

Lockney Baseball Report

LHS VARSITY OUTSCORED BY FRIONA IN 8 INNINGS

Lockney scored 5 runs in the top of the 7th inning to tie the score at 7-7. Friona won, scoring 8-7.

According to Coach David Norwood, "We hit the ball fairly well, but need to improve defensively."

"Alfred Martinez and Leo Vargas both pitched extremely well for early in the season," said the coach, "but the defense did not support them well."

The team had good offensive production from Tanner Johnson (2-4) with 3

RBI's, and Phineas Riddley who had a two out single in the top of the 7th and scored 2 runs.

VARSIITY PLAYS ALTUS IN CHILDRESS TOURNAMENT

Lockney Varsity Baseball team played Altus Oklahoma in the first round of play at the Childress Tournament on March 4, losing by a score of 4-2.

"It was another good day offensively

for Johnson with 1-3 and an RBI," stated Coach Norwood. "Martinez also performed very well, 1-3 and a solo home run."

Norwood said, "We played great defensively. Carlos Perales pitched three good innings and Martinez finished the game, giving up a two run homer in the bottom of the 5th that gave Altus the win. We did not hit the ball very well."

LHS DEFEATS CHILDRESS IN SECOND TOURNAMENT ROUND

"For the first time, we hit the ball all

the way through the lineup and played well on defense," said Coach Norwood following the second match up of the Childress Tournament on March 4. LHS won 5-4.

Leo Vargas pitched 6 innings to make his record for the year 1-0. Martinez came in during the bottom of the 7th inning to earn his first save of the year.

Martinez also performed well at the plate according to Coach Norwood. "In two games on Friday, Alfred had 2 solo home runs and 2 singles with 2 RBI's. Tanner Johnson also had a good day (3-

VARSIITY PLAYS RIVER ROAD IN FINAL ROUND

Lockney lost to River Road, 11-3, to take fourth place in the Childress Tournament which ended March 5.

According to Coach Norwood, "We struggled both offensively and on defense. The game was called in the 5th inning due to the two hour time limit."

"We had a good tournament and I thought we played extremely well in both games on Friday. Saturday was a struggle both in the field and on the plate," said the coach.

Lockney High School hosting bike-a-thon

LOCKNEY—St. Jude Children's Research Hospital has announced plans for the Lockney "Wheels For Life" Bike-A-Thon. Coach David Norwood will serve as coordinator of the event on May 7 and encourages all residents to support this important community effort.

St. Jude Children's Research Hospital, founded in 1962 by the late entertainer Danny Thomas, is the largest childhood cancer research center in America in terms of the number of pa-

tients treated and treatment success. Funding for the treatment and research programs conducted at St. Jude Hospital comes primarily from public support of events such as the Bike-A-Thon.

This year's Bike-A-Thon poster child, seven-year-old Shauna Richters, represents all of the patients treated at this world-renowned pediatric research and treatment facility. Shauna was diagnosed with Wilms' tumor, a malignant growth on her left kidney, in December 1990.

Shauna is in remission from her cancer and completed her chemotherapy (anti-cancer drugs) in June 1991. She is doing well and returns to St. Jude Hospital every six months for checkups. Shauna celebrated her last chemotherapy treatment with a present she had eagerly looked forward to: a new bike.

All residents and businesses are encouraged to lend their support to the hospital by making a contribution or by becoming a rider.

OFFICIAL MEMORANDUM

WHEREAS, agriculture, our most renewable resource, has spanned and sustained generations of Texans; and

WHEREAS, though less than 2 percent of our population lives on farms today, every Texas farmer produces enough food to feed 128 people; and

WHEREAS, Texas contributes mightily to America's agricultural bounty as the country's second-leading producer of crops and livestock, generating \$36 billion for the state's economy and creating one of every five jobs; and

WHEREAS, Texas leads the nation in number of farms and ranches and total acres in agricultural production and ranks first in cattle, sheep and goats, cotton, sorghum, wool and mohair; and

WHEREAS, the state's farmers, ranchers and processors produce such a range of mainstream and specialty foods, it is possible to eat three varied, nutritious meals a day of all-Texas products; and

WHEREAS, crop diversification, growth in food and fiber processing and expanding trade opportunities with Mexico and other foreign markets will guarantee Texas agriculture a vital role in the coming century;

BE IT THEREFORE RESOLVED that as we move into the future, agribusiness will become more productive, profitable and environmentally compatible than ever before.

NOW, THEREFORE, I, Rick Perry, Texas Commissioner of Agriculture, do hereby proclaim Sunday, March 20, 1994 as

National Agriculture Day In Texas

In official recognition, I hereby affix my signature on this 4th day of March, 1994.

Rick Perry

Texas Department of Agriculture reports 1993 Ag Survey

--Prepared by the Texas Department of Agriculture - Rick Perry, Commissioner

CROPS
* Upland cotton production totaled 5.1 million bales during 1993, up 56 percent from last year's poor crop. Harvested acreage increased 42 percent from 1992 to 5.05 million acres. Statewide yield averaged 485 pounds per acre, 44 pounds more than the previous year.

Texas leads the nation in Upland cotton production, harvesting 32 percent of the United States crop.

On the Southern High Plains, production totaled 2.6 million bales, up 93 percent from the 1992 crop. The Southern High Plains harvested more than half of the total Texas crop.

* Texas corn production was a record high 212.8 million bushels, up 5 percent from last year's record crop. Harvested acreage totaled 1.85 million acres, up 14

percent from 1992. Yield averaged 115 bushels per acre, down 10 bushels from the record yield in 1992.

On the Northern High Plains, production totaled 132.8 million bushels, up 12 percent from 1992. Harvested acreage for the area increased 27 percent to 810,000 acres. Yield dropped 21.1 bushels from last year to 163.9 bushels per acre.

Texas ranks 10th in production.

* Sorghum production totaled 102.1 million hundredweight (cwt), down 35 percent from the 1992 crop. Harvested acreage dropped 29 percent from the previous year to 3.2 million acres, while average yield decreased 280 pounds to 3,192 pounds per acre.

Texas ranks first in production with 32 percent of the U.S. crop.

* Winter wheat production during 1993 totaled 118.4 million bushels, down 8 percent from the previous year. Harvested acreage totaled 3.7 million acres, down 3 percent. Statewide yield averaged 32 bushels per acre, down 2 bushels.

By Kerry Siders, CEA-Ag.
The following information is on an Irrigated Cotton Variety Trial in which Warren Mitchell cooperated with the Floyd County office of the Texas Agricultural Extension Service.

SUMMARY: An irrigated cotton variety trial was initiated at Lockney on May 13, 1993. Early-season thrips pressure and cool temperatures caused concern. However, almost ideal conditions occurred after mid-June. Ideal fall conditions allowed for timely harvest, retention of cotton quality and excellent yields. Most all varieties yielded better

than 800 pounds lint per acre with All-Tex Quickie providing 1,026.9 pounds per acre (see the following table) when harvested on November 10, 1993.

Results of Floyd County Irrigated Cotton Variety Trial, Lockney, Texas, 1993.

Cotton Variety	Adjusted Lint Yield (Lbs/A)	% Lint Turnout	% Seed	MIC	Length	Strength	\$ Loan Rate	\$ Value per Acre
All-Tex Quickie	1026.9	23.1	42.2	3.8	36	31	54.35	558.12
Southland M-1	940.5	22.5	41.8	3.9	38	26	50.90	478.71
Paymaster HS-26 ¹	896.7	22.8	40.6	4.5	35	26	52.85	473.91
Paymaster HS-200	891.5	22.1	42.7	3.4	38	29	51.50	459.12
Holland 850	874.6	21.7	40.6	4.0	35	30	51.85	453.48
Paymaster 145	827.5	21.2	40.1	3.9	34	31	53.75	444.78
Paymaster F87095	821.8	23.3	40.4	3.9	34	24	48.70	400.22
Deltapine 50	791.1	22.4	40.9	3.6	37	25	52.95	418.89

¹Paymaster HS-26 yield data reported as average of three check plots, quality data reported from one composite sample of the three checks.

than 800 pounds lint per acre with All-Tex Quickie providing 1,026.9 pounds per acre (see the following table) when harvested on November 10, 1993.

PROBLEM: The short growing season, and the unpredictable weather in Floyd County, make selection of the most appropriate cotton variety crucial to the producer. Producers must also select varieties which are the most consistent in yields and quality to maximize returns per acre.

OBJECTIVE: To demonstrate and compare the various characteristics of cotton varieties available to Floyd

County producers.

MATERIALS AND METHODS: Eight cotton varieties were planted on the Warren Mitchell farm into a test block. The varieties included: Quickie, Southland M-1, PM HS-26, PM HS-200, Holland 850, PM 145, PMF87095, and Deltapine 50. Paymaster HS-26 served as the check variety to adjust yields of other varieties. The planting rate on May 13 was 19 pounds (68,182) seed per acre on 40" beds, that received 1 quart Treflan, 200# 28-0-0, 5 pounds Thimel, and 1 pint Command. The crop was pre-watered, and received two irrigations.

RESULTS: See the following table for results of yield, quality and economic factors.

ECONOMIC ANALYSIS: Varieties are assigned base loan values based on quality factors. The base loan value is then multiplied by the yield to determine the gross value per acre. The table below shows loan rates and returns for each variety.

CONCLUSION: Producers can use this valuable data to make variety selection decisions. A producer must select high yielding cotton of excellent quality grades which can increase returns.

ACKNOWLEDGEMENTS: We would like to thank Warren Mitchell for his cooperation and assistance with this trial. Thanks also to the participating seed companies.

PCG and DTN announce "High Plains Boll Weevil Update" service

By Shawn Wade
Lubbock-based Plains Cotton Growers, in conjunction with the Data Transmission Network (DTN) is proud to

announce the start of a new service, the "High Plains Boll Weevil Update". The PCG report will be available at no charge to DTN subscribers and is scheduled for a late March kick-off.

The two page report will provide information on the build-up of boll weevil populations beginning in early April until mid-November. The PCG report takes advantage of DTN's real-world "information super-highway" that allows producers to check the weather, track commodity prices and more, right from their own homes.

The primary purpose of the PCG report is to provide boll weevil information directly to producers. This information is collected by PCG, the Texas Agricultural Extension Service, and professional crop consultants from across the High Plains. The report will be updated two to three times a week.

"Interest in how boll weevil populations develop throughout the year significantly increased during the 1993 control program," explains Roger Haldenby, PCG Boll Weevil Program Coordinator. "One of the things that has developed from this increased interest is the 'High Plains Boll Weevil Update'. We found that producers are very interested in keeping track of populations, especially as boll weevils begin their yearly migration into High Plains cotton fields."

Haldenby notes that exceptionally high weevil populations were seen on the High Plains in 1993, peaking interest in the methods used to measure and evaluate boll weevil populations.

PCG officials worked with DTN to develop a format that, hopefully, will make the boll weevil information available to producers useful and informative. DTN officials report that the "High Plains Boll Weevil Update" will be found on the DTN 6001 Color System in the Cotton/Rice Segment, making it available throughout the Cotton Belt.

For more information about how to get a DTN System or the location of a system near you contact Wayne Mathies at 788-1833 or the PCG office at 792-4904.

Visitors dominate relays

By Bill Gray
FLOYDADA--It was the visitors' day as far as team honors were concerned at the Whirlwind Relays in Floydada on March 5. Muleshoe and Post captured team championships in 3A and 2A Boys' division. Lamesa and Hart were the top finishers in Girls' 3A and 2A standings.

Team totals and team points in the Class 3A Boys' division were 1. Muleshoe 158; 2. Childress 118; 3. Lubbock Roosevelt 93; 4. Floydada 80; and 5. Lubbock Cooper 59. In Class 2A Boys, the team finishers were 1. Post 126; 2. Springlake-Earth 84; 3. Olton 82; 4. Idalou 56; 5. Memphis 54; 6. New Deal 48; 7. Motley County 40; and 8. Hart 25.

The Girls' Class 3A division team totals and points scored were: 1. Lamesa 161; 2. Childress 131; 3. Muleshoe 111; 4. Lubbock Roosevelt 97; and 5. Floydada 64. The Girls' 2A team standings were: 1. Hart 151; 2. Springlake-Earth 116 1/2; 3. Idalou 96; 4. Crosbyton 53 1/2; 5. (tie) New Deal 36; Memphis 36.

Whirlwind senior Adam Gonzales, a state qualifier in 1993, took up where he left off last track season with a winning effort of 158'-1" in discus. Junior D.G. Hollums finished a distant second with a toss of 134'-0". Gonzales also won the shot put by a sizeable margin with a heave of 57'-3".

In other competition Saturday, Floydada's Omar Eguia placed third in the 3200 meters with a 12:26.9 time; Rance Barnett ran second in the 300 hurdles with a clocking of 45.79; and Elias Gutierrez was second in the 1600 meters with a time of 5:18.48.

Floydada's Jesse Sanchez placed fourth in both the 1600 and 3200. Gutierrez was fifth in the 800 meters and

in the 3200 meters was good for second place and Jessica Garcia ran third in the 3200 with a time of 14:47.89. Dana McCandless and Lezie Warren placed 2-3 in the 800 meters with times of 2:42.36 and 2:43.73, respectively. Garcia ran third in the 1600 with a time of 6:39.46. McCandless anchored the 1600 relay team to a third place time of 4:39.01. Others on the 1600 team were Shayla Turner, LuAnn Martinez and Lezie Warren.

Both Floydada track squads will see their next action at the Antelope Relays in Post on March 12.

Two Floydadans inducted into South Plains College honor society

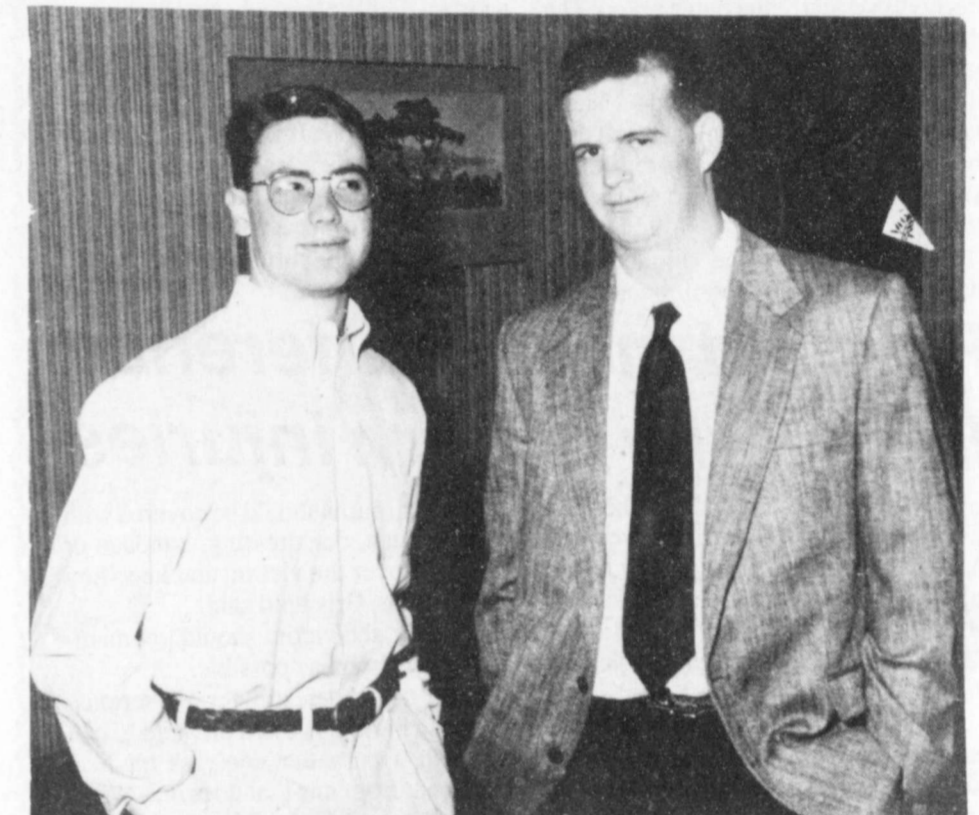

Micheal Sanders and James Sims of Floydada are among a record 152 South Plains College students recently inducted into the college's chapter of Phi Theta Kappa, the national honor society for students in two-year colleges.

"This is a mark of excellence that more than 150 students have been able to qualify for the high standards of Phi Theta Kappa," said Dr. Gary McDaniel, SPC president. "We are extremely proud

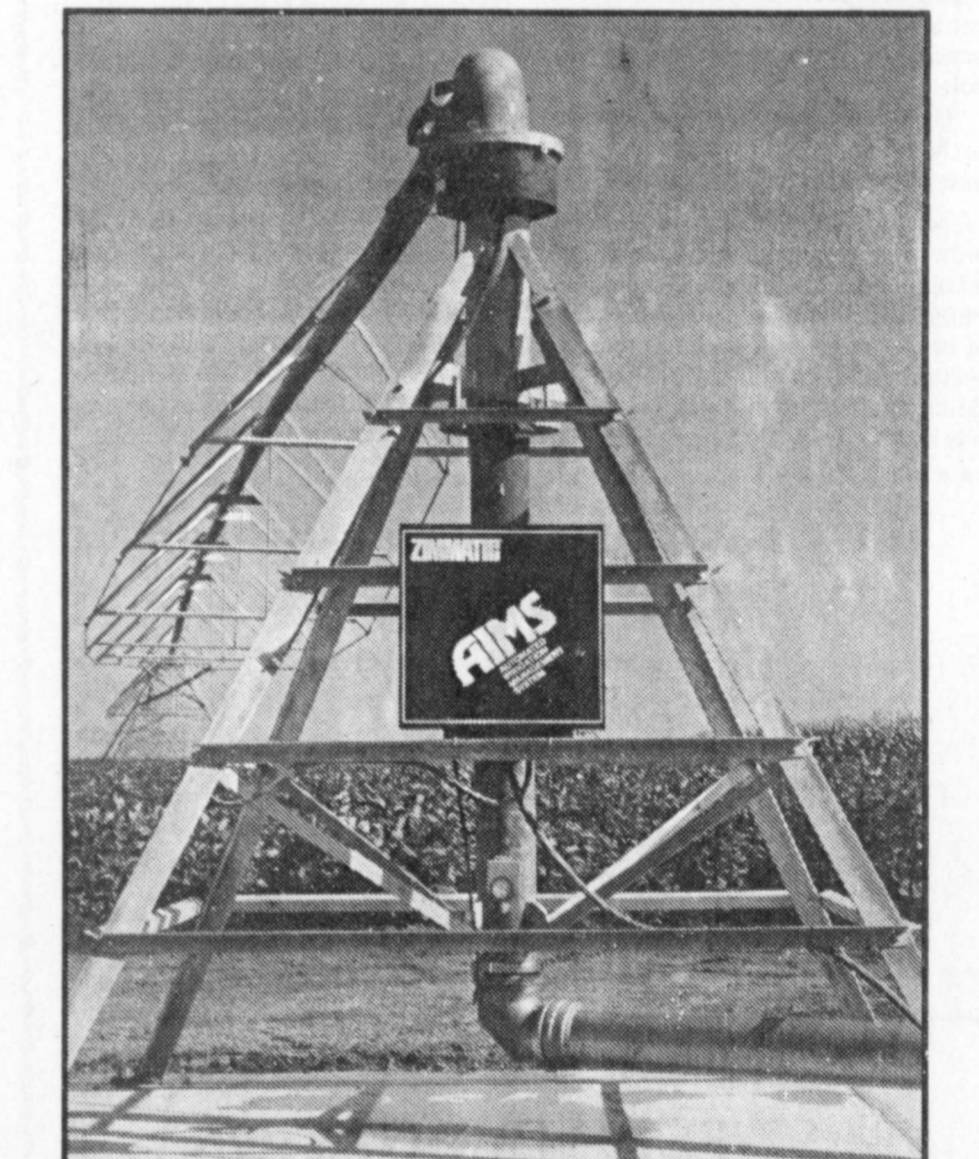

of them and proud of an institution that helps them to achieve and maintain academic excellence."

Sponsors are Sharon Scott, assistant professor of psychology, and Julie Johnson, instructor in speech.

Students must maintain a cumulative 3.25 grade point average or better and have completed at least 15 semester hours to be eligible.

FLOYDADA PTK INITIATES--Michael Sanders (left) and James Sims, both from Floydada, were among a record number 152 students recently initiated into the Phi Theta Kappa Honor Society chapter at South Plains College. The honor society for students in two-year colleges nationwide recognizes academic excellence. --SPC photo

COMPUTERIZED IRRIGATION. NOW IT'S USER-FRIENDLY.

Zimmatic's new Automated Irrigation Management System. It's a new computerized panel that any irrigator can learn to use in less than 30 minutes. And, once you see how many trips to the field it will save you...how it can help you conserve energy, labor and water...and how many options it has to boost your productivity...you'll want one. See your Zimmatic® dealer for a hands-on demonstration of the user-friendly AIMS panel.

Never Before Like '94

By Melissa Faulkenberry

FLOYDADA--This week we feature three spunky senior spotlights, Kristy Hinsley, Carrie Emert and Crystal Sanders.

To begin we have Kristy Hinsley, daughter of Sarah and Kim Hinsley. Kristy was born on October 27, 1975. She has one brother and one sister, Todd Hinsley and Stacy Nutt.

Kristy has attended schools in Floydada all of her life. While in high school, she has been actively involved in varsity basketball, FFA in which she won Grand Champion Steer at the '94 stock show and went to state in the farm skills on how to build an electric fence. She was also 4-H sweetheart and received "All Tournament" in the Ralls basketball tournament.

The thing Kristy admires most about FHS is being able to see all of her friends. However, she does wish to have more of a variety of classes to choose from.

In her spare time, Kristy enjoys showing steers, playing basketball and being with her friends. She also enjoys listening to country music such as Alabama and Chris LeDeaux. Kristy likes Calvin and Hobbes, watching Seinfeld and Tombstone and reading books such as the "Texas Chase" and eating pizza. However, when she has to be in school, Economics is her favorite subject. Kristy has two cats and she collects picture frames.

We asked her about her future plans

and she replied, "I'm planning on attending South Plains College in Levelland for two years. My career is undecided. I do plan on getting married, but not anytime soon."

Second, we feature Carrie Emert, daughter of Mary and Weldon Emert. Born on July 1, 1976, she has one older brother, Brad. Carrie has also attended Floydada schools all of her life.

In FHS, she is a part of the Lady Winds basketball team, Radio Team and Poultry Judging. As a member of ag, she shows pigs.

If Carrie could change anything about Floydada High School, she would wish for a large lunch and more of a variety of classes. However, she likes the socialization here. Carrie babysits in the summer time.

Some of her hobbies include showing pigs, being on the farm and playing basketball. Carrie enjoys reading comics such as The Far Side and books such as "Wuthering Heights." She enjoys the group Air Supply and the song, "If the Good Die Young." In school Carrie's favorite class is Parent and Child Development. We asked her about her plans for the future "I plan to go to South Plains College in Levelland and I'm still a little undecided on my major."

Finally, we have Crystal Sanders, daughter of Iva and Curtis Sanders. She has a brother, Brian and a sister, Shawnda. She has attended Floydada schools for 13 years. In FHS she is very involved. She is a member of NHS, the yearbook editor, FFA, cheerleader three years, basketball, track, yearbook staff, FFA sweetheart, class favorite and student of the month. Crystal enjoys watching Days of Our Lives and "Top Gun". Her favorite book is "To Kill A Mockingbird." While in school, her favorite subjects are pre-calculus and teachers aide.

We asked her to state her feelings about Floydada High School and she replied, "I like the fact that the teachers are very willing to do whatever it takes to make the students be the best that they can be. However, I dislike the lack of school spirit."

In the near future, Crystal plans on going to Texas Tech University to get a degree in Physical Therapy. I will see you there, Crystal. Good Luck to all of you!

The Trial of a Horse Thief

(Editor's Note: The following was submitted by Grady Dunavant of Floydada. It appeared in the American Family Association newsletter and was written by Dr. Donald E. Wildmon, President of the Association, based in Tupelo, Mississippi.)

"A man that hath friends must show himself friendly..." —Proverbs 18:24 KJV

A man in the old west was being tried for stealing a horse. You need to remember, now, that stealing a horse in the old west was a very grave and serious offense. A person could be hanged if found guilty of such a deed.

It so happened that the man was accused of stealing a horse from another man in that town whom no one liked. The man whose horse had been stolen had always made it a point to get the best of any person with whom he had any dealings. He had never tried to do anything good for anyone other than himself. Consequently, the man whose horse had been stolen didn't have a single friend in the entire town.

The case was tried and presented to the jury. The evidence against the accused man was pretty strong. After about thirty minutes of deliberation, the jury returned to the court chambers. "Gentlemen of the jury, have you reached a verdict?" the judge asked. The chairman of the jury stood up. "Yes, we have, your honor," he replied. "What is your verdict?" inquired the judge. There were a few moments of silence and then the chairman spoke. "We find the defendant not guilty if he will return the horse."

After the judge had silenced the laughter in the court room, he ad-

vised the jury. "I cannot accept that verdict. You will have to retire until you reach another verdict," said the judge. The jury went back into their room to deliberate toward another verdict.

Now no member of the jury had any particular liking for the man whose horse had been stolen. At one time or another he had gotten the best of each of them. About an hour passed before the jury could reach another verdict. They re-entered the courtroom. They took their place in the jury box and the courtroom grew silent.

"Gentlemen of the jury," began the judge, "have you reached a verdict?" The chairman of the jury stood up. "Yes we have, your honor," he replied. "What is your verdict?" asked the judge.

The courtroom was totally silent. You could have heard a pin drop. Everyone eagerly awaited the verdict. The chairman read the decision reached by the twelve good men, tried and true. "We find the defendant not guilty, and he can keep the horse!" The courtroom burst into laughter!

Well, I guess the moral of the story is that it pays to be interested in people other than yourself. If you spend your life trying to take advantage of others, never caring about them, in any way except what you can get from them or what they can do for you, you will end up a loser—like the man who lost his horse.

If you desire a friend, then you had better be a friend. If you desire for other people to help you, then you had better help other people. If you desire justice at the hands of others, then you had better practice justice toward them.

Regardless of what you may think, the old Biblical admonition is true. We do reap what we sow.

First aid makes difference in severity of burn injuries

How a person responds in the first few minutes after a burn occurs can make a difference in the severity of the injury, according to John Griswold, M.D., assistant professor of surgery at Texas Tech University health Sciences Center.

"We can do a lot more to heal burns that have been given proper first aid," said Dr. Griswold, who also is medical director of University Medical Center's Timothy J. Hammar Burn Center.

The first step is to stop, drop and roll if the clothes catch on fire, Dr. Griswold said. Second, small burns should be cooled with water in order to reduce skin temperature, decrease the pain and prevent swelling, however, Dr. Griswold warned, the water should not be too cool.

"Using very cold water or ice makes the body temperature drop and can cause more skin damage," he said.

The third step is to remove burned clothes. The victim should be laid flat, and all non sticking clothing should be removed. If clothing adheres to the skin, cut or tear around the area to preserve good skin tissue, Dr. Griswold said. In addition, all tight clothing, jewelry, belts and boots should be removed.

Fourth, burns should be covered with a soft, clean, dry dressing, bandage or sheet. "Cover the victim, and keep him warm," Dr. Griswold said.

Finally, the victim should get medical help as soon as possible.

"Do not underestimate the seriousness of a burn. It is often difficult to distinguish a burn that requires medical treatment from one that does not. When in doubt, see a doctor," he said.

Dr. Griswold emphasized that butter, ointments, sprays and creams are not helpful and may be harmful.

"Anything greasy won't let the heat out, and this can make a burn worse. In addition, the oil base may cause infection," he said.

Special consideration should be given to electrical and chemical injuries.

"Do not touch a person who is in contact with electricity because you will be injured. Disconnect the source of power or call for assistance from the power company, and then begin first aid," he said.

Chemical injuries should be flushed with water after clothing and contact lenses are removed. Caution should be taken not to flush the chemical on parts of the body not contaminated, he said.
