

# Death Of Rancher Revenge Killing?

ROBY, Tex. (AP) — A West Texas rancher whose authorities said was on an escaped convict's death list was shot and killed Saturday — a day after he warned authorities he might be in danger. Authorities said rancher T.L. Baker, 65, was shot to death after being accosted by three armed men on his ranch near here Saturday morning. The rancher's son Gary was left tied up but unharmed. A search was launched for three escaped convicts, including Dalton Williams, 29, who police said had burglarized Baker's home last year.

IDENTIFIED The other convicts were identified as Jerry Almer, 22, and Richard Magnum, 22. Almer and Williams were former residents of Snyder, about 50 miles west of here. Baker also had been a witness in another burglary case involving Williams last year, authorities said. Williams and another man had been charged with burglarizing the Baker home and taking several guns. Baker reportedly later identified the guns as those used by Williams in another burglary.

A spokesman for the Stonewall County Sheriff's office said Baker had come to the office Friday night and told officers that he had heard that Williams had escaped from prison and was "coming to get" him and others at Rotan. Sheriff's officers, however, could not confirm at that time the reports of Williams' escape. Authorities learned of the shooting after Baker's son managed to free himself from his bonds and drove into town to notify authorities. Sheriff's deputies rushed to the Baker home and found his body next to that of his dog, also shot.

In Canon City, Colo., State Penitentiary Warden Alex Wilson said Williams had left a death list at the penitentiary before he escaped and that Baker was on the list. Authorities said Williams was charged with assault and was serving an indefinite term. Magnum was serving three to five years for car theft and Almer was in prison for life on a murder conviction. Wilson declined to identify others on the list but said it "involves a lot of people here in Colorado as well as Texas."

Wilson said all the people on Williams' list "are being watched pretty closely." The trio escaped Thursday night but not until hours later when dummies were discovered in their bunkers.

Streaker Dies EL DORADO, Ark. (AP) — Police said Fred M. Jackson, 46, of Omaha, Neb., was struck and killed by a truck as he ran naked down U.S. 82 here Friday.

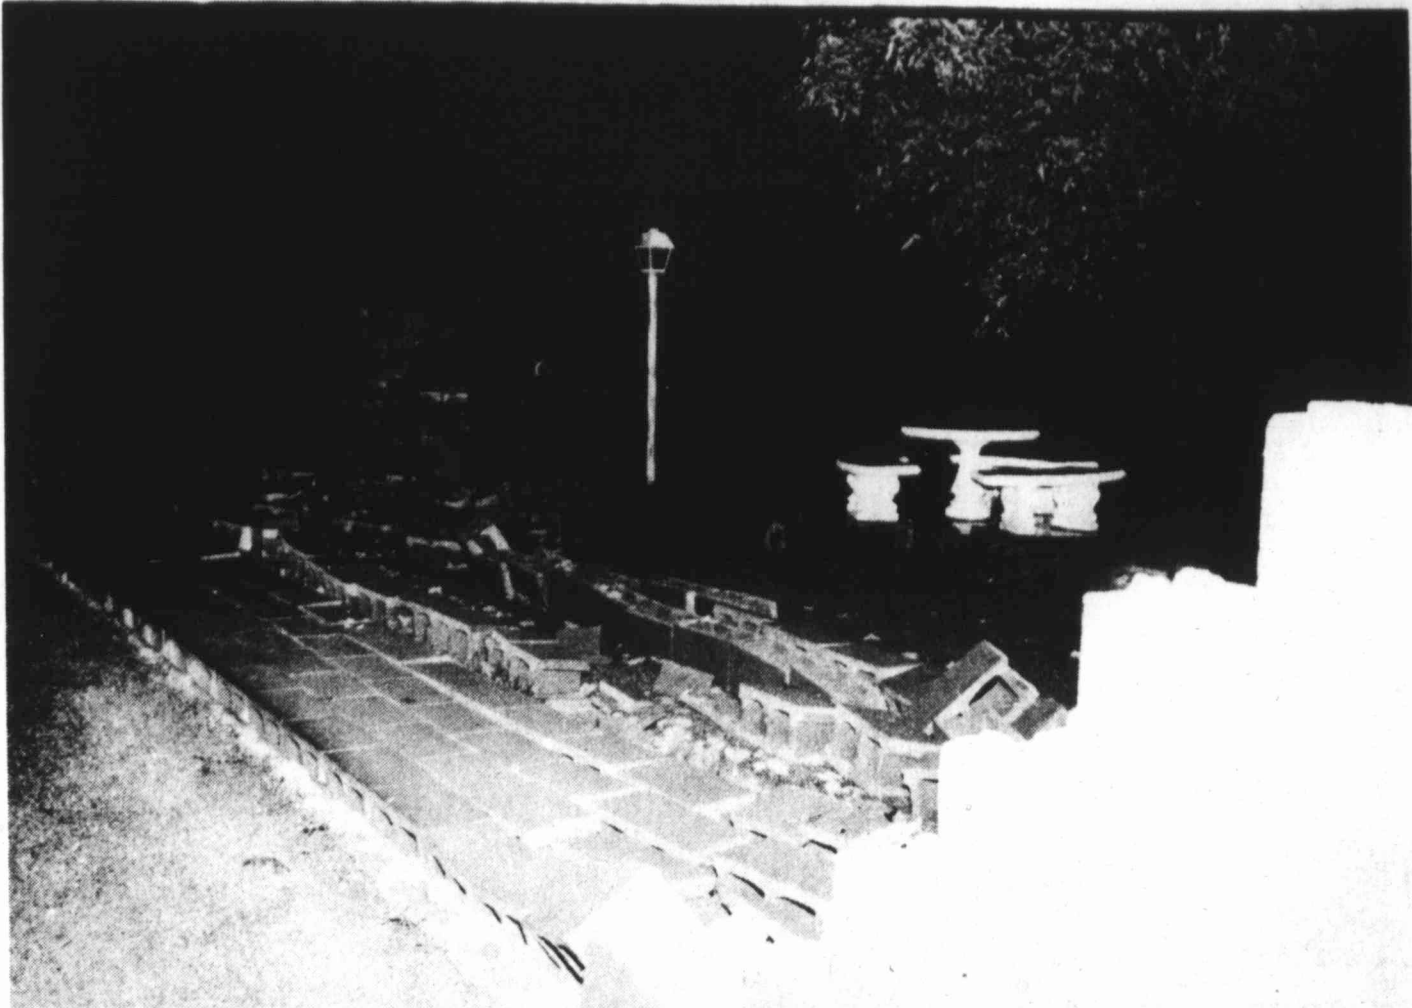

The truck was driven by Marshall D. Wolfe of Paris, Tex., officers said.

Plateau Is Achieved Although the number of contributors was down, the volume of support for the Bible Class Fund continued well Saturday as the total pushed past \$3,000. Out-of-town contributions came in, and one donor said "we are so thankful we can have a part in Bible study. May God bless every effort for this."

You can join hands by sending your gift to the Herald.

Man Drowns At Spence A man identified as David Klepper, 59, of Rotan drowned at Lake Spence at 12:50 p.m., Saturday. The body was recovered at 1:20 p.m. The drowning occurred in Wildcat Creek near the south side of the lake, which is located near the town of Robert Lee. Klepper's boat apparently drifted out into deep water and he started swimming out to retrieve it, when he went under.

CHARGED — Charles Yuki, 39, above, was charged Saturday in New York in the death of Karin Schlegel, 23, of Cresskill, N.J., whose body was found Tuesday. Yuki has served a previous prison term of seven years for the murder of another young woman, according to authorities.

CAVED IN FENCE — A concrete tile fence belonging to M. O. Hamby of 1952 Purdue caved in during the winds that accompanied heavy rains in the east part of town Saturday evening. Damage was heavy in other parts of town, too, and rainfall measured as much as 2.25 inches. (Photo by Danny Valdes)

## Showers Hit BS And Area

Threatening clouds all afternoon Saturday finally delivered at about 7:30 p.m. as a thunderstorm sporting light hail, heavy rain and high winds topped South Mountain and proceeded across east Big Spring, traveling north, leaving high water, wind damage, and up to two inches of rainfall in its path.

Shortly before the storm hit, an confirmed sighting of a tornado in the air over South Mountain was reported, but apparently the tornado stayed in the air, as all the damage appeared to be from straight winds.

Perhaps the severest damage was done in the Kentwood section of the city where a camping trailer was overturned at 2608 Rebecca St. The trailer, owned by Dr. James Kuykendall, was estimated to have suffered \$500 to \$600 damage. Other damage in the Kentwood area consisted of air conditioners blown off houses and trees limbs broken off.

At the Gold Bond Stamp Store at Settles and 11th Place, a large plate glass window was shattered by the wind, causing some water damage to merchandise inside.

From there, the storm caused considerable damage southeast and east of the College Park Shopping Center.

In a two block stretch, two concrete block fences were blown down and a section of redwood fence was blown away. Concrete block fences belonging to Larry Schafer at 1719 Harvard and Mel Hamby at 1751 Purdue were blown down and a redwood fence belonging to J. M. Ringener at 1726 Yale was blown away.

A metal storage shed, staked down at 612 Tulane was blown off its foundation and was blown over the house next door and into the street. The building, valued at several hundred dollars, was a complete loss.

Most of the damage reported was located along a line from Kentwood northward through the east part of town, but windows were blown out of the Elmo Wasson building at 3rd and Main Street downtown and several traffic lights were turned around.

## Rocky's Kids Likely To Get SS Protection

### MORE SHOWERS?

Expect considerable cloudiness through Monday with a chance for showers and no important temperature changes. Lows are expected to be in the mid 60's and highs in the mid 80's. Chance for rain is 30 per cent Sunday and 20 per cent Sunday night.

## FOR FLIGHTS TO EUROPE Air Passengers Will Pay Extra 10 Pct.

GENEVA, Switzerland (AP) — The group that sets world air fares announced Saturday a plan in which passengers will be socked with an average 10 per cent increase Nov. 1 on the busy North Atlantic run.

It also agreed on a new base fare that will be tied to minimum charter prices on the route. The linkup is the first of its kind and is bound to bring a whooping increase in charter rates.

The charter operators will meet next month to complete work on the minimum charter price for the New York-London peak season round trip. A spokesman said it was expected to be around \$354.

The group, the International Air Transport Association, said the coordinated pricing plan, which is still subject to final governmental approval, was in line with government directives and was to end "cut throat" competition on the North Atlantic, where 30 per cent of all passengers have been using charters.

An association spokesman said it would mark the "first time that both wings of the industry will come under the same regulatory and pricing machinery. This is a step toward an integrated structure on the North Atlantic which will give everybody a fair chance."

Under the plan, the economy class roundtrip fare from New York to London during the peak summer season will rise from \$726 to \$764.

A one-way first class ticket from New York to London now costs \$542, and \$564 for a New York-Paris flight. The price of a tourist class ticket is dependent on the season. In August, a peak tourist month, a New York-Paris flight costs \$392 and New York to London is \$363.

ROCKEFELLER

WASHINGTON (AP) — Vice President-designate Nelson A. Rockefeller has quit flying in his own airplanes as part of the security measures that could eventually include protection for as many as 10 children.

The Secret Service began protecting Rockefeller less than 20 minutes after President Ford named him as his choice for vice president last Tuesday.

But permanent security equipment will not be installed in his homes nor will protection legally be extended to Rockefeller's immediate family until he is confirmed by Congress.

The costs of installing protective equipment at the suburban home of former Vice President Spiro T. Agnew led Congress to provide a government-owned house for vice presidents. Rockefeller would be its first vice presidential occupant. During his preconfirmation period, Rockefeller will be furnished full-scale protection on a step-by-step basis, a Secret Service spokesman explained.

As an early step in protection, the spokesman said, it was "strongly recommended" that military aircraft be utilized in lieu of private or commercial aircraft for reasons for security and control of the aircraft.

Rockefeller agreed. Whether he is at one of his homes or on the move, Rockefeller will be given the sort of protection that a president would get.

The Secret Service will consult with Rockefeller on his plans for his various houses before deciding where permanent security equipment ought to be installed following confirmation, the spokesman said.

And not until after confirmation will a determination be made of who in Rockefeller's immediate family will be protected.

Recently approved legislation extended Secret Service protection to the immediate family of a vice president but did not define "immediate family."

## Pusser Praised For Sin Crusade

ADAMSVILLE, Tenn. (AP) — Buford Pusser, whose crimefighting crusade made him a legend before he was buried beside his wife on Saturday as a Methodist minister compared his life to Christ's. "He was young and

manly and felt called to change jobs," said the Rev. Russell Gallamore, a close friend of the Pusser family. "He saw sins and vices and this struck a responsive chord. His vision was clear and strong and he steadfastly

went about righting the wrongs. "His life was savagely snuffed out like a candle and sadly, many rejoiced at his passing," said the Rev. Gallamore. Pusser, whose exploits during six years as McNairy County sheriff became the subject of the movie "Walking Tall," died in the flaming wreck of his auto early Wednesday. He was 36.

More than 600 mourners jammed in the small brick Adamsville Church of Christ and gathered on the church grounds as Pusser's body lay in a bronze casket in the sanctuary Saturday. Hundreds of friends and the curious passed by the \$6,000 casket during the night and up to the hour of the funeral. Floral wreaths lined both sides of the sanctuary and crowded behind the casket. Pusser was clad in a dark suit.

His parents, Mr. and Mrs. Carl Pusser, and his 13-year-old daughter, Dwanna, were among the last to enter the church. They sat in the front row with other family members and close friends. Among the pallbearers was former Congressman Ray Blanton, the Democratic nominee for governor and a lifelong friend of Pusser. Uniformed police officers from Nashville, Atlanta, Mississippi, Alabama, Missouri and Ohio were also present.

Pusser's life ended not far from where it began in the rolling hills of West Tennessee. He was buried beside his wife, Pauline, who died in a 1967 ambush in which Pusser himself almost lost his life. When the wreck occurred on U.S. 64 east of Selmer, Pusser was returning home from Memphis after announcing that he would portray himself in a sequel to the movie "Walking Tall," which starred Joe Don Baker as the sheriff.

There were immediate rumors that Pusser's death was caused by sabotage. Pusser's actions during three terms as sheriff had brought several threats on his life.

Reviewing the . . . . .

## Big Spring Week

with Joe Pickle

Nothing, with perhaps the exception of our "Centennial" edition years ago, has prompted so many comments about the Herald as our shift to the offset printing process. The universal verdict: "I like your new paper." Not so happy were many with the delivery time, but we hope to do steadily better in this respect. Changing from hot metal to a cold type method was more of a composition step than anticipated, but we're learning. The Herald appreciates your patience, and we'll try to reward it with faster and better service.

Give the weatherman A for effort, F for results. Thundershowers bounced around most of the week, but with little benefit. At midweek one storm washed and battered a strip from south of Knot southwestward into central Martin County. Lamesa received an inch. The southwest part of town got a quarter of an inch Friday evening. In general, the drought hung on. One observer said it was so dry, the last rain only had a trace of moisture.

Police, in a good bit of work, turned up some arrests in connection with a wave of vandalism. At the end of the week, the rash of destruction appeared to have about halted.

(See The Week, Pg. 12-A, Col. 4)

## AGENCY SET UP

## More Inflation Resistance Due

WASHINGTON (AP) — President Ford signed a bill Saturday setting up his new wage-price monitoring agency and promised more action to beat inflation.

The new Council on Wage and Price Stability, which replaces the Nixon administration's Cost of Living Council, is intended to expose excessive wage and price increases by management and labor.

The council has no powers to impose controls and Ford emphasized, "this legislation is not the forerunner of wage-price controls."

The President got prompt action on this legislation, which he requested less than two weeks ago in an address to a joint session of Congress. He said it indicated the cooperative and constructive spirit between Congress and the White House in the effort to counter inflation, which he described as "Public Enemy No. 1."

Ford said members of the new council would be named immediately "so it can convene promptly and develop an agenda for action in the immediate future."

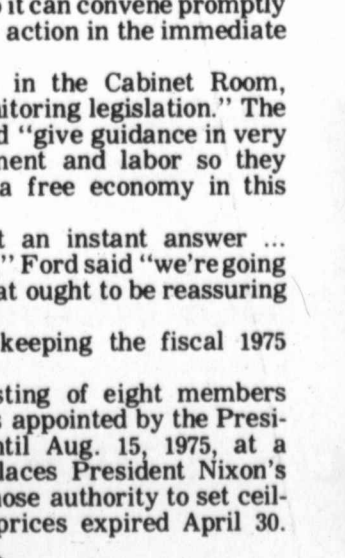

Before signing the bill in the Cabinet Room, Ford described it as "monitoring legislation." The new council, he said, would "give guidance in very broad terms to management and labor so they don't take advantage of a free economy in this critical situation."

Although this was "not an instant answer ... not an immediate panacea," Ford said "we're going to do some other things that ought to be reassuring to the American people."

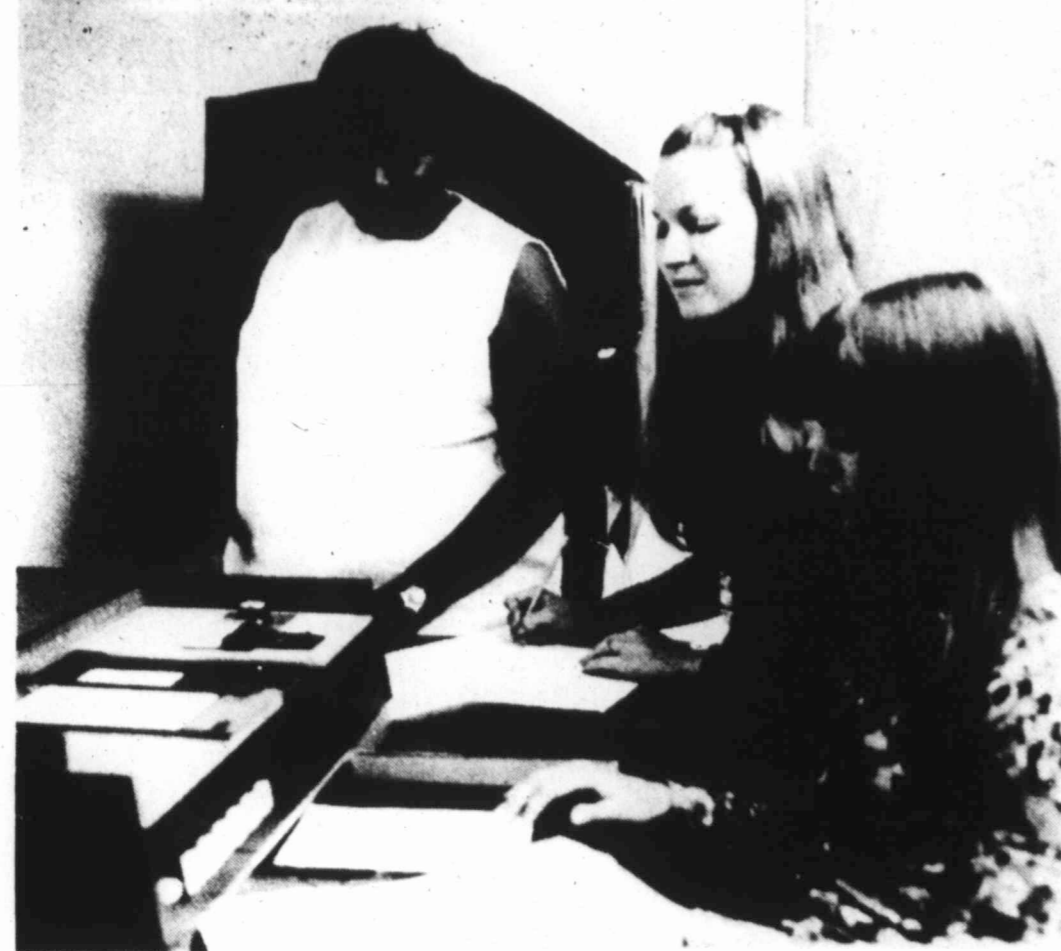

He said that includes keeping the fiscal 1975 budget under \$300 billion. The new council consisting of eight members and four adviser-members appointed by the President will be in effect until Aug. 15, 1975, at a cost of \$1 million. It replaces President Nixon's Cost of Living Council, whose authority to set ceilings on both wages and prices expired April 30.

## Nude Bathers Attacked

AURAY, France (AP) — Farmers armed with clubs attacked nude bathers on the beach at Erdevon on Brittany's Atlantic coast and several persons were injured, police said. The attack apparently followed resumption of fully nude bathing in the area after nudists and the municipality had agreed that swim trunks would be worn on the beach.

(AP WIREPHOTO)

NEW MICROFILM — Beverly Anderson, Jan Hyden and Janet Rennaux are shown looking over the new microfilm equipment at the City Police Station. The new complete record system was obtained through funding approved by the Permian Basin Regional Council.

## Bordello Madam Bids For Assembly Office

LIDA JUNCTION, Nev. (AP) — The woman rang the doorbell but didn't step inside. "I just stopped by to shake your hand and to let you know we're on your side," she said. "You have my vote."

The woman paused. — "and you have my husband's."

Beverly Harrell thanked her. She'll need every vote. She might not be the only shady lady, or gentleman, in politics. But she's honest about it. Beverly Harrell is a madam. She runs a bordello. And she says so.

Five-foot, blue-eyed Beverly is a candidate for the Nevada State Assembly. That probably makes her the only madam in politics. At least, no other candidate anywhere in the off-year elections seems to be challenging the distinction. Some people hereabouts think Beverly might win.

**CHANCES FAIR**  
Her chances? "Pretty fair, actually," allows Bill Bagdad, Esmeralda County probation officer, who stops in now and then at the Santa Fe Saloon in Goldfield, 15 miles up U.S. 95, for a beer. The Santa Fe is the oldest saloon in southern Nevada. It's one of the better listening posts in these parts: acres of sagebrush, mountains, old mines and ranches.

"She's a serious candidate," vouches Jim Grogan, proprietor. "In my considered opinion, she has a considerable chance." Grogan's eyes twinkle. "The nice thing about Beverly is that I don't think she would steal much."

Prostitution is legal here. Nevada leaves outlawing it up to each of its 17 counties. Only two have — Clark County, which is mostly Las Vegas, and Washoe County, which is mostly Reno. Others have gone so far as to declare it legal by county ordinance. Some, like Esmeralda, ban it from within five miles of their inhabited areas.

Titian-haired Beverly Harrell came to Lida Junction, a fork in the road where U.S. 95 meets Nevada Route 3, seven years ago. It was in the middle of the Raiston Desert. Las Vegas was 2½ hours south; Goldfield, a quarter of an hour north, and Lida, a town consisting mostly of a million-acre cattle ranch, was 20 minutes west. At the junction were a two-mile airstrip, a clump of wind-bent trees and dozens of cottontail rabbits.

**JEWISH GIRL**  
Beverly is a nice Jewish girl from Brooklyn. She is the daughter of an upper-middle class family. She was educated at a private school and at the American Academy of Dramatic Arts. She became a dancer, singer, played Broadway, off Broadway, in musical comedies, road companies, "Oklahoma," "Finian's Rainbow," "As You Like It," "Snow White." And she went to Hollywood to become a star.

"I ran across a lot of people," she says. And they all noticed Beverly had another talent. "They all said I had managerial qualities." So she started a system of call girls. With six or eight young ladies, depending upon the vagaries of the business, she catered to movie actors, producers, attorneys, politicians and the police. "The upper echelon of Hollywood and Beverly Hills, you know."

But life got complicated. "Nip and tuck with the gendarmes, you know."

For the New York stage, Beverly had changed Harrell to Richards. For Hollywood, she had changed Beverly to Lori. When she fled the gendarmes, however, and drank in great gulps of Nevada honesty, Lori Richards became Beverly Harrell again. She opened the Cottontail Ranch at Lida Junction and called it "The Friendliest Place in Nevada." Of the 25 to 30 other bordellos in Nevada, she likes to think the Cottontail offers quality over quantity.

"I do not run a factory," Beverly Harrell says. She leased a chunk of private property in the southwest corner of the junction under the wind-bent trees. She joined four house travelers with what she calls, with a straight face, cat-walks. She installed a bar and rooms for a handful of girls. She advertised the place as a convenience for private pilots. Her first day of business was Oct. 13, 1967.

**She was, she says, "thirtyish."** She did well among denizens and flatlanders alike. But the private land was expensive. Just 2,000 feet south was property owned by the U.S. government and administered by the Bureau of Land Management. Like the rest of the land on the horizon, it was barren. And it was available. Beverly paid the government a visit.

"I said, I am Beverly Harrell, and I own the Cottontail Ranch, a Nevada bordello. I would like to lease some land." In July of 1970, the Bureau of Land Management agreed to lease her its property at \$100 a year for three years with an option to buy. And Beverly moved.

**INSTALLED LIBRARY**  
She added a fifth house trailer. She drilled a well. She built a front porch and stained it brown. She installed a library for her ladies. "from Schopenhauer," she says, "to Nietzsche."

She attracted the attention of, among others, Jack Anderson.

He said in his column: The United States government, upholder of law, order and the public health, morals and

## American Indian Is Studied By Germans

SAULT STE. MARIE, Mich. (AP) — German youngsters probably know as much about the American Indian as any tenderfoot in the United States, according to Dr. Volker Anding.

And, moreover, the Indian hasn't always been portrayed as a "bad guy" in German literature. Dr. Anding, vice consul to the German consulate general at Detroit, made his remarks recently to an Indian study club at Lake Superior State College. He also joined in an Indian "social dance" with members of the Neeganegebic Club.

"It's relatively easy if you know modern American dancing," he said.

He told students that much of the interest of his countrymen in native Americans stems from the writings of Karl May. The popular German writer began writing books for youngsters about the American West in the late 1880s. Dr. Anding said.

May's books made the Indian as popular with young German boys and girls as Conan Doyle did Sherlock Holmes for Americans, he said.

May's books have been translated into at least 20 languages, Dr. Anding said, and have sold millions of copies. They are still popular in Germany today, he said, even though they were suppressed during Hitler's reign.

The May books were eventually augmented with Western "cowboy and Indian" movies shipped to

Germany from Hollywood, which Dr. Anding said stimulated further interest.

"Although May didn't come to America until long after he had stopped writing, his descriptions of both landscapes and people are remarkably accurate," Dr. Anding said. "He paid great attention to details of Indian culture and artifacts, weapons and dress."

Many Germans today are members of Indian study clubs, the vice consul said. They go to great pains to duplicate Indian dress and experiences, even taking rigorous camping trips and living as Indians once lived.

In the May books, Dr. Anding said, the Indian was noble, fought fair, strove ever upward, and was the sort of person a good, Christian German could idealize and emulate.

There were some "bad Indians," he said, but they don't dominate May the way they do so many American Western movies.

## Ferguson In Front

DENVER, Colo. — Tom Ferguson continues to forge ahead in his quest for the 1974 all around championship and a new winnings record, the Rodeo Cowboys Association said.

The 23-year-old cowboy from Miami, Okla., was named all around winner last weekend at the Coffeyville, Kan., rodeo, where he won nearly \$1,200 in calf roping and steer wrestling. He took first in calf roping for most of the loot after posting a rapid time of 10.0 seconds.

His total winnings now are \$49,191. He must win a little more than \$11,000 to break the winnings record for a single season in rodeo, set last year when Lary Mahan, Dallas, Tex., won his sixth all around crown with \$60,447. Mahan had won a little more than \$45,000 at this point in the season last year.

Event leaders are: All around — Ferguson \$49,191, and Leo Carmillo, Oakdale, Ca., \$27,003; saddle bronc riding — John McBeth, Burden, Kans., \$21,737, and J.C. Bonine, Hysham, Mont., \$19,777;

bareback bronc — Joe Alexander, Cora, Wyo., \$30,918, and Chris LeDoux, Kaycee, Wyo. (and Jack Ward, Odessa, Tex., \$14,939 for fourth); bull riding — Don Gay, Mesquite, Tex., \$21,639, and John Davis, Homedale, Ida., \$18,606; calf roping — Ferguson, \$31,022, and Dean Oliver, Boise, Ida., \$19,126; steer wrestling — Frank Shepperson, Midwest, Wyo., \$19,417, and Ferguson \$17,973; GRA barrel racing — Jena Felts, Woodward, Okla., \$11,393, and DeLyssa Trotter, Midwest City, Okla., \$7,524 (and Thaye Lewis, Big Spring, Tex., \$3,912 for 12th).

## Brazilian Indians Resist Intrusions

**RIO DE JANEIRO, Brazil (AP)** — In a scenario reminiscent of the American West, bands of primitive Amazon Indians are fighting to keep their jungles free of modern exploitation.

The Brazilian government has long been eager to push development of the Amazon Basin but has found the going slow and troublesome, partially because of native resistance.

President Ernesto Geisel issued an order on Friday restricting access to an area occupied by the Waimiri and Atoari tribes in northern Amazon state, where a road is being cut through the jungle between Manaus and Caracari.

The government in recent years has laced the Amazon Basin with a number of roadbuilding projects, which the government hopes will encourage business, industry and agriculture to develop the region.

In recommending Geisel's order, Interior Minister Rangel Reis told the president the two tribes "offer serious resistance to pacification." He warned of an "ever-present danger of new clashes" between the Indians and road-building crews and travelers.

Despite the deaths of three Indian agents last January, Reis said agents will continue to try to establish friendly relations with the Waimiri and Atoari.

The Waimiri and Atoari aren't the only Indians giving the government's modern-day frontiersmen trouble.

An Indian agent was killed and another seriously wounded a week ago near the border with Peru in an attack by Marubo Indians as they tried to make friendly contact with the tribe. The attack was near the route of another road being built through the jungle.

In the state of Goias, the government is continuing an effort toward friendly contacts with the Ava-Canoeira Indians, and after two years it issued an announcement this week saying: "Pacification of the Ava-Canoeiros is near."

Government agents reported last month the first contacts with a small tribe of what is described as white-skinned, green-eyed natives in Amazonas.

Anthropologists say the Indians, called Nereyo, may have descended from white explorers. Other Indians in the region say that Nereyo are cannibalistic.

The National Indian Foundation once had a policy of keeping Indians isolated from encroaching development and of fostering their native culture. It recently changed that policy in favor of encouraging their integration into the national society.

## Thugs Clean Out Vault But Heist Is Aborted

**NEEDHAM, Mass. (AP)** — Two armed men wearing stocking masks held a bank manager's wife and 2-year-old daughter hostage and forced him to clean out his bank's vault of an estimated \$100,000.

But the scheme collapsed when one off-duty fireman spotted the bandits escaping from the manager's home and another found the money before the robbers could pick it up.

The episode began Friday morning when Stephen R. George, 37, left for work at the Needham National Bank's Highlands branch in the Boston suburb.

Police said two men waiting outside his front door forced him back inside and made him lie on the floor while they played a tape recording giving him instructions.

George's wife, Margaret, 27, was tied up and left on a bed. The couple's daughter, Christin, was left to fend for herself.

The recorded instructions directed George to drive to the bank, open the vault and put all the money — except for coins and \$1 bills — into his wife's suitcase.

He was told to take the suitcase and two tellers with him to a dropoff point described on a note within an envelope he was to open after leaving the bank.

After George left for the bank, the robbers took off for the pickup point. But off-duty Needham fireman James Hopkins, a next-door neighbor, saw the two men running from the house, telephoned police and gave chase.

George followed instructions and dropped the money off, tore up the note and drove away. Minutes later, Boston fireman John O'Malley, 40, and 17-year-old high school junior Terence Riley drove past the spot, saw the suitcase and picked it up.

They drove to a gasoline station and called state police, who recovered the money.

## Palma Clark Joins AF

Palma R. Clark, wife of S. Sgt. J.C. Clark, Webb AFB enlisted in the U.S. Air Force recently, according to T. Sgt. Don Sisco, Air Force recruiter, 322 Runnels.

## More Backers

**AUSTIN, Tex. (AP)** — Rep. Bill Clayton, D-Springlake, said Saturday four more House members have pledged to vote for him as House speaker next January.

He said he would have the necessary 76 pledges by early October to win the post.

The new pledges are Reps. Bennie Bock, D-New Braunfels; Don Henderson, R-Houston; Bill Presnal, D-Bryan; and Felix McDonald, D-Edinburg.

# LBJ's Birthday Will Be Observed By Close Pals

Austin (AP) — Presidential speechwriters Bob Hardesty and Will Sparks had just gotten to the office, drowsy from a late night of framing words for Lyndon Johnson's "Great Society," when the President called.

Nearly burned out by Johnson's major-bill-a-day pace, they had finished their second speech of the night about 3 a.m. "It was just terrible and we knew it," Hardesty recalls.

"You know," the President said in a low voice, "I've got ambassadors going all over the world trying to get peace, and I've got a potential strike on my hands and inflation's getting out of hand, and I've really got more to worry about than a speech — I can't write my own. I need some help."

"Now, do you think you can take this draft back and do something with it?"

"Yes sir," they chorused.

"It was," Hardesty remembers, "just the little shot of adrenalin that we needed."

**LITTLE EARLY**  
LBJ's little shot of adrenalin will be one of the topics when his friends gather today on the banks of the Pedernales to celebrate a little early the late President's Aug. 27 birthday. A memorial ceremony at Johnson's graveside will be followed by a fish fry at one

## 'Song Fest' Is Slated Today

There will be a "Song Fest" this afternoon from 4 to 6 o'clock at Immaculate Heart of Mary School Hall. All High school and college youth are invited to attend.

Youths from San Angelo, Odessa and Midland will join Big Spring youth in a joyous time of singing. It is also a time when information about Search for Christian Maturity will be given and questions answered.

of Johnson's ranches, the Regan place.

Johnson died Jan. 22, 1973 and about 20 of the "Johnson boys" swapped LBJ stories over breakfast at the Federal Building here last Aug. 27.

Johnson's successors in Congress, Homer Thornberry and J. J. "Jack" Pickle, were there. So were former White House press secretary George Christian; aide Tom Johnson; LBJ Library director Harry Middleton; Dean John Gronouski of the LBJ School of Public Affairs; former Air Force One pilot Jim Cross, and Hardesty, who became secretary.

This year the "Johnson girls" are invited. Johnson's former secretary, Mary Rather; archivist Dorothy Territo; Mrs. Johnson's former press secretary, Liz Carpenter, and Mary Kaltman, who was White House housekeeper.

Christian and the others are interested in putting Johnson stories on paper while memories are fresh.

Johnson once half-jokingly told a Texas audience that he seldom thought of politics "more than 18 hours a day" — and at that rate in 37 years of politics he left a treasure trove of stories.

In recent interviews, several of Johnson's friends reminisced about what Middleton refers to as the "Yeasty and wonderful years" when Johnson was President.

**ONE LIGHT**  
Cross, Johnson's military aide as well as pilot, remembers how Johnson's penchant for saving on electricity affected him. Although Cross headed a staff of more than 600, "My desk at the White House had one light over it — the rest of the room was dark."

John Gronouski, outgoing

dean of the LBJ School of Public Affairs, was Wisconsin tax commissioner when he and others invited Johnson to speak at the 1962 Jefferson-Jackson Day dinners.

"A lot of people howled and cried in horror — they looked upon him (Johnson) as a Texan from another country," Gronouski says. "Well, Johnson came to that dinner, and he did an extraordinarily good job of selling himself... on a one-to-one basis, no man in history could sell himself better than Lyndon Johnson."

Hardesty vividly recalls when he was asked to write speeches for Johnson, a job he had had his eye on since going to work for Gronouski in Washington.

"Bill Moyers just scared the hell out of me. He said, 'You know you could be the best speechwriter in the world and it wouldn't suit Johnson's style.'"

"Oh, my God," Hardesty thought. He recalls today that Johnson was "a good editor, when he had time to put his hand to it."

Johnson once introduced Hardesty and Sparks to an incoming staff member as "the best speechwriters any president ever had." But lest they think it was their writing style he was referring to, Johnson added "They're not temperamental, they don't miss deadlines, and they don't get drunk the night before a major speech."

Hardesty and Middleton collaborated with Johnson and others in writing the book on his presidency, "The Vantage Point."

After Johnson's heart attack in 1972, Hardesty says, "he kept talking about other books he was going to do — one on his childhood, on Senate majority days — but it became apparent that he wasn't going to do it."

**PROMOTED** — Tommy Branham, son of Mr. and Mrs. C. D. Branham, has been named accounts section supervisor for Drilco industrial division of Smith International at Midland. He joined Drilco in 1965 as account clerk. He is a native of Ballinger and graduate of Abilene High.

## Oil Gains Are Slow

WASHINGTON (AP) — America's oil-significantly increase until sufficient time has elapsed to develop new oil wells, the American Petroleum Institute said Friday.

"The hard facts are that improving our nation's crude oil production picture is going to take a lot of lead time and it is not surprising that the situation hasn't improved in this short time," an API spokesman said.

The API cited GOA statistics by noting the "1974 average drilling rigs are estimated to be 1,390 up 16 per cent from 1973."

The API criticized an Associated Press story on a General Accounting Office report on the oil price hike.

The GAO report said the \$1 per barrel price hike last December has not boosted oil production.

According to the GAO,

the price increase "was not based on analysis of costs of production."

# In Nine Years, Little Change Noted In Watts

LOS ANGELES (AP) — The saucy, straw-hatted girls drill team draws shouts of "Right On" and "Tell it, sister" as they strut down Central Avenue chanting a soulful marching song.

Behind the girls, black celebrities ride in bright convertibles, waving and smiling. Some give the clenched-fist black power salute.

Every August since 1965, when Watts burned its way into notoriety, the streets have come alive for the 10-day Watts Summer Festival. It is a melange of black fashion shows, Afro-American cultural exhibits, outdoor concerts, flea markets and a proud, swingy parade.

The pride of the people is on display where nine years ago there were flames and death. Watts is showing its energy, hope, joy and pride. But in these nine years little has changed in Watts, a five-square-mile community that is the heart of predominantly black south central Los Angeles.

On other days, most other days, the only parade on Central Avenue is jobless black men wasting hot afternoons sitting upturned soft drink crates or leaning against parked cars.

Joblessness among inner city blacks now stands at about 16 per cent, the same as it was in 1965. It is the highest unemployment rate in Los Angeles County, which has over-all rate of 7

percent. There are a few new businesses and new jobs in Watts. But statistics haven't been kept to determine whether they're enough to offset the jobs and businesses that vanished in the fires of the August 1965 riots.

Welfare is still a way of life. In city housing projects in the area more than 90 per cent of the residents are on relief.

Watts schools, among the oldest in the city, are rundown and lack the money for programs to improve reading and math skills. Voters recently defeated a bond issue that would have provided more school funds for all of Los Angeles.

Recent tests of South Central High School teenagers showed median reading and math scores in the high teens and low 20s. The national norm is 50.

Watts is a community of one-story frame homes. Most are old and broken, gone to seed along with their brown-weeded yards.

**MENDED HOUSES**  
Yet some houses are mended, painted and cared for with obvious pride. There are blocks that seem to hang in the balance between renewal and decay.

In the business section, vacant lots stand out among the buildings. Before August 1965, there were buildings on the empty lots, too.

Rioting erupted across 46.5 square miles of south-central

Los Angeles when crowds attempted to stop police from arresting a young black for alleged drunken driving. In the next six days, 34 persons died and \$40 million in property was damaged or destroyed. The riots took their name from the ghetto's heart, Watts, named for a man who operated a livery business there in the 1880s.

During the worst days, 10,000 blacks were in the streets, looting, overturning and burning cars, beating whites and shooting at police and firemen. More than 600 buildings burned. The main

business artery, 103rd Street, became known as "Charcoal Alley."

Watts has been free of violent racial conflict since the riots. Blacks also got a spiritual lift with the election in 1973 of Mayor Tom Bradley, a black.

"He has raised the hopes of the people here," says the Rev. Edgar Edwards, pastor of a Baptist church and a community leader. "I think he's trying to do the best he can to help them help Bradley is seeking more federal and state aid for under-privileged blacks. But

he has been criticized for failing to organize a citywide minority recruitment program. His aides say he is concerned that too much aggressive action for blacks would bring charges that he would turn Los Angeles into "a black city."

**MONEY FELL OFF**  
About 75,000 blacks live in Watts. With the riots, the Watts name became synonymous with the poverty, oppression, violence and despair felt by the approximately 290,000 blacks in the south-central area.

For a while after the riots, officialdom poured emergency relief dollars into the black community. But as the Vietnam war gathered steam, quick money fell off.

Some improvements came through, such as a modern health center-hospital. Today, what's left of the poverty programs is incorporated into the Greater Los Angeles Community Action Agency GLACAA, which has a \$32 million budget for fiscal 1973-74. In 1965-66, just one of the groups now in GLACAA had a budget of \$70 million.

## Jerry Price Is Honored

Honor lists from the University of Texas at Austin show Jerry Lee Price, 604 George, was among those with highest honors in the

College of Pharmacy during the spring semester. Georgelyn R. Arrick, 500 Marcy, had high honors. In the College of Engineering, Jay Randall Hoover, 1612 Bluebird, and David Henry Hopkins Jr., 601 W. 18th, also David Rankin Terry, Loraine, were on the honor roll.

# DASH IN FOR DOLLAR SAVINGS!

## Docents Helpful At Tech

LUBBOCK — Outside The Museum of Texas Tech University, they look like ordinary ladies. But inside, they become something else — astronauts, cowhands, covered wagon drivers, Indians, artists and geologists.

The ladies are docents, or guides, who conduct tours of The Museum, the Ranch Headquarters and the Moody Planetarium for thousands of visitors each year. All are volunteers from the community.

Through training programs make the docents and expert guides for tours, docent schedules are coordinated by Mrs. Moxley. Every effort is made to allow the docent to work on the tour and with the age group she likes best, she said.

"Docents who work with the program tend to stay," said Mrs. Moxley. "For them it is a satisfying experience. It allows them to broaden their areas of knowledge and gives them the opportunity to work with people.

"Most of our docents are women. We do have men who work Sundays at the Ranch Headquarters, but we could use men in other areas," she said.

"We are looking forward to 1976 when the Ranch Headquarters will be open full time," Mrs. Moxley said. "We will need several new docents by then. We hope to start getting volunteers this season who will stay with us and help the program grow." Training sessions for docents begin Aug. 21, at the museum and will be offered monthly through the fall.

## Grady Football Workout

August 16 Grady students got together and figured out their class schedule. Monday was Grady's first regular day of school.

Grady has a new 8-man football team for the first time. The Wildcats scrimmaged at 4 p.m. Aug. 23 at Sands. Also next Friday the 30th Grady will play the same team at Sands. Grady is backing them all the way.

The Lion's club got together last Tuesday and had an ice cream supper for the new teachers. The Booster Club got together Tuesday night at 8 o'clock and elected officers. Also the Pierce Family entertained them.

The Annual Staff met Thursday to plan its 1974-75 annual. New things will be added this year, such as the first graduating Seniors from Grady High.

The Pep Squad met Friday to elect officers and to get its spirit together for our football boys.

# Plans Under Way For Howdy Dance

**By CAROL HART**

Students have been preparing for the 1974-75 school all summer. Members of several clubs and organizations attended workshops all over the country.

Doug Robison student body president and Ronnie Mullins vice-president attended a workshop this summer at West Texas State College in Canyon.

Donnie Knight attended a safety conference this summer in Oxford, Ohio.

Plans are being made for the Howdy Carnival and Dance which will be held Sept. 7 on the High School patio and cafeteria. The Carnival will start at 6 p.m.

Petitions will be issued tomorrow for class officers and Mr. and Miss Howdy. They will be voted on September 4 and 6.

Subscriptions to the Corral, the high school magazine, will be on sale all this week. A table will be set up on the patio during the lunch hours for anyone wishing to purchase a subscription.

Corral subscriptions can also be obtained from any Journalism student. 10 issues will be \$2.00 and this includes a special homecoming issue.

**By MARY MARTINEZ**

Westbrook students started school Monday, Aug. 19. This is the first year that Westbrook will be serving breakfast. The price is 15 cents a plate.

All high school students are busy with fund raising projects. The seniors are selling subscriptions for magazines. They will use the money for their senior trip.

All FHA and FFA students will be going to the State Fair in Dallas in October. The FHA students are selling calendars at \$1.00 each. This will help to pay for the rooms they will occupy while in Dallas.

A Defensive Driving Course is being offered. The course will be held in the Westbrook Cafeteria, September 3, 10, 17, and 24 at 7:00-9:00 p.m. Mr. Kile Etheredge will be teaching the course.

Mr. Etheredge is from the Region XIV Service Center in Abilene. It will not cost more than \$10 per person. This money will be for needed material and transportation of the teacher. Interested adults may take the course. Note: must have 15 students to have the course but not over 30 students.

## 1,020 In School

**COAHOMA** — At the end of the school day Friday, a total of 1020 students were registered for classes in the Coahoma Independent School District.

## HC Signup Is Nearing

Howard College begins to gear up for its 29th annual session this week when the faculty meets Aug. 29 for its first general meeting.

The new president, Dr. Charles Hays, is due to be on hand at the end of the week for the start of the fall semester. A former vice president of Howard College, he comes from the presidency of Panola College in Carthage.

The schedule calls for dormitories to open 1 p.m. a week from Monday (Sept. 2).

Freshman orientation is set for the morning of Sept. 3; registration of sophomores from 1-4 p.m. and evening students 6-8:30 o'clock the same day.

Freshmen register 8 a.m.-12 noon and 1-4 p.m. Sept. 4, and evening registration continues 6-8:30 p.m. First day of classes will be Sept. 5.

Beginning students are urged to furnish the college with a transcript of their credits to expedite registration.

## Goliad Junior High New Teachers Added To Faculty Staff

**By JENNIFER SMITH**

Goliad has had several new teachers added to the faculty this year. The new teachers are Mrs. Deanna Adams, Life and Earth Science; Mrs. Cathey Alred, English and social studies; Mrs. Joy Burnsed, English and speech; Miss Joyce Hull, choir director; Mrs. Diane Kitchen, social studies and money management; Mrs. Linda McCamant, math; Mr. Don Hise, social studies and Mrs. Pattie Thurman, resource. All teachers, returning and new, are extended a warm welcome.

Teachers new to the coaching field are Mr. Adron Welch and Mr. Robert DeWeese. Coach Welch is also a science teacher, and Coach DeWeese is also an art teacher.

This year in Goliad there is a total 640 students, with 288 seventh graders and 352 eighth graders. Some students have not as yet enrolled for the year.

All seventh grade students will have library orientation Aug. 29 and 30 during their English classes. Mrs. Essie Person, librarian, will conduct the classes which are to show students all uses of the library. Mrs. Person stated that teachers may begin to schedule classes in the library on Sept. 3.

Physical education classes are getting off to a good start this year with boy's P.E. classes starting physical fitness tests Monday, Aug. 26 and girls' P.E. classes began the tests Thursday.

Mr. S. A. Walker, principal, will celebrate his birthday on Friday, Aug. 30. Happy birthday, Mr. Walker.

## FORSAN HIGH SCHOOL Joe Moreno Is Elected Prexy Of Senior Class

**By DOROTHY BANKS**

When school bells rang early Wednesday for the first day of classes, there were crowded halls, mixed with the usual first day confusion. All soon settled down, however, and classes began for another year.

All students in grades 9-12 meet during Home Room Thursday and committees were appointed to bring a list of nominations for class officers before class Friday. The classes met again during home room Friday.

Officers elected include: Senior class—Joe Moreno, president; Tim Yeats, vice president; Betty Stanley, secretary; Sylvia Holguin, treasurer; Ginger Ditmore, and Donnie Croft, student council representatives.

Junior Class—Kary Richardson, president; Sheryl Fraley, vice-president; Luisa de los Reyes, secretary; Mary Ellen Gressett, treasurer; Letha Strickland and Kevin Hocker, student council representatives.

Sophomore class—Beverly Strickland, president; Teresa Walls, vice president; Jill Walker, secretary; and Dianna Davis, treasurer. Student council representatives are still undetermined.

In Freshman home room, officers elected were: Ernie Morgan, president; Graig Clark, vice president; Don Roberson, secretary; Dale Hollandsworth, treasurer; Steve Cowley and Lisa Day, student council representatives.

The Buffalo Band also selected officers. They are Kary Richardson, president; Teresa West, vice-president; Beverly Strickland, secretary-treasurer; Letha Strickland, reporter; Jill Walker, Carla Chrane and Dianne Davis, librarians.

Individual portraits and several group pictures will be made Aug. 29-30. The photographer will be at Elbow on the 29th and at Forsan the following day. On Sept. 3, senior portraits will be made at Forsan, starting at 1 p.m.

The Fighting Buffaloes met the Robert Lee Steers at Robert Lee Friday in the season's first scrimmage. Get out and back the Buffs this year because Forsan is expecting great things.

## MEGAPHONE News From Schools

6-A Big Spring (Texas) Herald, Sunday, Aug. 25, 1974

## COAHOMA HIGH Don Myers Named To QBC Office

**By VICKIE COOK**

Friday, August 16, The Quarterback Club held its annual ice cream supper at 7:30 in the elementary school cafeteria. All football players were recognized. Officers for the 1974-75 school year are president, Don Myers; vice-president, Robert Kelso; secretary, Mrs. Bobby Dodson; and treasurer, Mrs. Dennis Greenfield.

Monday, Aug. 19, the Coahoma Chapter of Office Education of Texas met to elect the new officers. They are President, Alan Roman; vice-president, Bobby Gene Fishback; secretary and treasurer, Susie Smolko; historian, Vickie Cook; reporter, Valrae Best; and parliamentarian, Putt Choate. Dues are \$3.50 and are to be paid to Susie Smolko or Mrs. Marie Ethridge, chapter advisor.

The Band Boosters held their annual Ice Cream supper Monday, Aug. 19, at 7:30 in the elementary cafeteria. The new officers are president, Kenneth Scott; vice president, Ralph Bieble; secretary, Mrs. Boyce Sneed; treasurer, Mrs. Kenneth Scott; and membership chairman, Mr. and Mrs. Melvin Brown. In charge of the concession stands this year will be Mrs. Larry Nix.

Monday, August 19, the Big Red Band elected its new officers. They are president, Bobby Gene Fishback; vice-president, Nancy Wood; treasurer, Deborah Myer; reporter, Patty Self. One person from each class was elected to be class representative. They are freshman, Jay Phinney, sophomore, Tim Barbee, junior, Melissa Cooper, and senior, Holly McCutchin.

The Bulldogs Hosted Crane in the first scrimmage of the year the past Friday, in Bulldog Stadium. B-Team action began at 6:30 and Varsity began at 8:00. Tuesday, August 27, class officers will be elected during activity period in the auditorium.

## RUNNELS JH School Makes Plans For Annual Edition

**By JUNI CLINE**

The girls 7th and 8th grade gym classes are preparing for the physical fitness tests.

Miss Sonia Dean took her 3rd period junior business class to the First National Bank on a Field Trip Friday.

The Band elected its officers Thursday. The new president is Selena Jones, vice-president Mark Vassar; secretary, James Harmon and public relations director, Mike Christian, assisted by Hinton. The band decided to have a poster contest and each band member contributed 25 cents, which will be awarded to the best Spirit poster. The new students to the Runnels band are Tammy Collier from Childress, Texas, John McEntire Clute, Texas, Geroge Stevenson, Fort Worth, and Buddy Slaughter from Trent, Texas.

Pep Club met Thursday and elected its officers. They are Ellen Turner, president, vice president, Arva Jones, secretary, Toni Peritt; and treasurer, Jackie McCulleugh. There are 56 members and the sponsor is Miss Sonia Dean.

Runnels Junior High is going to have annuals this year, with Mrs. Barron directing it.

# Public Is In Big Rush To Purchase New Cars

By The Associated Press

New car buyers are rushing to dealer showrooms this month to avoid paying 1975 model prices, and some auto salesmen say they're just about out of bargains.

New model prices are due to rise \$300 to \$800, depending on the vehicle. Eric Hunt of Los Angeles said price increases "encouraged me to buy now."

"I think the car is going up about \$1,000," he said as he signed on the dotted line for a new Ford Thunderbird.

Consumer fears over catalytic converters — antipollution devices which will appear on most of the 1975 cars — are also contributing to increased sales, according to a sample of the nation's more than 21,000 dealers.

August traditionally is one of the slowest months of the year for dealers. But the daily sales rate for the first 20 days of the month was the second highest for any August in industry history, trailing the record set last year by 3 per cent.

By contrast, July sales were off 18 per cent from last year. June sales were down 20 per cent and May sales were off 21 per cent.

The dealers say sales began to improve toward the end of July, about the same time Ford Motor Co. announced price increases averaging 8 per cent on \$418 a vehicle. Ford was the first of the auto makers to indicate how high 1975 prices might go.

It's a welcome turn of events for the dealers, who have suffered through one of their worst winters and springs on record.

About the only complaints come from General Motors dealers, who say they can't get enough cars to sell. GM says it didn't anticipate the 1974 midsummer

sales comeback when it cut back on production this spring.

The automaker is allowing dealers to sell 1975 models as soon as they arrive from the factories. The cars originally were to go on sale in late September. "This has got to be the most topsy-turvy year in industry history," one GM spokesman said.

In Miami, Fla., Bill Bower's Ford is promoting a "beat-the-price-hike" campaign to lure bargain-hunting shoppers.

At Trader Ray Chevrolet in Detroit, shoppers see a newspaper clip taped to the sales manager's desk. The headline reads: "GM Announces \$480 Boost for '75 Models."

Chevrolet of Dallas, Texas, reports it is almost out of 1974 models — a month before the formal introduction date of the new cars. "People are afraid of the catalytic (converter) muffler," says general manager Bob Mohr. "They're scared to death of it."

The converter must run on lead-free gasoline and some fear the fuel will not be readily available.

## MD Fight Is Undertaken

The Seven-Up Company is launching an all-out fundraising promotion to aid the fight against muscular dystrophy and related diseases. Pledging a minimum donation of \$100,000, and Seven-up manufacturers will contribute 25 cents to Muscular Dystrophy Associations of America for every four Seven-Up cap liners or each carton seal sent in by customers.

Announced here Saturday by Howard L. Dodd, president of MDAA's Midland-Big Spring Chapter, the appeal will be backed by the company with an extensive TV advertising campaign.

In describing the program, Dodd said that this appeal is commendable, that such a large company would expend so much time and money to help the MDAA is heartening.

The Seven-Up materials should be sent to MDAA, P.O. Box 869, Ansonia Station, New York, N.Y. 10003. The Seven-Up campaign will run until November 1, 1974.

## Recompletion Noted In County's Field

Amerada Well No. 1 Jack Willcox, former dual Leonard and Wolfcamp producer in the Hutto (South) field east of Big Spring, has been recompleted in the Clearfork.

The venture made 83 barrels 31.9-gravity oil and 753-1 gas-oil ratio from perforations 5,180-90 treated with 1,000 gallons of acid. Originally, in 1969, it made 312 barrels of 36-gravity oil in the Leonard at 7,750-869 and 28 barrels of 38-gravity oil and some water from the Wolfcamp. Location is 660 from the north and east lines section 6-31-1s, T&P. The original Clearfork producer in the area was Amerada Hess No. 1 Eason-Robinson which made 20 barrels of oil and 37 barrels water from 5,140-182.

Glasscock County received two extenders. Amoco No. 1 E.L. Powell, 10 miles northwest of Garden City and 660 from the north and 1,980 feet from the east lines section 21-35-3s, T&P, flowed 190 barrels of 50.4-gravity oil with gas-oil ratio 832-1 from perforations at 8,030-060. The 5 1/2-in string was set at 8,390. This is a southeast extender to the Blalock Lake (Wolfcamp) field.

Westland oil Development No. 2-29 Howard Estate was a half-mile southwest extender to the Calvin (Dean) field into Glasscock County 17 miles southwest of Garden City. It made 54 barrels from perforations at 7,872-99, treated with 1,500 gallons acid and 5,350 gallons frac. Location is 660 from the south and west line section 29-35-5s, T&P.

Adobe No. 1-11 Zant, checking Grayburg perforations from 3,632-639, recovered 162 barrels fluid with a trace of oil. No. 5-11 Zant acidized with 1,500 gallons from 3,664-967 and recovered two barrels oil and 50 water.

In Sterling County, Lovelady No. 2 Humble has been spotted as a northwest offset in the Crandall (San

## Cheairs Named HCBA Prexy

M. Norwood Cheairs was elected new president of the Howard County Bar Association when members met at the Webb Air Force Base Officers' Club Thursday night.

Ray Broadbent was elected vice president and James Gregg, secretary-treasurer.

The group agreed to set up regular meetings at noon on the second Friday of each month.

## Paper To Quit

CHICAGO (AP) — Chicago Today, the successor to William Randolph Hearst's Chicago newspapers, will publish its last edition on Sept. 13.

GEORGE H. WATKINS

## Texan Is Arrested

WALNUT CREEK, Calif. (AP) — A man identified as a former millionaire Texas oilman has been arrested in connection with the bombing of a bike shop here, police said Saturday.

Bruce Beverly Baxter III, 34, of Kentfield, a member of a prominent South Texas oil family, was interrogated by officers Friday and booked into the Walnut Creek jail for investigation of conspiracy to commit bombing. Lt. David Grantham said.

Baxter was released after he posted \$10,000 bail.

The bomb demolished a bike shop Thursday and severely damaged three nearby stores and some parked cars after someone apparently threw an object through the shop window, a witness said.

Police said Baxter was arrested after officers followed up leads about a car spotted at the store and later found abandoned in Antioch.

## Downs Speaker

Al Downs of Midland, district commander, will address members of the Christenson Tucker Post, Veterans of Foreign Wars, during a meeting here at 8 p.m. Tuesday. Leonard Posey, post quartermaster, reminds those planning to attend that 1975 dues are payable.

## Two To Attend TPEA Meeting

Ferroll Dodd, vice president, and Robert Von Rosenberg, member of the executive board, will represent Big Spring Chapter 52 at the annual meeting of the Texas Public Employees Association this week in Austin.

George M. Watkins, Austin, fiscal director of the State Building Commission, will succeed Walter H. Looney, Austin, design engineer for the highway department, as association president.

The meeting will be Monday and Tuesday, and Thomas C. Enright, executive secretary of the Oregon State Employees group, will address the 450 delegates who represent 35,000 state employees in the association.

## VANDALISM

## Chavez Earns Army Medal

S. Sgt. Ray B. Chavez, in charge of the Big Spring U. S. Army Recruiting Station, Church reported some kids threw dirt, rocks, spoons, a can opener and other items in a sewer opened by the plumbers. Unknown damage was done to the sewer.

Chavez earned the award for having surpassed his recruiting objective for 1974

## Army Medal

and for recruiting what the Army regards as high caliber personnel. Nationwide, the Army bettered its recruiting objective by signing 199,000. That is 2,600 more than the minimum standard set by the Army.

# Stay-At-Home Trend Noted This Summer

by The Associated Press

Federal officials aren't positive yet, but preliminary data seem to show millions of Americans heeded the government's pleas to stay close to home this summer and conserve energy.

National Park Service figures for July, the most recent available, show visits to national parks dropped by 2.4 per cent compared with a year ago.

"They are not staying home in droves," said Molly Brady, an economist in the Service's data center. "The thing is, the Park Service has experienced a 7 per cent increase per year. So if you look at that way, it is a drastic decline compared to what we are used to."

She said Department of Transportation figures show declining interstate

highway use, and she speculates that's because vacationers are opting for shorter trips.

Encouraging the stay-at-home trend are higher gas, motel and food prices. A trip that cost \$100 in 1967 cost \$145.40 by June 1974, according to the U.S. Travel Data Center of Discover America, Inc., a non-government organization.

Of 269 national parks and landmarks that keep visitor figures, 159, or 59 per cent, show decreases in July, while 84, or 31 per cent, show increases. The remainder had no change or haven't reported to Washington.

In most cases where increases were reported, the parks are closer to urban centers or population corridors — another possible indication of shorter trips.

The Great Smokey Mountains National Park on the Tennessee-North Carolina border, for example, is about a day's drive from most East Coast cities. The park had 1,767,600 visitors this July compared with 1,256,500 last July — a 40.8 per cent increase. In Springfield, Ill., on heavily traveled U.S. 66, however, visits to Abraham Lincoln's home dropped by 21.6 per cent to some 88,100 visitors in July 1974 compared with 112,400 in July 1973. Meanwhile, visits to the Lincoln Memorial in Washington, D.C., a day's drive from New York, were up 48.5 per cent this July, from 282,500 to 419,600.

At Yosemite National Park in California, about 300 miles from the closest population center, visits dropped by

10.7 per cent, from 327,800 to 345,700.

According to reports received so far from the entire federal park system, 32,119,300 people used the parks this July compared with 32,925,400 in July 1973. But 35,230,180 people or more were expected — a difference of 2,304,778 for a single month.

Figures for June, another heavy vacation month, show a 3.9 per cent decrease, or nearly 11 per cent fewer visits than expected.

## More Oil Well Activity Here

Texas continues to outstrip the nation in percentage of increase in oil well drilling activity.

As of Aug. 19, the Hughes Tool Company reported to the International Association of Drilling Contractors that 1,518 rigs were turning in the United States. This was 24.53 per cent ahead of the same time a year ago. Texas had 520 active rigs, an increase of 36.84 per cent.

## Harrassment Rap Is To Be Investigated

WASHINGTON (AP) — The government announced Saturday it will conduct a full review of charges that the Food and Drug Administration harassed staff scientists who opposed approval of new drugs.

Caspar W. Weinberger, secretary of the Department of Health, Education and Welfare, said a panel of six experts — three from government and three from the outside — would be named to examine employee complaints aired before the Senate.

HEW said the panel is expected to make its report within six months. Eleven FDA scientists and three outside advisers have told a joint hearing of two Senate subcommittees of alleged instances of drug industry favoritism, improper administrative practices and harassment.

"These are disturbing charges which must be answered," Weinberger said in his announcement of the probe.

The investigatory group will be headed by Dr. Theodore Cooper, HEW deputy assistant secretary of health and former director of the National Heart and Lung Institute.

HEW officials were unable to say immediately who would appoint the panel members. Dr. Alexander M. Schmidt, food and drug commissioner, recommended that no one within the FDA be chosen.

"I believe that the over-all investigation must be free from any possibility of political or individual bias," Schmidt said. "Certainly, this problem requires more than just an internal investigation by an FDA management which is itself the subject of employe complaints and allegations."

Edwards, HEW assistant

Big Spring (Texas) Herald, Sunday, Aug. 25, 1974 9-A

secretary of health who he has "total confidence in the fundamental soundness, integrity and objectivity of our process of new drug approvals and my faith in those who administer that process."

# Goals For Education

Most of our secondary schools are either underway or well into their fall semester, and this week Howard College will register and then launch its first Semester. Most of the elementary and secondary systems are showing a reasonable stability in enrollment, indicating that the steady number decline, induced in part by the pill, is leveling off. At the same time last year's figures, as well as those of both summer sessions, indicated that the college is showing increasing strength.

All this is encouraging, but this does not automatically guarantee an effective educational system. It takes support from the homes as well as from the pocketbook to guarantee schools which produce good results. And while schools cannot reasonably be expected to produce miracles, there are certain things that they should help to do.

One is to help develop skills for learning, because the learning process ought to go on so long as life. This is not an easy task, for aptitudes and motivations vary, and negative attitudes are frustrating. But stimulating the desire for and art of learning must be a prime objective of good schools.

Another prime target is to help develop individuals

into contributing members of society, both in gainful, productive employment, and in wholesome participation in our democratic society. Part of education is the acquiring of marketable skills instead of being sidetracked as a ward of society.

Still another goal is grasping of a sense of purpose and direction. Creativity is another challenge of modern education, for material things rarely within themselves bring happiness. With more leisure time, and with a more complex society, the development of

sense of fulfillment or satisfaction in life is increasingly important. This is not alone for the younger ones coming on, but for the increasing tribe of older adults. And that brings into focus another aim—that of continuing education that involves the whole community.

Right now, we are investing more than \$10 million a year in our educational programs in this county. Functioning at its maximum potential, this can turn out to be not a burden but a wise investment.

## A Better Dividend

The Howard County Commissioners Court has authorized four high-band radios, along with three new types of radar units that can measure speeds even when patrol cars are moving, for installation in Texas Public Safety Department cars.

The implication is that these will enable patrolmen to function more efficiently, and, as a result, to catch more speeders. You might say that the equipment is

expected to pay for itself.

This certainly is not compulsory, but in a way it amounts to obliging the county to underwrite what is rightfully a state expense. But, if the equipment is used, it results in a reduction of mishaps on our highways, this will be more important than the fines that the county might realize.

## My Answer

Billy Graham

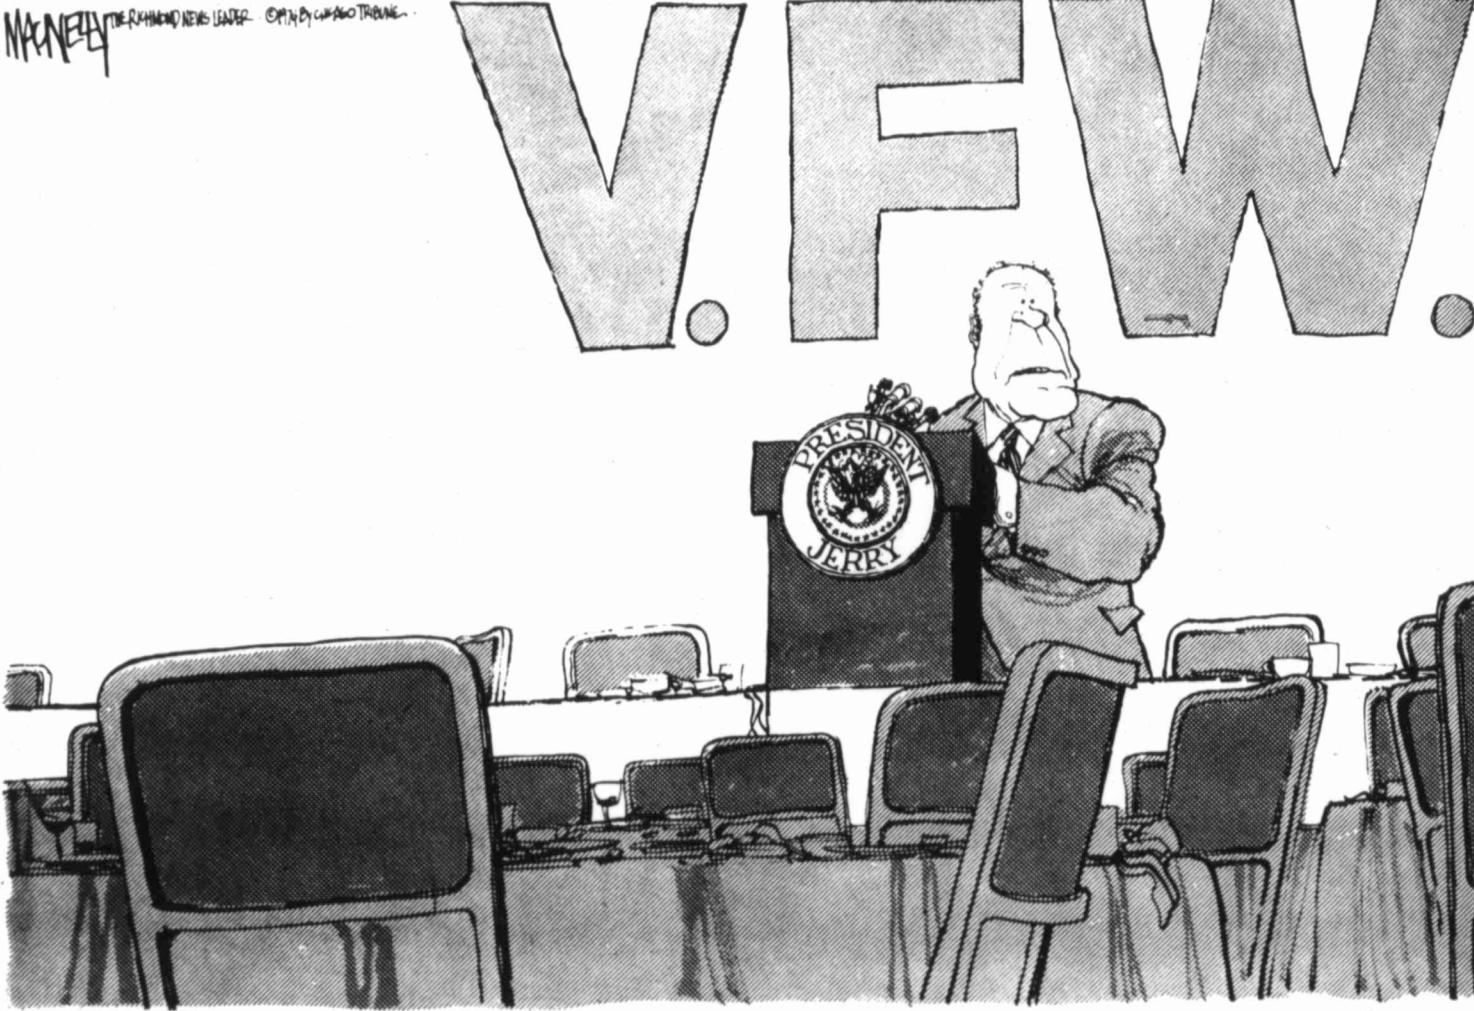

What's your advice to conquering temptation? I should stop seeing this girl, but I seem always at the mercy of her charms. T.C.

Let me answer the first by referring to a legend about the Greek musician Orpheus. When the Argonauts passed the island of the Sirens, Orpheus on board the ship loudly chanted the praise of gods and heroes—so as to drown out the Siren voices on shore. Voices which would have lured them to death. The moral is simply that those pleasures, which begin in simple ignorance and end in cruel destruction, must be denied. And this is accomplished often by a counter measure which offsets temptation's noisy appeal.

As Paul reports it, Christ assures His followers that all temptations are commonplace, but that a way of escape is always provided—if we look for it. (1 Corinthians 10:13.)

I have the impression that you are the victim of this girl's charms, because you want to be. You know what's right, but have taken little or no measures to do right.

I suggest you reread the account of our Lord's temptation in the wilderness. Then, using the same

technique of God's Word and personal resolution of will, watch the temptation dwindle and disappear.

## GM Gives Ground (Not Much)

### The Week's Business

General Motors Corp. gave ground this past week under one of the first uses of the jawbone in the new administration of President Gerald R. Ford.

President Ford had criticized GM for announcing plans to hike prices an average of \$500 on its 1975 models, declaring himself "very disappointed."

Not long before, GM officials had taken their case to Washington. One of the officials who listened was White House economic coordinator Kenneth R. Ford, who painted a low-key picture of that private session.

"I didn't bargain or try to exact promises or anything like that," said Rush later. "We tried to let them see all the things."

THIMBY \$54 The end result of what Ford administration officials were depicting as fairly gentle persuasion was agreement by GM to trim its price hike plans by \$54.

"We did feel some response was desirable," said GM Chairman

GM reduces its \$500 hike to \$54 average, wants more Ford may exceed its projected \$418, both warn prices rising. Big makers say costs rising \$60 per month, Chrysler silent.

Col rises .8 pct, but wholesale rood up at annual 93.6 pct. rate Pan Am airline in trouble, asks government for a subsidy.

Richard C. Gerstenberg, "We felt this strong sense of responsibility and we acted." GM had announced its original price plans on the day of President Richard M. Nixon's resignation and had later said it planned to stick by that announcement.

Its change of heart came shortly after Ford Motor Co. announced this past week it expected prices on 1975 models to go higher than the average of \$418 it had announced earlier.

Ford wasn't specific about just how much its prices would rise but it was expected the hikes would be close to those eventually settled upon by GM.

Chrysler and American Motors haven't announced their price plans, but they too are expected to

gear their moves to those of GM.

For their part, both Ford and GM indicated that prices could go higher still. Ford has argued that its own costs are rising at \$60 per car per month—up from \$36 one month ago.

The Labor Department said this past week that the consumer price index for July had gone up only 0.8 per cent, an easing from June's one per cent largely linked to a slight decline in retail food prices.

Government economists warned that food prices are expected to rise again, taking the index along with them as they react to crop damage from drought in the Midwest. They noted that the wholesale price index for July had jumped 7.8 per cent — an annual rate of 93.6 per cent.

## It's A Symptom

Dr. G. C. Thosteson

Dear Dr. Thosteson: Please explain the relation between hearing and the "Eustachian tubes."

Will hearing be impaired if the tube is plugged or stopped up? If this does exist, is there any treatment?

Last year I made a plane trip, and off and on ever since my ears have been "popping" when I swallow. Is this caused by a plugged canal?—J.F.M.

The Eustachian tubes are tiny ducts, one for each ear. The tubes lead from the middle ear to the upper part of the throat.

To hear well, your ear drum has to vibrate in accordance with the sound waves reaching it. To vibrate freely, the pressure must be approximately equal on each side of the drum. And that's what the Eustachian tubes are for—to permit a gradual flow of air, in or out, to the middle ear. Thus you don't have pressure building up on only one side of the ear drum; such unbalanced pressure would put tension on the drum and prevent proper vibration.

Stoppage of the tubes may

not, of course, be complete. But if the tubes are partially closed, that can impair hearing. Probably the most frequent cause of such a condition is inflammation of the tissues. Indeed, infection can result in scar tissue which permanently leaves the opening in the tube somewhat smaller. Or even closed off.

Whether closing of the tubes will respond to treatment depends on the individual case, and the only counsel I can offer is that you consult an ear-nose-throat specialist.

I would doubt that your plane trip caused your trouble, but it may have brought it to your attention. There is relatively little trouble if you are riding in a plane with a pressurized cabin, since pressure is kept reasonably constant regardless of the altitude of the plane. There can be some difference in pressure as the plane rises or descends (usually the latter) and if Eustachian tubes are not open, this can cause a temporary deafness which corrects itself as, gradually, air seeps through.

"popping" when you swallow—the act of swallowing, or yawning, or even chewing involves some movement of the tissues surrounding the tubes, particularly the entrance to the tubes, and is usually helpful in allowing a bit of air through the tubes. This, of course, is helpful.

Dear Dr. Thosteson: My 8-year-old daughter complains all day—off and on—of cramped toes. The second and third toes especially want to pull together.

In the old days it was thought to be a vitamin deficiency, but so many old theories are no longer valid. My doctor only says to have her relax before bedtime.—Mrs. N.K.

No, vitamin deficiency doesn't cause this sort of thing. But I can't quite see how relaxing at bedtime would prevent cramps during the day.

This is an unusual complaint for a girl of 8, and I suspect that some defect in arch or elsewhere in the foot (or possibly faulty fit in her shoes) could be involved. I suggest seeing an orthopedist or a podiatrist for a careful examination for foot defects.

## Bill Of Rights

Walt Finley

With school opening and with special thoughts of eighth grader Terri Beard and sixth grader Lisa Beard, former neighbors, I'm printing "A Child's Bill of Rights."

I have the right to be treated by the teacher with as much courtesy as she expects to get from the superintendent and other teachers.

I have the right to a teacher who loves children.

I have the right to a temperless trial and an angerless punishment; otherwise I shall become bitter toward my oppressor.

I have the right to my own temper and when the teacher loses his or hers, I have the right to lose mine too.

Since no adults have public stocks, whipping posts and gallows, I have the right to have the public excluded when I suffer mental or bodily punishment.

I have the right to know why a thing is done as well as how it is done.

When a teacher assigns me busy work, I have the right to invent some of my own.

I have the right to self-expression—the chance to talk and hear my fellow pupils talk rather than listen to the teacher all of the time.

I am a bundle of nervous energy—I have a right to use this in some other ways than in mere manipulation of figures and reading books.

I have a right to know how well I have succeeded at each task undertaken, provided the teacher recognizes there are several ways to do a given task.

I have a right to success in tasks suited to my ability.

I have the right to use what brains I have in planning the work I do, otherwise I have a right to assume that I am not capable of doing the work.

In short I have the right to my own unique personality, different from any other personality in the world. Everyone resents criticism—children as well as adults. Good teaching never permits mistakes, or

pointing them out, to become more important than learning. School is the place to make mistakes and learn from them, but emphasize the learning, not the mistakes. Pupils need encouragement, not meticulous fault finding.

That travelin' man Kenneth Hart, was hot this week. He asks:

"Did you hear...  
"About the new perfume with the secret ingredient — makes a man think he can support a wife?  
"About the cowardly counterfeiter — he still has the first dollar he ever made?"

"About the Indians who opened a bar on Broadway — they're selling Manhattan for \$4 and a handful of beads."

Fast fingers Sandra Green, who celebrated a birthday Thursday, knows a preacher who decided to play golf one Sunday morning or vacation. During the game, he made a hole-in-one.  
But he can't tell anyone about it.

Frank Gonzales, whoever he is saw a pickup truck with a bumper sticker reading:  
Roomate Wanted  
No Experience Necessary

Nathan Dalton, Texas Highway Department asphalt expert and m' son Kim's leader, says:  
It's a wonder Howard Hughes hasn't complained because newspapers are using old pictures of him.  
Also fans, be patient. No nagging please. I have a new picture of me coming up — thanks, or something like that, to flashy Danny Valdes

Tell me Jim Baum, when a disc jockey says "I'll be back after the news," is he allowed to threaten his listeners like that?

## The Dilemma

Marquis Childs

WASHINGTON—Special Prosecutor Leon Jaworski has thus far, by a rare mix of diligence and discretion, steered past all the shoals of Watergate that might have brought him down. Keeping out of the public eye as far as possible, he managed to bring one offender after another to book either by successful prosecution or by plea bargaining.

But now he faces a test tougher than any he has confronted to date. It is hard to see how he can come out with his reputation for disinterested pursuit of wrongdoing intact, in view of the strong feelings he is certain to arouse in threading his way through the maze just ahead.

While the trial of the principal Nixon lieutenants on the charge of obstruction of justice in the Watergate case is being postponed from the Sept. 9 date, it cannot be delayed indefinitely.

One of the defendants, John D. Ehrlichman, has subpoenaed the former president as a defense witness. How he responds will tell a lot about the probable outcome of that trial.

QUICKIE POLLS taken just after Nixon's resignation and the disclosure of his part in the coverup show a majority opinion against his prosecution.

He has suffered enough, the feeling is, and he should be allowed to retire in peace.

This is not the opinion of the American Bar Association which without a dissenting vote, adopted a resolution in Honolulu calling for impartial enforcement of the law regardless of the "position or status" of any alleged offender.

FOR THE SPECIAL PROSECUTOR this is not a question of theory or compassion or vengeance. If Nixon, found by the grand jury to be an undicted coconspirator in the coverup, gets immunity, prosecution of his lieutenants will be difficult, if not impossible. They will contend that they were simply carrying out orders of the president.

Ehrlichman, in a television interview made just this point. Nixon a witness on the stand would be pressed to say whether it was under his orders that the manipulation of the FBI and the CIA was designed to conceal the involvement of men working for the reelection committee and in the White House with the Watergate break-in.

It is conceivable that Ehrlichman, H.R. Haldeman, John N. Mitchell and the other defendants could win acquittal or even that the charges against them could be dismissed on the ground that they were merely hired hands responding to the

demand of authority. Yet the fact cannot be ignored that 13 lesser Watergate figures are either in jail or on the way there. Should the top and the second level go free? This would confirm the cynical view that there is one law for the powerful and another for the underlings.

That is Jaworski's dilemma. He knows that prosecuting the former president would bring a wave of resentment not alone from Nixon loyalists, but he also knows that equal justice under law should not be just a phrase carved on a marble pediment.

## Letters To The Editor

To whom it may concern:  
Can you please see? Can't you understand? Yes, I, Jess Smith, did put a sign on my car which reads like this, "Keep back 30 feet of this car."

I have a specific reason for this sign and for those of you who have seen it and don't care and those who have not seen it but will, I respectfully ask that everybody please do as the sign says.

If someone had a sign on their car like the one I have, I would stay back, respecting the owner's wishes. Perhaps a lot of people think this is funny but, folks, this is the real thing, so please respect my wishes.  
Jess Smith  
902 Rannels St.

## What Others Say

Some of our European colleagues have an extraordinary regard for Dr. Kissinger's energy, to put it mildly. A recent Le Figaro dispatch reports two schools of interpretation of the Cyprus crisis. The first is that our Secretary of State, believing that longstanding problems can only be resolved in moments of crisis, engineered the Cyprus coup, the civil war, and the Turkish invasion, for the sake of getting rid of the Greek colonels because they were embarrassing the NATO alliance.

The Figaro writer observes correctly that if this were the case, it would be an example not of Machiavellianism but of second sight. He presents his more restrained version, that Mr. Kissinger merely wanted to get rid of Archbishop Makarios and found that things ran out of control.

## A Devotion For Today . . .

"Jesus stood and cried aloud, 'If anyone is thirsty let him come to me; whoever believes in me, let him drink.' As Scripture says, 'Streams of living water shall flow out from within him.'" (John 7:37-38)

PRAYER: Our Father, help us to be overflowing Christians — with joy and love and peace. Help us to be mindful of the needs of others and compassionate in doing what we can to help them. In the spirit of the Master we pray, as He taught us. Amen.

## Continued Increase In Prices Foreseen

WASHINGTON (AP) — A load of groceries that cost \$17.24 two years ago probably will cost \$23 or more by the end of the year, Agriculture Department economists are saying.

By last month, one index showed the hypothetical batch of groceries already cost \$22.58.

That unpleasant note for food-buyers came on Friday when official predictions of the final 1974 average food prices were revised upward, to about 15 per cent above the 1973 average.

Last year's increase in the retail average, the highest since World War II, was 14.5 per cent.

For the last nine months, the department had been predicting a 1974 rise of "probably 12 per cent" in the average, with most of the boost coming before June.

Friday's new analysis by the Outlook and Situation Board, based on mid-August supply, demand and price assessments, gave a range of 13 to 17 per cent for the year.

The report said that instead of remaining steady during the third quarter and declining slightly in the fall, prices for major farm goods hit by unfavorable weather over much of the nation "are now expected to rise about 3 per cent during the third quarter and a little more in the fourth quarter."

The key to the range is the weather, from the heavy spring rains to the Midwest's midsummer drought.

The retail price hikes will be closer to 17 per cent if crop production falls much more or if demand from consumers, livestock feeders or exporters increases.

The department also released Friday its July figures for the Economic Research Service marketbasket survey, showing the first rise in prices paid to farmers and the first drop in retailers' and wholesalers' share of the grocery shopper's dollar since February.

## Two Women Are Arrested

Big Spring police were called Friday night to take custody of three black women arrested by Webb Air Force Base security guards in a men's barracks on the base.

The three, were charged with unauthorized entry into restricted area.

A fourth woman was not arrested as she was not in the barracks itself and she had a small child with her at the time.

DEDICATION CEREMONIES — New flags for Immaculate Heart of Mary School were blessed in a special flag raising ceremony last Thursday. The pastor, the Rev. Louis Moeller, reminded the students of the importance of giving honor to God and their country. The ceremony was concluded with the Pledge of Allegiance and the singing of "America."

## Science Unsure Of 'The Pill'

By The Associated Press

"I was not pleased but Pincus was rather excited," Chang remembers. "He told me not to worry and to go on with my work. He was a man of vision."

Pincus' "vision" came in part from friends who had begun talking about population control and the need for improved contraceptives. What for Chang was a failure, for Pincus seemed opportunity — the opportunity to develop a hormone compound that stopped ovulation and therefore acted as a contraceptive.

By 1954, Chang and Pincus had found two progesterone hormone compounds that female animals could take orally to stop ovulation, preventing pregnancy.

It wasn't the first hormone preparation that inhibited ovulation. The first was developed in the 1930s by researchers working with steroids. But these hormones were scarce then, and they couldn't be taken orally. The great achievement of Dr. Chang and Dr. Pincus was the development of a birth control compound taken by mouth.

Twenty years later, "The Pill" is a term synonymous with contraception. About 50 million throughout the world use it, international government studies say.

Never before have so many people regularly used drugs as potent as hormone compounds for such extended periods. They do so although scientists argue about the side-effects of contraceptive pills and the potential dangers from long-term use.

The work by Chang and Pincus at the Worcester Foundation for Experimental Biology, in Shrewsbury, was only the beginning. Since then several new formulas for The Pill have been developed.

Today's pill basically is either of two female hormones called estrogens combined with one of six different progestogens. The progestogens are sex hormones that also can be used alone as contraceptives.

Combinations of these hormones in various strengths and dosages give users in many countries a choice among 25 to 30 brands.

It is an irony of science that sex hormones occur naturally in the body to set up and aid pregnancy, but when given in increased doses on certain schedules, prevent it.

Chang, who admits to having been born in China "about 60 years" ago, still does fertility research at the Worcester Foundation. He says he is more interested in basic research than social application, "but it is gratifying to know what

came out of our early work."

**CANNOT ATTACH**

Today's pills work largely by preventing ovulation — the production of eggs ready for fertilization — or by changing the lining of the uterus so that a fertilized egg cannot attach to the womb's side.

But scientists acknowledge that they do not know in fine detail what birth control pills do to a woman's body to prevent pregnancy. No one understands all the effects of tipping the delicate hormone balance.

Mrs. McCormick thought it would be and supported the research with donations which eventually totaled \$300,000.

Pincus, who died in 1967, became the principal promoter of further research on The Pill. He went on globe-circling talking tours to raise funds and to encourage skeptical scientists and laymen to accept the efficacy of oral contraceptive pills.

The Pill's use has climbed steadily, particularly among women under 30 years of age. The only noticeable dip in popularity came in 1969 and 1970 when the hazards of The Pill received wide publicity.

The side effects throw a long shadow over oral contraceptives. Studies show that pill users run a greater risk than non-users of thrombosis — blood clotting in the veins that can be fatal — stroke, high blood pressure, gallbladder disorder and other problems.

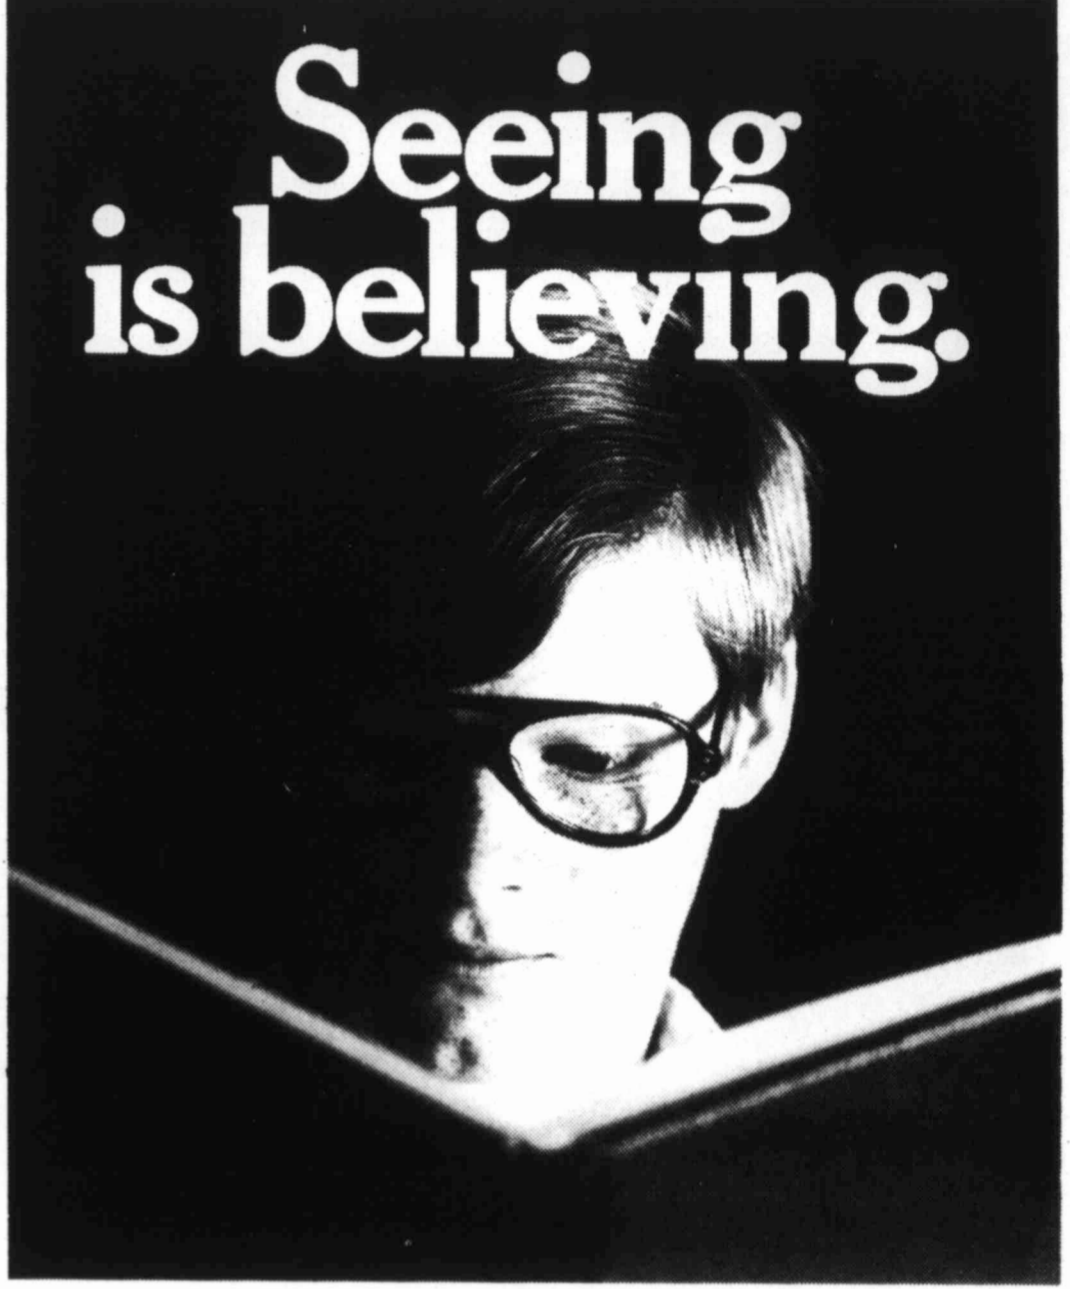

Some side effects appeared to lessen when second-generation pills with lower hormone dosages were introduced in 1969. But critics maintain that too much still is unknown about possible long-term effects, such as increased cancer risk or genetic problems in offspring.

Proponents of The Pill say the risks are minimal considering the social benefits. Millions of persons not born because of birth control pills would have added to today's population problems, they maintain.

It's about time you relaxed. Let us do the chores, the cooking and the dishes.

# THE WEEK

Cont. From Pg. 1

Schools got off to a good start with about 6,300 at the week's end. The downward trend of several years appeared to have levelled off.

Response to the Bible Class Fund appeal suddenly got into high gear, although there was some modifying at the end of the week. The effort is now past \$3,000, about 60 per cent of the goal. Your help is still needed.

Two new executive additions were announced during the week. R. E. (Bob) Heckler was added to the Security State Bank as assistant cashier. Cliff Balzer was brought back as a polymer technical services supervisor at Cosden.

Directors of the Howard County Fair Association shaped up plans for the 1974 edition of the big show Sept. 16-21 at a meeting last week. Meanwhile, rapid progress is being made on the new building given by the Dora Roberts Foundation, and it should be ready.

The last obstacle to construction of 10 additional T. hangars at the Howard County Airport appeared to have been cleared when the commissioners court agreed to soak up some \$2,000 in additional pay scales because of federal participation in the project.

City sanitation workers were talking about unionizing after a meeting in which they complained about working schedules, which were changed when a new law put them under the time-and-a-half pattern for overtime. City officials said the schedules had been set up at a previous request of the workers.

If you haven't done so, better send in your check (\$10 per seat) for your season tickets to Steer football. Kickoff time will be here before you know it.

Most of our calls begin, "Listen you so and so..." but imagine our delight to get a couple of rosebuds from Opal Tanner and Bobby Zellars for a tape made on Big Spring history; someone might figure the odds on two highway bids being the same, as with a recent Texas Highway Department proposal of \$164,431.61 (the two bidders flipped to settle it.)

## Hickel, Hall Await Major Challenges

Former Interior Secretary Walter J. Hickel is seeking the Republican nomination for Governor in Alaska and Gov. David Hall, a Democrat, is running for re-nomination in Oklahoma in the states' Tuesday primaries. Hickel, 55, fired by former President Nixon in 1970 for his outspoken criticism of the administration, is facing a stern test against former Gov. Keith Miller and Jay Hammond, a commercial fisherman and veteran legislator who is considered a dark horse. Miller, a state senator from Anchorage, was on

Hickel's ticket when he defeated Democratic Gov. William A. Egan in 1966. Hall, facing a federal investigation and a pair of formidable challengers, will be fighting for his political survival. Hall and U.S. Rep. Clem McSpadden were the Democratic heavyweights when the campaign opened, but state Rep. David Boren, a former Rhodes scholar, has vaulted into contention in recent weeks and now threatens to knock out one of the veterans and gain a runoff berth. Most Democratic of-

officials believe McSpadden is out front, but they say Boren is gaining support and could knock Hall or possibly even McSpadden out of the picture with a strong showing in Oklahoma and Tulsa counties. Unless one candidate gets a majority, the top two men will face a Sept. 17 runoff primary.

## BEHAVIOR SUSPECT Pentagon Kept Eye On Nixon

WASHINGTON (AP) — Pentagon officials kept close watch during the last days of Richard M. Nixon's presidency to make certain no military units became involved in the process of removing the President from office, informed sources said today.

Informed Pentagon sources said Secretary of Defense James R. Schlesinger and the Joint Chiefs of Staff kept close watch to make certain no orders were given to military units outside the normal chain of command.

They said the action was designed specifically to assure that no order would go to any military units for any sort of action against Congress during the time between a House vote for impeachment and a Senate trial on impeachment charges.

In frequent communication with Secretary of State Henry A. Kissinger and White House chief of staff Alexander M. Haig.

The newspaper quoted one source as saying the one concern was Nixon's past behavior "during violent military action."

When Navy warships mined Haiphong Harbor in 1972, the Globe's source said, Nixon cultivated the image of a man "who might do anything."

"If the Russians thought he might do anything, that was fine with him," the Globe source said.

The sources said the action was merely normal contingency planning "in the event of improbable circumstances."

"There was never the slightest indication from within or without the military establishment of any thought of involvement by the military in any action contrary to the constitutional processes," the sources said.

Nixon resigned Aug. 9, after the House Judiciary Committee had approved three articles of impeachment but before they came to a vote on the House floor.

The action by Schlesinger and the Joint Chiefs of Staff was based on hypothetical situations that could arise during the period when Nixon's hold on the presidency was not clear, the sources said.

A Defense Department spokesman quoted Schlesinger as saying "in keeping with my statutory responsibilities, I did assure myself that there would be no question about the proper constitutional and legislative chain of command, and there was never any question."

The sources said the hypothetical circumstances never arose and the normal lines of communications functioned well during the period of transition.

## DEATHS

### Anne Ratliff

Miss Ina Anne Ratliff, 55, was found dead at her home 405 Westover, at approximately 7:30 p.m., Friday.

Funeral services will be conducted at 2 p.m., Monday in the Nalley-Pickle Rosewood Chapel by the Rev. J.B. Sharp of First United Methodist Church, with interment to follow in the city cemetery at Sterling City.

Miss Ratliff, who was born July 31, 1919 in Sterling City, attended public schools there and in Big Spring. She received a B.S. degree in elementary education at the University of Texas in 1945 and earned her master's degree in 1954.

Teaching first in La Marque and Wichita Falls, she came to Big Spring about 1960 and continued teaching in the public schools until her retirement several years ago.

She was preceded in death by her parents and a brother, Arch Ratliff of Big Spring. Survivors include a sister-in-law, Mrs. Sue Ratliff, Valley Mills, and several cousins, including Kelly Burns, Mrs. V.E. Phillips and Mrs. Arthur Pachall, all of Big Spring.

Pall bearers will be V.E. Phillips, Charles Ray Phillips, Arthur Pachall, Ervin Bridge, Mike Bridge and Johnnie Bedell.

### Mrs. Davidson

STANTON—Funeral services are slated for 3 p.m. today in the First Baptist Church here for Mrs. Edna Ann Davidson, 79, long time Martin County resident, who died at 6:05 a.m. Saturday in Stanton View Manor.

Services will be officiated by Rev. Floyd Dunn with Rev. A.L. Gatewood officiating.

Interment will be in Salem Cemetery near Big Spring.

Mrs. Davidson was born April 5, 1895 at Rising Star, Texas and moved to Stanton from the Salem Community in 1926.

She married Otis Davidson in Big Spring on August 21, 1916 and he preceded her in death on October 6, 1948.

Survivors include one daughter, Mrs. Eugene Baugh, Stanton; one sister, Mrs. J.L. Baugh, Big Spring; five brothers Henry Hull, Hobbs, N.M., L.D. Hull, Stamford, Tex., Earl Hull, and Floyd Hull, both of Big Spring; and Clyde Hull of Phoenix, Ariz.; two grandchildren and five great grandchildren.

### Hubert Robison

Funeral services for Hubert Robison, 79, retired Snyder and Scurry County businessman and farmer, will be held at 2:30 p.m. Monday in the Northside Baptist Church in Snyder with the Rev. J. A. Green of Portales, N.M. officiating.

Robison died Friday night at 10:30 p.m. in a Snyder hospital.

Interment will be in the Hillside Memorial Gardens in Snyder.

His body will lie in state at the River-Welch funeral home in Big Spring until Monday morning when it will be moved to the Northside Baptist Church in Snyder beginning at 9 a.m.

Robison was born on March 8, 1895 in Navarro County, Texas and moved to Scurry County with his parents when he was a small boy.

He married Clyda Green at Ira on November 1, 1914. He wife preceded him in death in 1969.

Robison was a member of the Baptist Church, Snyder Masonic Lodge, was a 32nd Degree Mason and was a member of the Suez Temple.

He served as Scurry County Commissioner for eight years and farmed and operated a butane business before his retirement.

His family suggested that any memorials be given to favorite charities.

Survivors include one son, J. D. Robison of Lake J. B. Thomas; two daughters, Mrs. Elmo Dunn of Colorado City and Mrs. Jack Dunn of Ira Star Route; three sisters, Mrs. J. A. Green, Sr. of Granbury, Texas, and Mrs. Joe York and Mrs. Jeff Koonsman, both of Snyder.

Pallbearers will be Hubert Dunn, Gayle Nail, Marvin Franklin, Billy Wayne Harris, Turritt Dunn, and Randy Joe Franklin.

## Over 1,800 Perish In Asian Floods

By The Associated Press

As muddy monsoon waters begin to recede, India, Bangladesh, Burma and the Philippines have started cleaning up from their worst floods in recent history.

Official figures show that more than 1,800 persons died in the four countries as swollen rivers burst their banks, inundating thousands of acres. The phenomenon occurs annually, but usually on a smaller scale.

The number of homeless is in the millions. Officials estimate property damage in the hundreds of millions of dollars. Badly-needed crops are flattened or swept away. Bangladesh was hit hardest, losing 1,714 dead by official count, mostly through flood-related disease. Unofficial estimates place the death figure there as high as 3,000. A million of the more than 70 million Bangladeshis now need

drinking water and sanitary living conditions. The prime minister, Sheikh Mujibur Rahman, has told the country it must carry out relief efforts as if fighting war.

Official sources in Dacca, the capital, estimate that more than a million tons of foodgrains must be imported to make up the damage to the rice crop.

Officials in eastern Bihar state caused more than \$73 million damage to the summer crop.

Burmese authorities described the flooding in Burma as the worst in a century.

Official figures told the story: there were 18 dead, two million homeless, more than \$10 million in property damage. Floodwaters still cover 30,000 square miles, or about 11 per cent of Burma, and a million acres of ricefields, about 10 per cent of the sown acreage.

COAHOMA BULLDOGS — Norman Roberts, Coahoma head football coach hopes third time is the charm as he reads the Bulldogs for season play and 6-AA honors. The East Texas State graduate starts his third year at

the helm. Coahoma has been away from the playoffs for two years but finished with a 7-3 record last season. Play begins Sept. 6 with Big Lake, there, and the first home game, Sept. 13, against Post.

## SCORE: 16-7 Saints Trip Up Cowboys

NEW ORLEANS (AP) — Middle linebacker Joe Federspiel led a New Orleans defense that throttled Dallas' running game and Doug Winslow raced 93 yards with the second-half kickoff to help the Saints beat the Cowboys 16-7 in National Football League exhibition action Saturday.

Federspiel was credited with five solo tackles and one assist during the first half, then added two more unassisted tackles and another assist in limited action during the second half.

The Saints started out with a 33-yard field goal by Bill McClard with just under a minute left in the first quarter. The boot capped a 13-play drive which began on the New Orleans 31.

Three minutes later, the Saints scored again when quarterback Archie Manning, putting the ball in play from the Cowboy

38, lofted the ball to rookie Joel Parker all alone on the 10. Parker loped in to score. The extra point attempt failed when holder Bobby Scott let the snap squirt between his hands.

Winslow took the second-half kickoff on the New Orleans seven-yard line, put a hip fake on one defender, moved to the middle of the field, popped through the wall of coverage and hit the left sideline. One defender had a shot at him on the Dallas 20, but the second-year wide receiver outfaked him and ran into the end zone.

Dallas came right back with a 58-yard, eight-play drive climaxed by a 13-yard punt to pay dirt by Robert Newhouse.

Harry Kokolou converted to make it 16-7 midway through the third quarter and the fourth.

Both teams went with veterans through the first half. Dallas Coach Tom Landry sent many of his players through the full course, especially on offense.

The Saints kept Dallas in check so thoroughly during the first half that the Cowboys could not manage a first down until midway through the second quarter. That first down came during an 11-play drive from the Cowboy four-yard line to the Saints 44, the only

## Rangers Finding Range; Trim Tigers Again, 6-4

DETROIT (AP) — Lenns Randle singled home the tiebreaking run in the 10th inning and the Texas Rangers went on to beat Mickey Lolich and the Detroit Tigers 6-4 Saturday.

Toby Harrah of the Rangers tied the score in the ninth inning with a leadoff home run, his 17th of the season, and squeezed home an insurance run in the 10th with a bunt single.

Jeff Burroughs opened the 10th with a single, was sacrificed to second and scored on Randle's single. Randle went to third on Jim Fregosi's infield hit and a throwing error by third baseman Aurelio Roriguez and scored on Harrah's bunt.

Texas scored single runs in the first, third and fourth, the tallies coming on a single by Tom Grieve, a bases-loaded walk to Randle and a squeeze bunt by Dave Nelson.

A double by Rodriguez and Ron LeFlore's single gave Detroit a run off Jackie Brown in the third. Gene Lamont and John Knox singled runs home in the fifth to tie the score 3-3.

Rookie Tom Verzyer's double put the Tigers in front 4-3 in the sixth after Ben Oglivie opened the inning with a single and was sacrificed to second.

The setback broke Lolich's four-game winning streak and evened his record at 15-15. However, the veteran lefthander struck out 10 to run his career total to 2,510, moving him five ahead of Christy Mathewson into eighth place on the all-time list.

The Tiger Stadium crowd of 22,218 brought

## Coahoma Unveils Smooth Machine

COAHOMA — The Coahoma Bulldogs unveiled their crushing ground game Friday night as they outscored the Crane Golden Cranes 7-1 in a game-type scrimmage here.

Coahoma rushed the ball 85 times during the scrimmage, rolling up 436 yards and six of their seven touchdowns via the ground.

In 11 passing plays, they completed eight passes for 91 yards and one touchdown.

Crane was held to only 104 yards rushing in 47 carries and completed four of nine passes for 47 yards.

The Bulldogs got first downed the Cranes 36-10. Each team gave up two fumbles and one interception, and each team had possession of the ball 12 times.

Crane punted the ball five times while Coahoma only punted once.

Each team was penalized 55 yards.

## WESTCHESTER GOLF Miller Ahead By 2-Stroke

HARRISON, N.Y. (AP) — Brilliant Johnny Miller, showing no effects of a long layoff from the game, came from four strokes off the pace with a gaudy 65 and established a two-shot lead Saturday after the third round of the \$50,000 Westchester Golf Classic.

Miller, the All-American boy who has played only twice in more than two months, put together a 202 total, a distant 14 under-par on the hilly 6,614-yard Westchester Country Club course.

"Not bad for a guy in a slump," murmured Johnny, who won his fifth title of the year in April. "Everyone has been saying I'm in a slump. I haven't said that, but everybody else has."

"It's just that I haven't won for awhile. I'd like to win again."

I really would. I want to win real bad." The 27-year-old Miller, the season's leading money winner with more than \$205,000 for the year despite his inactivity of the last couple of months, had a two-stroke advantage over Tom Weiskopf but was looking at the threat of Jack Nicklaus going into Sunday's last round of the chase for a \$50,000 first prize.

HARRISON, N.Y. (AP) — Here are the top third round scores Saturday in the \$50,000 Westchester Golf Classic on the 6,614-yard, par-72 Westchester Country Club course.

Johnny Miller	69-68-65-202
Tom Weiskopf	70-68-60-198
Dale Douglass	67-66-72-205
Don Bies	70-65-70-205
Jack Nicklaus	68-68-205

## Roberts Carries Astros By Phils

HOUSTON (AP) — Dave Roberts fired a one-hitter and Roger Metzger delivered a runcoring single in the eighth inning Saturday night to carry the Houston Astros to a 4-0 victory over the Philadelphia Phillies Saturday night.

The only hit off Roberts, 9-10, was Bob Boone's leadoff single to left field in the sixth inning. Roberts outdueled the Phils' Steve Carlton, 14-8, who gave up four hits.

Larry Milbourne singled to lead off the Houston eighth, stole second and scored on Metzger's two-out single to center.

Through the first seven innings, each team managed to advance just one man as far as second base.

Boone was sacrificed to second following his single but was stranded there. Houston got runners on first and second with one out in the seventh on Bob Watson's single and a hit batsman.

## Taiwan Claims Honors

WILLIAMSPORT, Pa. (AP) — Pitcher Lin Wen-Hsiung fired a two-hitter and hit two home runs Saturday to lead Kao Hsiung, Taiwan, to a 12-1 win over Red Bluff, Calif., in the Little League World Series championship final.

It was the fourth straight year that a Taiwan team has won the annual tournament and the fifth time in six years.

Lin, a 12-year-old righthander, used a quick fast ball and a slow curve to strike 15 of the 21 California batters he faced. He walked one.

The only solid hit off Lin was a fifth-inning homer by Red Bluff first baseman Greg Shoff. That made the score 9-1 and stopped a 45-inning streak in which Taiwan teams had held their opponents scoreless.

The only other California hit was a second inning infield single by Schoff off the second baseman's glove.

Taiwan rapped Red Bluff pitcher Mark Keluche for five runs in the first inning to take command of the game. The big blow was Lin's first homer, a towering two-run shot over the left field fence.

Lin ended the series with five homers in three games and a .727 batting average. He also pitched a one-hitter in Taiwan's opening round 16-0 win over New Haven, Conn.

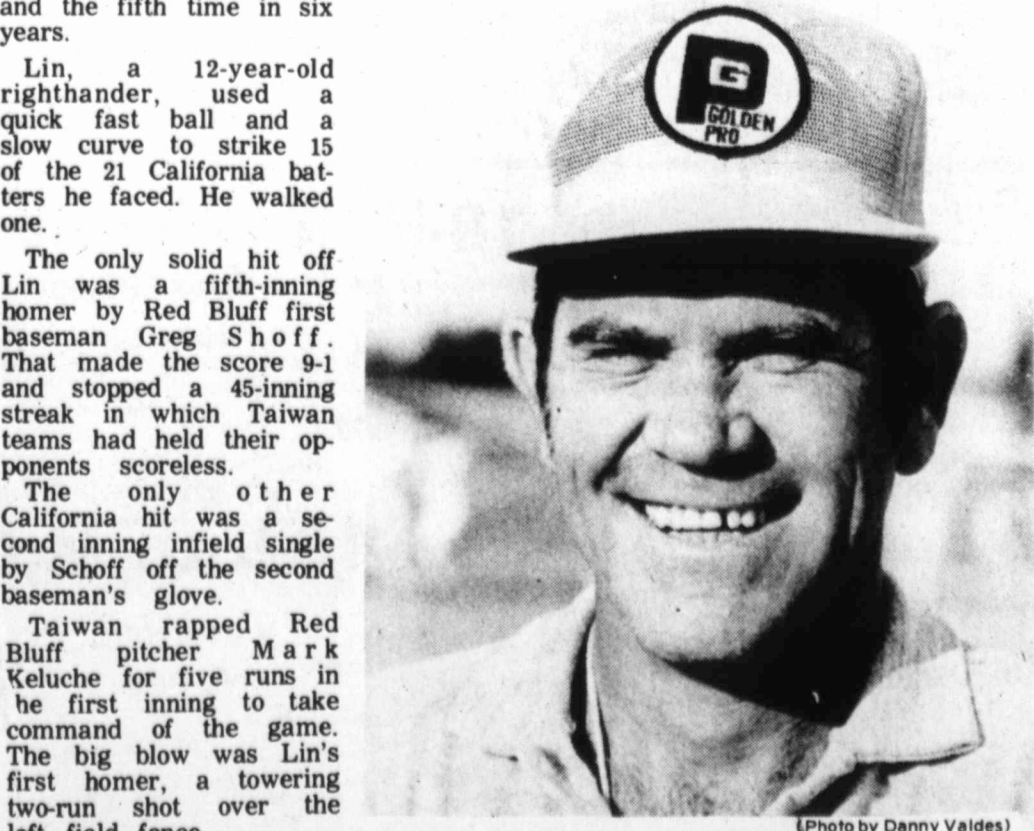

## Broyles Likes Frosh Runners

FAYETTEVILLE, Ark. (AP) — Coach Frank Broyles said Saturday he was impressed with the freshman running backs and defensive lettermen as his Arkansas Razorbacks went through their first scrimmage of the season.

Broyles said the early part of the scrimmage was very good, but that the players became sloppy toward the end.

Junior linebacker Terry Irwin was injured during the scrimmage. Irwin is expected to be out for awhile after injuring his knee for the third time.

"We will have at least two, and probably three or four, more scrimmages before our season opener with South "n Cal," Broyles said.

# Are You Hunting Fees Ready To Hunt?

LUBBOCK — Hunting, fishing and nearly every other outdoor activity calls for physical exercise or exertion — sometimes, vigorous exertion. We wouldn't want it any other way.

But nobody, however good their health or skill and experience as a sportsman, can lead a more or less sedentary life during most of the year and then go to the hills, follow game through the brush or up a ridge, crawl on his belly, ride a horse or carry a pack, without being penalized.

Every year, sportsmen die of heart attacks or are injured enough to cut their hunt short because of their failure to get into shape and have a medical checkup.

Nobody can get into shape overnight. But you can, within a reasonable length of time, develop the strength and stamina to enjoy the outdoor trip and be ready for that emergency that you might have to perform.

Now is the time to start a program that follows certain principles of exercise. There should be no sudden call on your out-of-shape body for a burst of tremendous effort. Start out with a few mild exercises such as walking, jogging or calisthenics.

A continued easy workout will not improve your stamina very much. You will have to push yourself harder than you work on an average day. This slight overload will increase your stamina and it will be handled by your body.

To go beyond your present physical fitness, you must progress by increasing the strenuous exercises until you arrive at the fitness level you want to achieve.

A regular workout is important. A once-a-week workout is of little value.

Most individuals can attain their goal of physical fitness by working out at least three times a week. Of course, five or six times would be ideal.

If you are going to travel by foot in the hills, make sure you break-in your new boots or that backpack as well. No one is going far with blisters on his feet or an unbalanced pack.

Remember, you will enjoy your outdoor trip only as much as your body will let you. The better shape you attain before the trip, the better you will have a chance to see or smell or feel the outdoors.

## Trojans Desire Top Spot

LOS ANGELES (AP) — Tongue in cheek, Coach John McKay ruled out perhaps the only way his Southern California Trojans can be dethroned as the best college football team on the West Coast.

"We're not going on strike," the 51-year-old McKay quipped to a gathering of writers before his Trojans opened fall practice.

There are 34 lettersmen — including quarterback Pat Haden, tailback Anthony Davis and All-American linebacker Richard Wood — returning at University Park to make the always optimistic McKay unusually radiant.

"We're shooting for the national championship," he has said over and over to booster groups. Usually he merely gushes about the Pacific-8 championship and trip to the Rose Bowl at this time of year.

McKay in 14 seasons has coached three Trojan teams to national championships, the latest in 1972.

"We've got as good material as we've had in a long time, including 1972," said McKay. Since that team went 12-0, thrashing Ohio State 42-17 in the Rose Bowl, and was applauded by many as one of the best, if not the best, in college football history, the race in the Pac-8 this year probably is for second place.

Another Southern California school, San Diego State University, is the team to beat in the Pacific Coast Athletic Association. Aztec's Coach Claude Gilbert, who'd like nothing better than a berth in the Pac-8, has a two-year record of 19-2-1.

ODESSA, Tex., (AP) — David B. Terk, a local businessman and avid sportsman, is waging a court battle he hopes will eliminate discrepancies in the levying of resident and nonresident hunting fees on public lands.

Terk believes the trial of legal decision could end up in the U.S. Supreme Court.

He has filed a suit against the director of the New Mexico Department of Game and Fish, Ladd S. Gordon, seeking an end to the charging of higher hunting fees to out-of-state residents than to New Mexico citizens.

The specific example cited in the suit is the Mexican desert bighorn sheep. New Mexico's schedule calls for a \$20.50 hunting fee for the animal. The nonresident fee is 15 times greater at \$300.50.

Terk's attorneys filed the suit in Federal District Court in Albuquerque and, at the same time, asked for a temporary injunction to prevent the state from holding a lottery to draw for hunter's privileges in hunting the bighorn sheep.

New Mexico has set a 1974 limit of six hunters who will be allowed to hunt the animals—five will be from New Mexico but only one may be an out-of-state sportsman.

Federal Judge Edwin Mechem denied the temporary injunction to prevent the lottery but empaneled a three-judge federal court to hear the merits of the suit.

"I expect it to be a long, hard, costly battle that will eventually be decided at the Supreme

Court," Terk said. "I just feel like someone has to step forward and do something." When asked if he felt the case would become a landmark decision, the Odessan replied, "No question about it."

Terk noted that other western states, 13 in all charge a higher nonresident fee than a resident license fee for hunting on public lands.

"I fully expect the suit will be joined on the opposition side by at least six or eight of the other big game states," he added.

Terk said he believes he will have his first day in court in late September.

He is quick to point out, however, that the suit is against the system rather than any specific person or group.

Terk added, "I think the New Mexico game department is one of the finest in the country. They have been working in restoring endangered species and planting African animals in the state, but they, like most other game departments, are trapped by problems—between their profession in wildlife management and the political realities of their jobs."

"The license fee row is a perfect example. They cannot justify it on any scientific basis but it is politically motivated in that they can show the people of New Mexico they are looking out for their interests by charging higher fees to out-of-state hunters. They are professional wildlife officials working for the state which is a political organization."

## Can Other Teams Match T Muscle?

By The Associated Press

So this is the year some other Southwest Conference schools can match Texas in muscle. Uh, huh. But isn't the real gap in the SWC psychological?

The only football team around that KNOWS how to win the SWC title is UT-Austin. There are a lot of players at Texas A&M, Texas Tech and Arkansas who were 12 and 13 years old the last time a team other than the Longhorns had their pictures snapped for the Cotton Bowl program.

So, given the thesis that Texas might be a shade below par this year, what teams might be able to go to combat mentally as well as physically with Coach Darrell Royal's bullies?

Texas A&M you say. The Aggies have some wonderfully talented players such as linebacker Ed Simonini and backs Skip Walker and Bubba Bean. But when was the last time an A&M team defeated Texas on the hallowed grounds of Memorial Stadium? The answer is the Bear Bryant era—circa 1956.

The Aggies traditionally whip themselves into a froth with bonfires and yell practice and fumble the opening snap. They get so intent on wanting to thrash Texas physically they're in a mental fog. A lot of times it's 28-0 by halftime.

You can't select Coach Emory Bellard's talented crew until they've proven they can cure the dread Over Adrenalin Malady.

Texas Tech is another team with the possibility of matching the Burnt Orange muscle by muscle. Should red shirt quarterback Tommy Duniver sparkle, the Red Raiders are expected to own all-the-way quality.

LUBBOCK, Tex. (AP) — The Texas Tech Red Raiders completed their conditioning drills Saturday and Head Football Coach Jim Carlen said the team will practice in pads Monday.

The Red Raiders are preparing for their season opener against Iowa State Sept. 14.

"We need contact work," said Carlen, "and I'm anxious to take a look at the players in full uniform."

LUBBOCK, Tex. (AP) — The Texas Tech Red Raiders completed their conditioning drills Saturday and Head Football Coach Jim Carlen said the team will practice in pads Monday.

The Red Raiders are preparing for their season opener against Iowa State Sept. 14.

"We need contact work," said Carlen, "and I'm anxious to take a look at the players in full uniform."

And Texas Tech is catching the Longhorns in Lubbock.

But Coach Jim Carlen, his staff, and Red Raider fans have a phobia about having to play the Longhorns early.

"If we could just catch the cooling off period while it would be different," the Tech fans moan.

HUNTSVILLE, Tex. (AP) — Houston Oiler center Bill Curry, talking less like a union president and more like a football player, continued to observe the cooling off period Saturday but he said the talks were not warming up.

"I was excited that the cooling off period would create good faith bargaining," said Curry, president of the striking National Football League Players Association.

"So far it hasn't worked out that way," Curry said he had no idea what might be decided at next Tuesday's meeting of the 26 NFLPA player representatives meeting in Chicago.

"The most unfortunate and least true idea to come out of this is that Bill Curry and (NFLPA executive director) Ed Garvey make the decisions," Curry said.

"The executive board meets Tuesday and they will decide the next move."

So Curry, trying to softpeddle what might happen next in the business of making the Oiler football team. Curry is coming off a knee operation in May and a serious knee injury that kept him out most of last season.

Houston Oiler Coach Sid Gillman has made strong statements about the striking veterans having a tough time making the team but Curry sees no problems.

"Of course there are feelings and overtones but I've hardly heard it (the strike) mentioned here," Curry said. "The attitude is good" under the circumstances.

Curry said his injured knee was responding to rehabilitation and given time, it would be ready.

He said the time spent at the negotiating table had not hurt his preparation for the season.

DAVE BOLES

## Boles To Attend Howard College

Dave Boles, 6-7, 210-pounds from Bettendorf, (Ia.), High School, who plays the post position, has signed a letter of intent with the red and gray colors of Howard College, Harold Wilder,

Hawk cage coach announced.

Boles holds the distinction of recording three first while a prepster at Bettendorf: Des Moines Register & Tribune All-State team; first team in Mississippi Valley Conference; and first team All-Eastern Ia., twice.

His senior year, Boles averaged 18.7 points per game, 4.8 in field goal tries, 75.7 in free throws, and rebounded 13.6.

Individual records set by Boles include: varsity career, points, 964, rebounds, 580, free throws, 236; best free throw percentage, one year, 87, most points one season, 478, and most points, one game, 37.

## New York Prepster To NMJC

HOBBES, N.M. — New Mexico Junior College basketball coach Dale Caton has announced the enrollment of one of the nation's finest prep stars.

A 6-7, 210-pound forward from East High, Buffalo, N.Y., Mike Russell enrolled here for the fall semester.

Russell averaged 28.9 points per game and 23.0 rebounds per game his senior year and paced his team to 57-2 record, spanned over a three-year period.

He was listed on virtually every prep All-American team selected this past season and was first team all-state in New York.

Russell was named the Most Valuable Player in the nationally famous Rucker Tournament this year and was also the MVP of the New York state all-star classic.

Black Sports Magazine selected Mike as the national high school player of the month last winter and at least one scouting service utilized by college coaches listed him as one of the nation's top 10 college prospects.

Possessing a fine shooting touch from all over the playing floor, Russell is also a rugged rebounder and a good defensive player.

## Texas' Coach Looks To NFL

HOUSTON (AP) — Houston Texans Coach Jim Garrett says he'll try to breathe new life into his World Football League team by examining the cut lists of National Football League teams.

"I will begin a step-by-step evaluation," said Garrett, whose Texans were beaten 43-10 by New York Wednesday. "With the National Football League veterans reporting, three will be many fine football players available in the near future."

The Texans, comprised mostly of veteran players, are 2-4-1 after Wednesday's loss and trail Southern California 1½ games in the WFL's Western Division.

Garrett said the Texan veterans had failed to respond to the challenge and accepted part of the blame for the Texans' lack of success.

"I put too much stock in the fact that they were veteran players, that they could bring themselves around mentally, emotionally and physically without direction on my part," Garrett said.

"When I look at the situation now, I have to believe we would have been better off with one-half veterans and one-half rookies," Garrett said.

"The youngsters would have been more competitive and they would have carried the tempo of this game to the veterans."

SHOFNER'S PLANS

## TCU To Hop More

FORT WORTH, Tex. (AP) — Jim Shofner plans to put more hop in the TCU Frogs this fall. In fact, he's going to make them airborne.

Recalled to his alma mater after spending most of the past 16 years in pro football, Shofner makes it plain that he believes in a wide-open attack and furthermore believes TCU can become a winner again.

His plan is long-range, and involves some good recruiting, but in the meantime the Horned Frogs on hand must be adapted to a new style of play. Their coaches think it can be done.

"We have to convince our players that they're good," says one Frog assistant, "because they are."

And Jimmy Thomas, who ended his pro playing career to come with Shofner as TCU's first black coach, echoes that thought: "There are more good football players here than I expected. We just have to let these kids know they can win. We'll be better than anyone thinks. We won't be embarrassed."

Shofner's style will be "run and gun"—with Lee Cook gunning and Mike

Luttrell running. With an eye on ticket sales he says, "We want to make football an exciting and fun experience for our players and fans."

He says Cook is his quarterback, a "guy who can run the team."

Cook, a 180-pound junior, saw limited duty last year but completed more than half his passes. He'll throw a lot more in Shofner's multiple-pro offensive scheme, which the coach admits is aimed at getting big plays rather than controlling the ball.

But it won't be all passing. Luttrell is sighted in on TCU's all-time rushing mark, held by Jim Swink, and Shofner plans to give him the ball. Luttrell romped for 906 yards as a sophomore and another 865 steps last year despite crippling injuries. His running mate this fall will come from among Bobby Cowan, Kent Waldrop, Chuck Boyd, and Ronnie Littleton.

Cook's targets will include trackman Gary Patterson, veteran Dave Duncan, freshman Mike Renfro (whose father, Ray, played pro ball with Shofner), and Dickie Powers while Ronald Parker or Alan Layne (whose father, Bobby, played pro against AGAINST Shofner) will be at tight end.

Shofner feels he has "people who will come through" in the line. Offensively, the linemen will be senior Merle Wang and sophomore Scott O'Glee at tackles, seniors Johnny McWilliams and Terry Champagne at guards and soph Jerry Caillier at center.

The Giants traded him to Oakland earlier this summer and the Raiders decided to waive him knowing his intentions to jump to the Texans next season.

## Former NFL Back Turns To Houston

HOUSTON (AP) — Richmond Flowers, a former National Football League defensive back, was to report to the World Football League Houston Texans' practice field today.

Flowers, 27, a former University of Tennessee star, has held a front office job with the Texans as special assistant to club president Steve Arnold.

Flowers cleared waivers Friday and the Oakland Raiders released him to the WFL.

He was the first NFL active player to sign with the WFL last spring. He was with the NFL New York Giants when the Texans acquired the WFL rights to him from Hawaii.

The Giants traded him to Oakland earlier this summer and the Raiders decided to waive him knowing his intentions to jump to the Texans next season.

# Linda Gains Starting Spot On Altus Football Squad

ALTUS, Ark. (AP) — The Altus-Denning High School football team has a linebacker who stands 5 feet 11, weighs 163 pounds and has to suit up in a room separate from the rest of the team.

She is Linda Alston, 17, a senior whom Coach Stacy Wilson calls one of the best of the 17 players on his squad. Wilson said Linda will start at linebacker if doctors who are treating her for a bone ailment give their approval.

Linda is to undergo surgery Monday at Fort Smith for removal of pins inserted in her hips to strengthen them after discovery of an ailment that temporarily softens some bones.

"I'll play," said Linda. "I don't think I'll have any problems."

Wilson said he asked Linda to try for the team after he saw her in action on the basketball field and basketball court and heard of her exploits on an all-girl football team.

"At first I thought he was kidding," Linda said. But he wasn't, and Linda soon was on the practice field.

She brings some runners down with sharp tackles. Others she "just holds on and hopes she gets there fast," said Wilson.

Linda points out that she has been interested in sports and competed with boys in her home town all her life, adding, "They're like brothers."

There are some complications, however, to having a female football player.

"I guess the biggest thing is when we had quarterback," said Wilson. "You know where you have to put your hands."

Now, though, she steps up to the center in practice, takes the snap, moves back and tosses nice spirals without any visible sign of consternation.

"We've played baseball with her for

years," said quarterback Mark Young. "Everybody around here knows everybody else. Really, it's not like it was just some girl. She's a good athlete."

"Everybody around here knows everybody else. Really, it's not like it was just some girl. She's a good athlete."

Wilson said he understood that any go-ahead from Linda's doctor would clear her to play in mid-October. That would make her available for several games on the team's schedule this season.

(AP WIREPHOTO)

**GIRL FOOTBALLER**—Linda Alston, 17, of Altus, squints into the sun while watching a punt descend to her during practice of the Altus-Denning High School "boys" football team. She is the only girl on the squad and Coach Stacy Wilson says she'll play line backer if doctors treating her bone malady give the okay.

## LET'S GO FISHING

**CASTING—AN EASY SKILL TO LEARN**

There's an old fishing truism about lures that points up the importance of casting—a lure is only as good as the man who uses it.

The experienced fisherman knows the appearance of a lure is less important than how it hits the water and is retrieved. This is so because it's the life-like movement of the lure that is so eye-catching and enticing the fish can't resist striking.

The life-like movement is created by presenting the lure in the right place at the right depth; it's movement must not be too fast or slow, smooth or jerky; and it must be there only for the right amount of time.

A good place to start developing your casting skill is right in your own backyard. Your initial attempts should not be hampered by overhanging trees, tall grass and underbrush.

And practicing can be made interesting by casting to a specific target like an old tire or a bucket. Accuracy must be stressed before distance. Initial practice casts should cover distances varying from 25 to 60 feet. Increased distance will come naturally as the accuracy improves.

There are three basic techniques, spin, bait and fly casting. Spin casting is the easiest to learn which accounts for its great popularity. It has another advantage over bait casting in that it allows you to reach greater distances with lighter lures, flies and even live bait.

There are two types of spin casting reels, closed face and open-face. Both virtually eliminate the possibility of snarling the line—that backlash so common with bait casting and fly reels in the hands of inexperienced fishermen.

The closed-face reel is the more foolproof of the two. With it, the movement of the line out of the reel is controlled by a convenient button actuated by the thumb.

The open-face reel takes a bit more practice to master because you must hold the line against the rod with your index finger, releasing it at the precise time during your forward casting motion.

The casting motion with either type is similar. Cock your wrist, move the rod smartly in a vertical arc past your ear, and then snap your wrist forward releasing the line when the rod's forward motion is past the vertical position in your casting arc. If you release too soon your line will spiral above you; too late, and the lure will plunk into the water just a short distance from you.

The wrist action enables you to take full advantage of the flexibility of your rod to

help propel the lure toward the target. When you have completed your forward casting movement, the tip of the rod should point directly at your target.

There is one exception to this casting motion. It's the sideswipe or horizontal cast. But it should be used only under overhanging limbs or other obstructions that make the normal overhead cast impossible.

Once you've mastered spin casting you're ready to develop your skills with the more complicated bait and fly casting techniques which I will cover in other columns in this series.

Dear Virgil:

I am 11 years old and not very successful in fishing. I would like to know when is the best time of the year to fish for Northern Pike, how to catch a northern and what would you suggest to catch northern?

Bill Gridley  
Rockford, Illinois

Dear Bill:

The spring is the best time to go after Northern Pike. I'd suggest using a white Bass Buster Maribou Jig and fishing it at the edge of the reeds or grass. Use a slow pumping motion and if you get a strike, cast right back into the same spot. That Northern has a nasty disposition, and if the jig got away from him the first time, he usually will try for it again.

Virgil Ward  
Virgil Ward, three-time world and national freshwater fishing champion, is seen weekly on the "Championship Fishing" TV series. Send your questions to Virgil Ward, P. O. Box 6, Mankato, Minn. 56001.

## Familiar Name Unexpectedly Reports At TU

AUSTIN, Tex. (AP)—A familiar name unexpectedly has turned up on the Texas Longhorn football roster—Steinmark.

Sammy Steinmark, the brother of the late Longhorn defensive back Fred Steinmark, showed up for the first dasof practice Thursday without a scholarship.

He reportedly turned down several college scholarships to try out for the Texas squad as a walk-on.

Tentatively, Steinmark is at split end.

Fred Steinmark was a two year starting defensive back for Texas in 1968-69, missing his senior year because of bone cancer which resulted in amputation of a leg. Steinmark died in June 1971.

## Voters Select Longhorns To Win S'west Grid Title

FORT WORTH (AP)— Voters in the annual Texas Christian University poll tab Texas to win the Southwest Conference football title for the seventh time in eight years.

The Longhorns drew 59 first place votes among the 113 spots news representatives in the poll, and four others predicted Texas for a tie.

Following Texas' 833 points in the poll, a triumvirate of challengers is given a fair chance for the title. Texas A&M got 713 votes and 24 first place choices, Arkansas received 677 votes and 12 championship predictions and Texas Tech had 13 first place votes and 640 points.

SMU had one first place vote but was far behind in points with 376. Rice got 363 votes, TCU 239 and Baylor 226. SMU was the only team to get votes for all eight places.

## Penn State Still Capable Of Being Best East Team

STATE COLLEGE, Pa. (AP)— This is a rebuilding year for Penn State football, but the Nittany Lions still should be the best in the East, and a Top Ten spot is possible.

Coach Joe Paterno has to replace 13 players from his unbeaten and untied Orange Bowl winners last year.

"We have so many untried people that it's going to be tough to come close to our recent record," says Paterno, whose teams in the last three years won 33, lost 3 and played in the Cotton, Sugar and Orange Bowls.

Paterno insists that he had the worst spring practice since he became head coach at Penn State eight years ago.

Offensively, Paterno has to replace running back John Cappelletti, the Heisman Trophy winner; linemen Mark Markovich, Charley Getty and Phil LaPorta; split end Gary Hayman, who also was the top punt returner in the nation, and fullback-blocker Bob Nagle. On defense he has lost linebackers Ed O'Neil and Doug Allen, tackle Randy Crowder and defensive backs Buddy Ellis and Scott Mitchell.

Paterno doesn't expect to have the depth that State has become renowned for in college football.

Despite Paterno's built-in pessimism, he has the nucleus of another powerhouse. In quarterback Tom Shuman, State has one of the best passing arms in college football. Dan Natale, a 215-pound tight end, is a fine receiver and excellent runner after he catches the ball. Jeff Bleamer, a 6-foot-4,

249-pound tackle, and veteran Jack Baiorunos at center anchor a big, quick line.

Senior Walt Addie inherits Cappelletti's running shoes. He'll be challenged by Woody Petchell, a 187-pound speedster. And while Paterno has been set against playing

## ALL-AMERICAN DERBY Timeto Thinkrich Will Be Running

RUIDOSO DOWNS, N.M. (AP)—The world's richest quarter horse, Timeto Thinkrich, will be running Sunday for first place money that could push his career winnings to almost \$700,000.

Timeto Thinkrich will join nine other 3-year-olds in chasing the \$172,936 top prize in the 1974 All-American Derby set for Sunday at Ruidoso Downs race track in Ruidoso, N.M.

The 440-yard All-American Derby carries a total purse of \$519,300 which is just a few dollars shy of the record \$519,457 that Timeto Thinkrich has returned to his owners at the Vesvels Stallion Farm in Los Alamitos, Calif.

However, winning the All-American Derby and claiming the first place check that would push his career earnings to \$692,393.89 won't be an easy chore.

In fact, Timeto Thinkrich was only the third best qualifier in the trials run Aug. 16. A pair of fillies running in the same trial Timeto Thinkrich was in beat

three times. Rocket Elaine sports a 10-4-3 mark in 23 starts while Pass Over shows an 11-5-0 log in 18 outings.

The three will be joined by seven other horses as the 10 had the top qualifying times in the Aug. 16 trials.

Following are the 10 entries, their owners and qualifying times:

Rocket Elaine, Roger and Douglas D. Devenport, West Bend, Wis., 21.72; Pass Over, Jack R. Delmar, Rosenberg, Tex., 21.73; Timeto Thinkrich, Vesvels' Stallion Farm, Los Alamitos, Calif., 21.73; Easy Request, Angelina Cattle Co., Laredo, Tex., 22.06; Mrs. Pat, Arthur R. Lewis, Tucson, Ariz., 22.09; Easy Rita Jet, Jack G. Hatcock, Shawnee, Okla., 22.13; Easy Jet Arrive, Lorraine Beresford, New Vernon, N.J., 22.15; Bangaway Jet, Marcie West, Houston, Tex., 22.15; Laico Bird 2, Jimmy R.B. and Floyd H. Jones, Jr., Norman, Okla., 22.17; Does It Easy, Gordon W. Crone, Lakin, Kan., 22.21.

Rocket Elaine, owned by Roger and Douglas D. Devenport of West Bend, Wis., was the top qualifier with a time of 21.72 seconds. Pass Over, owned by Jack R. Delmar of Rosenberg, Tex., was next at 21.73. Timeto Thinkrich, almost in a dead heat with Pass Over, also came in at 21.73.

Rocket Elaine is the third richest horse in the race with earnings of \$131,767 while Pass Over is No. 2 in winnings at \$264,387.

Timeto Thinkrich has won 12 times in 28 races while finishing second seven times and third

## NCAA Makes Change

St. Louis (AP)— More than one team from a conference will be eligible to participate in the National Collegiate Athletic Association basketball tournament in the future, according to action taken by the N.C.A.A. Executive Committee.

The committee, which held its annual meeting here, announced a policy change which permits a team other than the conference title holder to be eligible for one of the 12 "at large" berths in the national tournament.

Sixteen of the 32 tournament spots go to conference champions and four others are taken from regional tournaments conducted by the East Coast Athletic Conference.

Under the new policy, however, no more than two teams from a conference may play in the national tournament.

Tickets for the 1975 tournament will cost more than before, the NCAA said. Ticket prices for early-round action will go up from \$4 to \$5 and prices for the finals—to be held in San Diego—will go up from \$10 to \$12. The price for admission to the 1976 finals in Philadelphia will go up to \$12.50.

The policy makers also announced that a 1974-1975 operating budget of \$2,485,000 had been approved. The budget includes \$200,000 for use in enforcing the NCAA's recruiting rules.

Also adopted was a rule requiring coaches to open their locker rooms to newsmen 10 minutes after the end of a game.

## Smith Pleased

DALLAS (AP)— Southern Methodist wrapped up three days of football workouts in shorts Saturday and Coach Dave Smith was well pleased with the Mustangs' progress.

"We've accomplished a lot of learning in two and a half days of work. We've put in everything that we are going to do. When we put the pads on Monday we'll start teaching thoroughly."

Smith said his squad reported to fall workouts in excellent shape.

"We are in very good physical condition. We've been working hard and the biggest weight loss has been about six to eight pounds. This is a good indication about our condition."

"The team's retention from spring practice has been amazing. We ran six plays the first day and it looked like we hadn't missed a thing in three months," Smith said.

## Cosden Couples League Planned

The Cosden Couples Bowling League will meet Tuesday at 6 p.m. at Bowl-A-Rama conference room.

Plans for the fall season will be discussed. The league bowls each week for 33 weeks. There were 12 teams competing last season.

## Coach Pleased

WACO, Tex. (AP)— Coach Grant Teaff was pleased with the first fall scrimmage of the Baylor Bears Saturday.

He did not single out any players saying the exercise was intended to look at every player on the field.

Teaff said his staff would study films of the scrimmage and Monday start putting together the first two offensive and defensive units in preparation for the Sept. 14 opener against Oklahoma at Norman.

## Sands Booster

ACKERLY—The Sands Booster Club will meet 7 p.m. Monday at the high school cafeteria, Lil. Anderson announced.

New officers are to be elected. Parents that have children from elementary to high school are urged to attend. The meeting is opened to the public.

## HOROSCOPE

SUNDAY, AUGUST 25, 1974

**GENERAL TENDENCIES:** Interest in others now is the best means for you to replace some difficult conditions. Give yourself a chance to understand a problem of long standing. There are prevalent pressures that could cause you to make errors.

**ARIES (Mar. 21 to Apr. 19):** A good day to go to new places and meet in person. Be somewhat dramatic and be helpful in impressing other now.

**TAURUS (Apr. 20 to May 20):** Don't try to renege on certain responsibilities or you would regret it later. Try to be more understanding of closest tie.

**GEMINI (May 21 to June 21):** Avoid a pal who could be in a bad mood at this time. Be more considerate of the problems of others. Evening is for relaxing.

**MOON CHILDREN (June 22 to July 21):** Don't try to force others to do what you are fair with everyone. Take time for meditation.

**LEO (July 22 to Aug. 21):** Forget that if you and do whatever you wish. Use diplomacy and show you are fair with everyone. Take time for meditation.

**VIRGO (Aug. 22 to Sept. 22):** Don't bring up any controversial subjects at home or there could be real trouble today. Do some entertaining at home tonight.

**LIBRA (Sept. 23 to Oct. 23):** Know what it is that allies expect of you. Study reports carefully and make sure they are correct. Catch up on your reading tonight.

**SCORPIO (Oct. 23 to Nov. 21):** Study monetary matters now and figure out how to have more abundance. Make plans to invest wisely. Take time for the social tonight.

**SAGITTARIUS (Nov. 22 to Dec. 21):** Ask for assistance in your own financial matters that could get you in trouble with others. Control your temper and get it under control.

**CAPRICORN (Dec. 22 to Jan. 20):** You may be feeling hemmed in but so are many others. It would be wise to wait and assert yourself on another day.

**AQUARIUS (Jan. 21 to Feb. 19):** Go about in your fine gregarious way today and make new and interesting acquaintances. A friend extends a favor you want.

**PISCES (Feb. 20 to Mar. 20):** It is best not to push anything just to have your way or you could run into danger. Do some philosophical studies today.

MONDAY, AUGUST 26, 1974

**GENERAL TENDENCIES:** The daytime is not good for you to accept statements without checking up. Your associates could be mistaken in their conclusions. An influential person gives you the support you need later in the day. Be alert at all times.

**ARIES (Mar. 21 to Apr. 19):** Don't neglect to look into a new interest even though you may be bogged down. Others may criticize but don't let it bother you.

**AQUARIUS (Jan. 21 to Feb. 19):** You know that your responsibilities are now, so get right at them and don't go off on any tangents. Make is helpful to you tonight.

**GEMINI (May 21 to June 21):** Plan home to please an associate more since greater success can result. Don't permit a family tie to interfere with your future plans.

**MOON CHILDREN (June 22 to July 21):** Begin the week properly by getting much work done. You can relieve the load you have by more cooperation with associates.

**LEO (July 22 to Aug. 21):** Visit congenials for the enjoyment you want and need at this time since important work is done. Be sure to stay within your budget.

**SCORPIO (Oct. 23 to Nov. 21):** Plan time for doing whatever means a great deal to those who dwell with you. Handle important work early in the day. Relax tonight.

**PISCES (Feb. 20 to Mar. 20):** Making appointments and keeping them on time makes this a most successful day. Plan activities and time wisely. Think constructively.

**SCORPIO (Oct. 23 to Nov. 21):** Don't let friends keep you from doing important work, especially financial matters. Avoid one who gossips too much.

**SAGITTARIUS (Nov. 22 to Dec. 21):** You stick to duties at hand you will make progress, even though not as fast as you think you should. Take your time.

**CAPRICORN (Dec. 22 to Jan. 20):** Handle pressing matters early in the day. Try to be of assistance to one who is having a difficult time. Visit friends tonight.

**AQUARIUS (Jan. 21 to Feb. 19):** You have responsibilities that should be handled quickly and well in the morning. Plan what should be done tonight that is important.

**PISCES (Feb. 20 to Mar. 20):** An associate wants to take up your time while you have work to do for a higher-up so use tact and get it done. Listen to an expert!

## WANTED 20 HOMES THAT NEED PAINTING

CENTRAL TEXAS — 20 Homeowners in this area will be given the opportunity to have the new United States Steel finish on their homes. It will be of special interest to homeowners who are fed up with costly repainting. For new United States Steel is ideally suited for the Texas climate as it will not mildew, peel, crack, fade or chalk, for the life of the building.

### UNITED STATES STEEL

finish has been developed after years of extensive research and testing. UNITED STATES STEEL carries a written 30-year guarantee (labor and materials)—can be applied over any type of home: wood frame, stucco, asbestos or brick. This new U.S. Steel and Vinyl finish has excellent insulating properties which will make the home warmer in cold, damp weather.

U.S. STEEL VYNASOL paneling has been advertised nationally in LOOK and LIFE Magazines. Homeowners who act now will receive special decorative work at no additional cost. Please call collect 915-949-3110 and ask for Mr. Ron Fox. An appointment will be made to see your house with no obligation. Please act at once. Out of town calls welcome.

Ace Construction Co.

# Legislature Will Be Asked For Changes

AUSTIN, Tex. (AP) - Texans still have trouble finding out how many live voters there are in the state and how much politicians spend trying to get those votes. Considerable headway has been made in recent years on voter registration and campaign reports, but the 1975 Legislature will be asked to make more changes. "When a private citizen has to hire a lawyer to determine whether his actions will be illegal or legal, maybe we need to make some changes," said Secretary of State Mark White, the state's administrator of election laws. White said he will suggest how voters' lists can be purged to remove the names of thousands of dead, out-of-state and otherwise unqualified voters. Second, White said, efforts will be made to get the 1975 Legislature to smooth out campaign reporting laws passed by the 1973 session. They are "super technical" in some respects, he says. White's office has taken on the voter registration purge at the urging of the Texas Elections Committee, which says it has unconfirmed reports of as many as 40,000 unqualified voters in Harris County, plus thousands more in other parts of the state. Rep. Ed Harris, D-Galveston, committee chairman, said the state may be paying out "thousands of dollars unnecessarily" because the state pays registrars so much for each voter carried on each county registration list. White said his investigation indicates Harris County, with about one million registered voters, may include about 10 per cent

who are dead or have moved from the county. White's department already is working with local postmasters to get them to send change of address cards to local voting registrars. The new campaign reporting bill, which is referred to by many candidates with epithets not deleted, briefly says all candidates must designate a campaign manager before they start collecting money, and must keep accurate records of all contributions and expenses over \$10, including names, addresses and dates. All of this information must be filed at appropriate times with a sworn statement by the candidate as to its accuracy. State or district candidates involving more than one county must file with the secretary of state, county candidates with the county clerk, municipal offices with the city secretary or clerk and other political subdivisions with the secretary or clerk of the governing body. "Basically, compliance has been one of over eagerness," White said of the new law. "Candidates don't want to be held up to public ridicule or that of an opponent." White said one of the changes needed involves penalties. "It's the same penalty for being late to register a campaign and as many as 100,000 unqualified voters in Harris County, plus thousands more in other parts of the state. Robert L. Lemens, director of the elections division in the secretary of state's office, says another problem is the handling of contributions from political action committees, a new field for state law. "It is difficult to apply under present law," he said. "There is need for numerous changes in draftsmanship." Many of the technical

violations found this year by the secretary of state's office occurred when candidates, from city dog catcher to governor, found they had to give previous notice of a campaign manager before accepting contributions. Even if they were running a one-man race, they had to get on record as their own campaign manager. All hands are watching a pending civil suit filed against Gov. Dolph Briscoe by a Democratic candidate he defeated in the primary, Mrs. Frances Farenthold. She claimed Briscoe started taking money for a campaign dimer before he named his campaign manager. He claims it is all politics. "There were lots of inadvertent filing errors and mistakes," said Lemens. A look at campaign reports show that a number of candidates left out full addresses, middle initials, dates or contributions. One candidate for state senate just listed "one call" under contributions, with no valuation or other identification. "Up to now we've done a lot of letter writing to candidates and committees and helped them get into compliance without official action against them," Lemens said. "That's not to say we will not take stronger action later if it continues."

Lemens added that the sworn statement from the candidate is all the elections department has to consider. "There is no way to tell if they are reporting all their contributions and expenses or if they are improperly reported," he said. "I've talked with many district attorneys, all of the big city counties," said White "and they say their courts are full of murder cases."

White said he will suggest how voters' lists can be purged to remove the names of thousands of dead, out-of-state and otherwise unqualified voters. Second, White said, efforts will be made to get the 1975 Legislature to smooth out campaign reporting laws passed by the 1973 session. They are "super technical" in some respects, he says. White's office has taken on the voter registration purge at the urging of the Texas Elections Committee, which says it has unconfirmed reports of as many as 40,000 unqualified voters in Harris County, plus thousands more in other parts of the state. Rep. Ed Harris, D-Galveston, committee chairman, said the state may be paying out "thousands of dollars unnecessarily" because the state pays registrars so much for each voter carried on each county registration list. White said his investigation indicates Harris County, with about one million registered voters, may include about 10 per cent

### GENERAL REVENUE SHARING

General Revenue Sharing provides federal funds directly to local and state governments. Your government must publish this report advising you how these funds have been used or obligated during the year from July 1, 1973, thru June 30, 1974. This is to inform you of your government's priorities and to encourage your participation in decisions on how future funds should be spent.

# Shadow Of Recession Fails To Blot Texas

AUSTIN, Tex. (AP) — The shadow of recession has not fallen on Texas, the editor of the Texas Business Review said Saturday. Robert H. Ryan said the state's economy continued to grow through the first two quarters of this year.

"If the national economic situation constitutes a true recession, which is open to question, the shadow has not fallen full upon Texas, at least to date. The state is, at worst, only in the penumbra of the darkening influence," he said. Major economic indicators for Texas "have

all traced expansion of business activity during the first two quarters of this year, with the unemployment rate at a comfortable exception of the unemployment series, which has risen in response to lagging economic growth," Ryan said.

Bank debits, the most comprehensive indicator, have grown impressively this year—up 15 percent compared with the first half of 1973, even after adjusting the figures to reflect inflation.

Personal income during the first six months was 13 percent ahead of the comparable 1973 period, he said.

"Nevertheless, the effect of personal income is discounted not only by inflation but also by population growth. Texas' population is estimated to be about 185,000 larger this year than last, partly because the rate of immigration has veered upward in recent years," Ryan said. He also said the fact that the manufacturing

work week and the ranks of the employed both increased in June, while insured unemployment declined "can be read as a distinctly favorable economic augury."

## Wizard Too Ill To Stand Trial

LAS VEGAS, Nev. (AP) — Meyer Lansky, reputed financial wizard of the underworld, may never stand trial in the \$36 million Flamingo Hotel case.

U.S. District Court Judge Roger D. Foley said Thursday that the 74-year-old Lansky is too ill to stand trial. The judge refused to dismiss the charges against Lansky, but he added, "The case will lie dormant on the calendar until the defendant dies or government counsel acts responsibly and dismisses the case."

Lansky was one of seven persons charged with skimming \$36 million in profits from the Flamingo.

# Florida Fox To Run No More

TALLAHASSEE, Fla. (AP) — "The Florida Fox will run no more." So said the self-styled "Fox" former Orlando detective Jack Clouser, after turning himself in Wednesday to agents of the Florida Department of Criminal Law Enforcement.

Clouser, 42, was a fugitive for 10 years after escaping from the state mental hospital at Chattahoochee in 1964. His name was on the FBI's "10 Most Wanted" list for seven years.

Clouser said at a news conference shortly after his surrender that he was tired of running and hoped to make amends to two teenage sons living in Orlando with one of his two wives.

But authorities may have been outfoxed again. State Atty. Robert Egan of Orlando said today, "There is a likelihood that he might not be prosecuted at all" on nine outstanding felony charges.

Egan said the 10 years that Clouser was on the run "have pretty well destroyed our ability to prove the truth." He said he has assigned two investigators to determine whether Clouser can be prosecuted.

Clouser was confined temporarily to a criminally insane ward at Florida State Hospital, where Asst. Supt. Albert Fulton said "he's a very good patient."

"The fact that I have been a hunted man has never left my conscious or subconscious mind and I have never really known a day of perfect peace or content," he said.

Clouser, returned to Chattahoochee after his surrender, faces several Orange County, Fla., warrants dating from 1964.

Florida agent Charles Layman read the charges at the surrender — kidnapping, aggravated assault, breaking and entering, grand larceny, assault with intent to commit murder and two counts each of robbery and conspiracy.

"Not guilty to all charges," Clouser said. An Orlando policeman from 1956 to 1961,

# West Texas Dust Storms Warning

TEMPLE, Tex. (AP) — Texas may be in for record breaking dust storms this winter and next spring, the U.S. Soil Conservation Service warned today.

"Unless farmers in West Texas can grow winter cover crops, we are in for a bad blow season," said State Conservationist Edward Thomas. "Where rains fell during August, we are urging farmers to plant sorghum, millet or

small grain to hold the soil in place." Thomas said some areas still have not had enough moisture to grow cover crops. He said Lamesa has had only about 7.5 inches since last September, almost 10 inches below normal. Some Dawson County farmers received only 3

inches since May 1973. He said less than 10 percent of the dryland cotton in Dawson County will be harvested this year with an estimated one-third of the county's 600,000 acres of cropland bare. "This poses a massive wind erosion threat," Thomas said.

He said the Seminole-Brownfield area also is extremely dry, although scattered rain fell over the area in early August.

# Dan Rather Reassigned

NEW YORK (AP) — CBS correspondent Dan Rather is being reassigned to other duties after covering the White House for nearly eight years.

The network said on Thursday that Rather will be replaced by Bob Schieffer, CBS' Pentagon reporter. Phil Jones, who covered President Ford when he was vice president, also will join the network's White House staff. Rather, 42, will continue to anchor CBS' Saturday night news programs and will start anchoring the Sunday ones, the network said. Senior vice president William Small called Rather's new assignment "a promotion to a better job."

# Gigs Saxbe

NEW YORK (AP) — Ramsey Clark, who served as attorney general under President Lyndon B. Johnson, says the current attorney general, William French Smith, should be replaced.

Clark, now a candidate for the Democratic nomination for senator, suggested on Thursday that President Ford replace Saxbe with impeachment counsel John M. Doar.

GOLIAD JUNIOR HIGH eighth-graders, Steve Schooler and Tammy Worthan, have a minute to say "hi" in the school library before settling down to some serious research on their selected subjects. Steven is the son of Mr. and Mrs. Bobby E.

Schooler, 2611 Carol Drive, and Tammy is the daughter of Mr. and Mrs. Dale Worthan, 2008 Merrily. In the background, Mrs. Glenn Person, librarian, returns some books to their proper places.

# SKOOL DAZE

THE ACADEMIC DAY is over for Gayle Garretson who waits for a friend after classes at Big Spring High School. Ready to tackle his sophomore year, Gayle is the son of Mr. and Mrs. Elbert Garretson, 1705 Kentucky Way.

PHOTOS BY  
DANNY VALDES

LITTLE LOOK-ALIKES, Kem and Keely Locke, daughters of Mr. and Mrs. Tom Locke, 2205 Roberts, put their best foot forward at Kentwood Elementary School by arming themselves with the traditional big, red apple. But once inside, they go separate ways, for twins are no longer allowed to be in the same classroom.

NEW TO HIS present position, but no stranger to the local school scene, is Dr. E. H. McKenzie Jr., superintendent of the Big Spring Independent School District. Shown with him are three teachers who are new to the system. From left, they are Miss Martha Fierro, first grade Cedar Crest; Mrs. Jean Metzger, high school science; and Miss Jill Alexander, speech therapist.

MRS. JACK ERWIN MADISON

# Madison-Adkins Wedding Rites

The wedding of Miss Mollie Frances Adkins and Jack Erwin Madison was solemnized Saturday evening in the First United Methodist Church, Stanton, with the Rev. Floyd Dunn, pastor, conducting the service.

The newlyweds are now on a trip to the Davis Mountains and, upon returning, will reside at 2902 Third, Lubbock.

Madison is the son of Mrs. David Haefele of Vernon and G. I. Madison of Stanton. A graduate of Stanton High School, he attended Howard College and graduated from the University of Texas at Austin. He is now a graduate student at Texas Tech University where he is employed as a graduate teaching assistant.

The bride is the daughter of Mr. and Mrs. Lawrence G. Adkins, Garden City Rt., Big Spring. She graduated from Stanton High School and will be a sophomore at Texas Tech University where she is majoring in special education.

**MUSIC**  
A prelude of nuptial music was performed by Mrs. Larry Adkins, organist, and Miss Gayla Williams and Miss Lana Williams, vocalists. The rites were performed before an altar backed by an arched candelabra flanked by spiral candelabra arranged with spring flowers.

The bride, who carried a colonial bouquet of white carnations and pink Sweetheart roses, was attired in a formal gown of white silk organza over

taffeta. Embroidered lace encircled the high neckline and framed the tucked organza yoke. Bands of lace encircled the yoke and tucked sleeves, and the A-line skirt ended in a double ruffle forming a train. Her floor-length veil was attached to a cap of lace and seed pearls.

Miss Mary Dee Adkins, of Lomax, sister of the bride, was maid of honor, and the bridesmaids were Mrs. Robert L. Adkins, Lomax, sister-in-law of the bride; Miss Carla Perry, Lomax; and Miss Kathy Decker, Stanton. Their dresses were of pink dotted Swiss with full skirt, high-rise waistline, off-the-shoulder, ruffled neckline, puffed sleeves and a satin ribbon sash. Each carried a colonial nosegay of pink carnations and roses with gypsophila.

**BEST MAN**  
Mike Evans, Austin, served as best man, and groomsmen were Terry Vaughn, Big Spring; Weldon Posey, Tempe, Ariz.; and David Adkins, Lomax, brother of the bride. Two other brothers, Larry Adkins, Big Spring, and Robert L. Adkins, Lomax, served as ushers. Altar tapers were lighted by Dian Stallings, Brownfield, and Twila Stallings, Stanton. The ring bearer was Carey Ray Curry, Hobbs, N.M.

The reception was held in the fellowship hall of the church where guests were registered by Miss Betty McIlvain. Refreshments were served by Miss Lisa Hopper, Mrs. Brad Hull, Mrs. Mike Cook, Miss Trina

## Houseguests In Area Home

**FORSAN (SC)**—Recent guests of the J.W. Overtons were Mrs. Overton's sister and family, the Rev. and Mrs. Thomas Kennedy of Houston.

Mr. and Mrs. Sam Cowley of Henderson were guests of their sister-in-law, Mrs. S.C. Cowley.

Mrs. H.H. Story spent last weekend in San Angelo with her son-in-law and daughter, Mr. and Mrs. R.G. Strom. They were joined by Mrs. Story's daughter, Ellabeth Barber of Midland, who was on her way to Ruidoso, N.M. where she plans to teach school.

Recent guests of Mr. and Mrs. L.W. Willis was their daughter and family, the Zern Millers of Rogers, Ark. and another daughter, Mrs. Harrel Pitcock and girls of Midland.

During the good times and the bad, you can count on First Federal. Come see us for a home or home improvement loan. We're lending.

## A LOVELIER YOU Are You Ready For Long Look?

As the old saying has it, "What goes up must come down." Skirt lengths are on the way down. The descent began with the midi several seasons ago. The majority of females turned thumbs down. Result: The midi was a goner.

But this summer, as pants vie for favor with dresses and separate skirts, longer lengths gain acceptance. Maybe—it's a case of boredom, of off with the old. At present, when days are paced at breakneck speed, we can hardly be expected to play the tortoise role in the fashion scene.

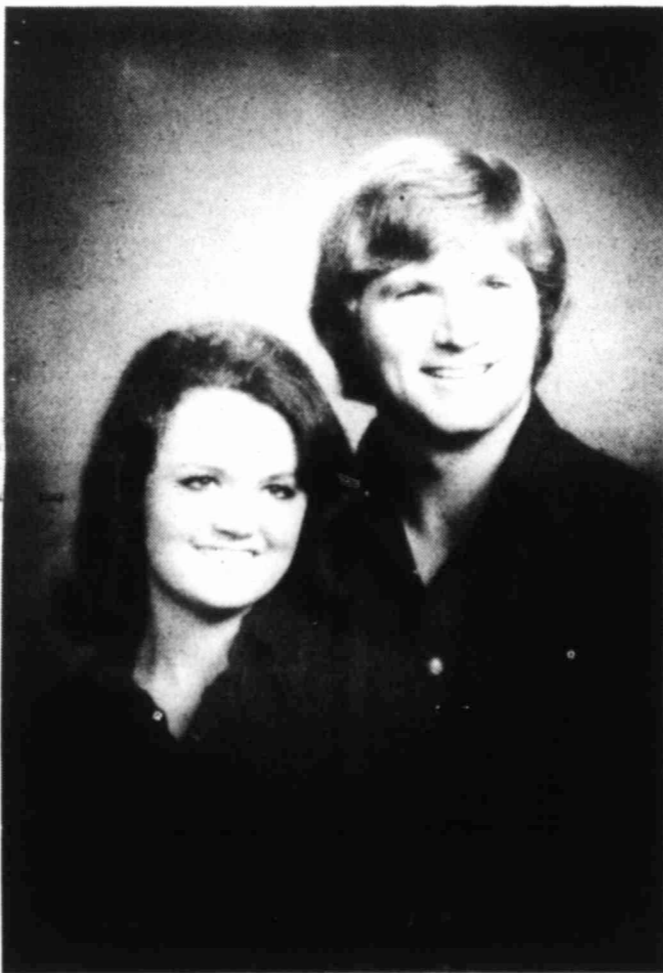

Fall daytime fashions will usher in a wide variety of lengths — from just below the knee, to the calf area, to a fraction above the ankle. The choice is up to you. The liberated lady has won the freedom to do her own thing, to take up with any fashion she prefers, as long as it is individually flattering.

Let's see how that works out with regard to skirt lengths. The just-below-knee finish is generally becoming, whether on straight or flip skirts. You should take a lingering look in a mirror when judging hems in the calf area. A half inch more or less can make a flattering difference. Usually a slim leg looks very well with less. Generous widths at the calf

cause problems. The becoming length and width at the ankle is fractional — a fraction above the ankle with widths trimmed to your height. Are you ready?

**LEGLINE TRIMMERS**  
If your individual problem is heavy legs, send for my new leaflet, **LEGLINE TRIMMERS**, which contains spot reducing exercises that will meet your individual needs, whether for thighs, knees, calves or ankles, or for contouring your entire legline. Write Mary Sue Miller in care of the Big Spring Herald, enclosing a long, stamped, self-addressed envelope and 10 cents in coin.

### ADVERTISING

Laura Maud Ratliff, daughter of Mr. and Mrs. Arlis Ratliff and Roger Dale Huitt, son of Mr. and Mrs. Loyd Arnold, will be married October 14 at 7:30 p.m. in her parents ranch home in Garden City. Rev. J. B. Sharp will officiate.

# President Sets 'Equality Day'

WASHINGTON (AP) — President Ford Thursday signed legislation and a proclamation declaring Aug. 26 as Women's Equality Day and urged the ratification of the Equal Rights Amendment to the Constitution.

"You're making headway every day," Ford told 13 congresswomen who flanked him during the Cabinet Room signing ceremony.

He said that over the years women "Have had to do twice as well as men to get half as much credit" and added: "We've got to change that."

In the proclamation, he declared, "The time for ratification of the Equal Rights Amendment has come just as surely as did the 19th Amendment" which gave women the right to vote on Aug. 26, 1920.

The visit of the congresswomen was hastily set up after the resolution

passed Tuesday in the Senate and final clearance through Congress Wednesday.

FOR YOUR PLEASURE

## Art, Folk Festivals Are Focus For Fall

Want to put in your two-bits on the importance, potential, etc., on arts and humanities for the area, such as what has been done (or not) in the community or region, and what kinds of assistance are desired? Texas Commission on the Arts and Humanities is having an assembly at the University Theatre on the Tech campus (you can park on the east side of Jones Stadium and catch a bus shuttle from 1 to 2 p.m.) Wednesday, Sept. 4. You can stand up and speak, but better still, take a written presentation.

lecture. More information may be had from Mrs. Dudley W. Layne, 110 Maxfield, Waco, 76705.

A Blue Grass Music festival is set for Kerrville Aug. 30, 31, Sept. 1 with big names. This will be the Rod Kennedy Quiet Valley Ranch, nine miles south of Kerrville.

Deadline for entry blanks in the 17th annual Delta Art Exhibition at the Arkansas Arts Center, MacArthur Park, Little Rock, Ark. 72203, is Oct. 11. The exhibition opens Nov. 1 with a top prize of \$1,000.

Herigate Museum continues to get good traffic on its "Shine on Big Spring" exhibit, which will be going off in about another month; so why not visit it this afternoon? Visitors during the week included Col. and Mrs. C. K. McClelland, San Antonio, who came to see three reproductions of H. W. Taylor paintings. She is the great-granddaughter of George West, "Old Texas" hangs in their home. The original of "Drifting in the Rain" hangs in the office of Charles Schreiner Nelson, a West great-grandson. "Stampede" was so nearly like the original it was difficult to convince Mrs. McClelland to the contrary.

The historical calendars of the museum found their way to Mrs. L. R. Indermuehle, Antimony, Utah. She is the daughter of Mr. and Mrs. Fred Neidermeire, early Big Spring couple shown on the calendar cover with Will Hayden. Mrs. (Baleria) Indermuehle, who is a cousin of Mrs. Dewey Martin, sent for three calendars. In other museum developments, Mrs. Beth J. Johnson, Siusun City, Calif., sent in her sponsor membership.

The Central Texas Genealogical Society will have its sixth annual workshop, Saturday, Sept. 7, in Waco Plaza Hotel, 411 Austin. Milo B. Howard Jr., director of Archives and History for Alabama, will

One of the many events of the Polk County Folk Festival in the heart of the Big Thicket at Livingston will be the Alabama-Coushatta Indians' ancient game of "Kop-po-che" (or Indian stick ball) the evening of Aug. 31. The festival opens Aug. 29.

If you're going toward the Northwest, you still have time to take in Expo '74, the Spokane, Wash. "World's Fair." It will continue to Nov. 3.

Olivia Newton-John, vocalist, ("If You Love Me, Let Me Know") will be spotlighted Friday at Six Flags over Texas in the Music Mill Theatre.

Museum of the Southwest in Midland has announced Saturday, Sept. 7 as the date for its sixth annual Septemberfest. The "ribbon of sausage" will be cut to open the gala affair, which features several menu choices as well as German sausage. There will be German bands, a polka dance club, the Sangerfest group, etc. Fifteen artists

and craftsmen will be showing their wares.

In case you didn't make a note, and you're bent on testing your alimentary canal with some of the state's most delectable home-made lava, the fifth annual Republic of Texas Chilympiad will be held at San Marcos Sept. 19-22.

After Labor Day, Astro World will be open only on Saturdays and Sundays, 10 a.m. to 7 p.m. through Oct. 27. Meanwhile, the everyday schedule continues.

A major exhibition of drawings and prints by Philip Pearlstein, one of the country's leading realists, will remain on view until Sept. 29 in the University of Texas Art Museum. This contains 80 of the works of Pearlstein, (including some from the famous Michener Collection) who is rated "one of the leading figure draftsmen of our time."

You can now get maps of most major cities of the world. American Map Co., 1926 Broadway, N.Y. 10023 has a free travel map brochure to key you in.

MAIL JUMPER — Elaine Kanelos, 18, is one of the two girls who have been serving aboard a Lake Geneva boat this summer as "mail jumpers." They jump off the moving passenger boat, put the mail in mailboxes on piers and jump back onto the boat.

## Watching Linda Jump The Mail

LAKE GENEVA, Wis. (AP) — The advertisement is intriguing. "Take the mailboat cruise. Watch Linda jump the mail onto 55 piers while the boat moves."

The mailboat is the Walworth II, which carries boat mail and passengers on its regular pierside route. It makes all mail deliveries to residents of this 26-mile shoreline during the warm months because it's quicker than the roadside auto delivery used during the winter.

Linda is 23-year-old Linda Frame, the "mailgirl" who jumps from the moving boat. She stuffs letters into pier mail boxes for the residents and then dashes back down the dock to leap onto the boat which is moving about 12 to 15 miles per

hour. The boat doesn't stop because it's primarily for sightseers and stopping would be too costly and time consuming.

"The driver doesn't stop or slow down for anything," said Linda. "If you don't make it, you get dunked. Then you have to run down the shoreline to get the boat at the next pier."

The deck of the boat is level to the pier when Linda takes her jump, usually a couple of feet in distance.

She hasn't been dunked yet in her two weeks on the job, is actually the second girl to "jump the mail," as locals call their deliveries.

Elaine Kanelos, 18, who quit earlier this month to return to school in Colorado, was the first mailgirl in the 70-year history of the

Lake Geneva mailboat. The lake is about 50 miles southwest of Milwaukee.

She took her share of dunkings, to the applause of the 100 or more passengers who jammed the boat daily to witness her heart-stopping pier-to-boat leaps that often left her spluttering in the water as the boat pulled away.

Linda, who is paid \$2.20 per hour for a 40-hour work week, said she enjoys the cheers and jeers of the tourists as she dashes and leaps her way through her two-hour mailboat run. And she says she doesn't mind delivering mail six days a week and then making the same run on Sundays to deliver newspapers.

"I've always liked all kinds of sports, and this really keeps me in shape," she said.

**Dear Heloise:**  
This is how I keep from having difficulty finding food in my upright freezer.

I bought wire bicycle baskets, 12x18x6 (could be any size that fits your needs). They keep packages from falling out of the freezer, and can be removed to find the food you need.

Dorothy Nagle

### Child Born To Local Couple

Mr. and Mrs. Michael L. Burns, 509 Lancaster, announce the birth of a daughter, Christi Gale, Aug. 18 at Hall-Bennett Memorial Hospital. The infant weighed 9 pounds, 1 1/2 ounces.

The mother is the former Betty Hollandsworth, daughter of Mr. and Mrs. F. E. Hollandsworth, 2107 Carl. The paternal grandparents are Mr. and Mrs. George Burns, Box 86, Chimney Rock, Colo.

# Hints From Heloise

**Dear Heloise:**  
During the gasoline shortage I made up what I call "Gas Line Survival Kits," and gave them to my family and friends. It was an attempt to make waiting in those long lines a little bit more pleasant.

Included in a transparent plastic bag were a magazine, (old ones can be recycled), a note pad and pencil, folded paper towel, emery board, candies, moistened paper towelette and the following note:

"No longer need you sit and wait, and stare at cars ahead, just reach for your survival kit, and read a book instead."

Jot down notes (your grocery list), or munch away on candy; file your nails, or dust your dash, everything is hand.

There isn't much that you can change, so don't get aggravated; enjoy yourself, relax and read, you may be glad you waited."

There are many other things that could be added such as crossword puzzles cut out of magazines and newspapers, recipes, any special articles that might be interesting to the person to whom you are giving this kit, writing paper and pens, (stamps too, perhaps).

In this way, time isn't really wasted, and by the time we got up to that pump, we might still have a smile to offer the gas station attendant.

Vena Gilbert

**Dear Heloise:**  
I read your column every day and, of course, am always gleaming another helpful hint or bit of inspiration from it. But this morning it dawned on me that your column serves another purpose, one just as important as the above two:

You give people a place to write to, and share their ingenious little ideas. How frustrating and empty life is without these outlets!

Maybe no one at home cares that Susy White figured out a better way to clean her gold fish bowl, but she can write to you and know that not only has she shared part of herself, but also know her helpful hint is appreciated.

God bless you.

Jean Hall

all dearly. God bless you. Heloise

It's the best 50 cent investment I ever made. Must be... he suggested I write to you. One problem solved

**Dear Heloise:**  
My husband never had the time or patience to return all those cans and bottles (he uses for shaving, hair grooming, deodorants, etc.) to the medicine cabinet each morning after use. The bathroom looked messy, plus the cans left rust spots on the vanity.

A plastic caddy, generally used to carry household cleansers, holds all his things and is stowed in the cabinet under the sink.

**Dear Heloise:**  
Here is a hint for spreading butter on a hot, boiled ear of corn.

Spread quite a bit of butter on one side of a slice of bread, lay the ear of corn on the bread, and roll. Even children love doing this.

You kill two birds with one stone, so to speak. Buttered bread and buttered corn.

Easy — yummy, too.  
Hazel Fansler

This column is written for you... the housewife and homemaker. If you have a hint or a problem write to Heloise in care of the Big Spring Herald. Because of the tremendous volume of mail, Heloise is unable to answer all individual letters. She will, however, answer your questions in her column whenever possible.

FOCUS ON FAMILY LIVING

# Wise Parents Will Instill Self-Esteem

By SHERRY MULLIN (HD AGENT)

Most parents have hopes and dreams for their children — and the children, they work with.

They want them to have inner confidence, a sense of purpose, success at school and work, meaningful relationships with others, and most of all, happiness.

Behavioral scientists contend that if a child has high self-esteem, his chances of attaining his — and his parents' — hopes and dreams are much better.

According to research conducted by Stanley Coppersmith, University of California, most successful men and women have an attitude called self-esteem.

Some define self-esteem as how a person really feels about himself — how much he likes or respects himself.

High self-esteem is one of the most crucial ingredients of mental health. Therefore, helping children build high self-esteem is a key to successful parenthood.

A child builds his identity from words and actions directed to him.

Words have power — when a child is told by a parent that he's bad, he believes it. If he lives with constant negative comments, he may

develop a dim view of himself.

Adults often use words to convey judgment — such as

## Announcing Birth Of Son

WESTBROOK (SC) — Mr. and Mrs. Thomas Sloane of West Texas Boys' Ranch, San Angelo, announce the birth of a son, Brian Thomas, born Aug. 15, weighing 6 pounds, 13 ounces. Mrs. Sloane is the former Carole Bell, daughter of Mr. and Mrs. W. A. Bell. The paternal grandparents are Mr. and Mrs. Scott Sloane of La Feria. Mrs. Bell spent last week with her daughter and family.

## Vacation Trip In Big Bend

FORSAN (SC) — Mrs. Ann Fairchild, along with her daughter, Mary Stone, and granddaughter, Teresa, of Odessa, have returned from a vacation trip to the Davis Mountains and Juarez, Mexico. Before returning home they visited in Colorado City with Mr. and Mrs. Witt Himes.

messy, rude, mean, good and nice. Such judgments can put a child on the defense and encourage him to tune you out.

There are ways of reacting to a situation rather than simply judging it. For example, encourage the child — or help him a bit.

A child who lives with a reactor rather than a judge will understand he's loved even though some of his behaviour isn't acceptable.

A healthy child sees himself as separate from his acts. If he is to have self-esteem, a child must have a sense of personal value independent of his behaviour.

## Odessans Are Area Students Area Guests Earn Degrees

FORSAN (SC) — Recent guests of Mrs. J.H. Cardwell were her son-in-law and daughter, the T. D. Breithaupt, and a brother and sister-in-law, Mr. and Mrs. R.A. Edens, all of Odessa. Mrs. Cardwell and the Edens' went to Abilene to visit Mrs. J.W. Heilhecker.

COMMERCE — A total of 1,101 candidates received degrees at East Texas State University's summer commencement exercises Friday, Aug. 16, an increase of 121 over last summer's total.

Also during the ceremonies, Judge Joe Ewing Estes of Dallas was awarded an honorary Doctor of Laws degree.

Of the total who received diplomas, 424 were awarded bachelors degrees, 642 received masters degrees and 35 were awarded the doctorate.

Among those receiving degrees, their degrees and hometowns were Sherri Patricia Alexander, M. S., Big Spring; R. D. Tindol, B. S., Coahoma; and Julian Stanley Nolen, M. Ed., and Kenneth L. McCraw, both of Lamesa.

# Ceremony Performed

Mr. and Mrs. Louis E. Tallant are on a trip to Puerto Vallarta, Mexico following their wedding Friday evening in the home of Mr. and Mrs. H. L. McMillan. The ceremony was performed by the Rev. Caleb Hildebrand of Midland before an altar built around the fireplace and accented with three graduating candelabra and jade palms.

Organ selections were played by the bride's grandmother, Mrs. Dessa Simpson.

The bride is the former Patricia Lynne Stinson, daughter of Mr. and Mrs. Mel Stinson, Big Spring, and Tallant is the son of Mr. and Mrs. Marvin Tallant of Empire, Ark.

The bride was attired in a street-length dress of

lavender crepe with empire bodice overlaid with Alencon lace. The bodice featured a bateau neckline edged with Venise lace, and the lace was repeated at the high-rise waistline. She carried a nosegay of white Sweetheart roses and gypsophila centered with a lavender orchid corsage.

Mrs. Gene Jennings, serving as matron of honor, was attired in a street-length pink dress and wore a corsage of white Sweetheart roses.

Charles Butts was best man, and Louis Tallant II of Alpine, son of the bridegroom, served as ring bearer.

A reception was held in the home, with cake and punch being served by Mrs. Don Reed, Mrs. Lynn Adams and

Mrs. W. H. Reed. The table was covered with a white organdy cloth edged with white chiffon and miniature wedding bells. The centerpiece was an arrangement of purple asters and lavender candles.

A buffet dinner was hosted by Mr. and Mrs. McMillan. After returning from the wedding trip, the couple will reside here, where he is employed at McMillan Printing and Office Supplies. She is presently employed at Big Spring Automotive Supply.

Among the guests were Mr. and Mrs. J. L. Barham of San Angelo, grandparents of the bride.

## Area Guests

WESTBROOK (SC) — Guests in the C. S. Newton home last week were Mr. and Mrs. Martin Murphy of Hermleigh and Mr. and Mrs. H. E. Billingsley of Dunn.

# Debra L. Jones Weds Saturday

Miss Debra Louise Jones, Abilene, and Jerry Lynn Knous, Odessa, were united in marriage Saturday evening in the First Christian Church, San Angelo, with Douglas Rohre, minister of the Brownfield Church of Christ, conducting the service.

Parents of the couple are Mr. and Mrs. Walter T. Jones, Abilene, and Mr. and Mrs. Verlin Knous, Mt. Pleasant, formerly of Big Spring.

Music was by an a capella choir from the Johnson Street Church of Christ, and the wedding party stood before an altar backed and flanked by arched candelabra entwined with greenery. The organist was Mrs. Mark Maneval.

Miss Kathy Jones, Abilene, served as the maid of honor, and bridesmaids were Miss Lynn Sanders, Eldorado; Miss Lou Ann Morris, San Antonio; Miss Susan Archer and Miss Judy Guinn.

They were identically attired in floor-length gowns of floral print organza in various pastel colors. The fitted bodice was styled with scooped neckline, an inset at the midriff and self ruffles capping the shoulders of the sleeveless gowns. A large self ruffle edged the hemline of the flared, gathered skirt.

Completing their costumes were matching solid color picture hats adorned with satin bows and streamers.

**WHITE CROWN**  
The bride, carrying a bouquet of orchids, stephanotis and gypsophila, was attired in a formal gown of ivory organza and Chantilly lace in Victorian style. The bodice and bishop sleeves were done in pinked ruffles of lace at the cuffs. Lace ruffling outlined the yoke below the high neckline, extending to the waistline in back, which was marked by a satin bow and streamers. The skirt, rimmed with ruffled lace, swept to a chapel-length train.

Chris Denton, San Antonio, was best man, and groomsman were Don Wilson, Abilene; John Blake, Del Rio; Randy Pipkin, Odessa; and Larry Long. Serving as ushers were Leffel Gray, Abilene; Jim Blake, Del Rio; and Tim Archer.

Serving refreshments at the reception in the fellowship hall were Mrs. Bill Riley, Miss Regina Riley, Mrs. Ralph Hargrove and Miss Sheila Hargrove, both of Lewisville; Mrs. Doyle Bain and Miss Karen Bain, both of Abilene.

MRS. JERRY LYNN KNOUS

Members of the house party were Mrs. Richard Knous, Abilene; Mrs. Gaines Layman, Mrs. Harold Henson, Mrs. Eugene Kirksey, Mrs. Arthur Howard and Miss Susie Graham.

**SCHOOLS**  
After a wedding trip to South Texas, Mr. and Mrs. Knous will reside at 3325 N. Golder, Odessa. He is a graduate of Big Spring High School, where he was a drum major, and attended Angelo State University for two years. He was a member of Alpha Kappa Lambda fraternity. Mrs. Knous graduated from Cooper High School where she was active in school organizations, and is a junior at ASU. She is affiliated with Lambda Tau sorority.

## 'Quotable Women'

Here are some quotable quotes from women during the week: "My parents really don't talk politics around our kids. We each have our own opinion about different things, and I know several times we've sat down at dinner and tried to talk about it (politics) and it's just come into a huge fight, so we try and stay away from it mainly." Susan Ford, 17, daughter of President and Mrs. Gerald Ford.

"After 25 years of marriage, why should they be separated because they are living in the White House?" Nancy Howe, personal secretary to Mrs. Betty Ford, discussing the Presidential pair's break with tradition by sharing the same White House bedroom.

"In the next two or three years if companies don't send older women to college they are going to find themselves without government contracts and in courts of law. For some reason or other they haven't thought of sending a woman back to school to get what they want." Elizabeth Cless, director for the Center of Continuing Education at Claremont College, Calif.

petrified on the first night." Twigg, British model-turned-movie star, who will play Cinderella in a pantomime in London.

## Baby Gifts At Shower

Mrs. Rufus (Kathie) Rowland and son, Shane, were honored at a baby shower Thursday evening. Hostesses were Mrs. Jim Little and Mrs. John Trimble. The shower was held at the home of Mrs. Little, 4 Glenwick Cove.

A color scheme of blue and yellow was used. The serving table, covered with a cut-work cloth, was centered with a decorative stork and an arrangement of yellow daisies and yellow and blue carnations. Crystal and silver appointments were used. Miss Pam Eisler and Miss Robbie Eisler, nieces of the honoree, assisted in serving.

Mrs. Rowland was presented a corsage of yellow daisies and blue carnations. Mrs. Dub Rowland and Mrs. Bessie Laws, the infant's grandmothers, were among the guests.

**IT'S NOT JUST A SLIP OF PAPER**

Every prescription is different. Ingredients, dose, directions for use, storage are just a few of the things that may vary. However, one fact will be the same about every prescription that comes into this pharmacy. That is, it will be handled by the pharmacist as a vitally important document.

We realize that on that slip of paper a doctor is giving instructions that will hopefully help his patient to overcome an illness. Since we have been entrusted with it we feel it should get very special handling. After the medicine has been dispensed the written prescription is carefully recorded and filed away for safe-keeping and future reference.

**YOU OR YOUR DOCTOR CAN PHONE US** when you need a delivery. We will deliver promptly without extra charge. A great many people rely on us for their health needs. We welcome requests for delivery service and charge accounts.

# Retired Americans May Have To Leave Mexico

GUADALAJARA, Mexico (AP) — Immigration officials have started a campaign that could possibly force thousands of Americans out of Mexico.

Mexico long has permitted retired Americans and other Yankees to live here under tourist status but is beginning to pressure the visitors to apply for

immigrant status. The switch would make the Americans subject to Mexican tax laws, property ownership obligations and a more rigid observance of Mex-

ican labor regulations for domestic help. The U.S. Embassy estimates there are 100,000 Americans living in Mexico, many of them retirees with incomes ranging from as low as \$200 to a maximum of \$1,500 a month.

A few also are adventurers, writers or artists. Some even hold jobs in Mexico, which is not legal under tourist status, although Mexican immigration officials say this problem is "minimum."

Many of the retirees live in this city of 1.7 million people in western Mexico, known for its clear skies and average temperature of 70 degrees.

Mexico in the past has issued 180-day tourist cards at its consulates in U.S. cities. The cards were renewable every 180 days, requiring that the Americans living here under tourist status return to the United States twice a year to get their new cards.

Mexican tourist cards are not issued in Mexico and cannot be obtained by mail or from the Mexican consulates in the United States.

Now the Mexican government is doing away with the 180-day card and issuing 30-day tourist cards. This requires Americans to return to the United States every month get

a new card if they wish to remain under a legal status.

That would be an expensive proposition for Americans living in cities that are far from the border. The round trip fare from Mexico City to Laredo, Tex., where Mexico has a border consulate, is about \$100.

The alternatives are to move back to the United States or to apply for an immigration status that doesn't give the visitor citizenship but does submit him to the full laws of the host nation.

The chief of the immigration department at Guadalajara, Gabriel Romero, confirmed that authorities are cutting the visiting periods from 180 to 30 days.

## Eddie Rannes' To Lewisville

Mr. and Mrs. Eddie Ranne have moved from Krum to Lewisville where he will be in charge of the music program at J. W. Degan Elementary School. Ranne, who will continue to be music director of First Baptist Church, Krum, is the son of the Charles Rannes, A graduate of Westbrook High School, he received a bachelor of music education degree from North Texas State University.

## WTCC Takes Firm Stand

The executive committee of the West Texas Chamber of Commerce is on record opposing legislation or regulations banning use of the chemical 245-T in brush control.

Legislation that abruptly alters food production to the economic detriment of

Americans should be based on legitimate probabilities, not on one-in-a-million possibilities, according to a statement from the executive committee of the WTCC. Landowners are willing to spend millions of dollars annually in application of 245-T for brush control so that more food can be produced at a lower cost for the consumer said WTCC. Banning 245-T would compel a return to mechanical brush control, calling for 100 times

more petroleum products than is required for aerial spraying. Dick Yeager, Vernon, chairman of the WTCC agriculture and ranching panel, said the 500,000 W. T. Wagener Estate ranch has applied 245-T for many years with no observed detrimental effects to man or animal. Research on use of the chemical on two million acres a year in the state shows in a 20-year period no documented ill effects, said the statement.

HAPPY QUINTET — Alena Pyles and James McKnight, both age nine, get along famously with three rabbits. The parent rabbit is in the cart and her name, Happy, reflects the mood of the group.

# 'The Exorcist' Based On Actual Exorcism

While he was attending Washington's Georgetown University in 1949, William Peter Blatty, author of "The Exorcist," read about the reported exorcism of a 14-year-old boy in nearby Mt. Rainier, Md. The entire subject of diabolical possession came to fascinate Blatty, and two decades later he wrote a novel on the subject that proved equally fascinating to millions of readers, and is now the subject of an award-winning movie.

The boy's possession was first noted in a series of mysterious manifestations — scratching and marching sounds under his bed, furniture sliding across his room, tilting of a chair in which he sat, the levitation of objects around him. When these witnessed phenomena were accompanied by livid red eruptions on the boy's body, his parents consulted numerous medical and religious authorities, but no explanations or cures could be found for the increasingly frequent horrors.

After obtaining permission from his archbishop, a priest conducted nearly 30 rites of exorcism over the next two months. While the religious ceremonies were taking place, the boy would curse, fight and kick those around him.

Finally, after reading of a similar case 75 years earlier in Wisconsin, the officiating priest forced the boy to wear a chain of religious medals and hold a crucifix in his hand during the exorcism. The boy responding with greater violence than before, and five Alexian Brothers were necessary to constrain the youngster's nearly super-human strength. Following an especially severe spastic bout, the

**LINDA BLAIR** as Regan is disturbed by an unknown force and Ellen Burstyn as her mother tries to calm her down in this scene from William Peter Blatty's "The Exorcist," directed by William Friedkin for Warner Bros. The film, now showing at the College Park Cinema, also stars Max von Sydow, Lee J. Cobb, Kitty Winn, Jack McGowan and Jason Miller. (AP Wirephoto)

demon announced himself through the boy's lips and then departed.

Today, that boy is a happily married 38-year-old man with no recollection of the three months in which the demon took command of his body — if in fact that is what happened. The Priest's account, now lodged in official Roman Catholic archives, evidences no doubt that the boy was diabolically possessed. Modern science, however, has a battery of possible explanations and cures that might have alleviated the youngster's suffering.

The Maryland case on which Blatty modeled his tale about a possessed young girl was by no means the only such incident in recent times.

Exorcistic ceremonies remain a bastion of certain Eastern cultures, several western exorcisms in this century have been extensively documented and countless others have undoubtedly been performed in secrecy still enshrouding this ancient practice.

Ours is a skeptical age, and a host of physiological and psychological explanations have recently been advanced for cases of "diabolical possession." Psychosurgery, arteriography and newly discovered drugs are all scientific alternatives to the ritual of exorcism. Yet no discovery has enabled us to understand the fundamental nature of evil and its irrational, violent, persistent

## PLANS MORE MOVIES Hitchcock, 75, Still Going

NEW YORK (AP) — Alfred Hitchcock, just turned 75, has directed 55 movies since 1922 and, without thought of retirement, has a contract to make three more.

"Tell your story. Tell it with great potency. Tell it visually. Be as simple as you can. That is my summation of film making," the master said in his usual mock sepulchral voice.

"My approach is, 'What do you think of this movie on the Ginza?' Therefore, I tell it as visually as I can, so a Japanese audience looking at the screen understands what the situation is and isn't relying upon that double-exposed title at the bottom. Otherwise they're going to spend the evening reading, not going to see a picture."

"And what about an English-speaking woman? She drops something and in reaching down for it, doesn't hear an important line of dialogue. If it's being told visually, it will take longer, and she won't miss all of it."

"The essential thing is to make the audience participate. My films are designed to create emotion in the audience; it's what makes suspense."

It may take three or four years to make the three new films but the director says it's no good rushing into a picture.

"Madam and I live modestly enough so we won't have to be terribly desperate to make a picture for the sake of making money," he said.

Madam and Hitch, as they call each other in gentle and polite tones, live in Bel Air, Calif., in a one-story house without home swimming pool or home screening room. In fact, Hitchcock says he doesn't attend movies at all any more, having come to his own workable conclusions about them through the years.

Hitchcock is considered the master of suspense and wry humor in film. His subject is usually murder.

"I deal with murder as fiction. I don't even believe in hatred. I think it's wasted energy. I don't dislike anyone; I fell it doesn't do any good. Revenge I think is a dreadful, dreadful thing."

**EATS OUT**  
At home in California, Hitchcock and his wife prepare their dinner - Prince Rainier and Princess Grace have eaten at the Hitchcock kitchen table - and once a week they eat out "as a change for Madam."

They retire early, but it is Hitchcock who prepares the tea tray with electric teapot at the ready for wheeling into the bedroom. And it is he who presents tea first thing in the morning.

Hitchcock, whose birthday was Aug. 13, goes to his doctor every Tuesday and every month has blood tests.

### The World Of Music

**ANOTHER HALL OF FAME**

**LAS VEGAS (AP)** — The 10 talents selected as the first 10 inductees into the Entertainment Hall of Fame have been selected in a nationwide poll by entertainment editors.

They are Irving Berlin, George Gershwin, Charles Chaplin, Judy Garland, D. W. Griffith, Katharine Hepburn, George Bernard Shaw and Tennessee Williams.

The awards ceremony was at a hotel here.

**GRANT TO XAVIER CINCINNATI (AP)** — The Corbett Foundation has announced a grant of \$75,000 to Xavier University here, to establish a two-year program of fine arts at the university.

The grant will cover developing a course in Western Civilization and a series of musical theater productions. These will provide the opportunity for trained nonprofessional musicians from the university and community to participate in professionally produced shows.

**BALTIMORE SYMPHONY WILL MAKE RECORDS**  
**BALTIMORE (AP)** — The Baltimore Symphony has signed a contract with Vox Records to record all the Mendelssohn symphonies in a six-series package.

Recording sessions will take place at the Lyric Theater and at Kraushaar Auditorium, Coucher College, Towann, Md.

**LIMON COMPANY FINDS A HOME**

**NEW YORK (AP)** — The Jose Limon Dance Company, which is carrying on since the death of its founder, will make the 92nd Street Young Men's and Young Women's Hebrew Assn. its official home.

Mr. Carl Urbont, executive director of the Y, said that in the 1940s and '50s the building had been the modern dance center of New York.
