CT Scanner System available to Floydada

A diagnostic corporation specializing in service to smaller hospitals recently brought another of the modern miracles of medicine to Floydada. Curacare initiated the use of the Interad Whole Body CT Scanner System at Caprock Hospital on August 21, 1985. The Plainview based mobile unit made the journey to Floydada to perform tests on patients at the hospital.

The process of obtaining the use of this service was rather lengthy and required applying for a certificate of need from the state of Texas. Caprock Hospital joined approximately six other small hospitals in applying for the certificate. The process was completed and approval received in late May of 1984.

CT Scan examinations are quite costly due to the acquisition costs involved in obtaining the necessary equipment. A scanning unit costs approximately \$1 million, not an easy expense for a small hospital to bear. The mobile system allows examinations to be made at smaller institutions while holding the

cost down to no more than is charged in city hospitals.

"This new diagnostic service complements the other diagnostic services which were added to our hospital in the fall of 1984," said hospital administrator Guy Hazlett. "These services include ultra sound, cardiac doppler, and some more sophisticated laboratory tests."

In Floydada, exams are performed by Bob McNeill, department manager for Curacare in this area. The results are recorded on x-ray films which remain with the patient's records at the hospital. The x-rays are interpreted, or "read", by Dr. John F. Garvish, a qualified radiologist.

CT Scans provide a visual image of internal organs which cannot be viewed in any other manner. The exam allows reconstruction of images of any part of the body and is especially effective in identifying or documenting internal trauma. The results are available immediately since images are reconstructed simultaneously with the scanning procedure.

All controls and functions of the unit, as well as the necessary computer electronics are housed within a single operational console inside the mobile unit.

The scanning device is a doughnut shaped mechanism through which the patient travels on an automatically advancing exam table. The device emits energy waves from a circular camera. The waves pass through the patient and the images are formed by measuring the energy remaining after this occurs. The image is constructed through the use of computer graphics and can be recorded on x-ray film, video tape, or computer print-out sheets.

The patient experiences no discomfort and has no side effects from the procedure. In some instances, it is necessary to use a dye to pinpoint a particular area or problem. If this is done, an I.V. is used to administer the dye.

The availability of this service to Floydada once more improves the quality of health care provided to the district by Caprock Hospital.

"The biggest benefit to these services is that it brings the techniques available in large city hospitals to us and is a tremendous help to our physicians in diagnosing and identifying illness and disease in our patients," stated Hazlett.

Seat belt law could effect

Labor Day death count

The Department of Public Safety estimates that as many as 45 persons may lose their lives in traffic accidents in Texas during the 78-hour Labor Day holiday period.

"This number is an estimate, not a prediction," said DPS Director Jim Adams. "We hope this number will prove to be far too high."

In 1984, 41 persons were killed in collisions during the holiday period, with five others dying later of injuries suffered on the Labor Day weekend.

On September 1, Texas' new mandatory safety belt law goes into effect. The law provides a 90-day grace period before fines can be assessed.

"We're hoping Texans will start getting in the habit of using safety belts," Adams said. "If the vast majority of motorists make a conscious effort to buckle up during this Labor Day holiday period, we will see a dramatic decrease in the number of deaths."

Last year, 28 of the 46 persons who died were killed in accidents where speed or drinking were factors, Adams said.

"That amounts to 51 per cent of the fatalities for the period," the director continued. "The message to Texas motorists is obvious: speeding and drunk driving kill."

FLOYDADA NOWS HAS A COUNCILWOMAN—Mayor Parnell Powell administered the oath of office to newly appointed city councilwoman, Ginger Warren at City Hall on August 26. Warren was appointed at a special meeting on Friday August 23. STAFF PHOTO

Ginger Warren named to city council vacancy

A special session of the Floydada City Council was held at 3:00 p.m. on August 26 for the purpose of appointing a replacement for recently resigned city councilman Gary Carthel. Ginger Warren was unanimously voted into the position.

Warren, owner and operator of Ginger's Beauty Salon, was a city council candidate in the April 6 election. She received 199 votes out of 562 cast.

A lifelong resident of Floydada, Warren was educated in local schools and is a trained cosmetologist. She has operated her own business for over six years. She stresses her experience in managing her own business as back-

ground for the position and says that she would like to return something to the community that has done so much for her and her family.

Warren and her husband, Jerry, have two children, Tracey and Misty. Both take an active interest in the local community.

"I am very pleased to have been offered this appointment," said Warren. "I hope I can serve the people of this community well in the position."

Warren was sworn in at the city offices following the meeting. She will begin her duties immediately and will attend her first council meeting on September 9.

Lake water is being tested

Late last week Mr. Bill McMorries, Consulting Engineer of the firm of McMorries and Associates, was commissioned by the Authority to conduct a full battery of tests and analysis of Lake Mackenzie water, in an effort to determine what has caused the odor and taste in the water. Working in concert with Mr. McMorries is Mr. C.H. Scherer, a noted water consultant of Water and Environmental Technology of Amarillo. Both raw and treated water samples are being analyzed by this team to more clearly identify the cause. Final test results are expected by late this week. In the interim, McMorries advises the Authority that the current

treatment process is the best course for now.

Authority officials, as well as Health Department officials, continue to assure users the water is perfectly safe.

This news release was received from the Office of the General Manager of Mackenzie Municipal Water Authority on August 26.

Floydada has returned to the use of city wells for water service. The city will continue to pump the wells until such time as the taste and odor problems are solved at Mackenzie. Tulla is also reported to be using their wells for water service as of Monday.

Dove season begins September 1

Mourning dove hunting season opens in the north zone of Texas on Sunday, September 1. The season officially begins one half hour before sunrise. The season will close at sunset on November 9.

The daily bag limit is twelve birds with the possession limit being twenty-four. All whitewing dove hunters must have in their possession a whitewing dove stamp. The statewide bag limit allows two whitewings and white-tipped doves per day.

The \$6.00 fee for the stamp is used to purchase and develop whitewing nesting and feeding habitat areas. The purchase of the stamp will ensure a continuing supply of doves for hunting in future years.

Informal field reports indicate that more mourning doves have been observed this year and dove call counts in May show that populations are up over the past two years. This is still below the numbers of the average count in years gone by, but shows improvement.

Hunters are reminded that the Mator Wildlife Management area will again be open to them. Hunting will be allowed September 1 to October 31 from 30 minutes before sunrise to sunset. There is no restriction on the number of hunters and no fee will be charged. Each hunter must register at area headquarters upon entering and leaving. Regulations for the north zone will be observed.

Failure to report abuse is illegal

Regi Gross of the Department of Human Resources reminds everyone that it is illegal not to report incidents of child abuse or neglect to the authorities. An offense of this nature is a Class B misdemeanor punishable by 180 days in jail and or a fine not to exceed \$1,000.

From the Texas Family Code, Sec-

tion 34.07. Failure to Report: Penalty. (a) A person commits an offense if the person has cause to believe that a child's physical or mental health or welfare has been or may be further adversely affected by abuse or neglect and knowingly fails to report in accordance with Section 34.02 of this code.

Bank franchise tax returns to county

Among the \$61.6 million in checks, State Comptroller Bob Bullock forwarded from the first collection of the state's new franchise tax on banks, to 1,996 local taxing jurisdictions, more than \$28,000 made its way to Floyd County.

In a special session last year, the Legislature brought banks under the franchise tax for the first time and allocated receipts from the tax to cities, counties, school districts and other local taxing units where the banks are located.

Taxing entities in Floyd County each received varying amounts. The county received \$5701.42. The City of Lockney received \$738.72 and the City of Floydada got \$5,879.25. Floydada I.S.D. received \$10,729.61 while Lockney I.S.D. received \$2,844.05. The Lockney Hospital District got \$849.53 and Caprock Hospital District received \$2,351.71. Checks also went to High Plains Water and Mackenzie Water Authority.

Banks are taxed at the same rate as other Texas corporations. Previously, bank stocks were subject to local property taxes. The Legislature exempted the stocks from property taxes, substituting the new bank franchise tax. Collections are prorated among local taxing units based on their tax rates.

'Winds prepare for season

In pursuit of a winning season, the Floydada Whirlwind Varsity started slow in their first outing against Petersburg on August 22. The team's execution and enthusiasm soon picked up and the boys were showing a marked improvement by the end of the scrimmage, leaving hopes high for a better performance against Roosevelt this week in Lubbock.

Eighteen lettermen return to the field this year for the Winds. Team spirit is

running high and the benefits of having over 30 juniors and seniors is evident in the experience and leadership displayed on the gridiron.

Although the season opener on September 6 is not a district game, head coach Joe Paty feels that a win would give the team a positive beginning before facing Clarendon and Lockney. The Winds do not venture into District 2-3A competition until September 27 against Littlefield.

PETERSBURG VS. FLOYDADA—A scrimmage with Petersburg replaced the regular two-a-days on Thursday, August 22. Electricity prices remain stable under SPS rate-restructuring plan

Southwestern Public Service Company (SPS) expects to file a request Friday to restructure rates within 35 days for retail electric services in Texas, leaving prices essentially unchanged.

Residential electric bills will neither increase nor decrease under the plan.

SPS chief executive officer Bert Ballengee said the utility will petition SPS-served communities in Texas, and

the Public Utility Commission of Texas (PUCT), to increase base rates by \$40,842,255, but to decrease the boiler-fuel charge in bills by \$40,933,368. The difference is a \$91,113 decrease.

"Some costs to us have increased, and some costs to us have decreased," Ballengee said, "so we must restructure our rates to reflect those changes. But prices to almost all of our Texas

retail customers will remain the same."

The utility is petitioning the PUCT to decrease fuel charges, and is asking for a one-time charge credit to customers. Details on the fuel-charge credit will be available later, Ballengee said, after the PUCT has issued an applicable order.

SPS previewed the rate-restructuring request on July 31, in preliminary information packets distributed to the

Texas communities the utility serves.

The last increase in base rates for retail service from SPS in Texas was in mid-1982.

Ballengee said SPS had decreased costs primarily by improving operating efficiencies, by increasing generation at coal-fueled power plant units, and by renegotiating fuel and fuel-transportation contracts. Higher base-rate costs to the utility include costs of constructing a new-fueled unit near Muleshoe, Texas. The unit was brought into commercial service in June 1985.

Process of reporting VA annual income changing

According to Margaret Ann Herrera, Veterans Service Officer for Floyd County, this year will bring about some changes in the time and manner in which VA pensioners are to report their annual income to the Veterans Administration.

In previous years, all veterans, their widows, and their children, in receipt of disability or death pension benefits, were provided with an income card on November 1. The income report was required to be completed and returned prior to the following January 1, or pension benefits were terminated. Nineteen eighty-five will see some changes in the manner and times for this income reporting.

On October 1, 1985, the VA will send out income report forms to veterans, widows and children in receipt of pension under laws that were in effect

prior to January 1, 1979, and to dependent parents of veterans whose deaths were caused by service-connected disabilities. Also included in this first mailing of income reports will be pensioners under the new law that came into effect January 1, 1979, but only those who have foreign mailing addresses.

Beginning on December 1, 1985, and extending through September 1, 1986, the report forms will be mailed to a number of new law pensioners each month. This should drastically reduce the tremendous load of income reports Service Officers have been faced with November 1 for the past several years. When a pensioner receives the report form, he or she should contact the local Veterans Service Officer for assistance in completing it as quickly as possible.

South Plains News

by Mrs. Murray Julian

South Plains, August 26th:

Hot, dry weather still is here, and the poor little sunflower heads droop more and more each day. This Monday there is a good breeze blowing, but there hasn't been much wind the past week. It takes lots of water to keep your trees and bushes alive these days.

It was so good to see Raymond and Nina Upton out at the Baptist Church Sunday morning, and nice to see others we haven't seen for a long time. Mrs. Beth Swain and Latham from Plainview, Mrs. Corda Taylor of Muleshoe was present, and Mrs. Nina Sanders was present to lead the singing.

Mrs. Joyce Osborne and mother Mrs. Corda Taylor will be leaving this week to spend several days in Lewisville with Rev. and Mrs. Ron Somers and girls.

Mrs. Ruby Lee Higginbotham is spending several days in Lubbock with her son Bud Higginbotham, helping him celebrate a birthday on Sunday.

Mrs. Mamie Wood left after church Sunday for Lubbock to be with her daughter and husband James and Juanell Teague, as they had a surprise birthday on Sunday for James. He and Juanell had moved to Dallas but he was maneuvered back to Lubbock Sunday for the birthday surprise.

Bill Staples, son of Mr. and Mrs. Howard and Annelida Staples, who graduated from Floydada High School last May is now enrolled in Texas Tech University, and going into business Administration. He recently won a scholarship of \$250 presented and sponsored by the Texas Rural Electric Education and Research Committee.

Several couples from here went to Lockney August 24th to attend the Twenty-eighth Annual Stockholders Meeting and dinner given by the Lockney Cooperative Gin. A delicious supper was served as the program began. Sterling Cummings of South Plains was on the nominating committee.

Mrs. Teague and Mamie Wood went to Lubbock last Sunday to help their children, Mr. and Mrs. James and Juanell Wood get moved to Dallas where they plan to make their home.

Rev. Ron, Linda, Jennifer and Jamie Somers left for their home in Lewisville, near Dallas last Monday, after spending their vacation here with her folks, Rev. and Mrs. Cecil Osborne. We all enjoyed one Sunday to have Rev. Somers preach a sermon for the Baptist Church members.

Sparky and Maurine Parks started last Monday, August 19th to have a lovely new roof put on their house, and I

am sure they are very proud of it. It surely looks nice.

The South Plains Baptist Church is going through some rejuvenation, and first of all, the church received a treatment for some insect control, and then there will be a face lift and painting for the church and the parsonage coming up.

School is almost here, and registration for all students who will be attending Floydada High School for the coming 1985-86 school year, will be Wednesday, August 28, at the high school media center.

Mrs. Ophelia Sanders was taken to the Methodist Hospital in Lubbock this Sunday night suffering with neck pain. She is there in the hospital now, and we hope to hear good news soon.

Kathy and Nathan Mulder, who have been caring for her sister's children, Courtney and Teresa, from Charleston, Virginia, for the past three weeks and the Mulders took them to Oklahoma City last week where they put the girls on the plane for their home in Charleston.

Mrs. Letha Mulder went to Littlefield last Wednesday where she spent several days with her sister, Mrs. Inez Minyard. While there they canned lots of peaches, and Letha fixed some for her to have this winter.

The teachers at South Plains this coming year will have their first day of school on September 3rd, with principal Mrs. Charlene Starke, of Tulia who is also the kindergarten teacher, and Sharon Kelpas from Providence, whose husband is pastor there, will have the 5th and 6th grades; Miss Carol Arnold from Plainview will be teaching 3rd and 4th grades; Mrs. Barbara Chapman will be teaching 1st and 2nd grades, and Gloria Rodriguez from Plainview will be the aide. School will begin on September 3rd, and will go on through the week from Monday through Friday from 8:15 a.m.-11:15 a.m. daily for kindergartners. Mrs. Nina Sanders will have charge of the lunchroom and meals for the coming school season.

During the course, students were

Rebekah Lodge meets

On Wednesday night August 21st, The Rebekah Lodges of District #9 met in Plainview Rebekah Lodge #309 for the official visit of the President of the Rebekah Assembly of Texas, Johnnie Hefner.

The room was beautifully decorated with the Presidents Chosen Theme, "Extend the Fraternal Hand of Friendship." Her emblem, "The Oil Derrick," represents a major portion in our travel. "The Star" represents a star twinkling in the heavens to impart light thru the darkness of night. Her guide is "The Holy Bible." Her flower is "Cymbidium Orchid Pink."

Shower fetes Ferguson

Greeting guests were Mrs. Eugene Beedy, the honoree; Mrs. Richard Reker, mother of the prospective groom; and Mrs. Ray Gene Ferguson, mother of the honoree. Kelli was presented with a corsage of daisies and baby's breath that was accented with a pink and white checked ribbon.

Special guests present for the occasion included Miss Ferguson's grandmothers, Mrs. R.R. Ferguson and Mrs. Georgia Finley; her sister, Leanne Beights of Colorado City; her aunt, Mrs. Norman Ferguson of Graham and Mrs. Joyce McCoy of Snyder.

Leanne Beights, sister of the honoree, registered the guests in a beautiful white satin brides book that she had made for the couple.

Susan Turner presided at the table which was laid with a beautiful heirloom

double wedding ring quilt made by the future brides great-grandmother, the late Mrs. I. Gaither. Assorted garden flowers arranged in a antique pitcher highlighted the table. French cream tarts were served from the brim of a straw hat. In addition, heart shaped nut bread accented with fresh plum preserves and almond stuffed dates were served. "Pie in the face"

The Abundant Life Fellowship Church has been conducting a Kids Kru-sade the past few days. Sunday School Superintendent Terry Reeves promised to take a "pie in the face" if the kids could attain their attendance goal. The kids reached the goal and Reeves made good on this promise.

Pastor Lynn Bond prepares to do the honors.

NEW 2157 2165

Superior grain yields with a good grazing bonus. Excellent straw strength, too!

Our researchers were impressed by the tremendous pasture production and grain yields from these new varieties during testing. And now that the varieties have stood the test of actual production on many farms under many conditions, the proof is in!

They grow off well and show strong resistance to SBMV, leaf rusts, fungal leaf blights, and the Hessian fly.

New 2157 gives you good, early grazing, then stays with you through the winter. And the grain yields are right up there with anything you care to compare it against. Choose 2157 for dryland or limited water production.

New 2165 works with your irrigation program to make the most of all you put into the crop. Pasture comes on strong in the fall and grain yields are among the best you'll find, bar none.

See your Pioneer dealer right away. He'll show you yield results and interesting new facts about the advantages of pure seed.

LAKEVIEW NEWS

By Joyce Williams

August 29, 1985:

Nearly an inch of rain fell over our community last Friday and another good shower cooled everything off Monday night of this week.

Mr. and Mrs. Lanny Glasscock attended the Roaring Springs Old Settlers Reunion over the weekend. Norman Muncy was a visitor, too, as was Holt Bishop.

Dean Smith, son of Judge and Mrs. Choise Smith was honored with a family birthday dinner Sunday. His grandparents, Mr. and Mrs. Flukie Smith, came over from Lubbock. His sister, Mrs. Jody Hight, was here from Canyon for his party.

Guests at the Don Harrison home this week included Mr. and Mrs. Dick Furrow of San Diego, California. Max and Jeanette Harrison came out to enjoy Saturday night supper with the Harrisons while Dick and Inez were here. Mrs. Vivian Hall of Amarillo left Tuesday after a visit with the California kin.

Mr. and Mrs. Mike Bishop and sons, David and Warren, ate Sunday dinner with Mr. and Mrs. Howard Bishop. Holt Bishop was also a dinner guest.

Mrs. Monte Williams was in San Antonio the first of the week to attend funeral services for her grandmother Brian who died suddenly at her son's home Saturday.

Miss Marlyse McGaugh attended the Greenbelt football game at Childress recently. Marlyse and several other Floydada High School band students played in the band assembled for the game. Marlyse and other flag corp members attend flag drill practice each morning and each evening, getting ready for the first football game of the season.

Mrs. James Williams took Austin and Ashleigh to Snyder Saturday to wait at about halfway for her mother, Mrs. Helen Akins of Clyde, near Abilene, to pick up the children. They are enjoying one last vacation before school starts.

Forty members from Floyd County have responded to the request issued by Jimmy McGaugh to contact members of the Roaring Springs Ranch. A six member team has been nominated for

membership on the board of directors. These include Roger Hoffman, Lubbock; Buz Thacker, Roaring Springs; and Bennett Reaves of Lubbock. Mr. Hoffman owns apartments and rental property; Thacker is a Roaring Springs landowner and businessman, and Reaves is a professor of business law at Texas Tech University. Other names nominated include: F.C. Hargrove, Lubbock policeman; Mrs. Mary Garrett, housewife; and John Barnhill, Matador banker. To date, 1330 memberships have been sold, with 200 yet to be sold, reported Jerrold Jennings, manager.

Mrs. Kay Shields and two children of San Angelo and Mrs. Marty Pikala and two children of Lubbock visited the ladies' grandparents, Mr. and Mrs. Don Harrison last Thursday. Mona and Jean Dunn of Hale Center and Sandy Jones of Hagerman, New Mexico visited several days with Ruth and Don recently.

School children register this week and start classes Tuesday.

Go over to Crosbyton Saturday night for a good show at the Pioneer Memorial building. Scenes for the Blanco Canyon Pageant will be presented to the public. Tom Taylor and other cowboys presented a sampler for the Crosby County Old Settlers Reunion two Saturdays ago. They portrayed Rollie Burns and cowboys getting ready to attend a Christmas dance. All had washed their only white shirts and hung them out on the clothesline to dry. A cowboy carried in the shirts which were frozen stiff. The boys put a blanket on the dugout floor and attempted to iron the shirts dry with flat irons. Huge scorched spots resulted. The unlucky cowboy had to go to the dance wearing his old work shirt and "smelling like a billy goat," to his mortification, amid much hoarding from the other boys. Be sure and drive over for the big show.

Mrs. Viola Brown recently signed papers for a 50 year lease on her land for an outdoor amphitheatre where the Sesquicentennial Blanco Canyon pageant will be presented next year in 1986. This year's show will be in the Crosbyton Pioneer Memorial Auditorium Saturday evening.

BOUNTEOUS HARVEST—This stately, if somewhat bowed, pecan tree promises a magnificent harvest for H.S. Waller at 621 West Kentucky. The tree is well over 30 feet tall and produced 12 pounds of shelled pecans last year. The inset shows one small section of a branch bearing 55 pecans.

Pledge center prepares for MDA Labor Day telethon

The Floydada telethon pledge center for the "Jerry Lewis Supershow" will be at the Floydada Fire Department. Pledge center coordinator is J.E. Eckert and Floydada firemen. Everyone in the community will be urged to show their support for their town by calling the center during the telethon to make a pledge. The center's phone number will be announced periodically on the telethon which will be broadcast live at 8 p.m., Sunday, September 1 through September 2, 5:30 p.m.

Marcher kits will be available at the pledge center during telethon for anyone wishing to collect donations door-to-door. MDA recommends that everyone who collects in the area should carry some type of legitimate identification. People are also encouraged to take donations to the pledge center site, too.

Everyone who makes a pledge during the telethon will receive a pledge envelope in the mail within one or two days after the telethon. Pledge envelopes contain a return envelope that will go directly to New York. All contributions will be tallied, banked, and will benefit the respective local areas for use in research and patient services.

KLBK-TV, Channel 13 will broadcast Jerry Lewis's Supershow—the Labor Day weekend telethon to benefit the Muscular Dystrophy Association (MDA). Eric Summers and Vicki Hutson, KLBK's news anchor team, will host the local portion of the telethon.

The local telethon will focus on the area fund-raising events. MDA district director Paul Moore said that this will be "the year of the area pledge centers." The goal is to get more people in the pledge center communities involved. Over 12 area towns will join in the telethon telephone network.

Congressman Beau Boulter Reports from Washington

'85 FARM BILL DEMANDS ATTENTION

In the past three weeks I have talked to farmers in 20 counties throughout the 13th District. And after hearing what those farmers had to say, I decided it was time that I talk with the Secretary of Agriculture, John Block, about the agricultural crises I was seeing and hearing about first hand.

My primary concern, when I spoke with Mr. Block, was the wheat program. As the farmers know all too well, it's time for them to begin planting, and to date, they have gotten no indication from the federal government about what the wheat program for '86 will look like. Besides being unfair, it is highly impractical to have farmers planting without the benefit of planning. In my opinion, you don't put the cart before the horse, and you don't plant under a federal program if you have no real idea of what the federal program is going to be.

Although he couldn't be specific, Secretary Block gave me fairly strong assurance that the wheat set aside will come in somewhere on the high side between 20 and 30 percent. It's not exact, but at least it can provide our wheat farmers with a guideline.

That still leaves us with the very big question of what the 1985 Farm Bill will contain, unanswered. As reports continue to come in of some of the most bountiful crop harvests in years, increased pressure is put on Congress to come up with a farm bill that provides some solutions — long term solutions — to the problems farmers are facing.

As many farmers have told me, what is the glory of having a good year, a good harvest, when you know there isn't going to be a market out there for the crop? In 1981 a farmer could get \$4.21 per bushel for his wheat. Today, despite government programs, set-asides, and cutbacks, that bushel of wheat sells for as low as \$2.65.

The 1985 Farm Bill has got to take into account the problems our agricultural exports face overseas, and the need to open up our foreign markets. Otherwise, we are going to continue

to see farmers put in a position of having a large crop with the U.S. government as the primary customer.

The way things are right now, at harvest time, the government makes loans to growers of wheat, corn, cotton and other major crops to cover operating costs until farmers can sell the crops at the best prices. Loan rates are expressed in a per-bushel or bale rate set for each crop, and repayment is due at the end of a specified period of time. However, since crops are used as loan collateral, many farmers default on their loans if market prices fall below loan rates. The government ends up buying the surplus, incurring added costs for storage and spoilage.

There have been any number of suggestions made as to how best to run the Farm Program. Ideally, of course, agriculture should be allowed to operate solely in a free market system. However, because of unfair trade practices and agricultural subsidy programs in other countries, American farmers are at a devastating disadvantage on the export market. The 1985 Farm Bill must be designed to meet these problems head on. It should contain sections that would promote U.S. exports with good conservation measures, in hopes of increasing farm prices in the near future.

Because American farmers are dependent on world markets for the sale of their commodities, any omnibus farm program must recognize and incorporate this fact. If we in Congress are to produce a farm bill which provides equitable income protection to farmers, innovative solutions to our current problems will undoubtedly be required.

That is why we have got to look at the overall economic picture when addressing the Farm Bill. We must actively pursue a course that will enable us to lower interest rates, reduce the value of the dollar, and lower overall production in a fair way, if we are going to be competitive in foreign markets and realize our goal of increased prices and profits.

Plainview Community Concert Assn. offers outstanding season

An outstanding season for 1985-86 is being offered by the Plainview Community Concert Association with John Gary and Friends presenting the first concert Sunday, December 7.

All performances will be in Harrel Auditorium on the Wayland Baptist

University Campus in Plainview. The first three programs will begin at 8 p.m. and the last is set for 2:30 p.m.
