

TERRY JENNINGS demonstrates a heart monitor to the Caprock Hospital Auxiliary members.

Auxiliary needs \$855 for heart monitor

The Ladies Hospital Auxiliary is within \$850 of having the necessary funds to buy a Datascope Monitor so badly needed by Caprock Hospital.

Monday afternoon Terry Jennings with General Medical in Lubbock demonstrated a heart monitor to the Auxiliary members.

The monitor has a bright clear, non fade display of both ECG and peripheral pulse wave forms. A large display, on a screen, of either heart rate or temperature can be selected.

The unit would be portable. It would be used at bedside.

The unit would also have a strip recorder so that the heart reading could be reviewed.

The unit has an alarm. The alarm will start automatically if there is a heart rate change on the patient.

The hospital has a heart monitor, but it is for emergency room use and has special features for that service.

The new monitor would be used at bedside, but it could also be used in emergency, surgery and intensive care or could even be used in an ambulance.

The Auxiliary has all but \$855 of the necessary \$4345 needed for the monitor.

There would be three to four weeks delivery on the unit.

If the citizens of the community respond as they have in the past the unit could be ordered immediately.

Accounts have been set up at the First National Bank and at Plainview Savings and Loan for donations to the heart monitor fund.

A car wash has been planned for Saturday by the Rotary Club at Don Hardy's Car Wash. All proceeds will go to the monitor fund.

Mark Martin

An interesting sidelight of the heart monitor story is about Mark Martin. We have asked his permission to report it.

Tuesday morning Martin entered Caprock Hospital for observation. Mrs.

Martin said that he had been having trouble with his back but that anytime there is pain in the back or arm they check the heart.

Martin was put on the heart monitor at the hospital.

A friend of his came into the Hesperian. She said "Mark Martin has done some very nice things for us in the past and I would like to do something for him." She had heard that he was on the monitor and in lieu of flowers she was donating to the fund in his name.

When Mrs. Martin told Mark about it he was pleased at the thought and is making a donation to the fund himself.

This kind of awareness and response will soon give the Auxiliary the funds necessary to order the monitor this week.

Mackenzie Bond election topic of program

On Thursday at 12 noon Neil Taylor, manager of the Mackenzie Municipal Water Authority Project, will be the guest speaker at the Lions Club meeting.

Taylor will discuss the coming November 22 bond election. He will answer questions of cost of the project.

He will also have the facts and figures of the projected tax increases and costs of water.

He will also present comparisons of water costs and taxes.

A major concern of our community is the depleting ground water supply in this area.

The Mackenzie Municipal Water Authority Project will provide such an alternative water supply.

The Mackenzie Authority Manager as well as the Board members are anxious and willing to talk to any group of interested citizens about the treatment plant project that these bonds would

finance. Four municipalities are included in the coming bond election; Tulia, Silverton, Lockney and Floydada. All four towns must vote in favor of the Bonds for the project to pass.

In the coming weeks City Councils, Chamber of Commercials of the towns involved will be studying the issue closely.

Mayor Claude Brown, Lockney, indicated at the Mackenzie Authority meeting in October that their city council would endorse the authorization of the bonds. Mayor Brown is in the hospital and unavailable for comment in this issue.

Silverton City Council has endorsed the project.

The Floyd County Hesperian and the Lockney Beacon are strongly in favor of the passing of the bonds, as are the Tulia Herald and the Silverton, Briscoe County News.

Floyd County goes for Ronald Reagan

An astounding 73% of the eligible voters in Floyd County turned out for the election Tuesday.

Reagan carried 57% of the county with 2043 votes. Carter had 1477 votes. Anderson had 24 and Clark had 12.

The only precincts to favor Carter were Northwest Floydada, McCoy and Northeast Floydada.

Election results of the local candidates, all uncontested are as follows; Randy Hollums, District Attorney, 2321; Kenneth Bain, County Attorney, 2314; Fred Cardinal, Sheriff, 2374;

Hardy named Chassis Builder

For the past four successive years, Don Hardy has been named Chassis Builder by the readers of Car Craft Magazine. The following was taken from the December, 1980, issue of Car Craft Magazine, where each individual and each company that was given an award for their contribution or talent:

PROFESSIONAL CHASSIS BUILDER: DON HARDY RACE CARS

How does a town like Floydada, Texas, become the race car capital of the world? Well, it helps to have a man like Don Hardy in residence. Hardy was there when the Funny Cars first swelled in the mid-Sixties, then caught the new wave of Pro Stock racing when it started to crest in the early Seventies. In addition to building cars for superstars like Glidden and Nicholson, Hardy produces V-8 Vega kits and chassis components for the young man in the street. The lights may dim in Floydada when the heliars are in operation down at Hardy's shop, but the townspeople know that no other municipality can claim Pro Stocks as their leading export.

Jonelle Fawver, Tax Assessor-Collector, 2356; and Walter Hollums, Justice of the Peace, Precinct 1, 1630. All are incumbents.

Two new County Commissioners were elected: Sam Spence, Precinct 1, 1214 votes and Tomas Warren, Precinct 3, 481 votes.

Voting boxes came in to the County Courthouse before 9:00 p.m. which was a good time with the large voter turnout.

Republican Chairman Bill Gray said in an interview that he would like to thank the volunteers who helped in the telephoning and mail out aspects of the campaign.

"Especially the numerous high school youth who spent endless hours addressing numerous post cards that were mailed throughout the county," Gray said. "The nice weather helped in getting the voters out, but I think a great deal of credit goes to the increased effort of the volunteers."

Floyd County voter response on the amendments are as follows: Amendment 1, unmanned tellers for banks carried 1366 to 1335; Amendment 2, appeal of pretrial rulings failed 1639 to 763.

The amendment 3 about the appraisal and equalization being mandatory failed 1431 to 1082.

Amendment 4 authorizing bingo failed 1728 to 989. Amendment 5 about governor control of appropriated funds failed 1969 to 586.

Amendment 6 authorizing governor to remove appointed officers failed 1349 to 1219.

Amendment 7 authorizing county under 5000 to do private road work carried 1425 to 1108.

Amendment 8 to change the Court of Civil Appeals failed 1569 to 868.

Amendment 9 allowing spouses separate property failed 1359 to 1222.

Student vote in mock election

Jimmy Carter may not have carried Floyd County Tuesday, but he did win at the Jr. High School.

The mock election was carried out as close to the general election as was possible.

Copies were made of an authentic voter registration form. Each student had his own "No electioneering" signs were posted on the cafeteria doors where the election was being held.

The list of registered voters and an authentic signature roster were presented over by registration chairpersons and clerks.

The election judge was Scott Smith, student council president.

Tally Chairperson was Toni Lamb, vice-president. Registration Chairpersons were Ruby Ledbetter, secretary, and Virginia Mitchell, treasurer.

The registration clerks worked in pairs each of the four periods that the students were voting. They were: Jerry Don Wilson, Marilyn Smith, Jamie Thayer, Gloria Becerra, JanAn Chandler, David Morren, Althea Campbell and Connie Self.

A ballot box was borrowed from the school office. 250 copies of the ballot from last weeks issue of the Hesperian were used.

The students had been discussing the pros and cons of the candidates during History classes taught by Sallye Lyles and Norma Feuerbacher.

The students had reviewed a tape of the debate between President Carter and Ronald Reagan.

Results of the election were; Carter, 94; Reagan, 87; Anderson, 2; Voided Ballots, 7. There were 190 votes cast.

The election was staged by the Student Council. Audrey Spence sponsor, and Mrs. Garrett's Vocational Resource class.

County budget hearing set for Monday

The Commissioners Court of Floyd County will hold a special meeting on November 7 at 8:30 a.m.

Court will canvass the ballots of the November 4 General Election.

Commissioners will discuss the 1981 budget in preparation for the budget hearing and adoption set for Monday, November 10 at 2 p.m.

Anyone who is interested in or who has questions about the county expenditures in the next year should attend the hearing on the 10th. Both meetings are open to the public.

This budget for a county with an estimated population of 10,000 anticipates total receipts of \$1,191,276 and total expenditures of \$1,184,683.

The receipts will be realized through an estimated ad valorem tax of 31 cents per \$100 of assessed valuation. The remainder of the receipts will come from local sources and various federal and state payments.

The tax rate will be based upon the final county valuation.

None of the tax will be applied to servicing outstanding debt as Floyd County does not have any outstanding bond issues or warrants.

In previous years the county has had a sizeable cash balance at the beginning of the year. In 1980 that balance was \$281,798.

The cost of the state required remodeling of the county jail whittled that beginning of the year cash balance down.

The beginning of the year balance depends on the taxes collected in October, November and December. However, with the reevaluation this year tax notices have not been sent out, therefore, taxes have not been collected during those months.

The important thing is for the public to attend the budget hearings.

Bill To Extend and Increase GPCP Funding Passed

In June, a bill extending the Great Plains Conservation Program (GPCP) from December 31, 1981, to September 30, 1991, became law.

The new legislation, Public Law 96-263, will increase GPCP funding from 300 million to 600 million and will raise the yearly cost-share limitation from \$25 million to \$50 million.

"This is a positive step to insure that farmers and ranchers throughout the Great Plains will have added incentive to apply conservation measures on their land," Jon LaBaume, district conservationist for the Soil Conservation Service at Floydada said.

Under the GPCP, landowners can speed up soil and water conservation work by signing agreements for 3 to 10 years. The contracts guarantee cost-sharing by the government to apply and maintain conservation measures. Contracts have been written for about half of the land eligible in the 10 states.

The Soil Conservation Service has administered GPCP since the program began in 1956. Through the program, working together with local Soil and Water Conservation Districts, SCS has given technical and financial assistance to 55,000 Great Plains farmers and ranchers in treating critically eroded farmland and making appropriate land use changes.

A landowner's soil type, slope, and past erosion patterns are considered in determining what kind of soil conserva-

tion practices are needed in his or her area. The operator may agree to one of several alternatives, according to which suits his budget and labor limits. A reasonable amount of flexibility allows for later changes in the conservation program if the need should arise. Modifications in the plan of work can be made during the annual fall contract status review with the SCS representative.

Over the next 10 years, SCS and districts hope to help even more Great Plains farmers and ranchers plan for and install the most effective conservation practices on their land.

"The hazardous climate and easily eroded soil in the 10 Great Plains States require lasting protection of soil and water resources," LaBaume said. "The drought of the 1970's, and the summer of 1980, is a reminder that we must adequately protect the Plains from wind and water erosion to reduce the likelihood of another disastrous Dust Bowl."

"Despite a good record of success for work done under the GPCP, much work remains in order to combat serious droughts and persistent erosion problems," LaBaume concluded.

Any landowner is eligible for cost-share under the Great Plains Program and should contact the Floyd County Soil and Water Conservation District or Soil Conservation Service at 208 S. Wall.

HERBICIDES FOR FALL
 Treating the base of brush plants with liquid herbicides and using pelleted herbicides can be effective during fall and winter months, making brush control a year-round practice.

Kerosene, diesel or a diesel and 2,4,5T mixture may be poured or sprayed around the base of many brush species on rangeland in Floyd County. Apply the solution to the trunk from a height of twelve inches to the soil surface. Be sure to apply enough of the herbicide mixture so it runs down the trunk and soaks down around the root crown. This method works best when soil is dry and pulled away from the trunk.

Although basal treatment is a time-consuming method of brush control, it gives excellent results. The method is good for use on thin stands of brush, on small acreages adjacent to cropland, on fencerows and on areas where other methods are not feasible.

In recent years, two pelleted herbicides have been registered for use on rangeland and may be used during the fall months. They are the 10 percent picloram pellet (Tordon 10K) and the 10 percent and 20 percent tebuthiuron pellet (Graslan 10P and 20P). These

herbicides are applied to the soil surface. Moisture is needed to move the herbicide into the soil, and plants pick it up through their root system.

Apply Tordon 10K and Graslan just prior to expected rainfall. Most of the state normally receives sufficient rainfall during the fall months to move these herbicides into the soil.

Tordon 10K pellets are useful for controlling pricklypear, huisache, red-berry juniper, macartney rose, Hawthorne, sumac, willow baccharis and whitebrush. The material may be applied to individual plants or broadcast by ground or aerial equipment.

Graslan pellets are currently registered for use on post oak, blackjack oak, winged elm, whitebrush, blackbrush, running liveoak, and sand shinnery oak and have effectively controlled these species. However, the herbicide is available only for aerial broadcast application through Elanco Products Company approved aerial applicators.

Pelleted herbicides are safe because of minimum drift. They are ready to apply and require no mixing. Now would be a good time to apply Tordon 10K and Graslan for control of certain brush species.

Markets

The grain markets on Wednesday afternoon were:
 Milo/cwt. — 6.05-6.10
 Wheat/bu. — 4.42-4.43
 Soybeans/bu. — 7.90-8.10
 Corn/cwt. — 6.50
 Cotton contract on Wednesday afternoon were 3300 over the 1980 loan.
 The futures opened up this morning following the election but closed down at the end of the day.

John Goodwin, acting executive vice president of USDA's Commodity Credit Corporation, said farmers may sell their wheat stored in the two reserves after repaying their CCC price support loans. Release of the reserves does not require farmers to redeem or sell their grain at this time, Goodwin said.

Farmers with farm-stored reserve grain must request a release from the county office of USDA's Agricultural Stabilization and Conservation Service before removing the grain for sale.

The release level in 140 percent of the \$3.00 per-bushel national loan rate for wheat.
 About 80 million bushels of wheat are in reserves I and III.

Data used by CCC in determining the release level include five-day average prices as reported by USDA's Agricultural Marketing Service which show prices bid by buyers at selected markets.

Agriculture Will Have To "Wait Till Next Year"

Texas farmers and ranchers will have to "wait till next year" for any improvement in their income.

"Higher farm prices resulting from a sizable drop in crop production this year, smaller meat supplies, and strong export demand all point to an improved agricultural income picture in 1981," believes Dr. Carl Anderson, economist in marketing with the Texas Agricultural Extension Service, Texas A&M University System.

Crop producers will likely fair much better in 1981 because of this year's short crop and a rise in prices. And, with meat supplies expected to slip under year-earlier levels, prospects look somewhat better for livestock producers as well.

Although production expenses will rise again, price increases are not expected to be as sharp as in 1980, says Anderson. During the past 12 months, fertilizer prices jumped 28 percent, fuel and energy prices and interest rates climbed 25 percent, and agricultural chemicals rose 21 percent.

"Texas agriculture suffered considerably from the extended dry, hot weather during late spring and summer. Dry-land farmers, cow-calf operators and

poultry producers experienced big setbacks. Irrigated crops were even stunted by the intense and prolonged heat wave," notes Anderson.

Despite the steep drop in crop production, cash receipts for 1980 are estimated by Extension specialists to total only a little less than in 1979. Crop inventories carried over from the bumper 1979 harvest and price increases for many commodities have helped maintain sales close to last year's level.

Livestock sales sagged a little as lower cattle and hog receipts more than offset increased sales of poultry and milk.

While overall agricultural receipts won't be down too much from last year, net income will be off sharply due to surging costs of running a farm or ranch, says Anderson.

And, to make matters worse, the purchasing power of income has been further reduced by this year's double-digit inflation.

"Declining farm income is also hurting businesses serving agricultural producers. As farmers and ranchers tighten their belts, they will be buying fewer production and consumption goods and services," notes the economist.

SBA Includes "Hot Weather" In Disaster Eligibility

The U.S. Small Business Administration (SBA) has amended Disaster Declaration #1900 for the State of Texas to include "extreme hot weather" as being cause for disaster loan eligibility.

The SBA makes available disaster recovery loans to farmers, ranchers and agriculture-related businesses who suffered hardship due to adverse weather in counties declared a disaster area, as well as in all bordering counties within the state. The loans are low-interest and terms of the loans are based on the borrower's repayment ability. Texas producers who lost crops because of the drought or extreme hot weather may receive program and eligibility information by calling (806) 762-7481.

Physical disaster loan applications filed under declaration #1900 must be received by February 12, 1981. The deadline for economic injury disaster loan applications is May 12, 1981.

FIX-IT FACTS

 To nail or to glue and nail... when applying paneling? Both methods are good. Paneling adhesive is gaining popularity but some prefer to use only nails. Butt the panel into the corner and tack. Check to be sure there is a 1/2 inch clearance on both top and bottom and the outside edge is vertical. Nail the panel to the furring strips or studs every 16 inches. If using paneling with grooves, 16 inch intervals should coincide with grooves. A great time saver is to use pre-colored nails to match the paneling. Planning can make the rest of the wall easier. Figure where the paneling will end up in the second corner. If there is only a small space taking a few inches off the preceding panels will leave more room for the final panel. Cut each panel just prior to putting up. Next week, the second application method... glue and nails.

After a year when so many corn growers suffered record hot and dry weather, there's a lot of attention being paid to the potential for certain hybrids to be drought tolerant. An easy way to check for drought tolerance this year was to grab a stalk and pull up. If the plant resisted and was hard to pull up, it indicated a well-developed root system which could go after whatever moisture was available. In the next couple of years, look for a new special drought tolerant corn with a genetic trait called late-tilt. This trait will allow the corn plant to turn off the reproductive system during heat or drought stress. After the stress is up, the plant resumes its normal cycle.

Texas cities face serious water shortages

Texas cities face a serious challenge to provide long term water to their communities. The water reserves of many rural areas within twenty years, and for the projected life of current systems, is less.

The challenge is to be met, West Texas municipalities need to act now on information and realistic assessments of their municipal water needs.

West Texas Chamber of Commerce has taken a lead role to help West Texas cities look at their water futures. The chamber has given program priority to municipal water issues during its Mid-Year Membership Meeting Pre-Legislative Conference November 19 through 21, at the Park Inn in Lubbock. The chamber agenda offers a program of information on the "Water Project," from engineering and engineering to water supply problems, and to water situation in West Texas, including population and state planning and the findings of a municipal survey conducted by the West Texas Chamber's Water Development

Committee has asked local business and industrial leaders to be involved in planning and development to their communities' long term water supply problems, and to take a good look at what is there. The survey requests information to identify member companies with their projected capability to meet their future water needs, as well as sources of water for each city's future water needs. The survey questions survey the level of water awareness based on ordinances, and system programs, and special problems that need to be addressed.

Results will be presented at the conference by Arthur Dugan, Chairman of the West Texas Chamber of Commerce Water Development Committee, and prime architect of the special program emphasis on issues facing West Texas.

MR. AND MRS. DANIEL LEE SIMPSON

Candlelight double-ring ceremony unites Young-Simpson

Mr. and Mrs. Daniel Lee Simpson are making their home in Corpus Christi following their October wedding in Floydada. Mrs. Simpson, the former Shandra Lea Young, is employed by Southland Corp., and her husband is produce manager at Albertson's in Corpus.

The bride, a graduate of Floydada High School, is the daughter of Mr. and Mrs. Travis Young of Floydada. The groom, a graduate of Amarillo High School, is the son of Mr. and Mrs. Wesley Simpson of Amarillo.

The wedding was performed by Dr. Floyd C. Bradley in the home of the bride's parents at 4 o'clock p.m. October 18th. A fifteen branched candelabra centered with a bouquet of daisies and mums, flanked with palm leaves, was the setting for the candlelight double-ring ceremony. Mrs. Penny Giesecke played piano selections of "Last Date", "Laura's Theme", "Nadia's Theme", "Greensleeves", and the "Wedding March."

Escorted and presented in marriage by her father, the bride wore a floor length gown of champagne sheer chiffon over satin, fashioned with a scooped neckline and fitted bodice. An overlay of chiffon descended from the neckline forming the short sleeves, and the slightly flared skirt was bordered with Chantilly lace. Her mantilla veil of illusion was bordered in matching lace. She carried a cascade of white roses and stephanotis with greenery and tulle on a white inlaid pearl prayer book belonging to her maternal grandmother, Mrs. Val-ree Turner. The Bible, brought from the Holy Land by Mrs. Turner, has been used in other recent weddings of her granddaughters. Inside the prayer book was a folded handkerchief, something old, which belonged to the bride's late great-grandmother Medley. The bride also wore the traditional blue, which was her garter, and something new was her wedding attire. Something borrowed was the prayer book. She also wore a diamond drop which was a gift from her husband.

Lori Young, of Lubbock, was her sister's maid of honor. She wore a dusty rose floor length dress of Quiana knit styled with a draped bodice and sleeves. Her bouquet contained silk lilies and stephanotis of the dusty rose color.

Scott Spencer of Amarillo was best man. He and the groom wore burgundy colored tuxedos with pink shirts.

RECEPTION

The groom's sisters, Jackie Wile of Amarillo and Karla Simpson of Lubbock, presided at the serving table for the reception which followed. A white knit cloth with an overlay of net covered the dining room table. The net was caught at intervals with bows in dusty rose with burgundy leaves. The centerpiece was a silver candel-

abra holding dusty rose tapers with the bride's and maid of honor's bouquets at the base. A three tiered cake decorated with white icing, burgundy and rose, nuts, and mints were served along with punch from silver and crystal appointments.

Mrs. Deral Young, aunt of the bride, registered guests. Stephanie Simpson of Amarillo, sister of the groom, distributed white rice bags tied with burgundy ribbon.

Members of the houseparty were Mmes. Doyle Turner, LeRoy Burns, Sherman Irwin, Don Shurbet and Doug Meriwether, all aunts of the bride.

The bride chose a white street length dress with three-fourths length sleeves and a ruste vest for a brief honeymoon trip to Lubbock and Corpus Christi.

Housewarming party held in honor of the Guffees

Debbie and Candi Guffee were honored Saturday afternoon with a housewarming party in their mobile home residence at 510 1/2 S. 9th in Floydada.

Hostesses for the event were Mrs. Otis Anderson and Mrs. Doug Galloway of Floydada, and Mrs. David McCulley and Mrs. Jack Shirley of Lubbock.

Guests called between the hours of 2 until 3:30, and registered on a round table which contained a picture of Debbie and Candi in an oval frame accented with a silk floral arrangement in a white vase. Both were gifts from Mrs. Doug Galloway. Her

daughter, Robin, presided at the register book.

The serving table, covered with a beige linen cloth edged in lace, held a fall color dried arrangement and crystal and china appointments for serving an assortment of cakes, coffee and punch, and nuts and mints.

The honorees were surprised with a beautifully decorated money tree sprayed gold with a silk flower and green ribbon where each bill was tied.

The amount received from friends and relatives will be used by the honoree to purchase a washing machine.

Members of Alpha Sigma Upsilon attend area convention in Hereford

Five members of Alpha Sigma Upsilon Chapter of Beta Sigma Phi attended their area convention in Hereford October 25 and 26. The theme of Circus, Circus was followed through both days activities. Members received a tote bag at registration that were painted with colorful balloons. The bags contained lots of goodies including a charm to add to our bracelets. Hereford host chapters were Alpha Iota Mu, Alpha Alpha, Kappa Iota and Xi Epsilon Alpha.

Several chapters had booths at the community center for the flea market. Members could buy chances on such things as grocery baskets, gold nugget, doll and buggy, kitchen baskets and a ceramic Christmas tree.

Saturday night under the big top members gathered at the Bull Barn for a Circus Treat. Members enjoyed chile dogs, potato chips and cokes. Dining tables were decorated with coke bottle clowns and potted ivy clowns. The ringmaster, Jan Walsler, introduced a magic act given by John Gilliland. "It's a Grand Night for Singing" was presented by Ray Owens, Jan Walsler, John Gilliland and Linda Gilbert presented "Send In The Clowns." Circus animals and entertainers gave a special dance.

During intermission members played Seek-a-Sister and the winner, Pat Powan, from Floydada received a 7-Up cake for her efforts. Walt Disney visits the Circus performed by the Hereford Singers included Mickey Mouse, Minnie Mouse, Puff the Magic Dragon, Ferdinand the Bull, Snow White and the Seven Dwarfs just to name a few. Dessert was served from the carnival booths after the program.

Sunday morning a continental breakfast of coffee and donuts was served at the community center. Doug Manning presented special music for the devotional.

A questions and answers period was held with a special guest from our International Office located in Kansas City, Missouri, Shirley Moore, Texas Division Chairman. Lunch of steak, baked potato, salad, rolls, coffee, tea and pudding was made pleasant by a style

show by the "Vogue" with Beta Sigma Phi models. Tables were decorated with circus drums and clown dolls. Clown faces made of dough art were place favors.

The Invocation, Introduction and Opening Rituals were given and Shirley Moore gave a message from the International Office. Phyllis Neill presented the scrapbook and yearbook awards. Door prizes were given throughout both days activities and Floydada members were very fortunate as everyone came home with a prize.

Perryton spread their gold dust and invited everyone to join them in 1981 on October 24 and 25 for the Gold Rush Days.

A candle light ceremony for Closing Rituals was given by Hereford members.

Members attending from Floydada were Mary Emert, Lynn Daniel, Rhonda Guthrie, Pat Rowan and June McGaugh.

Friendship Social Club holds meeting

The Friendship Social Club met October 2 in I.O.O.F. Lodge Hall in Lockney with Lockney members as hostesses.

There were 10 present for the occasion, nine members and one visitor, Pauline Pierce.

A bountiful meal was served following the business meeting. The group then enjoyed an hour of fellowship and fun.

The next meeting will be in Floydada I.O.O.F. Hall Thursday, November 13, with the Floydada members as hostesses.

The club will entertain their families with a Thanksgiving dinner with games and other entertainment after the meal.

Mr. and Mrs. Hubert Davis journeyed to Canyon, Saturday, November 1, to the Toy Bowl football game in which their grandson, Dustin Holladay, played.

Admission to the game was a toy or canned food which will be given to needy families at Christmas.

The game which was well attended was played in Buffalo Stadium. Dustin's team of Hollywood Lane won the game 6 to 0 over River Road.

After the game the Davis' and Holladay's went to the home of a granddaughter, Suzanne and Danny Cranmer, for refreshments and a short visit before returning home.

Dustin Holladay is also a grandson of Bill and Corene Holladay.

Mr. and Mrs. M.J. McNeill attended homecoming at Chinn's Chapel of the First United Methodist Church, near Lewisville, Texas. The church is 130 years old.

JIM SCHEPPKE of the West Texas Library System, speaks to the Friends of the Library.

Jim Scheppe speaks to Friends of the Library

By Beth Pratt

Success for a library is measured in terms of the number of items circulated per capita, said Jim Scheppe, new coordinator for the West Texas Library System.

"Just as in a retail business, three things are the key to the amount of business you do — the three things are location, location and location," Scheppe told the Friends of the Library at their regular Tuesday meeting in the Floyd County Library.

While other factors contribute to the success or failure of a library service, statistics prove that a court house is not the best place to house a library, Scheppe continued.

Average circulation in the West Texas Library System area for 1979 was 7.19 books per person. In Floyd County the average was 2.24 books circulated per person. This statistic includes the Lockney branch library.

Out of the 24 member libraries in the system, five remain located in a court-house. The Floyd County Library ranks 20th out of the 24 area libraries in the amount of money spent per capita for library services.

Texas allows 16 cents per person from state funds for public libraries. These funds are distributed to Floyd County through the West Texas Library System, Scheppe explained.

In 1980 the Floyd County Library purchased 290 non-fiction books with the \$2,242 of collection development funds from the West Texas Library System. The library received 370 books from the System were shown to 202 persons and the 16mm films loaned to Floyd County by the System were shown 307 times to a total of 16,328 Floyd County residents.

Four workshops dealing with library administration and programming were made available for the continuing education of the Floyd County Library staff. Approximately 20 man/hours of consulting and technical assistance were provided for

the Floyd County Library. "Floyd County Library's circulation of 16mm films is impressive," said Scheppe.

Many local organizations have taken advantage of the excellent films available through the West Texas Library System, librarian Jackie Walls reported to the group.

Local Friends president, Janice Lloyd, serves on the advisory council of the West Texas Library Systems, which approves the budget requests made to the State Legislature. Several groups will petition the next Legislature for additional funds for library development in Texas. The state ranks 34th nationally in support for public libraries.

"Foundation funds are available for improving local library services," Scheppe said, "but a community must demonstrate local support before these funds can be obtained."

"The West Texas Library System is not here to replace the responsibility of the local government to provide library services, but to augment the services you provide," Scheppe explained.

Doing business with witches didn't seem to bother these customers at Sears on Halloween Day. The store tied for second place in the Chamber of Commerce "Fun Day" contest. Each witch's face was painted a different bright color. [Upper photo].

The Floydada School Office also tied for second place. [Photo on the left]. Businesses and offices were judged on display and costumes. The window at the school office was decorated by Roberta Hardin, teacher at Duncan Elementary, and Opal Ashton, a teacher's aide. The witch's shoes were pointed toed and almost 100 years old.

Winner of the contest was the Hesperian. Photos of the "House of Hesper" are on the back page of B section.

"Keep That Great GM Feeling With Genuine GM Parts!"

LAKEVIEW NEWS

by Mrs. Joyce Williams

Little Miss Shelly Bertrand of Vernon stayed from Monday through Thursday with her grandparents, Mr. and Mrs. William Bertrand, while her parents, Mr. and Mrs. Ron Bertrand, were in Austin of business. Faye and William met the younger Bertrands halfway at Paducah to pick up Shelly, and also when she returned home.

Many Lakeview people attended the funeral services last Friday for Dennis Taylor, who grew up in Mt. Blanco. During the services at the New Salem Primitive Baptist Church in Floydada, his sons presented the eulogy, which they had written, praising their father for the Christian example he had lived before them. His son, John, stood at the foot of his father's coffin, looked up and sang "I'm Just a Wayfaring Stranger." Dennis' nephews were pallbearers. At the Crosbyton cemetery the sons continued a burial tradition of the Taylor family by personally covering the coffin with earth in the grave.

Radioman 3rd Class Bill Nichols and wife, Brenda, have returned to California where he is in the Navy. They spent a week here visiting Bill's parents, Mr. and Mrs. James Lee Nichols, and other relatives. Bill is on the USS Constellation.

Mrs. Robert Pyle attended the P.T.A. meeting at Duncan Elementary Monday night.

Mrs. Holt Bishop was able to go to church again Sunday for the first time since her stroke last summer.

Mrs. Flora Guzman visited Mrs. Reynaldo Quilantan Saturday. Flora's sister-in-law, Mrs. Tony Soto, Sr., who used to live in our community, received her G.E.D. certificate over the weekend, and the family celebrated with a graduation party for Fally. Fally is a supervisor at Levi Company in Plainview. She and Tony have bought a large house in the country east of Plainview.

Mrs. Choise Smith and sons, Hunter and Dean, stayed Thursday night with the boys' grandparents, Mr. and Mrs. Flukie Smith in Lubbock. Kay Dean attended the Texas State Teacher's Association Convention Fri-

day at the Civic Center. Mrs. Jimmy McGaugh and daughter, Marlis, were in Lubbock Saturday.

A new woodburning fireplace, faced in stone has been installed on the west wall of the Howard Bishop's living room. Now if an ice storm knocks the REA out this winter, the Bishop's can still keep warm and cook their meals.

Mr. and Mrs. Kenneth Cockrell of Irving are here

this week with her parents, Mr. and Mrs. James Lee Nichols, and Ken's family, to attend the funeral for Mr. J.I. Connelley, Kenneth's grandfather.

Miss Jodi Smith and brothers, Dean and Hunter, attended a 4-H livestock judging class at Floydada Monday night.

Miss Cindy Burk, daughter of Mr. and Mrs. Verlon Wright, brought home a first place trophy for girl's singles

at the tennis tournament in Lubbock Saturday.

Mr. and Mrs. Fred Bishop of McKinney, are visiting her brother and family, Mr. and Mrs. Leonard Alexander, this week.

Mr. Munroe Shannon and son, Lonnie Adams of Shamrock, visited Judge and Mrs. Choise Smith Sunday afternoon.

William Bertrand assisted with the National election Tuesday.

BBB warns against "free" diamond

South Plains residents should be alerted to a company by the name of Poole's Ltd. Gem Liquidators of New York.

This company is offering, through newspaper advertising, a "free" genuine diamond to credit card holders that purchase a "single parcel of 3 fully faceted, polished precious stones consisting of a genuine emerald, a genuine ruby and a genuine sapphire."

The Better Business Bureau of New York reports that on several occasions, background information has been denied by the company. The BBB of New York has questioned the firm's advertising also.

BBB/South Plains advises caution in doing business with this firm based on the following reasons:

1. You have to buy something to get the "free" diamond, therefore, the diamond is not free.
2. The urgency-type appeal of the advertising.
3. Customer having to give credit card number only.
4. The New York BBB's report on company.

Anyone having questions can call at BBB at 763-0459 or for South Plains residents living outside Lubbock, call 1-800-692-4466.

Where did towns get names?

According to Mrs. Blanche Barberford, in her engaging book, "One Corner Towns", the name Della comes from the name of J.S. McLain, who combined the type of topography which Floyd County is and you come out Della Plain.

Flomot in 1900 about 3 miles west of its present location, right on the Motley-Floyd line.

In 1902 Eb Hewitt opened a store at the present site, and the post office was moved from the Welch site to his home, his wife taking over.

Despite being further from the "geographical truth", the name has stuck. It is only a mile north of Quitaque Peaks.

"Mayshaw" might seem to be an unusual combination. A.J. Shaw was one of the promoters of the new town to take the place of Della Plain in 1892. His wife was named May. The two names were put together, and thus we have the designation "Mayshaw" for what is now the Muncy area.

Perhaps the most consistently mispronounced name in this general area is that of Quitaque. Many persons take the "q" sound quite literally at the beginning. Phonetically it would be spelled kit-ah-kway. It was taken from the Indian tongue, and has two meanings: "watering place" and "end of the trail." Quitaque Creek is well-known. There are also two hills that serve as landmarks. They are known as Quitaque Peaks, one being in Motley County, the other in Floyd. Quitaque, as a town, is in Briscoe County.

Barwise was not the original name of that community that is 10 miles west of Floydada on the Ft. Worth and Denver which still has a general store and agricultural enterprises. It was platted in 1928 and was first called Stringer, as there were well-improved farms, some under irrigation, belonging to the J.W. Stringer estate. But some freight meant for that location was sent by mistake to a town in Texas already bearing that title, and so, according to L.R. Stringer, son of the late J.W. Stringer, it became necessary to change the name. Some people were already calling it "Granary." The Ft. Worth and Denver wrote to him asking for name, and when

he requested them to make the designation they did so, calling it Barwise. This was in honor of Judge J.H. Barwise of Ft. Worth.

Aiken is located in the west part of Floyd County, only two miles east of the Hale County line, and was established in 1909. It was named for F.O. Aiken, one of the pioneer settlers of Floyd County, and the townsite was secured from the state of Texas on October 23, 1898. It is in the heart of the irrigation district, and is located on the branch line of the Santa Fe that runs from Floydada to Plainview.

The story about how HE, that is Blocker-Douglas, got his name, can be found in the article on "Range Life on the Plains."

GREY MULE

There's a section of Floyd County off the Cap, between Cedar Hill and Quitaque, commonly called "Grey Mule". This is simply because, in the days long before school buses carried children to school, many of them rode grey mules to school. No great mystery!

Southwestern Bell's science demonstrator, Bill Haehnel, was guest speaker at the combined Rotary and Lions Club meeting Thursday afternoon.

Guests included members from the Lockney Chapter. Haehnel's demonstration began with a replica of the first telephone invented by Alexander Graham Bell. It followed the advances in communication technology from the early 1900's and looked to the equipment that will become common place in the future.

There will be a time, that with a telephone call you can regulate heat and air conditioning in your home from any distance. You can also turn on the lights, start the oven, or activate an alarm system.

Marble receives scholarship from Texas Tech

Eight students have received scholarships sponsored by the Texas Tech University Agricultural Extension Students Association.

Honored as recipients at the Texas Tech student Agricultural Council's 53rd annual Pig Roast recently were: James Bloodworth, agricultural education major, Silver; Norris Cole, agricultural economics, Dimmitt; Richard Dunn, animal science, Houston; Dale Harvey, animal science, Canyon; Ronda Hays, agricultural economics, Amarillo; Russell Maenius, agricultural economics, Blanco; Kelly B. Marble, plant and soil science, South Plains; and James Mark Rhoades, animal science, Crowley.

The \$200 scholarships, for entering freshmen or transfer students, are based on high school or junior college records, scholastic aptitude test scores and need. The annual Pig Roast honors donors and recipients of \$85,000 in scholarships and recognizes members of the Texas Tech intercollegiate judging teams.

Cordless extension telephones are already being used in some areas. You can carry it with you and use it any place within a distance of 12 miles from your home or office.

Local men receive awards at dinner

Two employees of Southwestern Public Service Company in Floydada received service awards at a dinner on Thursday, November 6, at the Lubbock Country Club in Lubbock. The awards were presented by Berl M. Springer, president and chief operating officer of the electric company.

Fred Harm Thaxton received a thirty year award and Ronnie Dean Williams a ten year award.

This was the last of four service award dinners held throughout the company's territory. A total of 347 employees with a combined service of 5,360 years, were honored.

Texans have seen hotter temperatures, past records indicate

COLLEGE STATION — This summer was the hottest on record for most of the state's major metropolitan centers, but not enough to topple Texas' 44-year-old record for the hottest day.

That mark of 120 degrees — set in Seymour on Aug. 12, 1936 — was shaken but not unseated by neighboring Wichita Falls which recorded 117 degrees on June 29 for the highest temperature to yet come out of the Texas heat wave.

Unofficial figures from the State Climatologist's Office at Texas A&M University reveal that Wichita Falls had the worst of it this summer, with 70 days of 100-degree temperatures by the first week of September and rainfall so sparse a local newspaper called it drier than the Dust Bowl days.

The Floyd Philosopher

Editor's note: The Floyd Philosopher on his Johnson grass farm discusses the high cost of children this week.

Dear editor:

According to the latest figures out of Washington, it now costs \$85,000 to rear a child from birth through college.

I don't know whether the figure is right or not, but what has floored me is the fact that nobody, neither parents nor kids, has brought up the subject of how much the kids contribute to that \$85,000 cost.

Trying to get a teenager to point that out I asked him "How about the value of the chores you perform?"

"What's a chore?" he asked. I started to explain that chore for example is shucking corn for the family's plow horses or milking a cow twice a day seven days a week or chopping wood for the fireplace, but I gave up when he said "Why chop wood when you've got a thermostat that handles the heating problem?"

Understand, I'm not saying kids these days are any lazier than kids of the former

generation. After all, practicing football two hours every afternoon is just as hard as shucking corn or milking cows, it just doesn't show up in the family budget. Moreover, very few parents in earlier times furnished their kids a car to drive from the house to the cow shed.

Also, it didn't cost the earlier generation a million dollars a year to keep a Congressman in Washington. We've got to adapt to the times.

Actually, looking at the average young man after he's cost \$85,000 or whatever, you can't tell whether as a youngster he shucked corn or played football. Most of them seem to turn out all right and it'd be unfair to expect them to start paying back that \$85,000 when they've got kids and Congressmen that'll cost even more than that.

Yours faithfully,
J.A.

South Plains News

by Mrs. Murray Julian

South Plains, November 3: Mrs. Raymond Powell has been beautiful this past week and has been seen as long as she can see, each day. Mrs. Powell has helped get ready for the strip-tease which will be held on the roads, and she is out for other things as they move from town to town.

Mrs. Raymond Powell had a week ago for Bartlesville, Oklahoma where they visited with their friends. Jimmy and his wife went on to Arkansas where they stayed until Tuesday. Mrs. Powell, the former pastor of South Plains and his wife, Mrs. Fred Blake, it was while they were in the area that they met Mrs. Powell. The Upson family arrived on Thursday night.

Mrs. Powell went to Lubbock on Tuesday to meet their son, Warren Powell, as he was from Freeport, Texas. Mrs. Powell was here with his wife, Mrs. Tillman Powell, and his daughter, Mrs. Tillman Powell, from Lubbock. Mrs. Powell also spent the weekend here with her parents.

Mrs. Frank McCallister, granddaughter, Mr. Paul Cypert and Mrs. Jennifer and Linwood have been living at the home in Knoxville, Kentucky for several years. They were transferred to Plainview last week. He is now with Ring-Around company.

South Plains Hobby Club met this next Wednesday, November 12, for a party in the home of Mrs. Fortenberry, who is in Lockney. Time for the meeting is 2:00 p.m.

Mrs. Glen Whitfill and her family are to come to Plainview this coming week to spend a few days with her mother, Mrs. Alvin Whitfill, and attend to some matters.

Mrs. Kendis Julian attended services for Elder Taylor, of Grinnell, who died last Monday morning at his home there. He was the cousin of Mrs. Julian, and his sister is Mrs. Ozena Norris of Floydada. He originally lived in Crosby and Floyd Counties, and his services were held in the New Salem Primitive Baptist Church, with Elder Joe Jackson officiating, on Friday, at 2:00 p.m.

We are expecting Mr. and Mrs. Early Pritchett home sometime soon, from Ruidoso, New Mexico. Mrs. Pritchett has been out there all summer, as she suffers here from allergies, but is practically free of them out there. We will be glad to see them home again.

Mr. and Mrs. Sylvin Kinbrugh have had their grandson, Latham Dickens of Plainview here with them the past week, as his mother, Mrs. Beth Dickens went to Denver, Colorado on a business trip.

Kristi Julian was home with her folks, the K.D. Julians this past weekend from San Angelo, where she goes to college, and her father and Tim flew down to bring her home Friday, then took her back on Sunday afternoon.

November 3rd is World Day of Prayer, and members of the South Plains WMU plan to go to Floydada to the First Baptist Church Monday morning where at 10:00 a.m. they will attend the program for the World Day of Prayer. A covered dish luncheon will follow the program, and those who plan to attend are Mrs. Mammie Wood, Letha Mulder, Doris Powell, Bonnie Julian and Joyce Osborne.

Mr. and Mrs. Cecil Osborne Sr. of Tulsa spent this Sunday here with their son and family, Rev. and Mrs. Cecil Osborne Jr. who reside at the South Plains Baptist Parsonage. They were visitors at the South Plains Baptist Church for preaching Sunday morning.

The South Plains Baptist WMU will have their November meeting at 2:00 p.m. on Tuesday afternoon at the Baptist Church with a study on Hong Kong and Singapore.

Mr. and Mrs. Bobby Craddock of Sundown spent the past weekend here with her parents, Mr. and Mrs. Roger Sanders, Stanley and Layne. They were visitors at church Sunday morning with the family at the South Plains Baptist Church.

Zach Cummings, father of Kendall and Sterling Cummings of South Plains was in the Lockney Hospital last week, but is better at this time. He suffered a light stroke at his home.

Friday evening several little spoons in various costumes came around knocking on our doors for trick or treats on Halloween.

Jack Yeary and Carl F. Lemons of the Cedar Hill Community and Joe Keeter, Joe McClendon, John Alvin Dorman and Keith Emert served as pall bearers for the funeral of Tempest Phillips last Saturday afternoon at the First Baptist Church in Lockney.

Brian Fortenberry and Karla LaHon of Amarillo spent Saturday night in the home of Mr. and Mrs. Durrell Fortenberry. Mr. and Mrs. Robin Fortenberry joined the group for dinner Sunday.

Twyla Lemons attended a slumber party in the home of Mr. and Mrs. Neil Langley Halloween night. Others present were Cathy Langley, Amy Burns, Angy Hinsley, Andy Sherbert, Tana Turner, Shana Seymour and Ladusta. They enjoyed games, treats and fun all during the night.

Rev. and Mrs. Vance Mitchell attended a Fellowship meeting at Children's in the Assembly of God Church Tuesday.

Supper guests in the home of Mr. and Mrs. John D. VanHoose Tuesday evening were Rev. and Mrs. Vance Mitchell, Virginia and Sandra.

Mr. and Mrs. Junior Taylor flew to Dallas and spent Friday night in the home of their daughter Shelia and Charles Joiner and son and Saturday flew to Nacogdoches to attend the funeral of Marth's brother-in-law, Donald J. Coats, 54. Mr. Coats died of a short illness. He is survived by his wife Mary and one son and two step sons. We sympathize with the Taylor family during their sorrow.

Eula Mae Wilson of Ralls visited her sister, Pauline VanHoose Monday.

Gladys Fortenberry returned home Monday morning from Albuquerque where she and her daughter, Patsy Boone had been since Friday in the home of Mr. and Mrs. Ron Vick. Mrs. Vick attended a wedding of a friend in Dallas.

Mr. and Mrs. Earl Whitaker of Quitaque visited Mr. and Mrs. Durrell Fortenberry Wednesday.

Jessica Lemons, granddaughter of Mr. and Mrs. Carl F. Lemons won first place in a talent show at the grade school auditorium this week. She sang "My Favorite Thing."

The Cedar Hill election was held at the Cedar Hill Baptist Church Tuesday in the Fellowship Hall with Martha Taylor acting as judge and Imogene Fortenberry.

June Ware, Lou Burleson, and Norma Welch as clerks. Tuesday, Mr. and Mrs. D.M. Cogdell and Connie visited William Craft, Connie's fiance who is a patient in the St. Anthony's Hospital in Amarillo.

Jim Conner celebrated his 82nd birthday Saturday at home. He was remembered by telephone calls from his sons, Roger, Robert and Stanley. Birthday messages from Margaret and several nieces. Happy Birthday Jim.

Mr. and Mrs. Cecil Scott and Bill Pearson of Truth and Consequences, New Mexico visited Albert and Clara Mize Thursday. Jim and Joyce Harper of Samford Lake also visited them Thursday.

Mr. and Mrs. Jim Conner visited Sylvania Year and Edna Lackey in Lockney Friday.

Center News

by Mrs. J.E. Green

November 3: It is clear and windy today. Those cold nites recently, or something, has caused the shade trees to begin shedding their gayly colored leaves.

Mr. and Mrs. Clarence Ashton have returned from a flying trip from Lubbock to League City where they visited their son, Bobby and family, for a week - of a good time.

Marion Carpenter reports that his mother, Mrs. Claud Carpenter in the Lockney Rest Home, is doing "pretty good."

Thursday Glenna and Millard Watson visited with her parents, the Henry Brewers.

Mrs. Frank Dunn visited Mrs. G.C. Boily one day last week.

Mrs. Leo Frizzell, Mrs. Ava Jackson and Mrs. Elmer Warren dined Sunday with Mrs. Flora Warren.

Mr. and Mrs. Ronald Edmondson of Amarillo visited Mrs. Fred Battey Saturday afternoon.

Mrs. Thelma Jones visited Mrs. Battey Sunday afternoon. Saturday was Mrs. Battey's birthday.

Mrs. Hartline spent from Friday to this afternoon in Caprock Hospital. We are glad she is feeling well enough to go home.

Mrs. Fulkerson visited Sunday with her sister, Mrs. Lucy Cates.

Mr. and Mrs. Leo Witcher of Hale Center were guests of the Dal Millers, Sunday.

Mrs. Workman of Lockney and daughter, Mrs. Leora King, are dining today with her sister, Mrs. Elmer Warren.

Mr. and Mrs. Milton Mensch and son, David of Lubbock, spent from Friday to

Sunday afternoon with her parents, Mr. and Mrs. Hal Thomas.

Miss Vera Meredith had a birthday Sunday. Her visitors, who came Friday or Saturday or Sunday, were Mrs. Mize, Mrs. Edna Patton and the Muney's.

Mr. and Mrs. Gordon Mayfield are just back from Henrietta where they visited their son, Gene and family, over the weekend.

Mrs. Mayfield and others were in Lubbock one day last week visiting a friend in Lubbock General Hospital.

Miss Esther Peck is in Central Plains Hospital, Plainview, following a fall resulting a fractured hip. We trust she will soon feel better.

Mrs. Vic Green is convalescing at home after surgery. Let us remember all our loved ones and others ill or getting better in prayers.

No new flu strain is expected this year

COLLEGE STATION — Flu season may come early this year, but the viruses that infect Americans should be familiar types that have been around a few years, says a Texas A&M University microbiologist.

Dr. John Quarles said the Center for Disease Control in Atlanta is telling physicians and researchers not to expect anything dramatically new, but to be prepared for A-Texas varieties or perhaps Russian flu.

Quarles said several isolated influenza cases have already been confirmed this summer and that usually means an early season. Normally, the peak time for Americans is January through March.

GAIL HALE

Gail Hale is returning to teaching after a maternity leave of absence. She teaches health and science to sixth graders at R.C. Andrews Elementary School. "I really like teaching sixth graders," she said. "In teaching health to that age group I am getting alot of questions. I try to answer discreetly but to the point. I want them to get the facts straight." "The science classes deal with the growth and development of the world," she said. "Health is the same except it talks about people." Everything in their lives is changing both physically and mentally at that age. They are becoming adults, but they still want you to say "no" sometimes, she continued. Gail is married to Richard Hale. Their baby's name is Christy Denise.

Tables at court dinners in seventeenth-century France were covered not with linen but with baked dough. These "tablecloths" were tossed to peasants when the banquet was over.

It's True.

"We installed the heat pump in our church over two years ago. The heat pump system has been very economical for us and they are able to keep our facilities much cleaner than we really expected. The statements concerning heat pumps being economical and clean have certainly proven to be true.

Another feature that I like is that a heat pump can be used both summer and winter without anything being changed other than a flip of the switch. Because of our experience with the heat pumps in our church facilities, I've installed the heat pump system in my personal home."

The things said about the heat pump are true. Find out more about the heat pump. It can save for you.
