Vineyard flourishes in Lakeview

by Cindy Smith

The wine grape industry stretches across six decades in Texas encompassing both old and new methods of growing grapes. Before prohibition, there were at least sixteen wineries operating in the Lone Star state, and early German, Czechoslovakian, and Italian settlers in Texas cultivated grapes for home winemaking.

According to the Texas A&M Extension Service, Texas achieved international fame through the legendary T.V. Munson of Denison, Texas, who developed more than 300 varieties for the new world and also saved the European wine industry from the Phylloxera root louse with the introduction of Texas rootstocks. In 1921 prohibition passed and with it, the demise of the old wine grape industry of Texas.

However, the new Texas wine grape industry has undergone a revival since the early 70's. The cultivation of grapes for commercial wine production is a new and rapidly expanding industry in Texas. Because it is a recent enterprise, few Texans have the skills or knowledge needed to compete in the market with such awesome competition as the Napa Valley in California and the wine grape growers in Europe.

Louis Pyle of Floydada studied the feasibility of growing grapes in West Texas for over four years. Pyle viewed the venture as a challenge and entered into a partnership with Dr. Dale Rhoades of Crosbyton to cultivate a vineyard in the Lakeview Community. Pyle journeyed to California and spent one week researching different varieties that could adapt to the climate of West Texas.

Pyle explained, "We attempted to determine which varieties could endure the harsh weather that West Texas is often noted for and we also wanted varieties that produced abundantly. It

was difficult to locate grapes that contained both qualities."

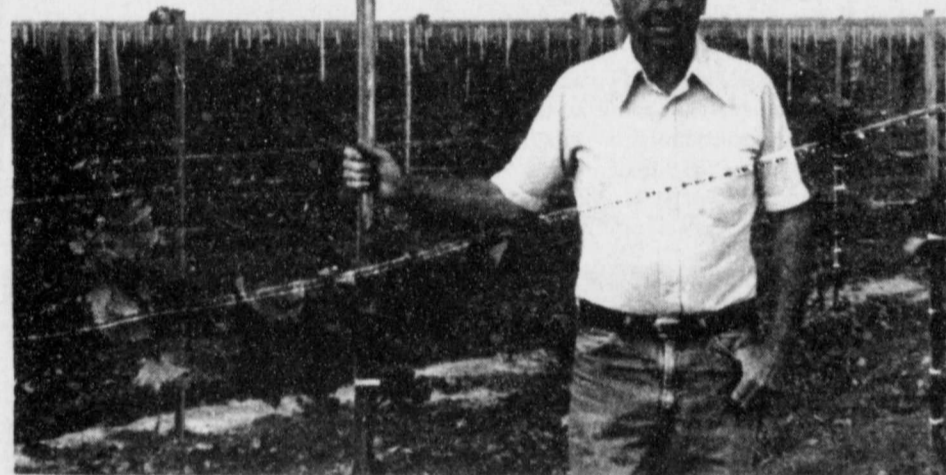

Pyle reserved over twenty acres strictly for cultivating grapes. The partnership reached a consensus and decided on three major varieties of the vinifera grape. The vinifera grape is the traditional wine grape of Europe and Middle Asia, according to the Texas A&M Extension Service, and has grown in these areas since 1,000 years before Christ. It is the predominate grape in California. Vinifera varieties are well adapted to the dry climate and alkaline soils which are common to West Texas.

Pyle has planted eleven acres of Chenin Blanc, which is a medium size, white grape and is the most popular white wine grape being planted in Texas today. Sauvignon Blanc is a medium to large, round greenish grape that has a distinct and aromatic flavor and has been planted on five acres of the vineyard. The Johannesburg Reising variety has been planted on five acres and is a small clustered, white grape which has made very good wine on the South Plains. Pyle also planted about one hundred plants of the new edible Venus variety. It is native to Arkansas and has never been tried in this area.

According to Pyle, pruning is essential after the grapes are established. Tying, training and disbudding the grapes also occupies a majority of the grape grower's time. Pyle stated, "The vines must be trimmed and trained five months out of the year. It is necessary to have one employee for every four acres of grapes and during harvest which is usually in mid-July one employee per acre is required."

"The initial cost of establishing a vineyard is rather expensive," said Louis Pyle. "I would not advise proceeding with plans unless one studies the feasibility for awhile. It costs

MARK MANNING, the young Ft. Worth pilot of this Cessna 152, was fortunate to have been able to walk away after he crashed in a field northeast of the city Saturday about 2 p.m.

In Floydada

Two accidents occur

Unusual as it seems, Floydada was the scene of two accidents this past weekend. The first occurred on Saturday, July 28th at about 2 p.m., when a Cessna 152 airplane made a crash landing about a mile northeast of the local airport. Mark Manning, the pilot experienced problems with his instruments while attempting to land at the Floydada Municipal Airport on a flight from Ft. Worth. The plane ran out of gas and Manning was forced to crash in a field belonging to the Patterson Grain Corporation in Lockney.

The pilot suffered only a few bruises. Estimates of the actual damage to the plane were not available at press time. The plane, valued at approximately

\$15,000 to \$20,000, came to rest upside down and was heavily damaged. The plane was expected to be removed sometime this week.

The second accident took place about 2:25 p.m. on July 29th at the intersection of Lee Street and 2nd Street. The accident involved a Lockney resident, Michael Rose, on a motorcycle and Erbey Molinar, driving a flatbed pickup. Rose was northbound on 2nd Street and Molinar was westbound on Lee Street when the two collided.

Rose was taken first to Caprock Hospital District and later transferred to Lubbock General Hospital for treatment. He remained in intensive care at press time, with his condition listed as stable.

Rodeo is successful

Floydada's 27th Annual Rodeo came to an end on Saturday, July 28th with the last performance at 8:00 p.m. The three days of rodeo were enjoyed by all who participated as well as by all those in attendance. Entries came from Texas, New Mexico, Oklahoma and Nebraska. Due to the time and money required for active participation in the sport of rodeo, anyone who took part can be very proud of their efforts. Among the local participants were Duncan Woody, Charles Schur, Clinton Ware, Lisa Adair, George Quisenberry, and Buddy Adair.

Miss Tonya West was named Rodeo Queen. Miss West is the daughter of Jimmie Jo West of Floydada. Miss Branda Breed was named Princess. She is the daughter of Joe Mack and Debbie Breed. The ½ beef, courtesy of Caprock Meat Company, was awarded to Christy Bennett, the daughter of Pam and Gary Bennett. Music for the dance was provided by Lynn Gibson and Wildfire.

The calf dressing event was won by the team from Lighthouse Electric. The members of that team were Larry

Ogden, Weldon Emert from Floydada and Tommy Billington from Lockney.

Gramm to arrive at airport

Congressman Phil Gramm, Republican candidate for U.S. Senate, will have a 30 minute rally at the Floydada Airport at 4:30 p.m. on Saturday, August 4. Everyone is invited and encouraged to attend.

Congressman Gramm will be welcomed to Floydada by Mayor Parnell Powell, and will make a short speech. After his talk, time will be available to answer questions from the audience.

Floyd Co. Republican Chairman, Albert Scheele, emphasized that everyone is invited - Democrats - Republicans and Independents. "Congressman Gramm is the only conservative candidate in this race, and if you want to support the Conservative candidate instead of the Liberal one, please attend this rally. Mr. Gramm needs your support and encouragement. I would certainly like to see a good turnout of farmers, business people, teachers and government employees. I am also hopeful for a good turnout from the Black and Hispanic segments of our community," stated Mr. Scheele.

"If we want fiscally responsible people running our government, we must turn out for rallies such as this to give assistance and encouragement to our conservative candidates and see that they are elected," added Scheele.

Phil Gramm, of College Station, Texas, 41, holds a BBA degree (1964) and PH.D. (1967) in Economics. He joined the faculty of Texas A&M University in 1967 and taught through 1978, becoming the youngest full professor in the history of the Economics Department.

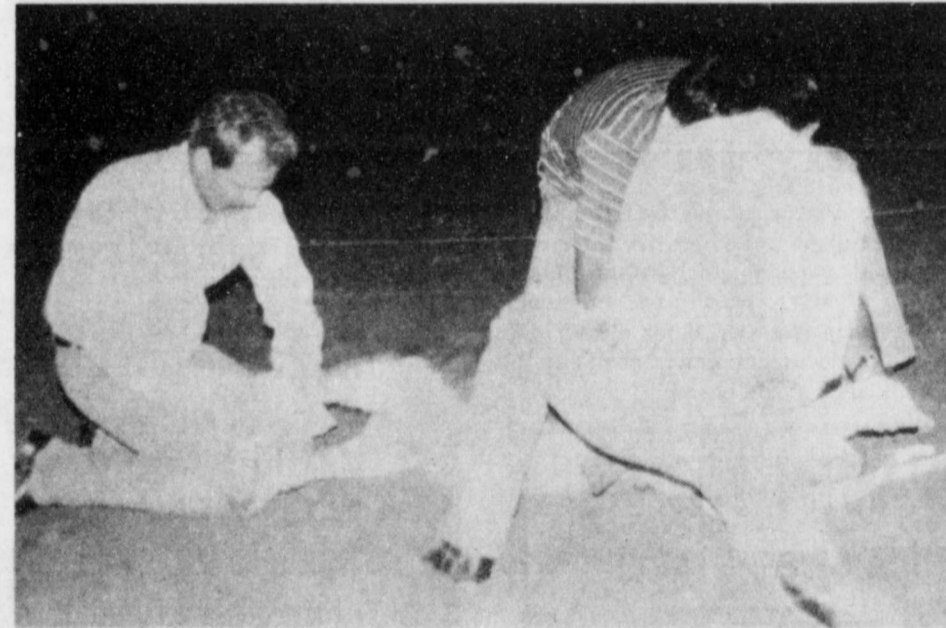

He founded the economics consulting firm of Gramm and Associates and

served as a consultant to the U.S. Bureau of Mines, the National Science Foundation, the Arms Control and Disarmament Agency, the U.S. Public Health Service and the Ministry of Natural Resources of the Province of Ontario, Canada.

Gramm is the author of several books, including *The Role of Government in a Free Society* (1982) and *The Economics of Mineral Extraction* (1980), and has published articles in the *American Economic Review*, the *Journal of Money, Credit and Banking*, the *Journal of Economic History* and numerous other academic journals.

Gramm co-authored the Gramm-Latta Budget, mandating spending reductions totalling \$143 billion in fiscal years 1983-84, and the Gramm-Latta II Omnibus Reconciliation Act which changed existing law to reduce the level of expenditures for 250 federal programs, lowering federal outlays by a total of \$131 billion in fiscal years 1982-84. He was a leader in the adoption of the President's three-year tax cut and was the co-author of the Bipartisan Recovery Budget of 1982.

Congressman Gramm was elected to the Congress on November 7, 1978, and was re-elected in 1980 and 1982 as a Democrat. Upon being stripped of his seat on the House Budget Committee in January of 1983 for co-authoring the Reagan economic program, he resigned from Congress and won re-election on Lincoln's Birthday, February 12, 1983, as the first Republican representative in the history of the Sixth Congressional District of Texas. He was re-appointed to the Budget Committee by the Republican leadership.

Robbery suspect caught

Sheriff Fred Cardinal traveled to Plainview on Tuesday, July 31st to question Paul Hurd in regard to the robbery of the Floydada Allsup's Store at 102 E. Houston on June 29th at approximately 3:30 a.m. Hurd made a written statement to the effect that he and Dock Allen (Peanut) Parker, Jr. had robbed the store in Floydada, using bolt cutters to open the drop safe carrying a

rifle and a pistol as weapons.

Parker was killed during the July 17th Plainview robbery by a shot fired by a city police officer, Gary Thurman. The Hale County Grand Jury returned a No Bill against Thurman following the investigation of that incident. Hurd remains in custody in Plainview and was being questioned by officers from Tulla about robberies in the Tulla and Kress areas.

CREDIT COURSES

Would you be interested in taking college credit courses locally now or anytime in the future? The Texas Engineering Extension Service is working with South Plains College in Levelland to bring this program to Floydada and the surrounding area.

The cost of the first semester's 3 hour course would be \$68.00. A 6-hour course would be \$89.00. Considering the cost of commuting to a nearby college, this would be cheaper and much less time consuming.

Questionnaires may be obtained by calling Judy Allen at 983-2827 or at the First National Bank, Summit Savings, or the Floydada School Office.

Your prompt response is needed at this time in order to show South Plains College our need. With enough interest shown courses could begin in September; otherwise a January class would be the next earliest date.

Let's not pass up this opportunity through failure to respond immediately.

BUS DRIVING COURSE

School bus driving course will be taught at A.B. Duncan Elementary Cafeteria August 13, 14, 15, 16, 17 from 1-4 p.m. and will conclude on August 18 from 8 a.m.-1 p.m. Mrs. Dale Tyer will be the instructor. Gray named co-chairman

Robert L. Monaghan, regional chairman for the REAGAN-BUSH '84 campaign, today named Bill Gray of Floydada as co-chairman of the President's re-election campaign in Floyd County.

Bill Gray is shop foreman of a farm equipment and supply business and has been actively involved in many political activities, including the 1964 and 1968 Reagan for Governor campaigns in Texas. In 1980 Gray served as the county chairman of Floyd county and in 1982 was the Floyd county chairman of the Bill Clements campaign.

U.S. Senator John Tower, the President's campaign chairman in Texas, said, "I am delighted Bill Gray has agreed to organize our campaign in Floyd County and I am confident he will help us tell the tremendous success story of the Administration."

"Because of President Reagan's strong leadership, our national defenses are being strengthened and our economy is growing again," Tower said. "The dramatic drop in inflation and lower taxes mean today, a Texas family earning \$25,000 a year has \$1,000 more in purchasing power."

Texas campaign co-chairman Martha Weisend added, "Our job in the REAGAN-BUSH '84 campaign is now to tell that success story in homes and schools and offices throughout this great state. Grassroots organization in all 254 Texas counties will allow us to do that," Weisend said.

"I am confident Bill Gray will help us meet our goal of identifying every potential voter for President Reagan and getting those voters to the polls in November."

ANNA LETA BRADSHAW, MISTI ORMAN

Bradshaw and Orman receive award at seminar

The 85 yearbook staff attended a seminar at Lubbock Christian College sponsored by the Taylor Publishing Company and represented by salesman, Jerry Clark.

Anna Leta Bradshaw, the editor of the 85 yearbook, and Misti Orman, who is assistant editor, had to make a ladder diagram for the annual. The seminar also included making layouts, designing

a cover, devising a theme, and inshets.

Friday, July 20, at the awards session, this F.H.S. team won the Outstanding Yearbook Layout for the Taylor Seminar. Floydada's Yearbook layout was one of four chosen.

According to Janet Milam, annual sponsor, approximately twenty schools were represented during the session. Jaynette Harrison also accompanied the group.

Benefit slated for school

A benefit for the Motley County School will be held Saturday, August 4, at the tabernacle located on the rodeo grounds in Roaring Springs, Texas.

The activities will begin at 5:00 p.m. with a "GONG SHOW". Entry fee will be \$1 and prizes will be awarded for 1st, 2nd, and 3rd places. Entries will be taken from 12:00 noon until 4:00 p.m. at the tabernacle. Both serious and funny acts will provide an entertaining evening.

A dance featuring Jerry Jay and the

Armadillo Band will be held on the dance slab from 7:00 p.m. until 1:30 a.m. Price of the dance will be \$5 per person.

Extra activities will be planned for the children. The Texas Ranger baseball team is providing prizes for the children's activities. The famous "Walter Jones Bar-B-Que" sandwiches and cold drinks will be sold.

All proceeds will be donated to the Motley County school to help with the rebuilding of the school and facilities destroyed by the May 1 tornado.

"Texas" performance to continue through Aug. 25

Through August 25 a wave of 80 singers and dancers will continue to present the musical drama "Texas" for the public.

"Texas" is a musical recreation of the story of the settling of the Texas Panhandle in the 1880's. The show has spectacular sound and lighting effects including a storm with an exciting display of lightning and realistic sounding thunder and a prairie fire which features many of the "Texas" dancers.

The performers bring to life the politics, Indian problems, droughts, and celebrations of the era and they use traditional western songs to help give the audience a sense of the history behind the drama.

The drama was written by the late Paul Green and has been produced every summer since 1966 in the Pioneer Amphitheater located in the scenic and beautiful Palo Duro State Park located between Amarillo and Canyon.

The backdrop for the drama is a 600 foot cliff. How many outdoor theaters can boast a setting that includes huge boulders, live juniper trees, covered wagons, and trains as props.

"Texas" has a big story to tell, but its people are just ordinary human folks with loves, prejudices, faults, and virtues. Fortunately, these people tamed this land, at least a little-for us.

"Texas" is a most special place. Visitors in 1984 have discovered it to be the ideal place to celebrate anniversaries, birthdays, holidays, and family reunions. Senior citizens, girl scouts, conventioners, and foreign exchange students have all thrilled to the show's excitement.

There is still time to see "Texas" in 1984. The show plays until August 25 near Amarillo and Canyon. Tickets are reasonably priced and can be reserved by calling 806-655-2181 or writing P.O. Box 268, Canyon, Texas 79015.

Allsup's stores work for Jerry's kids

Allsup's Convenience Stores will again join the fight for the Muscular Dystrophy Association in 1984. Through Labor Day, Allsup's will display collection canisters for "Jerry's Kids" in all 271 stores in New Mexico, Texas and Oklahoma.

According to Jack Crow, Director of Public Relations, "The Muscular Dystrophy Association is seeking causes and cures for forty (40) crippling neuromuscular related disorders. They depend almost entirely on contributions from private contributions and corpora-

tions, and the proceeds from the Labor Day Telethon, so the canister collections play a very important part of the fundraising activities. We, at Allsup's, are proud to be a part of such a worthwhile endeavor."

In addition to the canisters, Allsup's "Door Bell Brigade" will be marching again this year! All area youngsters who would like to help MDA and "Jerry's Kids", are encouraged to pick up the Brigade packets at your local Allsup's store on Saturday and Sunday, August 25th and 26th. After collecting door-to-

door and returning the collections to the store, each youngster will receive a free fountain drink of their choice.

From Jack Crow, "We're looking forward to working with area youngsters in the campaign against Muscular Dystrophy. Thanks to all our friends and customers for your generosity, because your nickels and dimes add up to millions of dollars for research and treatment. So, look for the MDA coin collection canisters and give to "Jerry's Kids". Your pocket change can be the key to the cure."

A PHOTO of Kirk and Sons depicts J.T. Kirk and Ohmer, his son in the store in 1924.

A RECENT PHOTO pictures Layne Kirk, John Campbell, David and Jill Kirk.

Kirk & Sons continues "family tradition"

Layne Kirk returned to Floydada and became a full-fledged partner in Kirk & Sons July 1, 1984 to "carry on the family tradition" and is the fourth generation to work in the store. J.T. Kirk, the initiator of the Kirk enterprise, and family moved to Floyd County from Red River County and soon after became a silent partner in a second-hand furniture business with A.T. Hendon and Monroe Windsor.

In 1911 J.T. bought out Hendon's share and the firm of Kirk and Windsor was formed. Then, in 1918 Kirk bought out Windsor and in 1919 brought in new partners - his son-in-law, Stan Goen and son, Ohmer Kirk. The partnership of Kirk and Sons lasted until 1950 when J.T. Kirk died. In 1947 David Kirk began working in the store and was named manager in 1958. The partnership now consists of David Kirk; his wife, Jill; son, Layne; and limited partners Patricia O'Shea, sister of David; and Trueman and Dorothy Lee Kirk, David's brother and sister-in-law, from Houston.

The buildings of Kirk and Sons was remodeled in 1960 and expanded to encompass 12,000 feet. The store sells hardware, furniture, floor coverings, paints, sporting goods, appliances, and plumbing. Special lines carried are Tell City, Massoud, Stratford, Pulaski, Lane, Eastman mattresses, Shelby dinettes, Kingsbury lamps, Evans Black and Gulistan carpets, Ritz fans, Hoover vacuums, Maytag appliances, and Quasar T.V's.

However during the early years of the store, it handled Studebaker wagons, Standard and Moon buggies, and J.I. Case Implements until the mid thirties. Jill Kirk explained, "The wagons and buggies were kept on the second floor. The merchandise would be placed on a hand-operated elevator located in the rear of the store so that it could be transferred to the floor above."

Although the store has a rich history, it has progressed and kept up with the times. Layne, the new partner and son of David Kirk, has been employed with Amarillo Hardware for the past three years in Amarillo and Wichita Falls. His wife Susan, teaches special education in the Plainview school system.

David Kirk's wife, Jill, has worked in the store "off and on since 1947" and is a partner in the store. In addition to Layne, the Kirks have two other children. Kerry Kirk is a band director in the Plainview schools and Kristie Lutrick is an executive assistant in Convergence Corporation in El Paso.

Regarding services Kirk and Sons offers, Jill stated, "We handle many things that only a specialty store would have like case knives, Ritz fans and Hoover vacuum cleaners."

David remarked, "We are the only Maytag dealer in town authorized to service Hoover vacuum cleaners, Maytag appliances and Quasar televisions. One of our main services to customers revolves around our carpet lines. We can install carpet quickly and will stand by the product and installation."

Picture framing is one of our biggest

departments. It brings customers from out of town. John Campbell, who has been with us for thirty years, is an expert in the field - he certainly does quality work," stated David.

Jill said, "The varied selection of stock helps people to stay in town to do their purchasing. This regenerating of County money helps our city grow."

Layne invites everyone to come in and compare prices on their quality merchandise. The merchandise is always

backed 100%. Layne added, "Floydada is the best town to live in with a population of less than 4200, it is also the County seat. We are the big city for Matador, Crosbyton, Turkey, and Quitaque and attract business from many of these towns."

Regarding the people of Floydada, David said, "If I didn't live in Floydada, I would move here. It has the best people in the world and the people make up the community."

SOUTH PLAINS NEWS

by Mrs. Murray Julian

July 23

Hot summer days are here with no rain in our vicinity the past week. Farmers have started irrigation wells, and many are hoeing cotton.

Mrs. Cecil Osborne took her mother, Mrs. Corda Taylor back to her home in Muleshoe on Friday after she had spent the week here, and on Saturday the Rev. and Mrs. Osborne took their grandchildren, Jennifer and Jaime Somers to Vernon where they all met their folks and enjoyed luncheon, and then sent the children home to Lewisville with their parents, the Rev. and Mrs. Rom Somers. The little girls had spent the past two weeks here with their grandparents.

We welcome Mr. and Mrs. Blake Kitchens to South Plains. They moved here the past weekend to the home in South Plains occupied by Mr. and Mrs. Rance Young and little son, who moved to the Young farm up north. The Kitchens are a young recently married couple. Blake grew up in our vicinity and his family lives here.

Visitors at The South Plains Baptist Church services Sunday morning included Kristi Julian and guest Susan Couder of Midland, both students at Texas Tech. They were weekend guests with Kristi's parents, the Kendis Julians.

Latham Dickens of Plainview spent several days last week with his grandparents, the Sylvan Kinnibrughs. Wednesday Bobbie's sisters, Mrs. Cecelia Spivey of Navasota and Mrs. Sybil Simmons of Truscott came. Then on Friday Bobbie Kinnibrugh and her sisters, Mrs. Spivey, Mrs. Simmons and Mrs. Edith Dillard of Lockney left for Ruidoso, New Mexico where they enjoyed the weekend. They found it cool there.

Word has been received of the death of Jim Baker, 82, of Hubbard, Texas. Mr. Baker had passed away after a short illness on July 15, with burial there in Hubbard on July 17. Mr. Baker was the father of Mrs. Bessie Bradford (Myers) who formerly lived at South Plains. Among the survivors of Mr. Bradford are his two grandsons, Douglas, Bradford of Silvertown and Larry Bradford of Amarillo.

Mr. and Mrs. Raymond and Nina Upton were accompanied by Mrs. Elva Blum of Floydada on a trip to Los Alamos, New Mexico where they visited several days last week with their children, Mr. and Mrs. Ronnie and Betty Upton. They were to come home on Wednesday, July 18, but due to the death of Mrs. Beulah Ramsey they returned home a day earlier, on Tuesday to be here that day for the funeral services of Mrs. Ramsey.

Mr. and Mrs. Marc and Barbara Smitherman, who have been living in Lubbock the past years have moved recently to their new home in Knoxville, Tennessee. Marc is employed as Field Sales Engineer for Browning Industrial in Knoxville, and Barbara is Product Manager for the new Philips Home Interactive Systems Inc. They work closely with Philips' Dutch affiliate, N.V. Philips in Holland.

The Smithermans have bought a home which overlooks Loudoun Lake, and the Smokey Mountains make a beautiful background. Marc reports there is an awful lot of grass to cut! Marc grew up here at South Plains, and attended schools here. He is a 1978 graduate of Texas University at Arlington. We want to wish them happiness and good luck in their new work and in their new home. Their folks here are Phillip and Mildred Smitherman and grandparents, Ruth and Ernest Smitherman, all of Floydada.

We reported that Mrs. Mamie Wood went with Mrs. Riley Teague on July 4th as they attended a showing of the show, "Texas." But the thing I was not aware of was that Mrs. Gertie Smitherman also went with them. I send my apology for the omission.

Mr. and Mrs. Jim Roberts have announced the engagement and approaching marriage of their daughter, Cari, to Mr. Brett Splares, son of Mr. and Mrs. James Splares of Houston. Cari is a Medical Laboratory Technologist at Methodist Hospital of Houston, and the assistant supervisor of the Serology Section of the Pathology Department. The groom-to-be is employed at the Nuclear Pharmacy, Inc. of Houston. Wedding plans are set for September 8, at Westbury Baptist Church in Houston. Cari grew up in our area, and we wish them much happiness in the future.

Mr. and Mrs. Grigsby Milton and their daughter, Mrs. Jerry Chappell, have just returned from a delightful trip to Winnipeg, Canada, where they flew in the Milton plane. The weather was

wonderful and the fly-in program was enjoyed. We hope to get more details of their trip by next week.

July 30

Wonderful, wonderful rain showers fell here on Saturday afternoon. Rain coming in several different showers, and in one shower the rain was very heavy, and the winds were fierce. Fruit was knocked from some trees, and there were some broken branches, but the rain was so nice, and farmers got to turn off wells, at least for the time being. 1 inch and over, fell here in South Plains, and 1 3/4 was reported in other spots. To the south there was less than an inch that fell.

Mrs. Nellie Carlisle, 52, of Plainview who died Friday at 9:30 p.m. was the cousin of Rev. Cecil Osborne, pastor at South Plains Baptist Church. Services are to be held this Monday, July 30, at 2:00 p.m. at the Seth Ward Baptist Church in Plainview, with Rev. Cecil Osborne officiating at the services. Lemons Funeral Home is in charge of the burial. We extend our sympathy to Rev. Osborne and all the family members.

The Jones Family Reunion was held at the Floydada Country Club last Saturday and Sunday with 96 family members and 4 guests. Sweets, and all kinds of foods were brought by families, with sandwiches and relishes served then Saturday night they all enjoyed pizza at the Pizza Gold in Floydada. Sunday they spent time playing horse shoes, swimming, and other diversions, and Sunday dinner was enjoyed by all. Attending from our community were Mr. and Mrs. Nathan and Connie Johnson and boys, Tracy and Troy. The reunion was held July 21 and 22 of July.

Mr. and Mrs. Sylvan and Bobbie Kinnibrugh spent from Friday to Sunday down at Iowa Park with their daughter, Mrs. Marilyn Horne and Melissa, and going with them for the weekend was their grandson, Latham Dickens of Plainview. Saturday night they all attended the wedding of Rhonda Wheeler and Mike Haus, which was held at the Methodist Church in Iowa Park, at 7:00 p.m. Latham was ring bearer at the ceremony. Latham remained to spend the coming week with his aunt, Mrs. Horne and Melissa.

Next Sunday, August 5th, at 3:00 p.m. The South Plains Baptist Church members with Rev. Cecil Osborne, song leader Kendis Julian, church members and pianist Mrs. Darla Chappell, will be going to the Lockney Convalescent Home in Lockney to have Sunday afternoon services for those who are at the home. Please come and help sing at the services.

Lane Decker, formerly of Floydada, has moved here to the former Smitherman residence on the Silvertown Highway. We have been sorry to hear of the accident which happened to Carlton Johnson, who was hurt in an accident with his pickup early one morning recently. He is much better now, but was "banged up" quite badly, and we are awfully glad to hear he is getting back to his old self.

Spray planes have been working all this past week here at South Plains, as they fly over the fields all day long.

Mrs. Sara Probasco from South Plains took a 1st place award at the Crosby County Cultural Classic Arts Festival held at the Pioneer Museum in Crosbyton on July 20-21. There were 45 entries from an area of Texas cities plus Oklahoma and New Mexico. Sara's entry was her stained glass design entitled "Pheasants," featuring life-sized pheasants, etched clover and Brazilian agate. She also won a 3rd place, for her "King of Kings" made from glass from old church windows. We are proud of Sara, and for her.

When they reached Winnipeg Saturday, there was registration, tours and other events, Sunday there was church service and through the week they had every kind of entertainment, talent shows, buffet meals, seminars, awards presented, interest-

ing shows, reports, tours and all kinds of activities. As they left Friday, they enjoyed a Fly-out Pancake Breakfast. They had a wonderful trip.

Mrs. Nelda Staples, Stacey and Kevin visited Mrs. Becky McNeese and Holly of Vernon over the past weekend before last, and Stacey remained to spend this week with Holly at Vernon.

Mrs. Letha Mulder spend the past weekend up in Amarillo with her daughter and family, Kathy and Jerry Taylor with their children. She returned home this Monday night.

The brother of Mrs. Bonnie Julian, Ted Everist, 82, passed away in Denver, Colorado July 24th, after a long and lingering illness. His services were this Monday, July 30, at the Wheat Ridge Presbyterian Church in Denver at 3 p.m. with interment at Crown Hill Cemetery. Mrs. Julian got to see and be with her brother when she was in Denver recently.

YARD OF THE WEEK—The yard of the home of Mr. and Mrs. Fred Cardinal at 625 W. Mississippi has been chosen by the Chamber of Commerce, Women's Division, as worthy of note this week. A neatly trimmed and well kept lawn is the focal point, with a large Colorado Blue Spruce tree for contrast. The walks are lined by red and green leaved caladiums and the porch is bedecked with many colorful hanging baskets and potted plants. A lovely sight.

At Pass Christian, Mississippi, an hour's drive from New Orleans, they stayed in the guest cottage of Dr. and Mrs. Jim Tanner while attending the fair, and enjoyed swimming in the Gulf.

About 1 1/2 inches of rain fell over the community last Tuesday.

Mr. and Mrs. William Bertrand, Mr. and Mrs. Bob Alldredge and Mr. and Mrs. Orvall Newberry vacationed in the mountains of New Mexico and Colorado recently, returning home last Tuesday. The area around Amantito, Conejos and Coyote Creek near Moray as well as the Monument Lake country made stopping

places for their campers and motor homes.

Mrs. Riley Teague went to Lubbock Friday to join friends from the Monterey Church of Christ Senior Citizens who traveled by bus to see "Texas" at Canyon. She spent the night, upon their return, with Mrs. Thelma Glass, who had been her roommate at the Arizona tour the group had taken earlier in the summer. Lula came home and started working in her yard, getting it ready for the rain that is bound to fall. She volunteered for work, last Monday, at White River Youth Camp, along with Mr. and Mrs. Joe Paty, and Mr. and Mrs. S.D. Hinds. They helped prepare breakfast and lunch for the campers. Several Floydada young people were baptized during their stay at the Christian Youth Camp.

The college courses being offered by South Plains College for instruction here in Floydada during the fall term are a wonderful opportunity for students of all ages. A three hour fully accredited college course is offered for \$68. Several Floydada people who are now teachers and nurses began their college work here in Floydada when the evening classes were offered by South Plains College a few years ago. The evening classes offered in Crosbyton by Texas Western College of Snyder are always well attended, including science lab classes as well as lectures. Floydada evening college courses being discussed are the basic English, history, psychology, accounting and computer courses. Call and ask for the subjects that interest you.

Miss Jody Smith was home from college for the week-end and attended the Floydada rodeo.

Everything is very dry in our community. Cattlemen are facing having to start feeding cattle soon as pastures are about depleted. Ranchers below the Caprock are already feeding cattle. Irrigated cotton and other watered crops look good. Days are hot and cloudy but no rain yet. In Madill, Ok., merchants are giving away free umbrellas as an act of faith that rain will come soon.

In some parts of the country it is believed that if a butterfly lands on you, you will get a new dress.

Floydada Nursing Home Happenings

By Florence Van Hoose

Monday morning we had company for our "coffee and socialization" time. Delzie Bradford and Edna Patton came and brought angel food cake for us. We all enjoyed it very much. Monday morning devotions were by Trinity Church. The singers were Rev. G.A. Van Hoose, Yvonne Williamson, Bill Webster, Shirley Varner, Sabrina Varner, and Mildred Thrasher. Rev. Van Hoose spoke from Psalms about God always hearing our cries. In the afternoon several of the residents worked on crafts. They started making ceramic wind chimes.

They were Annie Turner, Lois Parker, Sandra Parker, and Tom Parker. We are always glad to have visitors in the Home. In the afternoon we had a good time of Bible Study and a good discussion about Heaven. Then some of the Companions "N" Caring hosted an ice cream party. The ladies serving were Shirley Varner, Sabrina Varner, Leona Neff, Zula Mae Emert, and Wanda Williams. The residents all enjoyed the ice cream cones a lot.

Wednesday morning devotions were by City Park Church of Christ. The singers were Eva Tackett, Lorilla Bradley, Beulah Baker, Evelyn Pollan, Elva Blum, Myrtle Switzer, and Mary Spears. In the afternoon we went on the bus ride. We rode over to Ralls, bought an ice cream cone at the Dairy Queen, came back by the Country Club, then on back home. It was a nice day for an outing. OBITUARIES

FRANCE BAKER

Services for France Baker, 94, of Lubbock were at 10 a.m. Wednesday, August 1, in Broadway Church of Christ with Horace Coffman and Kline Nall officiating. Burial was in the City of Lubbock Cemetery by Resthaven Funeral Home.

The son of one of the founders of Lockney died at noon Sunday at his home following a lengthy illness.

A native of Hamilton, Mr. Baker came to Floyd County in 1890 with his parents. His father, James Baker, was a founder of Lockney and of a mercantile store there. Several years ago the store was awarded a Texas Historical Medalion.

On March 8, 1911, Mr. Baker married the former Leo M. Watson in Lockney. She died in 1969. While living in Lockney, he was president of the First National Bank. After moving to Lubbock in 1920 Mr. Baker became associated with Citizens National Bank, retiring as president in 1932.

He was involved in extensive farming interests in Lubbock and Cochran counties. The pioneer banker, businessman and farmer was active in the development of early churches and civic organizations of Lubbock. He was a member of Broadway Church of Christ.

In later life, Mr. Baker collected memorabilia of his past. Each artifact held a story from the land he had helped develop, a personal page of his own story through connection with people of the South Plains.

Survivors are two sons, Lennis W. and James G. Baker, both of Lubbock; two brothers, Dorsey Baker of Lockney and Norton Baker of Amarillo; five sisters, Nell Deavenport of Boulder, Colorado, Mrs. Lee Seaman and Dimple McGavock, both of Plainview, and Mary Phillips and Helen Gross, both of Port Lavaca; four grandchildren; and seven great-grandchildren.

The family suggests memorials to the Lubbock Children's Home.

Water district receives award

In the first award of its kind, the Groundwater Management Districts Association recently honored the High Plains Water District as the 1983 "Outstanding Water Resource Person of the Year." Don Smith, Water District Division Director, accepted the award at the 11th Annual GMDA Conference held in Tulsa, Oklahoma.

In presenting the award, GMDA President Tom Bell honored the Water District for exceptional service and contributions toward the protection, conservation and management of water as a valuable resource. Mr. Bell stated, "We take great honor in presenting this award to the High Plains Underground Water Conservation District No. 1. It would be difficult to think of any individual or organization who has had such a tremendous impact upon the way all of us think about conservation."

A. Wayne Wyatt, Manager of the High Plains Water District stated, "It is a great honor for our Water District to be the recipient of this award. It is a tribute not only to our Board of Directors for their exceptional guidance and direction, to our staff for their excellent dedication, but also recognizes the cooperation of the citizens of our area. For without their cooperation and acceptance of Water District rules and regulations, this award would not have been possible."

Lakeview vineyard

 approximately \$1000 per acre per year and the vines do not bear fruit until the second year. The grapes are marketed the fourth year. If a producer was lucky, he might make a return during the fourth year. Right now, the price for grapes is about \$600 per ton and grapes will yield 5-6 tons per acre after four years."

LOUIS PYLE is "out standing" in his field which happens to be a 40-acre grape vineyard in the Lakeview community.

"Grapes appear to be suitable to West Texas," Pyle explained. "It is a hardy plant and can take a lot of wind and drought. However, the heavy foliage is sometimes damaged during a high wind. The plants are resilient and can withstand hail. They require two irrigations during the summer and one during the winter. Fertilizer is not necessary; the roots often grow to a depth of 10 to 20 feet. There is really no disease problem and the white fly represents the only blight to the plants. The grapevine grows rapidly and adapts well to West Texas' hot days and cool nights. This combination forces the sugar content to rise and the sugar content has to be at its peak in order to produce a quality wine."

Although Pyle's vineyard is in its early stages, he is already contemplating a wine market. Llano Estacado is a young winery in Lubbock and Pyle is also considering one in Wharton which is close to Houston. At the Wharton winery, the company will come to the vineyard with a stainless steel tank and squeeze the juice in the fields. The juice is then transported back to the winery. Pyle stated that the experimental station in Lubbock has been very valuable to his operation. They have raised grapes for several years and are in touch with growers around the world relaying vital information back to him. Pyle said that most area farmers regard his new venture with a "wait and see" attitude. "Producing grapes is too expensive to get very enthused about the operation - most farmers want a quicker return on their invested dollar."

Keep cotton strippers off crops

Farmers planting cover crops on land next to cotton should make sure they stay off these crops when harvesting cotton this fall.

"Running a cotton stripper through cover crops or turning the stripper around on such land can seriously contaminate cotton lint," points out Dr. Bob Metzger, cotton specialist with the Texas Agricultural Extension Service, Texas A&M University System.

Metzger cautions farmers about this potential problem as they begin planting ASCS approved cover crops, such as various grasses and legumes, to protect land from wind and water erosion. Some farmers also may be leaving the residue of previous crops on conservation acreage.

"Once cover crops mature, the fibrous stems can contaminate lint cotton if farmers aren't careful during harvesting operations," notes Metzger.

"This is particularly a problem when cover crops are planted on turn rows or in skip rows between cotton."

The specialist encourages farmers to plan ahead to ensure that cover crops will not interfere with cotton harvesting. Situations in which part of the stripper header is forced to operate over cover crops should be avoided.

"I was surprised how quick the variety was ready to graze."

"In fact, some of my neighbors tried to rent my pasture when they saw how much better established it was than others all around us."

Pioneer® variety 2157 gets off to a fast start, quickly establishing the kind of healthy, vigorous growing stand so necessary for good pasture. Its upright growth habit helps provide maximum available grazing.

And because 2157 has proven to be such a good yielder, you can count on it to deliver top-quality wheat at season's end. If pasture is part of your wheat program, new 2157 should be, too.

New Wheat Variety 2157
 Superior Yield • Excellent Standability • Outstanding Grazing

"When I pulled my combine into the field, I knew for sure this wasn't an ordinary wheat crop."

"That 2157 was standing out there good and straight. And when I moved down the rows, I could hear the cylinders running full."

Farmers who've seen this impressive new high yielding variety like its standability and tolerance to dry growing periods and severe weather. It has excellent resistance to leaf rust, fungal leaf blights, soil borne mosaic virus and the Hessian fly.

In side-by-side comparisons, Pioneer® brand 2157 wheat has consistently out-yielded other popular varieties. And it has shown consistently high test weights.

The Farmers and Ranchers Prayer

As farmers and ranchers, dear God, give us the patience and wisdom to understand why a pound of steak at \$1.80 is "high", but a three ounce cocktail at \$1.50 is acceptable.

And Lord, help me to understand why \$3 for a ticket to a movie is "not bad", but \$3.50 for a bushel of wheat that makes 50 loaves of bread is considered unreasonable.

And a 50-cent coke at the ball game is "OK", but a 20-cent glass of milk for breakfast is inflationary.

Cotton is "too high" at 65 cents a pound, but a \$20 shirt is viewed as a bargain.

And corn is "too steep" at 3 cents' worth in a box of flakes, but the flakes are sold for 50 cents a serving.

And also, Lord, help me understand why I have to give an easement to the gas company so they can cross my property with their gaslines, and before they get it installed the price of gas has doubled.

And while you're at it, dear God, please help me understand the consumer who drives by my field and raises his eyebrows when he sees me driving a \$30,000 tractor that he helped put together so he could make money and drive down that right-of-way they took from me to build a road on so he could go hunting and fishing.

Also, dear Lord, try to help me accept the fact that for years I have labored and tilled the soil and paid my income taxes; and then after me and ma are gone our kids will probably have to pay more in death taxes than the farm cost in the first place.

Thank you, God, for your past guidance. I hope you can help me make some sense out of all this. And please, God, send some rain.

CEDAR HILL NEWS

By Carl F. Lemons
substituting for Grace Lemons

Grace Lemons flew to San Antonio Sunday morning to join relatives at the bedside of her brother John Anderson, who is a patient in Lackland Air Force Military Base Hospital there. His condition worsened at midweek and he continued to receive treatment in the intensive care unit.

Edna Beth Tye reports that her Aunt Clara and Uncle Albert Mize were feeling well enough to go for a drive and make some short visits Sunday afternoon.

Rosa and Elvie Lackey are both able to be at their home in Silverton. A girl helps them part-time with nursing and other chores. The girl plans to move in the near future, so the family is busy considering new plans.

Funeral services for Eric Wayne Fortenberry, two year old son of Carla and Donnie Fortenberry, were held at ten thirty Saturday morning. Words that were very touching were spoken by the Reverend Sparks, Eric's great-grandfather. Relatives and friends from New Mexico, Oklahoma, and Louisiana as well as Texas, came to be of comfort and support to Carla and Donnie in their time of bereavement. Eric's tragic passing serves as a poignant reminder to each of us that we should be continually prepared for the day and the hour when we must meet our own moment of truth.

Many of the Fortenberry relatives met in the Durrell Fortenberry home Saturday afternoon after the funeral. A number of our Cedar Hill ladies took

covered dishes of food which, together with surplus food from the noon meal at the First Baptist Church in Floydada, they served to the group for their evening meal.

Weatherwise our dryland is suffering and the irrigated crops need help. Something like ninety percent of Cedar Hill cotton has been sprayed for bollworms at least once with costs running between ten and twelve dollars per acre. Light showers appear to be just right to make worm eggs hatch and do their best. Stalk growth has slowed with bloom getting near the top of the stalk. This promises a small stalk with a heavy load, just right. Most of our milo is in the bloom stage needing water more than at any other stage. Dryland hay is wilted and curled, really drouth stressed. Some swathing and baling has been done, but most of our hay would make spectacular response to a good rain.

Jim and Viola Conner received a surprise visit from their son Robert and his family Saturday afternoon. Other activities had brought them so near by that they just had to stop by for a short time.

Mattie Davis and her sister-in-law, Louise Dunn from Hugo, Oklahoma, visited with Martha and Junior Taylor Monday. Mattie has recently moved to a different location in Plainview, across the street and just a short distance from her previous home.

Blessed is the man who is too busy to worry in the day-time, and too sleepy to worry at night.

PUBLIC NOTICE

AT&T Communications has filed with the Public Utility Commission (PUC) of Texas to introduce a new intrastate, optional long distance service to begin August 1, 1984, the same date "Reach Out® America" plan will be available for interstate calls.*

A new service designed to give customers the opportunity to reduce the cost of long distance in Texas has been filed with the state PUC by AT&T Communications of the Southwest, Inc.

"Reach Out® Texas" is an optional calling plan which will provide additional discounts on long distance rates for Texas customers who frequently place calls in the evening, weekend, and night time calling periods.

The new "Reach Out® Texas" plan for the first time extends the benefits of competition to many Texas consumers who previously have not had any discounted long distance service available to them.

AT&T Communications customers who choose this new optional service will pay a monthly charge of \$14 which entitles them to one hour of intrastate "Direct Dialed" (1 +) calling during the weekend and night rate period.

An additional customer savings for those participating in the plan will be that any Direct Dialed calls placed during the weekend and night rate period that exceeds the one hour period will be charged at an hourly rate of \$12, or \$.20 per minute.

Customers selecting this option also receive an additional 15 percent discount for intrastate Direct Dialed calls during the evening discount rate period for a total savings of approximately 38 percent.

A one-time charge of \$6 is billed when a customer orders the "Reach Out® Texas" plan. The \$6 is collected by AT&T Communications and paid to the local telephone company to establish the service. This charge will be waived during the first 90 days that the offering is available.

AT&T Communications is proud to offer this optional service for its Texas long distance customers and will in the future continue to introduce cost cutting programs to help Texans reduce their long distance bills.

A complete copy of the "Reach Out® Texas" tariff and rate schedule is on file with the Texas Public Utility Commission at Austin, Texas.

AT&T Communications estimates that the revenue impact of this new service would be significantly less than 2.5 percent of annual gross revenues.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene or participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information also may be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221, teletypewriter for the deaf.

*Customer billing for the optional calling plan will be provided for AT&T Communications through billing contracts with the local telephone companies. Therefore, the introduction of these rate plans into a specific area is contingent upon local company billing capabilities. Southwestern Bell Telephone Company has agreed to handle the billing in its service areas effective August 1, 1984.
