Jr. High dance planned as benefit

The Student Council of Floydada Jr. High School has found a way of having an evening of entertainment for the support of a worthy cause and all with a valentine.

The dance sponsored by the council will be on Friday night for Jr. High students. The proceeds from the concessions and from a carnation sale will be donated to the Annie Taylor Scholarship Fund.

The valentine dance will be free to all students. A seventh and an eighth grade Sweetheart will be raffled at the dance. The student will be chosen from two from each grade. The trivet formed of entwining ribbons will also be raffled off at the dance. A one-dollar donation allows the student to place their name in a jar for the drawing. The trivet was hand drawn by Al Galloway. Proceeds from the dance will also be given to the Annie Taylor Scholarship Fund.

The carnations being ordered now are \$2.25 each.

The dance, held in the Jr. High Gymnasium, is from 7 to 9 p.m.

Growing in momentum

The scholarship fund drive is growing in momentum, and the committee goal is to have the first scholarship presented to a graduating student this year.

The fund is named after Annie Taylor, who has devoted her life to teaching. The scholarship is set up so that each year a young person who is economically unable to attend college may do so. Any deserving student may qualify.

The fund, started just before Christmas, is now over \$700. Donations not previously reported are: the 1934 Study Club gave a \$100 check. Two memorials have been received: one by Bob and Frances Hambright in the name of Weldon McClure, and another by Elaine Hardy in the name of Jessie

Reeves. Personal contributions have been received from: Vaughn Murff; Gwen Cogdell; Ian Moore; J.E. Evans, Houston; and Parnell and Frances Powell.

The fund has been set up at the First National Bank. Those wishing to donate through the Jr. High Valentine Dance may do so by calling the school. Others may pledge their support directly at the bank.

A January article in the Plainview Herald featured Annie Taylor as a pioneer in integration since she was the first black student admitted to Wayland Baptist University 30 years ago.

Mrs. Taylor was also interviewed by Lubbock KAMC-TV, Channel 28, last week to be aired soon. It is expected that there will be people in Lubbock interested in taking part in the project since her son, Charles, is principal of Posey School in that city.

Smitherman to run

"Ernest" Smitherman has announced his candidacy for the office of Justice of the Peace Precinct #1-4 of Floyd County.

Smitherman, a citizen of Floyd County since 1917, farmed in the South until 1962 when he moved to Floydada after buying the local business for 12 years and is currently semi-retired. Smitherman and his wife Ruth are members of the First Baptist Church.

"I would like to take this opportunity to encourage everyone to get out and vote," Smitherman said. "It would indeed be a pleasure serving my fellow citizens of Precincts 1 and 4 as your Justice of the Peace. I pledge myself to exercise fairness and good judgement, and would appreciate your vote and encouragement."

Smitherman will be running against incumbent Walter Hollums in the May primaries.

Open letter to Floyd County farmers

BY SHELLY HARRIS

When the idea for a farm story on using multiple tools to save trips across the ground in preparation for planting came in last week I was delighted.

I went out Tuesday afternoon and took pictures of Lyle Miller plowing in a wind that was so strong and so cold I could hardly hold the camera still.

I talked to him through a face scarf with teeth chattering. That night I interviewed Cecil Jackson by phone.

Wanting to be accurate, on Wednesday morning I called Larry Barbee at Consumers Fuel to get the correct spelling of anhydrous and herbicide. I also learned that stubble is what you're left with after you harvest wheat and that stalks are what you're left with after harvesting cotton.

I finished the story, and sent it back to be typed...very pleased with myself. I had a good local farm story for the papers.

Ah, but then came Thursday morning! Ever so often an article will slip through without being proofed, and this was one of those times.

Marjorie Holcomb, our bookkeeper, brought the most glaring to my attention. "You've got the wrong word on the cotton here," she said pointing.

I should have known it was spelled with an "al" as in Jack and the

beanstalk rather than with an "oc" as in farm animals. I also learned that tandem is with an "em" not a "um."

Then there were the typos. Re-word was correctly spelled. It's just that you don't "re-word the land". And 14 is a perfectly good number, except that Cecil Jackson estimated land preparation at \$4 an acre.

I must say that farmers are true gentlemen. Not one of you called me up on it.

When I was at Gladys Jones's house Friday covering the DAR ceremony I was moaning my mistakes to the group composed mostly of farm wives. One of them really soothed my spirit by saying, "Don't worry about it. Shelly, the farmers need a good laugh nowadays anyway."

So, don't give up on me fellows. I'm learning. And when the coffee shop talk centers around a farmer who is trying something new or something a little bit different...let me know.

We really appreciate all the local farm articles we can get.

May I leave you with this excerpt from a book by Charlotte MacLeod.

"Agri isn't a business, it's a culture! A farmer's highest calling is to serve the earth."

"Farm Bureau Week" designated in county

February 15-20 has been designated "Farm Bureau Week" in Floyd County by County Judge Choise Smith.

The week is part of a statewide observance during which county Farm Bureaus will make a special effort to enroll new members, according to Delmas McCormick of Floydada, president of Floyd County Farm Bureau.

The official county proclamation calls American agriculture "the producing marvel of the world," and adds that one farm worker now produces enough food for 68 people. "Because of this," the proclamation said, "the average American family spends less than one-fifth of its income for food."

The proclamation continues by saying that "four out of five producers are voluntary members of Farm Bureau" and through that organization, they "work to build a better social and economic life for themselves."

Mr. McCormick said that Farm Bureau will continue to represent interests of farmers and ranchers in Austin and in Washington, D.C. Among Farm Bureau policies implemented last year was the state constitutional amendment exempting livestock and poultry from ad valorem taxation.

The county leader said the organization also favored spending and tax cuts that were passed by Congress last year.

COUNTY JUDGE Choise Smith signs a Proclamation designating Farm Bureau Week, February 15-20, as Billy Fulton looks on.

Proclamation

OFFICIAL PROCLAMATION
BY
CHOISE SMITH, COUNTY JUDGE
FLOYD COUNTY
FLOYDADA, TEXAS

Greetings: American agriculture is the producing marvel of the world. One farm worker produces enough food for 68 people. Because of this, the average American family spends less than one-fifth of its income for food.

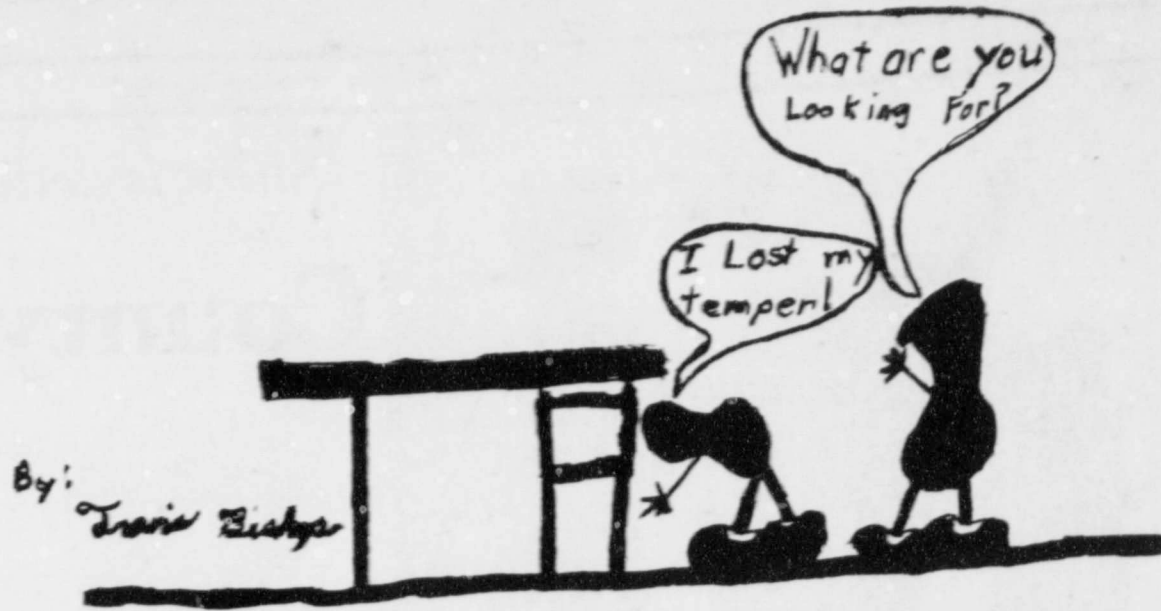

Farmers and ranchers have learned they can improve their industry and rural life through organization. Some four out of five producers are voluntary members of Farm Bureau, an independent general farm organization. Through Farm Bureau, they work to build a better social and economic life for themselves.

Therefore, I, Choise Smith, County Judge of Floyd County, do hereby designate February 15-20, 1982, as FARM BUREAU WEEK in Floyd County, and urge our citizens to give due recognition to this observance honoring the Floyd County Farm Bureau.

In official recognition thereof, I hereby affix my signature this 15th day of February, 1982.

Signed Choise Smith
Floyd County Judge

The Rev. Michael O'Connor's

Perspectives

Until just recently, Don Wildmon and his National Federation For Decency told me very little I did not know. They seemed to concentrate on the shows on television they did not like, most of which I had already refused to watch.

Then I received one of NFD's mailings for the past month. They were incensed, and as I read what they had to say, I became incensed as well. Playboy magazine ran in one of its issues a section titled "Prayboy". The NFD included a reproduction of the section in their mailing.

While I had always assumed that the people over at Playboy would be opposed to the NFD and Moral Majority, I was surprised at this vitriolic attack on Christianity as a whole. Certainly a production which includes

an interview with God must be dealt with in terms of an attack on the faith itself, rather than just a swipe at a couple of organizations the Hefner and his crew would not like.

The "Prayboy" section included, in addition to the aforementioned interview, a "Praymate of the Month", various pictures which the NFD censored in reprint, and a picture of a "new, improved chastity belt." In times gone by, such a piece of garbage would have been called blasphemy, and the perpetrators would have forfeited their lives. Maybe times gone by were a bit extreme, but publications such as Playboy must be put out of business.

Pressure can be brought on stores not to carry such publications, and advertisers can be asked not to support such junk. We have to let people know we will not stand for these kinds of vicious attacks. Otherwise, the world will think it is alright to do such things.

Dear Shelly:

I do enjoy the Hesperian so very much. I will always have a soft spot for Floydada. My job does not allow me to be there as much as I like, but getting the Hesperian each week helps keep me in touch.

Now, the reason I am writing is to share with you and all my friends this item I found not long ago, which I feel is a very good Recipe for a Happy New Year for every one who reads it.

So I was wondering if you would print it in the Hesperian so others may read it:

A Recipe For A Happy New Year
Take twelve fine, bright new months: See that they are thoroughly free from all old memories of bitterness, hate and jealousy.

Cleanse them completely from every clinging spite. Pick off all aspects of pettiness and littleness - In short, see that these months are free from all the past. Have them as fresh and clean as when they first from God's great store house of time.

Cut these months into thirty or thirty one equal parts (or twenty-eight for February). Do not attempt to make up the whole batch at one time. (so many people spoil the entire lot this way) But prepare one day at a time as follows.

Into each day put equal parts of Faith, Patience, Courage, Work and Hope, (some folks omit this ingredient and so spoil the flavor of the rest). Add kindness and Prayer, (leaving out this ingredient is like leaving the oil out of the salad—Don't do it.) Also add meditation and one selected resolution—put in about a teaspoonful of good spirits, a dash of fun, a pinch of folly, a sprinkling of play and a heaping cupful of good humor.

Pour Love into the whole mixture and blend with gladness—garnish with a few smiles and a sprig of joy: Then serve with quietness, unselfishness and cheerfulness. — And there you have a perfect recipe for a Happy New Year.

Toilets for the Handicapped - At A Ski Resort?

To demonstrate that the wisdom of Big Brother is willingly shared with 50 little brothers at the state level, Thomas Love of "Washington Report," the U.S. Chamber's national weekly newspaper, uncovered this item recently: Despite its protests the Sierra Sky Ranch ski resort was ordered by the State of California to provide wheelchair-access-

sible toilets for the handicapped, in keeping with a law that such facilities must be provided at all privately owned public areas.

The bureaucracy was not convinced by the arguments of the resort's operators who rested their case by pointing out: the resort can only be reached by skis!

Don Harmon announces completion of merger

Don Harmon, President of Summit Savings Association, announced recently that final approval of the merger of Tri-County Savings and Loan, Plainview Savings and Loan, and Collin County Savings and Loan into one Association, Summit Savings, has taken place.

This merger means that Summit Savings will now have offices in Plainview, Floydada, Matador, Hale Center, Muleshoe, Littlefield, Friona, Farwell, Plano and Allen, Texas, and will have a combined financial strength of \$140,000,000.

In this age of higher interest rates, along with the cost of building, it is a must that the lending institution has the financial footings to meet the customer's need. This merger has provided

us with one hundred forty million dollars which in turn will help provide financing on a larger scale.

"One other thing that I need to stress is that there have been no major shake-ups in our offices. The same personnel are still there to serve their friends and customers. The same friendly atmosphere while attending to business is still the order of the day. The only thing that has changed is that we now have a universal logo and name for identity purposes. I would invite everyone to feel free to visit any one of our eleven locations, meet the people who are associated with Summit Savings and, if they aren't already, become one of our valued customers," President Harmon concluded.

Carthel named state winner at annual meeting

Mike Carthel of Rt. 2, Lockney, was named state winner at the annual meeting of the Texas Soybean Association that was held in Texarkana, February 5. He planted the RA 450 variety with a yield of 80.72 bushels per acre.

Carthel received a special plaque and a trip for two to Acapulco provided by Elanco Products Co. Elanco sponsors the statewide contest conducted by the Texas Agricultural Extension Service, Texas A&M University System.

Coming in a close second was Vondal Burnett of Rt. 2, Plainview, with a yield of 80.44 bushels. Burnett's choice was the Mitchell variety.

Another Hale County farmer, Melton Dixon, also of Plainview, captured the third place award with a yield of 78.32 bushels. Dixon also planted the RA 450 variety of soybeans.

Both Burnett and Dixon received special plaques along with varying amounts of Treflan or Surflan herbicides.

In addition to being the top three producers in Texas, Carthel, Burnett and Dixon also were recognized as the top growers in irrigated areas of the state.

The recognition program also featured the initiation of a number of growers into the Texas 80 Bushel and Texas 70 Bushel Clubs. Carthel and Burnett joined the Texas 80 Bushel Club while Dixon joined the 70-bushel group along with Martin C. Kunkel of Rt. 3, Plainview, who had a yield of 75.25 bushels.

Others receiving special certificates for yields of 60 bushels or better with their 1981 crop were Ellison Williams of Star Rt., Kress; Galon Cox of Rt. 2, Plainview; Bay Baldrige of Dimmitt; John Walker of Olton Rt., Plainview; and Emmitt Pittman of Star Rt., Kress.

Contest winners were announced by Dr. Arlen Klosterboer of Beaumont, Extension Service agronomist. He noted that the annual contest is designed to stimulate soybean production by providing useful information to farmers and to increase cooperation within the industry to improve production efficiency.

DAR forms new chapter

The National Society Daughters of the American Revolution, Buffalo Grass Chapter was installed in Floydada on Friday, February 5 at the home of Gladys Jones.

Installing officer was Mrs. L.W. Norvell, State Linage Research Chairman from Hereford.

The threefold objectives of the NSDAR are the same today as when the Society was organized in 1890 and chartered by Act of Congress in 1896:

historical, educational, and patriotic. The historical, educational and patriotic work of the National Society is promoted through the National, Special and Administrative Committees. One third of these relate to youth.

The NSDAR is classified as an educational, nonprofit organization because the fundamental purpose of the DAR is to promote good citizenship through education. Participation in youth programs sponsored by DAR is

voluntary, and winners of programs are selected by local citizens. Leadership, dependability, patriotism.

Officers installed were: Regent: Alice Henry, Vice: Janis Julian, Chaplain: Gladys Jones, Registrar: Emma Lou Whitaker, Secretary: Ann Sweptson, Treasurer: Ruth Neff, Historian: Loretta Denning, Librarian: Nova Dee Evans.

TLC FOR CHILDREN'S SOFT TOYS - HOW TO LAUNDRY THEM SAFELY

The beloved stuffed animal or doll that becomes a child's favorite is apt to become shabby, gray and sad-looking in record time—and the more loved, hugged and cuddled it is, the shabbier it becomes. Don't despair. The Soap and Detergent Association suggests a bit of well-chosen care to revive and restore even the most bedraggled stuffed toy.

The week started off with a bus trip to the canyon. Going through the canyons was a wonderful experience. One of our guides remarked, "I bet the Indians called these parts!" Our bus was very special to us because they gave us an opportunity to get away from the beautiful scenery and

thanks to our wonderful teacher, Chuck Shockley. Even though he was sick he came anyway because he didn't want to disappoint the Residents. We thank Chuck for his kindness and concern for the Residents and for sharing his talent with us.

Our film of the week was "The Mouse on the Mayflower." This was a very enjoyable film. Thanks goes to Doyle and Dippery for supplying these films.

We welcomed Bill Holt and Albert Poole back from the hospital. We sure missed them while they were gone. We hope Ethel Carrol is well enough to come home soon.

Until next time, have a nice week!

Quality care is...

The best medical bargain for the money.

The cost of professional nursing home care? Grossly overestimated! Small wonder some of those people who need care now are discouraged. Truth is, on the average, nursing home costs are about one-fifth the cost of hospitals. So, for the chronically ill, the convalescent, there's now an economical alternative. Without nursing homes, people who need long-term health care would have to remain at home and rely on the care of relatives or friends; pay for the cost of a full-time nurse, or else become long-term hospital patients. But our nursing home offers a compassionate environment for our residents. No blank walls and blank as caring for, and catering to their physical and medical ailments.

Our quality care continues to rise. But, the cost for that quality care: Still low.

The Bache Company meeting observed there appeared to be no profit this coming year in cattle, hogs or sheep; only broilers looked profitable. Automobile dealers from South Texas, where oil has been discovered, are reported to be selling Lincolns and Cadillacs as their biggest item. A lavish buffet and fiesta was sponsored by Production Credit and the Federal Land Bank, with a continual parade of Mexican waiters bringing ever more tables full of every kind of Mexican food imaginable, all free gratis to the guests. Local board assignments are arranged by ZIP code based upon the registrant's permanent address.

The requirement to register applies to U.S. citizens, and to aliens residing in the United States, born on or after January 1, 1960. Men born in 1960 and 1961 were scheduled to register during July 1980; men born in 1962 were scheduled to register in January 1981;

those born in 1963 were scheduled to be registered during 1981. Men born in 1964 are required to register within 30 days of their 18th birthday. They may do so at any U.S. Post Office.

On January 7, 1982, President Reagan announced his decision to continue peacetime Selective Service Registration. In announcing his decision, the President declared a grace period during which late registration would be accepted without penalty. That grace period extends through February 1982.

Anyone who was scheduled to register previously but has not yet done so is encouraged to register immediately at any U.S. Post Office in order to avoid any possible penalty.

For further information on this subject, contact Paul D. Aikin, State Director for the Selective Service System in Texas. He can be reached at telephone number 214/784-7593.

Social Security News

BY RAY PURCELL

BY RAY PURCELL

Social Security is conducting an aggressive campaign to collect the nearly \$1.9 billion in outstanding overpayments—money owed to Social Security by those who receive monthly Social Security retirement, survivors, and disability benefits as well as supplemental security income (SSI) payments. In most instances, these overpayments came about because a person failed to report an event that affected his or her right to benefits.

It's much easier to prevent an overpayment than it is to lose part or all of one or more monthly checks, money that most people need for day to day living.

And, the easiest way to prevent overpayments is to report every event that could affect the right to or the amount of a person's monthly benefit. I cannot emphasize strongly enough the necessity of proper reporting.

Prompt reporting of the following events will go far to prevent a possible overpayment. People who get green Social Security checks should report:

—Earnings above the annual limit—The 1982 annual limits are \$6,000 for people 65 and over any part of 1982 and \$4,440 for people under 65 all of 1982. Generally, \$1 in benefits is withheld for each \$2 of earnings above the annual limit. Notify Social Security as soon as you think your earnings will exceed the annual limit. Don't wait until your earnings have already gone above the limit. And remember, it's gross pay that counts, not just take home pay.

—Any plans to go outside the U.S. for 30 days or more. Absence from the country may affect the receipt of checks.

—Any work outside the U.S., no matter how little you earn.

—Divorce or annulment of marriage. Benefits to wives or husbands generally end unless the marriage lasted 10 years or longer.

—Marriage. Any person who gets benefits as a child, widow, widower, divorced spouse, or parents of a worker should report if he or she marries.

—Child leaves the care of a mother or father. A mother or father who receives benefits because she or he is caring for a child, must report if the child leaves her or his care.

—Change in school attendance for a child over 18. A child over 18 can get checks as a student only while he or she attends school full time. Any change in attendance must be reported. Also, the child must report if he or she is paid to attend school by an employer, or if he or she is convicted of a felony.

—Death. Benefits stop at death. Someone should report if a person getting benefits dies. No check is payable for the month of death.

—A person getting benefits because of disability should report the following:

—The person's condition improves.

—A return to work, no matter how little is earned.

—Application for, the receipt of, or any change in the amount of any public disability benefit provided by Federal, State, and local programs, including workers compensation payments.

—People getting gold SSI checks should report:

—A move or change of address.

—A change in household—a person moves into or out of a home or a husband and wife separate. Or, there is a change in the way expenses are paid.

—A person enters or leaves an institution.

—A person leaves the U.S.

—A person marries or a marriage ends.

—Any change in income.

—Any change in resources owned.

—Any improvement in condition for a blind or disabled person, or if the person takes a job.

—Any change in school attendance for a student under 22.

—If a drug addict or alcoholic stops treatment.

—If a person can't manage funds.

—If a person dies.

It's very important that these reports be made as soon as possible after the person learns of one of these events. The quicker the report is made, the more likely that an overpayment will be prevented.

The reports can be made by telephone, mail, or in person at any Social Security office. Our phone number is 293-4371. We are located at 1401-B West 5th street in Plainview. A report should include the following information:

—Name of person about whom the report is being made.

—Date it happened.

—Signature if report is by mail or in person.

—Address and the correct claim number under which benefits are being paid.

The claim number is shown on all correspondence and appears on all checks.

Any help you need can be obtained at all Social Security offices. Remember, it is a lot easier to prevent an overpayment than it is to repay it.

ROCK 'N ROLLERS—Residents of the Floydada Nursing Home will be having their annual Rock 'n Roll contest Friday, February 12, to benefit the American Heart Association. Participants in this event are, front row [l-r] Iva Simpson, Emmitt Lawrence, Juanita Bailey and Una Clark. A Valentine King and Queen contest is also being held. The winners will be chosen by penny vote donations, which will also be given to the Heart fund. Candidates are back row [l-r] Ollie Miracle, Sue Thompson, Claude Hughs and W.C. Cates. Johnson Announces For County Judge

Jay Johnson announces his candidacy for election as County Judge of Swisher County, subject to the May Democratic Primary.

Born and reared in Floyd County, a graduate of Floydada High School, Johnson served in the U.S. Navy as a Pilot Training Instructor and attended Jacksonville University. For 12 years he was Project Manager for an International Construction Company, directing State and Federal projects. He has farmed and raised cattle in Swisher County since 1977.

A sustaining member of the Texas Democratic Party, Johnson has served on the 1980 State Platform Committee, a 1979 Agricultural Issues Conference, 1979 and 1980 Ad Hoc Committee on Agriculture and as Representative of the Texas Democratic Agriculture Caucus to the State Teacher's Caucus, Mexican American Political Caucus, and the Coalition of Black Democrats in 1980-1981. He has served as Election Judge in both Primary and General Elections, and represented Swisher County as an alternate and delegate to the 1980 Texas Democratic Conventions in San Antonio and Houston.

A member of the First Christian Church, Johnson resides in Tulia with his wife, Patsy, who is office manager for L.M.C., Inc. of Kress. They have five children, ranging from a Texas Tech senior to a fourth grader at Highland Elementary in Tulia.

Johnson states, "As a taxpayer, farmer, and concerned citizen, I understand the problems facing Swisher County. If elected, I will promote a program of quality assurance throughout the county system for an efficient, economical operation at all levels, with the goal of saving tax dollars. County business is the people's business and I intend to maintain an open door policy for direct communication with the people of Swisher County! I owe no political favors and can assure every citizen of cooperation and fair treatment from this office."

"Your vote and influence in this election will be sincerely appreciated."

First load of coal delivered to new Southwestern Public Service plant

The first trainload of coal at Southwestern Public Service Company's new electrical generating station near Muleshoe, Texas, was unloaded at the plant recently.

The new power plant is named Tolk Station, in tribute to Roy Tolk, recently retired chairman of the SPS board of directors and a current board member. Mr. Tolk threw the switch to dump the first car of coal.

Ben Green, plant manager, said the 110-car unit train delivered approximately 11,000 tons of coal to the Tolk Station site.

With the arrival of additional shipments, about 200,000 tons of coal will be stored at the plant prior to start-up of the first generating unit in June of this year. The 200,000 tons is enough fuel to run the 561,000-kilowatt generator for approximately 60 days during the start-up phase while operating at considerably reduced loads.

Green said the coal-handling system at Tolk Station represents a departure from the system used at SPS's Harrington Station in Amarillo. During the unloading process the coal cars are turned upside down to dump the coal. The trains serving Harrington Station utilize coal cars that dump the coal through doors on the underside of the cars. Green said the coal cars used at Tolk will be lighter weight and capable of carrying more coal than the cars used at Harrington.

Tolk Station is the second coal-fired

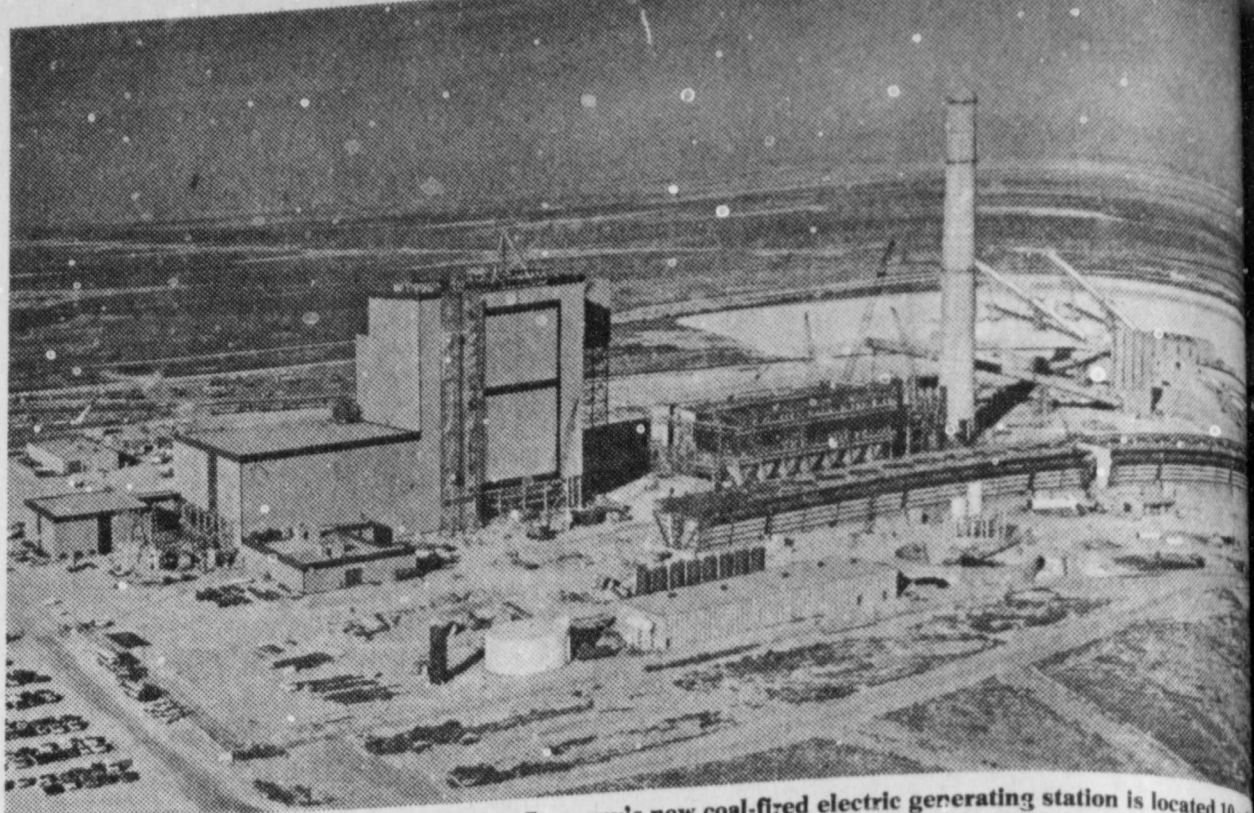

power plant for SPS. The first, Harrington Station, was completed in 1980 and is presently the largest of Southwestern's 10 generating plants.

The new plant will have a total capability of more than a million kilowatts when completed. The first 561,000-kilowatt unit is scheduled to go on line in July of this year and the second unit in July of 1985.

Commenting on the fuel supply, Green said, "we have enough coal under contract for the life of the plant, which is about 35 years."

The coal for both Tolk Station and Harrington Station is a low-sulphur, high-Btu coal from the Black Thunder Mine in the Powder River Basin near Gillette, Wyoming.

Southwestern Public Service primarily provides electric utility service to a population of more than 1 million in a 45,000-square-mile area of the Panhandle and south plains of Texas, eastern and southeastern New Mexico, the Oklahoma Panhandle and southwestern Kansas.

TOLK STATION, Southwestern Public Service Company's new coal-fired electric generating station is located 10 miles from Muleshoe. The first 561,000 kilowatt generating unit is scheduled to be completed this summer. The second unit will be completed in 1985.

Tech to offer course in social work

Texas Tech University in cooperation with the University of Texas-Arlington will offer courses next fall towards a master's degree in social work.

An organizational meeting for persons interested in the program will be held at 7 p.m. March 2 in Room 129, Holden Hall, on the Texas Tech campus.

Dr. H. Paul Chalfant, chairman of the Texas Tech Department of Sociology, said students during the first two years of the program will take two courses

each semester from Texas Tech and the University of Texas-Arlington social workers and sociologists. The final one-year phase of the degree will be spent in full-time study at the University of Texas-Arlington.

Dorinda N. Noble, director of the social work program at Texas Tech, said the manpower required by the Department of Human Resources dictates the need for this degree.

"In the past people have had to travel some 300 miles to take any master of

social work courses. This is a program for people who want to increase their professional standing."

Chalfant said the degree is primarily aimed at upgrading the staff of the Department of Human Resources. That agency also funds the program.

Students enrolling must meet the entrance requirements of the University of Texas-Arlington. Graduate students must take the Graduate Res
