National nurses week is being observed at Caprock Hospital beginning Sunday, according to Joe Rice, administrator.

"We would really like to brag on our nurses," Rice said, and added that nursing in small towns gives the patient many advantages not found in larger hospitals.

The smaller size of the hospital allows for better and more personal care. The nurses themselves are selected with patient care one of the main qualities looked for.

Because of the small community, nurses are not only co-workers, but friends of each other and of their patients.

"The up-to-date equipment and physical plant attracts a better core of nurses," Rice said.

County Library update Commissioners continue search for librarian

The meeting of the Floyd County commissioners court came to a close Friday morning as the commissioners continued their efforts to solve the county personnel problem met with

Neither applicant met the qualifications set down by the West Texas Library System, of which Floyd county is a member. The appointment of an unqualified librarian could result in the loss of membership in the WTLS and all the benefits that membership entails.

The commissioners voted unanimously to table the question until the next regular session of the court in November. Meanwhile, they will redouble their efforts to recruit qualified applicants for the position through advertising, contacting various agencies in the area who might have information concerning qualified librarians and through pursuit of any other manpower source that may become available.

Basically, the qualifications set forth by the WTLS include 30 hours of study at an academically certified university or college, or a high school diploma or GED equivalent plus six years of library experience within the last ten years, or a high school diploma plus three years library experience within the last five years plus attendance at WTLS-approved library workshops.

"The academic requirement seems to be our biggest stumbling block, but we cannot ignore it and take a chance on losing our membership in WTLS," County Judge Choise Smith stated, and added that "we have probably just interviewed two young ladies that could take hold and handle the job if given the opportunity, but our hands are tied at this point. We will contact the WTLS officials and determine whether or not we can appoint an interim librarian until we can obtain a qualified librarian and we will also explore the possibilities of hiring the best unqualified person we can find and bring them up to qualification on the job. We are not the least bit optimistic about the latter," the judge concluded.

Everyone join in on the Whirlwind spirit contest

We tried to come up with a way the entire town could take part in a spirit rally for the Whirlwinds and have some fun while doing it.

Our idea is to have a city-wide coloring contest and then put the entries on display for everyone to see. Which would, at the same time, turn the town green.

Thanks to Bill Gray our contest drawing can be found on page seven in the B section of this issue.

The rules are very simple. Color the picture. Use crayons, or watercolors, or whatever your imagination comes up with (just remember you're using newspaper).

Be sure to jot in what you think the cartoon character of the Whirlwind is saying. Note he has one finger raised in the air signifying that he's Number 1.

Anyone can enter the contest. Each of the schools are participating. In fact we have run off 1000 copies of just the spirit contest and have distributed them to each of the schools.

The schools will judge their own pictures and prizes will be awarded. The prizes, given by the individual schools, are First place, \$15; Second place, \$10; and Third place, \$5. The winning picture posters will be displayed on the windows of the Hesperian.

All of the other posters (which are winners too as far as we are concerned) will be put up on store and building

extremely generous to us, beginning with the original gift in 1960 of Mr. and Mrs. D.M. Cogdell, Sr. We are most grateful for their help."

The Advisory Board of Directors of the Martha Ann Cogdell Hospital Trust, who authorized the gift, are: Mr. and Mrs. D.M. Cogdell, Jr. of Lockney, Mr. and Mrs. William M. Cogdell of Tulsa, and Mrs. Ernest A. Birdwell of Silverton.

The Martha Ann Cogdell Hospital Trust Fund was created by the will of the late David M. and Johnnie Kate Cogdell, ranchers from Snyder. The

Trust is named for their daughter, Martha Ann, who died at the age of 13. West Texas hospitals, clinics and educational institutions have been the recipients of grants from the Trust.

This contribution brings the total gifts from the Cogdell family to \$675,000. In 1960, Mr. and Mrs. D.M. Cogdell, Sr., gave the first gift to help establish the Radiation Therapy Department at Scott and White. In 1975, the Trust made a \$250,000 grant to Scott and White to fund the installation of a new EMI Brain Scanner and in 1979 a \$100,000 gift for a linear accelerator to be used in cancer therapy treatment.

Time Change

Daylight saving time officially ends next Sunday, October 25. The time change comes at 2 a.m. local time when it automatically becomes 1 a.m.

Most folks find it convenient to set their timepieces back before retiring Saturday night. Many use the phrase "spring forward, fall back" to remember which way to turn their clocks every six months.

Under the 1966 Uniform Time Act, daylight saving time is observed from the last Sunday in April until the last Sunday in October, thus, this Sunday we all gain back the hour of sleep we so reluctantly lost in the spring. Have a good night!

Local writer to publish science fiction short story in January

A local writer will have his first piece of fiction published in January 1982.

Joe Willis, high school speech department, sold a science fiction short story to one of the small press magazines this past month.

The story is entitled, "Elias" and is about a planet of the future.

"I started from the idea, what if a world existed in which everything was equal...exactly equal?" Willis said.

Breaking into the fiction field is one of the most difficult for a writer.

Willis has been writing science fiction for the past three years and estimated that he has 25 stories currently circulating between the S.F. magazines.

The magazine is located in New Jersey and is distributed only on the East Coast.

Willis follows a writing schedule of working one hour each morning before school and on Sundays.

\$500 Crime Call reward offered

A reward of \$500 has been offered by Crime Call for information leading to the arrest of vandals responsible for the recent destruction of county property.

Commissioner Jack Lackey, Precinct

4, reported that the tires on a Ford backhoe loader and the backhoe trailer had been shot full of holes. The report was made on October 13.

Sheriff Fred Cardinal retrieved 14 bullets, 22 cal., out of five tires. The two back tires, the left front, and the two on the right side of the trailer had been shot.

Overstreet ranch about 3 miles off the county road in a pasture. The ranch is located about 6 miles north and 2 miles east of Dougherty.

Damage to the county equipment was estimated at \$1000.

A blue pick-up was seen in the area a few days before the damage was done.

Anyone having any information about the vandalism is asked to call the Crime Call number 983-5200. No one needs to give their name. The call will be kept confidential. The reward money will be left where ever the informant says to leave it. Only questions pertaining to the crime will be asked.

QA&P Depot

Continued from Page 1

"We offered it. We said we'd help any way we could if anyone wanted it," Smith said. He added that the county was in favor of taking the property for the nominal \$10 cost asked by the railroad.

But the deed stated that beside the \$10, the county would have to build a 6 ft. steel, chain-link fence around the entire property line. The length of the boundary lines are: north and south boundaries are 52 ft. each, and the east line is 285 ft.

The Commissioners decided that since they had no use for the building and since the cost of the fence would add pressure to an already overstrained budget they would not accept the donation.

Motion was made to that effect by Sam Spence and seconded by Bob Jarrett. Motion carried.

Judge Smith said that he has no idea what will happen to the depot. "I'd sure hate to see it torn down," he said. "It's a landmark."

January 1, 1982, will be entitled to open such accounts whether or not they are participants in an employer-sponsored pension plan.

These new provisions put a self-sufficient retirement within reach of the average working American. Suppose you are now 35 years old and earn \$24,000 a year for your family of four—the national median income. If you deposit \$1000 into an IRA each year (that's less than \$20 per week), and do so until you are 65, you can deduct the annual deposit from the income you report each year for tax purposes. This provision in itself will reduce your yearly federal income tax burden by about \$220, meaning that of the \$20 per week you deposit, Uncle Sam is "contributing" \$4.23 of that in the form of a lower tax bill.

The long range benefits are even more impressive. If you save \$1,000 a year for 30 years and earn, say eight

percent interest (a conservative figure now and for the foreseeable future), at age 65 you will have a retirement fund totalling \$133,770—all of that generated from just \$30,000 in deposits! If you decided to pay yourself an annuity from your account for a 15 year period, then you would have an income of just over \$300 per week, which combined with Social Security and a company pension, makes from a comfortable, secure retirement.

Turn a small weekly savings into a comfortable retirement income; realize immediate benefits in the form of reduced tax payments; contribute to capital formation which will mean increased productivity and prosperity—these are the opportunities we can seize by opening Individual Retirement Accounts. Any way you look at it, it's a winning proposition for you and our nation.

We are really fortunate to have so many wonderful volunteers. A group of ladies made us some much needed bibs. We thank these ladies for taking time out of their busy schedules to make us these lovely bibs.

Our bingo games are more and more enjoyable as the weeks go by. This is one activity that the Resident truly love. During our monthly Resident Council Meeting, the residents clarified the rules for all the new Residents. In other business, the residents voted to go on another picnic, at the canyons east of Silverton before the weather gets bad. President Sally Carpenter closed the meeting. Our lucky bingo winner this week was Jewell Miller. Mrs. Miller won the blackout on Tuesday and Friday. Congratulations Jewell!!!

There was really a lot of foot stomping Wednesday afternoon. Kim Sherman

came for music therapy and really got us into the foot stomping mood. She really has a special talent!

Our administrator Laverne Christian is doing great after her surgery. We sure miss her and are looking forward to having her back with us soon.

Sherman Brashears, Amelia Aston, and L.A. Jones were able to come back home this week. They were truly missed. Nellie Gray, Pablo Salquero, and Alpha Kitchens are in the hospital. Alpha is in Methodist Hospital in Lubbock. Nellie Gray is in Lockney General Hospital, and Pablo is in Caprock Hospital in Floydada. We hope these special people are back with us real soon.

Don't forget our bake sale next Tuesday, October 27th from 10:00 a.m. to 4:00 p.m. or until sold out. Anyone wishing to place a special order may call me at 652-2502.

Mean Green cruise past Bobcats

BY TOMMY BAXTER
Another one bit the dust Friday night at Wester Field, or depending on how you look at things, the first one bit the dust.

Childress was the latest victim for the Floydada Whirlwinds as the Mean Green cruised past the Bobcats 31-6 for their fifth victory of the season. More important, however, it was the first District 3-AAA game for both squads and the win puts the Winds at the top of the loop race with Tulia and Abernathy.

Childress should have seen it coming.

"I always feel a little uneasy when we drive into a town and everyone smiles at us," joked Childress coach Charlie Johnston before the game. The joke, however, turned out to be a warning of things to come.

The Bobcats never were really in the contest. The Winds, led by Todd Beedy and Bruce Williams, capitalized on six Childress turnovers to roll up 17 first quarter points and wrote the beginning of a blowout to follow.

The Whirlwinds wasted no time in upsetting Childress' offense as Ronnie Minner intercepted a Kevin Moore pass on the Bobcats' third play from scrimmage. The fleet FHS defender grabbed the ball on the Childress 44 and raced to the 'Cat 14.

Four plays later, however, the Childress defense led, by Scott Dean, forced the Winds to give up the ball at its own eight.

On the second play from the Bobcat seven, Childress halfback Donald Sims lost the handle on the ball and Billy Collins grabbed the first of three first quarter CHS fumbles on the visitors' four yardline.

Three plays netted only one yard for FHS and Donnell Weeks came in to put the first points on the board for Floydada with a 21-yard field goal with 4:28 left in the opening quarter.

Following Weeks' kickoff into the end zone, Childress

used just two plays before turning over the ball again with a fumble at its own 21.

This time Floydada wasn't to be denied as on a third and five from the Childress 16, Beedy hit Carlos Rainwater with a 13-yard pass to the CHS three. On the next play Williams knifed through for a touchdown. Weeks booted the extra point and the Winds led 10-0 with 2:06 remaining in the first quarter.

Childress still had trouble hanging onto the ball as Alonzo Jeter bobbled the ensuing kickoff and Jesse Cedillo pounced on it for Floydada on the 'Cat 20.

Williams got the call on the first play and raced 20 yards for another touchdown. Weeks parted the goal posts with another extra point and the stunned Bobcats were down 17-0 with 1:50 still to go in the initial period.

After trading punts in the second quarter, Childress started to get a bit of offense rolling by driving from its own 20 to the 49 behind slashing runs by Jeter and Sims. However, on second and a foot from the midfield stripe, Moore tried to go to the air again. This time Weeks played thief and claimed the ball for FHS.

After the interception return and a penalty along the way, Floydada wound up with the ball on its own 39.

This drive ran into some trouble when Beedy missed connection on a third and nine pass at the Childress 28. Gambling on fourth down paid off on the next play when the senior quarterback hit Weeks with a 13-yard strike for a freest set of downs at the Childress 15.

The Childress defense tried to stave off the determined Winds as the 'Cats dumped Williams for a three yard loss on the next play and it was followed with an incomplete pass to set up a third and 13 from the CHS 18.

Beedy found his range on the next play by nailing Minner in the hands in the end zone. It wasn't all easy,

though, as Minner was about to run out of legal ground in the end zone and had to do a Drew Pearson impression to keep his feet in the field for the touchdown.

With 1:31 left in the half, Weeks booted another PAT and the Winds took a 24-0 margin to the dressing room at half.

Childress came out in the second half with new life and put together its best offensive threat of the night.

The Bobcats drove from their own 26 to the FHS 24 in 17 plays. The drive not only gobbled up 50 yards but most of the third quarter. It also served to cause frustration for the visitors as they came up empty-handed when a fourth and nine play from the FHS 24 netted only one yard.

After the Winds were stalled at their own 49 on the next set of downs, Childress was back in business on its own 27. However, the FHS defense was also back in business and on the third play, Rainwater picked off Moore for the third time of the evening to set up the final FHS score.

Beginning from the Childress 37, Beedy passed and Mark Nutt ran the Winds to the Bobcat 18 in what appeared to be an easy drive to paydirt. From that point, however, a costly penalty pushed FHS back to the 43 with a second and 28.

Beedy solved the problem on the next play with a quarterback draw. The shifty quarterback took two steps back then started through the gracious hole donated by his offensive line. Once in the secondary he slipped through the white jerseys all the way into the end zone for six points with 8:46 left in the game.

Childress finally got on the board on the next series of downs when Moore began to hit white jerseys instead of green ones.

On the fifth play of a 64-yard drive Moore faded back and found Jeter running stride-for-stride with two FHS defenders and laid the ball in his outstretched hands

for 46 yards and six points.

The score came with 6:36 left in the game and was the final one for the evening as the field was flooded with younger players eager to show their stuff while the Whirlwind band began to sound the Childress death knell... "Another One Bites The Dust."

Ghosts and goblins be careful

Ghosts and goblins are not immune to the impact of an automobile, at least not on Halloween night.

The Texas Safety Association urges parents of the Halloween variety of ghosts, goblins, witches, Darth Vaders and Draculas to warn their children that traffic safety rules still apply on this bewitching night.

Trick-or-treaters should cross the street only at intersections and obey traffic signals. Older children should hold hands with younger children and look both ways before crossing the street.

Youngsters should trick-or-treat in their own neighborhood. Parents or adults should accompany very

small children. Once the goodies are brought home parents should check for loosely wrapped candy and for other signs of

possible tampering. The Texas Safety Association says these rules, if followed, will promote safer, happier Hallow-

Electricity. Knowing what it's worth is worth knowing. One thing we've probably all learned is to have an appreciation of things that have worth and to know their value. How would you rate yourself on knowing the value of the electricity you use? Take this simple exercise. 1. How much was your electric bill last month? \$ 2. Divide 30 into your answer to Number 1. This was the approximate cost of your electricity per day. \$ 3. How many people are in your family? 4. Divide Number 3 into Number 2. This was the cost of your electricity per day per family member. \$ Knowing what electricity is worth is worth knowing. Just look around. SPS SOUTHWESTERN PUBLIC SERVICE COMPANY 930.1

ing Christmas things, on Saturday morning October 17, at 10:30 a.m.

Better look again... Ever heard of a "Cabbit"?

DIFFERENT — This kitten, or "Cabbit", is showing off her bushy tail.

From the front, she gives the appearance of being a typical, yellow brindle kitten.

But "typical" she definitely is not. And terming her a "kitten" may be only half correct!

Esther Trevino of Lorenzo calls her pet "Cabbit" or "Rabbit". The reason for the name is evident, because Mrs. Trevino believes her "less than a year old" pet may be half cat and half rabbit.

Or she could be a "throw-back" of some type.

"Cabbit" looks from the front and side — except for her bushy, rabbit type tail — like an ordinary young cat.

MOVES LIKE RABBIT

And yet her movements are much like a rabbit. The timid young animal hops on her back legs.

Her mother is a "regular cat" and other kittens in the litter are "normal kittens". However, in one of the mother cat's other litters, a "cabbit" appeared.

Mrs. Trevino assumes that her pet's father may have well been a rabbit, thus the name "Cabbit".

The Lorenzo woman's pet makes sounds like a cat, further adding to the mystery.

She is extremely shy, having little to do with humans. Mrs. Trevino points out that "Cabbit" just "doesn't like strangers." In

fact, she has not been overly affectionate with her owner since being sent to a daughter's home at Loop while Mrs. Trevino was "spraying my house."

"Cabbit's" favorite person is Mrs. Trevino's son-in-law from Ropes. The small animal climbs on his shoulder or sits in his lap, hungry for affection.

FEW FRIENDS

"Cabbit" gets along "fairly well" with Mrs. Trevino's small dog, although she "sometimes growls" at him. Generally, the cat or cat-rabbit has a genuine fear of dogs and dislikes to go beyond the confines of Mrs. Trevino's apartment in the senior citizens complex in

Lorenzo.

Mrs. Trevino's unique pet was raised by friends of her daughter, who reside between Seagraves and Seminole. Her daughter received the pet as a gift. Her mother, who loves animals, persuaded the daughter that she needed "cabbit". This was "about two months ago".

Although Mrs. Trevino doubts whether her pet will bear offspring because "she just doesn't go outside the house," she is curious about "what her babies would be."

For that matter, no one knows for sure about "cabbit's" ancestry!

WHAT'SIT? — "Cabbit" appears to be a normal cat until one spots her tail.

Best home celebrates birthdays

October party. The "honor" table was laid with an ecru cloth and centered with a floral arrangement in gold and orange. Matching birthday cards marked the places for the honorees.

Mrs. Finley was unable to attend as she is still in Caprock Hospital recovering from an illness. We missed her very much.

Special guests of the honorees were Jean Kendrick with Mrs. McSwain, Sherry Colston with Mrs. Colston, Meral Freeman with her wife Jessie, Luther and Lorene Lancaster of Matador with her father, Mr. Lawrence and Imogene Gray with her mother, Mrs. Roy.

Mrs. Lancaster surprised all of us with a beautifully decorated birthday cake honoring her father's 92nd birthday. It, along with a delicious pound cake and tangy orange punch was served to the honorees, guests, home residents and employees.

The poem was read and all joined in singing the "Happy Birthday" song. Dorothy Neff was certainly missed and everyone surely hopes she will soon be well and able to be on "the go" again.

Thanks so much to Sherry, Jean, Lorene and Imogene, who so graciously helped with the serving and in getting the people in and out of the dining room.

The next party will be Thursday, November 12.

2:30 p.m. Please attend one or close friend being especially if you have a loved honored.

BBB warns of itinerant painters

South Plains residents are cautioned to be on the lookout for itinerant painters who are working in the surrounding area. It has been reported by one consumer that when the rains of the past few days hit, the new paint job washed off.

This is a typical home improvement scheme in action. If you are contacted by someone wanting to do a paint job for you, please check their references and check with us.

Some contractors have been known to change phone signs on the side of trucks in order that people believe that they are a local contractor. Sometimes license plates are also altered. If you have a problem with

such a contractor, please contact your local police, sheriff or our office immediately.

Your BBB has also received an unusual number of calls this past week concerning unknown companies that are offering contracts on cotton. As with any contractual agreement that involves a company which you do not know, we advise that the consumer move carefully. The best thing to do is to consult your attorney or banker. Remember, a company that tries to pressure you into doing something or signing something on the spot may not have your best interest at heart. In short, the BBB motto, "Investigate Before You Invest" applies.

I'LL TAKE THE HIGH ROAD

Electric highways carrying convenience, comfort and commerce to the far reaches of the state are indispensable lifelines to growing communities.

But, the power they carry is generated mostly by diminishing supplies of gas or costly coal and nuclear energy. As wholesale power costs go up conservation is the only sure way to save money on your electric bill.

While the cooperative plans to provide more power, they are urging you to use less.

Pat Walker's staff includes trained professional women counselors who show you how to properly coordinate your favorite foods into an individualized and sensible eating plan which will foster consistent and safe weight reduction.

Women who come to Pat Walker's thinking only of weight loss are always pleasantly surprised to find that we deal in total figure correction. Not only do we trim pounds, we concentrate on taking off inches in your problem areas for we know that mere weight loss alone will not produce a flattering figure. We have found that the Pat Walker program will give any woman the results that she wants, no matter her age, size or how many other programs, diets or gimmicks she has tried.

The most exciting thing about Pat Walker's is that it is based on permanency. By the time we have attained your desired weight loss by working together, you will have learned how to maintain your figure on your own for the rest of your life. That is something that no one will ever be able to take away from you!

When you come in for a free complimentary treatment and figure analysis you will first be given a 30 minute session on the Symmetricon. Afterwards, we will explain the Pat Walker program to you. We will show you where and how much you need to lose, and tell you how long it will take and exactly how much it will cost based on a per session fee of just \$4.00. We do not have contracts or membership fees.

The success of Pat Walker's for all these nearly 30 years is based on just two things. Consistently achieving the results desired by both us and the patron; and, through the introduction of Pat Walker's to women, making them aware that there is a safe, effective alternative to starvation and fad diets, pills and strenuous exercise.

Whether you feel the need to lose a substantial number of pounds and inches or if you just need a little firming and toning, we think Pat Walker's is for you. Interested? Why not invest in a phone call (983-2112) to reserve time for your appointment and your free first step toward a new you? Our hours are 8:00 a.m. - 7:00 p.m. Monday thru Friday and 9:00 a.m. - 1:00 p.m. Saturday.

Thank you for taking the time to read all this. I sincerely hope you have a little better understanding of Pat Walker's and that you'll allow me to explain more on a personal and confidential basis.

Finalists are judged on scholastic achievement-leadership; poise-personality; and appearance. There is no swimsuit competition. Each finalist will present a talent (either visual or performing arts) or at her option an Essay on "What's Right About America" before a special panel of judges.

In 1981, State Pageants were held in participation with 41 Colleges and Univer-

sities. More than \$400,000 in cash, tuition scholarships and awards were paid to participants in State Pageants.

The Texas participant who receives the Texas Citizenship Award which is based on scholastic achievement and leadership will receive a \$4,000 tuition scholarship to Eckerd College in St. Petersburg, Florida; she will then compete regionally for a
