report stating that the membership was up from 818 to 904 members. He said that this is the first time the Farm Bureau has had over 900 members. After the Tasco report by Dan Smith, Delmas McCormick opened the business session by the nominating committee report by A.C. Pratt. Nominees for directors were Martin Stoerner, John Quebe, Craig Gilly, W.R. (Raz) Ware, Doug Galloway, and Jerry McGuire.

The only proposition that failed was the state resolution that stated that the Texas Farm Bureau president terms be limited to three consecutive terms. Two of the national resolutions passed after being amended.

Ken Campbell drew the winners of the door prizes. Alice Mitchell and Wes Brown won two automobile tires each. Carrol Chaloupka, president of the Texas Farm Bureau made some closing comments. He said "We don't need a tax increase, we need to stop deficit spending."

He urged the citizens to "twist the arm of their congressmen" to get results. If the congressmen do not listen, it is time to get new congressmen. He also urged the members to be good citizens and vote and "get yourself informed."

### WHAT IS AN AMERICAN?

THIS SPEECH WAS GIVEN at the Lockney Cooperative 25th Annual meeting. Because of its content it is being reprinted for your consideration.

An American is not delineated by a particular skin color, or way of life. He is a person from many places, with many shades of skin; of different sizes and varied energies. He has a masters degree, or he may never have finished high school. He may drive an expensive automobile, or perhaps he relies on two mules to carve his living out of the earth. But regardless of what he is, lacing the different physical features together is a bond of strength in tradition which exemplifies the American way. A way which opens the doors of opportunity to all people who may knock upon them. An American has a spirit which was born when the bells tolled of independence, and which has released the adrenalin of his nation time and time again when its existence was threatened by an aggressor.

An American does not view armed conflict as a means of getting what he wants, but rather as a means of protecting what he has. He is one who loves the very concept of peace for all nations, but will not hesitate to fight on the shores of others if required to protect his own. An American sees the knowledge of experience in his past, feels pride in the accomplishments of the present, and has hope for the future of all nations, even when others would view the days to come with dismay. But a realistic American finds no guarantee of freedom or security in the future solely because he has always had it in the past.

An American recognizes the faults of his system and seeks to correct them through a process unknown to many nations. A process which does not promise absolute perfection, but one which allows for peaceful change, if change is needed. That process is democracy, and an American holds that very word so dear, that he stands ready at a moment's notice to lay down his life for its perpetuation.

An American finds nothing at all unusual about getting cold chills when his flag passes in review, for his flag has always been a source of inspiration; when the smoke cleared over Fort McHenry, when its sheen was reflected on the sands of Iwo Jima, and when the colors glistened on the side of the craft which took the first man to the moon. An American sees nothing strange about getting a lump in his throat when the national anthem is played, or weeping unashamed when taps is played for one who paid the ultimate price for his freedom. He realizes that the only thing that exceeds that price is the freedom itself. An American never forgets the indebtedness he has because of that price, for without it, his freedom would only be an unreachable concept in some philosopher's mind.

A true American is the essence of pride in a way of life. What is an American, you say? He is fortunate.

## Letter to the Editor

### To the Editor:

I would like to thank Fred Cardinal, the Floyd County Sheriff and Doug Brewer of the Floydada Police department for the work they have done in law enforcement. I say this because they have quickly solved the break in at my store, but also because of hard work in keeping peace in Floydada and Floyd County.

In light of the criticism that is received on their job, I think where credit is due.

Once again thank you for a job well done. I am sure all businesses and citizens in the entire county when I say "Thank you."

## Strake Talk

### TWO TERMS IS ENOUGH

Texas has a healthy skepticism of their elected officials, a wariness of entrenched power that they have embodied in the state constitution. They have historically refused to keep top state officeholders more than a few terms.

Now my opponent comes along, having spent nearly ten years in the Lt. Governor's office, one of the top state policy-making offices. Mr. Hobby wants yet another term to make it 14 years in that crucial job. That is unprecedented. Never in Texas' history has any Lt. Governor served that long—or wanted to.

His desire, frankly, puzzles me. You would think he would have other goals, other challenges he might want to tackle. As his primary opponent this year said, "If he had anything to get done, you'd think he would have done it by now."

My opponent will tell you that experience is what counts. I think voters need

to look at the experience they have had with Lt. Governor Hobby. After ten years, one way or another, the quality of education, the new, statewide and he has refused the growing competition. We can't afford to have in what I call the "politics" someone holds a job, serves a country or state for a sonable time, then to that job and position. For that reason, the der of business elected will be to limit the Lt. Governor to two terms—eight years. That is enough for anyone. Too great a concentration of power long is bad. That is the principle of democracy.

If you have any on this subject, please me at 1213 W. 34th, tin, 78705.

The rail around the piano and organ had greenery with white doves and bows to complete the setting.

The brides gown had an elegant sweetheart neckline outlined with touches of point d'applique lace enhancing the bride's delicate features. It had sheer chiffon, pearl seeded sleeves with point d'applique lace flowing to fluted ruffles cascaded into a chapel-length train. She chose a profile hat with a slightly upturned brim. Attached was a floor-length veil trimmed in a scalloped pattern of Buckinghamshire lace.

She carried a cascade of white rosebuds, stephanotis and forget-me-nots accented with pink rosebuds. The streamers were of picot white satin.

## Nancy Froh, Todd Dipprey united in marriage August 7th

Nancy Jane Froh and Todd Dipprey were united in marriage on August 7, 1982, at the First United Methodist Church in Comanche, with Dr. Noble Atkins and Dr. John Lukert officiating. The bride is the daughter of Mrs. Kenneth Froh of Comanche and the late Kenneth Garnett Froh. The groom's parents are Mr. and Mrs. J.W. Dipprey, Jr. of Lockney.

The church was decorated with spiraling arched candelabra entwined with greenery. Candles were lighted by Mr. and Mrs. Shelley Simpson. Family pews were marked with rust lilies and greenery tied with white bows. The stained glass windows of the church were highlighted with candles placed in brandy snifters which were entwined with greenery.

Wedding music was furnished by Mrs. Bill Flannery who also accompanied Mr. J.J. McAfee, soloist, and Mrs. Bill Mankin, flutist, on "Can't Help Falling In Love."

The bride presented her mother a silk rust lily as she approached the altar and she presented the groom's mother a similar one as she left the altar. After vows were exchanged, the couple knelt on a brass kneeling bench and joined in the sacrament of Holy Communion as Mr. Duane Fuquay sang "I Could Never Promise You" while accompanying himself on the guitar.

The bride, escorted to the altar by her uncle, Howard Mickey of Houston, was wearing a floor-length gown of ivory chiffon. The Queen Anne's neckline was defined by Wedgwood lace. The fitted bodice was of French imported Chantilly lace accented with pearls. The long sleeves of chiffon were trimmed with re-embroidered lace appliques and ended with ruffles at the wrists. The full chiffon skirt had an overlay of multi-ruffles accented with re-embroidered lace. The skirt flowed into a full cathedral train. The groomsmen, along with Shelley Simpson, also served as ushers. They were attired in spice-colored tuxedos with ivory tuxedo shirts and rust colored boutonnières.

The groom's mother chose a street-length dress that featured a black and white dotted waist and white skirt. Her corsage was also of white silk roses.

Special guests included the bride's grandmother, Mrs. E.J. Bailey, of Brownwood; her great-aunt, Miss Cleo

Dunn, of Comanche, and the groom's grandmother, Mrs. Doyle Harrison of Lockney.

A reception was held in the Fellowship Hall immediately following the wedding. Martha Richey registered guests at a table accented by a candle-lighted brandy snifter. The bride's table was covered with a terra-cotta cloth with a white lace skirt. The centerpiece was a large candle-lighted brandy snifter surrounded by the bridesmaids' smaller brandy snifters and entwined with English Ivy and silk flowers. The three-tiered wedding cake was decorated with terra-cotta and rust flowers and topped by a satin wedding bell. Terra-cotta colored punch was served from a crystal punch bowl. Nut and mints were also served.

A lace bandeau held her lace-edged veil of illusion that was scattered with lace motifs.

She carried a cascade arrangement of shades of blue flowers softened with gypsophila atop a white Bible belonging to her sister, which was her traditional "something old" and "something borrowed." "Something blue" was a garter and for "something new" she wore a necklace given to her by the groom.

Exciting sports action returns to Plainview, as the 2nd annual Sportsathon Relay takes place Saturday morning September 18. Sponsored by the Nichols Health-Fitness Center and radio-station KVOP, the Sportsathon invites five-person teams from communities across the South Plains and Texas panhandle to compete in a relay race that will splash through water, ride and run over city streets, and rollerskate around a gymnasium floor before it's all over.

Each five-member team will consist of a swimmer, bicyclist, rollerskater and two runners.

Boys, girls, men, women and co-ed teams will compete in nine competitive divisions. Age divisions have been set at 17 years-and-under, 18 to 29, and 30 and over.

The relay race begins at the Plainview YMCA pool with each team's initial member swimming 150 yards. Teammate #2 will leave the YMCA as the swimmer finishes, running 1 1/4 miles to the Wayland Baptist University Campus.

Team member #3 will bicycle (2 miles) from WBU to the First Baptist Family Life Center where the fourth member awaits in rollerskates to complete a 10-lap course on the gymnasium floor.

The anchor-leg will be a runner who will return across town 2 1/2 miles to the

finish line at the Health-Fitness Center.

Team entry forms and additional information are available by contacting the Health-Fitness Center, 3019 W. 10th, Plainview, TX 79072 (806-296-5412). There is a \$10 entry fee. Individuals unable to secure teammates can contact the H-F Center in order to be paired with others to form a team.

Individual trophies will be awarded to members of each division's winning team. The silver-plated Nichols Cup will be presented to the team representing a Plainview business or industry that posts the best time. Many other awards will be presented to participating teams.

Teams from the same division will be grouped in heats beginning at 8:30 a.m. The course will be well marked with traffic control provided by the Plainview police department. The awards presentation is set for 10 a.m. at the Health-Fitness Center following the

competition.

According to Sportsathon Director Tom Siekmann, this year's Sportsathon "will be more spectacular than last year" when 24 teams raced the clock and rival competitors through the five events.

"The Sportsathon Relay first of all is exciting fun for all participants and spectators, secondly it is a race," commented Siekmann. "It is a natural group activity for school clubs, church groups, co-workers and sports enthusiasts. Many enjoyed forming the team, and selecting a team name (some even put together 'uniforms') just as much as the competition itself."

(A final note: UIL officials in Austin were contacted and high school athletes can participate in the Sportsathon without jeopardizing their athletic eligibility.)

The Lockney Cooperative Gin held its Twenty-Fifth Annual Stockholders Meeting, Saturday night, August 28, at the Lockney School Cafeteria, with the banquet beginning at 7:00 p.m. The dinner was delicious, and one director was elected at this meeting—Mr. Gant. Nathan Johnson of South Plains gave the welcoming address, and speaker for the evening was Michael Brown from Arlington, Texas. His speech was lively, funny and very much enjoyed. When he got down to business and gave us, What Is an American? all hearts were in tune with him? When door prizes were given, Grigsby Milton, Jr. (Doodle) of South Plains received a beautiful brass chest. Many from South Plains were present, and there were around twenty from our area. It was the most interesting and nicest meeting I have attended in many years.

Mr. and Mrs. Howard and Annelda Staples are taking the bus drivers positions at the South Plains School. Mrs. Staples is driving the big bus, and Howard is driving the smaller one.

On August 13th, when Mrs. Patrick Huff and Duane of Amarillo were here visiting with her parents, Mr. and Mrs. Harold Hamm, they had homemade ice cream and birthday cake and a celebration for all the members of the family around here for their grandson, Duane Huff, who was five years old that day.

Daughter of Mr. and Mrs. Leighton Teeple, Mr. and Mrs. Rhonda and Bill Parker from Boutte, Louisiana were visiting their parents, and other relatives here during the first part of August. With Mr. and Mrs. Teeple Rhonda and Bill spent about a week over in Ruidoso, New Mexico during their vacation. When they left for home August 13, on Friday, they went to Arlington to visit her cousin, Mr. and Mrs. Mike and Arlaine Berkes.

Wednesday morning of last week, Sylvan Kinnibrugh's uncle, Mr. T.J. Couch who lived at Sherman, Texas died after a long illness. His funeral services were held at Vera and he was laid to rest there. Mr. and Mrs. Silyn and Bobbie Kinnibrugh attended the services there on Thursday.

Mr. and Mrs. Cecil Osborne, Sr. from Tulsa arrived here at South Plains Sunday morning in time for morning

church services at the South Plains Baptist Church where their son, Rev. Cecil Osborne, Jr. is pastor. They had dinner and the afternoon here at the parsonage with children Rev. and Mrs. Cecil and Joyce Osborne, Jr.

Mrs. Louzilla Nichols who has been living in the Cedar Hill and South Plains area for most of her life, is planning to give up her house, and move to Sweetwater, Texas, where she will have a home near her daughter and family, Ruby Jewel and Glen Whitfill. She plans to move September 8, and a van will move all her belongings to her new home. Mr. Jim Peggram has bought her house here, and will move it to a lot he has bought in Nazareth, and make it their home. He will move the house soon after Mrs. Nichols has moved. We just wish Mrs. Nichols happiness and good health in her new home at Sweetwater, and we hope she comes back to visit us often.

Mrs. Ruby Higginbotham is suffering this week with a knee injury which is making her miserable with pain. We hope she gets over it soon.

Next Thursday, Sept 2, the South Plains PTA will meet at 4:00 p.m. so the teachers will be able to attend. They did not get to meet the day school opened. At this meeting fund raising for the coming year will be discussed, and plans made for the coming months, including the Hallow'en Carnival in October.

## Band enrollment hits 106

The Floydada High School Whirlwind Band, under the direction of Bruce Kenner and Billy Marquis, has started the school year with 106 members. New Drum Majors Sandra Mitchell and Karen Lloyd have a tremendous responsibility leading the band both at pep rallies and games. These two girls were awarded second place in Drum Major pairs' competition at the Texas Tech Band Camp this summer, and are quite prepared to assume their duties.

The band will have 97 students on the field Friday night at Dimmitt, with two alternates and seven varsity football players. Mr. Kenner commented on how much better the band's attitude is this year and that the band has progressed nicely through summer practice.

The F.H.S. Band will perform at all Whirlwind games this fall, as well as the South Plains Fair Parade, the Texas Tech Marching Festival, and U.I.L. Marching Contest.

THE WHIRLWIND TRI-CAPTAINS for Friday's game at Dimmitt are (top) Louis Martinez, Senior, Calvin Coleman, Senior, (bottom left) and Jesse Cedillo, Junior (bottom right).

For 20 years, Southwestern Public Service Company has sponsored Future Farmers of America (FFA) electricity workshops. This year, 82 FFA boys and one FFA girl participated (She was Kathy Karber of Booker, Texas, the first girl ever to attend the workshop). The students learned how to wire buildings, how to install and use electric controls, or how to build electric motors. The five top students won SPS-sponsored trips to the National FFA Convention in Kansas City, Mo., in November.

Glenn Bickel, Agricultural Engineer, Plainview.

Anytime you see a downed electric power line, report it to SPS. Don't touch it. Let professional linemen — SPS employees — handle the problem. Sometimes a downed line will appear to be safe. Someone who doesn't know what he's doing may touch it or pick it up.

Roy Juarez, Lineman Journeyman, Artesia.

There is no guaranteed profit for regulated electric utilities. Investor-owned companies like Southwestern Public Service Company are allowed to seek a fair and reasonable profit, but there are no guarantees. Last year, for instance, SPS was authorized by the Public Utility Commission of Texas to earn an average 10.76% return on equity. The actual return was 8.35%. What we were able to earn for our shareholders was retained because we work hard to keep all our expenses down.

## Hosts participate in exchange program

Mrs. Kenneth Broseh and Earl, Darlene and Earl, action six other members of the Lockney 4-H Club traveled by way of plane to arrive at the Miller Extension Center in Tuscumbia, Missouri, August 1.

On their return trip the Floyd County young people and their sponsors stayed at Branson 2 days and 2 nights. They also took in the amitheatre production of "Shepherd of the Hills", went across Suspension Bridge, and visited Silver Dollar City.

Heather Holt commented, "It was really fun getting to meet all the people. I particularly enjoyed getting to go to Branson. We had a blast."

"We learned they had a lot of hogs," Earl Broseh laughed. "Their agricultural life is a lot different (to ours). There is not much farming."

Mr. and Mrs. Broseh complimented the young people on their behavior on the trip. "We had a good bunch of kids...everyone of them. Some of them were younger than we had ever had on a trip of this kind for the length of time, but we even had compliments on their behavior in restaurants. We were really proud of them."

The visiting group said Miller County, Missouri, was predominately a German-Catholic community with a culture all its own. They all agreed they had been well fed. Most of the Texans got to sample their first frog legs, as well as some other new dishes. "They are real cooks," Mrs. Broseh concluded.

## Deadline is September 15th for insurance

September 15 is the last day wheat producers can purchase All-Risk Crop Insurance protection on their 1983 wheat crops.

Crop insurance offers protection against all natural hazards. Policyholders can elect to insure up to 75% of the average wheat yield for their county.

They can select \$2.50, \$3.50 or \$4.00 as the price per bushel they want to be paid for any loss they may suffer. The USDA subsidizes premium costs up to

30%, depending on the level of insurance selected.

In many instances, producers who keep accurate acreage and production records can increase their coverage by proving wheat yields on their land in recent years.

For complete information on how a wheat crop insurance policy can be tailored to fit your farming operation, contact your local crop insurance agent.

**When Your Freezer stops**  
Occasionally food freezers stop operating normally and foods may be thawed or partially thawed before the situation is discovered. What can be done when this happens?

**Refreeze Food**  
You may safely refreeze foods that have thawed if they still contain ice crystals or if they are still cold - about 40°F - and have been held no longer than 1 or 2 days at refrigerator temperature after thawing. In general, if a food is safe to eat, it is safe to refreeze. If the odor or color of any food is poor or questionable, dispose of it. The food may be dangerous.

Foods that have been frozen and thawed require the same care as foods that have not been frozen.  
Meat, including ground meat and poultry, that has any off-odor or off-color should not be refrozen and should not be eaten. The appearance of red meats is changed less than that of other foods.

Bacteria multiply rapidly in shellfish, vegetables and cooked foods. Spoilage often cannot be detected by odor. Do not refreeze any of these foods when they have completely thawed. If ice

crystals are still in the food, refreeze immediately. Even partial thawing and refreezing reduces the eating quality of these foods. If the condition is questionable, dispose of the thawed foods.

Thawed ice cream should not be refrozen.

Fruits usually ferment when they start to spoil. A little fermentation will not make fruits dangerous to eat, but it may spoil their flavor. You can refreeze thawed fruits if they still taste and smell good. Or you can use them in cooking and baking or for making jams, jellies and prepared foods.

### Emergency Care

Generally, a fully loaded, non-functioning freezer will stay cold enough to keep foods frozen for two days if not opened. In a freezer with less than half a load, food will remain frozen for about one day.

If power fails or the freezer stops due to mechanical failure, keep the freezer closed except when adding dry ice. If normal operation cannot be resumed before the foods start to thaw, use dry ice or move foods to a locker plant.

If dry ice is placed in the freezer soon after the power is off, 25 pounds should keep the temperature below freezing for 2 or 3 days in a 10-cubic foot cabinet with half a load; 3 to 4 days in a loaded cabinet.

Place the dry ice on cardboard or small boards on top of packages and do not open freezer again except to put in more dry ice or to remove it when normal operation is resumed.

If it is necessary to move food to a locker plant, use insulated boxes, blankets or thick layers of paper to prevent thawing. Food which has been moved to the locker plant should be chilled to 0°F, before moving again after your food freezer is operating normally.

Clean your freezer before refilling. Freeze thawed foods quickly. Use refrozen foods as soon as possible.

To refreeze food at home, turn the adjustable temperature control, if your freezer has one, to its coolest position. When the current comes on again, the freezer will run continuously and food will refreeze quicker. Place the warmer packages against the refrigerated surface if possible, but place them so air will circulate around them.

After the food is well frozen, turn the

## Agribusiness may soon qualify for loans

Garry Mauro, Democratic nominee for Texas Land Commissioner says "Many agriculture-related businesses in north and west Texas may soon qualify for low interest Small Business Administration Loans."

In order to qualify for SBA loans a county must be declared a disaster area. This declaration is made primarily to offset the effects of weather related disasters. Before low interest loans are granted in any county, a 30% reduction in cash crops must be proven. The Farmers Home Administration makes the determination that the reduction has occurred, which allows farmers to borrow money at low interest rates. Then the Small Business Administration may make loans to businesses in a disaster area.

Mauro explained that requests for a

disaster declaration for any county can be initiated at the county level by the County Judge. As of August 19th, 67 Texas counties had requested aid.

Many farmers say much of the cotton and grain that was replanted in west Texas looks good but they worry about an early frost.

Joe Cook, who lives south of Childress said recently, "My cotton would look fine if this was the middle of July, but it is the middle of August, what if we have an early frost?"

Mauro said the depression that has hit the farmer has now found its way into agriculture - related businesses. Many agribusinesses need long term, low interest loans to stay afloat.

Mauro concluded by saying that loans will help only if farmers and ranchers receive a fair price for their production in the future.

## FmHA announces reorganization

The Farmers Home Administration (FmHA) in Texas has announced a reorganization of its District and County Offices. In the reorganization there will be a realignment of the counties served by the District Office in Lubbock.

Donald R. Perry, District Director, in Lubbock, said that the following FmHA

County Offices will now be under his administration: Plains, Brownfield, Tahoka, Crosbyton, Lubbock, Levelland, and Morton. Spur will be served out of the Vernon District Office, and Muleshoe, Littlefield, Plainview, Floydada, Dimmitt, Farwell, and Tulia, will be served by the new District Office scheduled to open in Plainview.

Perry said that the realignment of District lines will more equally distribute the workload of the employees of the State.

In announcing the reorganization, Mr. J. Lynn Futch, State Director, said that the aim of FmHA is to provide a sound credit program to rural people who are unable to obtain credit elsewhere, and to provide the servicing activities needed to insure that the loans are repaid. Mr. Futch also said that because of recent budget reductions and lower staff ceilings, the reorganization is necessary to reduce the number of FmHA offices in the State.

The reorganization will be effective September 5, 1982.

## WANT ADS PAY!

J.W. Hodges, farmer north of Claytonville lost 15 yearlings and they were gone for over a month's time. In the meantime J.W. Advertiser in The Herald, even offered \$500 for information about where they might be.

J.W. was in The Herald last week and said a "found" advertisement in the Floydada newspaper led to his discovery of the lost cattle.

They were found about 17 miles east of Floydada, near Dougherty. Those cattle strayed some 55 miles, and we agree with J.W., he's mighty fortunate in getting them back.
