Stee Freez Hit Again

Tuesday Night By Vandels

Stee Freez on Street was broken again. "I've lost count of how many owners, Joyce said laughing, "15 times in the 10 years I've been in business, but this year we were five or six times." Joyce wasn't laughing when she opened the store Wednesday morning.

This break-in was different than all the rest. Chocolate, vanilla, and cherry syrup had been dribbled all over the floor and counter tops. The staple gun was in the mustard container. "Whoever did it, had to spend a long time in the store," Joyce said.

proximately \$100 to \$150 worth of stock was taken. But the burglar was particular. His or their, taste ran to bubble gum and Snicker candy bars. Boxes of the gum were taken, plus two more jars. They left other candy bars but took every Snicker bar in the store. They also took cigarettes, beef jerky, potato chips, and the fire extinguisher.

MRS. ORVILLE HARRIS will be moving to Kansas where Harris has accepted a teaching position with Pratt Community College.

"I can't imagine what they'll do with the fire extinguisher," Joyce said, "and it was attached to the wall so high that it's hard for me to reach. That's why I don't think it was kids that broke in. There were also boxes on top of the walk-in that would have been impossible for a child to reach."

The intruders were neat in one respect. A window was broken to gain entry to the store, and they had cleaned up all the glass and put it in the trash can. They also went out the back door and locked it behind themselves.

They fixed ice cream cones and then left them on the counter. They took all the suckers and then hid the display under the counter. They messed up the fountain mixes, poured coke in the butter-scotch.

"We never leave money in the store," Joyce said with a sigh, "I keep thinking they'll learn. This is the second time this year we've been broken into. They don't get much but \$100 to \$200 a whack....it adds up."

Harris Accepts Position

Pratt College In Kansas

Mrs. Harris has accepted a position as Ag teacher with Pratt Community College in Pratt, Kansas, beginning July 1.

Orville Harris will be teaching either plant science or animal science. "Both positions are open," Harris said, "I feel I'm as strong in one as the other, so I'll just wait and see what the other Ag teacher wants to do."

Reserved Seats On Sale In July

Information on reserved seats for the 1980 football season will not be mailed out until July 21. At that time everyone will have the option of renewing their seats and car stalls for the coming season. If you do not have seats and would like to get some, call 983-2340 and get your name on the waiting list.

This will be the last Sunday edition of the Hesperian and of the Beacon. From July 3 on, both papers will be published on Thursday only.

Since we made the announcement two weeks ago, the response has been overwhelmingly in favor of the once a week papers.

Deadlines will be hard for everyone to get used to. We ask that all news be in by 4 p.m. Monday for that Thursday's paper. All advertising must be in by 4 p.m. Monday, also.

There are bound to be chance-over problems the first few issues. We ask that you bear with us until we can get our routine set up.

The once a week publishing will give us time to more fully cover the local news, the communities of Floyd County, the farm news, and to give our readers interesting feature articles and columns.

June Scorcher Dominates South Plains Weather

The first 100 degree day of the recent heat wave hit Floydada Monday, June 23. By Tuesday the temperature was 109 degrees which could be an all time record, and the over 100 degree temperatures have lasted all week.

The entire month of June has been unseasonably hot with June 6 registering over 100 degrees and 13 other days were over 90 degrees. These temperature readings are according to Jon J. LaBaume, who is with the Soil Conservation Service, and who acts as the volunteer weather observer for the National Weather Service.

LaBaume began reporting weather in October of 1976. The summer months of 1979 were relatively cool with only one day of over 100 degree weather recorded and that was in the month of July. June's hottest day was only 98 degrees.

There were two days of over 100 degrees recorded in August. There were only three days in 1977 of over 100 degree temperatures. Two days in June and one day in July. Rainfall has been a little over average so far in 1980 with an average of 10.10". The 42 year average rainfall for Floyd County is 20.68" (1925-1968). Rainfall or melted snow averages for the year 1979 was 23.56"; 1978 was 15.33" and 1977 was 16.35".

The heat wave has thrown the utility companies into high gear with Floydada Power and Light running 20% more power this week than last week. Water consumption for the city was 800,000 gallons in a 24 hour period on June 1, and 1,533,000 gallons were used on June 26.

Notice

Lynn Marler, who takes blood pressure checks at the First National Bank, will not be there Tuesday, July 1. She will return on July 8.

Seay Installed As Lion President

"Personal involvement by every member" will be the Lion theme for next year said newly installed president, David (Butch) Seay at the Thursday noon meeting.

Jim Willson, installing officer, said, "Any person who serves as the head of an organization needs the help of every man."

Seay outlined a series of informative programs for the coming year. He also said that the Lion Sweetheart, Lori Lyles, will be playing an active role in club projects and will represent the club in the District Queens Contest in May of next year.

Outgoing president, Bob Copeland, was honored with a plaque and commended for doing "an outstanding job" this past year. The plaque read, "In honor and with deep appreciation of the distinguished leadership, vision and ability as president."

New officers are Sam Spence, 1st Vice President; Gary Brown, 2nd Vice President; Wilson Bond, Secretary-Treasurer; Ted Jordan, Lion-Tamer; Sammy Hale, Tail-Twister.

Richard Hale and Bill Grey were elected directors. They will serve a two year term. Corky Guffee and Joe Cluck are directors with one more year to serve.

Dates have already been set for the organizational projects the coming year. October 24 will be the night of the Pancake Supper. This will coincide with the Lockney football game. December 6 will be the Arts and Crafts. April 23 is the date set for the Broom Sale.

Fan sales have been high this week with Kirks and Sears both selling out. White's Auto reports high sales in fans. But surprisingly air conditioner sales have been about average in most stores.

Forrest Shannon, manager of Buddy's Food, said that ice sales have doubled. "We are selling between 3500 and 4000 pounds of ice a week out of this one outlet." Much of the ice is used by field hands to cool down their water and soft drinks as they work in the fields.

Baptist Choir Returns Home

The High School Choir of the First Baptist Church, Floydada recently returned from a brief choir tour and trip to Six Flags Over Texas.

Along with sponsors Bobbie and Kathy Miller, Tommy and Julie Cathey, and Jerry and Kay Ford, the 25-member choir toured Six Flags on Friday, June 20.

The next day, the group journeyed to the First Baptist Church in Lawn and was served a meal by the church. The choir, under the direction of Bobbie Miller, "sang for their supper" by performing their musical, "Branches of the Vine" by John Lee. That evening was spent in the homes of the Lawn church members.

Sunday, the singers continued their tour by traveling to Roscoe and performing several songs for First Baptist Church's noon service. Lunch was served by the church.

Believing they had ample time, the group stopped that afternoon at the Snyder Park to enjoy some fresh air and relaxation before continuing on their way to Post.

Upon reaching Post, the group prepared for the presentation that night. It was then discovered that the group was far behind schedule, as the actual time of the service differed by about 30-45 minutes from the planned schedule. A rushed, damp-headed choir still made it in time to perform the musical in its entirety for the First Baptist Church. Following the performance, the kids had a fellowship with the youth of Post, then headed home.

Grand Master To Visit Lodge

For the first time in the history of Lockney Masonic Lodge No. 867, the Grand Master of the Grand Lodge of Texas will attend the local lodge and install the new officers.

Sam E. Hilburn will be in Lockney on July 1, at the Masonic Lodge on north Main for the 7:30 meeting. Also attending will be Jimmy Willson, Grand Junior Warden of the Grand Lodge of Texas. Willson is from Floydada.

The elective officers to be installed are Johnny Huggins, Worshipful Master; Harley Workman, Senior Warden; Lawson Rowell, Junior Warden; Dave Sechrist, Secretary; Keith Jackson, Treasurer; and Rudy Zachery, Tiler.

The meal preceding the installation will be served by members of the Lockney Order of the Eastern Star No. 437.

Hilburn, an independent oil operator from Mid-

land, has been a Master of Midland Lodge No. 623 since 1950, a Royal Arch Mason in Keystone Chapter No. 172, a select master in Keystone Council No. 112, Knighted in Midland Commandery No. 84, a 32nd Degree Scottish Rite Mason in El Paso Consistory, Coroneted Inspector General Honorary 33 degree, member of Board of Directors of Scottish Rite Dorm of University of Texas, charter member of Suez Temple, life member of Texas Priory No. 23 KYCH, Past Sovereign St. Alpjege Conclave, member of Texas York Rite College No. 14.

Hilburn is a graduate of Oklahoma University with degrees in geology and petroleum engineering. He is a registered professional engineer in Texas and a member of various state and national geological and engineering societies.

Willson is active in various civic and church affairs on the local and state level.

He has been a Mason since 1947, and served in numerous offices. He received the 33rd Degree in 1965 and was elected as Grand Junior Warden of the Grand Lodge of Texas in 1978.

All Master Masons and guests are invited and urged to attend.

Cortinas In Coast Guard

Coast Guard Seaman Apprentice Janie M. Cortinas, daughter of Robert and Angelita R. Cortinas of 700 Thornton, Floydada, has reported for duty at the Coast Guard Base, Gloucester City, N.J.

A 1978 graduate of Floydada High School, she joined the Coast Guard in February 1980.

ADVERTISEMENT FOR BIDS PARTIAL RENOVATION OF LOCKNEY HIGH SCHOOL LOCKNEY, TEXAS JUNE 16, 1980

ATTEND THE RELIGIOUS SERVICE OF YOUR CHOICE THIS WEEK

Isaiah the prophet revealed God's loving heart to us in preparing us for the coming of Christ. Listen to his words:

"Thus says the Lord: Fear not for I have redeemed you; I have called you by name. You are mine because you are precious in my eyes and because I love you."

Jesus repeated this message many times. "Why are you afraid, oh you of little faith...Come to Me you who labor and are burdened and I will refresh you."

The idea that God really cares about each one of us, individually, is at the heart of the good news of the Gospels.

The great Cardinal Newman fleshed out the degree of our intimacy with God in his description of Divine Providence:

"God calls you by name. He sees you and understands you as He made you. He knows what is in you, all your peculiar feelings and thoughts, your dispositions and likings, your strength and your weakness. He views you in your day of rejoicing and in your day of sorrow. He sympathizes in your hopes and your temptations...He hears your voice, the beating of your heart and your very

breathing."

The message is always the same. God is love and Christ crucified is the proof of it.

In my book, "Enjoy the Lord," I discuss the happy art of contemplation. Many prayerful people have experienced contemplation but they may not call it that. To contemplate is to enjoy God. All actions of the mind cease. It's not an intellectual process or the act of thinking about God. The idea is to bring yourself to advert to His loving Presence, and to love in union.

Once you understand that God's personal union with you begins with His pursuit of you, and that the relationship is initiated through His action, then the rest is easy. Your union with God depends more on His love for you than on your love for Him. By your loving acceptance you begin to enjoy His love. This is the contemplative state.

People who want to surrender fully to God but fail constantly can still be contemplatives. St. Paul understood the problem: "The good I would do, I do not do and that which I would not do, that I do."

INSUR-MATION

Floyd County Insurance Agency Jerry Cooper

I know I need better health insurance. A friend suggested a Major Medical policy but I don't know what areas to consider in comparing different policies. Investigate the current rates for hospital, surgery and physicians. Use these figures to compare policies. What will each policy cover? Do benefits consist of a flat amount or a percentage of the actual cost? Are both illness and accident covered? What miscellaneous costs are covered? How does the deductible apply . . . per family, per person, per condition or per year? Which expenses may be applied towards the deductible? How long does the benefit period run? What is the maximum benefit payable? In all these considerations, a qualified insurance agent can be your greatest asset.

Today's Lifestyles

By Marilyn Tate
County Extension Agent

Do you ever feel that our modern lifestyle is a little too rushed? In this time of increasing innovations and technology, we sometimes fail to realize how little people and their problems have changed over the years. If you have a difficult time communicating with your children for example, I hope you'll take a minute to read this item taken from **The King's Business Magazine**, November 29, 1959.

MEMO: FROM YOUR CHILD

1. Don't be afraid to be firm with me, I prefer it. It makes me feel more secure.
2. Don't let me form bad habits. I have to rely on you to detect them in early stages.
3. Don't make me feel smaller than I am. It only makes me behave stupidly "big."
4. Don't correct me in front of people if you can help it. I'll take much more notice if you talk quietly with me in private.
5. Don't make me feel that my mistakes are sins. It upsets my sense of value.
6. Don't protect me from consequences. I need to learn the painful way sometimes.
7. Don't be too upset when I say, "I hate you."

It isn't you I hate, but your power to thwart me.
8. Don't take too much notice of my small ailments. Sometimes they get me the attention I need.
9. Don't nag. If you do, I shall have to protect myself by appearing deaf.
10. Don't forget that I cannot explain myself as well as I should like. That is why I am not always very accurate.
11. Don't make rash promises. Remember that I feel badly let down when promises are broken.

12. Don't tax my honesty too much. I am easily frightened into telling lies.
13. Don't be inconsistent. That completely confuses me and makes me lose faith in you.
14. Don't put me off when I ask questions. If you do, you will find that I stop asking and seek my information elsewhere.
15. Don't tell me my fears are silly. They are terribly real, and you can do much to reassure me if you try to understand.
16. Don't ever suggest that you are perfect or infallible. It gives me too great a shock when I discover that you are neither.

FARM & RANCH NEWS

Good Yields On Onions

Onion harvest begins this week in Floyd County with both packing sheds expected to be running.

"I've been growing onions here for 24 years," said Chuck Holmes, "and this is as good a crop as I've ever seen."

Holmes is with the DeBryan Produce Shed and expects to start shipping the end of the week.

The onion market is only fair with yellow pre-packs and large mediums selling at \$3.50. Jumbo yellows are bringing between \$6 and \$7.

The white market is \$4.50 for pre-packs, \$6.00 for mediums and \$9.00 for jumbos.

"This is the tail end of the Las Cruces deal," Holmes said. Las Cruces had a good crop this year and they were about two weeks later than usual, which has kept the market down.

Arizona has finished shipping, but California is still strong. Onions are coming from the Indio and Palm Springs area now.

Hereford will come off in another 2 weeks. "They had a little more adverse weather than we did," Holmes said.

Holmes estimated that there are around 1000 acres planted in Floyd County. The Hereford-Dimmitt area planted about their normal 3500 acres this year.

The county cucumber crop also looks good and should be ready in about two weeks, possibly by the Fourth of July.

Peppers are expected to start about August 25.

ONION HARVEST began this week in Floyd County.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

Production from the 25 High Plains counties led by Lubbock-based Plains Cotton Growers, 1979 came to 2,750,600 bales of 480 pounds net according to figures just released by the Texas Livestock Reporting Service (TCLRS), Austin. Total was the third highest on record, trailing 1978 crop of 3,215,400 bales and the 2,888,700 produced in 1973.

adverse weather, including one of the most severe hailstorms ever seen in August, cut 1979 harvested acres by 17 percent to 3,789,250. Yield per harvested acre for the 25 counties averaged 348.4 pounds, up from the 274.4 pound harvested in 1978 but far below the area high of 513.2 pounds set in 1965. The 10-year High Plains average yield per harvested acre, 1970 through 1979, now comes to 356.3 pounds.

Dawson County, with 243,800 bales, led the area in total 1979 production. In second, third and fourth places were Lubbock (240,600), Gaines (228,700) and Lynn (220,000).

Per-acre yield leaders on the Plains in 1979 were Martin (552 pounds), Howard (525), Midland (510) and Garza (505).

The chart below shows planted and harvested acres, yields per harvested acre and total production in 480-pound net weight bales for each of the 25 PCG counties.

Floyd County Farm Report

BY NANCY CARTEL

Wheat harvest is winding down and now onion harvest is beginning. There are about 1000 acres of onions in the county. Yields are running high this year and the prices are only fair but market generally falls off before the 4th of July and comes back afterwards.

Jon LaBaume, district conservationist for the soil conservation service stated that SCS would be involved in terracing some wheat ground and doing some other conservation practices on wheat ground, but at the present time, no cost share monies are available in the Great Plains Conservation Program or ACP program. Most of the funds are allotted in October of each year and usually used during the winter months for conservation practices.

This week we are adding the local cattle market report to our other markets. We are trying to improve

the farm page by giving it a little more local news and we welcome any suggestions you might have that would improve this page. The only way for us to give you the information you want and need is for you to let us know. We need the both the pro and con.

On the Lubbock spot market, cotton is bringing: 1375-1575 points over for 3.0-3.2 mikes, 1425-1625 points over for 2.7-2.9 mikes, 1125-1325 points over for 2.6 and below mikes. Prices are based on 1979 loan rates.

On the local grain market at Friday's close, the prices were: Corn/cwt. — 5.20 Wheat/bu. — 3.57-3.63 Soybeans/bu. — 5.50 Milo/cwt. — 4.60-4.70

On Wednesday at the Floydada Livestock Sales, 750 head were sold. Prices were as follows:

Steers: 300-400 lbs. brought 85-90 400-500 lbs. brought 78-85 500-600 lbs. brought 72.50-80 600-700 lbs. brought 68-73 700-800 lbs. brought 66-70

Heifers: 300-500 lbs. brought 68-74 500-600 lbs. brought 65-70 600-800 lbs. brought 64-68.

Packer cows: Cannons and cutters 44-47 Boners and Breakers 40-43 Stocker pairs: \$600-800 Springer cows: 50-55

The market was 1.00-2.00 higher than the previous week.

Floyd Philosopher

Dear editor: I've concluded that if you give scientists enough rope they'll unravel it. For years now they've been saying that cholesterol is bad for you. They hammered on it so hard and long, claiming that eggs particularly are full of it, that it wouldn't have surprised me if some people who'll believe anything had come out in favor of outlawing chickens. Now other scientists have come up with a study saying go ahead and eat eggs, cholesterol won't hurt you. Personally, I never stopped. I don't know which came first, the chicken or the egg; but I know which came first, eggs or scientists. The way to handle scientists who come out of their laboratories pale and dyspeptic to report what you should or shouldn't eat or drink was established years ago by a man I knew. His doctor told him he should limit himself to only one cup of coffee a day. He obeyed, after he found a cup that held nearly a quart. Another scientist is being hailed for inventing a bug that eats oil. I've had them in my tractor for years. Other scientists are now working on electric cars and I'm all in favor of it if I can get hold of a pair of good mules. As I understand it, the cars will run up to 100 miles before their batteries run down and have to be re-charged. I figure there'll be cars stalled all up and down the road, their batteries exhausted. A man with a pair of good mules and a long extension cord can clean up pulling them to the nearest wall plug. Understand, I'm not decrying all scientists. If it hadn't been for volcano scientists we never would have known when Mount St. Helens was going to blow up. Yours faithfully, J.A.
