

County gins running 24 hours to keep pace Cotton harvest winds down

BY BILL SAYERS

Cotton harvest throughout Floyd County is "ginning along" at an average pace and is rapidly winding up its closing stages. The exceptional, bright, sunny weather the county has experienced during November and the first part of December has almost continuously harvesting gins have been able to operate every day to keep pace with the amount that has been filling the gin capacity.

Recently, however, this period of weather was preceded by a cold period throughout September and part of October which did irreparable harm to the cotton being harvested. The quantity in most instances is less than that of past harvest years. The ten gin managers and spokesmen contacted in Floyd County are:

received at the gins is probably still in modules in the fields, they state. The ginnermen all seemed to agree that the cotton was arriving at the gins around half and half in trailers and in module form. They also agreed that the module form is a highly welcome innovation and most expressed their hope that the day of the cotton trailer is numbered.

Floydada Coop Gins was far and away the largest of the ten gins contacted. As of 15 December they reported approximately 55% complete with 17,200 bales ginned, with approximately 15,000 to go. Gin manager Ray Ferguson estimates they will need another 40 days to complete this year's run.

This gin survey was made based upon the following basic questions:

1. What percentage of the year's run have you completed?
2. How many bales ginned? How many do you expect to gin?
3. What grades are you getting compared to other years?
4. What is the average turnout?
5. If grades and turnout are low, why are they low?
6. When do you expect to complete your gin run?

Based upon these basic questions, these are the answers given by the ten gins surveyed in Floyd County:

Want to make a trooper cry?

By Roy McNett

(Editor's Note: The following commentary was submitted by Texas D.P.S. Trooper Jack Moore.)

Want to see a state highway trooper cry? Would you like to see him drop to his knees, bury his face in his hands and bawl like a broken-hearted lover — choking and gasping for breath? Or see him double up his fist in frustration and slam it into the side of his patrol car?

It's easy enough to do. And it happens more frequently than most of us might think.

Just load yourself up this holiday season with a few beers or several mixed drinks and drive your family home.

Refuse to listen when your wife suggests that she drive home. Assert yourself. Pay heed to your male ego.

Say, "Aw, hell. Ah can drive that car better with a few beers unner mub belt than you can cold sober."

Then stomp your foot for added emphasis. Twenty minutes later you're standing in darkness at the side of the highway with broken glass and spilled gasoline at your feet.

Your wife is screaming — pinned beneath jagged edges of twisted metal. Your two-year-old daughter is silent. And your six-year-old son is sprawled face down 30 feet away.

The highway trooper smelled the alcohol on your breath as you boozily try to EXPLAIN. And he's not very gentle as he pushes you into the rear seat of the patrol car and tells you to shut your mouth.

Then he pauses for a moment in the darkness before he returns his attention to you and the remains of your car and your family.

CONGRATULATIONS. You've made a trooper cry.

Garrison Street Gang is first in Christmas lighting

BY SUSAN GARMS

Decisions are hard to make when you are given the job of judging the outdoor Christmas lighting contest, but we have come up with the winners.

First place goes to the Garrison Street Gang. Drive down the 900 block of Garrison street and see what the families of Bill Cagle, Mrs. Ted Bell, Glen White, Ray Gene Ferguson, and John Wilson have done to the whole block.

Second place goes to the family of LeRoy Burns at 610 W. Georgia. As you drive by this showplace, slow down, roll down the windows, and listen as they wish you Merry Christmas in music.

Third place, Dale Derrberry, 813 W. Cedar, seems to light up the whole west end of town.

And these are not all! It was almost impossible to make choices this year because all parts of Floydada have decorations.

Honorable mention must be made of the homes of Fred Cardinal, 625 W.

Mississippi and Don Bean, 905 W. Mississippi.

In the Business lighting contest, First place goes to Southwestern Public Service, 220 W. California, where we can all step back in time and wish we were kids again.

Second place goes to the City of Floydada for the lights on the tree of the square they provide each year and the outlining of City Hall at 114 W. Virginia.

Third place goes to Stitchin' Pretty for the handmade decorations in the window at 118 W. California. That took some time!

Instead of going to Lubbock this year to see the lights, drive around Floydada. Up and down every street you will be pleased to see that we have gone all out for Christmas.

Congratulations to each of the winners from the Women's Division of the Floydada Chamber of Commerce. MERRY CHRISTMAS!

Stewart chosen for Municipal Education Board

Jimmie Lou Stewart, City Secretary at Floydada, was recently appointed to serve a two-year term on the Education Board of the Municipal Clerks and Secretaries Certification Program conducted by North Texas State University Center for Community Services.

The Education Board is the policy-making/advisory arm of the Certification Program, the third such program to be established in the nation. Since the Program's inception, more than 4,500 municipal employees from all regions of Texas have participated in various workshops and seminars. Eighty-nine city clerks/secretaries have completed the home study and examination requirements and graduated from the Program. Ms. Stewart completed all requirements for certification and graduated in 1972. She was honored as Texas City Secretary of the year in 1973.

Each year North Texas offers eight seminars on topics of concern to city secretaries and municipal employees generally. Attracting the greatest interest each year is the Municipal Election Law Seminar, held this year on January 28-29, 1982, in San Antonio at the St. Anthony Hotel. This Seminar each year features a session on methods of conducting elections, a topic of particular interest to new city clerks/secretaries. In addition, there is a session on the changes in the law which affect municipalities, a subject which interests experienced as well as new clerks/secretaries. The Election Law Manual by Mary Kate Wall, the only resource of its kind, is published and marketed by the University Center for Community Services.

The Certification Program continues to evolve and develop its curriculum and seminar offerings to stay current with changing municipal issues and concerns. It is in this area that the services of Ms. Stewart are most helpful to the continued professionalism of the city secretaries of Texas.

DISPLAYS HUSBAND AWARD—Mrs. Edd [Artie] Muncy displays the certificate she received in the name of her late husband, Edd Muncy, this week. The award read as follows: The United States of America honors the memory of William E. Muncy. This certificate is awarded by a grateful nation in recognition of devoted and selfless consecration to the service of our country in the Armed Forces of the United States. It was signed Ronald Reagan, President of the United States. Mr. Muncy was an infantry soldier in World War I.

The Rev. Michael O'Connor's Perspectives

The governor of South Dakota sees no reason why a nativity scene should not be placed on the grounds of the state capitol. Nativities are seasonal more than religious, and to some people "they are like Barbie dolls," according to the good governor.

At issue, of course, is the separation of church and state, and ACLU sponsored groups are suing across the nation trying to prevent local and state governments using public property for the display of Nativity scenes.

The original intent of the establishment clause of the Constitution was to prevent the government from declaring any one religion or denomination the official religion of the country. The ACLU seems to think it was meant to give government the right to have absolutely nothing to do with religion.

The real tragedy lies in the South Dakota governor's remarks. That a representation of the Christ's birth should be placed on a level with tinsel,

Santa Claus, "a Hemphill's time of year," and, it is so hard to say it, Barbie dolls, is a barbarity almost beyond description.

Such an attitude says that the act of God in giving himself to the world, is essentially a harmless thing. Whatever else in the world they may be, the birth, life, and death of Jesus were anything but harmless. The Roman Empire spent a good deal of time trying to stamp out the effects wrought by the followers of that child born in the manger. What other person's birth is celebrated in such a worldwide manner?

If the governor is right, the ACLU doesn't have a thing to worry about. But if he is wrong, then perhaps the ACLU is on the right track. After all, we can't let the government be involved in spreading the message that "in the fullness of time, God sent forth his Son, born of a woman". God knows what would happen if that word got out.

BIRTHDAY WISHES FROM THE PRESIDENT—Allen Rendon, who turned December 16, was surprised when he checked his mail and found a letter from President of the United States wishing him a Happy Birthday. The letter "Nancy and I join your family and friends in sending congratulations and celebrate your birthday. We hope today is filled with special joy and that coming year brings you every happiness." It was signed Ronald Reagan. Rendon really doesn't know why he received the greeting.

Social Security News

BY RAY PURCELL

Today's column deals with changes in the tax rate and wage base in 1982. If you receive Social Security or work in employment covered by Social Security this will be of interest to you.

Starting in January the tax rate will be 6.7% for covered persons. Self-employed people will be paying 9.35%. The self-employed person pays a little more because no one matches his contribution; whereas, the employer pays 6.7% for each employee.

The maximum earnings that are subject to social security taxes will increase also. This year the maximum is \$29,700. In 1982 the figure will be \$32,400. This means a worker earning over \$32,400 will pay \$2,170.80 in FICA taxes in 1982. In 1981 a worker who earned the maximum paid \$1,975.05 in Social Security taxes.

Not everyone earns the maximum, so just what does this mean for the average wage earner or one with low earnings? An average worker earning \$13,729 in 1981 paid \$912.98 in Social Security taxes. In 1982, based on an estimated salary of \$15,045, this worker will pay \$1,008.02 in Social Security taxes.

A person with lower earnings of say \$6,968 in 1981 paid taxes of \$463.37. This worker will pay \$511.61 in 1982 if he earns \$7,636.

There have also been changes in the amount a person who receives a social security benefit may earn. If a beneficiary is under 65 years of age, he or she will be able to earn \$4,440.00 before any adjustment. This is an increase of \$360 over the 1981 amount of \$4,080. For a person who is 65 years old or over, the amount will be \$6,000 in 1982 — an increase of \$500 over the 1981 level of \$5,500.

After a person earns the applicable limit, his or her social security benefit is reduced \$1.00 for every \$2.00 over the limit that is earned.

Just what do all these taxes and various limits translate into? Next week we will review the various types of protection all of this buys for the worker and his or her family. In the meantime, if you have a question, feel free to call our toll-free number for assistance — 1-800-392-1603.

Quilt to help local family

A drawing for a quilt, with funds benefitting the Guadalupe Martinez family, is being sponsored by friends of the family. Martinez was in an automobile accident last Sunday morning, as he was returning home from work.

Drawing for this quilt will be on Friday at the meeting room in the Agriculture Building at 3:30 p.m. A door on the south side of the building can be used. The winner will be in the December 24th issue of the Hesperian.

"This will help his family have a Christmas this year. Thank you for your donations and cooperation," stated a friend.

For more information, anyone interested in helping may call 983-5698 or go by 405 W. Grover, Floydada.

Film to be shown at Church of God

A Distant Thunder, a Mark IV Pictures Incorporated production, will be presented by First Assembly of God Church on Thursday, December 31 at 9:30 p.m. at 701 W. Missouri Street, Floydada.

A Distant Thunder, a seventy-eight minute color film, is a sequel to Mark IV Pictures' 1973 release, **A Thief In The Night**. It begins where **A Thief In The Night** ended.

Patty, the leading character in **A Distant Thunder**, is among a large number of people held prisoner because they have not received the Mark of the Beast. Since the day Patty awoke and found Jim, her husband, had disappeared, she has suffered grief, loneliness, hunger and fear because of the Evil One that works for the control of

the world. Patty and her two friends Wenda and Sandy escape the attention of the authorities for a time. Wenda and Sandy attempt to help an elderly man, they are arrested by an armed patrol. The girls succeed in warning Patty that their hiding place has been discovered. Patty makes a daring attempt to outwit the soldiers to seize her. Audiences thoroughly engrossed with her performance.

The film answers many of the questions raised by other recent pictures. Events foretold in the Bible part of the Great Tribulation are portrayed in **A Distant Thunder**. Will remember this film as long as we live...perhaps forever!
Pastor, Jim Jones welcomes the Floydada and surrounding communities

Letter to the Editor

517 W. Grover St.
Floydada, Texas
Dec. 11, 1981

Dear Editor,

If the Floyd County Day Care is to continue and to maintain its policy of making use of donated used supplies and items namely:

Wheeled toys, children's books and records, dolls, housekeeping play toys, play trucks, blocks, etc., games, balls, pull toys, crayolas, color books, paper, pencils, etc., jigsaw puzzles (a favorite with 4&5 yr. olds), used sheets, pillowcases, towels, washcloths, blankets, children's clothing (infant through size 5), and kitchen, bath and bed linens (the sheets and towels are used to make cot sheets and washcloths), canned goods, fresh fruit, staples, canned juices, peanut butter, garden vegetables, frozen meat and poultry, etc.

then, we, the people, of this community need to know what these needs are, so we can respond.

The Day-Care Center is located at Della Plains School.

Staff includes director, Betty Fuller, and at present 7 co-workers. Lee King is in charge of the babies (6 mo. to 2 yrs.) Rm. 1. Mary Ferguson in charge of Toddler Room (2 and 3 yr. olds) Rm. 2. Carrie Davis in charge of pre-school (4 yrs. and up) Rm. 3. After school care of school enrolled children aide kitchen and dining room.

The Day Care is licensed to take care of 51 children, and is operating full capacity with a waiting list. It is dependent on community sponsorship and support for its maintenance and continuance, over and above the reasonable fee charged per child, depending on family income.

The Day-Care Board sponsors a spaghetti supper each year to raise funds for the expensive furnishings or appliances.

This year the money was spent for a new refrigerator for the kitchen.

The one other pressing need at this time is for a new washing machine. The old Maytag is ka-putt and has to be coaxed along and watched through the cycles—it's without a lid. Laundry consists of daily washings of clothing, sheets, blankets, cup-towels, wash cloths, etc.

Donations for this appliance can be made by going by Day Care or mailing to:

Betty Fuller, Director
Floyd County Day Care Center
Floydada, Texas 79235

or calling:

This is a year-round operation - this caring, lovingly for the little ones of this community whose mothers and fathers have to both work to make a living.

I thank Day Care for taking care of some of my grandchildren, and for my having the privilege of helping through donations of money, time, garden vegetables, books, colors, etc. and refreshments for some of the parties.

Have a Merry Christmas — and a Happy New Year.

Sincerely,
Margaret Daniel,

A Day-Care Grandmother

P.S. If you go to Day-Care at Della Plains be sure and use the south side entrance next to the gym. That's the entrance that all of day-care personnel and children and parents use. Go right up the hall and you'll find Betty's name on a classroom door. OK

Double ring ceremony unites Johnson, Burson

On Saturday evening, December 12, Denise Johnson repeated wedding promises with John True Burson in the South Plains Baptist Church.

Parents of the couple are Mr. and Mrs. L.N. Johnson of South Plains and Mr. and Mrs. Don Burson of Silverton. The bride is the granddaughter of the late Mr. and Mrs. Carl Daniel of South Plains and Mr. and the late Mrs. O.A. Johnson of Pampa. The groom is the grandson of Mrs. Iris, and the late True Burson and Mrs. Nannie, and the late Tom Bomar, all of Silverton.

Hollis Shewmake, Baptist minister of Levelland, directed the exchange of double ring vows.

The altar area of the church was decorated with large ivory vases containing dark red roses and ivory broomweed underneath an arch of brass horseshoes centered with the couple's personal brand. Behind this was a double arch candelabra holding sixty-four lighted cranberry tapers. Vases of roses and broomweed flanked either side of the area and were also in planter boxes alongside the musical instruments. Aisle pews were marked with brass horseshoes. Windows of the church held candle arrangements.

At the close of the ceremony, the newlyweds lighted the unity candle which was on the kneeling bench rail.

Mrs. LaRue Garvin of Silverton was organist and accompanied Painala Hull of Lubbock as she sang, "The Rose," "Through the Eyes of Love," "Walk Through This World With Me" and "Color My World" in which she was joined by Deneen Johnson on the flute. Mrs. Hull also sang "The Lord's Prayer" at the close of the ceremony.

The mother of the bride was escorted by her son and wore a grey chiffon gown complimented with a corsage of rubrum lilies. The groom's mother was escorted by her son, Tom Burson and was attired in deep teal blue with an orchid corsage.

Preceding the bride down the aisle were Miss Deneen Johnson, maid of honor and twin sister of the bride; Mrs. Shari Smith, sister of the bride; Mrs. Diane Johnson, sister-in-law of the bride; and Mrs. Debra Burson, sister-in-law of the groom; ring bearers Tanner Jay Johnson and Ryon Lee Smith, both nephews of the bride; and flower girl Catherine West of Lubbock.

Bridal attendants wore cranberry polyester knit floor

length dresses with pleated skirts falling from an empire waist and topped with short, sleeveless jackets of crystal pleated chiffon featuring ruffles at the neck and arms. They carried bouquets of dark red roses, rose hibiscus and ivory broomweed backed with a lace trimmed handkerchief of rose in a small design. The bouquets were made by her sister, Shari Smith. The flower girl wore a long pink chiffon dress and carried an ivory lace basket containing rose petals.

Bryan Burson was his brother's best man and groomsmen, who also served as ushers were Tom Burson, brother of the groom; Carlton Johnson, brother of the bride; and Brad Smith, brother-in-law of the bride. They wore black tuxedos and ivory shirts with dark red rose boutonnières. They entered the sanctuary wearing white Stetson hats, then removed them and hung them on a brass hat tree. The ring bearers were also attired in black with ivory shirts and pink sweetheart rose boutonnières.

Mrs. Ruby Lee Higginbotham of South Plains registered guests and handed out wedding programs.

Presented by her father in marriage, the bride wore an ivory gown made for her by her mother. It featured a long sleeved jacket of heavily pearl-encrusted re-embroidered Alencon lace with a scalloped peplum and double ruffles of crystal pleated nylon at the neck and wrists. The front was closed with tiny covered buttons and was tied at the waist with a satin bow. The skirt of chiffon over polyester ended in a chapel train. She wore a matching picture hat with a bow and floor length veil of point d'esprit illusion. Her bridal bouquet consisted of minuet roses, dark red and pink sweetheart roses and baby's breath. Tied in the ivory

streamers were the wedding bands of both her paternal grandparents.

RECEPTION

The reception featured a complete bar-b-que supper prepared and served by Mrs. Ruby Higginbotham and members of her family. Mr. and Mrs. Warren Cypert and Mrs. and Mrs. Dick Guggenheim, all of Amarillo.

It featured a cake of pink iced in ivory, decorated with miniature cowboy hats, boots and saddles and was encircled at the base with dark red roses. It also held a silver tray filled with white chocolate mints decorated with tiny dark red roses.

Miss Shelley Harris of Silverton served the groom's cake, which was a full size chocolate version of a pair of the groom's boots. A full size pewter hat and silver spurs completed the decorations. The table was laid with an off-white burlap cloth.

Wheat bags, in lieu of rice bags, were passed to the guests by Tanner Johnson and Ryon Smith.

Christmas News! The newest development in farm implements was announced today. Called a breakthrough in total-usage, energy efficient equipment it may possibly be the most important innovation of the century. The implement's energy efficiency comes as the result of its power source. Using absolutely no gasoline, oil, propane or other petroleum product, it also boasts nearly zero maintenance costs, since it has no moving parts and has managed to reduce friction by floating on air, finding it necessary to land, only occasionally on rooftops. Although many agricultural engineers scoffed at the power source - eight tiny reindeer - none in the demonstration audience could argue with the message the operator shouted as he drove out of sight: "Merry Christmas to all - thanks to you, we'll eat well tonight!"

No one understands...like Jesus

No one understands! At least it seems that way sometimes. You have hurts, needs, longings, and no one seems to know or care. How could they? People may be all around you, but they can't look inside to see what you really are, how you feel, or why you do what you do. No one understands? That's not really true. The happy truth is "No one understands like Jesus!" For your sake, He faced life and death and overcame, and He's alive to hear and help you now.

Merry Christmas

Such expenses shall be assessed against the lot or real estate upon which the work was done. Card of Thanks

It is difficult to find enough words of thanks and appreciation to the many people who brought cotton strippers, module builders, pickups and other harvesting equipment to complete the cotton harvest on my farms. A special thank you to the women who prepared and served lunch. I am grateful and appreciate your unselfish and generous deeds. As I convalesce from heart surgery, I hope to get around to thank each of you personally. Mack Fowler

Parsonage to hold open house

BY MRS. MURRAY JULIAN South Plains, Dec. 14:

There will be a Christmas Open House at the Baptist Parsonage Sunday afternoon, December 20, between the hours of 2:30 to 5:30 p.m. with hosts for the Come and Go gathering, the Reverend and Mrs. Cecil Osborne. That evening, beginning at 6:30 p.m. there will be a candlelight service at the South Plains Baptist Church. Please come and enjoy the beautiful service and Christmas carols.

Visitors at the Baptist Church Sunday morning for church services were Mrs. Corda Taylor of Muleshoe, mother of Mrs. Osborne, who is visiting here the past week, and will be here with them until after Christmas. Other visitors were Cindy and Penny Mulder.

Mr. and Mrs. Raymond Upton went to Lubbock Sunday to visit their daughter, Mr. and Mrs. Karl Craig and family, and they spent the night with them.

Mrs. Mamie Wood held her Christmas Open House Saturday afternoon, Dec. 12, and Mrs. Sherri West of Floydada gave a jewelry demonstration during the afternoon at Mrs. Wood's home.

Services for Mrs. Nellie Bolin, 94, of Amarillo, who formerly lived in Plainview were held this Monday, Dec. 14, at 2:00 p.m. in the Wood-Dunning Chapel in Plainview. Burial was in the Lockney Cemetery. Mrs. Bolin had died Friday. Those from here who attended her services were Mr. and Mrs. Sylvan Kinnibrugh. She was the sister-in-law of Mrs. B.F. Harper (Vera) of McAllen.

Mr. and Mrs. Carlton and Diane Johnson, Tanner and Carson, will host a Christmas coffee in their home, Sunday afternoon, December 20, from 4:30 to 6:00 p.m.

Guests here with Mrs. Ruby Higginbotham were her brother, Warren and Beth Cypert of Amarillo who came Thursday and her sister, Mr. and Mrs. Dick and Edith Guggenheim, coming Friday, all from Amarillo, and they visited here until this Monday.

Rehearsal supper for the wedding party of Miss Denise Johnson, and John Burson of Silverton was held after the wedding rehearsal at the South Plains Baptist Church on Friday night, December 11, with hosts Mr. and Mrs. Don Burson of Silverton. The supper was held at K-Bobs in Plainview. All the members of the wedding party were included in the supper.

Christmas Hobby Club Party
The South Plains Hobby Club met for their annual Christmas Club party in the home of Mr. and Mrs. Fred and Carolyn Marble in South Plains on Thursday evening, December 10, at 7:00 p.m. The beautifully decorated home shone with Christmas lights, flowers and a big Christmas tree aglow with twinkling lights. Poinsettias, red candles and decorated

tables were lovely, and a Christmas menu of ham, salads, vegetables, hot rolls, tea and coffee, and for dessert pecan and coconut cream pies were served to guests. After the banquet guests gathered at the Christmas tree where gifts were exchanged. Present for the evening were Fred and Jewel Fortenberry, Letha Mulder, Ruby Higginbotham, Bonnie Julian, Dorothy Cummings, Neta and Keith Marble, Juanita Teeple, Harold and Mildred Hamm, and guests from Amarillo, Mr. and Mrs. Beth and Warren Cypert, were present with hosts, Carolyn and Fred Marble.

We extend our sympathy to Mrs. Morekel in the death of her husband, Harry Morekel, 82, of Lubbock, whose services were held on Thursday, Dec. 10th in Floydada. Morekel had died Wednesday in Lubbock at Methodist Hospital. They formerly lived in Floydada, and are well-known by everyone here.

Mrs. D'Ann Cypert and Lindsey of Finney Switch near Plainview came Wednesday to visit her grandparents, Mr. and Mrs. Frank McClure.

John Cummings will be home with his folks, the Sterling Cummings, for the holidays on Wed. Dec. 16th, his first visit since August. He plays basketball for Henderson County Jr. College in Athens. His team has a 15-0 record in the nation, going into the holidays. They are ranked #3 in the A.P. Jr.

Lockneyites attend open house

Mr. and Mrs. Johns Cox and Mr. and Mrs. Mel Holcomb attended Christmas Open House Saturday night in Hart. The event was hosted by the Cox's daughter and husband, Mr. and Mrs. Keith Brock.

The serving table was laid with a navy cloth edged in white lace. Centering the table was a rust candle in a large globe surrounded with pine greenery. Silver and white milkglass appointments were used to serve an assortment of breads, cookies, finger sandwiches, candy, punch, hot tea and coffee. Presiding at the table were Mrs. Brock's sister, Mrs. Holcomb and her daughter-in-law, Mrs. Larry

College Poll.

Mrs. L. Nichols left here Nov. 24th for Sweetwater and she visited there with her children, Mr. and Mrs. Glen Whitfill, and had Thanksgiving with them and Cindy and Terre Michaels of Dallas. Mrs. Nichols returned to Dallas with her grandchildren, the Michaels, and spent a week there. Later she flew to Sweetwater and from there, she returned home to South Plains in her car on Tuesday a week ago.

Several from our community went to Floydada Sunday to have dinner at the Floydada High School and later attended the Christmas Band concert which was held at 2:00 p.m. at Floydada High School.

Mr. and Mrs. Kim, Monica and baby Zach Cummings will be arriving at his parents, the Sterling Cummings on Christmas eve. It will be little Zach's first Texas visit and his first visit with relatives here, the Cummings family.

Kevin Whitsil from McKinney was here in the South Plains area hunting pheasants Saturday and Monday with his cousins, Kendall and Sterling Cummings. Kevin and his cousin Bus Whitsil had dinner with the Sterling Cummings Monday.

The wedding of Miss Denise Johnson and John Burson took place at the South Plains Baptist Church Saturday evening, December 12, at 6:30 p.m. with the Rev. Hollis Shewmake reading the wedding vows. The church was

decorated beautifully with western motif and friends and relatives filled the church. After the reception at the church guests went to the gymnasium where a western wedding barbecue was held. It was a joyous event for everyone attending.

Mr. and Mrs. Warren Cypert, Mr. and Mrs. Dick Guggenheim of Amarillo and Mrs. Ruby Higginbotham cooked the bar-b-cue supper that was served for those who attended the wedding Saturday night of Denise Johnson and John Burson. After the sumptuous meal, wedding cakes were served to all, and the newly wedded Mr. and Mrs. Burson left amid showers of rice and good wishes for a long and happy life together.

BY RAY PURCELL
"Look at this medicare claim! They didn't even pay half of what my doctor charged me!"

How often we hear this comment when people with medicare receive the explanation of medicare benefits. Medicare Part B does not always pay the amount charged by the doctor. Rather, the "approved charge" is the amount used by the insurance carrier to compute the actual payment. In other words, medicare pays 80% of the "approved charge" rather than the "actual charge."

How is the approved amount determined? It is the lowest of the actual charge, the customary charge, or the prevailing charge.

Actual charge is self-explanatory. It is the amount charged by the physician for a given service.

The customary charge is the usual fee each doctor charges for a specific service. For example, if Dr. Smith charges \$15 for a specific treatment 80 times during a year and \$12 for the same treatment once, his customary charge is \$15. In the event Dr. Smith charged several different prices throughout the year, the median charge would be determined to be his customary charge.

The prevailing charge is determined by comparing the amounts charged by all physicians in a given area. The charge that is just above 75% of the various charges for a given service is determined to be the prevailing charge. Once each of these amounts is figured, the insurance carrier determines the lowest to be the approved amount.

One final note, the information on each charge is collected in the calendar year

preceding the "fee screen year." For example, the approved charges used by Medicare during the period 7/80 through 6/81 (the fee screen year) were based on information collected from 1/1/79 through 12/31/79.

Perhaps this brief discussion of the manner in which Medicare determines approved charges has helped to explain the process. However, if you do not agree with the approved charge or need further explanation, contact the local social security office at Plainview or use the toll-free number 1-800-392-1603.

Mecical Assn. warn about earaches and winter

As winter approaches with its cold air and drafts, the susceptibility to earaches naturally increases, says the Texas Medical Association.

There are various ways in which an earache can develop, but the most common causes are:

An infection of the middle ear—the middle ear becomes inflamed, pus accumulates and the ear drum bulges, causing pain.

An inflammation in the ear canal—better known as "swimmer's ear"—occurs when water accumulates in the ear, flushing out the protective layer of wax. This leaves a dark warm place for bacteria to grow, and if an infection takes hold, the tissues in the ear swell, resulting in an intense earache.

Wax impactions or foreign bodies—if wax in the ear becomes hard and presses against the ear drum, a particularly irritating ache can occur.

It is easy to recognize an earache because the pain is so intense, but other symptoms such as bleeding, inflammation, swelling, or drainage from the ear indicate that the ear is infected.

In the absence of any

drainage, an individual can usually alleviate a simple earache by placing several drops of warm mineral oil in the ear, inserting a cotton ball and lying down, with the ear pressed on a heating pad.

But if there is any drainage whatsoever, nothing should be placed in the ear

until a physician can be consulted. If the ear happens to be infected, as drainage often implies, an untrained individual can easily aggravate the condition and cause the infection to spread beyond the middle ear to the brain, ultimately resulting in a hearing loss.

VA News

The Veterans Administration is reminding veterans and their dependents that they shouldn't let a lost document prevent them from applying for VA benefits.

Officials in VA's nationwide regional offices often report that some veterans who can't locate a birth or marriage certificate do not apply for benefits because they think these documents are essential.

VA will accept certified statements from applicants in instances where documents needed to establish eligibility for benefits are lost.

In the case of a marriage, this policy applies only to the first marriage for each

partner, and there must be no contradictory information on file with the agency.

In years past, VA has required formal documentation to support claims for compensation and education benefits for veterans, widows and orphaned children.

More recently, however, the agency has accepted a certified statement regarding the birth of a child or as proof of age and relationship in disability cases.

Veterans or dependents with questions about eligibility for benefits are urged to contact the nearest VA regional office, veterans county service office, or a representative of one of the national veterans organizations.

What's an average day worth?

On an average day you probably get out of bed, adjust the thermostat, make a pot of coffee, cook breakfast . . . perhaps use the dishwasher.

Later, maybe you do a load of laundry and listen to the radio. Then you cook dinner and put the leftovers in the refrigerator. You may turn on the television or settle down in your favorite chair next to a lamp to read.

For all of you, all of this and more adds up to one day . . . just 1/30th of your average monthly electric bill.

Knowing what electricity is worth is worth knowing.

Farming Has Undergone Transformation To Sophisticated Business Enterprise

This article was printed from the Sunday morning edition of the Lubbock Avalanche-Journal.

WHAT IS DESCRIBED AS THE FIRST comprehensive, scientific study of the contemporary American cotton producer has been released by Cotton Inc.

The study documents the transformation of farming into a progressive, sophisticated business enterprise and describes the impact this has had on life and work patterns of today's farmers.

Nearly a third of those surveyed consider themselves primarily businessmen or managers rather than farmers.

The success of the agricultural community in the face of difficult economic times and accelerated change is mirrored in the 600 percent increase in productivity among cotton farm workers since 1967, and in the high level of job satisfaction expressed by the farming population.

The report finds farmers today particularly innovative and growth-oriented.

In the past decade, 48 percent of those surveyed increased the acreage they own, 51 percent increased the acreage they rent, and 58 percent increased their investment in farm machinery.

A NUMBER OF THE STUDY observations have been isolated previously by social scientists and journalists, the Cotton Inc. report says.

But it adds that this survey, conducted by the New York City firm of Research and Forecasts, Inc., is described as the first to scientifically explore who the people on America's farms are, what they are doing in business, and how they differ from the rest of the nation.

"These findings are critical to predicting future trends in the American agricultural community," says Dr. John Crothers Pollock, president of the survey firm.

While the ranks of farmers continue to dwindle, the fruits of agriculture remain a mainstay in the economy and "a massive positive influence towards reducing U.S. balance of payments deficits," the study points out.

To manage their finances and survive in a one-world marketplace, farmers have had to become what Pollock terms "aggressive in-

formation activists rather than passive information receivers."

THIS IS REFLECTED IN THEIR increased willingness to use outside consultants. In the crucial area of pest control, for example, one-half of the cotton farmers use private consultants to help monitor their fields, up from one-third 10 years ago.

And in what perhaps is only the beginning of a trend, the survey results reveal that 12 percent of the respondents use a personal computer to assist them in managing their farms, or are considering buying one.

The willingness of modern-day farmers to aggressively seek out and apply the most up-to-date scientific technology as well as to rely on the expertise of outside specialists "suggests a notable contrast with the adamantly independent, individualistic attitude" traditionally held by farmers before the age of highly demanding agribusiness farming, the study says.

Even with their improved professionalism and resourcefulness, an overwhelming 91 percent of those polled believe "a farmer faces more risks than people in other occupations."

And indeed, beyond the perennial problems of uncertain weather and drought, there is the growing pressure from the high cost of money.

WITH ONLY A SLIM PROFIT margin to rely on, farmers must borrow heavily to expand production. For most, this means incurring continuous substantial debt.

The struggle for increased efficiency and higher yields to counter soaring costs has led to many casualties. In 1959, there were more than a half-million cotton farm owners; 10 years later, there were roughly 200,000; in 1981, there are approximately 50,000.

Though their profession is less secure than most, farmers are significantly more likely than the public to agree that America offers an opportunity for financial security to all those who are willing to work hard (93 percent against 78 percent).

Much of the stability of the farm community is attributed to "a firm foundation of commonly held values" or "farm ethic" which sets farmers clearly apart from Americans as

a whole. A key element of the farm ethic is an unusually strong commitment to traditional family values. A majority of cotton farmers (65 percent) say they would try to reconcile marital problems "at all cost" rather than seek divorce, compared with a minority (44 percent) of the general public.

AND WHILE 90 PERCENT OF cotton farmers believe it is "very important" to do things as a family group, only 74 percent of the public believe this.

The survey also finds little validity in the "prevalent notion . . . that the family unit on the farm is threatened with extinction by the rapid encroachment of . . . huge agribusiness concerns."

Only 9 percent of the farms surveyed are corporations, of which 8 percent are family-held. The report observes that the farms which have incorporated "have remained truly family businesses."

Sixty-five percent of the "corporate" farmers report that their children work on the farm with them, compared with 55 percent of those classified as "family farmers."

The Cotton Inc. report points to the "fervent optimism" among respondents that farming will remain the focus of their family tradition. Nearly nine of 10 farmers say their children will inherit their farms, and only 3 percent say they will sell them.

THE STUDY ALSO DISCOVERS that the younger, more educated farmers are the most likely to say they would encourage their children to remain in farming.

While the young and more highly educated once migrated from the farm, the report reveals that today they are returning to it, bringing with them "a new sense of optimism."

The farmer of tomorrow, the report concludes, will be "operating in a milieu of more complex roles — manager, marketing specialist, scientist and engineer" and will be "a highly sophisticated businessman."

But, the report adds, he will not be a corporation man but a "highly successful family farmer."

COMPUTER KNOWHOW — The information explosion and astonishing growth in the scope and complexity of agricultural undertakings have caused today's farmers to turn to an extensive array of services and equipment, including personal computers, according to a case study of cotton producers by Cotton Inc. Improve area's playa game habitat for possible economic returns

A Texas social event isn't necessarily a ballroom gathering or a \$500 a plate dinner.

To many persons the second Saturday in December, the opening of pheasant hunting season, is the "creme de la

creme." Dr. Fred S. Guthery, range and wildlife professor at Texas Tech Univer-

sity, said at that time the population of many rural Texas Panhandle towns increases dramatically as persons from

throughout the state flock there for some serious hunting.

The fact that the area's playa lakes attract pheasants and consequently hunters may be an incentive for some farmers and ranchers to improve upland game habitat for possible economic returns.

Guthery and his students have developed a simple means by which the pheasant population can be increased, if desired, by landowners.

He said a playa approximately 25 acres in size should be designated a pheasant refuge and be neither farmed nor grazed. The natural vegetation there will provide excellent nesting and wintering habitat for the fowl.

Wheat and seed corn should be grown in fields of approximately 100 acres adjacent to the playa lakes. Waste grains from the corn crop provide winter food for the pheasant while wheat serves as a source of nesting coverage and food in mid-June.

With this simple prescription, Guthery said a landowner can expect 100 to 150 pheasants on the playa come hunting season with 40 to 60 cocks harvested annually from this population.

Farmers and ranchers interested in improving upland game populations must weigh costs involved in implementing this researched strategy.

Guthery figures the grazing loss of the playa acreage, market prices of seed corn and wheat over more profitable crops and lost efficiency in farming, due to smaller fields, are probably expenses.

Costs could be offset, however, by selling day or season hunting leases. This practice is common in all areas of Texas except the High and Rolling Plains.

Rick W. Whiteside, an agricultural doctoral student, is studying the pheasant response to land use in the Texas counties of Castro and Deaf Smith. Results of his work will aid farmers in determining the economic feasibility of pheasant management on their lands.

"What we want to find out is how landowners can maximize pheasant production at minimum costs," Whiteside said.

The price farmers and ranchers are getting for pheasant leases vary, he noted. "Generally it's anywhere between \$50 to \$100 per gun for either a day or season."

The U.S. Forest Service, Southern Great Plains Wildlife Research Labora-

tory, and the Caesar Kleberg Foundation for Wildlife Conservation have financed the pheasant research.

Deficiency payments likely on '81 cotton

Cotton farmers will likely collect 5 to 7 cents a pound from the government for their crop this year. The money will be in the form of deficiency payments—the difference between the target price set by the government and the actual market price.

If payments are necessary due to poor market prices, they will be the first since the target price program was established in 1974.

"The 1981 target price for cotton is 70.87 cents a pound," explains Dr. Carl Anderson, economist in cotton marketing with the Texas Agricultural Extension Service, Texas A&M University System. "The average price received by farmers in July (70.20 cents) just missed this level. Since then, the cotton market

fell to 65 cents a pound in August and in October was running about 60 cents. At this level the deficiency payment would be 5 to 7 cents."

And this is a likely probability since plentiful cotton supplies, high interest rates and a weak demand will tend to keep market prices down the remainder of this year, contends Anderson. Although cool, wet conditions may reduce the Texas crop some from the 5.8 million bale October estimate, there is plenty of cotton to go around.

Deficiency payments will be based on the difference between the weighted monthly average price received by farmers in 1981 and the target price of 70.87 cents, explains the economist. Monthly prices received are weighted by the proportion of the crop sold that

month. Normally about half the crop is sold during the last three months of the year, so low prices at that time will greatly influence the 1981 average farm price.

"All farmers get the same payment regardless of the price they received for their cotton," says Anderson. "Payments are based on the farm program acreage and yield established on each farm."

Deficiency payments are limited to a combined total of \$50,000 per person under the Upland cotton, wheat and feed grain programs in 1981. Farmers must be in full compliance with government programs involving other crops to receive payments under the cotton program, adds the economist.

Wheat, barley producers to receive payments

Eligible wheat farmers soon will receive an estimated \$420 million in deficiency payments on their 1981 crop, while barley farmers will get about \$50 million, according to Everett Rank, administrator of the U.S. Department of Agriculture's Agricultural Stabilization and Conservation Service.

Deficiency payments are required under the 1981 wheat and barley programs because average market prices received by farmers during the first five months (June through October) of

the marketing year were below established target price levels of \$3.81 for wheat and \$2.60 for barley.

National weighted average market prices were \$3.66 per bushel for wheat and \$2.49 per bushel for barley. Thus, eligible producers will be paid 15 cents per bushel for their 1981 crop wheat and 11 cents per bushel for this year's barley.

The 1981 wheat crop totaled about 2.75 billion bushels, while the 1981 bar-

ley crop was about 476 million bushels. USDA estimates place the average farm price for these crops this year at \$3.80 to \$3.95 per bushel for wheat and \$2.45 to \$2.60 for barley. If these estimates prove correct, the value of the 1981 wheat crop would be between \$10.44 and \$10.85 billion, while the barley crop would be worth between \$1.17 and \$1.24 billion.

Deficiency payments will be made to wheat and barley farmers who reported their 1981-crop acreage and filed an application for payment with their local ASCS office. Rank said the payment checks will be issued through local ASCS offices as soon as possible after December 10.

The final 1981 national program acreage for barley has been increased from 9.7 to 10.2 million acres and the national program acreage for wheat has been increased from 71.0 to 84.5 million acres. The national program acreage represents the number of acres of a crop needed to meet estimated demand and assure desirable carryover levels, Rank said.

He said a primary factor for increasing the national program acreages for the two commodities was higher-than-expected U.S. exports of barley and wheat this marketing year.

The allocation factor for both wheat and barley is 100 percent. The allocation factor is computed by dividing the national program acreage for a crop by the harvested acreage.

If 1981-crop deficiency payments for sorghum are required, they will be made next April, Rank said. If payments are necessary for rice and cotton, they will be made next February.

Annual Crop Production and Utilization Symposium to be held

The Annual Crop Production and Utilization Symposium will be held on February 18, 1982, at the Texas A&M Research and Extension Center at Amarillo. The facility is located at 6500 Amarillo Boulevard West. According to Dr. G.B. Thompson, Texas Agricultural Experiment Station Research Director at the Center, the symposium will start at 9:30 and continue until mid-afternoon.

"Managing Farm Resources" is the theme of the symposium, Dr. Thompson said. "The program is designed to help farmers manage their assets in the most efficient manner during the 1980's."

will be covered in the morning. Mr. J.B. Wheeler, President of the Hale County State Bank, keynote speaker, will discuss "How Bad is the Farm Crisis." Managing cash flow and farm budgets will be covered by Drs. Ray Sammons, and Wyatt Harman, Agricultural Economists at the A&M Center.

Afternoon sessions will deal with natural gas prices, center pivot irrigation, water conservation, cropping systems and limited tillage.

The event is sponsored by the USDA Conservation and Production Research Laboratory at Bushland, Texas Agricultural Experiment Station, Texas Agricultural Extension Service and Panhandle Economic Program.

William Booth founded The Salvation Army

The Salvation Army is well-known for its charitable work at Christmas. Providing toys for children who would otherwise receive none, serving hot Christmas meals to families who cannot afford them, singing to shut-ins in retirement homes—these are just a few of the ways The Salvation Army tries to spread a little happiness at Christmas. But how did it all begin?

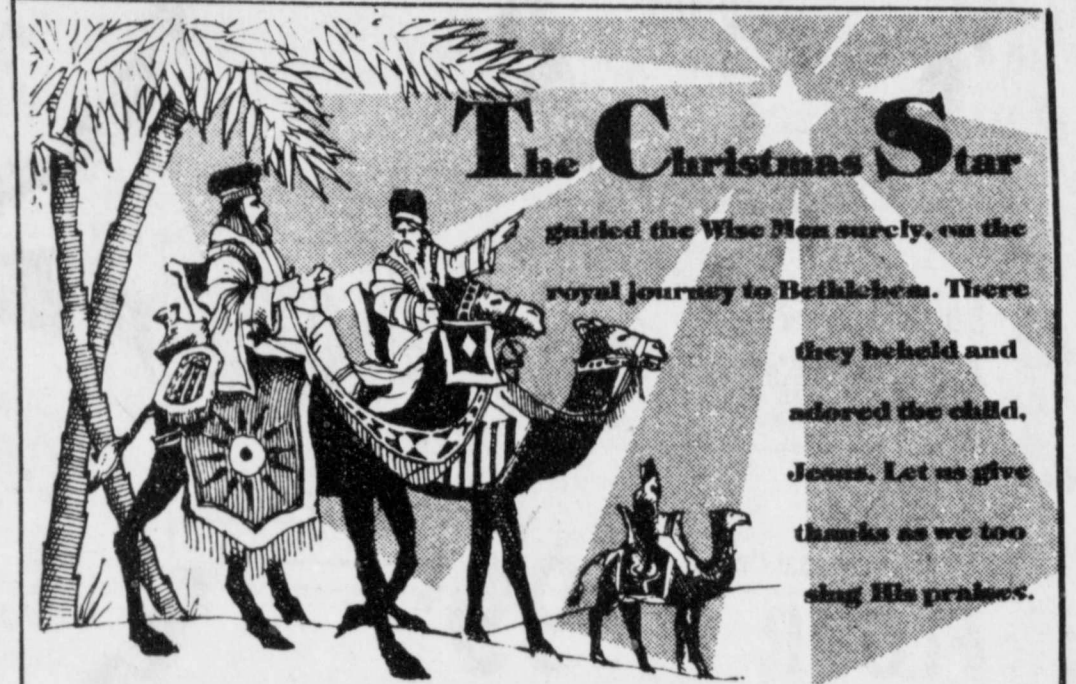

It was on Christmas Day, 1868. A minister preached his Christmas sermon, then walked home through the dismal drunken squalor of London's slums. When he reached home, his household was beaming with the festive spirit of the season. But he could not enjoy it himself. After a long time spent pondering this strange ab-

sence of joy, he finally boomed out: "I'll never spend another Christmas Day like this again! The poor have nothing but the public house, nothing but the public house!"

He and his family never spent another Christmas Day at home. The very next year his wife and a friend cooked—and he and his son delivered—300 Christmas dinners for the poor.

That was just the beginning. Today, his successors serve millions of people around the world with a variety of social services, not just at Christmas but throughout the year.

The man who walked through those London slums on Christmas Day in 1868 was named William Booth—the father of The Salvation Army.

"Love and Kisses" opens in Amarillo

Dorothy McDonald and Archie Dwyer star in the Country Squire Dinner Theatre production of **Love and Kisses** that opened the first of December at the Amarillo theater.

McDonald and Dwyer portray Carol and Jeff Pringle, average parents with a suburban home and two children. Son Buzzy is a high school senior planning to spend the summer working for his father before going to the university. Daughter Elizabeth is getting married, and her elaborate wedding plans rival those of Prince Charles and Lady Diana.

In the middle of Elizabeth's wedding preparations, Buzzy comes home and announces that he married his girlfriend during their lunch hour.

The ensuing confusion is the basis of this comedic tribute to matrimony. Jeff and Carol try to offer advice and support to both their children and the results are often hilarious.

McDonald comes to the Country Squire following an eight week engagement at the Harlequin Dinner Playhouse in Santa Ana where

she co-starred in **The Marriage-Go-Round** with Steve Meyer.

She has appeared in several Country Squire productions including **The Rainmaker** and **Not Now, Darling**. Ms. McDonald now lives in Los Angeles, but said she enjoys returning to her native state of Texas.

Dwyer calls Amarillo home and he also has appeared in other Country Squire productions. His most recent performance was in **Janus** with Virginia Mayo.

Other cast members for **Love and Kisses** include John Glenn, Maura Soden, Sheridan Wright, Stephen Berrier, Robin Goodhue and Jerry Brewer.

Love and Kisses plays each Tuesday through Saturday at the Country Squire. Curtain is at 8 p.m. following a buffet meal that begins at 6 p.m.

Special Sunday hours are 4 p.m. for the buffet and 6 p.m. curtain time.

The Country Squire Dinner Theatre, now under new ownership is located at Interstate 40 and Grand in Amarillo. Call 372-4441 for reservations.

MRS. VIVIAN ROBERSON is seen here selling her ceramics at the Arts and Crafts Show held December 5.

Paul Taylor Dance Co. to preform at Tech

The Paul Taylor Dance Company, which marks its 27th anniversary this season, will perform January 28 in the Texas Tech University Center Theater.

In its long career in modern dance, the company has performed in more than 200 U.S. cities and has completed 24 overseas tours.

Paul Taylor began his dance career in New York City where he studied with Martha Graham and Anthony Tudor. From 1955 to 1962 Taylor was a soloist with the Martha Graham

Dance Company. Taylor has been awarded two Guggenheim Fellowships for Choreography and recently received the Dance Magazine Award for 1980. He has choreographed more than 80 dances for his company.

The New York Times has called the Paul Taylor Dance Company, "one of the most exciting, innovative and delightful dance companies in the entire world."

The January 28 performance is at 8:15 p.m. For ticket information call (806) 742-3610.

Planetarium to show "Star Of Wonder"

"STAR OF WONDER," the planetarium show at the Don Harrington Discovery Center, is both a miracle and a mystery. This traditional program, showing for the first time in Amarillo, uses the planetarium instrument to take visitors back in time to view the sky at that magical moment, discusses several possible explanations for the "STAR OF WONDER" and retells the traditional Bible story of the Baby's birth.

"Star" is designed for the entire family. Music of Christmas past and present, a magical Christmas tree, Santa and his famous reindeer all combine for a memorable experience.

How did the night sky appear to the three wise men nearly two thousand years ago? What was that fortu-

ous "star of the east"? Could a comet explain the wondrous heavenly sight? Is it possible this phenomena can't be explained by astronomical accounts? Was it indeed a miracle?

Each visitor will draw his own conclusion based on personal beliefs. The important facts that can't be altered are that Jesus was born, that He dwelt on earth for a time and that His teachings have altered the history of the world.

"Star" starts the first weekend after Thanksgiving and runs until Christmas. Programs are scheduled on Saturdays at 2:00, 3:00, and 8:00 p.m. and on Sundays at 2:00, 3:00, and 4:00 p.m. Admission prices are \$1.50 for adults, \$1.00 for students and senior citizens.

Floydada Nursing Home Happenings

BY LYNN DANIEL

Joy to the world and peace on earth.

We had both this week. Monday was full of joy as we decked our halls and trimmed the tree. A beautiful plant was given to the residents by Margaret and Tom Fowler and the Methodist Church. Later several of the residents enjoyed painting

ceramics. Tuesday is our Bible study day. We felt "Peace on earth" as the residents expressed their opinions and discussed the lesson for this week.

Wednesday we went to Petersburg, enjoyed the country drive and took a side trip to visit horses belonging

to the family of Nora McKnight.

Thursday, carols rang down the halls as Cub Scout Troops 1 and 2 brought treats and cheer to the residents, who would like to say a very special thank you with lots of love.

We also enjoyed our bingo party, with yummy prizes presented to Emmitt Lawrence, Clara Williamson and Nora McKnight.

Friday was peaceful, with a good movie and popcorn.

We are looking forward to our Christmas party on the 22nd with great anticipation. As always we thank each one who gave of their hearts to our home. Merry Christmas.

Visitors included: Helen Solomon, Elizabeth Armstrong, Marion Bailey, Bruce William, Beulah Denison, Deeota Odam, Merlene Breeding, Sonney and Arlene Holmes, Dorothy and Mac Ledbetter, Tom, Tim, Joe and Billy Collins, Dana and Jolee Ellis, Jewell Price, Estelle Hinkle, Earl Edwards, Burmah Probasco, Lucille Loffan, Pauline Pierce, Mrs. Grady Dunavant, Gene Baird.

Francell Young, Lois Jones, Debra, Jason, and Justin Bailey, Willie Jackson, Donald Ray Harris, Analee Brown, Nealey and Zetna Richardson, Worth Gwen Howard, Rebecca Burns, Fihel Sawyer, Willie Merle Sandefur, Corene and Murry Stewart, Evelyn and Jack Crull, Melanie A. Ross, Kirk McIntosh, Jackson and Daniel McIntosh, and Charles Berry.

Cedar Hill News

BY GRACE LEMONS

We had a very foggy day Saturday and .2 of rain. The weather is much colder. We still have some cotton in the fields and most of the wheat is up and looking pretty.

The Assembly of God Church is sponsoring a Christmas supper in the fellowship hall Friday evening, December 18. The invitation is extended to the community. Bring a gift for a man if you are a man and a gift for a woman if you are a woman and the gifts will be exchanged. A Mexican supper is planned for the evening.

Rev. Vance Mitchell and daughter Sandra attended the piano recital at the Methodist Church Saturday evening. Sandra participated in the program.

Rev. Mitchell and Sandra attended the band concert at Floydada High School Sunday afternoon. Sandra participated in the program.

Rev. and Mrs. Harry Wampler of Cone will be special guests at the Assembly of God Church Sunday morning and Bro. Wampler will bring the message.

Janette Lackey accompanied Edna Gilly to Lubbock Monday where they did some Christmas shopping.

Grace Lemons and grandson Vance visited Norma Welch Thursday.

We are so sorry to hear of the mishap Sid Brown had when he fell breaking a shoulder and a hip Friday morning. He underwent surgery in the Caprock Hospital Saturday morning and is doing as well as could be expected. His children came to be with him. He is still in the intensive care.

We are still having some residents confined to their homes with illness. Mrs. Vance Mitchell and her daughter Virginia are both suffering with the flu.

We judge ourselves by what we feel capable of doing, while others judge us by what we have already done.
