

# House Due To Kill Ford's Oil Plan

WASHINGTON (AP) — House leaders arranged today to discuss energy legislation with President Ford Wednesday, but apparently it will not be until after the House kills his plan to phase out oil price controls over 30 months.

A vote on Ford's plan was expected later in the day. On a related energy matter, it appeared no attempt would be made in the House to override Ford's veto of a bill Monday that would have provided more oil price controls.

Speaker Carl Albert, who told reporters of the White House meeting, said the vetoed bill probably would be sent to the House Commerce Committee, an indication the leadership doubts it can muster the two-thirds majority needed to

override. Ford's plan to phase out oil price controls could be killed by disapproval from either branch of Congress.

"Both the President and Congress are playing great defensive games," said Rep. Jim Wright, D-Tex. "It's the third quarter and the score is zero-zero."

Wright, head of the House Democratic task force to develop a party policy on energy, said one of the major problems is that even if the House leadership could hammer out a compromise with the White House there is no assurance that the House members would vote for it.

Albert also acknowledged that Congress and administration energy representatives have not come up with a bill "that will fly."

Both Albert and Wright said the main snags include how high to set the price cap on domestic crude oil and how long it should take to phase out price controls.

One of the possibilities, said Wright, is to phase out price controls over a 36-month period and to place a \$13.50 a barrel price ceiling on so-called new oil. There is also talk of a \$2 a barrel tax on domestic crude oil.

Asked about possibilities that Ford could call Congress back into session to act on energy during its August vacation, Albert replied:

"If we have presidential veto, we will have no government around here at all."

Under the administration's plan, old oil — the 60 per cent of U.S. oil that

now has a price ceiling of \$5.25 a barrel — would gradually be allowed to rise in price until the end of the 30-month period. Then it would be free of controls and sold at world prices, which now are around \$13 a barrel.

The Ford administration claims the President's plan would produce a 7-cent-a-gallon boost in gasoline prices by the end of 1977. However, some Democratic critics argue the hike would be 15 cents a gallon.

The U.S. oil that now has no price controls, so-called "new oil," would have come under an \$11.25 ceiling in the bill that Ford vetoed Monday.

Ford said he vetoed the measure because it failed to encourage greater U.S. oil production and thus encouraged U.S. reliance on imported oil.

## Astros Plan Splashdown Parties

SPACE CENTER, Houston (AP) — While the Soyuz cosmonauts celebrate their safe return to earth, the American astronauts of Apollo conduct experiments today and look ahead to their own splashdown parties after their homecoming Thursday.

The Soyuz crew returned to earth Monday after six days in orbit, two of which were flown in tandem with Apollo.

Astronauts Thomas P. Stafford, Vance D. Brand and Donald K. Slayton are staying up an extra three days, taking advantage of their ship's longer orbit capability to obtain scientific data.

Cosmonauts Alexei Leonov and Valeri Kubasov came home tired but in excellent physical condition after completing their phase of the international flight which could open an era of space cooperation between the world's two most powerful nations.

## 18 Per Cent Surge In U.S. Crime Rate

WASHINGTON (AP) — FBI Director Clarence M. Kelley plans to announce a new citizen crime-fighting program after the latest FBI statistics show still another 18 per cent surge in the

nation's crime rate. Kelley and Patrick Murphy, president of the Police Foundation, scheduled a joint news conference today to launch what they described as "a

new program designed to involve citizens more effectively in efforts to combat crime."

Kelley reportedly initiated the program and enlisted support from the private nonprofit foundation. A major feature of the program involves community organizing efforts to protect the elderly from criminal predators, it was learned.

The FBI on Monday released the quarterly Uniform Crime Report showing an 18 per cent increase in serious crimes across the nation for the first three months of this year, compared with the same period a year ago.

The crime rate has been climbing at about the same rate for at least 18 months. There was a 19 per cent increase recorded in the final three months of 1974. Preliminary figures for 1974 point to a full-year increase of 17 per cent in the nation's crime rate, based on the number of crimes reported to state and local law enforcement agencies in more than 7,000 jurisdictions.

Final 1974 figures are due for release in September.

Atty. Gen. Edward M. Levi said the latest increase is "one of the terrifying facts of life, which we have come to accept as normal, and which we must not accept as normal."

## Higher Prices For Food, Gasoline Push Index Up

WASHINGTON (AP) — Sharply higher prices for food and gasoline pushed the nation's Consumer Price Index up eight-tenths of one per cent in June, double the May increase and the highest monthly jump in consumer prices since last September, the Labor Department reported today.

Food prices increased 1.5 per cent in June, the largest increase since last September when the increase was 1.6 per cent, and the price of food in grocery stores rose 1.9 per cent, the department said.

Over-all food price increases were less than the hike at the supermarket because the reported two-tenths of one per cent rise in restaurant meals held the total down slightly, a department spokesman explained.

Among increases, meat prices were reported up 5.8 per cent and prices of fruits and vegetables rose 2.4 per cent.

The price of gasoline was listed as up three per cent to an average of nearly 57 cents a gallon for regular and 60 cents a gallon for premium, compared to 55 cents for regular in May and 59 cents for premium. Gasoline prices have risen even further since information was gathered for the June price index.

Meanwhile, the Labor Department said the real spendable earnings of workers declined an average four-tenths of one per cent in June compared with a 4.7 per cent increase in May. For

the year, the Labor Department said real earnings of workers were down by four-tenths of a per cent.

The Consumer Price Index in June stood at 160.6 per cent of the 1967 average of 100. This meant it cost \$160.60 to buy a statistical sample of goods that cost \$100 in the base period. For the 12 month period ending in June, consumer prices rose 9.3 per cent, slightly below the inflation rates of last year.

The size of the June increase appeared to catch administration economists by surprise. They had expected some increase, especially in the food and fuel area, but there were no predictions that prices would increase as much as reported.

If the June increase were continued over an entire year, that would be an annual inflation rate of about 9.5 per cent. The May increase of four-tenths of one per cent, if continued for a year, would have led to a rate of about five per cent.

The figures in the Labor Department report were adjusted for seasonal variations. But even on an unadjusted basis, over-all consumer prices were up the same, eight-tenths of one per cent, officials said.

In the category of nonfood commodities, which includes such consumer goods as furniture, appliances, and fuels, prices rose five-tenths of one per cent, up from two-tenths of a per cent in May.

Prices of services rose seventh-tenths of one per cent in June, up from two-tenths of one per cent in May, largely because of an increase in home mortgage interest rates after six consecutive months of decline, the department reported.

Prices of services rose seventh-tenths of one per cent in June, up from two-tenths of one per cent in May, largely because of an increase in home mortgage interest rates after six consecutive months of decline, the department reported.

HOUSING SHORTAGE DISCUSSED — Around 25 military families are looking for housing, it was reported at the Monday meeting of the Base-Community Council, held at Webb AFB. More families are expected to need

living quarters shortly. Incoming personnel at the base were advised to seek housing before moving their families to Big Spring, due to the shortage.

## Tax Rate Utility Commission Due To Give City Problems

GARDEN CITY — School taxes were lowered 20 cents per \$100 valuation when the Glasscock County Independent School District board met Monday night.

Supt. Don Stringer said that taxes were lowered from \$1.77 per \$100 valuation to \$1.57. "Our valuation went up \$6 million due to oil and the board thought this should be passed along to the taxpayers," Stringer pointed out.

Two 17-year-old youths from Fort Worth were arrested and charged in Little Rock, Ark. Monday afternoon in connection with the armed robbery of the Sands Motel here Saturday night.

John Thomas Kent and Michael Glenn Dixon were brought back to Big Spring by Detective Leroy Spires, investigating officer on the case. They were driving a vehicle reported to have been stolen in Waco.

The brother of one of the youths accompanied the duo, as well as a juvenile from Fort Worth.

By MARJ CARPENTER "The newly formed state utility commission is going to cause the city some real headaches," Harry Nagel, city manager, told councilmen here today in a regular council meeting.

"According to their regulations, we will have to submit a map to show our service areas outside the city limits and set up a whole separate set of books for that area. If this happens, the water rates outside of the city limits will have to be raised to cover the costs of the bookkeeping required."

THINK AGAIN "Anybody who thought this state utility commission was going to mean all lower rates better look again. Of course, we fought against it to no avail. I hope the people being served outside city limits will all contact their legislators and let them know they don't appreciate it if their rates have to go up."

"I recommend at this time that we wait for direct orders from the new commission before we take any action," Nagel added.

This was included in the city manager's report at this morning's council meeting along with information that a worksheet on the budget will

be issued to council members this week, pending action in budget workshops of the council.

BUDGET CUT Nagel told the group that \$200,000 had been cut out of the original tentative budget by staff members and the budget "is in the black." "However," Nagel added, "there should probably be some more cuts before we come up with a final item."

City councilmen were told that the water quality man did not come two weeks ago because he had a heart attack. It was announced that one would be there this afternoon, but this was later canceled by a call from the water quality office.

The council also approved the mayor's appointments to several city boards. Andy Swartz was named to replace Don Crockett on the traffic commission; Jerry Barron replaces the Rev. Steve Birdwell on the Parks and Recreational board and the Rev. R. Cage Lloyd and Leroy Richhart will replace Carlisle Robison on the Detoxification Steering Committee.

Council members present included Mrs. Mays, Tompkins, Aciri and Harold Hall.

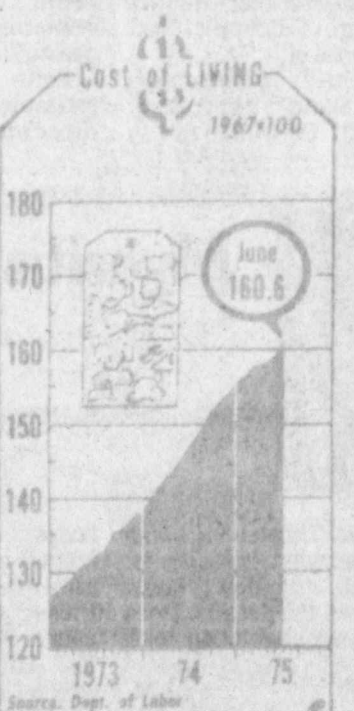

Anyone with a suggestion should send it to the city, Box 391, and mark the envelope, "Lake." Names already suggested include Comanche, Spring, Waco, Pow Wow, Buffalo, Marcy, T&P, and Slaughter. Tompkins said "I personally would like to keep calling it Cosden Lake after the refinery and what it has meant to Big Spring."

The city approved \$114.08 in damages to fix the car of Jerry Cockrell. It was struck when a garbage truck backed into it.

The council also authorized Bill Brown to take action in regard to attempting to improve sewage service in the area of W. 17th street.

The council approved the mayor's appointments to several city boards. Andy Swartz was named to replace Don Crockett on the traffic commission; Jerry Barron replaces the Rev. Steve Birdwell on the Parks and Recreational board and the Rev. R. Cage Lloyd and Leroy Richhart will replace Carlisle Robison on the Detoxification Steering Committee.

## Percy Foreman, Two Sons Of H. L. Hunt Indicted

DALLAS (AP) — Seven Texans, including Houston lawyer Percy Foreman and two sons of the late Dallas oil billionaire H.L. Hunt, have been indicted by a federal grand jury here on charges of conspiracy and obstruction of justice.

The indictment alleged Nelson Bunker Hunt, W. Herbert Hunt, Foreman, three Dallas lawyers and a retired Houston industrialist paid witnesses to go to prison and keep quiet about wiretapping by the Hunts.

The nine-count indictment was returned Monday night, only hours before the grand jury's term expired.

The other defendants are Ralph Shank, Charles Tessmer and B. H. Timmins Jr., all Dallas lawyers, and Edward J. Hudson of Houston, retired president of Hudson Engineering Corp. of Houston.

Acts constituting obstruction of justice allegedly occurred from January 1970 through February 1973.

A prospective witness, Jon Kelly, was promised by the Hunts, Tessmer and Shank in October 1971 and again the following month that he would be paid \$1,250 for each month he spent in prison if he did not testify against the Hunts, the indictment stated.

A similar offer was made to another witness, Patrick

PERCY FOREMAN

McCann, the indictment said.

The indictment charged that during the first two months of 1972, the Hunt brothers paid Foreman \$100,000 to keep Kelly and a third witness, W.J. Everett, silent about the wiretapping.

Everett earlier had been offered \$800 for each month in prison in exchange for his silence, according to the indictment.

W. Herbert Hunt, reached in Dallas, refused to comment until he could read the indictment. Neither Nelson Bunker Hunt nor Foreman was available.

Kelly and McCann have been convicted of wiretapping Hunt employes and sentenced to three years in prison.

The Hunt brothers were indicted on the wiretapping charges after Kelly and McCann were ordered by a federal court to testify about who hired them to do the illegal wiretapping.

The conspiracy charges carry maximum penalties of five years in prison and \$10,000 in fines for each defendant. Obstruction of justice carries a maximum of five years in prison and a \$5,000 fine.

BUS GOES OUT OF CONTROL — A bus carrying retarded and handicapped adults on an excursion Monday lost its brakes and slammed into parked vehicles before coming to rest on a concrete wall near Bingham Canyon, Utah. Deputies credited the parked vehicles with softening the impact and possibly saving many lives. All 42 persons aboard the bus were taken to hospitals and six were admitted, three of them in serious condition.

## Big Runoffs Due In Area Reservoirs

The Colorado River Municipal Water District stands to catch 15,000 acre feet or more water from weekend rains in this area.

Lake J.B. Thomas, where the need of additional water is greater, appeared to be getting a substantial amount. Elevation Tuesday morning was 2224.20, which is 3.14 feet higher than before the rains. This approximated 8,000 feet at that elevation. The river had dropped to 7 1/2 feet at the upper end of the lake, about half its previous rate, and Bull Creek Channel was still flowing lightly at one foot depth, about half its Monday rate. As was pointed out previously, this is the first time in months that Bull Creek, which used to contribute 60 per cent of the inflow, has flowed.

Lake E.V. Spence, where the rain was light, was benefiting from upstream runoff. Elevation there was

1866.28, an increase of .52 of a foot. The previous peak elevation there was on June 8 at 2266.35, and this is almost certain to be exceeded. Quality of water going into the lake is excellent — 70 ppm chlorides at Sliver and .90 at the Spade Ranch crossing. However, the flow from the Big Spring area down Beal's Creek had not reached the river yet, and it is of substantially lower quality. The volume, however, does not appear to be sizable.

Both Three and Four Mile lakes, west of Big Spring, which had been lowered by pumping into the Salt Lake west of town, had refilled and were spilling into One Mile, which in turn, may spill into Beal's Creek. Three Mile lake had 2,000 ppm chlorides Tuesday, but this is a far cry from the 20,000 ppm a year and a half ago before pump-back diversion operations began.

## Jobless Rate Up In Houston

HOUSTON (AP) — A Texas Employment Commission (TEC) report says unemployment in the Houston area has increased from 4.2 per cent of the labor force in May to 5.5 for June.

Robert Taylor, district labor market analyst for TEC, said the number of unemployed persons in the area jumped 33 per cent from 45,200 in May to 60,300 in June.

## WARM

Partly cloudy and warmer this afternoon and Wednesday. Winds will be southerly 10-20 mph, decreasing tonight. This high today, lower 90s, the low tonight, near 70, and the high Wednesday, mid 90s.

(AP WIREPHOTO)

PLANNING TO WED TODAY — Christina Onassis, 24, is planning to marry Alexander Andreadis, son of the wealthy Greek businessman, in a ceremony today. Andreadis family sources said the ceremony is scheduled in a tiny chapel in the exclusive seaside suburb of Glyfada, 10 miles from Athens. Christina inherited the bulk of the estimated \$1 billion fortune of her father, Aristotle Onassis, on his death in March.

# Not Exactly Accurate

The Christian Science Monitor has just completed a study concerning the use of alcohol on television. According to the Monitor study which covered 250 hours of television, there were scenes involving hard liquor 507 times. This was 10 times more often than scenes featuring soft drinks; one and one-half times as often as coffee; ten times as often as milk and 25 times as often as fruit drinks or juices.

When asked about the frequency of liquor on television ABC executive Richard P. Gitter said, "Television is a mirror" NBC official Robert D. Kasimire said, "We're not that far from what's going on the whole society."

A July 11 magazine by Beverage Industry has an interesting study. It says that American drinking habits differ greatly from that on television.

According to the study, the average American consumes 182.5 gallons of liquid. That is broken down into 55.6 gallons of water; 32.8 gallons of coffee (12 percent of which is decaffeinated); 31.6 gallons of soft drinks; 24.2 gallons of milk.

Next came beer, tea and fruit juice with liquor taking a weak eighth place. The study says that of all liquids consumed in this nation each year, just over 1 percent is hard liquor.

Obviously this doesn't mean that the liquor industry isn't healthy in the United States. And it by no means

indicates that the television industry should be required to ignore or censor the use of liquor on its programs. But if Beverage Industry's study is correct, television industry officials should be careful before they tell us that they reflect an accurate picture of liquor consumption in American society.

## All Out Of Balance

Sometime somehow there must be a measure of sanity restored to the unrealistic figures doled out for sports salaries and bonuses, and television rights to sports events and promotions.

The winner's pot in many events has reached the point of ridiculous, especially when the contribution of these are weighed against the sum total of human benefit. What, beside a listening or viewing audience, could possibly justify such inordinate sums to people whose chief claim to elevating society or the welfare of

mankind is being able to throw, to bat or whack a ball better than most people, or to exercise brute strength in organized mayhem upon other gladiators? And much the same can be said for those whose physical skills are principally in the area of vocal assault or some other area of entertainment.

We will never be able to gear remuneration to contribution with real equity, but surely there must be a point at which the public will cry "enough" in heaping rewards upon mediocre and ignorant people who make no substantial contribution to the on-going of society.

## Treat Coming Up

### Around The Rim

Jo Bright

Joan Garcia sipped coffee and glanced occasionally at the people who were coming and going through the doors of the motel restaurant in Midland.

THE TEXAS PRESS Women's convention had just ended, and Joan had asked me to join her while she waited for another Big Springer, Susan Lewis, who was to stop there on the way home from Odessa.

"You want information? You'll get it." Joan, an information writer for the Institute of Texas Cultures, San Antonio, was referring to the Texas Folklife Festival - about which she is never at a loss for words. And, true to her word, she's sent the whole ball of wax - a press kit that includes nine stories, a descriptive brochure and a detailed map of the festival area which is located near HemisFair Plaza in San Antonio.

Joan is in love with her work, and her words shout it to the world. She makes you see and hear and feel that festival, and she wants you to love it as much as she does.

"The Texas Folklife Festival is a fun-filled celebration of the traditional ways Texans of all races and national origins have had fun. It brings to life historic foods, music and dances, games and contests, and arts and crafts in Texas' greatest ethnic reunion. No matter how different or divergent our ancestry, we are all Texans, with a common bond in our past and a common stake in our future. This is

all the UTSA Institute of Texas Cultures ever had to say, and the Texas Folklife Festival seems to be a good way to say it."

JOAN'S ENTHUSIASM is shared by a number of festival "ambassadors" from over the state who give of their time to insure the success of the annual event. Among the ambassadors from our region are Bob (Tumbleweed Smith) Lewis, Big Springer; John Ben Shepperd, Odessa; James T. "Happy" Shahan, Brackettville; Mrs. Ralph Randel, Panhandle; Dr. William C. Griggs, Lubbock; and Mrs. Hiram Phillips, San Angelo.

Already well-known for their dedication to the festival are Lorraine and Harold Talbot of Big Spring who are key workers in the Polish exhibit. This year, there will be a special exhibit dedicated to the first Polish settlement in Panna Maria, Texas. The Talbots will be on hand early in August to help construct the display and assist with preparation of Polish foods.

Incidentally, there will be foods representing 24 nations - and constant entertainment on seven stages.

Regular admission is \$2.50, adults; 50 cents, children under 12. Discount tickets are \$2, adults; and 35 cents, children available until Aug. 2 from the Institute of Texas Cultures, P. O. Box 1226, San Antonio, Texas 78294. The dates: Aug. 7-10.

## My Answer

Billy Graham

I'm having a hard time understanding what's happening to me. My sister, who's very disinterested in spiritual things, is fine. I, who am by contrast very devout, have a pack of trouble. Where's God's "fairness" doctrine?

V. B.

Where did we get the idea that because we believed in Christ, He would excuse us from the ills and abuses of life? As a matter of fact, the history of the church, and of its great saints and martyrs indicates that greatness often coexists with trouble, if not being the direct result of it.

God never said He would give us an excuse from passing through the waters of difficulty. What He said was, "When you go through deep waters and great trouble, I will be with you" (Isaiah 43:2). That's the secret of the victorious Christian - sensing and seizing the help of Christ.

You see, union with Christ is not union with a system of doctrine, nor an organized church - nor with some ideal man. Rather it's a fellowship with a personal, risen, living Lord. And when such a

relationship exists, it fulfills the request of Tennyson, "O for a man to arise in me That the man I am may cease to be."

## Travels With Henry

Art Buchwald

When you travel with Henry Kissinger on his plane, you move so fast that your notes tend to get jumbled up and it's hard to keep everything he does and says in order.

I PLANNED to do the definitive piece on a Kissinger trip, but when I started to go through my notebook this is all I had.

"GENEVA - Kissinger meets with Gromyko in front of Soviet mission. They are both smiling for cameramen. Gromyko now likes to tell jokes when posing for pictures. Will this be Kissinger's greatest legacy to world diplomacy?"

"LARGE GROUPS of American tourists waiting in lobby of Hotel Intercontinental. They are not so much sold on detente, but half have been asked to get out of their rooms and the other half are still waiting to get into them... Hope Henry doesn't find out they are not waiting for him... Gromyko gave dinner for Kissinger. Menu: Red and black caviar, smoked fish, cold turkey (should be joke here), cold vegetables, vodka, asparagus soup, trout served with white wine, shashlik with red wine, ice-cream cake with strawberries, French fruit, champagne and coffee... Kissinger gave lunch the next day. Prosciutto and melon, roast veal, red wine and strawberry ice cream and coffee. No wonder the Russians are worried about parity... Hands down..."

"ON BOARD plane from Geneva to Bonn. Reporters go up to front of plane to be given background briefing by senior U.S. official. Who happens to be a household name.

"Discussion is about SALT. Senior U.S. official may not be quoted directly but what he says is fascinating. Soviets want to have nuclear tests for what they say is peaceful purposes above the 150 kiloton limit as outlined in nuclear test ban treaty. U.S. says if Soviets explode peace bombs we have right

to verify that tests are not above the threshold... Below threshold means explosion for civilian needs. Above threshold means explosion for military purpose. Russians insist they won't go over threshold, but we can't look.

"WE HAVE now problems with SALT. Under recent agreement each side can have 1,200 MIRVed missiles (more than one nuclear warhead on missile), but Soviets now have SS-17s and 19s to replace their SS-11s, which are still in place. Difficulty, says senior official, is when you look down a Soviet hole you don't know what's on the tip of the missile. We have now counted 308 new holes in Soviet Union. Russians complain we have 450 new holes in Washington, D.C. They will not take our word that we're honestly trying to build a subway.

"SENIOR U.S. official's eyes get glazed as he starts talking about the new sophisticated naval cruise missile and whether it should be considered a strategic weapon under SALT or not. Then he suddenly turns to me and says, 'Stop taking notes. This whole thing sounds like one of your columns'..."

"As part of visit to Germany Henry must visit Summerfest, a beer party held in Municipal Theater in Bonn for 2,000 people. The Germans all love Henry and even play a song they wrote about him. Kissinger enjoys himself and signs autographs and drinks beer and gets crushed. An admiring German politician next to me says in English if he had not gone to America he would have been chancellor of Germany. I look at him and say, 'You've got to be kidding'..."

"ONLY PLACE there is some question of Kissinger's popularity is among Israelis. At castle outside of Bonn for Rabin talk an embittered Israeli reporter asks me why, if Henry is so happily married with Nancy, does he always have to jiggle the Jews?"

## Hopes Not Shared

John Cunniff

NEW YORK (AP) - Housing Secretary Carla Hills' optimism about the immediate future of housing isn't shared by some leaders of that industry.

Testifying before the Congressional Joint Economic Committee, Mrs. Hills stated that "all sectors seem to be rebounding," despite a decline in housing starts during June.

The June rate, on an annual basis, was 1.07 million starts, about one-half the rate achieved during peak months in the period 1971 to 1973.

Asked later to comment, Grover Ensley, executive vice president of the National Association of Mutual Savings Banks, whose main business is home mortgages, said:

"The administration would like to feel we are turning up. I haven't seen any evidence of it."

His chief economist, George Hanc, concurred. "Rebound? Certainly not to

the level we used to think was needed. It's one thing to reach bottom, another to say we're headed up."

"We're still at a pretty modest level, well short of anything you'd call exuberant or buoyant," he said. The association estimates housing starts will reach 1.3 million by the end of the year.

Mrs. Hills, who found reason for optimism in what she said were slowly declining mortgage rates, even though such rates are rising, forecast housing starts to be at an annual rate of 1.35 million in the third quarter and 1.5 million in the final three months of the year.

Such a forecast in itself would seem to contradict the use of the term rebound, even though the number exceeds those foreseen by some housing industry economists. They are more pessimistic.

Told of Mrs. Hills' estimates, Robert Sheehan, director of economic

research for the National Association of Homebuilders, commented: "Rebound is a fairly strong word. It would suggest a high level of production. That would be 1.8 million or 1.9 million or 2 million."

Sheehan's own estimate is far below those figures. "We don't believe starts will get back to 1.5 million by the end of the year. There's no reason to believe they will be."

The real issue, said Sheehan, is a depression in multifamily housing. "For us to get back even to 1.4 million starts we'd have to have an extraordinarily strong rebound - maybe a doubling - of the multifamily rate."

A spokesman for the U.S. Peague of Savings Associations, whose members are the chief home mortgage lenders, commented: "We don't see anything in the housing picture that can be termed bright and rosy."

## Myositis Resembles Arthritis

Dr. G. C. Thosteson

Dear Dr. Thosteson: I was wondering what myositis is. I have it, and don't know much about the details. Does it have anything to do with the kidneys?

Nothing to do with the kidneys. This falls into the category of arthritis-like conditions which include tendonitis, bursitis and fibrositis, which are respectively, inflammations of the tendons, the bursas and the fibrous tissues.

Myositis, another of these common ailments, involves inflammation of the muscles. All of these conditions are often referred to as "nonarticular rheumatism," since the joint structures themselves are usually not involved. The pain is a result of the inflammation, and treatment is usually rest for the affected area, and aspirin. This group of nonarticular conditions accounts for most of the aches and pains which afflict us all as we grow older. However, any one of them can result from injuries, as well as from a hidden infection, so they may occur at any age.

Dear Dr. Thosteson: I have had an external vaginal burning over the past two years. I have had an external vaginal burning over the past two years. I have had prescriptions for creams

soaps, etc. Nothing has helped so far. I have had a complete examination. Please send me a copy of your booklet, "Vaginitis: The Hidden Ailment," for which I'm sending 25 cents to you in care of The Big Spring Herald, and enclosing the required long, stamped, self-addressed envelope.

Mine isn't so hidden, incidentally. What can I use to stop the burning?

Mrs. C.Z.

From your description, it would appear that your problem is in something that you are coming into contact with regularly. This could be anything from the fabric of pantyhose, panties, pajamas, douching powders, or "feminine hygiene" sprays. It might be caused by the soap or detergent you are using to launder your underwear. So do some detective work.

Dear Dr. Thosteson: Please write something about cirrhosis of the liver. Is this a terminal illness? What is the life expectancy of one suffering from this if the liver is very enlarged?

T.H. It is difficult to be certain about this. While the liver is an organ vital to life it also has remarkable recuperative powers of its own. The body cannot survive without it. By the same

token any impairment of its function, as in cirrhosis, will diminish life expectancy and affect general health. It is estimated that fully 85 percent of body metabolism is dependent upon its functioning.

In cirrhosis, there is a scarring between cells of the liver, thought to be caused by nutritional deficiency, mainly of protein and vitamins. Thus, cirrhosis is common among chronic alcoholics, who tend to deprive their bodies of nutrition in favor of the non-nutritious alcohol.

Toxic factors often enter the picture, as in alcoholism. In this, carbohydrate metabolism is impaired, causing the liver to produce and store excess fat cells as an alternative energy source for the body. Enlargement results.

The outlook for the cirrhosis patient is rather good if he gives the organ a chance to recover from the abuse. Weight reduction for the obese and abstinence from alcohol can work wonders in a relatively short time.

Cirrhosis is not always a result of bad living. It can occur in such diseases as hepatitis or in toxicity from inhaled fumes. Here, treatment of the underlying cause will alleviate the problems.

## EDITORIALS / OPINIONS

### Something Up

William F. Buckley, Jr.

This is Walter Cronkite, and we are continuing our coverage of the historic link-up between our own Apollo V missile and the Soviet Soyuz missile, which have been linked in space for almost three days now, and are preparing now for separation, and re-entry: the Soyuz will come down directly into the heart of Russia, and the Apollo will come down, as is the American practice, in the Pacific. Yes? Yes? Come in, Dan.

RATHER. There's something going on here in Houston, Walter. Can't quite make it out. The routine communication with Tom Stafford which we have been monitoring has suddenly gone into code.

WALTER. Gone into what, Dan?

DAN. Gone into code. There is an active radio communication between Stafford and Houston Control, but we can't discern what they are saying. I'm flashing over to Mike who has collared Dr. Thornton at the communications center. Let's see what he has to say, Mike?

WALLACE. I have Dr. Thornton here. Dr. Thornton, what is the reason for the transmissions in code?

THORNTON. Well, Mike, our rockets are, er, equipped with, er, scrambling devices in case it should be necessary to communicate confidentially to Houston Control.

WALLACE. What would be the nature of such confidential communications?

THORNTON. I'm sure I don't know, Mike, but I suppose if Stafford wants to communicate privately to Houston, that means he doesn't want what he says to be broadcast live on CBS television.

WALLACE. You don't suppose he's reading from the Bible, and figures he won't antagonize the Supreme Court if he reads it in code?

THORNTON. We are not encouraged to speculate, Mike.

CRONKITE (cutting in) We have something from Dan Schorr at the White House. Come in, Dan.

SCHORR. There's a lot of excitement here, Walter. The President is reported to be in direct communication with Houston Control, and maybe even with Stafford. Secretary of State Kissinger came in from the State Department with a police escort.

THORNTON. We are not encouraged to speculate, Mike.

CRONKITE (cutting in) We have something from Dan Schorr at the White House. Come in, Dan.

SCHORR. There's a lot of excitement here, Walter. The President is reported to be in direct communication with Houston Control, and maybe even with Stafford. Secretary of State Kissinger came in from the State Department with a police escort.

THORNTON. We are not encouraged to speculate, Mike.

CRONKITE (cutting in) We have something from Dan Schorr at the White House. Come in, Dan.

and James Schlesinger of the Defense Department has joined the huddle. There's something going on, Walter, but we haven't got the... CRONKITE. Excuse me, Dan, but Roger Mudd has just located Dan Ellsberg at Santa Barbara, and he has something here for us, Roger?

MUDD. Dr. Ellsberg, you have a code transcriber in your rumpus room, I understand, and you've been listening in on the communications from the Soyuz-Apollo mission. Can you tell us what's going on?

ELLBERG. Well, Roger, as you are aware, I believe in the people's right to know, and the Supreme Court upheld, 7-2, the publication of the papers I gave to the New York Times in 1971.

MUDD. Yes, yes, Dr. Ellsberg. But could you tell us what in fact is going on right now?

ELLBERG. Well, Roger, the Astronaut Stafford reports that the Cosmonaut Leonov says that he and the Cosmonaut Kubasov demand political asylum, and refuse to release the linking module and land back in the Soviet Union. The cosmonauts want to land jointly with the Americans in the Pacific. They insist on being flown back to the United States. Wait a minute... they're saying something else!

MUDD. Yes! Yes!

ELLBERG. They say that it's the only way they can ever get to meet Solzhenitsyn.

MUDD. Well what is the White House saying?

ELLBERG. President Ford is negotiating. He's asking Houston Control whether the Apollo-Soyuz mission could arrange to land in the Mediterranean somewhere if we can get Solzhenitsyn to agree to back to Europe.

MUDD. What is Houston saying?

ELLBERG. Something about our fleet in the Mediterranean is not big enough to cope with the situa...

CRONKITE. Roger? Roger! We seem to be having some, er, technical difficulties, ladies and gentlemen. Please stand by. I'm sure we'll be able to clear all this up in just a...

Screen goes blank. Shows only Apollo-Soyuz Project shield, with Russian-American handclasp.

## A Devotion For Today

"Be ye kind to one another, tenderhearted, forgiving one another, even as God for Christ's sake hath forgiven you."  
(Ephesians 4:32)

PRAYER: O Lord, help us to remember from Proverbs, "A soft answer turneth away wrath: but grievous words stir up anger."  
Amen.

# Terrazas Wants Tax Rate Cut Nine Cents

The county tax rate should be reduced from \$1.04 to 95 cents instead of diverting money to the proposed new Moss Creek Road bridge, County Commissioner Simon (Cy) Terrazas argued Monday afternoon.

The nine cents Terrazas wants cut from the tax rate is being levied for 1965 Road Bonds, which paid for local costs of Farm Road 700.

Howard County, through the road bond tax, has collected and saved enough to retire the outstanding bonds.

The bonds were issued for more general purposes than just Farm Road 700, according to legal documents. Terrazas, however, contended the public approved the bonds with the understanding the bonds were for Farm Road 700.

### WHERE?

"We're going to have to do something about that bridge," County Auditor Virginia Black said. Where could the county get some of the money, except from continuing the road bond tax, she asked?

"It can't come from revenue sharing funds," County Judge Bill Tune said. County officials hope to obtain a federal grant to pay 70 per cent of bridge construction cost, ruling out use of federal revenue sharing funds, too.

Terrazas argued that the local share of the bridge cost could be paid by cutting the budget various places and still lowering the tax rate.

### 101 WAYS

"There's 101 ways better a man could do it (build the

bridge) than not to knock back to 95 cents," Terrazas said.

"We should have taken care of that last year," Terrazas said. "This thing is already overdue, lowering this tax rate."

"There's nobody that would like to see that tax rate dropped more than me or Mr. (Commissioner William B.) Crooker," Commissioner Ikie Rupard protested.

"It's set up for another two years," Judge Tune said.

Rupard, in whose precinct the new bridge would be, quoted Terrazas earlier supporting construction of a new one.

Howard County furnishes no parks, Terrazas had said, according to Rupard, and ought to build a better bridge.

"I don't think the taxpayers will approve if we divert that money to anything," Terrazas said of the road bond funds. Terrazas said he did support the proposal to build a new bridge but contended the tax rate was a separate issue.

### HAZARD?

"That's a one way in and one way out," Rupard said. "When that old bridge finally falls down, if it don't kill somebody, then we're going to be sitting up there trying to build a low water crossing."

The county road department repaired the bridge after the structure partially collapsed earlier this summer. The federal grant is being sought to straighten the road and install a new and bigger bridge.

"If we don't receive a

# Charges Dismissed

AUSTIN (AP) — Charges against five University of Texas students for allegedly trying to disrupt the May 17 commencement address of Ford Foundation president McGeorge Bundy have been dismissed by a justice of the peace.

Jim McMurtry dismissed the case Monday, ruling that the section of the Penal Code under which the students were charged was so broad that it was unconstitutional.

Defense lawyer Bobby Nelson said, however, "Since it was a justice of the peace court, the higher courts don't have to abide by it (the ruling), nor the courts on the same level."

The students had been charged with "attempting to disrupt a public meeting by verbal utterances."

# Debra Harris Is Graduate

Miss Debra Marie Harris, daughter of Mr. and Mrs. D. G. Harris, 1303 Dixie, graduated recently from Our Lady of the Lake College in San Antonio with a master's degree in Social Welfare. Her grade point average was 3.75.

Debra graduated from Big Spring High School in 1970 and qualified for a BA degree at Texas Tech in 1974.

# Extended Coverage

By Jerry E. Mancill, CLU, CPCU

Anything from a flat tire or flood to a crash can stop you on the road. Are you prepared for highway emergencies? National Safety Council suggests these emergency items:

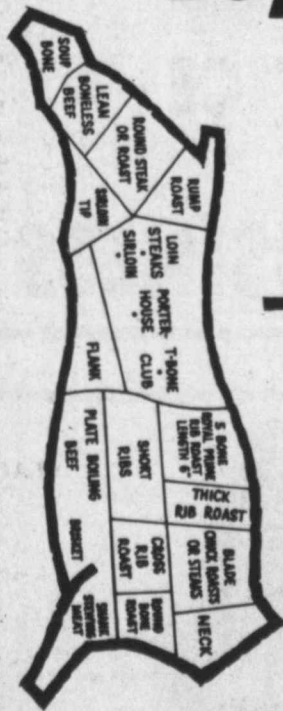

- First-aid kit, with manual
  - Chemical fire extinguisher; best buy is a refillable, rechargeable type.
  - Flares or a flashing light that works off your cigarette lighter
  - Nickels and dimes for phone calls
  - Pad and pencil
  - Name and phone number of your insurance company, and your policy number; this is legally required in some states
  - Blanket
  - For cold weather — ice scraper and brush, de-icer, sand, and salt.
- Highway emergencies are often distressing, but adequate insurance can ease much of the worry. Check YOUR insurance with Stripling-Mancill Insurance Agency, 102 Caylor Office Building, 600 Main. Drive safer and surer, when you know you're protected.

# Fight To Keep Oil Off Beaches, Reefs

MIAMI (AP) — The Coast Guard is calling for reinforcements in its fight to keep a slick of tar-like oil off the sandy beaches and coral reefs of the Florida Keys.

Coast Guard spokesmen said Monday night that clean-up equipment had been requested from

Elizabeth City, N.C., along with specialists to operate it.

Lt. Cmdr. George Davis said up to 120,000 gallons of "bunker c" oil — a grade burned in the boilers of steamships and electric generating plants — may be involved in the spill.

"Beaches from Boca Chica to Big Pine Key are being directly threatened," said Coast Guard spokesman Steve Frasier. He said oil has already blackened some of the beaches along that 25-mile stretch.

The Coast Guard officials have begun asking port captains along the Atlantic coast to identify ships that may have passed the Keys recently.

Davis said that although the ship that spilled the oil could have been hundreds of miles away when the slick was discovered Sunday, enforcement officers will try to make a case if it hasn't refilled its tanks.

"Oil can be identified like fingerprints," Davis said. "If we find any suspect ships, we will take samples from the oil in their tanks and try to make a match."

Oil spills carry fines up to \$5,000, and under federal law, failure to report a spill carries a \$10,000 fine and one year in prison.

# Exec Released After \$80,000 Ransom Paid

MEXICO CITY (AP) — Jaime Eliot Mazal Kami, administrative manager of the travel agency division of American Express, has been freed after his family paid his kidnapers an \$80,000 ransom, police said.

The 36-year-old executive was kidnaped by five gunmen Saturday and released early Monday. He said he had been beaten up by his captors whom he identified as members of the 23rd of September Communist League, an urban guerrilla organization.

Intelligence sources estimate League strength at 600 members, most of them ex-university students and professors seeking revolution by violent means to establish a Marxist government in Mexico.

The League, which takes its name from the date of a guerrilla-army battle in northern Mexico in 1964, has been in operation for the past three years. Twenty-one persons have died in League-related actions since last December.

# 'Radio Playhouse' Faces Uphill Fight

By JAY SHARBUTT  
AP Television Writer

NEW YORK (AP) — Two weeks from Monday, a new show called "Radio Playhouse" will make its national debut, offering two soap operas, a light comedy and adaptations of novels and plays in serial form.

All this will happen in an hour, five days a week, for at least 26 weeks on radio stations in an anticipated 60 markets from New York to San Jose, Calif., according to the makers of the program.

"Radio Playhouse," produced here by a division of Young and Rubicam, a major advertising agency, is the latest of recent attempts to make a limited revival of the golden age of radio drama and comedy.

It'll have an uphill fight. The revival track record isn't good.

The Mutual Broadcasting System gave such shows a go in December 1973 with "Zero Hour," a half-hour weekday thriller series. But it says the response was disappointing and it took it off the air in July last year.

The satirical National Lampoon magazine tried its hand in November 1973 with a weekly radio comedy series sold on a syndicated basis, but that also fell by the wayside. The last show was broadcast on Dec. 28, 1974.

The only major survivor of the revival effort is the "CBS Radio Mystery Theater," an hour-long, seven-nights-a-week series that began on Jan. 6, 1974, and now is heard on 214 stations, CBS says.

Despite the attrition rate, Richard Cox, creator and executive producer of "Radio Playhouse," still believes his show has a good chance. Oddly enough, it came to be because of a sponsor's gripe.

Cox, a self-described radio nut who heads Y & R Ventures, a subsidiary of Young and Rubicam, said the project took form two years ago during a lunch he was having with officials of Bristol-Myers Products, a client of his advertising agency.

"They'd been complaining about the costs of TV, so I said, 'Hey, why not radio?'" the 46-year-old executive said. "I didn't have anything in mind, but by the end of the lunch I'd made up the whole thing — two soaps, the adaptation of a famous novel or play and the comedy.

"And they said, 'That sounds great.' And that's how it started."

He said the show is being offered free to stations on a "barter" basis in which Bristol-Myers will get six minutes of commercial time during the show and local stations 12 minutes.

SYMBOL OF SERVICE  
...Nalley-Pickle Funeral Home

## Nalley-Pickle Offers Quiet, Serene Dignity

When the need for a funeral home arises, a person wants efficient, helpful service that saves trouble and promotes a quiet dignity.

That kind of service comes with years of experience and Nalley-Pickle Funeral Home has years of experience. It's their trademark.

Their management and employees have all had much personal contact with

funeral direction. This is ample proof that the establishment is well qualified to serve you as you need to be served at those sad occasions in your life.

Their long years of service have become a symbol of comfort in Big Spring during the hour of bereavement. Complete confidence in trained personnel of Nalley-Pickle has led to a long-standing custom of turning

all arrangements over to them, with the assurance that everything will be carried out in the smallest detail.

The Rosewood Chapel is designed to provide privacy for the family during the service as well as comfort for the others attending.

The covered entranceway provides shelter during inclement weather. The chapel has air conditioning for the summer months and controlled central heating in the winter. There is always someone to help you at Nalley-Pickle. Call 267-6331.

RAY DON WILLIAMS  
...arrives in Big Spring

## Big Spring Savings Welcomes Prexy

Big Spring Savings and Loan Association feels very lucky to have a man like Ray Don Williams as their new president.

Coming here from Burleson, he is a man who helped organize and open a branch office in Cleburne. He is excellent at organization and planning.

These are important items to the customer who is trying to plan improvements in his own business and needs financial assistance.

Go down to Big Spring Savings and Loan and meet and talk to Williams. The Savings and Loan Association also has a history of trying to help Big Spring home owners make home improvements.

At one time, before he got into the Savings and Loan business, Williams worked with Apel Construction Co. serving as a foreman while they constructed 20 to 40 homes a year.

So Williams would be an excellent man to contact if you are planning to build a new home or remodel the home in which you now reside.

An extra bonus for Big Spring is that Williams is also a civic leader who is extremely interested in the community in which he resides.

Back in Burleson, he served on the school board, was active in the Lions Club, the Athletic Booster Club and the Baptist Church. He is Big Spring's kind of people. Drop by and meet him in the near future.

### 'EQUAL TIME' QUESTION

## Live Coverage Of Ford's News Confabs In Doubt

NEW YORK (AP) — CBS News chief Richard S. Salant says CBS live coverage of President Ford's future news conferences is in doubt for the time being. The reason: An "equal time" question.

It was raised by CBS after Ford's early announcement this month that he'll seek another term in 1976. It involves the Federal Communications Commission's "equal time" law on broadcast coverage of political candidates.

According to the FCC, CBS last week asked the agency to reverse a 1964 ruling and exempt live coverage of presidential news conferences from the equal time law.

CBS contends that any legally-qualified Republican candidate opposing Ford for the presidency might now be able to demand equal time on the air within seven days of live broadcasts of a Ford news conference.

There aren't any such candidates now, but CBS notes that several have been mentioned as getting ready to enter the GOP ring, among them former California Gov. Ronald Reagan.

Milt Gross, an FCC specialist on political broadcast laws, says legally-qualified Democratic presidential candidates currently can't demand equal time because they're considered competing only among themselves now.

"Between now and the primary elections and the (Democratic) party convention next year, only the Republicans would have the right to ask for equal time against President Ford," he said.

The issue has lain dormant since 1964. That year, after a CBS query, the FCC ruled 34 days before the November elections that live coverage of presidential news conferences (President Johnson was seeking re-election then) wasn't exempt from equal time demands.

Goss said the issue didn't come up in 1968 because Johnson wasn't seeking re-election. Nor, he said, did it come up in June 1972, when President Nixon, having become a declared candidate six months earlier, held his first televised news conference in more than a year.

He said now that CBS has petitioned the FCC on the matter, "the commission will review our 1964 decision and see if we should change it or not." He said he didn't know when a ruling would come.

Salant said the equal time question is acute because Ford has promised to hold an average of one news conference a month. He was asked if CBS will stop its live coverage until an FCC decision.

"I can't answer that," he said. "I don't want to decide that until it stares me in the face." He later was asked if CBS' live coverage of Ford's news conferences is in doubt until an FCC ruling.

"Yes, that certainly is true," he said. "We certainly have not made the decision—until this is cleared up—that we'll go ahead anyhow."

## Lawmen Class Given Funds

WASHINGTON, D.C. — Congressman Omar Burleson announces the award of funds to Howard College by the Law Enforcement Assistance Administration for the purpose of making grants and loans to law enforcement students attending the College.

The college will receive \$5,280 for its Law Enforcement Education Program for fiscal year 1976.

## Two Programs Are Promised

The main program at the weekly ABC meeting Friday at Settles Hotel concerned humorous tape splicings of national celebrities presented by Don Brooks.

The club, in hopes of boosting its lagging attendance, will feature two programs in one at the next get-together.

Bill Sneed, president, read a letter to members in attendance from Margaret Baum, volunteer services coordinator at the Big Spring State Hospital, complimenting the ABC for outstanding community service rendered.

The club's blue chip membership goal this year is 83.

## Fishermen Mad About Pollution

DEAUVILLE, France (AP) — Scores of fishermen, angered at pollution of the Seine estuary, today blockaded Deauville and Trouville harbors with their boats.

Hundreds of sailboats and other pleasure craft were trapped in resort areas. An international sailing regatta at Deauville was canceled because the yachts could not get past the fishing boats which carried banners saying: "The ocean is being turned into a garbage can."

# Seven Planes To Join Static Display Here

Plans are shaping up for Webb AFB Bicentennial Open House Sunday, August 3, as several aircraft from the Tactical Air Command have been scheduled to appear on static display for viewing. Gates will be open to the public at noon.

According to Colonel Robert A. Owens, commander of the 78th Flying Training Wing, Webb will receive for display an F-100 Super Sabre, A-7 Corsair, O-2 Skymaster, RF-4, F-111 and RF-101 Voodoo from units of TAC's Twelfth Air Force.

The F-100 Super Sabre, originally a day fighter, was the workhorse of tactical air units throughout the 1960s. The F-100 is equipped with 20mm cannons and carries a combination of bombs, rockets, and missiles. It was the first U.S. Air Force aircraft to fly at supersonic speed in level flight. The Super Sabre set a world's speed record of 822 m.p.m. in August 1955. The F-100 has been considerable service in Southeast Asia. It is now being flown by the Air National Guard.

The A-7 is a single-engine, single-place attack aircraft equipped with a 20 mm. Gatling gun and capable of carrying and expending a wide variety of conventional ordnance over a large radius of action. The aircraft is designed primarily for the air-to-ground attack role employing advanced radar, navigation, and weapons delivery systems to optimize visual delivery accuracy and permit operations in marginal weather and lighting conditions.

The Air Force's O-2 aircraft is a military version of the Cessna Model 337 Super Skymaster. It can be used in forward air controller,

liaison, observation, and psychological warfare (psywar) functions. It is a high-wing, all-metal, twin-boom aircraft. Its unusual center-line mounting of engines, with a tractor and pusher propeller arrangement, provides twin-engine safety and reliable handling characteristics. It is easier to fly than a conventional two-engine aircraft. The O-2 has dual, side-by-side pilot controls and can carry two additional passengers or about 700 pounds of cargo. Capable of taking off or landing in less than 1,000 feet, the O-2 can operate at speeds of 80 to 200 m.p.h.

The RF-4C is a two-place, twin-jet, tactical reconnaissance aircraft. The primary mission of the aircraft is all-weather, high-low, day-night selective reconnaissance. For extended range missions, both centerline and external wing tanks can be carried, and the RF-4C can be refueled in flight. Optical sensors, including framing and panoramic cameras, are located in three camera stations in the nose of the aircraft. Electronic sensors include forward-looking radar, side-looking radar, and an infrared reconnaissance set. Associated reconnaissance capabilities include photoflash ejection, film data annotation, an HF communication set, and vertical stabilized camera mounts.

The F-111 is a tactical strike aircraft with the primary mission of near all-weather, day-night operations in the conduct of conventional and nuclear warfare. It has a variable-sweep wing which can be positioned in flight at various

angles between the full forward and aft positions. This feature enables it to operate from relatively short runways, fly at supersonic speeds at low altitudes and reach Mach 2.5 above 60,000 feet.

The F-101B is a long-range, all-weather supersonic fighter-interceptor. It is flown by the Air Defense Weapons Center at Tyndall AFB, Fla., and by several Air National Guard units throughout the United States. CF-101s are also flown by the Canadian Defense Forces as an integral part of the North American Air Defense Command. The twin-engine F-101 was first flown in 1954, and has been in use by Aerospace Defense Command since 1958.

It was also learned that the U.S. Navy will provide its latest fighter, the F-14 which will arrive from Miramar Naval Air Station, Calif.

The highlights of the air show will be a 3 p.m. performance of the world famous "Thunderbirds," the U.S. Air Force aerial demonstration team.

At 4:30 p.m., the new 500-man dining hall will be dedicated to Captain Steven L. Bennett, a former Webb student who gave his life in combat to save a fellow aircrew member, an act for which he received the Medal of Honor, the nation's highest decoration for valor. Officiating at the memorialization ceremony will be U.S. Representative Omar Burlison of Texas' 17th Congressional District. Mrs. Linda Bennett, widow of the honoree, will also participate.

The public will get an opportunity to see some of these aircraft in flight as they depart for their home bases that afternoon, beginning at 5:00.

# 11 Per Cent Raise Given Policemen

ALBUQUERQUE, N.M. (AP) — Striking Albuquerque policemen agreed to return to work today after accepting a contract offer giving them an 11 per cent raise.

Members of the Albuquerque Police Officers Association (APOA) voted 303-125 late Monday night to accept the proposal, which was hammered out during three days of meetings by a fact-finding board headed by a federal mediator.

Nonstriking APOA members voted on the proposal along with the strikers.

The new contract ends a 10-day strike by more than 300 officers who walked off their jobs July 12 in a contract dispute.

Jim Baca, a city spokesman, said the officers would be back on the job this morning, giving a force of 150 supervisors and non-striking patrolmen their first break since the walkout began. The skeleton crew has been working 12-hour shifts with no days off.

Under the new contract, the officers will receive an 8 per cent pay raise, a 4 per cent merit increase and a boost in fringe benefits.

The two-year contract raises the officers' non-taxable uniform allowance from \$20 a month to \$50, with an increase to \$70 after July 1, 1976.

The agreement reinstates all striking officers, including more than 300 who resigned last week after District Court Judge James A. Malone ordered them to return to work.

News items were excluded from the meeting at which the proposal was presented to APOA members, but details of the offer were confirmed by city officials and a member of the fact-finding board.

The strikers had said they would hold out for a 12 per cent raise and a 4 per cent merit increase. City officials had offered an 8 per cent raise with a 4 per cent merit hike and a 12 per cent across-the-board raise with no merit increase.

A FEW EXTRA BANDS — Debbie and Jerry Davis, the parents of quintuplets that arrived last Friday, met the press Monday for a brief time. Mrs. Davis has a few more hospital bands on her wrist than most patients; one for her and five for her children. All the babies are in good condition.

# QUINTS 'DOING FINE' 'But After Four, What's One More?'

DALLAS (AP) — Is it a shock to discover you've just become the mother of quintuplets?

Not at all, said Debbie Davis, who did just that last Friday after going to the hospital with word from her doctor to expect four babies. "I was shocked when I heard I was going to have four," she said Monday. "But after four, what's one more?"

Aglow with pride, the perky young mother talked with reporters for the first time and joined her obstetrician, Dr. Jack Pritchard, in telling them her four new daughters and one son are "doing fine."

"They are beautiful—all of them," declared Mrs. Davis, who was permitted to hold the infants for a time Sunday. She recalled that after trying for more than a year

to have a baby, she talked to her doctor and he prescribed a drug.

"I did not know it was a fertility drug," she said. "I only took them for five days."

Thereafter she had her 21-year-old husband Jerry, a \$175-a-week mechanic, learned by degrees that more than one infant was on the way.

"First it was two," Davis recalled. "Then three. Then it was four."

The Davises live at suburban Lewisville in a small three-bedroom home rented for \$130 a month plus utility bills, and the new mother is eager to get back there and start preparing for a new life style.

"It's going to be rough at first," she conceded. "We're used to going out to eat once in awhile, and going to visit our families. We won't be going anywhere for a couple of years."

She took a leave of absence from her job at the Lewisville State Bank to have her babies.

Davis said insurance will cover most of their hospital bills, but he doesn't know yet whether they'll need a nurse when they take the quintuplets home. They have been offered free formula and all the baby bottles they'll need.

"I need to get home and get another nursery fixed," said Mrs. Davis. "We had one room ready with two beds. Then we arranged to get two more beds. Now we need to fix another nursery and get another bed."

# UW Objective Is \$41,400

LAMESA — Objective of the 1975 Dawson County United Way campaign will be \$41,400.

Excluded from the planning in this year's drive will be USO, Family Planning, a Books by Mail proposal and the Boy Scouts of America.

Added will be the Salvation Army and the Southwestern Diabetic Foundation. The Boy Scouts of Dawson County would receive \$5,000 under the new budget, largest in the history of Dawson County.

UW officials were told that the county was "not receiving anything for its money" in contributing to the Boy Scouts of America, that the county had been treated like a stepchild by the South Plains Council of Boy Scouts. Consequently, funding will be disbursed on a purely local level.

# Two Are Charged After Shooting

SNYDER — Two Snyder men, Rosalio Gutierrez, 29, and Raymond Medrano Jr., 27, were charged here Monday in connection with a Saturday night shooting at the Latin American Center that left a Big Spring girl gravely injured.

Delia Ortiz, 6, daughter of Mr. and Mrs. Jesse Ortiz of Big Spring, was struck in the head by a stray bullet and is hospitalized in Big Spring. Delia was one of four persons injured in the gunplay.

Gutierrez was charged with aggravated assault with a deadly weapon. Medrano was accused of causing injury to a child.

Gutierrez and Medrano, both injured in the shooting, are listed in satisfactory condition at Highland Hospital in Lubbock. Both are in the intensive care unit at the facility.

Delia, who was about 25

feet away from the spot where the trouble broke out, was listed in stable condition at Malone-Hogan Hospital this morning.

Gomez Rios Tovar, 26, was the fourth person injured in the exchange of gunfire. Shot in the ankle, he was treated and released from a Snyder hospital.

Bill Marvin, a detective sergeant on the Snyder city police force, said two men at the dance pulled their weapons and started shooting without exchanging any words. An old family feud was blamed for the incident.

# Four Present For School

Four fire department officials are at Texas A&M this week at the annual firemen's school held there, according to Chief Alvie Harrison.

Those attending include Howard Dodd, fire marshal, W. E. Anderson and Ellison Taylor, department captains, and Jack Cottingham, department lieutenant.

# Hearing Set On Budget

COLORADO CITY — Public hearing on the proposed 1975-76 Colorado Independence School district budget will be held at 7 o'clock here this evening.

Tentative figures indicate a four cent reduction on taxable school district property. Plans call for the tax rate to be set at \$1.87 per \$100 evaluation.

# College Computer Will Be Put To Use By County

For the 1975 tax roll, the county tax assessor-collector was instructed to use the NCR computer system.

Mrs. Zirah L. Bednar said she will be using Howard College NCR equipment, because the county's Burroughs machine, which was used for the 1974 roll, no longer works.

While not binding, the decision possibly foreshadows a later decision to lease a computer from NCR next year. Should County Commissioners Court choose IBM instead later, Mrs. Bednar would need to start the conversion process again.

County officials hope to computerize not only tax records, but also finances, the payroll and voter registration and the petty jury selection system.

"It'll take a couple of years to get it all in the computer," Mrs. Bednar told the court.

Spring utilizes an IBM computer.

"I hate to see all the tax-supported agencies in this town get their own computers," Commissioner William B. Crocker Jr., said. "It's kind of like buying a twenty or thirty thousand dollar tractor and using it 50 days a year," Commissioner Jack Buchanan said.

Mrs. Bednar said she had been trying for years to consolidate taxing operations. All county-based local governments now pay the expense for a joint appraisal agency, and the county tax collector thought she could save money by collecting for other local governments.

But now there is not time to consolidate computer usage before sending out tax statements October 1, Mrs. Bednar said.

"CRAWL FIRST" Crocker suggested renting the college computer for 18 to 20 hours monthly. "Crawl before you walk," the commissioner explained.

"We need to be able to feed that information to our computer daily," Mrs. Bednar said.

Mrs. Bednar outlined how, starting Jan. 1, the county could lease the NCR com-

puter for \$1,297 monthly with a discount if the county later decides to purchase the equipment.

Total purchase price for the NCR machine is \$51,000. There is the additional monthly maintenance fee of \$412 if the county buys instead of leasing.

Air conditioning and courthouse office space will have to be altered for a computer.

IBM wants \$1,760 for a monthly lease. Purchase price is \$54,595 with a \$356 monthly charge.

Rates do not differ much, but Mrs. Bednar mentioned minimal costs of adapting an NCR computer program being used by Ector County.

For its program, Bill Hicks, Ector County auditor, wants a "token fee" of \$2,000 a letter from an NCR representative said.

# DELINQUENT ROLL

In addition to the action on computer systems, Mrs. Bednar obtained signatures from the court on the delinquent tax roll for 1974.

On July 1, she said \$24,280 in this year's county taxes became delinquent.

With \$989,869 in assessed county taxes, Mrs. Bednar figured her office collected 97.2 per cent, compared to 97.1 per cent the previous year.

Previously delinquent taxes which were collected during the year are not used to get this percentage, Mrs. Bednar said. But errors and other deletions were subtracted before dividing. This year's delinquent tax roll also itemizes statements for \$13,991 in Howard College taxes and \$3,750 in state taxes assessed in the county. The county collects taxes for the state and college.

# TAX VALUE

J. C. Eudy asked the court, sitting as the board of equalization, to half his next tax bill on Agee Food Store, 1201-11th Place.

Fire damaged the store this summer, and the store is no longer open. Taxes are levied on the basis of property ownership on Jan. 1 each year.

The board was told no "pro-rata" concession has been made for Cook's discount store, which ceased operation here.

"You start something like this, and there ain't no stopping to this," Commissioner Ikie Ripard said.

Crocker mentioned that the published dates for the board of equalization meetings has passed.

No action was taken. The court planned to see what other taxing agencies would do.

# DEATHS

## Rito Frausto

STANTON — Rito Salinas Frausto, 50, was found dead on a farm where he worked 14 miles northeast of Stanton Monday afternoon.

Services will be at 4 p.m., Wednesday in St. Joseph's Catholic Church in Stanton, with burial to follow in St. Joseph's Cemetery under the direction of Gilbreath Funeral Home.

Mr. Frausto was born May 22, 1925 in Pearsall, Tex.

Survivors include his widow; two sons, Pete Frausto and Johnny Frausto; a daughter, Frances Frausto, all of Lenora; a brother and six sisters.

## Mrs. Steward

Gerardine H. Steward, 80, a former longtime Big Spring resident, died at 2:15 p.m. Monday in Medical Arts Hospital in Lamesa.

Services will be at 10 a.m. Wednesday in the Branon Funeral Home Chapel in Lamesa with the Rev. Abe Hester, pastor of the Second Baptist Church, and the Rev. Alvis Cooley, pastor of the First United Methodist Church, officiating.

Burial will be in Lamesa Memorial Park under direction of Branon Funeral Home.

Mrs. Steward, a Waco native, had lived in Lamesa about three and one-half years. Prior to that she lived in Big Spring about 40 years, retiring there as a nurse at Malone and Hogan Hospital.

Her husband, J.B. Steward, died in November, 1971. She was a Methodist.

## Survivors include a sister, Mrs. Lucille Anderson of Lamesa; and two brothers, Leonard Hancock and Hoy Hancock, both of Lamesa.

## Mr. Bohannon

COLORADO CITY — Homer Bohannon, 69, of Colorado City, retired Gulf Oil Co. employe, died at 4:05 p.m. Monday in Medical Clinic here after an apparent heart attack.

Services will be 2:30 p.m. Wednesday in Kiker-Seale Funeral Home Chapel.

The Rev. Glenn Roenfeldt, pastor of First Baptist Church, will officiate. Burial will follow in Colorado City Cemetery.

Born June 6, 1906, in Duncan, Okla., Mr. Bohannon married Hattie Clark June 24, 1927, in Wellington. They moved from Odessa to Colorado City in June 1973.

Survivors include his wife; a son, J.R. Bohannon of Fort Lauderdale, Fla.; a sister, Mrs. Edna Swafford of Lamesa; a brother, Amos Bohannon of Midland; and two granddaughters.

## Jack Hatch

Funeral for Jack Hatch, 56, who died in Austin Saturday, will be at 2 p.m., today in the Nalley-Pickle Rosewood Chapel with the Rev. Jerry Golden, pastor of Prairie View Baptist Church, officiating. Burial will be in Mount Olive Memorial Park.

Pallbearers will be Luther Smith, R.C. Thomas, W. C. Fryar, A. D. Nanny, Lester Owens and Robert Cline.

# ELECTRICITY RIP-OFF DISCOVERED IN AUSTIN

AUSTIN (AP) — A man who, for a time, found a way to beat the rising cost of electricity suddenly faces a \$1,500 bill from the city electric department.

It was the second case of electricity theft discovered in a week.

No criminal charges have been filed, but Ewald Bunge, city water and light office manager, said it's possible there will be.

Asst. City Atty. Mike Sampson said the man drilled a hole through the glass window of his electric meter, then rendered the meter inoperative by inserting a wire through the hole into the consumption recording device.

On the scheduled day for the meter reader to come by, the reconnected the recording device, Sampson said.

But the reader showed up on a different day and discovered the ruse.

Bunge said the \$1,500 charge is an estimate based on the man's electricity consumption before it showed a large drop.

Sampson said the city will take whatever action is necessary to stop thefts of electricity, and Bunge said spiraling utility bills are making such incidents more numerous.

"With the price of electricity what it is today, something's got to be done to stop these people from robbing us blind," Sampson said.

Billy Martin Fired, Rangers Name Lucchesi

ARLINGTON, Tex. (AP) — Billy Martin says it's three strikes and he's out of baseball. "I don't think I can come back into baseball because my reputation precedes itself no matter where I go," said the feisty Martin, who was fired Monday by Texas Ranger majority owner Brad Corbett and replaced by Frank Lucchesi.

much about baseball as I do pipe," Corbett is in the plastic pipe manufacturing business in Fort Worth. "Corbett is in baseball one year and all of a sudden he's a genius," Martin added, his eyes reddened by 48 consecutive hours without sleep. "I was against the Willie Davis trade all the way. But if you don't approve it then you're a..."

BILLY MARTIN chboard lit up with calls from irate fans—some threatening never to spend another nickel at Arlington Stadium.

THE THRILL OF VICTORY — Rep. Martin Russo leaps for joy after scoring the winning run in the Democrats' 3-2 victory over the Republicans in the annual congressional baseball game at Memorial Stadium Monday night.

Baseball Standings

Table of baseball standings for the American League and National League, showing teams like Boston, New York, Milwaukee, Baltimore, Cleveland, and Detroit with their respective win-loss records and percentages.

Jenkins Shuts Out Bosox, 6-0

By The Associated Press Frank Lucchesi was worried about how Texas' fans would treat him as their team's new manager. It took only a few minutes for the Rangers to put his mind at ease ... for the moment, anyway.

"I was, of course, concerned about the fan reaction," Lucchesi said after he took over as the Rangers' head man Monday night, only a few hours after fiery Billy Martin was fired. "But that four-run first inning sure helped. Tonight's game meant a lot."

Rookie Dave Moates hit his first major league home run to trigger the outburst that took the heat off Lucchesi and enabled the Rangers to breeze past the Boston Red Sox 6-0 behind Ferguson Jenkins' five-hitter.

average to .270. 'TWINNS 3, YANKEES 0 Bert Blyleven fired a four-hitter for his first shutout of the year to beat the Yankees. The Twins gave him a run in the second inning on successive singles by Jerry Terrell, Rod Carew and Tony Oliva, then singles by Carew and Oliva, a bunt and Lyman Bostock's two-run single wrapped it up in the seventh.

ROYALS 3, TIGERS 2 John Mayberry's 19th and 20 home runs of the season led Kansas City past the Tigers. His solo shot in the first inning and the decisive two-run belt in the third off Mickey Lolich gave him 11 in the month of July, setting a Royals record.

INDIANS 2, ANGELS 1 Oscar Gamble's sixth homer, a leadoff shot in the 11th inning, carried the Indians over California. Lee Stanton hit his 10th homer in the second inning for the Angels and Cleveland tied in the fourth on Rico Carty's grounder.

Universities Face Reality Of Unisex Athletic Teams

WASHINGTON (AP) — Most university athletic departments, some reluctantly, began facing the reality today that women will have to have equal opportunity to participate in their sports programs.

Under the amendment, money produced by football and basketball would first be spent on those sports and what remained could then be used for the rest of the athletic program. "We feel that this is not only a very desirable but necessary amendment," said Thomas Hanson, assistant NCAA executive director, by telephone from Kansas City.

The National Collegiate Athletic Association and its member schools have claimed that no one is opposed to equal opportunity for women in sports but they believe it means "equal expenditures."

Efforts to block the legislation were defeated in the House and Senate last week, but the NCAA says it will pursue passage of an amendment to the law which, in effect, would exempt money-producing sports such as football and basketball.

is law and do all we can do to comply within reason," he said. "The reason ends when you demand that football and basketball programs be matched."

At several schools, such as William & Mary and Northwestern, a survey of the students will be conducted to see what sports they are interested in, a proposal that was in the original HEW regulations but later discarded.

Dolphin Says WFL Losses May Help

MIAMI (AP) — Veteran receiver Howard Twilley says the loss of Larry Csonka, Paul Warfield and Jim Kiick to the World Football League hurt the Miami Dolphins physically, but it helped them psychologically. "I know many of our veterans have a rededicated attitude," said Twilley, adding he expects players to respond as they did in 1972 when quarterback Bob Griese was hurt and missed 10 games.

With Marlin Briscoe traded, Twilley finds himself as the only wide receiver on the roster with more than one year's experience. The others are second-year men Nat Moore and Melvin Baker. Coach Don Shula also is hoping to get a big year out of rookie Freddie Solomon.

Rozelle Decision May Be Delayed

MINNEAPOLIS, Minn. (AP) — Nearly two months of testimony have been concluded on the trial of the National Football League's Rozelle Rule, but there's no prospect for a quick end to what has become a festering sore to the NFL Players Association, league officials and club owners.

It may take another three years for a final verdict, in the view of U.S. District Judge Earl R. Larson. He said in an interview he doesn't expect to hand down a verdict until late this year.

in event he signs with a new team, the club losing the player must be compensated by the other team. And if the teams can't agree on the compensation, Commissioner Pete Rozelle must dictate terms — usually involving a pick in the next college draft or a player trade.

Angels Take Lead In Playoff Series

The Saunders Angels can sew up the city Junior Teenage League Championship tonight with a win in their best of three playoff with the Lions. The Angels topped the Lions 3-1 Monday night in the first game of the series and can clinch a berth in the State Playoffs if they win tonight.

Kyle Pfeiffer struck out 16 batters and only allowed one hit by the Lions as he led the Angels to the win. He suffered control problems in the first inning, however, and walked four of the first five batters he faced, walking in the Lions only run of the night.

Palo Duro Names First Black Coach

AMARILLO, Tex. (AP) — Ed Smith, 41, a Negro, has become the first of his race named a head coach in Amarillo public schools. Trustees chose him Monday to become basketball coach at Palo Duro High School. Smith, graduated at Prairie View A&M after finishing schools here, has been employed in the Amarillo system since 1963 and was promoted from assistant coach.

Tourney Slated

The winner of the three game series will earn a berth in the eight team State Tournament to be held here August 5, 6, 7 and 8. Lions 100 000 0-1 1 0 Angels 110 100 X-2 7 0 WP—Kyle Pfeiffer, Angels. BEAT METS 6-2 Astros Force Torre Into Record Books

By The Associated Press Joe Torre is a lifetime .300 hitter. He's driven in 100 runs or more in five different seasons. He's won the Most Valuable Player award. But he's never gotten into baseball's record book. Monday night he made it. Future generations will find Torre under "Most double plays hit into—four."

Felix Millan got four singles for the Mets but never reached second, getting caught on the front end of all Torre's DPs. "I couldn't have set a record without Millan," said Torre. "He ought to get an assist."

CUBS 1, DODGERS 0 Rick Reuschel, 7-10, teamed with Oscar Zamora on a five-hitter. Jerry Morales singled in the ninth inning, took second on an error, was sacrificed to third and scored the game's only run on Manny Trillo's single. Andy Messersmith, 12-8, took the loss.

Texas League All-Stars Will Clash

FORT WORTH, Tex. (AP) — Two teams with records under the .500 level will have the most representatives when the Texas League All-Stars meet the East Division leading Lafayette Drillers July 31.

El Paso, with a 43-47 record in the West, and Arkansas, with a 44-46 mark in the East, each have five players on the squad. The team, which was chosen by the league's players, coaches and managers, will be managed by the Shreveport Captains' Tim Murtaugh, who won the honor on the league's best won-lost record. Shreveport, however, has just three players on the team.

Your DAILY HOROSCOPE

WEDNESDAY, JULY 23, 1975 GENERAL TENDENCIES: A day to look into your personal wishes and decide where you want to put your efforts in the future. A fine time to make social contacts you wish to develop for mutual gain. ARIES (Mar. 21 to Apr. 19) Visit a new place with an interesting companion who can give you an insight to expand in the future. Dress in good taste. TAURUS (Apr. 20 to May 20) Go to a person in a high position who can help you advance in your line of endeavor. A good day to engage in civic work. GEMINI (May 21 to June 21) Use vision in planning to expand in the near future and make sure you are practical. Don't neglect health treatments. MOON CHILDREN (June 22 to July 21) Find more advanced methods for handling important business matters. Strive for more understanding with mate. LEO (July 22 to Aug. 21) Listen to what a business expert has to say and thereby learn how to become more successful in the future. Relax tonight. VIRGO (Aug. 22 to Sept. 22) Find a more up-to-date system for handling your regular work so that it runs more smoothly. Stay within your budget. LIBRA (Sept. 23 to Oct. 22) Spend part of this day at the amusements you enjoy with congenials. Happiness is for the making now. Keep cheerful. SCORPIO (Oct. 23 to Nov. 21) Do thoughtful acts for kin and make home life more harmonious. An excellent day to develop a project you have in mind. SAGITTARIUS (Nov. 22 to Dec. 21) You are thinking clearly and cleverly now and can produce a great deal in your line of endeavor. Be more confident. CAPRICORN (Dec. 22 to Jan. 20) Use more modern systems in handling financial affairs for best results. Try to make your life more meaningful. AQUARIUS (Jan. 21 to Feb. 19) Your personal desires are clear in your mind now and you should follow through in a positive way. Avoid arguments. PISCES (Feb. 20 to Mar. 20) Listen to your intuition suggests and you'll know how to progress more quickly. Show increased devotion to mate.

Card Of Thanks

I wish to thank the people of International Little League for the pleasure of working with them the last two years. I especially wish to thank Mr. Stevens for his recognition and thanks, it made the job of being team mother for two seasons worthwhile. A very special thanks to the president for the lovely plaque she purchased with her own money, it was a joy being Secretary. As I move into another league next year, some of you I will never forget.

Sincerely, Sylvia C. Justice

Due to an error, John W. Allen's name was left out of the Card of Thanks for Robert Earl Allen that ran Sunday, July 20, 1975.

## WANTED: GRADUATE PETROLEUM ENGINEER

This position involves evaluation of oil and gas properties for lending purposes, and includes contact with bank customers. Very little travel is required, with work in a permanent location, attractive office space, and pleasant working conditions. We provide excellent fringe benefits comparable to major oil companies. This department will be moving to a new multistory bank and executive office tower building in the spring of 1976.

- No minimum experience required.
- Salary is open and competitive with major oil companies.

Dear Abby

Grades Prove That Teens Under Bad Influences

DEAR ABBY: I have two teenagers, ages 14 and 16. Their father and I divorced five years ago and both remarried. For years, the children have been begging me to let them live with their father because they felt that their stepfather and I were too strict. Also, their real father promised them the moon.

Last year, I let them go on the condition that they keep their grades up (both were honor students) and continue their confirmation classes.

Well, they are flunking in school and have practically dropped out of confirmation class. (They also let four years of music lessons go down the drain.)

I know they prefer living with their father because he doesn't discipline them at all. When they came home, my daughter had so much makeup on I didn't recognize her.

Should I let them go back with their father, or should I insist that they stay with me until they finish high school? My husband has been a wonderful stepfather, although they never showed him the proper respect. He is willing to have them back if I say so.

I know it will be difficult if they return, but I hate to see them ruin their lives because I know they will regret it later.

Please advise me.

it. These are important years. They desperately need a firm hand, guidance and discipline. They'll thank you later. And if they don't, at least you'll know that you did all you could for them.

DEAR ABBY: What is the correct way to address a letter to a lady whose husband has just died?

Also, how does one address a woman whose husband has been dead for several years?

D.S. DEAR D.S.: A widow is always addressed as "Mrs. John Jones" — regardless of how long John has been dead.

DEAR ABBY: I could not leave unanswered your reply to "Nameless," whose wife made several suicide attempts.

My mother died a natural death two years ago. My father died last month at 73 of carbon-monoxide poisoning.

I am proud to say that he finished the last page of his long "note" on the night before he died, after dictating it to his best friend. On Sunday morning, my two daughters and I arrived at his home for a lunch date to find the sheriff and coroner there.

My family will bear its share of guilt for not preventing his death — each in his and her own way. But I say, "Greater love hath no man."

He did not want to live on as a vegetable; he left a six-page letter of explanation in lovely, lucid English.

I miss both my parents. But I honor their memory in the only way I know; I share their love with all other living things. That is their legacy to me. And if I am lucky, my three children will share this love with the family of man.

You may use my name. MARTIN K. EAKIN, O.D. Everyone has a problem. What's yours? For a personal reply, write to ABBY: Box No. 69700, L.A., Calif. 90069. Enclose stamped, self-addressed envelope, please.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212. Please enclose a long, self-addressed, stamped (29c) envelope.

Veterans Go To Convention

The Veterans of WWI Barracks 1474 and the Ladies Auxiliary delegates attended the state convention in Houston July 15.

Representing the local chapter were Marion B. Irland, barrack commander and V. C. Barber.

All sessions of the convention were held in the Continental Houston Motel and were opened and closed in accordance with the Ritual of the Veterans of WWI, USA, Inc. The Honorable Fred Hofheinz, mayor of Houston, gave the welcoming address.

The 1474 Barracks and its auxiliary were presented with two first place awards. Homer Hagood received a first place in the state for over 1000 hours of volunteer work at the VA Hospital. Mrs. Cordelia Castle received a first honor in membership gain.

Dennisa Brown Wins Contest

Dennisa Brown, age seven, daughter of Mr. and Mrs. Kent Brown, Box 1863, won a beauty contest during "Playday" at Grandfalls recently. She was presented with a crown and trophy and is visiting with her aunt, Mrs. Richard Boyott in Grandfalls.

Holtorf Shower

Miss Pam Holtorf, bride-elect of Jarrell Carroll, was given a bridal shower Thursday evening in the club room of the Barcelona Apartments.

The hostesses were Mrs. Hack Miller, Mrs. Gary Phillips and Mrs. Doug Bankhead.

Attired in a long multi-colored halter dress, the honoree was presented with a corsage of pink sweetheart roses. Her mother, Mrs. H. H. Dyer, and Carroll's mother, Mrs. Loy Carroll, were presented corsages of pink carnations.

Refreshments were served from a table covered with a pink cloth overlaid with white lace and centered with an arrangement of mixed pastel carnations flanked by long pastel tapers in a brass holder. Crystal and silver appointments were used. Guests were registered at a table accented with an arrangement of pink roses.

Attending from out-of-town were Mrs. Roy Pickett, Odessa, and Mrs. Virginia Hogue, Midland.

The couple will be married at 7:30 p.m., Aug. 1 in the Hillcrest Baptist Church.

Announcement Of Baby's Birth

Mr. and Mrs. Allen Bradberry announce the birth of a daughter, Renee Lee Bradberry at 7:15 a.m. Saturday in Malone Hogan Hospital.

The infant weighs 2 pounds and 13 ounces. Grandparents include Mrs. Bobbie Bradberry and Mr. and Mrs. William McFarlin, all of Big Spring.

Use Quickly

Cooked dried fruits should be stored in covered containers in the refrigerator and used within a couple of days.

A ripe avocado may be stored in the refrigerator for as long as three to five days.

Belle's Patterns P. O. Box 841 — Dept. 102 Hurst, Texas 76053

HONEYMOON — Rana and Stan Swanson honeymooned around the world for two and one-half years. They bartered plastic frisbee toys for lodging in Malaysia and mined opals in Australia. They have plenty of souvenirs to remember the trip.

Miss Debra Harris Has Bridal Shower

Debra Harris, who will be married to Robert G. Thompson, was honored at a bridal shower Thursday in the home of Mrs. Ted Hull, 2311 Allendale.

Cohostesses were Mrs. T. F. Horton, Mrs. Ted Brown, Mrs. Paul D. Warren, Mrs. Buford Hull, Mrs. Grace Martin, Mrs. Hazel Lamar, Mrs. Pete Anderson, Mrs. Dee Foster, Mrs. T. A. Harris and Mrs. W. H. Bain.

The honoree, who was attired in a pink suit, was presented a corsage of carnations, as were her mother, Mrs. D. G. Harris, her grandmother, Mrs. Mamie Brown, and Thompson's mother, Mrs. R. M. Thompson.

Crystal and silver appointments were used on the refreshment table, which was covered with a pink cloth overlaid with lace. The centerpiece was a pink candle accented with pink and white carnations.

Out-of-towns guests included Mrs. M. A. Korchenko, Mrs. Jack Horton and Mrs. Ron Cowart, all of Lubbock.

The couple will be married at 8 p.m. Aug. 2 in the College Baptist Church.

Repairs Change Kettle's Tune

ELYRIA, Ohio (AP) — When Mrs. Isaac Solomon got back her teakettle from a repairman recently, she was in for a surprise.

The teakettle used to play "Tea for Two" when the water started boiling but not any more. It played "Who's Afraid of the Big Bad Wolf."

The repairman gave her this explanation. He dropped the music box and broke it. He tried to find a replacement but couldn't. In desperation, he removed a small music box from an old teddy bear that once belonged to his daughter and installed it in the teakettle.

Based on latest FPC figures, Texas Electric's residential rates are 27% below the national average.  
The average family uses about 750 kilowatt hours of electricity per month. Based on the latest Federal Power Commission figures, Texas Electric's rates for this much electricity are about 27% below the national average.  
But the costs of producing your electricity are going up. New supplies of Texas Electric's major generating fuel — natural gas — are harder to get and much more costly. So we're turning to lignite coal and nuclear fuels. While these fuels cost less than new supplies of natural gas, plants that use them are considerably more expensive to build than gas-fired plants.  
This means electricity will have to cost you more. But we're working to keep your rates reasonable by using fuels that will keep costs lowest in the long run.
