"But the majority of Texans have never seen any of the public notification required by the Safe Drinking Water Act," Lowry remarked. "Those persons who have seen the notification too often do not understand either the meaning of the notification or the reason for it."

Lowry said most non-compliance among Texas suppliers is the failure to submit bacteriological samples to the State Health Department. Failure of this type requires notification on the water bill only. "Repeated failure to submit samples indicates a lack of interest in the water system by responsible officials."

said Lowry. "In such incidents, the utility's customer should contact the utility."

turned home Sunday afternoon after spending the past eight days in Colorado at South Fork, where their party of eight had excellent fishing on the Rio Grande River and lakes around South Fork. Several days were spent in Colorado Springs, Colorado, where they enjoyed the zoo, The North Pole and Santa Land, the Van Briggie Pottery place, and all the beautiful attractions around the city. The weather was perfect all the time. Mrs. Julian went with her son,

Bruce and Janet Julian, Clay and Wade, and friends from Perryton. She spent the weekend with them before returning home.

Mr. and Mrs. Alvin Nichols went to Sweetwater Saturday to visit their daughter and husband, Ruby Jewell and Glen Whitfill. Whitfill has been in the Sweetwater Hospital with a heart attack, but Monday he was better, off IV's and out of intensive care. We are glad to know he is responding to care and can soon come home from the hospital. The Nichols came home Monday.

Mr. and Mrs. Fletcher Powell were hosts at a cook-out at their home Thursday July 5, celebrating their anniversary and birthdays of several family members. The Gary Gilbreaths of Perryton were here for the supper including others of the family. On Sunday Mr. and Mrs. Tillman Powell hosted a dinner for their anniversary and celebrated birthdays for members of their family. Guests were Mr. and Mrs. Tom Powell and Heather of Floydada, and other members of the Powell families.
