

## Tax re-evaluation to begin soon in Floyd County

### Field reps out within 10 days

### FISD trustees give preliminary okay to plans for field house

The board of trustees of the Floydada Independent School District at their regular session meeting Tuesday gave preliminary approval to plans for collecting cost information on building a new field house and renovating the physical education facilities at the high school.

High School principal Charles Tyer, head coach L.G. Wilson and Walter Davis met with the board to present sketches and plans for the new field house.

In a unanimous vote the trustees allowed the three to proceed in getting firm figures on the project for presentation to the board.

Jerry Cannon, FISD superintendent, presented Mazie Becker's resignation to the board. The members accepted Mrs. Becker's resignation and approved hiring Nanette Fitzgerald as four-year-migrant teacher and Mike Vickers

as junior high coach and Physical education and health instructor.

Tommy Cathey, district tax assessor-collector, reported that through Jan. 7, his office had collected \$635,147, or 76.5 percent of the total district tax bill.

The trustees awarded sale of a 1951 Ford pickup truck to J.G. Clopton, of Lubbock. Clopton bid \$401.95 for the district vehicle.

The principals of the high school and junior high presented evaluations of their personnel to the board. Each principal also talked about possible improvements to his campus.

By unanimous vote, the board decided to extend superintendent Cannon's contract for an additional year.

Present at Tuesday night's meeting were Travis Jones, Adrian Helms, Harvey Allen, Martha Farris, Weldon Pruitt, Jerry Cannon, Tommy Cathey and Leonida Cleveland.

**NO-NONSENSE APPRAISAL** — Jim McMorries discusses the new property appraisal system with the Floydada Lions at their Thursday meeting.

Jim McMorries, of the Hereford tax appraisal firm that is contracted to re-evaluate agricultural land in the 10 county taxing districts, met with several local groups this week to explain what will be occurring around the county in coming weeks to get the reappraisal completed.

The appraiser gave the citizens a rundown on how the new tax system came into being and what his company would be doing to comply with the law.

"In 1978, a state constitutional amendment labelled 'tax relief' got an 85 percent vote of approval around the state," McMorries said. "It was definitely mislabeled — it should have been labeled 'tax increase,' because that's been the result everywhere it's been tried."

The 66th Legislature felt mandated in 1979 to enact legislation (House Bill 1060) that is supposed to give tax relief by exempting money in bank accounts, all stocks and bonds, household furniture and family vehicles, depending on the jurisdiction," McMorries said. The law also gave special exemptions to elderly persons for their homestead.

For McMorries' firm's purposes, every jurisdiction in the county must evaluate agricultural land to show both the market value and the agricultural value, he said. The law sets guidelines to arrive at the value.

School districts around the state will stand to lose from the new valuation, McMorries said, because while the districts are supposed to be reimbursed dollar for dollar for their losses caused by the old-age exemptions, "that has not and will not occur."

The only school district which will receive 100 percent reimbursement for lost revenues from the state is Hereford, McMorries said. That is because Hereford has kept valuation close to market value.

The average loss to school districts through the exemptions, the appraiser said, would amount to about 55 percent of its tax revenue, or approximately \$30,000. There would be no reimbursement for losses on agricultural land taxes because the ag value of land was usually higher than the market value.

The Floydada school district was in good shape when compared with other districts, though, McMorries noted.

The appraiser did predict some problems in correlating the local valuations with a state valuation schedule. In 14 categories, he said, and based on 100 percent of market value, state statistics consistently showed significantly higher valuations for property than did the FISD tax rolls.

The Austin surveyors valued homes in the district at \$21,891,863, for example, while the FISD figured only show values of \$13,244,577. In the largest discrepancy, the state estimated that personal farm equipment (tractors and equipment) in the district was worth \$13,228,281. The FISD analysis valued the farm personal property at \$836,161.

"The gap is going to close in 1981," McMorries said. However, taxes will not necessarily increase, he said. Each entity is mandated to budget and set up a tax rate that will support services.

"If an entity can operate on half of the tax bill then taxes could be cut," McMorries said. "A raise could come in taxes on items not taxed before."

McMorries defined Senate bill 621 as an act setting up a central appraisal concept. The municipalities and taxing districts would elect five members to sit on a board of directors.

All municipalities are required to appraise property by 1982, he said, but the county, which had the option of waiting, chose to come into the district now and thereby save thousands of dollars in costs.

McMorries concluded his remarks by noting that appraisers would begin work in the county within 10 days.

### Four candidates seek water district seats

Candidates will seek four seats representing Floyd County Jan. 19 in the High Plains Underground Water Conservation District No. 1 general election.

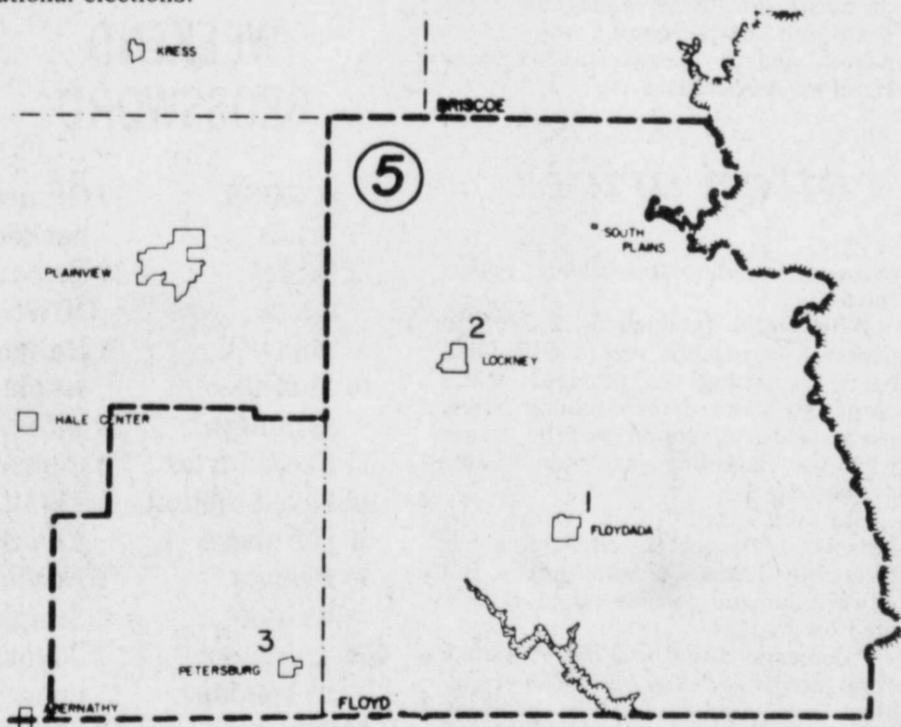

The slate calls for electing one district board member and six county committeemen, the candidates-at-large are C.O. Lyles in Floyd County and Harold W. Newton, Jim Byrd and Ray Potter in Hale County.

In the county commissioners' precincts in Floyd County Cecil Jackson is the candidate in Precinct One and D.R. Sanders is the Precinct Three candidate.

Polling places in Precinct Five will be in the county courthouse in Floydada, the Barker Insurance Agency office in Lockney and the Petersburg Community Center.

The election is open to all voters registered to vote in city, state and national elections.

### Water district polling places

### Floyd County commissioners to meet Monday morning

The Floyd County commissioners will meet Monday morning in regular session at the courthouse. The meeting will begin at 9 a.m.

First on the agenda, Kenneth Bain and Mike Gegenheimer will meet with the commissioners and county judge Choise Smith to discuss changes in plans to remodel the county attorney's office.

Keith Reeves will appear before the court at 9:30 a.m. to discuss the court property which borders his property on Ollie Street.

At 10 a.m. representatives of the Floyd County Farm Bureau will meet with the court to discuss cleaning out culverts in county roads in all four precincts.

Blue Cross and Blue Shield representatives will meet with the court at 10:30 a.m. to discuss a dental plan for county employees. The company is also expected to propose a change in rates for an increase in coverage.

Mrs. Jonelle Fawver, county tax assessor-collector, will meet with the commissioners at 11 a.m. to discuss the computer time-share contract for her office.

The court will discuss with Joe Martin an estimate he made for remodeling the north end of the agriculture building.

In final business, the commissioners will select members for the grievance committee.

### Correction

On page three of Thursday's Hesperian, a photo of two girls placing soup labels in a collection container incorrectly identified the young lady on the right. She is Melissa Hernandez. The Hesperian regrets the error.

THE FLOYDADA HIGH SCHOOL band's winter concert will be discussed at the Band Boosters meeting Monday, January 14 at 7 p.m. at Lighthouse Electric.

SUBMIT YOUR letter of entry to the Women's CoC for the employer of the year award to be presented March 3 at the Chamber banquet. Letters will be accepted until February 20.

GET YOUR blood pressure checked free any Tuesday from 9 to 11 at the First National Bank. The service is sponsored by the American Heart Association.

**DATES TO REMEMBER:**  
The Whirlwind Football Banquet is scheduled for Saturday night January 12 at 7 p.m. in the Massie Activity Center. Tickets are \$5 each and available from Robert Stovall.

Registration for Beginning Spanish 142, Tuesday January 15 at 6 p.m. at the high school.

WELDON AND FRANCES McClure were enroute to Wichita Falls Monday, and about half way between Crowell and Vernon they "had a good laugh." There were several cotton modules beside the road in one field, and one of the modules, written in big black letters, was "Hazel's Patch."

## Tax appraisers vow professionalism in setting property valuations

### Will treat everyone alike

By Jim McMorries  
McMorries & Co.

Because of the enactment of Senate Bill 621, it is necessary for all taxing jurisdictions to do a re-appraisal of property by 1982 and every five years thereafter. All of the taxing jurisdictions in Floyd County have recently contracted to re-appraise. In view of the rising cost to do re-appraisals, the city of Floydada and the Floydada Independent School District decided it was now time to award a contract to appraise the properties in their jurisdiction to comply with the new law and to save the taxpayers money.

McMorries and Company have been awarded the contract. We completed the re-appraisals for Amherst, Anton, Spade, Olton, Spring Lake, Earth Schools, and have a contract to re-appraise the Sudan School District in 1980. Our appraisal work is to be completed in 1980.

McMorries assures its client entities the values will be reasonable, that equity will be obtained in this re-appraisal program, and that the program will meet all of the requirements of the State.

The contract price is a turn-key total not a percentage of the value or a commission; in other words, McMorries and Company will be paid only the contract price and the company will provide all labor and materials to complete the job.

There will be many questions asked throughout the program:

What is the company supposed to do in this re-appraisal program?  
The company will inspect each and

every parcel of property in the school district. Each improvement of value will be measured and graded (consideration being given for the type of construction, age, condition, location etc.) All rural lands will be inspected and graded by the use of an eight-grade classing system of the type used by the Soil Conservation Service. Cultivated and pasture lands will be noted on soil maps on each tract of land, and irrigation will be a consideration in the final value.

Will the appraisers see all owners? The appraisers will attempt to talk to all owners. The appraisers will definitely inspect every parcel of property. However, in our 20 years in the business, we find it impossible to see every owner when enumerating the properties.

In case the appraiser does not get to talk to the owner when he comes by to measure and classify the property, what can the owner do to insure he is getting fair and equitable consideration? When the appraiser calls a home on business, he will have a business card showing

the company name and the appraisers name. The appraiser will present the business card to the person answering the door (this is for identification purposes). He will state his name and business, ask some questions about the improvements, land or irrigation, then ask permission to measure and inspect the improvements and property. In the event the owner is not at home, a card will be left in the door or mail box. In the event the owner wishes to talk to the appraiser, he may call the tax office, leaving his name and phone number. The appraiser will within a few days return the call; and if the owner desires, will make an appointment to come back and talk to the owner. We recognize that this program belongs to the taxpayers and we want to be as accurate as possible. We definitely will work with the property owners to insure equal and uniform values, and will attempt to answer all questions.

Will a property owner have an

opportunity to see his values before they become final? Yes. A letter will be mailed to each owner in about June 1980, stating a time and place where an owner can meet with the appraiser. At this time, he can review the values put on his property and also review the values placed on the other property owners. Then if an owner feels his property is not valued equitably he can ask for a recheck of the property. The appraiser will be happy to make a recheck of the property. If the appraiser finds that an error has been made, he will correct the values; if the appraiser feels the value is equal to other comparable properties, he will tell the owner. Then, if the owner desires, he may meet later with the local board of equalization comprised of local property owners.

Will taxes be increased as a result of re-appraisal? No, not necessarily. In fact, some properties likely will reduce in value. All will depend upon the facts

found relative to value in the jurisdiction. The intent of the re-appraisal program is not to raise taxes, only to equalize taxes. The Constitution and laws of the State require an equal and uniform tax base. It is unlawful and morally wrong to tax a property worth only \$10,000.00 the same as a property worth \$30,000.00. The only thing the re-appraisal program will do is to provide the jurisdiction with an equal and uniform tax base. The total results will not be known until about May, 1980.

Will properties be valued at its cost when purchased or when built? No, the law requires that all properties be valued equal and uniform in accordance with the current market value of the property as of January 1st of the year (in this case, 1980.) As an example: a house built in 1935 with 1,000 square feet of living area cost \$3,500.00 when built in 1935. Today it would sell on the market

Side Glances

by John Carroll

GOT A SNEAK LOOK at my W-2 tax report form Friday. After a cursory examination (mostly cursing after the initial examination), all I can say about this time of year is "Ouch!"
I HAD AN IDEA THE OTHER DAY on how we could rub the Russians' noses in it (like Jimmy Carter wants) and still make a profit on our grain (like the farmers groups demand.)
Consider that whether we sell directly or not, the Soviets still want to buy a lot of extra wheat. And they're probably not terribly particular about where they get it.
American farmers and their agents could sell on a "spot market," much like the OPEC nations do with their non-contracted oil, to countries which are friendly with both the U.S. and the U.S.S.R.
Selling on a spot market system

(which will exist as long as there is a demand) could bring prices up to 30 percent more than the contracted price.
The Russians will buy from anyone willing to sell. The American farmer could sell his grain at a profit, the middleman country could make a substantial profit (showing the world, incidentally, that it pays to be our friends and not our enemies), and the Soviets would pay a higher price for the grain that they desperately need for livestock feed.
Thus the farmer would be protected while our government made good its vow to cause the Russians economic damage.
I'm no economist and it might not work. But, then again, it might. But without more economic freedom of action for the farmer, it doesn't have a chance in Hades.

Caprock Council Girl Scout cookie sale set to begin Feb. 1

What has become an annual American tradition continues in our community — the annual Girl Scout cookie sale will begin February 1 and extend for two weeks, according to Mrs. Nolen Swain, president, Caprock Girl Scout Council.
This year six varieties of cookies and a cheddar cracker will be available at \$1.50 a box. Girl Scouts of all ages will be selling chocolate and vanilla creme, chocolate chip, country oats, mint, scot-tea, savannah, and the cheddar cracker throughout the council.
Since 1936, cookie sale funds have been used to support troop activities, help local girls participate in national

and international Girl Scout events, purchase equipment, provide program; and again this year, finance building improvements at resident Camp, Rio Blanco.
Awards for cookie sellers include one and two week cookie camperships to attend camp or other council-related activities, T-shirts, posters, patches, and certificates.
The Girl Scout cookie sale will end February 17. Girls in Floyd, Bailey, Briscoe, Castro, Cochran, Crosby, Dickens, Garza, Hale, Hockley, Lamb, Lynn, Lubbock, Motley, Parmer, Swisher, Terry, and Yoakum counties will participate in the sale.

Career Day speakers to feature energy and agricultural topics

A.B. Ripptoe, division safety representative for Shell Oil Co.'s western region, will be the keynote speaker at Career Day March 3 at Floydada High School.
Ripptoe will speak to the students on careers in the oil industry.
A native of De Leon, Texas, Ripptoe entered the oil industry in 1956 after serving with the U.S. Air Force in North Africa and in Washington state.
Rising in the company, Ripptoe became division representative for Shell in 1974 and has held that position since.
Sometimes referred to as "the Will Rogers of West Texas," Ripptoe appears before some 15,000 persons each year on speaking engagements throughout West Texas, New Mexico and

Oklahoma.
Jack A. Moreman, director of ranch and feedlot programs for Clarendon (Texas) College will speak to the students on ranch and feedlot operations.
Moreman has bachelor of science degrees from Texas Tech in both animal science and agricultural education. After serving three years in the Army, he has held highly placed positions in the ranch and feedlot industry for more than 14 years.
Moreman has professional affiliations with the National Block and Bridle Club, the Society for Range Management, the Texas and Southwestern Cattle Raisers Assoc., and the Texas and American Hereford Associations.

1979 'stable' for cotton prices

Despite a record world crop, a predicted recession and other strong market forces, 1979 proved to be a year of stable cotton prices, according to economists for Cotton Incorporated.
"Cotton prices fluctuated less in 1979 than they have in any year since the Agricultural Act of 1973 oriented cotton to the free market," says David Cox, vice president for economic research and development.
Cox noted that spot market prices last year varied between 58 and 68 cents a pound for strict low middling 1 1/16-inch cotton — a 10-cent trading range. In the previous five years, the trading range varied from 15 cents in 1978 to 41 cents in 1974.
This spot market price stability "did not come about for lack of news in the market," adds Cox. "Both supply and demand sides of the market were subject to strong forces: a large crop, good domestic business in the face of

recession, and extraordinary export sales."
With world production in 1979-80 expected to reach a record 65 million bales, exceeding the previous year's output by more than 5 million bales, world stocks of cotton will be larger when the marketing year ends on July 31, he adds.
"In the past," Cox said, "the prospect of larger cotton supplies has frequently depressed cotton prices. But in 1979 demand considerations dominated the market.
"Domestic cotton use has remained stronger, longer than had been originally anticipated. In 1979, clothing demand and home textile sales in the United States continued to rise, while consumer enthusiasm for housing and car purchases declined."

THANKS — Mary McPherson, district clerk and Floydada Salvation Army service unit treasurer, show one of the certificates of appreciation received

this week by citizens of the city and county for relief efforts on behalf of the Wichita Falls tornado victims.

Courthouse Squares

When the wife says nothing, you're in more trouble than when she had the last word.

City and county citizens lauded by Salvation Army

The Salvation Army this week presented the citizens of Floydada and Floyd County with certificates of appreciation for support given to the victims of last April's tornado in Wichita Falls.
The Floydada Lions Club and the Floydada Service Unit Committee of the Salvation Army also received certificates for their efforts in the relief project.
Joe Cluck, the local committee chairman, reported that Floyd County donations to the storm victims totaled more than \$2,100.
"That's a lot of money for a small town," Cluck commented this week. "It shows concern on the part of our citizens for their neighbors."
A letter to the local unit from Capt. Joseph Bennett, divisional secretary for the Salvation Army, praised the Floyd County citizens and volunteers for their work and contributions.

Tax appraisers vow professionalism in setting

for \$12,000.00. Therefore, the property cannot be legally valued at its original cost.
Take a home built today that cost \$20,000.00. It would be unfair to value this home at more than \$30,000.00 when it would only sell for \$30,000.00 and leave the home built in 1935 at the \$3,600.00, when it would sell for \$12,000.00 on the open market in Floyd County. The same percent of market value must be built into the schedules of value to be used in the re-appraisal program to insure equal and uniform values as required by law.
Will 100% values be used as the tax base? Yes. The new law requires all jurisdictions to use 100% assessment ratio by the year 1981.
Will the appraisers be qualified? Yes, no appraiser will work on this job that has not experienced at least 5 years of experience in the mass appraisal bus-

ness and will be no less than 30 years of age.
Will McMorries & Company be cooperative and explain the program to the property owners? Absolutely; in fact, if it were called to my attention that one of the appraisers were not cooperative, I will dismiss or move the appraiser. This is so important to a good and successful program, a clause to this effect is included in the contract.
Will all property owners be given the same considerations? It does not make any difference who the property owner is, how much money he has or how much property he owns. Every owner will be given the same considerations, that is, fair and reasonable consideration to obtain just and equal values regardless of the circumstance or pressures. We have no axes to grind. Every taxpayer looks the same to us and no property owner will be given special

consideration. We must take this position to insure that equity is the end result of the program.
The appraisers will begin work about January 20, 1980. When the appraiser calls at your home or business, he will ask some questions but unless the owner desires he will not need to enter the home. If the appraiser feels that there is a need to make an inside inspection of a home, he will then ask permission to look at the inside of the improvement. He will not need to go into every room of the residence; the living area and the kitchen will tell the appraiser what he needs to know about the residence.
Will there be a permanent record card provided by the assessor on each and every parcel of real estate in the jurisdiction. The card will show a scaled drawing of all improvements that have any value and the dimensions of each

building. It will show the type of construction (concrete foundation, brick exterior, etc); it will provide the square footage of each building and the schedule cost and depreciation. The schedules will be prepared based on the local information. The land values will be shown by either a front-foot or per-acre value. These records are public records and each owner may see his appraisal card and also his neighbor's card.
The appraiser will not know what value will be finally placed on the property when he is making the inspection. The appraiser is only gathering information, measuring the building and classifying them for use in calculating the final value of the property.
I and my employees welcome any and all information and suggestions from owners. Our people will be cooperative and open-minded at all times.

### Cotton prices stable in 1979

The strong use of cotton by the U.S. textile industry was bolstered by a sharp increase in export sales, particularly in the sales of denim and corduroy, Cox reports.

"But the real star of the 1979 cotton market was export sales of the U.S. raw cotton, especially extraordinary sales to China. Export sales rose dramatically throughout the year as the United States was the major seller of cotton in the world market." As a result, he said, "export sales provided a strong push for cotton prices during the final months of 1979."

Looking to the new year, Cox says economic activity in the United States has lost its steam and slower economic growth also appears likely in other Western industrialized nations.

As a result, he said, if the economy experiences the much publicized recession, cotton consumption in the immediate months ahead is likely to decline from rates seen at the end of 1979.

Assessing potential 1980-81 cotton crop prospects, economists say that total foreign production in 1980-81 could reach 52 million bales, about a million bales above this season's output. In many foreign countries, they point out, planting decisions are based only on the previous season's prices.

U.S. cotton production in 1980 is an

"iffy" proposition, they add, depending on whether cotton prices remain at current levels, on price movement of alternative crops in some areas, and on such factors as whether the Texas plains receive sufficient moisture over the next few months.

If all "ifs" go according to present form, there would be a U.S. cotton crop in 1980 of 13½ million bales, Cox said. In this scenario, he added, "world production in 1980-81 would about match 1979-81 may reach the highest level of the last ten years. This could suggest, says Cox, that lower prices may be in the cards for cotton in the near future.

"This year, as always," he concluded, "producers need to keep a close eye on cotton market fundamentals — supply and demand determine commodity prices over the long run. Watch for the USDA planting intentions report later this month. Consider the likely changes in cotton supply and demand. Assess whether cotton prices at harvest are likely to be higher or lower than at planting time, and make production and marketing plans accordingly.

"If selling ahead appear desirable, first evaluate probably costs estimating recent increases, and then consider all of the crop contracting and futures market hedging opportunities available," Cox said.

### Texas Farmers Union questions impact of wheat export ban

Texas Farmers Union president Jay Naman said this week the Administration's decision to purchase grain contracts with the Soviet Union still leaves much doubt about the impact on market prices and that loan rates for wheat, corn and soybeans should be moved to 90% of parity in concert with changes in the previously announced grain program. The farmers-group leader said his organization will not be satisfied by government action that merely bails out grain traders for their losses on shipments from the 1979 crop unless it fully protects farmers' prices for the 1980 crop as well, much of which has already been planted, and for the balance of which farmers have already started to make land preparations and fertilizer commitments.

TFU asked the USDA to reverse an earlier decision that farmers be allowed to plant all the grain they wish for 1980 harvest by announcing a mandatory setaside of at least 20 percent which includes payments to farmers for diverting productive land or plowing back that which is already planted.

### District directors to consider accepting \$20 thousand conservation grant

The Board of Directors of the High Plains Water District will consider approving acceptance of a 20 thousand dollar energy conservation grant during the board's regular meeting January 15 at 1 p.m. in the Lubbock office at 2930 Avenue Q.

The Water District has been offered a local government innovative energy conservation grant from the Texas Energy and Natural Resources Advisory Council to evaluate the efficiency of irrigation wells in the southern High

Plains of Texas. It is also time to audit the financial records of the district for fiscal 1979. The board will select an accounting firm to conduct the annual audit. They will also hear a summary by Programs of the first year trial in cost accounting. In routine matters, the Board will consider approving applications for water well permits, extensions and amended permits since the last Board meeting.

DUAL-ARMED BANDIT — The dual-arm gasoline dispenser is the latest model from the Consumer Fuel Association in Lockney. It is a Wall Street favorite, but more than just the number of "arms" it sports. Customers are sure to get something [a gallon or so of the precious motor fuel] for their dollar when they patronize this machine — but nobody's hit a jackpot so far....

### Innocent victims of crime to receive compensation

Legislation became effective the beginning of this year which for the first time in Texas would provide monetary compensation from the state to individuals who are the innocent victims of crime.

Senate Bill 21, sponsored by state Rep. Ron Clower (D-Garland), sets up a compensation to Victims Crime Fund, which will be administered by the Industrial Accident Board. The fund began collecting monies Sept. 1, 1979 and currently holds approximately \$10,000.

Awards from the fund would be made to victims or their dependents for personal losses suffered because of personal injury or death resulting from crimes occurring after Jan. 1, 1980. Awards can also be made to private citizens injured while attempting to prevent crime or apprehend a criminal. Under the program, a person injured by his or her dependents) could be awarded a maximum of \$50,000 for the costs of medical, hospital, nursing or psychiatric care or counseling, and physical therapy; loss of earnings not to exceed \$150 each week; care of minor

children; and loss of support by dependent and funeral and burial expenses if the victim dies.

Victims would not, however, receive compensation for pain or suffering nor for loss of property, but only for actual financial losses because of injury or death.

To qualify for compensation a victim will have to be a Texas resident and will have to suffer "financial stress" as a result of his or her injuries. The victim will also need to report the crime to the appropriate state or local public safety or law enforcement agency within 72 hours after the crime is committed and file a claim with the Industrial Accident Board within 180 days after the date of the crime. Forms will be available from hospital emergency rooms, law enforcement agencies and the Industrial Accident Board.

No state general revenues would be used for payments. Money for the fund would be generated by adding \$15 to the court costs for any felony conviction in the State and \$10 to the court cost for

any misdemeanor conviction punishable by imprisonment or a fine of more than \$200.

No additional court costs would be added to most traffic violations or any other Class C misdemeanor. These additional court costs should generate the approximately \$2 million it is estimated that the program would cost each year. It is also estimated that about 3,000 claims will be filed the first year, that reimbursements are anticipated to be awarded to about 1,200 of these crime victims and that the average award will be about \$2,400.

"Some twenty other states have laws similar to this one," Clower said, "and I am pleased that the 66th Texas Legislature agreed with me that it is time Texas had one, too. It is simply not fair that any of our neighbors can be financially wiped out through no fault of their own just because they are singled out by someone with no regard for the law or his fellow citizens. This law will not eliminate crime, but it should help eliminate some of the problems and distress a criminal all too often inflicts on his innocent victims."

### Lockney Junior High student receives reply to request for hostages' release

A Lockney Junior High School student has received a reply from the Iranian embassy in Washington, D.C. to a letter she wrote in December asking the Ayatollah Khomeini to free the American hostages in Iran.

All the students in Terry Carlton's junior-high history classes wrote to the Ayatollah in care of the Iranian embassy, but the only reply received so far was addressed to Shandra Bybee, in the class of Lockney Junior High sixth grade.

The letter, signed by Ali A. Agah, charge d'Affaires, expressed appreciation for "...the time and effort you took to communicate to us your concern about the present situation..."

The charge d'affaires' letter "assured" Shandra that the embassy employees "are being treated in a

humane way" and talked about international law and the issue of human rights and its "uneven application by the U.S. government in Iran."

The letter said "We are taking every possible step to resolve the present

situation in a peaceful way."

Enclosed with the letter were several pieces of pro-Iranian literature which outlined atrocities allegedly committed by the shah, and so-called "distortion of the Iranian situation" by the media.

THE GOT AN ANSWER! — Shandra Bybee, 11-year-old daughter of Mr. and Mrs. Delvin Bybee of Lockney, was the only Lockney Junior High Student who received a reply from the Iranian embassy in Washington, D.C. All of Terry Carlton's history students wrote letters to the Ayatollah Khomeini, in care of the embassy, asking for the release of the American hostages in Iran. Shandra is looking at some of the literature she received along with the letter from the Iranian charge d'affaires.

## Myrna Haney, Charles Mac Gibson are married

Myrna Haney and Charles Mac Gibson, both of Houston, said marriage vows January 1 in the chapel of the South Main Baptist Church in Houston. Gibson is the son of Mrs. Robert H. Gibson of Lockney and the late Mr. Gibson. The bride's parents are Mr. and Mrs. J. Frank Lamb of Houston.

The bride's son and daughter, Kip and Michele Haney, were best man and bridesmaid at the 4-p.m. ceremony, which was performed by the Rev. Gene Vickery.

Following the wedding a

dinner for family members was given in the home of the groom's brother and sister-in-law, Mr. and Mrs. James R. Gibson, in Friendswood.

The couple are living in Houston after taking a wedding trip to New Orleans. Mrs. Gibson is employed at the Stehlin Foundation for Cancer Research. Gibson is systems coordinator at the Rice University library. A graduate of Plainview High School, he attended Texas Tech and the University of Texas at Austin and is attending the University of Houston.

**ENGAGED** — Mr. and Mrs. Rocky Mangum of Lockney announce the engagement of their daughter, Virginia Sue Marie Mangum, to George Wayne Davis, son of Mr. and Mrs. Carl W. Davis of Littlefield. Miss Mangum is a 1979 graduate of Lockney High School, where she was a member of the National Honor Society. She was listed in "Who's Who Among American High School Students." Davis is a 1978 graduate of Littlefield High School. He works with his father as a carpenter.

**KONLANDE**  
Tom and Mary (Johnson) Konlande of Arlington became parents of a baby boy on January 10. Matthew Paul has two big sisters, Jerri and Sherri. The new arrival weighed seven pounds, 13½ ounces and was 21 inches

long. "Granny" Hazel Johnson of Lockney is in Arlington supervising things until Mary is back on her feet.

MR. AND MRS. PAUL COOPER

## Paul Coopers celebrate 50th wedding anniversary

Mr. and Mrs. Paul Cooper of Lockney celebrated their 50th wedding anniversary Friday. Their children, Jerry Paul Cooper and Ann McCormick, both of Lockney, entertained them at the Plainview Club in Plainview.

Present were Jerry Paul

and Ophelia Cooper, and Ann McCormick and Dart Carthel, all of Lockney. The title for the year's best is "Food, Conservation, and Community." It includes, but is not limited to, the general concept of the earth we way upon. They need air, and sunlight in this web of nature which our lives do not continue to!

## First meeting of year held by Homebuilders

The first meeting of the year for Homebuilders Extension Club was held January 8 at the A&M Extension building. The meeting was

called to order by the incoming president, Mrs. E.L. Widener. Other officers assuming duties were vice president, Mrs. Elmer Norrell; secretary, treasurer,

Mrs. Rick Trapp; and treasurer, Mrs. Bill Smith.

### TEXAS TECH NEWS

Texas Tech will sponsor its fifth annual University Day for high school students Feb. 29. Day-long activities include entertainment, campus tours, advisement sessions with faculty and counselors, and departmental and college visits.

University Day is designed for prospective students of higher education who want to get acquainted with the

university before making a final choice of where he or she will attend college.

For additional information regarding Texas Tech University Day students should contact their high school counselors or John Edwards, Office of New Student Relations, Room 133 Doak Hall, Texas Tech University, Lubbock, Texas 79409 (806) 742-1480.

The next meeting is scheduled for January 22 at the home of Mrs. Gordon Tate. The program will include food processors, Ms. Tate presented an interesting demonstration on using a 5" x 7" picture using lead, India ink and glass.

Refreshments were served by Mrs. Trapp to Major C.C. Burns, Raymond Williams, Sueng Hong, Mayfield, Elmer Norrell, Smith, Clifford Tinsley, Trapp, John Walker and Widener.

## Charley Berry recent speaker at Floydada High School

CHARLEY BERRY is pictured above in a recent program presented at Floydada High School. The program included a sharing of his experiences of long ago, as well as a demonstration of various bird calls.

Charley Berry, well-known Floydada resident, recently spoke to the homemakers organization at Floydada High School. He was invited to speak to the group about his boyhood days. The presentation was entitled "Fond Memories."

Berry told the story of moving from a larger community to McCoy, and that at the time, he was ahead of the students there, so he brought

his own books and read them.

As the last item on his presentation, Mr. Berry whistled some bird calls, for which he has won some awards.

The F.H.A. enjoyed the entertaining and informative program and expressed their appreciation to Mr. Berry for taking the time to share his experiences with them.

## Essay and poster contests dates announced

Texas Conservation Districts Program is happy to announce the essay and poster contests for 1980. Gilbert W. Carthel, chairman of the District, announced that the District will sponsor the contests on a county level and the entries will be turned in at your school or the Soil Conservation Service office before February 1.

The essay contest is divided into two separate divisions, a Senior division and a Junior division. The Senior division is for boys and girls of high school age and the Junior division contest is for boys and girls of junior high school age. The essays should be 300 words or less in length.

The poster contest is an open contest for boys and girls 12 years of age and under. Each poster should be prepared on standard poster board cut to half size, approximately 22 inches by 14 inches.

Judging of these essays and posters will be done first on a county level. The poster contest, Senior divisions contest, and Junior division contest will each have a first, second, and third place winners. Each of these winners for each contest will receive prize money from Martin and Company in Floydada. The SWCD Board appreciates this generous gift from Mr. Mark Martin.

After the judging at the county level, the winning poster and essays will be sent to Temple where regional and state winners will be selected. Plaques and trophies will be presented to these winners.

**FLOYD DATA**

### PUBLIC SERVICE ANNOUNCEMENT

The Texas A&M Engineering Extension Service in Floydada has announced a Large Regulator and Capacitor Course to be held January 21-25. This 96-hour course will provide information on basic regulator design, electro-

mechanical control, applications, theory of capacitors, as well as construction, purpose and operation of these devices.

For further information contact the West Texas Regional Training Center at 983-2827.

### McPherson rites scheduled

January 13

Houston McPherson, died January 10 at 10:30 a.m. in Caprock Hospice services will be Sunday January 13 at 2:30 p.m. in Primitive Baptist Church Floydada. Elder Joe Jack and Brother Luther Porbill officiate. Burial will be in Silverton Cemetery under direction of Moore-Funeral Home.

McPherson was born Feb. 5, 1899 in Hood County, Texas and moved to Floyd County in 1918 from Hood County. He married E. Barton, October 8,

1947 in Plainview. He was a retired farmer and a member of the Primitive Baptist Church.

Survivors include his wife Ova; three sons, Henry of Happy, Robert of Silverton, and Gale of Lockney; 14 grandchildren; seven great-grandchildren; one half-sister, Ruth Busby of Railto, California; three half-brothers, D.J. and Oscar Phillips of Lockney, and R.C. of Plainview. He was preceded in death by his first wife, Lela, a son Donald, and a daughter, Hope.

REMEMBER your loved ones with a living memorial to the Caprock Hospital Auxiliary Memorial Fund. Mrs. Ben Whitaker, Treasurer. T-tfc

# FARM & RANCH NEWS

## Around the County

By Jett Major  
Floyd County Extension Agent

The current inflationary costs of production have been forcing more and more Texas farmers to diversify their operations in an effort to establish new and more favorable sources of income. One such area of diversification which many South Plains farmers have incorporated into their operations is that of Feeder Pig Production.

The Lubbock Chamber of Commerce Livestock Industry Committee has put together a Feeder Pig Workshop to help inform South Plains producers about feeder pig production and its feasibility as a supplemental source of income for area farmers. The workshop is to be held on Saturday, January 19, at the Texas Tech University livestock arena located at the intersection of Indiana Avenue and the Tech Freeway. Registration for the workshop begins at 9:00 a.m. and there will be no charge for the event, which includes a lunch sponsored by area feed dealers and hog markets.

Speakers and topics for the program include: Marvin Sartin, area economist with the Texas Agricultural Extension Service, giving the group a marketing outlook for feeder pigs; Dr. Don Ort, Texas Tech University animal science professor, with a presentation about improving efficiency from weaning pig to market; Dr. Bob Cohen, area swine

specialist with the Texas Agricultural Service, with a related talk on ways of improving efficiency from breeding through weaning. A session on grading market hogs will also be held during the workshop. Highlighting the workshop will be a panel discussion on improving management techniques. Members of the panel include: Lee Christy, feeder pig market manager from Idalou; Jim Judah, Lubbock Christian College agriculture instructor and Floyd Easter, vocational agriculture instructor from Wolfforth.

This is the second feeder pig workshop to be held in Lubbock. The workshop held last year was very informative for all who attended. Any producers interested in diversifying their current operations are strongly encouraged to attend this workshop if at all possible. For further information come by the County Extension Office.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socioeconomic level, race, color, sex, religion or origin.

## NCC supports pesticide use

**NCC SUPPORTS PESTICIDE USE:** The National Cotton Council has urged the Environmental Protection Agency to continue registration of pesticide products containing EPN. The cancellation of EPN's registered use would do irreparable harm, the statement added, to cotton farmers, the entire industry, and consumers.

**MAID IS FARMER'S DAUGHTER:** Melissa Mock, daughter of Mr. and Mrs. Paul Mock of Altus, Okla., is the 1980 Maid of Cotton. The family operates a 2,000-acre ranch, including 700 acres of irrigated cotton. Lloyd Cline, Lamesa, Tex., cotton farmer, served as one of the judges.

**NO SET-ASIDE REQUIRED:** USDA has announced it will not require a set-aside or offer voluntary diversion of cropland for the 1980 upland cotton crop. A preliminary 1980 crop upland cotton national program acreage of 11,602,285 also was announced. In order to be assured of target price protection on their entire planted acreage, producers must also reduce 1980 acreage by 10% from 1979 plantings. USDA will announce the final target price for the 1980 upland cotton crop when final yield and cost estimated for the 1979 crop become available.

**AND COTTON YESTERDAY:** Cotton was used by Zuni and Hopi Indians in ceremonies in 500 B.C. in the Southwestern United States.

FROM PLAINS COTTON GROWERS, INC.

## USDA reports grain quality excellent

Record-making grain harvest in the South Plains resulted in more official inspections to move grain to export, according to a U.S. Department of Agriculture (USDA) report released this week.

Up through November 1979, private firms designated by USDA's Federal Grain Inspection Service (FGIS) to perform official inspections in the South Plains provided 49,061 inspections for grain producers and the industry.

"Quality of South Plains grain has been excellent this year," said Jerry Cotter, Dallas region director for FGIS, whose responsibilities spread throughout Texas, Arkansas, New Mexico and Oklahoma.

"Our three designated agencies serving areas around Lubbock, Plainview and Farwell have performed around 12,800 wheat and 11,500 protein inspections," Cotter said.

Because grain commodities have their intrinsic qualities precisely identified according to official U.S. grade standards, much of the transfer of grain ownership takes place merely on paper, between grain brokers and foreign buyers, who bargain according to grade, protein content of wheat, and other special factors, said Cotter.

Since quality helps determine price, knowing the grade provides a farmer incentive to improve quality and a tool to compare marketing advantages. Few farmers realize this service is available, said Cotter.

Plains Cotton Growers, Inc., Lubbock, December 28 took advantage of the House Cotton Subcommittee hearing held in Lubbock to continue hammering away at Congress on the organization's call for substantial improvements in the government cotton program for 1980.

The PCG statement was presented by President Joe D. Unfried of New Home.

Noting that a 1978 amendment to the original loan formula in the Agriculture Act of 1977 has forced the 1980 loan level to be announced at 45 cents per pound, down from 50.25 cents in 1978, Unfried stated "Our costs are literally going up by leaps and bounds and for the loan to go down under these conditions is nothing less than ridiculous."

It has been difficult to get Administration support for a change in the law to even maintain the current loan level, he went on, "and that makes it doubly important that this Committee exert its full influence to cooperate any and all objections to new legislation permitting the higher loan that we desperately need if we are to continue producing for U.S. and world markets."

Insurance the Administration wants can be authorized by Congress, developed and made effective before 1982.

"That means, gentlemen, assuming normal weather patterns, that if the disaster program is not extended for 1980 and 1981 there will be hundreds of us who will not survive as farmers to benefit from any substitute program devised for 1982."

The PCG Board also has voted unanimously to ask USDA for a 15 percent voluntary diversion program, with payments to producers sufficient to attract their participation and achieve a reasonable reduction in cotton acreage for the coming year.

Calling attention to the prospect for a sizable increase in the cotton carry-over on August 1, 1980, Unfried told the Committee "If we are not to see another increase in our carry-over the following year, we believe it necessary that the farm program provide producers with an incentive to reduce planted acreage in 1980."

Summing up all of his comments Unfried stated "...the future of cotton production in this area and across the U.S. Cotton Belt will be much brighter if you will join us in efforts to secure a higher loan, higher target price, an extension of the disaster program at least through 1981, a voluntary paid diversion program for 1980, an improved climate for cotton exports, and the continuation of an effective cotton research and market development program."

## Farm Bureau Facts

### SUBSTITUTING COOPERATION FOR PROFIT?

On December 17, 1979, President Carter signed Executive Order 12185 which has two purposes:

(1) To require all federal agencies to adopt rules which would make the obtaining of financial assistance from the dependent upon the applicant's "conservation of petroleum and natural gas", as interpreted by the administrators; and

(2) To require that no present or future financial assistance will be maintained and/or awarded unless it complies with the new rules, as interpreted by the administrators.

President Carter based his authority for issuing this order on the Powerplant and Industrial Fuel Use Act, which was signed into law on November 9, 1978. That act lists the following as its intended purposes in Section 102 (b):

(1) To reduce the importation of petroleum and increase the Nation's capability to use indigenous energy resources of the United States to the extent such reduction and use further the goal of national energy self-sufficiency and otherwise are in the best interests of the United States;

(2) To conserve natural gas and petroleum for uses, other than electric utility or other industrial or commercial generation of steam or electricity, for which there are no feasible or alternative fuels or raw material substitutes;

(3) To encourage and foster the greater use of coal and other alternate fuels, in lieu of natural gas and petroleum, as a primary energy source;

(4) To the extent permitted by this Act, to encourage the use of synthetic gas derived from coal or alternate fuels;

(5) To encourage the rehabilitation and upgrading of railroad service and equipment necessary to transport coal to regions or States which can use coal in greater quantities;

(6) To prohibit, or as appropriate, minimize the use of natural gas and petroleum as a primary energy source and to conserve such gas and petroleum for the benefit of present and future generations;

(7) To encourage the modernization or replacement of existing and new electric powerplants and major fueling installations which utilize natural gas or petroleum as a primary energy source and which cannot utilize coal or other alternate fuels where to do so furthers the conservation of natural gas and petroleum;

(8) To require that existing and new electric powerplants and major fueling installations which utilize natural gas, petroleum or coal or other alternate fuels pursuant to this Act comply with applicable environmental requirements;

(9) To insure that all Federal agencies utilize their authorities fully in furtherance of the purposes of this Act by carrying out programs designed to prohibit or discourage the use of natural gas and petroleum as a primary energy source and by taking such actions as lie within their authorities to maximize the efficient use of energy and conserve natural gas and petroleum in programs funded or carried out by such agencies;

(10) To insure that adequate supplies of natural gas are available for essential agricultural uses [including crop drying, seed drying, irrigation, fertilizer production, and production of essential fertilizer ingredients for such uses];

(11) To reduce the vulnerability of the United States to energy supply interruptions; and

(12) To regulate interstate commerce.

Executive orders are issued by Presidents for various reasons, but primarily to implement Congressional legislation. For an order to be effective, the President should invoke the statutory delegation of power to him within the text of the order, and he must abide by unequivocal standards that the legislature has set down.

Sections 403 (b) (1) (A) and (B) of the 1978 act specifically list the Congressional standards for Executive Order 12185:

"In order to implement the purposes of this Act, the President shall, not later than 30 days after the effective date of this Act, issue an order requiring each Federal agency which is authorized to extend Federal assistance by way of grant, loan, contract, or other form of financial assistance to promptly effectuate the purposes of this Act relating to the conservation of petroleum and natural gas, by rule, in such contracting or assistance activities within 180 days after issuance of such order and setting forth procedures, sanctions, penalties, and such other provisions as the President determines necessary to carry out such requirement effectively, including a requirement that each agency annually transmit to the President, and make available to the public, a report on the actions taken and to be taken to implement such order."

The "effective date" of the Powerplant and Industrial Fuel Use Act of 1978 is defined in Section 901 as 180 days after its approval, or May 8, 1979. Therefore, President Carter missed the deadline prescribed above for issuing his Executive Order, which was "not later than 30 days after the effective date of this Act", or June 7, 1979. Past precedents, however, indicate that Executive Order 12185 might still be legal, in that it carries out a Congressional purpose, and in that Congress has no constitutional authority to force a President to issue an Executive Order within certain time limits. So there is some doubt about the Executive Order being legal, but if it is, it is very sweeping. It covers every federal agency, with only four exceptions which are listed in Section 103 (a) (2)(i): namely, the Congress; the courts of the United States; the governments of the territories or possessions of the United States; and the government of the District of Columbia.

In particular, there is no doubt that the Department of Agriculture must produce specific rules tying the receipt of financial assistance to the conservation of petroleum and natural gas. Under the order, the first responsibility of the Department will be to review its financial assistance programs, to publish within two months a list of the programs identified as likely to offer significant opportunity for conservation, to allow the public 60 days to submit comments, to publish proposed rules after consulting with the Director of the Office of Management and Budget within 30 days of the close of the comment period, and to adopt final rules not later than 180 days from the date of Executive Order 12185, or by June 14, 1980.

Because the 1978 act provides no clear guidelines to any federal agency, there is considerable doubt as to how broad the rules promulgated by the Secretary of Agriculture might be. For example, would a rule which makes Farmers Home Administration loans and loan guarantees unavailable to farmers and ranchers unless they use gasoline or diesel fuel in their farm and ranch machinery be permissible? The proven fact is that when Congress delegates to administrators the effective power to make law, then the administrators, and not Congress, will do so. In the weeks ahead, the Research Department will continue to study Executive Order 12185, and the rules which various federal agencies propose in accordance with it.

Accumulated August-October land cotton exports total 1.3 million bales, 7% above the 1.2 million exported during the same period last year. The August-October export value was \$423 million, above last year's total for a comparable period.

**FARM NUMBERS**  
The United States Department of Agriculture Economic Service on December 19, 1979 released the following report regarding the number of farms in the United States:

The number of farms and ranches in the United States which had sales of agricultural products of \$100 or more in 1979 totaled 2.3 million, 1.6 percent from the 2.3 million in 1978. The 1980 preliminary estimate and ranch numbers is 2.3 million.

Total land in farms and ranches in 1979 was 1,049 million acres, a 3 percent drop from a year earlier. The average size of United States farms and ranches in 1979 was 453 acres compared with 466 acres in 1978.

**BEEF RESEARCH AND INFORMATION PROGRAM**  
The United States Department of Agriculture has released a recommendation for beef research and information which is to be submitted to producers for approval during the period of February 19 through February 22, 1980.

In order to be eligible to vote, a producer must meet the following conditions: (a) must have owned or acquired ownership of cattle other than for the purpose of slaughter during the period January 1 through December 31, 1979. (If a person only shared proceeds of a sale of cattle or a sales commission handling another service fees, they will not be as a producer.)

(b) Register at local county office, either by mail or in person during the period January 28 through February 6, 1980. Questions regard to eligibility should be directed to the local county ASCS office.

The basic issue to be decided by producers voting in the referendum as follows: Do I, as an independent producer, choose to accept a government-supervised research and extension program in preference to a voluntary program?

The program is administered by the U.S. Department of Health, Education and Welfare with USDA funds for providing cash in lieu of states taking part in the program. Last year, approximately 150 meals were served at community centers, schools, churches and day care sites. In some states, hot meals delivered to the homes.

**MEALS FOR ELDERLY**  
The United States Department of Agriculture announced that it will supply nearly \$65 million in food and cash to elderly programs during the fiscal year ending on September 30, 1980. This funding indicates an increase of 43 cents per meal.

The program is administered by the U.S. Department of Health, Education and Welfare with USDA funds for providing cash in lieu of states taking part in the program. Last year, approximately 150 meals were served at community centers, schools, churches and day care sites. In some states, hot meals delivered to the homes.

**IMPORT TARIFF REDUCTION**  
The United States International Trade Commission has announced public hearing in the Commerce Building, 701 East Street, Washington, D.C. 20496, Monday, January 14, 1980, for the purpose of obtaining information for a Special Representative of Trade Negotiations on following agricultural commodities: berries, fresh or prepared; grapes, fresh or prepared; papayas, fresh or prepared.

Anyone interested in providing information, or appearing at the hearing, should make arrangements with the Secretary of the United States International Trade Commission, East Street, N.W., Washington, D.C. 20496, not later than Noon, January 14, 1980.

**UPLAND COTTON EXPORTS**  
USDA's Foreign Agriculture Service announced that U.S. upland cotton exports reached the highest level since 1960 at 290,000 bales, 38% above the October level and almost twice the 1978-79 average. Current sales export continue large and the season exports may reach 1 million bales which would be the level in 19 years.

Accumulated August-October land cotton exports total 1.3 million bales, 7% above the 1.2 million exported during the same period last year. The August-October export value was \$423 million, above last year's total for a comparable period.

## Wants For Homeowners

**HOW TO ENJOY YOUR HOME MORE**  
 Your little-used basement can become a living area that makes your family life much more fun. A few windows, added along with an outside entrance, can spell the difference between its being a neglected and a useful space where family members enjoy many activities, even in bad weather. A ribbon of narrow windows at foundation level can shed all the light you'll need to make it cheerful. You may even want to install them a few feet out, greenhouse-style, and connect them to the foundation with transparent green roofing material to form a mini-hothouse for favorite plants. Fluorescent ceiling panels are a good choice wherever windows won't fit. An outside entrance will make your basement a highly useful living area at far less than the cost of an addition, especially if you excavate for steps yourself and install a permanent, 12-gauge steel outside door like that from Bilco. To find out how easy it can be, write for the free booklet, "How To Add Valuable Living Space To Your Home," to The Bilco Co., New Haven, Conn. 06505.  
 The rugged and durable door is watertight and electrically welded to last and last. You can open and close it effortlessly because an unusual torsion bar does most of the lifting for you, yet, an inside bolt locks against unauthorized entry.

**Auto Accidents DO Happen...**

## South Plains News

Got Heating Or Plumbing Problems? Call **HOLMES PLUMBING** Austin or Steve 983-2251 6:30 - 9:30 a.m. and 5:30 p.m. until!

According to Mrs. Stark, principal of the South Plains Elementary School, kindergarten class will be starting January 17 at the school. School begins at 8:45 a.m. and will go to 4 p.m. Mrs. Charlene Stark will be teacher for the kindergarten. Children starting will need their immigration records and supplies for school. A list of what they need will be listed at the Post Office, at the Parks Gil Station or you

may check with the school for further information. Applications for free lunches are available, and dinners are 25 cents with breakfasts 15 cents. Several children are expected to be on hand to begin kindergarten. We extend sympathy to Mrs. Edward Hartman and Mrs. Dean Stewart and relatives in the death of their brother, Jim Babb, 47, of Hobbs, New Mexico. Babb died December 27, and his

funeral was held December 29 in Hobbs. He had brain surgery on February 6, of last year, and has been in poor health since.

Miss Atha Blake went to Wayland College in Plainview Monday where she is registered in a micro term in English. She will be driving back and forth from her home here in South Plains as she carries this class for three weeks. Atha's parents are Rev. and Mrs. Fred Blake at the South Plains Baptist Church.

Mr. and Mrs. Tillman Powell and Sandy held their Christmas gathering early. Their children, the Tommy Powells and Heather, left Friday after school was out, for Tallahassee, Florida, to spend Christmas holidays with her parents, the Comptons. The Powells had supper Thursday night before Christmas with the Tommy Powells, and another son, Warren Powell of Centerville Louisiana got in Tuesday night to spend Christmas with them.

Mrs. Mamie Wood had her children, Mr. and Mrs. Glen Wood and Len and Mr. and Mrs. James Teague, Earl, Bodie Joe and Tim of Lubbock here with her, Christmas eve and then Mrs. Wood spent Christmas Day in Lubbock with the Teagues and other members of the family. She was home over the past weekend, and attended Sunday School and Church services Sunday. She had spent the past week in Abilene, where she had been working with the Zig Ziglar team in the "People Plus" program which will be presented at the Civic Center in Abilene on February 14.

Mr. and Mrs. Kendis Julian and children, Kristi, Mitzi and Tim, returned from Ruidoso, New Mexico, Thursday night, after spending a week there during the holidays. They visited with Mr. and Mrs. Terry Julian and Dickie from Roscoe, sharing the week, as they skied and had a week of vacation while the children were out of school for the holidays.

Mrs. M.M. Julian returned on Tuesday, New Year's Day, from Perryton,

where she had spent the week with Mr. and Mrs. Bruce and Janet Julian, Clay and Wade. She had gone there Christmas Day to visit, and while there attended the First Baptist Church on Sunday morning and night, where Rev. B.J. Pearce is pastor.

Len Wood is visiting with his parents, Mr. and Mrs. Glen Wood, during Christmas vacation, and will be here until January 18, when he returns to his college studies at Southwest Texas State University in San Marcos.

Mr. and Mrs. Sylvan Kinnibrugh came home Sunday evening from Truscott, where they had spent the weekend visiting relatives. Sylvan's mother, Mrs. J.A. Kinnibrugh is at home, and has a woman staying with her, since being in the hospital. She is getting along fairly well at this time. The Kinnibrughs visited with his parents in Vera and with Mr. and Mrs. W.S. Simmons.

Mr. and Mrs. Fred Marble were hosts in their home on Christmas eve for the family gathering of the Marble families.

Mr. and Mrs. Glen Whitfill and their foster daughter Pat from Sweetwater arrived Christmas eve to spend the holidays with her parents, Mr. and Mrs. Alvin Nichols. Others here were Mr. and Mrs. Terri Michaels of Dallas, who came to spend the holidays with her grandparents, the Nichols.

Mr. and Mrs. Nathan Mulder, Cindy, Penny, Cory and Jimmy went to Clovis, New Mexico, on Wednesday after Christmas, to visit with her grandparents, Mr. and Mrs. W.B. Blalock. They came home Thursday evening. The Nathan Mulders were hosts on Christmas Day for their family, including his mother, Mrs. Letha Mulder and his sister Mr. and Mrs. Jerry Taylor, Candy, Ronnie, Richard and Ronda from Amarillo. The little girls, Candy and Ronda stayed here Christmas week with their grandmother, Mrs. Letha Mulder. Mrs. Mulder took them home Saturday after New Year's.

Mr. and Mrs. Mike Smith

of Wayland College at Plainview were visitors at the South Plains Baptist Church with Rev. and Mrs. Fred Blake and Atha on Wednesday night at prayer meeting. Mr. and Mrs. Fletcher Powell and their children moved this past weekend to Floydada to make their home. They have been residents of South Plains for many years, and now will live on South Wall Street in Floydada. They will be missed in our vicinity.

Mr. and Mrs. Bruce Julian and boys from Perryton arrived Thursday before Christmas to visit his mother and brother. They also visited with her parents, Mr. and Mrs. Edell Moore of Floydada. Along with Mrs. M.M. Julian and Mr. and Mrs. Kendis Julian and children, the group left Saturday for Roscoe, where they spent the weekend with Mr. and Mrs. Terry Julian and Dickie, and had their Christmas together. Others with them for the weekend were Dr. and Mrs. Wm Barnes of Commerce. Bruce and his family and others from Floydada visited Saturday morning in Abilene with Mrs. Moore, Janet's grandmother, who is very ill at this time.

Mr. and Mrs. Sylvan Kinnibrugh and Mr. and Mrs. Hank Dickens and Latham of Plainview had their Christmas eve in Plainview at the home of Mr. and Mrs. Teddy Horne and Melissa. There were other family members present, including Mr. and Mrs. Ronnie Simmons and children of Truscott. Christmas Day all the above except the Horne family were at the home of the Sylvan Kinnibrugh for Christmas day.

Mr. and Mrs. Leighton Teeple went to Boutte, Louisiana, to have Christmas with their daughter Rev. and Mrs. David Reddout, Tonya and Ricky. Another daughter Rhonda, who lives near the Reddouts in Louisiana, was also present.

Hobby Club members will meet on Wednesday, January 9, at 2 p.m. at the home of Mrs. Genet Blake in South Plains for the first Hobby Club meeting of the year.

The group will elect officers and plan the program for the coming year. Mrs. Letha Mulder will bring the "Thought for the Day". Mrs. Jean McClure was in surgery at the Shamrock Hospital during the Christmas holidays, and was very ill for a few days. She is presently at her home in Plainview and has been back at her teaching job. She is the daughter of Mr. and Mrs. Frank McClure, who reside here. Mrs. Frank McClure underwent eye surgery just before Christmas, and is currently at home and doing well.

Mrs. Jo Y'Blood, from Medford, Oregon, sister of Mrs. E.P. Pritchett, is here visiting with the Early Pritchett family at their home on the Silverton highway. She arrived last week to visit with them and with the "Shorty" Turner family of Floydada.

Mrs. Mary Grisham of Plainview will be having eye surgery for an eye contact implant on Tuesday, January 14, at Methodist Hospital in Lubbock. We are hoping she gets along well. She is the mother of Mrs. Richard Sanders.

Mrs. Lyle Haley, sister of Mrs. Mamie Wood, underwent surgery in Caspar,

Wyoming, last week and are hoping she is just fine. Greetings and love to those who have in January! Happy to Donita Miller whose birthday is Sandra Cummings Sterling Cummings both Mrs. Walter Wood Blake, Jan. 8; Jimmings and Mrs. Nell, Jan. 16; Nathaniel and K. Pipes, Jan. 20; Sanders, Jan. 20; Powell, Jan. 20; Stapleton, January

Mr. and Mrs. Hamm were called rillo because of his sister, Mrs. who died on Des Graveside services were at Cemetery on Des. We offer our sympathy to the family in their sister had not rillo very long.

We extend day greetings to Wood in Lake Wax where she is her daughter, Mr. Jack McCown, 93 years old this January 8, and very much in our
