It's Not Easy

BY CAROL LEA CLARK

It seems like I am always having problems with buttons, and in the winter they are worse. I just get one button back on my heavy coat when the other comes off, always when I am going out the door. And, of course I wear my other coat because it is one of those lovely machine made coats that came off when I was pulling the thread.

It never seems to have the right color thread to sew on my lovely buttons. On the day before laundry day when there is only one clean ironed shirt in the house for my husband, one of the buttons came off at 8:13 a.m. before his departure.

Usually there was not one spool of thread to be found in the house. I could do was a bright red that I rather cute with the pinkish color shirt, but it didn't do anything for the buttons. Maybe no one would notice.

The white button sewn on with red thread on a pinkish shirt might have been noticed, but not two. Yes, of course as he again buttoned his shirt the cute little white button came off. It seemed a good day for him to wear a sweater.

I can remember when I was young and single and I had the right color thread for any buttons. Yet, I can't remember any buttons coming off those days. I spent endless hours carefully selected to color coordinate and I even made the buttonholes.

My entire wardrobe consists of blouses and buttonless T-shirts. If I only convert my husband, but he says that he cannot wear a tie with a button shirt.

Last winter my husband and I shared a set of blazer buttons for about six months. There never seemed to be time to get to a store to buy another set. So I moved the buttons from his blazer to my navy blazer and back to his. I finally broke down and bought more blazer buttons when we both decided to wear the blazers on the same day. I thought about sewing up the buttonholes on one of the blazers and buying a new style, but decided it was just to buy buttons. Then, however, I had to find navy blue thread to sew on the buttons. I think I ended up wearing a dress instead.

With all these buttons rolling around the house, it is a wonder that our mother has only managed to swallow one button that we know about. Thank goodness that it was a small one.

I hate buttons.

STANDING ARE TWO RESIDENTS FROM STEEN PLACE ADDITION (left) Lonnie Hinsley and (right) George Henry who came before City Council concerning the sewer lift that services their neighborhood.

Sewer lift city problem

Sewer problems that have been plaguing citizens in the Steen Place Addition were dumped squarely in the city councils lap Tuesday night.

"We're not going to get mad about this, but the sewer line backs up in the houses, and backs up in the yards, and if it's not fixed it's going to ruin the community" was the general feeling of the three neighborhood representatives that attended the meeting.

George Henry suggested that the city install an alternate pump so that when the line gets clogged with toys, roots or whatever and the lift goes off; an alternate pump would take over. He also suggested some kind of a warning system be installed so residents would know when the lift went off.

Pete Roe said that it had happened four times this year, "it's something to walk in in the middle of the night and find your bathroom is full of sewer."

necessary," Burns said.

Councilman Wayne Russell said, "I'm going to second the motion whatever he (Burns) said."

The motion was then formally made and seconded to get an engineers report and to take bids to get the problem taken care of.

Another sewer question came up. Connie Bearden, who was unable to attend the meeting, had requested that he be able to tie on to the city sewer line to carry off an overflow of water even though his property was out of the city limits.

The city engineer, Bill McMorris advised the council that they would be setting precedent if they allowed anyone living outside the city to tie into the city sewer.

City Manager Bill Feuerbacher said, "It's real scary on that line, it almost needs a sewer lift now."

McMorris said that he didn't know whether or not the lines out there could take any extra flow.

SPS to spend half billion

Southwestern Public Service Company will invest more than \$552 million in new equipment and materials during the next five years, according to Berl Springer, president and chief operating officer.

New coal-fired generating facilities to be installed during the 5-year period will increase the capability of Southwestern's system by more than a million kilowatts, bringing the total SPS generating capability to more than 4-million kilowatts.

Tolk Station, located 12 miles east of Muleshoe, is the site for the new generating facilities, and is currently under construction. The station will have two 543,000 kilowatt units and will be Southwestern's largest plant. The first unit, now about one-quarter complete, is scheduled to go on the line in 1982 while the second unit will be ready in 1985. This will be the second coal-fired plant for SPS. The first, Harrington Station, near Amarillo, was completed this past summer.

Coal for Harrington and Tolk Stations comes from Atlantic Richfield mines near Gillette, Wyo., and is delivered to the plants by 110-car unit trains.

In reviewing 1980, Springer said, "Our peak load reached an all-time high last summer of 2,651,000 kilowatts. We expect our peak load to climb to 3,204,000 kilowatts by 1985. The addition of Tolk Station will more than take care of that increase."

"The cost of fuel now represents nearly 70% of our total operating expenses as compared to only 47% in 1975. The management of fuel problems continues to require a major effort in the operation of the company," Springer continued. "Supplier price increases, escalator clauses, minimum use requirements, gas pipeline capacity limitations and increasing supplier scheduling difficulties have all contributed to a rapidly increasing cost of fuel."

TWO FLOYDADA HIGH SCHOOL BAND MEMBERS were named to the All-Region band clinic/concert. Left to right is Treva Hambright, alternate in the Euphonium section; and Terri Lloyd, Bass Clarinet.

Lloyd makes region band

Terri Lloyd, daughter of Mr. and Mrs. Melvin Lloyd, was named to the North Zone, A, AA, AAA All-Region Band during tryouts held at Littlefield High School Saturday.

Terri is a senior and plays Bass Clarinet in the Floydada High School Band. She will be participating in the Region XVI All-Region Clinic-Concert to be held in Lubbock on January 29, 30, and 31.

Clinician for the North Zone Band will be Dr. Gary Garner, band director at West Texas State University.

Also honored Saturday was Treva Hambright, daughter of Mr. and Mrs. Gordon Hambright.

Treva a junior, was named an

alternate in the Euphonium section of the All-Region Band. She will be traveling to Lubbock with Terri and Bruce Kenner, Band Director of Floydada High School to observe the clinic-concert.

"We have always planned for the future in order to meet our customers' needs. We are still planning—and we intend to see that our customers continue to have the kind of dependable electric service they have had in the past—even better," Springer concluded.

Commissioners name Child Welfare Board

County Commissioners, in the first court session of the new year, selected 15 county residents to serve on the Child Welfare Board.

Judge Choise Smith will be contacting each person to confirm their placement on the board.

Board members will serve in an advisory capacity working with governmental agencies in cases of child abuse in Floyd County.

Establishment of this board that authorities involved in child welfare

deem crucial has been a long time coming for Floyd County.

Names submitted for board membership are: Sam Spence, Bill Sherman, Dr. Gary Mangold, Bobbie Miller, Billie Jordan, Tom Powell, Susan Garms, Charlene Brown, Emily Johnston, Jim Smith, Jerry Klein, Sherree Cannon, Gene Christopher, Nancy Young and David Seay.

Motion to select the board members was made by Thomas Warren, new commissioner from Precinct 3, and seconded by Sam Spence, new commissioner from Precinct 1.

Commissioners spent most of the court session in handling routine, first of the year business.

Employer nominations

Nominations for the Women's Division of the Chamber of Commerce award for Employer of the Year must be submitted for consideration by Wednesday, February 10.

Any employee of any Floydada business firm may nominate their boss by writing a short (approximately 50 to 75 words) statement on why their employer should receive the annual honor.

All nominations will be screened by a committee of the Women's Chamber after the deadline. The winner will be named at the annual Chamber of Commerce banquet March 9.

COUNTY COMMISSIONERS—Standing (l-r) are Thomas Warren, newly appointed from Precinct 3, and Bob Jarrett. Sitting (l-r) is Jack Lackey, Choise Smith, County Judge, and Sam Spence, newly elected to Precinct 1.

The County Grievance Committee for 1981 was selected with Joe Garcia, Peggy Wiley, and Helen Martin to serve. Alternate names drawn were John Paul Schacht and Jesus L. Garza.

Mary Shurbet was appointed as deputy county clerk upon the recommendation of County Clerk Margaret Collier.

Motion was made by Thomas Warren and seconded by Bob Jarrett that the court allow Judge Smith to advertise for bids for county depository to be selected during the regular February term.

The following people will be asked to serve on the Floyd County Historical Commission Board; Jim Word, Nancy Marble, Joyce Williams, Wilson Bond, Reba Henry, J.D. Copeland, Tommy Assiter, Choise Smith, Olive Hinton and Frank Brown.

Bob Jarrett made the motion that these names be selected and Thomas Warren seconded.

Attending the court session were Commissioners Jarrett, Warren, Spence, Jack Lackey and Judge Smith.

DAR honors area students

Senior students from high schools who have been outstanding in leadership, dependability, service and patriotism have been selected by their schools as entrants in the Mary McCoy Baines DAR Good Citizen Award Contest.

The winner of the local Chapter will be entered in the state contest and the winner will receive a \$100 award and their entry sent to the national contest in Washington where the first place winner will receive a \$1,000 scholarship.

Each student and their parents will be honored by the Mary McCoy Baines Chapter, February 11, 1981 in Plainview, at the annual Washington Tea.

Each student will be presented a DAR pin and good citizen certificate.

The following students will receive recognition for their outstanding work at school, church, community, and club work: Bradley Bowen of Abernathy, Julie Ferguson of Lockney, Evan N. Kramer of Plainview, Diana Maldonado of Petersburg, Deanna Merritt of Dimmitt, Melissa Morren of Floydada, Carolina Perez of Tulia and Kelli Alana Smith of Olton. The winners will be announced the last week of January.

Julie Ferguson, daughter of Mr. and Mrs. James Ferguson of Lockney, was selected as good citizen of the Lockney High School senior class to enter the

Mary McCoy Baines Chapter of Daughters of the American Revolution Good Citizen contest.

She was chosen for her dependability, patriotism, school activities, church and home life.

Julie has been queen of the Lockney Longhorn football team, a band member, junior class marshal, student member, representative National Honor Society president, and Fellowship of Christian Athletes.

She enjoys twirling, basketball, cross-country running and track, working in her church, helping her mother in the home and coaching The Little Dribblers Basketball Team.

Her future plans include college, majoring in biology or physical education.

Melissa Morren, daughter of Mr. and Mrs. Freddie Morren of Floydada, has been selected as senior good citizen of Floydada High School.

She is a busy young lady in school where she has held offices in the flag corps, senior class, and National Honor Society, played in the band four years, annual staff member, and the drama club.

Melissa works at Bishop Ramsey Pharmacy and enjoys helping the elderly in the nursing home.

At the present her college plans are indefinite.

Congressional Comment

Charles W. Stenholm

WASHINGTON, D.C.—Students and teachers interested in participating in the second summer internship program sponsored by Congressman Charles W. Stenholm can pick up applications at the Congressman's Abilene District Office in the Federal Building.

Applications for the program, which will include two Omar Burlerson Congressional Interns and two Lyndon Baines Johnson Congressional Interns, must be postmarked by midnight, February 14, and mailed to the Abilene office.

The interns selected will receive full Congressional Office experience at Stenholm's Washington office, with one intern from each program to serve during June or July of this year.

"After the overwhelming success evidenced by our first internships last year, I had no hesitation in sponsoring the program again," Stenholm said. "The four young people who served during the initial program were truly outstanding workers and I feel that the experience they received will serve them well in the future, whether in a government-related field or as private citizens."

Selection for the internships is made by a District-wide seven-person selection committee, chaired by former Congressman Omar Burlerson.

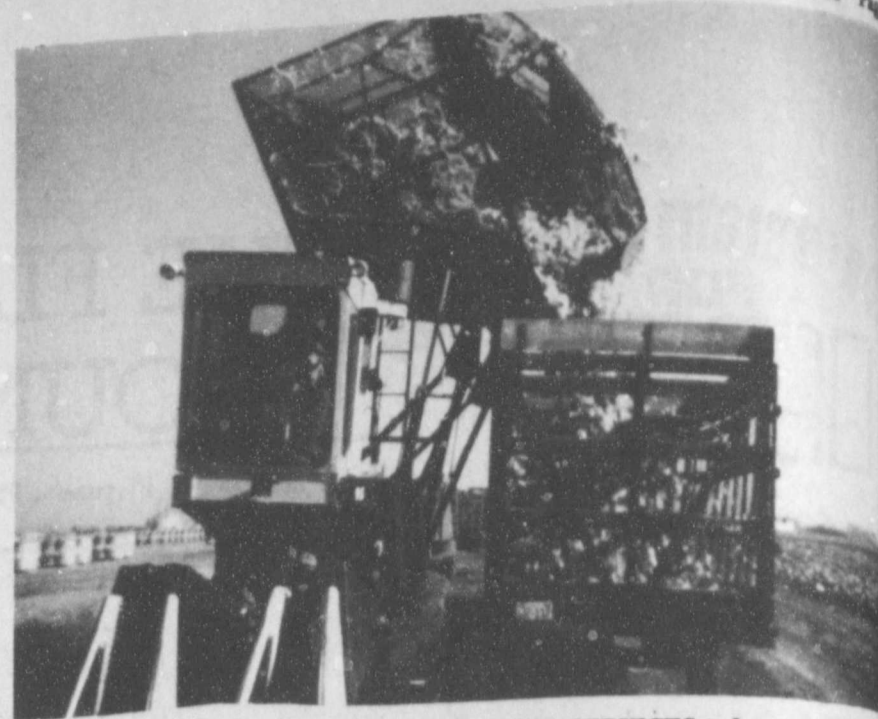

Applicants for the Burlerson internships must be 18 years of age at the time he or she is in Washington, allowing high school seniors who have enrolled in an institute of higher learning to be eligible. Others eligible include any student or gradu-

ate student who was enrolled during the preceding academic year at any of the District colleges, universities or technical institutes, or any school, if the person's home of record is within the District.

Also eligible are teachers, counselors or administrators in any District elementary, middle school, junior high or high school or any instructor or administrator of any institution of higher learning within the District. The only requirement is that the person be involved actively in working with students.

Requirements for the LBJ interns are similar, but teachers must be involved in government or social studies at a secondary or post secondary school in the District.

Formal applications and further details may be obtained from the Abilene District Congressional Office, P.O. Box 1101, Abilene, Texas 79604, or by calling AC 915-673-7221.

A GROUP OF LOCKNEY MEN VOLUNTEERED THEIR SERVICES to harvest the cotton of Mrs. Linnie Abbott of Lockney. Mrs. Abbott's husband died last summer and she was in an accident a short time later and had to undergo surgery.

Lockney men help friend

BY EDITH COOPER

It was an early Christmas present for Mrs. Linnie Abbott, when a group of friends and neighbors gathered at her farm to harvest 50 acres of cotton.

The job was completed in three or four hours. The men brought trailers, pickups, six strippers and the necessary equipment to do the job.

Paul Tueton organized and supervised the crew of men

which included: Robert Daniels, Durward Jack, "Casey" Jones, John Paul Schacht, Clar Schacht, F.L. Montandon, Mark Montandon, Macon Ulmer, Paul Teuton, Glen Morgan, Gary Morgan, Warren Mitchell, Donny Bybee, W.L. Thomas, Bill Wisdom, Jerry Ford, Raymond Gonzales, David Balderas and Craig Ellison.

N.S. Abbott died last summer and Linnie Abbott

Floyd Philosopher

Editor's note: The Floyd Philosopher has found something Congressional to approve, maybe.

A Congressman has come up with a plan to overcome the postal system's one-billion-dollar-a-year loss. He said he thought it up while taking a shower. "I do my best thinking while showering," he said.

If he can work this, right off you can see this is a clear indication that Congressmen ought to take more showers.

I don't know why the post office is supposed to do any better financially than the automobile industry or farm-

ers, but none the less it's losing a little over a billion a year and this Congressman says the way to end this is to sell advertising space on postage stamps.

He says plenty of companies would pay 20 cents per stamp to get their advertising message on it, and with the stamps still costing the rest of us 15 cents apiece, you can see the post office would become a business worth buying stock in.

There are those who say big companies wouldn't buy space on a postage stamp. Naturally you wouldn't run

grocery specials on a stamp. Some people take so long to answer their mail the prices would be out of date. And jeans wouldn't work. The movie star's picture wouldn't show up big enough.

But there are these advertising geniuses in television who'd jump at the chance. You take the guy who thinks a 60-second spot costing \$150,000 on TV showing 10 helicopters lowering 10 pick-

up trucks on to a city parking lot will sell pickups, and he'd jump at the chance to buy space on a postage stamp. Naturally you wouldn't run

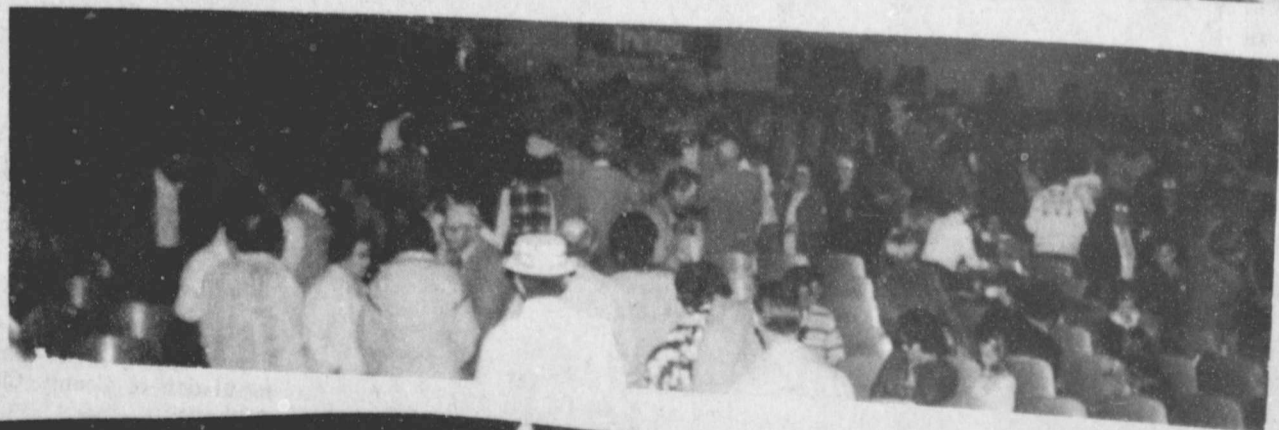

mote glue on the back of the mouth wash on the

Install more offices and somebody is coming up with a bill advertising not only stamp but on the envelope and around the edges on the side. Keep the water right temperature and Congressmen might with a bill to charge greasemen postage as they send out, just he's expelled.

Floydada Nursing Home Happenings

The residents are ready to slow down and rest after the long holidays. Several of the residents went home for Christmas.

Mr. Lawrence went to Matador and spent Christmas with his children. Mrs. Velva Pricer spent Christmas in Oklahoma City with her daughter and family. Juanita Bailey was in Matador with her family. Others spending Christmas out were Mr. Ray Reed, Docia Manning, A.G. Eubanks, W.C. Cates, Ollie Miracle, Verna McSwain and Francis Childs and others I'm sure, but I didn't hear about those.

I spent Christmas with my mother, Mrs. Gladys Manshach, in Carthage, Texas. I think I gained five pounds in the week I was there. The weather was so nice for

traveling, but it's good to be back.

We would like to thank Alton Rose and Edell Moore for the apples and oranges. The residents really enjoyed them.

Thanks also to Elizabeth Armstrong, Helen Solomon, and Emma Lou Whitaker for the party snacks and cake they gave the staff. Hazel Bradley brought snacks to the home over the holidays. Bud Newell brought a cake.

We appreciate everyone's thoughtfulness during the holidays and would like to wish everyone a Happy New Year.

Icy Biggs started the New Year off right by eating black eyed peas with her daughter, Ella, and son-in-law, Maurice Goodwin of Lubbock.

Those enjoying a bus ride to the Country Club and Baptist Assembly were Emmit Lawrence, Verna McSwain, W.C. Cates, Iva Simpson, Juanita Bailey, Hazel Ginn and Geneda Roberts.

Our visitors this week were Maurice and Ella Goodwin, Vonceil Colston, Mrs. J.D. Hart, Doris Snodgrass, Mr. and Mrs. M.H. Alpha Sigma Upsilon, chapter of Beta Sigma Phi, met on Tuesday, January 6, in the home of Mary Emert. Roll call was answered with New Year's resolutions, some of which had already been broken, but there is still time for everyone to reach their goal for 1981. To start the year off right we planned this month's social to get together for a movie and dinner. After our regular business

meeting Mary served refreshments, then Lynn Daniel taught us the steps to the Cotton Eyed-Joe and the Schottische. Everyone enjoyed trying to get the steps together but it wasn't as easy as it looked. Those present at the meeting were Mary Emert, Donna Lipham, Rhonda Guthrie, Lynn Daniel, June McCaugh, Vikki Yeary, Barbara Cocanougher, Iantha Smith, and Pat Franklin.

Lockney Care Center News

BY VICKIE HUTTON

This sure has been a good week, we have had lots of visitors and this is always a welcome sight. We welcomed J.T. Strickland and Sam Lide to the Care Center. They have enjoyed making new friendships and renewing old ones. We are glad to have these fellows with us. Our bingo players had a bang up time playing bingo, with Albert Poole being our overall and blackout winner. Delinda Glasson and Bettie Bradley were our callers, thanks ladies for your time spent with us. Several of the residents enjoyed our bus trip to Floydada on Friday. We saw alot of new scenery. This is a new activity for us. Chuck Shockley from Central Plains MHMR has started a ceramic class. We all enjoyed his demonstrations and are looking forward to Thursday's class. Thursday was almost Christmas again for us, some of our new linens had come in, they were a little bundle of joy. We hope Clemente Jaquez will be happy in his new home. We will all miss him.

VERSATILE VELOUR KNITS
Versatile velour knits can range from elegant to sporty, depending on the selection of pattern style. Velours make excellent jogging suits yet become the perfect evening dress for a special occasion. Although velour knits are sometimes a bit "tricky" to sew, a few basic principles of working with knits will reduce frustration when sewing.

When selecting velour, check the label for fiber content and recommended care. Ask for a care label to sew into the finished garment. When selecting a pattern, notice the suggested fabrics on the envelope and in the pattern book. Select styles that are "fuss free," with few pieces, no top stitching of fussy details. Avoid buttonholes and zippers, if possible. Since velour knits vary in degress of stretch, compare the stretch of the fabric to the stretch gauge on the pattern envelope. The fabric stretch should fit with the stretch built into the pattern.

Before sewing, preshrink the fabric by washing it as you would the final garment or have it dry cleaned. This helps "relax" the fabric and remove chemical residue which can cause skipped stitches when sewing. Also gather all the necessary equipment for making a velour knit garment. These include:

- long staple polyester thread or cotton covered polyester thread
- ball point or all-purpose needle, size 11 (or 70-75)
- a roller or even-feed presser foot to assist in making pucker-free seams
- sharp shears
- pattern weight or long, thin, ball-point pins.

the fabric will look smooth and shiny. The surface will look darker and rougher when cut against the nap. Decide which appearance you like best, and cut all pieces going that direction. Consider using pattern weights instead of pins to hold the pattern in place. Pins often get lost in the pile. Use sharp shears to cut out pattern pieces. Transfer markings with chalk or use tailor's tacks.

Set the machine correctly for velour fabrics. Experiment with a double thickness swatch of fabric before tackling the "real thing." In general, set the machine for 10-12 stitches per inch (or per 2.5 cm). This corresponds to a number three on most machines. Slightly reduce thread tension and decrease presser foot pressure. If fabric slips when stitching after the above adjustments, use an even feed presser foot or stitch with a layer of tissue paper between feed dog and fabric. Also, be sure to pin the fabric carefully on the seam line to control the fabric at the seam when sewn.

Stitch with a straight stitch or narrow zig zag in direction of nap. To finish seams, press to one side and make a second row of straight or zig zag stitches. Trim excess allowance to prevent rolling. If using fusible interfacing, test the results on a fabric scrap. The fusing process may crush the pile, so a sew-in interfacing may work better.

Nylon or polyester zippers which are lightweight, strong and flexible are recommended for stretch velours. Before hemming a garment, let it hang for 24 hours in case stretching occurs. Then level and hem the garment stretch lace, tape or sew one-fourth inch from edge and catch stitch. Velour is hard to topstitch on, but if carefully done, hems can be double topstitched.

Alpha Mu Delta sets party date

January 6 Alpha Mu Delta of Floydada met in the home of Sandra Crawford. Donna Anderson presided the business meeting, after the Opening Ritual was recited by all members present. Those attending were: Donna Anderson, Carrie Bertrand, Debbie Bertrand, Penny Bertrand, Sandra Crawford, Sharron Fulton, Donna Henderson, Duffy Hinkle, Tonya Marble and JoAnn Patterson.

The "Golden Moments of Beta Sigma Phi" were presented by Carrie Bertrand. Alpha Mu Delta voted to contribute to Mrs. Lynnel King, who lives in Plainview. Mrs. King's illness has mounted a large medical expense.

A secret ballot was cast to determine next year's sweetheart. Duffy Hinkle, the present sweetheart, collected the votes. Winner will be revealed in February. This month's social was discussed and hostesses will organize the party set for the 17th.

Duffy Hinkle presented the program on Art and Sculpture. Sherry Smith will present the next program on Drama Theater. Donna Henderson and Tonya Marble will host the next meeting, on Tuesday the 20th of February.

Church to hold Gospel Meeting

The Lockney Church of Christ will hold a gospel meeting this weekend. Services will be held at 7:30 p.m. Friday and Saturday and at 10:30 a.m. and 6 p.m. Sunday. There will be a luncheon after the Sunday morning service. Jim Bullock of West Monroe, La., will be the preacher for the services.

HOW TO WIN AT THE LOSING GAME
983-2291

983-2235

8TH GRADE BREEZER TOURNAMENT WINNERS are front row [l-r]: Bill Staples, Lane Cheek, Frankie Morales, Jr. Morales, Greg Thompson and Joe Medrano. Second row [l-r] are Tony Caballero, Scott Smith, Bill Harris, Larry Smith, Michael Saens, Raul Contreras, Derrick Jenkins, Joey Kemp, David Morren and Terry King.

Jenkins named MVP at Lubbock Tourney

Floydada Breezers took championship honors at the Lubbock tournament last week and high point man, Derrick Jenkins, was named most valuable player.

On January 8, the eighth grade Breezers met Lubbock Christian in the first game of the tournament.

Raul Contreras made the winning shot in the last three seconds of the game from 18 feet out. Final score was 54-53.

Second game was played at 11 a.m. on Wednesday against Frenship. Breezers were in front all the way and won the game 57-50.

The final game pitted the Breezers with a 7-2 record against undefeated Slaton.

The game was played at 7:45 p.m. on Saturday night. Slaton jumped ahead 6 points at the first of the game.

"After the first quarter our team settled down and played real good ball," Coach Dennis Jeter said, "our boys pulled ahead and stayed with a 4 to 6 point lead clear up to the last minute of the game."

Slaton pulled up with two points and then fouled David Morren with only 3 seconds to go in the ball game.

Morren sunk both shots, and put the Breezers ahead 47-43 in the final score.

High point man in the Slaton game with 35 points was Jenkins. He was also high point man in the other two games; 37 points against Lubbock Christian and 24 points against Frenship.

That made him 96 total points for the tournament and he was honored by being named "most valuable player of the tournament."

Other high scorers were: Michael Saens, 34 points; Frankie Morrales, 32 points; Contreras 18 points; and Morren 15 points.

"The boys played consistent ball," Jeter said, "that's what is required to win a championship."

Silverton Game
Monday night, January 12, the Breezers met Silverton in the first round of the McAdoo tournament.

Breezers jumped ahead 19-4 in the first quarter and from then on the coach substituted freely the rest of the game.

The Breezer hold a 9-2 record for the season.

Lockney Coming Up
Next Monday night they will face Lockney here. The seventh graders will begin play at 5 p.m. The eighth grade game will follow and the freshmen will play after that.

Tuesday at 5 p.m. the Breezers will meet Spur in the first round of the McAdoo tournament.

Teams in the tournament are: Petersburg, Lorenzo, McAdoo, Spur, Lubbock Christian and Gutherie.

Tulia will be a tough contender and looks like the team to beat this year.

The Breezers are 1-1 in district ratings having lost by only one point to Abernathy. They will have another chance to even things up with Abernathy. Breezers will also play Idalou to finish up their season.

The first game scheduled with Tulia was called because of a snow and ice storm and it is unlikely that the game will be made up.

The team has been taking its toll on undefeated teams. The Breezers beat Hale Center in the Floydada Tournament when that team was undefeated.

Then they broke the Slaton 8-0 record with last weeks defeat.

"Both teams are progressing really well and are handling the ball as well as can be expected," Jeter said. "They really have the desire to win."

At this stage of the season Jeter feels that "the goals are being met."

7TH GRADE BREEZETTE TOURNAMENT WINNERS are front row, [l-r]; Shannon Edwards, Mary Lloyd, Cindy Polanco, All Tournament; and Elsa Garza. Second row [l-r] are Campbell, Jana Lawson, Pam Richardson, Cookie Jones, Becky Lopez, Janie Barrera and Wilson.

8TH GRADE BREEZETTE TOURNAMENT WINNERS are front row [l-r]; Amy Arredondo, Kathy Martinez and Lisa Smith. Second row [l-r] are Ruby Ledbetter, Amelia Medrano, Jill Willson and Lisa Enriquez. Third row [l-r] are Marilyn Smith, DeAnn Collins, Connie Self, Gloria Becerra, Amy Lipham, Margie Cisneros, All Tournament; Tony Lamb, Misti Orman, Donna Pena, MVP; and Meredith Kitchens.

Winds open district play with home games

Floydada High School basketball teams open their district home schedule with two games in Graves gym next week when they host Tulia Tuesday and Lockney on Friday.

Both varsity contests will be preceded by boys junior varsity games at 5 p.m.

Tulia is currently considered the darkhorse in both the boys and girls team races with high-scoring as their trademark while the Lockney girls are district favorites.

FHS boys, 7-11 on the season, could figure to be spoilers in the race with one of the quicker teams on the South Plains.

Most of the Whirlwind losses have been by less than four points and they figure to begin tipping the scales their way in 3-AAA play.

Leading the Whirlwinds over the past few weeks have been Mike Self, Carlos Rainwater, Ronnie Minner, Donnell Weeks and Kevin Noland. Coming off the bench and scoring for the Winds have been Bruce Williams, Todd Beedy, Calvin Coleman, Billy Collins and Andra Ledbetter.

Tulia's boys were district winners two years ago and finished second last season.

Tulia's girls finished tied for third last year and feature on explosive offense that is centered around Sherri Painter, Malayne Latham and Kristi Ewing.

Lockney, visitors to Floydada on Friday, have all five starters back from last year's district champs.

The Lady Horns are led by Rebecca Evans, Connie Coffman and Julie Frizzell.

The Whirlettes hope to counter with quickness and balanced scoring to offset a height difference.

Leading FHS in scoring has been LeQuita Davis and Debra Alfaro while Julianne Lipham, Amy Jones and Nora Black have contributed heavily.

Bench strength also has helped roll up the respectable predistrict record and this is centered around the likes of Susan Turner, Terry Pleasant, Kelli Ferguson and Angie Anderson.

Girls varsity contests start at 6:30 p.m. both days and the boys games begin immediately afterward.

DERRICK JENKINS, selected most valuable player at Lubbock tournament, scores 2 points in Breezer game with Silverton Monday night.

Cowboys always due unexpected

By FERRI LLOYD

The Dallas Cowboys lost Sunday. But that's what they have come for this year than anyone else.

Staubach retired, an unproven quarterback in the form of Danny White. Cliff Harris retired, Charlie Waters, who was completely healthy, and Randy Hughes, a second-year secondary.

It always seems that the Cowboys are due for the unexpected.

On January 4, the Cowboys traveled to Atlanta to see who would advance to the National Football League championship game.

Most of the game, the Cowboys played without any success. Then, they showed themselves in the fourth quarter, and ten points later, they were leading.

Staubach, Roger Staubach, the first of two down passes to Drew Pearson.

Staubach waited a minute. Staubach retired. That was Danny White moving the Cowboys to get the ball back, the Dallas' defensive

boys toward the goal line like Roger Staubach used to. So much for the unproven quarterback theory! secondary played excellent pass protection. This is the same secondary that had been getting burned all season.

So, the Cowboys pull out the game in the last 3:40 to win 30-27.

Now we come to last Sunday. For most of the game the Cowboys played like they had come to watch, not play.

Here we have Tom Landry coaching his 32nd playoff game, and his team being in the playoffs for the fifteenth time in sixteen years.

Philadelphia hadn't beaten the Cowboys twice in the same season since 1964, which was Dallas' last losing season. And Philadelphia hadn't won the conference championship in twenty years. And what happens? Dallas loses 20-7.

When you think about how far they came, you feel proud of them. But like Landry said, "When you get this close to the Super Bowl, it hurts when you lose."

I think everyone will admit that if the Dallas Cowboys can go that far in a year of rebuilding, we have many more exciting Dallas Cowboys football games to watch.

Floydada girls team takes two and loses one

By J.D. Peer

Floydada High School girls wrapped up a pair of wins and one loss in their final tuneups before district play and ran their season mark to 14-5.

The Whirlettes completed a successful two-game home stand last week with a 54-39 win over Paducah and a 51-42 victory over Frenship before slipping 49-38 to Valley on the road.

Debra Alfaro and LeQuita Davis led the win over Paducah in a big second half scoring binge. Alfaro was high for the night with 18

while Davis contributed 16. Kelli Ferguson, Susan Turner and Julianne Lipham finished with four apiece while Angie Anderson, Nora Black, Amy Jones and Terry Pleasant finished with two each.

Turner led in the rebounding department with nine.

Jones supplied most of the points in the Frenship win with 10 while Lipham, Davis and Anderson pitched in eight apiece.

Pleasant was next with six followed by Ferguson with

five. Alfaro with four and Black with two.

Alfaro cleared the boards as rebounding leader with 14.

Cold-shooting marred the Monday evening loss to Valley as the Whirlettes fell 49-38 to the Patriots.

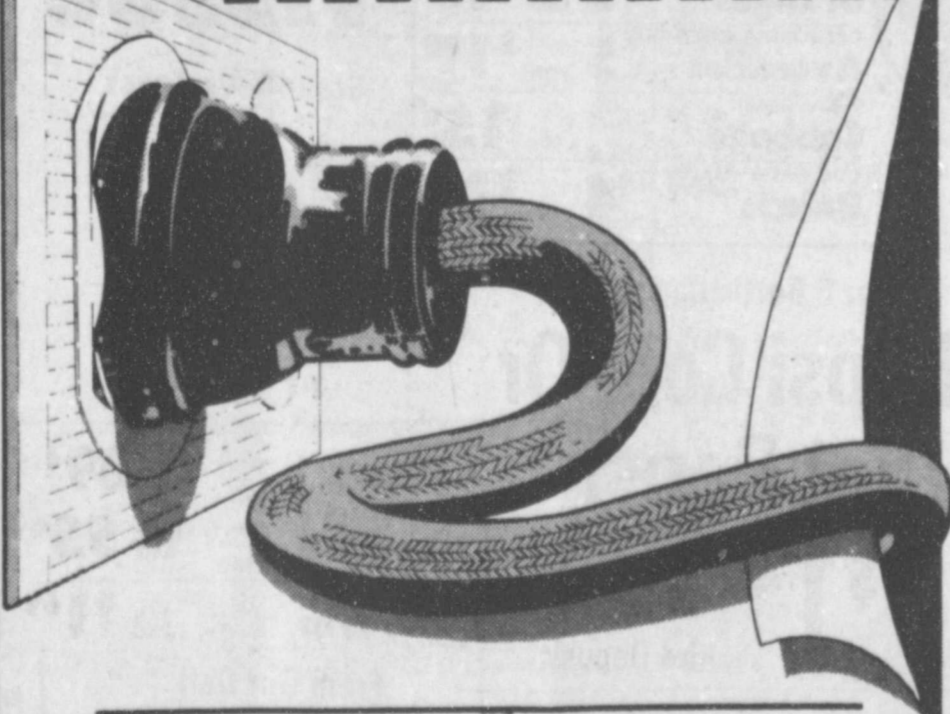

Alfaro supplied most of the scoring punch with 14 points while Davis managed eight. Anderson contributed six and Black added another four.

Jones, Lipham and Pleasant rounded out the scoring with two each.

Think of it as a savings account with scenery.

There are all kinds of checks, you know. Plain checks. Fancy checks. Beige checks. Blue checks. Even checks with palm trees and other pretty pictures.

Now, we love palm trees. But in these inflationary times, we think the prettiest pictures around are portraits. Of guys like George and Abe and good old Andy Jackson.

That's the reason for our new NOW account, the checking account that pays you for putting your money in it.

Of course, to keep it working like a checking account but earning interest like a savings account isn't duck soup. It takes some fancy figuring and special conditions. Things like minimum balance, average balance, and number of transactions.

So it makes more than a little sense to go to the people with the most practice. Us. We're A Full Service Bank, the home of modern checking, and we've got it down to a science. Isn't that beautiful?

BOATING TIPS
Most of the Texas water has stored their gear for spring. There are a lot of boaters found around on a warm day with the waterfowl and winter fishermen and these individuals are aware of the danger of cold weather compounds.

Advances for a boater to prevent a boating error or accident. Winter winds, low temperatures, ice and cold go together to make a boating accident.

Boating is the number one killer in boating accidents and staying with the boat until rescued is recommended by both the Texas Parks and Wildlife Department and the U.S. Coast Guard officials. Most small boats will continue to float when upside down or water due to the extra buoyancy built into the craft. This winter hazard of capsizing is the reason you should wear personal flotation device (life preserver) at all times. Many lakes require wearing of this safety device at all times and this is especially recommended for winter boating.

Water boating can be fun if you take into account the danger of cold water and are prepared for the trip.

AGRI-FACTS
TUNE-UPS AND GOOD MAINTENANCE COUNT toward fuel savings and, in many cases, increased performance. Research by cultural engineers at a midwestern university has shown that the fuel consumption of 50 randomly selected tractors was reduced 14.5 percent simply by tuning the engines and keeping them in tune. As an added bonus, the tractors showed an 11 percent increase in horsepower. Diesel engines should get a dynamometer check at least annually and injection systems checked by the dealer if horsepower is down. But, don't stop there. Fuel savings can also be realized by maintaining sharp cutting edges on tillage and harvesting equipment, by avoiding excessive depth in tilling, by making sure equipment is hitched properly, checking tire inflation when. Next week, some fuel saving tips from the driver's seat.

South Plains News

Mrs. Murry Julian

Visitors at the South Plains Baptist Church Sunday morning were Mr. and Mrs. Jerry Chappell from Duncan, Oklahoma; Mr. and Mrs. Bobby Craddock of Sundown, and Mr. and Mrs. Darwin Potts, and their boys from Silverton. The Caprock Associational Meeting will be at the Roaring Springs Baptist Church Tuesday evening, with a business meeting and WMU at 5:00 p.m. and the supper will be at 6:00 with the program to follow at 7:00 p.m.

There will be a Lockney Co-op fish supper in Lockney, Tuesday night, 7:00 p.m. at the American Legion Hall, with a weed control program for cotton and other crops. Ciba-Geigy will be hosts at the supper.

The South Plains Hobby Club will meet at the home of Mrs. Keith Marble (Neta) this coming Wednesday, January 14, at the regular hour of 2:00 p.m. Business for the day will be the planning of meetings for the coming year, with hostesses named, and programs named for the next year.

Mrs. Joy Smitherman held a farm sale at a farm south of South Plains, on Saturday, January 10, beginning at 10:30 a.m. The weather was nice for the gathering.

Levis Blum, who had been in the Lockney Hospital for some time, was able to go home on Saturday, and we are glad for the good news.

Roy Edwards of Floydada is still in the hospital after being there for three months, and Mrs. Jewel Rigdon is still in the Lockney Hospital.

Mr. and Mrs. Jerry Chappell of Duncan, Oklahoma arrived here Friday to spend the weekend with their parents, and Mrs. Chappell (Darla) returned Monday, while Jerry will remain a-while. Jerry is helping with the field work at this time.

Over the holidays, visitors here with Mr. and Mrs. Kelvin Cummings and their children, were her aunt and uncle, Mr. and Mrs. Lee Roy Scott of Bronte, Texas, their son, Troy from Denver City, and Mrs. Cummings' parents, Mr. and Mrs. Ross McWilliams of Canton, Texas. The Cummings have a wee, new baby girl at their home, named Victoria Anne. She is now a month old.

Brett Marble went back to college the week of January 9th, to begin a new semester at South Plains College at Levelland. He was home with his parents, Mr. and Mrs. Don Marble, during the holidays, as was Donette Marble, who was home for Christmas from Lubbock, where she is employed at Lubbock National Bank.

Mrs. Nancy Marble's sister and family, Mr. and Mrs. Ed Musser, from Marengo, Illinois were here with her family during the holidays. Jim and Joe were with their parents, and Tom, who is in college at Lubbock, all were here for the holidays. The Mussers flew here from Illinois.

Latham Dickens of Plainview spent last week here with his grandparents, Mr. and Mrs. Sylvan Kinnibrugh, while his mother, Mrs. Beth Dickens, was at at seminar.

Mrs. Bonnie Moore got to come home from the Methodist Hospital at Lubbock on Friday of last weekend, and she is staying with Mr. and Mrs. Herman Thornton while she regains her strength.

DECA STUDENTS SPORT NEW JACKETS which arrived this week.

Students able to receive college aid

Most students, regardless of scholastic achievement or financial need, can and do qualify for various forms and amounts of financial aid. The problem, according to Student College Aid, a nationwide computerized scholarship locator service, located at 3641 Deal Street, Houston, Texas, is that the students just don't know that they qualify. That is why last year alone one hundred thirty-five million dollars of student financial aid went unused.

The student fills out a data form requesting information about religion, ethnic background, special interests, etc. This data is read into a large computer crammed with information about a quarter of a million possible sources of financial aid. This aid comes from unions, philanthropic organizations, corporations, colleges and other public and private organizations. The student then receives a computer print out

listing up to 25 potential scholarships, grants or loans. In fact, Student College Aid is so sure that it can find sources of funds for students ready to enter college or students in undergraduate college that it makes a money back guarantee. They guarantee to find at least five sources of financial aid for which the student is eligible to apply. Otherwise, their payment is refunded along with any sources of funds

discovered for the student. Most students receive 10 to 15 listings valued at \$10,000 to \$15,000.

The computer print out that the student receives lists the names and addresses of the donors, the amount and length of time of the awards, matching qualifications, etc. -everything the student needs to know in order to apply for the funds.

DECA students receive jackets

New DECA jackets arrived this week and were handed out to students by group sponsor, Gene Moore.

The jackets were paid for by two projects that all 26 of the DECA students participated in.

The light bulb sale was a success with Leslie Strickland earning the top salesman award and Rose DeLeon coming in second while Carmen Powell sold the third highest amount.

The second project was the

annual Mexican Dinner. Besides the purchase of the jackets, the class second in the school drive at Christmas. They also donated \$300 to buy toys for needy families. They will use some of the project money to finance a trip to contest for the state who will be participating. At the end of the year the class will give an annual employer-appreciation banquet.

LAKEVIEW NEWS

By Joyce Williams
 Jody Smith, daughter of Mr. and Mrs. Choise recently showed her talents at the Vernon Council to be used for needy families. She will use some of the money to finance a contest for the student participating at the end of the school year. The class will give an employer-employee banquet.

Mr. and Mrs. Carl Moosberg returned Sunday from a weekend in New Orleans, where they attended the 1981 Beltville Cotton Production Research Conference. While in the city they went on a Bayou and plantation tour, traveled on a Mississippi stern wheeler boat, and toured New Orleans. They saw many long-time friends made during their years in the cotton business in Arkansas.

Norman Muncy and Howard Bishop are enjoying a free trip to the Midwest this week, as purchasers of new tractors.

Mr. and Mrs. Dean Watson and children joined family members at Mr. and Mrs. Henry Brewer's home on December 19 for an early Christmas. Christmas Eve was enjoyed at the home of Brenda's parents, Mr. and Mrs. Tom Moore, in Floydada. On Christmas Day, they dined at the Millard Watson home in Mt. Blanco. The Sunday after Christmas all of Millard's brothers and sisters met at his home for a family dinner. New Year's Day was enjoyed with a family luncheon at Childress in the home of Brenda's

maternal grandmother, Mrs. Pete Bumpas. Other family guests present included Mr. and Mrs. Tom Moore, Cindy Fuller, and the Dean Watsons.

Hunter Smith attended a birthday party at Shannon Barbee's home Saturday. They had refreshments at the home and then went to Plainview to a movie. His brother, Dean Smith, had Mark Thompson as his overnight guest Friday.

Little Miss Deanna Watson, daughter of Mr. and Mrs. Dean Watson, played "Away In A Manger" at her first piano recital, held in the high school auditorium, recently. Her teacher is Mrs. Del Gray. Deanna was the youngest student in the recital.

VOE OFFICERS for this year are: Deann Fry, Secretary; Teresa Weaver, Reporter-Historian; Shelley Bearden, Vice-President; Terri Gentry, photographer; Treva Hambricht, Treasurer; and Lisa Mayo, President. There are 12 students enrolled in the program.

Fund-raising through seed-selling

Organizations can now sell vegetable and flower seeds from the American Gardening Association as fund-raising projects.

"Gardening is a healthful activity, and growing your own vegetables helps fight inflation," an American Gardening Association representative said. "And flowers and green gardens do much to beautify the community."

Youth and church groups, and other clubs and organizations can promote gardening as a community improvement project while they raise money for their activities.

The American Gardening Association provides free sales literature, packages the seed collections, and mails them to the customers' homes. The local selling organization never has to handle the seeds.

January, February and March are the best months for selling the seeds. The seeds are mailed by the Association to buyers' homes for spring planting. Planting instructions are included.

Two seed collections, a vegetable collection and a flower collection, are sold through the program. Each

collection contains 10 packets and sells for \$4.00 plus shipping. The price includes a \$1.25 profit for the selling organization.

The vegetable collection is made up of one packet each of beans, cantalope, carrots, sweet corn, cucumbers, lettuce, peas, radishes, tomatoes, and watermelon. The flower seed collection fea-

tures alyssum, asters, carnations, dahlia, daisies, marigold, petunia, snapdragons, sweet peas, and zinnias.

Organizations can obtain free sample sales literature and further information by writing the American Gardening Association, 411 So. 13th St., Suite 315, Lincoln, NE 68508, or by calling (402) 476-8050.

DRIVELINE

Things That Go Bump In The Night—"Statistics show that two out of three accidents happen at night. The after-dark death rate per miles driven is two to three times the rate for daylight driving... Never leave your car on the shoulder of the road with parking lights on. Other drivers may think your car is still moving..."—From *New Driver Magazine*

BAD NEWS FOR CAR BUYERS! The double whammy of inflation-recession is pricing many Americans out of the new car market. Average price of a new American car is \$8,200, up 100 percent in the last decade. The prime lending rate has reached the stratospheric height of 19 percent, and car loans typically run two to four percent higher than the prime. Result? The monthly payment on a 48 month \$6,000 car loan is nearly \$170.

SMALL CAR HAZARDS: "In a collision between a subcompact and a full-sized car, occupants in the smaller car are eight times more likely to be killed," says the U.S. Dept. of Transportation. Safety experts contend this fact is a strong warning to small car drivers to stay within the 55 MPH speed limit, since lower speeds clearly reduce the risk and severity of injuries.

DRINKING DRIVERS GO TO POT. Nationwide surveys show that 60 percent of America's high school seniors have tried marijuana. Like alcohol during Prohibition, marijuana is illegal, but that doesn't prevent it from being a popular and widely used social drug. One effect of this trend is that many young people now routinely drive while under the influence of marijuana. The problem is that marijuana, like alcohol, is a central nervous system depressant. It slows a driver's reaction time, distorts perception, and reduces the capacity to make decisions. Numerous research studies have demonstrated that marijuana definitely decreases driving ability. Even worse, many people routinely combine booze and pot before they head out on the highway. Researchers have found that the combined damage of alcohol and marijuana to driving skill is more harmful than the effect of either drug used by itself.

Widows, widowers due tax benefit

A taxpayer who became a widow or widower in 1978 or 1979 may be entitled to a special tax benefit. The benefit allows the taxpayer to use the "Married Filing Jointly" Tax Table or a Tax Rate Schedule in computing the tax liability, a tax rate significantly lower than those in the "Single" category.

To qualify for the benefit, the taxpayer (1) must have been entitled to file a joint return with the deceased spouse for the year of death, even if one was not actually filed; (2) must have a child or

stepchild who qualified as a dependent; and (3) must have furnished over half the cost of maintaining a home which was the principal residence for the dependent child or stepchild for the entire year.

Taxpayers who take advantage of this benefit should file Form 1040, check Block 5 under Filing Status, "Qualifying widow(er) with dependent child," and figure the tax using the "Married Filing Jointly" tax table or tax rate schedule.

Slaton's 'wurst benefits school

About fifteen miles southwest of Lubbock is a town named Slaton with a population of 6,500. There on St. Joseph's Hall is a freshly painted sign. In mid-winter every year, the doors swing open and thousands enjoy the St. Joseph's Annual Sausage Festival to benefit St. Joseph's School.

The story goes back to 1921 when the Sisters of Mercy first came to open St. Joseph's School. The school had been taught by the Sisters of Mercy for fifty years, but with the decrease in vocations, the school had to hire teachers to help teach in standard of Christians and Value Education got together

to make the authentic two hundred year old recipe of German Sausage, which came to this country from a family in Austria.

Today the German heritage is represented best in the Annual Sausage Festival in Slaton, Texas. The notable side dish includes German Sausage, Sauerkraut, homemade bread and cake.

The Festival usually starts on Wednesday night when the hall is set up for sausage making.

On Thursday, about one hundred men and women are busy cutting, chopping, grinding, mixing and seasoning the pork that is stuffed in hog casings. The sausage will smoke in the church-owned smoke house for a full twenty-four hours before it is served on Sunday.

On Friday, February 20, a German Dance will be held in the Hall from nine in the evening until one o'clock in the morning with Don Turner and Hip Humpah doing the entertaining.

Advance tickets sold only. On Saturday, sausage will

be wrapped, and the hall will

be set up for the German Sausage Dinner, which will be held on Sunday, February 22, from eleven in the morning to three in the afternoon.

Across the street in St. Joseph's School, sausage will be sold by the pound and also a "Fun Fest", which will include a country store, mini cake walk, spot board, spinning wheel, and a live auction will be held at 2:30 in the school's cafeteria. "It's Fun For All."

In 1971, the first Sausage Festival started. Eight hundred pounds of sausage were

cooked for the meal. In 1975, five thousand pounds of sausage were made with one thousand two hundred forty pounds being cooked for the meal.

In 1980, six thousand five hundred pounds of sausage were made for the meal and to be sold by the pound.

This year, a German Dance will be added on February 20th with the Eleventh Annual Sausage Festival to be held on February 22nd. The proceeds from the Sausage Festival make up one-third of the income to support St. Joseph's School.

Social Security Representative

Virginia DeWitt
QUESTION:
My husband get social security disability checks. He is a little better now and wanted to work some. How much can he earn and still get checks?

ANSWER:
People who receive social security benefits because they are disabled are not subject to the same rules regarding earnings as those receiving retirement or dependent's social security benefits. They should notify the social security office if they take a job or become self-employed while still disabled, no matter how little the earnings. Have your husband notify the social security office.

Jump cars and trucks with care

bad weather, that season-long frustration of a car battery. The cure for the problem - usually a jump start from the battery - is not without hazard. The Texas Society for Preventing Blindness, the designated agency for preventing blindness, has developed a simple procedure for starting a battery can be used by anyone, even blindness. The procedure, which costs \$12,000 to the eyes, was developed because jump-starting a car without hazard is not without hazard. The Society for Preventing Blindness, the designated agency for preventing blindness, has developed a simple procedure for starting a battery can be used by anyone, even blindness. The procedure, which costs \$12,000 to the eyes, was developed because jump-starting a car without hazard is not without hazard.

yellow 4x8 vinyl stickers with adhesive backing so that permits them to be permanently affixed under the hood of the car or on the box containing the jumper cables. They are available for 25 cents each, plus a business sized stamped self-addressed envelope from the Texas Society to Prevent Blindness, P.O. Box 202, Houston 77001.

The Texas Society to Prevent Blindness is an affiliate of the National Society to Prevent Blindness, the oldest voluntary health agency engaged in preventing blindness through community service programs, public and professional education and research.

REV. ROBERT W. BROWN PRESENTS DAVID CARR the God and Country award of the Boy Scouts of America. He received an award, medal and patch to be worn on his Boy Scout uniform. David is the son of Mr. and Mrs. Charles Carr of Floydada.

Carr awarded scout honor

David Carr, fifteen year old son of Mr. and Mrs. Charles Carr, was presented the God and Country award of the Boy Scouts of America during the Boy Scouts of America worship service at the First United Methodist Church of Petersburg, Texas, on January 11, 1981.

The ceremony was the culmination of a year's work by Carr. During this time he worked closely with the pastor, Robert W. Brown, learning about the Bible, becoming aware of the programs of the United Methodist Church, and participating in various service projects for his church.

Donna Moats makes honor roll

More than 700 students at West Texas State University at Canyon are listed on the honor roll for the 1980 fall semester.

Listed on the Dean's honor roll from Lockney is Donna K. Moats.

The Dean's list names 651 students. To be eligible for the Dean's list, a student must have been enrolled in at least 12 semester credit hours and ended the semester with a grade point average of 3.25 and higher on a 4.0 scale.

WTSU's fall enrollment totaled 6,559 students.

The award, a medal and a patch to be worn on the Boy Scout uniform, was presented by the Reverend Brown. Assisting in the presentation was Carr's grandfather and scoutmaster, James H. Word. Carr, a sophomore at Floydada High School, is a member of Boy Scout Troop 357 of Floydada.

W-2 forms due soon

Employers must provide each employee with a completed Wage and Tax Statement, Form W-2, for 1980 by February 2, 1981, the Internal Revenue Service says.

If the Wage and Tax Statements are not issued on time, employers may be penalizing employees who will have to wait until February or later to file their tax returns, possibly missing out on the faster refunds available to early filers.

For further information on the proper distribution and handling of Wage and Tax Statements, employers may get a free copy of IRS Publication 15.

Stress Course offered

A one-day course in rational self-counseling for people under emotional stress will be offered at Texas Tech University January 24.

The session will meet at Saturday from 8 a.m. to 6 p.m. in Room 109 of Holden Hall on the Texas Tech campus.

The course, sponsored by Texas Tech's Division of Continuing Education, is designed primarily to benefit people under stress, but is also recommended for professional counselors.

Dr. Paul A. Knipping, professor of health, physical education and recreation at Texas Tech, will instruct.

Knipping has conducted RSC workshops throughout the nation for the past 10 years.

The course on rational self-counseling (RSC) teaches individuals to manage their emotions and to act the way they would like to act.

According to Knipping, RSC, if learned and practiced, can lessen unpleasant emotions, reduce tension, aid in avoiding heart attacks and increase the general state of happiness.

Registration for the course is \$30 per individual or \$45 per family. For more information, contact Teresa Katsufakis at (806) 742-2354.

Review math course for GRE at Tech

A short review course in basic mathematical and verbal skills for persons planning to take the Graduate Record Examination (GRE)

will be offered at Texas Tech University. These began January 12 and will continue through February 4.

The refresher course, sponsored by Texas Tech's Division of Continuing Education, is of special benefit to persons who have been out of school for several years. It will review the mathematical and verbal skills tested by the GRE.

The short course will meet Mondays and Wednesdays, 7-9 p.m. in the Conference Room of Continuing Education Building X-15, south of the Municipal Coliseum parking lot. Registration is \$35.

Instructors will be Ellen Harris and Shirley Rekers.

"Former students have given good reports on the success of the seminars in aiding participants in their performance on the GRE," said Rekers.

For further information, contact Joyce Abbott at (806) 742-3797.

Host families being sought by ASSE

American host families are being sought for 25 Scandinavian high school students from Sweden, Norway, Denmark, and Finland for the high school year 1981-82, in a program sponsored by American Scandinavian Student Exchange (ASSE).

Interested families in this area should contact: Mrs. Eleanor Tatch, 1500 Southmoor, Arlington, Texas 76010. Telephone: 817/469-1556.

Letters should contain the writer's phone number.

The high school students, age 16 and 17, will arrive in the United States in late August 1981, attend the local high school, and return home in late June 1982. The students, all fluent in English, have been screened by their school representative in Scandinavia and have spending money and medical insurance.

American families with small children are welcome to participate in this program. All host families have a student can deduct \$50.00 a month for income tax purposes.

INSUR-MATION
Floyd County Insurance Agency
Lockney Jerry Cooper

Ten speed bicycles are very popular especially, it seems, with thieves. Our neighborhood has had a rash of 10-speed thefts, including my daughter's, which was taken from our garage. The question is, of course, will my homeowner's policy cover this loss?

Under a standard homeowner's policy, the bike will be covered and, although you may not recover the total cost of the two-wheeler, you should get enough to go a long way toward purchasing another. Check your policy to determine what your coverage is, and what the deductible is on a single bike theft. Depreciation will be deducted along with that deductible, and your homeowner's policy will pay actual cost, less those two figures.

Seeding rangeland will boost grazing potential

(COLLEGE STATION) Seeding rangeland is a step in the right direction for boosting grazing potential. But it's expensive and requires proper planning, selection of adapted plants, good seeding methods and careful management.

"First, look at the quantity and distribution of desirable plants currently present," suggests Dr. Tommy Welch, range brush and weed control specialist with the Texas Agricultural Extension Service, Texas A&M University System. "If desirable plants make up less than 10-15 percent of the vegetation, seeding is probably necessary."

If desirable plants are uniformly distributed and make up more than 10-15 percent of the vegetation, grazing management can usually improve range conditions, notes the specialist.

"Seeding is usually necessary following a brush control method such as root-plowing that destroys existing turf. Also, seeding is usually the most effective way to establish desirable vegetation on abandoned cropland," says Welch.

He advises seeding only on better range sites to insure reasonable chances of success. Do not disturb steep, potentially erosive sites. Seeding range sites that receive runoff water usually provides good results.

Another consideration is to select species and varieties of plants for seeding that are adapted to the area's soil, climate and topography (lay of the land).

Also, select plants that are easily established, palatable to animals, relatively productive, able to withstand competition by undesirable plants, able to withstand moderate grazing, and able to prevent erosion under moderate grazing.

Welch suggests checking with county Extension agents or local Soil Conservation Service officials for information on adapted plants.

Planting into a well-prepared seedbed is essential. An ideal seedbed is firm below the seeding depth, is free from live plant competition, and has moderate amounts of mulch or plant residue on the soil surface.

"Preparing a good seedbed on abandoned cropland is possible without undue expense, but on rangeland it's a different story," says Welch. "However, prepare the best seedbed that available resources will allow. For example, rootplowing followed by roller chopping or chaining is an acceptable method of seedbed preparation on brush infested rangeland."

When it comes to seeding rangeland, the two most common methods are broadcast and drill. Broadcasting places seed on the soil surface while drilling puts them into the soil and is superior where a drill can be used. However, broadcast seeding by aerial or ground application is often used because most drills are not sturdy enough for rough rangeland, explains Welch.

Time seeding so that developing seedlings will have the best growing conditions. Warm season plants grow in the summer and will make their best and most vigorous growth if seeded in late winter or early spring. A late summer or fall seeding date for cool season plants may be best because young seedlings may not be able to tolerate hot, dry summers.

To get a newly seeded area established, protect it from grazing through at least one growing season, depending on growing conditions. During periods of harsh growing conditions, two or three years of deferment may be necessary to allow seedlings to establish.

Welch notes that weed control measures such as mowing, shredding or use of herbicides may be necessary during the first growing season to allow seeded species to become established.

If you're interested in getting into farming or ranching, if you're already in the business and want to expand, or if you're thinking about retiring and turning the farm or ranch over to someone else, then there's an upcoming conference designed for you.

The conference is called "Getting In—Growing—Getting Out of Agriculture," and is being sponsored by the Texas Agricultural Extension Service and the Texas Farmer-Stockman magazine. It will be at Texas A&M University Research and Extension Centers in three different cities on three different dates. Sessions are planned for Amarillo, January 20; Dallas, January 21; and Weslaco, January 22.

According to County Extension Agent Jett Major, the conference is intended to help farmers identify non-traditional alternatives for making farm business management easier and to learn more

about turning problems into opportunities.

Major areas of discussion will deal with "Agriculture's Future," "Agricultural Business Planning," "Estate Planning Needs," "Financial Planning Consideration," and "Making Other's Problems Your Opportunity."

Featured speakers will include Dr. John Hopkin, head of Texas A&M's Department of Agricultural Economics; Marvin Sartin, Extension area economist at Lubbock; and Dr. Wayne Hayenga, Extension economist in management at Texas A&M University.

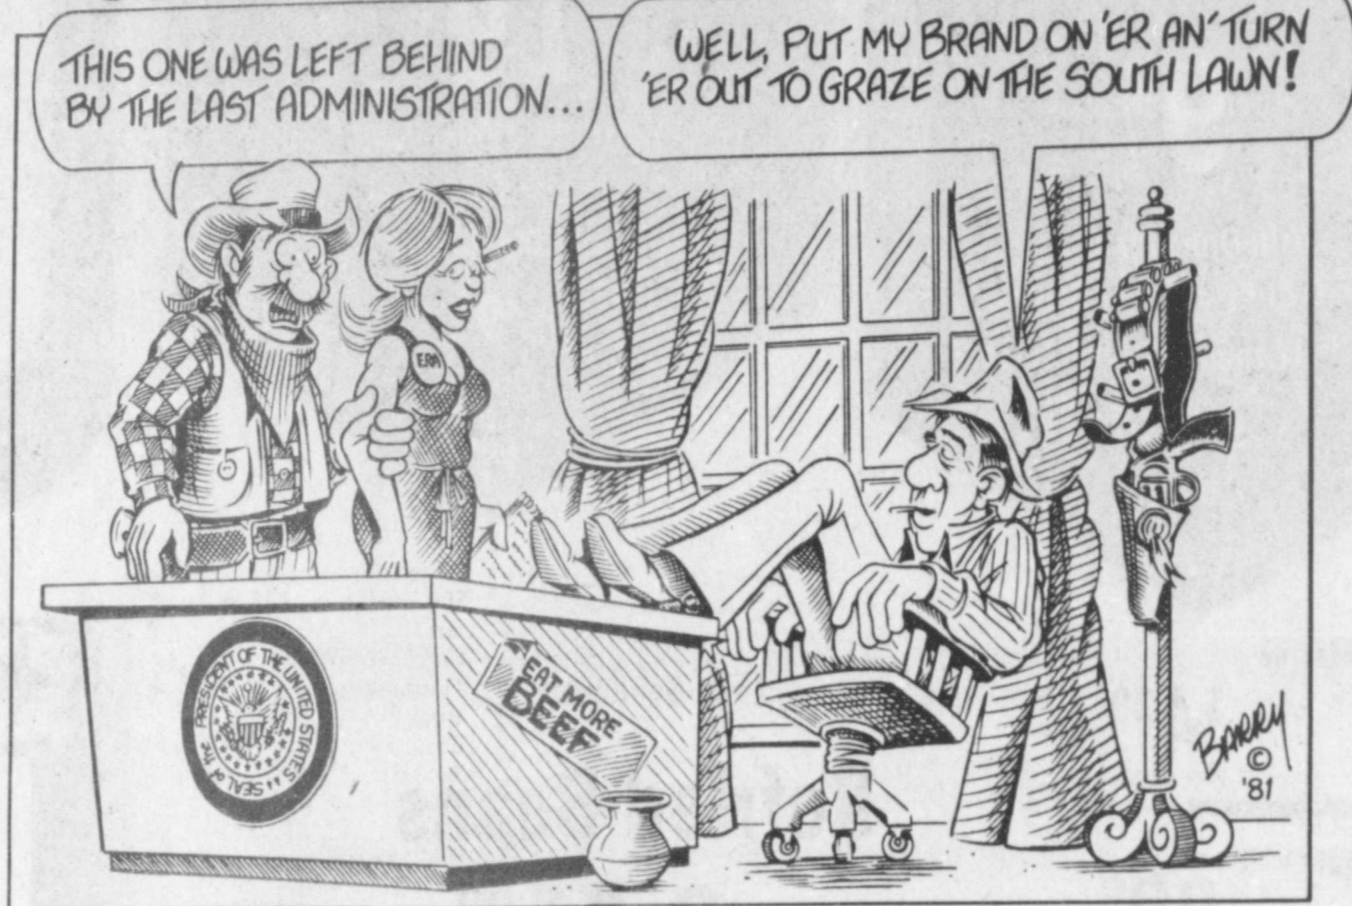

Further information on the conference is available from the county extension office.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socioeconomic level, race, color, sex, religion or natural origin.

Computer workshop for farmers

CORPUS CHRISTI — Farmers and ranchers are into computers just like the rest of the business world, and the Texas Agricultural Extension Service is working to help them make the most of these technical marvels.

That's the purpose of a workshop on "Computers in Agriculture" to be held here January 27-28 at the Holiday Inn—Emerald Beach.

"This workshop is designed to provide agricultural producers, agricultural lenders, commercial fishermen and Extension personnel an introduction to several of the computers available to them," points out Dr. Richard Trimble, Extension economist in management at Texas A&M University.

He notes that computer programs presently available as well as those soon to be available will be discussed. Also, participants will have an opportunity to operate several of the computer programs in "hands-on" sessions.

Discussions the first day will center around electronic decision aids in farm management, programmable calculators, micro-computers and time sharing systems. The second day will be devoted to workshop sessions in these

areas: programmable calculators, micro farm accounting system, time sharing systems, micro-computer decision models, TI 99/4 Micro-Computer software, and APPLE programs in commercial fishing.

Speakers will include Extension Service management and marine economists and a data processing programmer.

Advance registrations are requested by January 23. Registration information is available from Lawrence Lipke, Extension area economist, Rt. 2, Box 589, Corpus Christi, Texas 78410 or call 512/265-9201.
