

Soviet Missile Ship Explodes

ISTANBUL, Turkey (AP) — A Soviet guided missile destroyer exploded in the Black Sea on Wednesday, Turkish naval sources said today. There was no immediate confirmation from any other source.

Turkish port sources said the destroyer belonged to the Kashin class and was attached to the Soviet Black Sea fleet.

350 MEN

They did not say how many men were aboard, but the authoritative British publication Jane's Fighting Ships shows that a comparable American destroyer

carries about 350 men. The Guinness Book of World Records says the worst peacetime disaster involving a military ship occurred in 1963 off Cape Cod, Mass., when the U.S. nuclear-powered submarine Thresher was lost with all 129 aboard.

The worst wartime naval disaster occurred in 1945 off Danzig when a Soviet submarine sank the German ship Wilhelm Gustloff, killing 7,700 men.

Jane's says a Kashin class destroyer is 470 feet long, 52 feet wide, weighs 5,200 tons fully loaded, has four

missile launchers, four anti-aircraft guns, four rocket launchers and five torpedo tubes.

NO INFO

Kashin class destroyers were the world's first warships to rely entirely on gas turbine propulsion for quick acceleration, but they have been rapidly outdated by later classes. Jane's said 19 of the ships were built in Leningrad and Nikolayev.

U.S. Navy officials in London said they had no information about the explosion of the Soviet destroyer. The NATO southern naval command in Italy said it too had no informa-

tion on the report. A spokesman for the U.S. 6th Fleet in Naples said his headquarters also had no information, but pointed out that such reports normally would go to the U.S. Navy offices in Turkey.

The Turkish navy monitors Soviet naval movements from the Black Sea into the Mediterranean through the Dardanelles, which are controlled by Turkey.

HAPPY LANDING — Boat owner Russell Weber (left) and Mrs. Mabel Karlson (right), two of the five persons which Coast Guard rescued unharmed from Weber's cabin cruiser Wednesday after being adrift on Lake

Michigan since Saturday with a dead engine, receive tearful but joyful welcoming hug from Mrs. Karlson's daughter, Marie, 15, as passengers arrive at a Coast Guard wharf near Milwaukee. (AP WIREPHOTO)

Economic News Sad

WASHINGTON (AP) — The government indicator designed to foreshadow future trends in the economy suffered its sharpest drop of the year in August, the Commerce Department reported today.

Most of the drop was attributed to sagging stock prices, but the index of leading indicators also was pushed down by the largest number of new unemployment claims for any month since March.

The Commerce Department said the over-all index dropped by 1.2 per cent on the basis of figures available for 8 of the 12 components involved. The downturn, the second so far this year, reversed a 1.9 per cent jump in July and was the largest drop since a 1.7 per cent decline in December. This left the index 5.7 per cent ahead of where it was a year ago.

In reality, the decline probably was more severe than it appeared, because the index does not take account of inflation. Four of the components in the index track the prices of vital goods, so that inflation would drive the components up automatically, even without any gain in the actual volume of goods involved.

Space Lab Completes Its Mission

MOSCOW (AP) — The Soviet space lab Salyut 3 ended its mission after three months in orbit, Tass announced today.

The brief announcement said Salyut 3 had completed its entire planned program of research work and the recoverable module was separated from the station Monday and landed in the Soviet Union.

Salyut 3 was launched June 25 and in July a two-man Soviet crew linked Soyuz 14 to the lab and spent 14 days aboard.

Last month a Soyuz 15 mission approached the lab, but the automatic docking system failed to work and the cosmonauts cut their mission short and returned to earth.

FIGHTING FOR FOOD Hungry Villagers Ignored Hurricane

T E G U C I G A L P A, Honduras — No one in Honduras paid much attention early last week as Hurricane Fifi crept through the Caribbean sea.

It was just another storm to the 2.6 million people in this triangle-shaped Central American country.

Fifi is gone. But Honduras, a nation reeking of poverty, is flat on its back with Fifi's name etched forever in the national memory, the worst disaster in Honduran history.

NO ONE KNOWS

The government estimates that 7,500-8,000 died. No one will ever know for sure how many perished. The National Emergency Committee said another 100,000 are homeless.

No one knows how many people died of hunger after Fifi destroyed almost 50 per cent of the nation's food crops. The Hondurans were undernourished, hungry, in abject poverty, before the storm came. In their usual state of malnutrition they were not up to holding on for the three, four or five days it took for the floods to recede enough to get food and shelter to them.

With almost half this

season's corn and bean crops gone, the nation faces starvation. Poverty is common in Honduras; the average annual income is less than \$260. Many peasants have almost no cash income; they

live off their crops and by bartering. Beggars abound in the cities. Boys drop out of first grade to shine shoes to help buy food. People were warned about Fifi. But few paid attention.

MERCY FLIGHT

Red Tape Snarls Plane With Food

HOUSTON (AP) — An Air Force plane carrying 18,000 pounds of food, clothing and medicine for hurricane-torn Honduras took off today from Ellington Air Force Base after a 24-hour delay because of Defense Department red tape.

Air Force officials at the base first said Wednesday the plane had departed but they later said they had not received final authority for the flight.

Capt. Charles Dougherty said approval for the flight came through early today. Future flights had not been authorized, he said.

"We just didn't have the authority to begin with," he said. They went ahead with the idea that it would be ap-

proved. But it (authorization) never came." The transport plane was ready for takeoff at 1 p.m. Wednesday as officers of the 704 Tactical Air Squadron vainly sought permission to fly.

Relief supplies are being collected here by the city fire department. Included in the supplies are 500 cases of baby food. Dougherty said none of the supplies was perishable.

Tons of food, clothing and other supplies have been donated here but firemen have had difficulty finding ways to ship the supplies to Honduras, where there have been reports of persons fighting over food dropped from helicopters.

Hardly A Time To Drain Pool

Police were worrying that one local resident might have so much water that he was going down for the third time Wednesday.

A resident up on Stadium street called the police and complained that a person down his street was causing water damage to his yard by draining his swimming pool.

"It's already wet enough around here after nine days of rain," he reported.

Museum Given Caylor Painting By Duffs

By **JOE PICKLE**

George T. Reynolds, pioneer West Texas rancher, had good reason to remember the Comanches. That may be the reason he commissioned H. W. Caylor, Big Spring artist, in 1895 to paint a picture of a Comanche bride.

This is the latest reproduction of Caylor works which Capt. (USN-Ret) and Mrs. Berry Duff, Edmonds, Wash. have given to Heritage Museum.

The painting, like other reproductions in the Berry

collection given the museum, is striking in its fidelity. It is simplicity itself—the bride, with trappings, hung against a pine board wall.

There's nothing simple about Reynolds' brushes with the Comanches. The first with serious consequence occurred when, his brother, William D. Reynolds, and eight others started on an Indian trail.

But on April 3, 1867 near the mouth of the Double Mountain Fork of the Brazos, they came upon a party of Indians skinning a buffalo. It turned out there were more Indians than the men had bargained for, and instead of fleeing, the redskins held their ground. One, speaking a bit of English, advanced toward Reynolds, cursing and firing two revolvers wildly. When these began to click and he reached for his bow, Reynolds dropped him with two shots.

This touched off a running fight in which Reynolds was shot through the abdomen with an arrow. He wrenched the wooden shaft from his body, but the metal arrow point stuck in his back.

Si Hough, a companion, rode up, and seeing his friend apparently mortally wounded, asked: "Which one shot you?"

"The one in the red shirt," gasped Reynolds.

Hough spurred his horse after the Indians, later returning with a scalp,

Museum Plans New Display

Heritage Museum will be closed Friday through Monday, Gerri Atwell, curator, announced today.

The "Shine on Big Spring" exhibit, built around the theme of Shine Phillips' book, "Big Spring," biography of a casual West Texas Town, was coming down. Friday the museum will be given a cleaning, then Saturday an interim exhibit will start going into place.

It will be a collection of art, Indian jewelry, crafts, fabrics, etc. from the Wind River Gallery of Dallas, Toy Walther director. This varied and extensive show and sale will be opened Tuesday 1 p.m. to 8 p.m. daily through Friday, and the public is invited to view it.

presenting it to the bleeding Reynolds.

"Here's your man with the red shirt," he said.

The nearest doctor was 100 miles away at Weatherford, but the party set out immediately. By the time Reynolds got there, he apparently was on the road to recovery.

In 1868 he was driving a herd of cattle and horses near the Rio Grande when he was jumped by Indians. They stole most of his horses, but he escaped.

Years later, the embedded arrow still paining him, he checked into St. James Hotel in Kansas City, Mo. where Dr. W. M. Lewis operated. Wrote the surgeon: "This is to certify that on Tuesday, July 1782 with Dr. Griffith of Kansas City and Dr. Powell of New York City, I successfully removed a steel and iron arrowhead from the back of George T. Reynolds of Fort Griffin, and that said arrowhead entered his body in front and passed directly through his abdominal cavity and lodged in the muscles of his back on the 3rd day April 1867.

FINE DAY

Clouds vanishing and temperature rising. High today and Friday in the 80s. Low tonight, mid 50s. Southerly to southwesterly wind 5-15 miles per hour tonight.

GUARD CHILDREN

Kennedys Get Kidnap Threat

WASHINGTON (AP) — Secret Service agents guarded the children of Sen. Edward M. Kennedy for more than a week because of a kidnap threat, a Treasury Department official said today.

The threat was so serious that White House counsel Philip Buchen gave his personal approval for the protection and was

kept personally advised of developments, the official said.

A source close to the investigation in Boston said the threats were made against "all children of Kennedy blood." Treasury Undersecretary Edward C. Schmults said a child of Kennedy-in-law actor Peter Lawford was also afforded protection for a short time.

Schmults said the kidnap threat was first

received Sept. 13. Secret Service and police protection was provided mainly to Kennedy children in the Boston area, then phased out over the next week, Schmults said.

He said he could not provide details of the exact nature of the threat, whether it was received in the mail or by phone.

An FBI spokesman in Washington would say only, "We have received an unspecified threat on a member of the Kennedy family. We are investigating."

43,000 Acre Feet Of Water Trapped

Runoff into major area reservoirs appeared to be about over Thursday morning with around 43,000 acre feet net catch.

Bulk of this flowed into Lake E. V. Spence above Robert Lee. Elevation Thursday morning was 1860.34, making a net gain of 6.30 feet in level and 32,200 acre feet in content. The lake now has 132,800 acre feet in storage, little over one-fourth of capacity. Peak level of this lake was 1860.77 in September 1973.

Lake J. B. Thomas was at elevation 2222.85, up 1.95 in level and 5,000 feet in acre content. It now has in

storage 33,520 acre feet, or about one sixth of capacity. Since Wednesday, both Lake Thomas and Lake Spence had risen half a foot.

Texas Electric Service Company reported the level of Lake Colorado City at 2059.70 Thursday morning, a gain of 2.80 feet of 3,000 acre feet. It now has 17,700 acre feet in storage.

Champion Creek's last reading (Sunday) was 2043.90, giving it a content of 6,650 acre feet. This was a net gain of 8.40 feet in level and 3,000 acre feet in content. Probably, the current reading is somewhat higher.

The World At-A-Glance

COLUMBUS, Ga. (AP) — "I don't have a battalion to storm Ft. Leavenworth and take him out," one of William L. Calley Jr.'s attorneys said about the Army's efforts to stay a federal judge's order freeing Calley. Calley, 31, remains in disciplinary barracks at Ft. Leavenworth, Kan., today while the Army moves to appeal U.S. District Judge J. Robert Elliott's decision overturning Calley's murder conviction in the My Lai massacre of Vietnamese civilians.

NEW YORK (AP) — Rising civilian unemployment and the fadeout of the antiwar movement have prompted new interest in ROTC programs this fall. Enrollment on some campuses is up 25 per cent from last year. An Associated Press survey showed the trend toward increased interest in Army, Air Force and Navy training programs spreads across all areas of the country. Part of the motivation is economic: Reserve Officers Training Corps candidates get full scholarships, textbooks, subsistence allowances during part of their four years in college and a guaranteed job after graduation. The end of the Vietnam war also brought an end to demonstrations that hurt many ROTC programs, forcing some colleges to abandon them completely.

WASHINGTON (AP) — According to documents on file with the Senate, a 13-year-old political committee set up for newly appointed presidential aide Donald Rumsfeld did not register under the 1972 federal campaign reporting law until it went out of business this year. Rumsfeld's former campaign manager said the committee was not required to file under the law that took effect April 7, 1972. But officials charged with monitoring the act said the committee should have registered, if not when the law took effect, at least by 1973 when it took preliminary soundings on a possible Rumsfeld race for the Senate in Illinois.

WASHINGTON (AP) — President Ford's amnesty program may exclude Vietnam-era draft evaders and deserters who have become citizens of Canada or some other country, according to officials of the Justice Department. "The Justice Department now feels that these people would not be eligible for the program and that if they came across the border they would run the risk of immediate arrest," a department spokesman said on Wednesday. But the spokesman, John Russell, added that because of past court challenges and a lack of clear, specific legal precedents on loss of U.S. citizenship, "it's still arguable both ways."

Court Fight Expected From Ex-UT President

LATEST MODEL FORD — Cynthia Layne Neskow, 23, will become the bride of Edsel Bryant Ford II, son of Ford Motor Co. Chairman Henry Ford II, Saturday. They will be married in Tequesta, Fla., a Palm Beach County town on the Loxahatchee River. Their first date was at an auto show, "what else?" she says.

AUSTIN, Tex. (AP) — Ousted University of Texas President Dr. Stephen Spurr was expected to announce today his decision to take to the courts his battle against University Chancellor Charles LeMaistre and the board of regents. At the same time there was speculation that student groups may protest Spurr's dismissal, although the student senate Wednesday night voted not to have any organized protest demonstrations. The regents voted 8-0 late Wednesday afternoon to uphold Chancellor LeMaistre's firing of Spurr, with Mrs. Lyndon B. Johnson abstaining. Spurr hired lawyers, including Gerard Nugent, brother-in-law

of Mrs. Johnson's daughter, Luci, and planned to hold a news conference this morning. The student senate approved a series of resolutions criticizing the dismissal on the basis that no reason was given for it. "As far as the students go, there is a lot of discussion of a student-faculty strike to emphasize to the legislature the ramifications of what has happened and the need for a change in the relationship between UT-Austin and the system office," Bill Parrish, student body vice president, told reporters. LeMaistre came no closer to specifying his reasons for firing Spurr than he did in his original announce-

Handed Probation

Two men were given five years of probation in 118th District Court Wednesday. Bobby Torres, 27, 606 Scurry St., pleaded guilty to shooting at Mina Hanks with a pistol on Nov. 5, 1972. And Michael Wayland Reid pleaded guilty to theft of two saddles recovered by the sheriff's office. In other action, District Judge Ralph W. Caton filed several judgments which could result in bond forfeitures unless "good cause" is shown at later hearings. The defendants did not appear for trial Monday. They include: Dennis W. Jock, charged with sale of marijuana, released on \$10,000 bond with Ike Isaacs and L. R. Baxter as sureties; Arlene Jones Lawler, charged with forgery, personal appearance bond of \$1,000; Jim Bob Weatherford, charged with theft and now in jail, W. J. Reynolds and J. F. Daniels, sureties on \$10,000 bond; And Jerry Weatherford, at large and charged with theft, Reynolds and Daniels sureties on \$3,500 bond.

TURKISH CONNECTION

Officers Grab 'White Stuff'

SAN ANTONIO, Tex. (AP) — "It was a real good lick," said one of four city narcotics officers who participated Wednesday in the seizure of two pounds of Turkish "white" heroin which they said was delivered from the Detroit-Toledo area. George Wilson, one of the officers, said the seizure evidences an alteration in underworld heroin merchandizing in an area which has seen almost exclusively so-called "brown" heroin from nearby Mexico in recent years. "Since the poppy plants are growing over there (in Turkey) again, we're starting to see the white stuff again," said Wilson, 35. Officers arrested Gilbert Casas Guzman, 39, of San Antonio. Guzman was later charged in peace justice court and held in lieu of \$35,000 bond. Wilson described the operation which the officers hit as a wholesale one, with the value of the heroin to the wholesale dealer as about \$220,000. "This guy would step on (cut) it two or three

times more before he puts it on the street," said Wilson. Wilson estimated the heroin would be worth about \$500,000 to \$600,000 if it were adulterated and put in street-size half-gram doses for the addict. He said the seizure would put a substantial dent in the supply to San Antonio's known addicts, 15,000 to 20,000. According to authorities, the organization of slain state prison rebel Fred Gomez Carrasco which dominated drug activity here in the past two years dealt in Mexican or "brown" heroin. The Turkish heroin is an element with which authorities have not had to deal on a wide scale since it became scarce here several years ago with the downturn in Turkish activity and the availability of smuggled heroin from Mexico. The two-pound Turkish heroin seizure is the largest single seizure here since federal agents found about 3½ pounds of brown heroin last spring in a major thrust against the Carrasco organization.

Border Patrol Must Adjust To Shortage

O. D. Stevens, Chief Patrol Agent of the Marfa Border Patrol Sector, announced that in spite of the fact the Immigration Service — of which the Border Patrol is the uniformed enforcement branch — is in the position of having to pace itself because of a shortage of funds throughout the country, an increase in arrests for alien and other violators of the immigration laws is still evidenced. Chief Stevens pointed out that throughout the Marfa Sector (which is responsible for patrolling 77 West Texas counties and 18 counties in western Oklahoma) arrests of illegal aliens this September are averaging 76 a day as compared to 62 a day during September 1973. Looking at the overall illegal alien picture, Chief Stevens, citing L. W. Gilman, the Southwest Regional Commissioner, stated that in the 10-state Southwest Region, arrests are averaging some 1,700 a day, a 30 per cent increase over last year. Chief Stevens also commented on the internal investigation presently being conducted throughout the Immigration Service, stating that while he, as no one else, enjoyed being scrutinized, he welcomed the investigation as a tool to once and for all put to rest the baseless rumors and allegations concerning the

integrity and honesty of the officers and employees of the Service that daily strive to perform their duties in the face of odds that would defeat a less dedicated group. While the number of alien violators during the last ten years has increased some 2000 per cent, reaching a high of over 790,000 during fiscal year 1974, ended last June 30, marijuana and other narcotic seizures during the same period were valued at some \$26 million the officer force responsible for enforcing the law has not been increased; a corrupt organization would not have been able to constantly respond to the greater challenges of the job.

NOT RUN OF THE MILL FOLK — Pictured are three characters in the Big Spring High School Choral Club's musical, "Li'l Abner," one might not see every day on the street. From the left, they are Hairless Joe, portrayed by Joel Adams; Mayor Dogmeat, the role assumed by James Williams; and Lonesome Polecat, enacted by Brian Jones. The musical satire opens at 8 o'clock this evening in the high school auditorium and runs through Saturday night. Tickets are \$3 each and all seats are reserved. The duets can be ordered by calling 7-7461 (days) and 7-7464 (after 5 p.m.).

Unusual Approach Leads One To Kimo's Palace

A wooden bridge leads you across a waterfall and past a Polynesian garden as you enter the addition to Kimo's Palace, formerly known as the Ranch Inn Cafe. Catfish are swimming in the pond under the falls. Orchids, and a small coconut tree are growing in artificial light to the left. When you sit down, an Oriental waitress brings you a menu that's more than a menu. MENU HAS STORY Under Genghis Kahn barbecue, it says: "In ancient Mongolia, wild game such as deer, goat, sheep, hog, bear and all types of fowl were highly prized delicacies. They were hunted for all the festive ceremonial feasts." Domed and slitted metal helmets worn by Genghis Kahn warriors, the legend says, were used to cook the exotic meals. Singapore steak, duck Polynesian, Dowell Sea piquant of ribs, "char-broil" wine flavored and Teriyaki steak and thick western cut steaks are among the dishes offered. Not only does the menu introduce you to individual dishes, but it explains Chinese cooking. Simple Chinese food has enabled men and women to perform "stupendous tasks of strength and endurance," the menu says. "It is know that Chinese men and women have lived to be 150 years or more." CHINESE WAY "The basic principal of Chinese cooking is to trim the fat and stir cook the lean meats and vegetables. The vegetables are partially cooked to retain the crispy texture. The proper method is to cook with a little water, stir fast and quick with high heat. Author of this unusual menu is Jimmy (Kimo) Jodoi, owner and chef of Kimo's Place. He hopes both old customers and new ones will visit Kimo's Place and enjoy the refreshing atmosphere and delicious exotic foods.

\$25 Million Star-News Deal Okayed

WASHINGTON (AP) — An agreement has been approved by stockholders permitting Houston banker Joe L. Albritton to buy a controlling interest in Washington Star Communications, parent company of the Washington Star-News, for \$25 million. Albritton will become chief executive officer and chairman of the newspaper Friday under the agreement approved Tuesday on a 19,709 to 1 stockholder vote. The agreement will allow Albritton to purchase a 10 per cent interest immediately and an additional 28 per cent with Federal Communications Commission approval. The Star-News' parent company also owns WMAL AM-FM and WMAL-TV in Washington, broadcast properties in Lynchburg, Va., and Charleston, S.C., and a newspaper syndicate. Albritton is an attorney and serves as chairman of Houston Citizens Bank and Trust Co.

Bill Moyers Day In Oklahoma

OKLAHOMA CITY (AP) — This was Bill Moyers' Day in Oklahoma. Gov. David Hall proclaimed the day to honor the Oklahoma-born journalist who was coming here for an invitational open house of the Oklahoma Educational Television Authority. Moyers, a former press secretary to President Lyndon Johnson, was born in Hugo.

Sirens Will Be Tested Together

Webb Air Force Base will continue to test its sirens jointly with the civilian system at noon on the last Saturday of each quarter. This will be in addition to testing it at 12 noon each Monday starting Oct. 7. The community wide test ending the quarter will be at 12 noon this Saturday, Sept. 28.

Flooding Rains At End In Texas

Although occasional drizzle and fog lingered at a few Texas points, observers pronounced the state's long spell of flooding rains at end today.

Certification Of Party Won't Pose Problems

Certification by the Texas secretary of state of the Socialist-Workers' Party candidates for the November election will not cause Howard County officials any difficulty. Mrs. Pauline Petty, county clerk, said ballots have not been ordered, because she has not received a definite ruling from the state on the county surveyor question here. Ralph Baker, the incumbent county surveyor, filed for nomination by the Democratic Party but died days before the primaries. C. R. Crim was appointed by County Commissioners Court to fill the vacant non-paying post. But officials have not decided whether Crim will serve until after the next primaries or who will choose the Democratic nominee. Commissioners Court here has authorized Mrs. Petty to decide who prints the ballots, Mitchell said. The Texas Supreme Court ruled 5-4 that Mark White, secretary of state, must either certify the Socialist-Workers candidates or check all the names on the party's petitions. "It's physically impossible to make the complete check ordered by the court," White said.

Bob Cox Named Prexy Of Cap Rock Co-op

STANTON — Bob Cox, prominent Martin County farmer-rancher, has been elected president of the Cap Rock Electric Cooperative. He was re-elected to a three-year term as director at the annual Sept. 14 meeting, and last weekend the board elected him president, succeeding Glenn Cantrell, Big Spring. Cantrell, who remains on the board, received a 35-year pin from Edgar Phillips, vice president and a 35-year member himself. Phillips was re-elected vice president, and Alfred J. Schwartz, St. Lawrence, was re-elected secretary-treasurer. Cox has been a director of the member-owned rural electric system since 1967. He is married to the former Jo Jon Hall, Stanton, and they have three children — Morgan, 17, Robert, 14, and Jonama, 10. They live seven miles west of Stanton and farm and ranch in the Tarzan community where they raise registered Hereford cattle and grow cotton and alfalfa. The Chamber of Commerce in 1959 named Cox the outstanding farmer in Martin County. Long recognized as a community leader, Cox has served on the county committee of the Farmers Home Administration, and has been a director of the Mustang Soil and Water Conservation District and its predecessor (Martin-Howard SCD), for 15 years. He has been chairman of the Mustang district since its formation in 1970. He is a past president of the Martin County Chamber of Commerce, served as chairman of the Agriculture Committee a number of years and still is a member of the panel which stages the annual Martin County Junior Livestock Show. The Cox family is active in 4-H with all the children participating, particularly in steer and lamb feeding, and Mr. and Mrs. Cox serve as adult leaders. He is a member of the Texas Hereford Association, and he and Mrs. Cox are state adult advisors to the Junior Hereford Association of Texas, of which son Morgan is a director and second vice president. The Coxes attend the First United Methodist Church in Stanton where he has served in many different capacities, including chairman of the official board.

Local Realtors Await Meeting

Members of the Texas Association of Realtors from Big Spring will join San Angelo members at a one-day regional meeting Wednesday, Oct. 2, in San Angelo's La Quinta Motor Inn announced by Jack R. Mogle of Midland, regional vice president of TAR. Local realtors who plan to attend include Walter Slate, Rufus Rowland, Del Austin, Thelma Montgomery, Doris Trimble, Jean Whittington and Helen McCrary. The headline speaker will be Don Hutson of Memphis, Tenn., president of nationally-known sales training firm. Hutson is expected to present many new, profitable ideas on a real estate marketing scene. He is credited with selling over a million dollars of real estate while a student at Memphis State. He will be introduced to the gathering by E. W. Luedtke of Austin, the executive vice president of the 28,000-member organization.

Sterling Wells Making Hole

Two Sterling County oil tests were making hole Thursday. Cogima No. 1-6 Reed Estate was below 5,720, and Stoltz, Wagner and Brown No. 1-24 N Glass was at 7,782. In Dawson County, Texaco No. 1 Anderson was fishing at 11,379.

Anthony's CR ANTHONY CO

CHEVROLET FOR 1975. CARS THAT MAKE SENSE FOR TODAY.

MONZA 2+2 The small car of tomorrow will probably be a little more powerful, handy and comfortable than ever. The 1975 Monza 2+2, shown above, offers this today. It has advances like rectangular headlights set in a soft front end, fold-down rear seat, and a new 4.3-litre V8 engine available.

NOVA In the background above, our new Nova LN Sedan. A luxurious Nova with thick carpeting and wide-back reclining front seats. For 1975, all Novas have been emphatically refined along the lines of elegant European sedans. Nova's always been good. Now it's beautiful.

CAMARO Our sensibly sporty compact. It looks like a million and drives like it looks.

CHEVROLET'S NEW EFFICIENCY SYSTEM FOR 1975 It's the key part of a program aimed at helping our new cars run leaner (more economically), run cleaner and save you money every mile. The Efficiency System is standard on all 1975 Chevrolets with V8 or 6-cylinder engines. It's a series of significant engineering improvements working together for the very first time. Components include High Energy Ignition, catalytic converter, Early Fuel Evaporation and steel-belted radial ply tires. In sum, the System is designed to heighten the pleasure and lower the cost of driving a 1975 Chevrolet — to bring you a better running car in many ways, along with improved fuel economy, more miles between recommended maintenance and an engine that stays cleaner internally because of no-lead fuel. Your Chevrolet dealer will gladly give you the details and answer your questions. See him and the sensible 1975 Chevrolets starting September 27.

IMPALA America's favorite car continues to provide the room many families need plus plenty of quiet and comfort. Still the great American value.

WAGONS Big ones, small ones, in-between ones. Practical wagons that make sense for America. And you.

CHEVELLE Mid-size, easy to drive, room for six, mid-priced, strong reputation for value. America's most popular intermediate.

MONTE CARLO Its special ability: making you feel good. About the way it looks and drives. About your own taste and judgment.

CHEVROLET MAKES SENSE FOR AMERICA

Chevrolet

26 SEP 26

Area High School

Several area high schools officially show an open date on their football calendars Friday.

Big Spring with an excellent 2-1 record takes the week off in preparation for 5-4A battle Oct. 4.

Coahoma ranked No. 1 state schoolboy team by the

Associated Press goes to McCamey. The Bulldogs show 3-0 on the books and defeated No. 22-A Cisco last week 51-8.

Forsan after a week's layoff topped Buena Vista of Imperial 220 last week. The Buffaloes will host Grandfalls. Forsan's record is 2-0.

Grady (0-2), who plays all of its games away from home due to lack of facilities, trip to Borden County.

Colorado City hopes to hit the win column as they motor to Post. Last week Reagan County downed the Wolves 20-6.

Lamesa blanked by ninth-ranked Pecos 10-0 last week moves over to Reagan County. The Golden Tornadoes stand at 2-1.

Stanton, and Sands start take the week off.

Stanton and Sands with identical 1-2 marks lost to Rotan and New Home 7-6 and 7-0 respectively. Garden City had a game with McCamey "B" called off because of the rain.

Garden City is at McCamey J. V. tonight.

Gophers Prepare For TCU

MINNEAPOLIS, Minn. (AP) — Minnesota football coach Cal Stoll felt his Gopher team had reached the crossroads heading into the 1974 season.

After Minnesota's first two games, Stoll still doesn't know what direction the Gophers will take as he prepares for Saturday's visit by Texas Christian University of the Southwest Conference.

"We're further along on offense than I thought we'd be," Stoll said. "I thought perhaps our defense would have to carry us early in the season, but that hasn't been the case."

Minnesota's offense has been nearly all Rick Upchurch and Tony Duny in an open 34-19 loss to Ohio State and last Saturday's 42-30 victory over North Dakota.

"We're still a young team and don't have much depth," Stoll said. "We have a more definite challenge defensively against Texas Christian... we'll have to be concerned with stopping their throwing game."

Texas Christian, also 1-1, has relied heavily on the passing of junior quarterback Lee Cook and the Horned Frogs all-purpose fullback Mike Luttrell.

"They are a Texas football team," Stoll said. "And they play good football down here."

TCU, which was picked for seventh place in the SWC in a preseason poll, is regrouping its football fortunes under Jim Shofner.

"Basically our offense is the same as the San Francisco Forty Niners," said TCU Sports Information Director Jim Garner. "We throw to our backs a lot."

Astros Downed By 4-1

CINCINNATI (AP) — "Expect a miracle," urged the tattered clipping on the office bulletin board of Cincinnati Reds Manager George "Sparky" Anderson.

But the Reds are running out of time and miracle.

Wednesday night's 4-1 victory over the Houston Astros renewed faint hopes.

The message is clear — win the remaining six games of the season and hope for an eleventh hour plunge by the Los Angeles Dodgers who lead by four games. The Dodgers lost to Atlanta 5-2 to keep the magic number for clinching the pennant at three.

The Reds kept their fading chances aglow behind a strong pitching performance by Clay Kirby and the torrid bat of young Ken Griffey.

Kirby blanked the Astros for seven innings before weakening in the eighth. The Reds staked him to a 3-0 lead after two innings, enabling the right-hander to win his 11th game against nine losses. It was only his fifth triumph in 15 career decisions against the Astros.

Jack Billingham, 19-10, attempts to become the National League's first 20-game winner of the season when he squares off against J.R. Richard, 2-1, tonight.

Smith Ruled Ineligible

DALLAS (AP) — Halfbacks Calvin Hill and Robert Newhouse and flanker Drew Pearson were listed as questionable Dallas Cowboy performers Wednesday for the National Football League game Sunday against the New York Giants.

Hill aggravated a big toe sprained Monday in the Dallas Philadelphia game. Newhouse suffered a cracked rib in the contest and Pearson sustained a slight shoulder separation.

Jim Arneson will again substitute on Sunday for center John Fitzgerald who missed the Philadelphia game with a sprained knee.

Hawkettes Win In Volleyball

CANYON—The Howard College volleyball opened season play here Tuesday with the Hawkettes winning 15-9 and 15-7.

Janice Platte led Howard College scorers with the help of Wanda Williams, T. C. Caffey and Cynthia Dennis.

Versatility of Willie Lane, Ruth Knight, and Susie Nelms played an important victory role. Howard College travels to Texas Tech Monday. Game time is 7:30 p.m.

First Hawkette home game is against Abilene Christian College at 7:30 p.m. Oct. 1. The site will be the Jayhawk gym.

Mid-Year Meet Opens Oct. 10

Directors of the West Texas Chamber of Commerce have been invited to attend the mid-year meeting of the board of directors in Fort Worth, Oct. 10-11.

Five West Texans who have made significant contributions to the culture of West Texas will receive the annual WTCC Cultural Achievement Awards at a banquet in the Times Square Banquet Hall at 7:15 Thursday night.

The events for Friday will begin at 7:30 a.m. with the Quota Busters' Breakfast in the Times Square Room at the Hilton Inn. Master of ceremonies at the breakfast will be Joe Collyns, San Angelo. WTCC vice president, finance and membership, Collyns is vice president, public affairs, General Telephone Company of the Southwest.

President Burl B. Hulsev will preside at the meeting of the WTCC board of directors at 9:00 a.m. Dr. W. Philip Gramm, an economist with a sense of humor and some pithy comments will speak at the annual mid-year meeting luncheon in the Times Square Room at 12:15.

Several area men were among winners in the second annual Texas Tractor Pull at Haskell last Saturday.

There were 59 entries in the biggest single tractor pull to date under TTPA sanction.

First place winners included Elbert Long, Big Spring 12,000TNT; Charley Anderson, Lamesa, 9,000TT; Derwood Blagrove, Ackerly, 12,000TT, the 15,000TT, the 18,000TT, and the 9,000SS class. Blagrove also took third in the 9,000 open division and Elbert Long took second in the 9,000TNT class. Only two out of nine first place drivers went to other than local drivers.

Opening lead: Eight of ♠.

I am indebted to Walter Dedico of Swift Current, Sask. for this hand, featuring a pretty defensive play by East.

The hand turned up in a Swiss Teams event, and at both tables the final contract was four spades, reached on similar straightforward auctions. At each table the opening lead was West's singleton heart. Both Easts played the ten and declarer won with the king.

Model Aircraft To Be On Display This Week

The Spring City Model Aircraft Association will present a demonstration of some of its model aircraft to the public Saturday and Sunday in the Highland Park Mall.

A static display of aircraft will be staged Saturday from 10 a.m. until 6 p.m.

Weather permitting, the flying demonstration will take place starting at 2 p.m., Sunday at the club's flying site on Wasson Road. Maps to the flying site will be available in the mall display.

The Spring City Model Aircraft Association was originally formed in Sept. of 1973. It is composed of persons interested in promoting aircraft modeling as a hobby sport. The club consists primarily of radio control modelers, however, there are a few individuals who fly control-line aircraft. All persons interested in any form of flying model aircraft are very welcome in the club. All walks of life are reflected in the club membership, from high school students to professional people, from Air Force pilots to a Fire Chief.

The club has been flying at its present site for approximately five years through the courtesy and kindness of the property owners. However, the club needs a permanent or at least semi-permanent flying site which could be paved and fenced. If anyone knows of a suitable location, please contact Mr. Laurence George, ph. 3-8664, or contact any club member at the display or flying demonstration.

Area Men Win In Contest

Charles H. Richards, son of Mr. and Mrs. James H. Richards enlisted in the U.S. Air Force recently, according to T. SGT. Don Sisco, 322 Rannels St.

Charles graduated from Big Spring High School in 1973 and attended Howard College. Upon graduation from the Air Force's six-week course at the School of Military Science, Airman Richards will attend technical training in the electrical field as a precision Measuring Equipment Specialist.

C.H. Richards In Air Force

Justice of the Peace J.G. Lamoreaux on Monday ordered Judge's \$300 bond forfeited and his big game license suspended when Judge did not appear at a scheduled hearing.

Judge tagged in a young bull elk in an area open only for killing bulls with advanced horn development called a branch antlered animal. He said he first thought he had made a legal kill.

The governor said he expected to be treated like any other hunter. But officials said they couldn't recall any hunter losing both license and a \$300 bond after turning himself in. One official said the usual forfeiture is \$35.

Man Is Taken To Hospital

Leo Bailey, Sands Motel, was rushed to Medical Center Hospital with severe head lacerations after the pickup he was driving to work at the new hospital site collided with a vehicle driven by Lloyd Hayes Jr., 1905 Wasson Road.

Bailey was reported by the investigating officers to be "almost scalped" in the accident but was reported in fair condition. A passenger, Thornton Fate of Dallas, another construction worker was treated and released.

The wreck occurred at 7:32 a.m. Wednesday.

Loses His Hunting License

STOLEN GOODS Are Recovered

Local police recovered merchandise stolen from the Western Auto Store in Kingsville Tuesday. Det. Leroy Spires retrieved the stereo and television in Room 2 of Big Spring Motel.

Arrested in Kingsville was Abel Trevino of Big Spring on a burglary charge.

Police also recovered four stolen vehicles Tuesday. Patrolman James Van Ness recovered a pickup and car stolen from Hamby Motor Co. during the night Sunday. They were abandoned at NW 5th and Bell. He also recovered another stolen car abandoned at the American Restaurant.

Tony Chavez recovered a third vehicle on San Antonio Street that had also been stolen at Hamby's.

Cap Rock Co-op Loan Approved

Cong. Omar Burleson today announced the approval of a \$628,000 REA loan to the Cap Rock Electric Cooperative, Inc. at Stanton, which serves Borden, Howard, Dawson, Andrews, Ector, Midland, Glasscock, Irion, Reagan, Sterling, Tom Green and Upton Counties.

The purpose of the loan is to finance service for 466 additional consumers; to increase 64 miles of distribution line; and to finance system improvements, including beefing up of conductors and other line equipment.

The loan covers estimated growth of the system for a two-year period.

Institutions, Business Have Loss Of Credulity

By OMAR BURLESON

WASHINGTON, D. C. — There is a story about an Irish cop in downtown Boston who solved the problem of outlander pedestrians who were blocking traffic at a business intersection while they gazed up at tall buildings. He shouted to them, "If you want to stand on this corner, you got to keep movin'."

There is another story about a strange malady which prevents some people from turning a corner. It is said that a person afflicted with this unusual disease can walk a straight path as easy as anyone. But when he comes to a corner with no obstruction in his way, he is unable to negotiate the turn.

The parallel in these stories can relate to people and institutions — 1. Unless we keep moving, we are likely to get run over; 2. Unless we can turn the corners we cannot get to the place we are going for the purpose intended.

In a way this seemed to be the general idea conveyed by one of the top business executives of this country, speaking before a business conference at Rutgers University not long ago.

"For more than a Decade now the Business Community, as a whole, has been declining in public favor," he said. As a result, the public has grown more receptive to proposals for more government intervention and regulation of business. He said that attacks are being mounted on the private enterprise system and the life of that system is at stake.

Business has not been alone in its fall from public favor. It has been joined, by greater or lesser extent, by virtually every other institution in American society. This includes the professions, the federal government — both the Administration and Congress — the military, the news media, educational institutions and even the church.

M. A. Wright, Head of one of our biggest oil companies, went on to say in his remarks at Rutgers, "This atmosphere of general public distrust has serious implication for the future of business."

He said that the future of business and our national institutions depends on how well we can re-establish credibility. He concluded that, in the past, businessmen have been too busy competing in the private enterprise system to concern themselves with communicating its virtues. The same can be said of the representatives of these other institutions. The private enterprise system and our other basic institutions of American life cannot hope to prosper or even survive in a society which has no faith or confidence in its major decision-making ability.

At the present time, there is a punitive climate in the Congress towards business which, evidently, is due in large part to the powerful effect of public opinion.

How all this has come about is difficult to define. It did not occur by any sudden turn of events; nor will the trends and attitudes be suddenly reversed. It must, however, be met as a real challenge to the fundamentals of our system of government and business.

business." He said that the future of business and our national institutions depends on how well we can re-establish credibility. Parker Has Champion

Stan Parker of the Knott 4-H Club exhibited the Grand Champion Barrow of the 1974 Panhandle — South Plains Fair in Lubbock Tuesday night. Stand went on to win the biggest award in the barrow show after his 227 pound crossbred was named champion crossbred barrow.

Stan, the son of Mr. and Mrs. Bruce Parker of Knott, earlier won grand champion of the Howard County Fair barrow show with the same animal.

Other placing by Howard county 4-H'ers were Dirk Perry with a first, Chester White Light Wt., Brent Nichols, second Light Hampshire, Dirk Perry second Medium Hampshire, Antoinette Nichols fourth place Medium Duroc, Brent Nichols sixth Medium Duroc, Bret Griffith tenth Heavy Duroc, Guy James sixth Heavy cross and Cindy Shaw — seventh Heavy Crossbred.

Also exhibiting barrows from Howard County 4-H were Stacy Parker, Caria Parker, Debbie Parker, Steve Parker, Van Gaskins, Tammy Peugh, Danny Peugh, Patty Peugh, Bart Griffith, and Charles Hall.

There was a total of over 300 barrows with the show being judged by Dave Heniker of Iowa State University.

TASTY DISH — A little girl, a refugee from Hurricane Fifi, munches on a meat pie at the refugee center at Choloma, Honduras. Thousands of persons in this area are homeless as a result of the flood waters and mud slides.

Panning For Gold In His Yard

MURRAY, Idaho (AP) — The sign near the Four Square Mine, dormant since 1934, would hardly encourage an amateur prospector.

"Use bridges at your own risk — survivors will be prosecuted."

But Bob Kress wasn't at all unfriendly as he sat in his front yard, panning for gold with the aid of a garden hose.

CAN'T MISS IT

"People come all the time wondering what gold looks like," Kress said. "But I can't see how you can miss it. Nothing else looks like gold."

The Four Square gold-tungsten mine is two miles southwest of Murray, a historic mining town that was home to 10,000 in its heyday in the 1890s.

Spurred by higher gold prices and the discover of a half-pound nugget last year, three gold mines are being developed in the center of this revived ghost town of 87 persons and several dozen weathered buildings.

DIG?

Murray is nestled in a steep, wooded canyon along the banks of Pritchard Creek and

is 20 twisting miles of road from the Shoshone County seat of Wallace.

A morning's panning for Kress had produced four small flakes of gold, and the mine watchman calculated he'd need 100 pieces — a level teaspoon full — to make an ounce.

"You can be in gold-bearing ground and work all your life and never get anything. Or you could become a millionaire overnight," Kress said.

"I think this is good gravel. I dug it from around the roots of a cedar tree that must be a couple of hundred years old."

A skeptical companion said: "You don't get rich from panning. Why, if I found a nugget the size of a pea I'd probably get drunk to celebrate."

Many Murray residents are optimistic that gold, which now sells for about \$150 an ounce, may double in price.

There are stories of hidden riches in the timbered hills dotted with colorfully named mines like the Wakeup Jim, Dew Drop, Treasure Box, Golden Chest and Terrible Edith.

DEFENSE SECRETARY Doubts U.S. Will Go To War Over Oil

WASHINGTON (AP) — Secretary of Defense James R. Schlesinger said Wednesday he doubts that any country will go to war over oil despite the economic problems caused by the high prices of producer nations.

"It is not anticipated that there is going to be military conflict," Schlesinger said at his first Pentagon news conference in three months.

Asked if the United States were making any military preparations to drive down the price of oil set by the Persian Gulf nations, he said, "We are not contemplating any kind of planning of that sort."

Schlesinger seemed somewhat at odds with a tougher line toward the Arab states and Venezuela taken by both President Ford and Secretary of State Henry A. Kissinger on Tuesday.

At the Ninth World Energy Conference in Detroit, Ford said that while the oil-producing countries have every right to manage their own economies, "exorbitant prices can only distort the world economy, run the risk of a worldwide depression and threaten the breakdown of world order and safety."

At the United Nations, Kissinger noted that the United States has provided economic programs to Middle Eastern nations in an effort to help them diversify their oil economies.

But he said, "What has gone up by

political decision can be reduced by political decision."

At his news conference, Schlesinger said, "The United States regards the problem of oil prices as detrimental to world economy."

But, said the secretary, "we expect to have a solution through negotiations, through aicable discussions. It is not anticipated that there is going to be military conflict."

LEGAL NOTICE

NOTICE OF PUBLIC HEARING ON PROPOSED ZONE CHANGE

Property Owner: This is to inform you that the Planning and Zoning Board will hold a public hearing at 5:15 p.m., Tuesday, October 1, 1974 AND THE City Council will hold a public hearing at 9:00 a.m., Tuesday, October 8, 1974 in the City Council Room on the second floor of City Hall for the following request for a zone change:

Mr. Bill Crane is requesting that the South 100' of a 1.15 acre tract in Section 44, Block 22, T11N be changed from an SF2 zone to a Heavy Commercial Zone, for the purpose of a boat and marine dealership. The North half of this tract is presently zoned Heavy Commercial and being operated as a car and camper sales.

SIGNED: WADE CHOATE, Mayor
ATTEST: ROBERT MASSENGALE, City Secretary

Rally Will Open Fete BSSH Patients Given Chance To Earn Money

Homecoming Activities will include two days of events this year Friday and Saturday, Oct. 4 and 5. There will also be a community pep rally at the courthouse at 8:30 p.m. Thursday, Oct. 3.

Highlight will be the opening of the football district play against Abilene High at 8 p.m. Friday. This will be preceded by a parade at 4:30 p.m. on the same day and a Band Boosters Supper at 6 p.m. at Howard College Cafeteria.

The Homecoming Queen will be crowned at 7:30 p.m. in pre-game activities. A special assembly will be held at the high school on Friday at which time two brothers, Congressman J. J. Pickle, and Joe Pickle, editor of the Big Spring Herald, will speak.

These two will be honored Saturday and placed in the high school Hall of Fame in ceremonies at 2 p.m. at the school.

Saturday night, there will be a high school dance at the school cafeteria from 8-12 p.m. with "Menay" furnishing the music. Exes will hold a dance at 8:30 p.m. Saturday at the Howard County Fair Barn.

Plans Discusse

SWEETWATER — A hospital proposed here by directors and the medical staff of Simmons Memorial Hospital would embrace 51,700 square feet, have 32 private rooms, 24 semi-private rooms and five intensive-care units.

By TROY BRYANT

Some patients in the Big Spring State Hospital will soon be working and earning money as part of their therapy under the new Patient Remotivation Employment Program (PREP) to begin there in the near future under the direction of program director A. L. Gatewood.

"The set-up is ideal for patients here, as work is therapy," Gatewood said. "Everything is documented and monitored and extensive evaluation files are prepared on each patient," he added.

The new program will begin with evaluations on October 1, the total program will go into operation on November 1, for a trial month and the program will be in full swing on December 1.

ONE OF KIND

The program will be the only one of its kind to be implemented in the state in an effort to satisfy fully the requirements in the wage and hour law of the Labor Department, and will feature extensive skill evaluation and re-evaluation and incentives for advancement.

The new program therefore, will surpass in scope the recent court ruling governing the use of patient labor in institutions.

Under the program extensive medical and mental evaluations will be performed on each patient and referred to the Texas Rehabilitation Commission there on the hospital campus for extensive work evaluation and work adjustment. That evaluation takes into consideration physical skills and what the patient is capable of doing. This evaluation is supervised by a Medical Review Team who checks for the patients' mental and physical safety while performing the evaluation tests.

The results of the evaluations, both physical and mental are examined by a Referral Committee, which determines what percentage of work the patient can do as compared to a well person.

If the patients show better than a 25 per cent capability for work, they are referred to the Sheltered Workshop Center, where they will be assigned stations for work, such as the laundry, grounds maintenance, and other jobs on the campus. They are paid minimum wages, unless they are certified by the TRC for a sub-minimum wage, in which case they will receive a proportionate amount for the work they do.

PAID ACCORDINGLY

For example, if the patient is observed to do 50 per cent of the work of a well person on the same job, he receives 50 per cent of the minimum wage.

Patients in this group can also undertake contract

School Tax Cut New Dividend Record Is Set

AUSTIN (AP) — School trustees have voted to cut Austin school taxes by two cents on each \$100 valuation as a result of a \$2 million surplus which the district received from increased property valuation.

The trustees raised the senior citizen homestead exemption from \$3,000 to \$5,000, which will take \$200,000 of the surplus.

The tax reduction lowers the tax rate that covers bonded indebtedness of the district from 28 cents per \$100 to 26 cents.

The Board of Directors of Webb AFB Federal Credit Union have declared the regular 6 per cent annual dividend and a one-half per cent annual bonus dividend to be compounded quarterly to shares on deposit at the end of the third quarter of 1974.

This action by the Board of Directors sets two records for Webb Credit Union. Not only is this the first time dividends will be added to shares at the end of a quarter period, but the one-half per cent annual dividend — added to the six per cent annual dividend — brings the credit union's dividend rate to an all-time high of six and one-half per cent.

HAPPY
50th BIRTHDAY
BILL HENKEL
FROM THE
SUPER SAVE GANG

Our plot for 1975 is simple. Outclass the competition.

Coming soon! The first subcompact Pontiac Astre. Worth waiting for. The '75 Astre's so new, your Pontiac dealer may not have it in stock yet. But don't let that stop you. Contact him to get the full story on the many features and availability of the new Astre Hatchback and Safari wagon. He'll be happy to take your order!

1975 Pontiac Ventura SJ. Our mission: give the compact some class. Mission accomplished. We just built the classiest Ventura of them all... Ventura SJ. It's got your kind of style. Distinctive. A luxurious interior. And a Radial Tuned Suspension with steel-belted radial tires. That's class in a compact.

1975 Pontiac Grand Prix. If we could build only one car, this would be it. As if Grand Prix wasn't luxurious enough, now we have a super luxurious LJ model. Super two-tone paint outside. And a super posh interior. If you could own only one car, this should be it.

1975 Pontiac Bonneville. Strictly a high-level operation. For '75, we started at the top. With an elegant new roof line. Then we added new rectangular headlamps. A luxurious interior. And our Radial Tuned Suspension with steel-belted radials standard. Bonneville makes your driving strictly high class.

Announcing Pontiac's new mid-sized Grand LeMans. A spectacular inside job. We gave our new Grand LeMans the most luxurious mid-sized Pontiac interior ever. And with its formal grille, parking lamps and hood ornament, you'll find Grand LeMans is pretty spectacular outside, too!

Nobody's perfect...but we're trying.

When you buy a new car, you deserve a quality, dependable product. And a dealer that treats you fairly. We're trying to see that you get what you deserve. For example, we offer a new Maximum Mileage System that's available on every 1975 model. It requires unleaded fuel and includes items like GM specification steel-belted radial tires, a High Energy Electronic Ignition, and a catalytic converter. It's designed to help you get up to 7,500 miles between oil changes...up to 22,500 miles between spark plug changes. To help reduce overall operating costs. We call it our Maximum Mileage System because it represents the most advanced engineering and technology we can offer on our 1975 Pontiacs.

Our assembly lines are constantly improved to help build better cars.

And we send a questionnaire to every new Pontiac owner. Because we value your opinion on where we need improvement.

Nobody builds perfect cars. But at Pontiac, we're sure trying.

Pontiac strikes again.
See the beautiful 1975 Pontiacs at your Pontiac dealer!

A PERSONAL INVITATION TO COME AND SEE THE LUXURIOUS NEW 1975 BUICKS & CADILLACS

BUICK LeSabre

Our inventory of new cars may be a little low due to the tremendous number of sales we have already made on the 1975 models... Now is the time to order and trade because Jack Lewis' used car stock is the lowest it's been in the history of the dealership.

CADILLAC

VOLKSWAGEN INTRODUCES THE PERFECT CAR FOR ITS TIME.

The new Volkswagen Dasher does everything you want a car to do, and does it on about 25 miles per gallon. That's why it's the ideal car for today.
Dasher does a powerful 0-30 in only 8.5 seconds. It holds five comfortably. It has front wheel drive and gives you the control you've never felt in any conventional car. It has the amazing Skidbrake. When one side of the car is riding on a slippery surface, Skidbrake tones Dasher to move in a straight line as you brake. It needs maintenance at only 10,000 mile intervals. And it's covered by the Volkswagen Owner's Security Blanket. Nobody else is even close.

DASHER A new kind of Volkswagen.

1975 NEW CAR PREMIERE

FRIDAY AND SATURDAY
September 27th And 28th

BRING THE FAMILY EVERYONE INVITED

RESTYLED FOR '75
LINCOLN CONTINENTAL

THE ALL NEW MERCURY MONARCH

Here is luxury to '75 in a new precision sized A car that's precisely right for its time. A car trim enough to deliver today's needed mileage, yet roomy and comfortable for five passengers. The idea behind the new precision-size Monarch is simple: to fit the car to people, not fit people to the car.

NEW FOR 1975
FORD GRANADA

Granada is a functional car. Comfortable and a pleasure to drive. It's trim size is new. Personal. About two feet shorter and half a ton lighter than most standard-size cars, so can get good gas mileage. It's about the same weight as the Mercedes 280.

Monza 2+2 Hatchback Coupe

MONZA 2+2 — the small car of tomorrow will be a little more of everything. It's probably be more advanced and economical, probably a little more powerful, fun to drive, handier to load with packages, and a little more comfortable to be in.

Monte Carlo Landau Coupe

MONTE CARLO. When a car makes you feel good about its looks, that's styling. When it makes you feel good about yourself, that's character. And that's what this beautiful riding, beautiful handling Monte Carlo, 1975, is all about — honest, tasteful, with classic design and elegance.

Nova LN Coupe

NOVA LN — You're looking at the '75 Nova LN, the most luxurious compact in Chevrolet history. LN's wide-back reclining front seats look and feel like big, soft lounge chairs. The front seat backs adjust to give you the right slant on comfort. It's all new for 1975.

Cemetery Thieves Busy In Other Areas, Too

The same kind of professional thieves who visited Trinity Memorial Park here on Dec. 28, 1973, taking 102 bronze vases, have made off with 802 grave vases at Milwaukee.

Robert Toson of suburban Milwaukee's Pinelawn Memorial Park said the vases, probably sold for about \$2,400 but would cost about \$21,000 to replace.

The vases, which weigh about three pounds each, are sold to scrap metal dealers for current bronze rates up to \$1 per pound.

The FBI and cemetery operators say bronze-grave vases are disappearing from cemeteries across the country.

According to the Associated Press, spokesmen for two of the nation's largest vase manufacturers, Matthews Bronze Co. of Providence, R.I., said, however, that they are making replacements for stolen vases free of charge.

Orville C. Shapland, president of Trinity Memorial Park & Mausoleum, doubts the accuracy of that information.

"This wasn't the case when ours was hit," Shapland said. "Our major companies replaced them at their cost."

This translated into about \$15 families had to pay for vases selling for around \$65.

Matthews Bronze had made free replacements earlier, Shapland said, but the number of grave vase thefts made the program too costly.

The Milwaukee cemetery spokesman said the cemetery thieves usually find profits high and the

TARGET OF PILLAGERS — Bronze cemetery vases similar to this one have become the target of thieves. One memorial park near Milwaukee, Wis., had 802 of them stolen recently and authorities said they would cost about \$21,000 to replace.

risks relatively low in stealing vases late at night in quiet, unpatrolled cemeteries.

A spokesman for the FBI office in Milwaukee said the agency is investigating interstate shipment of stolen vases. He said cemeteries around the country have been hit, with the most robberies in Illinois, Indiana, Michigan and Ohio.

Richard Kauppinen of Beloit, president of the Wisconsin Cemetery Association, said police in some areas are being asked to give more attention to cemeteries on their night

patrols, but most cemetery managers fear publicity will only spark more thefts and vandalism.

However, the American Cemetery magazine, an industry publication in New York, says only 69 arrests resulting in 35 convictions were recorded nationwide for 3,500 cemetery thefts reported in the last five years.

Investigation by the Howard County Sheriff's Office and other law enforcement agencies into the local heist likewise led to nothing.

Special Interest Courses To Be Offered At College

Want to know how to take a picture, make a cabinet, decorate a cake, paint a picture, read faster or play bridge?

Howard College has a special interest course in these subjects coming up, also in several other fields.

If or your particular interest isn't listed, then name your own "pizen." This is another way of saying that the college's Continuing Education program is poised for a take off next week. It will be as big and as diverse as the public wants, said Theron Lee, director.

Actually, one course—in cake decoration—is underway, and any interested in this course should call Lee at the college or report there Tuesday evening. This will be followed by another course in advanced cake decoration.

Other courses scheduled, with kick-off dates and instructor if named are:

Sept. 30, flower arranging, Penny Hill; Sept. 30, elementary art (age 6-10), Julie Chaleff; Oct. 1, cabinet making; Oct. 1, conversational Spanish, Lillian Valdes; Oct. 1, elementary art (ages 3-5), Julie Chaleff; Oct. 3, Oil painting; Oct. 3, intermediate bridge, Sue Wasson; Oct. 3, speed reading, Mrs. Stewart Forest; Oct. 7, beginning bridge, John Gordon; Oct. 8, news photography; Oct. 8, needlepoint; Oct. 10, crocheting; Oct. 14, personal income tax computation; Nov. 6, OSH seminar.

Lee urged people to call him if there is any subject in which they desire a course. If a sufficient number (usually 10) can be enrolled and an instructor located, the course will be offered. He emphasized that these require no special formal training, there are no exams, seldom any texts — just instruction by a qualified individual.

Georgian Says He Was Beaten

A hitchhiker from Atlanta, Ga., told deputy sheriffs two men in a black panel truck stopped and beat him with a chain Wednesday night.

Sheriff A. N. Standard said his office has been unable to verify the story.

William Richard Neely, 22, said he was left at the intersection of Farm Road 700 and Texas 350 while hitchhiking from Atlanta, Ga., to Midland. Two men hit him on the head, back and arms about 12:40 a.m. today with a chain.

Two Firms Are Closed Today

At least two Big Spring businesses are closed today, Thursday, in observance of the Jewish Holy Day, Yom Kippur.

Prager's Men's and Boy's Wear and Zack's are both closed, observing the conclusion of the High Holy Days, and the Day of Atonement for Jews the world over.

Yom Kippur began at sundown Wednesday and will end at sundown tonight.

Suicide Ruled

MIDLAND — Peace Justice John Biggs has ruled that Salome Rangel, found dead in an automobile parked near an east-side lounge here about 11 a.m., Wednesday, died as the result of a self-inflicted gunshot wound.

Service arrangements are being completed at Thomas Funeral Home.

Rangel resided in Big Spring until about four months ago.

DEATHS

Mrs. Anderson

Funeral for Mrs. D. S. (Sis) Anderson, 67, who died at 8:55 p.m., Tuesday in a local hospital, will be at 2 p.m., Friday in the Nalley-Pickle Rosewood Chapel, with Dr. Jimmy Law, officiating. Burial will be in Mount Olive Cemetery. Paulbearers will be Garner Thixton, Bill Burgess, J. D. Anderson, Gary Boyd, Doughlass Antley and Jimmy Anderson.

Big Bear City, Calif., ten grandchildren and 28 great-grandchildren.

Joe L. Burt

Funeral for Joe L. Burt, 72, who died at 1:20 a.m., Wednesday in a local hospital, will be at 3:30 p.m., today in the Nalley-Pickle Rosewood Chapel, with Elder J. E. Barrington of Midland and the Rev. Freddie Martin, pastor of the Berea Baptist Church, officiating. Burial will be in Trinity Memorial Park.

Mrs. Langham

Funeral services will be held Friday at 3 p.m. in the First Baptist Church of Ackerly for Mrs. Carrie Dell Langham, 91, who died Wednesday in a Lamesa Hospital.

Term Commuted To Ten Years

The life sentence a Howard County jury assessed William Paul Darrow for sale of marijuana has been commuted to 10 years district Judge Ralph W. Caton noted in a court order Wednesday.

Officiating at the services will be Rev. Ross Payne, pastor of the Cotton Flat Baptist Church, Midland; Rev. Jim Murphy, pastor of the First Baptist Church, O'Donnell; and Rev. Don Long, pastor of the First Baptist Church, Ackerly. Mrs. Langham lived in Ackerly for 50 years before her death and her husband, before his death in 1953, was a farmer in Martin County. She is survived by four daughters, Mrs. Willie Pove, Midland; Mrs. Laveda Nolen, Lamesa; Mrs. Louise Suthpen, San Angelo; and Mrs. Mavis Webb, Midland; a son, Kenneth Carl Langham, Ackerly; one brother, Almon Dunnam,

"We have been informed (unofficially) that the Board of Pardons and Paroles commuted his sentence from life to ten (10) years Aug. 6, 1974," Caton's order stated. The 118th district court judge, District Attorney Bob Moore and Sheriff A. N. Standard applied for sentence commutation.

BIG SPRING HERALD

SECTION B

BIG SPRING TEXAS, THURS., SEPT. 26, 1974

SECTION B

Perk Up Your Party With Hors d'Oeuvres

With a bit of advance planning, most of the preparation can be done ahead. Then you can deftly pull a plate of Sweet And Savory Stuffed Celery from the refrigerator or pop Dated Walnut Fondue or Dated Salami Roll-Ups into the oven a few minutes before serving. All that's left to do then is just relax with your guests while they savor something different and marvel at your creativity.

STUFFED CELERY

1 (4 1/2-oz.) can deviled ham
2 tbsps. chopped parsley
2 tbsps. chopped onion
1/2 cup finely chopped walnuts
24 (1 1/4-inch) pieces celery
24 pitted dates
Combine first three ingredients with 1/4 cup chopped walnuts. Fill celery pieces with mixture; top each with a date and some of remaining ham mixture. Sprinkle with remaining chopped walnuts. Insert toothpick in each. Makes 2 dozen hors d'oeuvres.

DATE-WALNUT FONDUE

1 (8-oz.) package pitted dates
1/2 cup walnut pieces
10 oz. Gouda cheese, grated
Cut dates open with scissors; stuff each with a walnut piece. Arrange in a single layer in a shallow 1 1/2-quart baking dish. Sprinkle with cheese. Heat in preheated moderate oven (350 degrees F.) 10 to 12 minutes or until cheese melts. Serve warm with crackers. Makes about 3 dozen hors d'oeuvres.

DATED SALAMI ROLL-UPS

1 (8-oz.) package pitted dates
1/2 cup herb and garlic French dressing
1/4 pound sliced salami (about 15 slices)
2 egg whites
2 tbsps. prepared mustard

1 cup finely chopped walnuts

Marinate dates in dressing several hours at room temperature; reserve 2 tablespoons dressing and drain dates on paper towels. Cut salami pieces into thirds; place a date on each piece and roll up. Fasten with toothpicks. Beat egg

whites until stiff but not dry; fold into reserved dressing and mustard combined. Coat salami roll-ups lightly with egg white mixture; coat with nuts. Place in shallow baking pan and bake in preheated hot oven (400 degrees F.) 10 minutes or until lightly browned. Makes about 3 1/2 dozen hors d'oeuvres.

FOR AFTER-THE-GAME get-togethers create these tempting hors d'oeuvres using date and walnuts with crunchy celery and sour cream for texture and zip.

'Tis a far, far better time to save than ever before.

For two good reasons: Daily Interest and Tele-transfer.

'Tis a far, far better time to save than ever before. Because First Federal Savings has Daily Interest and Tele-transfer.

When you save with us, you will earn *daily interest*. First Federal will pay interest on your savings every day. For example, funds in your account for three days will receive three days interest, even if you withdraw.

Now is the time to put your extra money to work. You'll earn the annual interest rate of 5.39% *every day* your funds are on deposit.

Plus we offer Tele-transfer. It's a free service that transfers money from your savings account to your checking account. With just a phone call!

Come to First Federal today. Where your money will earn interest every day.

500 Main Big Spring

Snacks Be Versatile With Pizza For Half Made By Cook At Home

Want to win points, and compliments, from the football fans around the TV set? Pass around these banana chiffon cup cakes, at half time.

HALF-TIME CUP CAKES

1 1/2 cups sifted all-purpose flour
1 cup granulated sugar
1 tsp. baking powder
1 1/2 tps. baking soda
1/2 tsp. salt
1 cup commercial sour cream
1/2 cup fully ripe mashed

one medium banana
1/4 cup butter
2 eggs
confectioners' powdered sugar

Blend dry ingredients. Add sour cream, banana, butter and eggs. Mix at low speed of electric mixer until blended, about one minute, or mix by hand with a spoon. Fill paper or foil-lined medium muffin cups two-thirds full. Bake in pre-heated 350 degrees oven for 25-30 minutes. Cool. Sprinkle with confectioners' sugar. Makes about 24 cup cakes.

Breakfast Souffle

When it's time to tackle breakfast, make a souffle part of the line-up, with a kitchen-tested recipe based on NFL Training Table Foods.

LINBACKER'S BREAKFAST SOUFFLE

6 to 8 slices bacon
2 tbsps. bacon grease
2 tbsps. flour
1/2 tsp. salt
1/2 cup milk
3 eggs, separated
1 ripe banana, mashed
Fry bacon until crisp; chop and reserve. In a medium saucepan, heat bacon grease, add flour and salt and cook 1 minute. Mix in the milk and cook until the sauce becomes very thick and pulls away from the side of the pan. Remove from heat and add 1 egg yolk at a time, beating vigorously after each addition. Mix in the banana. Whip egg whites until soft peaks form. Add about 1 cup of the whipped whites to the sauce mixture and fold in sauce mixture with a rubber scraper, using an up and over motion. Gently fold the remaining whites into the mixture. Scrape into an ungreased 1 quart souffle dish. Bake in a preheated 350 degrees oven for 30 to 35 minutes until golden brown. Makes about 4 servings.

"Lets pick up a pizza" can be heard in any part of the country, at any given moment, any time of year. The great American standby, pizza is hearty, inexpensive, convenient, and lends itself to a convivial atmosphere. Pizza owes its overwhelming popularity to these attributes and more.

There's nothing quite like a hot savory pizza, its golden brown crust steeped with Mozzarella cheese, tomatoes, spicy herbs and the many possibilities for tasty extras: onions, anchovies, mushrooms, sausages, and black olives.

Pizza has been a favorite in the U.S. since World War II when it was discovered by American G.I.'s. It originates in Naples, Italy, and has been a specialty in this exuberant, culinary capital as long ago as the sixteenth century. Pizza is perhaps the most famous example of Naples' humble foods, which are made exciting and glamorous by Neopolitan ingenuity and zest for life.

Now American ingenuity has added a new twist to pizza preparation with the introduction of the time-saving Super Pizza recipe

French Toast With Flavor Of Its Own

French toast with a difference can make a real difference at breakfast. It's kitchen-tested.

TOUCHDOWN TOAST

2 eggs
1 cup milk
1 1/2 tbsps. sugar
1/4 tsp. salt
1 tsp. ground cinnamon
1/4 tsp. ground nutmeg
8 slices of bread, crusts removed
2 cups wheat flakes, crushed with a rolling pin
2 ripe bananas
Beat eggs slightly; add milk, sugar, salt and spices. Mix thoroughly. Cut bread in half diagonally. Dip in egg-milk mixture and in Wheat flakes, coating both sides with crumbs. Cover the bottom of a skillet with oil and fry the bread pieces on both sides until brown. Drain on a paper towel and keep warm in oven until all are cooked. Add more oil as needed. Slice banana and put between two diagonal, cooked bread pieces to make a sandwich. Serve hot with syrup. Makes 8 servings.

for table-top cookery. This delicious recipe is appropriately named as all its mouth-watering ingredients are easily readied and baked without the use of an oven.

A new family-size grill can easily bake a full 15 inch pizza in just 10 to 12 minutes, and makes an ideal hot tray for serving individual slices right from its cooking surface. By simply turning the temperature control to "Warm" your pizza will retain that fresh baked flavor indefinitely so that family and guests can return for more. This Super Pizza recipe is a delightful appetizer or snack, that is quickly and easily prepared for after-the-game get-togethers, dinner parties, holiday festivities, drop-in guests, late show munchers and any gala gathering.

SUPER PIZZA

1 pkg. (13 3/4-oz.) hot roll mix
1 can (10 1/2-oz.) pizza sauce
1 cup grated Mozzarella cheese
1/4 cup grated Parmesan cheese
1 tsp. dried oregano
1 tsp. fennel seed
1/2 tsp. rosemary
Pour 10 tablespoons warm water in a medium bowl. Sprinkle yeast over water and stir until dissolved. Add 2 cups of flour mixture and

Ham Gravy

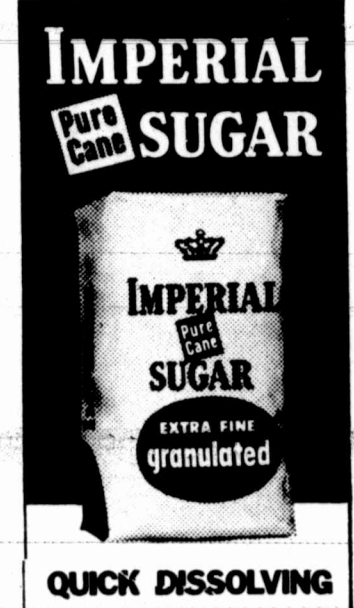

What kind of gravy goes with a hot grilled ham slice? Try a sour cream version made by combining one cup dairy sour cream, one tablespoon chopped parsley, one teaspoon minced onion and 1/4 teaspoon each dry mustard and sweet basil. Makes one cup gravy.

mix well with a fork. (Save remaining cup of flour mixture for another time.) Cover and set aside for 5 minutes. Knead lightly on a floured board until dough is no longer sticky. Lightly grease Super grill. Shape and pat dough evenly from center to sides of Super grill. Turn control to 375 degrees and bake 5 to 7 minutes until lightly browned.

Remove pizza to cutting board before cutting into pieces for serving. Return to Super grill with control set at 200 degrees to keep warm. Yield: 1 15-inch pizza.

Snacking Good

For calorie counters a fresh medium sized apple is an excellent in-between meal snack, averaging about 80 calories. Bulky pulp assuages hunger, fruit sugars and acids enhance digestion and energy.

Thirty years before we developed new Peak Toothpaste, you probably used our secret ingredient.

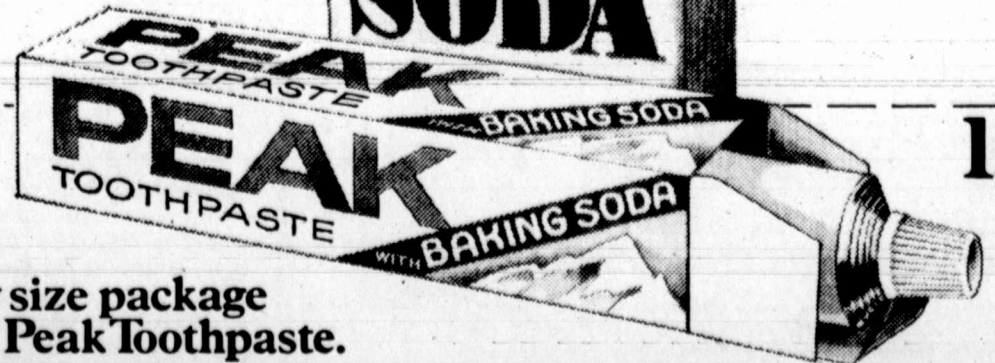

It's baking soda.

Baking soda: the natural cleanser and sweetener that people used to brush with, and that dentists still recommend. Both for cleaning teeth and as a soothing rinse for mouth and gums.

Be prepared. Peak is 97% natural ingredients, principally pure baking soda. It tastes pleasant, but different. Be

prepared. Peak leaves your whole mouth—not just teeth and breath, but even mouth tissues and gums—feeling different. Feeling naturally cleansed and sweetened. Naturally refreshed. Uncomplicate.

Try new Peak: the first modern toothpaste with the natural goodness of baking soda.

Rhetorical Nonsense

The Boston Herald American recently deplored the defeat in Congress of an \$800 million emergency mass transit bill, while at the same time \$2 billion was made available for emergency livestock loan guarantees.

This was, if you take the Herald American's view, a nefarious and villainous example of the power of a rural oriented House of Representatives.

"The House virtually guaranteed that millions of urban and suburban residents soon will be paying higher commutation fares," it said. (And, why shouldn't they — they are the ones using and benefitting from the service?) "The Herald American then noted that those hardest hit would be the poor people who most need mass transit. Then it added:

"In approving the \$2 billion loan guarantee program, the sectional House majority acted to protect the personal interest of a few cattlemen. It didn't matter that the action will keep meat prices inflated for all other Americans."

This is a rhetorical bunch of nonsense, not worthy even of a back bay Bostonian.

In the first place, the \$2 billion is a loan guarantee and in all likelihood will mean very little, if any, immediate or long-term expenditure of funds. It amounts to lending the faith and credit of the government to the emergency loans for livestock.

Far from stabilizing an inflated price for beef, it will have the effect of preventing runaway inflation due to critical shortages later on. Dumping livestock on the market now might drive down prices to producers, but not much since these already are at low ebb. (The Herald American should know that the price of beef quadruples from the time it leaves the ranch or feed lot until the retail customer puts it in the market basket and the producer isn't the villain.) This dumping, however, would mean prompt and devastating shortages that soon would cause meat prices to shoot up high and fast.

So if the Boston paper is really concerned about the poor people, it ought to be talking realistically more about food than about mass transit.

The People's Part

The Continuing Education division of Howard College is launching its new season of special-interest courses. Here is a wonderful opportunity for you to learn to do or learn better to do—things you always have wanted to know how to do. It may be anything from learning to weave a basket or paint a picture to conversing in Spanish to driving a tractor; from crocheting to figuring an income tax return.

And if the college hasn't already planned a course that meets your need or interests, call Theron Lee at the college and suggest a course. If half a dozen or so people share your interest and an instructor can be found, the show will get on the road.

There's no examinations, seldom even a text. This is the people's part of the college. Take advantage of it.

Why A Business Tax?

William F. Buckley, Jr.

Dr. Pierre Rinfret of New York, an economist and business consultant, is as sure of himself and of the workability of his prescriptions for inflation as Prof. John Kenneth Galbraith, the interesting differences between the two being that Dr. Rinfret is correct and his recommendations bracing, while Mr. Galbraith is incorrect, and his recommendations crotchety and sclerotic.

DR. RINFRET makes a few underlying observations. One of them is that at the current level, ours is the lowest rate of capital formation in the world. We are plowing 10 per cent of our gross national product back into our capital plant. By contrast, the Japanese are doing it with 22 per cent of theirs, and even poky old France is plowing back 17 to 20 per cent of its GNP. He points out that the United States has the lowest output per man hour of any industrial country in the world today. Many of our difficulties he traces to the sloth of hedonism and high expectations. But he also points out that "I know of no university in the United States that teaches free enterprise except perhaps the University of Chicago. Do our universities teach socialism? Oh, you better believe it."

are, for the most part, in the middle and upper income brackets, and one-third by the consumers. It is — once again — instructive that no one knows what the impact actually is of a tax designed primarily to be popular, in cultivation of the superstition that which is paid by General Motors to the government, or by the Chase Manhattan Bank, doesn't really count, and in any case is there more or less inexhaustibly.

AS REGARDS the argument over incidence, let us take the middle position between the experts and postulate that the corporation tax is now being paid one-half by shareholders, one-half by consumers. What would be the effect of eliminating such a tax?

As it stands, corporate business is paying 32 per cent of its profits in federal tax. In theory, a company that earned \$15 million a year (after taxes) would suddenly find itself about to earn over \$2 million. The value of the stock would, assuming the price-earnings ratio remained the same, rise in anticipation of the increased earnings. Let us, however, now assume, applying the 50-50 Rule, that competition forces half the bonanza to be passed along to the consumer in reduced prices. That would leave, net to the shareholder, a 15 per cent (actually 16 per cent) increase in the value of his stock.

THIS IS NOT the stuff of which social nightmares are made in sane societies — a reduction (varying with the cost to the supplier of the incremental unit) in the price of all products and services provided by corporations, even in the knowledge that stock averages will increase by 15 per cent. (It is amusing to extend the argument ad absurdum. If the price of all products and services were reduced by 100 per cent, would anyone object to a 1,000 per cent increase in the value of the stock market?) Over a five-month period in 1973 the market decreased by over 17 per cent. In the current market, a 15 per cent increase would be, while only a negligible boost back toward a healthy market, a substantial and invigorating step in the direction of recharging our depleted capital resources. Such oscillations are socially irrelevant, and certainly no reason for denying major reforms aimed at coherence, symmetry, and an end to hallucination.

WHAT DOES HE suggest? A ban on credit cards. A small income surtax, a reduction over the next three years in business tax from 50 per cent to 25 per cent followed by three years raising of business taxes to 75 per cent.

I regret Dr. Rinfret's temporizing on the matter of the business tax. It should be eliminated altogether, and permanently.

If Congress were to eliminate the business tax altogether, what would happen? It is typical that no one quite knows. Some experts maintain that the business tax is a wholly regressive tax, and that as a cost of doing business it is entirely passed along to the consumer, and that since the average consumer needs to spend a greater amount of his income than the average shareholder, the tax is regressive.

TWO RESEARCHERS in the Census Bureau, however, disagree. They conclude, after a complicated examination of the situation, that two-thirds of the tax is, in fact, shouldered by the shareholders, who

representative democracy.

WITH LITTLE or no effort to bring in other elements, Allende and the Marxists around him were moving toward totalitarianism.

I was in Mexico City a few days before the Chilean coup. The young men around President Luis Echeverria were well aware of how precarious Allende's position was. One of them put it this way:

"We know the terrible mistakes he is making. But it was an elected government, and we hope that it will survive the term for which Allende was elected."

WHETHER THE Allende government might have fallen by the constitutional process or whether, as was widely feared, he could concentrate his authority to frustrate any lawful change, is an unanswered question. That is irrelevant today since throughout the Americas the impression is now widespread that meddling by Washington precipitated the coup.

These bumbling colonels and generals set off the Greek Cypriot rebellion on Cyprus that ended with a massive Turkish invasion.

Behind Decision

Robert Novak

WASHINGTON — A nationally prominent Democratic Congressman was stunned last winter when his own financial backers threatened to boycott his fund-raising dinner because Sen. Edward M. Kennedy was to be its star attraction.

THE THREAT THREW the Congressman into consternation. He had secretly and personally arranged for Kennedy to fly to the Midwest at considerable trouble to appear at the fundraising dinner.

Caught in an insoluble dilemma, the Congressman, was taken off the hook by the tragic illness of the Senator's son, Teddy Jr. When doctors decided to amputate the boy's leg, the Senator himself cancelled the Congressman's fundraiser.

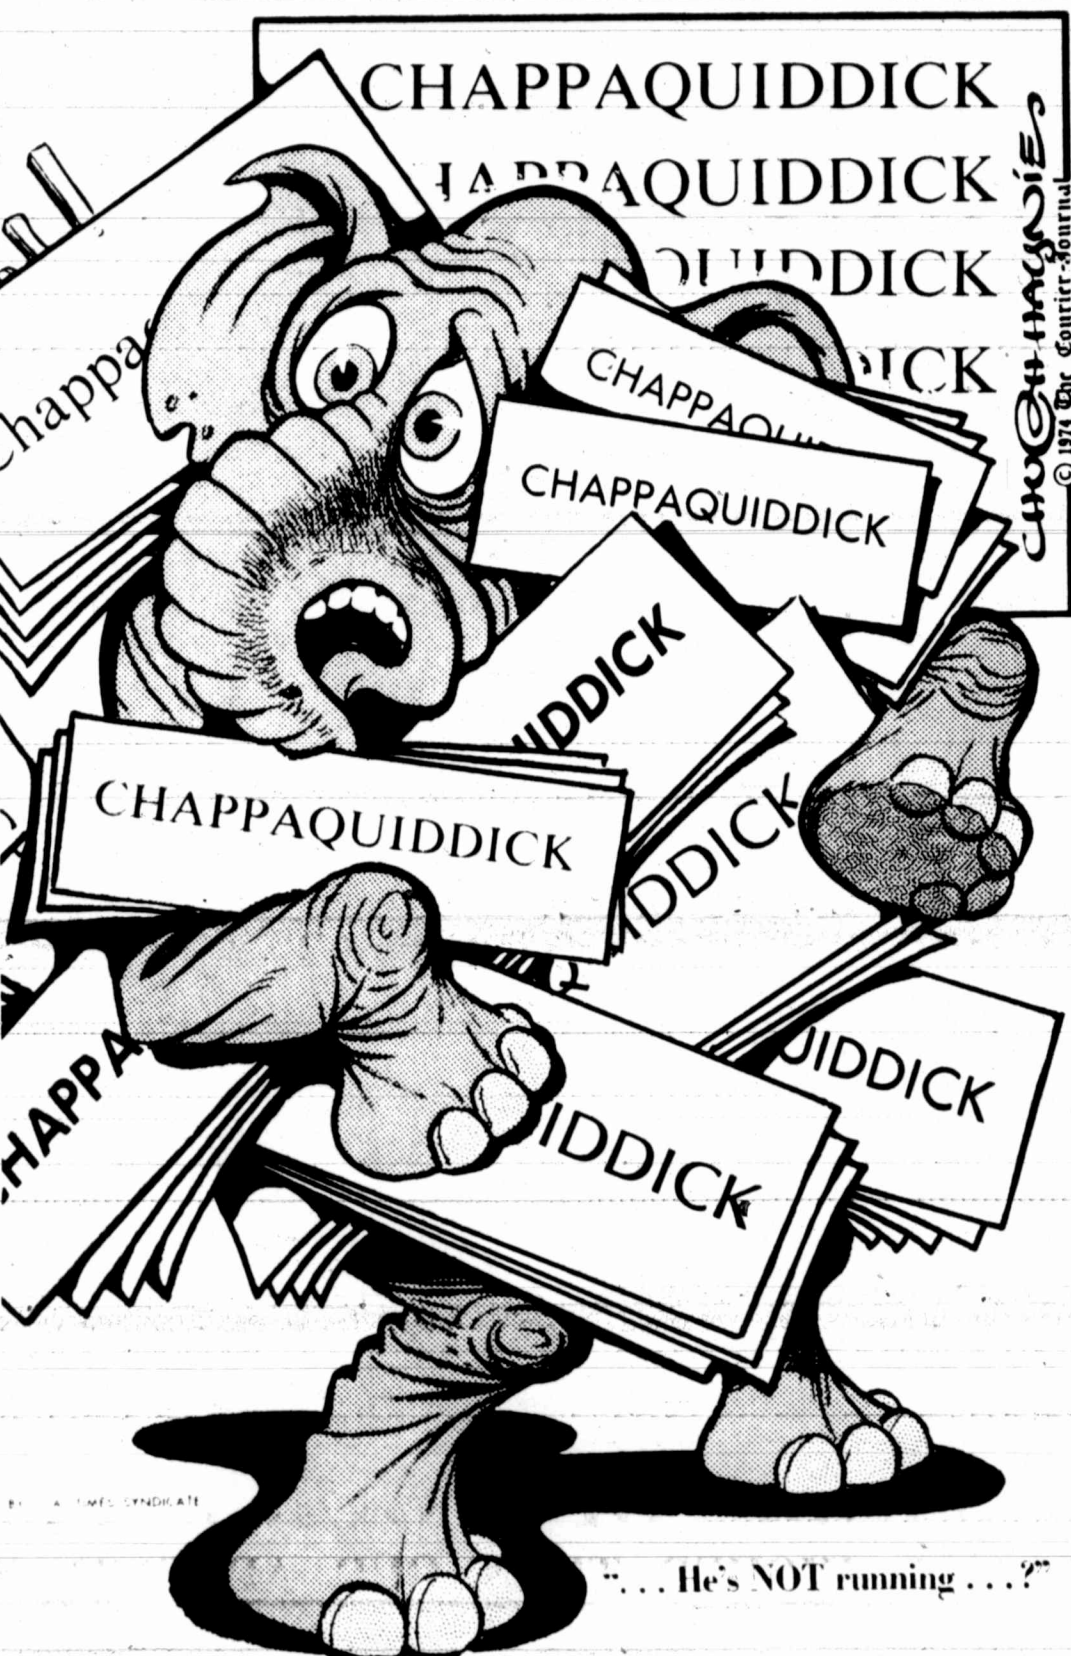

SUCH REACTION among Democratic politicians to Kennedy's coverup handling of the 1969 Chappaquiddick affair started rising with the unveiling of Richard Nixon's Watergate coverage disservice. At first, the reaction was subterranean, such as the revolt by the Congressman's resentful money men. What made it go public was the

stunning impact of Robert Sherrill's Chappaquiddick fifth anniversary article July 18 in the New York Times magazine.

BUT SHERRILL'S article was a product of Watergate. No matter how vastly different in scope and significance, the inescapable analogy between Watergate coverup and Chappaquiddick coverup subjected Democratic politicians to ever-harsher questions: if the country forced Nixon's resignation, how could it turn to Kennedy as the cure for political immorality?

Thus, the political signals were clear by the end of August. Although not knowing how to stop Kennedy for the 1976 nomination, few democratic politicians wanted him nominated.

BUT WHY DID TED Kennedy publicly choose not to run so early? For one reason, Sherrill's devastating article unleashed a horde of investigative reporters — including one investigation by the prestigious Boston Globe in the Senator's hometown. Mike Wallace's "60 Minutes" on CBS was tentatively planning a hard-hitting Chappaquiddick show.

Mobilize Guard

John Cuniff

WASHINGTON (AP) — The Pentagon is preparing to ask Congress for new power to mobilize up to 50,000 National Guardsmen and reservists without a declaration of national emergency.

Officials said the aim is to enable the government to call up reserve forces for help in such situations as last fall's urgent supply airlift to Israel. A handful of Air Force reservists took part in that airlift as volunteers.

ONE MORE SLIP Under present law, the President cannot muster guardsmen or reservists for any military purpose

unless either he or the Congress has declared a national emergency.

New legislation, now being drafted, would authorize the President or the secretary of defense to mobilize guard-reserve units totaling up to 50,000 men at any one time for a maximum of 90 days without formal proclamation of emergency.

William K. Brehm, the Pentagon's manpower chief, told a National Guard association meeting in Puerto Rico on Monday that defense officials would prefer to use volunteers "for smaller emergencies whenever and wherever possible."

But, Brehm said, "there can be instances when we will need selected units of the guard and reserve quickly to protect the national interest."

PRESENT LAW The new legislation is one more step in a growing Pentagon effort to mesh the more than 900,000 men in the Selected Reserve with the regular forces so they will be ready for early deployment and combat in a crisis.

Behind that effort is a belief that a combat-ready reserve can substitute for "maintaining big and costly regular forces."

Bed Wetting Problem

Dr. G. C. Thosteson

Dear Dr. Thosteson: Our daughter, 7 1/2, still wets the bed every night. She also has trouble during the day if she is not able to use the bathroom right away. Our family doctor says eventually she will outgrow it. My husband is getting fed up with it and wants to start punishing her.

We have tried everything, from getting her up every two hours to ignoring the whole thing. We have four other children who never had this problem. Can you help us, or is she spoiled?—Mrs. R.C.

Since she has trouble during the day, too, this isn't like the average case of bed-wetting. Whether she is spoiled, and uses this trouble as a means of "getting even with the world" is something I can't say on the basis of sparse information.

Whether you've really tried "everything else" may

be open to question — there are so many ways of handling this trouble, and you may find some further methods in my booklet on bed-wetting. If you'd like a copy, send 25 cents and a long, self-addressed and stamped envelope to me at the Big Spring Herald.

But in this girl's case, I would most certainly have a urologist examine her. There may be some physical condition, hitherto unsuspected, which could lead you to the solution both you and she need.

If there is no physical cause, then you'll have to start looking for some emotional involvement that needs attention.

But no, don't start punishing her. It will do no good and very likely will do substantial and lasting harm.

Dear Dr. Thosteson: I have a minor sinus problem. I've had it for about 14 years. My nose is always running or stopped up the year around. Can a doctor help?—R.S.

You have another problem—friends.

There is a great deal a doctor can do for you, either to find the cause of the sinus problem or to help you live with it. The year-round drainage and congestion suggest allergy. Pollens, pillows, pets are common causes that often can be corrected.

"You Can Stop Sinus Trouble!" is the title of Dr. Thosteson's newly revised booklet, explaining what sinus trouble really is and what can be done about it. For a copy write to him in care of the Big Spring Herald, enclosing a long, self-addressed, stamped envelope and 25 cents.

Wanted: Protection

Around The Rim

Marj Carpenter

Nationwide television was telling of the plight of the Florida landlubbers who were having trouble with not only the alligators, but also the Audubon Society. We of rattlesnake land extend you our heartfelt sympathy.

I'LL HAVE to admit that we are not very likely to have an alligator problem out here, unless the rainy season continues beyond two weeks, and we become a swamp.

The way it looked earlier in the week, after eight straight days of rain, I really wouldn't have been too surprised to see an alligator up on the sidewalk.

BUT THE ONE time I did see an alligator by the side of the road in West Texas, I almost drove through a barbed wire fence in my excitement. It was beside the highway between Big Spring and Andrews about four years ago and it looked like it had just crawled out of a dry pasture, under the fence and was eyeing the highway with its mouth wide open.

I screamed to a halt and went back and looked over that alligator. It really was one, but it was dead.

WELL, I drove into Andrews and called several coffee shops and barber shops to find out if anybody had heard any citizen talking about an alligator.

Finally one of the barbers told the tale. It seems that some local citizens were bringing the alligator back from Florida and they planned to put it in the Andrews city lake as a joke. It might have turned out to be a

terrible joke, but the alligator died en route.

And as they told it in the barber shop, the alligator began to stink. "There's nothing worse than a rotten alligator," the man was to have related. So they dumped him out by the highway.

I'M SURE the Audubon Society which objected to the Rattlesnake Roundup in West Texas because we were picking on the rattlesnake out here, and who objects to Florida residents asking for a hunting season for alligators since the gators are taking over, would also have objected to the inhuman treatment of that rotten alligator in the back of the pickup.

A teen-age girl was recently killed by an alligator in Florida, and the residents think they ought to be able to shoot the gators in return.

IMAGINE HAVING such radical thoughts as that. They're as bad as the West Texans who don't hesitate to kill a rattlesnake because they know the rattlesnake might kill a human the first chance he gets.

The way I look at it, I'm just on the wrong side. I can't seem to get on any protection list. I'm hunting a list for fat middle-aged, broke, widowed reporters, but I keep finding protection groups for rattlesnakes and alligators. Or even whooping cranes.

Now I can whoop it up and I've been known to snap like an alligator. I've even been called a snake in the grass. Surely I must have a protection agency somewhere.

Arms Merchant

Marquis Childs

WASHINGTON—Secretary of Defense James R. Schlesinger is the greatest arms merchant in history and his sales around the world have a momentum of their own that fix American policy. Chile is a striking example.

WITH SO MUCH blame heaped on the CIA for abetting the military coup that overthrew the government of Salvador Allende, the role of the Department of Defense deserves examination. The Chilean generals, who shot down Allende and his government, were getting large amounts of U.S. military aid at the very time they were plotting the overthrow.

THIS IS IN so-called credit sales which tend to be a handout for those countries favored by the defense department. Theoretically repayable, the amounts stay on the red ink side of the ledger indefinitely.

In addition to the hardware, the Chilean military got smaller amounts for what defense calls "overseas training." Both in calendar 1972 and 1973 the amount was \$900,000. In '73, 77 Chileans in uniform were trained in the United States and 313 in the training center this country maintains in the Panama Canal Zone.

SINCE THE armed services committees of Senate and House tend to be armchairs of the Defense Department, it is unlikely there will be any examination of what the money went for. But the American taxpayer is entitled to know whether the military hardware was used to kill the hundreds shot down in the coup and in the executions that followed.

Allende's minority government - he got 39 per cent of the vote - was doing about everything calculated to bring on a revolt in a country that more than any other in Latin America had a long tradition of

representative democracy.

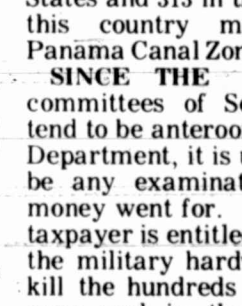

WITH LITTLE or no effort to bring in other elements, Allende and the Marxists around him were moving toward totalitarianism.

I was in Mexico City a few days before the Chilean coup. The young men around President Luis Echeverria were well aware of how precarious Allende's position was. One of them put it this way:

"We know the terrible mistakes he is making. But it was an elected government, and we hope that it will survive the term for which Allende was elected."

WHETHER THE Allende government might have fallen by the constitutional process or whether, as was widely feared, he could concentrate his authority to frustrate any lawful change, is an unanswered question. That is irrelevant today since throughout the Americas the impression is now widespread that meddling by Washington precipitated the coup.

These bumbling colonels and generals set off the Greek Cypriot rebellion on Cyprus that ended with a massive Turkish invasion.

My Answer

Billy Graham

I am strong in the faith. But I find myself at a loss when asked to defend Christianity to those who do not seem to have this gift of faith. Some of these evidently search for God in Eastern religions, and even in witchcraft, but reject the concept of the cross and the Gospel of Christ. Why are they not given this gift of faith too? M.D.M.

The Bible puts it plainly! It is not God's will that any should perish, but that all should come to repentance. It also says, "Many are called, but few are chosen." Matthew 20:16. God calls, but many do not respond, and unless they respond to His love they cannot be chosen. God will not force anyone to love and serve Him. We must be willing.

The Apostle Paul faced this problem with the Greeks, who were tied in to mythology and the philosophies. To them, the preaching of the cross was foolishness. It just didn't make sense that a just God could love those who had so flagrantly sinned against Him; that He gave His Son as an atonement for their sins. Their rational minds could not accept that. It wasn't that they weren't religious. But they could respond only to a religion which fit their rationalistic pattern of thought.

To the lost, the cross is meaningless (for their eyes are blinded), but to the believer of God's grace, it is the "power of God" — the only thing that makes sense, and saves from sin.

Dear Editor: As always, you have led the people of Big Spring in a great drive to raise the necessary funds for the Bible Class at the Big Spring High School.

The Howard County ministerial fellowship would like to thank you and your staff for this tremendous effort and unselfish generosity you have exhibited.

And — thank you and the Citizens of Big Spring. May God bless each of you.

Sincerely yours,
C. R. Perry, Secretary
Howard County Ministerial Fellowship.

A Devotion For Today . . .

"The Lord shall preserve thy going out and thy coming in from this day forth, and even for evermore." Psalm 121:8

PRAYER: Father, we thank You that as the passing of time brings changes to our lives, our faith can be assured. We are grateful that Your strength is ever near, Your grace ever present. Amen.

FRESH VEGETABLES are blended into a cocktail for those who like the flavor of garden tomatoes, cucumbers, onions. Make it icy cold and pop a tassel of celery.

Blend Vegetables For Tangy Cocktail

Occasionally vegetables will be in over-supply. Tomatoes are a good example. An over-supply of red-ripe tomatoes can easily be blended with versatile bottled reconstituted lemon juice, homegrown cucumbers, green onions and spices to make a vitamin-packed beverage. Lemon juice has a way of making the best of nature better.

Here's how to drink your vegetables for a luncheon or dinner first course or a between-meal thirst quencher:

FRESH TOMATO COCKTAIL
2 cups peeled, seeded and diced tomatoes
1/2 cup peeled, seeded and diced cucumber
2 tbsps. lemon juice
1 tsp. chopped green onion with top
2 tps horseradish
1 tsp. sugar
1 tsp. Worcestershire sauce
1/2 tsp. salt
Dash hot pepper sauce
Red food coloring, optional
In blender container, combine ingredients. If desired, add a drop or two of food coloring. Blend until smooth. Serve over ice, garnished with a stalk of celery. Makes 2-1/2 cups or five 4-oz. servings.

Beef Turnovers For Fall Party

This recipe for beef turnovers is easy and makes a tasty hors d'oeuvre that can be prepared beforehand...

BEEF TURNOVERS
1 lb. ground beef
2 cup finely chopped onion
1 envelope beef flavor mushroom mix
1 cup grated (medium fine) cheddar cheese
1/4 cup sliced pimiento-stuffed green olives
3 packages (each 8 oz.) refrigerated crescent dinner rolls
In a large skillet mix together the beef, onion and mushroom mix; over moderate heat, crumble with a fork and brown. Off heat stir in cheese and olives. Separate rolls according to package directions. Place a spoonful of the meat mixture in center of each triangle; fold over and pinch together edges of dough. Bake on ungreased cookie sheet until golden brown - 15 minutes. Serve hot. Makes 24.

Ready Casseroles Good Takealongs

The special sweet-tart flavor of apples may be added to "packable casseroles" for a real taste treat. The prepared dishes make a great takealong on picnics, campouts or tailgate safaris.

Cook the dish fully at home or take it to the lake cabin and finish cooking it there.

CASSEROLE, COUNTRY STYLE
3 apples
2 16-oz. cans baked beans
2 cans kidney beans, drained (about 1 lb. each)
3 cups diced cooked ham
1/2 tsp. ground cloves
1 tbsps. dry mustard
1/2 tsp. salt
1-3 cup molasses
1/4 cup grated onion
Pare and core apples; cut into large chunks. Combine with beans and ham in 3-quart casserole, and mix well. Combine all remaining ingredients and mix thoroughly with beans and apples. Cover and bake at 350 degrees F. for 30 minutes; uncover and bake 30 minutes longer, or until apples test done. Makes 10-12 servings.

HAM'N APPLE CASSEROLE
3 cups cooked ham, ground
1/2 tsp. cloves
1/2 tsp. dry mustard
1 tbsps. onion, grated
1 egg, beaten
1/2 cup milk
1 cup bread crumbs
1/4 cup brown sugar (firmly

Coffee Fetes Mrs. Hays

Mrs. Charles Hays, wife of the president of Howard College, was honored Saturday morning at a coffee hosted by the Faculty Ma'ams. The affair was held in the parlor at the Student Union Building.

Guests were greeted by Mrs. Larry Key and Ms. Wanda Reese who introduced them to the honoree, who was given a white orchid corsage. Arrangements were made by Ms. Reese and Ms. Ken Sprinkle.

Autumn colors were used in decor. The refreshment table was covered with a gold cloth, and the centerpiece was an arrangement of dried brown leaves, gold and orange flowers and gold candles. Punch was served from a crystal bowl.

The Faculty Ma'ams will meet Oct. 22, 4:30 p.m., in the home of Mrs. Harlan Huibregtse, 514 Scott.

ABWA Hears Talk By Webb Officer

Lt. Andy Wilson, Webb AFB, was guest speaker for Spring City Chapter, American Business Women's Association, Tuesday at La Posada.

The topic for Lt. Wilson's talk was "The American Flag." He illustrated each facet of the flag and the representation of each color. "White for purity, red for bloodshed, and blue for the covenant between God and man."

Mrs. Terry Wegman and Ms. Mary Owen were installed as new members during the business session at which Mrs. Jimmy Jennings presided.

New officers were elected and installed. They are Mrs. James Cox, president; Mrs. Ruth Harper, vice president; Mrs. William English, recording secretary; Ms. Ollene McShane, corresponding secretary; and Mrs. Wayne Wallace, treasurer.

Mrs. Jennings presented charms to past officers and chairmen, and the jeweled past president's pin was given to Mrs. Jennings by Ms. Harper.

Mrs. Charles Pearson reminded members that the prize for a fund-raising project will be awarded Oct. 4. All materials and funds should be given to Mrs. Pearson this week.

Health Spa Instructors Give Advice

A demonstration and talk on physical fitness was given for Xi Mu Exemplar Chapter, Beta Sigma Phi, at a Tuesday meeting in the home of Mrs. Carroll Cannon, 2204 Main.

Ms. Nancy Dickens and Ms. Cathy Vanzandt, representatives of the Magic Mirror gave the program.

Ms. Dickens told the group that exercise cannot be narrowly classified. She named sports, calisthenics, dancing, yoga and aerobics as types. She emphasized that all muscles must work.

"Superb physical condition does not come in height or weight," said the speaker. "Health and beauty go hand in hand. One's personal mood reflects the physical appearance and we must accept ourselves as we are and make the best of what we have. Age and weight does not govern fitness."

Announcement was made of the district convention of Beta Sigma Phi in Midland, Oct. 11-13. Reservations should be made by Sept. 28 with Mrs. Gerald Wooten, 267-7741.

The Oct. 8 meeting will be in the home of Mrs. Lamar Green, Oil Mill Road. Mrs. Floyd Mays will bring a program on the Howard County Historical Survey Committee.

An invitation was issued to the Republicans' dinner-dance Friday evening at Dora Roberts community center. Mrs. Green has tickets.

Rainbow Girls Hold Invitation

Sabrina Thomas was initiated into the Order of Rainbow for Girls at the Tuesday meeting in the Masonic Hall.

Rhonda Riley presided and recognized Jackie White, past grand representative from New Mexico to Nebraska; Sharon Bryant, past grand representative from Oklahoma to Massachusetts; and Tina Johnston, grand representative from Florida to Texas. Miss White and Miss Bryant recently moved to Big Spring.

The girls are continuing to operate concessions at the football stadium as well as collecting used hosiery for therapy projects at Big Spring State Hospital. Those having hose to donate may call Mrs. Paschall Odum, 263-4632.

Revealing Day Held By Club

Revealing Day was held by Pioneer Sewing Club Tuesday in the home of Mrs. H. H. Story. Secret pals were revealed and gifts exchanged, after which members did various types of handwork. The Oct. 1 meeting will be at the ranch home of Mrs. C. V. Wash.

IN AUDIENCE — Mrs. Happy Rockefeller sits in the audience of the Senate Rules Committee hearings in Washington Monday. Her husband, Nelson, is testifying before the panel on his nomination to be vice president.

Two-Timing Husband Gets Caught In Lie

DEAR ABBY: Yesterday the man across the street came up to me while I was outside and said, "Where is your old man?"

I said, "If you mean my husband, he is at work. Why do you want to know?"

Then he said, "Because you husband has been calling up my old lady and trying to get her to go out with him."

I didn't know what to say next, so I said, "Well, he'll be home in about an hour. Why don't you come back and talk to him?" Then I went in the house and cried.

When my husband came home, I told him what happened. He said it was all a big lie, but he looked nervous and took off right away saying he'd be right back. He called me up later to say he wouldn't be home for supper.

Meanwhile, the man from across the street came over again, asking for my husband. He said my husband had called up his wife again and asked her say she must have been mistaken—that the guy who was trying to get her to go out with him was somebody else.

I don't know who to believe, Abby. If my husband had stayed home and faced his neighbor like a man, I would have had more faith in him. What do you think?

HURT

DEAR HURT: I think your husband has a lot of explaining to do.

DEAR ABBY: I recently married a lovely woman. She has two daughters, 15 and 17. They are fine girls, but they go around the house half-nude. They stand around in the kitchen in their shorty nightgowns with nothing on underneath, and often run through the house with nothing on top and very little below.

I asked the girls to please keep themselves covered, for the sake of modesty, and they looked at me like I was out of my mind.

My wife says there is nothing shameful about the body. I am now wondering if maybe I am wrong.

I can't help thinking that those young ladies should change their ways instead of me changing my ideas.

OLD GOAT

DEAR GOAT: You're not wrong. They are.

DEAR ABBY: That letter signed "stuck with the kids" could have been written by me. Fresh out of college, I got a dream job. Then marriage, and boom! Two kids, one right after the other. (Both accidents.) I resented them terribly for robbing me of my freedom. Then I felt guilty because I couldn't "love" them like a mother should.

I never hurt my kids physically, but emotionally I was destroying them and myself.

Chairmen Confirmed At HD Club

Chairmen were confirmed by Mrs. J. Alden Ryan, president of Center Point Home Demonstration Club, during Tuesday's meeting in the home of Mrs. C. R. Orr.

Heading the committees this year are Mrs. C.K. Orr, safety; Mrs. J.R. Petty, citizenship; Mrs. Jack Smith, health; Mrs. N.R. Garrett, culture; Mrs. Gereta Kerwedsky, recreation; Mrs. Ryan, 4-H; Mrs. Bob Wren, yearbook; Mrs. Charles Lindley, family life; Mrs. L.J. Davidson, finance; and Mrs. James Petty, personal service. Mrs. Fannie Mae Eakers is parliamentary.

Mrs. Wren announced that club members will participate in a sack lunch and bingo party Friday at the Senior Citizens Center. A quilting session is planned at the center at 2 p.m., Oct. 30.

Also, Mrs. Wren, along with Mrs. Petty, reported on the state meeting they attended last week in Amarillo.

Mrs. Eakers, who recently toured the Holy Land, discussed the trip and showed souvenirs.

The door prize was won by Mrs. Garrett.

The club's next meeting will be at 2 p.m., Oct. 8 when the women will attend a micro-wave oven demonstration at the Texas Electric Reddy Room.

Convention Delegates Give Report

Reports on the Texas Home Demonstration Association state convention were given by Mrs. C. A. Smauley and Mrs. Lonnie Griffin at a Fairview HD Club meeting Tuesday evening in the home of Mrs. Ethel Simmons. Mrs. Clinton Light is the new, state president.

The local meeting was presided over by Mrs. Smauley, president, who also won the door prize. Mrs. Frank Wilson reported on the club's work at the food concession during the county fair.

The next club meeting will be Oct. 1, hosted by Mrs. Griffin, and the club will host the HD Council meeting Oct. 1. Members were invited to attend a micro-wave oven demonstration at 2 p.m., Oct. 15 at Texas Electric Reddy Room.

For Breakfast

For a tastier breakfast, grate one-half cup of apple into your next bowl of pancake or waffle mix. The tart and crisp apple adds texture and tang of freshness to the smooth batter.

BSP Names 'Sweetheart'

Mrs. Albert Carlile was elected Valentine Sweetheart of Alpha Kappa Omicron Chapter, Beta Sigma Phi, Tuesday night at the home of Mrs. Allen Carlile, 914 E. 6th.

Prior to the meeting Mrs. Clay LaRochelle, vice president, conducted a pledge training class.

Mrs. Gary Huckaby presided, and Mrs. Jimmie Pace returned to membership following a leave of absence.

Mrs. LaRochelle reminded officers and committee chairmen to be prepared to review duties of their offices at the model meeting scheduled Oct. 8 for prospective members.

Mrs. Dan Muers, social chairman, announced a Hobo Party for members and their husbands Oct. 25, 7:30 p.m., at the LaRochelle home, 600 W. 16th.

Mrs. Frank Clark announced Sept. 28 as the date for serving refreshments at the VA Hospital. Mrs. LaRochelle and Mrs. Pace will serve.

Members were told to bring clothing and household goods to aid a family that lost its belongings in a fire.

Mrs. Huckaby brought the study from the book, "Speech," and members discussed the poem, "Take My Hand."

The next meeting is Oct. 8 at the home of Mrs. Clark, 702 Settles.

An executive board meeting was held following the meeting.

Guests Visit In Coahoma

Weekend guests of Mr. and Mrs. Rufus Parker, Coahoma, were Mrs. Sherron Taylor and Ross Taylor, Altus, Okla.; Mrs. Peggy Mrphy, Granite, Okla.; Mr. and Mrs. Raybourn Foster, Venson; Mr. and Mrs. Andy Graham and Trampas Graham, Anson; and Miss Barbara Parrish. Trampas is spending a week with his grandparents.

Woman Will Head University Of Texas

AUSTIN, Tex. (AP) — The first woman president of a major cbed university switched her studies from English literature to science because she married a chemist and found most of their friends were scientists.

Through six years of shop talk I became fascinated with their work," said Dr. Lorene L. Rogers, named today as acting president of the University of Texas at Austin, which has about 40,000 students.

She succeeds Dr. Stephen Spurr who was dismissed as president Tuesday by UT system Chancellor Charles LeMaistre.

A biochemist, Dr. Rogers was vice president of UT-Austin from September 1971 to August 1974, when she went on a leave of absence. She has been serving as chairman of the Graduate Record Examinations Board, which sets general policy for the GRE national program for graduate school selection and graduate school foreign language tests.

This July she was keynote speaker at Tehran, Iran, at an international conference on higher education.

Dr. Rogers 60, was born in the little North Texas town of Prosper north of Dallas and graduated from nearby North Texas State University with a degree in English literature in 1934.

Her transition from English literature to science began with her marriage a few years later. Her late husband, Burl Gordon Rogers, was a chemist and most of their friends scientists.

After her husband's death she came to UT-Austin in 1942 and decided to try her hand at chemistry. At the time she had not even taken the freshman chemistry course. Five years later she had a master of arts degree in organic chemistry and had completed doctor of philosophy degree requirements in biochemistry.

She was professor of chemistry at Sam Houston State College in 1947-49 before returning to UT-Austin where she taught both chemistry and nutrition.

Her research interests include the biochemistry of mental retardation and the role of nutritional deficiencies and drugs in the occurrence of congenital malformations.

LOSE WEIGHT THIS WEEK

Odrinex can help you become the trim slim person you want to be. Odrinex is a tiny tablet and easily swallowed. Safe and effective when taken as directed. No starving. No special exercise. Get rid of excess fat and live longer. Odrinex has been used successfully by thousands all over the country for 15 years. Odrinex Plan is available in regular and large economy size. You must lose up to 10% of your weight to be refunded by your druggist. No questions asked. Accept no substitutes. Sold with this guarantee by:

Webb's 2 Legal Offices Open

Two separate legal offices now operate on Webb AFB and at most places throughout the Air Force. Defense attorneys in each office has a separate chain of command.

The change, which went into effect last July, insures that any Air Force member accused of a crime will get independent advice and representation. This will eliminate the possibility and the appearance of command influence, according to Capt. Donald L. Schwendiman, attorney in the new USAF Trial Judiciary Area Defense Counsel office.

Here's how the new system works. The office of the Staff Judge Advocate, headed by Capt. V. P. Stouck, will continue to provide all legal services to base personnel which it has provided in the past except defending persons charged with military offenses and persons against whom discharge actions are brought.

For most legal problems personnel should still contact the judge advocate's office, located in building 1106. The new office, headed by Capt. Schwendiman is a detachment of Headquarters Command, United States Air Force. It is responsible directly to the Appellate Defense Division of the Department of the Judge Advocate General in Washington, D. C. Another defense attorney at Headquarters USAF therefore, is the immediate supervisor and rating official for the local defense counsel.

Captain Schwendiman is assisted by SSgt. David C. Grether, Area Defense Administrator. This office is in building 603, just down the hall from the base education office.

The job of the Area Defense Counsel is to defend military members in court-martial, non-judicial punishment actions (Article 15s) and administrative actions (such as discharge boards, flying evaluation boards, etc.) In addition he is available to provide advice and assistance to persons being questioned in regard to an offense under investigation or persons who believe they are going to be charged with an offense in the future.

Creation of the Area Defense Counsel office came about as a result of a task force study on justice in the military. One of the recommendations made by the task force was that defense attorneys should not be responsible to the base commander at each installation since the base commander is normally the authority who refers charges against an accused to trial by court-martial.

CLOT IN LUNG Nixon Reported Resting Quietly

LONG BEACH, Calif. (AP) — Richard M. Nixon rested quietly in a hospital today and the former president's doctor says he thinks the dime-sized blood clot in his right lung can be successfully treated.

A hospital spokesman revealed the clot had passed through Nixon's heart before lodging in the lung. If it had blocked a heart artery, it could have been fatal.

TAKES TIME
Nixon's physician, Dr. John C. Lungren, said on Wednesday that the clot was a "potentially dangerous situation but not critical at this time." There is a very good chance of recovery, but it will take some time.

Nixon is expected to be hospitalized through next week, missing the Tuesday start of the Watergate cover-up trial in Washington for which he has been subpoenaed as a witness. Lungren said Nixon took news of the gelatin-like clot "as he normally takes anything else — it's another problem." But the doctor added, "He has a hell of a will to live."

Such a clot — called an embolus — kills lung tissue around it. The size of the dead lung area in Nixon's case was not disclosed.

Several specialists not attending Nixon were asked their opinion on the severity of the clot.

"It's not life-threatening," Dr. Richard Lescoe, past president of the Los Angeles Lung Association, said of Nixon's clot.

A knowledgeable Washington, D.C., doctor warned, however, that "even though this clot doesn't seem to be severe, it doesn't mean it couldn't get worse. If a chunk of another clot broke off and got to the lungs ... that might be it."

The clot is being treated with anticoagulants in hope of dissolving it and preventing new clots from forming.

The clot reached Nixon's lung after breaking off a larger clot in his leg, where it had been created by persistent phlebitis, an inflammation of the vein, Lungren said. He said the greatest danger is that another clot might break off and move to a lung.

MORTALITY RATE
The mortality rate from pulmonary embolism varies greatly, according to medical sources. Depending on the primary cause, it can be anywhere from 1 per cent to 80 per cent fatal, they said.

Lungren said stress and fatigue suffered by Nixon since he resigned the presidency "may be a factor in Nixon's physical problems."

But he suggested other causes are possible — simple inactivity or hypercoagulability of the blood (a strong tendency to clot) or even malignancy, including leukemia. He said tests were being performed.

Mary Prentice, a hospital spokeswoman, said the clot was small enough to easily pass through one of the two main pulmonary arteries that connect the heart to the lungs. If it had been large enough and lodged in the artery, death could have occurred in a few minutes or a few hours.

Nixon has had trouble with his leg and phlebitis for many years, and the lung clot indicates the circulatory ailment will continue to plague him. "He's going to be bothered with this the rest of his life," one New York lung specialist said.

The 61-year-old Nixon has no chest pain from the clot, Lungren said. Nixon entered Memorial Hospital Medical Center of Long Beach on Monday for a stay then

expected to last seven days.

'KILL NIXON'
Nixon's wife, Pat, has been visiting her husband daily, driving to the hospital from their seaside villa in San Clemente, 50 miles south of Long Beach, a hospital official said.

But several callers made threats, such as "Kill Nixon," "Let him die" and "I'm going to get him," hospital officials said. One told police on Monday he had planted a bomb in the hospital.

Secret Service agents refused comment on the threats. Nixon is sealed off on the sixth floor of the

hospital's west wing. Nixon had been subpoenaed by defendant John D. Ehrlichman, his former domestic affairs adviser, and special prosecutor Leon Jaworski in the Watergate cover-up trial.

Jaworski has asked U.S. District Judge John J. Sirica to send an independent medical team to determine whether Nixon can testify or give a deposition. Sirica has not yet ruled on the request.

The clot was discovered on Tuesday. Lungren said he did not know when the clot broke off.

Dr., Mrs. Zinn Are Retiring

Dr. and Mrs. H. J. Zinn, both members of the Big Spring Veteran's Administration Hospital Staff since 1950, have retired from their positions at the hospital and were given a retirement party Tuesday afternoon, where they each were presented 30 year service pin awards.

Dr. Houston Jackson Zinn, M.D. has been a member of the staff since its opening in 1950, and has been chief of Surgery since 1954.

Mrs. Beatrice Zinn has also been with the hospital since its opening in 1950 and has served as physical therapist and Physical Medicine Rehabilitation Coordinator.

After their retirement, the couple plans to remain in Big Spring and pursue their favorite pastimes, such as golf and travel.

Dr. Zinn is a native of Stotts City, Mo. and received his BA, BSM, and MA degrees from the University of Missouri in Columbia, Mo. He received his MD from Harvard Medical School in Boston, Mass.

He served his internship at the Beth Israel Hospital in Boston.

He is a member of the American board of Surgery, and Fellow of American College of Surgeons and is Associate Professor of Surgery at Texas Tech Medical School.

Mrs. Zinn is a native of Baird, Tex., and received her BA degree from Daniel Baker in Brownwood. She received her MA in physical education from the University of Texas, Austin. She also received graduate training in Physical Therapy at Mayo Clinic Physical Therapy school.

She is a member of National Registry of Physical Therapists.

Dr. Thomas Walton III is

the new Chief of Surgery at the hospital while Rod G. Tank is the new physical therapist.

He is a member of the American board of Surgery, and Fellow of American College of Surgeons and is Associate Professor of Surgery at Texas Tech Medical School.

Rise In Toy Sales Likely

NEW YORK (AP) — Sales of model electric trains and accessories should reach a new high of \$230 million at retail in 1974, and the volume of home racing sets and accessories is expected to hit \$120 million.

This forecast was made here during the annual American Toy Fair by Richard E. Grey, president of a toy company.

Grey said 1974 retail volume will represent almost a 50 per cent increase over the estimated \$160 million for model trains in 1973, and a 35 per cent rise over the \$90 million in 1973 for racing equipment.

Teen Arrested On Pot Count

Guy Talbot, special investigator for the district attorney, and his reserve officer, Richard Doane, arrested a 16-year-old Big Spring boy for possession of almost one pound of marijuana Tuesday night.

The youth was being held pending a detention hearing in juvenile court.

The youth was stopped at College Park Shopping Center, and the marijuana found in the front of the car, Talbot said.

Ready Secret Weapon For Gobbler Gallop

CUERO, Tex. (AP) — Supporters of this town's entry in a Texas-Minnesota turkey race have a secret weapon for the final heat on Sunday which begins with the Texas entry almost a full minute behind.

For the second year in a row, a turkey from Worthington, Minn., is racing a feathered counterpart from Cuero in what is known as the Great Gobbler Gallop.

Apparently, the turkey racing is as much for the townfolk's pride as it is for the birds.

Paycheck, the Worthington entry, completed the first 150-yard heat two weeks ago in Worthington in 57.3 seconds while Ruby Begonia II of Cuero

crossed the finish line 59 seconds later.

Ruby first stopped to munch on some popcorn in the street and then, according to the bird's zealous handlers from Cuero, was blocked from the finish line by some Worthington kids who were chasing after Paycheck.

This year's winner will be the one which has the best overall time, including not only the Worthington performance but Sunday's heat in Cuero, where like Worthington the growing of turkeys is big business.

Is 59 seconds too big of a margin for Ruby Begonia to make up?

RATTLERS

"Hardly," shoots back Ken Long, publisher of the Cuero Record.

Long revealed this week "we plan to make it up in fine order" with the use of a secret weapon.

Pressed for a description, he said the weapon is a fishing pole with 10 or 12 rattlesnakes rattles taped to it.

"Supposedly, turkeys are afraid of rattlers. Hopefully, that (the weapon) is about as realistic as you can get," said Long.

He said also "it might be worthwhile" to sweep Gonzalez Street in downtown Cuero where the race is to be held for any stray bits of popcorn.

Ruby Begonia II is no kin to Ruby Begonia, the Cuero entry who won last year's gallop. And, in reality, Ruby is a tom, or male turkey, leading Cuero's handlers to tag her also as "the boy named Sue."

NEW CHEVROLETS ON DISPLAY HERE — New Chevrolet like the Monte Carlo above will be displayed at Pollard Chevrolet Co., 1600 E. Third Street, Friday and Saturday. The Monte Carlo has a newly designed grid pattern grille up front and new wrap-around

tail lights. It is offered as a coupe or Landau coupe like the one above. Highlights of the new Camaro are a wrap-around rear window and more luxurious interiors. The Camaro lineup includes the regular sport coupe and the Type LT which features a leather-trimmed seat option.

Quarterly Test Is Upcoming

The quarterly test of the Big Spring siren system will be conducted at 12 noon Saturday.

The test will consist of one minute steady tone, followed by one minute of silence, and will conclude with one minute wavering tone.

Other than those observing the siren operations, no action will be required on the part of the Civil Defense personnel and Webb director, W.D. Berry, director, reminded the public that this simply is a periodic test.

Demand Will Decide

LUBBOCK — "Cotton prices are waiting on demand," according to Donald A. Johnson, Executive Vice President of Plains Cotton Growers, Inc., Lubbock-based cotton producer organization spanning 25 High Plains counties.

Johnson went on to say that the demand situation will also decide the success or failure of the "holding action" that is going on in early harvesting sections of the Belt or that may develop in other areas. He points out that changes in the projected level of U.S. production in 1974 have failed to exercise any great influence on prices.

The August estimate of U.S. production was only 12.7 million bales, compared to earlier expectations of 13.4 million or more. However this drop of 700,000 bales in production prospects failed to shore up prices.

The USDA estimate as of Sept. 1 came back up to 13.2 million bales, but again the market took little notice and prices made no rapid move. Since Sept. 1, crop conditions on the Plains have deteriorated considerably. Most in the industry are now convinced that the 25-county PCG area can't expect to reach the 1,555,000 bales estimated by the PCG-Lubbock Cotton Exchange committee, much less the 1,700,000 bales used for this area by USDA in its Sept. 1 estimate.

New Residents Must Register

Citizens new to Howard County and those who will be 18 years of age Nov. 5, the day of the general election, must register by 5 p.m. Oct. 4.

Mrs. Zirah L. Bednar, county tax collector, also reminds these who have moved within the county to contact her office until five days before Nov. 5 in order to protect their right to vote.

Crawley Named B-C Chairman

LAMESA—G. R. (Richard) Crawley has been named chairman of the Lamesa-Dawson County Bi-Centennial Commission.

The appointment was made by Chamber of Commerce President Fred Barrington.

According to Crawley, "I am honored to serve in this capacity." He added that efforts to formulate plans for Dawson County's part in the national Bi-Centennial celebration will begin immediately.

Several Items To Be Studied

Directors of the Colorado River Municipal Water District will meet here 10 a.m. Oct. 4 to consider the 1975 operating budget.

Costs, particularly in electric power, may force budget estimates upward.

The board also may get a look at plans for a new headquarters building and set dates for receiving bids.

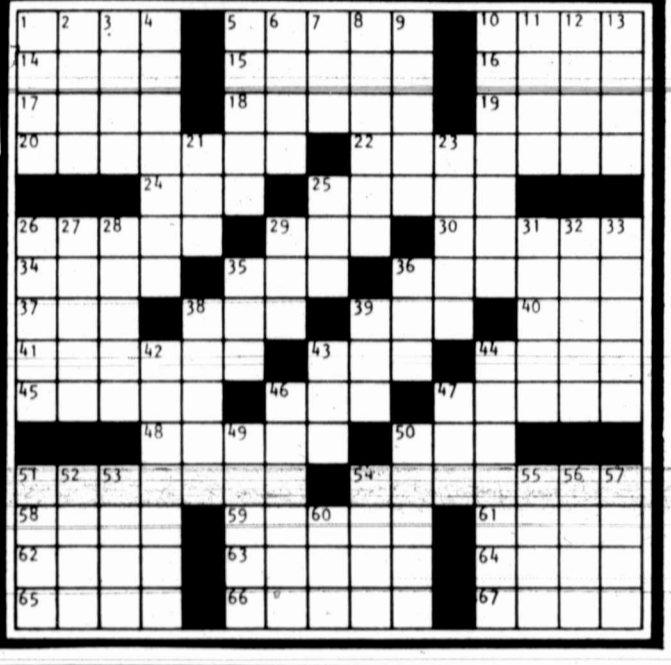

Baltimore Man To Be Speaker

SNYDER — William D. Shaefer, mayor of the city of Baltimore, Md., will speak at the Western Texas College Forum on National Affairs at 7 p.m., Oct. 7.

Tickets to the buffet sell for \$4. Director of the forum will be Joe Reeves, assistant professor of psychology at Western Texas College.

LESLIE ROBERTS

SAN ANTONIO — Airman Leslie H. Roberts, son of Mrs. Iris R. Reynolds of 1707 E. 15th, Big Spring, Tex., has been assigned to Sheppard AFB, Tex., as a fuel specialist after completing Air Force basic training. During his six weeks at Lackland AFB, Tex., he studied the Air Force mission, organization and customs and received special instruction in human relations. Airman Roberts attended Osawatimie (Kan.) High School. His wife, Kathryn, is the daughter of Mr. and Mrs. Darrel D. Chamberlin of 2201 S. 47th, Kansas City, Kan.

FT. POLK, — (AHTNC) Aug. 22—Army Private Tommy C. Brown, 18, son of Mrs. Lottie B. Woodruff, 1022 North Crest, Big Spring, Tex., completed nine weeks of advanced individual training at the U. S. Army Infantry Training Center, Ft. Polk, La. He received general training as a light weapons infantry man and as a mortar and recoilless rifle crewman, in addition to specialized weapons instruction.

He also was taught the proper use of high explosives and the placement, detection and disarming of mines. Teamwork was emphasized while he learned to work as a member of a rifle squad, mortar squad or direct fire section. Each team member completed the

training well qualified to perform other jobs in case of casualties. His wife, Vernetha, lives at 503 S. Saint Theresa, Stanton.

FT. POLK, LA. — Private Rickey H. Parks, 20, son of Mrs. W. H. Goff, 4627 Dove Creek Way, Dallas, completed nine weeks of advanced individual training at the U. S. Army Infantry Training Center, Ft. Polk, La.

He received general training as a light weapons infantry man and as a mortar and recoilless rifle

crewman, in addition to specialized weapons instruction. He also was taught the proper use of high explosives and the placement, detection and disarming of mines.

Teamwork was emphasized while he learned to work as a member of a rifle squad, mortar squad or direct fire section. Each team member completed the training well qualified to perform other jobs in case of casualties. Pvt. Parks' father, Burl H. Parks, lives at 117 E. 7th, Colorado City.

Integration Does Not Work Proof?

PASADENA, Calif. (AP) — During four years of being bused under federal court order, Pasadena school children have done progressively worse in math and reading, keeping alive a bitter controversy over forced integration.

"The Pasadena experience proves that forced integration does not work," says Henry Marcheschi, president of the school board. "It is a gross failure educationally."

"It has worked well for children generally," says Supt. Ramon Cortines, who is frequently at odds with the conservative-dominated school board. "But there's still some apprehension and fear on the part of parents."

Busing is a sensitive issue in this Los Angeles suburb of 113,800 and home of the Rose Bowl. People generally don't talk about it — except at school board meetings, which are usually charged with emotion. In the last four years, the school district has lost 6,671 of its white students

— 37.4 per cent — and if the trend continues, Marcheschi says. "We aren't going to have enough white students left to integrate."

In 1969 the school population was 58.3 per cent white. This fall it is 42 per cent, the same percentage as that of blacks. Fourteen per cent of the 25,414 students are Mexican-American.

Most of the white students who left moved out of the district. Other parents enrolled their offspring in private schools.

With their children being bused to schools in white areas, black families are beginning to move there from the traditional black sections of the city, bringing changes in housing patterns. Although many whites have moved out of the district, its population of 176,273 is still about 75 per cent white and 17 per cent black.

The school board has been trying desperately to stop the white flight, fighting in vain to have the busing plan rescinded or modified and imposing a philosophy of fundamental education that appeals to conservative whites.

But the effort was hurt with the revelation that test scores of both whites and blacks have declined in reading and math during the busing period. Cortines says the scores do not mean busing has failed "because the purpose was to integrate, not improve students' achievements."

He feels the real reason the scores dropped is that most of the students who left the schools were from upper and middle socio-economic groups, who tend to be better students.

Duncan Honored

Rotarians paid tributes Tuesday to one of their senior members, Dave Duncan, who has been a part of the club for 40 years.

Lowell Jones recited some of the mileposts of the prominent independent oil operator who came here as an oil drilling contractor in 1934. A product of the Eastland area oil boom, a large degree upon im-

prior to World War I, Mr. Duncan came back from the Navy to work in the oil fields and became a driller. Like many oil pioneers, he had his ups and downs before his Ajax Drilling Co. began to get traction here. A highlight of the program honoring Mr. Duncan was a replaying of a tape of an address he made to the club half a dozen years ago. In it, he gave his reminiscence of a lifetime in the oil business and correctly forecast what would happen if that United States became dependent in-

To Eye Korea

DAMASCUS, Syria (AP) — Syrian President Hafez Assad will head a delegation on a visit to North Korea before the end of September and will meet with North Korean President Kim Il Sun, the Syrian government announced.

Degrees Given Two From BS

DENTON—Among those receiving degrees from North Texas State University Aug. 17 are two from Big Spring: John Earl Johansen, son of J. B. Johansen, 216 Sterling, master of education degree in counseling and student services; and Terry N. White, son of Mrs. Dalton P. White, 2004 Birdwell Ln., bachelor of arts degree in sociology.

SEE OLDSMOBILE '75

Introducing Starfire—the little Olds you didn't expect! It's a sporty little four-seater that's smaller than a compact, easy on gas, but a bonafide Supercoupe in looks, features and spirit on the road!

Delta 88—our full-size family car never looked better—but it's more than just another pretty car. It's really built for the long miles. 7 models, including a convertible, with room and comfort for a growing family.

Meet Omega Salon—our luxurious compact for drivers who like the looks and comforts of imported touring cars. It's got the touches you like—but at an Olds price. Choice of three models.

Toronado—America's first contemporary personal luxury car with front wheel drive. It pulls you around turns and along straightaways with outstanding traction. Toronado and Toronado Brougham models.

Cutlass Supreme—now our "little limousine" is big on luxuries, yet it offers improved operating economy. One of eleven mid-sized Cutlass models—including wagons—that are right for the times.

98 Regency (below)—The most comfortable, most thoroughly luxurious Oldsmobile ever built. Magnificent "loose-cushion" look interiors, and a distinctive new look in both six-window sedan and coupe models.

IT'S A GOOD FEELING TO HAVE AN OLDS AROUND YOU

We raised the gas mileage in every 1975 Olds model.

Every '75 Olds has a new Maximum Mileage System that helps make it a better car in several ways: Our best mileage in years. Smooth-running engines. Fewer tune-ups and less routine maintenance. And—better exhaust emission control. The System represents the most advanced engineering and technology we can build into a '75 Olds. It includes a new catalytic converter (see below)—and a lot more.

There's a new high-energy ignition, for a hotter spark and improved ignition performance. Also, Olds engineers adjusted shift points in transmissions. Installed low-ratio economy axles. And made GM-spec steel-belted radial tires standard.

As you can see, we've done a lot to improve the gas mileage capability of every 1975 Oldsmobile.

New Catalytic Converter—designed for long life. This "pod" full of platinum-palladium coated beads provides a new way to reduce most emissions—after combustion, in the exhaust. It does a more effective job—and it eliminates some of the gas-robbing, combustion-stage controls of the past. Best of all, it allowed Olds engineers to re-tune the engines to run smoother and give better MPG than last year.

GET THAT GOOD FEELING AT YOUR OLDS DEALER'S NOW.
