come out on Thursday.
I can hear it now, "But what about football season?" I may be new We will begin with the around here, but it doesabout football. So, during the fall we will put out a special Saturday edition. It will be small, about four

pages, and will cover sports only. One newspaper term for an edition like that is flyer. So we will publish a football

flyer during the season. We expect to be making many adjustments during

how Floyd County feels the next two weeks and ask that you bear with us the first few editions.

The change will make a difference in deadlines. We will have to have all the news in by 4:00 Monday for that week's Thursday paper. Anything after that will have to go in the next weeks paper.

The advertising and classifed deadline

also be Monday 4:00 p.m. for that Thursday's paper.

Deadlines are necessary in order to publish accurate facts with as few typographical errors as possible. The earlier you get your news and advertisements in to us, the more time we have to work on the, and the

better job we can do. We are trying very hard

to put out a quality newspaper. We're using dif-ferent approaches in page make-up, and editorial content. Two weeks ago we went to a larger type size which should make the paper easier to read.

We've had many favor-

able comments on the

type change, especially from the senior citizens. We are about to get our

ened out. This has been a major project the last few weeks and one that has had top priority. All the work we do all week long is for nothing if our readers don't receive their newspaper. The only way we have of knowing about a missed paper is for you to call in.

Board members decided that at this time the Floydada number would be the only one used and that the Sheriff's office would accept collect calls on that number from any place in the county. Jack, Zacha, and child-ren, Brittany and Josh, stayed about 40 miles from the mountain in Portland, Oregon. Later, they made a side trip to Vancouver, Washington, which is about 30 miles from the eruption site.

In snapshots taken from Vancouver, the mountain itself is not visible, but large puffs of ash-laden steam can be seen. Mrs. Gregory said that before the initial eruption, the mountain would have

been clearly visible from that same distance.

The Gregorys said they did not realize how much of the volcano was destroyed in the blast. The entire top crown, the part covered in snow, was literally blown to bits in the initial explosion. Much of this mountain is still "in orbit" about the Washington area.

Although the ash was not as dense as expected, the family was still able to collect a small sample as a souvenier.

Have you ever had anything stolen, your business or home broken into, property damaged? Have you wanted to do something about it, but as a private citizen felt there was nothing you could do? Have you ever felt that combating crime was a community affair, that law enforcement officers needed your support, but there was really nothing you could do to help?

Now there is something that each one in the community can do. With the organization of Crime Call of Floyd County, Inc. each citizen can have a hand in solving crime, recovering stolen property, and cutting down on the number of crimes committed.

You can do this by supporting Crime Call with donations. These donations go into a fund that is used as reward money for information leading to the arrest and indictment of criminal offenders.

It is a well known fact that many persons who might help in police cases will not come forward with information for fear of reprisal, and because they do not want to appear in court. The Crime Call program guarantees that informants will not have to identify themselves to anyone. It is this assured anonymity that makes the program work so well.

Also there is the dollar incentive. The advertised reward money is often the deciding factor for someone who has knowledge of a crime that has been committed. The informant knows that he can give the information over the phone, that on one will ever find out who he is, and that he may be rewarded with as much as \$200 for the call.

The Crime Call type of program has been proven in other towns and cities. Stolen property has been recovered. Crimes have been solved. Vandalism of private property has been curbed. And in many cases the crime rate has been reduced.

Crime reduction is the Crime Call program. It is a non-profit organization, designed to bring the citizens of Floyd County into a more active role in fighting and preventing crime.

Private donations of any amount can be made directly into the Crime Call account. Collection points for the monies are the First National Bank of Floydada and the First National Bank in Lockney. Any member of the Crime Call Board can also receive donations. The finance committee of the board will pick up donations.

Many businesses have already pledged their support. Members of the finance committee will be contacting supporters in both towns and in the communities in Floyd County. Probably no more than thirty will be contacted either in person or by letter. Crime Call will rely on the citizens of the county to come forward on their own with donations. This will be a community effort.

Each one of us can now do something, by taking an active role in fighting and preventing crime in our area. It is time that we banded together and let the criminal know that we will no longer tolerate his activities in our communities.

THE COMMUNITY Action Multi-Purpose Service Center will hold a meeting June 23 at 7 p.m. in the Della Plains School to get information from the community about the kinds of activities and programs they would like

to see. The public is invited to express their opinions and ideas at this meeting.

Airline Celebrates

Birthday

Southwest Airlines, a pioneer of low cost, high frequency commuter air service in Texas and more recently in Louisiana, Oklahoma and New Mexico, will mark it's ninth Wednesday, birthday June 18, 1980.

The last nine years have been colorful ones for the Dallas-based carrier that began service between Dallas, Houston and San Antonio with 36 flights a day and three new Boeing 737-200 jets. Today South-west has 277 departures daily Monday-Thursday and serves 15 cities flying 21 Boeing 737 jets with an average fleet age of 22 months.

Service was added to the Rio Grande Valley (Harlingen) in 1975, to Corpus Christi, Lubbock, Midland/Odessa, El Paso and Austin in 1977, Amarillo in 1978, New Orleans and Beaumont/Port Arthur/Orange (Jefferson County Airport) in 1979 and to Oklahoma City, Tulsa and Albuquerque in 1980. Acceptance by the public of Southwest's service did not come rapidly. During its first six months of operation, Southwest flew 108,000 plus passengers, a differing story from today when Southwest during May 1980 topped the 500,000 mark in passengers carried in a single month, a company history setting an all time high when it boarded 545,858 passengers. Load factor for the month was 69.96 percent.

past two summers, he worked as an engineering assistant for Guggenheim Laboratories and Combustion Laboratories located at Princeton.

Collins, an Aerospace Engineer, has accepted a position with Trinity Consultants an engineering firm located in Richardson, Texas. He has been chosen as a member of the Class of 1980 Executive Committee. This group will serve as the class steering committee for the

next five years. Several of Kirby's relatives were in Princeton for graduation and for a week of sightseeing. Those flying to New Jersey for the occasion were his mother, Mrs. Gene Collins, his sister, Shelley Gammage and her husband Ronnie from Plainview, his uncle Jimmy Collins and children, Christie, Vickie and Shari from Abilene, and his great-aunt Mrs. C.C. Ricker from Lubbock. The group enjoyed a number of special events which were held on the campus. On Sunday morning they attended the baccalaureate service, which was held in the chapel. Also on Sunday, they attended a garden party which was hosted by the president of

the university and his

wife, and later that eve-

ning, they attended the Senior Step Sing with all the seniors gathered outside on the steps of Blair Arch to sing songs of Old Nassau.

On Monday, the Class Day ceremonies were held on the Cannon Green behind Nassau Hall. Later, the Class of 1980 held a luncheon for parents and guests in the courtyard below Blair Arch. That evening the families were invited to

the Senior Promenade. On Tuesday, the annual commencement was held with the traditional walk across campus and to the lawn in front of the Nassau Hall where families and guests were seated. During this time, the graduating seniors were recognized by their Departments of Study.

Kirby began the return trips to Texas by car on Wednesday, but the other family members remained until Friday. The group enjoyed two trips into New York city by bus and by train. While in New York, they rode the sub-way to Battery Park where they boarded the Staten Island Ferry, which took them past the Statue of Liberty. Next they took a bus back through town and to Central Park. From there, they walked through the theatre district which included Rockefeller Center, Radio City Music Hall, and Carnegie Hall. On the next trip into the city, they visited Wall Street where they toured the New York Stock Market Exchange, the World Trade Buildings, the Empire State Building, Square, and of Times course, Macys.

Kirby was valedictorian of the 1976 graduating class at Lockney High School. He was named a National Merit Scholar during his senior year

Beautiful weather made for a gorgeous Father's Day, and cotton and grains are growing wonderfully in the hot, sunshiny days. He was in intensive care most of the week, but we rejoice that he is getting well at this time. His parents, Mr. and Mrs. Ernest Smitherman, were

also there Sunday afternoon. June 8, Rhonda Teeple from Boutte and Bill Parker from Gretna, Louisiana arrived here to stay until Tuesday with her parents, Mr. and Mrs. Leighton Teeple.
