Judge Smith Proposes Fund-Sharing Allocation

Floyd County Judge Chose Smith Tuesday released his proposals for allocating the county's 1980 revenue sharing funds among county organizations. Smith presented his proposed budget at a special meeting of the county commissioners.

The Floyd County Jail project to remodel the facility to conform to state jail standards took the lion's share of the available funds, \$291,000 of what the county anticipates receiving from the Federal government for next year. The commissioners and the judge also signed the contract with H.R. Bundock, of Lubbock, to handle the remodeling. Bundock said Tuesday that he expected to begin work as soon as he received an official letter of authorization. The contract called for completion within 240 calendar days.

A new heating and cooling system for the courthouse accounted for the next major portion of the proposed revenue sharing budget. The new system was anticipated to cost \$60,000.

A further \$20,000 was asked to be set aside for the various precincts to use. Approximately \$2,000 will be allocated for furniture for Judge Smith's office. The judge suggested that the Floyd County Museum be given \$1,000 and that \$500 should go to the Floyd County Day Care Center.

The Central Plains Mental Health Center had \$3,200 earmarked and the Floyd County Library Building Fund, under Judge Smith's budget proposal, would receive \$5,000. The Senior Citizens' Association would get \$1,000. The balance of \$4,572 would go to the county agriculture building, bringing the total expected funds to \$388,272.

The commissioners will consider approval of the budget at a budget hearing Monday, Sept. 10 at 3 p.m. in the courthouse.

The commissioners also agreed on awarding a contract for the ag building to Lubbock Development Co.

State negotiators Dave Boerner, of the comptroller's office, and Amal Shatel and Carl Morris, of the Dept. of Human Resources, agreed to fund \$68,835 of the cost of the new building and equipment. The county will be responsible for \$2,199 for an access ramp for handicapped citizens.

The commissioners and judge Smith were visibly pleased with the outcome of the negotiations. They had been worried about the funding because the contractors' estimates exceeded the state architect's estimate of the cost.

"We won this ball game," commented commissioner Jack Lackey.

The state people noted that the contract was agreed to just before the Aug. 31 funding termination date. Next year, the process would have had to be started from the beginning.

In other business Tuesday, the commissioners agreed to join the cities of Lockney and Floydada, and the Caprock and Lockney General hospitals in purchasing radio equipment for emergency medical service teams in the area. The county would pay \$490, a one-fifth share of the \$2,450 total cost.

The commissioners also voted to raise the jury fee to \$7 a day. The new fee for jurors will affect both the county court and Judge Miller's district court. Jurors were being paid \$6 for a day's service.

The court met with county tax assessor-collector Jonelle Fawver to

discuss implementing the new property tax code, Senate Bill 621.

Under the bill, the county would have until Jan. 1, 1982 to join the newly created State Property Tax Board, which replaces the School Tax Assessment Practices Board. The new board will assume the duties of supervising the taxing process throughout the state.

'Winds' Looking Good, Coach Wilson Says

The Floydada Whirlwinds are in their second week of two-a-day workouts and are continuing to look good, according to coach L.G. Wilson.

The entire squad reported for training in good physical condition and the cool weather lately has helped the squad have more spirited workouts, the coach said.

The "Winds" will work out only in the morning today, coach Wilson said, to allow the players to participate in the annual-signing party this afternoon. This morning's workout will be held from 9 a.m. until 11 a.m.

Friday morning is reserved for photograph-taking for the annual and the program. Anyone else interested in photographing the "Winds" was invited to be at the practice field at 9 a.m. for the session.

Friday afternoon, the entire squad will travel to Spring Lake Earth for a scrimmage session with the junior varsity beginning at 5 p.m.

Troy Marquis, Todd Beedy, Carlos Rainwater and Jim Waller were competing for the quarterback position on the varsity squad.

Hopeful running backs Mac Collins, Jeff Rainey, Norman Allen, Moody Younger, Mike Self, Todd Williams, Monte Williams, Mark Nutt, David Edwards and Bill Gray all hoped to make the season's cut.

Tracey Womack, Neal Becker, Danny Nutt, Kevin Noland, Andra Ledbetter, Joey Luna, Billy Collins and Ronnie Minner competed for the end spots.

Prospective linemen Rex Reyes, David Welborn, Keith Nixon, Mike Allen, Duncan Woody, Todd Hambricht, Monte Seymour, Tom Potts, Kelly Sue, Jeff Landreth, Van Lowrance, Tommy Ross, Martin Eastham participated in the pre-season workouts.

Centers included Tim Radloff, Chris Fulton and Brent Duke. Mark "Beans" McCormick is the manager.

A group of 22 freshman players worked out one day at 6:30 p.m., reported coaches Mike Cocanougher and Mike Brownlee.

The freshman squad comprised Grant Turner, Mike Lipham, Mitch Ross, Felix Soliz, Floyd Hightower, Shannon Smith, Todd Beatty, Calvin Coleman, Marty Covington, Bruce Williams, Mike Salazar, James King, Richard Rodriguez, Jesse Cedillo, David Buss, Philip Garza, Wynsdell Davis, Dean Dickson, Don Cheek, Kevin Helms, Donnell Weeks and Ruben Trevino.

Photographs of the freshman squad may also be made Friday morning at the high school practice field.

Caprock Hospital Board To Meet

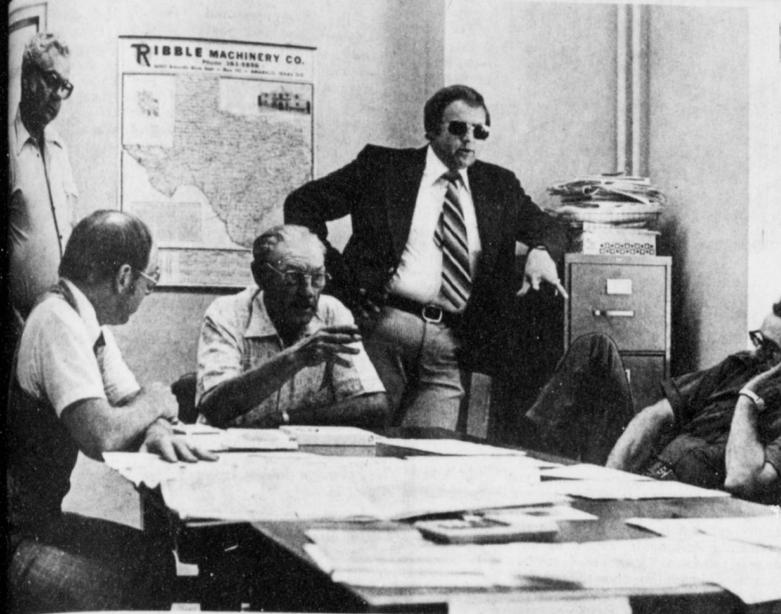

The Caprock Hospital Board of Directors scheduled a regular session meeting for tonight at 7 p.m. in the hospital library.

After the reading of the previous meeting's minutes and a review of the financial statement and accounts payable for July, the directors will review and adopt the 1979-80 budget for the hospital.

Weather

The Floyd County extended weather forecast, compiled by the U.S. Weather Service in Lubbock, called for partly cloudy skies Friday through Sunday, with no important temperature changes expected. Low temperatures at night will range from the mid-to-upper 60s with high temperatures in the upper 80s.

building renovation funding. The state agreed to finance the entire project with the exception of a handicapped-access ramp for the building. (Staff Photo)

BETTER THAN THAT — Floyd County will battle Tuesday afternoon with state officials over the approval of the agriculture

Society Association Estimate

37 Persons Will Die Over Labor Day Weekend

weekend is just around the corner. Being a great driver for a countless number of long weekend can mean traffic risks for Texas drivers.

It is estimated that 37 persons will be killed in motor vehicle accidents in our state, during the 78-hour holiday period.

To reduce the Labor Day traffic death

toll, Texas Safety Association is encouraging drivers to sharpen their driving skills through defensive driving training and also to follow the 55 MPH speed limit: 55 ALIVE is the slogan that saves.

Irrigation Efficiency Is Target Of SCS Lab

Testing the efficiency of furrow irrigation and training USDA Soil Conservation Service personnel on the testing procedures were the purposes of a recent training workshop in southern Floyd County on the Jack and Ruth Barnes farm operated by Weldon Becker.

Conducted with the assistance of the High Plains Underground Water Conservation District #1, the training session was for SCS personnel in the Floydada and Matador Field Offices. In addition to assisting local irrigators, these workshops were designed to train and retrain SCS and Water District staff to be more proficient in teaching others

how to apply a blend of basic economics, plant-soil-water relationships, sprinkler and furrow application efficiencies and pumping plant efficiencies to get the maximum water conservation for their dollar.

Jon LaBaume, district conservationist for the Floyd County Soil Conservation Service office said that the USDA-SCS established for the High Plains area a three-man irrigation water management team to "become experts in on the farm irrigation water management and efficiency". To support the increased SCS emphasis on water conservation, the Water Conservation District #1 signed an agreement with SCS to provide the area SCS office equipment and supplies needed to conduct "on farm" water efficiency tests from well to the field application.

The Water Conservation District purchased a mobile laboratory of necessary equipment and retained the service of retired SCS Area Engineer Y.E. McAdams to conduct training workshops with other SCS personnel.

Before the test, personnel were shown that the old, tried-and-true

method of checking soil moisture levels is just as accurate as more sophisticated methods. The group worked with the familiar "feel" method, the speedy moisture method, and the gravimetric (oven dried) method.

On the farm operated by Becker the conservationists looked at Pullman clay loam which was being furrow irrigated the predominated soil and irrigation method used in Floyd County. The test conducted to a depth of three feet showed about 3 inches needed on the field of cotton at that time to bring the soil to "field capacity". "Field capacity" is that the soil has as much water in it as it can retain, LaBaume said. The cotton was planted in May and pre-irrigated, 5 inches rain had been received since planting.

The feel method, with which most farmers are familiar requires a soil probe and about 15 minutes of time, LaBaume said. The three-foot probe is inserted at various depths and the moisture is determined by actually feeling the soil sample.

(See "Lab," page 9)

Total Lunar Eclipse Visible Here Early Next Month

Early-bird Floydadans will get to watch what promises to be a spectacular sight in the sky early next month.

The first total lunar eclipse visible from this hemisphere since May, 1975 will occur Thursday morning, Sept. 6, according to Arthur Schneider, director of the Don Harrington Discovery Center in Amarillo.

The celestial show begins at 4:18 a.m., when the moon passes into the darkest part of the earth's shadow, called the umbra, Schneider said.

By 5:31 a.m., the moon will be completely immersed in the shadow. At this time, the moon will still be dimly visible. Depending on how much sunlight is refracted into the earth's shadow by its atmosphere the moon will appear dark grey or brown, deep red or rust-colored, brick red and possibly a light orange or coppery color. Forest fires and volcanic eruptions can intensify the reddish hue, Schneider said.

In a telephone interview with the Hesperian, Schneider explained that the lunar eclipse would be visible to most portions of the northern hemisphere, unlike a solar eclipse, which is visible only to a small area.

"In a solar eclipse, the moon's shadow is being cast on the earth in a 170-mile-wide path and it's (the shadow) moving across the face of the earth

at several thousand miles an hour," Schneider said.

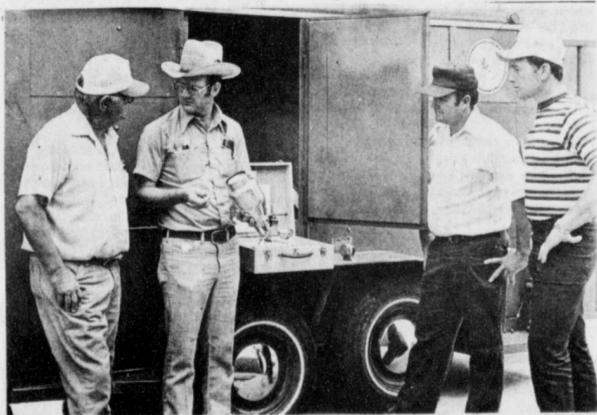

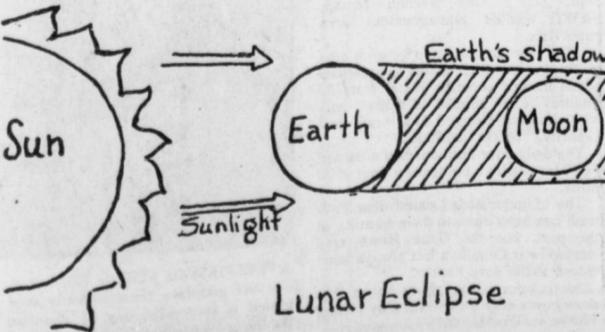

"However," he continued, "when the moon moves into the 8,000-mile-wide earth's shadow practically all you have to do to see it is be a resident of planet Earth."

"On the east coast, for instance, the moon will have set by the time the eclipse occurs," Scheider said. "We just barely squeaked by since the moon will set shortly after the eclipse ends."

Area viewers will have the extra attraction of seeing the breathtaking sight of a totally eclipsed moon low in the west during morning twilight, climaxing the sky display for South Plains watchers.

For camera Enthusiasts, Schneider suggested mounting cameras on tripods to prevent motion at slow shutter speeds and focussing the cameras at the "infinity" setting. To ensure a good picture, Schneider suggested taking a wide range of exposures, going from 1/4 sec. to several minutes.

As the eclipse begins, the moon will enter the earth's shadow at 4:18 a.m. The total eclipse will begin at 5:31 a.m., with mid-eclipse at 5:54 a.m. The total eclipse will end at 6:17 a.m. and the moon will leave the earth's umbra at 7:30 a.m.

ROVING LABORATORY — Jon La Baume demonstrates a moisture measuring device in the Soil Conservation Service's new traveling laboratory to Malvin Jarboe, vice president of the

Junior High Closes Campus

Floydada Junior High School will be under a closed-campus policy for the 1979-80 school year, according to junior high principal Jimmie Collins.

Under the closed campus policy, students will not be allowed to leave the campus after they arrive except with special permission from the principal. The new system will give school

authorities better control and will help stop tardiness after the noon break, among other problems that have arisen, Collins said.

Collins noted that the policy was in no way intended to deprive the students of activities. There are intramural sports and a game room provided for the students during the lunch period, he said.

Congressman Charles W. Stenholm Congressional Comment

WASHINGTON, D.C.--According to traditional economic thinking, inflation is caused by excess demand in relation to supply and a recession is the result of a decrease in the economic growth rate.

As we now appear headed for another economic downturn, it is time to start planning how we will face the next recession. The joint economic committee (JEC), under the leadership of our own Senator Bentzen, has proposed that more emphasis be placed on the supply side of the economy.

Clearly, we can do better than we have done in the past. The Joint Economic Committee has advocated a

responsible plan which I believe should be adopted. These policies include moderation in fiscal and monetary policy to fight inflation. A reduction of tax barriers is needed to improve competitiveness and increase productivity, growth, and employment.

A commitment to these goals would do a great deal to improve economic stability at home and improve our leadership position around the world.

Dougherty School To Begin Inservice Training Aug. 27

The Dougherty School will begin August 27, 1979 with inservice training for the teachers on the 27th, 28th, and 29th. Students will enroll and receive text books on August 30, 1979 from 9:00 a.m. to 12:00.

All new students must present a record of immunization as required by law. These requirements are:

- three (3) oral Polio doses with one dose after the 4th birthday
3DPT and/or TD with one immunization after the 4th birthday
1 measles immunization
1 mumps immunization
1 Rubella immunization

(Students who have had measles or mumps must have a doctors verification.)

Kindergarden students will need a birth certificate as well as the health record.

School personnel for the 1979-80 school year will include A.O. Dennington, principal and teacher; Mrs. Octie Dennington, Language Arts, girls P.E. and bus driver; Mrs. Arieta Whitten, K-2; John Walters, bus driver; Lila Martinez, custodian.

The Dougherty School buildings have been completely repainted as well as parts of the teacherages with the help of the GREEN THUMB members under the direction of Allen Rendon.

Members of the school board are Kenneth Robertson, president; Larry Bostick, secretary; James Cage, v-president; Billy Colston, Lance Poole, president; Billy Pernell, and Don Smith.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams TEXAS PRESS ASSOCIATION

AUSTIN-Governor Bill Clements, never one to pull his punches, tilted the political gyroscope again last week with new statements on the promised special session and left Capitol watchers scrambling to place new bets.

The Governor, speaking to members of the Texas Public Employees Association, said he sympathized with their need for a salary increase to fight inflation and would consider including raises in an upcoming special session.

Many topics have been suggested for that special session, and if Clements added to the list last week, he also discarded the possibility of including a presidential primary bill in his promised call. On his televised "Governor's Report," Clements ruled out the primary, and added he might wait until August or September, 1980 to call the special session.

That timing would move the special session to just before the general election, instead of just before the primary election in the spring, as Clements had earlier indicated he would do. Speculation has it that Clements, in the interest of building a two-party state, will call the special session to distract legislative incumbents from their respective elections, thus creating advantages for their mostly Republican opponents.

Supporters of Clements stress that he is more interested in passing his initiative and referendum and wire-tapping bills, and the close timing of the special call will pressure lawmakers to vote his way.

CLAYTON OPPOSES UNIONIZATION

Speaker of the House Bill Clayton, also addressing the TPEA meeting, warned that unionization of state employees would result in disruption of government and dissension among workers.

"Any fight for unionization would pit state employees against state taxpayers. Any such fight would produce only losers."

The 31,800-member TPEA is Texas' largest state employee organization and officially opposes unionization of state workers.

Clayton now joins Clements and H. Byas as top-ranking state officials who oppose the unionization concept proposed by State Comptroller Bob Bullock at a recent Texas AFL-CIO meeting.

Bullock defended his concept, again last week, saying that private firms were hiring away top state workers because state pay is too low.

"Thousands of our state workers are eligible for food stamps, but are too proud to apply for them," Bullock told reporters on a television program.

Bullock called Clements to include "a living wage" in the special session.

BORDER OIL COMMISSION?

Railroad Commission Chairman John Pierner has raised the idea of a border oil commission between the United States and Mexico to oversee oil drilling in the Gulf of Mexico.

Pierner last week wrote to President Jimmy Carter and Mexico President Jose Lopez Portillo urging them to consider the joint commission to develop petroleum resources in the Gulf. Drifting oil spills could be prevented or minimized, he theorized.

The present oil spill in the Gulf, which is sending large patches of oil and "tar balls" up onto Texas beaches may be opening energy doors between Texas and Mexico.

Governor Clements thinks he is opening up "a whole new exchange" with Mexican leaders, and criticized the press for "overstating" the ill effects of the largest oil spill in history. "It's like squealing before you're hurt, and we're not hurt yet."

Clements also nixed the idea of Texas suing Mexico for damages to Texas beaches, and predicted the oil well will be capped soon. He also warned Texans to prepare themselves for \$1.50-per-gallon gasoline in the future.

LAWMAKER EYES SWITCH

Dallas State Rep. Clay Smothers, an ultraconservative black Democrat, said he will switch parties and challenge Democratic U.S. Rep. Martin Frost next year. Smothers is the first to publicly announce he will change political parties next year, and he is not expected to be alone.

Governor Clements predicts maybe 30 Democratic office-holders will switch parties before the 1980 elections.

Another touted crossover possibility is Rep. Douglas McCleod of Galveston, who may leave the Democrats to run against Sen. A.R. Schwartz as a Republican.

Meanwhile, State Rep. Wayne Pevet intends to remain a Democrat if he runs for State Comptroller Bullock's seat. Pevet, a "lawyer-farmer" from Orange, authored the new state property tax code and may make the race if Bullock retires from politics or runs for Governor of Texas.

The Girl Scouts of Floydada are looking for a home. We would like to suggest that a portion of the railroad depot be used for the purpose of troop meetings, service unit meetings and workshops. /s/ Nancy Wilson

Aircraft Owners Must File With IRS

Civil aircraft owners are required to file Form 4638 and pay any federal use tax due by August 31, 1979, the Internal Revenue Service said.

When filing Form 4638, taxpayers must include the \$25 annual fee for each aircraft plus the tax of 3 1/2 cents for each pound of maximum certificated take-off weight for turbine powered aircraft and 2 cents for each pound of maximum certificated take-off weight over 2,500 pounds for piston powered aircraft.

The tax year for the use tax begins July 1 and continues through June 30, of the following year, the IRS said. If the first taxable use of an aircraft is after July 31, 1979, the tax based on weight is prorated by month.

The Hesperian: Regarding the old depot, my suggestion is to make a "Senior Citizens Center" out of it.

The one they have now is very inadequate and poorly located. Properly renovated, this building could be an asset to the town.

Geo. B. McAllister Route 3 Floydada, Texas 79235

'Haven't had a single request for a raise since we installed it.'

Emergency Loan Available

Emergency loans for farmers, ranchers, or aquaculture operators are available through county offices of the Farmers Home Administration (FmHA), Karson L. Bivins, FmHA Acting County Supervisor, said today.

Applications for assistance in the disaster stricken counties will be accepted by Farmers Home until May 8, 1980 for physical losses and August 11, 1980 for production losses.

FmHA loans covering actual physical and production losses may be used to replace installations, equipment, or buildings, (including homes) lost through this disaster. Funds may be used by buy feed, seed, fertilizer, livestock, or to meet interest and depreciation payments on current real estate and chattel debts. Others loans, beyond actual losses, can be made for annual operating expenses or to make

major adjustments in a farming or ranching operation.

"Funds can be used for essential operating and living costs," Mr. Bivins said.

Loans covering actual losses are made at an interest rate of five percent and are scheduled for repayment as rapidly as feasible consistent with the applicant's reasonable ability to pay. Loans beyond actual losses have various maturities, depending upon the purpose of the loan.

The interest rate for short-term loans for farm operating purposes is 9 1/2 percent. Long-term loans are being made at an interest rate of 9 percent.

To be eligible for an emergency loan, an applicant must have suffered losses from the disaster and be unable to get credit from other sources.

Emergency loans can be used to help the farmer restore damaged farm operations and additional loans based upon the emergency designation can be used to reorganize the farm for greater efficiency and better production.

Duncan School Schedules Sets Student Enrollment For Aug. 30

All children entering Duncan Elementary for the first time need to bring their birth certificate and immunization record when they enroll Thursday, Aug. 30 at 9 a.m.

Principal B.L. Copeland, of A.B. Duncan Elementary Schools says "if you do not have a birth certificate it will be necessary for you to get one; also, if your child has not had the required immunizations, it will be necessary for him to do so. The State Department of Education has stated that no kindergarden, first grade student will be allowed to enroll in the public school of Texas without a birth certificate. Your child's birth certificate and immunization records will be recorded in the office and returned to you.

"Your cooperation in this matter will

be greatly appreciated by your school officials," Principal Copeland says.

State of Texas requirements for immunization of all public school students are as follows:

- (1) Diphtheria/tetanus: Ages 5 through 11 years. At least three doses of DTP or TD of which at least one dose has been received since the fourth birthday.
(2) Oral polio: A minimum of three doses of which at least one dose has been received since the fourth birthday.
(3) Measles: One dose of Measles vaccine on or before their first birthday.
(4) Rubella: One dose of vaccine.
(5) Mumps: Mumps vaccine will be required for students below the second grade, or those under eight years of age.

Ag Dept. Rule Gives Schools Option On 'Reduced-Price' Meal Info Provided To Families

Under a new Department of Agriculture rule, schools now have the option of sending parents eligibility information only for "reduced priced" meals served in the school lunch and breakfast programs. Previously, schools were required to send notices to parents giving income and family size criteria for both free meals and "reduced priced" meals.

Schools that wish to do so may also continue to give the income standard for free meals in their notices to parents, Assistant Secretary Carol Tucker Foreman said today, in announcing the rule.

"This new rule helps to reduce the potential for incorrect reporting of family income by ineligible applicants in order to qualify for free meals," Foreman said. "But at the same time, it preserves the simple application process that has encouraged needy families to participate."

The national school lunch and school breakfast programs provide meals free or at reduced price to children based on a poverty standard issued by the Secretary of Agriculture that takes into account family size and income. Eligibility is determined on information provided in the parents' application.

Foreman said the new rule will fully protect the applicants' right to information and their right to appeal eligibility decisions. The rule requires schools, that elect to announce only reduced price eligibility criteria, to notify in writing those applicants denied benefits. The written notice of eligibility determination must include eligibility criteria for free and reduced price benefits for their particular family size, as well as information on how to appeal the decision. Beginning in the 1980-1981 school year, all schools will be required to provide such notification.

Floyd Philosopher Thinks He Knows Where The Experts Get Their Predictions About Inflation

Editor's note: The Floyd Philosopher on his Johnson grass farm on White River discusses economy or zoos, one or the other, this week.

Dear editor: One trouble with Washington experts is they never can get anything right.

For instance, the Congressional Joint Economic Committee has just completed a study of the nation's economy and reports that "inflation will be 6.2 percent a year in the 1980's."

Can't they get anything right? The figure is way off. It should be 6.2 1/2 percent. Looks like anybody ought to know that.

There is a theory that animals in a zoo can predict when an earthquake is coming. This is wrong. Zoo animals are used by experts to predict the rate of inflation in the 1980's.

Alpha Sigma Upsilon Met Aug. 14

The Alpha Sigma Upsilon chapter of Beta Sigma Phi met for a called meeting on Tuesday, August 14 at 6:30 p.m.

President Lynn Daniel called the meeting to order in her home. Audrey Thomas stated that she felt that she could not undertake the duties of vice-president and June McGaugh was selected to take this office. Final plans were made for the anniversary Man-of-the-Year party.

Donna Lipham, social chairman, asked for party suggestions before she finalized the social calendar for the year.

Vikki Yeary, yearbook chairman, asked for help and suggestions for the yearbook.

The meeting was then adjourned. Present were: Lynn Daniel, Ilene Kendrick, Donna Lipham, Vikki Yeary, Audrey Thomas, Rhonda Guthrie and Iantha Smith.

Reception Honors Erman Gray

Mr. and Mrs. Bill Gray will honor his father, Erman Gray, with a reception in their home at 800 W. Georgia, Sunday, August 26. Calling hours are from 2 p.m. - 4 p.m.

Mr. Gray was director of Floydada High School bands in 1941 - 42. Former band members, students and old friends are cordially invited to come by to renew acquaintance. There are a number of Floydada folks living here who were members of that band including Flo Davis, majorette, and Corky Guffee.

Senior Citizens See "Texas"

Eighteen Senior Citizens from Floydada, with seventeen visitors from Cone, Floydada, and Lockney boarded a chartered bus at 4:30 Tuesday afternoon and headed for the Palo Duro Canyon to view and enjoy the "Texas" pageant.

They took sack lunches for the evening meal and picniced before the show started. Beginning at 8:30 the show lasted until after 11 p.m. During the intermission various groups were introduced from Kerrville, Oklahoma, Amarillo, Lockney, Plainview, and Floydada. The one who had travelled the farthest was from some island. There were more than 1000 people in attendance.

They found the show interesting, well presented and beautiful. The thunder and lightning seemed almost for real, the group said. The display of beautiful costumes was fantastic, the lighting effect on the canyon wall was beautiful. The group reports thoroughly enjoying this outing.

Simmons And Bride To Live In Plainview

MRS. GRADY SIMMONS

Double ring wedding vows were pledged Saturday night at 6:30 in First United Methodist Church of Hale Center by former Lockneyite Grady Simmons and his bride, the former Miss Cynthia "Cindy" Diane Parsley.

After a week-long honeymoon to Colorado Springs, the couple will be at home at 1510 W. 8th Street in Plainview where both are employed. Grady is a butcher at Home Town Market, and Cindy is an employee of Hale County State Bank.

The new Mrs. Simmons is a graduate of Plainview High School. Her father is Kenneth G. Parsley of Plainview. Grady was graduated from Lockney High School and is the son of Mrs. Mary Simmons of Amarillo.

Rev. Lewis Holland, former pastor of the Hale Center United Methodist Church, directed the exchange of wedding promises. An arched candelabra centered the church altar area and two small candelabras were on each side. Aqua-blue candles were used and greenery entwined the candelabras. Lighting candles were Brian Cook of Plainview, cousin of the bride, and Becky McKone of Tulsa.

Pianist was Mrs. Ricky Cross of Lubbock. The brides brother, Scott Parsley of Plainview, was soloist, accompanying himself on the guitar.

Registering wedding guests was the groom's sister, Mrs. Patricia Thorn of Amarillo. Ushers were David Pool of Plainview, Ricky Cross of Lubbock and Lenny Hooten of Lockney.

The bride's attendants wore dresses of aqua-blue dotted swiss with lilac, pink and blue butterfly prints. Each dress was trimmed in a different color of satin ribbon and white lace. The

bodice featured ties on the shoulder and a large ruffle was at the bottom of the floor-length skirt hem. Each wore a hat trimmed in the same color as her dress trim, and they carried white palm fans with silk flowers to match their hat and dress trim.

The matron of honor was Mrs. David Pool of Plainview. Bridesmaids were Kym Blenden of Pampa and Jill Armstrong of Plainview.

Mike Fields of Lubbock served as best man, and groomsmen were Brad Blenden of Pampa and Dan Mercer of Canyon.

Mr. Parsley accompanied his daughter to the altar area and presented her for marriage. Her dress of white Chantilly lace and chiffonet was designed with a Mandarin neckline above a half-moon yoke edged in a lace ruffle and trimmed with sequins and seed pearls. The fitted bodice had long fitted sleeves of lace. The pleated skirt had matching lace trim and swept into a full chapel train. The former Miss Parsley wore a picture hat trimmed in lace and pearls which held her floor-length veil. Her bouquet was arranged in the shape of a butterfly with the flowers in lilac, pink and blue.

A reception in the fellowship hall of the church followed the wedding ceremony. Silk flower arrangements in lilac, blue and pink were used to decorate the serving table. Attendees were Mrs. H.A. Kiser, Mrs. Norman Murray, Mrs. Bob Sims, Mrs. Ricky Sanders, Miss Diane Smith and Miss Cynthia Gregory.

MRS. THOMAS GEORGE SWANSON

Lockneyite's Granddaughter Marries In Lubbock

Marcia Ann Myers and Thomas George Swanson were married Aug. 4 in Hodges Chapel of First Christian Church in Lubbock. The Rev. Dr. Jim Woodworth, associate pastor, officiated.

Parents of the couple are Mr. and Mrs. Don Myers of Lubbock and Mr. Swans of Yuma, Arizona and Mrs. Norma Aldstrom of Jamestown, New York. The bride is the granddaughter of Mrs. Olive Myers of Lockney.

Mrs. Anita Spain of Austin, organist, played selections from Bach, Grieg and Chopin preceding the ceremony. She also accompanied Terry Marrs of Lubbock who read selections from Corinthians 1:13 and verses from Kahl Gibran preceding and during the ceremony.

Greg Aldstrom of Jamestown, New York, brother of the groom, and Doug Hunter of Amarillo, cousin of the bride, lighted candles. Ushers were Jason Burks of Canyon, cousin of the bride, and Mitch Abbott of Littlefield.

The bride's attendants, gowned in floor-length peasant dresses of yellow organza, carried bouquets of daisies and yellow rosebuds. Cari Hunter of Amarillo was flower girl; Dwaina Burks of Canyon and Becky Swanson of Jamestown were bridesmaids. Janet Medlinger of Lubbock was maid of honor.

Groomsmen were Lt. Mike Nickell, Lt. Joe Arcuni, both of Lubbock; best man was Lt. James DeGarmo.

The bride, given in marriage by her father, was attired in a gown of silk organza and venise lace veiled over peau de sois. It featured a sunburst yoke, high ring collar and butterfly sleeves. Lace appliques enhanced the empire bodice and pyramid skirt that ended in a deep flounce border at the hem. Unpressed pleats swept to a wide chapel train. The bridal veil cascaded from a lace calet framing the chapel-length English net veiling.

A reception in the church followed the ceremony. Guests were also invited to the home of the bride's parents prior to the ceremony. The bride is a graduate of Lockney High School and is currently attending the University of Texas at Austin. She is a member of the Chi Omega sorority and a graduate of Cornell University. She is currently employed with the U.S. Air Force at the Base, Lubbock, Texas.

Out-of-town guests included Mr. and Mrs. White Deer; Mrs. Paul Pampa; Mr. and Mrs. Amarillo; Mr. and Mrs. Canyon; Mr. and Mrs. Austin; Mrs. Kay McLand; Mr. and Mrs. Terry; Mr. and Mrs. Mrs. Olive Myers of Maridell Fryar of Moore and Guy Young Reserve Colonel Bill Annette Powell of Higa of Hawaii, as well as Don Aldstrom of Swanson of Yuma.

Relatives in Lubbock included Mr. and Mrs. Jim Myers, Mr. and Mrs. Myers, Stephanie and Mrs. Sidney Moore, and Joe Hindman, Mr. and Mrs. FLOYD DAVIS. Alice Mooseberg is a temporary intervisor at Employment Commission. Mooseberg is a teacher at schools.

Pink and Blue Shower honors Mrs. Fawver

Mrs. Clinton (Debra Jo) Fawver was honored with a pink and blue shower in the home of Mrs. Steve Ferguson Saturday, August 11.

Guests were received by Mrs. Ferguson and the honoree, Mrs. Fawver. Special guests were the honoree's mother, Mrs. Billie Jo Smith; her mother-in-law, Mrs. R.C. Fawver and grandmother, Mrs. Bob Ratjen.

Refreshment of sugar cookies, fruit punch and mint booties were served from crystal appointments. The hostesses presented Mrs. Fawver with a high chair.

Hostessing the shower were Mmes. Steve Ferguson, Connie Bearden, John Key West, Jerrold Vinson, W.C. Snodgrass, Leon Ferguson, Phil Lemons, W.E. Marrs and Jim Jackson.

Lisa Powell Honored

Miss Lisa Powell, bride-elect of Rex Rose, was honored with a bridal shower August 11 at the home of Mrs. Doris McLain.

Lisa's chosen colors and flowers, yellow and white daisies, decorated the refreshment table. A silk flower centerpiece, silk corsage with display box, cockware and bedspread were hostess' gifts.

Honored guests were Donita Powell, mother of the bride-to-be; Frances Rose, mother of the prospective groom; Mrs. Parnell Powell and Mrs. G.D. Milton, Lisa's grandmothers.

Miss Leanne Ferguson presided at the guest register; Miss Jenny Harbert, Mrs. Marilyn Weems and Mrs. Rhonda Stovall displayed gifts.

Hostesses assisting Ms. McLain were Mmes. Juanita Chappell, Lovene Moore, Belle Vinson, Ray Bearden, Ann Ferguson, Joy Assiter, Alyne Evans, Edna Cochran, Winnie Neil, Billie Jordan, Pat Corneliene, Nancy Haged and Miss Waylene Mankins.

COFFEE
Friday night, August 10, Mrs. McLain entertained the honorees, Lisa and Rex, with a gift-opening coffee in her home.

Also present for this occasion were Donita Powell, Arlis Powell of Plainview, Frances and Alton Rose, Miss Jenny Harbert of Amarillo and Mrs. Marilyn Weems, Fort Worth.

BY MRS. CLYDE BAGWELL

August 20—We had a nice rain here in town early this Monday morning. Most places out in the community received a shower.

Anne Swepton, Nell Swinson, and Frances Mitchell went to Lubbock Saturday, August 1, and visited Maurice Burton.

Mr. and Mrs. Warren Jones spent Monday in the home of her uncle and aunt, Mr. and Mrs. Clyde Bagwell. Mrs. Jones is the former Taera Lynn Pierce. She and Warren were married July 14 at her home in Everett Washington. They were on their way to Houston to the home of his parents, where they will spend several days. They will go to Denton where both are students at the university.

Karen Pruitt spent Saturday night with her grandparents, Mr. and Mrs. Bill Tye.

Mrs. Bill Tye spent Sunday with Mr. and Mrs. A. S. Mize.

Bud DuBois of Lubbock was by Saturday and visited his parents Mr. and Mrs. Edell DuBois.

Mrs. Gladys Collins and Mrs. Floyd Starkey visited Mrs. Ethel Graham last week.

Mr. and Mrs. E.W. Walls went to Oklahoma Saturday and returned home Wednesday evening late. They visited his sister Mrs. E.C. Johnson, who was seriously ill in the Presbyterian Hospital in Oklahoma City. They also visited in the Johnson home with E.C. They also visited at Norman, Oklahoma with her sister and husband Mr. and Mrs. Marvino Marsee.

Lee Burton visited Mr. and Mrs. Ray Cook Saturday afternoon.

Anne Swepton was among the family members attending the Lewis family reunion at the home of Mr. and Mrs. Vance Campbell Saturday afternoon and night.

Mr. and Mrs. Bob Burns of Amarillo spent the weekend with her sister Anne Swepton.

Mr. and Mrs. Jerry Cannon and daughter Paige were Sunday dinner guests of Mr. and Mrs. Harvey Allen, Mike and Norman.

Tuesday night Mrs. Bobby Cozby attended a jewelry party at the home

of Ruthie Bell Hill.

Saturday night Mr. and Mrs. Bobby Cozby and Kara attended a church party at the Assembly of God Church.

Mr. and Mrs. Bill Beedy spent last week at their ranch near Claude and with their son Charles Beedy.

Mrs. Ovida Zachry of Santa Paula, California, is here visiting in the home of cousins Mr. and Mrs. Bill Beedy.

Mr. and Mrs. Bud Warren spent their vacation last week visiting in Duran, Oklahoma with her sister Mrs. A. G. Cardinal and granddaughter Calli Cardinal.

Mr. and Mrs. Bobby Cozby and Kara were Sunday dinner guests of parents Mr. and Mrs. L. B. Cozby. Others there were Mrs. Christine Moffitt and son Michael of Dallas and Susan and Carl Cozby of Lubbock.

Stenholm To Speak At Conservation District Meeting

TEMPLE—U.S. Representative Charles W. Stenholm will be the featured speaker at the South Plains Association of Soil and Water Conservation Districts meeting slated for August 23 in Post, Texas, announced W.L. Wilson, Jr., president of the organization.

"The meeting will begin at 10:30 a.m. in the Community Center Building," added Wilson.

Congressman Stenholm, who was elected to the 96th Congress in 1978, is a member of the Committee on Agriculture with Subcommittee assignments to Cotton, Dairy and Poultry, Livestock and Grains, Oilseeds and Rice.

He is also assigned to the Committee on Post Office and Civil Service with Subcommittee assignment to Investigations.

In other areas of Congressional work

Stenholm was elected Treasurer of the 96th New Members Caucus. He is an active member of the Balanced Budget Caucus, Congressional Energy Task Force (Chairman of Subcommittee on Independent Oil Producers), Congressional Rural Caucus, Congressional Solar Coalition, Forum on Regulation and Sun Belt Caucus.

At the business session, Frank Gray, member, Texas State Soil and Water Conservation Board and Charles Wood, vice-president, Association of Texas Soil and Water Conservation Districts will report on recent activities of each organization.

Twenty-two soil and water conservation districts are members of the South Plains Association of SWCDs. They include: Floyd County, Rio Blanco, Lubbock County, Blackwater Valley, Upper Colorado, Lynn County,

King-Stonewall, Dawson County, Hookley County, Lamb County, Hale County, Cochran, Yoakum, Terry, Duck Creek, Garza, Foard County, Duck Pease, Cottle County, Upper Pease, Upper Clear Fork and Gains County SWCDs.

Current officers of the organization are W.L. Wilson, Jr., president, Big Spring; Milton Kirksey, vice president, Wolfthorpe; and Sam Ellis, secretary, Southland.

SAVE TIME AND GAS

When shopping for an unusual item, call ahead to see if the store has it in stock, suggests Pat Seaman, a housing and home furnishings specialist with

the Texas Agricultural Extension Service, The Texas A&M University System.

If it is not available, the phone call will have saved time and gasoline, Ms. Seaman points out.

Jimmy De... Opens Pla... In Plainv...

Plainview—The Jimmy De... age Co. re-opened its Monday after completing renovation project.

The plant, which has been in the past 16 months, will be a meat company and will produce pork chops and sausage.

The firm will employ immediately, according to manager Jie Valley, but the number of employees get into the 300 animals on a regular basis.

The plant could produce 300 animals on a regular basis, perkins on a regular basis, Valley said.

NEWS 'N' NOTES

By Sharon Hillis

COPING WITH DEATH

Coping with death together helps both children and adults in families share feelings—their hopes, fears, sorrows, ideas, beliefs and faith for now and for the future.

This is especially important for the children in a family. What would you say to your child who asks, "When will Grandpa wake up?" not long after Grandpa has died?

For some parents this is not a difficult question.

"It is important to answer honestly and use language and ideas that the child will understand."

"Parents need to help their children cope with death—regardless of age level—because it is fundamental to developmental growth."

CHILDREN'S VIEWS

Most studies reveal that children think of death within the limits of their own experiences.

They also accept the reality of death in several stages based on their social and emotional development.

From birth until four years of age, most children sense loss, but they cannot grasp the realities of birth or death.

Children, five to nine, become aware of life and death as well as joys and sorrows they bring. This age group often attributes death to the bogeyman.

Most children eight to twelve years old see a pet die and may see a relative die. They begin to see some causes of death and to wonder about life.

But death to them is still distant and far off.

Most teenagers realize all living beings die, and most view life and death as part of the natural process of aging, sickness or general physical deterioration.

TALK TO CHILDREN

Be objective in talking to children about death and dying, but avoid being technical.

Being technical could confuse the child.

Attempt to answer questions with the most sincere, direct and truthful response possible.

SHARE FEELINGS

Mourn with your child because supporting each other helps both.

If an adult does not grieve, a child may think something is being hidden.

Express your feeling, because tears, grieving and crying are not a show of weakness. Rather, they express sadness or pent up emotions released from pressures.

Help your child establish a realistic memory of the person who has died—with pictures and spoken memories.

Helping a child cope with death is an important basic part of his life and of each family's life.

Public Notice

The above referenced project will be located in the Target Area as defined below:

Bounded on the north by Price Street from Wall to 14th Street; on the south by Houston Street from Wall to 12th Street and that portion of E. Lee from 12th to 14th Street; on the east by 12 Street from Houston to E. Lee Street and that portion of 14th Street from E. Lee to Price Street; and on the west by Wall Street from Houston to Price Street.

It has been determined that such request for release of funds will not constitute an action significantly affecting the quality of the human environment and, accordingly, the City of Floydada has decided not to prepare an Environmental Impact Statement under the National Environmental Policy Act

of 1969 (PL 91-190).

The reasons for such decision not to prepare such statement are as follows:

Clearance/Demolition - Unoccupied and dilapidated structures, abandoned vehicles and uncleared, overgrown lots in the project area pose serious threats to public health and safety and contribute to neighborhood blight. The project will result in no long term changes in land characteristics or density. Short term increases in air and noise pollution may occur during actual demolition and clearance activities, but no long term effects on pollution levels are expected. The project will result in no overload in community services and, in fact, should reduce demand for health and fire services. No historical, archeological or architectural points of interest will be affected by the project.

An Environmental Review Record respecting the within project has been made by the City of Floydada which

documents the environmental review of the project and more fully sets forth the reasons why such statement is not required. This Environmental Review Record is on file at the above address and is available for public examination and copying, upon request, in the office of the City Manager between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday.

No further environmental review of such project is proposed to be conducted, prior to the request for release of Federal funds.

All interested agencies, groups and persons disagreeing with this decision are invited to submit written comments for consideration by the City of Floydada to the office of the City Manager. Such written comments should be received at City Hall on or before September 10, 1979.

All such comments so received will be considered and the City will not request release of Federal funds or take any administrative action on the within

project prior to the date specified in the preceding sentence. The Chief Executive Officer for the City of Floydada is Parnell Powell, Mayor.

NOTICE TO PUBLIC OF REQUEST FOR RELEASE OF FUNDS

City of Floydada
P.O. Box 10
114 West Virginia
Floydada, Texas 79235
806/983-2834

TO ALL INTERESTED AGENCIES, GROUPS AND PERSONS:

On or about Sept. 18, 1979, the City of Floydada will request the U.S. Department of Housing and Urban Development to release Federal funds under Title I of the Housing and Community Development Act of 1974 (PL 93-383) as amended, for the following project:

Clearance Activities
\$11,000.00 estimated cost

The above referenced project will be located in the Target Area as defined below:

Bounded on the north by Price Street from Wall to 14th Street; on the south by Houston Street from Wall to 12th Street and that portion of E. Lee from 12th to 14th Street; on the east by 12th Street from Houston to E. Lee Street and that portion of 14th Street from E. Lee to Price Street; and on the west by Wall Street from Houston to Price Street.

An Environmental Review Record respecting the within project has been made by the City of Floydada which documents the environmental review of the project. This Environmental Review Record is on file at the above address and is available for public examination and copying, upon request.

The City of Floydada will undertake the project described above with Block Grant funds from the U.S. Department of Housing and Urban Development (HUD), under Title I of the Housing and Community Development Act of 1974 as amended. The City of Floydada is certifying to HUD that the City of Floydada and Parnell Powell in his official capacity as Mayor consent to accept the jurisdiction of the Federal courts if an action is brought to enforce responsibilities in relation to environmental reviews, decision-making and action and that these responsibilities have been satisfied. The legal effect of the certification is that upon its approval, the City of Floydada may use the Block Grant funds and HUD will have satisfied its responsibilities under the National Environmental Policy Act of 1969. HUD will accept an objection to its approval of the release of funds and acceptance of the certification only if it is on one of the following bases (a) that the certification was not in fact executed by the chief executive officer or other officer of applicant approved by HUD; or (b) that applicant's environmental review record for the project indicates omission of a required decision, finding or step applicable to the project in the environmental review process. Objections must be prepared and submitted in accordance with the required procedure (24 CFR Part 58) and may be addressed to HUD at:

Community Development Block Grant Program
Department of Housing and Urban Development
2001 Bryan Tower
Dallas, Texas 75201

Objections to the release of funds on bases other than those stated above will not be considered by HUD. No objections received after October 8, 1979, will be considered by HUD. The Chief Executive Officer of the City of Floydada is Parnell Powell, Mayor; City Hall, Floydada, Texas.

Proof of Performance

Field One Mile East
From Intersection Of
US 62 & FM 37

There's no better way to find out how a hybrid or variety performs in your neighborhood than actually seeing it for yourself. That's exactly what you can do at Pioneer Crop Information Centers and Proof of Performance fields. From the day they're planted until they're harvested these fields are yours to inspect anytime you please.

At Crop Information Centers you'll see the effects of various cultural practices on Pioneer brand seeds including double-row versus single-row planting, corn kernel size variations, planter speed and planting date comparisons, disease tolerance tests, irrigation studies and more. At Proof of Performance fields you'll see side-by-side performance comparisons involving Pioneer brand hybrids and varieties. With first hand knowledge like this, you can decide on cultural practices and choose your seed on the basis of fact, not guesswork.

Stop at your nearest Pioneer Crop Information Center or Proof of Performance field. You're always welcome.

Watch for Harvest Hotline

in this newspaper.

Performance and yield information from these fields will be published immediately following harvest. Watch for results.

Muscular Dystrophy Fight Organized For September

Women from the Alpha Mu Delta service organization geared up recently for the fight against muscular dystrophy next month.

Helping the Muscular Dystrophy Association raise funds to aid victims of neuromuscular disease, provide public education and fund research programs, Alpha Mu Delta will be manning telephones in Floydada and Lockney during the Jerry Lewis Labor Day Telethon.

Most of the money raised in the yearly telethon is used for programs and research. In 1977, the latest year for which figures are available, 83 percent of contributor's dollars were expended for program services with 44 percent of that total going for research.

There is no single disease called muscular dystrophy, according to the association. MD is actually a group of

muscle-destroying disorders which vary in hereditary pattern, age of onset, initial muscle attacked, and the rate of progression.

One of the major types of muscular dystrophy, the Association said, strikes victims between the ages of two and six, and occasionally soon after birth. It is diagnosed by a complicated series of enzyme tests, biopsy analyses and nerve-impulse readings.

Initially, activities like stair climbing or rising from the floor are difficult. Shoulder muscles become involved in a few years and there is an enlargement of calf muscle caused by increased deposits of fat which take the place of muscle tissue.

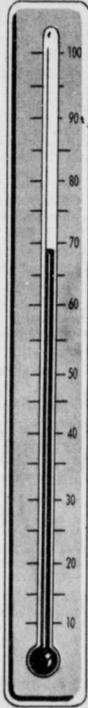

Progression of this most common and severe type of dystrophy is rapid, with death often occurring within 10 to 15 years of clinical onset.

12° = 37%

For every dollar it costs you to heat your home to 68° in the winter, it takes 37 cents more to raise the temperature to 80°. Thus, a 17 per cent increase in temperature (from 68° to 80°) requires 37 per cent more money. The price of electric power is not likely to go down, but you can make a substantial difference in your electric bills if you insulate your home properly, humidify, and set your thermostat at 68° in the winter. This message is presented as a service to our member-owners.

Bullock Says Taxes Texas Cities' Revenue

AUSTIN, Tex.—State Comptroller Bob Bullock Friday said legislative changes in the collection and allocation of local sales and use taxes will insure continued revenue to Texas cities.

At the same time, he said a major change spelled out in Senate Bill 582 adds tax-collecting responsibilities for some businesses outside local taxing areas.

The bill directs sellers located outside a taxing area to collect use tax for cities in which taxable items will be used and clarifies where a sale takes place for local sales tax purposes.

"We've got a better yardstick to measure where sales occur and to what city or special authority rebates will be allocated," Bullock said.

Local sales and use taxes are basically the same as state sales and use taxes. The same items are covered and the same exemptions apply, only the rates are different. Likewise, the same reporting and paying rules are in effect.

Local taxes include the optional one percent city sales tax and taxes collected for the state's two Metropolitan Transit Authorities. There is a one percent MTA tax in the Houston area and a one-half percent MTA tax in the San Antonio area.

These taxes are collected along with the four percent state sales tax by merchants and other sales tax permit holders and are rebated by the Comptroller's office to the city where the transaction took place.

Last year, some 900 Texas cities shared more than \$425 million in city sales tax rebates.

Sellers making all sales at outlets in taxing cities can report all local tax on regular sales and use tax returns next to the appropriate outlet.

SOFT IS BAD!

Buy cucumbers that are firm, fresh and a deep-green color.

Avoid buying those with dull-green or yellow color, and don't buy those that "give" under slight pressure, says Frances Reasonover, a foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

WILAND BAPTIST COLLEGE

Blackwood Brothers To Appear In Concert

Blackwood Brothers religious group will be appearing in an concert in Plainview, at Wiland Baptist College, Friday August 24.

inspirational singing group in the world. They have sold millions of records, been on network television, are Grammy Award winners, and have been voted the top male group numerous times. James Blackwood has repeatedly been voted the number one male singer year

after year, as well as Cecil Blackwood being voted America's favorite baritone. The Blackwood Brothers' have just completed their concert tour of Russia, Israel, Jordan, and Egypt making a total of 35 countries in which the Blackwood Brothers have appeared.

Plains BASHA Slates Anniversary

Plains BASHA of the Texas Veterans Association will hold its first anniversary celebration, August 25 beginning at 10 a.m. in this BASHA, or BASHA up solely of the Armed Forces of World War II. The CBI theater "Forgotten Theater" will be in Europe and in the United States. However, the celebration will be of prime importance and resulted in the construction of the Himalayan Mountain.

members are encouraged to bring photographs and souvenirs of CBI. The meeting will be held at Vickers Aviation Hanger which is located on the west side of I-27 (US 87) directly across from the old entrance to the Lubbock Municipal Airport. There will be a \$4 per person charge for the meal. Other refreshments will be furnished by BASHA. Reservations are requested and may be made with Ray Chapman, Commander of the Unit, at 3212 - 34th Street, Lubbock, Texas 79410, telephone number 799-4321. Ask for Pam.

POTATOES, ANYONE?

Fresh potato consumption is up to almost four pounds per household per week, though the frequency of serving potatoes has remained about the same.

reports Gwendolyn Clyatt, a consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

USDA Publishes

Final Rules For Reducing Errors

Regulations to reduce error and improve management in the food stamp program have been published by the U.S. Department of Agriculture.

State agencies that administer the food stamp program will be required to monitor local operations more closely under a system mandated by the Food Stamp Act of 1977. State agencies are required to use quality control reviews to reduce errors. Under quality control, state review samples of their food stamp caseloads to find the number in ineligible persons receiving food stamps and eligible persons getting incorrect amounts of stamps.

States whose error rate, as validated by the department, is less than five percent will receive a 10 percent increase in federal administrative payments, from 50 to 60 percent.

This change is expected to provide incentives to states to reduce their error rates, Foreman said.

The final regulations were published in the August 3 Federal Register and take effect Oct. 1. States will submit their first report next spring for the Oct. 1979-March 1980 period, and will receive the additional funding for the period, if they so qualify.

Willie Sings "Sweet Music"

"Shotgun Willie likes to save the gas and stay alive, Shotgun Willie likes to drive laid back at 55..."

These lyrics might have escaped the attention of some of the Fourth of July picnickers at Willie Nelson's Seventh Annual Picnic in Austin, but it was definitely sweet music to the ears of Office of Traffic Safety (OTS) personnel present at the event.

OTS film crews recorded the occasion for future use as a public service announcement in support of the 55 mph speed limit.

"I encourage everyone to respect the speed limit," said Nelson, "you can enjoy the beautiful Texas countryside a whole lot more laid back at 55."

Governor Bill Clements commended Nelson for his endorsement of the 55 mph limit and the conservation of gasoline.

Clements said the average driver can improve his gas mileage up to 20 percent by driving 55 instead of 70 mph, and hundreds of lives could be saved in Texas each year by the lower speed.

So the next time you hear the familiar strains of "Shotgun Willie" coming over the airwaves, the words following it may be:

"Hello, this is Willie Nelson reminding you that driving 55 saves gasoline and saves lives."

(cont. from page one)

Traveling Laboratory

"Each soil type has its different characteristics," explained LaBaume. By matching how well soil types stick together with photographic charts, personnel are able to accurately measure the soil moisture and then determine how much, if any, should be added through irrigation. The other two methods used gives more details and takes 1 1/2 to 2 hours to run and the methods are more scientific and is a mathematical formula to discover the density of the soil and the amount of moisture, but the feel method will get you in the "ball park" and is accurate enough. The speedy moisture equipment cost about \$450.

In testing furrow irrigation, conservationist use orifice plates—metal plates with a round hole and glass window on each of the four sides. By placing the orifice plates in the furrow, then measuring the difference in the height of the water between the upstream and downstream sides of the plate, conservationists can determine the volume of water flowing down the furrow.

"The holes in the plates are cut to allow an exact amount of water through, depending on water through, depending on the pressure behind the plate. We determine the pressure by measuring the difference between the upstream side through the small glass windows in the plates," explained LaBaume. By using charts, the conservationists determine the gallons per minute flowing through the furrow.

"Once we measure the gallons per minute and we usually take measurements on several furrows to get an average we take the time the farmer actually leaves water running in the furrow and the number of furrows per set to calculate the total water application."

Becker was trying to irrigate every other row on the solid planted cotton in 12 hours, but because of cracking and lateral movement of water into the non-watered row on the flat field (15

percent drop per 100 feet) it was taking 18 hours to irrigate and the end results was about the same as irrigating every row, no tailwater or erosion was occurring. Becker was applying 25 gallon per minute per furrow by watering 19 furrows (actually 38 rows of cotton). He made the decision to irrigate solid and the end result was that he was able to get over the same amount of land in the same amount of total time that it was going to take by skip watering. This was achieved by applying water on 12 hour sets, applying 18 gallons per minute on 27 rows. The tests conducted proved this point and instead of having water standing for 18 hours instead of 12 which could delay maturity, Becker applied the same amount of water and accomplished what he originally intended.

By knowing gallon per minute (GPM) per furrow time in hours to get the set out, length and width of rows one can determine how many acre-inches of water are being applied or acre-foot being applied. An acre-inch of water is one inch deep over one acre (43,560 square feet) and acre-foot is water 12 inches deep over one acre.

By knowing what the gas meter or electric meter is costing per hour, then the cost per acre inch or acre-foot can be obtained. The cost at the present time is about \$2.00 fuel cost per acre inch and \$2.00 operation and maintenance cost per acre inch or a total on the average of \$4.00 per acre inch of water applied.

LaBaume summed up the workshop by stating "that the purpose of the testing is not to tell the farmer he has to do this or that, but with the data obtained the farmer can decide if he is satisfied with his system or not and change it if he desires."

LaBaume also stated that SCS activities will be geared more at training individuals with how to conduct some of the tests "using the charts that the SCS will furnish".

Working Couples Face Special Income Tax Problems

It's not too early to think about your federal tax bill, especially if you're among the millions of couples in which both spouses bring home a paycheck. "Last filing period, many married couples were surprised to find out that they instead had to write a check to cover a balance due on their tax bill," noted A.W. McCannless, director for the Dallas district of the Internal Revenue Service. "The problem lies in the fact that the withholding rates are designed around the individual's wages and do not take a spouse's wages into account."

For example, the highest tax rate applicable to a couple filing a joint return with only one wage earner making \$26,000 is up to 32 percent. The withholding would be adequate. But for a couple with one spouse earning \$10,000 and the other \$16,000, the likelihood that an insufficient amount would be withheld is very great.

Mr. McCannless offers several alternatives for the two-paycheck couple. One possibility is to pay additional tax by means of estimated taxes. In this system, the amount is paid in quarterly installments directly to the IRS using vouchers that come with Form 1040-ES, "Declaration of Estimated Tax for Individuals."

Another choice is to file a revised Form W-4, "Employee's Withholding Allowance Certificate," with the employer claiming fewer or no allowances or requesting additional withholding. Also, married taxpayers may choose to have taxes withheld as if they were single. Both Forms 1040-ES and W-4 are available by calling the IRS taxpayer assistance telephone operation.

Additional information may be found in IRS Publication 505, "Tax Withholding and Declaration of Tax," available free from the IRS.

Mackenzie Lake Slates Labor Day Races

Mackenzie Lake Public Relations director John McCammon has announced the scheduling of races for the entire family to be held at the lake Labor Day, Sept. 3.

Three races of one mile, three miles, and 10,000 meters (6.2 miles) are open to the public. Entry fee of \$1 should be sent to Mackenzie Water Authority, Route 1, Silverton, Texas 79257 by September 1. However, late entries will be accepted until 8 a.m. the day of the races.

In the one-mile race for children, starting at 8 a.m., age groups are 8 and under, 9-10, and 11-12.

The three-mile race will start at 8:15 a.m. and is for age groups 8-10, 11-12, 13-15, 16-18, 19-29, 30-39, 40-49, and 50 years and older. There will also be a women's division in the 3-miler for ages 13-15, 16-18, 19-25, and 26 and older.

The 10,000-meter-race will begin at 8:45 a.m. and will include age groups 18 and under, 19-25, and 26 and older. Women's division will be 13-15, 16-18, 19-25, and 26 and older.

All races will have the same starting and finishing point. If there are any questions, more information can be obtained by calling the Mackenzie Lake office at 633-4318.

Trophies will be given for the overall winner in each of the three races. First, second and third place ribbons will be given in each age category.

Funeral Service

Today For M. Thomas

Miss Mildred Katherine Thomas, 71 of Lockney died unexpectedly Tuesday at Lockney General Hospital at 11:40 a.m. after a sudden illness.

The funeral service will be held Thursday (today) at 1 p.m. in First United Methodist Church of Lockney with Rev. Dewitt Seago officiating. Burial, under direction of Moore-Rose Funeral Home, will be in Lockney Cemetery.

Miss Thomas was born Nov. 5, 1907, in West Texas. She moved from West to Floyd County in 1927. She was a member of First United Methodist Church of Lockney.

Survivors include two brothers, Frank Thomas and Robert Thomas, both of Lockney; a sister, Mrs. Mary Blanchard of Lubbock; a niece, Adrienne Blanchard of Lubbock, and four nephews, Jeffrey Paul Blanchard of Dallas, John Ben Blanchard, Robert Henry Blanch-

ard and Cliff Blanchard, all of Lubbock. Pallbearers for the services are to be W.L. Thomas, Donnie Bybee, Art Barker, Barry Barker, Joe Taylor and Eddie Fortenberry.

J. B. Massingill

Dies Recently

Services for J.B. Massingill, 72, were held Friday, July 27 at First Baptist church, Borger.

Mr. Massingill, born in Hamilton, lived in the area since 1926. He retired from Phillips Petroleum Co.

Survivors include his wife; two sons, Jerry of Corpus Christi and Jim of San Antonio; two daughters, Mrs. Dorothy Coss of Phillips and Mrs. Annette McDaniel of Amarillo; a brother, Garth of Pittsburgh, Penn.; two sisters, Mrs. Zena Griffis of Edinburg and Mrs. Faye King of La Mesa, California; and 10 grandchildren.

Floyd County

Pioneer Dies

Buelah Allen Roberson, 300 Boice Street, Lockney, died Monday at 7:15 a.m. in Heritage Home in Plainview. She was 89 years old.

Services were held Tuesday at 10 a.m. in West College and Third Street Church of Christ. Minister Earl Cantwell of Rock Creek officiated. Burial was in Lockney Cemetery with Moore-Rose directing arrangements.

Pallbearers were Boyce Mosley, Durward Jack, Chester Carthel, Roger Stapp, Joe Cunyus and Oscar Golden.

Mrs. Roberson was born March 17, 1890, in Hill County and moved to Floyd County in 1901. She was married to Frank Roberson Dec. 11, 1910. Mr. Roberson died Jan. 25, 1957. Mrs. Roberson was a member of West College and Third Street Church of Christ.

Survivors include four sons, Frank Allen, Henry Lem. T.J. and Gilbert Roberson, all of Olton; a brother, Buster Whitlock of Memphis; seven grandchildren and nine great-great grandchildren.

Alfred Carmack

Services for Alfred Milton "Pete" Carmack, 66, of Amarillo and formerly of Floydada were at 2 p.m. Sunday in First United Methodist Church of Floydada, with the Rev. John Mourer, retired Amarillo Methodist minister, officiating.

Burial was in Floydada Cemetery under the direction of Moore-Rose Funeral Home.

Carmack died about 10:30 a.m. Friday at his home after a lengthy illness. He was under a doctor's care.

The Eldorado, Okla., native moved to Floyd County in 1921. He married Ruby Owens Dec. 29, 1934, in Floydada. He was a retired mechanic.

Survivors include his wife of the home; two daughters, Millie Burgett and Norma Jefcoat, both of Amarillo; his mother, Eula of Fresno, Calif.; two

sisters, Geneva Cook of Fresno, Calif., and Mae Phifer of McAdoo; a brother, Glen of Los Angeles, Calif.; seven grandchildren; and one great-grandchild.

Mrs. Baccus'

Step-Brother Dies

In Crosbyton

Services for W.F. "Bill" Wheeler, 48, of Crosbyton were held Monday in Crosbyton First United Methodist Church. Burial was in Crosbyton Cemetery under the direction of Adams Funeral Home.

The step-brother of Mrs. Rusty (Jody) Baccus of Lockney died Sunday in the Crosbyton hospital following a long illness.

He was a farmer, a member of Crosbyton United Methodist Church, and active in many community undertakings. In 1978 the Little League baseball park in Crosbyton was named in his honor.

Survivors include his wife, a son, a daughter, his parents Mr. and Mrs. Rex Wheeler of Crosbyton, two grandmothers, two brothers, and another step-sister.

Floydada Woman's

Mother Dies

Services for Della Jacobs, 71, of Silverton were at 2:30 p.m. Sunday in the First Baptist Church, Silverton with the Rev. Royce Denton, pastor officiating.

Burial was in Silverton Cemetery under the direction of Silverton Funeral Home.

Mrs. Jacobs died at 2:45 p.m. Thursday in Swisher County Memorial Hospital at Tulsa after a short illness.

The Quitaque native married Cleat Jacobs Dec. 31, 1938. She was a retired nurse and a member of St. Mark's Episcopal Church in Plainview.

Survivors include her husband; a son, James A. of Chicago; five daughters, Mrs. Dean Berson of Silverton, Doris Marler of Irving, Lynn Marler of Floydada, Martha Jo Hawk of Saudi Arabia and Mary Jane Doyle of Bedford; a sister, Mary John Askey of Albuquerque; 19 grandchildren and 30 great-grandchildren.

FLOYD DATA

Jo V. Bingham, her mother, Mrs. Cleo Goins and sister Maurine Delk of Amarillo recently spent a week in the Bingham's trailer at Cludcroft, New Mexico. While there they visited with Roberta Hardin, Edith Muncy and their mother, Mrs. Mae Garrett, who were staying in the Hardin's trailer at Cludcroft.

Eumeraldo Gonzales

Rites Held

In South Texas

Services for Eumeraldo Gonzales, 39, of Floydada were held Sunday and Monday in Cotulla. Rosary was said at 7 p.m. Sunday at the Hearn Funeral Home Chapel, Cotulla, and Requiem Mass conducted Monday, 10 a.m. at St. Joseph Catholic Church in Dilley by Reverend John Van Lare, C.M., pastor of Cutulla Sacred Heart Catholic Church.

Burial was in the Dilley cemetery with arrangements made by Hearn Funeral Home of Cotulla.

Gonzales died about 10:30 a.m. Friday in Caprock Hospital of Floydada after a brief illness.

The Dilley native had lived in Floydada since 1979. He married Hortencia Molina in 1964 in Dilley.

Survivors include his wife; two sons, Daniel and Viviano; a daughter, Maria Beda; his parents, Mr. and Mrs. Viviano of Dilley; three brothers; and seven sisters.

THELMA THWARTUM -- By Alex

A Public Service of NRTA-AARP Crime Prevention

LITTLE THINGS COUNT

When changing to a different life-style, little things do add up, points out Dorothy Taylor, a family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Families moving to the country from the city and vice versa need to spend more time considering all aspects of the new life, Miss Taylor says.

"Triple The Difference" Prices The Best For You!

Prices Good Thru Sat., Aug. 25, 1979

Each of these advertised items is required to be readily available for sale at or below the advertised price in each store except as specifically noted in this ad. We reserve the right to limit quantities. None sold to dealers.

TRIPLE THE DIFFERENCE

Come into Piggly Wiggly and find different grocery items, any you wish except for meat or produce, quality and trim varies from store to store. Then compare prices on those items at any other store in town. If you find a better price bring in your Piggly Wiggly receipt with the other store's price tag and we'll pay you TRIPLE THE DIFFERENCE CASH! Now, that's a serious saving offer!
