

LOCATED PATTY SAYS COHEN — Former gangster Mickey Cohen, bottom left, says he was enlisted by Randolph A. and Catherine Hearst, top, to find their kidnaped daughter, Patty, bottom right, and know where she was ten days ago but doesn't know now. "When I knew she would have to come in — to go to prison, I said just forget about it as far as I'm concerned. I don't bring nobody in to go to prison," Cohen said.

Ex-Gambler Offers To Rekidnap Patty

LOS ANGELES (AP) — In separate interviews Thursday with NBC-TV and San Francisco television reporter Marilyn Baker, Cohen said he used his own money and various contacts — some of them members or sympathizers of the Symbionese Liberation Army —

to trace SLA members William and Emily Harris and 20-year-old Patty Hearst.

WON'T LET ME
Cohen, who said he began the quest as a personal favor to the Hearst family, refused to say where Miss Hearst was when he located her except that she was not in California.

He added that he never saw the girl himself. "I couldn't, my parole board won't let me go anywhere," he said.

He also said she has since moved and that he didn't tell anyone where she was. Broadcast reports that Miss Hearst might be in Canada did not come from him, he said.

The FBI and the Canadian Mounted Police said they had no information on reports that she had been located in Canada or near the U.S.-Canadian border.

The Hearsts were not immediately available for comment.

Miss Hearst was kidnaped Feb. 4 by the SLA, but several months later she announced that she had rejected her family and joined forces with the SLA.

BANK ROBBERY
She was later charged with violating the federal firearms laws and bank robbery and by the State of California with kidnaping.

The Chicago Tribune reported that Cohen offered to try to rekidnap Miss Hearst and return her to her parents.

Young Thugs Kill Parrot

JACKSON, Miss. (AP) — Three boys burglarized a Jackson house and then killed the owner's parrot because they said they were afraid the talking bird would tell on them, police reported.

The two 15-year-olds and a 12-year-old said one of them called another's name during the burglary and they were afraid the bird would repeat it.

Visitors Welcomed At Herald Sunday

Open house will be observed by The Big Spring Herald from 2 until 5 p.m., Sunday, at which time a completely remodeled plant will be shown to visitors.

For the past 2½ months, The Herald has been converting from one printing process to another. Too, from front to back, the entire plant has been remodeled.

Show piece of the firm will be the new 28-unit Goss Community offset press, with its capabilities of unevenly numbered sections and full-color process.

Souvenir editions of the paper will be run off and given to visitors each half hour, starting at 2 p.m. That particular section will be in tabloid form.

Unhappy Stockmen Will Meet With Ford

STEPHENVILLE, Tex. (AP) — President Gerald Ford will meet with cattlemen and dairy farmers next week to discuss their problems and seek possible solutions, according to U.S. Rep. Bob Price, R-Tex. Price, of Pampa, made the announcement Thursday in Amarillo when he said he had been told by Ford to draw up a list of about one dozen cattlemen from several states to meet with Ford at the White House next week.

He told them of a story of a friend who stole some cows, and still lost \$50 a head. "That's about the shape we find ourselves in today," White told a group of milk and beef producers who assembled Thursday to discuss the industry's plight with government officials.

He said the dairy farmers and ranchers have reason to be disappointed, disillusioned, disenchanted, and angry ... and they want some answers and they want to see a visible leadership. Some 2,000 of them turned out for that purpose Thursday, ignoring a downpour to hear and be heard in an afternoon rally which unfolded in Tarleton State University gymnasium.

The producers are seeking a "feasible" feed grain support policy, improved milk prices, cuts in meat imports, enforcement of sanitary standards on imports, revised emergency loan programs, reestablishment of commodity distribution center and designation of food stamps for purchase of

milk products, meat and eggs only. They said the President could activate the proposals using legislation already passed by Congress. White said the food producers "don't want a handout, but they want a hand in what affects their livelihood." Poage sought to discourage the farmers and ranchers from a proposed mass protest slaughter of dairy calves, saying "all it will do is get you some publicity that won't possibly do you any good." He attempted repeatedly to explain the problems he and congressmen from other agricultural areas face in an urban controlled Congress.

AMA ACTION

11 Return Donations

WASHINGTON (AP) — At least 11 congressional candidates have returned contributions from the American Medical Association's political organization because they believe voters are skeptical of politicians who take campaign money from special interest groups.

"The special interest groups have turned so many people off the election process following Watergate," said Edward Murnane, campaign manager for Rep. Philip M. Crane, R-Ill. "It is a form of influence-peddling the American people have indicated they will not tolerate."

The returned contributions were disclosed in campaign finance records filed with the House of Representatives by the AMA's political organizations.

Crane returned a \$1,000 contribution. Nine of the candidates rejecting the funds are incumbents. Better known than their challengers, they are generally in more secure

financial and political positions and are freer to pick and choose among contributions.

The money is distributed by the American Medical Political Action Committee, one of the richest special interest groups supporting political campaigns. A spokesman said the group has contributed to at least 220 Senate and House candidates this year and will give money to more campaigns before the Nov. 5 election.

Analyzing campaign funding reports, Common Cause said the AMA group had contributed \$832,589 to various candidates as of Sept. 1.

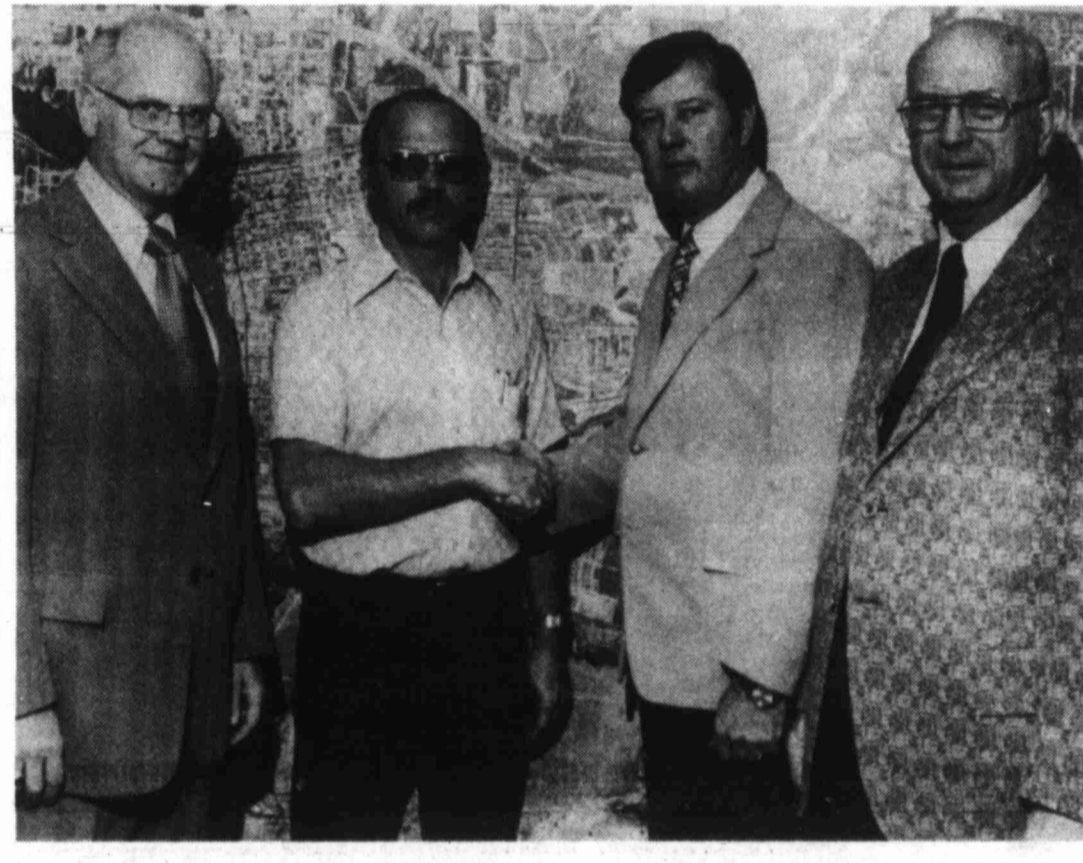

David Baldwin, a spokesman for the AMA, said the political action committee built up its campaign war chest with contributions averaging \$25 to \$30. The largest single offering was \$125, he said.

Millicent Fenwick, the Republican candidate for the seat being vacated by Rep. Peter H. B. Frelinghuysen, R-N.J., rejected the \$2,500 the AMA political arm sent to her.

Most of the candidates who rejected the money from the largest professional medical organization had announced earlier in their campaigns that they would refuse money from special interest groups or contributions over a certain amount.

But Rep. Hamilton Fish Jr., R-N.Y., returned the \$1,000 sent to his campaign, fearing that voters in his upstate New York district might think the AMA influenced his position on pending national health insurance legislation. The contribution was the largest Fish received, an aide said.

Rep. Jack F. Kemp, R-N.Y., refused a \$1,000 contribution because he is not accepting any special interest group money.

ANNOUNCE EXPANSION — Big Spring Dress Company plant manager Mel Melton is congratulated by Chamber Industrial Team chairman Jerry Worthy on an announcement that the Dress Company will hire as many as 180 employees from a free training program conducted by Howard College and the Texas Education Agency. Shown (left to right) are Chamber president Ralph McLaughlin, Melton, Worthy and Dean Ben Johnson, Howard.

Dress Firm Reveals Plans For Expansion

By TROY BRYANT
The Big Spring Dress Company, at a special meeting of the Chamber of Commerce Industrial Team today, announced plans to train and hire new employees and will eventually increase its payroll from 73 employees at present to 250 employees.

The statement was issued jointly by plant manager Mel Melton and Dean Ben Johnson of Howard College.

Howard College will take applications, screen and test applicants for the training program which is funded by the Texas Education Agency. Classes will begin on Nov. 4 for the first group of trainees.

According to Melton, persons interested in working at the plant need not have a high school education

and may not have previous sewing experience to sign up for the training program.

A total of 24 trainees will be trained in the first segment of the program which is divided into two classes, one that meets from 8 a.m. to noon and one which meets from noon to 5 p.m.

A total of 80 hours of on-the-job training will complete the program.

Persons seeking more information on the program or those who wish to sign up for the program should call Howard College Counseling Center at 267-6311, ext. 77 or 70.

Jerry Worthy, Chairman of the Chamber Industrial Team, expressed appreciation on behalf of the team to Howard College and to Big Spring Dress Company for their efforts to expand local industry.

FADING FOG
Fog and clouds clearing. High today and Saturday, near 70. Low tonight, mid 40s. Northerly wind 10-20 per hour this afternoon but decreasing tonight.

To Pogo Title

NAVATO, Calif. (AP) — Brian Partenfelder, 11, claims that he is the new world's pogo stick champion. Jumping in his own garage and averaging about two jumps a second, after 19,111 jarring jumps Brian quit, with a sore neck and blisters

The World At-A-Glance

WASHINGTON (AP) — Exasperated and often angered by bickering and backbiting among lawyers, U.S. District Judge John J. Sirica has threatened to act to prevent "a carnival atmosphere" at the Watergate cover-up trial. "I mean it," Sirica said Thursday. "If I don't get the cooperation I want, I'm going to have to do something about it." He didn't say what steps he would take, but they could include censure or a contempt of court citation. Sirica lectured the lawyers as former White House counsel John W. Dean II was on the witness stand for the seventh day.

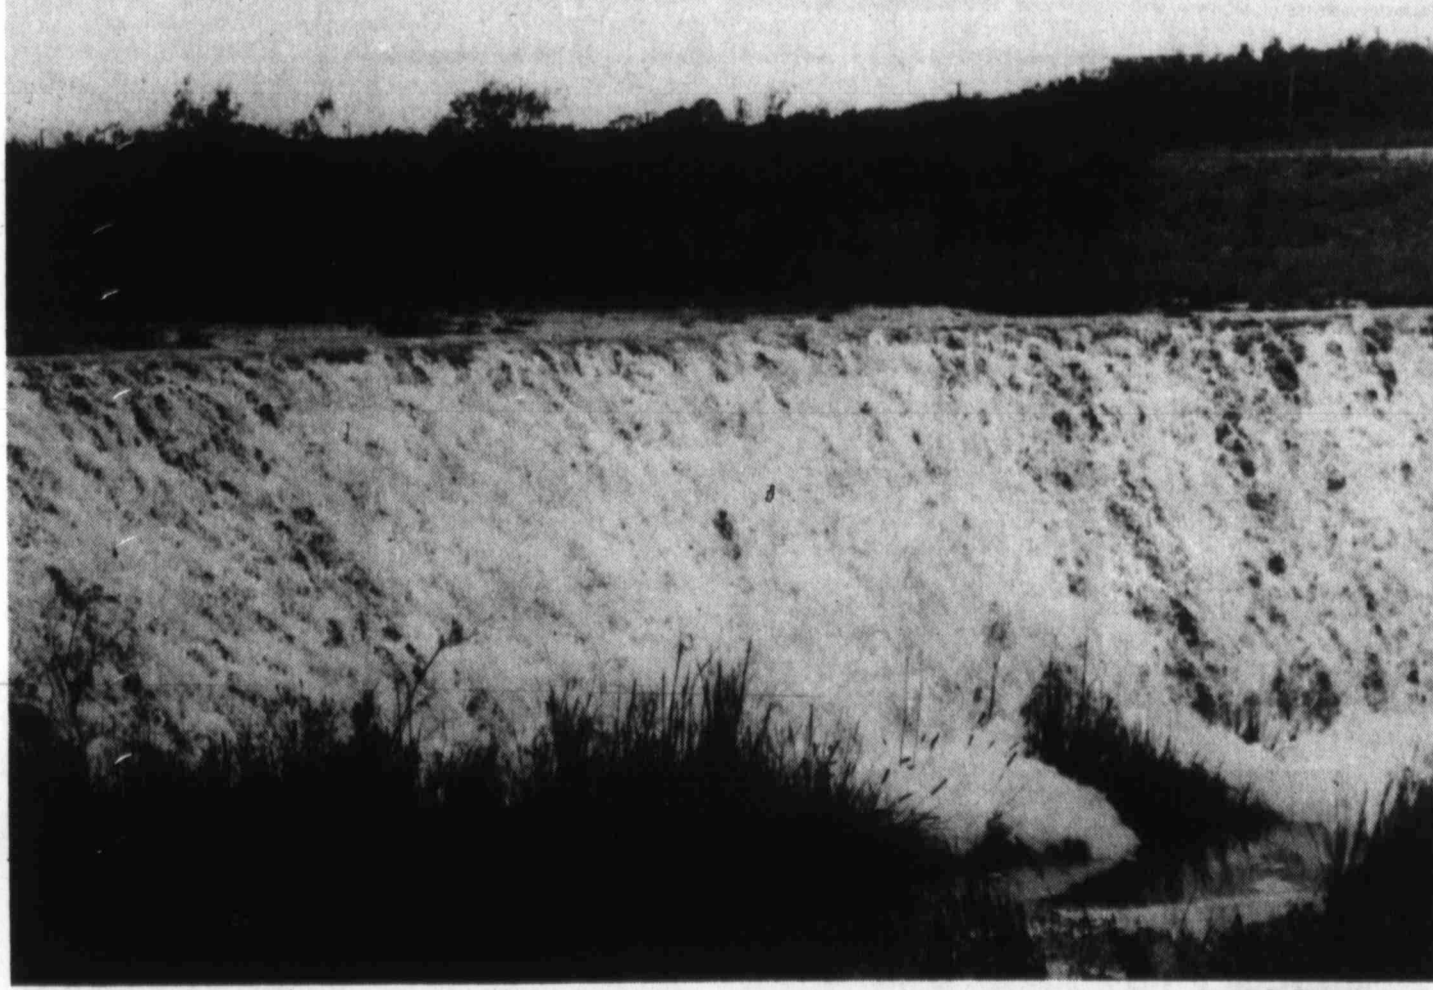

WASHINGTON (AP) — There's a population explosion of sorts in outer space. Not the baby boom variety, but in the steadily increasing number of man-made objects orbiting the earth, more than 3,000 at last count. "It's starting to look like a junkyard out there," said an official of the North American Air Defense Command, which keeps track of satellites and debris circling the globe. The stuff is coming down at the rate of one piece a day. Almost all of it burns up from atmospheric friction and the odds against anyone's being hit are calculated at more than one billion to one.

WASHINGTON (AP) — United Mine Workers President Arnold Miller said the outlook for avoiding a nation-wide coal strike next month has improved with tentative agreement on some key contract issues. "I think there's a possibility that we can wrap up the contract in time for ratification," Miller said in an interview. "It depends on how they (the coal operators) want to bargain, how much good faith they want to put into it."

CHICAGO (AP) — President Ford has finally said it: big spenders are responsible for the country's inflation woes and the "villains" are Democrats in Congress. In a string of campaign appearances Thursday on behalf of Republican candidates, the President accused Democrats of ruining the economy with four decades of reckless spending and of now threatening foreign policy. He also accused the Democrats in Congress of "undermining our foreign relations with handcuff-like restrictions on the policies of the President and the secretary of state."

LONG BEACH, Calif. (AP) — Hospital sources say former President Richard M. Nixon is no longer in pain as doctors consider whether he will need surgery for his phlebitis. A relatively simple and safe operation could be performed if anticoagulant drugs given by mouth and by injection fail to prevent formation of clots in Nixon's swollen left leg, his physician, Dr. John C. Lungren, says. The former president was admitted to Memorial Hospital Medical Center Wednesday night because oral anticoagulation therapy at his San Clemente home was not thinning his blood sufficiently, Lungren said.

MIAMI (AP) — "When I turned 70 I didn't go out looking for a rocking chair," says Judge Nathan Wernick. And he says he won't let the government put one under him without a fight. Wernick, who turned 70 on Sept. 25, has filed suit in U.S. District Court to keep his job as a Social Security administrative law judge. The outcome could have widespread effect because he's challenging the constitutionality of a federal law that requires mandatory retirement of almost all federal employees at age 70.

BIG SPRING CATARACT — Recent rains and water over the spillway at Cosden Lake immediately south of Big Spring, resulting in this waterfall effect. It may not be Niagara Falls but, for West Texans, it'll do. The level of the lake had fallen dangerously low before the heavy rains arrived in mid-September.

25 OCT 25

Golden Anniversary Reception Is Sunday

Mr. and Mrs. Austin Harris will celebrate their 50th wedding anniversary Sunday when they are honored at a reception in the fellowship room of the Church of Christ, 14th and Main, from 2 to 4 p.m. The affair is being hosted by their son and daughter-in-law, Mr. and Mrs. Gerald Harris of Dallas, and all friends are invited to attend.

Mrs. Harris, who will wear a navy blue crepe dress, will be presented a yellow carnation corsage, and her husband will wear a yellow boutonniere. Assisting in the house party will be Mrs. Jean Hubbs, Mrs. Dan Conley, Mrs. Vada Brown, Mr. and Mrs. Edwin Bednar, Mr. and Mrs. Bill Eggleston, Mr. and Mrs. Avery Falkner, Mr. and Mrs. Eddie Pierson, Mr. and Mrs. Sam E. Smith and Mr. and Mrs. H. B. Stansland. They will be presented yellow corsages and boutonnières.

Presiding at the guest register will be the couple's only grandchild, Miss Angela Kay Harris, and Miss Debbie Pierson.

MR. AND MRS. AUSTIN HARRIS

Austin Harris was born Oct. 27, 1896, in Clay County and, in 1907, his parents moved to New Mexico where they homesteaded. After serving in the Army in World War I, he graduated from Cordell Christian College in Oklahoma in 1918. For four years, he was employed in railway mail service in Oklahoma City before deciding to return to Clayton, N.M., to ranch.

Harris and the former Bessie Naomi Pogue were married Oct. 7, 1924 in Dalhart. She was born April 22, 1906, at Wanda, Mo., and her parents moved to Sedan, N.M., in 1914. She attended school in Sedan and Boulder, Colo., before entering Harper College in Harper, Kans.

After several years of ranching and operating a service station, they moved to Big Spring in 1942, and Harris worked for Elrod Furniture Co. for 30 years, retiring in 1972. They son, Gerald Harris, is employed by Exxon Co. in Dallas.

Mr. and Mrs. Harris are long-time members of the Church of Christ, 14th and Main.

The refreshment table will be covered with a champagne-colored chiffon and

taffeta cloth, and the centerpiece will be an arrangement of chrysanthemums in gold, yellow, white and bronze.

Attending from out of town will be Mr. and Mrs. John Duckworth, Midland; Mr. and Mrs. Harold Whitaker, Grove, Okla.; Mr. and Mrs. Kenneth Kondel, Vilas, Colo.; and Mr. and Mrs. Cliff Martin, LaJunta, Colo.

Dear Abby

This Just May Be The Beginning Of The End

DEAR ABBY: Chuck and I have been married for 20 years. I was 17 and he was 18 at the time, and we were very much in love. I still am, but I'm not so sure about Chuck.

Recently Chuck expressed the need for less togetherness and more freedom to explore and develop ourselves as individuals. We talked it out and he admitted that his basic need was sexual experimentation. Chuck says he doesn't want

to deceive me, but his need has now become an obsession.

We have three children and everything to stay together for. Chuck suggested one night out a week for both of us and no questions asked. I don't want another man, and I'm afraid if I agree to such an arrangement, Chuck might find someone else.

Please advise me.

CHUCK'S WIFE

DEAR WIFE: Chuck has suggested in highfalutin language that you both swing with others. To my way of thinking (and regardless of what married swingers say) this would signal the beginning of the end.

DEAR ABBY: I have had the same beauty operator for about three years. I like her work very much, but she does something that I find very irritating, and I am amazed that somebody hasn't called her on it.

She addresses her patrons by their last names. "Johnston, I'll be with you in a moment. Smith, you're not dry yet. Jones, take the first dryer."

Perhaps most of her customers are either used to it, or they don't mind, but I find it rather rude.

Am I being petty? Or shouldn't a hairdresser address her patrons as either Miss or Mrs.?

CALL ME MRS.

DEAR CALL ME: A hairdresser (and anyone else who performs a personal service) should address clients as "Miss" or "Mrs." unless she is asked to address them in some other way. If it irritates you, tell her. No sense getting hotter under the dryer.

Women In Business Discussed

"Women in Business" was the topic of the program given by Mrs. Jim Long when Forsan Study Club met Tuesday in the Forsan High School.

Mrs. Long, distribution clerk for Texas Electric Service Co., is the only woman with this type job in this division. Her duties include clerical work, answering calls during emergencies, dispatching, securing easements, distribution accounting and surveying on occasions.

The speaker said her company has one woman manager, in O'Donnell, and the Wichita Falls area has a woman lineman. This area has a woman engineering assistant trainer, who, on occasion, works on a line crew, and Big Spring has a woman meter reader. Mrs. Long stated that jobs are opening for women who want to leave office-type work.

Hostesses were Mrs. Bill Chadwell and Mrs. Ann Fairchild. Mrs. Garner Thixton worded the devotion.

Film Viewed By HD Club

A film showing the new types of wallpaper was shown for the Centerpoint Home Demonstration club that met in the home of Mrs. J. R. Petty Tuesday.

Mrs. Gail Wagoner, demonstrator for Sherwin Williams Co., projected a film showing the new type of foil wallpaper as well as a removable paper that householders can move as they move. She also displayed carpet samples, and told the club several ways to decorate rooms for youth.

The club's party for geriatric patients in Unit 10 NW at the Big Spring State Hospital will be at 10 a.m. on Dec. 10. The club also donated \$5 to the BSSH Christmas Fund.

Guests were Mrs. C. L. Mason and Mrs. J. H. Gross.

Area Citizens Visit Families

FORSAN (SC) — The T. R. Camps have returned from a vacation trip to Skatook Okla., where they visited their son-in-law and daughter, the Pat Bruntons. They also visited the A. L. Hawkins in Graham.

Mrs. J. H. Cardwell is in San Antonio visiting her granddaughter, Mrs. Paul Garone, and her husband. The L. S. Camps were in Odessa last week for the Oil Show and visited their son-in-law and daughter, Mr. and Mrs. Boyd Brawley.

Planning Ahead Is Speaker's Advice

Emphasizing the importance of planning ahead in gardening, Bruce Griffith, county agent, spoke to the Men's Garden Club Tuesday at the U.S. Experiment Station.

The agent said now is the time to "put the fall garden to bed," and start planning for next year. Dealing primarily with vegetable gardens, he suggested that gardeners plant only those plants that do well in this area. He said crops should be rotated in all instances

PATTERN DEVELOPERS C. B. Brook, Helen Lemay

Pattern System To Be Offered

The Sunburst Pattern System of pattern construction, developed by C. M. Brook and Helen Lemay, will be taught at the local YMCA, Wednesday. Ms. Lemay will make the presentation, and a lecturer's fee will be charged.

The story of how the new system came about began in 1969 when the developers were traveling the United States for a pattern company, giving lectures on conventional fitting problems. Finding that many home sewers were unable to get satisfactory garment fit without making alterations, they decided to do something about it.

"We knew that in order to overcome the problems they

Xi Mu Hears Discussions

Mrs. Eldon Marsh led the program for Xi Mu Chapter, Beta Sigma Phi, Tuesday in the home of Mrs. James Lewis.

Members gave their views on selected questions pertaining to preferred gender, character, environmental factors, personal evaluation and time element of existence.

Mrs. Marsh closed her program by reading an original poem she wrote entitled, "How To Be A Real Person."

Mrs. Bill Szymanski sang "It's Not the First Mile That's So Important," accompanied by a piano recording by Mrs. Polly Settles.

The chapter voted to contribute funds to the state project for research on autistic children.

Mrs. Ted Hicks, 4061 Vicky, will be hostess for the Nov. 12 meeting.

Fall Carnival Is Saturday

The Park Hill School Parent-Teacher Association is sponsoring a fall carnival at the school Saturday from 6 to 9 p.m. Beginning at 6:30

p.m., food will be served, including corn chip pie, coffee and homemade pie and cake. Numerous game booths will provide fun for the entire family. Mrs. Wade Choate, chairman, said proceeds will be used to help pay for air conditioning in the school.

Swingline HEAVY DUTY STAPLE GUN

All kinds of heavy duty stapling projects go fast and easy with the Swingline 800X chrome finish staple gun. Recover furniture, install ceiling tile and insulation. Drives 5 staple sizes. Built-in staple remover.

Plan For Central Tax Office Here Explored

By MARJ CARPENTER
A decision to explore the possibilities of setting up a local tax office to serve all four taxing agencies was reached at a committee meeting at noon Thursday, in which the city, college, county and schools were represented.

Harold Davis, one of the college board representatives, made this motion after an hour-long discussion by the group. Dan Wilkins of the school board seconded it and it passed unanimously.

Don Crockett, school business assistant superintendent, acting as chairman of the committee appointed Mrs. Zirah Bedner, county tax assessor, as the school tax director, and Robert Massengale, city finance director, to serve as a sub-committee to study details of setting up an office with the expenses to be pro-rated among the agencies.

All of the group at the meeting agreed that they wanted to take this route, but disagreement centers around where to place the responsibility for the agency.

DIFFERENT REASONS
Both the schools and the city indicated that they would rather it would not be placed under an elected official's jurisdiction because of pressure. Mrs. Bedner, elected county tax assessor, believed that it should be in that office because of experience and duty. Dave Brazel, head of the equalization board, pointed out that the city had the computing equipment.

Roy Watkins, school board president, pointed out that everyone at the meeting had to go back to their respective boards to discuss the matter before any decision could be made.

All of the groups agreed that the present service had been understaffed in Big Spring.

The group also again discussed the fact that the tax values are set on 1958 values. Jack Buchanan expressed the hope that if they ever did re-evaluate, he hoped that no taxpayer would be placed on the tax rolls until they all could be equalized for fairness.

COSTLY
The group agreed that if re-evaluation did come about and values were brought up to market value, there would

have to be downward adjustments in the tax rates. However, the re-evaluation itself would cost close to \$200,000 and the tax groups would not expect to take a loss on the project.

There was no decision made in regard to re-evaluation or any plans

announced by any of the four groups for re-evaluation at this time. They did not even discuss taking this matter back to their respective boards.

Representatives appointed to the committee, and attending, included Bill Crocker, Dr. Charles

Warren, Dr. Charles Hays, Dr. Emmett McKenzie, Roy Watkins, Dan Wilkins, Harry Nagel, Crockett, Massengale, Brazel, Buchanan, Davis, Hagood, and Mrs. Bedner. Jerry Jenkins and Harold Hall, appointed to the committee, were out of town.

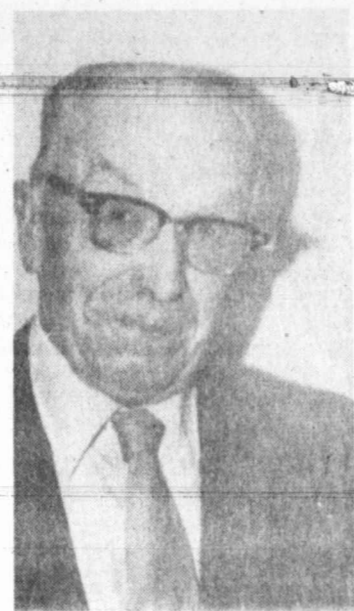

Cap Rock Co-Op To Honor Wood

John J. Wood, who retired officially from Cap Rock Electric Cooperative Oct. 20, will be honored Sunday 3-5 p.m. at a reception at the Cap Rock auditorium in Stanton.

Women members of the headquarters staff will serve as hostesses, and James Eiland, manager, will make a presentation to the veteran employee.

Wood joined Cap Rock Nov. 20, 1952 as a material man, became warehouse supervisor, and for the past decade or so has been purchasing agent.

He was born Oct. 22, 1906 at Philadelphia, Pa. and finished school there, working with North Bros. Manufacturing Co. from 1923-52. In the Depression days, he moonlighted across the river by playing banjo and mandolin in Trenton, N. J. clubs.

JOHN J. WOOD

Plane Crash Claims Three

HENDERSON, Tex. (AP) — Wreckage of a light plane that disappeared Oct. 8 on a flight from Henderson to Houston has been found in a Rusk County pasture three miles south of the Henderson airport.

Authorities said the pilot and two passengers were dead.

They were identified as Everett Harris, the pilot, and his wife, both in their 60s, and James Lloyd Roman, 35. All three were from Houston.

Authorities said the plane was found in a heavily wooded area by a caretaker and probably could not be spotted by air.

When World War II came on he served from 1942-45 and while in training at Camp Barkley in Abilene, he met Pauline Harrell, the daughter of Rev. and Mrs. James E. Harrell, well known in West Texas Methodist circles, a teacher then in Sweetwater schools. They were married July 3, 1946. After the war, they went to Philadelphia, but in 1952, they came back to Texas and to Stanton.

Wood has been active in the Stanton Lions Club, serving as its president, zone chairman, district deputy governor. He also is a steward in the First United Methodist Church of Stanton.

Morgan Well Completed

Tom Fowler, No. 1-D Morgan has been completed as a south extender to the Morgan Ranch (Fusselman) field southeast of Big Spring. Flowing 24 hours through a 2 1/2 inch well, the stepout made 264 barrels of 50 gravity oil with a gas-oil ratio of 1.875-1. Production came from perforations from 9,648-57 and 9,68-82, washed with 500 gallons acid. Casing had been set at 9,734, total depth.

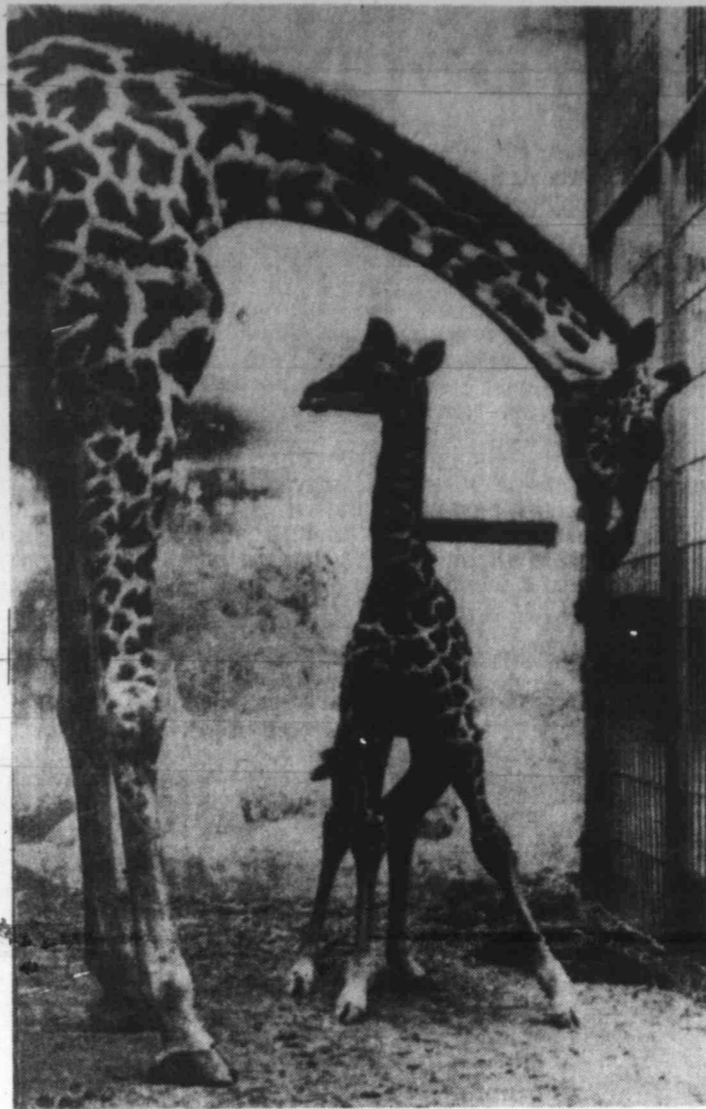

Location is 540 feet from the north and 1,980 feet from the east lines of section 34-32-1, T&P. The well is rated as the best in the field.

In southwest Sterling County, Dorchester No. 230, Foster-Conger perforated the Canyon from 7,141-204 and the Cisco from 6,796-880 and was flowing to test. Total depth was 8,465 with the 5 1/2 inch string set at plugged back depth of 7,450.

Dorchester No. 1, Cooper drilled below 7,611 in lime, sand and shale. Dorchester No. 1-19 Conger was at 3,477. Near Sterling City, Sameday No. 1 Durham was below 1,510 feet in redbeds. Mitchell Energy No. 1 Waldrop in Dawson county was reported taking a drillstem test after bottoming at 4,385.

Donor Dies

CAPE TOWN, South Africa (AP) — Joseph W. Pritchard, 73, who set a world record by donating more than 200 pints of blood in his lifetime, has died here.

NEW ADDITION — Myrt, a giraffe at the Washington National Zoo, towers over her new daughter, Gwendolyn, who was born at the zoo on October 11. The baby giraffe was named in honor of Washington hostess Mrs. Gwendolyn Cafritz.

Ex-Poster Child Proud Mom Of 'Four Broads'

SAN ANTONIO, Tex. (AP) — Sheila Hansen, who was a March of Dimes poster girl and unable to walk as a child, gave birth to identical quadruplet daughters Thursday night.

Attendants reported there were no complications and mother and babies, all four placed in incubators, were doing well today.

Mrs. Hansen, 28, went to the delivery room at Southwest Texas Methodist Hospital at 11 p.m. and the first infant was born 21 minutes later. The last arrived at 11:37 p.m.

The quadruplets, in order of arrival, were four pounds 12 1/2 ounces in weight and 18 inches long, four pounds two ounces and 17 1/4 inches, four pounds 10 ounces and 17

inches and three pounds 10 ounces and 17 1/2 inches.

Mrs. Hansen and her husband Alton, 30, decided to have another child against the advice of doctors. They have two other daughters, 5 and 7.

Attendants said the infants were delivered after eight months and one day of gestation.

Mrs. Hansen was selected March of Dimes poster girl while living as a child at Denison, Tex. She was unable to walk for 10 years but now gets around without trouble.

Her husband, a wholesale liquor salesman, smiled expansively in telling about the new additions to family. He held up four fingers and beamed, "Four broads!"

MANDATORY CONSERVATION OF GAS Project Independence

WASHINGTON (AP) — A major government study says the United States can become independent of foreign oil by 1985, if it promotes both increased domestic oil production and mandatory energy conservation.

Beyond 1985, this draft of the "Project Independence Blueprint" warns, the nation faces the prospect of a new energy crisis as its oil and natural gas supplies finally start to run out.

The study, while making no specific recommendations, states a strong case for adopting such mandatory fuel saving measures as a gasoline-mileage standard for cars, and lighting and insulation standards for buildings.

STRETCH IT OUT
Energy conservation, it says, would:

- Reduce inflation
- Stretch out dwindling oil and gas supplies.
- Reduce environmental damage.

Save money for productive investment in other activities.

Help reduce present high world oil prices.

And put the nation in better shape to meet the threatened energy crisis of the 1990s.

The study finds only two major objections to mandatory conservation: the danger that it could, if pushed too far, slow economic growth; and the problem of increased governmental intrusion into the energy market.

IRONIC TWIST
But the study also notes that the government must also involve itself in the market in other ways to speed domestic energy development.

In an ironic twist, it says new energy production efforts could turn out to be self-defeating unless the government steps in with subsidies or price supports.

One of the most important, and most unpredictable, factors in energy policy making is the world price of oil, the study concludes.

It makes a highly uncertain guess that the price

may fall from around \$11 a barrel to about \$7 a barrel, but concludes that the lower prices would actually make it harder for the United States to pay its foreign oil bills and protect itself against a new oil embargo. That is because it would actually stimulate the United States to import more oil.

EMBARGO
Accelerated U.S. oil

Time Change

WASHINGTON (AP) — Clocks will be turned back one hour Sunday in nearly all of the United States as the nation goes on standard time for the four winter months.

The nation has been on 10 straight months of Daylight Saving Time in an experiment designed to save fuel during the energy shortage.

In a report accompanying time-change legislation signed by President Ford Oct. 5, the Senate Commerce Committee said energy savings "must be balanced against a majority of the public's distaste for the observance of Daylight Saving Time" during the winter.

Under the new law, the nation will revert to daylight time on Sunday, Feb. 23, 1975.

The change will not affect eastern Indiana, Arizona, Hawaii, Puerto Rico, the Virgin Islands and American Samoa, all of which remained on standard time during the experiment.

In addition, 66 counties in Kentucky that had been switched from the Eastern Time Zone to the Central Time Zone will return to the Eastern zone on Sunday. Clocks thus will not need to be changed in those counties.

production would help drive down the foreign price but, by the same token, the United States would itself become less competitive, the report says.

Thus, it concludes, successful domestic development may require government aid or price support to prevent its collapse if foreign oil prices drop.

Project Independence, a proposal to become independent in developing energy, was set up by former President Richard M. Nixon during the Arab oil embargo last winter. An advisory panel of 24 persons, largely from business, government and labor, was appointed last June to help develop the report.

The study, some 1,100 pages thick, was still being circulated for comment among federal agencies, but a copy was obtained by The Associated Press.

A final version is to be published about Nov. 7.

Will Fire 377 For Corruption

SAIGON, South Vietnam (AP) — President Nguyen Van Thieu's government is firing 377 officers for corruption, the defense ministry announced today.

It was Thieu's second action this week to quiet criticism of his regime in the United States Congress and at home. On Thursday, he fired four members of his cabinet, including Information Minister Hoang Duc Nha, a relative of the president and his closest confidant.

A defense ministry spokesman said the officers to be dismissed had been "corrupt and dishonest." It said they included 20 colonels, 101 lieutenant colonels and 256 majors.

A number of junior officers also will be dismissed for corruption, the spokesman said, but it did not say how many.

It said the dismissals would begin Nov. 1 and would be completed by the end of December.

There was no immediate reaction to today's announcement, but initial reaction from anti-Thieu political leaders to the firing of the four cabinet ministers indicated it would not end public demonstrations charging the president with corruption and mismanagement and demanding his own resignation.

The demonstrations, the most serious Thieu has faced in three years, are an outgrowth of disenchantment with the continued fighting, the lowered standard of living, inflation, unemployment and the failure of the government to provide promised social reform and restore civil liberties.

Jobs Available Through CS

The United States Civil Service Commission announced that it is accepting applications for Junior Journeyman positions in Big Spring and El Paso.

The positions are open for a locksmith, a wood craftsman, refrigeration and air conditioning equipment mechanic and a building maintenance man.

Salaries range from \$4.20 to \$5.76 per hour and applications must be received by the El Paso Area Office or postmarked by Nov. 8.

Further information can be obtained by calling 800-592-7000, toll free.

Hospital Guarantee

FINDLAY, Ohio (AP) — Blanchard Valley Hospital has started an experimental program guaranteeing hospital services. Dissatisfied patients won't have to pay their bills.

The guarantee covers services such as nursing care, food and housekeeping, but it does not include the services of physicians and dentists or results of medical care.

Administrator William Ruse said Thursday that patient complaints will be investigated by a panel of administrative staff members to make sure they are justified and to determine where improvements are needed.

He said the guarantee program is designed to give patients some assurance upon entering the hospital and possibly "help the patient get well a little bit faster."

The hospital has 500 employees and admits about 10,000 patients a year.

Save, But Not Cease

The Ford Foundation recently released some interesting results of a study it has conducted on the nation's energy problem. The study suggests that the United States cut the growth of its energy demand rather than go to the expense of finding new energy sources. It claims that through improved efficiency zero energy growth can be made after 1985 without sacrificing economic growth. It sharply questions many present and contemplated policies of the government. It would rather have emphasis shifted to energy conservation rather than developments of high new energy sources.

Four main energy-saving steps proposed by the study include a shift of federal research money toward energy conservation technology; changes in electricity rates to end the special discounts that encourage industries to use more electricity; federal loans to help home owners and small businessmen finance in-

ulation and energy-saving devices; and mandatory minimum standards for automobile fuel economy. The study obviously is correct in its effort to cut

down energy waste, but it is folly to advocate a standstill policy. The progress curve is essentially the energy curve.

Not Tit For Tat

Plans seem to be proceeding on schedule for next summer's joint mission in space of American astronauts and Soviet cosmonauts. Unfortunately the same spirit of cooperation won't exist on the ground for the historic mission.

While Russian newsmen will be welcome at Cape Canaveral for the liftoff of the American spaceman, the Soviet Union isn't extending the same privileges to American newsmen. The Russian launching site at Baykonur will be off limits to foreign newsmen, including Americans, when the cosmonauts are rocketed off into space.

Some softening of the Russian position has been noted, however, and with the exception of the launch site, the Soviet space program will be opened to U.S. visitors as never before. That's a step in the right direction, but it's apparent that even in the current era of détente the Russians aren't extending the warm hand of friendship too far at a time.

There's always the possibility that Soviet policy regarding coverage at the Baykonur site will be altered, but U.S. space officials aren't counting on such a happening.

Top Pick Possible

Troy Bryant

I HATE TO SEE him go, but at least Craig Morton will log some playing time for the Giants, and he won't face the Cowboys this season, unless he does it Sunday. Sunday's game with the Giants is the last of the home and home engagement for the teams this year.

Perhaps the deal could net the Cowboys another number one draft pick for 1975. The Giants have one of the worst records in the NFL, and if they continue to have the worst record, that first round draft pick they gave for Morton may be a pretty valuable pick.

In that case, the Cowboys would get another chance at the top athlete in the college ranks when draft time rolls around. This year they obtained the number one pick from the Houston Oilers.

HAVE YOU ALWAYS wondered about what you would do if you had to return to your storm damaged home? Have you wondered how you can cancel door-to-door sales? Have you wondered how to get more miles to the gallon out of your car? If you answered yes to any of the above questions, then the U. S. Government has a few answers for you.

The consumer information center

offers pamphlets to consumers covering hundreds of topics from "How to Buy Antifreeze" through "Tent Flammability" to "Prohibiting Delivery of Offensive Mail."

The booklets are available free in most cases and the prices go up from there. Pick up a list of these publications at the post office.

ITS ONLY A MATTER OF TIME before the Aggies bite the dust, and we Red Raider fans hope it happens soon and in Southwest Conference play.

Everything would be just fine if Texas beat A&M, creating a three-way tie for the conference title. In that case, Tech would go to the Cotton Bowl for the first time as a Southwest Conference representative.

Conference rules say that in case of a tie, the team with the longest absence from playing in the Cotton Bowl represents the conference in that classic.

Everybody but Baylor has been to the Cotton Bowl since Tech has, so color that cotton red.

Maybe you heard how to keep an Aggie from beating his wife...you paint her orange.

My Answer

Billy Graham

I am 17 years old, and have many questions about Christianity. One is about the devil. When things go wrong, you say that God is not responsible. Does this mean that the devil has power equal to God's?

C.M.
First, let me define Satan or the Devil. He is a created but evil superhuman world power. He is personal, and represented in Scripture as the adversary of both God and men. Our Lord simply describes Satan as the "evil one" (Matthew 13:19).

Actually, I think you'll find that in the Bible, the evidences of Satan's direct agency in the physical world are limited. His principle power consists in his ability to deceive; which is consistent with his character as a liar.

In his temptation of Christ for example, it was a deceitful attack emphasizing the good and minimizing the evil. Luke 4:6 explains how he could do this by being given a certain authority.

Satan is called "the god of this world" (2 Corinthians 4:4), and it's the New Testament that unveils him as a rebellious world power. But he is not Divine, and while his powers are vast, they are not unlimited. Never is he to be considered as

God's equal in power, and one day, thanks to the sacrifice of Christ, he will be finally and totally destroyed.

Veep Mandate

Marquis Childs

NEW YORK — Before the Senate rules committee can reconsider the nomination of Nelson Rockefeller three months will have passed. Then with the turn of the House Judiciary Committee, it may be the end of the year or perhaps the new year and a new Congress when a vote on confirmation finally comes.

THIS MEANS that for four months or longer the office of the vice presidency will be unfilled. In that interval, if an accident should befall President Ford, Speaker Carl Albert would inherit the office. Albert has made no secret of his own feelings of inadequacy and his sense of dread that such an accident might occur.

What this says about the 25th amendment as a means for choosing a vice president hardly needs underscoring. It says something, too, about the workability of the system itself in a time of stress and strain with few parallels.

URGING SEN. Howard Cannon's rules committee to convene a session before the congressional recess so he could testify about the gifts disclosed in leaks to the press, Rockefeller was only too well aware of what had not been the subject of his interrogation in the first round of hearings.

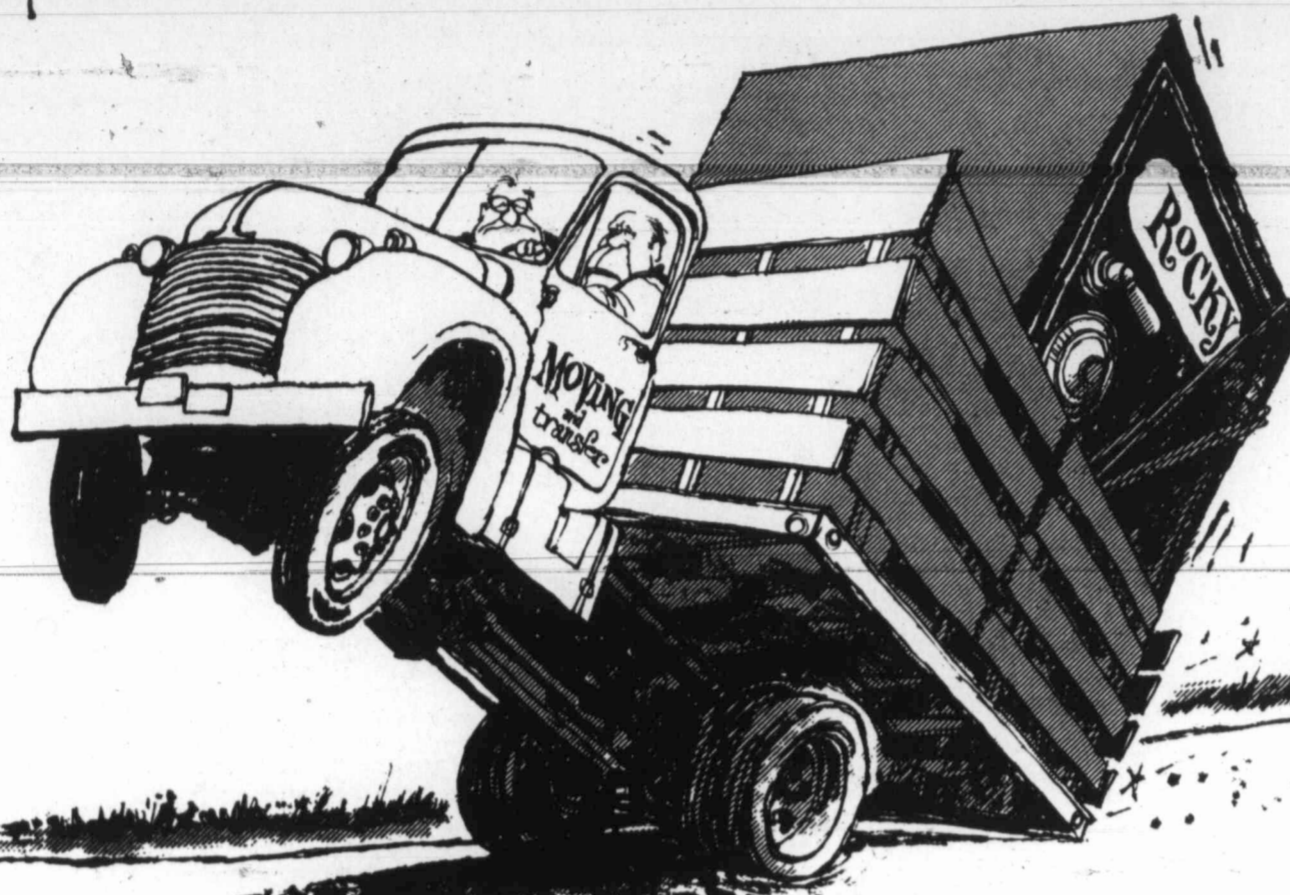

The committee at that time was in possession of Rockefeller's income and gift tax returns and the 2,000 pages of FBI report. If they had chosen to question him then about these gifts he would have made the formal statement that he sought in vain to put in the record under oath before the congressional recess.

NOT SO MUCH committee members as committee staffers are believed to have leaked the information that has made daily headlines. As the former governor has noted, it is against the law both to disclose information from federal income tax returns and to publish it.

With that square jaw clamping down hard, there can be no doubt that Rockefeller intends to see this through. After all, as he says, he has been in the rough and tumble of politics for 34 years. And politics in New York state can be rough indeed.

Arkie Retires

ST. LOUIS (AP) — Pat Mehaffy, who retired as chief judge of the U.S. 8th Circuit Court of Appeals on Aug. 31, was the first Arkansas native to serve in that position.

"I THOUGHT IT MIGHT BE UPHILL FOR A WHILE, NELSON, BUT THIS IS RIDICULOUS."

Recession Ahead?

John Cuniff

NEW YORK (AP) — More quickly than many people realize, the nation's No. 1 economic problem, inflation, as declared by various officials from the President on down, might be slipping into second place behind recession.

While food price inflation is likely to continue for many months and even years, declines are beginning to appear in some commodity prices, indicative of retail price declines in months to come.

Shortages in some product areas, such as lumber, are being eliminated, and price negotiating rather than price dictatorship has been resumed. Consumer buying resistance is mounting. Joblessness is rising.

Manufacturers, while still planning price increases, are beginning to complain about declining sales. Union leaders continue to talk about wage increases while gradually becoming more concerned with job security.

Such changes are inherent in a free economy, which has a tendency to over-react to the marketplace. Suppliers

rush in where a shortage of goods exists, soon oversupply the market, and then back out, leaving it undersupplied again.

This economic cycle has been the bane of all modern political administrations, which seek to flatten the curve and eliminate the excesses. But as often as not, it seems, government intervention makes the curve even more pronounced.

Some businessmen believe, in fact, that President Ford's recent home economics speech will have that impact. Still maintaining that inflation is the primary problem, Ford tried to talk down economic activity.

Save your money, balance your budget, avoid waste, economize, the President told Americans. And Lynn Townsend, who believes recession is the big problem, immediately blamed the President for a dip in sales at Chrysler Corp., which Townsend heads.

While distressed that so many Americans apparently agree with Ford that a conservative posture is the

correct one, Townsend himself goes about economizing, eliminating waste, attempting to balance his own company's budget.

In the opinion of many economists, the two attitudes demonstrate the changing nature of the nation's economic problem. The kaleidoscope has been shaken, and suddenly the perceptive viewers discover a brand-new scene.

That a critical turning point may have been reached, or at least is being approached, is seen also in the insistence of some administration personnel, including the President himself, to decry the likelihood of recession while others are crying out their fears.

Paul McCracken, the University of Michigan economist who helped formulate some of the Ford program but who seems not to believe enthusiastically in all of it, feels a recession is just ahead.

The consumer makes up his own mind. It is he, in a mass consumption economy, who dictates the course of events.

Ear Ache--Or Infection?

Dr. G. C. Thosteson

Dear Dr. Thosteson: Is there any way of telling the difference between an ear infection and an ear ache?

My son, 8, has had a number of ear infections diagnosed — most recently he had fluid in the ear and his hearing was temporarily impaired.

If the pain is very severe (no fever) but leaves after several hours with only the aid of home remedies, is it safe to assume that the remaining "clogged-up" feeling will be temporary and not the result of any damage? We do not believe in running to the doctor for every minor ailment, but do now want to be neglectful — C.W.

First and foremost, an ear ache is a sign of trouble.

Usually, but not always, it is due to ear infection. Fluid can come with the infection which puts pressure on the ear drum, bulging it and impairing hearing.

The pain in such a case can subside if the ear is lanced to let the fluid escape, or if the ear drum ruptures. (Less damage likely if in such cases the drum is lanced. Likewise relief is quicker than waiting for the drum to rupture.)

In the particular instance you describe, no, you can't assume that the clogged feeling will be temporary. It implies that something is still wrong — possibly scar formation, perhaps a plugged Eustachian tube, possibly even chronic adenoid or tonsil infection.

The use of heat (such as warm oil drops, or a heating pad) may help, but do not think of an ear ache as a minor ailment. Only too often periodic ear aches are flare-ups of a smoldering infection that can fluctuate in intensity — but the chronic infection is far too likely to cause increasing impairment of hearing until the basic trouble is identified and treated effectively.

Dear Dr. Thosteson: I'm terrified. I have a very regular menstrual period usually, once a month, but I haven't had one for six weeks.

I don't see how I could be pregnant. I haven't been near any males. I don't feel sick at all. How do you tell? Could it be something besides pregnancy? I haven't told anyone yet and I'm desperate. I'm 14 years old — G.R.

Under the circumstances you can stop being so desperate. You haven't been near any males, so you aren't pregnant. At your age, unpredictable variations in menstrual rhythm are very common.

Dear Dr. Thosteson: My grandson has a tattoo on his arm. Now he wishes he hadn't. Is there any way to have this removed? Several people have told us no but they may not know. — Mrs. J.L.

The soundest answer I can give to such a question is that you (or rather your grandson) consult a dermatologist (skin specialist) or possibly a plastic surgeon. It is entirely possible to remove or obliterate a good many tattoos, but a good deal depends on the depth of the tattoo and other technical considerations.

How to get rid of leg cramps and foot pains? The answer may be simple — write to Dr. Thosteson in care of the Big Spring Herald for a copy of his booklet, "How to Stop Leg Cramps and Foot Pains." Enclose a long, self-addressed, stamped envelope and 25 cents.

May Win—Tarnished

Robert Novak

CONWAY, Ark. — Rep. Wilbur D. Mills probably will win a 19th term in Congress, but the jarring change in his treatment by the folks back home was mercifully evident during his first full day of campaigning following the Tidal Basin gaucherie.

MILLS WAS VISIBLY SHAKEN at Conway High School when students hooted and whistled at his brusque answers to probing questions. When Mills ignored the Tidal Basin in addressing Conway's civic clubs, some businessmen grumbled he was taking too much for granted. After strolling through the Wilbur D. Mills Center for Social Studies now under construction at his alma mater, Hendrix College, he was interrogated by newsmen who visited to the Silver Slipper striptease joint.

AS THE IMPERIOUS chairman of the House Ways and Means Committee, who has made presidents tremble, Mills is unaccustomed to such treatment. Nevertheless, except for obvious displeasure with the high school students, he disguised emotion and coolly discussed the economy in the authoritative, lucid style that has awed the House for two decades. Indeed, he will answer no more questions about his personal life.

The overwhelming consensus is that this strategy will bring victory in the first real challenge to Mills since his first-term primary election in 1938, if only because his Republican opponent, Judy Petty, is a 31-year-old divorcee and neophyte candidate. But the stunned disappointment among his constituents suggests Mills might be in deep trouble against a more formidable foe.

MILLS'S PROBLEMS at home started with his abortive campaign for president in 1972. This year's linkage of that campaign with milk lobby contributions shocked constituents. Although Mills had privately predicted Mrs. Petty could get no more than 15 per cent, a recent poll gave her 40 per cent.

Still, Mills declined to campaign.

He sent back all contributions (including \$300 from Henry Ford). When a labor official informed him that steelworkers union members at the Alcoa chemical plant in Benton were dropping him for arch-conservative Petty, Mills took no action to woo them back.

WAITING A WEEK after the Tidal Basin incident before returning home permitted opposition to solidify. His contrite opening speech to the Little Rock Jaycees was ineffective. But there is doubt whether he can now be silent about the incident any more than Thomas Eagleton, Edward M. Kennedy and Richard M. Nixon were able to halt exploration of their more serious difficulties.

The most concise election appraisal was delivered by an aged lawyer encountered by Mills last week in the dusty corridors of the Cleburne county courthouse in Heber Springs. "Wilbur," he croaked, "if it weren't this divorced Republican woman but some man in a Democratic primary, I don't know if you'd make it."

APART FROM HER sex and marital status, Mrs. Petty seems ill-equipped to challenge Mr. Taxation. How much would her proposed tax package lose in revenue? She wasn't sure, but told us a reporter for the Wall Street Journal estimated \$10 billion. That, however, covered only an increase in personal exemption. The entire package would probably lose the Treasury over \$15 billion.

"We love and respect this man," one VFW member told us. "We can forgive one bad night, one mistake."

SUSPICIOUS ARKANSANS are divided whether to accept this, but not all the skeptics consider Mill's private life as cause for ending his public career. "I feel ashamed and let down by Mr. Mills," a little old saleslady in Little Rock told us. But she does not want a memorable career to end on so shabby a note and will vote to send "Mr. Mills" back to Washington to redeem his reputation.

Dangerous Tree

From time to time, when the west wind blew, twigs and leaves from Fred Miller's poplar tree fluttered into a neighbor's back yard. Resentful, the neighbor finally took the matter into the courtroom.

"IT IS UP TO MILLER to keep his litter out of my yard," he told the judge. "If there is no other way, then let him cut the tree down."

But the court refused to mix in. Noting that the tree was located entirely on Miller's land, the court said he could not be blamed for the natural process of shedding.

GENERALLY SPEAKING, the law will not interfere with natural growth on private property.

Thus, another man was held entitled to maintain four large maple trees on his land even though they kept a neighbor's house in the shade. The court said his freedom to use his own property outweighed the indirect annoyance to the neighbor.

ON THE OTHER HAND, the neighbor may have a valid claim when the injury he suffers is

more substantial. Thus, when branches actually spread across the property line, most courts give the neighbor the right to chop them off at the boundary.

Furthermore, a neighbor usually has grounds for suit if a tree threatens his safety. Another case involved a badly decayed elm, standing near a back yard fence. The next door neighbor, fearful of an impending accident, warned the tree's owner of the danger — to no avail.

ONE MORNING, during a storm, a heavy bough split off and fell across the fence, smiting the neighbor on the shoulder. Under these circumstances, the owner of the tree was held responsible for the neighbor's mishap.

The court said he had no more right to keep a dangerous tree on his property than to keep a dangerous building.

(A public service feature of the American Bar Association of Texas. Written by Will Barnard)

A Devotion For Today

"Make a joyful noise to the Lord, all the lands!" (Psalm 100:1)
PRAYER: May this day, O Savior, be one in which I experience the joy of Thy salvation and find new depths of meaning in the prayer given to Thy disciples long ago. Amen.

Oatmeal Real 'Hot' Cereal

BATTLE CREEK, Mich. (AP) — More than 8 million Americans a year sit down to eat a bowl of hot oatmeal on an average morning — half

again as many as eat any other hot or cold cereal — and this number is growing by leaps and bounds. According to an industry spokesman, the burgeoning consumption of the wholesome cereal is due largely to "its economy compared with other hot breakfast foods and the

introduction of convenient, new instant oatmeal varieties and flavors." The spokesman also reports that the on-coming cold weather months will increase the cereal's popularity even further. "People buy about twice as much oatmeal in January as they do in July," he said.

Glasscock's '74 Gold Star Winners Named

Mark Werst and Phyllis Johnson were named 1974 Gold Star winners at the Glasscock County 4-H Achievement Awards program Tuesday.

Mark, 16, is the son of Mr. and Mrs. Oliver Werst, Garden City. He has been a 4-H club member for eleven years and has carried on projects with lambs, steers, public speaking, 4-H soil science, and range management. He has been a member of the livestock judging team and attended the State 4-H Round-up twice on this team. He has shown two champion lambs and four reserve champion lambs at the county livestock show and two reserve champion steers, and has won the sheep showmanship award twice. He is a member of the District 4-H Council.

Phyllis, 18, is the daughter of Mr. and Mrs. James Johnson, St. Lawrence. She is a senior in high school. She has been in 4-H club work for 9 years and has carried out projects in clothing and foods. She participated in the State 4-H Round-up and Food Show and attended the State 4-H Congress in 1974. She has won county awards in dress revue, dairy foods, home management, food preservation, foods and nutrition, clothing, and breads.

One-hundred parents and 4-H members attended the banquet that was presided over by Kenny Batla, president of the St. Lawrence 4-H club. Sandra Schwartz and Wayne Hirt led the group in the Pledge and motto. Jan Hirt gave a report on girl's activities for the year; Mark Werst reported on livestock show activities; Chrystal Overton reviewed the judging and demonstration team work.

Kathryn Luckenbach, county home economist, gave out the girls awards and presented a slide program on the new state 4-H Center at Brownwood. Oliver Werst, county agricultural agent, presented the boys and livestock feeder awards.

Lonnie Pruitt closed the program with the 4-H creed. Other Award winners were:

Achievement — Jody

School Fighting

CHARLOTTE, N.C. (AP) — Racial fighting erupted at a high school here about four hours before Boston pupils observing school desegregation were to start home. Principal H. L. Hawkins said he did not know what caused the fighting Thursday at Independence High School but he was checking a report from a teacher that some drugs were stolen from a pupil the day before.

It was the first racial fighting this year at Independence. Similar violence broke out last week at Olympic High.

The Olympic incident caused an official of the Boston School Committee to say Charlotte was not a good model for studying desegregation. Symbolically, the committee recalled the delegation of two white and two black pupils and their adult chaperone. It told them to come home Thursday, although they were to have done so anyway after a visit of two and one-half days at the invitation of West Charlotte High pupils.

West Charlotte, a formerly all-black school, is now 60 per cent white.

The fighting at Independence High broke out before classes were to start. A white youth was taken to a hospital with an eye injury. Four other pupils suffered injuries not requiring hospital treatment. Authorities said a teacher was assaulted but not injured.

Nine black pupils and one white were arrested. Police said charges against them included carrying concealed weapons, assault and disorderly conduct. Independence High has 2,200 pupils, 30 per cent of them black.

Hawkins said, "We had only 20 to 25 students at the most involved in the fighting.

MARK WERST

OU Not Worried About '8' Game

By The Associated Press
The game is called football. Say it over and over again. The game is called football. Memorize it.

And remember it Saturday when:

—No. 1 Ohio State meets Northwestern.
—No. 2 Oklahoma meets Kansas State.
—No. 3 Michigan meets Minnesota.
—No. 4 Alabama meets Texas Christian.

And if it doesn't look like football when it's all over, also remember that it would be an understatement to say the first four teams in the Top Ten are heavily favored.

Ohio State, 6-0 and nursing a 17-game unbeaten string, is led by Archie Griffin, who probably will match a national college rushing record by gaining more than 100 yards in his 17th consecutive game against the 15 Wildcats.

Complementing, even rivaling, Griffin is Buckeye quarterback Cornelius Greene, who leads the Big Ten in passing, total offense and scoring.

In the Big Eight, Oklahoma, 5-0, is a five-touchdown favorite over Kansas State, and Oklahoma Coach Barry Switzer hasn't even bothered to examine Wildcat game films. That's how worried he is.

The Michigan-Minnesota game is a rivalry that dates back to 1909 when the battle for the Little Brown Jug began. Michigan has won the past six meetings in the Big Ten series and will be protecting a 32-game unbeaten streak at home.

The Wolverines, 6-0, lead the conference in defense and will have the job of containing Gopher fullback Rick Upchurch, who anchors a Minnesota team that's second in conference rushing behind Ohio State.

Alabama, 6-0, is an overwhelming favorite over TCU, despite some quarterback problems. Robert Fraley and Jack O'Rear filled in for Gary Rutledge and Richard Todd, both injured, in last week's 28-6 victory over Tennessee. Todd may see some action this week.

In other contests involving ranked teams it's Oklahoma State at No. 9 Nebraska, Florida State at No. 5 Auburn, Oregon State at No. 6 Southern Cal., Miami of Florida at No. 7 Notre Dame, No. 10 Penn State at West Virginia, No. 11 Texas at Southern Methodist, Duke at No. 12 Florida, No. 17 North Carolina State at No. 15

Crane JV Stops Win

CRANE — Two costly fumbles cost the Coahoma Junior Varsity their seventh win in a row Thursday night here as the Crane JV's took a 13-8 win over Coahoma.

Coahoma scored on their first series, driving 13 plays and scoring on a five-yard run by Ken Kelso in the first quarter. Jim Bob Phillips scored the extra points and Coahoma led 10-0.

The fumbles came in the second quarter on the rain slick field, and Crane took advantage of them, scoring twice to take the lead.

Neither team could score in the second half.

Both teams gained nine first downs in the game but Crane outgained Coahoma 167 to 137 in total offensive yards.

Next Thursday, the Coahoma team will host the Big Spring Brahmas in a 7:30 game.

A state rating has programmed Lee a 20 point favorite over Dig.

Cotton Bowl fever? Willard L. Thompson just sent in an order for ten tickets to the Cotton Bowl Classic. So? So Willard lives in Anchorage, Alaska, just a c-o-o-l 2,900 miles northwest of the stadium.

A man with determination, self discipline, 4.6 speed and an honest desire to make good will probably find a niche for himself in any field he chooses for the future.

Fullback Pat McNeil fills all of those qualifications and right now it's getting Baylor a winning season ... and a chance, yes that's right, a bowl bid.

The Baylor-Arkansas game in Waco Saturday will highlight annual homecoming activities. Bear members of the 1924 SWC championship team are to be honored.

Mike Smith, Southern Methodist football center, suspended from play for NCAA rule violations, has become a "Student coach."

Howard County, readying for the cage season early next month, have stepped up preparations. The Hawks encountered Ranger Oct. 22 in Abilene and Western Texas Thursday in the Hawk gym. Against Ranger, HC lost first and third period of play, 36-33 and 41-30, but took the second, 39-32.

In the Western game, the Hawks trailed all three periods, 56-52, 39-35 and 27-18. Marvin Johnson hit 18, followed by David Giles and Ernest Lawrence, 16 each, and Larry Erves, 15.

Both Ranger and Western feature five sophomores in the lineup. Hawk coach Howard Wilder said, "Purpose of a scrimmage is to improve a team's timing. See what we need to improve on. Most of the members are strangers to each other and it takes a while to make the adjustment."

Howard College tackles another scrimmage Tuesday against McMurry JV in Abilene.

Big Spring High basketball, coached by Ron Plumlee, will conduct an open scrimmage each Thursday night until the season bounces around. The session starts at 7 p.m. Plumlee is in his fifth year as Steer head coach.

Possibility of 32 games are figured with play starting Nov. 22.

UNBEATEN SEASON Forsan Juniors Trip Up Sands

ACKERLY — Forsan Junior High completed its second unbeaten, untied football season in three years by bowing over Sands Junior High, 46-16, here Thursday evening.

Over the year, the Junior Buffs defeated Sands twice, Loraine twice and Bronte twice, rolling up 190 points to 36 for the opposition. All 16 Forsan boys who made the trip got into the game and the second-team defense played all the way.

Forsan scored twice in the opening round. Randy Cregar went 57-yards on a drive to open the touchdown surge, after which Kirk Neel swept end for the two extra points.

Later in the round, Rusty Henderson returned a punt 70 yards for the Buffs' second tally. Neel again added the points after on a quick pitch.

Sands got on the board for the first time early in the second on a drive downfield, adding the two PATs on a dive play.

Forsan came back to tally before the half was out when Neel swept over from eight yards away. Neel also added the two extra points on a run and Forsan led at half time, 24-8.

In the third, Rusty Harrison took the kickoff for 70 yards and still another

Forsan tally. Neel accounted for the two extra points on a quick pitch.

Sands came back to hammer out a tally, going over from a yard away, after which it ran in the two points.

Forsan tallied twice in the fourth, Neel bruised in from the one and Cregar tacked on the two extra points on a dive play. Later, Cregar took a pass from QB Angel Miranda and raced 70 yards for the final score of the evening.

Score by quarters:
Forsan 16 8 8 14-46
Sands 8 8 0 0-16

ANOTHER TROPHY FOR MARTIN—Billy Martin, Manager of the Texas Rangers of the American League, poses with 9-year-old son Billy Joe, in trophy room of their home. Martin was named by Associated Press as American League Manager of the Year. His team finished second in their division.

Sports In Brief Missed Field Goal Calms Southmen

WASHINGTON (AP) —

Herb Mul-Key, the Washington Redskins' premier punt-return specialist, underwent surgery in Arlington Hospital Thursday to repair a shoulder separation sustained against Miami two weeks ago.

Dr. P.M. Palumbo Jr., Redskins physician, said the operation, which lasted 3 1/2 hours, was for "reconstruction of shoulder ligaments and bone grafts."

Earlier this week, Mul-Key was placed on the injured reserve list and is expected to miss the remainder of the season.

PITTSBURGH (AP) —

The Pittsburgh Penguins sent defenseman Jean Guy Lagace to their Hershey farm club of the American Hockey League Thursday to see if he can play his injured shoulder back into shape.

Defenseman Dennis Owechar, 21, was recalled to take the place of Lagace, 29, on the National Hockey League team's roster.

OTTAWA (AP) — The Canadian federal government says it will contribute \$500,000 to help stage Toronto's 1976 Olympiad for the Disabled, the so-called para-Olympics.

OTTAWA (AP) — The Canadian federal government says it will contribute \$500,000 to help stage Toronto's 1976 Olympiad for the Disabled, the so-called para-Olympics.

Andrews Crushed Schoolboy Results

Big Spring juniors crushed Andrews twice Thursday on Blankenship Field as "A" won 28-6 and "B" emerged the winner, 14-0.

Both Goliad and Rannels have joined forces for the remaining season. Coach Bob Zellars through seven games keeps an unblemished 7-0 mark.

The "A" G-R squad put together six points each in the first and fourth periods and eight second and third frame points respectively. Andrews salvaged six in the third.

Eddie Puga started G-R's drive with a 78-yard off tackle TD in the first. This pursuit involved 84-yards in two plays.

In the second, Ronnie Maldonado intercepted a pass and 35-yard off-tackle TD. Richie Gutierrez passed to Danny Crosby for the PAT.

Gutierrez trapped in the third broke loose for a 13-yard run to the five and passed to Crosby for six points. Gutierrez fired a perfect strike to Crosby for the PAT.

G-R's finale fourth frame marker resulted in Crosby latefalling to Puga from the five. Gutierrez had set up the play passing first to Crosby.

A G-R TD fourth quarter play was called back. Gutierrez had passed to Oscar James for 71-yards. Pass interference ruled out the completion.

In the "B" game, G-R's points were earned on Rudy Hurrington's 15-yard first quarter TD and Joe Eastman's three-yard run in the fourth. Eastman ran over both PAT's.

Puga chalked up 157 yards and overall has accomplished 1,286.

PORTLAND, Ore. (AP) —

When Rufus Ferguson sprinted 12 yards for a Portland touchdown with 2:07 on the clock, the Storm was sure it had upset Memphis in a nationally televised World Football League game Thursday night.

Portland won 26-25, but only after Bob Etter of Memphis missed a 48-yard field goal attempt as time ran out.

After the kickoff following Ferguson's score, reserve quarterback Danny White moved the Southmen 68 yards in seven plays, connecting on a two-yard pass to Ed Marshall in the end zone. Memphis trailed by one point with 43 seconds left.

Etter's inside kick struck Portland's Phil Borjas and rookie David Thomas recovered for Memphis. Six plays later, Etter's field goal try went wide to the right.

"I think Portland deserves to be in the playoffs," said Memphis Coach John McVay. "They beat us and Birmingham. They've shown on the field that they have a right to be in the playoffs."

A crowd of only 13,288 watched Portland snap the Southmen's 11-game winning streak at Civic Stadium. They got quite a show in the first quarter.

Veteran quarterback Pete Beathard fired a pair of scoring tosses to Jeff Baker,

a rookie wide receiver from San Diego State. His first touchdown pass came 3 1/2 minutes into the game after the Storm marched 72 yards in 10 plays, the first four on passes.

Memphis scored right after Baker's first touchdown when wide receiver Tim Beamer returned the kickoff 82 yards. But Portland knocked down a pass from Memphis quarterback John Huarte to Marshall for the action point, and the Southmen trailed 8-7, eventually the one-point game-winning margin.

Baker scored again in the first quarter on an eight-yard pass from Beathard, and Memphis moved within 15-14 on a two-yard scoring run by J.J. Jennings late in the second period.

Memphis went ahead only once, 17-15, on a 32-yard field goal by Etter midway through the third quarter. Portland regained the lead 18-17 three minutes later when Booth Lusteg kicked a

FEMALE CAGER Pratt Bound For History

NEW YORK (AP)—Pratt Institute has a 5-foot-8, 130-pound guard who's bound to make a lot of basketball fans — and players — sit up and take notice.

She's Cyndy Meserve, an 18-year-old blonde freshman (freshwoman?) from Livermore Falls, Me., who's about a month away from setting NCAA history by becoming the first female player on a college varsity basketball team.

Actually, the history was made Thursday when Pratt announced at its Brooklyn campus that Cyndy had made the team, which plays its first game of the season Nov. 29 against Baruch College.

Cyndy said she wasn't trying to break any sexual barriers when she tried out last month.

"I just like to play basketball," she said. "When they put up a sign for practice back in September, I went out. I honestly thought it was for the girls' team."

She wasn't half as surprised as Coach Tony Misere. "It completely floored me," he said. "I had put up posters for team tryouts and another for boosters and cheerleaders. I thought she had missed the cheering meeting."

"But when she said she was a basketball player, I explained we hadn't had a girls' team for about four years. She insisted on trying out anyway."

"I checked with our athletic director (E. Wayne Sunderland) and he said there is no rule saying that she can't be a candidate," Misere said.

So Miss Meserve, a fashion design major, tried out and made the 15-player squad. "We don't have that many kids coming out," Misere said, "but I wouldn't have picked her if I didn't think she could play. I will use her mostly at guard."

"She has a few things to learn about basketball but she is a fine player... She is definitely not the 15th player on the team. I don't know how much playing time she will get but I can tell you she is a pleasure to work with."

SPORT BRIEFS

PHILADELPHIA (AP)—Quarterback Bubba Wyche, obtained by the World Football League's Philadelphia Bell this week in the dispersal of players from the defunct Detroit Wheel, has been traded to the Chicago Fire for a No. 1 choice in the 1975 WFL player draft.

ELECT JERRY WORTHY HOWARD COUNTY JUDGE For The Leadership Howard County Needs

FEMALE BOXER—Tyger Trimar, who hopes to become a professional boxer, is shown outside Gleason's Gym in New York, where she works out; having her hands taped by her trainer, Mack Williams; and sparring with Murv Griffith. Tyger, 21, may have her chance if the New York State Athletic Commission approves her application for a license at a meeting scheduled early next month.

Hadl Agrees To Packer Terms; Shuffle Begins

Until late Tuesday, this Sunday's clash between Dallas and the New York Giants looked as if it would just be another step along the National Football League comeback trail for the Cowboys. Now...

Craig Morton, the Cowboys' dissatisfied second-string quarterback, is a Giant. And if there was ever a time for revenge, this Sunday's contest would appear to be it.

Three other NFL teams came up with new quarterbacks when the trading deadline passed Tuesday. San Francisco obtained Norm Snead from the Giants, Green Bay picked up John Hadl from the Los Angeles Rams and Detroit grabbed Joe Reed from the San Francisco 49ers.

Besides the Cowboys-Giants collision, other National Conference games on tap Sunday will send the Washington Redskins against undefeated St. Louis, Philadelphia takes on New Orleans and Green Bay is at Detroit.

American Conference clashes are Kansas City at San Diego, Denver at Cleveland, Houston at Cincinnati and Baltimore at Miami.

In interconference play, New England travels to Minnesota, Chicago is at Buffalo, Oakland clashes with Bay area rival San Francisco and Los Angeles meets the New York Jets.

Monday's game will pit the Atlanta Falcons against the Pittsburgh Steelers.

With the quarterback shuffle in full swing, this week's NFL collisions take on an entirely new look. Take the Green Bay-Detroit battle, for example.

Hadl, who agreed to terms Thursday, might be activated by Green Bay in time for the contest. If not, Jack Concannon will call the signals and will have tempting targets in tight end Rich McGeorge, wide receiver Jon Staggers and running backs John Brockington and McArthur Lane.

Detroit also has a new quarterback in Reed, lately of San Francisco. But Reed may not see action this week since the Lions have Bill Munson, who led them over Minnesota last week.

The New England-Minnesota tussle matches two teams who lost their first games of the year last week. The Patriots, a new NFL power, will be testing their comeback ability against one of the league's top teams.

Dallas broke a four-game losing streak last week and was looking forward to the Giants, who have lost three in a row. But with Morton at quarterback, the Giants might find the spark that has been lacking all season.

In another NFC Eastern clash, St. Louis' surprising Cardinals take pro football's only perfect record against Washington's rampaging Redskins, who are back on the warpath with quarterback Sonny Jurgensen at the controls.

Buffalo has won its past four games, including last week's 30-28 victory over previously undefeated New England. With Joe Ferguson throwing and O.J. Simpson running, Chicago may find it hard to repeat last Monday's victory over Green Bay.

Oakland and San Francisco have met only once in a regular season contest — in 1970 when San Francisco won 387. With the Raiders after their sixth consecutive victory, the 49ers might be in trouble with their contending problems at quarterback.

Now with Reed gone, the signal-calling will fall on either newcomer Norm Snead, sophomore Dennis Morrison or rookie Tom

Owen. The Rams apparently think they have their quarterbacking problem solved. Los Angeles won big last week behind James Harris, so traded Hadl to Green Bay. The Jets have quarterback Joe Namath, receivers Rich Caster, David Knight and Jerome Barkum and runner Emerson Boozer.

Miami pulled out a last-minute victory over Kansas City last week and shouldn't have nearly as many problems this Sunday against Baltimore, which finally won its first game of the year on the legs of Lydell Mitchell.

Viridon Inks Yankee Pact

NEW YORK (AP)—Bill Viridon calls himself a realist, so you'll get no pie in the sky promises from the manager who signed a two-year contract with the New York Yankees Thursday.

"I don't think anybody can predict a pennant," said Viridon, who piloted the Yankees to a second-place finish in the American League's East Division last season. "Who knows what can happen in six or eight months?"

Just about everything that could happen did happen to the Yankees last season. The club stumbled badly for a while and was a game under .500 at 61-62 when Viridon decided they could still win their division. And they very nearly did, finishing just two games behind the Baltimore Orioles.

"They were doing the things you need to do to play winning baseball," Viridon said. "That's why I thought they would start winning."

They did, taking over the division lead for a while and staying in the race until the final three games of the season. But in the end, Baltimore was too strong.

Viridon, runnerup to Billy Martin of Texas in The Associated Press poll for American League Manager of the Year, said he felt the Yankees had made good progress last season.

"I think we made some strides," he said. "We're headed in the right direction. It was a good, interesting, rewarding year. I gained a great deal of experience."

Viridon was named manager of the Yankees only after the New York club was blocked in its attempt to sign Dick Williams. He was obviously a second choice and as such accepted just a one-year contract.

But the team's successful season put him in a more favorable bargaining position and Gabe Paul, president of the club, rewarded him with a two-year contract.

Webb AFB In Top 10

In the latest Texas Classic Bowling Association release from Dallas, Webb Air Force is ranked No. 10 in team standings.

Webb, Big Spring Dreyer and Big Spring are spotted second, fifth and sixth respectively in District 3 standings.

Astros Obtain Cardinal Cruz

HOUSTON (AP)—The Houston Astros have purchased outfielder Jose Cruz from the St. Louis Cardinals and Astros officials say he will be given a shot at the full-time right field job.

Cruz, 27, has been used mainly as a pinch hitter and reserve outfielder during his four years with the Cardinals. He played in 107 games last season and batted .261 with five home runs and 20 runs batted in.

An Astros spokesman said the Houston outfield next year probably will consist of Cesar Cedeno, Greg Gross and Cruz with Bob Watson playing first.

Watson played left field for the Astros last year, subbing at times at first base for Lee May. There have been reports the Astros are trying to trade May.

Since Cruz will play right field, Gross, the right fielder last year, is expected to be shifted to left.

Crane Hunting Set Saturday

LUBBOCK — Texas hunters have been waiting since last February for the opening of the sandhill crane season on the South Plains.

The season in zone A begins Saturday and continues through Jan. 26, 1975, in that area west of Del Rio to San Angelo and thence northward along U.S. Highway 87 and including all of Howard and Lynn counties, to Dumas and then along U.S. Highway 287 to the Oklahoma line.

The season in zone B is from Nov. 10, 1974, through Jan. 26, 1975, in that area east of zone A and northward from San Angelo to Abilene through Albany to Vernon and north to the Oklahoma state line.

TOM MOORE
Kentucky Straight Bourbon Whiskey

Tom Moore. The straight sour mash whiskey Texans look up to.

80 & 90 AND 100 PROOF. BARTON DISTILLING CO. BARDSTOWN, KENTUCKY

Not everyone's prices are up...

Still 7 Toyotas priced under \$3,000.*

Now days, it's pretty unusual to find so much to choose from for so little money.

Spotty 2-doors. A roomy 4-door. A spacious wagon. And a fun little truck.

Every model comes with four on the floor standard. And for all models except the Corolla 1200 you can get optional air conditioning and automatic transmission.

The Corolla 1200, incidentally, has the lowest sticker price of any car sold in America—\$2,299*.

If you know what's happening to car prices, you know that prices this low are... well... old-fashioned.

So maybe you should see your Toyota dealer now.

While he's still behind the times.

Corona Standard 2-Door Sedan The least expensive model in the Corona line. Re-designed and re-engineered for 1974 to be solid, roomy and comfortable. Features a powerful yet economical 1900cc engine, rear window defogger, reclining bucket seats, more.

Corolla 1600 2-Door Coupe A sporty fastback with standard rear window defogger, reclining bucket seats, whitewalls, carpeting, power front disc brakes, much more.

Corolla 1200 The lowest sticker priced car sold in America. But well-equipped, with standard features like rear window defogger, whitewalls, reclining bucket seats and front disc brakes. Supplies may be limited, so hurry.

Corolla 1600 2-Door Sedan Comes with standard rear window defogger, reclining bucket seats, power front disc brakes, carpeting, whitewalls. Even with optional automatic transmission, still sticker priced under \$3,000.

Half-Ton Pickup The Pickup Truck of the Year* (according to PV4 Magazine) comes with a big 1980cc engine, 4-speed transmission, even a tool kit. For a little extra money, you can add an automatic transmission, bucket seats and air conditioning.

Corolla 1600 4-Door Sedan Tinted glass, carpeting, rear window defogger, reclining bucket seats, whitewalls, power front disc brakes. All standard. Even with optional automatic transmission, still sticker priced under \$3,000.

See how much car your money can buy.

Link Suicide To Irregularities In Firm's Operations

SAN ANTONIO (AP) — Soft spoken T. O. Gravitt had his future ahead of him as general manager of the Texas operations of Southwestern Bell Telephone Co. when he unexpectedly decided to end his life earlier this month.

Now his death and irregularities uncovered in the operation of the giant company in the state are being linked by investigators.

Gravitt, 51, was found dead of carbon monoxide poisoning before disclosure

of an internal investigation centered in Southwestern Bell's San Antonio offices, where Gravitt was before he assumed control of statewide phone operations in Dallas.

HIS LIFE

Associates here say the phone company was his life. He left San Antonio for

Dallas May 1, 1973, quickly when Bell called. Here, he was a Southwestern Bell vice president and general manager of the San Antonio region, which geographically comprises about two thirds of Texas. From Dallas, he could have become a vice

president at Southwestern Bell headquarters in St. Louis. He might have joined parent American Telephone and Telegraph Co.'s executive coterie in New York. He may have been promoted to the presidency of one of AT&T's 26 subsidiaries.

IT'S A TRAGEDY

"It's a tragedy," said an associate here.

In an official statement, C.L. Todd, the man who replaced Gravitt in San Antonio, said of the Bell investigation, "I am not in a position to pass judgment at this time as to whether he (Gravitt) was or was not involved. Our investigation inevitably involves his area of overall responsibility."

An associate said of Gravitt: "In his own right in the corporate world, he was a superstar, like the public thinks of a Roger Staubach

or Billie Jean King. It's very competitive."

NO STRAIN

"He never showed any pressure ... no stress or strain," he added.

He was a tasteful dresser, a tallish man with graying hair, a nonsmoker and a indefatigable joiner of civic organizations. Joining those organizations is something

Bell urges for its executives. He was a diplomat.

As president of the chamber of commerce here, he gave a nice speech and cut the ribbon for the opening of headquarters for an upstart local competitor of Bell, which was suing Bell at the time for \$25 million.

When he was here, he went two or three times a month to a cafe near the Bell headquarters "to drink beer with the installers, the craft people ... just have a good rap session, you know," said a Bell employee.

RELIGION IN NEWS

World Community Day Set; Baptist Convention Scheduled

By MARJ CARPENTER
World Community Day can be traced to the week of Pearl Harbor when the constituting convention of the United Council of Church Women met in Atlantic City. "As the nations were flying apart, the women were coming together," said Amy Weicher who became the first president of this interdenominational Council which was the forerunner of Church Women United. One of the first acts of this newly formed Council was to inaugurate a day of peace in 1942. The next year this observance became known as World Community Day and was concerned with the price of an enduring peace. Every year since then, World Community Day has

been celebrated by Church Women United on the first Friday in November. Each year a specific issue is chosen to emphasize corporate action for justice and peace. The theme for this year's World Community Day, "Discover the Aspiring Majority," leads into the subject matter of the United Nations International Women's Year which will be observed in 1975. As women, who are now a majority in the world, examine their values and goals, they will discover the aspirations that bind them together. In celebrating this Day women will be giving expression to the stated goals of the International Year which are those of striving for justice for women, and increasing their participation on all levels to bring the welfare of the world and the course of peace nearer to realization. Throughout the year, but especially on World Community Day, church women give tangible expression to their concerns by purchasing \$3.00 Gift Certificates for aid in four categories:

rehabilitation projects for women in war-torn areas; send money and training to assist women through self-help projects; disaster relief through immediate help with blankets, food, shelter, health and other services; timely help "where most needed" in response to emerging opportunities.

REVEREND AND MRS. M. J. MULLINS, current pastors of the First United Pentecostal Church, 1010 West Fourth Street, have recently returned from a seven day General Conference held at the Kentucky Exposition Center, Louisville, Kentucky. The theme of this year is "The Year of Jubilee - Sound the Trumpet" and is in recognition of the fifty years this organizational movement has provided an evangelistic thrust to the United States and the world. The United Pentecostal Church International, headquartered in St. Louis, Missouri, currently has 5200 church units, 7300 licensed ministers and a membership exceeding 500,000.

The organization began as a splitoff from the Assemblies of God in 1916 over the issue of the Trinity. Church members hold the "Oneness" doctrine, that God is one spirit who took the human form in Jesus Christ. Basic doctrine of the church is faith, repentance and conversion, baptism by immersion and in the name of the Lord Jesus Christ and the "baptism of the Holy Ghost with the initial sign of speaking with other tongues as the Spirit gives utterance." Because the church rejects the Trinitarian theology, most other churches judge it not fully Christian.

Ideally, church members lead a life of private and public holiness. Members are not allowed to attend dances or theaters. No licensed minister is allowed to have or watch television and the members also are urged to follow this practice. Sexes are not allowed to mix when swimming at the same place. No immodest dress is

ever allowed. Women never cut their hair, following a suggestion from Paul in the 11th chapter of 1st Corinthians. Youth are discouraged from participating in competitive sports as it exists in most schools.

The local congregation has experienced phenomenal growth within the past three months and will soon enter into a new building program.

A RECORD \$20-MILLION BUDGET and a proposal to strengthen Baptist-owned institutions will highlight the annual meeting of the Baptist General Convention of Texas Oct. 29-31 in Amarillo.

More than 3,000 messengers from most of the 4,200 churches and missions are expected for the 89th annual meeting to be held in Amarillo Civic Center.

The record budget commemorates the 50th anniversary of the cooperative program, the plant whereby Baptists support work in Texas, in the nation and around the world.

Currently, the 2-million member BGCT functions on a \$17-million budget. The budget provides support for 26 institutions, including homes for the aged, hospitals, child care facilities and nine educational institutions. Messengers also will discuss a proposal to strengthen the 26 institutions by creating two coordinating

boards to oversee their operation.

The convention marks the first time in 27 years the convention has been held in Amarillo.

In 1947, when it was last held in the Panhandle city, 3,140 churches were affiliated with BGCT, totaling one million members. The annual budget was \$4 million.

Currently, there are 4,200 churches and missions, with an aggregate membership of two million. The budget, if adopted, will be \$20-million.

Speakers at the annual meeting — expected to be attended by more than 7,500 persons — include Dr. Jaroy Weber, president of the Southern Baptist Convention and pastor of First Baptist Church of Lubbock, Dr. Warren Hultgren, pastor of First Baptist Church of Tulsa, Okla., and Dr. James H. Landes, executive secretary of the state convention.

Dr. Ralph Smith, pastor of Hyde Park Baptist Church in Austin, is president of the BGCT. He is expected to be reelected to a second term during the convention.

The annual meeting will be preceded by meetings of the two auxiliaries. The Woman's Missionary Union and Texas Baptist Men.

HANLEY SPENCER, presiding overseer for

Jehovah's Witnesses, announced today that the local congregation is making plans to attend a two-day Christian assembly in Snyder, Nov. 2 and 3, at the Scurry County Coliseum.

What sort of Person Ought You To Be will be the theme of the assembly, beginning at 1:55 p.m.

On Nov. 3 at 2 p.m., P.D. Moske, District Supervisor for Jehovah's Witnesses in Texas, will highlight the program by his public address entitled, "What the Nesar Future Holds." Moske will discuss the meaning of worsening world conditions in the light of Bible prophecy to show what the future has in store for mankind.

All sessions of the assembly are open and the public is invited to attend.

Book Burning Set Halloween

Reverend M. J. Mullins, Pastor of the First United Pentecostal Church, 1010 West 4th Street, has announced his church's plans to hold a book-burning on Halloween night, October 31.

Pornographic literature, books on witchcraft, horoscopes, and a group of other articles that have detrimentally effected the morals of this nation will be burned. "We wish the city of Big Spring to know that in an age of compromise, there is a church that will not compromise; in an age of lowering of Christian standards there is a church that will not lower its Christian standard.

The pagan ritual of Halloween, which celebrates

the loosening of evil spirits on the face of the Earth, has long been an accepted holiday within the American family. Bible fundamentalists, which we are, refuse to accept pagan rituals and holidays into their lives.

"We would like to invite the people of the city of Big Spring to attend this evil burning and hear our Bible foundation for doing this, the history of Halloween, and a quick rundown on each of the items burned and how they effect our world today," according to church officials. The book burning will be held on the church property located at the intersection of Fourth and Galveston.

Witness Meeting Slated

Emphasis will be upon lay witness in the three-day meeting this weekend at North Birdwell Lane Methodist Church.

The Rev. Fred Witta, pastor, will speak at the initial service 6:30 p.m. Friday and at the concluding service 11 a.m. Sunday. The Rev. W. G. Gilbert, pastor of Baker's Chapel, will speak at the 6:30 p.m. Saturday worship.

Among those with witness will be Harry Calverley, Rene Brown, Bryant Harris, Lanny Hamby, Lorin S. McDowell III, Mrs. Julian Patterson, Ms. Janet Burns. Special music will be furnished by people from First United Methodist and Wesley United Methodist Churches. Saturday 8:30 a.m., men of the church will prepare and serve a breakfast, followed at 8:45 p.m. by an old-fashioned Gospel hymn singing around the old piano in Fellowship Hall.

Baker's Chapel Church Relates Local History

The church was organized the winter of 1929 under the leadership of Rev. Baker, in the home of Mrs. Brown on Northwest Third Street. Rev. Baker being the organizer, it was decided to name the church after him. From 1929 until 1934, Rev. Baker was the pastor. He was a very strong man. The church services were held in the parsonage. There were only five members at this time.

In 1935 and 1936, the Rev. H. J. Johnson pastored. He was a wonderful pastor and a

determined one. Under his leadership our first church was built. Elder T. O. McGee built our church with the help of Rev. Jackson and members. It was located to the right of the Lakeview school, what is now known as the Y.M.C.A.

In 1937 and 1938, Rev. B. C. Brock pastored our church. At this time there were twelve members. In 1938, the Rev. Burk pastored two months. For several months we were without a pastor. In

the latter part of 1938, we received Rev. L. E. Browning as our pastor; he remained until 1941. Under his leadership the church was moved to N. W. Trade and Fourth St., just across the street from Mt. Bethel Church. By this time there was quite an increase in membership. There were 30 members, three of them children.

In 1941 and 1942, Rev. Clifton Thomas pastored. Rev. N. L. Lang was pastor from 1943 until 1945, when Rev. Taylor was pastor. In 1946 Rev. Session pastored, then Rev. Kendrick through 1948. Rev. Kirksey pastored from October 1949 until October 1951, when the Rev. Dixon was pastor. Baker's Chapel received as its pastor the Rev. J. W. Birt in 1951 until 1961; members on the roll numbered 55. In October 1961, the church received Rev. Leon McNeil as pastor. At this time the church purchased its present structure. We had an increase of sixty members since the Rev. McNeil came. We are proud of our pastor. Under his leadership we have made wonderful progress. Over a period of 34 years we have had 15 ministers. We consider Rev. McNeil our greatest pastor. So many of Baker's Chapel dreams have been fulfilled the four years he was with us.

Then in the middle of 1965, we received Rev. W. G. Gilbert, who was our pastor until conference. Next came Rev. W. L. Brown. We did very well under his leadership. On March 15, 1971, Rev. S. N. Hobbs became our pastor, to finish the unexpired term of Rev. W. L. Brown. Rev. Hobbs was with us 1 1/2 years. Again we received Rev. W. G. Gilbert to complete the year 1973; he is our present pastor.

Some of the leading members of our congregation have been: Chas. H. Merritt, Venora A. Williams, Bessie Lankford, Rosa L. Stewart, Hosea Young, Mary A. Young, Jasper Evans, Ellis Brown, Hattie Brock and Stella Mitchell.

time out for GOD

Nothing To Fear

Hallowe'en today means children flocking from door to door to enjoy the bounty of neighborliness. But in the Dark Ages this night was regarded with dread and apprehension.

Warmth, friendship, kindness, generosity inspired by our religious faith have replaced superstition. Believing in the Love of God man has nothing to fear.

Your children will remember for years the fun of Hallowe'en. Are you making sure they are learning the fundamental spiritual truths that have turned yesterday's fear into today's faith?

Once a year we celebrate the death of superstition. Every Sunday we celebrate the birth of Believing.

Ray Expected To Take Stand

MEMPHIS, Tenn. (AP) - James Earl Ray was expected to take the witness stand today to give his first testimony in a bid to withdraw his guilty plea and stand trial for the slaying of Dr. Martin Luther King Jr.

Ray's brother, John Larry Ray, testified Thursday that Houston, Tex., attorney Percy Foreman asked Ray's family to put pressure on Ray to plead guilty in the case and suggested that something might later be "worked out" in the way of a pardon.

John Ray, now serving an 18-year sentence in an Illinois prison for accessory to bank robbery, said Ray's decision to enter a guilty plea also stemmed from the trial judge's statement that Ray could not have any more attorneys or continuances.

James Earl Ray is asking to be tried for the April 4, 1968, murder of King, claiming that his guilty plea was made under coercion by his attorneys.

Kregel Will Visit Here

Victor Kregel, president of the Texas Air Force Association division will tour Webb Air Force Base at 3 p.m. Monday and will be honored with a dinner at the Elks Club at 7:30 p.m.

Free Mexican food will be served to AFA members. Kregel will address the chapter at its regular quarterly meeting.

A native of Irwin, Pa., Kregel attended Carnegie Tech and later graduated from the University of Maryland.

He entered the service in 1942 and received his pilot wings and commission in 1943 with his combat tour in the southwest Pacific in PBY sea-planes.

He served two years as an exchange officer with the Royal Air Force, four years on the faculty of the Air University, and was business manager of athletics at the Air Force Academy until his retirement in 1968.

Kregel then joined Vought Systems Division, LTV Aerospace Corporation and became customer relations manager. He and his wife, Marie, have three children, ages 20-27.

CANDIDATE GRANBERRY SAYS: Briscoe Deceiving Voters

By The Associated Press Republican gubernatorial candidate - Jim Granberry says that Gov. Dolph Briscoe is deceiving Texas voters by claiming to offer strong leadership in his re-election campaign.

Speaking at a San Antonio luncheon Thursday, Granberry asserted Briscoe could not provide the leadership to win the needed two-thirds approval vote on any type of Texas Constitution.

"After the convention failed by only three votes, Mr. Briscoe was asked during a news conference if he could have swayed three votes and he replied that he could not ... Mr. Briscoe's advertising campaign is deceptive by claiming leadership in areas where he was an absolute failure," Granberry said.

NEW FACE "I'm a new face, a new energy, not a part of the 100-year buddy system we've had."

Briscoe continued to carry out his official duties from his home town of Uvalde, where he is staying during the illness of his mother.

Mrs. Dolph Briscoe Sr. In Fort Worth, Secretary of State Mark White replaced the governor as a speaker before the Texas Manufacturers Association.

White told the group that the finances of the state were in better shape than any other state government in the nation because of an anticipated \$1.5 billion surplus.

The Raza Unida Party candidate for governor, Ramsey Muniz, addressed delegates to the Missionary Baptist Church convention at Abilene.

Zack Fisher, Republican candidate for agriculture commissioner, said that incumbent Agriculture Commissioner John White, a Democrat, spends too much time criticizing U.S. Secretary of Agriculture Earl Butz and President Ford instead of dealing with state's agricultural problems.

"Rather than blame Washington, why doesn't Mr. White use the power of his office to get something done in the Lone Star State," Fisher asked.

"Rather than running off to a proposed cattle slaughter to get his picture on TV, why not go to Washington to discuss the problems?"

"Rather than running off to a proposed cattle slaughter to get his picture on TV, why not go to Washington to discuss the problems?"

Washington (AP) - Some 70,000 pounds of veal donated by economically distressed Midwestern cattlemen should reach hurricane victims in Honduras within a few weeks.

Farmers Organization - NFO - are sending about 1,000 calves to the Dubuque Packing Co. in Iowa for Slaughter on Saturday. The meat will be frozen and trucked to Miami for shipment to Honduras, where it will be cut into smaller packages for distribution under Red Cross auspices within a few weeks.

Washington (AP) - Some 70,000 pounds of veal donated by economically distressed Midwestern cattlemen should reach hurricane victims in Honduras within a few weeks.

Fugitive Is Apprehended Robert Edwin Sims, 38, Route 1 Box 247, was arrested for driving with a suspended license and speeding midnight Wednesday. He was charged as a fugitive from justice Thursday afternoon.

Sims is accused of parole violation in California. He was released from county jail Thursday afternoon on bonds totaling \$3,500 and set by Peace Justice Gus Ochotorena Jr.

DETROIT (AP) - About 6,000 workers at four General Motors plants are being laid off because of decreasing auto sales, according to a company spokesman.

The spokesman said Thursday that GM is dropping second-shift production at three plants and is slowing the assembly line at a fourth.

It is the first time in recent history that layoffs have come so early in the model year.

GM revised its 1975 model year industry sales estimate down from 10 million to 9.5 million cars and is adjusting production accordingly, the spokesman said.

He said on Nov. 11 GM will lay off indefinitely 1,500 workers at Leeds, Mo.; 2,000 at Tarrytown, N.Y.; and 1,650 at Van Nuys, Calif. On Dec. 2, 700 employ layoffs at Willow Run, Mich., will slow down assembly lines from 70 to 60 cars per hour on each of the two shifts.

A GM spokesman said poor auto sales forced the cutbacks, citing large unsold inventories of compact model cars affected in the production cutbacks.

Chrysler Corp., which said earlier this week it lost \$8 million in the third quarter of this year, is considering closing its Jefferson Avenue plant in Detroit because of lagging sales. The move would affect about 5,000 workers.

Ford Motor Co. also said it is assessing its situation in light of the industrywide sales slowdown.

The largest price increases in history and the economic pinch caused by inflation are apparently keeping many prospective auto buyers out of the show rooms this fall.

Sales figures show the industry 28 per cent below a year ago.

The U.S. automakers raised prices at model introduction time last month an average of more than \$400.

It was the biggest single increase in history and put average car prices almost

about \$1,000 above a year ago, following a series of earlier increases.

Robert Edwin Sims, 38, Route 1 Box 247, was arrested for driving with a suspended license and speeding midnight Wednesday. He was charged as a fugitive from justice Thursday afternoon.

May Sideline B1 Bomber

PALMDALE, Calif. (AP) — The prototype of the newest U.S. bomber, the swing-wing B1, rolls out amid ceremonies and speech-making Saturday. But the plane may be sidelined because of soaring costs.

Advocates say the B1 will be superfast and hard to destroy and that armed with a potent load of missiles it will help deter World War III. Critics say it will be a flying dinosaur not worth its ever-rising price tag.

The long-nosed test plane, coated with a special white paint to reflect nuclear radiation and powered by four jet engines tucked close to its fuselage, will emerge Saturday from a hangar at the Rockwell International plant just 50 miles north of Los Angeles.

\$1.6 BILLION Secretary of Defense James R. Schlesinger and Air Force Secretary John L. McLucas will speak.

The four-year-old B1 program has so far cost \$1.6 billion. By 1983 — two years before the last of 247 planes, including three prototypes, are scheduled to be built — the cost is expected to reach \$18.6 billion, or about \$76 million per plane. That's \$7.4 billion higher than estimated in 1970.

Congressional critics, stunned by the dramatic hike which the Air Force attributes mostly to inflation, will be watching the flight tests in December with a "this had better be good" attitude.

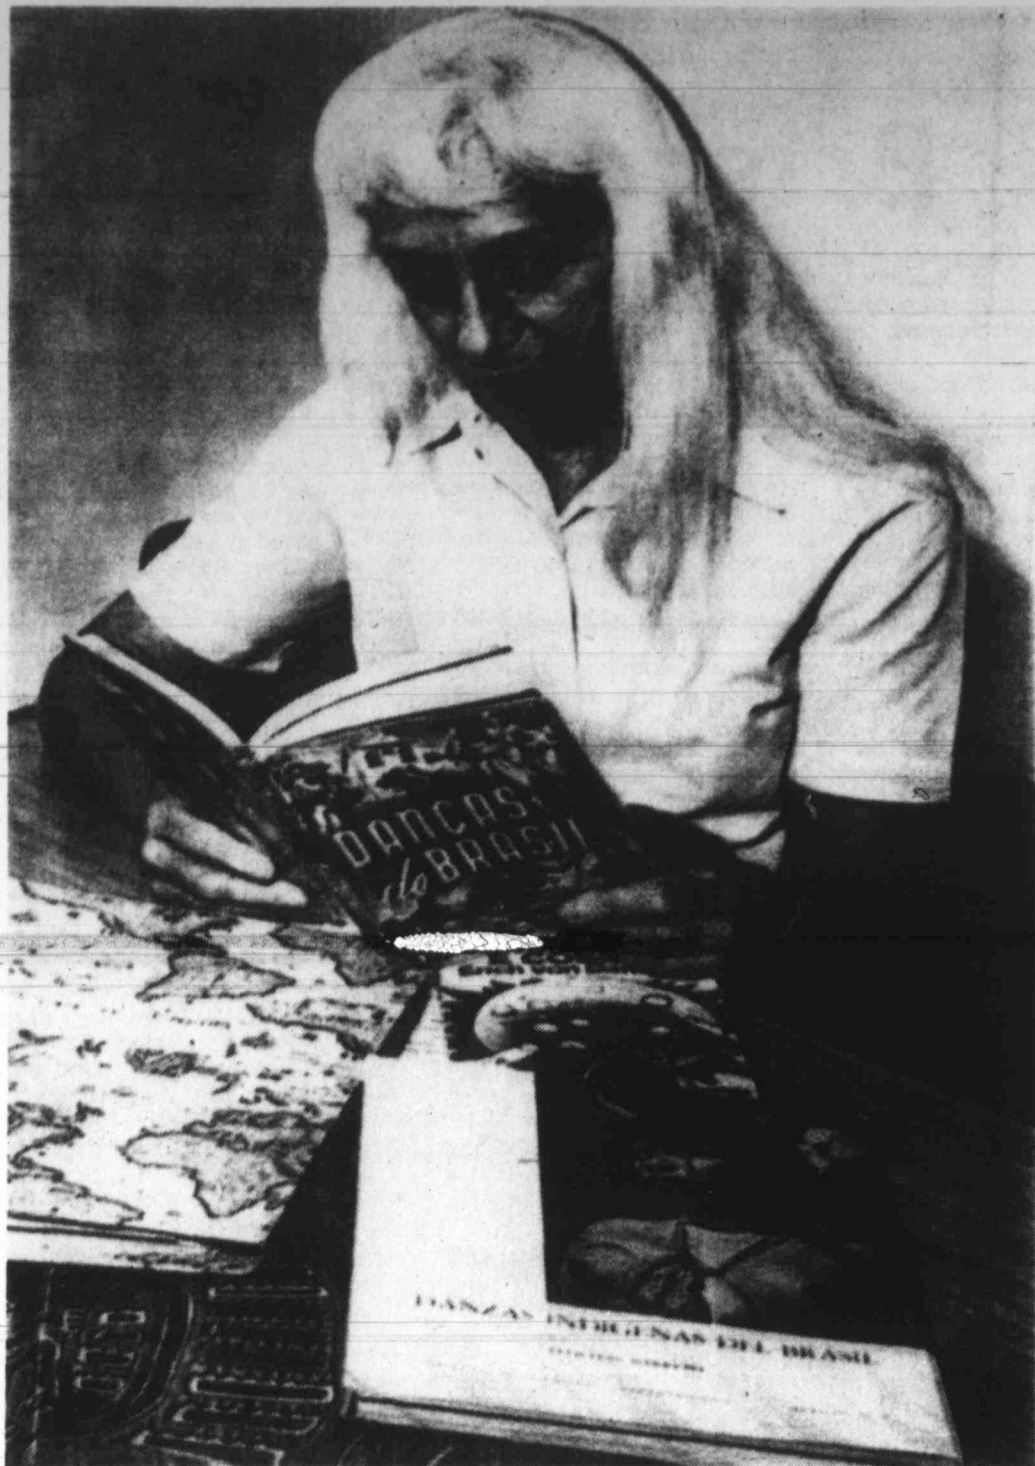

The Pentagon will make a decision by November 1976 on whether to put the B1 into production.

"The flight tests will be absolutely crucial to the fate of the program, and very quickly," says a high Air Force official.

Air Force officials bewail the escalating costs. "Inflation I have no control over," Maj. Gen. Abner B. Martin, B1 program director, told an interviewer.

UNFORTUNATE The unfortunate aspect is that we are measuring future costs of the B1 in terms of today's references, quoting costs for the 1980s which are based on an escalation factor.

The B1 is intended to replace, in the early 1980s, the fleet of aging B52s which form one arm of the U. S. Triad defense (land-based missiles, submarine-launched missiles and manned bombers).

RETURNING TO JUNGLE — Felicitas Barreto, 64, looks at one of the books she wrote about Indian dances in Brazil. Felicitas, who lived for 30 years in the jungles of Brazil and other parts of Latin America, plans to return to the Wayana tribe in northern Brazil and marry its chief, who proposed to her more than two years ago.

Going Back To Nature And Wed Indian Chief

RIO DE JANEIRO, Brazil (AP) — Felicitas Barreto, 64 and still a blonde, says she is going back to live in the jungle and marry an Indian chief who proposed to her more than two years ago.

"Permanently, I'm going to dive into that lost world," she said in an interview.

An artist and former dancer, Felicitas has been there before — for 30 years in the jungles of Brazil and other parts of Latin America.

FOLK DANCER She was born near Rio and studied at a fine arts school here. Her early career in classical and folk dancing served as background for writing "Dances of Brazil," a book published in 1959.

Felicitas said she lived for two years with the Wayana tribe in northern Para State, near the Paru River and the Surinam border. She said the Wayana chief, Aparabe, asked her to marry him and join his other two wives.

But Felicitas returned to Rio nearly two years ago to care for her ailing mother. Her mother died, and Felicitas says she now plans to return and marry.

MONEY, MONEY She said marriage among the Wayanas is more to her liking than in the outside world.

"No one gives orders," she said. "Having a wife is not for lust or for work. They are companions, to not be alone. They are friends."

Felicitas said she was married in Rio de Janeiro in 1931 but she couldn't tolerate matrimony and the city with its "lack of air, too much stone."

She said the Wayanas fish and hunt, spending "months and months" outside their villages, traveling in canoes and roaming the forests.

"It is hard, but here it is more disagreeable," she said. "Life is difficult here, but it is preferable."

"It is too monotonous here. It is only for making money, money, money."

Carnival Reset For Saturday

The Sand Springs Lions Club Halloween Carnival, originally scheduled for Tuesday, has been rescheduled for Saturday night at 6 p.m., according to Bob Roover.

The carnival, which will include many booths, cake walk, two cars to smash with sledge hammers and other amusements, will begin at 6 p.m. at the Sand Springs Fire Station on the North Access road of Interstate 20. Food will also be available at the carnival.

"All proceeds will go toward the Lions' many projects of helping people who are less fortunate than we are," according to Roover.

Tech School Program OKed

LUBBOCK, — A new School of Pharmacy and a doctoral program in home economics for Texas Tech University have been approved by the coordinating Board of the Texas College and University System, according to Dr. Grover E. Murray, Tech president.

Dr. Murray emphasized that the approval for the School of Pharmacy, scheduled to begin operation in 1976, awaits funding by the legislature.

The graduate school, however, can begin accepting applications immediately from candidates for the doctorate in home economics. Most of the courses already are on the books, although a few core courses will be offered until next fall.

Thirty-six students are projected for the first year of the three-year professional curriculum in 1976. A gradual increase is expected to bring the enrollment to approximately 120 students annually beginning the professional curriculum phase by 1979.

Permanent facilities for the School of Pharmacy are planned, but, in the interim period, the School will carry out its programs within the existing facilities of the Health Sciences Centers. The new school also will share laboratory space with the School of Medicine's basic science departments.

Rain Dots Middle Of Texas

By The Associated Press

Rain soaked a broad area across the middle of Texas from the Red River to the Rio Grande today as a weak cold front crawled slowly toward the east.

At least another inch of rainfall left streets awash in San Antonio, where more than two inches fell the day before. Thursday's downpours also dumped more than five inches near Barnhart, blocking Texas 163 in that vicinity, and close to four inches at Coleman.

A mixture of showers and occasionally heavy thunderstorms was set off in other areas.

Aside from dropping temperatures about five degrees, a weak cool front which pushed into the Texas Panhandle from the northwest exerted little effect. Forecasters expected it to advance as far as Texarkana, College Station and Laredo by late Saturday.

Clouds covered most of the state except far West and Southwest Texas, where skies were clear this morning. Extensive fog added to travel hazards in many sections, dropping visibility as low as one-quarter mile in places.

Temperatures near dawn ranged from 45 degrees at Maria in the West Texas mountains and 49 at El Paso up to 71 at Brownsville, Corpus Christi and Galveston.

Fair and cooler weather was forecast in West Texas.

San Angelo Is Host To Meet

Fifth in a series of regional seminars sponsored by the International Maine-Anjou Association will be held in San Angelo at the Holiday Inn, Friday, Nov. 8. The IMAA is sponsoring

meetings in various sections of the country to better acquaint area cattlemen with the happenings and progress of the Maine-Anjou breed. Featured speaker at this and all regional seminars will be Dr. Gary Minish, a noted animal scientist from Virginia Polytechnic Institute.
