July 4th Celebration Slated Here Monday

MUCH HAS BEEN SAID, and rightly so, about why Johnny can't read. The educational failures now being increasingly recognized are critical. The need for solutions is urgent. However, a more critical problem is: Why and how has "Johnny's" faith in God been destroyed? And what is the solution?

In a very timely article in the publication *Reason & Revelation* Dr. Bert Thompson discusses this problem, in which he says: "...here I would like to concentrate on one answer. Something (or someone) undermined Johnny's commitment and caused him to give up (or least deviate from) those ideals which he once held dear!

"Satan was successful in his task because we were not successful in ours! We did not rain up Johnny 'in the way he should go' (Proverbs 22:6), because we did not show him the evidences upon which his faith is based.

"Many in the church today are not fully acquainted with the field of Christian evidences and the great good that can be accomplished through the proper use of such evidences. Some elders, teachers and preachers wonder whether there is a proper place for instruction in Christian evidences within the teaching framework of the local congregation or family unit.

"The field of Christian evidences forms a study that lies at the very heart of Christianity--it is the crux of the Christian defense. With it, Johnny could have defended that which he had been taught."

(Quoted from the Pro-Family Forum's newsletter of June, 1983.)

WE'RE STILL A YOUNG nation, any way you figure it. As everyone knows, our country celebrated its bicentennial seven years ago, in 1976. However, that was the 200th anniversary of the nation's Declaration of Independence.

We're still not officially a 200-year old nation, as a little quick review of history will show you. The Revolutionary War, brought about by that statement by the Continental Congress on July 4, 1776, was fought from that time until 1781, with the surrender of the English forces at Yorktown, Virginia.

It is to be recalled that although the war did not go well for the colonists at first, the effort began to turn in their favor when an English army under General John Burgoyne was defeated at the Battle of Saratoga. After that victory, France decided to pitch in and help the colonists, and her assistance was a big factor in deciding the outcome of the war.

After the fighting ended, it was almost two years before the war was officially ended, with the Treaty of Paris in 1783, with England recognizing the independence of the United States.

The second Continental Congress had drafted the Articles of Confederation, but these did not bind the states together into a strong union.

Washington, Hamilton, Madison and other leaders, who were dissatisfied with the Articles of Confederation, called what turned out to be the Constitutional Convention in Philadelphia in 1787.

The Constitution was ratified by the states, and the new government, under the Constitution, was organized in New York City in 1789, with George Washington as the first president.

The Constitution required that a census of population be taken every ten years, and the nation's first census was taken in 1790.

So, you can see that we still have a number of milestones to mark, and perhaps the country should seriously consider a "second" Bicentennial in the year 1989.

Residents of Friona and the surrounding area will help celebrate the nation's 207th birthday with the city's annual July 4th Celebration. Most of the events are held at the Friona Community Center.

Probably the tiringest person, at the end of the day, or persons, will be those hardy souls who enter the Triathlon race, which is one of the first official events on the schedule at 7 a.m. Monday. Contestants are required to swim two miles, ride a bicycle four miles, and finish with a six-mile run.

Actually, the tennis tournament kicks off the celebration, as it gets underway on Saturday, July 2 at the high school courts.

The volleyball tournament will begin at 10 a.m. east of the tennis courts.

The beef and sausage barbecue, sponsored by the Friona Noon Lions, will begin at 11:30 a.m., with serving continuing until 1:30 p.m. Advance tickets are on sale from members of the club (see list in the advertisement elsewhere), at \$4.50 for adults and \$2.50 for children six and under.

Those buying their tickets in advance qualify for a drawing in which a TV-radio-stereo unit will be given away. Chairmen of the

Friona Noon Lions Set Annual BBQ

The Friona Noon Lions Club, at its last regular meeting, put the finishing touches on their plans to feed 600 people the "best barbeque in the Panhandle," at the annual July 4 celebration. The preparations started as early as May with the securing of donations from various suppliers.

There will be approximately 300 pounds of sausage seasoned and stuffed by the Friona Noon Lions. Another 400 pounds of beef will be barbequed in a pit 20 hours preceding the July 4 dinner. Over 100 pounds of beans and cole slaw will be served to finish out the menu.

The largest crowd ever served by the Lions was in 1976 for the bicentennial. Although the crowd was down slightly in 1977, the numbers have been increasing ever since.

This year's chairmen are Lions, Larry Knowles and Joe Wilhelm. Net profit from the barbeque will be going to Girlstown and to purchase eye caps for Janet Rector, a local blind girl.

The barbeque will be served from 11:30 a.m.-1:30 p.m. at the Community Center. A \$4.50 ticket and a \$2.50 children's ticket (six and under) will buy all the barbeque you can eat. Please contact any member of the Noon Lions for your advance tickets.

Those purchasing an advance ticket will be eligible to win an RCA television with AM/FM radio.

barbecue are Lions Joe Wilhelm and Larry Knowles.

Eva Miller's stage band will provide dinner music for the barbecue diners. A cake walk will be held at 1 p.m. Also, Modern Study Club will be selling desserts as a fund-raising activity. St. Teresa's Catholic Church also will operate a concession stand.

Contests will be held in and around the Community Center immediately following the dinner.

The contests include (for the youngsters) a sack race, softball throw, a three-legged race, and the highlight of the annual events, the World's Championship Turtle Race. These events begin from 1:30 to 2

p.m. and like most of the other events, may be entered just prior to the event by contestants.

Also on the schedule at 1:30 p.m. are a horseshoe pitching contest; a wheelbarrow race at 2 p.m., a "42" domino tournament, and a ping-pong tournament.

The day's events will be concluded with the 14th annual fireworks display at Reeve Lake, beginning at dark. The annual display is sponsored by the Friona Volunteer Fire Department, and is made possible through donations by Friona merchants. The fund drive to pay for the 1983 display was spear-headed by the Friona Young Homemakers.

Lazbuddie FFA Boy Wins National Trip

Frank Jesko of Lazbuddie High School's Future Farmers of America chapter is one of five young men who won Southwestern Public Service Company-sponsored trips to the National FFA Convention in Kansas City, Missouri in November.

Jesko is the son of Mr. and Mrs. Pete Jesko of Lazbuddie.

Jesko was a top student in the "Electric Controls" course, at a three-day farm electrification workshop sponsored by SPS in Amarillo June 13-15. Eighty-four FFA boys and five FFA girls from Texas and New Mexico attended.

Vocational agriculture teachers who made up the workshop faculty selected the five trip winners on the basis of test scores and class performance. Other trip winners were J. Dale Butler of Valley High School, Keith Williams of Mobeetie, Shad Kelley of Abernathy and Brooke Owens of Artesia.

The workshop was the 21st sponsored by SPS. It was the second ever in which girls were students.

The future farmers learned how to wire buildings, build and use electric

controls, or how to build electric motors. They also were taught how electricity is made, and first aid and safety tips.

Five area vocational agriculture teachers paid by SPS taught the three courses. They were assisted by ten adult FFA advisors and by SPS personnel.

The "Farm Wiring" course emphasized safe and efficient wiring of two- and three-way switches, proper wire splicing, and how to make a meter loop. The skills can be used in homes, barns, sheds, or other places electricity is needed.

Students in the "Electric Controls" course learned how to tie in three- and four-way switches, how to set up photoelectric cells for automatic

NEW OFFICERS....Elected to head the Friends of the Library at the organization's annual meeting Monday evening were (standing, l-r) Camille Beville, president; and Darla Bracken, secretary-treasurer. In front are Judy Herring, vice president and Nancy Edelman, past president. The group is shown in the reading corner at the library, which they furnished.

Fine Arts Council In SDW Planning Meet

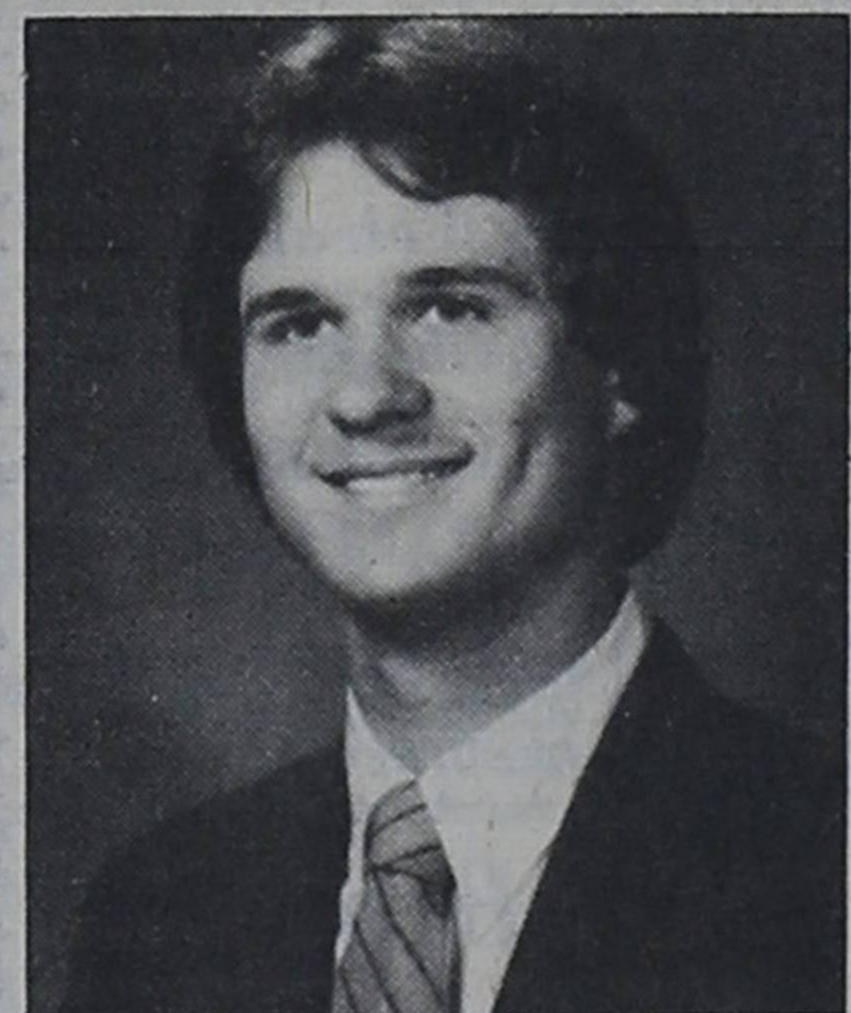

Members of the Friona Fine Arts Council met June 20 to work out details of the 1983 Summer Drama Workshop which will be held August 8 through August 19.

Registration will be August 7 at Friona High School from 3 to 5 p.m. The registration fee of \$25.00 per person will be taken at that time. Anyone wishing to pre-register may do so by calling Gay Tannahill at 247-3144 or Roxanne Hurst at 295-3580.

The minimum age limit for the youth group will be set at age ten. Registration for this class will be limited to approximately 20, on a first come, first served basis. Del Lewis, the Drama Workshop instructor, feels that each child will receive more benefit from the workshop if the class is limited to a smaller enrollment. No limit has been set on the high school age class.

Letters have been sent to all Friona area businesses along with a self-addressed-stamped-envelope, requesting contributions for the Drama Workshop, as the enrollment fee does not nearly cover all the expenses involved.

Businesses and individuals who have contributed thus far are: Benger Aero Spraying, Bi-Wize Drug, Claborn Floral, Ethridge-Spring Agency, Dairy Queen, Friona Cablevision, Friona Chamber of Commerce, Friona Ford, Friona State Bank, Friona Star, Parmer County Pump, Parmer County Implement, Hardin Tasty Cream, Hi-Pro Feeds, Plains Hardware, Winner's Choice, Spring-Spring-

FRANK JESKO

All-Stars Named For Two Leagues

All-stars were announced this week for the Mustang and Bronco League playoffs, which will take place during the next two weeks.

Two teams were chosen by the Bronco League, a "Red" team and a "White" team. They will compete in a double-elimination tournament July 11-16 in Muleshoe.

Members of the Red team are Clint Deaton, Hector Perez, Andre Duran, Cody Bracken, Robert Sandoval and Shannon Cochran of the league

champion Friona Star; Raul Rodriguez and Adolfo Hernandez of Friona Feed Yard; Daylen Gallman of Reeve Chevrolet-Olds; Hippy Gomez and Randy Stone of Bovina and Louis Dunnam, Corey Cunningham, Steven Smith and Beto Gomez of Friona State Bank. Terry Copley and Tony Duran will coach the Red All-Stars.

Members of the White team are Jacky Lafuente and Jerry Lafuente of the Friona Star; Chad Rhodes, Ernie Crutchfield and Junior Silva, Friona Feed Yard; Mike Bermea, Jaime Ornales and Sam Morgan of Bovina; John Ed Duke, Dustee Gee, Kevin Zachary, Sammy Garcia, Bill White and Daniel Chavez of Reeve Chevrolet Olds; and Nito Perez and Brian Osborn of Friona State Bank. Ed Terry is coach of the White All-Stars.

The Mustang All-Stars include Jimmy Ancira, Wes Drake and Tony Ibarra of Friona Ford; Patrick Upton, David Barnett, and Arturo Perez of the B-J Bees; Nathan Brockman, Chad Hamilton, and Louis Abeyta, Hi-Pro; Wade Carson, Alex Mendoza and Gary Stowers, Ethridge-Spring; Andy Stormes, Cory Kirkpatrick and Adrian Acosta, Bovina. Charles Hamilton is coaching the Mustang All-Stars.

Friona To Host LL Tourney

Friona will host the Mustang League (9-10 year olds) all-star district tournament July 7, 8 and 9 at the East Park.

Friona and Muleshoe all-stars will play the best of three games for the district title. Games begin at 7:30 each evening.

The Bronco League all-stars (11 and 12 years old) will play their district tournament July 11-16 in Muleshoe.

Meeting Set On July 5

There will be an irrigation energy meeting Tuesday, July 5 at 7:30 p.m. in the Expo Building, Dimmitt.

Guest speakers will include Representative Kent Hance, who will discuss the federal energy status and Senator Bill Sarpalius, who will present an overview of gas legislation in the state legislative session.

Also progress reports on alternate energy will be given.

The meeting is sponsored by the Plains Irrigation Gas Users Association and Texas Corn Growers Association.

All farmers and agri-businessmen in the area are invited to attend this timely meeting.

MELON FANS.... Fern Barnett, second from left, and J.T. Gee were among customers who enjoyed a sample of watermelon Friday at Friona State Bank. At the serving table were Pete Diaz, left, and Dorothy Jackson.

July 4th FIREWORKS DISPLAY

Kyle Harrelson Wins Decathlon

Kyle Harrelson of Las Cruces, New Mexico was the winner of the state AAV decathlon held in Albuquerque, New Mexico on Saturday and Sunday, June 25-26.

The decathlon consists of field and track events, 100 meter dash, long jump, shot put, high jump, 400 meter dash, 110 meter hurdles, pole vault, discus, javelin and 1500 meter run.

Winning this meet entitles Kyle to advance to the regional AAV track meet to be held in Provo, Utah July 14, 15 and 16.

Harrelson is the grandson of Preach and Mary Lou Collier and is spending the summer in Friona with his grandparents.

He is a member of the Las Cruces Bulldogs basketball team.

BRUCE CHAPMAN

Bruce Chapman Gets New Position At GTE

In an effort to improve customer services and relations, Bruce Chapman, local service manager for General Telephone for Bovina, Friona, Muleshoe, Olton, Springlake, Earth, Sudan and Amherst, has been assigned the additional responsibilities of small business systems sales, according to O.D. Hearn, Operations Manager in Brownfield.

The local service manager concept is part of General Telephone's plan to return responsibility for customer service to the local area. O.D. Hearn, operations manager in Brownfield, describes it as "...Part of an overall plan to improve our relationship with our customers and provide them

with the kind of service they request.

The local service manager initially was responsible for quality service to our customers locally and were to resolve problems that could not be taken care of through normal company channels.

The sales responsibilities opens up a whole new area for the local service manager. They are now commissioned with not only servicing customer equipment, but insuring that the customer receives the correct equipment for their particular needs. The challenge of creating the correct customer/equipment mix is difficult, but I'm sure they'll meet the challenge.

Bruce Chapman, a native of Muleshoe, lives in Muleshoe with his wife, Cynthia, and their two children. He began his career with GTE in 1973, as a lineman in Littlefield. He was promoted to management in 1980, and has held various technical positions in the company. Chapman is an active member of the Muleshoe Noon Lions and is on the board of directors for the Muleshoe Chamber of Commerce.

Emphasizing his interest in personalizing service, Chapman stated that he is excited about this responsibility. "I feel I know the customer's needs, location, as well as having the technical expertise to provide our customers with tailored telephone systems," he said.

Chapman concluded that he is also looking forward to the continuing service improvements and serving the local community.

Friona Flashbacks

...from the files of The Friona Star

55 YEARS AGO--JUNE 22, 1928

Harvest season in this section of Parmer County began Thursday afternoon when the first load of grain cut and threshed in this territory this year was sold to the Santa Fe Grain Company by J.C. Wilkison.

Mrs. Willis Smith and two sons, Otha and Otis, of King County, Texas, arrived here last Thursday for a short visit in the home of Guy Smith at the southwest corner of town.

Mrs. L.F. Beckner has just received the announcement of the arrival of a baby daughter in the home of Prof. and Mrs. J. Grady Burson of Lockney.

Mrs. B.M. Donald and George Mallicote and sister, all of Fort Worth are the guests of Mr. and Mrs. J.W. Shults near Homeland. Mrs. Donald is Mrs. Shults' mother and is past ninety years of age, but still quite active. The young people are Mrs. Shults' nephew and niece. They expect to be here about two weeks.

45 YEARS AGO--JUNE 24, 1938

For a few years past, burglars have, apparently given Friona a "letting alone," but another cropped out last Thursday night when the hardware store of J.L. Tiddle was burglarized and relieved of about \$400.00 worth of merchandise, apparently by a lone burglar.

Quite a bit of excitement and uneasiness occurred in the north side of town Sunday afternoon when Wayne, the three-year-old son of Rev. and Mrs. E.E. Houlette disappeared from among the children with whom he was playing.

The Congregational Ladies Aid met at the home of Mrs. L.G. Sympton, Tuesday afternoon, with ten members and two visitors present.

Word was received here Tuesday by Friona friends of R.F. Fleet to the effect that he had died on that day at his home in Oklahoma.

35 YEARS AGO--JUNE 25, 1948

W.O. Reed and son, Oval of Lenox, Iowa, arrived by plane at Friona Sunday at 2 o'clock.

Many bushels were added to the Panhandle wheat crop by above

average rains during the week of May 24. A Texas yield of from fifty-five to sixty million bushels is "pretty well assured at present," declares Fredrick T. Dines of Amarillo, well-known grain authority.

Irwin White and family of Tucumcari were here last week for a few days. They visited with his parents, Mr. and Mrs. W.M. White, and other relatives and friends.

30 YEARS AGO--JUNE 25, 1953

Funeral services will be held Friday afternoon at 2 o'clock in the Friona Methodist Church for Frank Osborn who died at his home early this morning.

Mrs. A.O. Drake received a telegram this morning disclosing the death of her brother, John T. Miller, last night in San Mateo, California. Mr. Miller, 82, had suffered a stroke about a year ago and was hospitalized at the time of his death. He had visited in Friona a number of times, most recently three years ago.

25 YEARS AGO--JUNE 19, 1958

A pet Bulldog was the only victim of a two-car collision at the intersection of Ninth and Washington Streets in Friona Monday morning about 10:30.

Funeral services are being conducted today (Thursday) at 4:30 p.m. at the First Baptist Church for John Barton McFarland, who died at the Parmer County Community Hospital at 4:30 a.m. Wednesday. He had been a patient there since early September.

H.E. Barnett has been named manager of the Parmer County Community Hospital. Barnett, who has been employed for the past two years as program director and business manager for Boys Ranch, will assume his duties in the near future.

20 YEARS AGO--JUNE 27, 1963

The two men injured in a head-on collision just outside the Bovina city limits June 15, have been taken off the serious list at Parmer County Community Hospital in Friona, and the woman, Mrs. John V. Felps,

continues to improve.

Dr. Paul Spring, county health officer, recommended this week that the public take special precautions because of the number of mosquitoes present in the area.

15 YEARS AGO--JUNE 20, 1968

Mary Rando, Friona High School student, was a house guest of Congressman and Mrs. Bob Price recently. While there, Mary did a TV recording of her now famous recitation, "I Am The Nation" which she has given before numerous civic, youth and church organizations.

Mr. and Mrs. Vergil R. Jordan, who were observing their Golden Wedding Anniversary, were honored with an open house and reception at their home Sunday, June 9 from 3 to 6 p.m. Hosts for the occasion were Mr. and Mrs. Marvin Jordan, Bobby, Judy and Kenneth and Beth and J. Cranfill, Dumas.

10 YEARS AGO--JUNE 14, 1973

An accident north of Friona late Sunday afternoon claimed the life of Jeffrey Bruce Coleman, 13, son of Mr. and Mrs. Bruce Coleman of the Bootleg Community.

Kevin Wiseman reported to the Friona Police Department last Saturday night that his 1963 Pontiac had been stolen. According to local officers, he had attended a wedding, being gone from his house only 25 minutes and when he returned the vehicle was missing.

5 YEARS AGO--JUNE 25, 1978

Expanded facilities at MBPXL plant will be open Monday, according to plant manager Scotty Cronin. One hundred employees will be added initially, with the plant addition expected to reach full capacity in 90 to 120 days, said plant superintendent, Jim McConnell.

Friona High School Band has been selected as the Honor Band of Region 1-AA, according to Scott Houston, band director. A tape submitted by the band was judged by Richardson High School band director Howard Dunn to be the best from all AA bands in the region, Houston said.

TO PERFORM....Recording artist Ed Kilbourne will perform at the Friona Community Center Saturday, July 9 in a concert beginning at 8 p.m. The concert is sponsored by the Friona United Methodist Youth, and is free to the public.

Singer Sets Concert Here

Pop singer and Airborn Records Artist, Ed Kilbourne, will perform at the Friona Community Center Saturday, July 9 at 8 p.m. This concert is being sponsored by the Friona United Methodist Youth and is free to the public.

Kilbourne is one of the truly unique artists of the last decade of American popular music. Ed has done over 3000 concerts in the United States,

Canada and Europe, appearing live before audiences totaling more than a million.

In addition to radio and television, he has opened shows for other artists including Michael Murphy and Kenny Rogers and the First Edition. He has recorded ten albums, the most recent of which is entitled *A Place To Watch The Rain*. Ed is married and lives in the country near Chester, South Carolina.

July 15 Is Last Day To Certify '83 Crop

Farmers have only a few days left to report their 1983 planted acres to the Agricultural Stabilization and Conservation Service. The final certification date is July 15, 1983.

Program participants are required to report crops and acreages planted, the uses to be made of these crops and cropland acres to be devoted to conservation uses. "Nonparticipants need to certify their crops for future programs," said Martin L. Chandler, County Executive Director. In addition to history purposes, the acreage reports are also necessary for proven yields.

ASCS will randomly check farms to verify that acreage reports are accurate and have aerial photographs available for farmers to identify their fields. To be sure of planted acres, farmers can request measurement service. For a small fee a farmer can request that his planted crops be measured prior to reporting acreages. "This is a valuable service not only to producers participating in the acreage reduction and payment-in-kind programs, but to any farmer who desires an accurate acreage measurement for any reason," said Chandler.

Crop certification is necessary before the farmer can receive price support and other program benefits.

Girl Scout Day Camp Is Slated

The Friona Girl Scout Day Camp will be held at Camp Escarbada July 11, 12 and 13. Scouts will leave the Scout House at 7:15 a.m. and return at 11:30 a.m. The dues will be \$6 to cover the cost of meals and crafts.

All Brownies, Girl Scouts, leaders and those interested in becoming leaders are invited to attend. If there are any questions please contact your leaders.

The ASCS official said spring seeded crops may be certified Monday through Friday between 8 a.m. and 5 p.m. "We hope that farmers will report their acreages well in advance of the July 15, 1983 deadline."

LEGAL NOTICE

PUBLIC NOTICE
Notice is hereby given that DEAF SMITH ELECTRIC COOPERATIVE, INC. (the "Utility") intends to change its power cost adjustment rate for electric utility service effective July 21, 1983, or as soon as may be permitted by law. The proposed power cost adjustment changes the manner in which wholesale power cost are collected from the Utility's ratepayers. The change is applicable to all areas to which the Utility provides electric utility service. All classes of customers are affected by the proposed change. The proposed power cost adjustment is not expected to increase the annual revenues of the Utility.

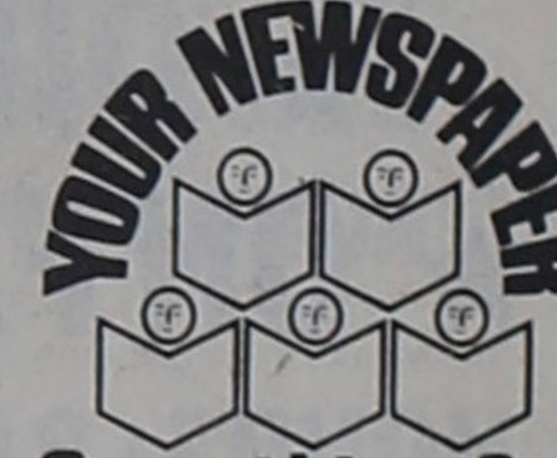

Implementation of the proposed change is subject to approval by the appropriate regulatory authority. A Statement of Intent including the proposed revision is on file with the Public Utility Commission of Texas.

The Statement of Intent is available for public inspection at the general office of the Utility located at Hereford, Texas.

New Texas Water Plan Unveiled By Group

The Texas Department of Water Resources has recently updated the Texas Water Plan which was originally adopted in 1968. The Department will conduct a public hearing in Lubbock at the Lubbock Memorial Civic Center on July 12, at 7 p.m. A. Wayne Wyatt, manager of the High Plains Underground Water Conservation District No. 1 in Lubbock, suggests that area residents make a conscientious effort to attend this hearing and become knowledgeable about the water resources of the area.

Wyatt, having reviewed draft copies of the water plan, expects the Department staff to present data at this public hearing on the available surface- and ground-water resources in the area as well as data pertaining to water used by all segments of High Plains society (municipal, industrial, agricultural and domestic). Wyatt also expects the Department staff to report that there are very limited surface-water resources available in the area for future development and that the waters in the Ogallala aquifer are being mined from a finite source.

Wyatt does not expect the Department to present any encouraging information on water importation; the subject of much statewide controversy during early development of the Texas Water Plan. Wyatt explains that recent studies indicate that importation of water to the High Plains at this time is not economically feasible due to the cost of water importation exceeding \$500 per acre foot, and, complicating this problem, the water imported would be used to increase production of agricultural products which are already in surplus supply. Wyatt does not expect the water plan to include identification of any sources of water for importation to the High Plains, nor routes, nor cost data.

It is anticipated that the recommendation in the plan to the people of the High Plains and West Texas will be that, given the limited water resources available, the only alternative to running short of water, at least for the immediate future, is conservation.

Undoubtedly there are many in the area, like the Water District staff, who have ideas and special problems which need to be brought to the attention of the Department. These issues need to be discussed at this public hearing in order that they be addressed in the water plan, suggested to the Texas Legislature, or acted on by the Department's staff. The following are some of the Water District's comments and recommendations which will be given either at this public hearing or through written comment.

Water Importation

Because there is no adequate solution to the water needs and problems of the state from in-state sources, water importation should continue to be considered and studied as one of several alternatives to increase water supplies. Importation studies and planning should consider only those flood waters determined to be in excess of the future needs of any potential import source area. With the most effective water conservation program possible, over 40 per cent of the gravity water in storage in the Texas High Plains that can be recovered using conventional water wells is projected to be used by the year 2000, and over two-thirds is projected to be used by 2020. At the present time, this water supply supports over 67 per cent of total irrigated acreage in Texas, annually.

Irrigation contributes over 40 per cent of the total value of crops sold in

the state. Therefore, a water supply for irrigation is very important to Texas agriculture and to the Texas economy. The irrigated agricultural multipliers are over \$3.60 of total economic effect per \$1.00 of irrigation farm sales and are more than \$2.50 per dollar of food and fiber that is processed within the state. Importation studies and planning should be continued with a view toward finding solutions, including agreements with neighboring states for a source of water, by about 1990 and 1995. Import projects should begin to deliver water to the Texas High Plains no later than 2010 to 2015.

Research And Development

The Water District believes that the total water resources of the High Plains need to be better identified particularly those waters stored in the Triassic system below the Ogallala which are saline. The Department should direct studies toward desalination of these saline water resources should it become necessary to develop and use this water for domestic, municipal and/or industrial purposes.

The Water District believes the Department should continue its studies of rainfall enhancement, not to be confused with hail suppression, which potentially could increase the precipitation which occurs in the High Plains of Texas. The Department should continue to support investigations of releasing water from the wet sands of the Ogallala Formation thereby making it available for recovery from wells. Additionally, the Department should support studies of the release of water vapor from air which might provide a limited supplemental water supply for rural residents.

In the area of water use, the Water District believes the Department should encourage the Texas Legislature to adequately fund Texas Tech University, the Texas Agricultural Experiment Station, the Texas Agricultural Extension Service and others in their research efforts such as: developing plants which are highly efficient in their water use, chemicals which might be applied to plants to reduce their evapotranspiration rates, and growth regulators to use on plants to reduce their water use. The Water District also feels that the Department should become more involved in the study of artificial recharge of rain-water that collects in playa basins. It should consider recent technology that may provide new types of filter materials which might be used to remove the silts, salts, clays and biological life from playa water which earlier research indicated prevented successful recharge.

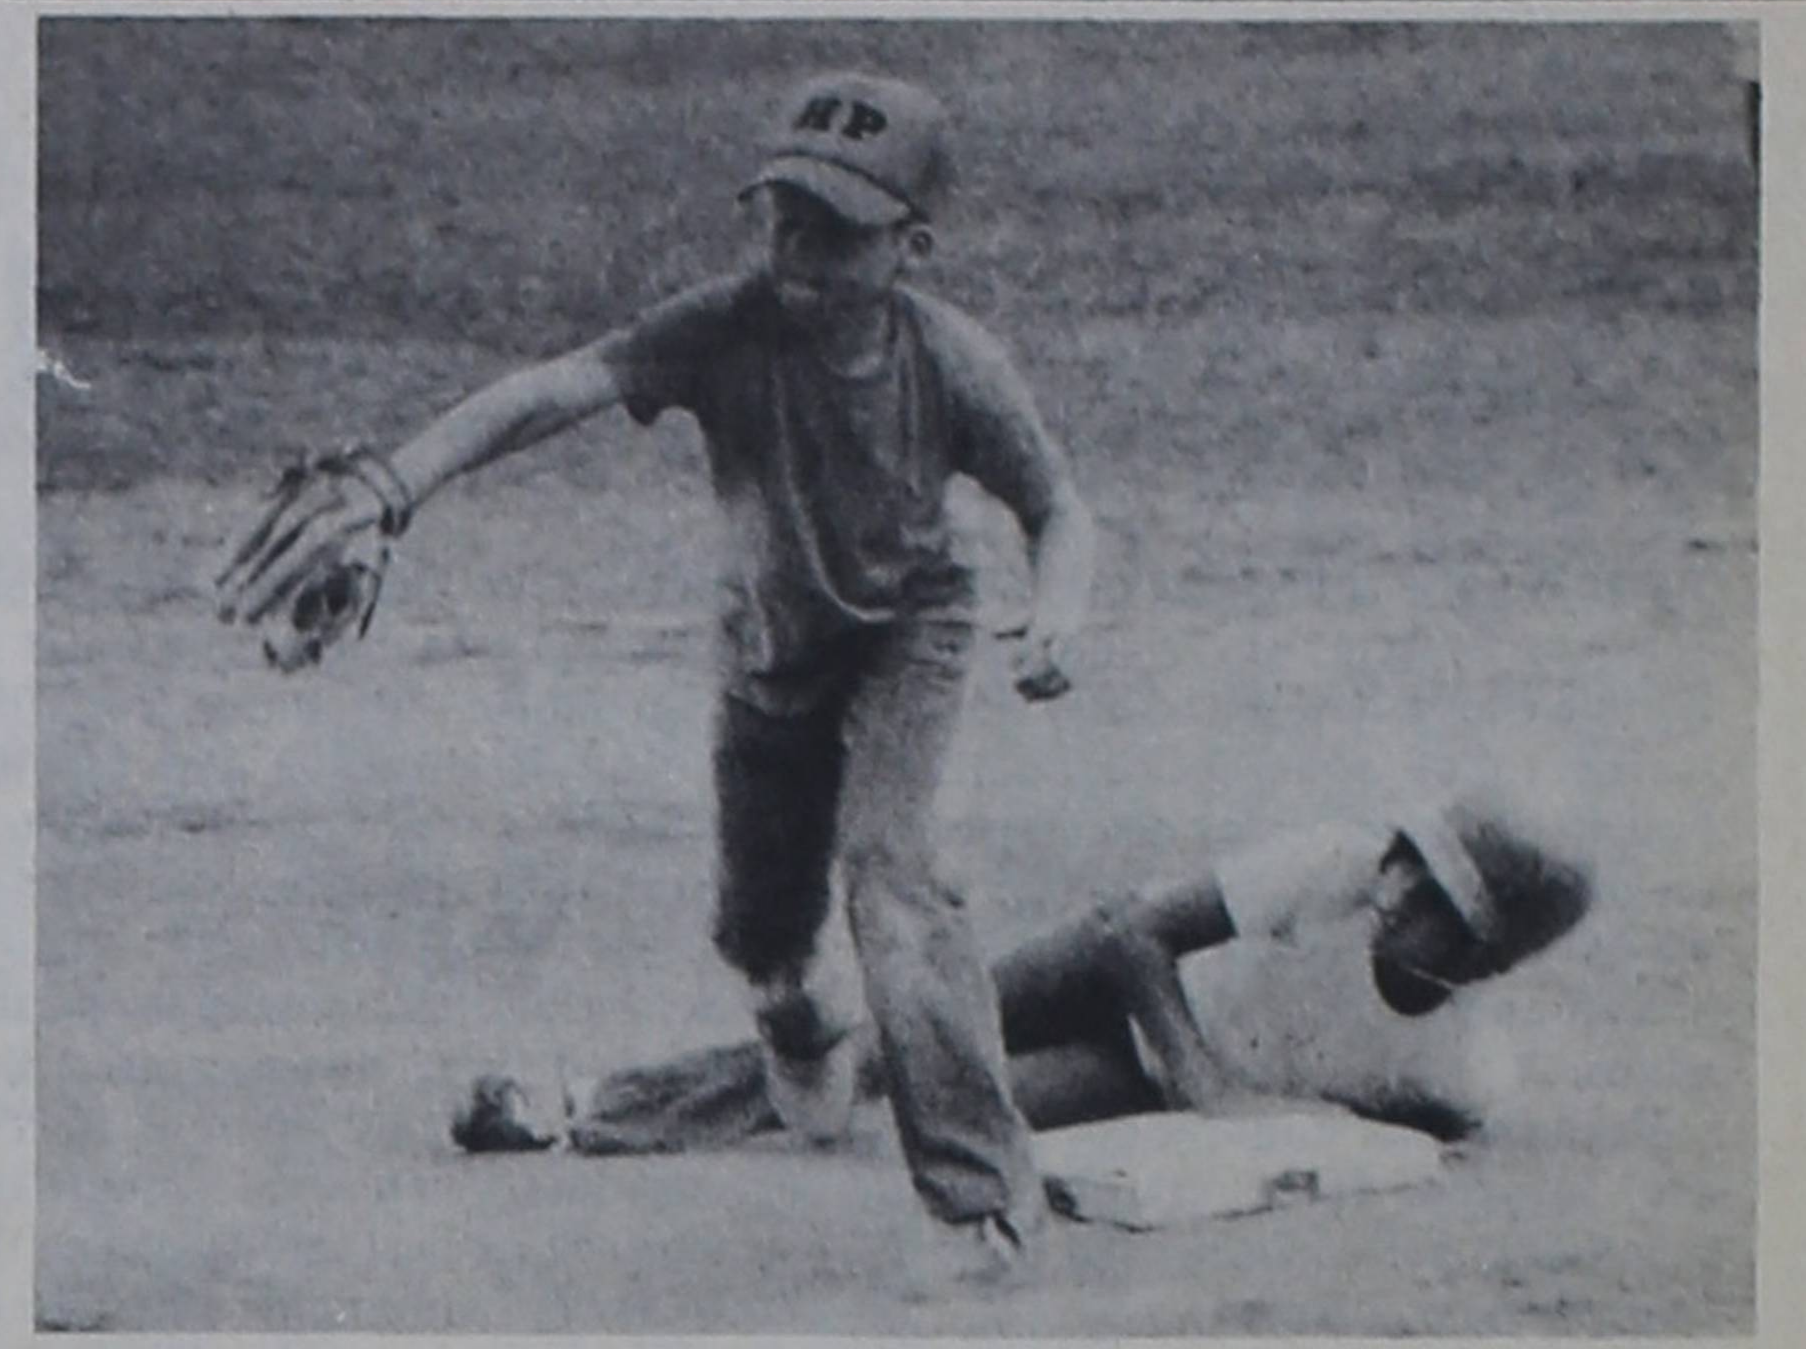

Public Information And Awareness About Water Conservation

Public information and awareness about water conservation in the urban community needs serious effort. The adoption and installation of efficient water using appliances, increased use of native vegetation for landscaping, trickle irrigation, soil moisture monitoring to determine time and need for irrigation and other water conservation methods are available at the present time. However, public information is needed to encourage more widespread use of these methods.

The High Plains Water District, its Board of Directors and staff encourage you to attend and participate in this hearing. Any and all comments will be accepted by the Department staff at this hearing or in the form of written comments up to 30 days thereafter.

YOU'RE OUT!....Hi-Pro's third baseman, Chad Hamilton, put the ol' block and tag move on an unidentified BJ Bee runner during last week's Minor League action. The Bees won the game.

SAFE ON FIRST....Russell White concentrates on catching the ball while trying to make the play in this game, played June 24. The BJ Bee runner was safe and the Bees went on to win the game.

BAP Still Leading In Sr. League Action

Black Grain and Cattle Town began this week's action results when they met on June 24.

Black Grain took an early 8-0 lead but Cattle Town answered with seven points of their own to bring the game within one point. In the second inning, Black Grain picked up three additional runs and held Cattle Town scoreless. They then added an

additional six points in the final two innings to bring their total to 17.

Cattle Town made a strong effort to come back when they scored seven points during their final two times at bat but were unable to catch Black Grain and their final score was 14, three points shy of the winning team.

Patches Fleming, Jeff Dickson, Joel Jass and Gilbert Davila each hit

home runs for Black Grain. Juan Trevino led the scoring for Cattle Town with three runs.

Benger Air Park and Cattle Town met on June 27 for a thriller. After the dust settled, Benger had squeaked by with a one point victory.

Benger led the attack 12-10 following two innings of play, but the score was tied 17-17 at the bottom of the fifth inning. Neither team scored in the sixth period, but Benger picked up five runs in the final period and Cattle Town only picked up four. The final score was 22-21.

Peter Malouf hit a grand slam home run over the fence at centerfield to highlight Cattle Town's scoring.

Cattle Town pulled out a one point win over Black Grain on June 28.

Black Grain held the lead at the bottom of the second inning by a score of 5-4. That was the only time during the game they held the lead.

Cattle Town held the opponent scoreless for the next two innings and scored five themselves to take the 9-8 victory.

Peter Malouf and Albert Trevino shared the winning pitcher honors.

Around The House In Parmer County

Ceiling fans might make you think of steamy island hideaways or "Casablanca." But they can also help you have a more comfortable summer right in your own home. From ornate brass to pastel plastic models, ceiling fans are back in style.

You don't have to have 12-foot ceilings to use a fan either. But for safety's sake, a fan should be suspended from ceilings that are at least eight-foot high, since the blades are at least one-foot from the ceiling. For cathedral ceilings, an extension pole can be used to place the fan at the desired height.

Choose a ceiling fan based on the size and shape of the room. Most fans range from 36- to 52-inches in diameter. The 36-inch fan is useful in narrow spaces like kitchens, porches and sunrooms. The 52-inch fan is generally used in larger areas requiring a wider, more uniform distribution of air movement.

As you shop for a fan, notice that some have metal housing and hand-rubbed wooden blades. Other models are housed in plastic with either metal or plastic blades.

Metal blades are potentially more dangerous than wood or plastic. Any sharp-edged or thin blade can injure your hand if it accidentally touches the moving fan. So as a safety precaution, select units with blades no less than 3/16 inch thick at the tip.

If you want a fan with variable speeds, be prepared for a little noise. Some ceiling fans with speed control make a noise that sounds similar to the hum from a faulty fluorescent light.

Ceiling fan lights range from small fluorescent tubes to ornate globes. Carefully choose a place for a fan with a light. For example, a fan with a light fixture suspended from an eight-foot ceiling will probably be too low.

A fan hanging low over tables or furniture may not present much of a problem. But in traffic areas, the light could become an obstacle. Some manufacturers offer a low-profile model light for such areas.

Ceiling fans range in price from \$50 to over \$1,000. Higher priced models are often primarily decorative accessories cast of solid brass or finished with highly ornate trim, stenciling and hand-crafted detail. But the majority of the models are in the \$100 to \$400 price range.

Installing a ceiling fan

requires either an electrician or a competent do-it-yourselfer. The easiest form of installation is to use existing wiring from an overhead light fixture.

Don't install a fan near curtains that might become entangled in the blades. Also, keep it away from areas where people change clothes. A low fan can harm a person raising his arms to dress.

Although a ceiling fan should produce years of reliable service, check the manufacturer's warranty. Most makers guarantee the motor for five years, but be sure to ask about servicing. Some manufacturers supply a toll-free number to answer consumer's questions, others have a network of service centers, and some neglect to mention service. So before you buy, ask the dealer what type of service is available.

With the wide variety of styles, features, and prices available, you should be able to find a ceiling fan to suit your needs both for style and comfort.

Ceiling Fans Save Money

A ceiling fan uses about the same amount of electricity as a 100-watt bulb. You can run one for ten hours for approximately seven cents. But that's not the most important energy-saving feature of ceiling fans.

You will save money with a fan only if you raise the thermostat on your air conditioning unit to a higher setting.

A three-ton air conditioning unit for example, uses approximately \$496 of power each year if set on 72 degrees. If the thermostat can be raised to 78 degrees and you are still comfortable due to a ceiling fan, the cost of operating the air conditioner will drop to \$368 a year. That is a difference of \$128 per year for a six degree drop in the thermostat setting. Settings higher than 78 degrees would decrease your costs even more.

A ceiling fan does not actually effect the temperature of the air. It merely circulates air. The reason a fan makes you feel cooler at the same temperature is the wind-chill factor. As air moves across the body, a wind-chill factor makes you feel from four to six degrees cooler.

So don't be like the man who bought a ceiling fan, never touched the thermostat and then wondered why his electricity bills remained so high. You can save money with a ceiling fan, but only if you raise your thermostat.

Tasty Cream Defeats Hub Grain, 25-24

Tasty Cream and Hub Grain met on June 23 for a close match up and when it was all over Tasty Cream was the winner and the first team to defeat Hub Grain.

The score was tied 23-23 at the bottom of the fifth inning. Up until this time, Hub Grain had been in the lead. Tasty Cream scored two more runs in the sixth inning and held Hub Grain to only one. The final score was 25-24 in favor of Tasty Cream.

Hub Grain took their first defeat on Credit Union as they pounded them on June 27 by a score of 25-15.

At the bottom of the third inning, Hub Grain led 16-8, and they scored nine more points in the final inning. Credit Union had their best scoring drive in the final inning as they tried to put a rally together, but it was too little too late and they fell to Hub by ten runs.

Credit Union defeated Jack and Jill by a score of 31-25 in an apparent make-up game. Details were not recorded in the official book.

Those two teams met again on June 28 and Jack and Jill took that victory 23-22.

Jack and Jill took an early lead and held onto it throughout most of the game, but Credit Union tied up the ball game in the fourth inning. Jack and Jill outscored the opponent in the final period by one point to take the win.

PUBLIC NOTICE

At the request of the Office of the General Counsel of the Public Utility Commission, the Commission has established Docket No. 5113 to inquire into pressing issues involving the entire telephone industry in Texas. Docket No. 5113 will deal with many issues resulting from the impending divestiture of American Telephone and Telegraph Company and Southwestern Bell Telephone Company. Some of those issues include establishing the service areas of Southwestern Bell after divestiture and assessing the impact on other telephone companies in Texas, including General Telephone Of The Southwest, of current settlement arrangements between Southwestern Bell and those companies. Additionally, Docket No. 5113 will deal with the issues arising from the Federal Communications Commission's Final Order in Docket 78-72 (the Access Charge Docket) as they impact all telephone companies, including General Telephone Company Of The Southwest. It is anticipated that Docket No. 5113 will be evidentiary in nature. RATES FOR GENERAL TELEPHONE COMPANY OF THE SOUTHWEST MAY BE DETERMINED BY THE COMMISSION IN OR AS A RESULT OF THIS PROCEEDING. Interested parties seeking further information or desiring to participate in Docket No. 5113 are advised to write to Rhonda Colbert Ryan, Secretary and Director of Hearings, Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757 or telephone the Public Utility Commission Consumer Affairs Division at (512)458-0223 or 458-0227, or (512) 458-0221 TTY for the deaf.

General Telephone

Residents Are Urged For 'Safety First' 4th

Panhandle Emergency Medical Services System, Inc., chairman, Claude Harlow, M.D. of Stratford, stated today that the upcoming Fourth of July holiday celebrations are highlighted with summer fun, but may pose some serious threats to the health and safety of children and adults.

Each summer hundreds of people are injured from pyrotechnics commonly called fireworks during this holiday celebration.

Dr. Harlow cautioned, "Adults must be especially careful to supervise children who play with fireworks." He offered the following safety tips to remember: do not hold explosive or burning fireworks in your hand. If a device does not ignite, wait for a minute before checking it. Approach the device carefully. If it appears to be defective do not attempt to light it again.

If you receive a minor burn hold the burned area under cold water or immersed in ice water for five minutes. If someone gets foreign matter such as dirt in the eye, flush the eye with water for a minute to clear out the foreign object.

For serious injuries keep the person calm and lying down, stated Dr. Harlow. He said people in the Panhandle can get qualified emergency medical care by calling the toll free Panhandle Emergency Medical Services number, 1-800-692-1331. Not only will they send medical assistance, but they can also provide poison control information should you need it.

Dr. Harlow concluded by stating that the Texas Panhandle is one of the safest areas in the country because of our Emergency Medical Services System.

Official Explains How PIK Relates To S.S.

Many farmers in the Texas area are apparently confused as to how the 1983 payment-in-kind program relates to social security, Carl Thompson, social security branch manager in Clovis, said recently.

Under the PIK program, a farmer agrees to set aside part or all of his land previously used to produce a crop in exchange for receiving surplus federal commodities of the same crop at the usual harvest time. Commodities involved are wheat, corn, grain sorghum, rice, and upland cotton.

In general, payments under the PIK program are treated the same as other federal agricultural program payments, Thompson said. They are included in the farmer's gross income. Since the PIK payments are in the form of certificates of ownership, they are not includable in gross income for 1983 until they are converted to cash for purposes of federal income tax and the social security self-employment tax.

How the PIK payments affect receipt of social security benefits

depends on when the farmer became entitled to those benefits, Thompson said. If the farmer started getting social security benefits before 1983, PIK income can be excluded from gross income for purposes of the annual earnings test because it is income not attributable to significant services performed after the year in which benefits began. In this case, PIK income would have no effect on the receipt of social security benefits.

However, if the farmer starts getting social security benefits in 1983, PIK income is included in the farmer's net earnings for purposes of the annual earnings test. But in this first year of retirement, a self-employed person can receive a benefit for any month he or she does not perform substantial services in self-employment regardless of total income for the year. Generally, a farmer is not considered to be engaging in substantial services if he or she works 45 hours or less a month in the farming operation. More information is available through your local social security office at 912 Parkland Drive, Clovis, N.M.

Texas Society Warns: All Fireworks Are Dangerous

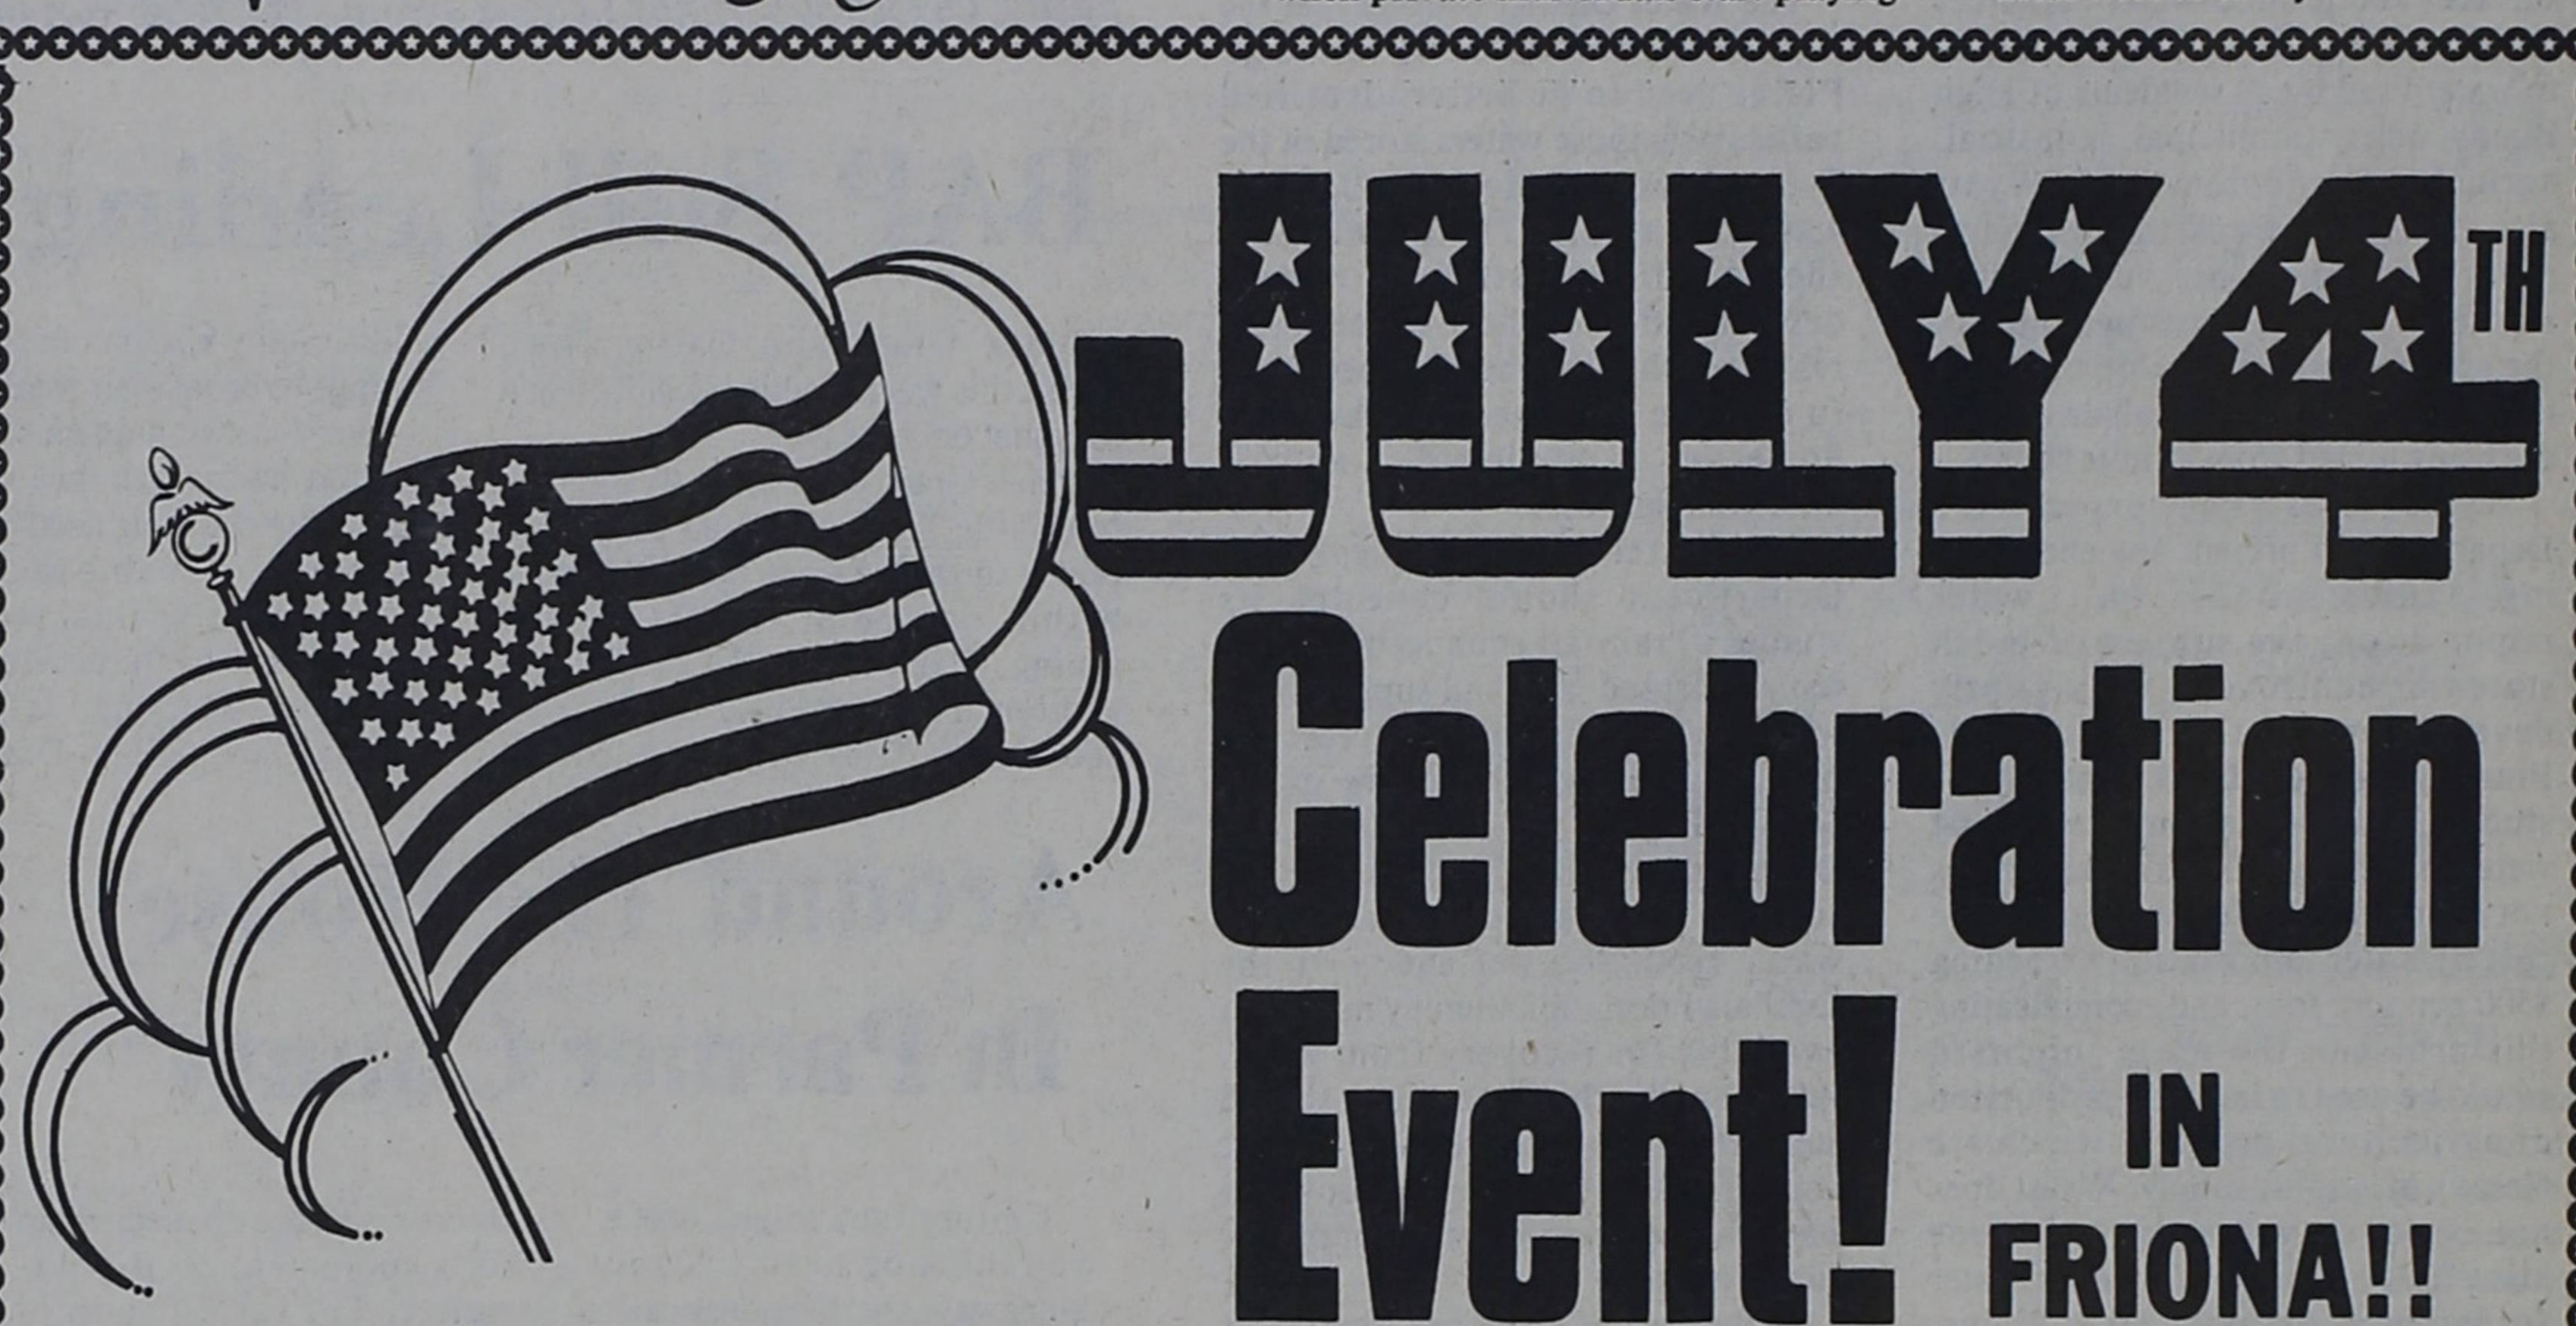

Fireworks and the Fourth are a patriotic combination. Yet too often the combination misfires and results in the tragic stories that can be found in the Independence Day files of the Texas Society to Prevent Blindness.

"These stories are of youngsters--and their parents--who learned too late 'Don't play with fireworks; they're not toys,'" says John L. Mann, M.D., an ophthalmologist who is chairman of the Society's State Medical Advisory Committee.

"Fireworks belong at licensed public displays," said Dr. Mann. "There, their colorful patriotic skybursts can be enjoyed without endangering life or property. But when private individuals start playing

with fireworks, trouble and tragedy are inevitable."

As proof Dr. Mann cited a survey "Prevent Blindness" conducted a year ago among Texas ophthalmologists that indicated that 23 Texans were blinded or lost most of their sight on July Fourth because of fireworks. An additional 49 people suffered eye injuries ranging from second degree burns to corneal lacerations. He added that the Consumer Product Safety Commission also reported last year that, nationwide, over 11,000 were treated in hospital emergency rooms for fireworks-caused injuries; 1,600 of these were to the eyes.

Letter To The Editor

Mr. Bill Ellis
Editor of Friona Star
Friona, Texas 79035

This is a public Thank You to Nelson Lewis for his letter of support which appeared in the June 26, 1983 edition of the Friona Star.

I agree with you, Nelson--I feel a warning system is a wonderful idea to protect us all. \$5.50 per household is a very small amount to pay for saving one's life or property. We have a good cable system and it provides us with many hours of entertainment, so why not have a little caution along with our enjoyment. We need the warning system!!!

Thank you also Nelson, for praising our Volunteer Fire Department. They do "put their lives on the line" every time they answer a call. Whether it be a fire--wreck--storm--rescue--or whatever. They do not receive any pay--just an occasional Thank You. But they don't do it for praise or glory. They do it because they care and are concerned for the residents of Friona. **They are volunteers.**

As a volunteer's wife, I know it would be very comforting to have a warning system to help me protect my family while my husband is out searching clouds for danger to protect your family.

Thank you,
Carolyn Reeve and all the
wives of the Friona
Volunteer Fire Dept.

To The Editor:

One of the ongoing projects of the Chamber of Commerce and Agriculture is the promotion of beautification and improvement of the City of Friona. Not only do continuous improvements make Friona more attractive to newcomers and tourists; they also help instill community pride in current residents.

Bobby Wied's mural depicting historic Main Street, Friona, can certainly be considered a form of beautification. The Chamber of Commerce and Agriculture, although it was not directly involved in the planning of such a project, feels that a public thank-you is in order.

Mr. Wied replaced a plain white wall with a work of art that reminds us of our heritage and adds to our community worth. Travelers to our city will be pleasantly surprised when they catch a glimpse of the mural next to the library; perhaps they'll stop long enough to see what a wonderful place Friona is, both to visit and live.

Mr. Wied did this work out of his own generosity. We join the Library Board and the citizens of Friona in commending him for a job very well done.

The Friona Chamber of
Commerce and Agriculture

Co. Child Welfare Bd. Met June 21

The Parmer County Child Welfare Board held their monthly meeting on June 21 at 7:30 p.m. at Bovina's First State Bank. Present were Mrs. Bessie Holt, chairperson; Mrs. Jo Blackwell, secretary; Joe Schilling, Don Spring, Mrs. Jackie Smallwood and Henry Holley of the Texas Department of Health and Mrs. Laura Jacobs, Home Extension Agent.

The financial statement was reviewed.

Approval was made by the board for replacements to the board for resigning members, Skip Sirnic and Mrs. Skeet Bradshaw. Appointed were Archie Echols, Friona, with a term expiring in January, 1985, and Mrs. Kay Williams, Farwell, with a term expiring in January, 1986.

A general discussion was held on the Friona Health Fair to be held on August 20 from 1-5 p.m. at the Community Center. At this time it appears that there will be good participation from all aspects of health care.

The next meeting will be held at 7:30 p.m. at First State Bank on July 26.

Reception Honors Mrs. White

Mrs. E.S. (Fern) White was honored on Sunday, June 26 at the Senior Citizens House of Friendship with a dinner and a reception in honor of her birthday.

Mrs. White was 80 years of age on Wednesday, June 29.

Family members present to help Mrs. White celebrate included Mr. and Mrs. Robert (Mae) Holder and their children, Audrey Black and Kelli, all of Amarillo; Mr. and Mrs. David Campbell, Brad and Mark of El Paso.

Also, Mr. and Mrs. Vernie (Irene) Roberts and daughter Vickie Martin, Jennifer and Tony, all of Amarillo; Mr. and Mrs. Robert (Mae) Holder and their children; Mr. and Mrs. Eddie Holder and Jeana; Mr. and Mrs. Bobby Holder, all of Fort Worth;

Mr. and Mrs. Edward White and children, Sami, of Friona; Mr. and Mrs. John White and Misty of Slaton; and Mr. and Mrs. Larry White, Jason and Randy of Shallowater;

Mr. and Mrs. John (June) Cannon, and children, Mrs. Terry Oliver, all of Dumas; Mrs. Dianne Elliott, Johnny and Whitney of Casper, Wyoming;

Mr. and Mrs. Raymond White and Pete of Stratford; Mrs. Sue Hinds, Pam and Kyle of Canyon; Mr. and Mrs. Dale (Gayle) Nolte and Stacy of Midland; and Mr. and Mrs. Richard White, Danny, Diane and Billy, all of Dalhart.

Others attending from out of town included Terri McPherson of Clovis, a niece of Doris White, and Ruby Anthony of Elida, N.M.

Some 25 other local guests, besides family members, also attended the birthday celebration.

IN 1981

West Texas Leads State In Travel

Over three billion dollars were spent by travelers in West Texas in 1981, according to the most recent figures available from the U.S. Travel Data Center and reported by West Texas Chamber of Commerce magazine, *This Is West Texas*. Total expenditure growth in West Texas was 18 per cent compared to a statewide growth of 15 per cent.

According to the *This Is West Texas* story it was found that nine West Texas counties were among the top twenty Texas counties in highest total travel expenditures. These include Tarrant, third; El Paso, sixth; Potter, twelfth; Lubbock, thirteenth; McLennan, fourteenth; Midland, fifteenth; Ector, eighteenth; Taylor, nineteenth; and Wichita, twentieth.

Total travel expenditures for Parmer County were \$6,314. Entitled *Travel In West Texas Its Impact On West Texas Economy*, the *This Is West Texas* article attributes an excellent highway system and emphasis on travel by various West Texas cities for the travel expenditure

HONORED.... Fern White was honored by her family and friends with a birthday dinner and reception last Sunday at the Senior Citizens House of Friendship. All nine of Mrs. White's children, and most of her grandchildren and

great-grandchildren attended. Shown from the left are Raymond White, Edward White, Irene Roberts, Eula Mae Holder, Mrs. White, Anna Lee Campbell, Sue Hinds, June Cannon, Lois Nolte and Richard White.

Local Writer Attends Amarillo Convention

Despite the supposed inroads that television has made into the realm of literature, millions of Americans still consider reading to be a major form of relaxation. This is clearly demonstrated during the annual convention of the Western Writers of America, currently in progress in Amarillo.

WWA is a unique organization of professional writers and others interested in western literature,

biography, history, cinema and television. Since its founding in 1953 it has provided a meeting ground for writers, educators and publishers. The creation of salable material is tied to the dollars and cents business of publishing but this feature is overshadowed by the camaraderie between the successful writer and those struggling to achieve some degree of professionalism.

Western writers have not escaped the "slings and arrows" of the Brotherhood of Literary Critics. Constructive criticism is welcomed by any sensible workman, be he a writer or a plumber, but debunkers, detractors and prevaricators should not sit in judgment over an art form that has provided more published books than any other theme in the literary world.

In retaliation to these unfair opinions the audience was treated to what must be the keynote speech of the convention.

Dr. Marc Simmons chose as his subject "Western Writing: Needs, Opportunities and Challenges" and it may be truthfully said he "blew 'em out of the water."

Dr. Simmons knows whereof he speaks. He has not always been a college professor and successful writer. His understanding of the situation was not gained in lecture halls alone; he resorted to a good old American custom--he worked for it.

During his stint as a working cowboy he met many characters who could have stepped from the pages of Zane Grey, Luke Short, Louis L'Amour or from John Erickson of Perryton or Bill Southard of Clovis.

Small wonder, then, that he took exception to a critic's statement that the American cowboy never existed; that he sprang fully grown from the minds of a few people seeking financial gain.

Wonder where the critic thinks his t-bone steaks come from? He also probably thinks milk comes from plastic jugs.

Dr. Simmons is heralded as a foremost historian of the Santa Fe Trail. He now resides in Cerrillos,

New Mexico and is in great demand as a lecturer.

The cowboy a myth?

Walk down the Main Street of a thousand western towns and you'll see at least a dozen of these "myths." Perhaps they should not be glorified, but neither should they be ignored.

All in all, the convention was a very worthwhile experience; so fear not western story fans, your favorite pastime is alive and well and in very capable hands.

Farmers Get Answers To PIK Questions

Everett Rank, administrator of the U.S. Department of Agriculture's Agricultural Stabilization and Conservation Service, today encouraged farmers who signed up for the 1983 payment-in-kind program to take any unanswered questions about the program to their local ASCS offices for the quickest possible answers. Rank said he has directed that response procedures be streamlined between the agency's county, state and Washington personnel.

"For example, we will attempt to answer a farmer's questions by telephone immediately, then follow up with a written answer when necessary," Rank said. "Most of the questions will be answered immediately by ASCS state and county personnel. However, when necessary, the field offices have been instructed to phone Washington to keep the response time to a minimum."

Ranks said USDA realizes that because of the massive sign-up, and because PIK is a new program, many participants desire clarifications or have questions on program procedures.

Assemblies Of God Experience Growth

A denomination that started in 1914 with some 300 people attending a national convention in Hot Springs, Arkansas, has grown to a fellowship that has been called by some of America's leading publications one of the fastest-growing church bodies in the country and the world.

The denomination is the Assemblies of God, a body of more than ten million people in 110 countries around the world and headquartered in Springfield, Missouri.

In the United States, the Assemblies of God has more than 10,000 churches and more than 1.8 million people who identify with one of those churches. By the end of 1982, the Assemblies of God had increased the number of its churches in the United States by 243 to 10,173, and the number of its ordained and licensed ministers by 561 to 24,129 from the previous year.

Overseas, the fellowship has some 98,318 churches and more than 10.2 million adherents. More than 1,200 foreign missionaries and 81,000 ministers work in countries outside of the United States. The 1982 World Ministries giving by the Assemblies of God totaled more than \$91 million.

Among the publications noting and recording the growth, the *Saturday Evening Post* reported the Assemblies of God "is on the leading edge of the evangelical wing of Christianity, and it is one of the fastest-growing church bodies in the country and the world."

According to a study by the Yearbook of American and Canadian Churches published in *Christianity Today*, the Assemblies of God grew 70 per cent between 1970 and 1980, making the fellowship the "fastest-growing denomination in America." *Christianity Today* stated the Assemblies of God has a "growth curve that shows no signs of leveling off."

Moody Monthly magazine reported the Assemblies of God has the fastest-growing Sunday schools in the United States with six of the fellowship's churches ranking in the nation's top 10 and 24 placing first in their state. The fastest-growing Assemblies of God Sunday school (First Assembly in Paris, Texas), which took second place in the nation, more than quadrupled its Sunday school attendance during a nine month period from fall 1981 to spring 1982. Nationwide, the Assemblies of God have nearly 10,000 Sunday schools with an enrollment approaching 1.5 million persons.

Assemblies of God churches range in size from a handful to thousands of people. The world's largest church is an Assemblies of God church in Seoul, Korea, with more than 280,000 members. Although the churches differ in character, they are usually

typified by lots of music and audience participation.

Accompanying the growth in numbers, the Assemblies of God is attaining increasing favor and influence. The Rev. Thomas F. Zimmerman, general superintendent of the fellowship, has been a key leader of the National Association of Evangelicals, and was recently named Protestant vice-chairman for the Year of the Bible, declared by President Ronald Reagan earlier this year.

The Assemblies of God is also the place of worship for such persons as Interior Secretary James Watt, Reagan aide Herb Ellingwood, Missouri Attorney General John Ashcroft, internationally acclaimed operatic baritone Dale Duesing, and Gordon-Conwell Seminary President Robert Cooley.

The denomination has nine Bible colleges in the United States, a liberal arts college, a graduate school of theology, and more than 1,000 Christian schools.

At the fellowship's international headquarters in Springfield, more than 900 persons are employed in various divisions which oversee the denomination's ministries. The varied ministries of the Assemblies of God include a chaplaincy program with more than 200 chaplains, a child placement service, children's home, retirement-health care complex, and a printing plant--Gospel Publishing House--that daily produces 20 tons of literature, including the international *Pentecostal Evangel* magazine with a weekly circulation approaching 300,000.

PUT YOURSELF ON TV & HAVE FUN

Overheard: "I dread trying to select a new eyeglass frame since I cannot see how I look with my eyeglasses off." What is the answer to this?

A: Others have this problem and up to now there has not been a satisfactory solution. In our office, we have solved this problem by using closed circuit television...one of those electronic wonders.

Q: How does it work?

A: The patient tries on a new style frame and a TV camera records their picture on video tape. Several different styles may be recorded in full color...then the patient puts back on their old eyeglasses and watches as the video tape is played back on a TV screen.

Q: That sounds good...how successful has it been?

A: Great! Our patients have been most enthusiastic about it. Try it, you'll like it.

Q: Is it true that some frames look good on some faces and the same frame is not flattering at all to another facial type?

A: Sure. It is truly an individual matter. This closed circuit TV helps a patient know which frame looks best on their particular face.

Q: Do other offices have closed circuit TV in this dispensing area?

A: To our knowledge, there are two other offices on the South Plains who use this modern tool in helping their patients select the proper frame. Without a doubt there will be more offices using this technique, but it is very new at the present.

This message is brought in the interest of better vision by Drs. Armistead & Smith, Optometrists, Littlefield, Texas.

Isn't it great to be part of a family 44 million strong?

Iris Ann Stephenson Weds James Thompson Bowyer

Iris Ann Stephenson of Friona and James Thompson Bowyer of Manhattan, Kansas exchanged wedding vows Saturday, June 18 at 2 p.m.

The ceremony was held in the Congregational Church, Friona, and was performed by Reverend Skip Sirnic.

The bride is the daughter of Mr. and Mrs. Douglas Holley Stephenson of Friona.

The bridegroom is the son of Mr. and Mrs. Charles Spencer Bowyer of El Paso, Texas.

Mrs. Jeanette Maurer of Amarillo, organist, and Mrs. Jo Witten of Friona, pianist, accompanied Mrs. Linda Griffin as she sang "Lord's Prayer," "Wedding Song," "My Happiness" and "Laura's Theme."

As the bride was presented in marriage by her father, she wore a formal length gown of traditional white silk over satin accented with lace, pearls and embroidery. The skirt formed a cathedral train.

Her three tiered veil, especially designed for the bride, fell over her shoulders and was waist length. It was held in place by a halo of fresh flowers.

She wore a pearl necklace and

earrings, a gift from the groom.

Mrs. Holley Stephenson Mohr of Bryan, Texas, sister of the bride, was the matron of honor. Bridesmaids were Mary Sue Stephens of Abilene, Holly White of Lubbock, Julie Johnson of Galveston and Lisa Edelman of Houston.

The feminine attendants wore embossed taffeta gowns with each girl wearing a different shade of the rainbow. They carried hand bouquets matching the shade of their dress.

Richard Bean of Plainview was the best man. Groomsmen were Wes

Masters of Amarillo, Randy Davis of Perryton, Roger Davis of Canyon and Dave Pooler of Canyon.

Serving as ushers were Carl Mohr of Bryan, Texas, brother-in-law of the bride, and Luis Rodella of Canyon.

Flower girls were Krista Beville and Jennifer Hamil, both of Friona.

The reception was held in the Fellowship Hall of the church.

Mrs. Dorothy Jamerson presided at the guest register.

Mrs. A. J. Hood of El Paso, grandmother of the bride, was a special guest.

Mrs. Camille Beville of Friona served cake. Punch was served by Becky Bowyer, sister of the groom.

For a wedding trip to New Orleans, Louisiana, the bride chose a silk belted pink and white striped dress with matching shoes.

The couple will reside on Route 1, Manhattan, Kansas.

The bride is a 1976 graduate of Friona High School, and a 1979 graduate of West Texas State University, Canyon, with a bachelor's degree in elementary education.

The bridegroom is a 1975 graduate of Irvin High School, El Paso, and holds degrees from New Mexico Military Institute and West Texas State University. He is currently

serving as a first lieutenant in the United States Army.

Out-of-town guests included Mr. and Mrs. Charles S. Bowyer II of El Paso; Mr. and Mrs. Charles S. Bowyer III of Honey Path, South Carolina; Mary Beth and Chris Bowyer of Honey Path, South Carolina; Mr. and Mrs. Richard Bean of Roswell, N.M.; Becky Bowyer of El Paso; Mr. and Mrs. W.G. Stephenson of Eden, Texas; Mr. and Mrs. David Matthews, Lt. Colonel and Mrs. Joe Styles, and Mrs. Verdine Hood of Winters, Texas, grandmother of the bride.

Church Sets Sunday Brunch

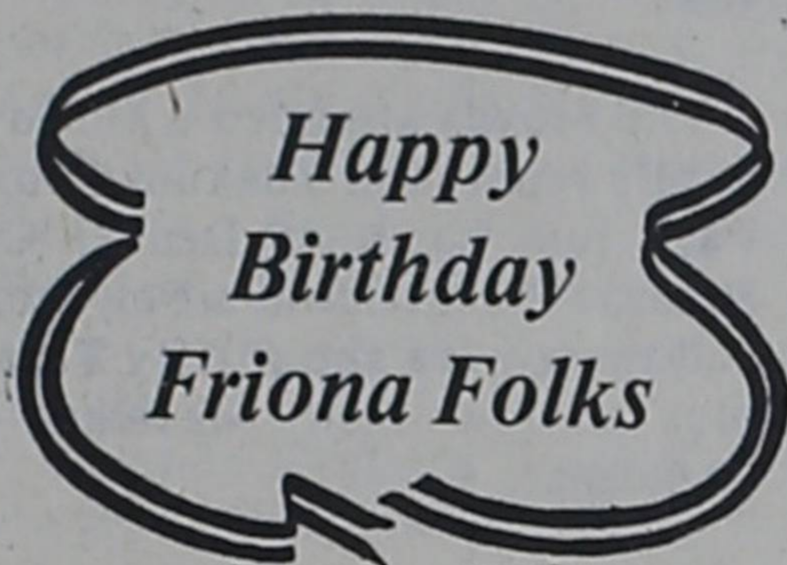

There will be a brunch Sunday, July 3 from 11 a.m. to 1 p.m. at St. Teresa's Catholic Church.

The menu will include fried chicken, mashed potatoes, green beans, salad, coffee and tea. Dessert will be available at an extra charge.

Lunch will cost \$3.00 for adults and \$1.75 for children under 12 years of age.

Mrs. James Thompson Bowyer

WEEK OF JULY 2-8

Friona residents having birthdays next week are:

July 2--Steven Mann, Nathan Sirnic, Leslie Drake, Cristie Blackburn, Rhonda Wilkins.

July 3--Shirley Treider, Tom Jarboe.

July 4--Lonnie Pederson, Anne Spring, Joe Fallwell, Myrna Baize.

July 5--Kay Sanders, Curtis Barton, Joy Osborn, Mary Gonzales, Sami Rector, Rhonda Stalcup, Henry Lewis, Bill Bell.

July 6--Max Jones, Terry Copley, Krista Potts, Doris Lange, T.H. Hodge, Patches Fleming, Bill Stephens, Lance Gatlin.

July 7--Noel White, Kemal Tongate, Teresa O'Brian, Ricky Taylor, Erin Knox, David Gowens, Shonrie Newman.

July 8--Nathan Terry, Sharon Grundy, J.D. Spencer, Jr., Paula Wilson, J.A. Spencer, Nathan Terry.

If you or someone in your family has a birthday coming up soon, call the Friona Star at 247-2211 by Thursday noon and report it.

"Good service. good coverage. good price. That's State Farm insurance."

Grandson Excels At Space Camp

Andy Kesner of Borger, 13-year-old son of Mr. and Mrs. Manuel Kesner, was chosen as one of 77 boys and 20 girls from a nine-state area to spend a week at the United States Space Camp at the Alabama Space and Rocket Center at Huntsville, Alabama.

Andy is the grandson of Mr. and Mrs. S.N. Kesner of Friona, owners and operators of Shirley's Cafe.

The youngster had learned of the camp by watching *That's Incredible* on television, and wrote for an application. The application had to be accompanied by recommendations of his teachers, who readily obliged.

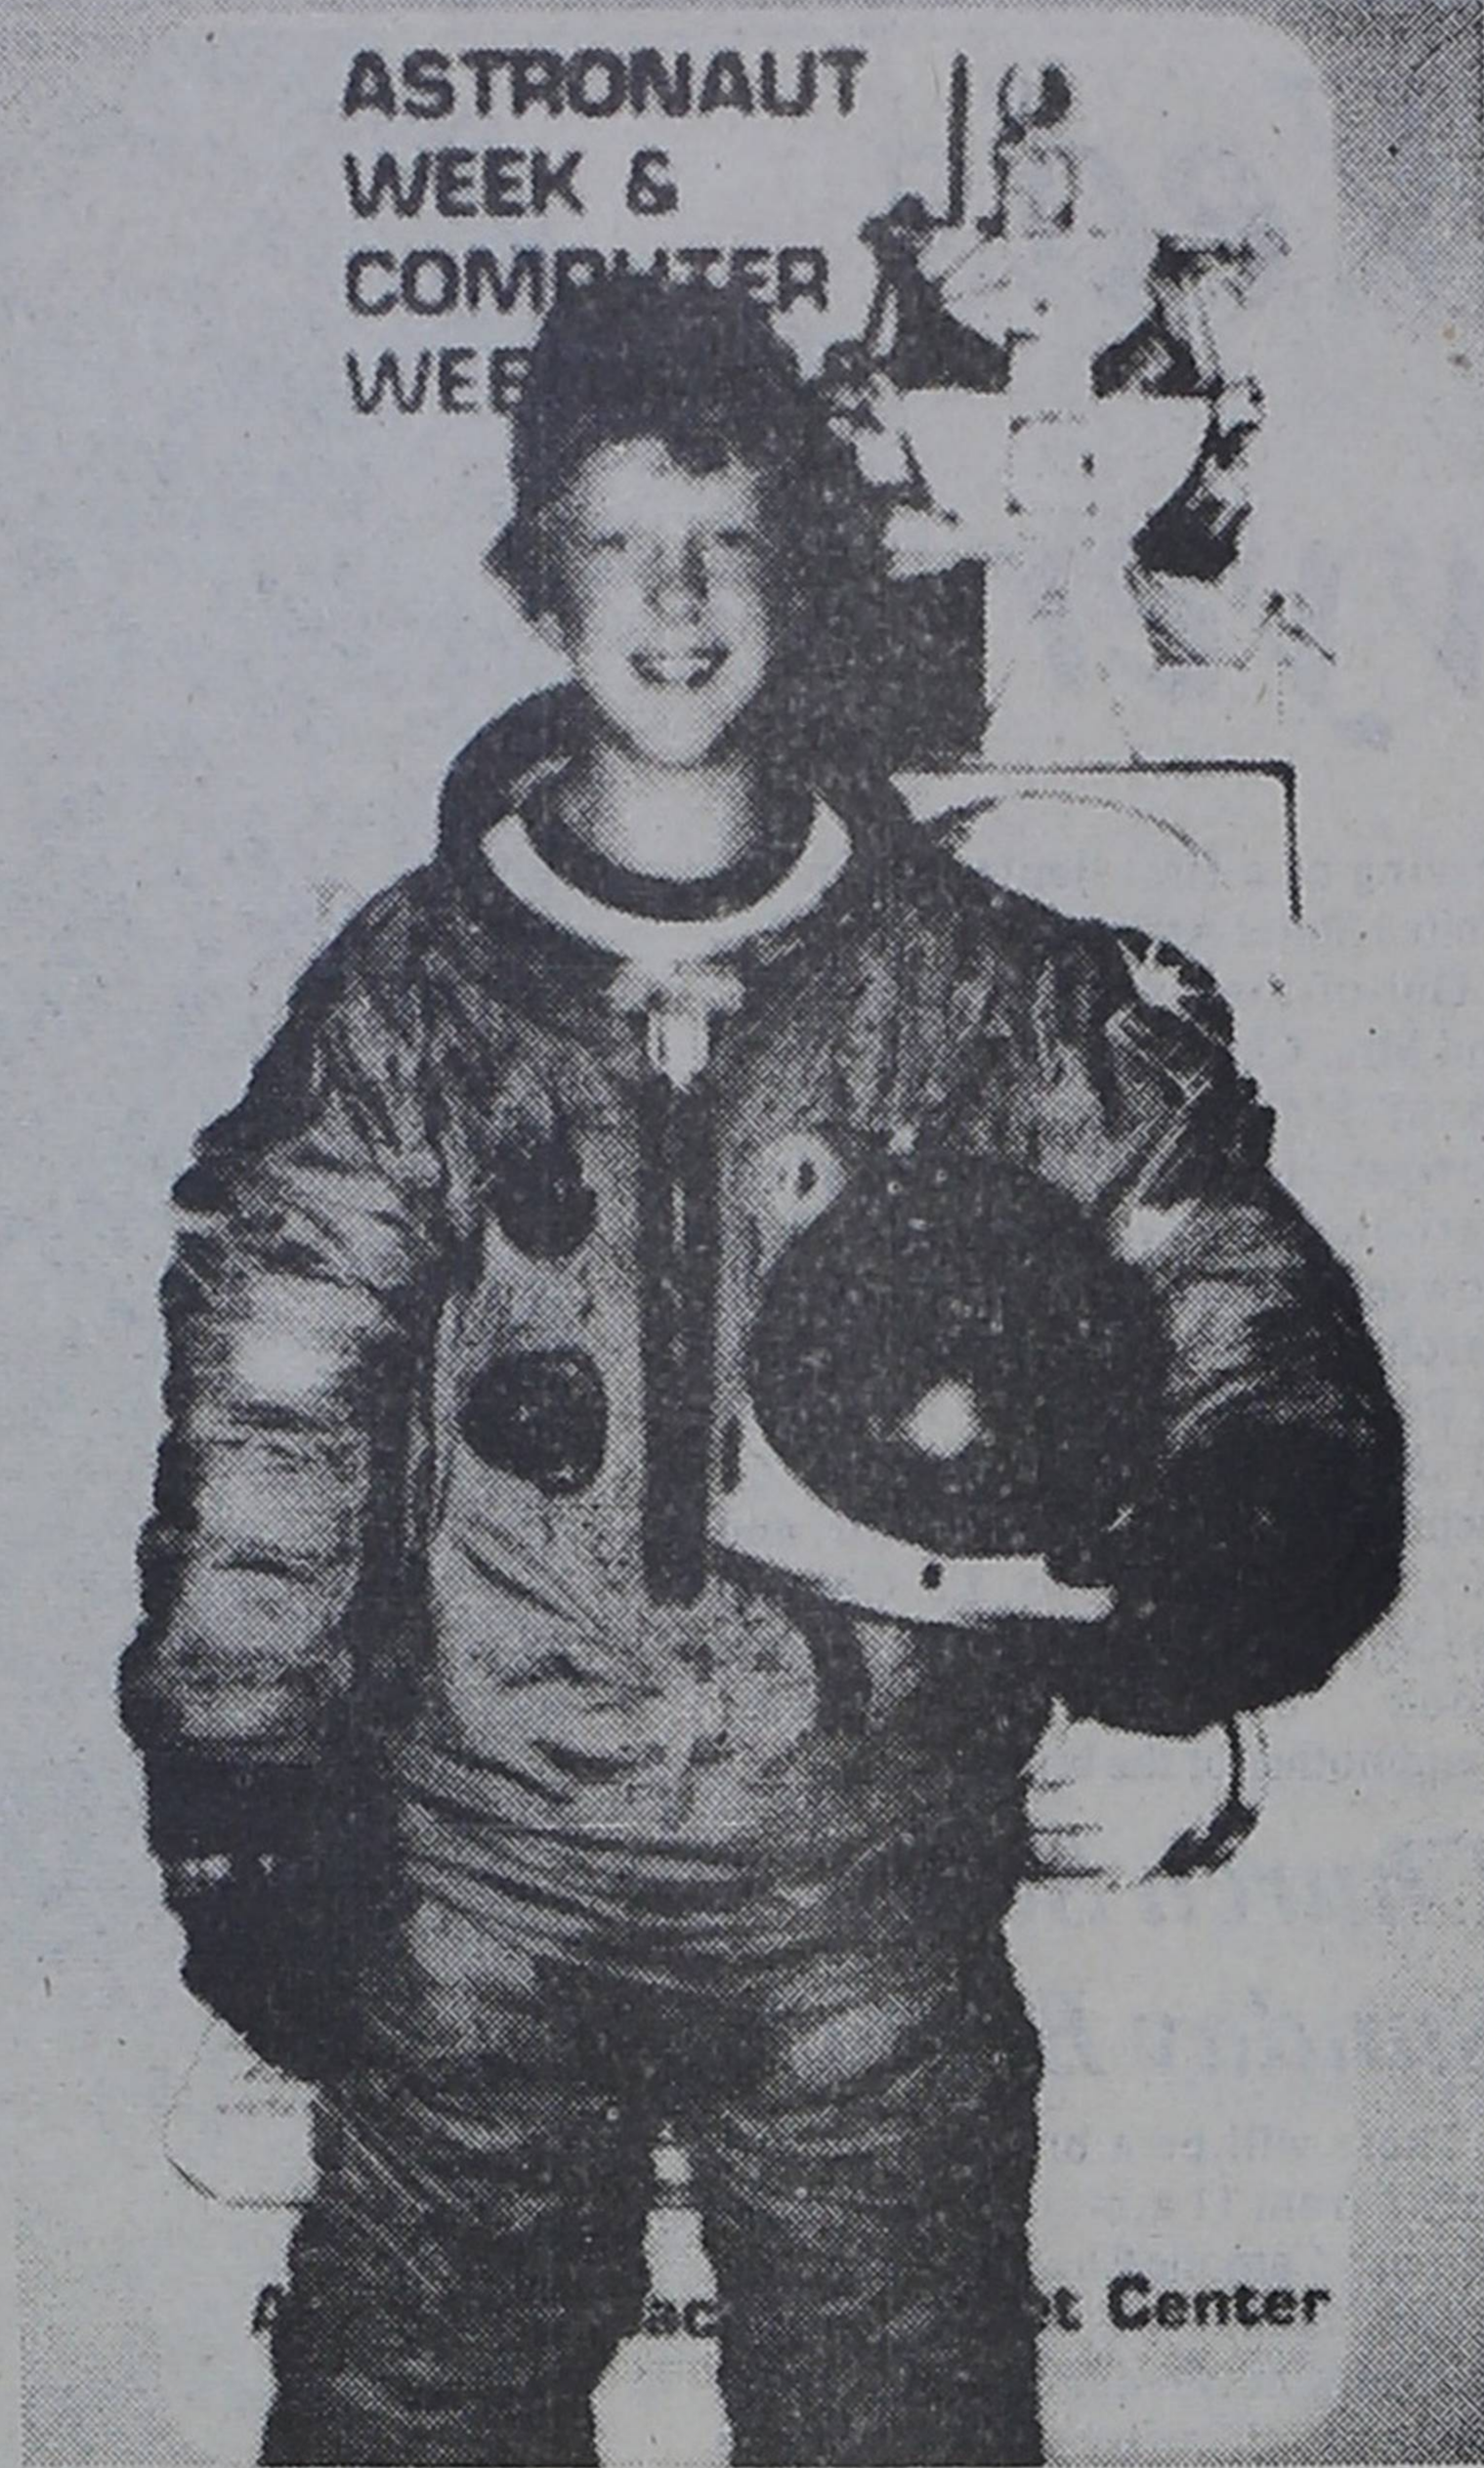

Kesner is termed a space enthusiast and a serious student of rocketry at Borger Middle School.

A fee of \$250 is charged those accepted for the camp, which takes care of the camp expenses. Kesner was chosen from among a field of 200 applicants.

Andy was named "Best Camper" for his week at camp. Those attending sleep in army barracks and have their meals at the space museum cafeteria at the Alabama Space and Rocket Center. They have the opportunity to try on space suits worn by astronauts in Skylab and Apollo I and II.

Campers were able to experience weightlessness. They learn the principles of rocket structure, propulsion, launch and guidance.

They also have the chance to go through a simulated space mission. They go through checkout, countdown, launch, in-orbit, and return to Earth. The camp is held each week through the first week in September. Information may be secured from United States Space Camp, Alabama Space and Rocket Center, Tranquility Base, Huntsville, Ala., 35807.

ANDY KESNER was photographed in a genuine space suit when he attended the United States Space Camp at Huntsville, Alabama.

--Hospital Report--

ADMISSIONS--

Bill Thigpen, Texico; Rita Beene, Friona; W.P. Hunt, Friona; Lois McCutchan, Bovina; Joyce Coffman, Farwell; Adela Vargas, Friona;

Yvonne Mendiaz, Hereford; Patricia Mendiaz, Hereford; Christi Wiseman, Friona; William Hacker, Friona; Oma Looney, Bovina; Lori Jordan, Friona; Orlando Ortiz, Jr., Clovis; Marie Elena Rodriguez and baby boy, Friona; Anna Lucia Aronce, Friona; Effie Jennings, Friona; and Cleo Routon, Farwell.

DISMISSALS--

Jerry Fancher, Inez Rule, Rita Beene, Joyce Coffman, Bill Thigpen, Adela Vargas, Yvonne Mendiaz, Patricia Mendiaz, W.P. Hunt, Ana Maria Hernandez and baby girl, William Hacker, Lois McCutchan, Oma Looney, Orlando Ortiz, Jr., and Lori Jordan.

PATIENTS IN HOSPITAL--

Mary Ann Ruther, W.P. Hunt, Christi Wiseman, Ruth Todd, Ana Lucia Aronce, Maynard Agee, Effie Jennings, Maria Elena Rodriguez and baby boy.

Terry Wilcoxes Have Baby Girl

Mr. and Mrs. Terry Wilcox of Lubbock are the parents of a baby girl.

Named V'Laura Lynn, the new arrival weighed seven pounds, fifteen ounces and was 20½ inches long. She was born June 23 at 5:39 p.m. in Lubbock Methodist Hospital.

V'Laura has one sister, V'Lynda, who is two years old.

Grandparents are Mr. and Mrs. Gene Welch of Friona and Mr. and Mrs. V.R. Wilcox of Trinidad, Colorado.

Great-grandparents are Mr. and Mrs. F.B. Harkins of Plainview, W.H. Welch of Amarillo and Lorene Turner Farrar of Poteau, Oklahoma. Lily Turner, also of Poteau, is the baby's great-great-grandmother.

Town Talk

Call 247-3681 With Your News Item

James and Linda Pope returned home Wednesday evening after a ten day vacation trip, which they spent sightseeing and visiting relatives.

Their first overnight stop was in Tucson, Arizona. From there they went to Phoenix, where they visited Linda's dad, Jack Simmons, and brother, James B. Simmons and family.

From there they went to Las Vegas, where they took in the sights and visited in the Robert Simmons home. Robert Simmons is Linda's uncle.

After touring Salt Lake City and several interesting places between Las Vegas and Salt Lake City, the couple drove to Idaho Falls, Idaho, where they spent several days visiting in the home of Mr. and Mrs. Fred Pope and family.

Fred and Janell, former Friona residents, and James and Linda visited Yellowstone National Park, where they saw Old Faithful erupt, the Paint Pots and a lot of other interesting sights.

Enroute home the Papes stopped in Rock Springs, Wyoming, and Denver, Colorado. While there they visited one of Linda's aunts, Mrs. Tom Luhe and her family.

Lillian McLellan, Betty Louise Rector and Janet Rector spent last weekend attending the Boatman Cousins annual reunion, which is held in Tucumcari.

This two day reunion features a church service on Sunday morning. The preachers in the group alternate officiating and this year's speaker was Fred Boatman of Des Moines, New Mexico, who is a Baptist preacher.

Church services are usually preceded by a musical program. This year's featured entertainer was Janet Rector, who sings and plays the piano. She sang "Jesus Loves Me," "God Bless You," and "God Loves You," which she dedicated to all members of the family who had died since the last reunion.

Janet's presentation was followed by reading of "The Creation," by Betty Louise Rector with Rev. Grace Wooten, Assembly of God preacher from Littlefield, accompanying at the piano.

In addition to the church service, the reunion features visiting, singing, making music and an auction sale. Each person attending takes something handmade, which is auctioned. Proceeds from the sale go into the reunion fund.

Betty says, "Most of us do not see one another except at the reunion, but we make the most of it every year."

The Floyds attended a McCown family reunion in Yoakum County Park just north of Denver City Sunday. The McCowns are my family and there were about fifty Texans plus a few New Mexicans in attendance.

Gladys Moseley was honored by Blanche Boyle with a birthday dinner in the Boyle home Wednesday, June 15. The honoree's son and daughter-in-law, who were present, presented her a beautifully decorated birthday cake.

Others present were the honoree's husband, David Moseley; Diana, Faith Ann and Jason Wright, Edith and Herschel Johnson and Inez Wheeler, all of Friona; and Kay van Valkenburg and son, Joel, of Englewood, Colorado.

Bob and Camille Beville and children, Krista and Nelson, spent last weekend in Decatur, Texas. They visited their parents and attended the tenth anniversary reunion of Bob's high school class.

The Bevilles returned home Sunday evening, but the children stayed for a longer visit.

Mrs. Craig Howard and daughters, Cara and Sara, who live in Bossier City, Louisiana, are visiting in the

home of Mr. and Mrs. John Blackburn. Mrs. Howard is the former Brenda Blackburn.

Out-of-town visitors in our home last week included Mr. and Mrs. W.H. Clements Jr., Dalhart, Texas; Dan and Scott McCloy, Gruver, Texas; Jana and Sarah Floyd, Elkhart, Kansas; and Marie Grisham, Brownfield.

Gerry Harbinson of Sacramento, California, has been a house guest in the home of Decimae Beene. Other Friday evening dinner guests in the Beene home were Dr. and Mrs. Jack Gilliland of Hereford.

Mrs. Beene, Mrs. Harbinson and Mrs. Gilliland taught together in Hereford many years ago and have kept in touch since that time.

Mrs. Beene and Mrs. Herschel Johnson took Mrs. Harbinson to Amarillo, where she will be visiting several days, Wednesday.

In keeping with the predictions by long time wheat farmers last winter when we were having so much snow, this year's dry land wheat is generally turning out bountifully.

Unless we have hail, a lot of snow almost never fails to produce a good wheat crop.

Bushels of bouquets from everybody in town should go to Bobby Wied in appreciation of the mural he painted on the east wall of the old post office building.

This early day Friona Main Street scene is very attractive and does for the Friona Public Library what a good frame does for a painting.

Bobby did a lot of work in the hot sun to produce this mural and if you haven't seen it, take time off and drive down for a good look.

Thanks Bobby for a fantastic job from the entire Friona Star staff.

A clock that doesn't run is right twice a day.

If your home is your castle,
why leave the drawbridge down?

Fire. Vandalism. Storms. Theft. Injuries to guests, damage to their property. The risks of owning a home.

Why leave the door open to these risks? Through the major insurance companies we represent, like CNA, we can offer up-to-date, comprehensive programs to insure you against a wide range of hazards and liabilities.

A chat with us could reveal options you may not know about. Such as a home replacement endorsement

guaranteeing full, not depreciated, value for the entire cost of replacing or rebuilding your home in cases of total loss. Or contents replacement coverage which pays the cost of replacing items at today's prices. We can even offer special coverage on valued items such as jewelry and furs. We'll be happy to talk with you any time about your home protection needs. Let us work out a plan for you. Because a castle is nothing if it's not secure.

PUBLIC NOTICE

At the request of the Office of the General Counsel of the Public Utility Commission, the Commission has established Docket No. 5113 to inquire into pressing issues involving the entire telephone industry in Texas. Docket No. 5113 will deal with many issues resulting from the impending divestiture of American Telephone and Telegraph Company and Southwestern Bell Telephone Company. Some of those issues include establishing the service areas of Southwestern Bell after divestiture and assessing the impact on other telephone companies in Texas, including West Texas Rural Telephone Cooperative, Inc., of current settlement arrangements between Southwestern Bell and those companies. Additionally, Docket No. 5113 will deal with the issues arising from the Federal Communications Commission's Final Order in Docket 78-72 (the Access Charge Docket) as they impact all telephone companies, including West Texas Rural Telephone Cooperative, Inc. It is anticipated that Docket No. 5113 will be evidentiary in nature. RATES FOR WEST TEXAS RURAL TELEPHONE COOPERATIVE, INC. MAY BE DETERMINED BY THE COMMISSION IN OR AS A RESULT OF THIS PROCEEDING. Interested parties seeking further information or desiring to participate in Docket No. 5113 are advised to write to Rhonda Colbert Ryan, Secretary and Director of Hearings, Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757 or telephone the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or 458-0227, or (512) 458-0221 TTY for the deaf.

Library Corner

By DARLA BRACKEN

The Fourth of July is always a good time not only to sit back and enjoy but also to stand up and appreciate all the freedoms our great country affords us. So, while you're sitting in the shade eating homemade ice cream or ice cold watermelon or watching a brilliant fireworks display, say a little prayer of thanks for America.

Of course one of the great freedoms we have is that of reading anything we wish and having access to all types of materials free of charge through our public libraries. We'd like to see all of you exercise this freedom. "Lasso a good book"--that's exactly what many of our young people are doing these days here at the library. Enrollment for the summer reading club, "Reading Rodeo" is almost to 200 and 35 people have received their certificates just four weeks into the program.

Film attendance has averaged 21 per film. Our displays are going well--thanks to the many people who have generously loaned us appropriate items.

The library has received several new items lately: a new IBM correcting electric typewriter purchased by the Library Board; a new filmstrip projector with a slide attachment and case purchased with a donation from Friona Young Homemakers, and a cassette recorder to be used with the filmstrip projector purchased by the Friends of the Library.

The most talked about item in town, however, has to be our beautiful new mural on the east wall of the old post office building. It is stirring to see the pride reflected and generated by those viewing the mural, especially for those who happened to have lived here during that time. It is certainly something the entire community can be proud of. Thank you, Bobby Wied!

For those of you who missed the annual Friends meeting Monday

night, you missed a real treat. The art work and books by Tulia artist, Kenneth Wyatt were excellent, but even they could not quite outshine the pride the Friends group felt in their accomplishments over the past two years.

Our thanks to a very dedicated and hard-working Nancy Edelson, outgoing Friends president and her officers for a job well done. Best wishes to new officers: Camille Beville, president; Judy Herring, vice president; and yours truly, Darla Bracken, secretary-treasurer. Thanks also to Nancy for the very lovely brunch given Monday morning for Friends officers and librarians.

The art display for the next period is going to be made up of young people's works among whom are: Kenda Atwell, Katherine Cortese, Melanie Gallman, Alisa Perkins, Kenneth Smith and Shannel Woodard. We invite your attention to these works during the next two months.

Yolanda Renteria is our CETA student working at the library this summer. We are enjoying working with her and appreciate the job she is doing.

Donations have included a rubber plant by John Southall; magazines by Lunell Horton and Zora Gaede; a video cassette by the Gary Sneads; and books, Anne Spring, Decimae Beene, Ann Graves, Anita Guest, Eric Rutherford, Debra Grable, Skip Sirnic and Jimmy Pope.

Memorial donations have been made by:

Elwanda and Lee Campbell to Diane Jack Perkins.

Wendell Greshams and Rex Brackens to Hugh Blaylock.

Rex Brackens, Floyd Wilkins and John Hands to Cynthia Bishop.

Peggy and Clarence Monroe and Billie Fairchild to Casey Adams.

Rex Brackens to Ethel Adams.

Rex Brackens, Billie Fairchild and Blanche Boyle to Oscar Weeks.

REBECCA ANN PINKSTON and JERRY LEE BUNCH....Mr. and Mrs. J.B. Pinkston of Melrose, N.M. and Mr. and Mrs. Cecil Bunch of Clovis, N.M. announce the engagement and approaching marriage of their children, Rebecca Ann and Jerry Lee. She graduated from Lubbock Christian College and is presently employed at Melrose Grain in Melrose. Bunch graduated from Bowlna High School and is currently employed at DL's Thriftway in Friona. The couple will exchange wedding vows Friday, July 22 at 7 p.m. in the Melrose Church of Christ.

Bainums Are Honored

Mr. and Mrs. Mack Bainum will be honored at a reception on Sunday, July 3 from 3-5 p.m. in the Central United Methodist Church of Dalhart, to celebrate their golden wedding anniversary.

Vera Cogdill and Mack Bainum were married on July 1, 1933 in Clovis, New Mexico. They moved to the Hereford-Friona area where

Mack was in the butane business for some 30 years. They have been in Dalhart 17 years.

The couple have two children, six grandchildren and three great-grandchildren.

Hosting the celebration will be Danny and Glenna Bainum of Clovis, Phyllis and Gary Brooks of Dalhart, Eddie, Christy, Nichole and Amber Bainum of Shreveport, Louisiana, Jackie Bainum of Dumas, Curtis and Micheleen Bainum of Canyon, Angie, Ward and Ryan Mitchell of Pampa, Amy and Andrea Brooks of Dalhart.

Lutherans Celebrate 75th Anniversary

Lutherans will celebrate 75 years in the Texas Panhandle on the weekend of July 10.

A worship rally is scheduled for 10:30 a.m. on Sunday, July 10 in the Palo Duro Canyon State Park amphitheater, followed by a noon barbecue in the park area.

Families from area Lutheran Churches are planning to camp in the state park during the weekend. Lutheran Night will be observed during the colorful outdoor pageant, "Texas." Four-hundred seats have been reserved for Lutherans for the Saturday night presentation of the historical musical drama.

Theme of the observance is "Celebrating 75 Years Of Prairie Power In God's Service."

The first Lutheran missionary to the Texas Panhandle was the Rev. A.M. Lohmann, who began his work in 1908 at Canyon, under the auspices of the Texas District of the Lutheran Church Missouri Synod. A number of Lutheran farmers had settled in the Canyon area. Mostly they were from Nebraska. Rev. Lohmann opened preaching stations at Zita, Happy, Dawn, Hereford and Friona.

He also explored the mission possibilities in New Mexico. He opened new stations at Amarillo, Claude, Clarendon, Shamrock, Hartley, Dumas and Canode, N.M.

In 1909 the mission board of the Texas District assigned three more pastors to the Panhandle. The Rev. L. Werner was given the northwestern section with his headquarters at Dalhart; a Rev. Hoemann, who operated from Plainview; and the Rev. Plischke, who was stationed at Amarillo.

The first formal church service in Friona was conducted on June 29, 1909, by the Rev. Lohmann from Canyon.

At a settlement of Lutherans near present-day Friona, The Farwell Syndicate, owners of the XIT Ranch, donated a tract of 40 acres for a church, and \$1,000 for building the church. The resulting community was first known as Fort Wayne (because it was settled by Lutherans from Fort Wayne, Ind.). Later, it was called Rhea.

Today, Lutheran churches in the Texas Panhandle and South Plains number thirty-three.

Bunny Murphree Attends Institute

Bunny Murphree, secretary of the Friona Chamber of Commerce and Agriculture, recently completed a week's Institute for Organization Management at Southern Methodist University. Over 200 voluntary organization executives from all over the country participated in this professional development program.

The SMU Institute is one of six annual, one-week sessions sponsored by the Chamber of Commerce of the United States at leading universities throughout the country. Other universities that host Institutes are Notre Dame, Georgia, Colorado, San Jose and Delaware.

During the five-day session, participants spent 27 classroom hours in the Institute course of study, which is designed to assist voluntary organization executives improve the knowledge and skills necessary to

enhance the effectiveness of their organization.

The Institute curriculum includes coursework in management philosophy, interpersonal processes, government, law and organization structure; as well as in more contemporary issues such as economic and environmental concerns. Each participant may attend progressive levels of the program throughout his/her professional career.

University professors chosen to serve as faculty are distinguished authorities in their fields. Other courses are led by top-level Chamber of Commerce and Association executives. This combination makes the Institute faculty unique in its depth and range of knowledge and experience.
