Prices Spiral In May

WASHINGTON (AP) — Consumer prices increased four-tenths of a per cent in May, the government reported today, continuing a moderating trend in the nation's inflation.

April's increase had been six-tenths of a per cent. For the year ending in May, the overall increase was 9.5 per cent, the first time in more than a year that the 12-month rate was under 10 per cent.

The Labor Department said its Consumer Price Index stood at 159.3 based on the 1967 average of 100, meaning that consumers were paying \$159.30 for these goods that cost \$100 eight years ago.

The Labor Department said there were higher prices during May for gasoline, used cars and meat. The price of beef rose 7.6 per cent, more than half the 11 per cent price decrease of the previous six months.

There were lower prices in May for most other foods, new cars and mortgage interest rates. Prices of partially prepared foods declined for the first time in about three years.

The government also had encouraging news about pay, reporting that real spendable earnings of workers rose by 4.4 per cent in May, largely because of the government tax cuts which took effect on May 1.

The improvement in the inflation rate in May was evident throughout the Labor Department's price report.

Thug Linked To Castro Kill Plot Gunned Down

OAK PARK, Ill. (AP) — Sam Giancana, a reputed leader in the Chicago crime syndicate who was recently linked to alleged CIA plots to kill Cuban Prime Minister Fidel Castro, was found shot to death in his home Thursday night, police said.

Giancana, 65, had been shot once in the right corner of the mouth and five times in the neck, according to Oak Park Police Chief Wilbur Reichert.

No weapon was recovered, but six .22-caliber shell casings were found on the floor, Reichert said.

"It seems like a professional hit, but the small caliber of the gun bothers us," he said. Gangland slayings often are committed with shotguns or large-caliber weapons.

About \$1,400 in cash was found on the body, Reichert said, leading authorities to discount robbery as a motive for the shooting.

Caretaker Joseph DiPersio, 82, discovered the

body lying face up on the kitchen floor in the basement of Giancana's home in this western Chicago suburb, Reichert said.

DiPersio and his wife had been watching television in a second floor room of the

house, but they said they heard no gunshots, possibly because their air conditioner was running, the police chief

said. DiPersio said he saw Giancana alive at 10:30 p.m., but the next time he checked the reputed mobster was dead. Police received the homicide call at 11:51 p.m.

The FBI joined local police in investigating the shooting. Giancana, a dapper, outgoing figure in earlier years with a bent for silk suits and night clubs, was arrested in connection with a number of gangland killings in the late 1950s and early 1960s, but was never convicted. In the mid-1960s, he was jailed for a year for refusing to answer a grand jury's questions about organized crime.

Giancana, who for several years kept company with singer Phyllis McGuire after they met at Las Vegas in 1961, reportedly worked his way up through the ranks of the Chicago crime syndicate built by Al Capone.

Something of a recluse in recent years, Giancana, a widower, had spent much of his time on the golf course and at the Oak Park home.

Giancana and another underworld figure, John Roselli, were involved in CIA contingency plans to assassinate Castro in the early 1960s, according to recent statements by Richard Bissell, who headed the Central Intelligence Agency's "dirty tricks" department during the 1961 Bay of Pigs invasion.

Giancana held extensive gambling interests in Cuba before Castro overthrew dictator Fulgencio Batista in 1959.

In 1965, Giancana was sentenced to a year in jail for refusing to answer questions before a federal grand jury the previous year.

Voters in Howard County, turning out in surprising numbers, Thursday solidly

backed proposals to build a \$1,500,000 all-purpose coliseum on the Howard College campus and invoke a ten-cent tax hike that will underwrite the cost of such a structure.

The proposal for the issuance of bonds carried, 1184 to 443 — a majority of better than two to one. The tax increase was approved, 1095-510, also better than two to one.

A total of 2,180 votes were counted, including the 69 absentee ballots cast.

Only the Sand Springs residents voted down both issues. Coahomans narrowly approved the issuance of bonds proposal but went against the maintenance tax that will be necessary to finance the building.

Barbara Mandrell Is Still Texan At Heart

By TROY BRYANT

Pretty, blonde country singer Barbara Mandrell, who weighs less than a hundred pound sack of feed, is proud to be back in Texas, the state of her birth. She was the guest performer at the first two performances of the Big Spring Rodeo Wednesday and Thursday and she said that she enjoyed her performances here despite high winds and blowing dust.

"I've played for TV, concerts, in theaters and rodeos, but the reception at rodeos is the best," she said.

She now calls Hendersonville, Tenn. her home, but she was born in Houston. "Last night, (Wednesday night), we had everything going against us," she said. "But we still had a great time." "The fans were great, they understood how difficult we had it trying to perform in all that wind."

Miss Mandrell has recently appeared on national television on such shows as "Hee Haw," "Good Old Nashville Music," "Mike Douglas Show," "The Tomorrow Show," and a Wayne Newton Special.

She used a news conference Thursday to announce that she has attained her release from a recording contract with Columbia Records and will soon be going to another label for her subsequent recording. She recorded for Columbia since 1969.

She began her professional music career at the age of 11, playing guitar for a group and by the time she was 13, she was traveling across the country, playing for the Johnny Cash Show.

"I can't say I was influenced by any one country artist when I was young," she said, "I was fortunate enough to meet many of the veteran artists who taught me that there is more to the business than just getting up and singing."

Miss Mandrell, since venturing out on her own, has performed in 49 states and 18 foreign countries, including a tour of Vietnam in 1966 and 1967. She says that experience was the most unforgettable she has had as a singer.

FIGHTS THE WIND — Petite Barbara Mandrell, guest performer for the first two nights of the Big Spring Rodeo, battled the wind and the dust at her first show Wednesday night. Despite the winds, "we all had a good time," she said.

"We decided at the last minute to play for some soldiers in the Mekong Delta because we had to wait for transportation and they haven't had any entertainment before," she said. "So we went there, changed clothes in a tent, and performed on a wooden helicopter pad." Soldiers were coming in out of combat zone in full gear, wondering what was going on.

"It really made me appreciate what our soldiers went through over there," she added. "Several times we had to duck into bunkers to get away from the exploding grenades and the only baths we got the whole two weeks were sponge baths."

CLOSE TO FAMILY — Despite the fact that she is away from home about 20 to 23 days a month, and performs about 200 dates per year, she still maintains a close family life.

She has been married for eight years to a pilot for the Governor of Tennessee, they have a son, Matthew, who travels on the road with Miss Mandrell.

She travels in a large bus, converted into a motor home. Her father, Irving Mandrell, is also her manager and her mother makes most of her road trips.

"I got in country music when I was 11 and now I'm 26, so it's been a big part of my life. Next to my family, country music is the most important part of my life," she concluded.

She also has two sisters, Earlene and Louise, who are pursuing musical careers of their own.

she said Thursday at her first news conference since her marriage to airline pilot Fred Pouy of Stamford, Conn. Miss Fyodorova said she has spoken to her mother by telephone and her mother's only concern was the couple's happiness.

PALM COAST, Fla. (AP) — Two dozen Ohio teen-agers are spending their summer bicycling through Central Florida, trying to brighten life for hospital patients and the elderly. The 24 youngsters and five chaperones from the Grace Lutheran Church in Fremont, Ohio, entertain the invalids with religious and patriotic songs and skits. "It's all fun," said Donna Shafer, 14. "Singing is work, sure, but it's inner fun."

Riddle, Magers, Kelly Register Rodeo Wins

By CLARK LESHNER

Two nationally skilled riders headed an all-Texas support cast in the second of a four-night stand of the 42nd Annual Big Spring Rodeo Thursday.

First event roll call tonight is listed for 8:30.

The weather was a complete reversal of Wednesday's opening night 35-mile-per-hour winds and sand in the face. A slight breeze, though, floated across the area crowd in excess of 3,000.

A record 355 contestants, largest ever, paid their entry fees.

Times recorded were made during the regular viewing hours with after-show events concerning calf roping and steer wrestling.

Rusty Riddle of Weatherford, who has already pocketed \$16,000 in competition this year, scored the most points in the bareback riding with an 83.

FINALIST'S YEARS A World Series finalist for eight years, Comanche's Randy Magers threw his bull for a top 78. Considered the most dangerous rodeo event, the bull prize earns \$3,800 of the total \$14,000 purse. Also the number of entries per event ranks the highest in bull riding, 126.

In calf roping, Kenneth Kelly of Greenwood tied the quickest knot in 11.0. Big Spring's Skipper Driver, one of the rodeo directors, had a time of 13.9.

Cindy Bird of Post posted the best time of 18.03 in the barrel race. Last year's Miss Rodeo America runnerup, Jackie Bob Riggs had an 18.20.

San Angelo's Bob Crill atop 10-2-4 Dr. Pepper, recorded the lead score of a 70 in saddle bronc riding.

Bob Blanford of San Antonio flexed his muscles in steer wrestling coming out ahead with a 4.6. Garland's Buddy Putty, a Texas Tech football product, finished second with a 4.8.

Jim Dix, a top competitor whose U.S. mailing address lists Ione, Ida., although he calls North Colie, West Australia home, failed to place in the bareback.

Most riders in attendance make a one-night appearance, then head on to the next rodeo town. Considered

the most traveled athlete, the rider enters on the average of five rodeos a week.

Another foreigner, Charlie Piessia of France, is scheduled to take his seat on (See Rodeo, Page 6-A, Col. 5)

Judi Carol Cotton, 21, of 307 1/2 NW 7th, is in city jail in lieu of a \$10,000 bond charged with murder and was to be transferred to the county jail today.

Miss Cotton was arrested in the early hours at Malone-Hogan Hospital and charged with murder of Robert Earl Allen, 36, who was dead on arrival at the hospital at 12:20 a.m. An autopsy was being performed today, according to the office of Justice of the Peace Gus Ochotorena.

Municipal Judge John Coffee set the bond on Miss Cotton this morning. She was reported to be in a hysterical condition at the hospital and was treated and released to city police.

The shooting apparently occurred inside a red and white 1966 model car near some cow pens in the 300 block of N. Benton, according to Alvis Jeffcoat, investigating city detective. He reported there was blood on the passenger side of the front seat.

SHOT ONCE Allen was shot once in the upper abdomen with a .22 pistol at close range. Witnesses reported the couple had a disagreement earlier at a nearby bar. Miss Cotton appeared at the hospital disheveled and with torn clothing. No other details were available.

Patrolman Howard Kloss reported that at 12:20 a.m., he saw a car at S. Gregg and 8th proceeding down Gregg Street with lights flashing and the horn honking. He pulled the vehicle off the street at 13th and Gregg.

Mike Green of 508 N. San Antonio, told Kloss, "This man's wife shot him. I'm trying to get him to the hospital."

Kloss escorted the vehicle to the hospital where Allen was pronounced dead on

arrival. Miss Cotton was being treated at the hospital when Green and a 26-year-old woman named Vicky Ledesma of Big Spring County, left the hospital in a station wagon.

An alert was put out for these two persons and they were stopped by Deputy Robert Puentes. Their car was headed east on 4th at 1:12 a.m. Puentes arrested the two persons and turned them over to police for questioning. He said he took the .22 revolver, thought to be the murder weapon, from the front seat of their car.

They were questioned and released.

SERVICES PENDING Services are pending at Nalley-Pickle Funeral Home for Allen. Mr. Allen's residence was 207 NW 2nd St. He was employed by the City in the water department and had resided in Big Spring for 25 years.

Survivors include his mother, Mrs. Viola Allen, Big Spring; a son, Robert Earl Allen Jr., Lawton, Okla.; a daughter, Genie Allen, Dallas; four brothers, Colbert Allen, Dallas, Wilbur Allen and Leonard Allen, Marshall, and Wayne Allen, San Diego, Cal.; two sisters, Mrs. Darlene Leonard and Mrs. Carrie Nell Allen, both of Dallas; a grandmother, Mrs. Varis Johnson, Dallas.

Water District Vote Scheduled Saturday

The annexation of three half sections to the Howard County Water Control and Improvement District No. 1 will be the question answered by voters Coahoma, Sand Springs and Midway Saturday.

The voters will vote for or against the annexation of property along the south side of Interstate 20 for one mile east of Midway Road and for two miles along the Eleventh Place extension east from Midway Road.

Absentee balloting ended June 17, with no ballots cast, according to Harvey Hooser, Water District general manager.

Coahoma voters will vote at the Water District office, Sand Springs and Midway residents not included in the annexed portion will vote at the Sand Springs Fire Station and residents of the area proposed to be annexed will vote at the home of

City Painting Signs On Cars

The City of Big Spring is painting signs on the side of the four vehicles discovered not to be in compliance with an elusive state law regarding marking public vehicles.

The cars driven by the assistant city manager, the parks superintendent, street superintendent and the administrative pool car will all be marked "City of Big Spring—Administrative."

The law was brought to the attention of the state this week through an Associated Press story that claimed almost every city in Texas was in violation of the law as read.

ATLANTIC CITY, N.J. (AP) — In response to the malpractice insurance crisis, the delegates to the American Medical Association's 124th annual convention voted Thursday to set up a national reinsurance corporation, designed to support primary insurance companies set up by state medical societies as a result of rising premiums or unavailability of malpractice insurance.

The World At A Glance

Ill Wind With Some Good

Those ill energy winds blow some good in Texas. Comptroller Bob Bullock figures the good next year may add up to \$200 million.

That's the amount of additional income the Texas Treasury will reap, estimates Bullock, as a result of President Ford's additional \$1 tariff on imported oil. If the price of oil is decontrolled, Texas could expect even greater gains for its treasury.

As a result of this, Bullock implored Gov. Dolph Briscoe to sign a one-year appropriation bill, figuring the additional revenue could be put to use in the second year of the biennium, instead of left as a surplus for the 1977-78 legislature to begin business with. The governor has declined, of course, and the legislature has finished work and gone home.

But if Texas approve the proposed new constitution this fall, annual sessions of the legislature — to accommodate annual budgets — will be a matter of course. One of the proposed changes would set up a 90-day session of the legislature in even-numbered years; this bottled session would deal with budget matters only.

That is an overdue change, made particularly necessary now by the rapidly changing energy picture

and continuing inflation. A two-year projection of state spending needs and revenue probabilities cannot be made with anything approaching accuracy. It doesn't make sound business sense to try.

If the constitutional revision is approved this fall, the

legislature will meet again in 1976 to take a look at the budget. As Bullock's figuring points out, they may be looking at a totally different picture than they were scanning during the concluding days of the just-ended session.

Environment And Strip Mining

The 64th Texas Legislature won't go down in history as the most environmentally aware session ever held; in fact, only one piece of major environmental legislation made it through.

The major accomplishment was passage of law regulating strip mining in the state. Coal, lignite and uranium mining (but not iron ore or other minerals) would be governed by the regulations.

Texas needs a strip mining law; in the absence of any regulation, great and irreparable harm can be done to the face of the land. The danger of water pollution of both surface and underground supplies also is present. And Texas mining is a growing industry; coal is becoming important to power

generation, and the uranium deposits in South Texas are attracting increasing interests.

Unfortunately, the Legislature did not pass the best available measure. For one thing, the legislation approved puts the responsibility for regulating strip mining in the Texas Railroad Commission; it will license operations, and insure that miners return the land to as near its natural state as possible. But the Railroad Commission has not been a paragon of environmental concern in the past; it would have been far better to have charged the General Land Office with the task of regulating strip mining and making sure the land is not destroyed in the process.

Roy Smalley has played 37 games for the Texas Rangers as a shortstop, but the rookie already has 18 runs batted in, and Wednesday night, he hit his first grand slam as a pro.

That homer helped the Rangers down the Chicago White Sox 10-3.

WITH CREDENTIALS like that, he may become the rookie of the year in the American League, following in the footsteps of teammate Mike Hargrove who took the honor last year.

Hargrove drove in 66 runs in 131 games, about even with Smalley's record so far this season.

YOU DON'T HAVE TO BE a rabid sports fan to enjoy a Ranger game, I found out this week.

My wife, who usually wins the "ball game vs movie" battle on the TV set, just asked when we were going back to see another Ranger game.

We attended one game earlier this season, but we didn't get to see them win, although we watched last year's American League Player of the Year, Jeff Burroughs, knock two home runs and also saw Mike Hargrove, the Rookie of the Year, hit one home run.

ARLINGTON STADIUM is a comfortable place to watch baseball, with the centerfield fence 400 yards away from the plate. The fence is 330 yards away at the foul lines.

The 35,398 seat stadium is made from steel beams and steel plates on

the floor, so whenever a home run is hit or the fans like what is happening, all the stomping rings it like a bell.

There are plenty of good seats right behind the plate also. If you're willing to pay \$4.50 or \$5.00 for them. The armchair seats are fairly comfortable.

The general admission terrace seats in the outfield \$2.00 for adults and \$1.50 for children is where all the home run balls go.

My advice to anyone going to the game, even if set right next to the plate, is to carry a small radio. That way you know just exactly what's going on without having to decipher the scoreboard.

If you work it right, in addition to the Ranger stars, you can watch the stars of other teams in action.

THE WORLD CHAMPION Oakland A's will be at Arlington Stadium August 4-7 and September 15 and 16. The Milwaukee Brewers and home run king Hank Aaron will be at Arlington on August 29, 30 and 31.

Rod Carew and the Minnesota Twins will be at Arlington June 27-29 and September 1 and 2.

Frank Robinson, the first black manager in Major League, will manage his team, the Cleveland Indians in Arlington on July 22-24.

And Nolan Ryan, star no-hitter pitcher, may appear in some of the games when the California Angels are in Arlington on August 1-3 and September 17 and 18.

Hardened Line

WASHINGTON — Instead of clearing the air for another round of shuttle diplomacy by Secretary of State Henry Kissinger, the official visit of Prime Minister Yitshak Rabin last week has at least temporarily hardened the deadlock that aborted Kissinger's last mediation effort in March.

INDEED, WHILE OFFICIALS at high levels here bravely talk about a 50-50 chance for an interim settlement on the Israeli-occupied Sinai peninsula, Rabin, immensely strengthened by pro-Israel forces in the U. S. Congress, told President Ford bluntly that Egypt must make concessions first before Israel will agree to any interim solution.

Rabin's studied intransigence dismayed American officials who took part in the marathon talks that started here and moved on to New York last Saturday. At the President's private working dinner for the Prime Minister in the White House June 11, this dismay was accurately summed up by Rep. William Broomfield of Michigan, ranking Republican on the House International Relations Committee and a strong backer of Israel.

THE LAST of eight congressional leaders called on by Mr. Ford to question Rabin over coffee and brandy at the horseshoe table in the state dining room, Rep. Broomfield told Rabin he was disheartened at the evening's long dialogue; that Israel seemed fixed in concrete and had shown no yielding on the question of an independent Palestinian state; and that he saw little reason to risk U.S. prestige by reopening the search for an interim settlement. Another member of Congress told Rabin he was sound-

ing "like a broken record."

THERE WERE, moreover, indications of subtle diplomacy by some top Israeli officials in the Rabin party that disturbed both the White House and the State Department. For one, the White House was angered by the leaked report that it foil FBI or CIA bugs, Rabin and his colleagues had spoken in lowered voices and used pidgin Hebrew during their private talk in Blair House.

One presidential adviser told us, "That leak was designed for one purpose — to make us suspect in the eyes of the American people."

MORE TO THE POINT, Americans who heard Rabin's toast to Mr. Ford at the working dinner said the Prime Minister "studiously avoided" Kissinger, feared by many Israeli leaders as insufficiently pro-Israel. Middle East experts here, perhaps suffering a touch of paranoia, discerned in this a studied Israeli game: to downgrade Kissinger and put the focus of Israeli hopes in the Arab-Israeli struggle on the President himself, who will need all the support he can get from the American Jewish community in his presidential campaign next year.

ISRAEL'S TOUGHENED dialogue with the U.S. last week could turn out to be costly for Israel. Mr. Ford now holds two high cards, and despite Israel's potential political allies in the American Congress he might play one or both with some success.

The first Ford high card is the threat of an overall American settlement plan going far beyond the Egyptian Sinai peninsula.

Capital Of Doubt

Marquis Childs

JERUSALEM — On a clear day the distant hills of Jordan are visible against the horizon as a sign and symbol of the uncertainty haunting this capital of the Jewish state. With four wars beginning in 1948 the Israelis have good reason to know certitude has never been an asset of the 3,000,000 Jews surrounded by 130,000,000 Arabs who daily, over the years, have vented their hostility.

BUT TODAY, in the view of this observer, here for a fourth visit, doubts are greater than ever before. It is not through any lack of military strength or resolution. Israel could win a fifth war and perhaps a sixth war although the cost of blood and treasure would swiftly escalate.

The doubts are over the long future. They derive from two principal sources, the first being the failure of Secretary Kissinger's shuttle diplomacy which left an aftermath of disappointment and disillusion. Kissinger is accused in some quarters of conducting a six-week campaign, following the March 21 breakdown, to put the blame for the failure on Israel.

MORE THAN the failure itself was the revelation of how limited are the options for peace. Israel had hoped for a three-year interim agreement with Egypt, and this is still the hope, putting United Nations peace-keeping forces on the borders to insure the truce as Israel made territorial concessions in return for an Egyptian pledge of non-belligerency. But President Anwar Sadat would go for no more than one year.

THE second, and far more important, source of doubt is the radical change taking place in the Arab world. At least three Arab states have indicated a willingness to make peace with Israel. While the Israelis may discount this as mere propaganda, it is nevertheless a radical break with the past, conditioned, of course, on Israel's willingness to pull back within the borders that existed before the 1967 war.

AT THE SAME TIME on the surface at least, Arab unity is growing. In neighboring Jordan, King Hussein and President Assad of Syria are coordinating their

defenses and seeking to nullify the threat of violence from the Palestinian Liberation Organization.

The Israelis note nervously that Jordanian tanks have moved down to the border of the west bank, the territory taken after the '67 war.

THERE IS ALSO the oil weapon which is a two-edged sword. Egypt, which has little or no oil, gets hundreds of millions of dollars from Saudi Arabia and other oil-rich states. At the same time, these petrodollars are an instrument for the boycott of firms that deal with Israel and, in the event of still another war, a second oil embargo would play havoc with the economies of Western Europe and Japan.

Western businessmen are flocking to Cairo and other Arab capitals in search of contracts. They say they are finding a new realism in their Arab counterparts. Prominent are the arms merchants, notably the French, who are filling their order books with orders for the most complex weaponry.

IN THE WAKE of the Yom Kippur war of October, 1973, the hideous cost of the current no-war, no-peace, is being driven home. Dr. Eliezer Shefer, executive director of the Bank of Israel, the state-owned central bank, puts the rate of inflation in 1974 at more than 70 per cent, the highest in the world. This was due partly to a devaluation of the Israeli pound. Subsidies were withdrawn or reduced from 14 commodities vital to the cost of living. Sugar, for example, went from 16 cents to \$1 dollar a pound. These drastic increases sent housewives into the streets to protest.

THE REAL KILLER is the 30 per cent of Israel's Gross National Product that goes into the military, again the highest in the world. A comparable figure for the United States would be 8 to 9 per cent, for Western Europe, 2 per cent, Syria, with a GNP one-third that of Israel's, cannot maintain a living standard far below Israel's without continuing subsidies from the Soviet Union.

My Answer

Billy Graham

I am a young mother with a year-old son. I've been a registered nurse for four years. My husband wants me to continue at the hospital two nights a week to supplement income, but I'd like to resign. We could live on my husband's salary okay. Am I selfish and wrong to want to be a housewife and mother?

N. B.

For a long time the media have been telling women that the home as a career is a last resort. Recently, however, I detect a subtle return to the idea that a woman could be happily fulfilled by rearing children, sharing in a husband's career, and giving time to community charitable

causes.

If you say you don't really need the additional income your part-time job would provide, try to convince your husband of the merits of leaving it. It'll make room perhaps for an employee who really needs the money, and it will free you to pursue preferred goals.

There's no amount of money or job satisfaction that will compensate for the loss of these vital years with your son. I have known many older people who regretted whatever foolish decision removed them from family duties during their children's most impressionable years. As a Christian, pray about it and follow what you feel is God's leading.

Actually, it only hurts when the President laughs about the veto-proof Congress.

Output Disappointing

John Cunniff

NEW YORK (AP) — A nation or a company's degree of productivity depends upon how wisely and effectively it uses its raw materials, capital, technology, energy, labor — all its resources — in obtaining production.

In the United States, productivity advances have been disappointing of late. Output per man-hour in the total private economy fell 2.7 per cent last year and the first-quarter increase this year was 1 per cent. From 1966 through 1974 the rise has been 1.9 per cent a year, far below the long-term trend.

Whatever the reason, this slowing has caused alarm in government, management and labor circles.

"There is a general feeling of concern about the past eight years," says a member of the National Commission on Productivity and Work Quality. One area of concern is an insufficiency of capital investment.

Capital investment — in new plants and equipment — averaged 14.9 per cent of total U.S. output from 1960 through 1973. But, the commission points out, it averaged 28.9 per cent in Japan, 20.6 in France, 22.2 in Germany.

These percentages demonstrate that other nations are spending more for technological change, to mechanize and, therefore, to improve productivity. Capital investment generally means modern, efficient production.

For example, when the United States was founded two centuries ago it required a day's hand labor with a shovel to cut a ditch 20 inches wide, 4 feet deep and 20 feet long.

The Ames Co., which made shovels then and still does, consulted a local contractor near its Parkersburg, W.Va., plant and asked him how long it would take him to dig

a similar ditch through similar material. "One minute," he replied.

The explanation: The contractor owned a wheel trencher that contained 32,000 pounds of technology and which represented a capital investment of around \$40,000.

The productivity commission observes also that the United States is cutting back on the amount of research and development that goes into the productive effort, especially since less emphasis is being placed on the space effort.

In 1965, it notes, research and development as a percentage of the Gross National Product was 2.8 per cent. In 1974 it was 2.3 per cent.

In most other industrial nations, including the Soviet Union, the percentages are rising. While these figures are raw and say little about quality,

No Laughing Matter

Dr. G. C. Thosteson

Dear Dr. Thosteson: I have had narcolepsy for years. Most people I know tend to laugh when you tell them about being so sleepy. I would like your opinion on this illness. Do you think it is caused by a tumor on the brain? — B.K.

You know better than your friends that it is not a laughing matter at all.

Narcolepsy is a rather rare disease. It exhibits itself as an irresistible urge to sleep at unpredictable times and in unpredictable places. Its cause is not known, and it can occur in otherwise healthy individuals.

A word here on the mechanics of sleep itself would be helpful to an understanding of narcolepsy. In normal sleep, the "deep" phase is accompanied by rapid eye movements, referred to as REM. These are thought to be associated with dreaming. In one study, it was found that sleepers

awakened shortly after REM tended to have recall of their dreams.

Ordinarily, in falling to sleep, we go through a preliminary phase called NREM — or non-rapid eye movement — before slipping into the REM phase. The narcoleptic, when he succumbs to the urge to doze, goes directly into the deep REM phase.

He must struggle to resist these sleep urges. Attacks can occur while driving a car, for example, and this must always be guarded against.

Amphetamine can be used effectively for the narcoleptic. These drugs act by stimulating the central nervous system.

There is no physiological relationship between narcolepsy and epilepsy, which is a convulsion disorder. Narcolepsy may, however, follow a head injury or a

brain infection, as can epilepsy, but there are no other similarities.

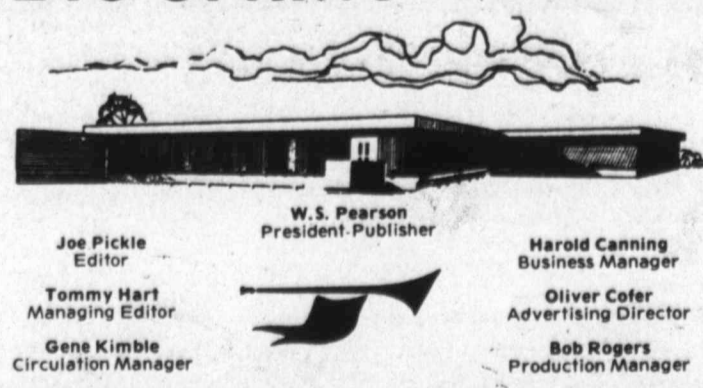

A brain tumor is unlikely as a cause. Symptoms of this are headache and other neurologic disturbances. These symptoms would progress rapidly, and would be rather obvious.

Dear Dr. Thosteson: I use a heavy salt mouthwash. I have extremely high blood pressure, and my doctor has taken me off salt. Can my system absorb salt from the mouthwash? — C.B.H.

If held in the mouth some salt can be absorbed in the tissues, but this would be minimal. However, you might accidentally swallow some, and some can mix with the saliva and enter your system that way.

All in all, I'd suggest you switch to a milder wash if you feel you need to use it at all. A harsh salt mouthwash is liable to create irritation — if not now, later on.

We Hold These Truths... A Chronicle of America

May 3, 1775:
His press and printing equipment smuggled out of Boston two nights prior to the encounter on the Lexington green, Isaiah Thomas publishes at Worcester the next issue of his *Massachusetts Spy* — on paper secured by John Hancock and the Massachusetts Committee of Safety. The newspaper carries this version of the recent battle: "AMERICANS! forever bear in mind the BATTLE OF LEXINGTON! — where British Troops, unmolested and unprovoked, wantonly, and in a most inhuman manner fired upon and killed a number of our countrymen, then robbed them of their provisions, ransacked, plundered and burnt their houses! nor could the tears of defenseless women, some of whom were in the pains of childbirth, and cries of helpless babes, nor the prayers of old [aged persons] confined to beds of sickness, appease their thirst for blood! — or divert them from their DESIGN OF MURDER and ROBBERY!"

— By Ross MacKenzie and Jeff MacNelly.

A Devotion For Today . . .

"These things have I spoken unto you, that my joy might remain in you, and that your joy might be full." (John 15:11)

PRAYER: Father, help us never to suppress the joy in our hearts. Amen.

Volunteers Needed At Local Hospital

"Malone-Hogan Hospital Volunteers are looking for 22 able-bodied, dependable persons to fill 22 three-hour shifts as volunteers at the hospital," said Mrs. Ken Perry, membership chairman. Two orientations for these volunteers were scheduled; one being held today and the other slated for 2 p.m., June 27 in the classroom of the hospital. Volunteers have been on the job at the hospital since June 9, assisting patients and visitors in finding their way about the hospital, delivering flowers or seeing that patient mail gets to the proper room. They work three shifts, 9 to 12, 12 to 3 and 3 to 6, Monday through Friday.

The gift shop is being readied for opening its services to the hospital in approximately two weeks. It will be operated by the volunteers for the hospital with funds being applied toward the purchase of equipment for the hospital. Open from 9 to 6 weekdays, 9 to 12 Saturdays, the shop will offer various sundries needed by the patient or hospital visitor, plus small gift items of the boutique variety. A service cart to the patient floors will operate daily from the gift shop. Interested persons should call 263-8221, or 263-1211, Ext. 116, for further information. Volunteers are needed in both services, Information and Gift Shop.

Dear Abby

Long-Distance Lovers Chaperoned By Kids

DEAR ABBY: I am a 44-year-old widow with four children still at home. I've been seeing a 45-year-old widower who has three children who are also living at home. We've talked of marriage, but have no definite plans. We live 70 miles apart and can see each other only on weekends. Because of time and expense, we stay overnight at each other's homes. We do not sleep together! I feel that we are well enough chaperoned by our seven children, whose ages range from 7 to 17. My friend's 17-year-old son said he doesn't think we should spend the night at each other's homes even though HE knows everything is respectable because he's afraid of what the neighbors might say. I would like your opinion.

DEAR L.: I'd explain to the lad that as long as you know that everything is kosher, and HE knows it, you don't feel that what the neighbors might say is worth driving 70 miles home for.

DEAR ABBY: My parents got divorced when I was 12. I lived with my mother until I went to college. After graduation, I got a good job and my own apartment. I am now 25.

Dad remarried, but Mother stayed single. She's attractive and has many men friends. She gets a generous alimony from Dad. Now for my problem: I've gone with David for nearly two years. He's 28, and we want to get married. When I told my mother I wanted a church wedding, she said, "Why don't you two run off to Vegas and elope? Under the

circumstances, I don't think a church wedding is appropriate." The "circumstances" being that I am not a virgin. She didn't offer to help me plan a wedding or pay for it.

Abby, I don't expect to walk down the aisle in a white gown and veil, but I want a church wedding to remember, and so does David. With my mother having expressed such a negative attitude, I am on the spot. What should I do?

DEAR WANTS: Have the kind of wedding you want. Since your mother obviously has no interest in helping you plan it or pay for it, invite her as a guest. A church wedding need not be costly to be lovely.

DEAR ABBY: I have a friend whose daughter is having a lavish church wedding and is asking all the women guests to wear long dresses. Is she correct in making this request?

ANONYMOUS DEAR ANON: The invitation should state whether the wedding is formal or informal. If it's formal, the lady guest should wear long dresses. If it's informal, they have their choice.

Everyone has a problem. What's yours? For a personal reply, write to ABBY: Box No. 69700, L.A., Calif. 90069. Enclose stamped, self-addressed envelope, please.

For Abby's booklet, "How to Have A Lovely Wedding," send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212. Please enclose a long, self-addressed, stamped 20 cents envelope.

Women's Conference Attracts Thousands

MEXICO CITY (AP) — Thousands of women from 100 nations opened a two-week conference Thursday to demand that women get better education, higher-paying jobs and a bigger say in running the world. The United Nations International Women's Conference is the first U.N. gathering devoted exclusively to women's issues and the focal point of the 1975 International Women's

Year. Men are well represented, however. More than a fifth of the official delegates are men, and U.N. Secretary-General Kurt Waldheim and President Luis Echeverria of Mexico were to address the opening conference session. Helvi Sipilä of Finland, secretary general of the conference, told reporters she hoped the meeting would open an era in which "women start participating

not only in their own futures but in those of their countries and the world."

"I hope that at the end of this conference we may see the beginning of a new world," said Mrs. Sipilä, who is an assistant U.N. secretary-general, the highest rank held by a woman in the world organization.

The conference will discuss the sharing of responsibilities within the family, inclusion of women in economic development programs and how women can achieve financial independence and political clout.

Delegates will also take up problems of education and health care. But more than anything else, the conference aims to change the traditional attitude of men toward women and vice versa.

A parallel "tribune" for nongovernment delegates starts tonight and is expected to draw about 4,000 participants. Some radical feminists indicated they do not want men to attend these discussion groups.

New Johnny Cash Film Due Showing

The story is old, but the perspective is up-dated and brought into sharp focus by the film "The Gospel Road" to be shown on Sunday, June 22 at Hillcrest Baptist Church, 22nd and Lancaster. The showing will begin at 7 p.m.

"The Gospel Road", distributed by World Wide Pictures, was conceived and produced by Johnny Cash and his wife, June Carter Cash, whose desire was to tell the story of Jesus Christ in a realistic and meaningful way.

The film is a unique blend

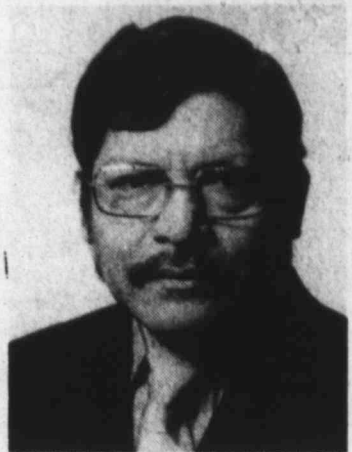

of scripture-based narrative, an abundant supply of specially written songs, and a series of in-depth character portrayals, with Israel itself as the mixing bowl.

Those who have viewed the film point out, "You are there, walking beside the Jordan and the Sea of Galilee; you are there, seeing Him in many human situations that establish a practical and personal rapport with every viewer."

"You are there, being introduced to the disciples, and gaining insights into

their varied personalities. You are there, experiencing the highly charged emotional impact of the trial before Pilate, and becoming so personally involved that you feel sympathetic pain when Robert Eilstrom, in an outstanding portrayal of Christ, suffers the physical attack that precedes the Crucifixion."

Adding to the effectiveness of "The Gospel Road" in its endeavor to convey reality for this day are: the fascinating treatment of the Crucifixion, making this tragedy an event of significance that reaches from its own time across the years to take on meaning for all men of all ages; and the songs and background music Johnny Cash and other outstanding musicians, whose contemporary style is not out of keeping with the story... a story that reveals that His darkest day has become our brightest.

'Reading Room' Upsets Pastor

ST. LOUIS — The Roman Catholic pastor of a suburban parish has directed the attention of police and municipal officials to a new — but perplexing — form of obscenity: the pornographic reading room.

Msgr. James Bresnahan, pastor of St. Rita Parish in Vinita Park, has complained to village officials and police about a business called "The Reading Room," located a block from the church.

Vinita Park Police Chief Robert Hartz said an undercover investigator found a brisk business in what seems to be pornographic readings for those too lazy to read.

For the person who makes an appointment in advance, Chief Hartz said, "The Reading Room" will provide a scantily clad young woman reading aloud from a library of pornographic books.

Readers sit in straight-backed chairs in a sparsely furnished room, with no mirrors or pictures on the walls.

TRY AN EXPERIMENT

Turn out the lights some night, touch a match to a single candle, and watch the miracle that happens.

The flame wavers and then steadies. The whole room is bathed in a soft glow, showing new shadows and depths, new softness and warmth. It seems like you are living in another place, in another age.

Switch the lights on again and they seem dazzling, harsh, until your eyes get used to them.

Two entirely different atmospheres have been created in the same room. The candle-light has wrought a kind of magic; electricity has brought with it reality.

In our lives we need both magic and reality — and the place to find them is in church. The Church offers the magic of peace and relaxation; yet its message is real, sometimes even harsh. Its teachings are as old as time, yet as new as tomorrow.

Go find out for yourself.

CATHY DAY

Cathy Day Assigned

Cathy Day, who is doing a summer internship in religious journalism, will be assigned to the Big Spring-San Angelo area for the next fortnight.

Part of her work will be with the Big Spring Baptist Association, developing information about various special programs. She will be working with Bryan Ross, area missionary, while serving in the Big Spring and San Angelo Associations.

Cathy is a native of Corpus Christi, the daughter of Mr. and Mrs. M. O. Day, and September will begin her senior year at Baylor University. She plans either to do graduate work, or to apply as a journeyman missionary. She had one summer's experience in this field as part of a BSU mission to Malaysia and Singapore. She also served one summer on the staff of the Baptist encampment at Gloria, and at Liaty lodge near Kerrville. She also was one of 60 chosen for the Leaky Leadership Lab. She also holds a Baptist Standard scholarship in the Baylor journalism department.

Rodeo Wins

(continued from page 1)

a bronc tonight.

MEDICS WIN — In the Webb AFB calf dressing contest with bikini, the hospital squadron outshined the field with a 40.

Organizational Maintenance Squadron took second, followed by the Field Maintenance Squadron.

Trophies will be presented to the top three Webb squadrons after rodeo completion.

For the second straight night, Barbara Mandrell, the youngest member of Nashville's Grand Ole Opry and the Do-Rights, delighted the crowd with their music and vocal singing.

Hank Thompson, a country western headliner, steps

before the rodeo spotlight tonight and Saturday. He has sold more than 30 million records during his career.

Tom Hadley, announcer, kept the viewers well informed with event scoring. The Big Spring High band provided soothing background music throughout the entire show. Coahoma's Quail Dobb, who works the largest indoor and outdoor rodeos and Tommy Sheffield of Rankin brought continuous laughter with their amusing clown stunts.

With the weather calm, fans caught a good glimpse of Brenda Smith's dog act consisting of a standard and toy poodle. She received a round of applause in conclusion.

Singing Group Due At Webb

The New Christy Minstrels will appear at the Officers' Open Mess at Webb AFB on Friday, June 27, in two one-hour performances at 8:30 and 11:30 p.m. Reservations can be made by club members only.

Unlike most so-called "folk" artists, the Minstrels do not limit themselves to traditional material or to updated versions of older songs. The common denominator is the high spirited and enthusiastic approach these young performers invariably take toward whatever they perform.

Examples of their approach are in their famous recordings: "Chim Chim Cher-ee," "Downtown," "Everybody Loves Saturday Night," and "We'll Sing in the Sunshine."

First assembled by vocalist-instrumentalist-arranger Randy Sparks, they were for a while the only "chorus-sized" group of their kind. The swift and long-lasting popularity of these Minstrels has helped bring into being a goodly number of large folk groups.

THEFTS

Stephen Campbell reported a CB radio stolen from his vehicle while parked at the rodeo grounds Thursday night, 11:04 p.m.

J&J Shamrock reported \$11.30 worth of gas stolen after placed in vehicle which drove off.

Bobby Williams, 2305 Allendale, reported a 10-speed bicycle stolen.

Allen Born, 2609 Larry, reported a '77 Winchester stolen from his vehicle at the rodeo grounds.

David Coffee, 3701 Calvin, reported theft of boy's bicycle.

Fred Markham Is Paroled

A man convicted of six felonies in the winter of 1958 here has been released from state prison on parole to Harris County.

Then District Judge Charlie Sullivan and jurist heard Fred Hobland Markham, 38, formerly of California, plead guilty to the offenses. Punishment was set at a total of 45 years.

Markham was convicted of attempted burglary, two burglaries, robbery of George N. Bogard and assault with intent to murder in the shootings of Walter Eubanks and Marvin Blackwell.

SATURDAY, JUNE 21, 1975
GENERAL TENDENCIES Much can be accomplished in regard to small, everyday matters, especially weekend duties. At the same time, there are problems connected with taking any risks or in any way judging others, since your information can be far from the truth, so postpone making judgments.

ARIES (Mar. 21 to Apr. 19) Busy yourself with home affairs but steer clear of an outsider who is a troublemaker and could spoil the harmony there.

TAURUS (Apr. 20 to May 20) Do errands and run out to see your friends who can be of help to you, but steer clear of a confused fellow worker.

GEMINI (May 21 to June 21) You are able to handle monetary matters more intelligently now. Study cost of recreation and see how to cut expenses.

MOON CHILDREN (June 22 to July 21) Reconcile with those who have opposed you. Study home situation more carefully and let it work itself out gradually. Be cautious.

LEO (July 22 to Aug. 21) You have been procrastinating on certain duties and should get at them early today and then you have free time for other things.

VIRGO (Aug. 22 to Sept. 22) Be with good pals and gain your aims. Await a better day for handling a financial affair, or you get confused.

LIBRA (Sept. 23 to Oct. 22) Handle civic duties and thereby advance in career. Investigate new mechanisms to lighten work. Postpone the personal now.

SCORPIO (Oct. 23 to Nov. 21) Study new methods, more advanced ideas of new inspiration, more income. Think along positive concrete lines. Don't fret.

SAGITTARIUS (Nov. 22 to Dec. 21) Obligations you've postponed should now be handled with care and speed. Make good use of your time and money. Avoid idle chattering.

CAPRICORN (Dec. 22 to Jan. 20) Make more intelligent arrangements with associates to increase success and harmony. Don't contact bigwig now who's out of sorts.

AQUARIUS (Jan. 21 to Feb. 19) Good day to catch up on all that work that has piled up around the home. Improve wardrobe. Avoid one who's after money.

PISCES (Feb. 20 to Mar. 20) Get into those activities that make you forget worries and lift your spirits. Don't permit another to push you into anything dull.

Community Council Is Due Honor Next Week

A dinner Monday will honor members of the Webb AFB-Big Spring Community Council. Hosted by the Webb council members, the gathering will honor those members of the Big Spring community who have contributed their time and effort during the past year toward the betterment of base-community relations. Col. Robert A. Owens, commander of the 78th Flying Training Wing, who serves as the Council's military co-chairman, will be the master of ceremonies.

Deputy commanders and staff division chiefs who deal with the public make up military members of the council.

Military co-chairmen of the Council's standing committees will individually recognize the civilian members of their committee. The four standing committees and their military co-chairmen are: Police-Health-Safety, Lt. Col. (Dr.) Donald L. Coleman, commander of the USAF Hospital; Housing-Commercial, Lt. Col. Ronald M. Miller, base executive officer; Recreation-Education-Religious-Welfare, Chaplain (Lt. Col.) Jimmie D. Baggett, installation chaplain; and Prestige-Public Relations-Hospitality-Good Citizenship, Lt. Col. Roy D. Dayton, wing executive officer.

Purpose and objectives of the Base-Community Council are sixfold:

- To identify the common interests of the civilian and military populations, recognize problem areas, and support community efforts of mutual concern.
- To obtain full participation by base and community leaders in solving problems of mutual interest.
- To insure maximum use of community facilities.
- To increase civilian understanding of the long-range objectives of the Air Force.
- To establish an effective organization which assists the wing commander and community leaders in carrying out their mutual relations responsibilities.
- To provide continuity in the community relations

New Cowboys Find Old Methods Best

DENVER, Colo. — When a cowboy is 30 miles from nowhere and his horse starts to buck, he'll do anything to hang on, especially when "nowhere" happens to be in the lonely sagebrush-covered hills of northern Nevada.

This notion for survival is instilled in a handful of new cowboys coming from ranches near Battle Mountain, Nev. population 3,000, and the cowboys have some old ideas about staying on horses. In saddle bronc riding, the youngsters are tough to get on the ground.

Two of them, brothers Mike and Joe Marvel, aged 24 and 20 respectively, qualified for their first National Finals Rodeo last year, and Joe, then 19, went on to win the tough saddle bronc riding average while Mike picked up a special trophy saddle for making the wildest ride. Now a younger brother, Pete, is ready to hit the rodeo road after turning 18 and graduating from high school. And Mike and Joe think Pete has the potential to outride both of them.

All three keep coming back to the ranch, though. There are horses to shoe in the spring, cattle to gather and brand, haying in summer and then it's time to bring the cattle back to the valley in the fall in preparation for winter. Rodeos are often sandwiched in between the work, and for that reason, the brothers aren't sure they'll ever be able to compete enough to win a world championship. I wasn't around.

Stroups Visit In Montreal

Stroup was recognized at the biennial convention as a member of the 1973 and '74 Century Clubs. NEWSPAPERS ON CABLE TV Word 'Deadline' Ought To Have Decent Burial?

HOUSTON (AP) — A scientist says the energy situation and the expense of paper is going to drive newspaper publishers to alternatives for information transfer.

Dr. Athelstan Spilhaus was a panelist Thursday at the final session of the 47th Annual Production Management Conference of the American Newspaper Publishers Association Research Institute. Cable television, "and many cities are cabled now," is one alternative newspaper should be exploring for delivery of their product, said Spilhaus, an oceanographer and meteorologist.

He stressed he was not advocating more television in its present format.

Newspapers on cable television "would be on different terminals, bigger and cheaper," said Spilhaus, scientific advisor to the publishers association.

A newspaper of the subscriber's choice could be dialed up on the screen, Spilhaus said, and the reader could pick out a particular

story, enlarge it, focus it and read it at his ease.

Spilhaus said he sees a time when "everybody will not be doing the same thing

at the same time, when everyone will not be going to work at the same time and coming home at the same time."

He said the evolution of work routines "will permit a steady flow of information transfer."

However, he said such an evolution will have some rough going because "newspapers are so riddled with tradition."

"The word 'deadline' ought to have a decent burial," he said. "There should not be a deadline when we have a continual flow of information."

He was asked in an interview how long it would be before newspapers will be going to cable television.

"It won't be a rapid change," he replied. "It will probably be 10 to 15 years or more, but it coming."

"Newspapers are so traditional. They enjoy their product. They enjoy even the size, which is terrible."

"You can't spread it out in the toilet. You can't read it in a bar. The publishers are aided and abetted in sticking to this size by those monster presses."

The \$30 cash certificates are compliments of the Webb AFB Credit Union.

Pact's Need Immediate

Big Spring Postmaster Frank Hardesty said today that the Postal Workers and the U.S. Postal Service would have to reach an agreement this week to have much chance for approval by the postal workers before the present contract expires July 20.

He said that the mere mechanics of holding the

elections to get approval of the contract could leave the workers without a contract unless an agreement is reached soon.

About 1,500 postal workers in Washington, D.C., picketed the Postal Service headquarters, and threatened to strike rather than work with no contract, apparently ignoring a law prohibiting postal workers from striking.

Hardesty said he has no way of knowing if an agreement is near, because of the secrecy of the negotiations.

Buckle Up And Win A Prize

Each month two Webb AFB people will be \$30 richer if they are caught with their safety belt fastened.

The Vehicle Occupant Restraining Device (VORD) Awards Program is effective June 30. The Safety Division will check 50 personnel per month, military and DAF civilians. The place and times of the checks will be on a random basis.

The names of those checked who are wearing all installed protective equipment (seat belts and/or shoulder harness) will be placed in a box. Then, at the first Tuesday Wing staff meeting each month, Col. Robert A. Owens, 78th Flying Training Wing commander, will draw two names out of the box for prizes.

The \$30 cash certificates are compliments of the Webb AFB Credit Union.
