Next year's election cycle is still a year away, but the jockeying for position at the starter's gate is already beginning in earnest.

Here in the 13th Congressional District a number of hopefuls are checking their hole cards, anxious to take on Mr. Sarpalius in what they see as a "window of opportunity" made possible by his vote on the Clinton tax bill. Some of the names would make for interesting reading.

On the state level George W. Bush has evidently convinced some gubernatorial "wannabees" that he is serious this time, that he will mount a race for Governor. If the younger Bush finally decides to make the race, as it appears he will, we expect other major hopefuls to defer their ambitions to another time.

We can expect an interesting season ahead. We can also expect some very hard fought, very close races.

No matter how unhappy a lot of people are with the way things are going on both the national and state level, when we look at the demographics of this state and this district we see a very difficult time for anyone trying to unseat either the Governor or the Congressman. That is not saying it can't be done, or won't be done, but to us it appears an uphill battle, one that will depend a great deal on what happens between now and next Summer.

First, the numbers. The last Congressional redistricting gave Mr. Sarpalius Hale County plus the east side of Lubbock. The new district was meant to give Sarpalius a safer seat, which it probably did. But he by no means has a lock on it. East Lubbock, for instance, gave Clinton 60 percent of its vote and Bush only 29 percent. Sarpalius got 76 percent. But Hale County, which produced about 1,000 more total votes than East Lubbock, gave Bush 60 percent of its vote and Clinton only 27 percent. Sarpalius took Hale county with 53 percent. By way of comparison Floyd County went 57 percent for Bush, 12 percent for Perot and 31 percent for Clinton. In terms of the East Lubbock-Hale County factor, it appears something of a wash for Mr. Sarpalius. The big difference is that the East Lubbock vote for Sarpalius is locked in. The Hale County vote for him is not necessarily locked in. District-wide, as we see it, Mr. Sarpalius cannot count on only the base Democratic vote to save his seat. That vote is simply not here anymore. He will have to sway many voters throughout the District who normally prefer conservatives in general elections. (Even in normally Democratic Wichita County Bush got 39 percent of the 46,455 total vote total to Clinton's 36 percent, with Perot taking a healthy 25 percent. And the Perot vote was essentially an anti-establishment vote, a "pox on both your houses" vote).

The Sarpalius vote on the tax bill is not likely to help him in that regard. And he has a number of very difficult votes coming up, votes on which he will have to toe the party line or lose support from his party's liberal base. In short, from here on Mr. Sarpalius will have to walk the straight and narrow, as far as his more conservatively inclined constituents are concerned. He probably has the edge in elective potential, but assuredly he has no lock on the election. His practice of keeping one eye on Democratic Congressman Stenholm and one eye on Republican Congressman Combust, with his ears tuned to House Speaker Foley, will no doubt be sorely tested during the next few months. How he plays it will likely determine how easy a path his opponent (or opponents) have in the next election.

The governor's race will be a different kettle of fish. At this moment the incumbent is still riding high with the press, despite all sorts of evidence that she is anything but a strong political leader. Voters have repeatedly turned down her recommendations when they had the chance to do so. Her public choice for Railroad Commission (Lena Guerrero) was defeated at the polls, as was her choice (Bob Krueger) for U.S. Senate. Her solution to the school finance problem (the so-called "Robin Hood" pro-

Pre-football game prank leads to issuing of citations

By Alice Gilroy

The championship match between Whirlwinds and Longhorns started before the Longhorn team ever got to Wester Field in Floydada on Friday night. About 20-25 vehicles loaded with Whirlwind fans attempted to block forward motion of the Longhorn team's bus by placing their vehicles on both sides of the southbound lanes of Hwy. 70 and slowing traffic to a crawl.

The Longhorn team bus followed by cars loaded with fans were stopped at Muncy by cars blocking both southbound lanes. According to Floyd County Deputy Greg Pierce, "The Lockney caravan was stopped at Muncy by several cars and then it got real bad between Muncy and Floydada. There

were about 20-25 cars driving at a very slow pace.

"One of the cars had a mobile phone and the Sheriff's office was called at approximately 6:30 p.m. When we arrived we tried to escort the buses in. We turned on the emergency lights and sirens but the drivers still refused to move over." Witnesses stated that it took 35 minutes to travel from Lockney to Floydada.

According to Pierce, "Three tickets were given to drivers and more tickets will be issued."

If found guilty the blockade drivers could be fined up to \$250.00. Drivers were charged with Failure to Yield Right of Way to Emergency Vehicles and Impeding Traffic.

County adopts .4030 cent tax rate

By Juanita Stepp

The Floyd County Commissioners met and adopted a tax increase for 1993 during a special called meeting on Friday, September 3. The motion to increase the tax rate by 7.92 percent was made by Floyd County Judge Bill Hardin. Precinct 4 Commissioner Howard Bishop seconded and the vote was unanimously in favor of the motion. The new tax rate will be .4040 cents per \$100.00 valuation.

Included in the motion was the allowance for discounts for those paying taxes during the months of October, November and December. Taxpayers who pay their 1993 taxes in October will receive a 3 percent discount. Those making payment during November will receive a 2 percent discount and December payers will get a 1 percent discount from their county taxes.

Attending the session in addition to Hardin and Bishop were Commissioners Connie Bearden, Floyd Jackson and

George Taylor. Others present were Sheriff Charles Overstreet, Justice of the Peace Tim Burge, Wayne Bramlet, Larry Bramlet, J. A. Welch and the Hesperian-Beacon reporter.

Public hearings slated for LISD

Two public hearings are scheduled by the Lockney Independent School District. The hearings are on the proposed tax rate and the voting districts.

The public hearing on the proposed tax rate is set for Monday, September 13 at 7:30 p.m. and the hearing on the voting districts is set for Tuesday, September 21 at 7:00 p.m. Both will be held in the LISD boardroom.

The regular school board meeting for September will be held immediately following the hearing.

All citizens are invited to the hearings in order to voice their opinions.

See You At The Pole!

Citizens of Lockney and surrounding communities will gather at Lockney City Hall's flag pole, Sept. 15, at 7:00 a.m., to participate in a simultaneous nationwide prayer for the youth in your community.

Lockney youth will be meeting at the same time on the front lawn of Lockney High School, for a student led prayer time.

The nationwide event is expected to draw thousands across the country.

Lockney Hospital District lowers taxes

By Alice Gilroy

The Board of Directors of Lockney's Hospital District voted in a August 17th board meeting to lower the tax rate of the hospital district by 5% to a new rate of .4609 per \$100 valuation. The 1992 tax rate was .4852.

"The directors decided since we are doing so well we would like to give back to the taxpayer," said Hospital Administrator Jeff Reece.

"With the drop in tax rate the hospital district will receive \$21,500.00 less in tax revenue," said Reece. "Financially we are one of the strongest small hospitals in the state of Texas. We built a new hospital, furnished it and are still able to lower taxes."

According to Reece, the cost of building the new W.J. Mangold Memorial Hospital was \$1,450,000.00. "The cost of construction and furnishing was paid in cash," said Reece, "and the hospital's cash reserves are better than when we started."

Events finalized for 40th Annual Fair

LOCKNEY -- Plans for the Floyd County and Surrounding Counties Fair have been finalized and plans are underway to make the 40th annual event one of the best ever.

Mangold Memorial boasts addition of new equipment

The staff and physicians at W.J. Mangold Memorial Hospital are pleased to announce to Lockney and the surrounding communities, that the hospital is now the proud owner of Endoscopy equipment.

This modern piece of equipment has recently been purchased by the hospital and will enable Lockney's family physicians to look into the interior of the gastro intestinal tract. With two different scopes the physicians will be able to view the interior of the stomach, intestines, and esophagus to detect polyps, colon cancer and peptic ulcer disease.

"It will be useful in evaluating abdominal pain problems, heartburn,

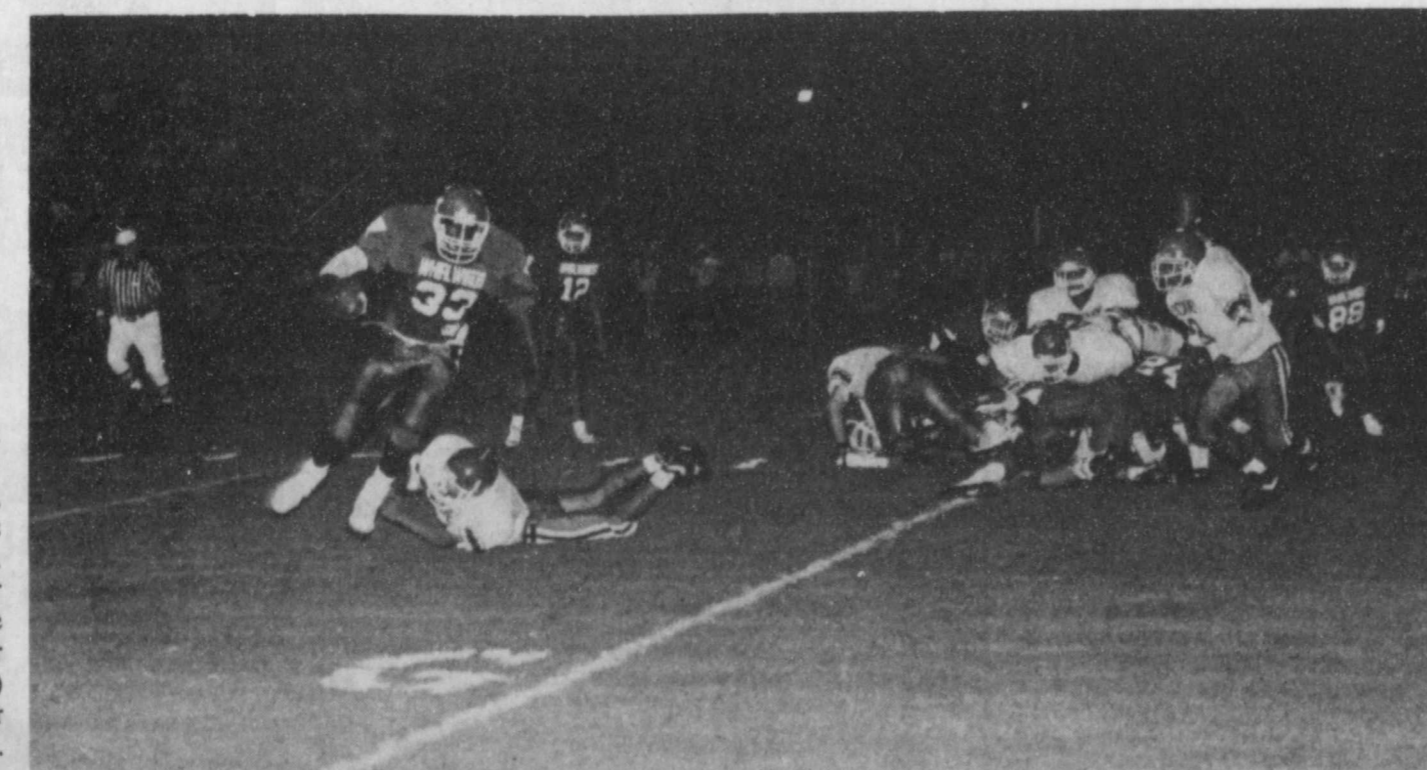

vomiting of blood and changes in bowel patterns," said Dr. Stennett.

The new Endoscopy equipment will enable the doctors to directly visualize the disease thru a video monitor and will also print color photographs.

"This is a great tool for diagnosing a disease with your family physician," said Dr. Stewart. "Being able to find a cause for these problems is what people expect from their family physician."

"We can now do colonoscopy's and EGD's here less expensively than elsewhere. It is much more convenient for our patients."

"If we can take care of a patient's problems here we will. If not—we will refer the patient elsewhere."

EVENS THE SCORE--Whirlwind Tyrone Henderson tied the score 7-7, with a touchdown in the 2nd quarter in Friday night's county championship game between the

Floydada Whirlwinds and Lockney Longhorns. The game ended with 'Winds slipping by Longhorns 14-13. Staff Photo

BY THE WAY!

We are going to have another survey, but only those who live in Floydada can play. Oh—what the heck. Let's make it scientific. Anybody that has ever lived in Floydada can play. We may consider your entry if you've driven through Floydada.

Anyway, this is your assignment. We have to decide what to call a group of Floydada residents.

Jeff Langley writes a column, called Reader Rep, for the Amarillo Globe News. Langley posed the question about what you call a group of Floydada folks in a September 2 column. I won't go into what brought up the discussion because I thought it was tacky, but the writer did pose an interesting question.

He quoted me as saying that we (the girls who work here at the paper) had decided to call a group of Floydada folks, Floydadans, because we liked the sound of it better than Floydadians. We didn't have a good reason for going with Floydadans, but we were going to stick with that and use it from now on.

He ended his column by saying, "News writers shouldn't assume what to call a group of residents. Writers first should find out what residents of a locale call themselves, before making up a collective term on the spur of the moment." (Well EXCUUSSEE ME).

So here goes. Check the term you like best in the form below. If we haven't thought of one—then fill in the blank (be nice). The term that gets the most votes will be what this newspaper calls more than one Floydadan, or Floydadian.

First Baptist hosts World Mission Conference

The community has been invited to attend a World Mission Conference September 12-15, at Lockney's First Baptist Church.

The conference will begin Sunday at 10:45 a.m., with guest speaker Lloyd Garrison, of Spirit Lake, Idaho, bringing the morning message. Garrison is a pastor serving at Spirit Lake Baptist Church. He previously served as a pastor and church starter for the Home Mission Board in Washington and Idaho. He has pastored churches in Texas, Oregon, Washington and Idaho since 1940.

Abel Becerra will bring the Sunday evening message, beginning at 7:00

p.m. Becerra serves as Language Program Leader of the Baptist General Convention of New Mexico. He has served as pastor of the Spanish Department of Park Memorial Baptist Church. He has also pastored missions in Texas and Oklahoma, and was a summer missionary in Calexico, California.

Monday, September 13, beginning at 7:30 p.m., Donald Cortimilia will speak. He is involved in community development in Senegal, France. Prior to missionary appointment, he served as youth minister at First Baptist Church in Princeton, Calvary Baptist Church in Jefferson City, Missouri, and pastor of First Baptist Church in Melissa, Texas.

Tuesday, September 14, at 7:30 p.m., James William Culp, director of Black Church Relations Department of the Baptist General Convention of Texas, will speak. Culp has previously served as Coordinator and Consultant for Black Church Relations of the BGCT.

Elaine Dooley will speak Wednesday, September 15 at 7:30 p.m. Dooley serves as Church and Community Ministries Consultant for the Rio Grande

Association in Las Cruces, New Mexico. She works through the Church and Community Ministries Department of the Home Mission Board. She has worked at the Baptist Indian Mission in Magdalena, New Mexico for twelve years and with the Magdalena Board of Education for seven years.

Sunday's morning worship will be followed by a noon fellowship meal. A youth fellowship and meal will follow Sunday evening's service.

A fellowship meal will be held before each evening worship, Monday-Wednesday, beginning at 6:30 p.m. A nursery will be provided for each service.

Lockney Police Report

On August 23 at approximately 2:30 a.m. Lockney Police were dispatched to a residence located on the 500 block of E. Willow. The call was in reference to a domestic dispute. When police arrived the complainant refused to file charges against her estranged husband.

On August 27 at 5:20 p.m. Lockney Police were again called to the same residence located on the 500 block of E. Willow in reference to a domestic disturbance. The complainant again refused to file charges.

On August 30, Lockney Police took a burglary of a vehicle report. The burglary occurred on the 100 block of SE 6th Street. Someone entered a vehicle parked at that location and stole a CB radio.

On September 4 at 1:45 a.m. Lockney Police were dispatched to the Mangold Memorial Hospital in reference to someone being assaulted. When police arrived they talked to the female victim who had been physically assaulted and also bitten on the face. As a result of the assault the victim was hospitalized and an arrest warrant has been issued for Patsy Sanchez, 24, of Lockney, for the assault.

Courtroom Activities

In county court September 3, Marjorie Spencer Williams was charged with: Driving in Violation of Occupational License, Failure to Have Occupational License and two charges of Failure to Comply With Occupational License.

September 7, Patsy Sanchez was charged with Causing Bodily Injury to Another Person.

Connie Galloway bestowed TPPA award

CONNIE GALLOWAY

Connie Galloway, Electric Superintendent of Floydada Power and Light, was recently presented with the Seven Hats Award from the Texas Public Power Association.

Each year the TPPA recognizes organizations and individuals for their contributions to their communities, public power and TPPA. The TPPA Seven Hats Award recognizes outstanding leadership and dedication by an official of a TPPA system which serves less than 5,000 customers.

Gary Brown, City Manager of Floydada, nominated Galloway for the award on behalf of the City of Floydada.

Brown was also attended the awards ceremony and told those in attendance that, "Connie is nominated for this award based upon his exceptional leadership, supervision ability and concern for his employees and our citizens. Connie's belief is public power goes back over 27 years, 16 of which have been served as leader of Floydada Power and Light.

"Due to efficient management of our electric utility, profits have been used to keep our tax rate the same low rate for over 22 years. Connie's ability to manage and maintain our generation and distribution has made it possible for our community to receive many extra bene-

fits." Brown also praised Galloway's interest in his community and his custom-designed Christmas decorations. "These decorations have been copied," said Brown, "by several area communities."

According to Brown the vocational/ag departments at the high school have also made copies of Galloway's patterns

in order to teach welding skills to the local students.

"Connie's deep-seated belief in public power is one positive advantage for the citizens of Floydada," said Brown.

The award was presented to Galloway on August 31, at the Hilton Palacio del Rio in San Antonio, during the 1993 TPPA Annual Meeting Awards Luncheon.

posals) was rejected overwhelmingly by the voters. Her choice for President (Bill Clinton) failed to carry the state despite her best efforts on his behalf. In short, the people have refused to follow her lead on a number of issues that were important to her. These are things by which political leadership is normally judged.

Still, she sits comfortably atop the heap. She has used the appointment process to pacify, even solidify, large groups of voters without which she would be vulnerable. We expect, for instance, she will do even better among the state's black voters than is usual for a Democratic nominee. The same will probably be true among voters in South Texas, and certainly among the state's increasingly active, increasingly vocal homosexual community. Nearly 3,000 turned out at a recent Austin gathering to praise the Austin City Council for extending insurance coverage to "live-in partners" of city employees. Now any city employee who has a "meaningful relationship" with another person of whatever sex can have that partner covered by insurance paid for by the taxpayers. And while they were at it they praised the Governor for appointing yet another "out" lesbian to high state office. (They must keep a fairly good handle on those things, for it was reported this made number six. They also promised they will now take their effort to other Texas cities.)

Against this array of formidable groups what will be, what can be, the focus of any opposition campaign for

Governor? Personally we do not see, at this stage, anyone unseating the Governor without a powerful message. And we do not see, again at this stage, a messenger with that powerful message. George W. may be able to put it together, but the political track record is not there. He is bright, articulate, and forceful. More so, in our opinion, than his kindly, gentle father. But he has not been tested in the hustings. Richards has. She is a shrewd political trench fighter. We are not sure that George W. is.

Of only of one thing can we be reasonably sure at this stage. If the election does finally come down to a Richards-Bush contest, we can count on it being extremely well funded on both sides. Bush will be able to raise sufficient funds here in Texas, but Richards will be able to match him dollar for dollar, if not from Texas then from Los Angeles, San Francisco, Washington and New York. There will be no shortage of funds on either side. The race is not likely to turn on dollars. Dollars, and who has them, are not likely to be the major determinate in the next governor's race. Ideas are. And, in the final analysis, that's the way it should be.

Sorority gathers for Beginning Day

By Dalia Arvizu

Alpha Sigma Upsilon, Chapter of Beta Sigma Phi, met for their Beginning Day on Aug. 30, in the home of Darolyn Snell. Standing for opening rituals, were Darolyn Snell, Maria Martinez, Donna Webb, Dalia Arvizu, Erma Meyers, Lou Aguilar, Anna Rivera and Vicki Derryberry.

Minutes from the previous meeting were read and approved. New fundraiser ideas were mentioned, but no

decisions were made. We drew for new Secret Sisters.

A Beta Sigma Phi cookbook was raffled by Darolyn Snell and was won by Anna Rivera. There being no other business, hostess Darolyn then served a delicious meal of spaghetti, salad, bread rolls, iced tea and coconut cream pie for dessert.

Our next meeting will be on Sept. 7. Hostess will be Maria Martinez. She will also be in charge of the program.

Henderson joins Military Institute

Michael E. Henderson, son of Bill and Bobbie Weir of Floydada, has enrolled as a college freshman at New Mexico Military Institute. Henderson is among 446 new cadets who started classes this week after a week of intensive orientation and instruction in military courtesy, discipline and drill. Founded in 1891, NMMI is a state-supported four-year high school and two-year junior college with an enrollment of about 900. The corps of cadets each year represents from 40 to 45 states and as many as 19 foreign countries.

Swaffar accepted into RFO program

Clarendon College is pleased to announce that Brad Swaffar of Floydada has been accepted as a student in the college's Ranch and Feedlot Operation Program. The RFO Program, in its 19th year, is a one-year certificate course designed to help students gain knowledge and technical skills in ranch and feedlot management. The program's coursework is designed to enlighten students to such management areas as animal health, beef cattle production, artificial insemination, soil and water conservation, business and range management. Students are also involved in extensive field work as they visit ranches and feedlots in Texas, New Mexico, Oklahoma and Colorado. Swaffar was selected out of a field of 60 applicants to fill one of the 36 openings in the 1993-94 class at Clarendon College.

Four U.S. State capitals are named after presidents: Jackson, Mississippi; Lincoln, Nebraska; Jefferson City, Missouri; Madison, Wisconsin.

FCCA reviewed by state

Floyd County Central Appraisal District was recently reviewed by the Texas Comptroller Property Tax Division as required by Section 11.86(a), Texas Education Code. Included in this review were Floyd County Appraisal District's local appraisal methods, standards and procedures.

Objectives of this review were two-fold, to determine whether the Appraisal District complies with the legal mandates and generally accepted appraisal methods, standards and procedures (MSP) and to provide technical assistance in relation to local appraisal operations.

The review consisted of the following specific elements:

1. Review and evaluation of local appraisal techniques for both real and personal property;
2. Review and analysis of local appraisal evaluation methods;
3. Review and test of local appraisal records system and property identification;
4. Review and analysis of appraisal data collection and processing techniques;
5. Review and analysis of property classification system.

The methods, standards and procedures review revealed that Floyd County Appraisal District complies with the generally accepted appraisal requirements of the Property Tax Code. Following are further findings by the State Auditor.

Appraisal District Management

Floyd County Appraisal District is highly effective in managing its budget, mission and personnel. Its budget reflects the needs of appraisal functions, and the delineated personnel assignments contribute to the effective use of human resources.

Floyd County is mostly rural, and real estate market activity and other resources are limited. Staff members accept the realities of the local market limitations and adapt their local operations.

The Chief Appraiser performs at a high level to produce appraisal rolls which reflect market value. Staff efficiency is high, and the staff works well to accomplish its goals and responsibilities.

Ratio Studies

The Appraisal District works well with realtors, buyers and sellers to gather sales data required to perform ratio studies, which are conducted annually. The studies include most real property categories and are organized by school districts, allowing the Appraisal District to monitor its appraised values and validity of cost schedule adjustments, if necessary. The accuracy of appraisals may be evaluated by use of the ratio studies.

Annual studies performed by the Property Tax Division of the Comptroller's Office and its predecessor, the State Property Tax Board, indicate the following statistics in regard to Floyd County Appraisal District's Appraisal Performance.

Tax Year - Median Ratio
1992 - 95
1991 - 96
1990 - 94
1989 - 91
1988 - 90
Average - 93

Appraisal District Staff
Public officials maintain good rela-

tionships with taxpayers through assistance in a timely and accurate manner. The auditor observed the Appraisal District Staff assisting the public by answering questions from taxpayers in a professional and courteous way, in addition to the atmosphere of friendliness and cohesiveness amongst the Staff. Good public relations are created by the effective communications between taxpayers and the Appraisal District, enabling the District to perform its appraisals more adequately.

The findings of the methods, standards and procedures review indicate that Floyd County Appraisal District is appraising property near market value and within the statutory limits in Section 5.12, Property Tax Code, for equality

and uniformity. In addition, the review indicates the Floyd County Appraisal District's performance is consistent in the overall measures of uniformity and improved in the overall levels of appraisal.

Floyd County Central Appraisal District may be contacted concerning property value, exemptions, tax collections and other related matters. Any questions or comments regarding tax rates may be directed to the taxing entities who are responsible for setting and adopting the tax rates.

Office hours at Floyd County Appraisal District are 7:45 a.m. to 5:00 p.m. Monday through Friday at 983-5256 in Room 107 Floyd County Courthouse.

WE APPRECIATE YOU--The First National Bank in Lockney treated Floyd County residents to free hot dogs and lemonade on Friday, September 10. Hungry residents were also treated to the same gourmet cooking at the Floydada branch on Thursday, September 9.

Whirlwinds rally to edge Longhorns for county title

By Bill Gray
Floydada's Tyrone Henderson kicked the decisive extra point with 7:26 left in the fourth quarter as the Whirlwinds came from behind to defeat Lockney 14-13 at Wester Field on September 3. With the victory the Whirlwinds retained the Floyd County Championship, which they have held for six years. Floydada, a 14-point favorite according to the Harris Rating System, trailed 13-7 with 9 1/2 minutes remaining in the game.

Senior quarterback Tate Glasscock, an able replacement for injured starter Sammy Rodriguez, guided the Whirlwinds to victory on the strength of a nifty 15-yard run off the option and a 25-yard TD pass to Brandon Gilliland, which tied the score at 13 late in the fourth quarter. Henderson's all-important conversion kick was his second perfect boot of the night - and the second of his Whirlwind career.

However, the final outcome wasn't decided until the last few seconds. An apparent game-winning drive by the Longhorns was stymied by Lockney's third turnover of the second half. Whirlwind defender Adam Gonzales recovered Leo Vargas' fumble at Floydada's 19-yard line to end Lockney's threat of an upset. The 'Winds took possession with 11 seconds left on the clock to seal the hard-earned victory.

The game started as though it would be a repeat of the last couple of one-sided Floydada blowouts. Following the opening kickoff, the Whirlwinds converted three third-down situations while mounting a 10-play, 70-yard drive. The right side of Lockney's defense stiffened and recovered Gabriel DeLaFuente's fumble at the Longhorn 1-yard line. Any thoughts of a Whirlwind runaway were put aside from that moment on.

Quarterback Leo Vargas carried eight of ten times in the Longhorns' initial drive, including runs of 10 and 25 yards off the wishbone. The senior-dominated line opened some good lanes in the Whirlwind defense, but it was Vargas' shifty running and slight-of-hand execution on the option that moved the 'Horns from their own one-yard line down to Floydada's 36. Timely defensive efforts by Glasscock and Rodriguez in the Whirlwind secondary prevented Vargas from breaking for a long score during the series.

Whirlwind tackle Gonzales slammed the door on Lockney's early threat by stopping fullback David Luna on a fourth-and-short attempt, and Floydada took over on its own 36. Runs by Pete Cooper and Henderson helped motor Floydada into Longhorn territory as the scoreless first quarter came to a close.

The Whirlwinds were unable to pick up a first down and were forced to punt on the third play of the second period. Henderson's booming kick carried into the end zone, but a Floydada penalty tacked 15 yards on the touchback - which gave Vargas & Co. better field position at their own 35-yard line.

Another exchange of punts positioned the Longhorns at midfield. Vargas quickly engineered the 'Horns to a

6-play, 50-yard drive, culminated by an 11-yard scoring toss to junior receiver Tanner Johnson. Patrick Monroe kicked the conversion to put the 'Horns on top 7-0 at the 5:34 mark of the second quarter. It was the first time the Longhorns had held a lead over Floydada in three years.

Sammy Rodriguez's 53-yard return of the ensuing kickoff appeared to put the Whirlwinds in good shape at the visitor's 39-yard line, but an illegal block penalty pushed the 'Winds back to their own 14 (the 15-yard penalty actually made the difference of 47 yards in Floydada's field position).

It was the "Sammy and Pete" show on Floydada's final possession in the closing minutes of the first half. Rodriguez and Cooper battled the clock and Lockney's defenders for a run-option of 34 yards (Sammy ran for 25 before lateraling to Cooper, who carried for 9 more yards), and Sammy hit Cooper with a critical fourth-down, 27-yard pass to the Longhorn 2-yard line. Two plays later Henderson crashed into the end zone, and kicked the conversion to knot the score at 7-all. Time expired before the Longhorns could get anything going before intermission.

The 'Horns were "three and out" on their first series following the second half kickoff, and punted back to Floydada. Rodriguez was injured while attempting to pass on the Whirlwinds' second snap of the third quarter. Senior Tate Glasscock took over Floydada's signal-calling duties for the remainder of the game. Two plays netted but two yards, and Henderson was again called on to punt.

The Longhorn option was at its best during the next series. Although Rod Vela and D.G. Hollums both made outstanding plays for the 'Winds' stopper unit, Vargas and his all-senior backfield of Monroe, Luna and Phineas Riddley, took control of the game. The Lockney quarterback rushed four times for 50 yards in the 80-yard scoring march, which was aided by a 15-yard spearing infraction against the 'Winds on the end

of a Vargas-to-Johnson pass. Leo ran into the end zone from 14 yards out, but an errant snap prevented Monroe from kicking the conversion. As it turned out, the missed P.A.T. was the difference in the game.

Floydada turned over the ball in its next series when Henderson fumbled while fighting for extra yardage. The Longhorns returned the favor only five plays later when a strong Whirlwind defensive surge pressured Vargas into one of his few errors of the evening. His pitch to Riddley ended on the ground, and following a mad scramble, Rafael DeOchoa came up with the loose ball for the 'Winds. Floydada moved into Lockney territory as the wild third quarter horn sounded.

Tyrone Henderson's fourth punt of the game, on the second play of the final period, pinned the 'Horns deep in their own territory. Lockney could advance only as far as its own 10-yard line. A strong Whirlwind rush pressured Vargas into a short punt, and the stage was set for Glasscock's heroics which led to Floydada's winning points. Tate moved the 'Winds 42 yards in just four plays, capping off the scoring drive with the toss to Gilliland. Henderson's conversion gave Floydada its first lead of the evening.

Lockney committed its second turnover of the second half, with Gonzales recovering for the 'Winds at midfield. The Longhorn defenders, led by tackles Shane Hooten and Matthew Raissez, stiffened and gave Vargas and the offensive unit one last opportunity to pull off the upset.

With 4:22 left, Lockney moved from its own 24 down to Floydada's 19-yard line, as Vargas accounted for 45 of the 57 yards with 35 rushing yards and a 10-yard pass to Tanner Johnson. The Longhorns' third turnover of the half was the most costly. The Whirlwinds took over at their own 19 and allowed the final 11 seconds to tick harmlessly of the clock.

The Whirlwinds travel to Brownfield on September 10, where the Cubs are trying to regroup from a 32-13 opening

night loss to 4A Frenship. The Longhorns will host the Petersburg Buffaloes, who blasted Crosbyton 41-13 last week. Kickoffs of both non-district games are at 8:00 p.m.

BILL'S NOTES

Make no mistake about it - the Lockney Longhorns are back! They are a solid, physical club... the result of Coach John Lowe's three-year rebuilding plan, and he's got a good one. The 'Horns will be legitimate contenders in 3-2A if they stay healthy, and could very well be playing on November 12.

Leo Vargas is a talented athlete and one of the better QBs the 'Winds have faced in several years. I would rate him up there with '92 Reagan County QB Jackie Hill and Tullia's Ryan Prater of a year ago - two field leaders who had good outings against Floydada. Leo's 167 yards on 25 carries are the most by a QB against a Dean Bates-coached Whirlwind team, and earns the Longhorn my nod for offensive player of the game.

The Whirlwinds were fortunate (perhaps even lucky) to win the game - but a team with a lot of character and tradition will usually find a way to win the close ones. And, this Floydada bunch showed a lot of character to come from behind twice and then hold off the 'Horns on a possible game-winning rally.

Adam, Ralphie, Tyson and the rest of the defense did what they had to do in those final seconds which it appeared the game was slipping away. Gonzales, DeOchoa and Edwards are my picks for co-defenders of the game, although D.G. Hollums certainly left his "impression" on several occasions.

The premier offensive plays of the game were the TD pass from Glasscock to Jed, which tied the score, and the winning P.A.T. by Henderson (the all-important spot by newcomer Elias Gutierrez must surely be cited also). Hats are also off for Tate's role in filling in when Sammy went down. It was Glasscock's finest hour as a Whirlwind.

The forced fumble and Gonzales' recovery in the final moments has to top the defensive plays, although Lockney's stopping the Whirlwinds' early drive at the 1-yard line could have been the difference in the outcome.

It was a tough game for the 'Horns to let get away, but they'll look back to this one as a key to their success in 1993. They have

another toughie this week against Petersburg, but will tame the Buffs 21-13.

The Whirlwinds will also have their hands full. Brownfield is smarting from their opening loss to Frenship, but the 'Winds go to the Cubs' den for payback time... Floydada by 6 in a "den burner."

Coaches Comments By Dean Bates

We did not do a lot of things very well. We must improve each week if we are to be a competitive team. We must give Lockney some credit. Their coaches did an excellent job preparing their youngsters and they executed their game plan very well. They have made tremendous strides in three years and we wish them well.

We went to the stadium to win and we did that, so we must be thankful for that effort. This week we will face one of the best backs on the South Plains and we must play better defense, keep the creases solid, and chase the ball hard in

order to win. We get one opportunity per week and we are preparing for that task. See you at the game.

Whirlwind Fans!

Hey all you Whirlwind fans, stand up and clap your hands! Let's all go to Brownfield this Friday at 8:00 p.m. to support our fantastic football team. Let's root them to another victory!

Public Notice

Southwestern Bell Telephone Company (SWBT) is asking the Public Utility Commission of Texas (PUC) for approval to offer Caller ID service in Texas. This service includes Calling Number Delivery, Calling Name Delivery and Anonymous Call Rejection (ACR). This service will be deployed statewide on a staggered, city-by-city basis, over a period of years in Texas in association with residence, business single and multiline services, but not PBX, Centrex or Plexar services, where facilities are available. Caller ID is an optional service which allows a subscriber to see date, time, and the phone number (Calling Number Delivery) and/or name associated with the number (Calling Name Delivery) of most direct dialed local calls and some select long distance calls before the telephone is answered. Anonymous Call Rejection is a Caller ID service which permits a subscriber to automatically reject calls from callers who have blocked their number/name. Per-call and per-line blocking will be available when the service is deployed. Detailed information on Caller ID service and how to block will be sent to each customer in their telephone bill during the next few weeks.

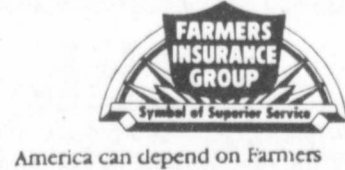

Persons who wish to intervene or otherwise participate in this proceeding should notify the PUC before October 6, 1993. Other parties may seek to also obtain Caller ID service in association with PBX, Centrex and Plexar service. A request to intervene, participate or receive further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the PUC Public Information Office at (512) 458-0256 or (512) 458-0221, teletypewriter for the deaf. For information regarding Caller ID service, residence customers should call 1-800-464-7928, and business customers should call 1-800-499-7928.

Horns win war, lose the battle

By Les Reed

The game ended in somewhat of a sad note for the Longhorns but they can hold their heads high. The Horns outplayed the Whirlwinds in every area of the game except the score. The team was sharp and ready to play ball from the word go.

With the Horns electing to go on defense first Coach Lowe seemed ready to see what his defense could handle. After a defensive battle during the first quarter the Horns came out ready to show the Whirlwinds that they meant business this year by putting the first seven points on the scoreboard. The defensive squad went out and took care of business allowing the offensive team time on the field. Soon Leo Vargas hooked up with Tanner Johnson on a 7 yard pass to make the score 6-0. Patrick Monroe made the extra point making the score 7-0.

Soon after the first score in the second quarter the Whirlwind offense answered the Longhorn score with one of their own. Henderson took the ball, making the score 7-7 after the extra point attempt. The half ended with the two teams facing a dead even seven after two periods of play. If the first two periods of play were any indication of what the game was going to be like the fans knew that they were in for a treat.

During the third period of play the Longhorns were able to accomplish two things. First they were able to put another 6 points on the board as Leo Vargas took the ball in from the 40 yard line behind a strong offensive line. Secondly, they were able to hold the Whirlwinds scoreless in the third period. Longhorn offense and defense looked great. The Horns looked to add to their 13-6 lead later on in the third period only to hand the ball back over to the Whirlwinds on a fumble.

The fourth period held some major disappointments for the Longhorns as they saw the Whirlwinds take the ball in on a pass from Gilliland to Glasscock. The Whirlwinds made the extra point, leaving the score 14-13 late in the fourth quarter.

At this point the pressure was handed

over to the Horn offense and Coach Lowe to see what they could do with the remaining time left on the clock. The Horns took the ball and marched down the field putting some serious doubts on the Whirlwind's minds as to the outcome of this game. With only seconds left in the game the Horns coughed up the ball and this left the Winds with control of the ballgame.

I think that Coach Lowe and the coaching staff have done a great job with our team. Yes the score did come out wrong as far as we were concerned but you guys do not need to hang your head low... you all did a great job!

Let met encourage each of you to come out Friday as the Longhorns face off with the Petersburg Buffaloes. Our team has proven that they are capable of providing great entertainment with some good hopes of going all the way this year. Show your spirit this week by showing up yourself!

Brent Sanders wins first weekly grid contest

By Juanita Stepp

The annual Floyd County Hesperian-Beacon Football Contest began with the games played last weekend and a 14-14 tie score gave each of the 79 entries a miss on the game between Shallowater and Slaton.

Brent Sanders of Floydada earned the first prize check of the year by missing only three games on the contest. He will receive a check in the amount of \$25.00 for his efforts.

Second place winner for the week was Keith Marricle, also of Floydada. Marricle missed 4 games on the weekly contest. He will receive a check for \$15.00 for second place on Friday.

Third place necessitated the use of the tie-breakers to determine a winner with 5 entries missing 5 games. Jean Hale of Floydada emerged as the third place prize winner by selecting Floydada to win and choosing 28 as the total combined score of the Floydada-Lockney match-up. The actual total score was 27. Her check for \$10.00 will be waiting in

the Floydada Office on Friday.

Honorable mention goes to Jeff Reecer of Lockney and Sheree Cannon of Floydada who both selected 34 for a total score with Floydada winning. Also receiving honorable mention was Mike Anderson of Floydada with a total score of 35 and Floydada winning. Deneen Marricle of Floydada chose Lockney to win and a total score of 24 to earn the final honorable mention spot this week.

CONTEST RULES

The rules of the contest have not changed since last year. Anyone above the age of seven is eligible to submit an entry except employees of this newspaper and their immediate families living in the same household.

No mail entries will be accepted. All entries must be submitted on the official entry form printed on the Football Contest page each week. All entries must be taken to the Hesperian-Beacon Office, either at 102 W. Bryant in Lockney or 111 E. Missouri in Floydada. Each entry

must be in the office no later than 5:00 p.m. on Friday of each week.

The contest is simple to enter. Clip out the entry form and circle the number of the team you think will win in each of the games listed in the footballs on the page. If you decide two teams will tie, circle both numbers. Select a winner in each of the two tie breaker games and write your guess of the total combined points of the two teams in the football. If a tie occurs in which a winner cannot be determined by using the two tie breaker games, the prize will be shared by those tying.

Readers are reminded that entries are limited to one entry per week per person. Weekly winners are limited to one per household per week.

The contest entries will be graded each Monday following the weekend games. Results will be announced in the next issue of this newspaper and checks for prize money may be picked up at the appropriate Hesperian-Beacon Office, either in Floydada or Lockney, on Fri-

day.

SPONSORS

Sponsors making the contest and the prize money possible include Attebury Grain, Cargill Hybrid Seeds, AgEquipment Group, Lambert Spraying, Schacht's Flowers, Jewelry & Gifts, Pay-n-Save in Floydada, Wilson Photography, R Photography, Floydada Implement, Floydada Coop Gin, City Auto, Thompson Pharmacy, Light-house Electric Company, The First National Bank of Floydada, Brown Implement, Floyd County Farm Bureau, the First National Bank in Lockney & the Floydada Branch, Script Printing and Office Supply, Higginbotham-Bartlett Company, Tipton Oil & Butane, Punkin' Patch Restaurant, Cornelius Conoco, Hale Insurance & Real Estate, Producer's Coop Elevator, Floyd County Seed, Muncy Elevator, J. To Our Lockney Football Fans:

The 1993 Lockney Longhorn Football Team is very thankful for the support it has received from its fans. Our season would be a lot tougher if it were not for the involvement of our friends and families. We are looking forward to a great season and hope you are ready for the exciting season at hand.

This season would not even be a thought in anyone's minds if it were not for the tremendous coaching staff. They have put in a lot of hours getting ready for this season and will put in many more as they prepare for each challenge we will face. They work hard to prepare the team you so faithfully cheer for every Friday night.

However it has come to our attention that some of our fans have been doing a little criticizing of the team and our coaching staff. Some feel they make poor decisions on the sidelines and some feel they are not getting us coached well enough to win games. Criticism from our fans is one of the hardest things on our team. It can in no way benefit the team, but bring it down. These guys are getting paid to do a job, and until you are in the position they are in, we would appreciate it if you would respect their decisions. So, please, if you have something bad to say about our team or anyone involved with it, keep it to yourself.

Don't get us wrong, we feel very proud to have some of the most supportive fans on the planet. You have stood beside us when we were 1-9, and we are sure you will do the same this season. We have worked hard to get to where we are this season, and we are trying our hardest to bring home to Lockney a District 3-AA Championship. We would appreciate your continued support and help in this matter.

Sincerely,

1993 Lockney Longhorns

DIGITAL CELLULAR EXTENDED COVERAGE AREA

There is an easier way to roam free on the range

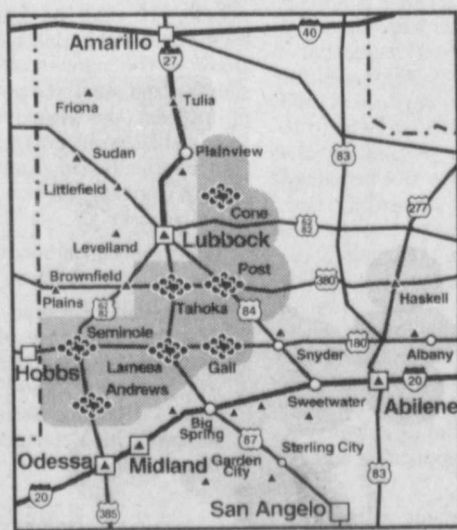

Back in the early days, you probably decided to buy a cellular phone to make it a little easier to roam free on the range. Little did you know that there was a whole new set of boundaries to stumble across. Your cellular

company wouldn't let you cut across another coverage area and receive calls without an extra roaming fee. And you had to remember every roamer access code for every coverage area you crossed. Soon, people were looking for you, and you couldn't be found. Your face was plastered on a wanted poster in your office because you gave the wrong code to your secretary. People actually said they wanted to 'ring your neck'.

Today, things are different. Digital Cellular has introduced a way for you to 'roam free' on the South Plains of Texas. As a Digital Cellular customer, you can roam in our Extended Coverage Area and receive your calls without additional roaming charges, daytime tolls or access numbers. Regular air time rates do apply.

So now, whether you're roaming across the range from Friona to Sterling City, or Haskell to Odessa or even in downtown Lubbock, Digital Cellular is putting you on the line for less. Less hassle. Less cost.

PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS

SPECIAL ELECTION

NOVEMBER 2, 1993

PROPOSITION NO. 1 ON THE BALLOT

Senate Joint Resolution 9 proposes a constitutional amendment that would authorize the Texas Legislature to provide for the issuance of bonds for the state financing of start-up costs for historically underutilized businesses. The amendment provides that the legislature by law may establish a Texas historically underutilized business capital growth and start-up fund. The money in the fund may be used without further appropriation and only for a program established by the legislature to aid in the start-up costs of a historically underutilized business, as defined by the legislature. To carry out the program, the legislature may issue up to \$50 million of general obligation bonds to provide funding. The legislature may require review and approval of the issuance of bonds, the use of the bond proceeds, or of the rules adopted by an agency to govern use of the bond proceeds. Bonds authorized by the amendment constitute a general obligation of the state.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to provide for the issuance of \$50 million of general obligation bonds for the recovery and further development of the state's economy and for increasing job opportunities and other benefits for Texas residents through state financing of the start-up costs of historically underutilized businesses."

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 86 proposes a constitutional amendment authorizing the legislature, by general law, to exempt from ad valorem taxation all or part of real and personal property used, constructed, acquired, or installed wholly or partly to meet or exceed rules or regulations adopted by any environmental protection agency of the United States, Texas, or a political subdivision of this state for the prevention, monitoring, control, or reduction of air, water, or land pollution. The amendment applies to real and personal property used as a facility, device, or method for the control of air, water, or land pollution that would otherwise be taxable for the first time on or after January 1, 1994. The amendment does not authorize the exemption from ad valorem taxation of real or personal property that was subject to a tax abatement agreement executed before January 1, 1994.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to promote the reduction of pollution and to encourage the preservation of jobs by authorizing the exemption from ad valorem taxation of real and personal property used for the control of air, water, or land pollution."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 3 proposes a constitutional amendment to clear land titles in which the State of Texas relinquishes and releases any claim of sovereign ownership or title to an undivided one-third interest in and to the lands and minerals within the Shelby, Frazier, and McCormick League (now located in Fort Bend and Austin counties) arising out of the interest in that league originally granted under the Mexican Colonization Law of 1823 to John McCormick or on about July 24, 1824, and subsequently voided by the governing body of Austin's Original Colony on or about December 15, 1830. Title to such interest in the lands and minerals is confirmed to the owners of the remaining interests in such lands and minerals.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing for the clearing of land titles by the release of a state claim in a fractional interest, arising out of the voiding of an interest under a Mexican land grant, to the owners of certain property in Fort Bend and Austin counties."

PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 49 proposes a constitutional amendment that would prohibit a state personal income tax without voter approval and would dedicate the proceeds of any income tax, if enacted, to property tax relief and education. The amendment provides that a general law enacted by the legislature that imposes a tax on the net incomes of natural persons, including a person's share of partnership and unincorporated association income, must provide that the portion of the law imposing the tax not take effect until approved by a majority of the registered voters voting in a statewide referendum held on the question of imposing the tax. The referendum must specify the rate of the tax that will apply to taxable income.

The amendment also provides that a general law enacted by the legislature that increases the rate of the tax, or changes the tax in a manner that results in an increase in the combined income tax liability of all persons subject to the tax, may not take effect until approved by a majority of the registered voters voting in a statewide referendum held on the question of increasing the income tax. The referendum must specify the manner in which the proposed law would increase the combined tax liability of all persons subject to the tax. The legislature may repeal, or amend without increasing, a tax approved by the voters without submitting the amendment or the repeal to the voters. If the legislature repeals a tax approved by the voters, the legislature may only reenact the tax without voter approval if the effective date of the reenactment of the tax is within one year of the effective date of the repeal of the tax. The amendment also provides that, in the first year in which an income tax is imposed, and during the first year of any increase in the tax, not less than two-thirds of all net revenues from the tax shall be used to reduce the rate of ad valorem maintenance and operation taxes levied for the support of primary and secondary education. In subsequent years, not less than two-thirds of all net revenues of the tax shall be used to continue such ad valorem tax relief. The net revenues of the tax remaining after the deduction of money for reduction of ad valorem maintenance and operation taxes shall be used for support of education. The maximum rate at which a school district may impose ad valorem maintenance and operation taxes is reduced by an amount equal to one cent per \$100 valuation for each one cent per \$100 valuation that the school district's ad valorem maintenance and operation tax is reduced by the minimum amount of money dedicated under the amendment, provided that a school district may subsequently increase the maximum ad valorem maintenance and operation tax rate if the increased maximum rate is approved by a majority of the voters of the school district voting at an election called and held for that purpose. The portions of the amendment relating to dedicating tax revenues to reduce the rate of ad valorem maintenance and operation taxes apply on or after the first January 1 after the date on which an income tax takes effect, except that if the income tax begins to apply on a January 1, the amendment applies to ad valorem maintenance and operation taxes levied on or after that date.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment prohibiting a personal income tax without voter approval and, if an income tax is enacted, dedicating the revenue to education and limiting the rate of local school taxes."

PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 18 proposes a constitutional amendment that would authorize the legislature to prescribe the qualifications of sheriffs. Currently, the constitution authorizes the legislature to prescribe the duties, perquisites, and fees of office, but not the qualifications for the office of sheriff.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to allow the legislature to prescribe the qualifications of sheriffs."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 21 proposes a constitutional amendment that would abolish the office of county surveyor in Jackson County. The amendment also provides for the powers, duties, and functions of the county surveyor to be transferred to the county officer designated by the commissioners court.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment abolishing the office of county surveyor in Jackson County."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 57 proposes a constitutional amendment that repeals article XII, section 6, of the Texas Constitution, which currently provides that no corporation shall issue stock or bonds except for money paid, labor done, or property actually received, and that all fictitious increase of stock or indebtedness shall be void.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment repealing certain restrictions on the ability of corporations to raise capital."

PROPOSITION NO. 8 ON THE BALLOT

House Joint Resolution 22 proposes a constitutional amendment that would authorize the commissioners court of McLennan County to call an election to abolish the office of county surveyor. The office of county surveyor will be abolished if a majority of the qualified voters of McLennan County voting on the question favor the abolition. If the office of county surveyor is abolished, the amendment requires that the maps, field notes, and other records in the custody of the county surveyor to be transferred to the county clerk of McLennan County. After abolition, the amendment also grants the commissioners court of McLennan County the authority to employ or contract with a qualified person to perform any of the functions that would have been performed by the county surveyor if the office had not been abolished.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to abolish the office of county surveyor in McLennan County."

PROPOSITION NO. 9 ON THE BALLOT

Senate Joint Resolution 19 proposes an amendment to article VIII, section 13 of the Texas Constitution that would modify the provisions for the redemption of real property sold at a tax sale. The amendment deletes current language in article VIII, section 13 that allows the legislature to provide for the sale of property without trial to pay for delinquent taxes. It also states that the deed to the new owner vests a good and perfect title subject only to redemption as set out in this amendment or impeachment for fraud. Language is added limiting application of the current two-year redemption period to former owners of residence homesteads and land designated for agricultural use sold for unpaid taxes. When property is sold as the result of a suit to enforce collection of unpaid taxes, the amendment would allow the legislature to limit redemption to property used as a residence homestead or designated for agricultural use at the time the suit was filed. The amendment creates a second type of redemption for former owners of real property when property is neither a residence homestead, nor designated for agricultural use. These owners would have a six-month period in which to redeem their property by paying the amount of money paid for the property, including the Tax Deed Recording Fee, all taxes, penalties, interest, and costs paid plus an amount not exceeding 25 percent of the aggregate total. The amendment applies to redemption of properties sold at a tax sale for which the purchaser's deed is filed on or after January 1, 1994. For redemption of properties sold at a tax sale for which the purchaser's deed was filed before January 1, 1994, the former law is applicable and remains in effect.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to modify the provisions for the redemption of real property sold at a tax sale."

PROPOSITION NO. 10 ON THE BALLOT

Senate Joint Resolution 34 proposes a constitutional amendment that adds a

new section 49-b-2 to article III of the Texas Constitution. This new section provides that, in addition to the general obligation bonds authorized to be issued and sold by the Veterans' Land Board (the "Board") by sections 49-b (1950 million) and 49-b-1 (\$1.3 billion) of article III, the board may provide for, issue, and sell general obligation bonds of the state in an amount not to exceed \$750 million to provide financing to Texas veterans. \$250 million of the bonds authorized by this new section shall be used to augment the Veterans' Land Fund (the "Land Fund"). The Land Fund shall be used by the Board to purchase lands situated in Texas owned by the United States government, an agency of the United States government, the State of Texas, a political subdivision or agency of the State of Texas, or a person, firm, or corporation. The lands shall be sold to veterans in quantities, on terms, at prices, and at fixed, variable, floating, or other rates of interest determined by the Board. Lands in the Land Fund that are offered for sale to veterans and that are not sold may be sold or resold to the purchasers in quantities, terms, prices, and rates of interest determined by the Board.

New section 49-b-2 creates the Veterans' Housing Assistance Fund II (the "Housing Fund II"), and \$500 million of the general obligation bonds authorized by the section shall be used for the Housing Fund II. The Housing Fund II is a separate and distinct fund from the Veterans' Housing Assistance Fund (the "Housing Fund") established under section 49-b-1 of article III. Money in the Housing Fund II shall be administered by the Board and shall be used to make home mortgage loans to veterans for housing within this state in quantities, on terms, and at fixed, variable, floating, or other rates of interest determined by the Board. The principal of, and interest on, the general obligation bonds authorized by this section for the benefit of the Housing Fund II shall be paid out of the money of the Housing Fund II. The principal of, and interest on, the general obligation bonds authorized by section 49-b-1 of article III for the benefit of the Housing Fund shall be paid out of money in the Land Fund, the Housing Fund, or the Housing Fund II, as the case may be, available to pay the principal of, and interest on, the general obligation bonds authorized by this section or by sections 49-b or 49-b-1 of article III, there is appropriated out of the first money coming into the treasury in each fiscal year an amount that is sufficient to pay the principal of, and interest on, the general obligation bonds that mature or become due during that fiscal year.

If the Board determines that assets from the Land Fund, the Housing Fund, or the Housing Fund II are not required for purposes of the fund, the Board may transfer the assets to another of those funds or use the assets to secure revenue bonds issued by the Board. The revenue bonds shall be special obligations of the Board and payable only from and secured by receipts of the funds, assets transferred from the funds, and other revenues as determined by the Board and shall not constitute indebtedness of the State of Texas or the Board. The Board may issue revenue bonds from time to time, which bonds may not exceed an aggregate principal amount that the Board determines can be fully retired from the receipts of the funds. The revenue bonds shall be sold in forms, denominations, and in installments, and bear a rate or rates of interest as the Board determines.

The general obligation bonds authorized to be issued by the Board by this section or by sections 49-b and 49-b-1 of article III shall be issued and sold in forms and denominations, on terms, at times, in the manner, at places, in installments, and shall bear a rate or rates of interest the Board determines. The bonds shall be incontestable after execution by the Board, approval by the Attorney General of Texas, and delivery to the purchaser.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing issuance of \$750 million in general obligation bonds to augment the Veterans' Land Fund and the Veterans' Housing Assistance Fund and to fund the Veterans' Housing Assistance Fund II."

PROPOSITION NO. 11 ON THE BALLOT

Senate Joint Resolution 31 proposes a constitutional amendment relating to the duties of trustees of local retirement systems which provide retirement and related disability and death benefits for public officers and employees and that do not belong to a statewide retirement system. The amendment provides that the

board of trustees of such a system shall (1) administer the system of benefits; (2) hold the assets of the system for the exclusive purposes of providing benefits to participants and their beneficiaries and defraying reasonable expenses of administering the system; and (3) select legal counsel and an actuary and adopt sound actuarial assumptions to be used by the system.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing that the trustees of a local public pension system must administer the system for the benefit of the system's participants and beneficiaries."

PROPOSITION NO. 12 ON THE BALLOT

House Joint Resolution 23 proposes a constitutional amendment providing that any person accused of a violent or sexual offense committed while under the supervision of a criminal justice agency of this state or a political subdivision of this state for a prior felony may, after a hearing and evidence substantially showing the guilt of the accused, be denied bail pending trial. If the accused is not, however, accorded a trial within 60 days from the time of his incarceration upon the accusation or indictment, the order denying bail shall be set aside unless a continuance is obtained upon the request of the accused. In the amendment, the term "violent offense" means murder, aggravated assault (if a deadly weapon was used or exhibited during the commission of the assault), aggravated kidnapping, or aggravated robbery. The term "sexual offense" means aggravated sexual assault, sexual assault, or indecency with a child.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment permitting the denial of bail to certain persons charged with certain violent or sexual offenses committed while under the supervision of a criminal justice agency of the state or a political subdivision of the state."

PROPOSITION NO. 13 ON THE BALLOT

Senate Joint Resolution 13 proposes a constitutional amendment that amends article VII, section 17(a), of the Texas Constitution to provide that, of the \$100 million currently appropriated by that section for the use of public institutions of higher education during each fiscal year, those institutions may also utilize this money to pay for acquiring, constructing, or equipping or for major repair or rehabilitation of buildings, facilities, other permanent improvements, or capital equipment used jointly for educational and general activities and for auxiliary enterprises to the extent of their use for educational and general activities. For the five-year period beginning on September 1, 2000, and for each five-year period thereafter, the legislature, during a regular session that is nearest, but preceding, a five-year period may, by a two-thirds vote of the membership of each house, increase the amount of the \$100 million constitutional appropriation for the five-year period. The amendment also reflects name changes that have been made to some of the institutions of higher education for which such funding is available. The amendment adds the Texas State Technical College System to those institutions eligible to receive such funding, but limits its allocation of the annual appropriation to 2.2 percent of the total appropriation each fiscal year. The amendment also provides that each governing board authorized to participate in the distribution of money under article III, section 17, may also issue bonds and notes for the purposes of refunding bonds or notes issued under that section or prior law for the purposes of acquiring capital equipment, library books and library materials, paying for acquiring, constructing, or equipping or for major repair or rehabilitation of buildings, facilities, other permanent improvements, or capital equipment used jointly for educational and general activities and for auxiliary enterprises to the extent of their use for educational and general activities. The amendment deletes language in article III, section 17, which authorizes the legislature to designate a single agency to issue such bonds or notes in lieu of the governing bodies, and to transfer to that agency the authority to collect and pledge money to the payment of such bonds and notes as directed by the governing body of each eligible institution. Funds appropriated under article III, section 17, may not be used for the purpose of constructing, equipping, repairing, or rehabilitating buildings or other permanent im-

provements that are to be used only for student housing, intercollegiate athletics, or auxiliary enterprises.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment relating to the amount and expenditure of certain constitutionally dedicated funding for public institutions of higher education."

PROPOSITION NO. 14 ON THE BALLOT

Senate Joint Resolution 45 proposes a constitutional amendment that adds a new subsection (e) to article III, section 49-h, of the Texas Constitution. The new subsection provides that, in addition to the amounts authorized by subsections (a) (\$500 million), (c) (\$400 million), and (d) (\$1.1 billion) of section 49-h, the legislature may authorize the issuance of up to \$1 billion in general obligation bonds and may use the proceeds of the bonds for acquiring, constructing, or equipping new corrections institutions, including youth corrections institutions, and mental health and mental retardation institutions and for major repair or renovation of existing facilities of those corrections and mental health and mental retardation facilities. The amendment also provides that the provisions of subsection (a) of section 49-h, relating to the review and approval of bonds, and the provisions of subsection (b) of section 49-h, relating to the status of the bonds as a general obligation of the state and to the manner in which the principal and interest on the bonds are paid, apply to bonds authorized by this amendment.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance of up to \$1 billion in general obligation bonds payable from the general revenues of the state for projects relating to facilities of corrections and mental health and mental retardation institutions."

PROPOSITION NO. 15 ON THE BALLOT

House Joint Resolution 37 proposes a constitutional amendment that would authorize the county commissioners court of a county to call an election to abolish the office of county surveyor. The office of county surveyor is abolished if a majority of voters of the county voting in the election approve the measure. If the office of county surveyor is abolished, the maps, field notes, and other records of the county surveyor are transferred to the county officer or employee designated by the commissioners court.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to permit the voters of a county to decide, at an election called by the commissioners court, whether to abolish the office of county surveyor in the county."

PROPOSITION NO. 16 ON THE BALLOT

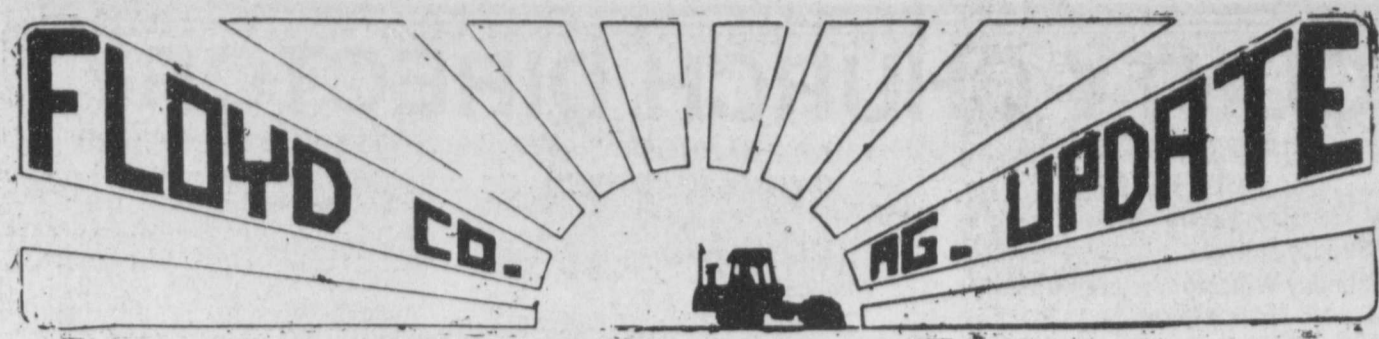

Senate Joint Resolution 44 proposes an amendment to article III, section 49-(b) of the Texas Constitution, which currently limits the principal amount of bonds outstanding at one time for the Texas agricultural fund to \$25 million and for the rural microenterprise development fund to \$5 million. The amendment would raise the principal amount limit for the Texas agricultural fund to \$100 million. The amendment would also make the principal amount limit for each fund apply to the total principal amounts of both bonds and notes issued or sold rather than just the principal amounts of bonds outstanding at one time.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing up to a total of \$100 million in bonds and notes to be issued or sold to finance the Texas agricultural fund for providing financial assistance to develop, increase, improve, or expand the production, processing, marketing, or export of crops or products grown or produced primarily in this state by agricultural businesses domiciled in the state."

Este es el informe explicatorio sobre la enmienda propuesta a la constitucion que aparecera en la boleta el dia 2 de noviembre de 1993. --Pest Management Newsletter--

by David Kostroun GENERAL SITUATION

When I first came to Crosby County someone told me that if I did not like the weather, wait 15 minutes and it would change. Well it took more than 15 minutes to change but when it did it brought 5 inches of rain to Crosbyton on Monday and upper 50 to 60 degree weather till Wednesday afternoon. What this drastic change in weather will do to both insect and crop alike is anyone's guess. While cotton has nearly finished here in Crosby County, some producers in Floyd County may have a couple weeks till their fields are completely clear of insect problems. As corn harvest slowly continues in lower Floyd County, grain sorghum is quickly maturing.

COTTON

In Crosby County, producers can "throw in the hat" on most cotton fields. Heavy shedding of squares and small, unharvestable bolls in taking place. Dryland and some irrigated fields have numerous open bolls. While some producers in Floyd County can also throw their hats, others may still need to pay attention to the insect situation. One such program field in the Barwise area still has 4 to 5 nodes above white bloom. A field such as this one that is lush and growthy is quite attractive to bollworm egg-laying activity. We are seeing many adults coming out of corn as it quickly dries down. The heaviest activity seen yet was 24,000 eggs/acre in combination with 12,000 small and medium sized larvae/acre. Some of these larvae can be seen feeding on 1 to 10 day old bolls. In other areas, however, I have seen good beneficial activity on moderate egg-lays. It appears that most of these eggs or small larvae are not making it as we are not seeing medium size larvae following last week's egg-lay. So keep in mind that at this point in the season, it is important to scout and to make decisions on a field to field basis. So much variability (irrigation timing and amount, growth stage, yield potential, etc) comes into play and will affect decision-making.

CORN

Corn harvest continues near the Petersburg area while fields in the northern part of Floyd County are drying down quickly.

For the most part, corn is past further insect problems. I have, however, noticed some lodging due to southeast corn borer damage.

SORGHUM

While this cool weather is not good for the cotton, it is helpful in grain sorghum. Many of the program fields are in the hard dough stage. Like midge, sorghum headworms never presented much of a problem this year. It is possible that the predator/parasite complex took care of these larvae. I am, however, still seeing heavy mite populations in conditions did hinder heavy mite infestations, population levels were not reduced. Damage did not increase much, however, further damage is still possible. After hard dough, a significant reduction in yields is generally not seen. Instead, mite-induced lodging may occur. Generally this lodging occurs in circular areas in the field. Keep a close watch on any fields with moderate to heavy mite populations. If cooler weather sets in, mite activity may be slowed.

ARSENIC ACID

I want to remind you about some important dates concerning arsenic acid.

October 31, 1993—Last day any person can legally sell, offer for sale, or deliver for sale stocks of Arsenic Acid.

December 31, 1993—Last day any

person can legally use any existing stocks (product must be in grower's possession) of Arsenic Acid.

December 31, 1993-March 31, 1994—Elf Atochem will buy back unopened containers of Arsenic Acid from retailers and growers.

UPCOMING EVENTS

Texas Agricultural Experiment Station Field Day

The field day will be held at the TAES farm at Halfway on Tuesday, September 14. Tours will start at 1:00 p.m. Make plans to come out and see some of the latest technology in agriculture.

West Texas Agriculture Chemical Conference

The Ag Chemical Conference has been scheduled for September 15-16 at Lubbock Plaza Hotel. The program on Wednesday starts at 1:15 p.m. and will offer 3.25 CEU credits. On Thursday, the program kicks off at 8:10 a.m. and will offer 5 CEU's. For further details, contact the Crosby or Floyd County Extension Office.

The Farmer-Stockman Show

Mark your calendars to attend the first annual Farmer-Stockman Show October 12, 13, and 14. The 800 acre show site is located 1.5 miles east of Lubbock on FM 835 (East 50th Street). This is another excellent opportunity to see the many aspects of and the latest technology and research in agriculture.

STILL ALIVE—Roy Hill displays a live rattlesnake he snared in the Flomot area on Wednesday, August 25. Hill was looking for junk iron when he came upon the reptile. He plans to have the five-foot long snake skinned. It measured about 8 inches around and had several rattles. Holding the tail is Preston Griffith. -- Staff Photo

Love for cotton t-shirts growing

Americans' continue to love comfortable, cotton clothing, especially outerwear T-shirts and other cotton knits, according to the National Cotton Council of America's annual market research report, "Cotton Counts Its Customers."

The report revealed that more than 877 million cotton T-shirts were produced in this country in 1992 — a whopping 25 percent increase from the previous year. The vast majority of those T-shirts, 758.1 million, were men's and boys'. T-shirts, in fact, were a driving force

behind cotton's claim of two more percentage points — 62 percent to 64 percent — in the total market share for apparel last year.

"A lifestyle that calls for more casual clothing is the big factor for the increase in T-shirt consumption," said Jim Howell, a Council senior market analyst.

Howell said that his contacts within the textile industry indicated that the increased T-shirt usage is due, at least in part, to consumers being more creative in their wearing of cotton, particularly in "layering" the garments.

County to test insurance plan

by Kerry Siders

The Federal Crop Insurance (FCIC) has developed an alternative crop insurance for wheat producers. The new product is called a Group Risk Plan (GRP). The GRP is based on the premise that when the entire county's wheat crop yield is low, most farmers in the county will also have low yields. GRP, a departure from traditional approaches, pays only when the yield of the entire county drops below the expected county yield, the yield coverage level selected, and the dollar amount of protection purchased.

chased.

GRP is being offered as a pilot test to wheat farmers in selected counties in eight states, based on wheat production and Multiple Peril Crop Insurance (MPCI) experience. Floyd County is one of thirty-three counties in Texas selected for this pilot test.

Producers have a choice of MPCI or GRP. GRP will not be the best alternative for every producer. GRP option will be most effective if a producer's farm yields are consistent with county yields. For farms with yields different from the

county's MPCI may be a better alternative.

The private sector provides insurance policies to protect farmers against specific losses that affect their farm yield without affecting the county yield. For instance, producers may want to buy insurance against hail.

The MPCI program requires annual production records. During the GRP pilot test, it is crucial that producers maintain production records in the same way that they now do for MPCI. If producers decide to switch back to MPCI from GRP, they will need to furnish reports for missing years. The sign-up date for GRP is September 30, 1993. For additional information on GRP contact Kerry Siders, Floyd County Ag. Agent or your crop insurance representative.

ASCS announces that quality adjustment funds are available

Public Law 103-50 authorizes use of PHASE I, II, and III remaining disaster funds for quality adjustments for 1990, 1991, and 1992 crops. Producers who have suffered a quality loss for these years need to file a disaster application (CCC-441) by September 17, 1993. This deadline can not be extended.

Crops eligible for quality adjustments in 1990, 1991, 1992 are all program crops, soybeans, sunflowers, and peanuts. The years eligible would be the two years that you had chosen for low yield disaster in PHASE I, II and III.

Production evidence for quality losses must be submitted by October 8,

1993.

Payments will be factored if applications amount to more than available funds. Please check with this office for further information as it becomes available. Again, it is imperative that your application be filed no later than September 17.

1993 DISASTER

The application period for 1993 disaster related crops will end on March 4, 1993. Further information will be available later for the 1993 disaster program. Producers need to be aware that the crop insurance deadline for wheat is September 30.

Stocker cattle conference today

A free multi-county Stocker Cattle Conference featuring six informative speakers will be held from 9:30 a.m. to 3 p.m. September 9 at the Massey Activity Center here.

Registration starts at 9 and a free steak lunch will be served at noon. Pesticide applicators can receive two hours of continuing educational units which are required by the Texas Department of Agriculture for annual certification.

The program includes Dr. Brent Bean, a Texas Agricultural Extension Service agronomist of Amarillo, who will cover small grain management for forage. Dr. Mat Cravey, Extension Service beef cattle specialist of Amarillo, will discuss supplementation of stocker cattle and the results from the 1992 and 1993 Ranch to Rail Program. Internal parasite control will be addressed by Dr. Carl Patrick, extension entomologist at Amarillo.

Dr. Gary Gleason, a veterinarian at West Plains Veterinary Hospital, will discuss stocker cattle health. Extension economist Dr. Steve Amosson, Amarillo, will review economic considera-

tions and retained ownership. Chuck Friese, a representative of Roche Animal Health, will explain the value of average daily gain in stocker cattle.

Contact Floyd County extension agent Kerry Siders at (806) 983-2806 or Crosby County extension agent Rick Smathers at (806) 675-2003 in order to attend the conference.

The sponsors are Texas Agriculture Extension Service, Elanco Animal Health, Roche Animal Health, Pfizer Animal Health, Mooreman's Manufacturing Co., and Pitman-Moore.

Floyd County Hesperian-Beacon FOOTBALL CONTEST

GOOD LUCK!!

Floyd County Hesperian-Beacon Football Contest Rules

Any subscriber or individual above the age of 7 years old who purchases a Floyd County Hesperian-Beacon is eligible to enter this newspaper's weekly football contest, except employees of this newspaper and family members living in the same household.

To play, circle on the official entry form, the numbers of the teams you believe will win this week's games. To indicate a tie, circle the numbers of both teams playing the game. In addition, write in each of the tie breaker footballs your guess of the combined total points to be scored by the two teams listed. Also circle the team you believe will win. Circle both teams if you think the game will end in a tie.

The only entries which will be considered for prizes will be those on official entry forms which are brought to the Hesperian-Beacon office in Floydada or to the Hesperian-Beacon Office in Lockney by 5:00 p.m. on Friday. No photocopies will be accepted.

NO MAIL ENTRIES WILL BE ACCEPTED.

Three cash prizes are offered each week. In the event of ties - the same number of correct games and equal scores on the tie breakers - prizes will be shared by those involved in the tie. The tie breaker scores will be utilized only in the event of a tie on the number of games correct.

Print your name and address plainly on the official entry form and double check your choices before clipping out the entry form and depositing it at the Hesperian-Beacon office before 5:00 p.m. on Friday.

Entries are limited to one per person per week. Weekly winners are limited to one per household.
