GOP Nominee Says State Office Needs 'Watch Dog'

By JOHN EDWARDS — Nick Rowe, Republican nominee for state comptroller, while here Friday, noted he and Gov. Dolph Briscoe have the same campaign manager in the Rio Grande Valley, Scott Toothacker, McAllen. Rowe says the liberal-conservative split of the Texas Democratic Party will help him, in the Nov. 5 general election. Bob Bullock, the Democratic nominee for state comptroller, is a liberal, and "hatchet man," Rowe said.

Rowe criticized Bullock for saying Bullock was going to "clean out" the comptroller's office and "put his friends in."

But Rowe also criticized Robert Calvert, the incumbent who chose not to run for re-election, for being on friendly terms with all segments of state government.

"If everyone is your friend," Rowe said, "you're not doing your job."

"I just think it's about time we had a watch dog in that office," Rowe said.

"I'd like to see how people in the office work under my leadership before I make any changes," Rowe said.

Rowe, a graduate of the U.S. Military Academy at West Point, said he has not studied accounting. "You don't need it as a comptroller."

The comptroller is a manager, Rowe said. "I know the question that now arises is: What does a former Special Forces officer know about fiscal matters? Within the Department of Army, I had more than four years of broad administrative experience in Washington, including fiscal planning, data processing, and program cost-analyses."

Rowe said he has, one, used the "ivory tower approach" of visiting the State Comptroller's office. And, two, Rowe said he is talking with county tax collectors and county clerks and "people who pay the taxes."

Rowe said the 32 district offices should develop "closer cooperation with businessmen in their area."

Inflation and increasing oil values — while oil production is decreasing — explain the \$1.3-billion surplus Eriscoe told Big Springers about Thursday, Rowe said. On questions of national policy, Rowe opposed President Ford in two instances.

In response to Bullock's challenge that Rowe speak about Ford's proposal to increase gas prices, Rowe responded in part: "With this statement I am calling on President Ford to give up the proposal or amend it, so that it will not penalize the economy of Texas."

Says Dancers Out Of Step

DALLAS (AP) — District Court Judge Dee Brown Walker has enjoined seven Fred Astaire Dance Studios in Texas from using certain techniques to obtain expensive contracts from pupils. The studios are in Dallas, Austin, Arlington, San Antonio, Wichita Falls, Fort Worth and Beaumont. The defendants agreed to the judgment without admission of guilt.

Asst. Atty. Gen. Michael M. Barron said the most important feature of the judgment is a provision prohibiting dance lesson contracts totaling more than \$5,000, except in specific instances.

Barron said there have been instances of studio customers, most of whom are middle-aged or elderly widows, signing contracts totaling as much as \$30,000.

Techniques listed in the suit include relay salesmanship, sham tests and blank contracts.

To Inspect Patricia Hearst's Bond Is \$500,000

SANTA BARBARA, Calif. (AP) — State investigators planned to fly over a 12-mile section of rocky coastline today to inspect an oil slick that Coast Guard officials say was caused by natural seepage.

U.S. District Judge Oliver Carter said Friday he was sympathetic toward the efforts of Miss Hearst's parents to seek the return of their daughter.

SAN FRANCISCO (AP) — A federal judge has rejected a proposal to reduce a \$500,000 bond Patricia Hearst faces on bank robbery charges as a means of inducing the fugitive newspaper heiress into surrendering.

U.S. District Judge Oliver Carter said Friday he was sympathetic toward the efforts of Miss Hearst's parents to seek the return of their daughter.

Liberation Army claimed it abducted Miss Hearst on Feb. 4. But she said later in tape recordings that she became a member of the terrorist group and took part in the robbery.

MacInnis said the real purpose of the motion was any attempt by Miss Hearst's parents to send a message to her by any possible channel.

He added that continuance of the bail at \$500,000 would be a "violent deterrent to her ever giving herself up."

Mouse Ranch For Sale

DALLAS (AP) — Neiman-Marcus specialty store, whose Christmas catalogue is eagerly awaited each year by the rich and near-rich, features a mouse ranch this season.

"We created it as the possible fulfillment of your childhood dream and a paradise for mice," reads the blurb for the mouse ranch in the catalogue reaching many homes this weekend.

The buyer must furnish his own mice.

The price: \$3,500. The ranch is made of clear acrylic 48x38x18 inches. It contains watering tanks, feeding pens, fencing and a windmill.

For that price you receive genuine silver plated tweezers to pick up the little beasts, personalized readings on using indelible ink, and instructions on the care and feeding of mice.

If mice aren't your thing, you might like a boat which is propelled and supported by air for \$3,500. It's a his-and-hers with space for two passengers.

If you want something just routine, there is a \$22,500 rhinchilla coat.

ALIVE AND WELL — New York-born Frank Weber, 17, smiles during a religious service at the Wailing Wall in Jerusalem, following a claim by a Palestinian guerrilla group that it had executed an American-Israeli soldier named Frank Weber, who was captured in a raid into Israel last Aug. 28. The Popular Democratic Front reported from Beirut Thursday that it executed Weber. Weber was reportedly interrogated by a special committee. The teenager said he lost his passport and termed the story "nonsense."

Silo Singing Bounces Back

MADISON, Wis. (AP) — Silo singing, once a popular pastime with farmhands, is making a comeback.

All you need is a boomswagle, a washboard, a guitar and a grain silo to practice this folk art.

Sponsors of the world Dairy Expo here decided to feature the lost art of silo singing, and invited individuals and groups to compete in what they billed as the first International Silo Singers Competition.

It is believed to date back to around 1900, when the first grain silos started to appear. Farmers soon discovered the unusual sound effects created when talking, or better yet, singing, while working inside the 30-to 40-foot high, cylindrical storage buildings.

But with the arrival of giant silos and mechanical unloaders, silo singing went the way of other lost folk arts.

Then came Dick Arnold of East Lansing, Mich., who says he rediscovered silo singing while touring Midwestern county fairs and is now attempting to revive interest in it.

It was easy enough to accommodate the boomswagle, a long stick adorned with cymbals, a tambourine and other noisemakers, in the silo. The guitars and washboards were no problem either.

"We had some people who played banjo and guitar who sang in the silo," said Robert Swan, a music specialist who was chairman of the competition.

Arthritis Is Seminar Topic

Millions of people suffer from arthritis in forms varying from occasional mild inflammation to total disability.

An increasingly important role is being played by the medical laboratory in establishing the diagnosis of arthritis, guiding the therapy and checking the effectiveness of that therapy.

"Lab Aids in Arthritis Treatment" will be the subject of the Thursday therapeutic seminar for health care professionals at Big Spring State Hospital in Big Spring.

The seminar will originate from The University of Texas Health Science Center at San Antonio and will be received by live teleconference throughout a five state area. It is open to area physicians.

Moderating discussions will be Dr. Paul Cutler, professor of medicine and panelists will include international authority on arthritis, Dr. Carl Pearson, professor of medicine and head, division of rheumatic disease, UCLA School of Health Sciences.

Ranger Review

DALLAS (AP) — The general manager of the Texas Rangers—the most improved club in the majors this year—is thinking now about improvements in the Ranger pitching staff and the club's home park.

Donnell Baldwin was a thorn in the Steer side all night long as he hit the Steer secondary for 116 yards. He pushed the Eagles ahead for good as he collected a pay receipt on the four-yard line with only 21 seconds left before final period clock started ticking off.

Big Spring stayed mostly to ground pounding as Steers' quarterback Mark Moore heaved the ball only eight times, completing four for 24 yards.

BREAKS THROUGH — Jesse Doss, 205-pound sophomore steer back, scampers through the Abilene High secondary for yardage in a 5 AA district opener between both teams here Friday night. Steer players watching the play include Dennis Fulcher, Mark Moore, and Kyle Neighbors. The Eagles won, 12-9.

Bobcats Catch Cougars Bulldogs Spoil Wolves Homecoming, 35-12

SAN ANGELO — The Bobcats from San Angelo scored with just 13 seconds left on the fourth quarter clock to trap Cooper's Cougars, 12-10, here Friday night.

Larry Thompson stunned the San Angelo crowd as he hauled in a Rudy Izard 18-yard pass with seconds to go. Cooper had kept the game well in check on a 5:26 second quarter field goal and an early fourth frame 13-yard TD pass.

San Angelo fought its way back with Thompson hauling in a 17-yard Izard pass with 2:12 left in the game. Then came the Cougar nightmare.

The seasonal record shows 4-0 for San Angelo and 3-1 for Cooper.

America Plans A Party

America has a past to honor and a future to mold. The bicentennial celebration in Howard County and across the nation will recognize the past, the present and the future in planning the biggest birthday party ever.

This country's 200th birthday is creating excitement everywhere as people are getting ready for the 1976 observance. In Big Spring and Howard County hundreds of individuals and virtually every group and organization will be participating in this city's bicentennial celebration which is part of the national observance.

The theme for the celebration is "The Promise of America: Past, Present and Future," and projects will fall into three categories: Heritage, Horizons and Festival.

Projects under "Heritage '76" will be a nationwide summons to recall our heritage and place it in its historical perspective. All groups within our society are urged to re-examine our origins, our values, and the meaning of America — to take pride in our accomplishments and developments.

"Festival USA" is a nationwide opportunity to program activities and events which will stimulate travel. A special effort will be made to encourage Americans to expand their knowledge of our country and welcome visitors from other states and nations. This category will include the festivities of celebration.

"Horizons '78" is a nationwide challenge to every American — individually or with others, to undertake at least one project which manifests the pride, the priorities and the hopes of his community to all Americans to improve the quality of life for Century III.

Although planning and activities have already started in Howard County and across the nation, the central focus for the celebration will begin July 4, 1975 and extend through July 4, 1976, the nation's 200th birthday. Many, many projects will culminate during the bicentennial year.

In 1966, Congress authorized the American Revolution Bicentennial Commission to begin developing and coordinating bicentennial activities at all levels. Initial planning sessions of this group from every state and territory in the Union were not unlike the early meetings of the First Continental Congress. Every representative came with a different set of priorities. Some wanted an international Exposition at Philadelphia reminiscent of the Centennial Expo held there in 1876. Others, a series of events across the country and lasting throughout the 13 year Bicentennial Era. Others declared that mindless frivolity in the face of people who had very little to celebrate would be like the Tories holding a Grand Ball while the Patriots shivered at Valley Forge.

Out of these conflicting opinions and diverse suggestions, in the American tradition of compromise, there developed three major themes to cover a range of events and purposes and left the decisions to state and local commissions more in touch with the differing interests of each community.

Every state was then asked to form its own State Bicentennial Commission to coordinate the plans for that state. As each community formed a local Commission it was recognized as a Bicentennial City, County or locale. The State of Texas officially designated its Texas Bicentennial Commission in 1970 and set up offices in Austin and Arlington. Temple was the first city to be officially recognized but Lubbock and Odessa were not far behind.

In November 1973, the first interest was shown officially in Howard County when a meeting was called to discuss the subject with 38 selected city and county business and civic leaders. It was unanimously agreed at this meeting that the City and County Commissions should be petitioned to appoint a Bicentennial Commission.

As a result of this petition, in August 1974, the City and County Commissioners adopted a joint resolution to form the Big Spring-Howard County Bicentennial Commission with a twenty-five member steering committee headed by co-chairmen... and with project chairmen for each of the three categories.

How do you get involved? Contact one of the co-chairmen or project chairmen if they don't contact you first. It is hoped that every individual—man, woman, and child—in the county will be touched in one way or another. Every club and organization will soon be contacted with concrete information and requests for assistance. Be ready to serve and have the time of your life. And as we pull together we will reaffirm by our actions that we are all Americans.

A meaningful bicentennial celebration offers potential involvement on a scale few other programs could effectively handle! The awareness of our common heritage—a renewed spirit of '76 that will unite us in purpose and dedication—a commitment to improving the quality of life in Century III.

The most valuable contribution of the celebration will be its lasting impact on the people of the city and county and the renewed interest in civic affairs. The principles of a free society are never secure. They are dynamic, ever-changing, ever-growing. But they are fragile precepts which are likely to die if not reinforced and strengthened by each generation.

THE BIGGEST birthday party in the world will have been several years in the planning by the time the celebration starts next year. Mrs. Johnnie Lou Avery, shown above, is cochairman for the Big Spring-Howard

County Bicentennial Commission steering committee. The 25-member group, formed in August, includes, from left, George Zachariah, Tony Ortiz, Mel Prather, Col. Robert Meisenheimer and Charles Beil.

PEOPLE AND PLANNING are what will assure a successful and enjoyable bicentennial birthday party for the United States. Already hard at work, doing their

share, are these members of the steering committee. From left, they are Joe Pickle, Mrs. Mamie Lee Dodds, Charlie Merritt, A. D. Mitchell and Roy Watkins.

A MEANINGFUL bicentennial celebration is in store for the Howard County area if early enthusiasm proves to be an indication of community involvement. Among the leaders of

the steering committee are, from left, Lynn Hise, J. F. Poyner, Mrs. Janelle Davis, Mrs. Margaret Lloyd and Bill Easterling.

Sad to note, but washday blues may turn brown for those of us who use aerosol or spray-type fabric softeners in the dryer.

It appears now that continued use of this kind of softener can leave a residue in the dryer which gradually builds and turns brown from the heat. Even worse, it can create a stickiness and possibly stain clothes. If discovered in the early

stages, the residue can be removed with a mild cleaning powder on a damp cloth.

Another possible problem area is that thermostats may become coated with lint and their accuracy impaired, particularly dryers which "sense" the dryness of clothes and automatically respond.

This means that homemakers may want to consider returning to using the liquid or powdered form of fabric softener which is designed to be added to the final rinse water to make fabrics softer, fluffier and easier to iron and to

problem (frequently occurring when the weather is dry) resulting from friction between fibers. Static charges are dissipated by the natural moisture content of natural fabrics. Synthetic fabrics, however, have very little moisture content of their own, and static charges may build up on the garments, causing cling and occasional shocks. When fabric softener has been used, the lubricating film on the fabric absorbs moisture from the air, providing a path for discharge of the static electricity.

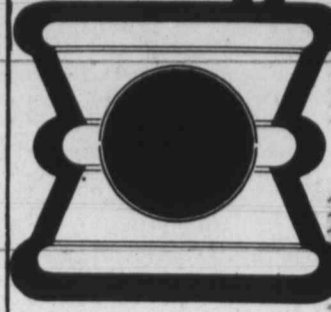

Because the chemically active portion of fabric softener is oppositely charged from that of most detergents, they will combine to make both detergent and softener ineffective. For this reason, fabric softener should be used only in the final rinse and never together with detergent.

The amount of softener needed depends on the amount of fabric present, and not on the amount of water, because all of the softener will attach itself to the fabric, regardless of dilution.

Midland Community Theatre opens its season Friday with the first performance of "Jabberwock," the whimsical comedy based on James Thurber's boyhood in Columbus, Ohio around 1917. It is, however, a piece of Americana pulled loosely from Thurber's own book, "My Life and Hard Times." Curtain time is 8:30 p.m. on Fridays, 8:30 p.m. on Saturdays, 8 p.m. on Thursdays and 2:30 p.m. on Sunday. Other show dates are Oct. 12, 17, 18, 20, 24, 25 and 26. Dear Abby

Thinks Salesman Getting His Girl

DEAR ABBY: I am an older widower, financially comfortable and, perhaps unwisely, am deeply in love with a 44-year-old widow.

Recently she has been going haphazardly with a man she met by mail. It's "hap" for him because he never calls or writes to let her know in advance that he's coming. It's hazardous for her because he has never given her an address or telephone number where he can be reached although she has asked repeatedly. Nor has he given her a single clue through which he could be traced or identified. He claims he lives in a certain city, but says he travels a lot and his address and phone number wouldn't help any.

He claims he owns a home worth from \$90,000 to \$100,000, but wants to sell it and buy a home with her, since he thinks she has \$50,000. I'm afraid he's only after her money.

I'd like your answer soon, no matter how you see it. I will let her read it.

J. IN LAUDERDALE

DEAR J: I see either a woman so naive that she shouldn't be out alone after dark, or one who is so blinded by infatuation that she can't read the handwriting on the wall.

I also see an older, financially comfortable widower who thinks he could win this lady were it not for the slippery salesman. The widower's strategy is to eliminate his competition by exposing him for the fraud he is, thus capturing the fair damsel.

I wish you luck, but don't get your hopes up. Love abhors logic.

DEAR ABBY: A man wrote in complaining that before a party, his wife will call her lady friends to ask whether they are wearing pants or a dress.

He said he'd never heard of a MAN doing this.

He's right. I've never heard of a man calling up another man to ask him if he is wearing pants or a dress, have you?

LAURIE

DEAR LAURIE: Yes. But then people tell me things they'd never tell anyone else.

DEAR ABBY: How do you feel about forcing a man to retire when he reaches a certain age?

CURIOS

DEAR CURIOS: I like the way a gentleman from Morgantown, N.C., put it. He said: "I'm against mandatory retirement. It ought to be left to the individuals. It is a shame to assume that all fools are old fools. I've found there are more young fools than old fools. Nature has a way of getting rid of old fools." (Thank you, Senator Sam Ervin.)

DEAR ABBY: The person who wrote to you saying that big noses and flat bosoms are "in" is out of her (or his) mind.

Since when is a well-developed nose more desirable than a well-developed bosom?

If a woman wants to look like Barbra Streisand, I might agree, but if she wants to please a man, the bosom has it over the nose any day.

When a man turns around to get a second look at a girl, you can be sure it's not her NOSE he's looking at.

And who ever heard of a movie star getting silicone implants in her NOSE?

What do you suppose would happen to Playboy magazine if they showed nothing but pictures of girls with big noses?

I think I'm fairly representative of the average guy, and for my part, if a gal is stacked, I wouldn't even notice her nose.

COWBOY—HAMILTON, MONTANA

Garden Sorrel
 One vegetable that should be grown in shade is garden sorrel. Delicious as a green vegetable; the foundation for a gourmet soup; the acidity in the leaves increases when the plants are grown in hot sun. This is the reason for giving it a shaded location.

Slides Illustrate Summer Travels

Picture slides made on tours by members of the Green Thumb Garden Club were shown at a Tuesday morning meeting in the home of Mrs. J. H. Fish. Cohostesses were Mrs. R. B. G. Cowper and Mrs. Billie Piner.
 The theme for the year is "The Many Colors of Green Thumb," and the Tuesday theme was "Grass Is Greener."
 Mrs. Earl Price showed pictures made by the Rev. Earl Price on tour of Canada into Skagway, Saskatchewan. She suggested that August and September are not good months for this part of the country so far as gardens were concerned.
 The Prices also visited the "Iceberg Glacier" near Edinborough, Scotland. She told of the Eddington Castle, near Stratford, that has been renovated and has rooms available for tourists.
 There were also pictures of a bombed church at Conventry where only the spire was left standing. Mrs. Price told the story of young German men and women who asked for and were given permission to come to England and help restore the church.
 Pictures of a trip into Russia were shown by Mrs. Jack Woodall who, with Dr. Woodall, toured the Kremlin, saw Lenin's tomb and had striking pictures of the domed buildings. She told of a magnificent subway built by the Russians in 1930. Also, she showed slides of Cathedral Square in Italy, old and new cities in Yugoslavia and scenes in England.
 Mrs. Woodall reported on the club project of helping keep the area around the Howard County Library landscaped. She has replaced several shrubs.
 The Nov. 5 meeting will be held in the home of Mrs. Pete Rhymes at 10 a.m., with Mrs. Woodall and Mrs. Toots Mansfield as cohostesses. Each member is asked to bring whatever Christmas decorative craft she is working on to show at the meeting.

Cavanagh Is Closing Shop

LONDON (AP)—John Cavanagh, one of Britain's leading dress designers, is closing his dress shop in London's swank Mayfair District.

"The ever-increasing overheads and cost of production have made it virtually impossible for us to continue this business any longer," Cavanagh wrote in a letter to his customers.

His customers included Princess Alexandra and the Duchess of Kent. Cavanagh, now 60, has worked as a dress designer since he was 18.

An arch covered with greenery and blue and white carnations was centered with a sunburst arrangement of blue and white gladioli. Spiral candelabra and baskets of flowers were on either side. Miss Karen Fuller, Denton, was pianist, and Mrs. Larry Perkins was organist. Mrs. Mike Perry and Miss Lydia Hayworth, both of Lubbock, and Miss Melanie Hayworth, sisters of the bride, and Miss Lana Williams and Miss Patty Swindell were vocalists. The bride wore a gown of

The maid of honor wore a floor-length, empire dress of floral orchid and blue crepe with pointed collar and long, cuffed sleeves.

The bridesmaids wore dresses of identical style but in solid blue. They all wore blue garden hats and carried nosegays of blue and white carnations tied with long satin streamers.

Texas Heritage Shown By Slides

Pursuing the year's theme, "Our Texas Heritage," the 1953 Hyperion Club heard Mrs. Floyd Mays narrate picture slides of the Howard County area, at a Wednesday meeting in First Federal Community Room.

Hostesses were Mrs. W. P. Edwards and Mrs. A. W. Rees.

Mrs. Harry Middleton introduced Mrs. Mays who gave a picture story of Big Spring using slides she has made of historical sites in

and around Howard County. She noted that Capt. Randolph Marcy passed through this area Oct. 3, 1849, 125 years ago this week.

Of particular interest were pictures of old homes in Big Spring and pictures "then and now" of the town site once known as Soash.

During a short business meeting the club contributed to the United Fund.

The Nov. 6 meeting will include a visit to old Fort Concho in San Angelo.

A LOVELIER YOU Natural Look Is Sought By Girls

By MARY SUE MILLER

A poll was taken of girls preparing to return to high school and college. The questions asked: What do you expect of makeup? How do you like to look?

A computer was unnecessary in compiling the answers. Although differently expressed, the girls' ideas were essentially the same: "I want to look alive, clean, real. . . I want to look natural, like myself only better. . . I want makeup that's right for my complexion, and gives it a nippy color with staying power."

Well, it seems as though the girls' wishes have been granted. As always! Cosmetologist-planned and dermatologist-tested, newsy liquid foundations are geared to normal-dry and oily skins in completely natural colors. In the same shades, a velvety finished pressed powder helps makeup last longer. Fresh and lovely, that's you!

If you need a blush you can have it in a day-night creme duo. In pink creme and pink lights, for instance, to use singly by day or by night light, or to blend.

Moisture-rich lipsticks slip

on in 14 shades, some frosted and some glowy. The engineering of the case makes color selection easy when you buy and in your drawer. A see-through window reveals the shade therein, but not the lipstick itself, which is secreted inside to prevent impairment.

Eye makeup? Great stuff and famous!

MODEL TIPS FOR TEENS
Fifty ways to ideal skin and natural makeup for young adults — ages 13 to 19 — are detailed in my booklet, **MODEL TIPS FOR TEENS**. The Mini Is Fini

LONDON (AP)—The mini is fini.

Britain's gift to the world of women's fashions, the mini-skirt, is finally gone — after hovering near hip-level heights for the past ten years.

The last stitch in this hemline-dropping event was sewn by one of the biggest firms of chain stores in the country, C&A.

A spokesman for the company, which four years ago sold thousands of minis each day, said: "There will be no more minis when present stocks have gone. They just don't sell nowadays."

The firm was just about the last of the major holdouts. Most of the other big department stores and fashion chains had dropped the mini for longer lengths within the past two years, or more.

The mini was introduced in the early 1960s, largely by fashion designer Mary Quant.

Wedding Bit Wet

THE ALPS, Wash. (AP)—A funny thing happened on the way to the wedding. The carefully planned outdoor ceremony was to take place at The Alps, a picturesque spot overlooking Lake Yolando above Tumwater Dam. Enroute to the altar in a canoe, the bride and groom took a dunking. As the craft nosed into a

landing, groom Gene Tubbs waved to a friend, and the canoe tipped over. Tubbs, bride Kay Gorman, the paddler and a dog called Smokey were dumped into the river. The nervous bridegroom, who doesn't swim and has always been afraid of water, groped for the canoe as the wedding's arranger, Archie Marlin, dove into the river to rescue him. The bride, her long wedding dress flowing behind her, struggled to shore by herself.

Free Milk Rule Change

A change in the special milk program regulations, announced by the secretary of agriculture, will enable children under the free lunch program to have extra milk. Ray Lawless, head of food services for the Big Spring schools, said that schools here will participate. There is no need for eligible pupils to apply, for they will be included automatically, said Lawless.

What the change means is that in addition to the half-pint of milk which goes with the meal, eligible pupils now may receive an extra half pint. Eligibility for the free lunch program is determined on the basis of a family's income and the number of members in the family. Milk also will be offered for sale for any child who wants additional milk. The district will be reimbursed on a scale fixed by the Texas Education Agency for cost of the milk and a 2-cents cost of distribution.

Pilot Recheck Deadline Nov. 1

The Federal Aviation Administration of the U.S. Department of Transportation has reminded the nation's pilots that they must comply with the new biennial flight review requirement by Nov. 1, in order to act as pilot-in-command of an aircraft. FAA rules, issued Feb. 1, 1973, prohibit anyone from acting as pilot-in-command unless he or she has satisfactorily completed a flight review within the preceding 24 months from a certificated instructor or other person designated by FAA and had his or her logbook endorsed to this effect. Nov. 1, 1974, was established as the closing date for the first biennial flight review cycle.

The only pilots exempt from the biennial flight review requirement are those who have passed a proficiency flight check or a flight test for a pilot certificate or rating within the preceding 24 months.

Road Work Contracted

The Texas Highway Commission has contracted to rebuild 1.6 miles of the old northbound lane of U.S. 87 north of Big Spring. The contract was awarded to Zack Burkett Co. and Price Construction, Graham, for \$540,985.01. Drainage will be improved, Joe Smoot, resident engineer, said. Smoot predicted construction would begin in 30 days. The job will take an estimated 200 working days. The stretch to be rebuilt is 2.6 miles north of IS-20.

Eat For Your Heart

Meal Demonstrates Healthy Heart Diet

Howard County will participate in a combined effort with Scurry and Mitchell counties to conduct a series of seminars on "Eat to Your Heart's Content."

This unique educational program will be conducted Thursday at the Settles Hotel in Big Spring reports Sherry Mullin, county extension agent, and a highlight will be a special "heart" meal. The purpose of this seminar will be to educate men and women of the physical conditions that can lead to heart disease and what simple measures that can be taken to prevent heart disease in many cases.

LEADING KILLER

Diseases of the heart now comprise the leading cause of death in the U.S. About a million persons die each year, a number that is greater than that from all other causes combined. Approximately 15 million adults have some heart disorders, and another 13 million are suspected of having some defects.

"Men are more prone to live their way into a

premature heart attack," said Miss Mullin. "Sudden heart attacks have been building up to crisis for years, but we have now a solid foundation of scientific knowledge from which to fight back against the toll of premature heart attacks and strokes, especially among the middle-aged. The time to begin to lengthen lives is when you are in the 20-30 bracket."

"The way a man's heart is still through his stomach, but the old saying has taken on a second meaning: the food you eat can endanger your heart or protect it. Men are more prone to heart disease, but women prepare their food. Therefore, this program is designed for men and women."

SAMPLE MEAL

Many people who have shown no outward evidence of having developed heart disease may be in trouble because of diets high in saturated fat and cholesterol, hence the special luncheon.

The Kiwanis Club will be having its regular meeting and will share in this, and all

men and women are urged to make reservations (\$2.50) by calling 267-8469 (Miss Mullin) or 267-6270 (Mrs. R. S. Griffin). This will be a specially prepared low-cholesterol lunch with serving starting at 11:45 a.m.

At 12:30 p.m., Dr. David Logan will speak (and this is free to the public) on "Risk Factors Leading to Heart Disease and How to Control Them."

At an open session 1:30 p.m. will feature Sally Springer, food and nutrition specialist, discussing cholesterol (what it is, levels in the blood), fats (saturated and unsaturated, etc. and effects), and good moderate diet (caloric intake, various elements).

At 2:30 p.m. there will be a mini lesson on selecting foods. There will be packets of free materials, including recipes. Ms. Mullin, Ruby Butts and Janis Choate, extension agents for Howard, Scurry and Mitchell Counties, will present slides to illustrate selection of foods for healthy hearts.

Howard Given Two Road Jobs

Highway improvements in Howard County are included in a \$50.2 million safety and improvement program for 1975 approved recently by the Texas Highway Commission.

Roger G. Welsch, District Engineer of District 8, stated that the program includes a seal coat (asphalt and aggregate overlay) on travel lanes for the following projects:

U.S. 87 from Glascock County line to F.M. 700 in Big Spring.

S. H. 350 (Big Spring-Snyder) from south of Wild Horse Creek to Mitchell County line.

Estimated cost of the two projects is \$284,700.

Fem Must Pay Child Support To Ex-Husband

PITTSBURGH, Pa. (AP) — A Pittsburgh woman has been ordered to pay child support to her former husband, who has custody of the couple's two young children.

The presumption that the husband is solely responsible for the support of children "is clearly the vestige of the past and incompatible with the present recognition of equality of the sexes," Allegheny County Common Pleas Court Judge Louis J. Sparvero said.

PREGNANT POLICY

WASHINGTON (AP) — The Pentagon says its considering changing its general policy of discharging women in the military who are pregnant.

What may be done, a spokesman said here, is to allow prospective mothers to stay in the service provided they do their jobs well and accept assignments worldwide.

If not, they would be discharged involuntarily. In addition, pregnant personnel could voluntarily apply for hardship discharge, the spokesman said.

In all cases discharges for pregnancy would be as they are now, honorable. The spokesman said the idea behind the proposed policy change is to allow military fathers of legitimate or illegitimate children never have been subject to discharge.
