Hinsley, Womack, Quisenberry take top honors at show

Three champions were picked from 145 entries at the annual Floydada Livestock Show, Saturday, January 27, held at the Floydada show barns. There were 69 swine, 51 sheep and 25 steers entered in the show.

Jerry McCracken, Vo-Ag teacher at Roosevelt High School, named Amber Womack, daughter of Joe and Penny Womack, the Grand Champion with her 133 lb. heavy weight Suffolk. The lamb

was bred by Womack Suffolks and Candybrook Farm of San Saba.

Monte Quisenberry, son of George and Sharon Quisenberry, had the Grand Champion barrow. Quisenberry won with his 237 lb. light-heavy cross bred by Sam Howell of West Milton, Ohio.

Grand champion steer was won by Todd Hinsley, son of Kim and Sarah Hinsley. The light-heavy cross weighed in a 1230 lbs., and was bred by Hinsley

Farms.

All grand champion winners were awarded a belt buckle.

RESERVE CHAMPIONS

Zach Nutt, son of Edwin and Barbara Nutt, was named Reserve Champion, overall, with his 137 lb. lightweight Hampshire.

Reserve Champion pig was won by Carrie Emert, daughter of Weldon and Mary Emert. The 246 lb. heavyweight Hampshire was bred by H & H Swine Farm in Carnegie, Oklahoma.

The Reserve Grand Champion Steer award went to Jennifer Crow, daughter of Richie and Sue Crow. The 1,285 lb. light-heavy cross steer was bred by Barron's Farms in Nebraska.

SHOWMANSHIP

During the showing of the animals a committee of judges picked the exhibitors who they felt handled their own stock the best. These exhibitors were then awarded Showmanship plaques. The Showmanship competition was divided into two categories this year:

City asks for notification of controlled burning

Floyd County residents, who are planning on doing any controlled burning, are asked to notify city hall. An excessive number of fire calls have been answered only to find a property owner in the process of a controlled burning.

junior (13 and younger) and senior (14 and older).

The winners of the Lamb Showmanship were: Zach Nutt, senior division; and Amber Womack, junior division.

Branda Breed was named Senior Showman in the swine division. Junior showman was Monte Quisenberry.

Senior Showman of steers was Stacks Hinsley and Tali Cage was awarded the Junior Showmanship.

BREED CHAMPIONS

Breed champions and reserve champions in the respective breed groupings were:

Lambs—Finewool, Andy McHamm and Shonda Guthrie; Finewool Cross, Micheal Mercado and Sonya Campbell; Southdown, Casey Carthel and Rance Golightly; Hampshire, Zach Nutt and Amber Womack; Suffolk, Amber Womack and Aric Hendricks; Other Breeds, Mandi Yeary and Brady Anderson.

A few thoughts about things hither and yon while waiting for the rains to come.

We just returned from a few days in Washington. As you may imagine, gentle reader, our nation's capitol is all agog, again.

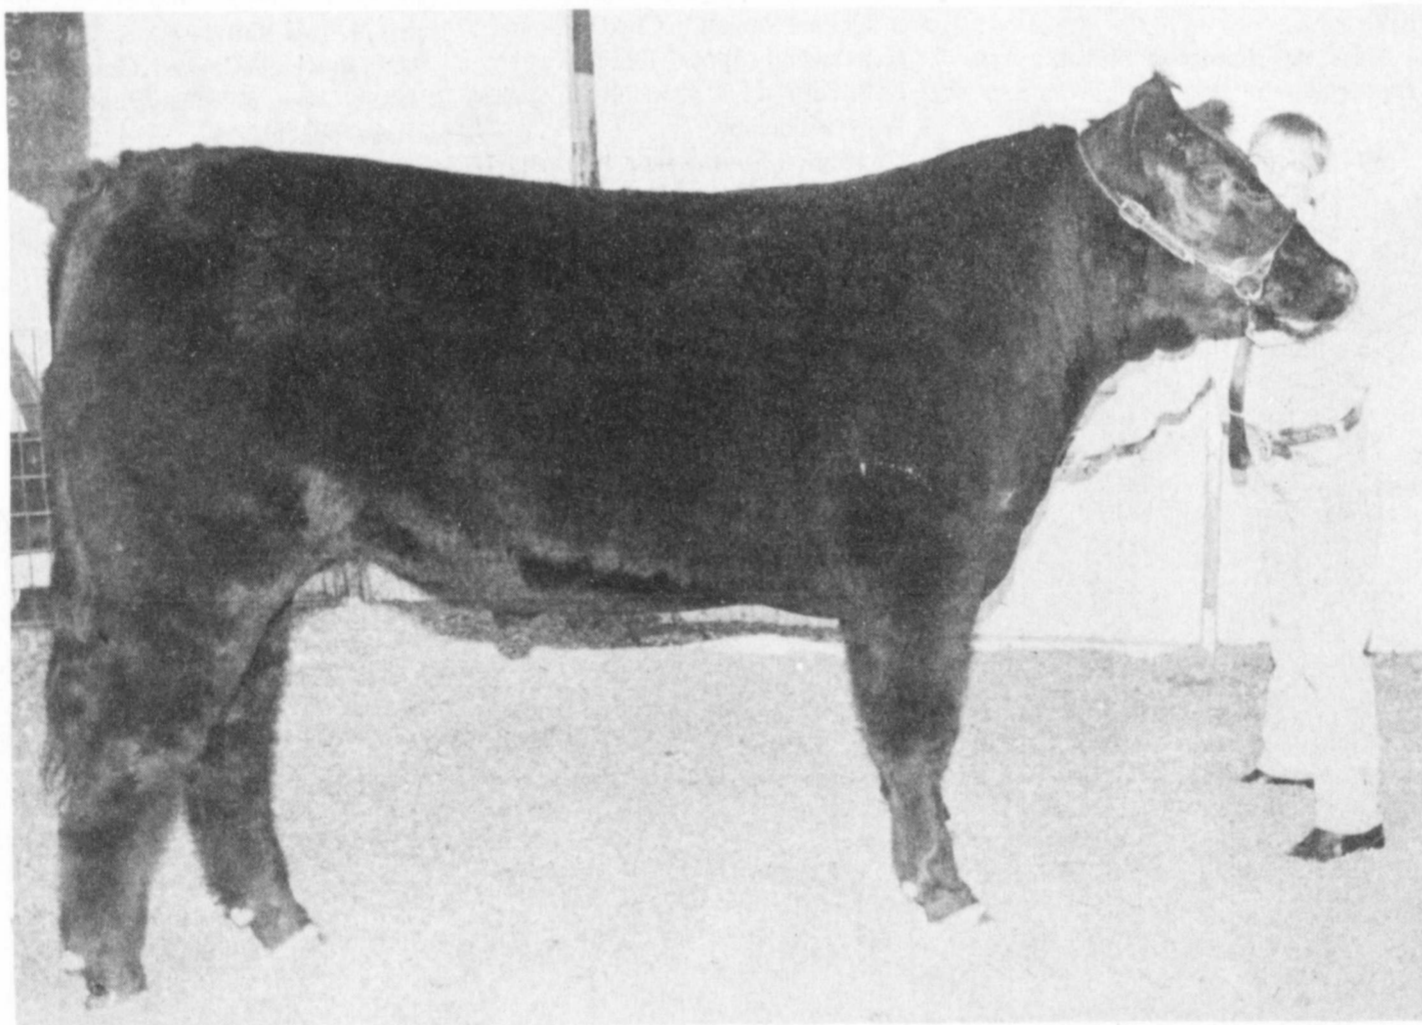

The FBI finally caught the mayor of the District of Columbia smoking crack cocaine, they say, and the mayor is off to Florida to heal his mind, body and soul. And incidentally get out of the line of fire while the feds look further into other aspects of his life. The beautiful young model who lured the mayor to his fate has testified before a federal grand jury, and an anxious populous awaits the next development.

We arrived there the day of the big event, and evening T.V. was awash. The mayor's "Cabinet", as he calls his staff, and his "First Lady" (meaning in this instance the woman to whom he is married) were all appalled and saddened, needless to say. A goodly portion of the political leadership of that town seemed to be convinced that it was all part of a white racist plot to bring down the nation's most visible black mayor, but among the young, the school kids, what we might call the "decent" part of the population, there was as much genuine adverse reaction as there would be anywhere. Among the working black people of the District, there were cries of outrage at being let down by the man in whom they had placed so much trust, even as the black politicians sought to blame it all on white people out to embarrass all black people. Strange, and yet not so strange.

Then Barry went on T.V., and with his wife and a bevy of preachers standing by his side, blamed it all on the fact that he had been working so hard for others, that he spent so much time "caring" for others, that he had not had time to worry about himself, or care for himself. How about that?

Even as this was going on, a move was afoot to elect Rev. Jesse Jackson to

Ninth grade ranked 29th in TEAMS

Recent released reports have identified the "52 best" school districts in the state of Texas. Ranked number 29 on the list was the Floydada Independent School District.

The criteria determining the ranking was based on scores from the Texas Educational Assessment of Minimum

Skills (TEAMS) tests administered to Texas ninth grade students during the 1988-89 school year. Ninth grade scores were chosen because these students are the first to be tested in three areas, mathematics, reading and writing.

All Texas students are tested in grades 1, 3, 5, 7, 9 and 11 for the purpose of

demonstrating their grasp of minimum skills at their grade level. Eleventh grade students must pass the test in order to demonstrate the minimum skills required to graduate from high school.

Eighty-eight percent of the ninth grade students taking the test in Floydada during February of 1989 passed the three tests.

Commented school superintendent Jerry Cannon, "We are all very proud of the students and are equally proud of our teachers and administrators who have helped the students prepare for these tests. This is quite an achievement for a district our size." Cannon added, "Parents should understand that the twelve percent not passing all three tests will be given extra attention to insure that they will develop the needed minimum skills before they are tested again next year."

According to the report released by the National Center for Policy Analysis

ADVANCE formed to educate local citizens on political issues

A group of Floydada citizens have formed a organization designed, they say, to educate local citizens on political issues. The name, ADVANCE, was chosen by its organizers in a Nov. 4, 1989 meeting.

Since that time, ADVANCE has been registered with the Secretary of State and officers have been elected. The officers are: Linda Ratliff (formerly Linda Burke), president; Jack Ochoa, vice president; Margaret Herrera, secretary, and Bolanda Perez, treasurer.

Board members are: Jesse Vela, Israil Sanchez and Mary Vasquez.

"The members of our community formed this organization," said Pres. Linda Ratliff. "Our main goal is to educate people of our community on political issues and their right to vote. We will not endorse a political candidate."

The organization was initially formed during a meeting Nov. 4, 1989, at the home of Francisco Morales, 508 E.

California Street. A copy of the typed agenda from that meeting was circulated around town, and included strategy and tactics for 1990 elections. Under the heading of strategy was a subheading of targeted individuals with a line pointing to their hand written names at the bottom of the page.

The names included: James Hale, Wayne Russell, Wayne Tipton, Parnell Powell, Bill Hicks, Gary Brown, Jimmie Lou, and Sharon Q. When questioned about the reasons for the target individuals Treasurer Bolanda Perez replied, "We don't know how those names got there. We did not write them down and those people were not discussed. We talked about registering to go vote and your right to vote."

When asked who organized the first meeting, Ratliff would not comment.

Also on the agenda of that first meeting was an introduction by Councilman

New doctor to open Floydada practice by end of next week

Floydada's new doctor, Dr. Michael Chamales, was scheduled to open his offices in Cogdell Clinic on February 5. However, due to illness in the contractor's family, the office of Dr. Chamales will not open until the end of next week.

Dr. Chamales and his wife, Linda, are both originally from West Texas. He was born in Amarillo and raised at Claude, where his parents still live. Mrs. Chamales was raised at Crane.

Dr. Chamales graduated from the University of Texas in Austin with a Bachelor of Science Degree in Pharmacology. He then attended the University of Texas at Galveston and received his M.D. there. He completed a Dermatology residency in Oregon. He has been very active in the Emergency department at St. Helen's Hospital and has had a very active Family and Dermatology practice.

After doing his residency in Dermatology at the University of Oregon in Portland, he and his family remained in that area at St. Helen's where he practiced medicine since 1972.

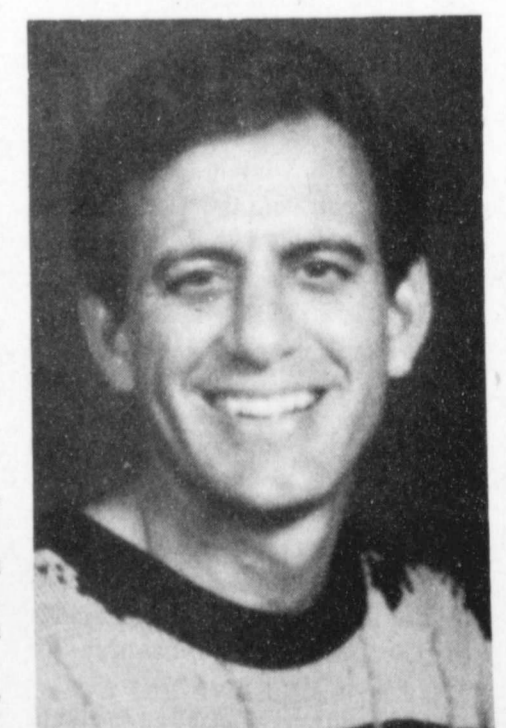

The Chamales' decided to relocate back in Texas to be closer to their parents. They also have a son who is a student at Abilene Christian University. Their daughter will be entering college next year.

Linda Chamales is an attorney. They are in the process this week of moving into their new home and getting this

office ready. They will reside at 908 West Houston.

The Chamales are members of the Church of Christ and are very active participants in community events and activities.

The community is invited to a reception for Dr. Chamales and his wife, Linda, on Sunday, February 4, from 2 to 4 p.m. at the hospital. Caprock Hospital urges everyone to come meet our new doctor and give him and his family a royal Floydada welcome.

replace Barry. Maybe there's hope yet. If Jesse really does get to be Mayor of Washington perhaps he can find a place in his "Cabinet" for Jim Hightower when Jim gets tired of being our Commissioner of Agriculture, or the people get tired of him being our Commissioner of Agriculture.

In the meantime, the FBI keeps looking, the models keep a low profile, the drug pushers worry, and we don't have the slightest idea what Congress will do. We suspect however, that given the makeup of the District, and given the makeup of Congress, there will be much more reluctance to rush to judgement than is usually the case.

Congratulations are in order to 9th graders in both Lockney and Floydada. From what we read in the Hesperian and the Beacon, the youngsters in both schools scored exceedingly well on the Texas Educational Assessment of Minimum Skills (TEAMS) tests, an accomplishment of no small proportion. Lockney's ninth graders ranked 25 in the entire state, and Floydada was only a point or two behind, ranking 29th in the state. Those who got them there, the teachers, should also be recognized as well. Congratulations all around. The tests were given to more than 1,400,000 kids in more than 1,000 school districts.

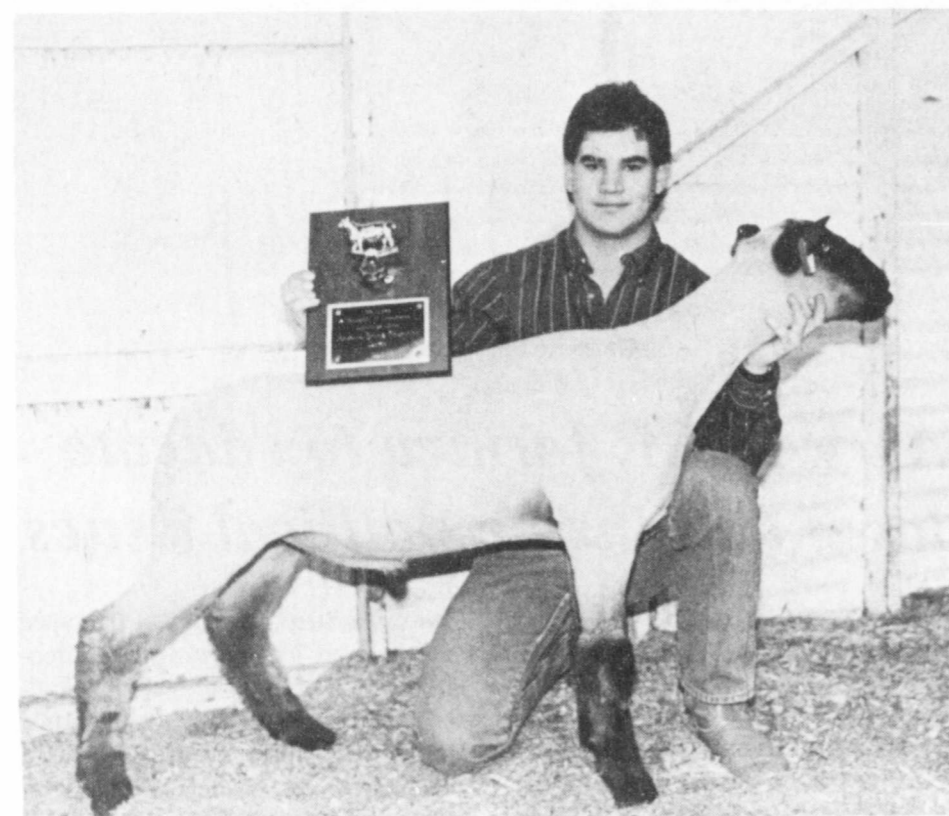

Those who gave the tests concluded that "overall, the performance of the public schools is poor, with only 62 percent of ninth graders showing minimum proficiency in reading, writing and mathematics. This means that four of every ten ninth-graders failed to master the minimum level of skills established by the state of Texas." Given that conclusion the local results look even better.

And finally, our congratulations to the new ownership of the First National Bank in Lockney. The sale has been in the works for sometime, as we understand the situation, but it is now finally concluded, approved, and the new folks are in charge. So we welcome James (Jim) Doucette to the helm and wish him and the new team (which now includes Claude Brown and J.R. Belt) well in the future. We look for good things from the change. After all, Mr. Doucette must have something on the ball. He had the foresight to settle on the South Plains after trying New York City and Dallas. That tells us something.

Boy — you wouldn't believe all the help we got on that Time Capsule!!! Now if we could just get two people to tell us the same thing! We have come to a conclusion with the information received - there must be several of them things planted around the courthouse.

Seriously though - thanks to Mrs. Mac Ward, Mrs. Lillian Ross and Mrs. Imogene Powell (nee Imogene Noland). Mrs. Ward and Mrs. Ross remember burying information about the Dougherty Home Demonstration Club, in the 50's sometime.

Mrs. Ross said she remembers burying a list of members and the history of the Dougherty community and the HD club. She said the club, of which she is a past president, taught women how to plan their wardrobe, how to dress correctly, table setting, value of foods, sewing, pre-natal care and child care. She said people thought all they did was learn to can stuff and they did a lot more than that. She couldn't remember when the time capsule was buried but she remembered it was sometime in the 50's. So we think it was during the 50 year anniversary of Floydada in 1959. So we looked all through the '59 papers and we can't find anything.

Then Wendall Tooley, past owner and publisher of The Hesperian, said he remembers a copy of the 1965 special edition of The Hesperian, commemorating the 75th anniversary of Floyd County, going into the Time Capsule. So we look all through the 1965 papers - and still nothing.

Then along comes Imogene Powell, of Ralls. She says she was the Queen of the 50th celebration in 1959. She said she had the original memo from Gov. Price Daniels congratulating the town on their 50th anniversary.

Mrs. Powell was sure the time capsule was buried after the beard judging contest on Friday in 1959. She thinks it is in the May 21, 28 or June 4 paper. That is the most specific anybody has been. We appreciate it. We'll keep looking.

Be sure and check out the new column of our District Attorney, Becky

McPherson. Hopefully she is going to write one, at least once a month. The title is pretty catchy—"Just The Facts, Ma'am."

I covered the stock show this weekend in Floydada. Clar Schacht announced that everyone was grateful to the city for furnishing the electricity and water to the building. Well—all I want to know is - who was responsible for paying the heating bill. You could tell the people that had been to these things enough times to learn all the tricks. They were the ones with pillows to sit on and blankets to cover up with.

I learned everything I never wanted to know about pigs but was afraid to ask. I found out some interesting trivia for all you farmers and ranchers out there. There was a report on the TV the other day that was quoting an official government report. They were trying to make heads or tails of the official government "double speak."

You folks that own pigs, cows, sheep and chickens, will be happy to know that they aren't called that anymore. The government now refers to livestock as "grain consuming animal units." Pigs don't live in pig pens anymore, and chickens don't live in chicken coops anymore. Instead they live in "single purpose dwelling structures."

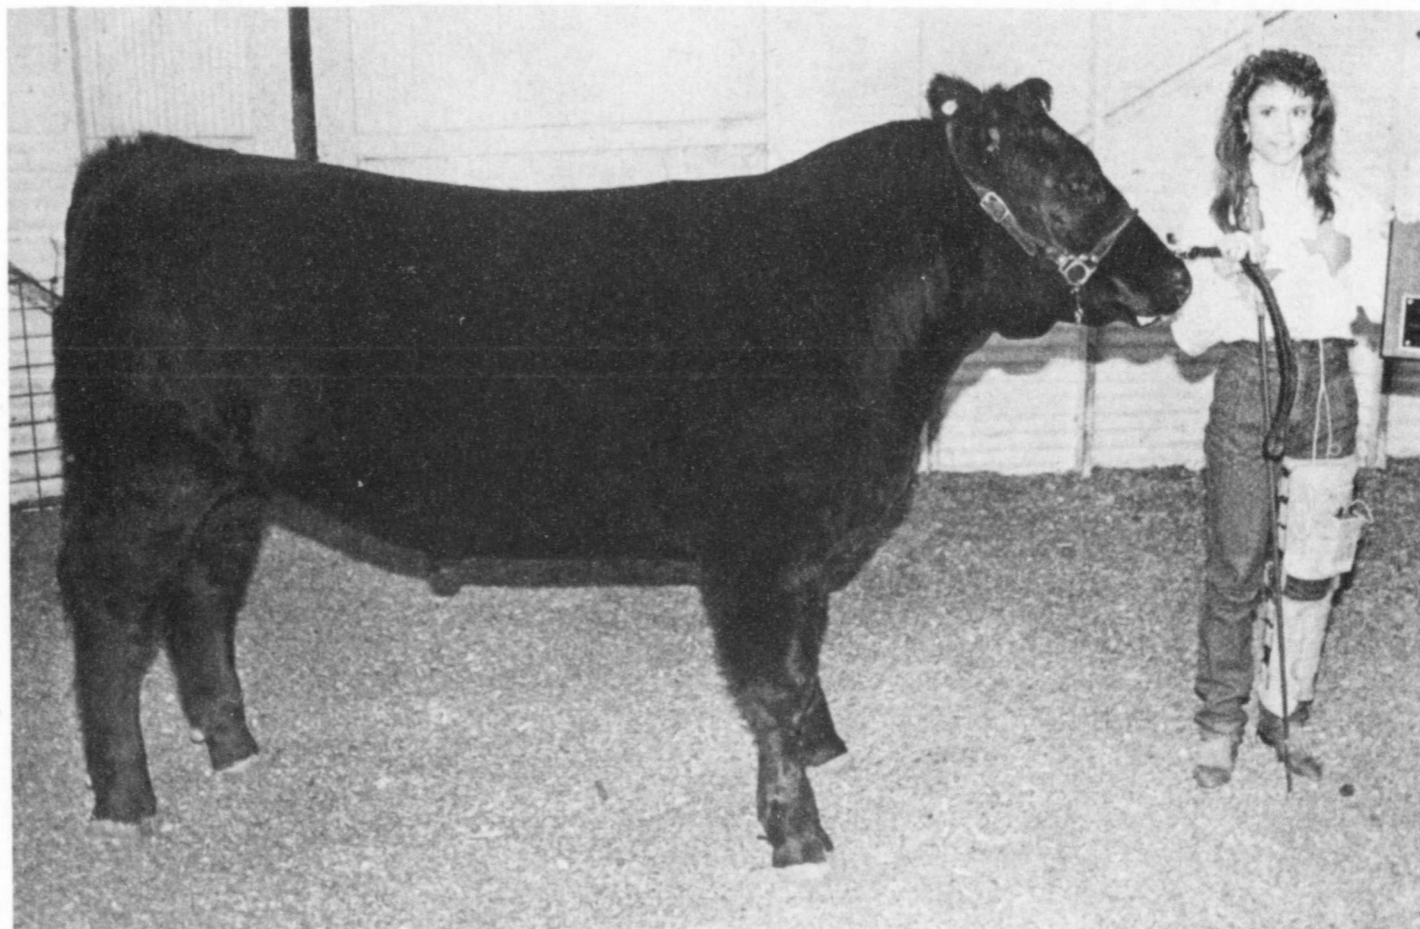

I just wanted to pass that along before the County Wide Grain Consuming Animal Unit Show next weekend.

 Morales. Speakers listed were Councilman Barrientos, Councilman Jackson of Plainview, Councilman T.J. Patterson of Lubbock and Commissioner Eleseo Solis of Lubbock and the Arriba Organization Cofelia.

Even though mentioned on that first agenda, Ratliff explained saying, "I can safely say that the only thing that came out of that meeting that has anything to do with us, was our name, ADVANCE. Those councilmen and that commissioner have nothing to do with us."

"No elected official can serve as a board member in our organization. We want to educate the community because we feel the better you know the candidate the more responsible you will be on your vote."

"The money for operating expenses comes from membership dues," explained Treasurer Perez. "Dues are \$20.00 annually per family and \$10.00 for senior citizens. If you are on a limited income you can pay quarterly. We are a non-discriminatory and non-profit or-

ganization. We will accept donations, however donations are not tax-deductible."

"We are currently looking at the possibility of holding a political forum," said Ratliff. "Our first meeting as an organization will be held on Feb. 3 at 7:00 p.m. at Lighthouse Electric. It is a public meeting and everyone is invited. We will take into consideration all suggestions that anyone has."

Ninth grade ranked 29th in TEAMS

Continued From Page 1
 on January 17, 1990, there is no evidence to indicate a relationship between the taxable wealth of a school district and TEAMS test performance. The same report also states that the amount of money spent per student in a district apparently does not have an appreciable effect on test performance.

Statewide, minority students perform at about half the proficiency of Anglo-American students. Traditionally, less

than half of the Hispanic students and Black students are able to pass the tests while more than 70 percent of the Anglo students master the minimums.

FISD minority students demonstrated considerably better grasp of the minimum skills than statewide averages. The approximate ethnic breakdown of the 1988-89 ninth graders taking the test was 37 percent Anglo, 51 percent Hispanic, 11 percent Black and one percent other.

Museum receives collection

On January 26 the Floyd County Historical Museum received a vast assortment of photographs and memorabilia of the J.D. Starks family, early settlers of Floyd County. The presentation was made by Sam Green, great-grandson of J.D. and Ella Starks.

Included in the collection were interior views of the first residence and the first post office in Floyd City (Floydada), numerous pictures in downtown Floydada (1900-1920 era), and several rare photographs of early fraternal organizations.

During this Centennial Year, Floyd County families are encouraged to make gifts of such collections to the museum or make early pictures available for copying. Those wishing to make contributions of this nature are urged to contact Nancy Marble at the Floyd County Historical Museum.

Just the Facts, Ma'am

By Becky McPherson,
District Attorney

Since becoming District Attorney I have gotten numerous calls asking very reasonable questions about different aspects of the criminal justice system that I think everyone should know.

One day, after receiving one of these calls, I approached Alice Gilroy about writing a monthly column for the news-

paper so that I could enlighten the public as to how a criminal case is handled. Well, that was several months ago. Okay Alice, it was more than several months ago, and recently when I asked Alice to write an article regarding "hot checks", she very gently reminded me she had not received a column as of yet.

So here goes, my first column is on what someone should do upon receiving

an insufficient check. I wanted to start with something really interesting like capital murders, but Penny, my secretary, was the voice of reason and suggested we start with "hot checks" because we do handle more hot checks than we do capital murders.

When a person receives a check and it is returned because of insufficient funds, they then have to decide if they want that check to go through the criminal justice system or handle it otherwise.

The first step in processing the check is to give the maker notice that the check has been returned. This is done by sending a demand letter by certified mail to the maker informing him that if the check is not paid within ten (10) days, then the matter will be turned over to the District Attorney's office for criminal prosecution.

Next, after the ten (10) day period has expired, the check should be brought to the DA's office along with a copy of the certified letter, the receipts from the post office and all of the information available on the maker.

After my office receives the check, another certified letter will be sent demanding payment. However, the law only allows the District Attorney's office to collect the amount of the check for the payee. We cannot collect your check fee.

If the check is not paid at this point, then a criminal complaint may be filed against the maker and the case follows the same procedure as all other criminal cases.

My office is now handling the collections of all checks over the value of twenty dollars (\$20.00). If anyone has any questions about hot checks or any other area of criminal law, please feel free to call us at 983-2197.

The End of Time Is Near

By Ricardo Torres
Templo Nuevo Vida

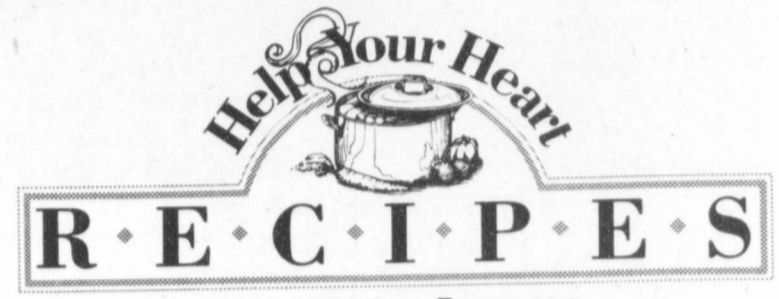

The end of time is near,
When Jesus Christ will reappear.
I pray for you my friend,
You've already been touched by His hand.

If you aren't ready please do it now,
Just come and ask we'll show you how.

The choice is yours, please make the right one,
Even if you have to give up things that are fun.

This isn't a game...this is life,
This includes you, your children and your wife.

This is all, I'll let you go for now,
But on Judgement Day don't say
"You didn't tell me how."

Caprock Hospital Report

By Molly Stringer

There have been some very good and positive things happen at the hospital the past few days.

First of all, Dr. Chamales is opening his practice in the Cogdell Clinic on February 5. He has been granted privileges at the hospital by the Medical Staff and Board of Directors. We are planning a reception for Dr. Chamales and his wife Linda, on Sunday, February 4, from 2 to 4 p.m. at the hospital. We invite all of the community folks to come by and meet the Chamales and let them know we are excited about their choosing Floydada to be their new home.

Secondly, the Board of Directors signed a contract with Methodist Hospital in Lubbock, this past week. Methodist will provide management guidance for our hospital staff and Board. We will be able to obtain continuing education for our staff through them. There is no financial aid, but a representative from Methodist will be attending board meetings and offering expert guidance and direction to our Board and Hospital Staff. We at the hospital feel that this is a very positive action that our Board has taken.

Thirdly, Medicare Inspectors came to our hospital on January 18 and 19. We are in compliance in all areas and received a good evaluation.

Fourth, financing has been obtained for the coming year.

We have had some inquiries about billing at the hospital. Our present computer system lacks a lot to be desired and does not print out itemized statements for out patients. There have been complaints that itemized bills are not received for hospital stays. The procedure usually followed is that if you have insurance or medicare that this will be filed and you will not receive a bill until they have paid what they will pay. Then you will be billed. Sometime this filing and payment are several weeks and even months in coming. We are working on up grading our computer system and hope to find some improvement in the future. We hope to be able to send an itemized statement of charges soon after dismissal. This will not be a bill and the insurance will be filed, but folks will be able to know what their bill is. We want to serve you in an efficient way in this area and want you to know that we are aware of the problems and are hoping with the help of management from Methodist Hospital and upgrading the computer system to improve our billing.

We encourage you to continue to be outspoken about your complaints, not to others in the community, but to the Board members and those on staff at Caprock. If we know what we are doing wrong we will try to work on it.

Thought for today:

Remember it's not your performance that causes you distress, it's the scale you use to measure it.

Temporary workers in Floyd needed by U.S. Census Bureau

The U.S. Census Bureau has issued a call for Floyd residents to apply for temporary jobs.

Census work will last between two and eight weeks for most workers. They will receive \$5.00 an hour plus mileage for any official use of a private vehicle.

Applicants for the temporary positions must be 18 years old or over, a U.S. citizen, have a valid drivers license, a social security card and take a written test.

The work consists of driving or walking in designated areas of the county to follow up on addresses that do not respond to the census questionnaire. Office jobs that will be filled are those of data transcriber and clerks.

The census benefits all Americans. Reappointment of the U.S. House of Representatives and redrawing of legis-

lative district boundaries are based on census figures, while census numbers are used to distribute federal, state and local government funds to provide assistance to communities for housing, health and human services programs.

County residents interested in applying for the temporary positions should contact the Census District Office at 3501-H W. 45th, Amarillo, (806) 354-3700.

What FHS students have been doing

1st Semester 1989-90
By Christy Benjamin
FHS Treasurer/ Reporter

Floydada High School is very much into the groove of things as the '80's come to a close and the '90's arrive. The students at FHS are facing many challenges, experiencing exciting opportunities, and forming new friendships. Everyone at FHS is working together - forming FLOYDADA HIGH, 1989-90. This day had a big effect on the students. It made us aware of just how many young people lose their lives due to alcohol and drug use.

On Thursday, students wore their sunglasses for Shade Out Drugs Day. Friday, was Sock it to Drugs Day. Everyone wore their most outrageous socks, making this Friday even more fun. Then at the end of the day, those students who pledged to be drug-free gathered out in front of the school for the balloon send-off. Inside the helium balloons was a message signed and dated by the student stating, "I pledge to be

to this, every 16 minutes a student's name was chosen, and an obituary was read for that student over the intercom. Immediately following this announcement, two students (the grim reaper and his assistant) came into the students class and painted the students face white and put a black garter on their arm. For the rest of the day, these students (pretending to have been killed) did not talk to anyone, nor did anyone talk to them. This day had a big effect on the students. It made us aware of just how many young people lose their lives due to alcohol and drug use.

On Thursday, students wore their sunglasses for Shade Out Drugs Day. Friday, was Sock it to Drugs Day. Everyone wore their most outrageous socks, making this Friday even more fun. Then at the end of the day, those students who pledged to be drug-free gathered out in front of the school for the balloon send-off. Inside the helium balloons was a message signed and dated by the student stating, "I pledge to be

drug-free. I hope you will too!" The Drug Awareness Week was a great success.

On October 31, the council sponsored a Halloween Dress-up Day. Many eager students participated and made this day at FHS a fun one. Prize for Best Costume went to Andy McDowell. Larry Galvan and Jason Pyle received honors for being Best Disguised.

Into the Halloween holiday spirit, once again the council made Ghost-O-Grams. And once again, Student Council members and sponsors spent many, many hours working on these suckers wrapped in material with decorative faces and special To/From messages attached to them. Looking at the long list of orders, it seemed to the Student Council Halloween elves that we'd never finish making the little ghosts. But with Head Elf Thayer helping and encouraging us, we worked long hours Halloween Eve (and then some) to proudly finish and deliver them on time by Halloween morning.

The Student Council was presented with candy and plants from the Dimmitt and Friona Student Council at the Varsity football games there... The Littlefield Student Council made a donation in our name to the Lamb County Drug Free Task Force in honor of their Drug Awareness Week... for school spirit and to show the football players our support, members of the FHS Student Council took part in streaming and shoe polishing cars before the games on Fridays... Student Council members also said the prayer and welcome at the Varsity games.

The Student Council sponsored a combination Thanksgiving/Christmas can food drive. Many cans were collected for the S.O.S. This was the Student Council's latest project.

Under the great direction of Head Coach Dean Bates, the Floydada football teams finished out the 1989 season extremely well. The Varsity team was in the spotlight all season long, with great reason. They went 10-0 and became the '89 District 2-3A Champs, qualifying for Bi-District!!! Canyon defeated Floydada by three points at the bi-district game, but this excellent group of young men have much to be proud of. They rounded out the season with an impressive 10-1 record!

Those who played on this Varsity team included: Jaime Suarez, Brian Teeple, Grant Stovall, Jesse Vela, Ruben Chavarria, Victor Chavarria, Jesse Suarez, Kenneth Davis, Kenneth Collins, Frank Suarez, Zach Nutt, Joe Cisneros, Adam Cates, Brad Emert, Henry Hernandez, Ray Garcia, Kelly Wood, Jay Mendoza, Larry Galvan, Johnny DeOchoa, Kenny Reed, Michael Cooper, Lalo Delgado, Freddie Portee, Wesley Campbell, Ronnie Benjamin, Michael Aleman, and Roy Garcia. Managers for the varsity team were: Roy Nichols, Ross Colston, and Mike Doerschuk.

The Junior Varsity team also did very well this year. They proved themselves, finishing with an 8-2 record. Much potential on the JV team included: Jonathan Simpson, Jason Pyle, Josh Thayer, Billy Villarreal, Keith Teeple, Michael Brown, Quincy Johnson, Johnny Equia, Joe Hernandez, Jesse Rodriguez, Tracey Johnson, Jamie

ASCS Newsletter for February

ASCS Conference

Most of the office employees will be attending the State ASCS Conference in San Antonio beginning January 31, 1990 through February 2, 1990. Your consideration while we are attending this conference will be appreciated.

Appointments

For your convenience, we will be scheduling your office visits by appointment. Please call 983-3763 for your appointment.

ACP Signup

A sign-up period has been set to begin February 5, 1990, and extend through February 9, 1990, for Annual Conservation Practices (ACP). These practices include: underground tile, pits, land leveling, terraces, and waterways. Please remember that practices started prior to approval will be ineligible for cost-sharing. If you are interested in performing a conservation practice, come by the office to file an application between February 5 and February 9.

New 0/25 Program for Soybeans

Sign-up into the new 0/25 program for soybeans will be January 16, 1990, through February 16, 1990, (Sign-up within a Sign-up). Producers may sign up to plant soybeans on no more than 25% of their permitted acreages for 1990 wheat, feed grains, and upland cotton. This will allow you to have this acreage considered as being planted to the program crop for crop history purposes.

Participating in this option will not lose or gain farm acreage bases or individual crop acreage bases on a farm.

After the sign-up, USDA will estimate whether, based on anticipated additional 0/25 soybean plantings, the average market price for the price is expected to be below this level, CCC will reduce or eliminate all or a portion of the permitted acreage that may be planted to soybeans under this program. Advance payments will be based on the intended acreages for payment under this option. No program benefits other than soybean price support loans will be made available when planting soybeans on permitted acreage.

Approved Nonprogram Crop Provisions - 1990

Producers who participate in the regular acreage reduction program, or use the 0/92 and 50/92 provisions of the 1990 Farm Program, may plant certain approved nonprogram crops on land designated as conserving use (CU) acreage. The selected crops are: sunflower, flax, rapeseed, triticale, quinoa, Jerusalem artichoke, kenaf, milkweed, amaranth, and psyllium. You must agree to forgo any deficiency payments that would otherwise be paid on such acreage. These crops may not be grown on land designated as ACR (Set-Aside).

Payment Limitation

Program benefits subject to limitation may not be provided to any producer until the necessary payment limitation determinations are made. The producer will remain ineligible until all required forms for the specific situation are provided.

Payment limitation determinations may be initiated by COC or requested by the producer. If requested by the producer, the request may be filed anytime before the final date for submitting CCC-502's (April 13, 1990).

Entities earning program benefits are required to provide the names, addresses, and ID numbers of its members to the COC. Entity earning program benefits are responsible for informing its members of the requirements for designating "permitted entities".

Details of the payment limitation

provisions may be obtained at the county office. It is important that you submit correct and complete information about your farming operation.

Payment limit "person" determinations are based on conditions that exist on April 13 of the crop year.

1990 Hybrid Seed Producers

The County Committee is required to review all hybrid seed contracts for 1990. If the seed company does any of the following, they will be considered a producer for ASCS program purposes and eligible for ASCS benefits:

1. Seed company makes management decisions that dictate the row width, the plant population, herbicide and insecticide applications, etc.
2. The contract states a minimum guarantee of cash, fixed, or standing commodity payments in the form of a fixed amount of production.
3. Production service that are not unique to hybrid seed production.

Please furnish this office a copy of your 1990 seed contract as soon as it is completed so that the County Committee can determine whether the seed company should be made part of the contract to participate in the 1990 Farm Program.

Cotton Production Cards

Once you have your cotton ginned and warehouse receipt weights back, have the gin clerk complete the ASCS-503 card for each farm you operate. Both you and a representative of the gin need to sign the card. If you did not harvest any production on the farm, put a "0" in the net lint block and return.

Foreign Investors

Foreign persons who acquire, transfer or hold an interest in any farmland or rangeland are required by law to report such transactions to the local ASCS office no later than 90 days from the date of transaction. Any foreign person who does not report these transactions is subject to penalties.

Holiday

This office will be closed on February 19, 1990 for President's Day.

G.L. Fawver re-elected to High Plains Water Board

Floyd County voters have helped reelect Gilbert Fawver of Floydada to another four-year term as Precinct Five Director of the High Plains Underground Water Conservation District No. 1, according to complete but unofficial returns from the District's special election held January 20.

Fawver was first elected to serve the residents of Floyd and Hale Counties within the Water District in 1982. Board members meet each month to oversee the business, financial and legal matters of the Water District.

Newly-elected Floyd County Committee members include Danny Nutt of Floydada, Precinct One; Charles Huffman of Lockney, Precinct Two; Joey Davis of Floydada, Precinct Three; A. C. Pratt of Floydada, Precinct Four; and John Lee Carthel of Lockney, at large.

Outgoing Floyd County Committee members are Bill Glasscock of Lockney and Cecil Jackson, D. R. Sanders and Kenneth Willis, all of Floydada. Carthel has already served one term on the Floyd

County Committee.

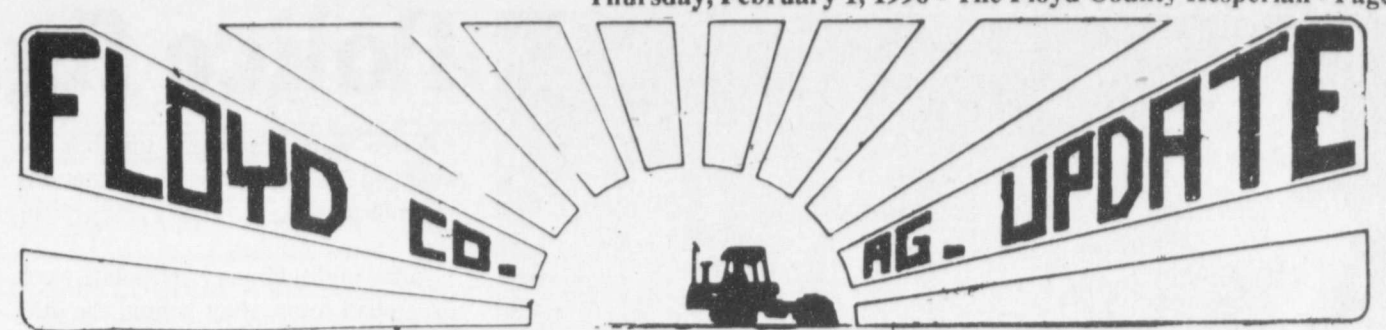

County Committees meet regularly to recommend approval or denial of applications for water well permits and agricultural water conservation equipment loans. Committee members help keep Directors advised on water-related needs of their county. Also, they serve as a local contact person for water conservation problems or opportunities in their community.

FARM SHORT BITS

One of Floyd County's farmers commented the other day that he had to get back to work. He said that he hadn't done anything much since he got his cotton out and that he was getting rusty.

He said that the weather had been nice but that some rain or snow was badly needed. When he had tried to plow the clods that he turned up were way too big and that he had brought his tractor back to the barn and parked it.

"Oh well," he commented, "guess I'll go get a cup of coffee."

Directors to be elected in March

PCG election date changed

According to Steve Verett of Ralls, President of Lubbock-based Plains Cotton Growers, Inc., High Plains cotton producers and agribusinessmen this year won't have to wait for November 6, to vote in an important election. They'll have one of their own between now and March 24.

That's the period during which county meetings will be scheduled for the election of PCG directors, says Verett, "and votes cast in these elections are every bit as important to cotton people as votes in city, county, state or even federal elections."

Collectively, Verett explains, PCG directors control and give guidance to

all aspects of the organization, from its financial affairs to farm program policy, and from research funding and weevil control to positions on farm-related administrative ruling proposals. "And if the organization is to effectively serve the High Plains industry," he adds, "the cotton people of each county have to choose directors with the ability and the desire to make a positive contribution."

By attending county meetings, expressing their views and carefully considering the selection of their representatives to the Board, Verett continues, cotton people can assure that future PCG actions and policies will be expressly tailored to meet the true needs of

the High Plains industry.

The date, time and place for each county meeting will be set by current directors in individual counties, avoiding conflict with other local activities whenever possible. Details of the meetings will be provided in advance news releases and will be posted in county gin offices as they are scheduled. Information is otherwise available by calling PCG county directors and staff members will be on hand to provide information on the organization's work and answer questions.

PCG's support primarily comes from producers (25 cents per bale), with supplemental support from gins, compresses, oil mills, banks and other area businesses. While all producers and businessmen are invited to attend county meetings, only current dues paying PCG members are eligible to participate in the election process.

Directors elected in county meetings will be certified by the membership at the PCG annual meeting, after which the Board will convene and elect 1990-91 officers. Current officers, all of whom have served the maximum term in their present position, include Verett, Vice President Larry Nelson of Tulia and Secretary-Treasurer Wayne Huffaker of Tahoka.

Although details are not complete, the annual meeting has been set for the morning of April 5, at Lubbock Memorial Civic Center in conjunction with the opening of the Texas Cotton Ginners Association Convention and Trade Show. The TCGA convention will run through April 7.

Site selected for police museum and memorial

The National Association of Chiefs of Police has selected the former FBI headquarters building in Miami, Florida to become the new American Police Hall of Fame and Museum. President Robert

Ferguson stated, "A five-year search has ended with the purchase of the 45,000 square foot building in Miami, sitting on over an acre of land. Miami's Mayor Xavier Suarez, has warmly welcomed

the choice and we expect to be renovated by February 1, 1990." The memorial and police museum will celebrate its 30th anniversary in 1990 as well. "We will close the old museum and memorial - which we have outgrown - in Sarasota County, Florida when the new Miami facility is open early next year. Our new building will have ten times the room of the former edifice" said Ferguson.

The American Police Hall of Fame and Museum has been in operation since 1960. 3,120 law enforcement officers killed in the line of duty are listed in the memorial with more than 150 new names being added each year. "We knew that we needed to expand," stated Gerald Arenberg, the founder of the memorial. "We began a search for a new building inspecting literally dozens of potential sites. Knowing what we would need - a building at least an acre in size. Just recently the alternative site became available. "For years it was the Miami headquarters of the FBI" Arenberg said. "Historically the building was always a law enforcement center. The structure is being renovated to house the police memorial; a chapel; and the museum artifacts that have been collected from law enforcement agencies nationwide". The police memorial will be constructed of white statuary marble and will bear the name, rank and department of the officer who died in the line of duty, appearing in honor of their supreme sacrifice. Presently the names number 3,120 nationwide with a new name added approximately every 57 hours.

"Respect for the law is the purpose of the law enforcement museum. It now includes more than 10,000 different exhibit items including a police car, pursuit motorcycle, electric chair, guillotine, weapons, uniforms, crime scene displays and hundreds of other historical law enforcement memorabilia, from chains worn by prisoners in 1885 in Alaska, to the most current laser targets in police training for firearms safety", Arenberg explained.

During the renovation period, efforts are underway to greatly expand these law enforcement displays. Law enforcement is rich in history dating back to the first U.S. Marshals, the Sheriffs of the West, and the start of the first organized police force in the City of New York in 1851. Many of the police exhibits are from the collection of items of families of officers who had been left old documents, badges, firearms, that had been stored away and "lost" from public view. The American Police Hall of Fame and Museum encourages citizens to contribute these items, many still in attics, to its collection. To expand the variety of emblems and badges of current chief and sheriffs in the United States, and to have their department represented by their emblem. Among the new items being added are a gas chamber, 1800's jail cell and a modern jail cell. Sections on the occult and the growing narcotics menace have been expanded. Just outside the main entrance will be a U.S. Flag Memorial plaza and fountains. The 20'X38' flag

will be flown from a flag pole six stories high.

Volunteer Advisory Board
Chief Robert Ferguson, president of the American Police Hall of Fame and Museum hopes to encourage at least one member of each community to serve on our "Advisory Board". The members nominate individuals for awards for service and heroism and notify us when an officer is killed in the line of duty. We also maintain contact with the families of officers killed in the line of duty. Any reader interested in this volunteer and honorary position should send a stamped, pre-addressed envelope for free information. Write: Advisory Board Volunteers, American Police Hall of Fame, 1100 NE 125th Street, No. Miami, FL 33161.

Social Security in Floyd County
By Mary Jane Shanes
To protect their social security earnings records, workers are urged to check the social security number and name shown on their pay stubs to make sure they are correct. Social Security officials reminded. They should also check the social security number on their Form W-2 they receive in January.

If a person discovers that the social security number on his or her pay stub or Form W-2 is different than that on his or her Social Security card, the error should be reported to the employer immediately.

The Form W-2 wage and tax statement is used by employers to report wages to the Social Security Administration where lifetime earnings records are maintained for each worker. The earnings records are the basis for benefits when a person retires, dies, or becomes disabled. A difference in a single digit can delay or prevent the earnings from being credited to the correct record.

Many female workers forget to change their names on their social security records when they change their names after they marry. Employers should not permit the employee to rely on his or her memory in checking the Form W-2 or pay records but should insist that the social security card is used. Very often the mistake in the employer records resulted from the employee memorizing the number, Social Security officials say.

When a mistake is reported to an employer, a corrected wage report should be sent to the Social Security Administration. The employee should also check with the social security office if it is necessary to change a name in social security records.

Employees should check the earnings credited to their social security earnings records at least once every 3 years, especially if they change jobs frequently. A form can be obtained from any social security office for this purpose.

Police were kept busy through the weekend dealing with violent situations and individuals.

Friday night, January 26, police were dispatched to an alley behind the 200 block of W. Houston in reference to a man beating a woman. Deputy Charles Overstreet, of the Floyd County Sheriff's office, was the first to arrive on the scene and observed a man, later identified as David Rosales, beating a woman. While Overstreet was attempting to arrest Rosales, Officer Darrell Gooch arrived and tried to help the woman who was bleeding from the nose and mouth. The woman was also grabbing her chest and complaining of pain. Rosales continued to resist arrest and fought with Deputy Overstreet and Officer Gooch. Rosales was arrested and taken to the Floyd County Jail. The

Police received another violent call on Sunday, January 28, at 10:01 p.m. The call was dispatched as a fight in progress at an apartment at the labor camp.

All law enforcement agencies responded. When police arrived, they observed one man, later identified as Alberto Martinez Ortega, holding up a long knife and chasing a juvenile, screaming, "I'm going to kill you!" Police were able to stop Ortega before he stabbed the juvenile.

While at the scene police found another man, Andrew Robert Castellano, 26, who had been cut along his left jaw line and on his neck. He was bleeding badly and was transported to the hospital.

Ortega was charged with aggravated assault and Castellano was charged with disorderly conduct.

On January 29, police stopped a vehicle in the 100 block of S. Wall. The driver Billy Ray Leadon, 38, was determined to be intoxicated and was charged with DWI.

On January 27, at 1:55 a.m., police observed a vehicle in the 100 block of East Houston, that failed to stay in a single lane of traffic. The driver, Eliseo Garza Guerra Jr., 19, of Floydada, was arrested and charged with DWI. The passenger, Alejandro Garcia Jr., 23, was charged with Public Intoxication.

On January 23, at 10:45 a.m. police received a report of a pickup that had been burglarized sometime that month. Stolen from the pickup was an Argentinian FM High Power Single Action, Auto-load 9 mm, valued at \$350.00.

Police have also recovered an older model color TV that was stolen sometime in December that they have not been able to return to anyone. If you believe it is your TV, whether you reported a burglary or not, please call the police and describe the TV. It will be returned to you.
