Thing won't be the same, anymore, for a lot of people.

Kinder Farris is gone and we will miss him. In fact, the entire community will miss him.

In terms of his own lifespan our acquaintance and friendship was relatively brief. He was here when we arrived on the scene in Floyd county, some years ago. In fact, Kinder was here when most people in Floyd County arrived on the scene. He was a presence in the community, a presence, in our opinion, that benefitted the community greatly.

In fact, we might not have gotten involved here, and invested here, had it not been for Kinder. We did not then know him, but we did know that there are many things that can draw a community together, hold it together, assure and improve its quality of life.

The first, of course, is the quality of its citizens. Here, there was no shortage of quality citizens. Then there is the question of leadership within the community. That, to us at that time, was where Kinder came in.

It has always been our thought that a good, community-minded bank, and a good, community-minded newspaper, can be of tremendous benefit in this regard. Both are in position to be misunderstood at times. That is probably the most difficult aspect of either position. And it is probably the most difficult aspect of any leadership position.

In our own view Kinder was a force for good in this community. He had the community's interests at heart. Oh, I know. Sometimes he had to say "no." But sometimes that is the best answer for all concerned, though it might not seem that way at the time. And, when it came time to support those projects or endeavors that benefitted the community a whole, Kinder's answer was always "yes." We never heard him speak ill of any citizen, nor any community endeavor good citizens were trying to advance.

We will miss him. We will miss his, at times, hard-nosed "crustiness". We will miss the frequent visits on affairs of state and national politics. We will miss his good-natured wisdom and counsel on affairs concerning the community at large. We will miss his friendship.

Rest in peace, Kinder Farris.

## First National Bank chairman of the board dies at the age of 78

Thomas Kinder Farris, longtime chairman of the board of The First National Bank of Floydada died Saturday, May 7, 1994 at 5:30 a.m. at Methodist Hospital in Lubbock. He was 78 years old.

Born December 28, 1915, to John Newton and Lora Rucker Farris, Kinder had served on the board of the First National Bank since 1949. He was named chairman of the board in 1960 and held that position until his death.

Kinder and his brother, John Newton, Jr., and sister, Audrey, were all born in Floydada, at the old Farris home on the corner of Missouri and Fourth Streets.

A graduate of the University of Texas, Farris met his future wife, Martha White, in Houston while he was working for the Texas Company. They were married December 13, 1947, after Kinder served 3 1/2 years with the U.S. Air Force in World War II and Martha had taught school.

The Farris' made Floydada their home and Kinder pursued farming and ranching as an occupation.

Kinder's father, John N. Farris was an original stockholder of the First National Bank when it received its charter on November 27, 1903. In January, 1911 John Farris was elected president of the bank and held that position until his death in December of 1918.

Kinder's mother, Lora Rucker Farris was elected a director in 1919, secretary of the board in 1920 and vice president of the bank in 1923 (serving as vice president through the lean depression years). In January, 1943, Mrs. Farris

## County voter turnout is good in Saturday's municipal elections

Voter turnout at the May 7 Municipal Election for Floydada City Council was average according to city election officials who report a total of 751 voters in the election at the final tally. Floydada's District 1 chose Albert Hill as their representative on City Council. Hill received 78 votes. Don Green got 23 votes and Adolfo Garcia received 39. District 4 incumbent Wayne Tipton drew 151 votes to retain his unopposed seat on the council. Elected to the two At-Large positions were incumbents Clar Schacht and Eric Cornelius. Schacht earned 493 votes and Cornelius got 520 votes. Challenger Joe Ysasaga got 135 votes and Jack Ochoa received 201 votes.

Floydada Independent School District voters re-elected incumbent Steve Lloyd in Precinct 1 with 169 votes. Opponent Randy Beedy received 94 votes. Incumbent Trena Simpson, the only candidate in Precinct 2, received 138 votes. The total number of voters casting ballots in the school district election were 401.

Elected to the two seats on the Caprock Hospital District Board of Directors were newcomers Rob Heflin and J. R. Turner. Heflin garnered 397 votes and Turner got 386. Incumbent Kenneth Pitts received 304 votes and challenger Joseph Stepp got 121 votes. A total of 715 people voted in the elec-

tion between the early voting and the Saturday balloting.

City of Lockney voter turnout was relatively low. City officials report 106 voters in the election. District 1 voters elected challenger Richard Zavala with 30 votes while incumbent Terry Jones received 5 votes. In District 2, voters, returned incumbent Gary Marr to his council seat with 33 votes and challenger Rosie Rendon received 24. J. D. Copeland, the unopposed incumbent candidate in District 3, was reelected with 14 votes.

Bernie Ford, the sole candidate for an At-Large post on the Lockney Independent School District board received 157 votes. Jesse Garza received 51 votes to claim the Precinct 1 seat on the board. Challenger Tina Graves got 21 votes. Incumbent Jim Bob Martin, unopposed in Precinct 2, was returned to his seat with 23 votes. 185 people cast votes in the May 7 school district voting.

Incumbents Claude Brown and Bill Sherman, unopposed on the ballot for two places on the board of directors for Lockney General Hospital District were returned to office with 158 and 152 votes, respectively. A total of 164 people voted in the Saturday balloting.

Taxing entities are required to canvas and certify the votes from the May 7 election during the week of May 9-13.

## Floyd County celebrating 104 years at May 28 reunion

The 65th Floyd County Old Settlers Reunion will be held Saturday, May 28, celebrating 104 years of Floyd County.

The Floyd County Museum will kick off the week-end festivities with an Open House on Friday, May 27, from 1:00 p.m. - 5:30 p.m. The museum will feature an Indian Blanket display.

Registration for Old Settlers will begin at 9:00 a.m. at the north end of the Ag building and will continue until 1:00 p.m.

The Flag Raising Ceremony by Boy Scout Troops 357 and 259 will take place in front of the courthouse at 9:30 a.m. Mayor Carthel will welcome everyone after the flag ceremony and Rev. Clark Williams will give the invocation.

Special activities throughout the day will include the arts and crafts show on the courthouse lawn, a chuckwagon demonstration and a 4th Cavalry Regiment demonstration. Call Jill Graham, 983-2470, for more information on the arts and crafts show.

The Nifty-Fifty Auto Club Show will have their antique cars on display in the 200 block of S. Main and the Texas Plains Chapter Two Cylinder Club will have their tractors on display in the 100 block of S. Main.

The famous bar-b-que lunch will start at 11:15 a.m. Tickets are \$5.00 and complimentary to "Old Settlers." If you can help with the gathering of wood for cooking, meet at Joe Jones shop on the

Matador highway, Monday, May 16, at 5:00 p.m.

The Wildflower Show will begin at the Museum at 9:00 a.m. and the Washer Pitch contest will be held in the 200 block of S. Wall at 1:00 p.m.

## Oath of office administered to new LISD board members

LOCKNEY--After the votes were canvassed on Monday night Bernie Ford and Jessie Garza were sworn in as new board members of the Lockney Independent School District. They will each serve two year terms. Retiring from the board are Eddie Teeter and Gary Mangold.

The board discussed the 20 hours of training required of new board members and how those hours are acquired. It was reported that the meetings and seminars at the state school board convention are enough to fill the requirements if they are all attended.

After the swearing in ceremony Mike Mathis made a motion to leave the officers of the board the same as the previous year. Dickie Lambert seconded the motion and it carried. Jim Bob Martin will serve as president and Paul Glasson secretary.

D'Lynn Mathis, representing the Floyd County Child Welfare Board, introduced Denise Ochoa and she told the board, "We all hear about the bad things children do and I wanted you to know about the positive things our students are doing."

"The welfare board invited the students in the area to enter a Child Abuse Logo Contest and out of several hundred entries the design entered by Denise was chosen to be made into book markers."

Phil Cotham, principal at Lockney Elementary School, presented Miss Ochoa with a framed copy of her logo which read, "Do Not Abuse Us, It Hurts Inside."

Raymond Lusk was selected as the LISD Region 17 E.S.C. Regional Advisory Committee representative for 1994-95.

On the agenda was the item to consider approving participation in the West Texas Food Service Purchasing Cooperative. Lusk explained that the service center has formed a purchasing cooperative which approximately 40 schools have joined so that food items can be bid out in quantities for better prices. He explained that it will save money and also help the schools bidding

Anyone wanting more information on the Washer Pitching contest should contact Charles Minnick at 652-3752. For more information on the Wildflower Show call Mamie Wood at 983-2608.

Clar Schacht is in charge of the beard contest which will be held in the pavilion at 10:45 a.m. Anyone wishing more information should call 983-3777.

process. He stated that the ordering process by the cafeteria will be the same.

Paul Glasson made the motion to join the cooperative and Bernie Ford made the second. All voted in favor.

Also approved was the use of the Regional Media Services. Lusk stated that the teachers made good use of the media services and that it was well worth the fee to join.

Jim Bob Martin was chosen as the

delegate to the 1994 Texas Association of School Boards (TASB) Delegate Assembly and Bernie Ford was chosen as alternate.

Lusk reviewed Policy Update #45 and the board voted their approval. A copy of the update is available in the school office and the principals offices for anyone who would like to study it.

## County reviews finances during monthly session

Floyd County Commissioners examined accounts and reports relating to county finances and authorized the payment of monthly bills at the regular session for the month of May. The court also approved one farm work contract for Martin Bradley. The request is for clearing old improvements to return land to cultivation at a site 1 mile north and 1/2 mile east of Aiken in Precinct 2.

Several budget amendments were approved to transfer funds between county accounts and \$10,000.00 was transferred to each county precinct from the Road and Bridge fund. Treasurer Glenna Orman presented her monthly report on the county finances for April.

She stated that the county began the month with \$331,038.24 in county funds and took in receipts of \$365,584.32. Disbursements totaled \$303,434.63, leaving balances totaling \$393,187.93 in county coffers as of April 30. Orman also reported certificates of deposit in the amounts of \$250,000.00 in undivided taxes, \$165,000.00 for Precinct #3 and \$40,000.00 for Precinct #4. The CD's have earned interest amounting to \$10,463.05 to date.

The commissioners reviewed and accepted the monthly reports for elected officials who collect fines and fees. The selection of an emergency management coordinator was not considered at this

time. The current coordinator is Bobby Welborn and he will remain in the appointed position.

Floydada Police Chief James Hale met with the court to present documents concerning interlocal agreements between the county, the City of Floydada and the City of Lockney for mutual assistance in the event of a natural or manmade disaster. The court will review the material and make a decision at a later date.

Judge Bill Hardin was authorized to sign a joint safekeeping agreement allowing the Federal Reserve Bank in Dallas to hold the securities safe guarding county deposits in the First National Bank of Floydada. The agreement replaces a previous agreement for the securities to be held by the First National Bank of Lubbock.

Commissioners granted a request from Eugene Beedy to cross a county road with the installation of a water line. Beedy will bear the cost of the work in Precinct 3 and must return the roadway to its original condition at the work site.

Attending the session were Judge Bill Hardin, Commissioners Connie Bearden, Floyd Jackson and George Taylor. Precinct 4 Commissioner Howard Bishop was absent. Also attending were Glenna Orman, James Hale, Amado Morales and the Hesperian-Beacon reporter.

## 'Wonder Dog' alerts to rattler

Judy Macha affectionately hugs her dog, Freckles after he was credited with warning her of a rattlesnake.

By Alice Gilroy

LOCKNEY--Judy Macha is giving her dog, Freckles, all the credit for warning her of a nearby rattlesnake and preventing her from the probable outcome of a snakebite.

According to Macha, she was measuring a wheat field 2 1/2 miles S.W. of Providence, Monday afternoon at approximately 12:00 noon. She was pushing a measuring wheel, walking fast and "not paying any attention to anything around me". Freckles, a mix breed of half Cocker Spaniel and half Springer Spaniel was bouncing along at Judy's side.

When Judy got to the other side of the field and was marking her spot she heard Freckles let out a sudden yelp. "I looked up and saw her staring down into the wheat," said Judy. "Freckles was less than 6 feet away from me. I was wondering what she had found when she started to bark and then I heard the buzzing of a rattlesnake. I couldn't see it because of the wheat but I called Freckles to me and pulled her with me to an area of the field where the hay baler had already been through. I didn't walk back to the truck through the wheat field."

Judy said it took her several hours to "quit shaking". Macha says, "This field is not anywhere near the Caprock. I will never doubt that rattlesnakes are a danger around here too. According to the Macha's, other neighbors in the area have also had encounters with rattlesnakes.

Freckles has now been affectionately named "The Wonder Dog" by Judy and her husband Ray Macha.

## BY THE WAY!

BY  
ALICE

Like everybody else I'm always at a loss of words when the community loses a citizen and friend like Kinder Farris. My heart goes out to his lovely wife Martha and all of his children.

They are drawing on the strength of each other and their love of Kinder to get them through this time. Martha has so much inner strength. One of the girls in this office said, Martha is the kind of woman that the writer of the book, "Steel Magnolia's" was trying to portray. I thought that was a perfect description of this lovely mother and wife—she is a true steel magnolia.

Martha told me that she hoped people would remember all the kindnesses of Kinder. As chairman of the board, obviously Kinder sometimes had to make some very tough and unpopular decisions, and some may have thought of his actions as unkind.

If he was ever perceived that way you sure wouldn't have known it by the amount of people who crammed into the First Christian Church to pay their respects to a man who truly deserved a great deal of respect.

I didn't matter if I'll remember about Kinder. I'll remember how he always made a point of leaving his desk to come shake my hand whenever he saw me in the bank.

It didn't matter if he had someone in his office or not—he always made a point to come and give me a cheery

greeting and a TWO HANDED and WARM handshake. His words were always encouraging and I always left smiling. I always appreciate people who leave me smiling after even a short visit.

He was an honest and sincere man who appreciated and loved people who were honest and sincere with him.

Martha said that he told her once how much he enjoyed farming because he could get on his tractor and be alone with God. Kinder told Martha that in the peace and quiet of the open fields he could talk to God one on one.

I know Martha and the Farris family will be able to find comfort in knowing that Kinder is now at perfect peace talking to God.

"Welcome to the Lubbock District's 1994 Awards Day Program," Utley said, "I am excited and honored to be able to have the opportunity to be a part of the Lubbock team and to be associated with the hard working and talented employees in this district."

"Congratulations to all of the awardees for a job well done. You and your co-workers are responsible for building the excellent reputation and respect that the Lubbock District exhib-

its statewide.

"Many faces, positions, and responsibilities have changed over the last year. However, the backbone of this organization is still in place and I look forward to my relationship with you and our combined effort of meeting the challenges that lie ahead."

"The history of the department and what you have accomplished cannot be matched by any other transportation or-

ganization. That is something to be proud of. However, my challenge to you is to find ways to improve the way we do our jobs to make us the best Department of Transportation that we can be."

"Remember, your opinions and recommendations are important to me. So, open up those lines of communication, get back to work, and help us make the Lubbock District the best team in the State."

## Board continues plans for 1994 county fair

Floyd County Fair Board met Thursday, May 5, at D&J Gin. Many things were discussed and plans are being made and finalized for the 1994 Floyd County Fair.

The board decided to meet on May 21, to clean the highway they have adopted. Anyone interested in helping can meet at the Tye Co. at 9:00am Saturday morning.

Many fundraisers were discussed and a garage sale was decided upon. Any-

one interested in donating items can call Shawnda Foster at 652-3501 or Kim Teeter at 652-2706. The board members will pick up any items donated.

The board also decided to lease the entertainment building to interested individuals. There is a \$50 a day fee for nonprofit organizations and a \$75 a day fee for profit organizations with a \$250 deposit. All leasing is subject to board approval.

The next board meeting will be June 2, at 7:00 p.m. at D&J Gin.

## Lockney Police Report

On Tuesday, May 3 Lockney police took a theft report from a resident living in the 300 block of East Willow Street. A 12 speed Huffly bicycle was stolen from a shed in the back yard. On May 8 the bicycle was returned to the shed.

The police department would like to remind everyone to engrave their drivers license number on their bicycles. At this time of year a surge in thefts is experienced and stolen property that is recovered cannot be returned to the owner unless proof of ownership can be proven.

The Lockney Police Department took a report of a broken car window from the vehicle owner. The 1989 Jeep Cherokee was parked at the Lockney Care Center and sometime between 7:30 a.m. and 11:15 a.m. Someone apparently shot out the windows with a pellet or BB gun.

Residents are reminded that it is unlawful to shoot a BB or pellet gun inside the city limits of Lockney. The police request anyone seeing anyone shooting a BB or pellet gun inside the city limits to call the police department immediately. Persons found guilty can be fined up to \$200.

On May 9 Lockney police took a report of the burglary of a building. Sometime between April 29 and May 4 someone entered the cafe at 114 North Main and stole two cafe tables, 14 chairs

and miscellaneous restaurant equipment.

On May 9 Lockney police investigated the burglary of a habitation in the 300 block of West Houston. Sometime between April 24 and April 29 someone entered the residence and stole a gold and diamond wedding ring set and a mans matching wedding band. Also reported stolen was a Sony (Walkman type) cassette player and radio combination.

If you have any information regarding any of the above cases you are asked to contact Lennie or Jerry at the Lockney Police Department.

# FISD approves election results

FLOYDADA — FISD board members selected a canvassing committee consisting of Assistant Superintendent Jimmie Collins and board members John Campbell and Don Hardy to review the results of the May 7 election. Following their review, the board accepted the results of the election and certified the election as complete. The action was taken during the May regular session of the board.

Re-elected board members Steve Lloyd and Trena Simpson each signed the statement for elected officials and were sworn in by Floyd County Judge Bill Hardin on Tuesday evening, May 9. The election of officers for the coming year was then held with no change in personnel. Charlene Brown will again be president of the board with Steve Lloyd as vice president and Trena Simpson as secretary.

Bids for the proposed paving of a parking lot at Floydada High School were opened and read. Four bids were submitted, giving base and alternate bids. High Plains Pavers of Plainview bid \$23,700.00 for the base bid which calls for asphalt concrete paving and curb and gutter. The alternate bid was \$20,810.00 for three course penetration pavement without curb and gutter.

Jar-Con (Jarnigan Construction of Lubbock) bid \$24,800.00 and \$19,840.00. Jordan Paving (Appian of Hereford and Jordan of Irving) bid \$31,186.00 and \$28,500.00. Lone Star Construction of Amarillo bid \$48,280.00 and made no alternate bid.

The board accepted the low base bid by High Plains Pavers. The work is slated to begin after school is out this May and should be completed in 30 consecutive calendar days.

The single bid received on the proposed purchase of a school activities bus was opened and accepted by the board. The bid from Bridges-Hemphill of Dallas offered four options ranging from \$66,473.00 to \$77,461.00 and the board voted unanimously to purchase the least expensive package offered. The bus approved will be a 72 passenger front engine model T-2000 from Bluebird with a 190 horse power motor. The board requested that the bus be painted white with green trim and that the overhead luggage racks be deleted (with an accompanying deduction of \$520.00 from the purchase price). The seats which come in the bus as standard equipment will be switched out for the seats on the current Whirlwind bus.

Scott Greenway, a fourth grade teacher at R. C. Andrews Elementary School and the spokesperson for the campus Improvement Committee, presented the school's proposed budget for the coming year and addressed proposals for correcting deficiencies cited by state accreditation authorities. The committee recommended the employment of an additional fourth grade and fifth grade teacher to allow the school to reduce the teacher/pupil ratio to increase teacher effectiveness and student performance concerning the academic excellence indicator system determining school status for accreditation.

According to the report accompanying the budget proposal, Andrews has been found to have unacceptable student performance based on the fact that 20 percent or fewer of the students in at least one of the student populations (African-American, Hispanic, White, or economically disadvantaged) passed all TAAAS tests taken. The report went on

to say that should the performance level of any group remain at or below the 20 percent passing level for any population, the campus will be designated as "low performing" at that time.

Factors Greenway said influenced the requests included the mandated mainstreaming of special education students. He said that these students would now be required to spend no more than 50 percent of their time in special education classrooms. The remainder of their school day will be spent in classrooms with the other student body and would mean less time and attention to devote to the general students.

The overall budget request for day to day operation of R. C. Andrews Elementary School totaled \$43,050.00 and is a basic list of supplies and materials needed to function throughout the 1994-95 school year. It does not include capitol improvements nor salaries. Capital improvements the school requested included lockers for the 6th grade (\$9,300.00), blacktop for playground areas (\$2,830.00) and additional playground equipment (\$5,000.00). No board action was taken on the requests at this time.

Board member Campbell discussed with the board his views concerning board policy for early graduation and honor graduates. Campbell stated that he had voted to approve the policy which allows early (three year) graduates to be awarded honor status, based on a wish to be fair to 1994 graduates who might be effected. He told the board that he would not have voted in favor of the policy if the vote had been taken prior to the beginning of the school year since he felt it was unfair to students who worked all four years to achieve honor status and might be forced out by a student who was graduating in three years. No board action was requested by Campbell and none was discussed.

Other actions at the meeting included: ... Board members authorized the payment of monthly bills.

... Minutes from the previous board meeting were read and approved as presented.

... Collins presented the tax report stating that \$1,401,489.36 had been collected, representing 95.75 percent of the current tax roll.

... The board voted to approve TASB Policy Update 45 on a motion by Lloyd, seconded by Hardy and passed unanimously.

... Joining the Region 17 Co-op for purchasing cafeteria supplies was also approved by the board on a motion by Lloyd, seconded by Billy Joe Villarreal. This will be the third year of participation in the co-op in order to secure more economical prices on food supplies.

... Resignations were accepted from Billie Peden (high school home economics teacher), Connie Bertrand (speech and theater arts teacher at high school), Debra Lloyd (home economics teacher at high school), Jimmy Burleson (coach), Joy Whitaker (special education trainable teacher at Andrews Elementary), Deanna Logan (earth sciences teacher at junior high), and Criselda Alaniz (special education teacher assistant at junior high). Dick Van Hoose was approved for employment as the principal for the alternative school due to begin operation in the fall. Motion for the action came from Mitch Probasco, with a second by Campbell.

... Superintendent Jerry Cannon reported that the school district is to be a recipient of a \$30,000.00 energy grant and that the alternative school cooperative is applying for a \$150,000.00 grant to offset the cost of it's operation.

... Collins reported that information concerning asbestos removal and bids for the work would be available at the next meeting.

## Plans begin for Old Settlers Day Wildflower show

Seven divisions have been announced for the annual Wildflower Show during the Floyd County Old Settlers celebration in Floydada. According to chair person Mamie Woods, the divisions will remain the same as they have been in the past.

Division I is for Miniature arrangements. Division II is for arrangements in Unusual Containers. Division III is for the Antique displays.

Division IV will be for arrangements entered by men and Division V will display arrangements by the youth. Number VI will be for all miscellaneous arrangements. The final division, VII, will be for Old Fashioned arrangements.

Entries should be taken to the Floyd County Historical Museum between the hours of 9:00 and 11:00 a.m. on Saturday, May 28. Judging will begin at 11:00 a.m. and the show will open to the public at 1:00 p.m. the afternoon of Old Settlers.

The competition is open to everyone and all are encouraged to participate.

## Il Penseroso Study Club holds Auction Night

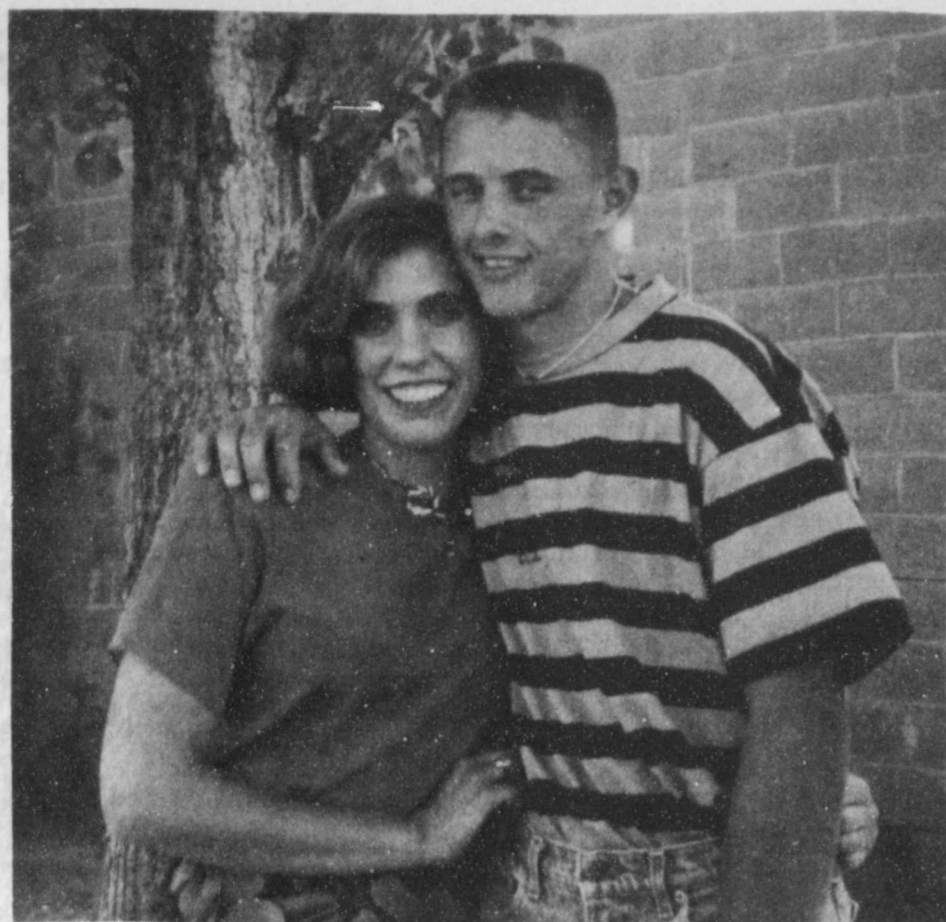

LOCKNEY—Il Penseroso Jr. Study Club met on Thursday, April 28, in the home of Michelle Stennett.

Members and guests enjoyed a potluck meal. Hostess Michelle Stennett served refreshments for everyone.

The meeting was auction night. Club members all brought an item for the auction. It is a money raiser for the club. The auctioneers were Bill Turner, Sam Fortenberry and Jimmy Kemp. Items that were in the auction included: homemade pies, ceramics, silk flower arrangements, cross stitch picture, glass bottle, picture frame.

After the auction, the club members elected new members for next year.

Members present were: Alice Carthel, Char Dowell, Rise Ford, Shawnda Foster, Pam Fulton, Diane Lowe, Regina Orr, Codee Owens, Ruth Reed, Lori Satterwhite, Patricia Schwab, Sammie Setliff, Robin Sherman, Victory Stewart, Michelle Stennett, Heather Stowe, Kim Teeter, Jean Anne Williams, Tami Wofford and Robin Zalman. Guests were Charlotte Brock, Holly Norwood, Jackie Lou Holt and Lori Caballero.

CASSIDY LAINE MALLET and ANDY RAY STAPP

## Mallett and Stapp

Mr. and Mrs. Mike Mallett announce the engagement and approaching marriage of their daughter, Cassidy Laine, to Andy Ray Stapp, son of Mr. and Mrs. Rodger Stapp of Lockney.

The couple plans a June 25 wedding at the Main Street Church of Christ in Lockney.

The bride-elect is a candidate for May graduation from Lampasas High School. The groom-to-be is a 1993 graduate of Lockney High School and is currently serving in the U.S. Marine Corps. He is stationed at Camp Pendleton, California, where the couple plans to make their home.

## American Heart Association's facts about stroke

Stroke is the third leading killer of Americans, but there is hope. New drugs are reducing the damage from stroke. New rehabilitation procedures help patients regain lost skills, and new surgical procedures can remove the build-up of plaque in the artery of the neck, restoring the blood flow to the brain. Increased research may lead to newer and better detection and treatment methods for stroke.

In 1994 the American Heart Association is increasing its efforts to help Americans recognize the warning signs of stroke. In addition, AHA educational materials cite lifestyle changes which may affect the risk of stroke. Last year, in an effort to further expand its mission to reduce disability and death from heart disease and stroke, the American Heart Association assumed the responsibility for activities previously conducted by the Courage Stroke Network. It is involved in more than 850 stroke groups nationwide.

Some additional facts about stroke: Stroke is a form of cardiovascular disease affecting the arteries or veins of the central nervous system. A stroke interrupts the flow of blood supplying oxy-

gen and nutrients to the brain, it can occur when a blood vessel to the brain either bursts or is clogged with a blood clot. More than 3,000,000 living Americans have had a stroke.

Warning signs of stroke include: sudden weakness or numbness of the face, arm or leg on one side of the body, sudden dimness or loss of vision, loss of speech or trouble talking or understanding speech, sudden severe headaches with no apparent cause, unexplained dizziness, unsteadiness or sudden falls.

Approximately 10% of strokes are preceded by "temporary strokes" (transient ischemic attacks or TIAs). A TIA has many of the same symptoms of a stroke but lasts a short time (24 hours or less). TIAs should not be ignored; they may signal a problem leading to a disabling or fatal stroke.

Some risk factors for stroke are inherited. Others are a function of aging. Others result from lifestyle habits that can be changed by the help of a physician. The risk factors that cannot be changed are: age, heredity, male gender, race, diabetes, or prior stroke.

Major risk factors for stroke that may decrease with treatment or lifestyle

changes are: high blood pressure, heart disease, transient ischemic attacks (TIAs), cigarette smoking and high red blood cell count.

Other controllable risk factors that indirectly increase stroke risk are: physical inactivity, elevated blood cholesterol, excessive alcohol intake, and obesity.

Facts about stroke recovery: stroke death rates have declined steadily since 1968, many people make a good recovery and led productive lives, early rehabilitation improves recovery.

## NSDAR members view "Dresses of First Ladies"

FLOYDADA—Buffalo Grass Chapter NSDAR met April 26 at Lighthouse Electric. Nancy Marble, Regent, presided. After the opening, Vera Jo Bybee, program leader, presented a film "Dresses of Our First Ladies." This portrayed dresses of first ladies from Martha Washington to Barbara Bush.

### TULIA 13, FLOYDADA 2

**FLOYDADA**—The Tulia Hornets capitalized on seven Floydada errors, which resulted in four unearned Hornet runs, and defeated the Whirlwinds 13-2 at Tulia on May 5. The game was terminated at the end of five innings due to the U.L.L. 10-run rule.

Freshman Monty Anderson led Floydada's hitting with a 3-for-3 performance, including a double, and scored a run. Anderson also gave up two base hits and two runs while pitching 1 2/3 innings of relief. Angel Aleman, also a first-year player, was the pitcher of record as he lost for the sixth time of the year against two victories.

Coach Jimmy Webster stated, "It wasn't a good game for us... we made more errors than we got hits (7 errors, 6 hits). We didn't catch pop-ups, field routine grounders, catch throws, hit, or run bases. When you don't do those things, you're not going to win."

The coach added, "Anderson competed real well today. He doesn't like to get beat... we need more people with the fire that he has. Win or lose, he's going to compete. That's all I've ever asked of them."

### DIMMITT 5, FLOYDADA 4

Dimmitt pushed across a run in the top of the eighth inning to spoil a Floydada come-from-behind rally and squeaked by the Whirlwinds 5-4 in an extra-inning District 2-3A contest at Wester Field on May 7. The Bobcats improved to 13-11 for the year (6-3 in district play) while Floydada fell to 7-17 overall and 1-7 in loop action.

Following a first-inning run by the visitors, the Whirlwind defense held Dimmitt scoreless until the fifth inning. The Whirlwinds tied the score at 1-all in the bottom of the fourth. Aided by three costly Floydada errors, the visitors responded with 3 runs in the fifth. The Whirlwinds scored once in the bottom of the fifth and added two runs in the home half of the sixth to knot the score at 4-all. Neither team scored in the seventh inning, setting up the extra-inning finale.

According to Floydada coach Jimmy Webster, "I think we competed much better today, but we still made far too many errors. We had one big defensive breakdown that hurt a little bit. Besides that, our defense wasn't bad."

The Whirlwinds turned four double plays, including one made possible by an exceptional play from Floydada freshman Tomas Barrientos in the top of the seventh inning. Barrientos caught an ankle-high line drive from his third base position, turned and made an off-balance throw to Hinkle at second base to double-up the Bobcat runner. It was a play that could have easily been a game-highlight on TV.

Floydada freshman Monty Anderson pitched the complete game and, according to Coach Webster, "Threw well enough to win." Webster added, "He (Anderson) hasn't been used too much, but Angel (Aleman) threw Saturday and still had a tender arm. Monty was sort of thrown in there to do his best, and he rose to the occasion." Anderson struck out three and issued three walks while giving up four earned runs as he registered his second loss of the season.

Coach Webster noted, "We really didn't hit very well... Monty hit the ball hard, and Ken (Cummings) got a couple of really big RBI hits. We gave ourselves a chance to win, but we just couldn't do it."

### BILL'S NOTES

The Whirlwinds still haven't quite got to the point of being able to capitalize on an opponent's mistakes and take the game at "crunch time," but that is to be expected from such a young team.

Most of these youngsters are still in a learning process, and the important decisions do not yet come automatically. However, the hard job of building a baseball program from scratch is starting to pay off. Those of us who have followed Jimmy's teams from the start are seeing more and more of it at every outing.

Time and patience are of utmost importance... both from the youngsters' standpoint as well as the coaches. Sure, everyone wants to win right now, but it doesn't happen overnight. Those who stick with it will reap the rewards in due time. You can count on it!

### LOCKNEY 7, ABERNATHY 0

Lockney's varsity baseball team was able to claim a clean sweep victory over their Abernathy opponents on May 3. The Longhorns outscored the Antelopes 7-0. Coach Norwood said, "Leo Vargas improved to 8-2 by holding Abernathy to 4 hits and struck out 12 Abernathy hitters. Jared Mosley was 2-4 with 4 RBI's and a two run home run and Vargas was 1-2 with 2 RBI's and a two run home run."

Lockney steamed over the Hale Center team on May 6, emerging from the fray with a 22-0 victory on the home field. According to Coach Norwood, "Carlos Perales pitched 4 2/3 innings of no-hit baseball. He lost the no-hitter in the top of the 5th, giving up one hit and striking out six."

"Everybody was a hitter. Nino Garcia was 3-3 with 3 RBI's and Vargas was 3-4 with 2 RBI's. Chris Ochoa also went 3-4 with 2 RBI's and Mosley was 2-3 with 3 RBI's."

# Oath taken by new LISD board members

Continued From Page 1

Two bids were opened on the 1989 ag pickup. Ramon Ortegon bid \$2500 and James Poole bid \$6000. The bid made by James Poole was accepted.

A list of transfer requests was presented to the board members and after being reviewed the list was accepted.

Approval was made on the sale of Lot 5 and the north 1/2 of Lot 6 to Olga Rodriguez. The bid request on the tax sale was made by the City of Lockney who is the managing entity. Rodriguez bid \$2,200 for the property.

A request for a sprinkler system for the baseball field has been made and the board agreed to gather information on what it will cost. Baseball coach David Norwood said that the present system would not cover the field and that they were spending a lot of time carrying pipe to water the outfield. The City of Lockney has agreed to pay \$2,000 toward the purchase of the materials and several individuals have offered to donate their time to install the pipe. The baseball field is owned by the city but the school takes care of the maintenance.

A discussion was held on building improvements and building projects and it was reported that several classrooms will be renovated this summer. Also discussed was the moving of the high school library into the old gym and making much needed classrooms from the present library space.

James Poole reviewed the results of the 10th grade Exit Level TAAS test. He told the board that the school had received a letter stating that an improvement plan to upgrade the percent of students passing the exam had to be implemented. "Our teachers have really made an effort to help the students and we are very pleased. We have made good gains in all areas," he stated.

Of the 10th grade test 67% have met the expectations on all tests taken. This is up from the 35% in 1992 and 42% in 1993. Only 7% did not meet the expectations on one test; 20% on two tests and 7% on all three. This was down from 25% on one test, 23% on two tests and 10% on all three tests in 1993.

In Writing 85% met the minimum expectations which was up from 74% in 1992 and 79% in 1993.

In Reading 76% met minimum expectations; up from 57% in 1992 and 56% in 1993. 50% master all objectives.

In Math 74% met the minimum expectations. This was up from 39% in 1992 and 59% in 1993; 28% mastered all objectives.

Group performance ratings given were:

White - 95%; up from 64% in 1992 and 75% in 1993.

Hispanic - 43%; up from 26% in 1992 and 31% in 1993.

Economically Disadvantaged - 38%; up from 25% in 1992 and 20% in 1993.

Not Econ. Disadv. - 83%; up from 45% in 1992 and 59% in 1993.

Chapter 1 - 46%; up from 6% in 1992 and 27% in 1993.

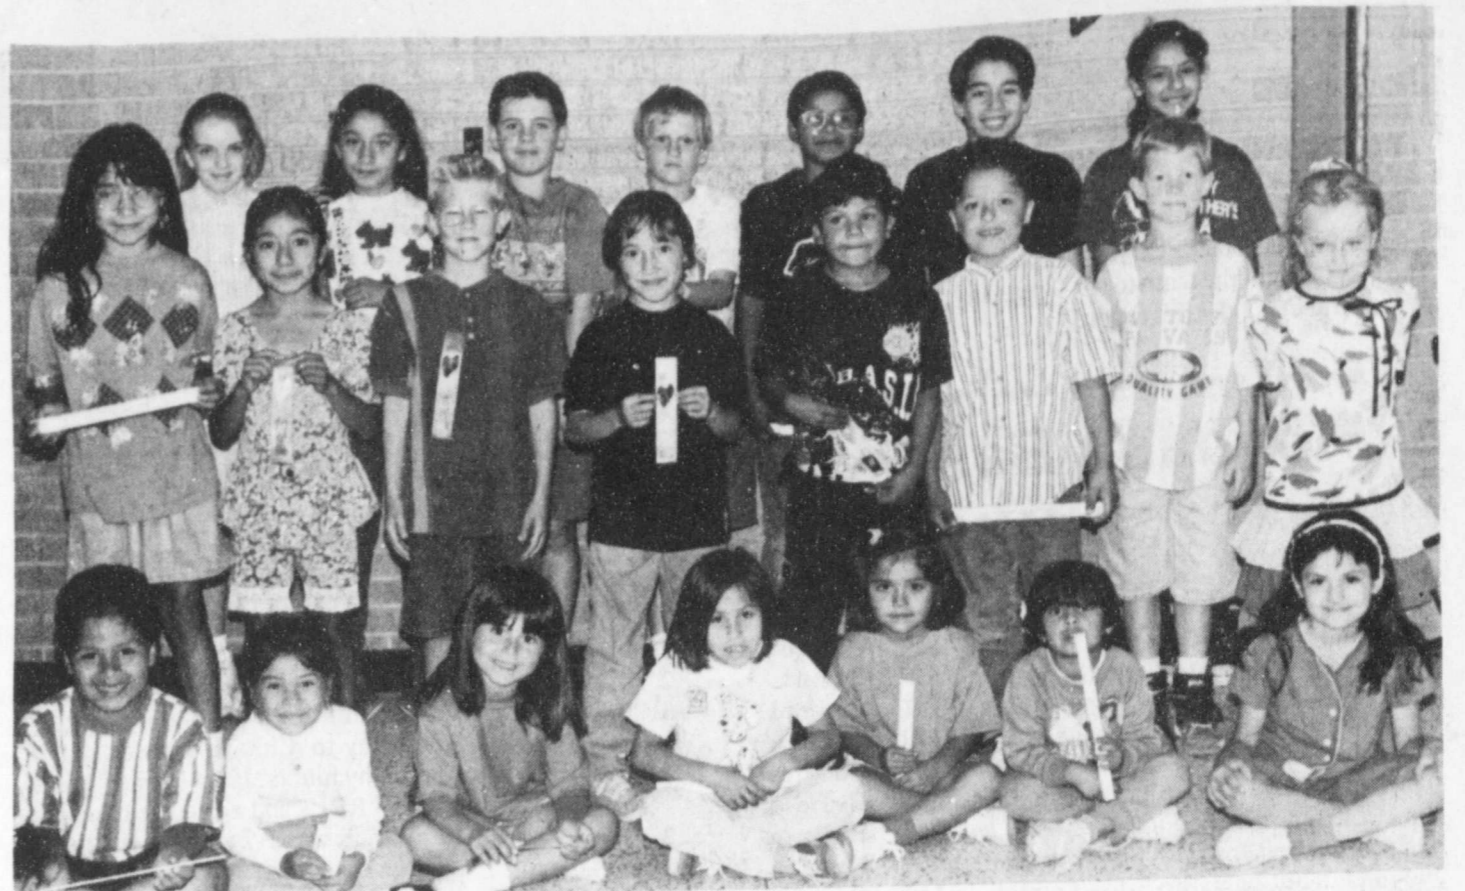

Not Chapt. 1 - 100%; up from 52% in 1992 and 67% in 1993.

Poole stated, "The teachers have put in a tremendous amount of time working with the students and they deserve a pat on the back. We appreciate the help they are giving the students."

In regular business before the board the minutes of the previous meeting were read and approved, bills were reviewed and approved for payment and the financial report was made.

## McCready presented with business award

Wayland Baptist University's Mu Theta Chapter of Phi Beta Lambda (PBL) business fraternity captured several individual and group honors during the State Leadership Conference recently in Waxahachie.

Linda McCready, a sophomore office technology major, competed in Accounting I and received recognition for applying for the Texas Spur-Who's Who for PBL. She is the daughter of Don McCready and Mrs. Mary Segrest.

The conference, hosted by Southwestern Assemblies of God, provides PBL members an opportunity to network and compete with students from other colleges and universities. Members may also run for state organizational offices. Kevin Keeling, director of information services at Wayland, directed the conference as state PBL chairman.

**LAB PALS RECOGNIZED**--Recognized at Lockney Elementary School this week were (l) Kami Kay Wilson for her Perfect Paper and Julia Robles (r) as Lab Pal of the Week. Staff Photo

**LISD BOARD MEMBERS**--School board members for the Lockney School District are (l-r) Dan Smith, Dickie Lambert, Bernie Ford, Jessie Garza, Jim Bob Martin, Paul Glasson and Mike Mathis. New members on the board are Jessie Garza and Bernie Ford. Staff Photo

### TOP TEN REASONS FOR USING BEST-FLEX POLY TUBING

All rolls are 1320 ft. long (1/4 mile)  
Available in these sizes and capacities.

- 9" x 7 ml = 450 GPM
- 10" x 10 ml = 500 GPM
- 12" x 7 ml = 900 GPM
- 15" x 7 ml = 1350 GPM

Our 2 ply poly tubing is guaranteed against factory defects and has a one year seasonal warranty.

Best-Flex Irrigation poly-tubing is a low pressure form of irrigation. You can use it anywhere you have used a ditch. You will find that you will be able to irrigate sometimes twice as fast as you could with your ditch, because there is no water loss due to evaporation and seepage.

## Radio pioneer Alma Holmes dies

Alma N. Holmes, well-known Floyd County radio pioneer and known to her numerous family and friends as "Granny Girl," died on Tuesday, May 10, 1994, in Carrollton, Texas, after suffering a stroke on Mother's Day, May 9, 1994. She was 86.

Services will be held at 2:00 p.m. Friday, May 13, at the City Park Church of Christ in Floydada. Arrangements are being handled by Moore-Rose-White Funeral Home in Floydada. Art Smith, nephew of Mrs. Holmes, and Gene McCarty, minister of City Park Church of Christ, will officiate.

She was born Alma Naomi Smith on May 30, 1907, in the Sand Hill Community of Floyd County. She was married to Ed Holmes on January 5, 1929, in Plainview. Ed and Alma and their family were featured weekly on a long-running program on KVOP Radio in Plainview from 1944 to 1951, called "A

Farmer's Life As He Lives It." In 1951, along with partners Marshall Forby and B.A. Robertson, they owned the first radio station in Floyd County, KFLD, "Voice of the Caprock." After Ed's death in 1954, Alma was owner, manager and announcer at KFLD until 1972. Her daily program, "Listen Ladies" aired for 18 years.

Mrs. Holmes wrote about the first day the radio station went on the air. "Friday, April 13, 1951, was a great day for the Ed Holmes family," said Alma Holmes. "That was the day KFLD, Floydada's first radio station went on the air. KFLD was a 250 watt station, located in the middle of the dial at 900. We were on the air from sun-up to sundown. The 'F' in our call letters stood for Floydada, the 'L' stood for Lockney....We hoped to make our station truly a Floyd County and regional organization."

She was also a well known historian and author. Materials published included: "Della Plain, The Beginning Settlement," "Favorite Stories of Floyd County," "The Lockney Christian College", and numerous articles in The Floyd County Hesperian.

She was instrumental in the founding of the Floyd County Historical Museum and was one of the first women to serve on various boards such as Floyd County Fair Board, American Cancer Society and Floydada Chamber of Commerce. She was voted Floydada's Woman of the Year in 1959 and Citizen of the Year in 1963. She served on the Floyd County

Association for Lubbock Christian College, which got furniture for the girl's dorms.

She was very active in the Democratic Party and served as a delegate. She was very interested in politics until the time of her death. She was a member of the Church of Christ and was baptized when she was 11 years old.

Her father, Charley Walker Smith, was a Floyd County pioneer and Church of Christ preacher. Her mother, Emma Annie Mickey Smith, died when Alma was two years old.

Mrs. Holmes is survived by five children and their spouses, Chuck and Betty Holmes of Floydada, Dorothy and Walt McGinnis of Carefree, Ariz., Buena and Lloyd Wilson of Alvarado, Sara and Rodney Teague of Carrollton, and Nancy and Sam Golden of Fredricksburg; 14 grandchildren and 12 great-grandchildren. She is also survived by one brother, Milton Smith of Mountainair, N.M., and one sister, Alice Smith of Amarillo. She made her home with her son-in-law and daughter, Rodney and Sara Teague of Carrollton.

Memorials should be made to the Floyd County Historical Museum.

As so many of my friends and neighbors know, Philip Wilbanks and I were married in March of this year. Philip is the agent for Farmers Insurance in Floydada and now I have decided to assist him with the business.

Almost seven years ago, I was blessed with the opportunity to be the Activities Director at the Floydada Nursing Home. I cannot express my feelings for the residents I have worked with and the families who have been so encouraging over the years. I also cannot give enough thanks for the many volunteers who gave so unselfishly of their time, talent, and goodness of heart in helping me to bring some measure of joy to the nursing home residents. My last day with the Floydada Nursing Home will be May 17th. Again, Thanks to all and God bless.

## SIDER'S SIDELINES

### Good time to control prairie dogs

By Kerry Siders, CEA-Ag.  
I was visiting with Ronnie Smith, specialist with the Animal Damage Control Service, on controlling pigeons under the pavilion on the courthouse square, when I was also thinking about the several calls on controlling prairie dogs. Well, I'm not exactly sure what will happen on the pigeons, but as far as controlling the prairie dogs that is pretty well cut and dry.  
Since we do have some soil moisture, now is an excellent time to control these critters. Phostoxin tablets are the weapon of choice. These tablets are available at Coops, farm stores and other businesses. Ron says the larger tablets work best. It takes from 2-4 tablets per hole dropped down as far as possible, using a 2-3 inch PVC pipe about 3 feet long will help inject it further down.  
The holes should be covered with soil and packed to seal it. Some use newspaper, prickly pear pads, broken cinder block pieces, cow patties, etc. first to stuff the hole then fill with soil. The cement block and prickly pear pads will

also help in keeping the prairie dogs from digging back out. The cans of phostoxin run about \$36-\$40 and can treat around 10 acres. So there is a cost of about \$4.00 per acre to control these pests depending on infestation.

I know several people have commented that they have used this method and it did not work. Well, it will work when done correctly and systematically. As large an area as possible must be treated in one day and continue to treat until the whole town is complete. It is important to continue to go back and retreat those holes that were broken in or out of and also to treat those missed.

Another important point here that Ron made is that those treating these areas should have good insect repellent on because of health concerns with fleas and ticks that are found in conjunction with prairie dogs.

Phostoxin is a restricted use pesticide and an applicators license is required for purchase. For more information, call the Floyd County office of the Texas Agricultural Extension Service.

## Sorghum growers fight to keep granular carbofuran

--From National Grain Sorghum Producers

Sorghum growers, angry over the Environmental Protection Agency's proposed ban on granular carbofuran, an important insecticide used in sorghum production, have taken their story to Washington and they are gaining support in their fight against the ban. Senator Bob Kerrey of Nebraska recently pushed EPA Administrator Carol Browner for a reasonable explanation as to why EPA wants to ban the pesticide.

Kerrey challenged the EPA proposal during a recent hearing on the agency's budget before the Senate Appropriations Subcommittee on VA-HUD-Independent Agencies, of which Kerrey is a member. Kerrey pointed out that EPA wants to ban granular carbofuran because of its toxicity to birds when EPA's own records show only one bird kill which happened in Texas--from granular carbofuran use on sorghum in the past 20 years. He said that other reported bird kills have been documented as being caused by misuse or illegal acts, such

as baiting for predator control.

EPA's own figures show the loss of granular carbofuran could result in a 25 percent reduction in sorghum yields, Kerrey said. In addition, the alternative pesticide which farmers would have to use is a flowable product which poses much more risk of contamination to clothing and equipment than does the granular product. He asked Browner how to explain to a producer from his state that he must take a big reduction in yield to save one bird while putting himself more at risk.

"There are 87,000 square miles in the state of Nebraska and not a single bird to my knowledge has been killed from normal agricultural practices in the past 20 years, and my farmers are being told they can't use the product in a form that prevents a 25 percent decline in their yields but they can use it as a liquid that might present a greater risk to them as pesticide applicators," Kerrey said.

Kerrey asked Browner why human beings should be put at risk with the regulatory change if common-sense evidence shows no bird-kills from normal agricultural use of the product. Browner's answer was that the issue was a complicated science issue. "With all due respect, I think they're simple issues," Kerrey responded, adding that it would be difficult to explain the proposed ban to the public.

Kerrey said that the decision to ban the product was based only on the product's toxicity rather than the actual impact on bird populations. "If you use this stance and this measure and this method of calculating whether to do bans," he told Browner, "I think you're going to tilt in particular toward bans."  
Written comments on the proposed ban will be accepted by EPA until July 12, 1994. Comments should be identified with the document control number (OPP--30000/48E) and should be addressed to OPP Docket, Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M ST. S.W., Washington, DC 20460.

ing adequate ventilation and working upwind of the pesticide. If the label calls for a respirator, a good-fitting one with the correct filter type should be used. A mechanical filter, such as a dust mask, will not take the place of a cartridge type respirator. Change filters twice a day and whenever breathing becomes difficult. Change cartridges after 8 hours of actual use or whenever any pesticide odor is detected.

Pesticides may enter the mouth through wiping one's face on an exposed sleeve, cuff, or hand, or by accidental splashing, or trying to clear clogged nozzle tips by blowing on them. Risk from splashing can be reduced by wearing a face shield to protect the eyes, nose, and mouth. Also, one should be mindful not to use tobacco products until he has thoroughly washed any pesticide residues from the hands and face.

Do not mix chemicals unless specified by label directions. Always store pesticides in the original container with a legible label. Store pesticides in an area meeting the storage requirements on the label, and dispose of empty containers according to label directions.

## Silver Spurs practice judging

By Amy Davis  
The Silver Spurs 4-H Horse Club met at Tyler Phillip's home on April 4, 1994. Club members practiced method demonstrations and horse judging. Tyler Phillips and Amy Davis showed the skills they learned at a recent horse clinic they attended and each member took turns naming the parts of the horse.

The horse vaccination clinic was held at Dr. Paul Glasson's office on April 21. A total of 57 vaccinations were sold to area horse owners to prevent tetanus and sleeping sickness.  
The Silver Spurs would like to thank

all those who participated: Jim Durham, David Patterson, Bill Davis, Ann Jones, Laura Lotz, Kyle Brock, Robert Delgado, Ron Shatley, Sam Fortenberry, Mack Sherman, Keith Phillips, Floyd Jackson and Danny Lambert. A special thanks goes to Dr. Glasson for working with us on this special event.

The project met again on May 2 at Amy Davis' home and learned how to saddle and mount a horse. Tyler Phillips gave a method demonstration on Lyme Disease in horses. Debbie Shatley instructed the group on how to judge the profile and balance in halter horses.

The next meeting will be June 6 in Floydada.

## Tips given on safe use of pesticides

By David Kostroun  
Extension Agent-Entomology (PM)  
Crosby/Floyd Counties

During the spring and summer months, pesticides are used more frequently by agricultural producers and homeowners alike. Pesticides include chemicals such as insecticides, herbicides, and fungicides. Although cultural control, use of resistant varieties, and other methods are used to help control pests, chemical control is still our best

line of defense in the event of a pest outbreak. Misuse of pesticides causes problems not only for the applicator, but for others as well. The elements of pesticide safety include purchase of the proper chemical, proper handling, use, storage, disposal, and recognition of environmental situations.

The primary source of information for use of a pesticide is the product label. The label is the end product of research development, and the federal and state registration process. The label provides such information as directions for use, specific uses, the specific pests controlled by the product, environmental hazards, hazards to humans and domestic animals, precautionary statements, and storage and disposal instructions.

Pesticide users should always read the label carefully and completely before using a product. One should not rely on memory when using a product. One should not rely on memory when using a familiar product.

Pesticides may enter the body through the skin, lungs, or mouth. Dermal exposure (through the skin) is the most likely route of exposure. Skin exposure is minimized by use of protective equipment. Minimum requirements include wearing a long sleeved shirt and full length trousers, or a cover-all type garment. A wide-brimmed hat offers some protection of the face and neck. Always wear trouser legs over boot tops to reduce the possibility of spilling liquid or dust formulations down into the boots. Unless the label states differently, unlabeled, natural rubber gloves will protect applicators from a good deal of dermal exposure, since pesticides are often spilled onto the hands and then transferred to the face or neck by wiping one's face or neck with his hand. If a spray tank is elevated, do not allow others in the immediate vicinity at ground level during mixing or loading.  
Avoid pesticide inhalation by insur-

## Smaller discounts offered for 1994 cotton grade combinations

by Shawn Wade  
With the initial comparison complete it appears the 1994 upland Cotton Schedule of Discounts and Premiums will offer generally smaller discounts for most cotton grade combinations according to Lubbock-based Plains Cotton Growers (PCG).

PCG staff members took a close look at the new loan schedule to try and determine what the differences actually were using the new schedule and information provided by the National Cotton Council economic staff. Based on these observations the general trend was toward lower discounts and higher premiums in 1994.

Notable exceptions to that trend were White grades 41 and higher, leaf 5 and 6; and, Light Spotted grades 52 and higher which showed larger discounts in leaf grades 1 to 3. Color grades 32 and 42 also provided a mixture of higher and lower discounts in leaf grades 4 and 5.

Another trend that continued in the 1994 schedule was the reduction in premiums for strength and the corresponding increase in discounts for lower strength cotton.

"In general the 1994 schedule will benefit High Plains cotton producers with lower discounts for all but a few of the highest quality combinations," says

PCG Executive Vice President Donald Johnson. "The bad news for producers, however, is that the base loan rate was pushed down as far as it could go and set at 50 cents per pound."

Johnson notes that for most producers on the High Plains the 1994 base loan rate, after adjustments for location, will only be 49.9 cents per pound.

Micronaire discounts for 1994 were left basically intact for values 3.0 through 4.9. The only exception was a 15 point increase in the discount for mike 3.3-3.4, staple 32 and shorter cotton. Mike values below 3.0 will be more heavily discounted in 1994. Mike values about 5.0 will have lower discounts on staple 32 and shorter cotton and higher discounts on cotton staple 33 and larger.

A side by side comparison of selected upland cotton quality combinations appears in the table below.
