Mitchell Says He's Innocent Of Charges

NEW YORK (AP) — Former Atty. Gen. John Mitchell said today he was "absolutely not guilty" of conspiracy, obstruction of justice or perjury.

"Are you guilty or not guilty?" asked his lawyer, Peter Fleming Jr.

"Absolutely not guilty of any of the charges," said Mitchell.

The former cabinet officer and ex-commerce Secretary Maurice Stans have been on trial in federal court for eight weeks. They are accused of trying to impede a Securities and Exchange Commission investigation of financier Robert Vesco in return for his secret \$200,000 cash contribution to President Nixon's re-election campaign.

EACH ONE READ

At the end of his direct examination of Mitchell which started last Wednesday before a long holiday weekend recess, Fleming led Mitchell through each of the six counts of perjury. After each one was read, Mitchell said that his testimony to the grand jury had been his best recollection of the facts.

Mitchell also denied that he had told ousted White House Counsel John Dean III that the grand jury which indicted him was "a runaway grand jury" and that the prosecutors who questioned him were "little bastards."

Dean had testified to that effect in an appearance as the prosecutor's witness. Mitchell said that he did not consider the grand jury "runaway" and that he had felt that the prosecutors were "polite and seductive."

The word seductive was stricken by Judge Lee Gagliardi after a prosecutor's objection.

Mitchell also denied Dean's testimony that Mitchell had tried to get him to call then Atty. Gen. Richard Kleindienst about the grand jury's action. Mitchell said he had talked to Kleindienst but only about the propriety of turning over certain of his personal records as attorney general.

UNSEEN

Mitchell also denied that he had talked to Donald Hofgren, a volunteer in the Nixon re-election campaign at a dinner in Washington on March 8, 1972. Hofgren, now an investment banker, testified at the trial that he had asked Mitchell if he had seen Vesco that day and that Mitchell had told him to "stay away" from Vesco.

Mitchell said he could not recall having seen Hofgren at all that night. Hofgren said he talked to Mitchell as he milled about in a lobby with 2,000 other people.

Mitchell said he arrived at the dinner in the Washington Hilton hotel late and practically nobody was in the lobby. He said he went directly to his table, and everybody else had done likewise.

Global Resources Program Stressed

BY HENRY KISSINGER

UNITED NATIONS, N.Y. (AP) — Secretary of State Henry A. Kissinger today outlined a six-point program aimed at a more cooperative development of the world's natural resources.

In a speech prepared for a special session of the United Nations General Assembly, the secretary said, "We meet here at a moment when the world economy is under severe stress."

Pointing to the oil crisis, shortage of food grains and increasing global inflation, Kissinger said the solution can come only through a realistic, international effort.

"The great issues of development can no longer be realistically perceived in terms of confrontation between the haves and have nots," he said.

WARNING

Any effort by the less developed nations to artificially control raw materials "will sooner or later produce the organization of the potential victims into a counterbloc," Kissinger said in a not too subtle warning.

In introducing his six points, the secretary also underlined his belief that the United Nations should avoid grandiose declarations of principles and aim for hard work instead.

"Our goal," he said, "cannot be reached by resolutions alone or prescribed by rhetoric. It must remain the subject of constant, unremitting efforts over the years and decades ahead."

The six points:

—Action must be taken to insure more equitable supply of oil and other energy products while keeping an inflationary price spiral from occurring.

For its part the United States is willing to help oil-producing nations broaden their economic base as well as sharing technology and aiding in industrialization.

—There must be an end to the cycle of raw material surplus and shortage. But a cartel of raw material producers aimed at forcing up prices "would have serious consequences for all countries," Kissinger said.

The United States proposes a cooperative effort to include "urgent international consideration of restrictions on incentives for the trade in commodities."

This means, the secretary said, that there must be equitable access to supplies of resources as well as access to markets by the producers.

BODY OF EXPERTS

To support this there should be a body of international experts working with the U.N. Divisions of Resources to determine the future supply of natural resources, he said.

—There must be a better balance between food production and population growth.

The United States will share its agricultural technology, including a raise from \$255 million to \$675 million this year to aid in boosting farming technology.

Kissinger also renewed his call for a World Food Conference.

A major objective, he went on, will be the rebuilding of food surpluses so the world can alleviate famines and other emergency shortages.

HIGH AND DRY — Man on second floor balcony of a tavern on Mobile St. in Hattiesburg, Miss., declined rescue Monday morning from a passing boat as he watched waters from record-breaking flood of Bouie and Leaf Rivers swirl around nearby buildings.

Plastic Cards Suggested For Voters In County

By JOHN EDWARDS

Ms. Zirah L. Bednar, county tax collector, asked County Commissioners Court to consider purchasing plastic permanent registration cards.

The plastic cards would replace paper registration certificates. Costing 25 cents each, the cards would be mailed to voters registered already.

Mrs. Bednar suggested meeting with the court again after she gains information of the cards in a tax conference.

John Sullivan of Resco Service and Supply submitted a letter proposing a mechanical engineer be contracted to investigate replacing the courthouse air conditioning.

COSTS INCREASE

"The equipment's been in there 23 years that I know of," Sullivan said. And he said maintenance costs seem to be increasing yearly.

The large air conditioning motor has been pulled out of its housing for repairs.

The court questioned two bills of \$131 and \$122.

"That's more packing than what seems justified," Sullivan agreed. He told the court he would investigate the bills.

No bids were received for livestock paneling or scales wanted at the fair barns. But an Odessa firm submitted prices for several different scales by phone.

LOW PRICE

Commissioner Jack Buchanan said he would see about buying the paneling where a low price was quoted in Lubbock.

A repair man suggested the court keep rather than replace

County Heists Being Probed

The Sheriff's Office is investigating burglary of the grocery store at Luther and Bob Cowley's Store in Forsan.

Sunday night, the two burglaries were reported.

Benny Garza, 20, 110 Lockhart St., was released to the Borden County Sheriff's Office, where he is wanted for burglary.

A Texas Highway Patrolman arrested Garza Saturday night on a traffic warrant and Peace Justice Walter Grice set a \$5,000 bond in connection with the burglary complaint.

printing machine used to make forms, letterheads and other items.

Purchased for \$1,473 in 1968, the machine is maintained through a \$360 yearly contract. "We're wasting an awful lot of paper on that machine," Mrs. Virginia Black, county auditor, said.

The repair man said he would work with the operators and proposed buying non-slick paper the next time. Two bids on wind sock repair at Howard County Airport were tabled.

Finnell Says Old State Charter Looking Better

"I'm glad we took a recess from reworking the constitution. The longer we stayed, the better the old constitution began to look," Charles Finnell, candidate for state senator in the 30th district, said at a coffee at the Holiday Inn here this morning.

Rep. Finnell, who is campaigning in the Democratic primary, was honored today with a coffee by a group of local supporters.

Rep. Finnell has for eight years served as a state legislator in the northern portion of the senatorial district.

During that time, he served as vice chairman of the West Texas delegation and "have developed insight into the problems of West Texas."

"I also served on the agricultural and livestock committee during those eight years and the agriculture industry is of prime importance to our district."

In discussing oil and gas problems, Finnell said, "I have the advantage of having a brother who is a petroleum engineer and he keeps me

SHOOTING VICTIM — Terry White is kissed by his mother, Bernice White, as he went into surgery at Mission Emergency Hospital in San Francisco Sunday night. White was one of two youths gunned down in what police say is the latest in a series of senseless shootings. The attack on White and a companion occurred in San Francisco's Fillmore district. Eleven persons have been killed in earlier random attacks.

Two Are Gunned Down On Coast

SAN FRANCISCO (AP) — Two teen-aged boys were shot and critically wounded Sunday night by an assailant who fled on foot, in what police indicated might be another in a series of terrorist shootings.

Sgt. Bill Petrie said that about 20 minutes later a gunman in a car shot at a pedestrian at Fourth and Howard streets, but did not hit him.

Police put out an Operation Zebra call on the shootings, the code name for the series of apparently random street shootings that have caused 11 deaths here in the last six months. Police have said that the suspect or suspects in the previous shootings were black.

The white teen-agers shot at Hayes and Fillmore streets were brought to Mission Emergency Hospital and rushed into surgery, hospital officials said.

Petrie said "apparently a .32-caliber automatic" was involved — the same type of weapon used in the Zebra killings.

The man missed by the gunman at Fourth and Howard streets told police his would-be assailant was black and that his coat pocket bore a patch with a snake symbol.

No further details were immediately available on the design.

The emblem of the terrorist Symbionese Liberation Army which has claimed responsibility for the kidnaping of newspaper heiress Patricia Hearst is a seven-headed cobra.

Police believe the Zebra killer may be responsible for an April 1 attack in which a male Salvation Army cadet was killed and a woman cadet seriously wounded.

On Jan. 28, four persons were killed and one wounded in different parts of the city during a two-hour period by what police believe were at least two gunmen in a car. Six persons were killed and two were wounded in earlier attacks between Nov. 23 and Dec. 22.

Police said in each case the gunman was black, the victim was white and there was no apparent motive.

COURT DRAGS ON Judge Told Off By Housewife

DETROIT (AP) — Helen Mueller is a shy, 102-pound housewife who said she "really felt sort of proud" when she was called for federal jury duty.

But that was before she found out what jury duty was like.

After 20 days' service over three months, she stomped into U.S. District Court here to give Judge Fred W. Kaess a good bawling out.

"If I ever get in trouble, I'll never ask for a jury trial," she told the startled judge. "I don't want to be judged by a group of angry, frustrated people."

"We were herded around like animals, from one pen to another. Nobody says welcome, or tells you what the rules are, or what your rights are or what's going on around. Most of the time you just sit, not knowing what it is you're waiting for."

"People become very resentful," Mrs. Mueller told the judge last week. "You'd be surprised how many jurors say they'll never vote again, because jurors' names are drawn from the registered voters. I think that's terrible!"

Judge Kaess agreed and said a judicial committee was working on jury system reform.

The Drayton Plains woman said that the required 20 days of jury duty can stretch into six months if a juror is never chosen for a trial. So jurors just to get on a case and get the whole thing over with, she said.

One In Four May Get Food Stamps

WASHINGTON (AP) — A congressional staff study says rising food prices over the next two years may result in making one out of every four Americans eligible for government food stamps.

This would push program costs from the current \$3 billion annually to a possible \$10 billion, according to a staff study prepared for the Senate-Economic Committee.

The study was released Sunday by Rep. Martha W. Griffiths, D-Mich., chairman of the joint committee's fiscal policy subcommittee.

"Unless food prices stabilize before July 4, 1976, an estimated 60 million Americans — more than one in four — might be eligible for food stamps at some time during the nation's bicentennial year," Mrs. Griffiths said in a statement.

The food stamp program which in recent years has been transformed into the country's only universal income supplement, in January 1974 served 13 million persons, one in every 16.

Gambling Could Be Approved For Cons

CHARLESTON, W.Va. (AP) — Donald Bordenkircher, warden of the West Virginia Penitentiary, says he is considering instituting gambling under controlled conditions at the maximum security prison.

Money from the gambling would go into the inmate benefit fund for use in purchasing items for the entire prison population.

"It takes men out of the corridors in the evenings when they have nothing to do and gives them enjoyable entertainment," the warden said in an interview Sunday.

Abolition Of 16 Agencies Sought

WASHINGTON (AP) — Sen. William Proxmire today called for abolition of the Interstate Commerce Commission, Selective Service and 14 other agencies on grounds they are useless and wasteful.

Proxmire, D-Wis., chairman of the Joint Economic subcommittee on priorities and economy in government, said that if any of the 16 are serving a useful purpose their functions can be moved to an existing agency.

"Virtually every bill passed by the Congress and signed by the president establishes some new agency, commission, board of advisory council," Proxmire said in a statement. "Once started, they take on a life of their own. They are never abolished."

LOCAL STUDENTS REPORT AT NEW TIME TUESDAY

When Big Spring Schools resume Tuesday after a week of Easter holidays, there will be a new time schedule.

Schools will begin half an hour earlier at 8:30 a.m., and by the same token, will dismiss at 3:30 p.m. instead of the previous 4 p.m.

Parents also were alerted to a new schedule for the kindergarten pupils. The morning section will attend from 8:30 a.m. to 11:45 a.m., and the afternoon section from 12:45 to 3:30 p.m.

Immaculate Heart of Mary School will take up at 8:15 a.m., the kindergarten will dismiss at 11:30 a.m., grades 1-3 at 2:45 p.m. and grades 4-6 at 3:15 p.m.

(AP WIREPHOTO)

FOR SCIENCE — It is not every day that an Agriculture Department veterinarian is called on to ride a whale. But when the Western Australian Museum wanted to know the temperature of the blue whale that became stranded at Albany in Western Australia, Mr. Gabbody, was asked to help. The 80 foot whale, estimated to weigh 80 tons was stranded in about seven feet of water. The whale's temperature was 35C at the surface. The whale would have to be destroyed with explosives. It could not be freed and would die slowly if left.

Obscenity Issue Is Again Before Court

WASHINGTON (AP) — The Supreme Court has before it new arguments on an old and solution-resistant issue: obscenity. The constitutional dust hardly has had time to settle around the court's major obscenity decisions last June. At that time, the court eased the burden of prosecutors in demonstrating to a jury that material is obscene. But Chief Justice Warren E. Burger, writing for the majority, declared that "no one will be subject to prosecution for the sale or exposure of obscene materials unless these materials depict or describe patently offensive 'hard core' sexual conduct specifically defined by the regulating state law."

NEW BOOK SAYS Aides To Nixon Pressured Agnew

WASHINGTON (AP) — A new book on Spiro T. Agnew's tax case says that while President Nixon kept voicing support for Agnew in public, White House aides eventually met privately with Agnew to demand his resignation. Nixon was particularly worried about Agnew taking the "impeachment track" by aiming his case toward the House of Representatives, according to the book, "A Heartbeat Away," being published today by Viking Press. Agnew finally made a deal with the Justice Department, resigned Oct. 10 and pleaded no contest to a single charge of income tax evasion. The authors of the book, Washington Post reporters Richard M. Cohen and Jules Witcover, said the Agnew impeachment option "was fraught with ominous parallel for the President himself. 'If Agnew could be impeached and convicted, then perhaps it would not be so difficult for the now-reluctant congressmen to place Nixon on the same track and ride him out of office.'"

Cohen and Witcover said that the decisive incident behind Agnew's agreeing to resign was a meeting Sept. 10 involving the vice president, one of his lawyers, presidential counsel J. Fred Buzhardt and White House Chief of Staff Alexander T. Haig. Haig, "abandoning the White House's addiction for circumlocution and subtlety... let Agnew have it," the book said. "The vice president had to resign. It was a simple, straightforward demand, and Haig kept hammering away at it."

Phnom Penh Is Hit By Rocket Fire Again

PHNOM PENH, Cambodia (AP) — Insurgent gunners fired six rockets into Phnom Penh's southern suburbs today, killing one person and wounding five, officials said. The rockets hit homes near the presidential palace. Field reports said insurgent troops stormed into a government outpost eight miles south of Phnom Penh before dawn, but its garrison had fled during the night. The bodies of eight government soldiers were reportedly left behind. The outpost, which is only two miles from Takhmau, a southern suburb of Phnom Penh, had been under attack for five days, the Cambodian command said. It said intelligence reports indicated the rebels have been moving artillery into the region to strike Phnom Penh. The E-hmer Rouge fired five rockets into the southern part of Phnom Penh on Sunday. No casualties were reported, but two of rockets landed near the presidential palace and the American Embassy. It was the capital's second rocket attack in two days. Heavy fighting also was reported around rebel-held Oudong, 23 miles north of Phnom Penh where government troops were trying to break out of a beachhead on the Tonle Sap River three miles east of the town. Oudong was taken by the rebels on March 18. In Saigon, government military sources said South Vietnamese bombers attacked the Viet Cong headquarters at Loc Ninh again Sunday. The Viet Cong charged the air strikes killed or wounded "dozens of persons." The government said only troop concentrations and ammunition dumps were bombed.

Many Crimes In Major Cities Go Unreported

WASHINGTON (AP) — As records show in Philadelphia, nearly three times as high in Chicago, Detroit and Los Angeles, and a little more than twice as high in New York. "The crime survey results demonstrate that in an astounding number of instances Americans simply do not think it is worthwhile to report to public authorities that they have been the victim of criminal acts," said Santarelli. The survey was conducted by the LEAA and the Census Bureau as part of a \$10 million-a-year project to measure crime. An earlier study indicated that crime is twice as high as reported in Atlanta, Baltimore, Cleveland, Dallas, Newark, St. Louis, Denver and Portland, Ore. The latest study involved the questioning of persons in about 25,000 households and 10,000 businesses in the five cities during 1973. Those questioned were asked whether they had been raped, robbed, burglarized or assaulted during 1972 and if so, whether they had reported the crime to police. Of those who did not report crimes 34 per cent said it was because of lack of proof or they felt nothing could be done. Twenty-eight per cent did not consider the crime important enough to report and others said they did not want to be bothered, it was a personal matter, it was too inconvenient or they were afraid of reprisal. For all five cities, the report said, there was a total of 3.1 million crimes committed in 1972. By comparison FBI statistics, compiled from local police agencies, listed 1.1 million crimes in the cities.

STUDY PRODUCES NEW FIGURES — Chart shows crime in Philadelphia, Chicago, Detroit, Los Angeles and New York in 1972 broken down into categories as shown in a survey made by the Law Enforcement Assistance Administration and the Census Bureau.

Armed Forces Direct Niger

BAMAKO, Mali (AP) — Radio reports heard here today said that military forces had taken over the government in Niger. The reports from Niamey radio said Lt. Col. Seyni Kountie, chief of staff of the Niger armed forces, had taken power. Niger has been one of the most stable of the former French colonies in Africa. Since its accession to independence in 1960, President Hamani Diori has been the only chief of state. Niger is a landlocked nation of 490,000 square miles and a population of less than five million persons in north-central Africa. The northern part of the country is in the southern reaches of the Sahara. The country has been hit hard by the severe drought that has afflicted the sub-Sahara in recent years.

AWARD WINNER — Jockey Mary Bacon looks over her Philadelphia Sports Writers Association "Most Courageous Athlete" Award. Miss Bacon was honored for her bravery in returning to horse racing despite several serious injuries.

Bride-Elect Honored At Coffee

Miss Donna Howard of Lubbock, future bride of Ted Griffin, was honored at a pre-nuptial coffee Saturday in the home of Mrs. Arnold Marshall, 700 Highland. The couple will exchange vows April 27 in the First Baptist Church, Lubbock.

Cohostesses for the affair were Mrs. Lowell Jones, Mrs. Sidney Clark, Mrs. Clarence Peters, Mrs. Alton Underwood and Mrs. A. W. Rees. White daisy corsages were presented to Miss Howard, her mother Mrs. Beaty Howard, Lubbock; and her fiancé's mother, Mrs. C. G. Griffin Jr. Similar corsages were presented to the honoree's grandmother, Mrs. J. M. Howard, Wichita Falls, and Griffin's grandmother, Mrs. R. C. Henry of Lubbock.

Among the out-of-town guests were Miss Howard's sister, Miss Annette Howard, Abilene; Mrs. Harold Keys, Wilson; and Mrs. Paul Herchman and Mrs. Richard Henry, both of Lubbock.

Refreshments were served from a table covered with a white, ruffled organza cloth and appointed with silver. The centerpiece was an arrangement of multi-colored silk flowers.

The honoree was attired in a floor-length, sleeveless gown of floral print.

Milk By Liter?

In the future, consumers may buy milk by the liter, rather than by the quart. A liter is slightly larger than a quart, notes Mrs. Gwendolyn Ciyatt, consumer marketing information specialist with the Texas Agricultural Extension Service.

The luncheon, at 12:30 p.m., will be followed by the election of new district officers, and workshops will begin at 1:45 p.m. Subjects and sponsoring counties are Family Life, Gaines County; Health, Dawson County; and Recreation and Cultural Arts, Swisher County.

Mrs. Bill Hardy, state president, will address the general assembly at 2:45 p.m., and the THDA state scholarship winner will be announced. The remainder of the business session will be devoted to reports, resolutions and recognitions.

Only paintings in oil, watercolor, tempera, acrylic, ink, charcoal, pencil or any combination of these will be accepted. Small sculptures will be accepted. Entries will be received at the college library on April 26, from 12 noon to 4 p.m., and entries must be removed May 3, from 12 noon to 5 p.m.

The various divisions will be professional, non-professional, student and sculpture. Purchase awards are Webb Credit Union, \$100, and State National Bank \$75. Cash awards will be given in each division, with Best in Show receiving \$100. The judge will be Wesley Simpson of Odessa. All entries must be original in design and execution and must have been completed within the past two years and not previously exhibited for competition locally. Entry fees are \$3 per entry, except for the student division, which is \$1. A 20 per cent commission will be charged on all sales.

Further information may be obtained by calling Carolyn Barnes, 263-3382; Betty Crenshaw, 267-8313; or Bess Wagner, 263-6692.

Steve Polansky of Dallas, an insurance consultant to the American Association of Retired Persons, was guest speaker at Friday morning's meeting of the local group. After explaining the insurance plans, Polansky answered individual questions.

Mrs. W. E. Moren presided, and the invocation was by the Rev. Elra Phillips. Luncheon tables were decorated in the Easter theme, using Easter lilies as accents. Games were played in the afternoon.

The meeting was held in the Kentwood Center.

Good nutrition can save consumers money at food stores and keep them healthy, says Mrs. Karen Walker, foods and nutrition specialist, Texas Agricultural Extension Service.

After the first two or three years in most marriages, the wife assumes primary responsibility for paying bills and allocating any leftover income, says Janice K. Garrett, home management specialist, Texas Agricultural Extension Service.

All foreign-born women are invited to attend the club meetings. For further information, contact Mrs. Johnson, 263-8247.

'I Am An Exorcist!' Says Chaplain At Webb AFB

"I am an exorcist! Does that statement surprise, confound or frighten you? What is your reaction?"

With those words, Chaplain Neil F. Daley, Catholic chaplain at Webb Air Force Base, began an informative and interesting program given at the April meeting of Airport Parent-Teacher Association.

"The statement is true," continued Chaplain Daley. "As a matter of our training in preparation for the Catholic priesthood, after we've done our degree work in philosophy and go on to theology we are introduced to the various orders in the hierarchy of sacred orders which culminate in the order of priesthood. One of those orders, received after the first year of theology is the order of exorcist."

"Now, this is not to say that I actually exercise the order. In fact, quite the reverse. I have never actually exercised it, that is, 'exorcised' anyone. Its use is highly controlled and may be used or performed only under stringent conditions and with permission of the bishop.

EXORCISM
"What is exorcism? The rite consists essentially in getting down to a command for an evil agent to depart. We are speaking in terms of the devil. The rite itself has grown rather enormously over the years and has become quite elaborate. It includes saying Biblical passages, repetitions of the Our Father, the Hail Mary, the Creed, Litany of the Saints and various other prayers coupled with signs of the cross and of course, commands that the evil one depart."

"Exorcisms are not new. They are really a rather old and universal phenomena. They can be either instantaneous or take months. As recorded in scripture they were much briefer than those exorcisms of more recent vintage. Maybe devils hang around for longer periods of time these days! Exorcism presumes possession.

POSSESSION
"What is possession? Possession is an internal seizure of one's psychomotor activities — ability to talk, eat, see, etc. and displacement of personality which makes it appear that another conscious ego is present. Possession is considered to be demonic if the entity is distinctly malevolent, with pathologically aggressive or self-destructive tendencies. This is the whole gist of the current bestselling book by William Peter Blatty, and of course the movie, "The Exorcist," possession by the devil.

"It's quite important to clearly distinguish possession from obsession. They are not the same. Obsession is an external attack on a person; the feeling of being attacked by horrible demons, monsters, or seductive sexual objects. It's a physical assault.

DIAGNOSING
"Before we come anywhere near diagnosing a person as being possessed we certainly use every professional means and consultation available. We definitely use parapsychology, the study of telepathy and psychic phenomena. Para-psychology holds for instance, that obsession is caused by internal stresses expressed externally by someone with psychic abilities. When these feelings are externalized, they may cause rappings, movements of furniture, eggs to break, doors to slam, fires in rooms, thumping on walls. This is usually called poltergeist activity. Sometimes we attribute this kind of activity to ghosts. Remember those ghosts of childhood, haunted houses and the like! When we say poltergeist activity we simply imply unknown psychic abilities. Most poltergeist activity is not obsession."

PERSONAL VIEW
Chaplain Daley then explained his personal view about possession by demonic forces.
"I am not skeptical at all that possession can occur," he said, "but what I see as more important is the evil in human experience. It is not

the evil that befalls man, but the evil that man does. All evil is ultimately sin or the consequence of sin — and concentration on possession can easily be used as a diversion from the real evil in the world today.

In answering the question, "Is there a devil?" Chaplain Daley answered:

"On the basis of sacred scripture we must say, yes, of course. Human experience alone could not conclude to the existence of the devil. But human experience has borne out scriptural references and allusions. What I would mean, what we mean theologically by the devil is a single agent of evil who unifies in himself, itself or herself — equality of womanhood, you know — various manifestations of evil in human experience. Just as God is not an old man with flowing white beard propped behind a tribunal, neither is the devil a tailed creature with shaggy eyebrows, horns and all those appurtenances.

"It might be well to remember also that though demons can affect people physically, it cannot be proved conclusively that they exist. They can only be presumed to exist. They may be nothing more than manifestations of a disintegrating personality. And also, let me say that there is no definitive theory on exactly how one is taken over by the devil in possession."

CONCLUSION
In conclusion, Chaplain Daley said:

"One highly positive aspect, one that if carried through could have great effect from the current frenzy triggered by the book, "The Exorcist," and the movie, is a reassessment of the nature of evil, particularly sin, as a real dimension in human existence. All of this interest just may trigger a new examination of sin, not only as a factor in human life and in theology but in psychiatry, psychology, medicine and even in political science."

Reports for the end reflected a stable rate of fatal dents across Texas.

District Two, THDA Convenes Thursday

Final arrangements are being made for the meeting here Thursday of District II, Texas Home Demonstration Association. Approximately 30 towns will be represented by delegates to attend the event in the fellowship hall of First United Methodist Church.

Mrs. Elmo Ellis, district director will be the presiding officer. Registration will be held from 9:30 to 10:30 a.m., followed by the general assembly. Guest speaker during the morning session will be Joe P. Wood, vice president of Wayland

Baptist College, Plainview. The luncheon, at 12:30 p.m., will be followed by the election of new district officers, and workshops will begin at 1:45 p.m. Subjects and sponsoring counties are Family Life, Gaines County; Health, Dawson County; and Recreation and Cultural Arts, Swisher County.

Real Teacher

Dear Abby
Abigail Van Buren

DEAR ABBY: As a teacher of 11th grade English, may I respond to the irate parent who objected to the "trashy" books his child was required to read in school? That letter could have been directed at me personally because I have recommended such widely accepted literary classics as "The Grapes of Wrath," "Brave New World," and the ever-controversial "Catcher in The Rye."

First of all, I respect the wishes of any parent who does not want his child to read certain books, and if the parent has the courage to let me know directly (and not through an anonymous phone call to my principal), I will gladly suggest some alternatives.

Second, I, like you, Abby, am also "turned off" by certain vulgar four-letter words, mainly because of my own straight-laced upbringing. However, I suggest that no one can judge a book by selecting isolated pages from it. For instance, both "Grapes of Wrath" and "Catcher in The Rye" deal with the importance of feeling a sense of concern and responsibility for one's fellowman.

I realize that this letter is probably much too long for your column, but I feel so strongly about the value of presenting modern, readable and relevant books to our teenagers that I wish to air my views. As a teen-ager I never was nearly as excited about books as I am today, and I attribute my lack of enthusiasm to the dull, "safe," uncontroversial books which were the typical fare for high school English classes back in the '50s.

I want more than anything else to create in my students a genuine

desire to read, and that can be accomplished only by exposing them to thought-provoking books that speak directly to them in modern language which unfortunately, often includes a few words which happen to be offensive to me.

A TEACHER (I HOPE)
DEAR ABBY: Why should the parents of the bride pay for the wedding? I know the book of etiquette says they should - but that's not a good enough reason.

My father made it clear to his daughters that he would double mortgage his home to give us all college educations, but as for weddings - he'd buy us a ladder. I didn't take the college education, and when it came time for me to marry, my fiancé and I decided to have a big wedding at our own expense.

Working together for a common goal taught us about the responsibilities we were going to have face as husband and wife. After a year of scrimping and saving, we had a beautiful formal wedding with all the trimmings. We were so proud of ourselves!

Six years later, we are in our own home, with baby number two on the way. Everything we have we both worked for together, and we don't have to thank anyone but God for it. I want to say a big thank you to my father for making that decision and sticking to it. That was the best gift he ever gave me.

HAPPY IN N. J.
DEAR HAPPY: Three cheers for Dad. And hooray for you and your husband. Young lovers, take note! Hate to write letters? Send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Cal. 90212, for Abby's booklet, "How to Write Letters for all Occasions."

Crunchy Topping Can Be Stored

A super crunchy topping for sprinkling on sundaes, puddings, etc. can be made by combining 3 cups quick or old fashioned oats, ¼ cup firmly packed brown sugar, ½ cup melted butter or margarine, and a small can of peanuts. Bake in preheated moderate oven (350 degrees) about 10 minutes, stirring occasionally. Cool and toss with a fork. Store in a covered jar in the refrigerator.

International Women's Club Plans Luncheon

A variety of German cakes, pies and other sweets were served to members of the International Women's Club when members met Wednesday in the home of Mrs. Marlene Salter, 192-B Hunter.

Mrs. Miriam Johnson, president, introduced a new member, Mrs. Minoo Khosravi of Iran, and a guest, Mrs. Zula Salvatierra of Venezuela.

A farewell luncheon was planned for Mrs. Salter, of Germany, who is moving to Austin, and Mrs. Elke Dickinson, also of Germany, who will be going to Spain. The event is slated May 15 in the home of Mrs. Un Soon Lee Keen, 2704 Larry.

Mrs. Margarita Palmer, club chairman for Cultural Festival held recently at Webb Air Force Base, expressed appreciation to the women for assisting and loaning personal items from various countries for the exhibit. She also urged members, on an individual basis, to entertain Webb's foreign students in their homes to further understanding and international relations between people of different nationalities.

A white elephant sale was held during the meeting to raise money for a summer picnic for members and their families.

The next meeting will be held at 8 p.m., May 8 in the home of Mrs. Christel Martinez, 2708 Ann. At that time, several members will model fashions from Margaret's.

All foreign-born women are invited to attend the club meetings. For further information, contact Mrs. Johnson, 263-8247.

Art Association Tells Open Exhibit Plans

The Big Spring Art Association will hold an open exhibit April 28-May 4 in the Anthony Hunt Library of Howard College.

Only paintings in oil, watercolor, tempera, acrylic, ink, charcoal, pencil or any combination of these will be accepted. Small sculptures will be accepted. Entries will be received at the college library on April 26, from 12 noon to 4 p.m., and entries must be removed May 3, from 12 noon to 5 p.m.

The various divisions will be professional, non-professional, student and sculpture. Purchase awards are Webb Credit Union, \$100, and State National Bank \$75. Cash awards will be given in each division, with Best in Show receiving \$100. The judge will be Wesley Simpson of Odessa. All entries must be original in design and execution and must have

been completed within the past two years and not previously exhibited for competition locally. Entry fees are \$3 per entry, except for the student division, which is \$1. A 20 per cent commission will be charged on all sales.

Further information may be obtained by calling Carolyn Barnes, 263-3382; Betty Crenshaw, 267-8313; or Bess Wagner, 263-6692.

Steve Polansky of Dallas, an insurance consultant to the American Association of Retired Persons, was guest speaker at Friday morning's meeting of the local group. After explaining the insurance plans, Polansky answered individual questions.

Mrs. W. E. Moren presided, and the invocation was by the Rev. Elra Phillips. Luncheon tables were decorated in the Easter theme, using Easter lilies as accents. Games were played in the afternoon.

The meeting was held in the Kentwood Center.

Good nutrition can save consumers money at food stores and keep them healthy, says Mrs. Karen Walker, foods and nutrition specialist, Texas Agricultural Extension Service.

After the first two or three years in most marriages, the wife assumes primary responsibility for paying bills and allocating any leftover income, says Janice K. Garrett, home management specialist, Texas Agricultural Extension Service.

All foreign-born women are invited to attend the club meetings. For further information, contact Mrs. Johnson, 263-8247.

Minister Speaks At Luncheon

FORSAN (SC) — An Easter luncheon was held Thursday at the Spanish Inn, Big Spring, for the Dorcas Club, Forsan Baptist Church.

The Rev. Don Bradley, educational director of First Baptist Church, Big Spring spoke on the role of women as recorded in scriptures, emphasizing the busy life led by Dorcas, and the dedicated lives of other women of the Bible.

Present as a guest was Mrs. Thomas Kennedy who, with her husband, is serving in the mission field. She was commended by Rev. Bradley for her work.

Mrs. Carl Tippet served as hostess, and prayer was by the Rev. Jack Clinkscales, pastor of the Forsan church. Tables were laid with pastel cloths and centered with spring flowers.

French 'Suede'

"Suede" is the French word for Sweden. French tailors were intrigued by the first soft, napped finish from Sweden that resembled leather. Thus, they named it after their northern neighbor, explains Beverly Rhoades, clothing specialist with the Texas Agricultural Extension Service.

Open House April 21 At Girl Scout Camp

Open House at Camp Boothe Oaks, near Sweetwater will be held Sunday, 1 to 5 p.m. The camping committee of the West Texas Girl Scout Council will serve as host for the day, according to Jack Holden, chairman.

Citizens of each town in the sixteen-county council are invited to visit the camp. This is the opportunity for families to see the campsite, inspect facilities made by cookie sales over the years and decide which units the daughters would most like to live in during the summer camp sessions in June and July.

Camp Boothe Oaks is used throughout the year by Girl Scout troops for troop camping, conferences, meetings, and resident camping. The camp maintains Girl Scout American Camping Association and State Health Department standards. The West Texas Council is a participating agency of United Way.

Program is varied and offers opportunities for girls to swim, hike, cookout, star gaze, sing, study nature, explore, canoe, practice archery and nature crafts. Camp Boothe Oaks is located eight miles south-

west of Sweetwater. To reach camp, leave IS 20 at San Angelo, Texas, Hwy 70 exit in Sweetwater. Proceed south toward San Angelo on 70 about five miles to FM 1809, go west on FM 1809 for three miles. Camp Boothe Oaks is on the right at the fork in the road. Drive downhill into the green grove of oak trees which gives the camp its name.

Marked Decline Is Shown In Holiday Road Deaths

By The Associated Press

Reports for the Easter weekend reflected a startling drop of the rate of fatal traffic accidents across Texas.

Matching a trend apparent since gasoline came to be in short supply, authorities counted just seven deaths in accidents involving motor vehicles.

The over-all toll from 6 p.m. Friday to midnight Sunday was 19, also including six drownings, four shootings, a stabbing and one death in a plane crash.

These were among the victims: Erasmo Rodriguez, 23, and a small boy he attempted to save both drowned as a boat overturned Sunday in Lake Sam Rayburn. The boy was tentatively identified as Balderman Salis, 6, of Diboll. Six others in the boat made it to shore.

John Robert Irvin, 15, of Bon Wier drowned Sunday when he fell from a boat while fishing at Lake Wannager in Newton County.

Donald W. Daff, 33, of Carrollton, a Dallas suburb, was shot to death Sunday by an off-duty Dallas policeman. Patrolman Donald Marshall said he tried to stop an argument between Daff and a woman and fired as Daff hit him on the head with a .22 caliber pistol.

Julian Robali, 41, was found sprawled across railroad tracks Sunday in Houston, his throat slashed and his mouth stuffed full of rocks. Officers said Rob-

all also had been severely beaten.

Javier Gonzales, 21, of Houston drowned Sunday when he fell off a float Sunday about 50 yards offshore at Galveston. The body washed ashore two hours later.

George Willis Howten, 23, of Tomball drowned Sunday while swimming in a stock pond near Dobbin in Montgomery County. Officers said he became entangled in a trolley.

Robert Wayne Jones, 13, of Houston drowned Sunday in the San Jacinto River below the Lake Houston dam. Juvenile officers said he was wading when he slipped into deep water.

Green, 6, and Judy Henderson, 12, Rawleighs Norman, 41, died late Friday night when his truck overturned on Farm Road 512 about five miles west of Brazoria.

Evelyn Bell 18, of San Antonio was killed early Saturday in a collision of two cars on Farm Road 2536 near San Antonio. A third vehicle plowed into the wreckage.

Robert Brooks Egan, 27, of Austin was killed Friday night when his motorcycle struck a curb at the top of a steep incline near the University of Texas campus in Austin.

Police found Everette LeRoy Rankin, 45, shot to death at his East Dallas apartment early Saturday. They reported he was shot in the chest with a shotgun.

Need To Cushion Loss

While others have concentrated on subjects of great pith and moment, Sen. Gaylord Nelson of Wisconsin has turned to the subject of pay for federal grand and petit jurors. It is not one of the most pressing issues of the time, but it is not one that should be slighted.

Nelson plans to introduce a bill that would pay grand and petit jurors up to \$100 a day, instead of the normal rate today of \$20 a day. The minimum payment would be \$25 a day. If the juror earned more than \$25 a day at his regular job, the government would make up the difference to a limit of \$100 a day.

Serving either on a grand jury or a trial jury can be a sacrifice. The first Watergate grand jury, for instance, has been sitting for almost 22 months — two jurors have been forced to leave their regular jobs and one had to resign because his business was "going down the drain," Nelson said. Some federal court trials can last several months. When the jury is sequestered members

are separated from their families and their businesses.

Jury service, as a grand juror or petit juror in state or federal courts, is one of the duties and obligations of citizenship. The criminal justice system depends on fair minded men and women

who serve it as jurors. But when that service becomes a hardship the least that can be done is to cushion the financial loss and the interruption of family life which it entails.

And what is sauce for the federal goose should be sauce also for the state gander.

Confusion In Names

Don Yarborough of Houston, an attorney, ran for governor in 1962, 1964 and 1968. He came pretty close to making it in 1962 when John Connally was the victor. He led a 10-candidate primary in 1968, then lost to Preston Smith in the runoff.

He was a very controversial political figure, despite his strong support, and was in the middle of the Democratic Party cleavage in those years.

Don Yarborough of Houston, (note the different spelling) also an attorney, is running for State Treasurer in 1974.

The confusion in names and identification in the public mind is apparent enough.

But this year's candidate is not the same man as the three-time loser in the gubernatorial races. Treasurer Candidate Don Yarborough was graduated from the University of Texas Law School in 1964, the year Don Yarborough made his second race for governor.

Whether the confusion in identity will help or hurt remains to be seen. It would better if everyone knew.

Unstructured Learning

Around The Rim

Tommy Hart

Take the element of suspense associated with grades out of schools and what would you have? For one thing, you'd have better schools.

THE TEACHERS know it. The kids are aware of it. The only ones who don't vote the ticket are the parents. They maintain they like to know what their children are doing and they reason they know only when their kids bring home their report cards.

According to John Holt, an educator and a writer, the methods we employ to rear our children do not work — and they will work less and less in the future.

"THE MODERN notion of success, which begins early in school, carries with it the image of life as a race," Holt says, "and the trouble with races is that they always produce more losers than winners.

"When you begin to call a youngster a loser and to treat him like a loser, he begins to think of himself as a loser and to act like a loser. And, when this happens, his chance of doing much more learning and growing becomes very slight."

According to Holt, schools as we know them, from kindergarten through graduate school, have no connection with serious reality. He says practically all of them are unrealistic models of the world. Graduate school, he adds, is more like kindergarten than the real world

outside. Holt foresees the time when we all live in a "deschooled society, in which learning is not separated from but integrated with the rest of life." It is something toward we must move and work as quickly as possible, he adds.

IN SUCH a society, Holt says everyone could have the widest and freest possible choice to learn whatever he or she wants to learn, whether in school or in some altogether different way.

It is also Holt's contention that the greatest disservice we do our children is to suggest that graduation from college will provide a ticket to success.

A DIPLOMA, he reminds, is not a magic passkey that opens all doors. Diplomats, he elaborates, opens only limited doors and their holders, lamentably, discover that when they reach those doors with their tickets (diplomas), they discover they aren't good any more.

The good teachers, and they are quite rare, often find themselves in hot water with their superiors when they try to create a good atmosphere for learning, all too often because they dare to threaten the structured authoritarian classrooms.

TOO MANY teachers had problems as students themselves that they have not been able to overcome.

Jazz Series Jells

NEW YORK (AP) — Jazz thrives in unlikely places. But the last place you'd expect to find it is on a small public television station in the upstate New York city of Rochester.

Yet even with its small budget, WXXI periodically produces jazz programs that for my dough equal or exceed the best from public TV stations in such major cities as Los Angeles and Chicago.

WXXI's most recent salvo — as far as a national audience is concerned — was last year's "Rich at the Top," a brilliantly recorded local club concert by drummer Buddy Rich and his big band.

IN 1972 WXXI's nationally televised jazz effort was "Together." It featured an imaginative combination — the Rochester Philharmonic and nativeson Chuck Mangione, 33, a gifted composer-arranger.

Another Mangione special, "A Day in the Garden," currently is making the rounds, though only in 14 cities because national programming funds weren't available for it, according to Bill Haley, WXXI's program manager. However, he says he hopes to get the station's jazz efforts back on a national basis next season in a four-year project that would appear under the title, "At the Top."

HE SAYS the mini-series is among some 100 programs the Public Broad-

casting Service now is offering its 24 stations in PBS' proposed new "marketplace cooperative" plan.

The jazz series, he says, probably would feature major jazz groups and artists and, like the Rich show, would be taped at an acoustically good local hotel club called "Top of the Plaza."

"I just have a feeling that because of the nature of the show a lot of stations are going to want it," said Haley, adding that the entire package would cost \$50,000, of which WXXI would pay half.

What accounts for the station's interest in jazz?

"I REALLY CAN'T explain it," laughed Haley, who said he became WXXI's program manager in 1967.

"I think maybe it was the early association with Chuck when we were deciding the kinds of things we were going to get into," he said.

Farm Women Vote For Jobs

The nation's farm women appear to be joining their city sisters in wanting equality and the erasure of the "traditional role" of women.

According to a poll by *Prairie Farmer*, a leading rural magazine farm women in Illinois and Indiana are two to one in favor of women taking any job they can handle. The ratio is three to one among women under 40 with some college training.

Better than three-quarters of the farm women polled felt their husbands should help out in the house at least occasionally. However, slightly less than three-quarters of the men actually did. Age was not a factor here. Young and old alike thought their husbands should pitch in.

In a separate poll, about one-third of the women questioned answered "no" when asked whether they would vote for a qualified female presidential candidate. Among farm women with some college, about one quarter voted "no."

MY ANSWER

Billy Graham

With recent exposure of income tax evasion even by high government officials, I feel like a lonesome fool. My return was just figured honestly and paid on time. Am I a vanishing breed? J.D.

Cheer up! You're just paying on income. Egypt used to collect a tax for every palm tree you owned. In Palestine, at Christ's time, there were taxes on water.

Tax paying has always been an onerous chore, and tax authorities have always been unpopular. In Judea, under the Roman system, the public or tax collector was the object of bitter hatred. But it is interesting that Jesus used the publican as he did the Samaritan, to show

to advantage an attitude acceptable to God. (Luke 18:9.)

Jesus said that a readiness to repent was more promising. Of salvation than the spiritual pride of the self-satisfied. (Luke 19:10)

Since attitude is of such importance, don't change the one you have. I hope you are not a vanishing breed. If America is to know any real renewal—spiritually, morally and ethically it will come only because honest people like you aggressively practice scrupulous conduct.

Besides that, don't think you're the only one with an honest return today. Remember Elijah under the juniper tree, lamenting his lonely lot (1 Kings 19). He learned that 7,000 others had some high standards too. You're in good company.

A Devotion For Today . . .

Their words seemed to them as idle tales, and they believed them not. (Luke 24:11)

PRAYER: O God, at this very special season of the year, open our hearts that Christ may come into our lives in a new and wonderful way. May we, too, go out to tell others this glorious news — Christ is risen! In His name we pray, as He taught us long ago. Amen.

(From the 'Upper Room')

The Tape Mystery

Robert Novak

WASHINGTON — White House lawyers are disappointed and exasperated with the technical expert they hired to study the famous 18½ minute tape erasure, a fact likely to further deepen President Nixon's difficulties in the House impeachment inquiry.

NIXON LAWYER James St. Clair's irritation with Dr. Michael Hecker, the West Coast technician retained by the White House two months ago, has become obvious in recent weeks. That strongly suggests that Hecker's findings will not be far from the verdict of the court-appointed experts: the gap in the vital June 20, 1972, Oval Office conversation could not have been accidental.

The erased 18½ minutes, forgotten of late but not gone, will again plague Mr. Nixon when the experts submit technical findings to Judge John Sirica. If the White House cannot produce expert rebuttal, the President will inevitably be called on to personally explain the gap for the first time. Indeed, members of the House Judiciary Committee are determined to pursue the sensitive question of Mr. Nixon's connection, if any, with the tape erasure.

ONCE THE court's panel of experts released its Jan. 15 preliminary report knocking down an accidental erasure, the White House went shopping for its own expert. The choice was Dr.

Hecker, a senior research engineer at the Stanford (Calif.) Research Institute. If a scientist of his standing would refute the other experts, the erased tape would drop from the President's massive load of problems.

But St. Clair has grown as unhappy with Hecker as he has been with the court-appointed experts. That raises the probability that when the experts produce their detailed findings, perhaps within two weeks, the White House will have no scientific refutation.

ACCORDING TO Secret Service logs, only three persons — the President, Miss Woods and presidential aide Steve Bull — handled the June 20 tape. Both Miss Woods and Bull have sworn they played no part in erasing a portion of Mr. Nixon's conversation with H. R. Haldeman on June 20, the first working day after the Watergate burglary.

Did Mr. Nixon give the tapes to anybody else? What makes these questions so pertinent is Mr. Nixon's declaration last July 23 in his letter to Sen. Sam Ervin: "The tapes, which have been under my sole personal control, will remain so."

THE HOUSE Judiciary Committee is deeply interested in feeling it cannot resolve the matter without the President's own explanation of what happened to evidence under his sole control.

"... 715 ..."

The Two-Tier Market

John Cunniff

NEW YORK (AP) — More than two factors are holding down the stock market but you'd find yourself with a following if you chose only two: High interest rates and the activities of institutions.

High rates mean that bonds compete with stocks for the investment dollar, reducing the flow of money that in more normal times might be expected to tend in the direction of equities. Moreover, high interest rates cut into the profits of corporations by adding to costs, just as do increases in labor or raw material prices.

The activities of institutions, it is argued, are resulting in a two-tier market, with shares of a favored group of less than 100 companies attracting consider-

able interest and the rest of the market little interest at all. Officers of some companies complain that they simply cannot interest portfolio managers of the institutions — mutual and pension funds, bank trusts and insurance companies — in the attractiveness of their shares.

In addition, they contend that when the institutions do become involved with shares of some of the smaller and lesser known companies they tend to dominate the market and sometimes produce sharp price movements.

"These practices alienate — and still do — the small investors and harmed many well-managed second- and third-tier companies," said C.V. Wood,

Jr., chairman of the Committee of Publicly Owned Companies earlier this month.

The committee, observing its first anniversary, is made up of 632 corporations with total assets of more than \$55 billion and 2.5 million shareholders whose shares are traded on most of the big exchanges.

Wood noted that for the second straight year, there are 300,000 fewer shareholders of American companies. Indication of lagging interest in the market, only 99 new issues were marketed in 1973 compared with 568 in 1972.

This lack of interest in stocks has led to some of the lowest price-earnings multiples in decades.

Special Test Needed

Dr. G. C. Thosteson

Dear Dr. Thosteson: About five years ago I had an ectopic pregnancy (three normal deliveries before that). After surgery the doctors assured me that both ovaries and the other tube were healthy, and to take precautions as I could become pregnant again.

I haven't had any female trouble since and my periods are regular. Now I would like another baby, but another doctor told me that after an ectopic pregnancy many women can no longer conceive. Is there any way I can tell if I am fertile? I have been trying the temperature cycle but I can't see that it varies any. I am in good health. — Mrs. L. E. R.

An ectopic pregnancy is one in which the fetus attaches itself to the wrong place, the Fallopian tube.

It is true that many women, after an ectopic pregnancy,

cannot conceive again — I but many can. The question is what caused the fertilized egg to stop in the tube instead of continuing on to the uterus.

Sometimes this is because infection has scarred the tube, and in that case it is possible that the other tube may also have been similarly scarred. Then again, tiny polyps or other narrowing of the tube may have been responsible, with only that tube affected and the other tube still patent (open, that is). In such cases pregnancy is possible.

From what the doctors said at the time of surgery, I would assume they believed the other tube to be open. A special test, however, would be in order now, called insufflation, meaning finding out whether air can be blown through the tube.

My suggestion would be to talk to your doctor about an insufflation test and possibly

other tests.

Dear Dr. Thosteson: A friend asked me recently about abdominal epilepsy. Can you be of any help? — J. G.

It's not the easiest thing to explain, but there is a group of nervous disorders featured by convulsive features. Epilepsy is one of them.

But there are different manifestations within the group, known as epileptic equivalents. One is featured by abdominal pain and is called abdominal epilepsy.

The pain is severe, but it is not associated with the seizures we commonly think of in epilepsy. However, an electroencephalogram (brain wave) shows a tracing suggestive of disordered rhythm in the brain.

Attacks of abdominal epilepsy yield to anti-convulsant drugs, the same type of drugs used with epilepsy.

'Acid Test' For Cartoons

PORTLAND, Ore. (AP) — Though most persons are used to seeing editorial cartoons only in newspapers, this form of journalism also is feasible for local TV news shows, says an artist who's tried it.

All you need are a good cartoonist and strong backing from the station, says William Sanderson, whose "Acid Test" cartoon appeared on KGW-TV here for more than three years before it was canceled.

"**FIND THE BEST** cartoonist available . . . give him free rein and suffer the consequences," he says. "Sooner or later, if he's good, he's going to nail somebody to the wall."

It wasn't that which caused his car-

toon's demise on TV. The station, pinched by economic considerations, said the public wasn't reacting to the feature as it once did.

Forest Amsden, general manager of KGW and a Sanderson fan, said he was surprised by the lack of positive or negative reaction to the "Acid Test" feature the last year it was on the air.

"That doesn't mean people didn't react, but it wasn't measurable," he said, adding "it was a fairly expensive piece of information . . . it got to the point where we put money into that or something else."

Sanderson's theory is that public reaction to his artwork-with-a-message fell off as irate critics realized their complaints were to no avail and the cartoon had become an established fixture.

Amsden, a former newspaper editor, observed that an editorial cartoon on TV has a big drawback its newspaper version don't have: "A (newspaper) cartoon is something you sit and look at, think about, turn back and look at again later.

"On television, it was there, and 18 seconds later it was gone."

Sanderson agrees, but says brevity is one of those things that viewers and TV cartoonists alike have to live with.

"**YOU HAVE TO** assume that it will go over some people's heads or move too fast," he says. "A television political cartoon is exposed to the same hazard as the newspaper cartoon."

And Sanderson, whose feature appeared weekly in the *Portland Oregonian* newspaper before KGW bought the idea, says there's no way in print or TV to avoid the problem of cartoon ideas that flop, particularly if one artist does the cartoon five days a week.

But it may be more of a headache for TV, he concedes.

"Because it is on television, people expect it to be super every day," he said. "Mediocre newspaper cartoons are expected."

Space Age Talking

RICHARDS ISLAND, Canada (AP) — A space age communications system is helping men searching for oil in this remote section of Canada's northland keep in touch with civilization.

Three oil companies are using a transportable satellite communications earth station equipped with a 10-foot dish antenna at this exploration site above the Arctic Circle to send and receive voice, data and teletype communications via the Anik Satellites. Both Anik and the portable station were developed and built by Hughes Aircraft Co., El Segundo, Calif.

Instead of depending on shortwave to attempt calls back and forth to the populated areas of southern Canada, some 2,000 miles away, the oil exploration teams communicate through the station, up 22,300 miles to the satellite, back down to an earth terminal near Toronto, then via landline to their home offices in Calgary. By reversing the procedure the home offices can contact the men working in the isolated outposts.

... MORE POLITICAL CLOUT THAN EVER

Flag-Waving Vet Groups Are Still Going Strong

OSKALOOSA, Iowa (AP) — Nat King Cole croons "Ramblin' Rose" on the juke box. Ten men are seated at the bar on a Thursday afternoon. Six salt shakers on the 13-stool bar testify that this is primarily a beer-drinker's palace — a healthy pitcher of which goes for a buck.

A mural of America's fighting men serves as the bar's backdrop, testimony that this is the American Legion in Oskaloosa.

Largest of the veterans associations, with 2.7 million members, the American Legion is alive and well in middle America. Its lobbyists in Washington and in state capitals across the land say they've got more political clout than ever.

The national commander says increasing numbers of Vietnam veterans are joining up and that Legion-supported baseball teams, oratorical contests and Scout troops are still American institutions. And they hope they'll even get Veteran's Day changed back to Nov. 11.

EVER ROSIER
The Veterans of Foreign Wars, second largest of the vets' groups, with 1.8 million members, reports an even rosier picture in 1974, the year after soldiers came home from an unpopular war to face disapproval at worst, a White House reception at best and a ho-hum greeting from their countrymen in general.

In the years after World War II, the Legion hit its all-time high of 3.3 million members in 1946. The VFW climbed from prewar 100,000 to over a million in the middle '40s.

VFW membership is growing faster now than the Legion's. The VFW says it increased its rolls by 28,000 in 1973. Legion membership, for the first time

in almost a decade, declined in 1973: a drop of 18,000 because deaths of older legionnaires exceeded new membership.

There's an American Legion or a VFW post to serve everyone. One in New York is composed of advertising men; there's a post of FBI agents in Washington, a post of telephone workers, and a post whose main attraction is an annual rodeo. In some communities, the hall is a dingy, smoke-filled room. In others it's more or less a country club.

Even in a state like Iowa, strong for both organizations, it's hard to figure out what "average" is.

Gordon Miller, Iowa Legion commander, ponders the question.

"Average?" asks Miller. "That's hard to say. I mean Legion-supported baseball teams, oratorical contests and Scout troops are still American institutions. And they hope they'll even get Veteran's Day changed back to Nov. 11."

OPENS AT 3
The legion post in Oskaloosa, for instance, opens every afternoon at 3 and the regulars drop by. M. L. Curry, a 52-year-old World War II vet, comes just about every afternoon.

Why? "They've got a good group here," says Curry. "I think it's a good organization and they've done a lot for the boys."

Curry says he brought his son and another young man into the organization. "But they don't come in like they used to."

Wayne Keefe, the commander, says attracting the Vietnam veteran is a problem. "He's a new breed of cat, more highly educated. You've got to sit him down and tell him what the Legion can do for him. He wants his money's worth if he's

going to join." And join he apparently does. The Legion claims a half million of its members are Vietnam vets. The VFW says 450,000 have come aboard.

"We're not concerned at all about our appeal to the Vietnam veterans," says Robert E. L. Eaton, the Legion's national commander. "We think we're doing fine."

From the VFW's public relations man, John Smith: "We've got 18 per cent of the eligible Vietnam vets. Percentage-wise, it's the highest of any war. World War II ran about 11 or 12 per cent."

And from the Vietnam Veterans Against the War (VVAW), an organization more into apple wine and pot than apple pie: "Despite their figures, we feel we are the largest group representing the Vietnam vet. We represent his sentiments and his position. They still think it's great we sent over 55,000 people there to die," says Brian Adams, a national officer of the VVAW, which claims a membership of 25,000.

NO PROFILE
There's no profile of the Vietnam vet who has joined the Legion, but Miller maintains he's more conservative than his World War II counterpart. "They tend to side with the World War II guys," he said.

Another educated guess is that he is the guy who mustered out before 1970, before dissatisfaction with the war spread throughout the country. Dean Phillips, a 30-year-old Vietnam vet and a former member of the VVAW, belongs to both the Legion and the VFW.

"I'll rub elbows with the right wingers if I have to, but I won't

compromise," says Phillips. "They try hard and they work hard."

Phillips, a candidate for the state legislature in Colorado and a young man whose language must be laundered before being quoted, feels that far too many Vietnam vets don't realize that the Legion and the VFW are out there to help them.

"They're confused about the war and the way Vietnam vets are acting, but they're really not as big as flagwavers as they come off. Their freedom days and their patriotism and their fishing derbies and all that ... don't appeal to the Vietnam vet."

In Washington the Legion has three registered lobbyists and the VFW has one. Generally, the GI's alumni organization, the two groups have pretty much the same views.

Both veterans' groups are against amnesty in any form. They favor bigger and better benefits for the vet and bigger defense budgets.

Ray Holdsworth, 27, is a Vietnam vet who joined the Oskaloosa post.

"I thought it was a good organization and I served my time and I thought it was my right to join. The age group at first didn't appeal to me," says Holdsworth. "Everybody was so much older, but once I got to know the guys, that didn't make any difference."

Parked Cars Have A Shoving Match

One parked car hit another in the College Park Shopping Center 11:45 a.m. Saturday, police said.

A 1966 model belonging to June Tucker 1106 Mulberry Ave., was parked in front of the fabric store. It rolled across roadway colliding with a 1969 model belonging to James Davis, Route 1 Box 329.

"Neighbor vehicle had a driver," police reported.

Trio Marked For Death Decide To Disappear

BERKELEY, Calif. (AP) — The three persons marked for death by the terrorist Symonese Liberation Army are trying to prove they are not FBI informers and have gone underground to avoid being "shot on sight."

SLA "death warrants" for Colston Westbrook, Chris Thompson and Robyn Steiner were included in the last communique from the group that claimed responsibility for kidnapping newspaper heiress Patricia Hearst from her Berkeley apartment Feb. 4.

SLA Field Marshal General

Cinque issued the execution orders in the April 3 message, which also included Miss Hearst's declaration that she had joined her terrorist kidnapers and renounced her family.

The most frequent communication from the three targets has been from Westbrook, 35, a teaching assistant at University of California at Berkeley, whose greetings are played by automatic equipment for those who telephone his Berkeley home. The messages change frequently.

"Thanks for the telephone calls and support," said Westbrook's latest message Sunday. "I hope you have an enjoyable Easter."

Westbrook, who said he earlier had gone East but was back in the San Francisco Bay area, warned he would arm himself if the SLA did not listen to reason. He asked for a lie detector test or a trial with state prison inmates as jurors to clear his name.

Westbrook apparently came in contact with SLA members at Vacaville Medical Facility where he helped found a black cultural association for inmates.

Miss Steiner, 20, identified as a former girl friend of alleged SLA member Russell Little, has been in hiding since the communique, her attorney Philip Carlton said over the weekend. Carlton said he has pleaded with the terrorists to communicate with him.

Little is imprisoned on murder charges in the slaying of Oakland Schools superintendent Marcus Foster last fall.

Thompson, 35, former manager of a Berkeley food stand, has moved out of his apartment but is still in the area, his lawyer, Gordon Reynolds, said.

(AP WIREPHOTO)

SUCCUMBS — Paul Schoenstein, 71, former managing editor of the New York Journal American and a Pulitzer Prize winner for distinguished local reporting, died in New York Sunday after a long illness, Schoenstein was credited with saving the life of a 2-year-old girl who was suffering from a rare blood disease by appointing a team of reporters to scour the city for the rare (in 1944) penicillin needed to save her.

Steel Firms Agree To Pay \$31 Million In Back Pay

WASHINGTON (AP) — About 50,000 steel workers are to benefit from \$31 million in back wages to be paid out under an industry-wide plan for ending racial and sex discrimination in employment.

Government sources said the agreement, resulting from lengthy industry-government negotiations, was to be formalized today with the signing of a consent decree in U.S. District Court by officials of nine major steel firms.

The voluntary agreement is believed to mark the country's first industry-wide equal employment program and could set a pattern for similar programs in other industries.

The United Steelworkers Union, which holds contracts with the nine companies, agreed to contribute a share of the back wages.

In return for the voluntary agreement, the firms involved will be exempt from any equal opportunity employment suits for five years, sources said.

Under the agreement, elimination of seniority along racial lines in steel mills would be accompanied by setting of goals and timetables for the hiring and promotion of minority workers. The program also would eliminate sex-based discrimination.

The agreement calls for replacing the industry's current system of dual seniority with plant-wide seniority systems.

To counter sex discrimination, the steel firms agreed to make good-faith efforts to hire one woman for every four men added to the production and maintenance payroll.

The accord, which grew out of negotiations with the Equal Opportunity Commission and the Justice and Labor departments, would provide individual payments of back wages ranging from \$250 to \$1,000, with the average estimated at about \$600.

The back pay would be divided among some 50,000 workers, mostly blacks, who went to work for the nine steel firms before 1968. Sharing in the money would be about 4,000 women employees.

In addition to the \$31 million, implementing of the new seniority system may cost the industry millions of dollars more, sources said.

Firms covered by the agreement include U.S. Steel, Bethlehem, Republic, Jones & Laughlin, National, Armco, Wheeling-Pittsburgh, Youngstown Sheet and Tube, and Allegheny Ludlum Industries.

The companies had initiated the talks with government officials last year after an increase of government equal-opportunity actions in the steel industry.

Inland Steel Co., headquartered in Indiana Harbor, Ind., declined to accept the voluntary program and dropped out of the negotiations. Sources said the government is expected to file suit against Inland.

Texan Killed In Colorado

SALIDA, Colo. (AP) — A 48-year-old Fort Worth, Tex., man was killed Friday when his light airplane crashed on Monarch Pass in the central Colorado Rockies.

The victim was identified as Van Homer Foster, operator of a Fort Worth flying service.

Officials said Foster was the only occupant of the plane which crashed near the 11,000-foot level on the eastern side of the pass.

The plane reportedly was on a commercial flight from Fort Worth to Vernal, Utah.

The pilot of a commercial airliner flying overhead heard the plane's emergency locator signal after the crash and reported it to the Denver air traffic control center of the Federal Aviation Administration, touching off a search for the downed craft.

The plane was found by a Colorado Civil Air Patrol ground search crew early Saturday morning.

The plane was a twin engine Cessna, officials said.

TANGLED RELATIONSHIP — State Juvenile Home instructor Tom Stamp sorts out a friendly gathering of bull snakes at Toledo Iowa. Stamp and his biology students moved 194 snakes recently from a well to nearby woods. Stamp said the snakes help keep down the rodent population.

Leon Dash Is Award Winner

NEW YORK (AP) — Leon Dash of the Washington Post is this year's winner of the Overseas Press Club's George Polk Memorial Award.

Dash, 30, spent 10 weeks with rebel forces in Angola, a Portuguese overseas province. He won the award for "best reporting from abroad in any medium, requiring exceptional courage and enterprise."

Other winners, who will receive awards for overseas reporting at the club's annual dinner next Monday are:

Raymond R. Coffey of the Chicago Daily News, for excellence of foreign news reporting.

Al Brut and William Montalbano of the Miami Herald, for best interpretation of foreign affairs.

Sidney H. Schanbert of the New York Times, photography.

Life Magazine, photography in a book or magazine, special issue on Israel.

Group Foreign News Service, radio spot news reporting.

CBS news and Dan Rafter, Marvin Kalb and Bob Schieffer, radio interpretation of foreign affairs.

John Laurence, CBS News, and cameramen Alex Ben-Dor, Alex Brauer, David Green and Juergen Neumann, television spot news reporting.

Lamesan Dies By Own Hand

LAMESA — A 29 year old Lubbock man, Crescencio V. Salas, took his life sometime early Thursday morning, hanging himself in the Dawson County jail.

No motive for the suicide has been uncovered by the sheriff's office. Salas had been jailed on charges of drunkenness and burglary last Sunday. A fine of \$32.50 had been assessed on the drunk charge and bond had been set at \$2,500 on the burglary charges.

He was discovered hanging by his neck, about 6 a.m. when five other prisoners in the tank awakened. A piece torn from his blanket was used to commit suicide.

Although the body was discovered around 6 a.m., it was closer to 7 a.m. before the prisoners could arouse help.

D. L. Standifer, justice of the peace, ruled "death by hanging by the neck."

Trustees Study Bond Issues

COAHOMA — Newly elected trustees of the Howard County Water Control and Improvement District No. 1 will meet at 7 p.m. Tuesday in the district office here.

Reviewing the status of contracts with the Cities of Big Spring and Coahoma, considering current investment of surplus funds and selection of a bank depository are on the agenda.

Trustees will study 1955 and 1962 bond issues and payment of bonded indebtedness.

Other items include:

Ratification of existing office space lease agreements; employment of personnel; setting the time of regular meetings; signing of checks by two members of the board; discussing bill paying procedures; and organizing the board of equalization.

You can deal with the largest auto insurer in Texas, and get fast, friendly claim service, but it'll cost you.

Probably less.

People are often surprised to find that State Farm, the world's largest auto insurer, has such low rates. Right here in Texas, for most drivers, they have the lowest rates among the major companies...15% less than the rates set by the State Board of Insurance. Combine that with State Farm's prompt,

efficient claims service, and 11,500 agents to serve you from coast to coast, and you've got a car insurance value you can't afford to pass up.

Why not look up the State Farm agent near you and see how much he may save you? He's in the Yellow Pages.

Like a good neighbor, State Farm is there.

GRITTY GARY PLAYER Wins Famed Green Jacket

17th Hole Wins It For Player

AUGUSTA, Ga. (AP) — Gary Player was striding down the 17th fairway at the Augusta National Golf Club, a white cap pulled over his eyes, and was pondering his second shot to a hard, fast green that had been his nemesis for nearly two decades.

"I haven't hit this green six times in the 18 years I've been playing here," he said to his caddie, Eddie McCoy. "But it won for me in 1961 and it's going to win for us again."

The little South African, dressed in black from neck to shoes, took a deliberate stance and let fly with a nine-iron.

The ball described a beautiful arc and plopped to within six inches of the pin—a virtual tap-in for a birdie three.

That one dramatic shot broke the logjam among four leaders Sunday and decided the 38th Masters Tournament, Player winning it at 10 under par—two strokes ahead of Dave Stockton and Tom Weiskopf.

Player, 37, from far off Johannesburg, repeated a victory he first scored in 1961—a record 13-year gap—and fixed his sights on new horizons.

"This gives me the first leg on the Grand Slam," Player said, referring to the four major championships—U.S. and British Opens, the PGA and Masters—which no man has ever won in a single year.

"At least, I am the only man with a chance this year to win it."

It is the last major goal also of Jack Nicklaus, holder of a record 14 major championships who made a spectacular come-from-behind stab at a fifth Masters' crown with an eagle

at the par-five 13th, only to falter with bogeys at the 14th and 16th.

At one stage in the exciting Easter Sunday showdown, Big Jack, Player and Weiskopf were tied for the lead with Stockton only a stroke behind and pressure building from such sources as Bobby Nichols, Frank Beard, Jim Colbert, Phil Rodgers and Dave Hill.

Player finished with a 278, the first prize of \$35,000 and the traditional green Masters jacket, which was a couple of sizes too big.

Weiskopf and Stockton tied at 280. Nicklaus tied for third at 281 with Irwin and Colbert. Nichols and Rodgers were at 282 and a happy Englishman, Maurice Bembridge, shot a record-tying 64 to finish at 283 with Hubert Green.

Arnold Palmer, a four-time winner seeking to recapture some of his old glories, shot his best round in the Masters since 1962 with a 67 but finished at 284.

Player planned to fly out immediately with his wife, Vivienne, and five of their six children, for the Spanish Open, record 14 major championships. But his main sights will be on the U.S. Open in June at Winged Foot in Mamaroneck, N.Y.

Player already has two British Opens (1959, 1968), two American PGAs (1962, 1972), two Masters (1961, 1974) and one U.S. Open (1965). Nicklaus' 14 major crowns include at least three of everything except the British Open.

Coach Mugged, But Flyers Finish Series With Flames

By The Associated Press

Philadelphia Coach Fred Shero got mugged in Atlanta, then the Flyers went out and gagged the Flames. . . with the help of the National Hockey League's "bad boy," Dave Schultz.

With Shero back in Philadelphia recovering from the attack outside an Atlanta hotel Saturday night, the Flyers ended the Flames' playoff hopes Sunday night, beating them 4-3 on Schultz' goal at 5:40 of sudden death overtime.

The victory gave the Flyers a four-game sweep of the scheduled best-of-seven quarter-final Stanley Cup series and put them into the semifinals against either the Montreal Canadiens or New York Rangers.

The Rangers squared their series against Montreal at 2-2, rallying for a 6-4 victory over the Canadiens Sunday.

The other semifinal will send the Boston Bruins against either the Chicago Black Hawks or Los Angeles Kings. The Bruins eliminated Toronto in four straight games with a 4-3 overtime triumph Sunday, while the Kings gained their first victory in four games against Chicago with a 5-1 decision as Tom Williams fired in three goals.

Boston Slugs Knicks In Repeat Of '73 Tilt

BOSTON (AP) — The New York Knicks are hoping that history repeats, but with captain John Havlicek healthy and in top form, the Boston Celtics figure to be even tougher this year in the National Basketball Association's Eastern Conference playoff final.

The Celtics got off to a quick start in the best-of-seven series, whipping the Knicks 113-88 Sunday with a tough defense and hot shooting. The teams will play Game 2 in New York Tuesday night.

The series opener was virtually a replay of the first game between the same clubs last year, the Celtics drubbing the Knicks 134-108. However, the Knicks rebounded in New York 129-96 in the second game and went on to win the series and the NBA championship.

Boston Slugs Knicks In Repeat Of '73 Tilt

Havlicek, a superstar, suffered a shoulder injury in the third game last year and the Celtics were unable to compensate. The shoulder mended during the off-season and the 12-year pro from Ohio State is flying.

Dividing his time between a forward position and the backcourt, Havlicek scored 25 points, collected 12 assists and grabbed four rebounds before being removed with 9:15 left and the Celtics in command with a 93-64 lead.

"Havlicek did it all," said New York star Walt Frazier. "He's always moving, and can make shots on the run. You can't get the best position on him and he still gets the ball off. You can't relax on him. We're going to have to stop the Celtics from running. We didn't today."

Steers, Midland Tangle Tuesday

The Midland High Bulldogs, apparently interested in reclaiming their Dist. 5-AAAA crown, try to take another step toward that goal Tuesday when they visit Big Spring's disappointed Steers.

Game time is 4:30 p.m. at Steer Park for the 5-AAAA clash, while elsewhere in the league Tuesday first half champion Odessa Permian tries to get back into the race against Abilene. Cooper is at Odessa and San Angelo visits slumping Midland Lee.

Earl Reynolds, who tossed a two-hitter as the Longhorns blanked MHS 5-0 two weeks ago, will be on the mound again today for the Steers. But the Midlanders aren't likely to be as easy this time around, as they've won three of their last four games and stand 9-11 on the year.

Coach Mugged, But Flyers Finish Series With Flames

blanking the Cougars 2-0. The winner of that series will face the winner of the Cleveland-Toronto series in the semifinals. Cleveland edged the Toros 3-2 in overtime Saturday, but Toronto still leads the series 3-1.

The 49-year-old Shero, jumped by two men following a team meeting, suffered only a few scratches, but he complained of feeling dizzy and went home to rest.

Then the notorious Schultz, who set an NHL record with 348 minutes in penalties this season, went out and attacked the Flames slapping an eight-footer past Atlanta goalie Phil Myre for the winning goal, capping a Philadelphia comeback from a 3-0 deficit.

MAZDA INTRODUCES A LONGER ENGINE WARRANTY.

After 14 years of development and almost three-quarter of a million cars on the road, the rotary engine has proven to be so dependable, we now warrant the engine for 50,000 miles or 3 years.

Mazda also offers a unique driving experience. The rotary engine is smooth, quiet, responsive and economical. Recent mileage tests by *Motor Trend*® showed on the cars tested that the Mazda RX-4 Hardtop, with standard transmission, gets about the same fuel economy as the Gremlin with automatic, better than the Chevy Nova with automatic or the Mustang II V-6 stick shift, and far better than the Dodge Dart automatic.

This warranty is free with all new rotary-engine Mazdas—sold on or after March 26, 1974.

Mazda now offers a non-transferable warranty that the basic engine block and internal parts will be free of defects, with normal use and prescribed maintenance, for 50,000 miles or 3 years, whichever occurs first, or Mazda will fix it free. *Motor Trend Magazine, March '74.

Wynn Leads Dodgers Past Former Mates

HOUSTON (AP)—Jim Wynn says it sure feels good to have a hand in beating the Houston Astros.

Wynn contributed a home run and a triple to a 15-hit Los Angeles attack against his former teammates Sunday as the Dodgers beat the Astros, 7-2.

"It was a thrill," said Wynn, who was traded to the Dodgers for pitcher Claude Osteen during the winter. "Anything I do against them (the Astros) will be a thrill."

Besides his homer and triple, Wynn also scored three times as the Dodger pitcher Tommy John upped his record to 3-0 with a seven hitter.

John went all the way and retired 13 consecutive batters during one stretch. The Astros' two earned runs were the first of the season against the left-hander.

Ron Cey had three hits for the Dodgers while Dave Lopes, Steve Yeager and Steve Garvey each had a pair. Garvey had a ninth inning home run.

Houston starter Dave Roberts was tagged for five earned runs and nine hits in four innings and suffered his second loss against one victory.

Los Angeles scored in the first off Roberts on Cey's single following Wynn's triple. Bill Russell and Lopes each singled in a run in the fourth and Bill Buckner knocked in a pair with a single in the fifth off Astros reliever Mike Nagy.

Bob Watson and Ollie Brown led Houston with two hits each. Brown's single after Watson's single and a walk produced a second inning run for the Astros but Houston did not score.

Texas Adds Boyette

HOUSTON (AP)—The Houston Texans of the new World Football League have announced the signing of former Houston Oilers linebacker Garland Boyette.

Boyette is the fourth National Football League graduate and the 14th player overall signed by the Texans.

A Texan spokesman said Sunday Boyette, 32, a 6-2, 235-pounder, signed a multi-year contract. He is coming off a knee injury that ended his comeback try with the Oilers last season.

again until the ninth when Cesar Cedeno doubled, moved to third on a ground out and scored on Lee May's sacrifice fly.

Wynn's solo home run in the sixth inning—his first against the Astros and his fourth of the young baseball season—came off Houston reliever Fred Scherman.

Garvey's blast in the ninth was given up by Jerry Johnson, Houston's fourth pitcher.

John said his 3-0 start is not his best in the major leagues. He recalled 1968 when he was with the Chicago White Sox and was 7-0 at the All-Star break but ended up 10-5.

"I got hurt," he said. "I got in this fight with Dick McAuliffe (of Detroit) and I separated my shoulder."

was given up by Jerry Johnson, Houston's fourth pitcher.

New Swim Star Emerges From AAU Indoor Meet

DALLAS (AP)—America's new swim star emerged Thursday night. She discovered a new women's swimming sensation and participated in only two previous AAU meets, that wasn't even in the AAU press guide.

Miss Franks' fairytale story climaxed a four-day sack of American records by America's gal swimmers. They established 15 of the new standards posted in the meet ending Saturday night which saw 22 marks fall.

Now, the American girls are taking dead aim on competition with the East German women swimmers who humiliated them in the World Games last summer in Belgrade. The East German women, wearing skin-tight, see-through swimsuits, bagged 10 gold medals to three for the Americans.

The American girls are using the skin-tight suits themselves and going faster than ever.

"I think this means the East Germans aren't as far above everybody as people thought," said Lynn Colella, one of the American record holders. "We were on top and thought we were going to stay there. They (The East Germans) got us moving again."

She added "American girls are driving now instead of waiting for the 1976 Olympics to get ready. The East Germans have scared us with their times. Now, American girls want to prove they can match those times without having to take drugs and other things the East Germans are doing."

Shirley Babashoff, who set two American records here, said "We were all a little disenchanted after Belgrade. But we'll be back up there—this meet proves it."

Flip Darr, who will coach the United States team in the dual meet against the East Germans, said "It's the most dramatic drop in times we've ever had in any year."

She was such an unknown, having participated in only two previous AAU meets, that wasn't even in the AAU press guide.

Miss Franks' fairytale story climaxed a four-day sack of American records by America's gal swimmers. They established 15 of the new standards posted in the meet ending Saturday night which saw 22 marks fall.

Longhorns Rise To Top In SWC Baseball Race

Texas had a cleaner shot at the Southwest Conference baseball championship Monday after Texas Tech took two games of a series of three with Texas A&M over the weekend.

The Raiders split a weather-delayed doubleheader Sunday with the Aggies, winning the first game 4-1 but allowing the Aggies to pick up the nightcap 5-3.

The Longhorns now lead Texas A&M by a full game. Houston and Rice had all three games of their weekend series postponed by rain and wet grounds. They tangle today and Tuesday instead.

Texas Christian jumped into third place in the SWC behind Texas and Texas A&M with 6-5 and 6-3 decisions Saturday over the Arkansas Razorbacks.

Southern Methodist finally won another game, splitting a doubleheader with Baylor Saturday. The Ponies won the first game 6-5 but Baylor rose up to take the second game 6-3.

It was SMU's second consecutive victory in 18 games.

Conference All Games W L Pct. W L Pct.

Lost Week's Results

Tuesday—Arkansas 9-0, Southwest Missouri 5-8, Houston 5-4, Cornell 4-5, St. Edward's 3-4.

Wednesday—Texas A&M 14-9, Cornell 2-14.

Thursday—Texas 9-24, Southwestern Louisiana 5-8.

Friday—TCU 8, Arkansas 2; Baylor 9, SMU 1; Texas Tech 15, Texas A&M 13; Texas 5-4, Southwestern Louisiana 1-3; Houston at Rice, PPD, rain and wet grounds.

Saturday—TCU 6-6, Arkansas 5-3; SMU 6-3, Baylor 5-6; Houston at Rice (2) p.d., rain and wet grounds; A&M at Tech (2), p.d., wind and dust.

Sunday—Texas Tech 4-3, Texas A&M 1-1.

This Week's Schedule

Monday—Houston at Rice (2), Arkansas at Evangel College (2).

Tuesday—Houston at Rice, Baylor at Sam Houston (2), SMU at Texas-Arlington, TCU at Oklahoma (2).

Friday—Tech at Arkansas, Houston at SMU, Texas at TCU, Rice at A&M.

Saturday—Tech at Arkansas (2), Houston at SMU (2), Texas at TCU (2), Rice at A&M (2).

JIM WYNN

Birds And Bees Go To Ball Games, Too

Major league baseball found out about the birds and the bees Sunday.

The American League got the bird while the National League got the bees.

A swarm of bees in San Diego took over the home plate area in San Diego, briefly delaying the Padres' game against San Francisco—but that's another story.

The bird was a victim of a "fowl" ball hit by Detroit's Willie Horton. And the Tigers were the victims of a couple of balls hit very fair... and very far.

by Boston's Carl Yastrzemski, carrying the Red Sox to a 7-5 triumph.

In other American League games, Minnesota maulled Kansas City 8-0 and California trimmed Chicago 6-3 and, in a pair of doubleheaders, Oakland topped Texas 4-2, then the Rangers rebounded 10-2 in the nightcap, and the New York Yankees whipped Cleveland 9-5 before the Indians took the second game 9-6. Baltimore's game at Milwaukee was rained out.

Red Sox 7, Tigers 5

The ball, hit by Horton struck and killed a pigeon passing over Old Fenway Park, landed only a few feet from home plate.

The pop up by Horton in the ninth inning hit the pigeon, which fell dead immediately in front of home plate.

"It scared the hell outa me," Horton said.

TEXAS FIRST GAME

Oakland 9-0

Los Angeles 6-3

San Diego 4-2

San Francisco 5-4

Seattle 4-3

Minnesota 8-0

California 6-3

Chicago 6-3

Philadelphia 3-2

Pittsburgh 1-7

Cleveland 9-5

Washington 1-1

Baltimore 9-6

Detroit 3-3

Boston 4-2

New York 4-2

Los Angeles 7-2

San Francisco 5-4

said Boston catcher Bob Montgomery. "I jumped a foot in the air—and Willie jumped even higher."

What killed the Tigers was Yaz' bat. He drove in two runs in the first inning with a booming double and later scored on Dwight Evans' home run.

A's 4-2, Rangers 2-10

Reggie Jackson cracked two home runs, the second one a split.

three-run eighth-inning job, to boost Oakland past the Rangers. He's hit five homers this year, all against Texas.

In the second game, though, it was Dave Nelson who feasted. He drove in six runs with a three-run homer, a two-run single and a sacrifice fly, to bring the Ferguson Jenkins and the Rangers a twinbill split.

FORD COURIER

...the gutsy little pickup from the No.1 truck dealers.

Courier shown with optional striping, wheel covers and mirrors.

When you're No. 1 in trucks (see below), you don't sell just any small truck. Ford Courier's rugged frame has box-section rails and 7... yes, 7... cross-members. Its big 74.5 in. x 62.2 in. steel box is all welded. An independent front suspension features big coil springs and a stabilizer bar. Double-acting shocks are standard, front and rear. There are long, wide 6-leaf rear springs. The transmission's a fully synchronized 4-speed. And you get all this in a pickup with a comfortably roomy cab over a long, ride-smoothing 104.3-inch wheelbase.

4-cylinder 1800-cc. engine has aluminum alloy head... 5 main bearings for rigidity, strength.

Snap-down bed liner option of durable indoor-outdoor material offers carpeted comfort.

Deluxe box cover with its tinted side windows is a popular option. Others: automatic transmission, air conditioner.

Miller, Keyes Purchase Carver Pharmacy Here

Larry Miller and Vick Keyes, Okla. in 1970. Miller, a native of Big Spring, has worked at Carver's for 11 years. Keyes has worked at the pharmacy for the past year since moving Pampa native.

Miller and Keyes graduated from Southwestern State School of Pharmacy in Weatherford, Tex. They will continue with the same qualified staff and also will offer in addition to the pharmaceutical service, delivery service and family records.

They have gifts, candy and greeting cards. They also offer a complete line of L'Oreal Products and urge you to try these cosmetics.

The name of the pharmacy will remain the same. They invite their regular patrons as well as new customers to drop by their store at the corner of 9th and Nolan. Or call 3-7417.

STILL READY TO SERVE — This crew is still at Carver's pharmacy. In the group are the two new owners of the facility located at the corner of 9th and Nolan.

Bike, Cycles Love Spring Season, Just Ask Cecil Thixton About It

Spring is the time for motorcyclists and bicyclists. This may be why they have selected a spring month for bike month.

But cyclists of every description have always loved spring. Ask Cecil Thixton at his Harley-Davidson Shop at 908 W. 3rd. He's a real pioneer motorcyclist with years of cycling behind him.

He recently was dismissed from the local hospital and is glad to be back among the Harley-Davidson Shop at 908 W. 3rd. He's a real pioneer motorcyclist with years of cycling behind him.

His shop features Vista and Schwinn ten speed and five speed and regular bicycles.

They also offer the Harley-Davidson motorcycle. If you watched Evel Knievel jump his motorcycle across that line of cars and trucks on national television lately, you saw a Harley-Davidson in action.

If you want to look over the latest Harley-Davidson motorcycles, drop by Cecil Thixton's or call 3-2322 for additional information.

TWO FOR THE ROAD — This smiling couple, like many, many Americans will be taking to America's streets and highways to celebrate American Bike Month this May.

NOW, THAR'S A BIG GAME IF I EVER SEEN ONE

BUZZ SAWYER

FIRST DAY IN ISTANBUL, BUZ TAKES IN THE SIGHTS: ST. SOPHIA... 1000 YEARS OLDER THAN ST. PETER'S IN ROME...

...THE HAREM QUARTERS IN TOPKAPI PALACE... THE FOUNTAIN OF AHMET III...

WHEN HE GETS DOWN TO BUSINESS...

I REPRESENT A COLLECTOR OF RARE GREEK AND ROMAN COINS...

AH, YES, COME, I SHOW.

MARY WORTH

ON AN IMPULSE, PEGGY WALES WAS STOPPED IN AT HER FORMER PLACE OF EMPLOYMENT...

HI, PEG! LOOKS AS IF LOAFING AGREED WITH YOU!

LOAFING? I'LL BET SHE JUST TRADED ONE SALT MINE FOR ANOTHER!

WE'RE ALL GLAD TO SEE YOU! I WAS SHOPPING MR. DURHAM, AND THOUGHT I'D SEE IF ANYTHING HAD CHANGED HERE EXCEPT THE CALENDAR PAGES!

YOU PICKED A PERFECT POINT IN TIME! I WANT TO TALK TO YOU, PEGGY! - COME INTO MY OFFICE!

R. X. MORGAN

AT JANIE'S SUGGESTION, SHE AND THE GOVERNOR DECIDE TO DRIVE JUNE GALE HOME.

YOU GET UP FRONT WITH DAD - AND I'LL GET IN THE BACK, JUNE!

DO YOU KNOW WHAT I'M GOING TO BECOME A NURSE?

THAT'S A NOBLE PROFESSION, JANIE!

I WANT TO GO TO THE SAME NURSES' TRAINING SCHOOL THAT YOU WENT TO, JUNE.

I'LL BE MORE THAN HAPPY TO RECOMMEND YOU!

L'L ABNER

ALWAYS LEAD WITH RIGHT FOOT. LEFT FOOT - SHUDDER!! - BRING HURRICANE!!

THAR GO TH' DANCE - AN' H-HERE COME TH' HURRICANE!! OH, WILL THET STOOPID INJUN SOOPERSTISHUN DO US ANY GOOD?

BLONDIE

DAGWOOD, I WANT YOU TO LOOK AT THIS CUTE DRESS I BROUGHT HOME ON APPROVAL.

WELL, I DON'T APPROVE!

ALL RIGHT, THEN YOU DON'T HAVE TO WEAR IT! I WILL.

SOMEHOW I THINK SHE MISSED MY WHOLE POINT

BEETLE BAILEY

BRAACKKKK!

WHEN REFUSING THE CATCHER'S SIGNAL, BEETLE, A MERE SHAKE OF THE HEAD WILL DO

ANDY CAPP

GIVE IT UP, ANDY - IT'S JUST A CRUTCH!

THAT'S RIGHT! AN' THESE DAYS, WHO ISN'T LIMPIN'!

WIZARD OF ID

I HAVE AN ACHE, STUFFY FEELING, WITH WATERY EYES AND THROBBING HEAD...

...I'M JITTERY, AND HAVE LOWER BACKACHE, NEURITIS, NEURALGIA AND IRREGULARITY...

WHAT DOES IT SOUND LIKE, DOC?

A NEW SET OF CLUBS AND TWO WEEKS IN THE SWIM FOR THE LITTLE WOMAN AND MYSELF.

HEDWAY CLEANING SYSTEMS OF AMERICA

If you are new in business of any kind and would like to expand to a new and fantastic business, do not fail to discover this. A small investment (\$296 to \$7500), good credit will give you the following:

1. Truck and all equipment for a successful operation.
2. Setting up your first accounts to guarantee success.
3. Training on site on all equipment.
4. Monthly income in excess of \$2,000.
5. Financial security for you and your family.
6. A business at your own.
7. A business that repeats month after month.

Hedway Cleaning Systems of America is an exciting High Pressure Hydro-Laser cleaning equipment that cleans anything. Trucks, trailers, air-line road equipment, large kitchens, homes, rack, brick, and masonry buildings, etc. If you enjoy outside work and can qualify, call collect (512) 828-1882 for more information or write for brochure.

NOW IN DICTIONARY To Understand Japanese, You Must Speak English

TOKYO (AP) — A night baseball game is a "nitah," an air conditioner is a "koolah," a dirty movie is a "porno" and if a girl is in the Mudo she can go to a beauty shop and get a "perma."

The country where this language is spoken is Japan, and some people say that unless you speak English, you'll never understand modern Japanese.

Staying "upatodatu" in Japan is complicated by the firm conviction that foreign language — French, German, Spanish and above all English — are classy.

Old people complain they're unable to understand television ads, and those out of the country a few months say they have a lot of catching up to do when they get home.

HAD 535 PAGES

One of Tokyo's major newspapers reserves space in each day's edition to explain new foreign words used in that paper. These are combined into a dictionary published at year's end. Last year it was 535 pages.

That can get technical, with words like capital gain — "Kyapitaru gein" — and syn-dicated loan — "shinjuketo ron."

"There are some people critical of the introduction of foreign words, but they are in the minority," says a Japanese linguist. "I put them roughly in two main groups: conservative elderly professors and college-educated housewives."

"Why housewives? I don't really know. Perhaps they want to show others that English words are anything but special to them, having been to a university."

"And then there are the emotional complaints in newspaper 'Letters to the Editor' columns. A middle-aged person will write in saying he ordered a hot coffee in good

Japanese at a coffee house, only to hear the water shout back to the cook, "One hotto!"

Another Japanese said foreign words are borrowed because they have the connotation of good quality. "French words are used by the fashion industry here because France has a fine reputation in that field."

"Likewise, many English words are used for cars and machinery."

But it's not just the long words of science and industry which are imported. It's the flood of foreign words and titles applied to everything from mailboxes — posto — to electronic remote control — remocon.

BORROWED WORDS

The words are used freely in college lectures and in television newscasts. "Many of these words, such as ice cream or hamburger, were borrowed because the objects they describe were new to Japan. Others, like 'i-dee-oro-je' — ideology — were imported into Japanese because our word for it may have been too broad in meaning and the foreign word was more precise," one Japanese professor commented.

"But sometimes we completely Jananize the word so that Americans have difficulty identifying it in our daily conversation."

Oldtimers recall that immediately after World War II, the Japanese — although somewhat fearful — accepted the in-mouring of American occupation troops with no outward sign of hostility and adapted quickly to things American. That started the popularity of English words.

Most words Japan borrows from English are just names of things; English words often shortened, and spelled in the Japanese alphabet.

But it goes further than that.

Water Quality Hearings Set

Applicants for amendments to existing waste control orders held by the cities of Sweetwater and Snyder, and a request for a new permit for a livestock feeding operation near the City of Hereford, are scheduled for consideration at a Texas Water Quality Board public hearing in Lubbock on Tuesday April 16.

The hearing is to be held in Room 201 of the City Hall Council Chamber starting at 10:00 a.m.

Al Smith Feed Yards of Hereford, operating a 500-head capacity feeding operation located adjacent to the city limits of Hereford in Deaf Smith County, is asking for a waste control order pertaining to a ponding runoff water containing wastes from seven acres of beef cattle feeding pens and associated area.

The City of Sweetwater currently operates a sewage treatment plant east of the city which is permitted by the Texas Water Quality Board, and now wishes to register two plants west of the city which were constructed by the U.S. Government in 1957 to serve a pilot training base and now as a technical training institute. The effluent would be used for irrigation.

The City of Snyder is seeking to amend a permit to allow for a 250,000 gallon per day average portion of the 2,000,000 gallon per day average permitted discharge of treated domestic sewage effluent to be routed from an oxidation pond to the Western Texas College golf course for irrigation.

The plant normally discharges into an unnamed creek adjacent to the plant site, and then into Deep Creek, Big Sulphur Creek, and the Colorado River.

Harlow Departs

KEY BISCAIYNE, Fla. (AP) — President Nixon's long-time political adviser Bryce N. Harlow has left his job as White House counselor to return to Procter & Gamble Manufacturing Co. as vice president.

Visitors In Superdome To Get Home Comforts

By JAY SHARBUTT
Associated Press Writer

NEW YORK (AP) — So you think a 30-inch screen is a real bonanza for TV viewing? Stay tuned, Bunky. You ain't seen nothing yet. How about a 75-ton TV set with six screens, each 26 feet wide and 22 feet high?

Agreed, it's not the sort of thing you'd put in the living room. In fact, it only will be installed in the new \$163 million Louisiana Superdome they're currently building in New Orleans.

But it's intended to bring all the comforts of home viewing, even slow-motion replays, to the 80,000-plus souls Superdome officials hope will visit their emporium to watch sports and other events live.

The officials hope to have it working by Jan. 12, 1975, when, if the Superdome is completed, pro football's Superbowl 9 will be held in the 26-story enclosed arena.

The video monster, which

costs an estimated \$1.3 million, doesn't work like your conventional television system, according to Bob Jones, an ex-TV newsman who now is the Superdome's director of television.

There'll be conventional TV cameras on the field for close-up action, but that's where convention ends. He says the signals will be piped to a control room, then to six massive, Swiss-made projectors located at strategic points on the arena's fifth floor.

The projectors then will cast the images on the giant screens hanging in a circle from the center of the Superdome. Officials claim it'll give a spectator in the most remote seat a view akin to what he'd see were he sitting in front of a three-foot TV screen at home.

"We can do anything with this system that commercial television can do," says Jones.

Alas, that also includes commercials, which Jones says probably will run only 30 seconds and be flashed on the

screen only during breaks in whatever action is afoot down on the field.

The commercials are expected to net the Superdome \$210,000 next year, he said.

Has anyone raised the point it might seem a bit ironic to go to a stadium and pay money to watch a game on television?

"No, not really," Jones laughed. "I've had some thoughts about it, but I was absolutely amazed when I saw a system vaguely like this at the Capitol Arena in Maryland, just outside Washington."

The attraction was a circus, he said, and he was struck by the interest of spectators in the arena's four TV screens.

"I was sitting at one end, fairly high up, and I got a better view of some of the acts on the screen than actually looking at the acts themselves," he said.

"What I got was the atmosphere and spontaneity of sitting there, yet I got a nice close-up picture when I wanted one."

Police Policed By Detective

Paramount Pictures' "Serpico," the explosive and true-life dramatic tale of New York City detective Frank Serpico, starring Al Pacino in the title role, is showing at the R-70 Theatre.

The Dino De Laurentiis Presentation recounts the detective's determination to fight the corruption and bribery rampant among his fellow officers. Serpico eventually divulged the shocking details to The New York Times where the expose led to the formation of the investigative Knapp Commission and an internal house-cleaning of the system.

Geologist Dies

SANTA MONICA, Calif. (AP) — William W. Rubey, 75, a geologist and a past president of the Geological Society of America, died Friday of cancer. Known for his studies on the origin of oceans, mountains and continents, he was awarded the National Medal of Science in 1965.
