EN HEART DANCE is scheiday February 15 at the MAC.

INGING DEWEY FAMILY of Tennessee will present the Friday February 15 at 7:30 at nbly of God Church in actually 0.51 foot higher last month than it was in January 1979. However, the county's average water level dropped 8.54 feet in the five-year period from 1975-1980, and the 1980 average was 19.82 feet lower than the average ten years earlier.

Because 1979 was an abnormally moist year over most of the surveyed area, the 0.48 foot change compares favorably with the five year average annual change of 1.34 feet and the ten year average annual change of 1.42 feet. Water District officials attribute the reduced rate of decline to improved water conservation practices, the high cost of energy to pump water and the presence of unusual natural moisture. The abnormal rise in water levels in some wells probably reflects filling of the cones of depression around these wells other than substantial recharge to the aquifer.

The average depth-to-water below land surface in the water level observation wells measured in late 1979 and early 1980 was 165.54 feet.

Floyd County **Red Cross chapter** meeting set Tuesday

The February meeting of the Floyd County chapter of the American Red Cross will be Tuesday (February 12) in the county courtroom at the courthouse in Floydada. All interested persons are invited to attend.

Present will be Patti Cammack of Lubbock, representative for the North Texas Division of the Red Cross, and Bob Berge, Red Cross Nursing Consult-

ant for Texas and Oklahoma. County Red Cross treasurer O.M. Watson Jr. reports that the Floyd County chapter is being strengthened so that the local Red Cross organization will be operable in case of disaster.

Bill Walker drowns

at Lake Amistad

A 43-year-old Floydada resident, William Grady "Bill" Walker, drowned Wednesday afternoon at Lake Amistad, near Del Rio, on a fishing trip. Justice of Peace Harold Reed ruled the death accidental.

Services for Walker were scheduled at 2:30 p.m. Saturday (February 9) at the First United Methodist Church in Floydada with the Rev. Jim Smith, pastor, officiating.

Walker, a farmer, moved to Floyd County from his home town of Vernon. He married Jennifer Yeary Barker on October 4, 1976, in Lubbock. He was a member of the Methodist church.

Survivors are his wife; a daughter, Terry Walker of Dallas; two stepsons, O'Bryan and Jason, both of the home; his parents, Mr. and Mrs. William Grady Walker Sr. of Floydada; and a brother, Ray Walker of

Damage to Lighthouse Electric Cooperative equipment during the recent ice storm was the highest in the 41-year history of the cooperative, Lighthouse Electric general manager Alton Higginbotham confirmed Friday.

More than 600 of the cooperative's poles were down as a result of ice accumulations in late January and early February. In addition to replacing poles and rebuilding line where poles were broken, Lighthouse crews had to replace or repair transformers and other equipment and fix crossarms and line breaks in many locations where poles were left standing. The cooperative "lost" about 300 poles in 1978 when a similar storm hit near Silverton.

Higginbotham estimated the recent Lighthouse damage at \$250,000. Heaviest damage to Lighthouse equipment occurred in Floyd, Hale, Crosby and Dickens counties, and a few

poles were down in Briscoe County.

Restoration of service to residences took first priority, Higginbotham reported, and even then some Floyd Countians were without electricity for several days. Lighthouse crews are still working to restore electricity to some non-essential areas. Full service should be restored in a week t 10 days, Higginbotham said Friday

Another winter blast hit the area Thursday night, bringing back winter temperatures after several days of nice weather last week.

Homeowners in 'target area' encouraged to apply for housing rehabilitation grants

Beginning Monday, the city of Floydada will take applications for a community development block grant housing rehabilitation program.

Persons who meet specified income limits and own their own homes may be eligible to receive grants to make needed repairs to their homes. Only persons living in the city's 1979 CDBG 'target area" will be eligible for this

The target area includes the northeast portion of the city of Floydada. It extends from Houston to Price Streets and from 8th to 12th Streets. A map of the target area is available for inspection by all interested persons at city

Applications for initial enrollment will be accepted until the close of business Monday, March 10. Applications may be obtained at the Floydada city hall, 114 West Virginia, between 8 a.m. and 5 p.m. Monday through Friday.

A community meeting on the housing the target area at 7:30 p.m. Thursday, February 21, in the Della Plains School auditorium. All citizens owning homes in the target area are encouraged to attend. Purpose of the meeting is to explain the details of the housing rehabilitation program and allow citizens to ask questions about the grant assistance for which they may be

Handicapped persons who may have

difficulty in coming to city hall to obtain applications forms or in attending the community meeting should contact city hall to arrange for special assistance.

For further information on the CDBG housing rehabilitation program, contact Dorr Blasingame, neighborhood improvement coordinator, at 983-2834.

City council to open street seal coat bids, consider Swifty facility

The Floydada city council will discuss and approve a resolution adopting policies and procedural guidelines pertaining to the implementation of the 1979 Community Development Block Grant Program, as recommended by the Neighborhood Improvement Committee, during the February council meeting Tuesday night at city hall.

The council will open and consider ids for seal coating city streets, and they will discuss paving, curb and gutter for the Housing Authority project on South Third Street.

The council will also discuss two items pertaining to the Floyd County Appraisal District. Council members will consider an agreement to hire a Dallas firm to appraise industrial property for taxation and a request for city participation in the district's appraisal of personal property. Another item on the city council

agenda is a request from A.L. Wylie Jr. of Swifty Distributors, Inc. for permission to build a new gasoline, alcohol, gasohol and deisel fuel storage facility in the city limits.

Other items to be considered at the council meeting: consideration of a sanitary landfill contract with the county; setting of a public hearing concerning proposed use of Federal Revenue Sharing funds for next budget year; calling a public hearing for the city's proposed 1980-81 budget; and approval of orders establishing procedure for city officers' election and calling an April election to choose three councilmen.

The meeting starts at 7:30 p.m. Tuesday in the council meeting room at

Lighting improved { in show barns

After recent remodeling, First National Bank of Lockney donated about 45 old light fixtures to the Lockney and Floyd County stock show barns.

A group of men installed about 20 in the work area of the Lockney barn on the fairgrounds and about 25 more of the lights in the sheep barn at Floydada. Wilson Electric of Floydada cooperated with both crew and materials in the Floydada project.

Among men helping with either or both of the projects were Eddie Teeter, Kenneth Holt, Eddie Foster, Randy Henderson, Ronnie Aston, Phil Green, Warren Mitchell, Buster Terrell, David McCoy, Albert Scheele, Ronnie Thornton, George Sparkman, Choice Smith, Kenneth Broseh and Bill Hendrix.

New hair salon opens in Floydada

Audrey Thomas has announced the opening of Audrey's Hair Styles at 210 West Houston, Floydada.

Audrey specializes in hair cuts and styles for men and women. She is experienced in wigs, permanents and full service. Mrs. Thomas has recently returned from a Jesse Lee trend release in Lubbock. Jesse Lee presented the latest styles she had learned recently in Las Vegas, Nevada.

Audrey will take phone appointments, walk-ins, and late appointments. She invites everyone to call her at her home or shop.

Mrs. Thomas is a Jesse Lee graduate.

AUDREY THOMAS cuts and styles Dr. A.E. Guthrie's hair at her shop, Audrey's Hair Styles, which just opened at 210 West Houston in Floydada.

Several to meet Monday with county commissioners

The Floyd County Commissioners will meet with several persons Monday during the regular Commissioners Court session Monday at the court-

County agricultural extension agent, Jett Major will meet with the court to discuss budget and plans for 1980.

Jan Chapman, Blue Cross and Blue Shield representative, is to meet with the court to discuss rates for county employees' dental plan and a change in cost change for a semi-private hospital

County librarian Jackie Walls will meet with the court to ask for an additional library employee. Fred Thayer will discuss the 1979 county audit with the commissioners.

Travis Jones of the Floyd County Central Appraisal Board is scheduled to meet with the commissioners to discuss an advancement for appraisal.

Ed Paul of South Plains Emergency Medical Services, Inc. will discuss proposed changes in emergency com-munication equipment for Floyd Coun-

The commissioners will talk about a liability insurance plan for the county and discuss acceptance of the heating and air conditioning recently installed in the courthouse.

Floyd declared disaster county

On January 24, 1980, the Small Business Administration amended the declaration of disaster loan area #1744 by including Briscoe, Foard, Garza and LaSalle Counties and their adjacent counties within the State of Texas.

The adjacent counties are Swisher, Armstrong, Donley, Hall, Floyd, Motley, Cottle, Hardeman, Wilbarger, Lubbock, Crosby, Dickens, King, Knox Baylor, Lynn, Kent, Borden, Scurry, Zavala, Frio, Atascosa, Dimmitt, Mc-Mullen and Webb.

This action is the result of natural disasters of excessive wind and hail occurring in Briscoe County on September 1, 1979, and September 10 through 29, 1979; drought occuring in Foard County on September 1, 1979 through December 3, 1979; extreme drought and grasshopper infestation occurring in Garza County on July 1, 1979 through SEE DISASTER, PAGE 3

Myria Dade of Floydada is being featured this week as cook of the week. Myria was born in San Augustine County, Texas. She and her husband Laure moved to the west Texas area in 1935 and have lived in Floydada since December 1946. Mr. Dade is retired.

The Dade's are members of the Mount Zion Baptist Church. The have five foster sons: Robert Shelby and Isaiah Shelby of Ralls, Curly J. of Oklahoma, Eddie Lee of Lafavette, North Carolina, and Pat of Lubbock.

Mrs. Dade has chosen to share her recipes for yeast rolls, Billy cookies, and pineapple or coconut cream pie.

Yeast Rolls

- 1 yeast cake 2 tablespoons shortening
- 1 egg or 2 egg yolks 1/2 cup lukewarm water
- 2 teaspoons salt

2 tablespoons sugar

Soften yeast in lukewarm water. Add shortening, sugar and salt to milk. Cool to lukewarm and add yeast and beaten egg. Stir in flour to make a soft dough. Turn out on floured board and knead until "satiny" and smooth (8 to 10 minutes). Place in greased bowl. Cover and let rise until double in bulk.

½ cup milk, scalded

31/2 to 4 cups sifted flour

Punch down and let rise again until double in bulk. Punch down and let stand 10 minutes. Shape into rolls. Let rise until double in bulk. Bake in hot oven (425 degrees) 12 to 15 minutes. Makes 24 to 36 rolls.

Billy Cookies

11/2 cup brown sugar 1 cup butter or shortening 1 teaspoon soda dissolved in 1 Tablespoon of warm

21/2 cups of flour 3 eggs pinch of salt 1 cup chopped nut meat cup chopped dates 1 teaspoon vanilla Stir together. Drop by spoon on to cookie sheet, do not roll.

Pineapple or Coconut Cream Pie

- ²/₃ cup sugar 1/4 teaspoon salt
- 1/3 cup flour 2 cups milk 3 egg yolks tablespoon butter

1 teaspoon vanilla

1/4 cup coconut on top Scald milk. Mix dry ingredients together. Pour scalded milk over the dry ingredient, stirring constantly until thick

½ cup coconut angel flake

and smooth. Beat egg yolks and add a small amount of hot mixture to them. Combine with remaining custard and cook one minute. Remove from heat. Add butter and vanilla. Allow mixture to cool. Add

1/2 cup coconut and then pour cooled filling into cooled baked pie shell and top with meringue from 3 stiffly beaten egg whites and 6 tablespoons sugar.

Sprinkle 1/4 cup coconut on top, brown in 375 degrees oven for 10 minutes.

MYRIA DADE, COOK OF WEEK

Monday: Breakfast-1/2 cup fruit juice, cheese toast, 1/2 pt. milk. Lunch-fish, catsup, vegetarian beans, mixed greens, oatmeal cookie, cornbread, 1/2 pt. milk.

Tuesday: Breakfast-1/2 cup fruit juice, sweet rice, 1/2 pt. milk. Lunch-home made pizza, whole kernal corn, lettuce, tomatoes, petite banana, milk.

Wednesday: Breakfast-1/2 cup fruit juice, scarmbled egg, hot biscuit, butter, milk. Lunch-pinto beans, mashed potatoes, buttered spinach,

Friday: Breakfas fruit juice, sweet 1/2 pt. milk. Lunch ger with mustard fries with catsup. mato, sliced di orange cake, 1/2

RELIGIOUS SERVICE OF YOUR CHOICE

WOMAN OF SAMARIA

Background Scripture: nal Reading: Psalms 42:1-8

Recently I had a speaking engagement in a small city in North Carolina. The pastor of the host church, in a gesture of ecumenicity, invited his ministerial colleagues of the town to a special luncheon for the purpose of meeting me and sharing in my

over and the discussion began it soon became evident that one of the Rev. Althouse clergyman was there for the

sole purpose of arguing. He seemed compelled to demonstrate to all of us that the differences between us could not be healed - short of adopting his own point of view. Only the good grace of our host kept the gathering from becoming a disaster.

Jews And Samaritans

Jesus' experience with the Sa-

maritan woman at the well of Sychar was of much the same type. His request was for a simple drink of water. Instead of making a simple response, however, the woman promptly named some great barriers that divided them: "How is it that you, a Jew, ask a drink of me,

a woman of Samaria?" (4:9). The writer of John promptly explains that "Jews have no dealings with Samaritans." As big a barrier was the fact that she was a woman and that he was addressing her in a public place!

But there are other barriers, too. It is not just that she is a woman, but the kind of woman she is. Jesus sees that the woman comes to the well at a strange time of the day. Instead of coming with the other women of the village, she

comes when the well is likely to be unattended by anyone. She is an outcast of the village. Why? Jesus knows: "You are right in saying, 'I have no husband'; for you have had five husbands, and he whom you now have is not your husband (4:16). As a good Jew,

Jesus should especially avoided all contact with this tainted

"You Say . . . We Say"

Disturbed by Jesus' amazing insight into her personal life the woman attempts to turn the encounter into a theological discussion. Pointing to Mt. Gerezim, you remind him that it is the Samaritans' holy mountain and place of worship, while for Jesus, a Jew, the holy mountain of worship would be Zion in Jerusalem. By highlighting an area of theological disa-

greement, she hopes to deflect this man's judgement from her own personal life. She would rather argue with this man than let him heal her.

Although she does her best to lift up the barriers between them, Jesus patiently pulls them down, one by one. Though she and the Samaritans worship on the nearby mountain and Jesus' fellow Jews worship in the temple on Mt. Zion, Jesus tells her: "But the hour is coming, and now is, when the true worshippers will worship the Father in spirit and truth. God is spirit, and those who worship him must worship in spirit and truth" (4:23-24).

When at last she took her eyes off the barriers and stopped arguing, she found the Christ for herself.

Public Notice

CITY OF FLOYDADA HOUSING REHABILITATION PROGRAM

The City of Floydada will begin taking applications for the Community Development Block Grant housing rehabilitation program on Monday, February 11, 1980. Applications for this initial enrollment period will be accepted until the close of business on Monday, March 10. 1980. Applications may be obtained at the Floydada City Hall, 114 West Virginia, between 8 A.M. and 5 P.M. Monday through Friday.

Under the CDBG housing rehabilitation program, persons who meet specified income limits and own their homes may be eligible to receive grants to make needed repairs to their homes. Only persons living in the City's 1979 CDBG Target Area will be eligible for this assistance. A map of the Target Area in northeast Floydada is available for inspection by all interested persons at the Floydada City Hall.

A community meeting on the housing rehabilitation program will be held in the Target Area on Thursday. February 21, 1980, at 7:30 P.M. in the Auditorium of Della Plains School, 601 E. Ross. The purpose of this meeting will be to explain the details of the housing rehabilitation program and allow citizens the opportunity to ask questions about the grant assistance for which they may be eligible. All citizens owning homes in the Target Area are encouraged to attend this important meeting.

The City of Floydada will provide all necessary assistance to interested persons in completing applications for the housing rehabilitation program. Handicapped individuals who may have difficulty in coming to City Hall to obtain an application form or in attending the scheduled community meeting should contact City Hall to arrange for

For further information on the CDBG housing rehabilitation program, contact Dorr Blassingame, Neighborhood Improvement Coordinator, City of Floydada, at 983-2834.

Irrigation forum Monday

983-2814.

Lighthouse Electric Cooperative is sponsoring an irrigation forum Monday, February 11, at the Massie Activity Center in Floydada. The meeting is slated to begin with registration and coffee at 9:30 a.m., with the program beginning at 10 a.m. followed by lunch at 12 noon.

The main focus of the forum will be on pump efficiency and how to get the

most for your irrigation dollar. Featured speaker will be Joe Harbin, Director of Member Services at Bailey County Electric Cooperative at Muleshoe. Harbin began pump efficiency testing 19 years ago at Muleshoe for the Cooperative and has been actively engaged in farming all of his life.

Leon New, Ag Engineer with the Extension Service, will present results of pump efficiency tests that have been conducted during the past year in the area. New has been an irrigation specialist for 11 years and directs irrigation activities for a 79 county area. New has earned numerous awards and recognition for outstanding achievement in the field of irrigation.

Wayne Wyatt and Don Smith of High Plains Underground Water Conservation District will present a joint program on the current activities of the District. They will present the film "Water on Demand", which deals with the overall geological aspect of irrigation, as well as the proper construction of an irrigation well.

Mickey Black, Area Conservationist and Myron Namken, Area Engineer, for the Soil Conservation Service in Lubbock will talk about what is available through S.C.S. to help farmers irrigate more efficiently.

All irrigators are encouraged to attend, and additional information may

Applications for the loans can be obtained by either of these methods.

CORRECTION

In the story about the Floyd County political candidates in Thursday's paper, two sentences were combined and parts of each deleted, and we came up with one sentence which read "Candidates for commissioner, precinct three commissioner hopefuls are Thomas E. Warren and Larry Noland." Not only it that a very strange sentence, it also doesn't contain all the information we were trying to furnish. It SHOULD have read: "Candidates for commissioner precinct one, are J.W. Becker, Roger Dawdy and Sam A. Spence. Precinct three commissioner hopefuls are Thomas E. Warren and Larry Noland." Apologies to the candidates, the Floyd County Democratic executive committee, and my high-school English teacher, Miss Anne Swepston.

Another beauty in Thursday's paper Methodist Church in Lockney. The concert IS February 10, but that's Sunday, not Monday. Remember, that's SUNDAY, February 10, at the Lockney First United Methodist Church.

Miss Darla Jo Assiter,

bride-elect of Jack Carthel. was honored Saturday morn-

ing, February 2, with a bridal shower at the home of Mrs.

Edell Moore, 904 W. Vir-

ginia. Hostesses in addition

Travis Jones, Gerald Lackey, Roger Poage, B.A. Robertson, Ray Tinney, Mike Vickers and A.L. Wylie, Jr.

Guests were greeted at the

door by Mrs. Moore, Miss Assiter, Mrs. Tommy Assiter, and Mrs. Ray Gene Carthel, mothers of the bridal couple. The serving table, covered with an ecru lace table cloth, featured a silver tea service and a large candle and silk flowers in an arrangement of pink and burgandy, the brides' chosen colors. Refreshments included a selection of nut breads, mints, and a choice of coffee or hot punch. Gifts for the honoree were displayed throughout the home.

Miss Assiter and Carthel will be married in Floydada on March 8.

two equal parts.

Place the cut edge of each round layer portion on adjacent edges of the square cake, and you have a heartshaped cake without having to buy a heart-shaped cake

Use your favorite icing and decorate the cake as desired for a quick and simple Valentine treat.

If you're history-minded, here are some other tidbits for mulling as you make or share it with someone. There are many ideas

about how the name Valentine came to be connected with the day on which lovers send tokens of affection to one another.

One is based on the belief throughout Europe during the Middle Ages that the birds began to mate on Feb.

In addition to honoring Saint Valentine, February, 1980 takes on an extraspecial air of romantic antiquity - with the observance

of "Lovers Leap Season," or Leap Year.

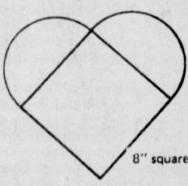

This holiday occurs once every four years with the appearance of an extra day in February - "Leap Day" and retains the mysterious belief the women may propose marriage to men with perfect propriety throughout the entire year.

According to an old English saying, ladies may propose during Leap Year, and, if rejected, they may claim a silk gown.

But the mystery remains to be solved: nobody knows just how this tradition got started, and no satisfactory explanation has ever been

No matter what the origin or belief of Valentine customs, you can still share the heart-shaped cake with a special person.

FARM & RANCH NEWS

Alcohol production can increase ag income

Dr. Steven R. Beck of Texas Tech University's chemical engineering faculty, told Texas senators that farm production of alcohol can increase agricultural income. But the ultimate economy will be in adapting both gasoline and diesel driven engines to run entirely on alcohol.

Beck testified before the Texas Senate Committee on Gasohol meeting in Lubbock.

He said the goal of Texas Tech researchers is to develop a process to produce fuel ethanol at less than \$150 per gallon and preferably at \$1.10 to \$1.20 per gallon.

"A farmer cooperative venture could easily operate a one million gallon per year distillery and produce 200 proof ethanol," he said. Although on the High Plains the real potential for alcohol production lies in crop residue, Beck said, the proposed cooperative was evaluated using grain sorghum as the feedstock.

It was assumed that sorghum would cost \$4 per hundredweight. The distillers' grain would have a value of \$110 per ton and the carbon dioxide produced in the process could be sold to oil companies for recovery of additional crude at \$40 per ton.

"If 100 percent equity financing was used," Beck said, "anhydrous ethanol would have to be sold at \$1.49 per gallon to yield a 15 percent rate of return on the investment. The current selling price in Illinois is \$1.72 per gallon.

He said that farmers could be in for disappointment in gasohol production because, to sell ethanol for blending with gasoline, it must be water-free. This requires complex processing that

the individual cannot accomplish easily. Most farm stills, Beck said, produe 140 to 190 proof ethanol should be encouraged," Beck told the committee. These can be operated by existing farm labor at low cost, and the ethanol from these small stills could be dried at a central dehydrating facility.'

He pointed out that construction and operation of dehydrating facilities creates an opportunity for entrepreneurs that has not been filled at this time but, without such facilities, many farmers could be highly disappointed.

He said a second solution would be to eliminate the dehydration step by discovering methods for using 14-190 proof ethanol as fuel.

Beck said the Texas Tech research team is studying two approaches for

this. One is to find a suitable chemical that would prevent water separation when 190 proof ethanol is blended with hydrocarbons. The second approach, "and perhaps the better one," adapt an engine to use only alcohol.

'In the case of spark-ignited engines, this should be relatively easy to accomplish," he said. "In diesel engines a lubricant, such as vegetable oil, will be required.

Bck urged research funding for more study and said "the federal and state govrnments have a responsibility to encourage power ethanol production."

He urged the passage of legislation to exempt from the gasoline tax gasolhol which uses ethanol produced in Texas and the use of gasohol in all state

ANOTHER RECORD YEAR SEEN FOR WORLD COTTON USE; DEMAND REMAINS EXCEPTIONAL ABROAD FOR U.S. COTTON

Another record year appears to be shaping up for world cotton consumption in 1979-80, report economists at

Cotton Incorporated. This, says Daniel Troxler, director for demand economics, is one of three key points that emerge from an analysis of world cotton use prospects for the current cotton marketing year.

Among the other noteworthy factors cited are unusual actions by China and Russia that have had a "dramatic effect" on U.S. cotton export demand.

In addition, says Troxler, "the prolonged threat of recession has not yet dampened worldwide (textile) mill busi-

The cotton consumption analysis is contained in the February issue of the Cotton Summary, monthly publication of Cotton Incorporated's Economic Research and Development staff.

IT MAY BE BENEFICIAL

New insect discovered

A new insect that might help farmers fight a poisonous fungus in grian has been discovered in a Michigan wheat field.

Bisham P. Singh of the U.S. Department of Agriculture's Animal and Plant Health Inspection Service said he found the new insect - a tiny, dark beetle during a routine survey in St. Clare county for plant diseases of economic importance in Michigan crops.

James O. Lee, APHIS deputy administrator, said the new insect is one of an obscure specie of beetles never before detected or described in scientific literature anywhere in the world. He said the insect was found feeding on ergot, a common fungus of grain often fed to livestock.

Scientists of the USDA's Science and Education Administration now are taking steps to identify, describe and name the insect.

Ergot is a poison to warm-blooded animals, including people. Some of its components are said to be related to LSD, Lee said.

Ingestion of the fungus in great quantities, Lee said, can kill humans or livestock, frequently posing a problem for farmers. However, the newly-discovered insect, in both immature and adult stages, appears to consume large quantities of the ergot components without any side effects.

Researchers will evaluate whether the insect helps spread the poisonous fungus as it moves from field to field or whether it could be developed as a parasite to control ergot. They also will look at the enzymes in the insect's digestive tract to learn what substances break down the poisonous compounds. a determination which could lead to a possible cure for ergot poisoning, Lee

Agricultural research in Texas Area Energy is on everybodies mind. The requires about 22 percent of the energy used for producing crops. Dr. Harold Eck, USDA Soil Chemist, will tell people at the symposium about this and

price keeps going up and the supply gets shorter. At the same time the cost price squeeze gets tighter. Growers interested in how energy in agriculture is produced and used are invited to the Annual Crop Production Symposium at the Texas A&M Research and Extension Center in Amarillo. The invitation was issued by Dr. G.B. Thompson, Research Director at the Center. The activity will start February 14 at 9:30 a.m. and the program will continue until 3:50 p.m. A dutch treat barbeque lunch will be available for \$4.00.

The keynote address will be given by T.B. Pickens, President of Mesa Petroleum. He will discuss future prospects for energy supplies.

The program starts with Ron Allen, USDA Agricultural Engineer, discussing energy use for food production. He that only 3 percent of the used in the United States goes into agricultural production. He will explain how limited tillage can cut energy use and increase

Later Dr. B.A. Stewart, Research Director from the USDA Center at Bushland, will analyze irrigated grain sorghum as a user and producer of energy. According to his calculations sorghum produces 5 times as much energy as used to grow it. He points out that as energy becomes more scarce and expensive, growers will have to use it more wisely. The remainder of the program will be research reports on showing growers how to become more

Dr. Nolan Clark USDA agricultural Engineer, will follow by showing the role of wind in reducing the energy requirement of agriculture.

After lunch Drs. Bill Lyle and Arland Schneider, Agricultural Engineers, will discuss irrigation systems and pumping efficiency. In some instances fuel costs can be reduced 50 percent with proper repairs or changes.

The evergy used for weeding crops will be shown by Dr. Allen Wiese, Texas Agricultural Experiment Station Weed Researcher. His studies show that without herbicides crop production would be reduced 25 to 35 percent. Chemical fertilizers require energy to produce, but grain sorghum yields are increased from 3,000 to 7,000 pounds

per acre in the High Plains because of

fertilazer. In West Texas, fertilization

other aspects of fertilizer use and manufacture.

After a break Dr. Wyatte Harman, Agricultural Economist will analyze changes in cropping patterns.

Drs. Dan Undersander and Jack

Musick will tell growers about research aimed at producing the most wheat and sorghum from an ever decreasing supply of water. Later Dr. Paul Unger will discuss methods of reducing the energy required for irrigating sunflowers and soybeans.

Dr. G.B. Thompson, Paul Gross, District I, Texas Agricultural Extension Agent and Dr. Frank Petr, Extension Agronomist, will moderate the three sessions of the symposium.

The event is sponsored by USDA outhwestern Great Plains Research Center, Texas Agricultural Experiment Station, Texas Agricultural Extension Service and Panhandle Economic Pro-

"Farmers and agribusiness people attending the symposium will learn what USDA and Texas A&M researchers and specialists are doing to help reduce the energy problems for agriculture," Dr. Thompson said.

In the evening on February 14, at 8:00 p.m., the Junior League of Amarillo will sponsor an "Energy for America Forum" at the Texas A&M Center. It will continue through the next day, and the public is invited.

chairman named

Board for 1980.

Miller has been a member of the

board since 1978.

the Texas seed certification program, which sets standards and guidelines within the state. The board reports directly to Texas Commissioner of Agriculture Reagan V. Brown. Purpose of the board is to maintain high quality

Officials have revealed that the 23rd annual meeting of Plains Cotton Growers, Inc., Lubbock, will be held on the afternoon of Wednesday, April 2 in the Banquet Room of Lubbock Memorial Civic Center.

Complete details will come later, says PCG Executive Vice President Donald Johnson, but it has been decided that the meeting will be built around Cotton Incorporated (CI), the subject that has been under intense discussion in High Plains cotton circles for

"PCG is a service organization," Johnson reasons, 'and we could think of no more timely or valuable service to our membership than to use our annual meeting as a forum for clarifying the issues surrounding the controversy that has developed over CI's use of producer funds in national and international development of markets for U.S. cotton and to bring producers up to date on CI accomplishments.'

After studying the results of a CI investigation released in June of 1979 by USDA's Office of the Inspector General (OIG) and reviewing actions taken to answer OIG criticism, the 50-man PCG Board of Directors last October passed a strong resolution reaffirming CI support and at the same time calling for continued efforts to improve the fiber company's efficien-

CI operations are conducted under authority of the Cotton Research and Promotion Act of 1966 which stipulates that its programs and policies be established by a CI Board of Directors, made up of cotton producers, subject to approval by the Department of Agriculture and a Cotton Board. The OIG report found fault with certain CI staff actions and also accused the CI Board of Directors, the Cotton Board and USDA of laxity in oversight responsibilities.

Consequently PCG will include on its program representatives from all CI entities. All speakers are not confirmed, but P.R. "Bobby" Smith, Assistant USDA Secretary for Marketing Services, who is responsible for USDA's part in CI operations, has agreed to appear.

'Smith, someone from the Cotton Board, a representative of the CI Board of Directors and at least one Cotton Incorporated staff member will be available for questions at the meeting," Johnson said, "and it is our hope that many of the questions that now exist in the minds of producers will be answered to their complete satisfaction.'

OBITUARIES

Father of Mrs. Ellison dies

Former Lockney resident Aubrey M. Hanks, 70, died Jan. 22 in a Wichita Falls hospital where he had been a patient since Jan. 22. He had been in ill health since September of 1979.

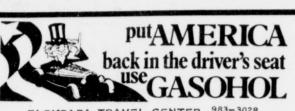

Funeral services were held Jan. 24 in Owens and Brumley Funeral Home of Wichita Falls. Burial was in a Wichita Falls cemetery.

Mr. Hanks was born June 12, 1909, at Whitehouse, Texas. He and June Kenney were married in 1937 in Glen Rose. They were residents of Lockney from 1947 until 1956 when they moved to Wichita

Falls. There they lost two homes to tornados, and instead of relocating in the city after the 1979 tornado, they moved in August to Child-

Mr. Hanks retired in 1974 after being an engineer with the Fort Worth & Denver Railroad since 1943.

Survivors include his wife June of Childress; two daughters, Mrs. Dick (Barbara) Ellison of Lockney and Kay Hanks of Dallas; a son, Don Hanks of Oklahoma City, and two grandchildren, Paula and Craig Ellison of

Rites held for

Sally Lockard

Funeral services were held Friday morning in First Baptist Church of Lockney for Rubye Frances "Sally" Lockard of Lubbock. Burial was in Lockney Cemetery under the direction of Moore-

Rose Funeral Home. Mrs. Lockard died Wednesday morning in Highland Hospital in Lubbock after a brief illness.

Sally Morgan was born May 14, 1918, at Leonard, Texas. She and her husband, Weldon Latimer, moved to Lockney in 1950 from Leonard. He died in 1973. She was married Aug. 20, 1979, to Loyal A. Lockard in Lub-

Mrs. Lockard was a member of First Baptist Church of Lockney.

Survivors include her husband Loyal Lockard of 3510 39th, Lubbock; a brother, O.L. Fuller of Plainview; a sister, Mrs. Beulah Peek of Plainview: one niece and one

Pallbearers were Leslie Ferguson, Hubert Frizzell, Junior Lee, R.C. Mitchell, David Jackson and David Sechrist.

Remember your loved nes and friends with a memorial to Lockney General Hospital Memorral Fund. These memorials go toward equipment to help serve our community in the est way possible.

REMEMBER your. loved ones with a living memorial to the Caprock Hospital Auxiliary Memorial Fund. Mrs. Ben Whitaker, Treasurer.

Family life forum set March 8 in Lubbock

A public forum designed to explore ways to strengthen family life in America will be held in Lubbock March 8. The forum will be at the Civic Center, from 8:30 a.m. to 9:30 p.m.

A series of forums, to be held later in other Texas cities, are preliminaries to the White House Conference on Families, for which Governor William P. Clements has appointed a Texas Advisory Committee.

Persons who want to testify or offer comment at the Lubbock hearing may register by writing White House Conference on Families, 5517 74th Street, Lubbock, TX. 79424. Please give address and phone number. Governor Clements said

the forums will give Texas an opportunity to have an impact on federal programs affecting families.

"I want Texas to have the broadest possible citizen involvement, and I want our participation to reflect our commitment to the wellbeing of children and fami-Governor Clements lies,
