A&M officials inspect Floydada center

A&M officials flew into Floydada Wednesday afternoon for a short inspection of the Extension facilities here.

John C. Calhoun, Jr., who is the newly appointed Deputy Chancellor for Extension, is making a quick tour of extension services across the state.

He was accompanied by Director of Extension Services, James R. Bradley. Both men are from College Station.

Several local businessmen were on hand to meet the new deputy chancellor.

Mark Wideman, Southwestern Bell and Alton Higginbotham, Light House Electric, represented companies interested in the training programs offered at the school here.

Bill Hale, Lance Barrow and Bill Feuerbacher, who are city supporters of the school, were also in attendance.

Robert Prock, manager of the training center, acquainted the group with a five year plan of courses that they hope can be offered.

Bradley said that getting funds to finance the instructional part of the program is a major problem. Most instructors that come to Floydada have to be self supporting. And unless they can line up a series of classes immediately it is a heavy financial burden for them.

The funds needed would have to be enough to support the instructor for about the first year. It is very hard to attract qualified people without that incentive he said.

One of the areas of instruction that should produce good student attendance would be a fire school. Again funds for equipment and access to 40 acres of land is a stumbling block.

Instruction for women in fields that have been restricted to men will be the coming thing in the 80's Prock said. Many state agencies like the Highway Department are being required to hire a percentage of women.

Training in the oil field industry is also a coming need that can be filled by extension service schools. Abilene oil men report that they have a 90% turnover of personnel. So there is tremendous need for trained people who will stay on the job in that area.

Prock also went over the classes being offered by the extension school at this time.

"I am pleased to see what's down here, and the fine job you're doing," Calhoun said.

Crime Call reward largest offered ever

The largest dollar amount reward for Crime Call information has been offered this week in the robbery of a gun collection.

The reward has been set at \$850 for information leading to the arrest of the person or persons who broke into the R.H. Ford home and stole 28 Stevens collectors guns. Value of the collection is almost \$6000.

Judge Ford, who lives about five miles from Lockney, had only been gone from the house about an hour. The theft occurred during that time on November 17.

The informant does not have to give their name or any identification. They may call 983-5200 collect and give "Crime Call" as their name to the operator.

After they have given the information they will be told when to call back. After the arrest has been made, the informant calls back and is told where to pick up their award money.

Another reward of \$200 has been offered in the theft of the Lee Burton residence in the Fairview Community. The couple left their home about 1:30 p.m. on November 12 to go to a funeral.

When they returned at 5 p.m. they discovered their house had been broken into and several hundred dollars worth of personal goods had been taken. The criminals had gained entry to the house by kicking out a front door panel.

Again a rural Lockney residence was robbed, this time of a pick-up parked in a carport. The thieves pushed the 1974 Chevrolet pick up out of the yard during the night while the J.G. Landroop family slept.

The pick up was discovered by the Plainview Police Department early the next morning. A patrolman had been tracking what appeared to be a vehicle being driven on just the hub.

He found the pick-up abandoned with the right front wheel torn off to the hub and the brake badly damaged. The tool boxes and tools had been stolen.

A \$200 reward is offered for information leading to the arrest of the person or persons responsible for the truck damage and missing tools.

About 50 junk batteries were taken from the C.L. Henderson farm at Sterley. A \$50 reward has been set for information on this theft.

Rural residents are asked to be on the alert and inform the Sheriff's Department of any suspicious persons in their area.

Radio Station Part Of M.B.F.A. Crash

BY BETH PRATT

A few weeks ago a local resident was at home because of illness. It was her habit to listen to the local radio broadcast of her church's worship service when she was unable to attend. She turned the dial to 900 and found only silence. Thinking her radio must be out of order, she turned it off.

The pastor of one of the churches with a regular radio broadcast made mention of his radio audience in the Sunday morning service, not realizing the radio station was off the air.

These events occurred in October and the 900 spot on the radio dial remains silent. B.A. Robertson, one of the original owners of the station, said that to his knowledge no one was notified the station would be closed.

Robertson, along with Marshall Formy of Plainview and Alma Holmes of Dallas, still hold the first mortgage on the original station equipment. The station was sold to Petty D. (Bo) Johnson in April of 1971. The new transmission tower stands on the original site which is leased from Robertson.

The station was purchased from Johnson in May by the MBFA Communication Corporation of Lubbock. The new owners described it as a Christian broadcasting station and most of the programming was devoted to religious music.

The parent company, MBFA Inc. filed under Chapter 11 of the Federal Bankruptcy Act October 15. This action would allow them to stabilize financially before paying off accumulated debts. Filing under Chapter 11 provides for appointment of a mediator to settle the claims of all persons and companies owed money by the affected business.

However, the MBFA Communication Corp. is not included in the listing of

subsidiary corporations. Still, the Robertsons and partners received notification of a meeting scheduled at 10:30 a.m. December 5 in Room C-110 of the Federal Building in Lubbock to hear claims against the MBFA Inc. by creditors.

Those who were listed in the notification as a part of the bankruptcy proceedings instituted by MBFA Inc. are: Management Services; Consultants, Associated Inc.; Association of Memorial Homes of North Texas Inc.; Associated Memorial Homes of Central Texas, The Associated Memorial Homes of Lubbock Inc.; Texas Homemakers Service Inc.; Associated Memorial Homes of the Greenbelt Inc.; and Missionary Baptist Foundation of America Housing, Inc.

Robertson said his group is not sure how the radio station fits into the picture and their attempts to contact officers of the MBFA Inc. have not been successful.

One source said the station reverted to the former owner, Johnson. This information has not been substantiated, although Johnson did make at least one trip to Floydada with a prospective buyer from Dallas. Several persons have expressed interest in purchasing the radio station.

Robertson does not believe the ownership status is clear enough at this point for a sale to be completed. Judgements filed at the courthouse against Johnson further complicates the picture.

The Robertsons live near the transmission tower and notified the FAA in Lubbock this week that there were no lights on the 240 foot tower.

"We don't know who actually owns the tower now," Robertson said, "but

FAA rules require two sidelights beginning at 80 feet and at 80 foot intervals with a blinker light on top."

Because he believes the unlighted tower is a hazard to air traffic and to nearby residents, Robertson has hired someone to replace the light bulbs on the structure.

An examination of the MBFA Corporation's financial status is expected at the creditors' meeting Friday. More than 1,400 creditors are involved, including 840 employees who were not paid when the company missed a payroll before the bankruptcy proceedings were started, according to filings in Lubbock's bankruptcy court.

City council hires legal council

BY BETH PRATT

City Council members approved a zoning change, hired a Plainview law firm as legal advisor and heard a complaint about unkept private property during the November 18 business session.

Artists' Festival Begins Saturday

Sold out exhibit space, a wide variety of displays, and a well-known western artist have all contributed to the projected success of the 1980 Floydada Lions Club Arts and Crafts Festival. Art and craft objects in all price ranges will be for sale at the thirty-two booths during the annual affair. Doors will be open to the public (at no admission charge) from 10:00 a.m. until 5:00 p.m. on Saturday, December 6, at the Massie Activity Center in Floydada. The show affords an excellent opportunity to shop for unique and unusual Christmas gifts, as well as "Showcasing" local and area artistic talents.

Floydada exhibitors include Darrell and Cindy Dudley, Ron Dunnaway, Mrs. Dale Goen, Linda Hinsley, Alpha Sigma Upsilon, Vivian Roberson, Jan Patterson and Kay Shannon, Winnie Carthel, Blix Belew, Gleva Smith, Lanny and Ann Glasscock, Donna McClendon and Elaine McNeil, and Dewane Franklin. Lockney residents participating include Juanita Teeple, Ginger Mathis, Mrs. Sterling Cummings, and Sheila Poole.

Other area communities represented include Sudan, Claude, Matador, Crowell, Plainview, and Tulia. Well-known western artist-author Kenneth Wyatt of Tulia will be exhibiting his works at the Floydada festival for the first time.

Throughout the day, the Floydada Fire Department Women's Auxiliary will have baked goods, snacks, and refreshments for sale. In this, their initial fund-raising event, the crafts fair coincides with the official kick-off of the Christmas season, sponsored by the Floydada Chamber of Commerce and local merchants. "This is one event you won't want to miss!" claims Bill Gray, chairman of this year's festival.

The change from residential to commercial zoning for property on the east side of the Silverton highway between Price and Lee Streets was requested by Juan Ybarra. He told the council he would apply for a building permit for a new grocery store, 20'x20', in the 600 block of North 12th Street.

A member of White, Self, Davenport & Bass will attend Council meetings and provide consultation services for the City at a \$500 per month fee. Former City Attorney Bill Kincaid recently resigned and moved to another city to set up his own law practice.

Complaints about unsanitary conditions on property located near the Church of the Nazarene elected a promise by Mayor Parnell Powell that the Council "would not shelve it and forget it when you leave here."

Rev. Clark, pastor of the Church of the Nazarene, said during the summer 28 persons were in the house on this property at one time. Seven trucks, four pickups and five automobiles were parked along the street, he said. Vandalism at the church and garbage scattered around the dumpster were among the problems that prompted him to call the matter to the Council's attention. Attempts to contact the owner of the property have not been successful, he reported.

"I don't like to get involved, but as a church we have a right to ask you to do something about it," Rev. Clark said. "I'm not critical of the City or community, but have you been by lately?" he asked.

Bill Feuerbacher, city manager, reported current and future equipment replacement needs for the City. The Council authorized him to advertise bids for three pickups and to accept bids for the coming year for unleaded and regular gasoline. Cornelijs Conoco Service is the current supplier of fuel for City vehicles.

Jimmie Lou Stewart, city secretary, reported that tax attorney Larry Brandon of Amarillo had completed his computer records and would begin proceedings soon against delinquent tax payers.

Committee to host luncheon

The Floyd County Program Building Committee will honor County Commissioners at a noon luncheon on December 8 at the Agricultural Building in Floydada. In conjunction with the event Floyd County E.H. Club members will be having their annual Achievement Day. All Program Building Committee members and their spouses, E.H. Club members and all other interested persons are invited to attend and bring a covered dish. Turkey and dressing will be served.

The luncheon is being held to recognize County Commissioners for their support of Extension programs and to inform them of educational efforts being conducted in the county.

Suspect arrested in local stabbing

Murder charges have been filed against Jerlean Ledbetter in the death of Robert Contee November 22.

Contee was pronounced dead after his 1977 model automobile had crashed into a residence at 806 W. Marivena.

Police answered the call at 6:43 a.m. and found Contee, clothed only in a pair of pants, with what appeared to be a stabbing wound under the heart. There were other wounds thought to have occurred in the wreck.

Local authorities have not yet received the results of an autopsy being done by an Amarillo pathologist.

Police theorized that he had been wounded earlier and was driving himself to Caprock Hospital a block away from the site of the crash.

Contee had reportedly been in the company of Ledbetter and another man, Hayward Harris. The three had been to Crosbyton and came back to the Floydada area about 5 or 6 a.m. Apparently Harris had been dropped off.

Reportedly the stabbing occurred on a farm road a short distance from town. The weapon has not been identified.

Jerlean Ledbetter, 22, of Floydada was arrested at 1 p.m. on Wednesday, November 26. Bond was set at \$10,000 by Justice of the Peace Walter Hollums.

The suspect remains in the county jail.

The case will come before the Floyd County Grand Jury when it meets in January or possibly in February.

Investigation continues as the authorities await the results of the autopsy.

COTTON INCORPORATED president **Dukes Wooters**, second from left, explains some key features of the company's new fiber processing line to directors **Morgan Nelson**, left, of Roswell, New Mexico, **Don Marble**, second from right, of South Plains, and **C. Penn Owen, Jr.**, right, of Tunica, Mississippi.

Company unveils new fiber process

Cotton Incorporated Board Chairman L.C. Unfred of Tahoka, calls it a "great breakthrough."

The object of his praise is a new fiber processing line developed by Cotton Incorporated to make cotton more competitive with synthetics in the non-woven market.

In addition to making cotton more competitive in the large non-woven market, spin-off technology developed during the research project is already making cotton more attractive to textile mills in other product areas, says company president Dukes Wooters.

Side benefits include new technology for cleaning cotton and possible use of the system to help textile mills comply

with federal cotton dust standards.

The new line, called a continuous action scouring and bleaching line, was unveiled in Greenville, South Carolina, recently to the executive committee of the Cotton Incorporated board of directors, including several directors from the Southwest, including Don Marble of South Plains, Texas.

Cotton Incorporated, the fiber company of American cotton producers, conducts research and marketing programs using producers' per-bale assessments. It works to reduce production costs and increase cotton consumption. Its board is made up of 37 cotton producers elected by cotton producer organizations.

Cotton Board Chairman Murray Williams of Altus, Oklahoma, who also attended the meeting, said, "It's unbelievable the kind of cotton they can put in that machine and the way it comes out."

The scouring and bleaching line takes raw cotton fiber from the gin and converts it into a pristine white fiber suitable for surgical sponges, sanitary napkins, cosmetic wipes, and other uses, explains Wooters.

Cotton Incorporated has been awarded six patents for new technology and equipment created in the development of the process, says Wooters.

New weapons to control many grasses

Grain sorghum producers now have efficient weapons to control grasses, as well as broadleaf weeds, in their sorghum crop.

These weapons are new broad-spectrum herbicides and sorghum seed treated with a chemical safener to protect it from the herbicides that kill both broadleaf weeds and grasses.

Controlling grasses in sorghum is a problem because sorghum also is a grass. Surveys show that grasses are a serious problem in almost half of the 16 million grain sorghum acres in the United States.

Researchers with DeKalb AgResearch, Inc. have been studying the results of safened seed trials throughout the sorghum belt.

Bill Burrow, southern-western area sales manager for DeKalb says, "It appears that the safened seed, in plots that we observed this year, had good germination and vigor. Good grass control was achieved where the appropriate herbicide was used."

For the 1981 planting season, DeKalb will make available herbicide safened sorghum seed to farmers in the sorghum belt.

Sorghum seed treated with ConcepR, an effective, consistent chemical safener, can withstand an early herbicide treatment to combat grasses and broadleaves while the seed is in the ground and after emergence.

Broadleaf herbicides for sorghum have been available for some time, but herbicides that kill both grasses and broadleaves in sorghum are a fairly new development.

These new herbicides are not specific to grasses and broadleaf weeds, however, and can injure sorghum just as readily as they kill its competitors.

The chemical safener applied to sorghum seed protects the young plants from the new herbicides' active ingredient. It effectively protects sorghum until it is about four inches high.

For the 1981 planting season, DeKalb offers four safened sorghum hybrids. These varieties are B-38†, D-42a,

DK-57 and E-59†. The hybrids will be available in the major sorghum producing areas of the United States where the broad spectrum herbicides are marketed.

"DeKalb is pleased that we can offer the farmer safened seed," says Burrow. "We feel that Concep is a giant step forward in helping farmers control problem grasses."

Concep protects the young plants only against products containing metolachlor, the active ingredient in the new broad-spectrum herbicides. It does not protect the plants from other active ingredients and should only be used with those herbicides specified on the seed label.

The Environmental Protection Agency permits use of safened seed only with BicepR, MilocepR, DualR and combinations of Dual with IgranR, MilogranR and AatrexR.

DeKalb dealers have complete information on the use of Concep safened seed and its applicability to different locations and planting situations.

A look at 1981

Farmers face financial troubles

In 1980, farmers were faced with major financial problems brought about by high interest rates and tight credit in the spring and widespread drought. Farmers in drought-stricken areas will enter 1981 heavily burdened with debt because of the need to obtain extensions and renewals of existing debts. Farmers not affected by the adverse weather should be in a stronger financial situation. Interest rates are expected to remain high in 1981, however, they are expected to be lower, on average, than his years' rates.

Net farm income will be between \$23 and \$25 billion in 1980, down from \$31 billion in 1979. However, projected higher farm prices, lower interest rates,

and a decline in the rate of increase in production expenses should contribute to increased net farm income in 1981—currently forecast from \$27 to \$32

billion. The higher farm prices forecast for 1981 are due to a substantial drop in

supplies of commodities as well as expectations of strong export demand. Cash income from both farm and nonfarm sources rose slightly in 1980 and is expected to take a substantial jump in 1981.

As a whole, farmers are likely to be in an improved financial position by the end of 1981. However, hog and poultry producers' incomes are expected to improve only marginally while producers of vegetables, fruits, and nuts are forecast to have lower incomes in 1981.

Gross investment in 1980 is forecast at almost \$12 billion, down from \$21.6 billion in 1979 and considerably below the nearly \$41 billion projected for 1981.

The reduction in 1980 reflects widespread postponement of purchases of capital items because of low income prospects and high interest rates.

Delayed capital purchases and refinancing of short-term debt resulted in a decline in the growth of nonreal estate debt. Higher farm incomes in 1981 may slow the rate of increase in real estate

lending while nonreal estate debt accelerates to finance delayed purchases of machinery and equipment.

The value of farm assets is expected to raise almost 9 percent in 1980, forecast total of about \$1 trillion—the smallest increase in both absolute percentage terms since 1977.

Total farm debt is projected to increase almost 15 percent in 1980 and additional 15 percent in 1981. Shares of total farm debt owned by the Farm Credit System and Farmers Home Administration are expected to rise during the 1980s.

Low net farm income, together with high interest rates and tight credit conditions reduced activity in the real estate market. Real estate prices are expected to rise between 7 and 10 percent in 1980 and between 11 and 15 percent in 1981. This compares with a 15-percent increase in 1979.

Copies of Agricultural Finance look (AFO-21) will be available next week to 10 days. For further information, contact Steve Gabriel, (202) 734-0.

South Plains 4-H'ers receive honors

Forty outstanding members of 4-H Clubs in the South Plains were honored in Lubbock Monday night, November 24.

In addition to receiving the Gold Star Award, highest honor presented at the county level, the youths were challenged by State Senator E.L. Short of Tahoka to continue throughout life to pursue the 4-H Club motto, "To make the best better."

Joining the youths at the awards banquet at Coronado High School were parents, government officials, Extension leaders, fellow 4-H'ers and other community leaders.

Honored from Floyd County were Melanie and Karyn Foster, daughters of Mr. and Mrs. Eddie Joe Foster of Lockney.

Short told the 4-H'ers they are part of a "dynamic and positive" organization and are "providing leadership to do something about our problems." Among specific challenges already being met by 4-H'ers, Short said, are conservation of our natural resources and improving health and nutrition habits.

Guests were welcomed by James Eiland, general manager of Caprock Electric Cooperative, one of the 12 electric cooperatives which sponsored

the banquet. The others were Bailey County, Deaf Smith, Dickens County, Lamb County, Lea County, Lighthouse, Lone Wolf, Lyntegar, Midwest, South Plains and Swisher electric cooperatives.

Television personality Bob Nash of KAMC-TV was master of ceremonies.

Dr. John Pelham of College Station, state 4-H and youth leader, narrated the awards presentations, made by Dr. Catherine Crawford and Billy C. Gunter, district Extension directors.

Dinner music was by 4-H'er Donna

Beth Lide of Parmer County. Entertainment was by the Light Singers, a women's gospel quartet from Tahoka. Also on the program were 4-H'ers Shain Rhodes of Parmer County, Belinda Wheeler of Bailey County and Scott Simpson of Castro County.

MELANIE FOSTER, left, and sister KARYN, of Lockney, received Gold Star awards at a 4-H banquet in Lubbock last week. The Gold Star award is the highest 4-H honor presented at the county level. The sisters are the daughters of Mr. and Mrs. Eddie Joe Foster.

Cecil Pinner of Lockney. Miss Mitchell, a 1980 graduate of Magnolia High School is presently employed as a legal secretary for William T. Finnegan Law firm.

Pinner is a 1980 graduate of Magnolia High School, presently attending Red River Vocational Technical School and employed by Krogers.

The wedding will be, Friday evening December 19, at 7:00 at the home of the brides parents.

Sweepston hostess for the 1929 Study Club meeting

The 1929 Study Club met at the Floyd County Historical Museum for their November meeting, with Miss Sweepeston as hostess. Club members brought covered dishes of food to share at the luncheon at noon. The tables were covered with room hand embroidered cloths and centered with candles, fall flowers and wreaths.

During the business meeting, members were reminded to bring children's toys to exchange and later present to the Community Action Center for distribution on Christmas Eve to needy children.

Mrs. W. Ross, former mayor of Floydada, was invited to give about Floydada and Floyd County as it was when she came here as a lad, on a train, with his parents.

Mrs. Q.D. Williams recalled the evening that will be years ago in the spring of 1981, when the Floyd County Museum was organized for chartering. She was a charter member on the original board of directors when the Surginer family donated the building to a non-profit, chartered organization.

Mrs. Alma Holmes and other charter members looked over area museums for ideas on raising money. They liked the Pioneer Memorial Wall at the Crosbyton Museum, whereby pioneers were memorialized in stone plaques for a fee of a few hundred dollars. Public response was tremendous. The first life membership was contributed by Mrs. W. W. Johnson of Ft. Worth, only daughter of the late Col. Thomas Montgomery, banker, rancher and Confederate Army veteran. With this money to operate on, the board re-wired the Surginer Merchandise building and put up the memorial plaque wall. That summer, a museum expert came from Austin to advise the group. Upon seeing the Pioneer Memorial Wall the expert told them they had done the wrong thing and should have consulted people in Austin.

Mrs. The Floyd County coach replied that out here in West Texas we didn't know any better, didn't know

we couldn't do it, and in our ignorance had gone ahead and raised over ten thousand dollars not knowing it was impossible, as the expert said. The expert returned to Austin, shaking his head at what had been accomplished without Federal or state funds.

Mrs. Georgia Finley, curator, told of the groups of school children from over the county that tour the museum every year, and the upkeep that is donated by the Green Thumb program. She pointed out that the folding chairs the club members were seated in had been purchased with money given by the 1922 club. Recent donations have included a large wood-burning parlor stove given by Mrs. Joy Smitherman, and an old wooden ice box given by the family of the late Mrs. Annie Neff.

Club members took turns telling how and when they came to Floyd County. These recollections will be reported in another edition. They discussed a reprinting of the book on Floyd County Court-house, written by 1929 club member, Mrs. Dess Ross.

The Club next meets December 4, with Mrs. S.W. Ross.

SENIOR CITIZENS STUDY INSURANCE BEFORE BUYING

Senior citizens, study any insurance you're thinking of buying before you actually purchase it. Many senior citizens carry additional health insurance to "fill the gaps" not covered by Medicare, because Medicare was never intended to cover all the health-care bills of people over 65.

Some senior citizens are able to pay for health costs out of their savings, but it's really not a good idea to rely on savings to pay for everything Medicare won't cover, since it's often impossible to know in advance how large one's medical bill will be.

Another idea is to carry over the health insurance you had before age 65, if that choice is available to you, but, of course, not all previously employed persons qualify for this carry over.

As another choice, you may be able to get a major-medical policy which gives broad coverage of most medical expenses. With this choice, you still pay a certain amount of your bills yourself (perhaps \$50 or \$100), but after the deductible, many major-medical policies will pay 80 percent of almost all your health-care expenses.

The most important thing to look for in a policy is the catastrophic-coverage feature. Be sure the policy will pay for a long, serious illness.

If you are shopping for a health-insurance policy -- or "medigap policy" -- there are several "be-careful" steps you should take:

1. Try to cover yourself with one policy. Because of fear or due to unscrupulous salesmanship, some senior citizens buy several health-insurance policies. Most policies will not duplicate benefits paid by other policies, so the money you pay on extra policies' premiums is wasted money. One study has found that 25 percent of the people with "medigap" policies have overlapping coverages. That is a waste of money.
2. Avoid single-illness policies -- policies that cover only one type of illness. Instead, look for policies that will cover any illness. More insurance protection usually is afforded by policies that will cover any illness. Don't be misled by salesmen selling cancer insurance, for example. A report by the House Committee on Aging concluded that some salesmen prey on the fears of older people to sell cancer insurance -- the fastest growing and most profitable type of insurance for those companies.
3. Shop carefully before you buy, since health-insurance policies differ widely as to coverage and cost. Also, remember that companies differ as to service.
4. Check policy limitations concerning "pre-existing condition exclusions." Do not be misled by the phrase "no medical examination re-

quired." A policy may not require a medical examination, but, also, it may not cover the illness you develop.

5. Beware of replacing coverage you already have with something new. Make sure you know all the facts before doing that.

6. Understand maximum benefits. Most policies have some type of limit on benefits -- this may be stated in "dollars payable" or in "number of days" for which payment will be made.

7. Check your renewal privileges. Beware of policies that let the company refuse to renew your policy on an individual basis.

8. Know who you are doing business with. Agents must be licensed by the State of Texas to do insurance business here.

9. Keep a complete listing of agent and company names, addresses and telephone numbers.

10. Take your time in purchasing a policy. Do not let a short-term enrollment period high-pressure you. Remember, if a salesman is really a professional, he will not insist that you rush your decision.

11. Pay only by check, money order or bank draft made payable to the insurance company -- not to the agent or anyone else.

12. Finally, remember that insurance to supplement Medicare is not sold by the government or serviced by the government. Do not believe advertising or agents who suggest that insurance to supplement Medicare is a government-sponsored program.

Lubbock Trial at Floyd County District Court on Change Of Venue

BY SHELLY HARRIS

A Lubbock criminal case is being tried in the 110th District Court at Floydada on a change of venue. Judge George Miller is presiding.

Approximately 85 county residents were called up for jury duty Tuesday morning.

Selection of 12 jurors, eight men and four women, was made at about 2 p.m. The case of the State of Texas against Lloyd Dale "Skip" Ready began shortly thereafter.

Charges included kidnapping and restraint of freedom of John T. Cameron, 31, by threatening to do bodily harm, attempt to terrorize, and of not releasing him in a safe place.

Gerald Anderson, Lubbock, is the defense attorney. Lubbock first assistant criminal district attorney Jim Darnell is the prosecuting attorney assisted by felony chief Rick Howell.

The case received a large media coverage in Lubbock since two sacks, containing 12 rattlesnacks, were used as part of the assault against Cameron.

Cameron, a dapper, soft spoken man, who has done modeling, was the first witness called. In his description of the events beginning with April 8 and leading up to the abduction on April 10, Cameron was at time emotional. When he recalled being bound with his hands behind him, and a sack of snakes placed on his chest he broke into loud sobs.

Court was recessed for a short time while he composed himself.

Cameron testified he and his stepsons Damon, 17, and L.D., 18, were bound and held at gunpoint in an upstairs bedroom of their town house apartment. When Cameron's wife, Betty, returned to the home about 4 a.m., she, too, was held at gun point by Skip Ready and his wife, Brenda Jean.

Cameron further testified that Ready, urged on by his wife, was preparing to kill the four-member family. As Ready was about to untie the sack of snakes, Cameron said he jumped the defendant. They wrestled in a closet and Ready was shot. Cameron then ran to a telephone

across the street and called the police. He said that he did not shoot Ready.

Early in the trial, before Cameron began his testimony, the jury was dismissed. Attorneys and the judge discussed what testimony was admissible before the jury on the charge of murder which is pending against Ready at this time.

Defense attorney Anderson objected several times when references were made to that other crime.

Prosecuting attorney Darnell also objected when cross examination went too deeply into the armed robbery conviction that sent Cameron to prison for over three years. The same objection came up about the aggravated assault

charges that are now pending against Cameron in Lubbock.

Cameron was indicted this fall in the shooting of another Lubbock man and for assault in an attack on a Lubbock County Sheriff's Deputy.

Cameron said that he had never seen Ready before he came to the apartment on April 8, but that he had met Brenda.

Cameron's wife, Betty, who is several years older than he is, knew the Ready's from association at the Lubbock Mental Health-Mental Retardation Center where she is undergoing treatment for drug addiction.

Court recessed at 5 p.m. Tuesday and reconvened at 10 a.m. Wednesday with Cameron still on the stand being cross-examined.

Anderson, who sits lazily slumped in his chair, drawled out a repetitious questioning throughout Wednesday morning.

At press time Cameron was still on the stand. Speculation is that what was to have been a two day trial may drag on through the week.

Local jurors are: George H. Willis, Anna L. Smith, Robert C. Webb, Pat Frizzell, Rance Young, Nettie Ruth Whittle, Elmer D. Williams, Robert O. Turner, Dana Kay Woody, Kelly Ann Fortenberry, Earl Ray Rowan, and H. Dean Stewart.

Southwest Sportsman Report

BY J.D. PEER
The annual ring-necked pheasant season opens December 13 in the Texas Panhandle and reports from biologists indicate a better average season despite drought experienced last year.

good hunting dog such as a retriever as pheasants are easy to hit but hard to kill or find in the heavy cover. Many birds are wounded each fall and furnish dinner for predators and not the hunter.

The Panhandle counties along the Canadian river have a good bird population for this two week season," said David Dvorak, Parks and Wildlife Department wildlife biologist.

Hunters are reminded to get permission before hunting. One of the most frustrating situations for the landowner is to have hunters trespass on their property without permission. These landowners furnish the food and the land for the wildlife and many of them hunt right along with their families and friends. Many of these landowners will allow pheasant hunters on their property after the first weekend.

Several of the counties in the northern Panhandle area have as good as usual and some areas will most likely have a surplus of pheasants.

The continued violation of this trespass land will only mean more "NO HUNTING" signs and less and less land for the legal Texas sportsman.

William and Hartley counties in the northern Panhandle are reporting good to excellent pheasant populations and sportsmen hunting these areas will find fewer pheasants in the field.

The Whirlettes behind Shere Cannon's 14 points, led most of the way in the contest, but the Lockney girls came back to take a 30-28 lead with two minutes to go in the game.

General sportsmen have had better hunting with pheasants later in the season or during the middle of the season.

FHS reeled off four unanswered points with buckets by Cannon and Vella Acy to go up 32-30 with 1:30 to go. Lockney came back with a free throw to move within 32-31 with 58 seconds to go.

General sportsmen have had better hunting with pheasants later in the season or during the middle of the season.

The Whirlettes went into a stall until 9 seconds to go, at that point Lockney got the ball out of bounds and drove the length of the floor to take a final shot at the buzzer. The final shot, however, was short of the mark.

General sportsmen have had better hunting with pheasants later in the season or during the middle of the season.

Wanda Rendon and Patsy Williams were next in line in scoring with 6 points each. Cheryl Goen and Vella Acy scored 2 each while Rhonda Rendon and Karen Lloyd had one apiece to round out the scoring.

THE ALL-DISTRICT TEAM 1980 for 3 AAA named [front row, l-r] Todd Beedy and Jeff Rainey to the first defensive team. [Second row, l-r] Mike Self and Carlos Rainwater, second team offense; Norman Allen, Moody Younger and Benton Easter [not pictured] second team defense; Kevin Noland, honorable mention defense and Tim Radloff, honorable mention offense.

Hearing Loss Is Not A Sign Of Old Age

Chicago, Ill.—A free offer of special interest to those who hear but do not understand words has been announced by Beltone. A non-operating model of one of the smallest Beltone aids of its kind will be given absolutely free to anyone requesting it. True, all hearing problems are not alike... and some cannot be helped by a hearing aid. But audiologists report that many can. So, send for this free model now, and wear it in the privacy of your own home. It is not a real hearing aid, but it will show you how tiny hearing help can be. It's yours to keep, free. The actual aid weighs less than a fourth of an ounce, and it's all at ear level, in one unit. These models are free, so we suggest you write for yours now. Again, we repeat, there is no cost, and certainly no obligation. Thousands have already been mailed, so write today to Dept. 72340 Beltone Electronics, 4201 W. Victoria, Chicago, Ill. 60646.

Whirlwind girls out-distance Frenship

Floydada's girls rode the second half shooting of Debra Alfaro and Nora Black to overcome a cold second quarter performance and out-distance Frenship 42-25 Monday night.

The Tigerettes had closed the gap to 21-17 when the FHS girls ran off eight unanswered points in the closing two minutes of the third.

New rules for basketball fans announced

Home-side for Floydada basketball fans has been changed this year to the south side of the gym.

Alfaro, who finished the night with 14 points, hit six points in the quarter while Black added four more.

The change has come about by popular request of the student body. Originally the home team fans sat on the south side according to High School Principal Charles Tyer. Then back in the late '50s there were some "towel-thrower" coaches that put on quite a show. The fans then moved over to the north side so they'd have a better view of the coaches antics. They never have moved back.

Black finished the evening with 11 points and Lipham with next with seven. LeQuita Davis added six points while Amy Jones pitched in another four.

The adults basically will sit in the middle of the stands. The high school students will sit on the west end. The younger students not accompanied by parents will sit on the east end. They will, however, be accompanied by a school principal.

Lipham led the rebounding department with eight while Jones had seven and Terry Pleasant picked up five.

BY DOTTIE STANSELL
PART TWO

Saturday afternoon, September 20th, we went to the hospital, to take the babies home, after Tibor had paid the bill which was \$2400 for their six weeks stay, in the hospital, the doctors charges \$300 for each baby, the surgical charges \$300, and the anesthetic charges were \$135. We checked them out and took them back to the apartment until the Embassy cars came to pick us up and take us to the airport.

We flew in an old two engine plane, like the old frontier planes or the old Pioneer planes. It had two seats on each side. It took us about 45 minutes to reach Lusaka. Again the Embassy had made all the arrangements for me, as I did not have a visa to get into Lusaka.

Lusaka, seems like a closed in place. It has over 400,000 population, but cannot be seen because of the fences or high walls. Natives build their huts out of mud bricks with straw roofs, that melt during the rainy season. The houses have no heat as the winter season is short, about 3 months, and it isn't very cold. It is hot there in the Summer, but cool in the houses. The nicer houses are made of concrete blocks. The Embassy homes have iron grill bars on all the windows and doors. Tall (10' to 12') solid concrete block fences are around Jane and Tibor's house with barbed wire on top of the fence. They have security guards on duty all the time. The gate must be opened by them, to come or go. The whole town of Lusaka seems closed in.

The dry season is seven months long, from March to September, they have no rain. The rainy season is from October to April, and averages 14" a year. The thunderstorms come sometime at night, and they are worse then we have here in Texas, but usually it rains at noon, and really pours for about an hour. June, July and August are the cold months. The low temperature is about 40 degrees and the higher temperature is 65 to 75 degrees.

I was surprised that most of the people of Lusaka were Protestants, and they have small churches...When we would drive to the Embassy, I noticed that the people would be milling around up and down the streets, or walking down town, there are very few cars, and the

usually have their dead cremated and returned to their home country, and it is very expensive.

We would see the native children in the morning going to school. They all wear a type of uniform, all the girls wore dresses, that looked like they were all made from the same bolt of material and by the same pattern. One school might wear a brown dress and the boys would wear a brown shirt. The boys and girls went to the same school, and they were lucky if they went past the 3rd grade, if they were the native children. They just didn't have enough schools. They had the church mission schools, and they had the International schools, where they went thru all the grades. The Embassy children go to the International schools or private schools, and seem to be better educated and more respectful than American children. They go to school from 7:30-12:30, and in the afternoon they have riding classes, drama arts and crafts and swimming.

The people are more sociable and informal there. They are very open about discussing world affairs, and seem to know about things going on all over the world, and have their own opinion about these world affairs. Zimbabwe, has learned to grow, build or make anything they need. Zambia, is still backward, and most of the people are uneducated, with two classes of people, the rich and the poor, but few middle class people.

The Salisbury stores are more open and modern than Lusaka, but they do not have stores like we have here in the States. Both places had a few American products, like SMA baby formula, Johnson & Johnson baby products and canned baby food, but only one or two brands. They have no homogenized or Pet milk.

In Salisbury they have the "bottle" stores, where all bottles cokes, shampoo or anything that is sold in bottles are returned to the stores to be refilled. I noticed that Salisbury or Lusaka, did not have a litter problem, like we have here. They do not use disposable diapers, they are only bought by the rich, and then only for training.

Not many people have T.V. and if they did, they only come on for a short time in the evening with the news. They don't have many shows, but there like London, everyone knows about J.R. and the Dallas show.

FIVE YEARS AGO MONDAY Sheriff Fred Cardinal and Deputy Olan Poteet were sworn in on the same day. The day before the Petersburg Bank was robbed. Pressed into service a day early they were sworn in in the car as they headed west to set up a roadblock. They had only one gun and two bullets between them. Fortunately for them the bank robbers headed north for their shootout with law enforcement officers.

Be prepared

Weathermen are forecasting a bad 1980-81 winter and increased heating costs. To combat larger fuel bills, insulate. The best place to start is in the attic. An under-insulated attic drains energy, letting heated air through the roof in winter and acting as a giant solar collector in summer. R-values measure the resistance of the flow of heat. The greater the R-value, the less energy lost. R-values of R-30 - R-35 are considered ideal for our winter climate. However it may not be economically feasible to get over R-20... considered to be an acceptable goal. Without

compressing, measure attic's insulation. Most kinds of insulation blankets, poured foam, have an R-value of 3.5 per inch thickness. For example, if your insulation is 10 inches, the R-value for attic is R-35, considered lower than the goal of R-30.

INSUR-MATION
Floyd County
Insurance Agency Jerry Cooper

I'm in my 30s and own a small business. Because of the economy, etc., I think I'd better start now to plan for retirement funds. Is there a way to begin a plan for myself now and when the business gets healthier start pension plans for my employees as an added benefit?

If not covered by a qualified pension plan you should consider an IRA (Individual Retirement Account). You need not include your employees. They may start their own IRAs or you can sponsor or fund an IRA for selected employees later. Yearly contributions of up to \$1,500 or 15%, whichever is less, are tax deferred until you use the account. \$1,500 invested every year for 30 years and compounded at 7% turns into \$141,700. An additional advantage with IRA is being able to "roll into" a more sophisticated plan when you are better able to do so.

Time to get it together for income tax day

Taxpayers, especially those who itemize, should begin getting their receipts and other records together to support claims on their Federal income tax returns, the Internal Revenue Service says. Taxpayers may use any form of recordkeeping they prefer, as long as they have proper records to verify the income, deductions, credits and other items shown on the tax return. Good records can also enable the taxpayer to quickly and accurately list his or her deductions, the IRS points out.

It would be a good idea, the IRS adds, to sort records into the same categories listed on Schedule A of the Form 1040 - medical or dental expenses, state or local taxes, interest payments, contributions to charity, casualty or theft losses and miscellaneous deductions.

Good records and supporting documents can be in the form of cancelled checks, paid bills, pay stubs, receipts or in some cases, a diary of daily expenses. Generally, cancelled checks or receipts should not be attached to the return for an individual, but explanatory documentation is required for a contribution of property.

LAKEVIEW NEWS

By Joyce Williams

Mr. and Mrs. Gary Hill and son Jeremy, of Lockney, visited last Wednesday afternoon with their grandmother, Mrs. J.C. Odam, and went to church with her that night.

On Sunday afternoon, Mrs. Odam's granddaughter and her husband, Mr. and Mrs. Terry Seiwert, came by on their way to Crowell.

Mrs. Buell Neff was a Thanksgiving dinner guest in the home of Mr. and Mrs. Edwin Neff and Angie. Shorty and Leona Neff were also there for dinner. Mr. and Mrs. Bill Smith (Pat Neff) and daughter, Sherrill and Becky, came over from Littlefield and ate dinner with Bill's parents, Mr. and Mrs. Ray Smith. The Smith's then went by and picked up Ona Ruth and visited the Galloway girls, Tammy and Sherrill at Mrs. Lee Neff's. Sherrill Smith recently accompanied the Littlefield High School band to Austin where they marched in pouring rain and still won second place. They traveled home in last Monday's snow storm.

Mr. and Mrs. Bob Kendrick attended an Eastern Star school of instruction in Plainview at the Masonic Lodge all day and evening last Monday.

Mr. and Mrs. Wayne McHam and sons, Andy and Bruce, joined Susan's family at the home of grandmother, Mrs. H.R. Patterson in Floydada, for Thanksgiving day dinner.

On Sunday, all the McHams got together at Mr. and Mrs. Alvie McHam. Those present included, Mr. and Mrs. Wayne McHam and sons; Mr. and Mrs. Dennis McHam; Mr. and Mrs. Ronnie McHam of Amarillo; Mr. and Mrs. Tommy McHam and children, James, Jessica, and Stacy; Mr. and Mrs. Wesley Geyer (Peggy McHam) and Miss Barbara McHam.

Mr. and Mrs. Wayne Appling went to Tulia Sunday for Thanksgiving dinner in the home of Mr. and Mrs. Roy Miller. Mr. and Mrs. Joe Appling and children, Mark, David, and Robbie were there with the head of the

clan, Mrs. S.G. Appling.

Mrs. Joe Dunn talked over the phone with her sister, Mrs. Hubert Scott, in Amarillo, and reports their mother, Mrs. Hattie Fuqua, is doing very well. Mr. and Mrs. Dunn were in Lubbock for Christmas shopping on Monday.

Kathy and Jerry Green and Todd Hambricht spent Thanksgiving with their parents, Mr. and Mrs. Billy Joe Hambricht. Jerry went back to Lubbock Friday and Kathy stayed out the weekend, relaxing before returning to school teaching on Monday. Mr. and Mrs. Duane McClintock were Thanksgiving dinner guests at the home of their daughter, Mrs. Dayne Golightly and family. Little Rance and Lacy Golightly enjoyed having the grownups take a few days off from the ginning during the snows of the past two weeks.

Mrs. Roy Fawver enjoyed brunch on Thanksgiving day with Mr. and Mrs. Carlton

Fawver, then shared a late Thanksgiving dinner in the afternoon at the home of Mr. and Mrs. Leslie Fawver.

Last Saturday, little Miss Amanda Watson, daughter of Mr. and Mrs. Dean Watson, came down the aisle as flower girl again, this time for the wedding of her cousin, Miss Ramona Paul, in the Westwood Baptist Church at Odessa. Other family members there for the ceremony included Mr. and Mrs. Millard Watson, and Mr. and Mrs. Ken Robinson of Lubbock whose little son, Kris, was ring bearer.

2nd Lt. Monte Williams and wife, Kellie, of Ft. Sill, Oklahoma, visited his parents, Mr. and Mrs. Q.D. Williams Friday. Kellie and Monte also visited in Lubbock Saturday and Sunday with her grandparents, Mr. and Mrs. Pete Calloway, and her parents, Lt. Col. and Mrs. Elton Brian who came from San Angelo for the holiday. The men all came to

You reckon voters, when they said they're tired of being taxed by Washington, meant to say let Austin do it now?

Dear editor:

Some professionals had some embarrassing trouble understanding the mood of the voters before they voted in the Presidential election, and some are even having trouble understanding it after the election.

Speaking of taxes, I don't know how much it had cost to send Voyager 1 sailing one billion miles out in space to take pictures of Saturn, a frigid pile of nothing, but at only a dollar a mile that comes to a billion dollars.

For a billion or so more, scientists say they can explore even further out into the vastness of the universe. How far out do you suppose they'll have to go before they find out there's nothing usable out there?

Exploring outer space is a fascinating hobby but maybe it should be postponed till we get out earthly life in a little better shape. Spending billions of tax money now to explore space is like buying an air-conditioner for an un-chinked log cabin.

I'm not sure that's what the voters had in mind when they said they wanted the government off their backs.

What's gained by getting the federal government off your back if the state government jumps on instead? If you're staggering under the

Allsup's to help in the fight against Cerebral Palsy

Convenience Stores, Inc., participants in the United Cerebral Palsy Telethon With the Stars, will conduct pre-telethon activities during the month of December according to Kurt Verlei, Director of Public Relations.

According to Verlei, the company will display collection canisters in all their stores to allow patrons to make contributions. "This is a very important part of the fund raising prior to the telethon," stated Verlei.

"United Cerebral Palsy is an injury to the brain that can never be cured, however, we feel that money raised will go a long way in helping the cerebral palsied lead a more normal life. We hope that our customers will help us make this telethon more successful than any before."

Fix-it Facts

Thurman Davis insulation insures against increased energy costs... particularly in an attic. When insulating an attic there are a few things to consider before you begin. First, if you think you might want to finish your attic for additional living space in the future, now is a good time to not only insulate the floor, but also the walls and ceiling. If it will never be more than a dead space, or used for storage, insulating the floor will suffice. Before you begin, check the entire area for leaks which might damage the insulation and repair them. Leaks prone to leaks include roof, around a chimney and along walls. Next, determine whether you have adequate ventilation. Nail insulation wherever necessary to insure insulation at least 3-4 inches away from lights and pipes. If a vapor barrier is needed, 2-mil polyethylene should be taped and sealed with tape. Make sure it's in good condition. Don't lay insulation over diagonal joists or other obstructions. Cut it to fit or you'll lose effectiveness.
