## Riots Erupt In Ireland

BELFAST, Northern Ireland (AP) — Rioting erupted in Northern Ireland for the first time in months Saturday as Roman Catholics called for an end to internment of Irish

Republican Army suspects. A 17-year-old Roman Catholic youth was killed and scores of civilians and soldiers were injured. Police reported more than 30 incidents of shootings,

bombings, stone-throwing and looting, and at least 49 arrests.

British soldiers were attacked with bricks and bottles in Belfast during an anti-internment demonstration near the Falls Road, a Catholic stronghold. Troops retaliated with rubber bullets and drove the crowd back.

Army helicopters hovered overhead, and armed troops watched from rooftops as the rally progressed, attended by about 300. It was one of a dozen Catholic demonstrations and marches in the province, most of which were relatively peaceful, police reported.

The trouble erupted at the Belfast rally after Maire Drumm, vice president of the Provisional Sinn Fein, the political wing of the IRA, told the crowd: "If there must be a war, may your hand be steady and your aim true."

A group of 30 Belfast taxi drivers blocked the highway outside the city on the road to the Maze Prison, where the remaining 230 internees are held — all of them suspected IRA guerrillas. Police broke up the phalanx of taxis to clear the road.

The bullet-riddled body of 17-year-old Martin McMenamy was found in front of a Belfast hospital before dawn. No group immediately claimed responsibility for his death.

In the border town of Newry, a terrorist flash-point, gangs of youths built barricades out of hijacked cars and trucks, blocking the Belfast-Dublin road, police reported.

Altogether, police estimated there were nearly 2,000 demonstrators at the anti-internment rallies and marches in Belfast, Newry, Londonderry, Lurgan and Dungannon.

In the Irish Republic's Portlaoise Prison, IRA inmates reportedly went on a 24-hour hunger strike in sympathy with the Ulster protesters.

## Opposition Avalanche In Portugal

LISBON, Portugal (AP) — An avalanche of civilian and military opposition bore down Saturday on Premier Vasco Goncalves, threatening to smash his day-old government and block Portugal's Communist course.

Goncalves fought back, the support of the two other members of the ruling military junta, by suspending nine dissident officers from the 30-man Revolutionary Council for signing and distributing a document attacking the premier for his Communist-line policies.

However, the document still was reported circulating and finding wide approval as important moderate officers rushed to join the criticism just a day after Goncalves formed a new cabinet. Military sources said more than 400 officers had signed the document within hours of its appearance Thursday night.

A statement from the junta said: "Because of their document of Aug. 8, the directorate decided to suspend from the Revolutionary Council the nine officers who signed and distributed the document."

Before the suspension was announced, President Francisco da Costa Gomes and internal security chief Otelo Saraiva de Carvalho, Goncalves' partners in the all-powerful junta, had been reported by leaders of the Armed Forces Movement, which heads the 15-month-old revolution, to be moving toward the moderate camp.

Their latest decision seemed to indicate a closing of ranks around the premier.

Among the nine suspended from the Revolutionary Council were former Foreign Minister Maj. Ernesto Melo Antunes, who was being promoted as a replacement for Goncalves; moderate leaders Capt. Vasco Lourenco and Air Force Maj. Jose Canto e Castro; former roving ambassador Vitor Alves; and former Mozambique High Commissioner Vitor-Crespo.

The commanders of two of the country's three military regions also were suspended from the council.

## Billie Sol Target Of IRS Probe

DALLAS (AP) — Ex-convict Billie Sol Estes is the target of a new probe by the Internal Revenue Service to determine whether he has hidden millions of dollars in West Texas bank trust accounts and Dallas-Fort Worth area real estate ventures, the Dallas Morning News said in Sunday's edition.

In a copyright story, the News said the IRS is simultaneously looking into the affairs of Midland businessman Ray K. Horton, a longtime Estes friend.

Estes made headlines in 1962 when his fertilizer and grain storage empire collapsed, leaving hundreds of creditors standing in line with millions of dollars owed to them.

An IRS spokesman in Dallas said the agency can neither confirm nor deny whether it is investigating Estes.

U.S. Probation Officer William Schuford of Fort Worth said Estes' probation file shows no evidence of a current federal probe into Estes' financial situation.

Attempts to contact Horton and Estes Saturday night for comment were unsuccessful.

Estes is living modestly in Abilene and has not reduced \$21 million in federal tax liens against him that existed when he went to prison in 1965, the newspaper said.

Horton also has tax liens of \$127,556 pending in Midland County, the story said.

In at least one instance, Horton has publicly denied he was fronting Estes money.

Estes' parole in 1971 required that he not "engage in any self-employment or promotional-type activities without specific prior approval" of the U.S. Board of Paroles.

Income tax evasion charges against Estes would involve a criminal offense, Schuford said, and a judge could choose to revoke his probation and send him back to prison.

The News said it learned that the six-month background phase of the IRS probe is completed and special intelligence agents are now lining up witnesses in Abilene and other Texas areas.

The \$21 million in federal tax liens resulted from income Estes made from non-existent fertilizer tanks on West Texas farms and from government grain storage contracts.

Estes was known as an agricultural financial wizard until his fertilizer and grain storage empire collapsed in 1962 in the wake of disclosed that it was mostly paper.

He began serving a 15-year prison sentence in 1965 after his conviction for federal mail fraud and conspiracy to

## Four Escape Serious Injury

Four persons escaped serious injury in what was reported as a major accident Saturday at 4:02 p.m. at 5th and Owens.

A car driven by Teddy B. Green, Jr. 18, 2306 Marshall, was traveling west on E. 5th St. when it collided with an auto driven by Timothy Wayne Knox, 1107 Lloyd.

Teddy B. Green, Sr., 48, was taken to a local hospital by Alert Ambulance where he was treated and released. The two drivers and another passenger in the Green auto were not injured.

## Store Manager Hacked To Death

CONROE, Tex. (AP) — Milton Angerstein, 47, a Conroe department store manager, was found hacked to death early Saturday at his home in the Montgomery County community of Hanover.

Investigators said friends found the body in the living room. Deputy Sheriff Forrest Simpson said a bloody knife and sword were found near the body. Angerstein lived alone.

defraud. Estes' West Texas empire ended up in federal bankruptcy court in 1962. More than 400 creditors got nothing in 1971 when the case was finally closed. Creditors claimed that Estes owed

them \$38 million. The nagging question left behind was where all the money went.

An associate of Horton's told the News that there may be substantial amounts of Estes money in trust ac-

counts in numerous small West Texas banks.

The trustees for most of the otherwise unidentified accounts are several lawyers from Houston, the Horton associate told the News.

PERSONAL, PRIVATE

## Advertises For Wife

PALO ALTO, Calif. (AP) — At 29, Ron Gordon began to feel a bit out of the action, a Coke drinker in the scotch-and-water world of singles.

Now was the time to get married and start a family. But for someone acutely shy, with few friends to introduce him to girls, the chances of meeting someone he would care about seemed awfully small.

So Ron Gordon took out a newspaper ad. A big one.

"It's not an ad. It's a letter," Gordon, a high school science teacher, declared Saturday. "It seemed like a good way to reach out to someone I don't know."

For \$650, Gordon bought a half-page in the Palo Alto Times, circulation 44,000. He used the space to reproduce a 2,000-word, hand-printed message "to a girl who's looking for her right guy."

"I know it may sound corny, but to me it's a very personal and private thing," Gordon said a few days after the letter appeared. "Getting married and having a family is the most important thing I'll ever do, so this seemed a reasonable enough

investment. Some people spend that much on a tour."

The "author" of the letter is Gordon's unborn son, writing to an unknown mother. Much of it discusses "Dad."

"Mom, you're pretty hard to find. There aren't girls to meet at his job. It's too late now to start joining a lot of clubs or taking a bunch of night classes — and anyway, he's just looking for you. Those computer things? He knows you wouldn't do something like that, because that's a creepy impersonal way to meet ...

Millard Gradiska, acting principal of Woodside High School, where Gordon teaches, said he felt a combination of pity and admiration for Gordon when he saw the ad.

"He is either meshegenah or three steps ahead of everyone," said Gradiska, tapping his temple. "Who knows?"

"I have absolutely no idea what's going to happen," he said. "I guess I'll just stick around the phone for a couple of days."

"I have absolutely no idea what's going to happen," he said. "I guess I'll just stick around the phone for a couple of days."

"I have absolutely no idea what's going to happen," he said. "I guess I'll just stick around the phone for a couple of days."

"I have absolutely no idea what's going to happen," he said. "I guess I'll just stick around the phone for a couple of days."

AP WIREPHOTO

I DID IT! — Mrs. Betty Jane Briscoe, wife of the governor of Texas launches the nuclear cruiser named for her state with an exuberant swing Saturday. Big John Diesel, president of Newport News Shipbuilding & Drydock company reaches to congratulate her as the still dripping bow moves away.

## Mahon Insists Survival 'No. 1 Defense Priority'

NEWPORT NEWS, Va. (AP) — This country's survival is the "No. 1 defense priority," Rep. George H. Mahon, D-Tex., said Saturday as the USS Texas, the Navy's newest nuclear-powered cruiser, was christened.

Mahon, who is chairman of the House Appropriations Committee and a staunch supporter of the military establishment, said at the christening ceremony, "It is well to remind ourselves that defense is expensive, but that the lack of defense is even more expensive. The first priority is to keep the citizen alive and to keep the citizen free."

He praised the ship's military capability.

Secretary of the Navy William J. Middendorf was among the several thousands of guests and spectators who watched Mrs. Betty Jane Briscoe, the wife of Texas Gov. Dolph Briscoe, broke the traditional bottle of champagne on the bow of the 565-foot, \$270 million ship at the Newport News Shipbuilding & Dry Dock Co.

Middendorf said, "Since 1968, ship construction has dropped to 12 newships a year. If this continues for a few more years, there is no

question we will be the second best Navy in the world."

The ship slipped smoothly down the ways and bobbed in the James River, becoming the Navy's seventh nuclear-powered cruiser.

Absent from the ceremony was Adm. Hyman G. Rickover, the unofficial father of the nuclear Navy. Rickover lobbied and appealed for a move to a nuclear fleet long before the Navy took the initial step to veer from conventional-powered ships. He sent a message expressing "regret that I am unable to be present" at a launching of a ship that "will add greatly to the power of our surface striking forces."

Briscoe spoke of the "proud tradition" established by ships bearing the name of Texas, citing the Confederate ironclad Texas as the first such ship.

Later there were two battleships named Texas, one of which saw action in both world wars.

Briscoe said of the new Texas' commanding officer, "I know that Capt. Peter Fiedler will lead his men in keeping with the great heritage left to the ship by her predecessors in the fleet."

## Appealing For Support Of Bible Class Fund

Today begins the annual appeal for support of the Bible Class Fund.

Proceeds from this go to finance the course in Bible at Big Spring High School. The only other source of income is from budget contributions of several churches.

Private financing is necessary since state law prohibits the use of tax funds for Bible instruction, although the course may be taken for full credit. The Howard County Ministerial Fellowship serves as the clearing agency.

Since the beginning of the class nearly 30 years ago, the Herald has served as the medium for receiving day-to-day contributions from individuals and others. It is only one of two such efforts which the Herald makes

acknowledgments during a year.

The course is strictly non-denominational, and the Bible is taught for its great moral and ethical lessons, its literary treasures, its historical setting.

Hundreds of students have thus had an opportunity to have a systematic exposure to the Book of Books, and most of them as pupils of Mrs. Elizabeth Johansen. She was the first instructor for the course, and after a few years out when her family was young, returned to instruct the course.

Old and new ends of the Bible Class Fund are urged to bring or mail their gifts to the Herald (payable to Bible Class Fund) for grateful acknowledgment.

## Big Spring Week

with Joe Pickle

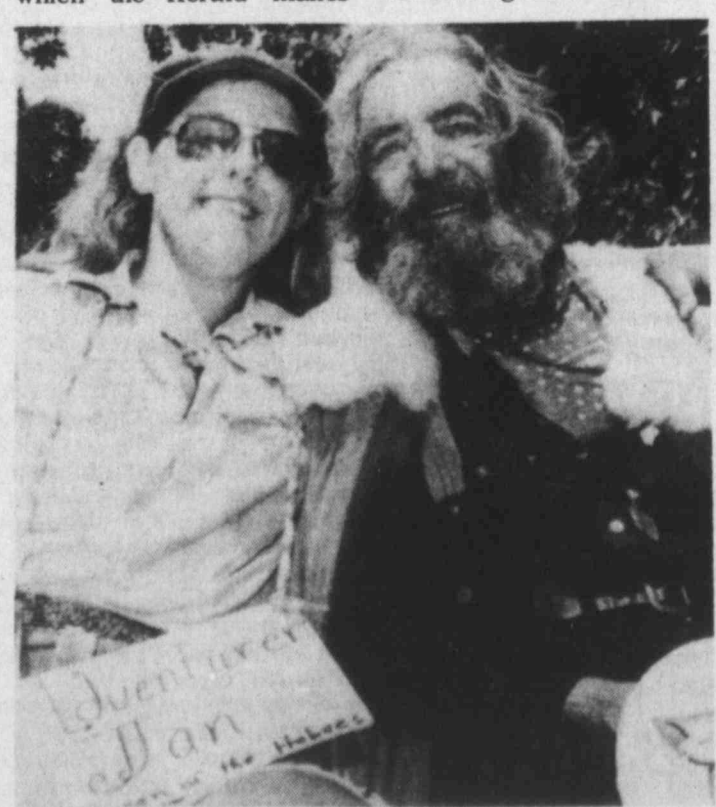

Death took Dr. Preston E. Harrison here Thursday night, inflicting a severe loss upon the cause of humanity. One of the most knowledgeable men in the nation on mental illness, Dr. Harrison was first of all a believer that the best medicine was people touching people.

Cotton farmers had their wishes last week, for the weather was dry and hot. From every quarter the story was the same — cotton plants are loading phenomenally with fruit. Cool nights (we dipped to a new August low of 58 degrees) revived vegetation and kept crops in vigorous condition.

Big Spring citizens of all walks are being urged to chip in their ideas in a series of "town hall" meetings Aug. 25, 26 and 27. The Goals for Big Spring panel has identified key areas (digests of essays on these will appear in the Herald), but what is needed is, to use a computer word, "input" from you, you and you.

The City of Big Spring received word that the final approval has been given for \$300,000 from HUD, the first \$272,000 of which will go to sewer system improvements. The state also announced funding of the alcoholism out-reach program from the state hospital for \$20,445, and the Big Spring Detoxification Center (a model for the area and state) for \$43,273.

The old "pigeon drop" scheme is so transparent you wouldn't believe anyone would take the bait, yet a man here was bilked of \$3,000 last week when he put up that amount in "good-faith cash" only to discover envelopes were switched and he was left with paper napkins.

ROYALTY OF THE RAILS — "Adventurer Jan," 18, from Rockwell City, Ia., and John "Hardrock Kid" Misen, 70, who claims no permanent address, were named the Queen and King, respectively, of the 42nd annual Hobo Convention in Britt, Ia., Saturday. More than 20 hoboes showed up to vie for the title.

10 AUG 10

# The Gentle Pioneer

One of the best things that ever happened to the Big Spring State Hospital, and to the West Texas area it served, was not the increased appropriations, buildings or more adequate staff. It was Preston E. Harrison.

Dr. Harrison slipped so quietly into the hospital and community fabric that he had been here some time before most were aware of the new clinical director. By background and training there could have been no doubt he was the choice to become superintendent, yet he held the post for a time on an acting basis probably because department heads must have wondered if so gentle a being could be an effective administrator.

Instead of being the crisp, unfeeling executive who ruled apart from the organization, Dr. Harrison had such an ingratiating manner that he drew out the best from those he touched. He could discipline, although it caused him personal pain; usually he worked out things and molded programs by encouraging others to use their talents. He was warmly approachable by all, from patients to high officials. Patience, infinite patience, was his special gift.

His own thirst for knowledge led him in quest of new and better ways to treat the mentally ill, and not just to treat them, but rather restore them to dignity and usefulness. He embraced the concept of an open campus; he drew in gratitude upon the resources of volunteers who brought a dimension to the healing process beyond the professional staff. He pioneered in the halfway house, the community house, the work

village concepts as logical steps for patients enroute back to the community. He encouraged medical and other clinical research, but with protection to the patient taking priority over scientific knowledge.

He took bold steps to lead the way in outreach by the hospital, first through its out-patient clinic then the circuit riders and staff teams going into surrounding communities. He pressed for community mental health clinics in the firm belief that the best place to treat health clinics in the firm belief that the best place to treat a mentally ill person ordinarily is in home surroundings.

More than a score of years ago he recognized the rising problem of alcoholism and the need of special techniques and programs to deal with this and other drug problems. He recognized that children and

adolescents committed to the hospital needed a rounded education, too. He perceived the efficacy of grouping patients of like background and locality, also in using the staff team approach to bring the maximum of information and skill to bear upon the treatment of each patient. He fostered a stream of seminars and training sessions.

Those in Big Spring often have dreaded the thought of what the state hospital here would be like without Preston Harrison. Now, in the providence of God, we are about to find out. It is our estimation that the staff he shaped and the volunteers he drew will carry on to new missions of mercy and new frontiers of treatment and prevention of mental and emotional illness. There could be no greater tribute to this great soul.

## Your Time To Speak Up

But how does the public express its views? There is a ready-made answer for that. The Goals for Big Spring steering committee has called open 7:30 p.m., meetings for Aug. 25 at College Heights and Bauer schools, Aug. 26 at Lakeview and Washington schools and Aug. 28 at Cedar Crest school. Here is a chance for everyone to contribute ideas for goals for community

and development. There is no suggestion too menial for consideration; there is no individual but who can make some contribution. To the degree that our people turn out and speak up, to that degree will we be able to come up with a program of goals which will mean something and be capable of accomplishment.

## My Answer

Billy Graham

Several months ago we saw you on the Tonight Show. At that time you made several statements concerning what you believe heaven will be like. You said you thought eternity, instead of being the Land of Eternal Rest, will be a place of work. You also stated that we will be able to go from planet to planet, and from world to world in the twinkling of an eye. We would like to know which Scriptures provided the basis for this information. My Sunday School class thought the idea interesting, and would like to know.

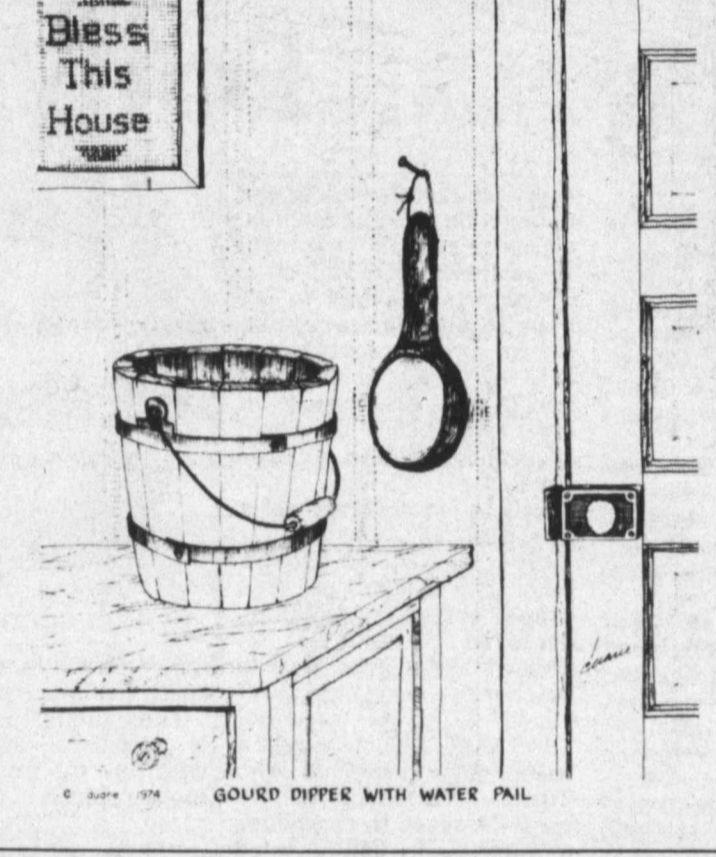

A very graphic description of heaven is found in the twenty-first and twenty-second chapters of Revelation. Several interesting things are revealed there. (1) "God will dwell with them, and they shall be his people." We will know at last what God looks like, and we shall be forever in His society. (2) "I will give him that is athirst of the fountain of the water of life freely." Revelation 21:6. There will be fountains of living water in heaven. (3) "And I saw no temple therein, for the Lord God Almighty and the Lamb were the temple of it." Revelation 21:22. The object of worship will be God Himself, and the Lamb, His beloved Son. (4) "And the City had no need of sun, neither the moon to shine in it, for the glory of God did lighten it, and the Lamb is the light thereof." Revelation 21:23. No more artificial light — but the brilliance of the Father and Son. (5) "And he showed me a pure river of water, clear as crystal, and on either side of the river was the tree of life." Revelation 22:1. Shrubs and crystal

## REMEMBERING...

By BILL D. BROOKS

### GOULD DIPPERS

Before houses had indoor plumbing, a common fixture in most homes was the water dipper and pail. Usually they were on a shelf or small table in the kitchen where they

were handy to anyone wanting a drink and also where the water could be used in cooking.

There were a variety of different types of dippers and pails. Some were made of porcelain enameled steel, others zinc-coated or galvanized iron. However, most old timers agreed that the best water pails were those made of cedar wood and the only kind of dipper anyone should have was one made of a gourd. The wooden pails kept the water cooler (iced water was unheard of) and the gourd dipper, besides being hand crafted, just made the water taste better. Zinc was thought by some to contain a poisonous substance that gave the water a bad taste and porcelain enamel was dangerous because it chipped easily and a person might swallow the small sharp pieces.

Large, domestic gourds could be grown at home. Upon maturity the best were selected for dippers and put away to dry. It was better if they dried for a couple of years or more before making dippers from them. Gourds

were selected primarily for their shape and size. Some preferred gourds with long, straight necks while others chose the curved necked ones because they could be hung on the rim of the water pail. After the gourd had seasoned long enough, it was marked and a knife or small key-hole type saw was used to cut it to the shape desired. The insides were scraped and cleaned out and it was ready to use.

Water was fetched from the well, cistern or spring and most people tried to keep the pail at least half full at all times because you never knew when company might drop in. When company did come, one of the first things they did was gather around the water pail for a drink. All drank from the same dipper and not much thought was given to the danger of spreading germs. However, a person was expected, if he didn't drink all the water in the dipper, to swish it around a little and throw it out, leaving the dipper clean for the next person. It was a time when things were shared, especially dippers, water and germs.

## Inflation Raising Its Ugly Head

NEW YORK (AP) — Reports of renewed inflation, accompanied by a falling stock market, troubled bond market and rising interest rates, arrived like the guns of August this past week.

Scoring its second largest jump this year, the government's wholesale price index rose at a 14.4 per cent annually adjusted rate, in July, and some economists said that was only a taste of things to come.

The July figures took into account some, but not all, of the inflationary effects of the recent shipments of U.S. grain to the Soviet Union. They did not include a three cent a gallon rise in wholesale gasoline prices last month nor a series of recent aluminum and steel price increases.

These will likely show up in the coming months' price statistics, economists say, taking wholesale price increases well above the current 12-month average of 8.7 per cent.

Already the effects of the

latest inflation round have shown on the financial markets which often take inflation even harder than business downturns.

The Dow Jones industrial average, most widely followed indicator of the New York Stock Exchange, declined 8.76 to 817.74, its sixth weekly drop in a row. Big Board volume dwindled to a yearly-low, indicating a growing concern on Wall Street that the economic recovery may be in jeopardy if inflation flares up again for a prolonged period.

On the bond market, six major companies including

Consolidated Edison Co. of N.Y. postponed scheduled bond offerings, citing the soaring interest rates they would have to pay investors.

New York's First National City Bank raised its prime rate another quarter-point to 7 1/2 per cent on Friday, meaning that bank borrowing became that much more expensive for corporations struggling to recover from the recession.

U.S. Steel Corp. announced Friday price changes which it said would amount to an overall increase of 3.8 per cent in its steel mill products.

## WEEK'S BUSINESS

- Signs of renewed price increases, wholesale rise is steep
- Stock market dips for sixth consecutive week
- Some steel up, also aluminum; gasoline rises 3 cents
- Pressure on COL apt to shove up rate
- Prime rate rises, recession recovery borrowing costly

## Or Is It Baby Fat?

Dr. G. C. Thosteson

Dear Dr. Thosteson: My son, who is nine years old, is large around the waist and has slightly enlarged breasts. We thought it was just baby fat he would outgrow.

But I was told he has something called "Frolich's syndrome," and that he should get some injections to correct this.

Could my son outgrow this without injections? This is something we have never heard of. — Mrs. S. M.

I can understand your concern, but I suggest you move slowly. First of all, who told you he has "something called Frolich's syndrome" — a doctor, or a friend, who has "heard of it"?

This is a rather rare disorder. Pubertal fat is not, and this type of corpulence is most often found in young boys of pubertal age. In some, the problem is one of delayed or late puberty. Frolich's consist of a definite pattern that is rather easily detected. It includes small genitals, diabetes insipidus, evidence of pituitary gland disorder — and obesity. If the suggestion about Frolich's has you concerned

(and well it might), then you should have a physician conduct appropriate tests to either confirm it or ease your mind about it.

If obesity runs in your family, this can also account for the fatness. It may only be chubbiness. Nevertheless, overweight in youngsters should not be accepted, because it can lead to obesity in later years. This is serious enough, but far less so than Frolich's syndrome would be.

Dear Dr. Thosteson: I recently went to my doctor for a lump protruding from my vagina. He told me I would need an operation to correct a dropped bladder. I also awaken during the night with a painful pressure on my rectum.

Could this bladder problem be the cause of this, or does another problem exist?

Seven years ago I was operated on for removal of my uterus and ovaries. Could this have caused my bladder problem? I am 57. Is this operation dangerous? — Mrs. L. D.

The "lump" you noticed was undoubtedly the wall of your urinary bladder

sagging. The discomfort in the rectum could be due to a similar condition at the rectal wall.

Both (the former is called a cystocele, the latter a rectocele) are the result of a weakening of supportive tissue of the pelvis. Both tend to occur together. This tissue weakening process occurs often with age, and having had babies can add to the stretching and weakening. It is doubtful that the hysterectomy seven years ago was a factor in your present problem.

The operation ahead would be to tighten the weakened muscles and offer more support for the bladder and the rectum. If not treated, the sagging bladder could result in a puddling of urine and incomplete urination. The puddled urine can be a source of infection. The untreated rectocele can create difficulties in bowel movement and all that entails.

All things considered, it would be wise to take your doctor's advice and have this surgery, which is not considered to be terribly serious.

## No Centerfold?

### Around The Rim

Walt Finley

The letter addressed to me, was on stationary labeled Playgirl, which the big boys tell me is woman's answer to Playboy. The bogus letter, obviously from one of my good "friends" of radio fame, reads:

DEAR MR. FINLEY:

We wish to thank you for your letter and pictures which we recently received. However, we will not be able to use your body in the centerfold.

On a scale from 1 to 10, your body was rated minus 2. The rating is done by a panel of women ranging in age from 65 to 75 years. We tried to have our panel of women in the 25 to 35-year-old bracket rate you, but we could not get them to stop laughing long enough.

Should the taste of American women ever change so drastically that they would want you in the centerfold, you will be notified by this office. In the meantime, don't call us, we'll call you.

Sympathetically,  
Marian Scott Milam  
Editor-in-Chief

\*\*\*

YES, BARRY SWITZER says the upcoming OU football team won't be as good as last year's. But fans think Barry is just making excuses in case his team hits the skids and ranks only No. 2.

\*\*\*

Once more Jim Baum and Fred Davis, dynamic duo, walked into their own trap. They challenged me and my partner, curvaceous, captivating Carla Walker, an alleged "ringer" to a tennis match. We readily accepted. Even Eli wanted to share the spotlight by being by my side when I went on the "offensive."

NOW I HEAR via the air waves that Jim and Fred or is it Fred and

Jim (?), after realizing it would be a long, hot summer before they could win a game from the Finley-Walker tandem, suggested a ping-pong match or 8-ball battle. Gentlemen, start your motors. We accept both challenges, plus tennis, you two.

\*\*\*

If you recognize that phrase "My first exclusive," you're older than I think. It was a memorable line of Louella Parsons, one of the early-day Hollywood radio gossip columnists.

She always opened her Sunday night program this way: "Hello, to all of you, from Hollywood. This is Louella Parsons. My first exclusive."

And away she'd go in her jerky little voice which would have kept her out of the television business now.

\*\*\*

My first exclusive, M-e-r-r-y Jo is leaving the Herald after about 15 years to join the staff at Big Spring State Hospital. I have shared editorial joys and tears with her for eight years ten months and 25 days. I will miss her.

\*\*\*

I have ordered a bumper sticker reading:

PARDON OUR IMPEACH NCA

\*\*\*

Somewhere in Texas there's a public utility that hasn't had or asked for a rate increase lately. Will it please identify itself, just before it goes out of business?

\*\*\*

There's no doubt among the constituents where Cong. Omar Burleson stands on any issue, is there?

## EDITORIALS / OPINIONS

### Guilt Of Hiss

William F. Buckley, Jr.

I suppose if Jack Ruby had enough free lawyers bobbing about him, plus a phony civil liberties committee, plus half the native egghed population desperate to believe him innocent, they would have us all believing, in due course, that he didn't in fact kill Lee Harvey Oswald: that it was his double; or else a plot by the networks; or by Curtis Lemay.

WHEN YOU THINK of it, it is hard to get unanimity of opinion on the guilt of anybody. It is an old story nowadays that Oswald didn't kill the first Kennedy, a not-so-old but robust thesis that Sirhan didn't kill the second Kennedy; there is growing suspicion that James Earl Ray didn't kill Martin Luther King, that what's-his-name wasn't the real culprit in the attempted killing of George Wallace, that Bruno Hauptmann didn't really kidnap the Lindbergh baby, that the Rosenbergs weren't really guilty; that the people who were hanged for it weren't really accomplices of John Wilkes Booth — on back through Dreyfus, to Socrates himself (who was in fact guilty under Athenian law).

ALL THE MORE useful, under the circumstances, an article of overwhelming sobriety published in the current issue of Commentary magazine. It is called very simply, "Was Alger Hiss Guilty?" and it could have been written by a computer, so dry and factual is it, so obsessively concerned to drain every last bit of bias out of the recounting of the story.

In fact it is written by a professor of law at Cornell, Irving Younger, who had served as an attorney in private practice and as an assistant United States attorney and as judge in both the civil and criminal courts in New York City. Mr. Younger has taught evidence at both Columbia and New York law schools and he says that the question: was Alger Hiss guilty? requires, finally, that you the juror take a position concerning 10 contradictions on which Hiss and Chambers gave conflicting evidence that emerged from the sea of testimony.

MR. YOUNGER concludes that in respect of the first five the evidence is moot; you cannot find against Mr. Hiss without reasonable doubt. The sixth weighs in favor of Hiss. The seventh, eighth, ninth, and tenth convict Hiss.

Number seven was the famous rug, given by Chambers to Hiss as

an expression of gratitude from the Communist Party. Independent testimony confirms that the rug was bought, and accepted by Hiss. Hiss's explanation of his possession of it was unreasonable beyond a reasonable doubt.

THE EIGHTH was the matter of Hiss's giving Chambers \$400 to buy a second-hand car. The records reveal that Hiss withdrew \$400 in cash four days before Chambers paid \$400 in cash for a car. Coincidence is unreasonable strained, given the surrounding narrative, by insisting that the two transactions were discrete.

The ninth was the earlier transfer of Hiss's old Ford, which he desired philanthropically to donate for the general use of a Communist operative. Hiss said he gave the car to Chambers. The records show that Hiss himself signed a transfer assigning title to the Cherner Motor Company, which thereupon reassigned the car to one William Rosen, but left the transaction out of the record books. William Rosen, summoned to the stand, refused to say whether he was a Communist.

WE APPROACH Gotterdammerung, namely the typewriter. A huge amount of publicity has been given to the typewriter, the insinuated assumption among pro-Hiss people being that either Whittaker Chambers himself forged the typewriter, or else that the FBI did. Every time there is a press conference on the matter, it is suggested that any day now it will be established that the typewriter presented at the trial was a forgery. But any day has a way of never coming.

What is especially tantalizing about it all is that preposterous though it is, it wouldn't actually alter the matter if it happened to be so. Because what nailed Hiss was the indisputable identity between the typewriter used in the mid-thirties by Priscilla Hiss to write letters to Bryn Mawr on alumnae business, and the typewriter used during the same period to write paraphrases and copies of secret State Department documents turned over to Chambers.

PERHAPS THE NEXT step is for one of Alger Hiss's lawyers to claim that Whittaker Chambers posed as the secretary of the Bryn Mawr Alumnae Association in 1938 for the purpose of ambushing Hiss in 1948. I have no doubt there are many people around who would believe it.

## A Devotion For Today

"Let your minds dwell on what is true, what is worthy, what is right, what is pure, what is amiable, what is kindly — on everything that is excellent or praiseworthy." (Philippians 4:8, Goodspeed)

PRAYER: Our Father, strengthen us through the spirit of Christ to meet the temptations of our secular society that would pull us away from our Christian faith. Help us to serve Christ more faithfully as members of His Church. Amen.

## Today's Horatius

Marquis Childs

WASHINGTON — "When the goodman mends his armor,

and trims his helmet's plume; When the goodwife's shuttle merrily goes flashing through the loom; with weeping and with laughter still is the story told, How well Horatius kept the bridge in the brave days of old."

— Thomas Babington, Lord Macaulay

CHAIRMAN ARTHUR R. BURNS of the Federal Reserve Board is too modest to cast himself in the role of Horatius at the bridge, standing off the dread forces of inflation. Yet the part he is playing, a lonely part in the midst of huge federal deficits and rising prices, bears some resemblance to that of the legendary hero saving Rome from the invading Etruscans.

The bankers in New York accused Burns of setting off the recession

when he turned down the money supply in early 1974. Now the suspicion is that by shutting off the money valve again he is throttling the recovery that had promised to end the economic slide.

THE CHAIRMAN, one of the most powerful men in America, is bothered by this not at all. Deliberately puffing on his pipe, his speech almost rustic in its cadence, he talks about the perils of big government spending and continuing huge deficits.

But his is not scare talk. Scare talk is not Burns' style. He considers himself a moderate and his goal is to cool inflation by moderating the great money aggregate.

In his view, the predicted rate of 5 per cent to 7 per cent rise in inflation by the end of the year is still far too high, although he quickly adds that it is a lot better than the double-digit inflation of last year.

**CELEBRATION WITH CAKE** — Veterans Canteen Service staff members pose around a cake prior to the celebration of the service's 29th anniversary. Shown are (left to right) Don Griffin, canteen officer, Lasora Ontiveros, Jeri Halfmann, Sharon Gutierrez, Mary Cuthbertson and Margie Letkowsky.

## Canteen Service Fails To Capture Headlines

The Veteran Canteen Service at the Big Spring VA Hospital doesn't usually make headlines, but to the hospitalized veterans and their families, it is vital.

The Veterans Canteen Service is a nationwide agency of the federal government separate from the Veterans' Administration and was established in 1946.

This week, a birthday cake was made and distributed to patients on the occasion of the 29th anniversary of the founding of the Canteen Service.

Don Griffin is the canteen officer and, with the help of

nine employees, sets out to fulfill the mission to "provide hospitalized veterans with reasonably priced merchandise and services essential to their comfort and well-being."

The Canteen is almost like a drugstore, selling tobacco and related products, candy and cookies, clothing, and such items as shave cream, watches, radios, sunglasses, toothbrushes and after-shave lotions to patients at a reduced price.

The Canteen also operates a cafeteria, barber shop and a snack bar.

The Canteen has to "break even" on the items they sell,

but they make no profit.

The Canteen also contracts to other vendors such services as film developing, dry cleaning service and watch repair.

Patients do not have to be able to walk to the canteen to take advantage of its services as a ward cart is operated by the service.

The ward cart makes the rounds of all the wards offering all the services available in the Canteen headquarters.

So, whether the patient needs a newspaper, mouthwash or a cigar, the Canteen is ready to help.

## BEATS SHOOTING, TRAPPING Coyotes Conditioned Not To Like Sheep Meat

**CHENEY, Wash. (AP)** — An Eastern Washington State College researcher who is working on techniques to condition coyotes to avoid sheep says his experiments have been more effective than trapping or poisoning in protecting flocks.

Dr. Carl R. Gustavson, a professor of psychology at Eastern, has been field testing taste-aversion conditioning methods on wild coyotes at a Benge, Wash., sheep ranch the past spring. He said the experiments apparently have reduced losses to coyotes by a minimum of 30 per cent — compared to no proved reduction by use of the traditional methods of shooting, trapping and poisoning.

Gustavson laces sheep meat patties with lithium chloride, which makes coyotes ill, but even in fairly large doses does not injure them permanently. Coyotes which eat the dosed meat are

conditioned not to like sheep meat.

Gustavson said it generally takes two such baits to condition coyotes for a long period of time.

The conditioning is automatic and occurs without the animal having any conscious control over his response.

"I'm encouraged," Gustavson said. "We know conditioning reduces losses. And we know that wild coyotes will take the bait."

Researchers in the U.S. Fish and Wildlife Service and others have criticized Gustavson's experiments, contending that the conditioning would never work in the field. But Gustavson said that the service has received large amounts of federal aid for research into eradicating coyotes, and they have not been successful. He said that his own work might threaten their continued work.

"That's been a continuing thorn in my side," he said. "All they have to do is prove their methods kill. I will prove that I can reduce losses."

President Ford recently eased the ban on 1080, a poison that is shot into a coyote's mouth when the

animal tugs on a carcass. But Gustavson said that nearly 22 per cent of the animals killed by the poison are not coyotes — they are cougars, bears and some species of hawks, which are nearly extinct.

Gustavson said that since 1080 was introduced 20 years ago in Montana, the coyote population dropped 60 per cent, but predator losses climbed by 20 per cent.

"When you kill a coyote, another coyote just comes in and takes his place," he said.

## Parakeet Epidemic

**AUSTIN, Tex. (AP)** — Central Texas feed dealers deny that pesticides in their birdseed is responsible for thousands of parakeet deaths in the past year.

Samples of millet, oat groat and other feeds have been analyzed by Texas A&M scientists and small amounts of pesticides have been found, according to parakeet breeders.

Mr. and Mrs. Ernest Kunz say they had 3,000 parakeets in June 1974. Now they have 600. Other breeders, many of them retired persons who supplement pensions with sales to pet shops, have reported similar losses.

The trouble began last year, Mrs. Kunz said, when the birds began bleeding internally and acting oddly. "They'd run around and around like they were crazy and then they'd fall over and die," she said.

The 42 parakeet breeders in Central Texas have organized the Texas Parakeet Breeders Association and are considering legal action against feed dealers.

Dr. Allen Furr, a veterinarian at Iowa State University, reportedly examined four birds sent to him frozen by a local feed dealer and said their deaths definitely were not caused by chlorinated hydrocarbons, the generic class of most pesticides.

Meanwhile, breeders are buying expensive seeds from health food stores in the hope their birds will get well.

## Edsel Owners Born Winners

**ARLINGTON, Tex. (AP)** — Shelly Cleaver bought his Edsel from an old lady who had hidden the car in her garage and told him: "I'll sell it to you cheap if you'll just come get it at night. No one will know you bought it from me."

Cleaver of Jacksonville, Tex., said the woman had been the butt of too many jokes. But Cleaver is unafraid of public ridicule. In fact, he is one of 80 proud Edsel owners from around the nation in convention here.

"Anybody who says the Edsel was a loser is wrong," said Cleaver, a regional Edsel owners governor. He sported green and white clothing, the official Edsel colors.

Remember when peach and black were rave colors for men's clothing and cars? Program chairman Dave Zimmerman of Fort Worth, Tex., arrived Thursday in his peach and black Edsel convertible while national president Roger Hill of Arvon, Va., arrived in his Edsel Citation convertible. Gerald Byford drove from California in a 1958 Edsel station wagon.

Cleaver has "all sorts and

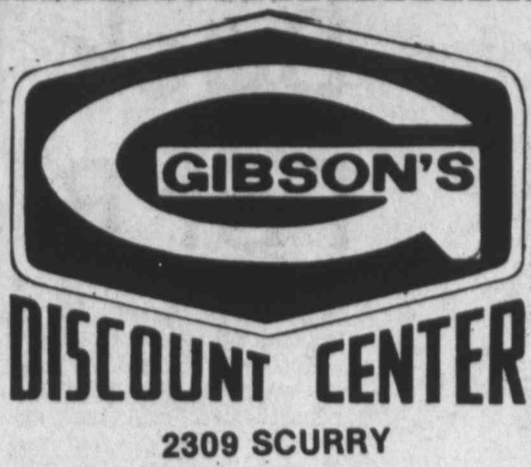

kinds of Edsels stashed away there in the piney woods near Jacksonville," but admits Ford Motor Co.'s timing was all wrong.

"People had started turning to the small, economy cars and the big, gasoline-burners just weren't selling," he said. "The Ford people were offering a \$300 rebate to Edsel buyers in 1960."

He and Zimmerman say the Edsel with its familiar horse collar radiator was "far ahead of its time." They point to open door warning lights, push button gearshift, air suspension, power steering and self-adjusting brakes found on more expensive Edsel models.

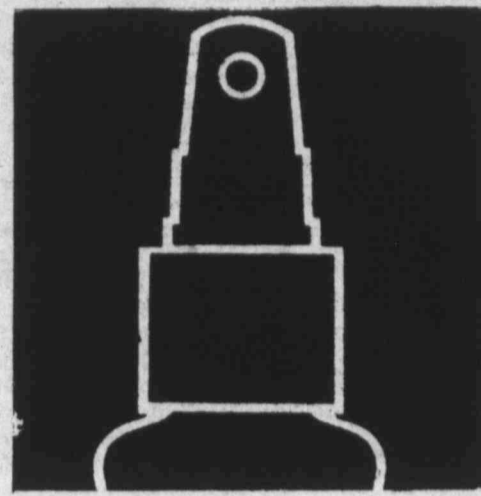

Cleaver says he bought his first Edsel to compete with his local man-about-town rival. "Why if I hadn't been driving that Edsel pickup at the Jacksonville rodeo I never would have met Jodie Miller and wouldn't have got to sing with her. I didn't wash my face for three days after she kissed me. We went on our honeymoon in that same Edsel," he said.

Edsel judging is scheduled Saturday morning followed by the group's annual banquet.

### Sul Ross Offering 22 Courses

Twenty-two courses may be offered through the Sul Ross State University Fall semester schedule of off-campus classes offered through Webb AFB. These are open to civilians as well as to military personnel and their families. Virginia Smith, director, said that registration was to begin Tuesday at her office at the Education Center on base between 9 a.m. and 12 noon. Regular registration will be Aug. 19, and classes will begin Sept. 1. Those interested may sign up at the Education Center, Building 603, Room 14. Dr. Wayne Bonner of Howard College will provide special testing as required, provided there are 14 or more applicants. Mrs. Smith listed these courses which offer full credit as though they were actually taken on campus at Sul Ross:

- Political Science 3302 (American constitutional law); Psychology 3304 (abnormal behavior); Ed. 3308 (kindergarten child), Ed. 3309 (early childhood), Ed. 3301 (principles of elementary curriculum development), Ed. 4304 (social studies in grades), Ed. 5305 (public school supervision), Ed. 5306 (advanced tests and measurements), Ed. 5307 (graduate research), Ed. 5308 (elementary reading), Ed. 5313 (vocational Guidance), Ed. 5314 (personality theory), Ed. 5315 (educational measurement in guidance), Ed. 5316 (educational sociology).
- Ed. 5318 (personnel problems), Ed. 5325 (advanced educational remediation), Ed. 6306 (advanced seminar in theories of administration), Ed. 7302 (administration of guidance and counseling programs), Ed. 7808 (administration strategies); P.E. 5301 (problems in health education).

### THEFTS

A fire extinguisher valued at \$20 was stolen from a Yellow Cab at 315 Runnels St. Wednesday afternoon, police said. Robert Huijbregtse, 1607 Stadium, reported the theft of a 10 HP boat motor from inside the boat parked in the rear of Western Auto Store, 504 Johnson, Wednesday night. Mark Campbell reported that someone took a CB radio from his auto while it was parked at Denny's at 2:51 a.m. Saturday. Value was set at \$169.95. Ted Phillips, 1308 Runnels, reported the theft of two bicycles worth a total of \$205 from his yard. C. D. Branham, Branham Motors, reported that a drive shaft had been stolen from a 1966 Chevrolet pickup parked on his lot. Hilda McGrath, Box 71 Wason Rd., reported that her billfold was lost or stolen after she left it in phone booth at the Wason Rd. Seven-Eleven. Total value was \$7. Robert M. Salmon, 2107 Morrison, reported that someone took his bicycle, which was worth \$100.

## THE WEEK

(Continued from Page 1) Webb AFB's open house last Sunday was a tremendous success from every angle and particularly so from attendance, estimated at 12,000. But that didn't include thousands more who stacked up along highways and roads to witness the breathless exhibition by the Thunderbirds. While here to address the Air Force Association and dedicate the new Airmen's Dining (Stephen Bennett) Hall, Congressman Omar Burleson confirmed that there has been some talk of changing the local mission from training to tactical. Haskell was runnerup in the Junior Teen-Age baseball tournament here last year, and with most of its team intact, it proved the class of the tournament here this season. It marched through unbeaten in the final game Friday evening. In Lamesa, Faustino Vasquez, 21, was assessed 90 years for his part in the murder of Juanita High, 32, who had been run over by a car several times last Feb. 4. His brother, Ray, got 99 years in the case. In an inquest hearing here, jurors bound over Elmer Clements in the death of Ruby Ortega. Building activity con-

AP Wirephoto. AFTER THE ROUND — Frank Fitzsimmons, president of the Teamsters Union, takes it easy in his golf cart after completing 18 holes of play at the Canyon Creek Country Club in Richardson Saturday. Fitzsimmons talked with The Associated Press in an exclusive interview. He is in Dallas conferring with Teamsters officials of the Southern District and joined friends in a round of golf at the suburban country club.

## Fitzsimmons: In Dark About 'Missing' Hoffa

DALLAS (AP) — Teamsters Union President Frank Fitzsimmons denied Saturday any knowledge of the whereabouts of former Teamsters Union President Jimmy Hoffa, who has been missing since July 30. "I have no idea where he is," Fitzsimmons said from the 18th hole of the Canyon Creek Country Club. "I couldn't guess. Asked if he thought Hoffa is dead, Fitzsimmons said, "I don't want to comment on that. But he's been missing, what, 10 or 11 days now?" Hoffa vanished in Detroit and has not been publicly heard from since. Fitzsimmons said there is "no power struggle in the union. How could there be? Hoffa isn't eligible to run for office anyway because of the restrictions on him. But I'll tell you this and you can quote me in my own words. And be sure you quote me right. You can be god-damned sure I'm going to be a candidate for president of this union."

Fitzsimmons, smiling though reserved, said he has been in Dallas for three days of discussions with regional Teamsters officials regarding relocation of the union's Southern region offices from Dallas to Miami, Fla. He was golfing with Vince Rego, president of U.S. Industries Plano, Tex. plant; Brownie Huffines, a president of Chief Freight Lines, and businessman George Hunter. Fitzsimmons said that reports of underworld involvement in Hoffa's mysterious absence is "a bunch of bullshit. What would the underworld have to do with this? I don't know where you guys get all this. Why all the publicity? Jimmy and I have been friends for 40 years. We've had our differences on philosophy but there's been nothing personal. No falling out. If we had, then, well, it would be different. But... I just don't know where all this comes from. "I've been in touch in Jimmy and Barbara (Hoffa's children). No one from the FBI or anybody like that has contacted me. Not one of them has contacted me," Fitzsimmons said, spitting from beneath a golf cart umbrella. The pot-bellied Teamsters boss said there was no collusion between former President Nixon and Hoffa when Nixon secured Hoffa's release from prison. "That's nonsense. Nixon was our best president. I voted for him. There was nothing under the table. I don't believe in being down on a guy just because somebody took a swipe at him. He was my friend, still is a good friend," Fitzsimmons said with a bland smile.

"We are working with the legislators on that (increasing highway speeds and truck load limits). We believe in working things out. So I can't see there is any problem in the union leadership. The membership certainly seems to be happy. How can you think Hoffa is trying to regain control? He can't." There were no signs of the union official's bodyguards members of the country club said had been hovering around Fitzsimmons. His rented black limousine was parked outside the sun-drenched country club located in a swank, out of the way area of far North Dallas. Fitzsimmons smiled, shook hands and suddenly broke off the interview, driving away alone in his golf cart. Minutes later he appeared in the club dining room where he loaded a lunch plate, grabbed a beer and vanished into the company of several men.

## Texans Learning How To 'Throw Bicentennial'

SAN ANTONIO (AP) — American Revolution bicentennial planners from across Texas massed here this weekend and taught each other how to "throw a bicentennial." Community bicentennial leaders from 187 towns showed up for workshops and displays to swap ideas. Projects revealed by some cities ranged from solemn July 4, 1976, church services in many cities to the already completed simultaneous ride of 200 Paul Reversers in Odessa. "It's just an exchange of ideas on funding, programming and such," said Gene Brownrigg, chairman of the Texas bicentennial commission. Thousands of Texans across the state are getting involved now in the bicentennial, planners said. "I've seen hundreds of

people who never did anything... getting involved in the bicentennial celebration," said Bo Jones of Odessa. "I don't think they'll stop (working at civic projects)." "It is what it is doing inside people that is important," Jones added. Many towns are concentrating on their area's history in mapping plans for 1976. "Temple has taken on a railroad theme," said Susan Howe, who explained that Temple was named after a construction engineer with the Santa Fe Railroad. Already Temple residents have moved the old train depot from Moody, Tex., to make a railroad museum at Temple. Temple was one of the first towns in the nation to get the bicentennial designation from the national commission. About 40 cities set up displays at the conference in San Antonio. San Marcos is constructing a walk along the San Marcos river and Lufkin sent an exhibit on how to use special fasteners to make a felt American flag. Odessa prepared an inch-thick book detailing its more than 1,000 bicentennial events. Lubbock has produced a bicentennial flag for the city. Other plans ranged from litter cleanup to musical productions about an area's history.

### Chamber Meeting

The Big Spring Chamber of Commerce Board of Directors will hold their regular meeting Monday at noon at the Rip Griffin Truck Stop Terminal Restaurant.

### WEATHER

NORTHWEST AND SOUTHWEST TEXAS: Clear to partly cloudy through Monday. Lows 40s mountains 50s and 60s elsewhere. High 80s and 90s to near 100 extreme west.

WEATHER FORECAST — Mostly sunny skies and cooler temperatures will cover most of the nation today, according to the National Weather Service. Showers will prevail in a band from Pennsylvania to Georgia and from New York to Indiana.

## Back To School Tuesday For Big Spring Teachers

The Big Spring Public Schools will open the 1975-76 school year Tuesday, Aug. 12, when all personnel will report for inservice activities to be carried out through the week. The first student attendance will be Monday, Aug. 18. The following information is presented to aid students, parents, and school personnel to make the beginning of school as smooth as possible. HEAD START: Registration for Head Start students will be at the Head Start school (Kate Morrison) on Monday, Aug. 18, from 9:00 a.m. to 5:00 p.m. There will be no classes on this day; only registration. To be eligible for the Head Start Program, a child must qualify under income guidelines as specified by the National Head Start Office and must not have reached his 5th birthday by Sept. 1, 1975, nor be younger than 3 years, 9 months on registration day. Parents enrolling their children are asked to bring the student's birth certificate with them. KINDERGARTEN: Since the kindergarten program operates on morning and afternoon sessions, it is especially important that kindergarten children be enrolled and assigned to a class prior to the first day of school. Kindergarten class distribution is planned as follows:

- Bauer & Lakeview; 8:30-11:15; Lakeview.
- Airport & Cedar Crest; 12:45-3:30; Lakeview.
- Boydston, College Heights, Park Hill bus students and Moss bus students; 8:30-11:15; Kentwood.
- Kentwood, Moss (in-town), and Washington; 12:45-3:30; Kentwood.
- March (a.m.); 8:30-11:15; March.
- Marcy (p.m.) and Park Hill (in-town); 12:45-3:30; Marcy.

To be eligible for kindergarten for the 1975-76 school year, a child must be 5 years of age or before Sept. 1, 1975. Parents are requested to bring their child's birth certificate and immunization record when coming to the school to enroll their child. Final registration date for kindergarten has been designated as Thursday, Aug. 14, from 9:00 a.m. to 4:00 p.m. Registration prior to this date is encouraged; registration by this date is urgently requested. Parents are encouraged to enroll their kindergarten child at the school where they will actually attend though enrollment may be carried out at each neighborhood elementary school. ELEMNTARY (Grades 1-6): Parents who have elementary age children who will be attending the Big Spring Schools for the first time are urged to complete registration on Thursday,

Aug. 14. This would apply to a student who is attending a different elementary school in Big Spring than the one he/she attended last year. Registration will be handled at each neighborhood elementary school. Questions regarding attendance zones, transfers, etc. can be answered by calling Mr. Reed's office at 267-8245, Extension 26. JUNIOR HIGH SCHOOLS (GOLIAD AND RUNNELS): Seventh grade students at each junior school are requested to report to the gymnasium on each respective campus at 9:00 a.m. on Friday, Aug. 15. There will be an orientation session for these groups. Distribution of schedules will be made, and students will be given a tour of the

building to familiarize them with classroom locations, etc. These students should be through at approximately 10:15 a.m. Eighth grade students are asked to report to the gymnasium on each respective campus at 10:30 a.m. on Friday, Aug. 15. Approximately 30 minutes will be required for schedule distribution and orientation for this group. SENIOR HIGH SCHOOL: There are several changes in the registration time and procedures at the senior high school this year. The major change is in regard to the identification (I.D.) card procedure. This year, each student will be asked to present his/her I.D. card when picking up class

schedules. This means, of course, that the I.D. card must be made prior to picking up the schedule. In order to carry out this procedure, the following schedule has been set up to enable students to pick up both I.D. cards and schedule: Seniors — Wednesday, Aug. 15 — 1:00-4:00 p.m. Juniors — Thursday, Aug. 14 — 9:00-12:00 a.m. Sophomores — Thursday, Aug. 14 — 1:00-4:00 p.m. Freshmen-New Students — Friday, Aug. 15 — 9:00 a.m. In all cases, students are to enter at the main entrance of the High School. Class schedules will be distributed to students only upon presentation of their 1975-76 I.D. card.

### SERVICE BEGINS AUG. 18

## Few Changes In Bus Schedule

The Big Spring Independent School District bus schedule for the coming year is essentially the same as last year's with few changes. Regular school bus service will begin Aug. 18. Any changes will be made as the need arises after the school year begins. Each route will have the same bus number as last year, but four routes will have new drivers. For the regular bus routes, all bus stops may not be given, but enough information is provided to give the general neighborhood that the bus serves. In addition to the fourteen regular buses and three kindergarten buses, four buses will serve the special education school and two buses will carry Headstart children on essentially the same routes and schedule as last year. THE SCHEDULE:

- Bus Driver No. 4, 7:20: Carlton Drive, 8:00: Alamesa, Alamesa and Jingle, Alamesa and Connally, Alamesa and Dixon; 7:45: Arnett Drive, Hillside Trailer Park, FM 700 North; 7:55: Eubanks Road (two stops), Jonesboro Road (three stops).
- Bus Driver No. 25, 7:20: Parkway at Wason; 7:25: Dixon between Wallace and Hamilton; 7:30: Parkway and Hearn; 7:45: North Birdwell Ln.; 7:50: Oasis Addition; 8:00: 15 20 Trailer Park.

### Student Parking Lots At High School Info

Student parking lots are located on both the east side and west side of the high school building. Attendants will be on duty from 7 a.m. until 4 p.m. on the east side and from 7 a.m. until 4:30 p.m. on the west side. These attendants will be on duty to process the orderly entrance to and departure from the parking lots and to assist in the protection of vehicles. Students are asked to provide description of vehicle and license number when purchasing parking permits, so that immediate contact can be made with the

owner in the event of vehicle damage or suspicious persons detected loitering near vehicles. Parking lot decals will be issued when students pick up their schedule of classes. Fees for use of the lots are as follows: One full year \$9.00 One quarter 4.00 Daily .10 No charge will be required until Wednesday, Aug. 20, giving the students sufficient time to obtain decals and affix them to the windshields of their vehicles. Unattended gravel lots for faculty parking are located south of the high school building and students are not to use these lots. The paved parking lot immediately west of the Administration Building is for School Business Office personnel and community patrons who have business with the Tax Office, and is not to be used by faculty or students. Students are reminded that parking on the street, on private property or in an unauthorized lot will probably result in the vehicle being towed away and/or a fine levied.

## DEATHS

### Dr. Harrison

Dr. Preston Harrison, 63, superintendent of the Big Spring State Hospital for almost 20 years and an innovator in treating mental illness, was laid to rest here Sunday. Services were held at the First Presbyterian Church with the pastor, the Rev. R. Earl Price, officiating. He was joined by Dr. R. Gage Lloyd, pastor emeritus, and Chaplain Lee Butler of the State Hospital staff. Burial was in Trinity Memorial Park. For those wishing to make memorials, the family suggested gifts to the Preston E. Harrison Memorial Library Fund at First National Bank. Funds will be used for a library to house the papers, publications, research and contributions of Dr. Harrison to the field of mental health. Pallbearers were Joe Pickle, Jack Y. Smith, Burl Dennis, Robert Von Rosenberg, Bob Garcia, Woody Mann, Jake Glickman, Charlie S. Voigt, Dr. Harry G. Davis and S. M. Anderson. Honorary pallbearers were members of the Per-

man Basin Medical Society, the Rotary Club, representatives of the Department of Mental Health and Mental Retardation, volunteers and all other friends.

### T. A. Morris

Thomas A. Morris, 74, of Abilene, brother of Mrs. H. F. Brewer of Big Spring, died at 3 p.m., Friday in an Abilene hospital after a lengthy illness. Funeral will be at 10:30 a.m., Monday in North's Memorial Chapel at 242 Orange, Abilene. Officiating will be the Rev. H. B. Terry, Baptist minister. Burial will follow in the Oddfellow Cemetery in Abilene. Morris and his wife resided in Big Spring from the 1920s until 1945, when they moved to Stephenville. He was a fireman at the time he resided here. They later lived in Fort Worth and at Lake Whitney before moving to Abilene in 1969. Survivors include his widow, the former Bertha Jewel Harris; a daughter, two other sisters and six grandchildren. He was preceded in death by two sons.

## Connally Retains Support For State GOP Leadership

HOUSTON (AP) — The Houston Post said in a copyrighted story in its Sunday editions that a survey indicates President Ford appears to be narrowly ahead of former California Gov. Ronald Reagan in the just now unfolding race for Texas' delegates to the 1976 Republican National Convention. The newspaper said about 40 prominent GOP leaders from all factions of the state party were surveyed. The survey also revealed that former Texas Gov. John B. Connally, a former Democrat, retains strong support from the state GOP leadership. About half the persons interviewed, including party officials, congressmen, state legislators and political professionals, the Post said, mentioned Connally as a

man well equipped for the presidency. However, only a few seemed to believe he would actually become a candidate. Some suggested he is now rehabilitating his national image so he can try for the White House in 1980. Ford surged into the lead in Texas after trailing Reagan by as much as a 2-1 margin only three months ago, the Post said. The newspaper said the survey showed Vice President Nelson A. Rockefeller remains Ford's biggest problem in Texas. Many of the persons interviewed expressed their outspoken distaste for Rockefeller's "liberalism," the Post said, and suggested he be dumped from the 1976 national ticket and replaced with Connally or Reagan. "The President's

## Ex-Coach Bud Wilkinson Being Sued For Divorce

OKLAHOMA CITY (AP) — Longtime football coach Bud Wilkinson, now a network television sports commentator, is being sued for divorce by his wife of almost 37 years. Mary S. Wilkinson cited incompatibility as grounds for the petition, which was filed here Friday. The couple would have celebrated their 37th anniversary Aug. 27. They were married in Grinnell, Iowa, and have two sons, Charles Patton and James Glenn. Mrs. Wilkinson declined comment on the divorce petition. Wilkinson, 59, was attending a golf tournament at the Firestone Golf and Country Club in Akron, Ohio, and was not available for comment, a spokesman for ABC television said. Mrs. Wilkinson's petition listed only the family home in Oklahoma City as property acquired during the marriage. Wilkinson coached the Oklahoma University Sooners to a phenomenal record of 145 victories, 29 losses and 4 ties that netted national championships in 1950, 1955 and 1956. In 1964 he switched his registration to Republican and made an unsuccessful race for the U.S. Senate.

# Uncle Sam Dominating Economy In Big Spring

**EDITORS NOTE:** First in an eight part series of features on the present situation of Big Spring and area in eight areas: economy, health and education, government, community relations, design of the city, culture and entertainment, housing, and parks and recreation.

By TROY BRYANT  
Big Spring needs more local industry in the long run, but the continued operation of government agencies and installations are necessary for a strong economy in the next ten years, according to a report from the Economy Subcommittee of the Goal for Big Spring Program.

The economy of Big Spring and Howard County is greatly dependent on government. In fact, of the estimated labor force of 13,645 in the county, 2,759 are employed by the Federal Government alone.

This figure does not include 2,425 military personnel stationed at Webb Air Force Base who are not considered a part of the work force.

The subcommittee revealed these facts in an essay compiled by the group as a guide to what Big Spring has and needs in the area of economy.

The report found that government provided more than one-third (35.5 per cent) of the income of persons in Howard County while agriculture, oil, and gas accounted for only 17.9 per cent of the income.

The subcommittee found that area's economy during the next decade critically depends on the continued operation of Webb Air Force Base and other government installation, but the long-term economic future depends heavily upon expansion of basic industries, especially manufacturing.

**TAX PROBLEMS**  
The fact that the economy is dominated by government, which cannot be directly taxed, creates a problem in raising revenue for local government service. The subcommittee said that imposing higher taxes on the private sector will tend to discourage the new

(Photo by John Edwards)

**WHERE DO OUR DOLLARS COME FROM?**  
Report says one in three comes from government

manufacturing industries that are badly needed.

Initially, the economy of Big Spring was focused on the water springs which dotted the area, including the Big Spring in what is now Comanche Trail Park.

Indian nomads were the first to use the springs, followed by Spaniards and later by permanent white settlers.

The springs once gushed forth thousands of gallons of water, the only water in hundreds of miles, but now farm irrigation and sub-surface wells have lowered the area's water table to the extent that natural flow is stopped.

The next major economic boom came with the railroad in the 1880s, followed by the oil boom in the 1920's.

Government investment accelerated in Big Spring with the founding of a bombardier school by the

U.S. Army during World War II.

After the founding of the Big Spring State Hospital,

## AMTRAK STRATEGY SESSION SCHEDULED IN BIG SPRING

Chamber executives and city officials from six West Texas communities located along the Texas and Pacific railroad from Abilene to El Paso will converge in Big Spring on Aug. 19, to discuss how to get Amtrak passenger service through here.

Big Spring Chamber of Commerce manager Terry Hanson said that representatives from Midland, Odessa, Monahans, Pecos and El Paso will be present at the strategy session.

The meeting will be at 10 a.m. at the Chamber Conference Room.

The state has initiated a feasibility study, according to Hanson, to determine the feasibility of getting the Amtrak service to locate on the T&P line which runs along Interstate 20.

Ray Richards, who heads the Texas Railroad Plan study from Texas A&M University, is slated to begin the study in September.

entertainment, housing and parks and recreation.

Meetings will be at Washington and Lakeview Schools on Monday, Aug. 25; meeting will be at College Heights and Bauer Schools on Tuesday, Aug. 26, and a final meeting will be at Cedar Crest School on Thursday, Aug. 28. All meetings will be at 7:30 p.m.

Everyone is invited to attend and express his views.

## Sen. McGovern Will Discuss 'Land Use'

SNYDER — Five local members of the Soil Conservation Society of America in San Antonio attending the Society's annual meeting starting today and continuing through Wednesday are:

Herman Hundsnercher, Hermleigh; Soil Conservationist James Crowover; Range Conservationist Charles Anderson; District Conservationist Erwin A. Pavlik, and Mrs. Erwin A. Pavlik, all of Snyder. All members of the Permian Basin Chapter are attending.

Pavlik is serving as the Texas Council's photo contest chairman. Pavlik also represented the Permian Basin Chapter at the chapter's delegate at the Texas Council meeting Saturday and is representing the Society's House of Delegates meeting today.

Pavlik, active in the Mid-Gulf Coast and Permian Basin Chapters for the past five years, is a candidate for zone councilman.

South Dakota Senator George McGovern will make the keynote address on Monday. His topic will be the meeting theme — "Land Use: Food and Living."

## BSHS Reunion To Lure King Team Work Helps Garner 'Symbol Of Excellence'

J. W. King, a former Big Spring High School band director, will be here this autumn for the annual BSHS Homecoming. Former band students who were under King are urging a good turnout for the occasion and have asked that those who know the whereabouts of former students now out of town to write them. Bill Bradley, head of the school band program, was among the students who trained under King.

The time and place of the band reunion during the BSHS reunion will be announced later. King left here in 1952 to become band director at Hale Center, and currently he directs the band at Canyon.

## Elbow School Data Listed

Children entering Elbow School for the first time are asked to sign up Monday or Friday between the hours of 9 a.m. and 4 p.m., Principal Bill Cregar reminded Saturday.

This includes all from Kindergarten through grade 5. Kindergarten and first grade first-timers must bring birth certificates or records, also immunization records, and all others must have immunization records. Pupils who were in Elbow last year are preregistered.

## Oilfield Mishap Kills Resident Of Coahoma

Marcos Mendez, 35, Coahoma, was dead on arrival at a hospital here Friday at 2:50 p.m. following an oilfield accident 13 miles southwest of Big Spring.

The accident occurred on a well-servicing unit when the rig was being activated. Mendez apparently became pinned between a rod board and the derrick, according to L. S. Boyles of Coahoma, owner of Darden Well Service of Coahoma.

Services will be held 9:30 a.m. Monday at St. Joseph's Catholic Church in Coahoma, where he was a member. The Rev. Leo J. F. St. John will preside, and burial will be in the Coahoma Cemetery under the direction of the Nalley-Pickle Funeral Home.

Employees of Walls Industries, Inc., here had a party the past week, celebrating the company selection by Sears Roebuck & Co., to receive a "Symbol of Excellence" award.

## Manufacturing Gems Course

Applications are being accepted now for Howard College's jewelry manufacturing program.

A beginning course will start Sept. 2, and will be the first half of a 480-hour training program. Classes will meet Monday through Friday, from 9 a.m. until noon. Cost will be \$300 per semester.

The second half of the program will begin in January. The entire program is to be completed in May 1976.

Instructor for the program is Fred Tatum, an experienced jeweler. Dormitory and dining facilities are available on the Howard College Campus at a reasonable cost.

For additional information, contact the office of Adult Education at Howard College, 1001 Birdwell Lane, Big Spring, 79720, or phone 915-267-6311, ext. 78.

## Oilfield Mishap Kills Resident Of Coahoma

Mr. Mendez was born March 11, 1940, in Ozona. He was married to Maria Cantu May 13, 1959, and she survives him as do four sons, Isidro Mendez, Marcos Mendez Jr., Pedro Mendez and Edward Mendez; and four daughters, Sinfosa Mendez, Victoria Mendez, Diane Mendez and Helen Mendez, all of Coahoma.

He also leaves his mother, Mrs. Pedro Mendez, Coahoma; four brothers, Ignacio Mendez, Santos Mendez, David Mendez of Coahoma and Gertrudes Enriquez, Sonora; and five sisters, Mrs. Victoria Cantu and Janie Mendez, Big Spring, Maria de la Cruz, Susie Mendez and Alivino Hernandez, all of Coahoma.

## Colonel Plans To Enter Law School In Nebraska

Winding up one career and beginning a new one this month, Lt. Col. Boleslaw J. Dromsky Jr., will soon depart Webb AFB to return to school. At the Wing staff meeting this past week, he was presented the first oak leaf cluster to the Meritorious Service Medal by Col. Robert A. Owens, wing commander.

Dromsky will retire from the Air Force Aug. 31 after 23 years service. As chief of the Wing Safety Division his ceaseless efforts resulted in major contributions to the safe and successful accomplishment of the mission... his citation reads.

"I am looking forward to the challenge of a new career," the colonel said in revealing that he plans to enter law school at the University of Nebraska in Lincoln.

After enlisting in 1952 upon graduation from high school in Moscow, Pa., Dromsky served as an aircraft mechanic on the North American P-51 at Craig AFB, Ala.

He had two previous assignments on Webb. In 1955 he came from pilot training and was an instructor pilot here for a year. Then after returning from Germany where he was a missile launch officer he returned to Webb as an instructor and then T-38 flight safety officer. His current tour began in 1972.

In Thailand in 1969, Col. Dromsky flew the RT-28 reconnaissance aircraft and T-28D fighter-bomber. He was awarded the Distinguished Flying Cross for action during a reconnaissance mission. While there he taught foreign nationals. "We turned elephant drivers into fighter-bomber pilots in six months," he said.

The colonel earned a bachelor degree in business administration from the University of Nebraska at Omaha on the Air Force bootstrap program.

He and his wife, Dot, are parents of four children: Laurie, Joseph, Lynette and Davis.

PROPERTY OWNERS THREATENED BY LARGE, UNCARING BUREAUCRACY?

# Waging 'War' Against Engineers At Lake Whitney

WHITNEY, Tex. (AP) — Hundreds of property owners circling nearby Lake Whitney are waging "war" against the U.S. Army Corps of Engineers.

The Army is firm in its plans to alter government-owned lakes to their concept of a wild, native state, eliminating exclusive—in some ways—use of the lake by adjacent landowners.

Many of the approximately 10,000 persons living around the vast, scenic lake say the real issue is whether all Americans are being threatened by a large, uncaring bureaucracy.

"It's the worst possible kind of situation," said Burt Howell, one investor who has lived at the lake for 20 years. "I've dealt with the government for years and this is bureaucracy at its best, if you want to call it that."

Asked if there is a master plan to radically change the face of America's government-owned lakes, Perry Robinson said, "Definitely. The policy is to remove the exclusive private use of public lands and waters. Robinson is head of the Corps' recreation resources branch in Fort Worth.

Many of those at the lake are elderly, retired persons who say they are ill-equipped to comply with tough new regulations on use of government lakes proposed by the Corps. Formal protest of the regulations will be cut off Aug. 10 after which the plans go into effect. One of the big issues is erection of boathouses on the lakeshore by areas residents, a privilege not extended to outsiders.

Lake Whitney is a sparkling, 42-mile-long bowl of water hundreds of feet deep, its shoreline wandering through the craggy stone and cedar of Central Texas. The lake was completed in 1951, designed as a reservoir for electric power and recreation. Fishermen boast of 60- and 70-pound catfish which slip quietly along the lake bottom.

Now, say residents, the Corps wants to turn the lake area into a primeval wilderness. They say the Corps interprets this as being chest-high weeds, scrub brush, rattlesnakes, debris-ridden shores, and pothole roads that angle to the shoreline like strips of brown corduroy. "They want to make this

place wild and wooly—a jungle. They're doing some of the stupidest things you ever saw in your life," said Ted O'Neil, a college-educated cattleman who feels there are darker clouds on the horizon.

"They just want to harass us away from here," injected Howell.

To some degree, that's true, says the Corps.

O'Neil, who manages the some 6,000 acres of the Steiner Valley Ranch, joins others in these complaints: "The Corps has voided all lease agreements under which stockmen grazed cattle on the lake's floodplain, an area of varying width between the shoreline and an arbitrary point of elevation.

"The Corps will not cut the snake-breeding weeds and brush which now cover the floodplain and surround many boathouses on the shore.

"The Corps plans to implement tough new regulations on maintenance of boathouses and other facilities which protesters claim are impossible to cope with. "Hell, a new boathouse wouldn't live up to their standards. You can't put a

chair or a refrigerator in your boathouse under these rules," said Bill Plumb.

"The Corps has cut off "volunteer" lake access roads or discouraged their use through a non-maintenance policy.

"The Corps conducts costly, repetitive land surveys which continually eat up private property.

O'Neil settled into a chair looking out over the lake from the ranch house lawn his arm surveying in a broad sweep a floodplain knotted in weeds and brush.

"Our cattle used to graze there, kept the brush down, and the schools benefited from our lease money. Not any more. You call that garbage intelligence? Hell, no."

O'Neil has torn down a gate leading to the floodplain and, at his own expense, nearly finished a cat-leopard. "The hunters and fishermen kept leaving the gate open and I was fined every time my cattle got onto government property. But before we finished it, the Corps called me up and said stop everything. They got their feelings hurt because I hadn't checked with them first. Despite it being a good

idea, they won't let us finish it. It's nonsense like that that runs you up the wall," he said.

O'Neil, who has attended several public protest hearings, stated he knows of several landowners who will be forced to sell out rather than comply with the new Corps regulations.

The Corps has answers for nearly all of these complaints, and leaves no doubts about its intentions.

"It's true we don't have the staff to maintain the volunteer roads people put in for their convenience," said Robinson. "We have public use areas designed to care for the public's needs. We don't want these little roads running everywhere just so some property owner can get down to his boathouse. One road just breeds others.

"We've had people cut down trees so they can have a better view of the lake. That's a no-no. People can cut grass—with a permit—right around their property but we don't want grass growing out there on the floodplain or in any other of these areas. We're trying to encourage wildlife. Grass doesn't do that. We've got birdwatchers and others who

want the wildlife and that's what we're trying to do—encourage wildlife through promotion of wild surroundings."

Asked if the Corps plans eventually to remove boathouses from the nation's government lakes, Robinson said "Yes. Through attrition. As the people die off or move away. We want to have all lands and waters back in the public domain."

There has been what he called an "unwritten policy" that landowners around such lakes may get permits to erect fixed boathouses on lakeshores, a privilege not extended to others. That's changing.

"Why should that man have a right we can't give you?" asked Robinson. "At first we encouraged development around these lakes to help us maintain the area. But now there are too many of us. Nobody ever heard of a water ski until the mid-1960s. Now the lake is full of them, and boats. There's just too many people. Boating used not to be the big thing it is now.

"Don't forget, you're paying taxes to support the lakes, too. How far do you

have to drive to use it? A hundred miles? And these people are griping because we're shutting off their private roads and making them drive five or 10 miles, or maybe three, to launch their boats at a public use facility."

Rep. Olin Teague, D-Tex., whose district includes Lake Whitney, said Texas, "like the balance of our nation, will suffer tremendous damage" as a result of parts of the new proposals. He said the "only answer will be corrective action by the Congress which would clarify and restate the intent of Congress as it regards the basic role of the Corps of Engineers in carrying out its authority" regarding aspects of the regulations.

Teague said he will support legislation now introduced designed to "alleviate this expansion of Corps authority."

"Meanwhile, what do we do with the millions of dollars in investments around here?" asked Plumb. "Well," said retired surveyor Ben Pierce, "heaven help you if you're a widow woman. They take advantage of them most of all."

HERALD SPONSOR OF SEPT. 6 EVENT

## Newspaper In Classroom Conference Slated Here

The first annual Newspaper in the Classroom Conference will be conducted for the benefit of area teachers in the Howard College auditorium here from 8 a.m., to 4 p.m., Saturday, Sept. 6.

Registration will be free and those attending will be guests of sponsoring organization, The Big Spring Herald, at a 12 noon luncheon in the college dining facility.

Mrs. Jamie Bilbo Boren of Snyder, herself a former member of the Big Spring Herald news staff, will lead the panel which will discuss uses of the newspaper during the day-long conference. Mrs. Boren has conducted numerous conferences of this type in the area.

An advertisement pertaining to the conference, complete with a registration blank, will appear in an early edition of The Herald. Teachers need only fill them out and forward them

JAMIE BOREN

either to Johnnie Lou Avery, assistant to the president at Howard College, or to Gene Kimble, co The Herald, Big Spring.

Registration will get under way at 8 a.m., followed by a coffee. W. S. Pearson, publisher of The Herald, will welcome the group at 9 a.m., and will be followed to the speaker's rostrum by Dr. Charles Hays, president of Howard College; Dr. E. H. McKenzie Jr., superintendent of schools, Big Spring; Charles Couk, director, Educational Services, Avalanche Journal,

Lubbock; Mrs. Boren; and Gene Kimble, circulation manager, Big Spring Herald. Mrs. Boren's morning discussion will be on "The Challenge of Using Today's History Today." Kimble will concentrate on the topic, "How to Secure Newspapers for the Classroom."

Following lunch, the teachers will be divided into discussion groups. Shortly before the sessions end, the registrants will tour The Herald plant.

Any elementary or secondary school teacher in the area will be encouraged to attend. Information relating to the conference will be mailed to area superintendents the coming week.

Mrs. Boren, Society Editor of The Herald from 1948 until 1951, graduated from Sul Ross University at Alpine in 1948 and was on special assignment with the Sheep and Goat Raisers Association in San Angelo for three months. Mrs. Boren and her husband, Bob, are parents of three children — Kathy, Bebo, and John Robert. "Newspapers shrink our world," Mrs. Boren says, "they enable us to become as knowledgeable about people across the sea or a continent as we are about our next door neighbors."

The Newspapers-in-the-Classroom program is considered by many educators to be one of the most effective innovations in education of the last decade.

The conference is designed to introduce the classroom teacher to the limitless possibilities of enriching the instructional program through implementation of the newspaper.

### Retriever Back Behind Bars

STRASBURG, Va. (AP) — A man who escaped from the Frederick County Jail earlier this week while retrieving a stray basketball has been recaptured here, authorities said.

Sheriff's deputies from Frederick and Shenandoah counties and Strasburg police took Sammy Lee Gordon, 35, into custody Thursday.

Gordon escaped Monday after he climbed to the jail roof to retrieve a basketball that had landed there during a game. He climbed down outside the jail, guards said.

The inmate was awaiting transfer to the state penitentiary on charges of shooting at two Frederick County men.

### Producer Completed

R.K. Petroleum No. 1-A Peeler Williams has been completed as the second producer in the RH-Fusselman field of northwestern Martin County. It rated 450 barrels of 47-gravity oil per day with gas-oil ratio of 51-1, flowing through 8-64th choke from perforations 11,770-778, acidized with 1,000 gallons. Location 14 miles north of Tarzan is 660 from the south and 1980 from the west lines, section 1-37-2n, T&P. Two other fields have spudded in the area.

In Sterling County, Dorchester No. 1-16 Terry, six miles southwest of Sterling City, finished for 21 barrels of 44-gravity oil and 42 of water, with gas-oil ratio of 2,257-1. It is the third Canyon oil producer in the area and 5 1/4 miles east of pay. Production is through perforations at 7,117-998, acidized with 25,900 gallons and fraced with 55,000 gallons. Location is 1,139 from the south and west lines, section 16-T, T&P.

Stoltz, Wagner and Brown completed two gas wells in the Conger area. No. 12-3 Hildebrand, a half mile north extender, had a calculated absolute open-hole flow daily potential of 12,867,000 cubic feet and gas-liquid ratio of 13,050-1, condensate 60.8 gravity. Production was from perforations 7,465-648, fraced with 60,000 gallons. Location is 10 from the south and 2,074 from the west lines, section 3-21, H&TC.

No. 11-10 Hildebrand, a three-quarter of a mile southeast stepout, rated 4,184,000 cubic feet on calculated absolute open hole flow, gas-liquid ratio of 15,227-1, condensate 55 gravity. Pay was from perforations 7,546-8,057,

fraced with 50,000 gallons. Location is 2,000 south of the northwest corner section 10-31-5n, T&P.

In Howard County, Brock No.1 Branon drilled to 2,780 feet.

### Probated Term

Odie Rebecca Alley pleaded guilty in Stanton Thursday to the charge of unauthorized use of a

vehicle. She was given a five year probated sentence and released.

Police said Miss Alley took the pickup truck last April 27 and was apprehended in Mississippi.

## How he sees now will affect the rest of his life.

What he learns this year in school will affect how well he learns next year, and so on through college and the rest of his life. That's why you need to know how life looks to your child right now.

More than eighty percent of a child's knowledge is gained through his eyes. So it's important that you protect them by taking him for regular professional eye examinations.

We hope your child's vision is fine the way it is, but if not, depend on TSO. You can be sure we will fill the doctor's prescription accurately with eyewear of the finest quality. And the cost will be reasonable, too. At TSO, we care how you look at life.

## City Dads Will Consider 629 Acres Annexation

The City Council will consider the annexation of 629.06 acres to the city at its regular meeting Tuesday at 9 a.m. in City Hall.

The Council will consider passing the first reading of an ordinance calling for a public hearing on the proposed annexation.

According to City Attorney Jim Gregg, the proposed annexation would include all the territory from the present city limits east on 11th Place to Midway Road, then north to Interstate 20, then back west along Interstate 20 to the present city limits.

The area will take in the new city-county sanitary landfill, the Carpenter and

Operating Engineer Unions meeting halls, Caldwell Electric and a trucking firm.

The Council will also consider the first readings of proposed amendments to the plumbing ordinance, the abandoned automobile ordinance and the dog ordinance.

The lengthy agenda also includes consideration of passing the first reading of an ordinance receiving and accepting improvement and authorizing issuance of special assessments for the paving and guttering of several streets.

Considered to be paved are Connally St. from the south end to the south line of the Douglas Addition; Warren

St. from Connally to Wasson; 14th St. from Gregg to Main; Donley from 12th to one-half block north; 12th St. from Lancaster to Main, Jennings from 16th to one block south of 17th; 19th St. from alley east of Settles to Abernathy; Johnson from 24th to FM 700; 17th St. from Donley to Settles and 24th St. from Johnson to Goliad.

The council will also consider an ordinance authorizing the mayor to enter into a contract with the Permian Basin Regional Planning Commission subcontracting the Ceta Work Program, and also to allow him to contract with Howard College for the disposal of sewer affluent.

Claims for damages from Bob Rodman and from Big Spring Hardware will be heard. Rodman seeks damages stemming from an auto accident and Big Spring Hardware seeks damages from a water main break.

The acceptance of the donation of the Hayden House for a historical landmark will be considered and the council will select a Hayden House committee.

Also on the agenda is the consideration of acceptance of Traffic Commission minutes from their meeting on July 17. The Commission makes several recommendations, including the elimination of left turns from third and fourth onto Main St. and the elimination of stop signs on Main St. at 10th St.

## Giving It Away Budget Hearing Heads Brick By Brick School Trustees Agenda

The Big Spring Independent School District trustees have a fairly lengthy agenda for the 5:15 p.m. meeting Monday at the board room, 708 Eleventh Place.

The budget hearing heads the list of items, followed by consideration of group health insurance. Trustees will consider amending the student suspension policy, and clarification of the student dress code. They also will deal with resignation and employment

of school personnel.

Other items have to do with the Texas Association of School Boards conference, amending the Head Start budget, opening bids for a lawnmower, sale of school buses and transportation mileage costs.

Dr. E. H. McKenzie will report on the Flato Realty suit, administrative regulations for travel. Tom Locke, chairman of the Goals for Big Spring steering committee, will have an audience with the board.

### Giving It Away Brick By Brick

WINDSOR, Vt. (AP) — "If you can't sell it, give it away" appears to be the motto applying to the Vermont State Prison.

The 300 persons attending formal ceremonies Thursday to mark the closing of the prison each got a brick from the 167-year-old institution.

The sign at the pile of bricks given away said, "Old bricks from crumbling institution. Please take one."

The state has been looking in vain for a buyer for the prison since its closing was announced in December.

# Children Bear Scars In Domestic Strife

By PAT MILLER  
They are children of divorce. They have become accustomed to living in a "war zone."

Many times their fears are realized in their dreams and in their lives. These children huddle under their covers at night to shut out the noises of their parents' battles.

Anger and love are needed emotions, yet anger often is not controlled or dealt with properly. Many times adults communicate in the wrong way. They do not fight fair. Personal accusations are made instead of the act the person has committed.

Children often feel responsible for their parents fighting. One child would not go to sleep at night, knowing that her parents would start fighting after she had fallen asleep. Yet, not even that phobia could prevent their divorce.

Most bear scars due to the fighting and tension which gnaws at their life each day. Some carry feelings of guilt, resentment and often vengeance.

**STIGMA**  
The idea of divorce is the idea of failure to some children. They have tried to keep their parents together and failed. Divorce is just something that they are not proud of; it is a stigma in one's social standing in the community.

Even though most young people admit to feelings of embarrassment and other emotional discomfort, they feel that divorce was the only solution to their family's problems. The feeling of embarrassment is often a reaction of shame or failure because most children will instinctively try to keep their parents together, and then they feel ashamed when their attempts fail.

In 1972, nearly one child out of every 10 lived in a one-parent home and about 7.5 million families were headed by unmarried adults. Recent studies show that half a million children in America are involved in divorce yearly. In figures released in 1970 the rate of divorce involving children has doubled since 1950, and increased six times since 1922.

According to Wilfrid Calnan, director of the Dora Roberts Rehabilitation Center, children suffer as well as the adults involved and can be helped. "If a parent does not recognize that he and the child will suffer and forgive himself for that, both will suffer more."

Children should be dealt with honestly according to their age and capacity to understand the situation. They should be told what they want to know and not made to wonder about the mystery. Criticism of the other parent will cause more hurt and confusion. "A realistic view and unbiased explanation will result in better understanding for the child," said Calnan.

**FRUSTRATION**  
Often parents try to make up to their children for what they have lost. The adult will experience frustration as will the children. Something not recognized frequently is emotional neglect as well as physical neglect on behalf of the children. Parents may abuse children with words or tongue lashings which damage as much as physical beatings.

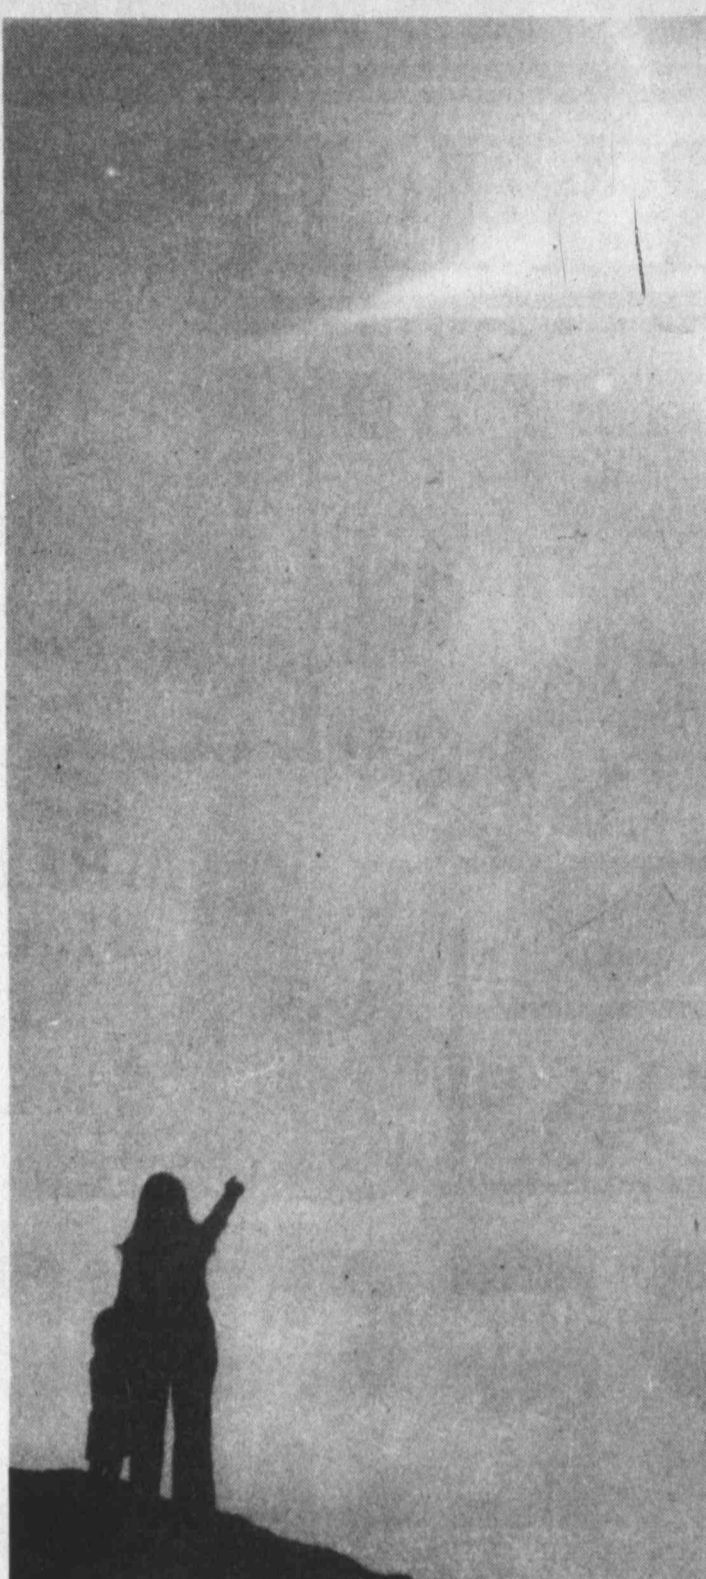

"In this area, we are lucky to have a thoughtful judiciary system. They see to it that the custody agreements are spelled out," said Calnan. Often parents battle for the custody of their children and use them as a weapon against the other parent. Calnan continued, "If the children are expecting one of the parents to pick them up and they never show, it is a great disappointment."

Divorce makes an impression on children that may show up late. With the vengeance and frustration bottled up in a juvenile, it is often taken out in violence.

"Many kids are looking for fun; fun at others' expense," said Officer C. P. Ward. Ward is in the Juvenile Division of the Big Spring Police Department, which has been in operation for a year and seven months.

Several children of divorce are neglected by their parent or step-parent by being left on their own. "When children are neglected, often called abused, they are forced to take care of themselves and make decisions that many adults are not forced to make. But, these decisions are based on a child's experience, judgement and immaturity," said Ward.

With this lack of supervision, there is a lack of time consuming activities such as hobbies, pets or membership in organizations. The greater per cent of neglected children are en-

IT'S THE CHILD WHO SUFFERS When parents disagree

(Photo by John Edwards)

vious of 'normal' families and get into trouble to attract their parent's attention. Step-parents as well as parents often do not take the responsibility of children, and eventually the kids lose respect for them.

Of the kids that are first time offenders, 50 per cent are repeaters. Yet, when they reach the age of 17, most realize whatever they do after this age will go on a

permanent record. Hence, they straighten themselves out, according to Officer Ward. The bigger per cent of juvenile offenders do not become criminals.

Help and counseling are available to anyone with marital or family problems through local ministers, private psychologists and the Family Counseling Services at the Dora Roberts Rehabilitation Center, 306 W. 3rd St.

## Water Board Pins Down Objectives, Budgets

Members of the Texas Water Modification Advisory Board wrestled with objectives and budgets here Friday and came up with near-agreement.

Texas has an availability of \$359,578 for fiscal year '76 (plus three months). Participating agencies outlined research which would cost \$468,141, but some \$27,000 was trimmed from one phase, leaving a gap of \$82,000.

Representatives agreed to see if this amount can be raised from other sources so proposed studies will not have to be curtailed. If not, the board then will see if

### MISHAPS

18th and Gregg: Karla Greenhill Chewarria, 208 E. 23rd., and R. E. Smithie, 1810 Nolan, 9 a.m. Saturday.

9th and Goliad: Addie Jeffcoat, Knott, and Elias Chavez, 307 NE 9th., 7:33 p.m. Friday.

programs can be pared somewhat.

Here for the conference were Ted Smith, president of Meteorological Research, Inc., the agency which is making a scientific evaluation of weather modification efforts of the Colorado River Municipal Water District; John Carr, Austin, head of the weather modification research division for the Texas Water Development Board; Dr. James R. Scoggins, College Station, Texas A&M, and Dr. Donald R. Haragan, Lubbock, who head their universities' meteorology sections; also O.H. Ivie, general manager for CR-MWD. Sitting in on the parley were non-board members, Bob Reggio, Austin TWB, and John Girdzus, meteorologist for the CRMWD.

Ivie expressed the belief that if studies can be carried through 1980, "we will have a tremendous wealth of information about the practicality as well as the possibilities for weather modification." The CRMWD has carried on its studies for five years in hope of increasing runoff into its two major reservoirs.

During the week, Dr. Bernard Silverman, Denver, Colo., chief of research and development and Lloyd Stuebinger, Denver, Big Spring coordinator for the Big Spring leg of the Hiplex project, were here to review Bureau of Reclamation operations. They expressed keen satisfaction with the progress made. Also during the week, the University of Washington B-23 instrument plane made daily atmosphere check flights, as did two other instrument planes of the MIR.

## Middle East Urges Ford To Ax Pact Looms Tobacco Subsidy

By the Associated Press  
Two high-ranking Israeli officials will go to Washington next week to work out the wording of the political aspects of an interim peace agreement with Egypt, the Israeli state radio said Saturday.

This suggested that the Israelis and Egyptians were near agreement on the substance of the political part of a pact for an Israeli withdrawal in the Sinai Desert.

In Cairo, President Anwar Sadat assured visiting U.S. lawmakers that Egypt is "determined to pursue all roads leading to a just and durable peace" in the Middle East.

Sadat also met with the U.S. charge d'affaires in Cairo, Frank Maestrono. No details were immediately available on either meeting.

Israeli Foreign Ministry sources confirmed that Mordechai Gazit, director-general of the prime minister's office, and the Foreign Ministry's legal adviser, Meir Rozen, will meet the U.S. negotiators in Washington.

The sources declined to be specific on the points of accord. Jerusalem officials have said in the past that the Israelis are seeking a commitment from the Egyptians to reduce economic and political warfare against the Jewish state and to undertake a promise of "nonuse of force" in settling future disagreements between the two sides.

Also under negotiation are the strategic aspects of the agreement, especially the extent of Israeli withdrawal in the desert peninsula.

The Israeli ambassador to Washington, Simcha Dinitz, is to receive clarifications Sunday on Egypt's latest proposals on an Israeli withdrawal before Israel formulates its reply, the Israeli radio said.

A third aspect of the negotiations, concerning relations between Israel and the United States, also appeared to be progressing, and the Israeli radio reported that an Israeli delegation was to arrive in Washington Monday to discuss the resumption of American aid held up during the U.S. reassessment of its Middle East policy.

Israeli officials have said the American aid is an essential part of the Israeli-Egyptian agreement.

WASHINGTON (AP) — A Ralph Nader group urged President Ford Saturday to end the government's \$60 million annual tobacco-growing subsidy and spend the money instead of a nationwide antismoking campaign.

Putting small tobacco farmers and cigarette industry employees out of work "is of little consequence" compared to the 250,000 deaths attributed to cigarette smoking each year, the Health Research Group said.

"We urge you to lead the way in ending the unconscionable U.S. support to tobacco production," the consumer organization said in a letter to Ford.

"Federal programs to encourage tobacco growing contradict other federal programs from prevention

and control of environmentally induced disease," the Nader group said.

The Tobacco Institute, a Washington-based trade association, countered that federal subsidies actually limit tobacco production.

"If there were not controls on how much tobacco is grown, obviously there would be more tobacco. If there were more tobacco, it would cost less. Cheaper tobacco products would be more widely available," a spokesman said.

"The failure of people who make these proposals to perceive that, is a measure of their intelligence," he said.

"Our tobacco support program is subsidizing disease and death in the name of the small tobacco farmer," the report said.

## Carrillo Trying To Hire Team Of Top Lawyers

SAN DIEGO, Tex. (AP) — State District Court Judge O.P. Carrillo faces a rare impeachment trial next month and is not taking the matter lightly.

Carrillo says he is trying to hire a blue ribbon team of lawyers to defend him, all of them lions in the courtroom arena: former Supreme Court Justice Abe Fortas, Percy Foreman of Houston, F. Lee Bailey of Boston and Richard "Racehorse" Haynes of Houston.

In an interview with the Corpus Christi Caller, Carrillo said Friday night he is making efforts to employ the four nationally-known attorneys for his Sept. 3 impeachment trial before the Texas Senate.

The judge showed the Caller a financial statement showing that as of last January he was worth a little more than \$1.5 million.

"I would not be willing to spend all of my resources and what has been pledged in addition by my family if I did not feel I was innocent of the charges brought against me," he said.

Foreman told the Caller by telephone, "I will do everything I can to help the judge. He is a good friend and I would have been by his side earlier if he had called me. I will do everything I

can."

Austin lawyer Arthur Mitchell who represented Carrillo during House impeachment hearings, said he has been in touch with Bailey regarding Carrillo's defense before the Senate.

Mitchell said a defense team organizational meeting will be held next week.

"It is time I said something in my defense," the judge said. "Archer Parr (ousted Duval County judge) has made a statement that he will run the county from the penitentiary if he has to. He is like an octopus. He has reached out to some mighty high places and I am feeling the pressure from some mighty high places."

It was Carrillo who permanently removed Parr from office following a trial in Rio Grande City. Parr is in jail in Midland awaiting the outcome of a bond hearing.

Parr also has been sentenced to a federal jail term for perjury before a grand jury but is trying to secure his freedom on bond long enough to appeal the conviction.

Carrillo said he has knowledge — "names and the connections" — regarding the "largest narcotics ring in South Texas which is headquartered in Duval County."

## Doctor Shows How To Bathe Away "Corns" and Calluses

by Ina Lee

At the offices of a foremost New York foot specialist, I experienced what may prove to be the answer to the foot problems of millions. I was shown a quick, easy way to relieve tired, aching, itching feet—even feet tortured with corns and calluses!

For years I've suffered—not only from corns and calluses—but also from recurring athlete's foot, and that tired, aching feeling so familiar to salesmen, postmen, policemen, teachers and others who must stand on their feet for their livelihood... I had tried everything from specially made \$45 shoes to all kinds of foot powders, creams and salves—all to practically no avail. So I was naturally skeptical when I was assured, in a doctor's office, that in a few minutes I would be relieved of the foot miseries that had been plaguing me for years. I just couldn't believe it—but here is what actually happened!

In just 20 minutes, the itching misery of my athlete's foot had subsided. My corns were softened and dead skin washed away. So were my calluses!

In fact, my feet felt simply wonderful. Now this doctor's simple method is being made available to the public for home use!

**PART 1.**  
A Mineral Bath for Your Feet  
For the first part of this 3-way method the doctor had me place my sore, tired feet in a basin of hot water. To this water he added a green powder containing Potassium, Iron, Magnesium, Lithium, Iodides and other minerals (similar to those found in the waters of famous natural Spas). Almost immediately I began to feel a new and wonderful sensation. All the pressure and the heavy feeling in my legs seemed to float away. My foot and leg muscles seemed to relax. I could actually feel soreness and pain diminishing.

"The perspiration, the dirt and the odors so common to your feet is now being cleansed from your pores," the doctor informed me. "The hot mineral solution is easing surface tension, stimulating circulation and sending a fresh supply of new blood to your feet. This helps cleanse out the pores that soap and water cannot reach."

I could see dry, dead, scaly tissue being flaked away. I could feel the dead dry skin of corns and calluses softened and loosened.

**PART 2.** Corns and Calluses  
After about 15 minutes the doctor had me remove my feet from the bath. Then while they were still moist, he began to massage them with a special volcanic lava stone, which he had already soaked in the Foototherapy bath. It felt as if my feet were being gently caressed with wool. In just 3 or 4 minutes this volcanic stone began to buff away the dead skin of corns and calluses that had bothered me for years.

The medically developed products used in this doctor's treatment are Foototherapy Mineral Bath, Foototherapy Lava Stone and Foototherapy Medicated Balm. These 3 items are sold as a complete application kit for only \$5.00 and \$7.50. Quite a bargain when you think of what it can do for the condition of your feet, your sense of well-being and even your disposition! If pains or corns persist—consult your chiropodist.

But even more important, you can give your feet a daily hygienic "doctor's" care—right in your own home—that will help keep your feet strong, impart a feeling of well being, inhibit the growth of fungi, bacteria.

Even though we have gotten such wonderful results with just one application," said the doctor, "you must remember that the secret of healthy, pain-free feet is constant care and attention."

Nothing Else Like It  
If you suffer from tired feet, aching feet due to foot fatigue, you can now rinse away those aches and pains with nature's own minerals. You can even avoid painful, stubborn corns and calluses without "razor blade" surgery, and if your feet are cracked, itching, sore from fungus infections... perspire unpleasant odors... you can relieve these conditions practically overnight!

But even more important, you can give your feet a daily hygienic "doctor's" care—right in your own home—that will help keep your feet strong, impart a feeling of well being, inhibit the growth of fungi, bacteria.

PART 3. Athlete's Foot, Unpleasant Odors

The third and final step of this doctor's treatment is a medicated cream designed to correct the condition of athlete's foot, prevent sweating and remove unpleasant foot odors. It contains a tested chemical which is now being used in hospitals, to help combat fungi, dangerous bacteria and relieve skin rashes. As the doctor rubbed this cream into my skin, I felt a cooling, mint-like sensation. Itching between the toes disappeared. A special combination of natural oils helps lubricate the entire skin surface leaving a soothing, protective, invisible film to help guard against reinfection of the area.

Even though we have gotten such wonderful results with just one application," said the doctor, "you must remember that the secret of healthy, pain-free feet is constant care and attention."

**BREAKS MAJOR'S RECORD** — Los Angeles Dodgers second baseman Dave Lopes hits the dirt at third in the eighth inning at Shea Stadium in New York Saturday afternoon to break the record for consecutive stolen safe

bases. The new record is 32 with the old set in 1922 by Max Carey of the Pittsburgh Pirates. Covering third for the New York Mets is Wayne Garrett.

## Nicklaus Leading PGA By 4 Shots

AKRON, Ohio (AP) — Jack Nicklaus contrived a minor miracle of a par on the 16th hole, swept past faltering Bruce Crampton and Hale Irwin and, with a strong, three-under-par 67, vaulted into a four-stroke lead Saturday in the third round of the 57th PGA National Championship.

Nicklaus, gunning for his 16th major championship, cradled his blond head between his forearms, then saluted the massive gallery with a wave of his putter after his one-putt heroics on the famed "Monster" hole.

At 625 yards, it is the longest of all the long, leg-wearying acres that make up the famed, 7,180-yard Firestone Country Club course.

He made a five, a par, after hitting his tee shot unplayable, throwing his third into deep rough behind an elm tree then, boldly, flirting with trees and a small pond, flying his fourth to the green. Then he made a 30 to 35 foot, downhill par putt that left him in firm command going into Sunday's final round of this last of the year's four major tests of golfing greatness.

It may have been the key hole of the golf tournament. As late as his fourth shot he was looking at a probable bogey—at best—and possibly much worse. He walked away with his imposing lead intact.

Nicklaus, who started play on the warm, sunny day four strokes back of Crampton, finished with a 54-hole total of 205, five under Firestone's demanding par and just one shot away from the all-time record for this tournament.

Crampton, the 39-year-old Australian veteran who established the 36-hole lead with his record 63, stumbled to a 75 but remained the only other man under par with a 209 total, four back of Jack and one under.

He and Irwin, a two-time winner this season who is gunning for a spot in the front rank of the game's greats, opened the gate for Nicklaus' move with their scrambling disasters early in the day.

Crampton's fall came by degrees. He bogeyed the 5th, 6th, 7th, 9th and 10th holes, a slow, gradual, agonizing decline that let Nicklaus make up eight shots in 10 holes.

Irwin's blew his chances with the speed of summer lightning. He took a horrendous, triple-bogey seven on the sixth hole, dropping from three under par to even.

His poor drive put him behind a tree. He tried to cut his second shot, with his driver, around the tree. But he hit it unplayable. After his penalty drop, he pitched his fourth short of the green.

AKRON, Ohio (AP) — Top third-round scores Saturday in the 57th PGA National Championship on the 7,180-yard, par-70 Firestone Country Club course:

Jack Nicklaus	70-67-205
Bruce Crampton	71-63-204
Hale Irwin	72-69-210
Ed Dougherty	69-70-211
Tom Weiskopf	70-71-211
Tom Watson	70-71-212
David Graham	70-71-212
Bob Murphy	75-68-212
Mark Hayes	67-71-213
Larry Hinson	68-72-213
Billy Casper	69-72-213
Don January	72-70-213
Mike Hill	73-71-215
Gene Littler	74-71-215
John Schrieber	71-68-214
Mac McLendon	73-71-214
Leonard Thompson	74-69-215
J.C. Snead	73-67-215
Burch Baird	72-73-215
Gerry Player	72-73-215
Ray Floyd	73-71-215
Gil Morgan	75-70-215
Jerry Heard	75-70-215
Bud Allin	75-70-215

**JACK SINKS WITH HIS PUTT** — With putter raised, Jack Nicklaus sinks to the 16th green as his 30-foot putt drops in the hole for a par in the third round of the PGA tournament at Akron Saturday. Nicklaus finished the 54 holes with 205, four strokes ahead of Bruce Crampton of Sidney, Australia.

## Bench Says Reds May Rank Right Up There

CINCINNATI (AP) — Do the current Cincinnati Reds rank among the best teams in baseball history?

Johnny Bench thinks so, although the Reds catcher is admittedly not an unbiased observer.

"This could be one of the best teams ever in baseball," Bench said of his team, which has opened up a huge lead in the National League's Western Division as well as compiled the best won-lost record of the 1970s.

A listing of baseball's greatest teams evokes awe and mention of such clubs as the old New York Yankees with their "Murderer's Row" and the Brooklyn Dodgers of the 1950s, but Bench remains unconvinced.

"Sure I've heard about those teams and I'm sure they were great. But as time goes by, names become bigger and bigger. You just don't know how good those teams were," he said.

Manager Sparky Anderson is somewhat more hesitant. "I don't know. If we had Don Gullett at his best all year, maybe then we would be," said Anderson. "And if we had one big hammer out there on the mound...I don't know."

## Dodgers Triumph

NEW YORK (AP) — Dave Lopes set a major league basestealing record, Burt Hooton hurled a three-hitter and Lee Lacy singled home a sixth-inning run to lead the Los Angeles Dodgers to a 2-0 victory over the New York Mets Saturday.

Lopes stole his 31st and 32nd consecutive bases in the nationally televised game to surpass the record of 31 established by Max Carey of the 1922 Pittsburgh Pirates.

Lopes' second steal, his 51st of the season — tops in the National League — also helped to build the Dodgers' other run in the eighth. He led off with a single, was bunted to second by Lacy, stole third and scored on a wild pitch by Jerry Kosman, 10-10.

Lopes, who had equalled Carey's record with a first-inning steal, drilled a one-out double down the left field line in the sixth and scored when Lacy bounced a single between third and short.

Hooton, 9-6, posted his third straight victory. He allowed a leadoff single to Del Unser in the first, a one-out double by Jerry Grote in the fifth and a leadoff single by Felix Millan in the ninth.

## Sox Break A's Spell

OAKLAND (AP) — Denny Doyle, Cecil Cooper and Carlton Fisk homered to pace an 11-hit Boston attack that powered the Red Sox to a 7-2 victory over the Oakland A's Saturday.

Bill Lee, 15-6, yielded five hits in seven innings, including Sal Bando's two-run homer in the seventh. Dick Drago worked the last two innings and the Red Sox won for the 26th time in their last 34 games.

Doyle and Cooper hit consecutive homers off loser Sonny Siebert, 5-5, in the third inning when Boston scored four runs for a 5-0 lead.

Fisk, who singled home Boston's first run in the second inning following Fred Lynn's single and stolen base, hit a two-run homer off Glenn Abbott in the fifth.

The A's scored in the seventh inning when Joe Rudi singled and Bando lined his ninth home run of the season over the left field fence.

It was the first victory of the season for Boston in Oakland. The Red Sox had lost four in a row here, three this season.

## Bouton Tames Walla Walla

PORTLAND, Ore. (AP) — "I guess I'm a little crazy, a little flaky," said one-time New York Yankees pitcher Jim Bouton after hurling the Portland Mavericks to a 5-3 Northwest League victory over the Walla Walla Padres Friday night.

The 36-year-old Bouton, who pitched for the Yanks in the mid-1960s, returned to organized baseball after four years away from the mound, during which time he has become a sportscaster for a New York television station. "When I got out on the mound, I nearly freaked," he said.

## Eagle On 11 Propels Donna Young To Title

SUNNINGDALE, England (AP) — Donna Young holed a 60-yard chip for an eagle two at Sunningdale's 11th hole Saturday and went on to win the European Women's Open golf title.

The 30-year-old professional from Los Angeles finished the 72-hole tournament with a total of 283, 13-under-par. She won a first prize of \$11,000.

Sandra Palmer of Dallas was second, two strokes behind at 285. Chako Hiyuchi of Japan was third at 289.

Mrs. Young and Miss Palmer were racing neck and neck for the title when the Los Angeles golfer made the shot of the tournament at the 295-yard 11th hole.

Her tee shot was right in the middle of the fairway and came to rest on sloping ground.

"It was a downhill lie, and I thought it looked rather tough," Mrs. Young said. "I played it with a sand wedge and it went in the hole. I just couldn't believe it."

When the ball dropped in, she danced around in the fairway and hugged her caddy.

"I was just like a schoolkid out there," she said. "I was so excited I had to tell myself to calm down and take it easy."

"I was still shaking when I got to the 12th green. Otherwise I might have had another eagle there."

But she missed a 10-foot putt at the 12th and had to make do with a birdie.

Sunningdale's 6,174-yard, par 36-38-74 course played slower after a night of rain. Mrs. Young finished the tournament by shooting a four-under-par 70. Miss Palmer, who started the day two strokes in front, shot 74.

Joanne Carner of Lakewood, Fla., in the same group with Mrs. Young, was gunning for the title until the dramatic 11th hole. But as Mrs. Young made her eagle, Mrs. Carner had a par four, and she followed that with bogeys at the 12th and 13th, and a double-bogey seven at the 14th. She was never in contention again.

Miss Hiyuchi had a three-under-par 71 and edged Mrs. Carner for third place by one stroke.

## Connors Humbles Rod Laver Again

NORTH CONWAY, N.H. (AP) — Ken Rosewall twice had to win tie-breakers Saturday to defeat fiery Ilie Nastase and gain the final of the \$100,000 international pro tennis tournament against top-seeded Jimmy Connors.

Connors, meanwhile, registered a surprisingly easy 6-4, 6-4 triumph over defending champion Rod Laver in Saturday's other semifinal.

Rosewall's semifinal match against Nastase was a rough one. The two traded laces and tempers often flared before more than 9,000 alternately cheering and booing spectators, but Rosewall finally emerged on top 7-6, 1-6, 7-6.

Nastase opened with deadly serves, taking the first two games. But Rosewall, not to be denied, fought back to capture the set. Nastase lost the first game of the second set and then mixed asides with the fans and officials before reeling off six straight games.

The Romanian also took the first game of the third set before Rosewall recovered to take three straight. In the tiebreaker, Nastase looked like a winner with five straight points, but Rosewall was able to shut him off to win 7-5.

Nastase was able to rattle the Australian's composure with his crowd-calling antics and stalling. Frustrated during one break, Rosewall smashed his racket into a chair.

But that outburst, he said later, was the turning point. In the first semifinal, both Connors and Laver started slowly on the clay court which had only had one night to dry after a heavy rain Friday.

It was the first meeting between the two stars since

their challenge match in Las Vegas, in which Connors won 6-4, 6-2, 3-6, 7-5 to take a \$100,000 prize. But before Saturday's event, both Laver and Connors said they considered their semifinal here not as a rematch but only as a road to winning the tourney.

ASSEMBLY-LINE PHYSICAL EXAMS — A team of 13 local physicians, coordinated by Dr. J. W. Cowan, examined 419 boys from area schools at a series of stations at the Big Spring High School. Meanwhile at Malone-Hogan Clinic, 241 girls were given physical exams by four other doctors. Physicians were given for school sports programs. Here, some of the doctors at the school pause for the photographer (top left). Jimmy McChristian has his blood pressure checked by Richard Kaufmann, physician's assistant (bottom left). Jerry Marquez (bottom center) stands at the left end of a line of youths being observed for range of motion in their bones' joints. And Mike Harris is weighed and measured for height by Ben Neel.

## Keith Russell Heads Field

HOUSTON (AP) — Olympian Keith Russell will defend two national diving titles beginning Tuesday in the National Amateur Athletic Union (AAU) Outdoor Diving Championships at Woodlands Swim and Athletic Center.

Russell, a 1973 graduate of Brigham Young University, won the three-meter springboard and 10-meter platform diving titles in last year's AAU meet at Decatur, Ala.

Russell will be joined in the field by three other defending champions from last year's meet. They are Tim Moore, Westerville, Ohio, men's one-meter springboard; Christine Look, Fort Worth, Tex., women's three-meter springboard; and Cynthia McIngvale, Dallas, women's one-meter springboard.

Teri York of Canada, who won the women's 10-meter platform title last year, will not return because of a recently adopted AAU rule that forbids foreign divers from winning national titles.

Other top men's entries include Air Force Lt. Phil Boggs, who qualified in all three men's events; Dr. James Henry, Colorado Springs, Colo., who will compete in all three events, and Michael Finerman, Worthington, Ohio.

Other outstanding women divers will include Jennifer Chandler, Lincoln, Ala., Janet Ely, Dallas; Carrie Irish, New Canaan, Conn. and Barbara Schaefer Neiman, Pittsburgh, Pa.

Also in the field will be Keala Watson of Honolulu, Hawaii, a 1968 Olympian who is making a comeback.

Tuesday's opening day of competition will include

preliminaries and finals in men's one-meter springboard and women's three-meter springboard.

Moore, 21, has won six national AAU one and three meter springboard titles and two platform championships. He is a 1975 graduate of Ohio State University after winning three collegiate indoor springboard diving titles.

First and second place winners of the three-meter springboard and 10-meter platform competition here will qualify for the Pan American Games scheduled in Mexico City in October.

## Maggie Burner Heads Field

RUIDOSO DOWNS, N.M. — Maggie Burner, owned by Jess Burner of El Paso, leads a 10-head field of juveniles to the post in today's renewal of the \$35,705 Rio Grande Futurity at Ruidoso Downs.

The six-furlong spin is the centerpiece of an excellent agenda which includes such stakes as Cutarusty, Chiadora and Scenic Dancer in the mile co-feature.

Another highpoint unfolds in the sixth race, an 870-yard spin which brings out the sensational Master Salls in quest of his sixth win of the meeting. Twelve races are on tap.

Maggie Burner, slated to pack Jerry Burgess in a 117-pound load, looks like a good candidate for the role of public favorite in the Rio Grande. The filly has been to the post only three times in her young career, and holds a second and two wins.

She kicked things off at Sunland Park last spring, getting home second at 29-1. The filly was then shipped to Ruidoso Downs, where she made her mountain debut in mid-July and pulled to a length win.

Last week, Maggie Burner was picked as an odds-on favorite in the Rio Grande trials, and her quick speed got the job done once again. She led from start to finish and held a half-length gap at the wire.

Here's how they'll line up for the Rio Grande: 1 — Maggie Burner, 117; 2 — Tracy Dias, 120; 3 — Sky Capsule, 117; 4 — Sena's Joy, 117; 5 — Code Vite, 117; 6 — Burned Mug, 117; 7 — No Juan, 120; 8 — Henri Hank, 120; 9 — Scott The Shot, 120; 10 — Big L, 120.

## Tiger-Cubs In 2 Games

The Big Spring Tiger-Cubs try to even their record in a double-header with Midland teams at Steer Park this afternoon.

The Tiger-Cubs tangle with the Midland Apaches in the 1:30 p.m. opener, then return to action against the Midland Rebels in the second contest.

Now 4-5 on the year, the Tiger-Cubs lost their last start to the Midland Colts in Midland, 13-0.

Ismael Paradez will charge the mound in the first game for Big Spring while Willie Williams will hurl the second game. John Thomas Smith will stand by for relief mound work in both games.

Only about 12 players will be in uniform for the Tiger-Cubs, since some of the regulars will be attending a funeral wake.

## Lesher Will Be Back Monday

More than Lesh have been on vacation — the sports editor of The Herald, his wife and two children took a short vacation the past week.

Clark Lesher, however, returns to his sports beat and his duties with The Herald Monday. His columns will be resumed the coming week.

## Forsan Issues Gear Monday

FORSAN — Shorts and T-shirts will be issued to Forsan High School football players at 6:30 p.m. Monday, Head Coach George White has announced.

The workouts get under way a half hour later. The boys will reassemble at 4:30 p.m. daily, for a second workout.

Upwards to 40 boys may take part in the conditioning work.

Coach Ron Taylor will meet boys who need rides to the drill field at 6 a.m. Monday at Berea Baptist Church in southwest Big Spring.

## Cubans Share Yanks In Pair

LOS ANGELES (AP) — Cuba's national volleyball teams outclassed their U.S. opponents Friday night to win berths in the 1976 Olympics in Montreal.

The men's and women's teams downed the United States squads in three straight games with the men winning 15-5, 15-7 and 15-6, and the women scoring 15-7, 15-8 and 15-6 victories.

The American women had to win three of five sets in order to earn the Olympic berth. The U.S. men, however, needed to take Cuba in three straight to qualify.

## Athletes Undergo Exams

Youths from Big Spring and a number of area communities underwent physical examinations here for school sports programs Thursday afternoon.

High schools represented included Coahoma, Forsan, Sands, Garden City, Stanton, Grady and Klondike. A number of junior high schools participated.

In the Big Spring High School gym and boys' dressing room, 419 youths were checked by 13 doctors and several assistants. At Malone-Hogan Clinic, four doctors examined 241 girls.

Physicians and assistants checked heart conditions and blood pressure, knees and ankles, posture, eyes, ears, nose and throat. Urinalysis was performed, and the possibility of hernia checked.

The medical teams worked free of charge.

Among those helping were Dr. John Fish, Dr. Virgil Sanders, Dr. Irving Kittell, Dr. Lindell Kiernan, Dr. Jangyia Chappoli, Dr. Ray Owen, Dr. Burek Williams, Dr. M. L. Bercier, Dr. Michael Ledbetter, Dr. Robert Griffin, Dr. Mark Nardone, Dr. Carl Marcum, Dr. Jim Cowan, also Dr. Clyde Thomas and Dr. Brad Bilder who were called out on emergencies.

Examining the girl athletes were Dr. Louise Worthy, Dr. Nell Sanders, Dr. Jack Woodall and Dr. Jim Matthews.

## Another SCUBA Class Starts Here Sept. 15

Mrs. Virginia Ross, Bill Towery, Paschal Odum and Dr. Floyd Mays will serve as instructors in SCUBA classes scheduled to get under way at the YMCA Sept. 15.

Four enrollees in the last such class, held from March through May, have already gone scuba diving in ocean waters. Mrs. Ross explored the area near Cozumel. Bob Cruze and Gordon Nagel swam near Guaymas, Mexico, along with Odum, Dr. Mays and Doug Mays. Doug Morin studied the underwater world off California.

Primary purpose of any recognized SCUBA course is to teach safety in diving. SCUBA diving is inherently dangerous; and it can become prohibitively dangerous when the diver is poorly trained, is an inadequate swimmer, in poor physical condition or has certain physical defects.

To take this course, therefore, one must be a good swimmer, should be in good physical condition, must submit certification from his physician that one is free of physical defects which would prevent him from diving, and must be at least 16 years old. The YMCA furnished all equipment, except a swim suit and a wet suit. The fee will be \$45 for YMCA members, and \$60 for non-members.

There will be 45 hours of instruction, approximately half classroom, and half in the water. Sessions are held each Monday and Thursday from 7:00 to 10:00 p.m. for 8 weeks, plus two open water dives. One is expected to arrange his schedule to be present at every session, promptly at 7:00 p.m. in the classroom. Material covered includes physics, physiology, decompression and repetitive dive tables, air consumption, and the

## Track Is Dark 2 Days A Week

HARRISBURG (AP) — Commodore Downs Race Track near Erie will immediately begin operating five days a week instead of six, the Pennsylvania Horse Racing Commission announced Friday.

The commission said it has approved the schedule change for Lakelands Racing Association, whose current meet ends Oct. 4.

The track now will be dark on both Wednesdays and Thursdays and on two Tuesdays, Sept. 2 and 30.

The commission also announced that Lakeland will begin quarter horse racing Aug. 24.

## Grady's New Coach

PHIL MOWERY (above) is the new head athletic coach at Grady High School, the first one ever named by the school. Mowery moved to Grady from Ackerly and previously had coached at Benjamin.

## Catfish, Channel Cat Are Taking To Bait

Two whopper yellow catfish along with a heavy run of channel cat dominated reports from Lake J. B. Thomas fishing last week.

Eddie Bradley Woolsey of Lake Thomas landed a 45-lb yellow cat on perch, and Henry Everton, Snyder, had a 38-pounder on shad. Everton also caught two yellow cat 6 1/2 and 9 lbs and 34 channel cat to 3 lb.

E. E. Schuler, Snyder, had 30 channel cat to 1 1/2 lb using soap bait; a 12-lb yellow cat on perch; and a 5- and 8-lb yellow cat on soap bait. W. D. Chaney, Snyder, landed 22 channel cat to 4 lb on goldfish. Mike and Ella Bridge, Lake Thomas, caught 17 channel cat, one of them a 6-lb'er. David Payne, Big Spring, had 27 channel cat to 4 lb and a 3-lb black bass, the latter on minnows.

Leon May Brownfield caught 13 channel cat on liver. Mr. and Mrs. Frost, Big Spring, had nine channel cat to 3 lb on shrimp. Richard Ones, Odessa, struck two channel cat to 5 1/2 lb on minnows. Kathy Bell, Houston, caught seven channel cat to 2 lb and 4-lb yellow cat. Raymond P. Sobo, Big Spring, boated 11 channel cat to 1 1/2 lb. Jackie Calvert, Snyder, had three channel cat, one a 6-lb'er.

Striped bass were in the forefront at Lake E. V. Spence.

At Y.J.'s Marina, Ralph Wood and Linda Harris had two striper to 4 1/2 lb. Lois and Bill Schwager landed two striped bass to 5 1/2 lb; and Tim and Leslie Schwager had five black bass to 2 1/2 lb.

Triangle Bait and Grocery reported Mr. and Mrs. Ralph Ross, Midland, with 14 channel cat to 2 lb; Mr. and Mrs. Bob Carleton and Gregg of Hobbs, N.M., with 19 channel cat to 2 lb.

Wildcat Fish-A-Rama showed Mr. and Mrs. H. H. Morris, Big Spring, with 41 channel cat, the largest 10 lb; Vern Landrum, Lubbock, with a 6-lb striper; Don Clemmer, Andrews, a 5 1/2-lb striper; Jack Miller, Lubbock, a 6-lb striped bass; and Fred Arthur and Del Houston, Lubbock, 2 1/2 channel cat to 3 lb, and a 5 1/2-lb black bass.

At Hillside, Bill Bailey landed 42 channel cat up to 4 lb.

## Track Is Dark 2 Days A Week

HARRISBURG (AP) — Commodore Downs Race Track near Erie will immediately begin operating five days a week instead of six, the Pennsylvania Horse Racing Commission announced Friday.

The commission said it has approved the schedule change for Lakelands Racing Association, whose current meet ends Oct. 4.

# Crippers From 24 States In SWC

DALLAS — From the halls of Darien, Connecticut, High School to the shores of San Diego, California, comes this year's array of Southwest Conference troops in preparation for the opening of fall workouts next week.

For the fourth consecutive year, a heavy influx of participants from states other than Texas and Arkansas as recruiters from the nine SWC schools broaden the scope of their travels.

A total of 101 out-of-staters will join 690 homegrown teammates in workouts next week and throughout that number signifies that 12.8 per cent of the gridgers hail from outside Texas and Arkansas, the figure is down from last season's reading.

Going into the 1974 season, 142 players chose to play in the SWC from 24 states and to foreign countries. It marked the highest number of out-of-staters ever for the SWC and represented 14.7 per cent of all participants.

This season, players will mass from 195 Texas and 29 Arkansas cities for the opening of fall drills. A total of 25 states are represented, from Connecticut to California to Florida to Wyoming.

Rice and Arkansas show heavy reliance on outside help. The Owls claim 23 out-of-staters on their 77-man roster, or 29.8 per cent, the same percentage the Owls reflected last season. Arkansas, with 22 of 85, shows 25.9 per cent.

On the other hand, Houston, Texas Tech and Texas reflect almost no reliance on players outside the Texas and Arkansas borders. Houston lists but four out-of-state players on its 85-man roster, Tech shows only five on a 64-man slate and Texas has only six among its 108 hopefuls.

Ten states are represented on Rice's roster, including New York, which boasts seven players. Arkansas shows players from eight states including Wayne Hawkins of Clinton, Maryland.

Texas reached as far away as Denver, Colo. to nab Sammie Steinmair while Baylor boasts a pair of California products, Judson Parker of Santa Ana and Leslie Benson of Los Angeles. SMU spanned the nation for Jim Duggan of Glens Falls, N.Y., and Steve Eades of Bellflower, Calif.

Houston claims Kevin McAluffe of Darien, Conn. while A&M's Mike Jay calls Torrington, Wyo., home. A pair of Californians, Pasadena's Malon McCoy and Los Angeles' Ed Koester are on the Tech roster and TCU sports Robbie Renfro of Fontana, Calif.

Besides Texas and Arkansas totals, neighboring Oklahoma and Louisiana have produced 15 player California 11, Missouri and New Mexico ten each, New York eight, Florida six, Kansas five and Alabama, Mississippi, Ohio and Colorado, all with three. Other states represented include Arizona, Nevada, Wyoming, Pennsylvania, New Jersey, Illinois, Tennessee, Virginia, Connecticut, Indiana, and Maryland.

And among the in-state contributors to SWC rosters, Houston is far and away the leader as the Bayou City boasts 82 players currently

in the SWC. Next come Dallas with 45, Fort Worth with 36, San Antonio with 34 and Austin with 20. Arlington and Odessa, with 11, and Richardson with ten, are the other cities in double figures.

Fort Smith and Little Rock produced the most Arkansas representatives with five each. Benton and Malvern have four.

Houston, Dallas, and Fort Worth are the only cities to claim a player on each of the conference units. San Antonio comes close, missing only the University of Houston.

As for staying at home and playing with the local team, few participants have done so. Houston and Rice claim 22 of Houston's 82, Texas can call on ten Austin products, nine Dallas players are attending SMU, eight TCU gridgers are from Fort Worth, Lubbock has five players on Tech's squad, Baylor lists four Waco players and A&M has one player from Bryan. As for Fayetteville, there is not a single player from that Arkansas city on any SWC varsity roster.

## Million Hunting Licenses Ready

AUSTIN — A total of one million combination hunting and fishing, resident hunting and exempt hunting licenses are winging their way to license sales deputies and Texas Parks and Wildlife Department offices across the state.

Mailed August 8, the licenses should be available for sale to sportsmen during the week of August 11.

They will be valid for use on September 1.

P&WD officials say that the 1975-76 licenses remain much the same as last year's, with buck and antlerless deer tags and turkey tags printed on waterproof, tear-resistant paper.

License fees also are unchanged — \$8.75 for a combination hunting and fishing license, \$5.25 for resident hunting and 25 cents for a resident exempt hunting license.

There are the usual spaces for white-winged dove and federal migratory waterfowl stamps. New this year is a \$3.25 archery stamp required in addition to the valid hunting license for every archer who hunts wild deer, bear, turkey and javelina during any open archery season in which longbows and arrows may be used. Like the whitewing and waterfowl stamps, the archery stamp must be signed across its face by the person using the stamp.

Department consent officials said that no fishing licenses will be mailed out to sales deputies at this time since the \$4.25 fishing licenses are valid for one year from date of purchase and do not necessarily have to be renewed September 1.

The 1975-76 issue of hunting and sport fishing regulations also is available free where hunting and fishing licenses are sold.

MILWAUKEE Roy Howell Burrough slug Saturday to 4 Rangers to 4 Milwaukee, Brewers their defeat.

The Ranger Tom Hausman of runs in the Howell led off homer of the series one out, Dave] and Len Randl home.

Milwaukee off Ferguson in the fifth. Cano's ninth Texas opened the eighth Hargrove's Burroughs' 21!

The Brewer other run in the eighth when F singled, took walk, moved sacrifice and George Scott's.

It was also ninth defeat in games and t row at home.

The Range chance to score inning when singled with picked off fir Toby Harrah Grieve then g end the inning

## Falcon Skins

WASHINGTON Nick Mike-B 19-year field seconds ren night as the defeated ti Redskins 16-1 Football Le game.

Mike-Mayi after the Fa a 14-3 hal Washington two Bill Kil passes.

## Keith Russell Heads Field

HOUSTON (AP) — Olympian Keith Russell will defend two national diving titles beginning Tuesday in the National Amateur Athletic Union (AAU) Outdoor Diving Championships at Woodlands Swim and Athletic Center.

Russell, a 1973 graduate of Brigham Young University, won the three-meter springboard and 10-meter platform diving titles in last year's AAU meet at Decatur, Ala.

Russell will be joined in the field by three other defending champions from last year's meet. They are Tim Moore, Westerville, Ohio, men's one-meter springboard; Christine Look, Fort Worth, Tex., women's three-meter springboard; and Cynthia McIngvale, Dallas, women's one-meter springboard.

Teri York of Canada, who won the women's 10-meter platform title last year, will not return because of a recently adopted AAU rule that forbids foreign divers from winning national titles.

Other top men's entries include Air Force Lt. Phil Boggs, who qualified in all three men's events; Dr. James Henry, Colorado Springs, Colo., who will compete in all three events, and Michael Finerman, Worthington, Ohio.

Other outstanding women divers will include Jennifer Chandler, Lincoln, Ala., Janet Ely, Dallas; Carrie Irish, New Canaan, Conn. and Barbara Schaefer Neiman, Pittsburgh, Pa.

Also in the field will be Keala Watson of Honolulu, Hawaii, a 1968 Olympian who is making a comeback.

Tuesday's opening day of competition will include

## Maggie Burner Heads Field

RUIDOSO DOWNS, N.M. — Maggie Burner, owned by Jess Burner of El Paso, leads a 10-head field of juveniles to the post in today's renewal of the \$35,705 Rio Grande Futurity at Ruidoso Downs.

The six-furlong spin is the centerpiece of an excellent agenda which includes such stakes as Cutarusty, Chiadora and Scenic Dancer in the mile co-feature.

Another highpoint unfolds in the sixth race, an 870-yard spin which brings out the sensational Master Salls in quest of his sixth win of the meeting. Twelve races are on tap.

Maggie Burner, slated to pack Jerry Burgess in a 117-pound load, looks like a good candidate for the role of public favorite in the Rio Grande. The filly has been to the post only three times in her young career, and holds a second and two wins.

She kicked things off at Sunland Park last spring, getting home second at 29-1. The filly was then shipped to Ruidoso Downs, where she made her mountain debut in mid-July and pulled to a length win.

Last week, Maggie Burner was picked as an odds-on favorite in the Rio Grande trials, and her quick speed got the job done once again. She led from start to finish and held a half-length gap at the wire.

Here's how they'll line up for the Rio Grande: 1 — Maggie Burner, 117; 2 — Tracy Dias, 120; 3 — Sky Capsule, 117; 4 — Sena's Joy, 117; 5 — Code Vite, 117; 6 — Burned Mug, 117; 7 — No Juan, 120; 8 — Henri Hank, 120; 9 — Scott The Shot, 120; 10 — Big L, 120.

## Forsan Issues Gear Monday

FORSAN — Shorts and T-shirts will be issued to Forsan High School football players at 6:30 p.m. Monday, Head Coach George White has announced.

The workouts get under way a half hour later. The boys will reassemble at 4:30 p.m. daily, for a second workout.

Upwards to 40 boys may take part in the conditioning work.

Coach Ron Taylor will meet boys who need rides to the drill field at 6 a.m. Monday at Berea Baptist Church in southwest Big Spring.

## Track Is Dark 2 Days A Week

HARRISBURG (AP) — Commodore Downs Race Track near Erie will immediately begin operating five days a week instead of six, the Pennsylvania Horse Racing Commission announced Friday.

The commission said it has approved the schedule change for Lakelands Racing Association, whose current meet ends Oct. 4.

The track now will be dark on both Wednesdays and Thursdays and on two Tuesdays, Sept. 2 and 30.

The commission also announced that Lakeland will begin quarter horse racing Aug. 24.

## RUIDOSO RESULTS

FIRST (6 fur) — Countoncap 40.80, 22.20, 15.00; Belle Charger 21.40, 12.80; Gilded Lance 6.40, Time — 1:15.3.5.

SECOND (400 yds) — Rebel Chick 18.20, 9.00, 4.40; Good Behavior 5.00, 4.20; Dixie Cause 3.60, Time — 20.36.

THIRD (140 yds) — Grady's Garrett 4.80, 3.20; Beware Bug 8.40, 6.40; Odell Bid 4.00, Time — 20.59.

QUINELLA — PD

# AMONG NCAA SCHOOLS Revenue Sharing May Bring About Divorce

AUSTIN, Tex. (AP) — University of Texas football Coach Darrell Royal says the big schools may wave goodbye to the National Collegiate Athletic Association (NCAA) if small schools insist on getting part of television and bowl game receipts.

"And I don't think that would necessarily be bad for athletics," Royal said on Capital Eye, a weekly panel show scheduled for showing in Texas Sunday.

COACH DARRELL ROYAL, TEXAS

"I have the reputation of being 'anti' athletics for women, and nothing could be farther from true," Royal said. "I sincerely believe that women have the same values to be derived from intercollegiate athletics as men. I don't think there is any difference there at all. Our only question and only concern and only differences of opinion is how it should be financed."

But after talking about how men's programs started slowly, with small budgets, Royal said: "I think equal rights would be this: to allow the women's programs to have their program and sell tickets to their events and be self-supporting just exactly like the men's programs. Now that to me is being equal. Give them every advantage to do exactly what the men are doing."

He denied he intended to use "a scare tactic" when he first began to criticize the new law, as charged by Betty Thompson, who directed women's intercollegiate athletics at Texas last year.

"What I was frightened about, what I was truly scared about was killing the goose that laid the golden egg. . . if you kill off football, then no one is going to have any profits to spend anyway. You're out of business."

Asked why Texas didn't schedule Notre Dame, Southern California, Ohio State or Penn State in order to fill up the 81,000-seat Memorial Stadium if he was worried about money, Royal said:

"I tell you, you talk about filling up that stadium, there's no way to empty a stadium out faster than to lose. And I don't care who you lose to. . . You play a tough one every week and you become worn down and start losing ball games and they won't be there at the end of the season, either."

"That's debatable whether you make more money playing a tough opponent every week or whether you have some that are not quite as tough dribbled in there."

It was the first time Royal had implied publicly that he scheduled teams such as Wake Forest, Colorado

State, Wyoming and Boston College for nonconference games because he didn't want to play powers of Texas' rank. The rivalry with Oklahoma goes back to 1900 and is one that fans of both schools want to see continued.

"And I don't think that would necessarily be bad for athletics," Royal said on Capital Eye, a weekly panel show scheduled for showing in Texas Sunday.

NCAA members begin voting on such proposals as revenue sharing at their annual meeting in Chicago this week.

Royal said only 75 of the 120 schools in NCAA's Division I are involved in bowl games and television packages.

NCAA has more than 700 member schools in three divisions. The entire budget of the NCAA comes from a slice of the television and bowl revenue earned by the 75 biggest schools, Royal said.

The small schools can outvote the Division I schools, Royal said, but schools like Texas could not accept that.

"I don't think we can divide the television money and bowl receipts with all the schools," he said. "I think it would be so diluted and would be spread so thinly that it wouldn't do the other schools that much good, and it would put the major schools out of business."

"I think there is a possibility—it certainly would be discussed—for the 120 schools in Division I to later get into a conference room and say, 'What are we going to do?' And maybe it might even be a split and a complete division."

"And I don't think that would necessarily be bad for athletics. I think it would be possible for the programs to go on and exist throughout the country just like they are with a complete division of legislation, rules, regulations for each division," he said.

Royal said the new federal law requiring more equal spending on men's and women's athletics could be interpreted as "dollar for dollar."

"There's a paragraph in the guidelines that says this is not true. . . Yet, on the other hand they'll say to comply you've got to have equal number of scholarships for men and women, equal coaches and salaries, you've got to have equal training tables and dormitories, you've got to have equal trainers and facilities, equipment, tutoring, the whole bit."

"So if all those are equal, the sum total comes out equal dollars. If it's interpreted that way, we would be completely out of business," he said.

About the best that could be hoped for, he said, would be passage of an amendment by Sen. John Tower, R-Tex., that would exempt the revenue-producing sports and divide the profits equally between men's and women's programs in other sports.

Football is the only sport in the black at Texas, he said. It needs \$900,000 to perpetuate itself at current levels, but it produces \$2.4 million, so there would be \$1.5 million to share with women's programs rather than see nearly all of it continue to go to men's basketball, men's baseball, men's track, men's tennis, men's golf and men's swimming.

## Joe: Yogi Will Land On Feet

EDITOR'S NOTE: Yogi Berra, one of baseball's legendary figures, was fired last week as manager of the New York Mets. The man who knows him best is another former catcher, Joe Garagiola, now an NBC-TV sports broadcaster. They grew up together in an Italian neighborhood in St. Louis. In the following article, Garagiola reminisces, tells how he feels about what happened to his old friend and looks to the future.

JOE GARAGIOLA

NEW YORK (AP) — I've been asked the same question the last couple of days. How do I feel about Yogi Berra getting fired?

Well I don't mind telling anybody that I'm disappointed. Very disappointed. I feel like anybody would feel if their best friend lost his job. I'm hurt and depressed for my friend. I think he deserved a lot better.

But this really isn't a sad time for Yogi. He takes this kind of thing better than the rest of us. He'll land on his feet.

It is characteristic of the man that when he was fired you didn't hear any bad-mouthing or potshooting. Like always, he showed a lot of class. Other guys might be shooting off their mouths, criticizing management.

But where was Yogi on Thursday? He was at Shea Stadium saying goodbye to his players, talking to Donald Grant (the man who fired him) and posing for pictures with Roy McMillan (the new manager) and Joe McDonald (general manager).

I saw in the paper that Yogi said he was praying for the Mets to win the pennant. Well, he wasn't praying in any religious sense. He was just talking from his heart, telling everybody that he sincerely wanted the Mets to win. He doesn't have a vindictive bone in his body.

I'm very proud to be his friend. And I've been his friend for as long as I can remember. In fact, I can't ever remember not knowing him.

I lived at 5446 Elizabeth Ave. in St. Louis and Yogi lived at 5447. Just across the street. Our fathers worked in the same brickyard. He has three kids. I have three kids. He had a boy; I had a boy. He had a girl; I had a girl.

Yogi wasn't a real leader when we were kids. He was the strong, silent type. When we decided to go to the movies on Sundays, he'd come along. He didn't usually make suggestions. But when he did say something, everybody stopped and listened. He wasn't loud or flamboyant. I was the loud and flamboyant one.

Yogi led by doing and by being himself. There was no fancy stuff in Yogi then, and there's none now. Yogi is Yogi. If you liked him, you liked him forever. He wasn't going to change tomorrow.

He's a beautiful, direct man. If I wanted to make a blueprint for a manager, I'd use Yogi Berra for his temperament. And if I wanted to make a blueprint for a man, I'd use Yogi Berra.

for his sincerity, integrity and loyalty. He's exactly what you see. But what makes me mad is when people make Yogi out to be something he isn't. He's not a witty guy and I hate it when people make him out to be a fool, backing it up with phony stories. I can tell a factual Yogi story from a fictitious one without any trouble.

### Firestone 75th ANNIVERSARY GRAND SLAM VALUES

## Homers By Burroughs, Howell Kayo Brewers

MILWAUKEE (AP) — Roy Howell and Jeff Burroughs slugged home runs Saturday to lead the Texas Rangers to a 4-2 victory over Milwaukee, handing the Brewers their sixth straight defeat.

The Rangers jumped on Tom Hausman, 3-4, for a pair of runs in the third inning. Howell led off with his 10th homer of the season and with one out, Dave Moates singled and Len Randle doubled him home.

Milwaukee got a run back off Ferguson Jenkins, 14-12, in the fifth on Sixto Lezcano's ninth homer but Texas opened a 4-1 lead in the eighth on Mike Hargrove's double and Burroughs' 21st homer.

The Brewers got their other run in the bottom of the eighth when Bobby Mitchell singled, took second on a walk, moved to third on a sacrifice and came home on George Scott's grounder.

It was also the Brewers' ninth defeat in their last 10 games and their ninth in a row at home.

The Rangers muffed a chance to score in the second inning when Jim Spencer singled with one out but got picked off first base before Toby Harrah doubled. Tom Grievie then grounded out to end the inning.

TEXAS		MILWAUKEE	
ab	r	ab	r
Moates cf	2	1	0
Burroughs lf	2	0	0
Randle 2b	3	0	0
Hargrove lf	3	1	1
Burroughs rf	4	1	2
Spencer 1b	3	0	0
Herrin ss	3	0	0
Grive dh	4	0	0
Howell 3b	4	1	2
Sundberg c	3	0	0
Jenkins p	0	0	0
Total		31	4
Texas		4	2
Milwaukee		2	0

Until Lezcano homered, Jenkins had checked the Brewers on two harmless singles—by Bill Sharp in the first and Scott in the fourth. The Rangers had some more misadventures on the bases when Burroughs was

picked off second by catcher Darrell Porter to end the sixth after he had singled and Spencer had walked. Lezcano and Bobby Sheldon singled for Milwaukee with two away in the seventh but Robin Yount popped up.

## BEATS CONROE Haskell Crowned State Champion

Favored Haskell blasted Conroe, 13-1, here Friday night to win the State Junior Teen-Age Basketball championship.

Haskell sailed through the double-elimination meet without the loss of a game. Had Conroe beaten Haskell, a second contest would have been required to determine a winner.

Port Lavaca was the defending titlist. Nathan Frierson set Conroe down with two hits and was helped to victory with a grand slam home run off the bat of Rex Pitman.

Pitman delivered his four-master in the third inning. After that, the two teams could have gone home.

Frierson retired to the dugout after six innings and Jerry Tumlinson mopped up for the Haskell team. Conroe decked Port Lavaca to reach the finals.

CONROE		HASKELL	
ab	r	ab	r
Port Lavaca	0	1	3
John Poole and Jeff Henke, Roger Holtcamp (5) and Rocky Farias.	0	0	0
Championship game:		307	301
Haskell		900	901
Nathan Frierson, Jerry Tumlinson (7) and Mark Guffey; Terry French, John Hineman (2), Leslie Walker (3), Mike Bingham (5) and Jeff Henke.		HR — Rex Pitman, Haskell, 3 on.	
Season's records — Haskell, 23-0; Conroe, 19-3.			

A QUARTER-CENTURY OLDER Florence Chadwick sits at desk in her San Diego brokerage office and looks at news photo of her record-breaking swim across the English Channel on Aug. 6, 1950. Miss Chadwick went on to set 15 world swimming marks but the anniversary of her big one caught her unawares.

(AP WIREPHOTO)

ON THE MOVE — John Mayberry of the Kansas City Royals, is hitting a bundle of home runs and is just about the most feared batter in the American League. He rarely brags, but occasionally will come up with something like, "I stuck the wood to that one."

## Tigers Beaten

DETROIT (AP) — Dave Goltz fired a five-hitter and Glenn Borgmann singled home a fourth-inning run Saturday to give the Minnesota Twins a 1-0 victory over Detroit and extend the Tigers' losing streak to a team-record 14 consecutive games.

The loss, coming on Detroit Manager Ralph Houk's 56th birthday, surpassed the Tigers' longest previous losing streak of 13 games, set in 1920 and tied in 1953.

Mickey Lolich, 10-12, making his 500th career appearance, pitched a strong game only to lose his seventh straight. He allowed six hits in his sixth successive complete game.

Eric Soderholm doubled and John Briggs walked in the fourth before Borgmann delivered his decisive two-out single to right.

Goltz, 9-10, was in command all the way en route to his first shutout of the year.

## Golf Earnings Went Up Fast

FORT WORTH — Pat Fitzsimons, one of the entries in the Aug. 18-24 Colonial Country Club Tournament Players Championship golf tournament, tripled his 1974 money winnings total by capturing first place in the Glen. He also equaled Ben Hogan's 72-hole record on the Riviera Country Club course.

## Falcons Upend Skins, 16-14

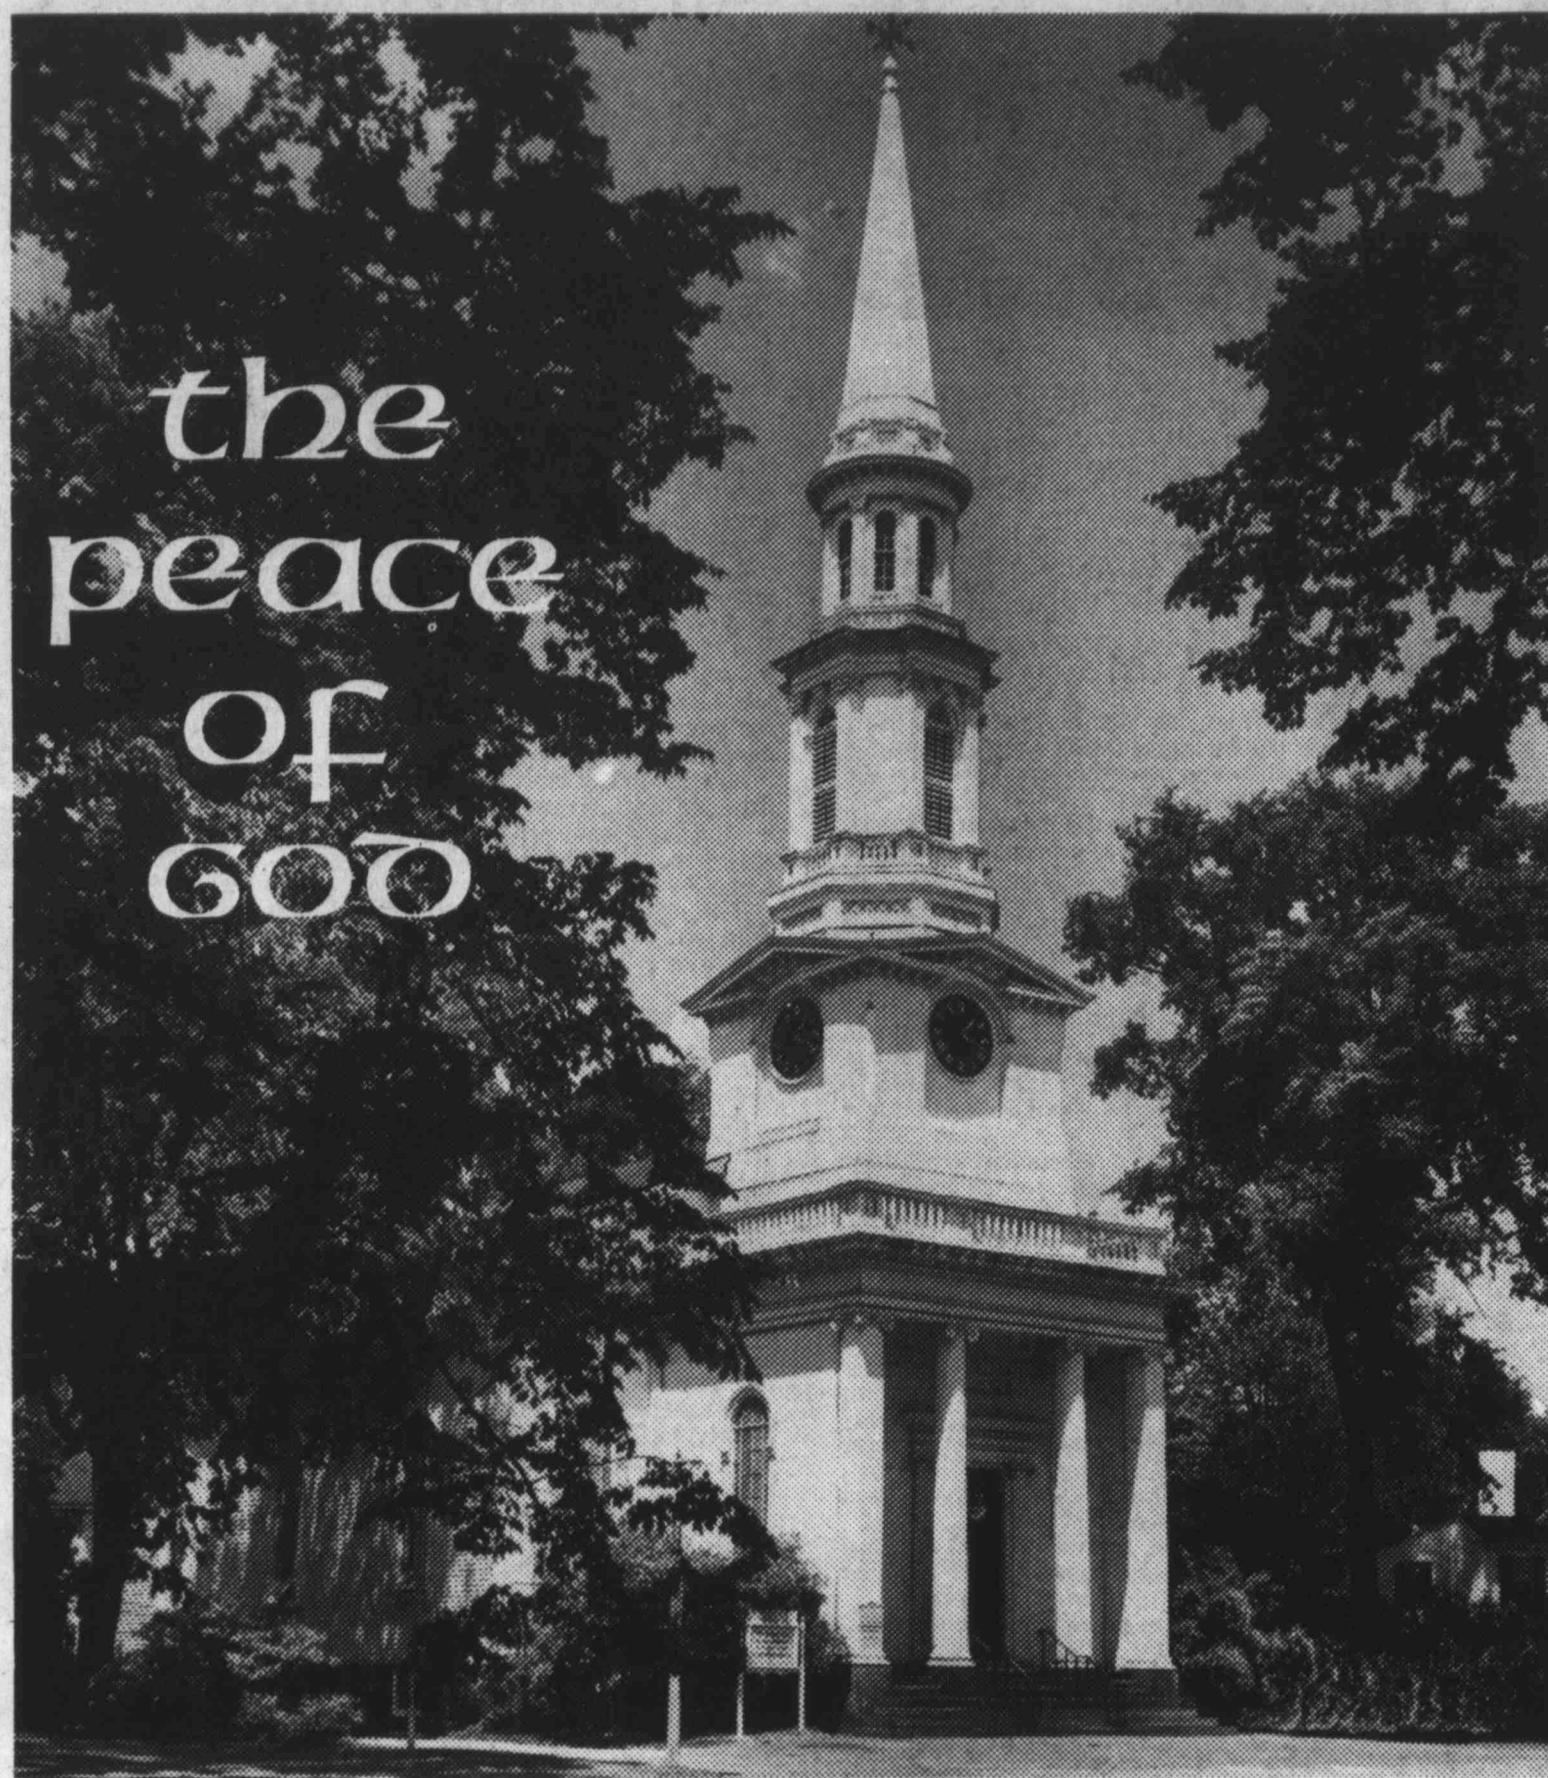

WASHINGTON (AP) — Nick Mike-Mayer kicked a 19-yard field goal with 15 seconds remaining Friday night as the Atlanta Falcons defeated the Washington Redskins 16-14 in a National Football League exhibition game.

Mike-Mayer's field goal, his third of the night, came after the Falcons overcame a 14-3 halftime lead by Washington established by two Bill Kilmer touchdown passes.

the  
peace  
of  
GOD

It isn't easy to explain how the Church can help you find strength and comfort. You can't prove it by mathematical equations, but once you experience it, you have no doubts. And, having felt it, you want to share this deep, abiding peace with others.

No matter how stormy it is outside, in the Church you can find peace. Isn't it wonderful to know that you can take all your cares and worries to God and feel His peace and quiet? Then, having found this peace, you can carry it with you wherever you go. Through the Church you can help others find it.

Peace — God's peace — the Church — God's Church. Are you acquainted with them?

## Seven Officers Are Recognized

Seven Operations officers at Webb Air Force Base earned recognition in the quarterly awards program. They are as follows:

Lt. Col. Robert O. Kaiser, chief of airfield management, was chosen as the Supervisor of the Quarter. His letter of commendation cited Kaiser for the example he sets for all supervisors by his willingness to join his staff in the performance of their tasks.

The T-37 Instructor Pilot of the Quarter is Capt. Richard Frey, 82nd FTS. Captain Frey's personal instruction and drive were cited in his letter of commendation. The letter also pointed out that he doesn't hesitate to devote extra time and effort to needed areas.

Selected as the Security Assistance Training Program (SATP) Instructor Pilot of the Quarter was 1st Lt. Edward D. Houser, 3389th FTS. In being selected for the award Lieutenant Houser was cited for his instruction methods which cause the students to set high standards for themselves.

1st Lt. Kent E. Magnusson, aerospace physiology branch, was selected as the Classroom Instructor of the Quarter based upon his exceptional ability to motivate his students. While the branch was undermanned, Magnusson assumed the sole responsibility as the only qualified instructor and kept the training on schedule while still maintaining the highest quality of training.

Lt. Col. ROBERT O. KAISER

Capt. Ronald W. Herre, 3389th FTS is the T-37 RSU Controller of the Quarter. Herre's unique communicative abilities, especially with the SATP students, earned him recognition as one of the wing's finest RSU controllers. His quick, decisive actions have turned many potential hazardous or catastrophic situations into safe mission completions.

Capt. Lynn B. Damron has been named as the T-38 RSU Controller of the Quarter. Damron's citation noted that his ability to foresee the possible problems and his quick, correct analysis and directions have made him well known to air crews on the ground and in the air. Especially noteworthy is the fact that he achieved his proficiency as a senior RSU controller in slightly less than one quarter.

Capt. Thomas A. Watson, 83rd FTS, was chosen as the T-38 Instructor of the Quarter for his extra effort and professionalism. It was noted that his students have always performed well above average.

## Amin's Wife Is 'Miss Africa'

NAIROBI, Kenya (AP) — Ugandan President Idi Amin's new wife, Sarah, has been nominated to be called "Miss Africa."

Secretary General William Eteki Mbumouma made the suggestion.

HOWARD COLEY

Our Fireplug Fame is spreading. Matt Hunter (young son of Carol and Wally) came by with a clipping from page 1 of The Shreveport Times. The "Stroller" column was devoted to a description of the colorful and original fireplug decal in the "small, West Texas desert town of Big Spring."

Stroller had happened by in time to find Renee Wash and Donna Nagel of our town, in the act of transforming a fireplug into a Bicentennial piece of art. Conversation focused on the fact that Renee's grandparents, Mr. and Mrs. Q. D. Young, formerly lived in Shreveport, and that Donna had met Carson Knotts (son of former Howard College basketball greats, Jim Knotts) from Bossier City when he visited the Howard College campus. Carson has decided to cast his lot with the Hawk team this fall. Small world.

Gretchen Sprinkle, wife of Howard College music man Ken, is searching for clever ways to incorporate the bicentennial theme into banquet decorations for the Faculty Ma'am's fall dinner. Helping her solve the puzzle will be Jackie Hays and Wanda Reese. Likely to be a winner!

Wasn't our own Jaycee tobacco spitting contest won with a 31 or 33 foot effort? Now we learn the World Championship of Tobacco Spitting, held recently in Louisiana, was won by 31 feet 7 inches. Our turn next year!

Don Crockett, school business manager, broke the good news that Memorial Stadium will have a new scoreboard for fall. Included in the decoration plans for the sign will be our local bicentennial logo. Won't that be a fitting background for Bill Bradley and his patriotic Steer Band Half-times? We thank you, Don. Drive by the Cosden Building, and if

## PLEA BARGAINING Agnew Transcripts Can Be Released If . . .

MONTREAL (AP) — Secret notes of plea bargaining sessions involving former Vice President Spiro T. Agnew can be released at any time parties for both sides agree, the presiding trial judge in the case said Friday.

Should the transcripts be prepared and made public, they would provide much sought-after details of the circumstances surrounding Agnew's resignation.

U.S. District Court Judge Walter Hoffman said he has no objection to opening up a stenographer's notes of three days of secret negotiating in

October 1973 between lawyers for Agnew and the Justice Department.

Hoffman, attending the annual meeting of the American Bar Association, said transcripts can be prepared from the notes and they can become "available at any time that lawyers on both sides consent to their release."

Agnew pleaded nolo contendere—no contest—to charges of federal income tax evasion and resigned the vice presidency Oct. 10, 1973. In exchange for his resignation Agnew was promised no jail sentence. He was fined \$10,000 and placed on three years of unsupervised probation on charges he took kickbacks while he was governor of Maryland.

The case elicited sharp criticism in some circles and focused attention on the common practice of plea bargaining in U.S. courtrooms, usually done out of the purview of public scrutiny.

Hoffman appeared on an ABA panel on Thursday, discussing court-imposed restrictions placed on newsmen covering trials. He discussed the Agnew plea bargaining sessions with a reporter afterward and said he had no personal objections to the record being made public.

Judge Hoffman met for three days with Agnew's attorneys and members of the Justice Department, including former Atty. Gen. Elliott Richardson. Some of the meetings occurred in an Alexandria, Va., motel room in an attempt to insure their secrecy.

Ordinarily, plea bargaining is carried out between counsel for both sides who then report to the trial judge and only the final agreement is made public in court.

Al Scott is pictured on page 26 of the July, 1975, Texas Highways magazine. The occasion was last year's "Let Freedom Ring". Possibilities still exist that more of our local efforts will be featured next July in the same publication. The color photography throughout is striking.

If you missed the July 30th "Top in Blue" show, it was certainly your loss! Ellen Gladden worked very hard to smooth things out for the troop, and the large and appreciative crowd made it worthwhile. Our thanks to Col. Bob Owens and staff and the Century Club for a really top entertainment feature!

Tid-bits: Webb Air Base gave us a ture Festival with the tremendous Aug. 3rd open house. It was a privilege to have the Odessa Bicentennial group here, in force for the occasion. They are justly reported to be the most active bicentennial community in the U.S. — Marge Carpenter and Tommy Hart came to our rescue (as they frequently do) in getting opinions and ideas for the change of name for the lake in Comanche Trail Park. Those two are better than a life preserver.....The "now you see it, now you don't" appearance of downtown bicentennial banners was caused by our capricious West Texas winds. Terry Hansen, Chamber of Commerce manager, thinks the new rigging at the bottom of each flag will keep them held well in place. We agree, and thanks, Terry.

## Fraud Charges Are Dismissed

ORLANDO, Fla. (AP) — Attorney F. Lee Bailey has been cleared of mail fraud charges.

U.S. Dist. Court Judge John A. Reed dismissed the charges Friday after Bailey argued that he had been denied a speedy trial.

Bailey was indicted nearly two years ago along with

## Nicaraguans Honor Envoy

supersalesman Glenn Turner in an alleged conspiracy to defraud investors in Turner's cosmetics and motivational firms.

Bailey's case was severed from Turner's case, and Bailey was never brought to trial. Turner's trial ended in a mistrial last May and a second trial has begun for him.

FOR BEST RESULTS USE HERALD CLASSIFIED ADS

MANAGUA, Nicaragua (AP) — U.S. Ambassador Turner Shelton has been awarded the Order of Ruben Dario, the highest honor given to foreigners. Shelton, who will leave his post Sunday, was honored Friday for his help after the earthquake that destroyed Managua in December 1972. He will be replaced by James Theberge.

## Bicentennial Town Crier

You have time, go inside. You'll not there's a new look all over. Helen Hurt, editor of the Cosden Copper, says all the improvements were in the works, but the Bicentennial seemed an appropriate time to take action. Whatever the cause, it now has the Horizon '76 look, a vast improvement. Congratulations, Cosdenites!

Al Scott is pictured on page 26 of the July, 1975, Texas Highways magazine. The occasion was last year's "Let Freedom Ring". Possibilities still exist that more of our local efforts will be featured next July in the same publication. The color photography throughout is striking.

Terry Hansen, Chamber of Commerce manager, thinks the new rigging at the bottom of each flag will keep them held well in place. We agree, and thanks, Terry.

## San Marcos Papers Sold

SAÑ MARCOS, Tex. (AP) — A newspaper chain based in Charlottesville, Va., will take over publication of the San Marcos Record and the Daily Record from the T.A. Buckner family, a Record spokesman says.

The announcement Thursday marked the end of 50 years of continuous publication of the newspapers by the Buckner family.

Worrell Newspapers Inc. will become owner of the papers as soon as formal sales contracts are complete, probably sometime early next month, the spokesman said.

Final agreement between the present publishers and Tom Worrell of the new owners was reached Aug. 5. The San Marcos Record

## Texas Traffic Toll Still Up

AUSTIN, Tex. (AP) — Traffic deaths in Texas continue to run 19 per cent ahead of 1974, the Department of Public Safety reported Saturday.

The DPS said there have been 1,640 accidents in which deaths occurred, 16 per cent more than the 1,412 fatal accidents for the same time last year.

Final agreement between the present publishers and Tom Worrell of the new owners was reached Aug. 5. The San Marcos Record

## LEGAL NOTICE

NOTICE OF PUBLIC MEETING  
The State Department of Highways and Public Transportation will conduct a public meeting on September 9, 1975 at 7:30 p.m. in the City Commission Meeting Room of the Municipal Building at Fourth and Nolan Street, Big Spring, Texas. The construction of 11th Place from Abrams Street to Gregg Street will be discussed.

The proposed street will be a 4 lane, noncontrolled access arterial with curb and gutter and a 61 ft. paved travel surface.

The purpose of this meeting is to inform the public of the proposed project, outline the location and effects of each alternate, and obtain public input during the early stage of project development.

All interested citizens are invited to attend this public meeting. August 10, 1975

B. T. BIRKHEAD WINDMILL — IT WILL DECORATE LOCAL LANDSCAPE

## A Bit Of History Is Salvaged Here

By PAT MILLER

In the settling of the west, water was obtained from rivers, lakes and run-off from rains on the open land. With the invention and widespread usage of barbed wire, water became scarce. Hand-drawn wells were used, but did not provide a large volume of water. Thus, the windmill, common on the Plains country, gave the answer for removing water from the sources of nature. The preservation of this history and heritage of the windmill is now being undertaken.

A wooden Eclipse windmill is being restored and erected at the Figure 7 Tennis Center on Cosden Lake by the Historical Survey Committee. The windmill will be a composite of three separate windmills donated by their inheritors.

The wheel, 10 feet high, came from the B. T. Birkhead windmill, 84 years old, and was located four miles north of Coahoma. Restoration of the mill began in early June. Joe Carter of Garden City (who will restore the mill), Jerry Foresyth and Sig Rogers removed the wheel and its base, which combined weigh 300 pounds, from the Eclipse, which was invented in the 1890s. The four supporting beams were cut and lifted with the wheel by a winch off the platform.

Birkhead, his wife, their son Keith, and her father, William Franklin Ellis, moved to the Coahoma area in 1891 from Dallas. At the time, to move west "was the thing to do," according to Mrs. John Davis, one of Birkhead's daughters.

Birkhead and Ellis twice dug by hand the 90-foot well. Their windmill was the only source of water and stood beside their home, which was 68 years old when it was torn down.

Mrs. Polly Mays obtained tails for the new windmill from one owned by the late George McGregor in Coahoma. McGregor's windmill was built in 1925 when he bought a quarter section of land from Earl Edens. After the windmill was torn down in 1931, the tails were

placed on the rafters of McGregor's barn. Mrs. Mays soaked the tails in linseed oil and painted them the original color of green with red lettering. The inscription on the tail piece reads:

Fairbanks Morse Co., Chicago  
 Western Windmill Co. Agt's.  
 Sweetwater, Texas

The tower, already standing at the tennis center and enclosed with metal fencing from Mt. Olive cemetery, belonged to Mrs. Nancy Virginia (Jennie) Shumake who was from a pioneer family in Howard County. She is the sister of Dora Roberts and an aunt of Doris Chalk Cole, both of Big Spring. The tower, 30 feet tall, was built in the early 1930s and was moved recently from the half block between Austin and Goliad Streets on 16th to its present site.

Joe Carter is working on parts with which he will reconstruct the wheel and tails. All metal parts taken from the Birkhead windmill are in good condition and need little work. The wooden pieces will be cut and hand placed onto the metal wheel. The "feathers" (slanted boards which catch the wind to turn the wheel) will be the most difficult part of the operation, according to Carter. After everything is in place, pumping will be simulated with a circulation pump and underground network.

The patent for the familiar design of windmills used in America, the smaller Plains design, was made in 1854. The Civil War slowed production until the 1870s. Then began the Era of the Windmill, trademark of the Plains until the 1930s.

Windmills are still a vital part of ranching in Texas. The Fitchfork Ranch operates 125 windmills, some 350 are on the King Ranch and approximately 50 on the YO Ranch. The state of Texas also operates 19 windmills to supply water for roadside parks along State highways.

The "Matador" windmill is one of the more famous in the state. It stood 132 feet tall, its base resting in the bottom of Yellowhouse Canyon on the XIT Ranch and its sail rising up above the canyon rim. "The cowboys who had to grease that windmill would do almost anything to get out of the job," said Miss Billie Wolfe, associate professor in the Department of Home and Family Life at Texas Tech University. "One cowboy's wife did the washing for another man for a whole year so her husband would not have to climb it."

One of the largest windmills made on a regular basis was manufactured by Eclipse and had a wheel with a span of 30 feet in diameter. But the champion of all was a Halliday model, which was built in the late 1890s with a wheel span of 60 feet.

The windmill derived its name from one of its earliest uses: to grind or mill grain into flour by using wind as the source of power. Hence, the name, windmill.

Windmills mean more today than just a device to produce water. Engineers and scientists are looking to them as a source for energy. A team at Oklahoma State University has built two experimental models with turbines resembling a giant bicycle wheel 15 feet in diameter and made of aluminum.

Russia is trying to raise windmills into the jet stream on large balloons to generate power at high altitudes and send it back to earth.

One engineer has suggested the construction of a giant wind scoop, which would funnel air into a windmill of relatively small size. It works on the same principle as a water hose; reducing the diameter will increase the pressure of water moving through the hose.

The main problem cited in large scale windmills is the maintenance and upkeep. Metal fatigue is a constant problem and the weight of the components becomes troublesome.

At the peak of windmill usage, 200 manufacturers were in production. Today, Aer Motor is the largest manufacturer of windmills in the country.

IN GRIMMER TIMES, WINDMILL WAS SOLE SOURCE OF WATER FOR FARMERS, RANCHERS

GAMES TO BE used on the Adolescent Unit are loaded by Tish Tyler, left, while Debby Thompson, right, applies one of the decals which are being sold as a project of the Volunteer Services Council.

(Photo by John Edwards)

INSTRUCTIONS for the day's activities, which include assistance at mealtime, bed-making, visiting with residents and errand-running, are received by Dianne Murphy, Unit II volunteer, from Miss Louise Allen, R.N., left.

## When You 'Let Sunshine In,' You're Bound To Be Happier

By JO BRIGHT

There are many young people in Big Spring whose maturity is evident in the concern they show for others, and in their willingness to be a friend to someone who needs them.

Friendship and caring are what it's all about at Big Spring State Hospital, and when you "Let the Sun Shine In" it's bound to be a happier day. With that theme in mind, Junior Volunteers are bringing their youth and

enthusiasm to the hospital in a summer program that benefits many of its residents.

The Junior Volunteer program is held each summer, with young people 14 years of age or older eligible to participate. This year, the chosen group numbered 12.

The volunteers work in all departments of the hospital — some in offices — some helping with residents' needs — some in occupational

therapy.

Activities began with an orientation when Mrs. Claude Van Vleet, director of Nursing Services; Phil Christensen, Psychologist; and Mrs. Margaret Baum, coordinator of Volunteer Services; addressed the group, distributed Volunteer Services handbooks and volunteer badges and made job assignments.

So far, some of the Junior Volunteers have put in more than 100 hours of service.

The volunteers and their parents will be honored at a reception at 4 p.m., Aug. 17 in the Staff Development Building at the hospital and, at that time, their services to others will be recognized with the presentation of certificates.

The certificates may someday remind the young people of a summer well spent, while those they have helped will remember the Junior Volunteers long after they are gone.

# Miss Connie Tucker Weds Roy L. Carter

Miss Connie Teresa Tucker of Sand Springs and Sgt. Roy Lee Carter of Webb Air Force Base were married at 7:30 p.m., Saturday in the First Baptist Church, Sand Springs, with the Rev. Bob Roby, pastor, officiating.

Vocalists were Mr. and Mrs. Mack Schneider of Rankin, brother-in-law and sister of the bride. Schneider also played the guitar, with Mrs. Jim Fields, Odessa, serving as pianist.

The nuptial setting was enhanced with an arch covered with greenery and yellow and white carnations. At the center was a sunburst arrangement of yellow and white gladioli flanked by candelabra.

Parents of the bridal couple are Mr. and Mrs. W. H. Tucker, Sand Springs, and Mr. and Mrs. F. E. Carter, Rt. 2, Cross Plains. The bride graduated from Coahoma High School and is employed at the Playhouse Day Center. Sgt. Carter is a graduate of Ysleta High School and is now in the U.S. Air Force.

Prior to leaving on a trip to Ruidoso, N.M., Sgt. and Mrs. Carter were honored at a reception in the fellowship hall of the church where refreshments were served by Mrs. Iva Paul, Mrs. Ed Roberts, Mrs. Curtis Smith, Mrs. Lillian Hall and Miss Sandy Coates.

The table, covered with floor-length tulle over a yellow cloth, was centered with brass candelabra arranged with yellow and white carnations and greenery.

The bride's floor-length veil of illusion sprinkled with lace roses, fell from a picture hat overlaid with matching rose lace, and she carried a cascade of white gladioli and lily of the valley centered with yellow roses. Her formal wedding gown of white Quiana was styled with a wide ruffle gathered to the lowered neckline, and a deep lace ruffle adorned the lower part of the skirt. Matching lace formed the long, full sleeves, and the empire waistline was marked with wide yellow ribbon.

**ATTENDANTS**  
The bridal attendants were Miss Vanita Smith, Coahoma, maid of honor; and Miss Carla Hill, Coahoma; Miss Rhonda Fields, Odessa; and Miss Lesa Burrow, Abilene, bridesmaids. Their gowns of yellow checked gingham,

MRS. ROY LEE CARTER

were styled similar to the bride's but with short sleeves, and the ruffles were flocked with white flowers. Pastel bows trimmed their wide brimmed hats. Each carried a small white basket filled with mixed pastel carnations tied with satin streamers.

Sgt. Larry Woolsey of Webb AFB was best man, and groomsmen were Curtis Smith, Coahoma; Noel Tucker and Danny Tucker, brothers of the bride; Bill Bailey, Big Spring, and Sgt. Robert Seguin, Webb AFB, served as ushers, with the ring bearer being John Pipen, Rankin. The two flower girls were Kayla Tonn, Big Spring, and Mitzie

McNair, Abilene.

**GUESTS**

Out-of-town guests included the bride's grandparents, Mr. and Mrs. O. O. Hobbs, and Mr. and Mrs. Buddy Galloway, all of Stamford; Mr. and Mrs. Wylie Johnson, Las Cruces, N.M.; Floyd Carter, Fort Worth; Mr. and Mrs. Darden Stokes and Mr. and Mrs. Pete Bearden, all of Rankin; Mr. and Mrs. F. E. Carter, Cross Plains; Mr. and Mrs. Howard Tucker, Lampasas; and Mr. and Mrs. David McNair, Abilene.

The bridegroom's parents hosted a rehearsal dinner which was held Friday in the bride's home.

## OWC Slates Bridge Play This Month

The next Officers' Wives Club bridge game will be held Aug. 21 in the Officers' Open Mess, Webb AFB, beginning at 9:20 a.m. Reservations should be made by calling Mrs. Mary Tokar, 263-1986.

A half-day "party bridge" session with games from 12:30 to 3:30 p.m. is being planned. It would be held on the fourth Thursday of every month beginning in September. Partners would not be required. Interested persons should contact Mrs. Tokar.

Six tables were in play for the July 31 game, with first place going to Mrs. Sharon Simica and Mrs. Diane Geletka. Other tallies were Mrs. Mary Hanson and Mrs. Tokar, second; Mrs. Peggy Huffer and Mrs. Marcia Patterson, third; Mrs. Marlene Missman and Mrs. Carvel Owens, low; and Mrs. Hanson and Mrs. Tokar, slam.

## Rites Held In Webb Chapel

Sgt. and Mrs. Ralph D. Monson are on a trip to the Dallas-Fort Worth area following their wedding Friday evening in the Webb Air Force Base Chapel. The ceremony was performed by Chaplain Lee Butler of Big Spring State Hospital.

Mrs. Monson, who graduated from Forsan High School, is the former Jo Ann Day, daughter of Mr. and Mrs. John H. Day, Sterling City Rt., Big Spring. She attended Howard College for one semester and is now employed at Medical Arts Clinic-Hospital as a secretary.

Sgt. Monson, son of Mr. and Mrs. Glen A. Monson, Reynolds, Ill., graduated from Rockridge High School, Taylor Ridge, Ill. He attended Alpena College in Michigan and the University of Maryland. Currently stationed at Webb AFB, he is

the military editor of the base newspaper, the Prairie Pilot.

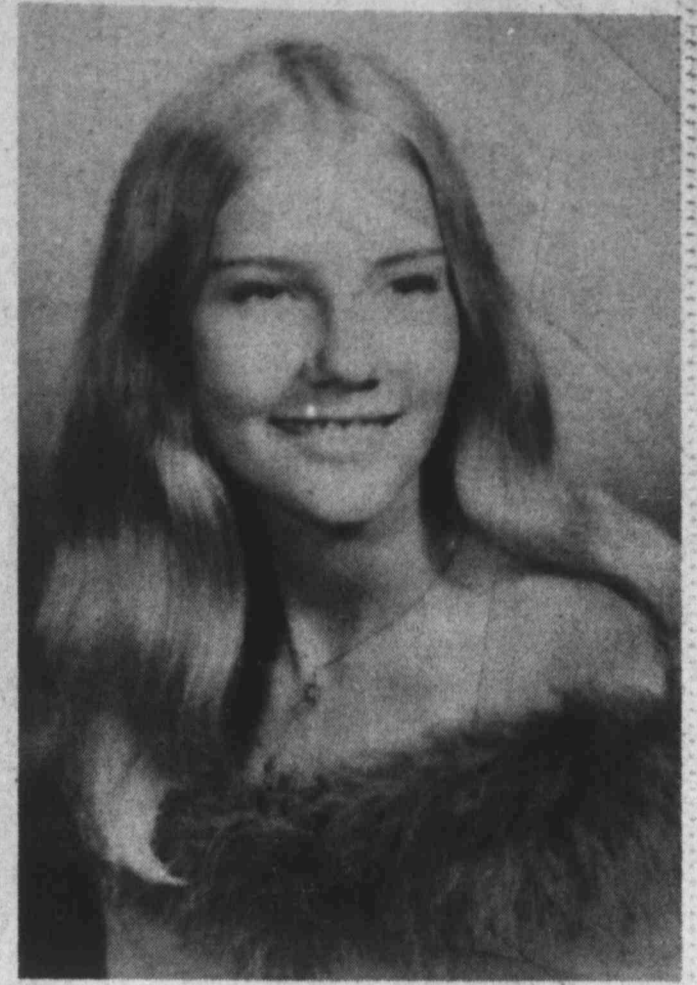

The bride's wedding attire was a formal gown of white crepe with lace floral appliques and see pearls edging the neckline and embellishing the bodice and gathered skirt which was bordered with a flounce at the hemline. Her headpiece was a bandeau adorned with seed pearls and styled with lace flowers framing her face. She carried a bouquet of white pompon mums centered with red roses.

Mrs. Darlene Cook served as matron of honor, wearing a floor-length empire dress of blue silk with white lace trimming the waistline. She carried a single long-stemmed red rose.

The best man was Sgt. Fred Cook of Webb AFB.

Following the ceremony, the newlyweds were honored at a reception in the home of the bride's parents, where guests were registered by Miss Laura Tippit of Odessa.

Refreshments were served by Miss Donna Bedwell, Miss Dianne Dunagan and Miss Marsha Day from a table covered with white lace

MRS. RALPH D. MONSON

cloth over blue linen. Crystal Wendeborn, Earl Hutchison and Mr. and Mrs. Edward L. Tippit, all of Odessa; and Mrs. R. C. Henry, San Antonio.

Relatives attending from out of town were Ms. Lana

Monson will reside at 106 Air Base Road.

## A LOVELIER YOU New Fashions Are Longer Length

By MARY SUE MILLER  
The significant aspects of fall daytime fashions have now emerged. Mull them over as they appear in your newspaper, even though you're just emerging in a swimsuit. It takes foresight to judge personal flattery and general wearability of new clothes before purchase time. Here are the highlights.

—Shape: slimmer. The "droop" is out. Big looks are few. Designers favor an easy silhouette or a downright slim one.

—Lengths: mid-calf, below mid-calf, one inch below the knee.

—Chinese influence: silks, prints, frog closings and quilting reflect the Far East.

—Suits: tailored and slim, shown with matching triangular shawls. Jackets of the blazer type with one or two buttons; skirts slim, pleated or slightly gored. Worn with shirts. Also loose jackets with wrapped skirts.

—Coats: slim, double- and single-breasted, notched collars. In mohair, sweater coats with shawls. Drawing coats, allowing for a bit of fullness.

—Dresses: siren or body dresses, jumpers, fullness from yokes caught by a belt. Pared down, the chemise is still with us; also the two piece, held with a wrapped cinch.

—Sportswear: pants, jumpsuits, rib-knit cardigans, mufflers, vests, wide pullovers.

—Fabrics: melton, brushed wool, tweed, flannel, rabbit's hair Jersey, wool jersey, a boggle of knits, panne and crepe-backed satin, prints on almost every ground, quilting on everything.

—Color: black, tobacco, taupe, rust, lacquer red and jade green, mauve, gray, camel, vanilla.

**YOUTH**  
You are not lost to youthful beauty because of dark circles, puffiness, or wrinkles around the eyes. These problems can be brought under control by proper skin care, cosmetic applications, health habits and facial expressions. Methods are detailed in my leaflet, "The Eyes of Youth". To obtain your copy, write Mary Sue Miller in care of the Big Spring Herald, enclosing 15 cents in coin and a long, self-addressed, stamped envelope.

# SCHOOL TIME AGAIN

**Shopping for school clothes is a snap at TOT-'N-TEEN**

901 Johnson

## Rush Season Begins For Beta Sigma Phi

First Federal Community Room was the location Thursday evening for the first rush party of Beta Omicron Chapter, Beta Sigma Phi.

Nine guests were present including Mrs. Kathie Bartholomew, Ms. Maureen Huff, Mrs. Barbara Barnhart, Ms. Carole Jolliff, Mrs. Doris Arcand, Mrs. Pat Radcliffe, Ms. Pam Leggett, Miss Freda Graham and Mrs. Mary Adams. Mrs. Mary Alligood was present as a recent transfer from Turkey.

Members assisting with the party were Mrs. Ruth Penner, Mrs. Jean Denton, Mrs. Pam Carroll, Mrs. Cynthia Hanselman, Ms.

Kathy Crawford, Mrs. Phyllis Cox, Mrs. Sharan Lindsey, Mrs. Linda Wittman and Mrs. Paula Howard.

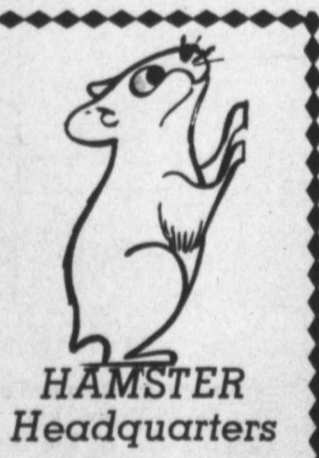

The program was presented by a contingent of the Big Spring Squares, led by callers Alvin Huskey and Bob Forney. They performed several dances.

The membership committee hosted the party, and Mrs. Ruth Penner, president, directed discussion of the aims and purposes of the organization. Chapter members presented a seance-type program, in which the various functions of the chapter were explained. Refreshments followed the

Bicentennial theme, Red Velvet Cake, Cherry Cheese Delight, and blueberry pie lending the color scheme of red, white and blue.

The next meeting of Beta Omicron will be at 2 p.m. Aug. 24. This will be the chapter's Beginning Day for the new year. Program book for the year is entitled "Heritage and the Woman."

MRS. RALPH BETHKE

## Couple United In Marriage

The Episcopal Church of the Heavenly Rest, Abilene, was the setting for the Saturday afternoon wedding of Miss Vicki Lynn Shook and Airman I.C. Ralph Bethke.

Parents of the bride are S. M. Sgt. and Mrs. Richard A. Shook, Abilene, formerly of Big Spring. The bridegroom's parents are Mr. and Mrs. Harry G. Bethke, Mohrville, Pa.

The Rev. E. P. Dentzer, Abilene, officiated while Ms. Bettie Glover, organist, played nuptial selections.

Serving as maid of honor was Ms. Lori Giddings and bridesmaids were Ms. Cheryl Beamer and Ms. Angela Bethke, sister of the bridegroom. Steve Jones,

Dyess Air Force Base, attended as best man with Richard Shook Jr. of Colorado Springs, Colo., brother of the bride, and Robert Aguilar, Dyess AFB, acting as groomsmen. After the ceremony the couple was honored at a reception by the bride's parents in the parish hall.

Mrs. Bethke is a graduate of Cooper High School, and her husband graduated from Schuykill Valley High School, Leesport, Pa.

The couple will be at home at 602 Orange, Abilene where Bethke will return to duty at Dyess AFB.

A rehearsal dinner was given by the bride's parents at the Jamaica Inn.

## Engagement Is Revealed Here Forsan Boosters, Staff Will Meet

Mr. and Mrs. William F. Knight, Lubbock, announce the engagement and approaching marriage of their daughter, Donna S., to Eldon G. Crestman, son of Mr. and Mrs. T. A. Crestman, Lubbock, and grandson of the Rev. and Mrs. E. G. Newcomer, Big Spring.

The wedding will be held Nov. 1 in Quaker Avenue Missionary Church, Lubbock. Miss Knight is a senior at Texas Tech, and the future bridegroom attends Texas State Technical Institute, Amarillo.

The Forsan Booster Club will host a "Meet-Your-School-Staff" community gathering at 7:30 p.m. Tuesday for all residents of Forsan and Elbow school districts. The meeting will be held on the tennis courts at Forsan High School where homemade ice cream will be served.

The event will give the residents of Forsan and Elbow a chance to work with

school officials on a self-evaluation and accountability study undertaken within the Forsan school system. The school, students and community will set goals for the evaluation and determine needs within the school district. School-betterment groups will be asked what action the schools should take toward upgrading education quality. The public is encouraged to attend.

### FOCUS ON FAMILY LIVING

## Restore Finish With Easy Reconditioner

By SHERRY MULLIN (County HD Agent)

One easy way to restore the finish on some used furniture only involves cleaning—but cleaning with a reconditioner cleanser.

Before stripping and refinishing, try a cleanser conditioner to restore natural grain and color of wood, conceal scratches and retard crazing or checking.

It will also remove cloudiness caused by smoke, grease and dust, and will recondition wood dried from overheated rooms.

Directions for making a cleanser conditioner are: Mix in a bottle one part gum turpentine with three parts of boiled linseed oil. Cover the mixture tightly and shake well—it will keep indefinitely. To apply, pour enough cleanser conditioner

into a dish of hot water to cover the surface. Do not stir.

Dip a cloth into the floating oil mixture—the hot water makes the oil easier to use. Apply to a small area at a time and avoid getting too much moisture in joints or

### Top Tallies In Bridge Play

Mrs. J. H. Fish and Mrs. E. O. Ellington placed first during a duplicate bridge game held Wednesday at Big Spring Country Club. Mrs. Myrtle Lee and Mrs. John Davis tied for second and third places with Mrs. Hayes Stripling and Mrs. Elvis McCrary, and fourth place went to Mrs. D. A. Brazel and Mrs. Ward Hall.

glued areas. Rub the surface with the oil mixture. If there is a build up of dirt, dip grade 3.0 steel wool into the mixture and rub lightly.

Wring out a clean cloth with clear warm water, and wipe the furniture surface.

Discard the mixture when the water cools. Do not reheat because the mixture is flammable and becomes gummy.

If you use the cleanser conditioner on shellac finishes, use it sparingly and wring the rinse cloth dry.

### Be Watchful

Avoid "bargain" packages of gift wrap paper that are short on paper. Read labels to compare costs per inch, Mrs. Lillian Chenoweth, family resource management specialist with the Texas Agricultural Extension Service, suggests.

MRS. WILLIAM ALEXANDER SAWYER

## Denton Chapel Scene Of Wedding Saturday

The Cindy Nichols Chapel of First Baptist Church, Denton, was the scene Saturday evening of nuptial rites uniting in marriage Miss Candace Sue Battenfield and William Alexander Sawyer.

The bride is the daughter of Mr. and Mrs. Horace Battenfield, Oklahoma City, Okla., and the granddaughter of Mrs. Mary Brown, Big Spring. She graduated from North Texas State University where she received a master's degree in library science and was named as the outstanding graduate student for 1974-75. She was a member of Phi Chi Theta, Alpha Xi Delta, Phi Beta Lambda and was chosen Little Sister of Pi Kappa Phi as well as being listed in Who's Who Among Students in American Universities and Colleges.

Sawyer, who is the son of David A. Sawyer, Paducah, Ky., and the late Mrs. Sawyer, is a chemical engineer for Atlantic Richfield Oil Co. in Plano. He graduated from Louisiana State University with a BS degree in 1970. He is affiliated with Pi Kappa Phi and is currently chapter advisor of the Gamma Tau

chapter at NTSU.

**CALIFORNIA**

After returning from a trip to California, the newlyweds will reside at 1501 Jupiter Rd. 158, Plano.

The ceremony was performed by the Rev. John Purcell before an altar illuminated by a candle arch, trimmed in green and tied with a pink bow, with palms at the base. Mrs. Jerry Jones was organist.

Carrying a cascade of pink roses, stephanotis, gypsophila and ferns, the bride was attired in a formal gown of lace fashioned with scooped neckline and long, puffed sleeves. The empire bodice, adorned with pearls, topped an A-line skirt accented with tiers of lace and a chapel-length train. Her mantilla-length veil was edged in matching lace.

Mrs. David G. Powley served as matron of honor for her sister, and bridesmaids were Miss Karla Yoas and Miss Elaine Tressler. Mrs. Powley's A-line gown of green voile was worn with a matching cape jacket and Camelot headpiece. The other attendants

wore identical gowns, in pink, with matching headpieces. Each carried a nosegay of pink roses with ribbon streamers.

David N. Sawyer, Dallas, brother of the bridegroom, was best man, and groomsmen were Daniel D. Daste and Leonard D. Simmons, both of New Orleans, La.

Serving as ushers were David G. Powley, brother-in-law of the bride; Louis C. Soileau IV, Midland; and Mark S. Rose, Houston. Candles were lighted by Dale Brown, Big Spring, and Miss Shelley Clark, London, England.

**RECEPTION**

The reception was held in the College Inn where refreshments were served by Miss Sandy Landry, Miss Brenda Stephens, Miss Carol Pitt, Miss Susan Walsh and Miss Terry Willding.

The refreshment table was draped in pink and centered with the bride's bouquet flanked by pink candles in crystal holders.

Relatives who were guests at the wedding included Mrs. Mary E. Brown and Mr. and Mrs. Roger Brown, all of Big Spring; Mr. and Mrs. J. E. Brown, Fort Worth; Mr. and Mrs. Wendell Brown, Lewisville; Mrs. Calvin Clark, London, England; Mr. and Mrs. Mark Clark, Austin; Mrs. Joe C. Campbell, Mr. and Mrs. Jerry Jones, Mr. and Mrs. H.L. Lawler, Mr. and Mrs. Victor C. Novarese and Mr. and Mrs. James L. Yarbrough, all of Memphis, Tenn.

### Return From New Mexico

**FORSAN (SC)** — The Hamlin Eldreds and the Marvin Swells of Big Spring, along with the Jim Alexanders of Stanton, have returned from Red River, N.M. where they spent several days.

The J. L. Overton family has returned from a trip to South Fork, Colo.

Mrs. T. A. Rankin recently visited her daughter and family, the James Mileses, in Jal, N.M.

Mrs. J. H. Cardwell recently visited in Abilene where her sister, Mrs. J. W. Heilhecker, is ill.

Mr. and Mrs. V. E. Phillips recently visited in Plains with their son and family, the Gene Phillipps, and in Lomax with their daughter and family, the Irvin Briggses.

### Methods Of Cleaning Fast

Washed mascara brushes and short leftover lengths of seam or bias tape are excellent cleaning aids for sewing machines. Use these "recycled" items to remove build-up lint from thread guides, tension, discs and the bobbin case, advises Mrs. Becky Culp, area clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

**ENGAGED** — Mr. and Mrs. M. E. McCutchan, Coahoma, announce the engagement of their daughter, Holly Patricia, to John Hale Best. The future bridegroom is the son of Mr. and Mrs. V. E. Best, also of Coahoma. The couple will be married Oct. 23 in the Presbyterian Church in Coahoma.

## Hints From Heloise

Dear Heloise:

I use a lot of garlic in my cooking, but it was always such trouble to peel it. I think I have found the perfect way to solve this problem.

Put the buds in water, bring the water to a boil and drain. The skin will peel right off — just as easy as peeling a banana.

I do two or three cloves at a time and keep them in oil for quick use. . . . K. Dekker

I, too, love to cook with garlic but have always hated peeling those slippery little cusses. . . . Your hint will surely save time and much frustration. Cloves of thanks to you. . . . Heloise

Dear Heloise:

I just had to send you my favorite trick for making the times we travel with our children more comfortable. I used this hint with mine years ago and now do the same for my grandchildren. Most of us have some vacuum bottles on hand. I use a big-mouthed quart size, then roll up as many washcloths as I can and stuff them in the bottle.

Then use a pan, pitcher or whatever, and put a few drops liquid soap or detergent in it and fill with very hot tap water. Pour this over the cloths in the bottle and seal it tightly.

These cloths stay hot for hours and make a day's travel so much more comfortable. A pinch of soda will even keep the cloths sweet for days, if they aren't all used during your trip. . . . Thelma Pierre

**LETTER OF TRUTH**

Dear Heloise:

Isn't it great to be a homemaker? So many experiments and discoveries to be made in our own homes! . . . Mrs. W. Zaugg

You took the words right out of my mouth. . . . I couldn't agree more! . . . Heloise

Dear Heloise:

I recently purchased a king-sized bed and fitted sheets sometimes just don't fit right.

They are usually just a little short and I used to pull and tug to make them go on. One day I tried turning the sheet sideways and WOW! — as easy as you please the sheet went on.

Not only that, the striped ones look better with the stripes going opposite the way the top sheet goes. Lovely contrast!

I find there are very few patterns that don't look as well crosswise as lengthwise. . . . Vickie Melnyk

### Instruction For Future Mothers

The Dora Roberts Rehabilitation Center will offer a special class for expectant mothers which will begin at the Center Tuesday.

Classes will be held on Tuesday at 1 p.m. and will run for two consecutive weeks. At the end of each three-week period a new class will begin. The class consists of prenatal and postpartum exercises, emphasizing proper body mechanics and muscle strengthening.

Enrollment must be confirmed prior to the first class period.

To be eligible for participation in the prenatal class it is necessary to obtain a written referral from a licensed physician.

For further information concerning the class, contact Kaki Morton, L.P.T., Dora Roberts Rehabilitation Center.

### Credit Book Reviewed

Mrs. Ruth Apple reviewed "Practical Primer for the Texas Consumer" at the Thursday noon meeting of Big Spring Credit Women in the Settles Hotel, giving a summary of recent legislation passed by the Texas Legislature to protect consumers.

The regional meeting of Credit Women International will be held Sept. 13-14 in Lubbock at Southpark Inn. Workshops to inform the women of the present action of the credit industry will be the main focus of the meeting.

# Miss Fuller Marries Sgt. John Hindman III

Miss Karen Fuller and Sgt. John Hindman III exchanged wedding vows Friday evening in Trinity Baptist Church during a ceremony conducted by the pastor, Dr. Claude Craven.

Nuptial music was performed by Mrs. Leonard Moody, Lewisville, pianist; Mrs. Larry Adkins, organist; Miss Jan Fuller, sister of the bride; clarinet; and Leonard Moody, Lewisville, and Miss Donna Dwindell, vocalists.

The wedding party stood before an altar accented with arched candelabra centered with a sunburst arrangement of yellow and white gladioli and carnations flanked by woodwardia trees and spiral candelabra.

Parents of the couple are Mr. and Mrs. John Hindman Jr., Westmont, N.J. and Mr. and Mrs. James E. Fuller, 4047 Vicky, Sgt. Hindman, who is stationed at Webb Air Force Base, graduated from Haddon Township High

School at Westmont, and his bride is a graduate of Big Spring High School. She attended Texas Woman's College and is currently attending Howard College while employed as a ward clerk at Malone-Hogan Hospital Inc.

After returning from a trip to San Antonio and Corpus Christi, the couple will reside at 505 Nolan, Apt. E.

Prior to leaving on the trip, Sgt. and Mrs. Hindman were honored at a reception in the fellowship hall where the refreshment table was covered with a floor-length tulle cloth over yellow linen. The bride's bouquet was centered on a gold candelabrum holding blue tapers.

Presiding at the table were Mrs. Bobby Mayo, Mrs. Larry Rogers, Miss Tammy Newsom and Miss Judy Jones.

The bride wore an A-line dress of white satin with empire waistline trimmed in lace. The lace was repeated on the Victorian collar, chapel-length satin train and bishop sleeves which were made of organza. A flat organza bow held her fingertip-length veil of white tulle.

The bridal bouquet was a cascade of yellow galmellias centered with blue rosebuds and lily of the valley and tied with long satin streamers.

The matron of honor was Mrs. Keith Grant, and bridesmaids were Miss Sherry Taylor, Abilene, and Miss Terrie Gibbs. The attendants were identically attired in A-line, yellow knit dresses with V-neckline and long sleeves. Their costumes were completed with yellow garden hats, and each carried a long-stemmed yellow rose.

The bridegroom's attendants were Sgt. Steve Wright, best man, and Sgt. Larry Rogers and Sgt. Jim Roberts, groomsmen. All are of Webb AFB. The ushers were Airman I.C. Fred Wiebe, also of Webb AFB, and Clay Fuller, brother of the bride.

Lori Shaw was the flower girl, and Chris Shaw served as ring bearer.

Thursday evening, the bridegroom's parents were hosts for a rehearsal dinner at La Posada.

Out-of-town relatives attending the wedding, other than the bridegroom's parents, were his sister, Mrs. Bruce Blocher, Valdosta, Ga.; the bride's grandmother, Mrs. L. A. Taylor, Dallas; and Mr. and Mrs. Robert Taylor of Abilene.

MRS. JOHN HINDMAN III

## Speaker Instructs On Plant Feeding

"Never feed a sick plant which is not growing normally for it will either burn or be forced to take in food and die of exhaustion," said Mrs. C. Y. Clinkscales when she spoke Thursday evening to members of the Texas Star African Violet Club.

Speaking on the use and abuse of fertilizer, Mrs. Clinkscales noted that plants grown under fluorescent light require a small amount more food because they grow constantly.

In feeding properly, one should fertilize when roots are damp because the plants will absorb more quickly and there is less chance of damaging the fine roots. In top watering, sometimes feeding is needed more frequently. Soil which is too rich will slow the growth.

blast buds, burn fine roots and perhaps kill the plant. Less frequent and light feeding should be given when the temperature is high.

Mrs. Clinkscales stressed that among the elements needed by African Violet plants are nitrogen, phosphate, potash and charcoal. She concluded by saying that there are many food fertilizers on the market, but directions should be followed as prescribed.

The meeting was held in the home of Mrs. R. W. Baker, with Mrs. G. L. Orenbaum as cohostess. Mrs. Paul Guy, president, presided and welcomed a guest, Mrs. Guion Keating.

The next meeting will be Sept. 4 in the Guy home, 1305 Tucson Rd.

## Teachers Are Being Sought

Teachers are needed for special classes being organized by the Officers' Wives Club at Webb AFB. Also, suggestions are being solicited for any courses to be offered beginning in September.

Areas of interest will include macrame, drip and drape, decoupage, bridge and bread making.

For more information, OWC members are asked to contact Mrs. Julie Chaleff, 267-8317, or Mrs. Elaine Dill, 263-0422.

## Installation Conducted At Legion Hall

The Howard County Unit 355, American Legion Auxiliary, installed officers in a meeting at the Legion Hall Thursday evening. Mrs. Sidney Doggett, a past officer of the auxiliary, officiated at the installation.

The officers are Mrs. Ernest Grubagh, president; Mrs. William Bodin, first vice president; Mrs. Leta Metcalf, second vice president; Mrs. Donald McCrary, secretary; Mrs. Ollie Bransom, treasurer; Mrs. Matt Mooney, chaplain; Mrs. Nell Tippie, sergeant-at-arms; and Mrs. Fern Smith, historian.

After the ceremony the auxiliary met at the Brandin' Iron Inn for dinner.

## Senior Citizens Center Moves

The Senior Citizen's Center, formerly located on Howard College campus, is established in its new location, the First Presbyterian Church, Eighth and Runnels, but the telephone number, 263-4016, remains the same.

Mrs. Mary Newell, director, has issued an invitation to all area senior citizens to participate in activities at the center.

"We have air conditioning and a new coffee pot," said Mrs. Newell, "and we hope everyone will visit the facility during August. All of our programs and activities will be much the same, only better. The center will be open daily Mondays through Fridays from 1 to 5 p.m. There is no membership. We are open to all senior citizens."

Activities this month include "piecing and quilting" Aug. 11, 18 and 25, and a Forty-two Tournament Aug. 15 and 22.

A blood pressure check is scheduled from 2 to 4 p.m., Aug. 12, followed Aug. 13 by a Bicentennial program. The

## Family Here From Maine

Howard County Council on Aging will hold its board meeting at 10 a.m., Aug. 14, and the monthly luncheon which it sponsors is slated Aug. 20.

Of particular interest to some retirees will be the fall garden clinic which will be presented by the county agent at 2 p.m., Aug. 21. The monthly birthday party will be Aug. 27 and, rounding out the month will be a picnic supper, featuring country music, Aug. 29.

Mr. and Mrs. Earl Dean Loftis and daughter, Charity, have been visiting here from their home at Loring Air Force Base, Maine. Mrs. Loftis is the former Sandra Pedigo, daughter of Mr. and Mrs. James Pedigo, and Loftis is the son of Mr. and Mrs. W. R. Loftis. All are of Big Spring.

# Newell-Smith Wedding Solemnized Saturday

Miss Sherry Lynn Newell and Doug Smith exchanged wedding vows in a ceremony held Saturday afternoon in College Baptist Church.

Parents of the couple are Mr. and Mrs. J. C. Newell, Garden City Route, and Mr. and Mrs. Byron Smith Jr., 2404 Alabama.

The officiating ministers were the Rev. Jimmy Law, College Baptist Church, and the Rev. A. C. McPherson, Westside Baptist Church. They performed the nuptial rites before spiral candelabra flanked by green palms and baskets of mixed summer flowers.

Mrs. Dana Ruth Schafer, pianist, accompanied the vocalists, Mrs. David Chandler and Miss Teresa Smith. Miss Tammy Taylor sang and played piano accompaniment.

The bride was attired in a princess style gown of cascading ruffles of scalloped nylon lace which swept to a cathedral-length train. Pearled lace scalloped the Sabrina neckline, and the long full organza sleeves, capped with lace, were gathered into deep lace cuffs. Her shoulder-length veil of illusion fell from a Camelot headpiece of lace and pearls. She carried a cascade arrangement of white roses and gypsophila.

Attending the bride as maid of honor was Miss Marsha Talley of Forney, matron of honor was Mrs. Marlon Hale. Miss Teresa Smith, Roaring Springs; Miss Sharon Newell, Plano; and Miss Denise Smith, sister of the bridegroom were bridesmaids. They wore identically styled long, blue gowns fashioned with an empire bodice and front panel of blue lace. The dresses featured a sweetheart neckline and puffed sleeves of floral overlay. Each attendant carried a long-stemmed pink rose.

Acting as best man for the bridegroom was Mike Carroll, while David Louder, Guy Newell, Pat Carroll and Noel Hull were groomsmen.

Dawn Smith, sister of the bridegroom, was flower girl and Scott Newell, Euless, was ring bearer. Ushers were David Wood, Chris Mangum and Jimmy Law.

Prior to leaving on a wedding trip to Arkansas, the couple was honored at a reception in the church

MRS. DOUG SMITH

activity building.

Refreshments were served by Miss Martha Doe, Miss Linda Batla, Mrs. Roger Battle, Miss Phyllis Johnson and Miss Shirley Schwartz. The table was covered with a white satin cloth centered with the bride's bouquet and a silver candelabrum with white candles. Crystal and silver appointments were used.

The bride, a graduate of Garden City High School, and the bridegroom, a graduate of Big Spring High School, will reside in Abilene. Mrs. Smith will attend Commercial College and Smith will return to McMurray College.

Out-of-town relatives attending included Mrs. Peggy Stephens, Mrs. J. L. Newell and Mr. and Mrs. E. M. Newell, all of Odessa; Mr. and Mrs. Lewis Newell, Friona; Mrs. Betty Newell and Mr. and Mrs. W. M. Newell, all of Plano; Mr. and Mrs. Truet Newell; Hobbs, N.M.; Mr. and Mrs. Buddy Newell, Euless; Roscoe Newell Jr., San Antonio; Mrs. Jan Stansil, Dallas; Mrs. Donald Taylor and Miss Tammy Taylor, Hatfield, Ark.; Mrs. Lee Faulk, Mesquite; Mr. and Mrs. Byron Smith Sr., Brady; Mr. and Mrs. Bob Neisler, Arlington; and Farrel Smith, Houston.

## Long Dress Dominates In Eveningwear

COLLEGE STATION — Elegant is the word for fall and winter eveningwear this year, according to Margret Ann Vanderpoorten, clothing specialist.

"Long dresses will dominate the scene. The shape of the dress will be more important than its glitter, but glitter and shine will still be there," said the specialist with the Texas Agricultural Extension Service, the Texas A&M University System.

Noting a specific shape in fashion, Miss Vanderpoorten said that the long, dramatic toga in liquid matte jersey, draped to perfection will be an important look.

"One idea to keep in mind is simplicity. Simplicity that is feminine and romantic, but not too dressed up, can be expressed in a soft chiffon blouse and wrapped velvet skirt," she suggested.

Also, a Chinese influence is showing up in long satin dresses with Mandarin collars, covered by a waist-length quilted satin jacket in the pajama style.

"Another attention-getter will be the siren look—long and body revealing—which reaches its peak in eveningwear. Slinky lightweight knits and matte jersey are popular fabrics for this fashion look.

"Also, the demure camisole dress and slip dress in skinny slinky fabrics will be available in one-piece and two-piece versions."

Pants for the evening will be soft and full, with drawing waists. The same lush fabrics will be used, she said.

## Brunch Held At Webb AFB

Gene Hurt of Hurt's Nursery, Odessa, spoke to the Thursday brunch meeting of the Officers' Wives Club, Webb Air Force Base, on horticultural problems of the Big Spring area. He answered questions from the women on problems they experienced raising plants.

Following the nurserymen's talk, the group had a submarine sandwich buffet on the Officers' Club patio.

During the meeting a special greeting was given to the wives of Class 76-09, one of the new pilot classes at WAFB. The women were given handmade corsages.

## OWC Forms Garden Club

The Officers' Wives Club Gardening Club, newly organized at Webb Air Force Base, will meet at 10 a.m., Friday in the home of Mrs. Karen Wallace, 531 Scott.

Guest speaker will be Miss Sherry Mullin, Howard County home demonstration agent who will talk on canning, winter gardens and flower arranging.

Chairman of the gardening group is Mrs. Mariam Finch, with Mrs. Nancy Doane as cochairman.

Further information may be obtained by calling Mrs. Wallace or Mrs. Doane.

## Guy Feels Not Only Gals Should Keep Virginity

DEAR ABBY: I am a guy, 18, who has been brought up in a good home with fine parents who tried to teach me right from wrong. I have always had high moral standards, but when I was younger, my friends would tell me it was a bunch of puritanical nonsense for a boy to keep his virginity. As I grew older, I realized that a man has no right to expect the woman he marries to be a virgin if he isn't one, himself.

I recently found a column of yours that my mother said she was saving for my younger sister. It was dated August 2, 1964.

Today, with so many people confusing love with lust, I think a lot of young people would benefit if you would run that letter again.

GOT IT TOGETHER DEAR GOT IT: With pleasure. Here it is: "DEAR ABBY: I am 17. I copied something out of your book, 'Dear Teen-Ager,' and typed it up to carry with me. It has helped me a lot. Two of my girl friends did the same thing.

"You would be doing many girls a big favor if you would print it in your column. So many girls are having trouble in this line. Thank you, Abby.

SEVENTEEN "DEAR SEVENTEEN: "Girls need to "prove their love" through illicit sex relations like a moose needs a hat rack. Why not "prove your love" by sticking your head in the oven and turning on the gas? Or playing leapfrog in traffic? It's about as safe.

"Clear the cobwebs out of your head. Any fellow who asks you to "prove your love" is trying to take you for the biggest, most gullible fool who ever walked. That "proving" bit is one of the oldest and rottenest lines ever invented!

"Does he love you? It doesn't sound like it. Someone who loves you wants whatever is best for you. But now figure it out. He wants you to:

"Commit an immoral act... "Surrender your virtue... "Throw away your self-respect... "Risk the loss of your precious reputation... "And risk getting into trouble...

"Does that sound as though he wants what's best for you? This is the laugh of the century. He wants what's best for him: He wants a thrill he can brag about at your expense... Love? Who's kidding whom?

"A guy who loves a girl would sooner cut off his right arm than hurt her. In my opinion, this self-serving so-and-so has proved that he doesn't love you.

"The predictable aftermath of "proof" of this kind always finds Don Juan tiring of his sport. That's when he drops you, pick up

## Club To Work On Lap Robes

FORSAN (SC) — Mr. and Mrs. Bob Wash and their granddaughter, Tanya Clinton, have returned from Lake Vallecito, Colo.

Mr. and Mrs. A. J. McCall recently visited in Stanton with Mr. and Mrs. A. O. Jones, formerly of Forsan. Mrs. Jones is Mrs. McCall's sister.

The Pioneer Sewing Club met Tuesday afternoon in the home of Mrs. D. L. Knight. The group discussed making lap robes and shoulder capes to be used in Big Spring nursing homes.

The next meeting will be at 2 p.m., Aug. 19 in the home of Mrs. C. L. Gooch.

## Artist Designs Men's Fashions

Ron Chereskin has been winning art awards for the past 20 years, and he is only 35. Now he has turned his artistic career into the world of men's apparel, a line of sports shirts and ties.

He is best known for his fine line illustrations, which have long been seen in magazines and acclaimed by artist and layman alike, and has brought the same art style to shirts for The Gates Shirt Co., and ties for X'Xandri neckwear.

One of his shirt designs was "cloud people," a soft design of floating faces etched into clouds in an art deco style.

## Leftover Cake

That leftover angel food or sponge cake need not be wasted. Cut into cubes and dip them into melted semi-sweet chocolate using a fork.

Let any extra chocolate drop back into the pan; then roll the cube in finely chopped nuts. Place on tray and chill until firm. Serve with ice cream or soft drinks.

## RED-CARPET TREATMENT

# Congressmen Traveling At Taxpayers' Expense

WASHINGTON (AP) — In the name of detente and at the taxpayers' expense, several House and Senate delegations are traveling abroad during the August recess.

The range of trips being taken by members this month include swings into France, the Soviet Union, Romania, England, Germany, Saipan, Cuba, the People's Republic of China, Italy and Switzerland.

Congressional critics call these foreign trips "junkets" because most expenses are paid by the congressional committees which arranged them. Defenders of the trips say members will gain knowledge about the nations being visited.

The delegations usually receive red-carpet treatment from foreign leaders who hope to woo them into looking at their country favorably.

It's the usual practice for spouses to go along, but members must pay for their spouses' expenses. Congressional funds, however, pay for committee counsels or other official aides in the party.

After returning home, they will write newsletters and hold news conferences to tell those they learned about the foreign mood, military hardware, waterways, banks, food supplies and what those other nations

think of Americans. One of the most ambitious trips is the current visit by 19 House members to the Soviet Union, Romania and Yugoslavia. Headed by Speaker Carl Albert, D-Okla., the members are meeting with government leaders and visiting industrial and agricultural sites.

"In the wake of the Apollo-Soyuz space mission and the Helsinki Treaty we have a unique opportunity to contribute to the easing of tensions and the goal of world peace which we all share," said traveler Robert H. Michel, R-Ill.

Michel also said he intends to gain insights into U.S. grain sales to the Soviets — "We want hard dollars and good prices for our products and I hope on my return to be satisfied that will be the case."

Besides Albert and Michel, others in the group include Armed Services Committee Chairman Melvin Price, D-Ill., Clement J. Zablocki, D-Wis., Edward P. Boland, D-Mass., Phil M. Landrum, D-Ga., John Brademas, D-Ind., Delbert L. Latta, R-Ohio, James H. Quillen, R-Tenn., Phillip Burton D-Calif., William J. Green, D-Pa., Sidney Yates, D-Ill., Tim Lee Carter, R-Ky., Agriculture Committee Chairman Thomas S. Foley, D-Wash., Tom Beville, D-Ala., Marvin

L. Esch, R-Mich., Bill Archer, R-Tex., George E. Danielson, D-Calif., and Millicent Fenwick, R-N.J. Senate Majority Leader Mike Mansfield, accompanied by his wife, staff members and Secretary of the Senate Francis R. Valeo, is on an official tour for the Foreign Relations Committee which now finds him in Burma for four days after stops in Portugal and Saudi Arabia. The Montana Democrat's party also will visit Thailand, Hong Kong and the Philippines.

In other trips, Reps. William C. Wampler, R-Va., ranking minority member on agriculture, and W. R. Poage, D-Tex., chairman of the livestock and grains subcommittee, are planning a two-week excursion to Moscow, Leningrad, eastern Russia and Mongolia to study agriculture conditions. They will be accompanied by two staff aides.

House Armed Services member William L. Dickinson, R-Ala., and two committee aides are on a week-long inspection of Cuba, the U.S. naval base at Guantanamo Bay and military installations in the Panama Canal Zone.

Another Armed Services delegation will go to Saipan and Tinian to inspect properties that would be leased to the United States for defense under the covenant approved by the House establishing the Northern Marianas as a U.S. commonwealth. That group consist of Reps. Charles H. Wilson, D-Calif., and Mendel J. Davis, D-S.C., and Del. Antonio B. Won Pat, D-Guam, all members of the military installations and facilities subcommittee.

The People's Republic of China is being visited for two weeks by a joint Senate-House group.

(AP WIREPHOTO) 'CANNONBALL' DIES — Famed jazz musician Julian "Cannonball" Adderley died Friday in Gary, Ind., nearly a month after suffering a stroke that left him paralyzed and unable to speak. He was 46.

## Nabbed With Hand In Kin's Pocket

BELGRADE, Yugoslavia (AP) — Police of the city of Nis arrested Brzimir Antic, 59, with his hand in the pocket of a man in a crowd

trying to lift the man's wallet. Police said that to Antic's surprise, the victim of the pickpocketing was his brother. The authorities said Antic has spent 25 years in jail and is one of the best known pickpockets of the Serbian city.

## Colgan Named

LAMESA — Lee Roy Colgan, long-time Dawson County extension agent, has been named president of the State Association of County Agricultural Agents. Colgan has been in Lamesa since 1948.

## Charges Jail 18-Year-Old

MIDLAND — Midland Assistant Police Chief Wayne Gideon announced Thursday Ramon Diaz Espinosa, 18, of Midland, was charged with burglary and possession of narcotics. Police were summoned to the 1600 block of W. Kansas St. about 4:30 a.m. Thursday to investigate a report of a burglary in progress. Patrolmen Larry Bledsoe and Jerry Compton arrested Espinosa at a nearby intersection. Espinosa was also charged with aggravated rape in connection with an incident reported by a Midland woman early Wednesday morning.

## Sixth Graders Are Sought By Band

Sixth graders can play band instruments, too, a fact that directors are underlining this week.

To help sixth graders who are interested in playing a musical instrument, they have arranged for a display and demonstration of various instruments Thursday from 7 p.m.-9 p.m. at the senior high band hall. McKiski Music Company of Big Spring and May & Duncan of Midland will have an assortment of reeds, percussion instruments and brass horns available. Students in the senior high band will give demonstrations on these.

Bill Bradley, director of the band program, will be on

band with other members of his staff, Gene Currie, assistant, Dois Pace, Goliad Junior High director, and Steve Waggoner, Rannels Junior High director. They will answer questions by parents and counsel regarding selection of instruments.

Those unable to attend the Thursday demonstration may call the band hall 7-7461 or 7-7463 for additional information on how sixth graders can sign up for the band program or get their schedules changed.

Under one plan, parents may rent an instrument for three months, and if they decide to purchase, the rental fee will apply to the purchase price.

## BOY IS MY FACE RED . . .

Last Thursday I ran an ad explaining the advantages of buying carcass beef by yield grades and reprinted some information for consumers taken from the U.S.D.A. Consumer & Marketing Service Bulletin No. 45 (printed in 1968).

as follows:

After preparing and trimming the retail cut he would have the following yields of:

	Yield 1	Yield 2	Yield 3	Yield 4	Yield 5
Fat Trim	7.5 %	12.6	17.7	22.8	27.9
Bone and Shrink	10.5 %	10.0	9.5	9.0	8.5
Trimmed Cuts	82.0 %	77.4	72.8	68.2	63.6

I inserted a note as to how you could figure the cost per lb. of retail cuts you take home from the price and weight of the hanging carcass.

It should have read like this:  
Multiply the per cent trimmed cuts by carcass wt. to determine wt. of trimmed cuts you take home, e.g.:  
Yield Grade 2 — 77.4 per cent trimmed cuts x 300 lb. carcass wt. a half = 232.2 lbs.  
Yield Grade 5 — 63.6 per cent trimmed cuts x 300 lb. carcass wt. a half = 190.8 lbs.  
Difference in Favor of Yield 2 41.4 lbs. more meat for same cost if both carcasses priced same.  
Carcass wt. 300 lbs. at 89c = \$267.00 divided by 190.8 lbs trimmed cuts equals 1.40 lb.  
\$267.00 divided by 232.2 lbs equals 1.15 lb. of take home trimmed cuts (Yield 2)  
25c lb. Savings (Yield 2)

Or a quick way to determine your cost-lb. trimmed cuts you take home is to divide the per cent trimmed cuts (for whatever yield grade half or quarter you are buying) into the cost-lb. of the carcass wt. including processing, eg:  
89c lb. of carcass wt. divided by .636 per cent trimmed cuts from U.S.D.A. Chart equals 1.40-lb trimmed cuts for Yield 5 carcasses.  
89c lb. of carcass wt. divided by .774 per cent equals 1.15-lb trimmed cuts for Yield 2 carcasses. Or, for the same amt. of trimmed retail cuts you would save, e.g.:  
232.2 lbs. from Yield 5 at 1.40 = \$325.08  
232.2 lbs. from Yield 2 at 1.15 = \$267.00  
\$58.08 Savings from Yield 2 As Compared to Yield 5 Using U.S.D.A. per cent's.

The average retail price per pound for eight (8) cuts reported by the Chicago Department of Consumer Sales for the week ending August 1st was \$1.66 per pound, the previous week was \$1.65 per pound and a year ago was \$1.39 per pound.

Our beef is priced on the weight of retail cuts not on the weight of the carcass before cutting — You do not pay for bone or fat kept by the butcher.

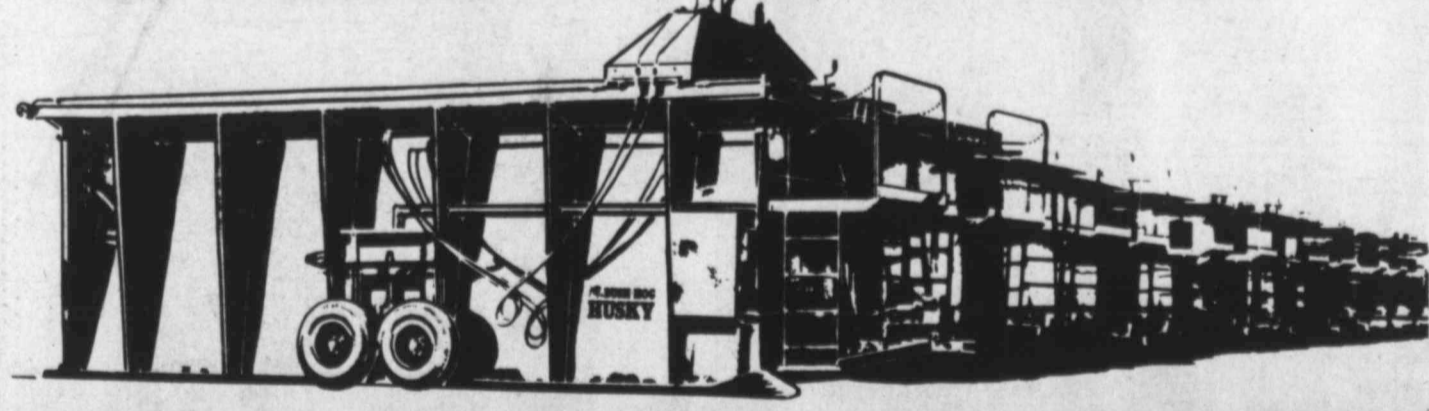

The average yield grade on the halves and quarters we are selling is Yield 2. The average take home weight of our halves is 200 lbs. and 100 lbs. on quarters. All our beef is home grown and corn fed in a feed lot and completely processed under Texas or U.S.D.A. inspection including the cutting, packaging and freezing.  
I personally guarantee the beef to your satisfaction. We will refund your money on any order returned unthawed within two weeks or we will replace it with another beef of equal value with the same guarantee. Whichever you prefer.

For Guaranteed economical and delicious eating at \$1.15 lb. of take home weight only. Call McDOWELL RANCHES at 398-5449 or 398-5461, Lomax. We will deliver.

CHILDREN'S CORNER

# Muhammad, Billie Jean Began Young In Sports

By SUSAN CONLEY  
CHILDREN'S LIBRARIAN  
Biography is the story of a person's life.  
Many famous persons have had exciting lives. Stories about them are filled with action. These stories also tell interesting things about them when they were children.  
For example, when Muhammad Ali was a boy, he would run to school next to the school bus. The children laughed at him, but he became a strong runner

and often outran the bus.  
At the age of twelve, Muhammad started working out as a fighter. He won his first fight at that age.  
After he was graduated from high school, he went to Rome to compete in the Olympics. He won a Gold Medal.  
Read "I Am the Greatest" by James Olsen to find out more about this famous heavyweight fighter.  
Another famous athlete is Billie Jean King. Her biography is called, "Billie Jean King; The Lady of the Court" and is written by James Olsen.  
When Billie Jean was a young girl she loved to play baseball. She was so good that men wanted her to play on their team. Billie Jean wanted to be a professional baseball player but soon learned that girls had little chance in this sport.  
At the age of eleven, she started taking tennis lessons. Billie Jean fell in love with the game and has become

the top-ranked player in the world.  
These and many other biographies are available for children of all ages at the Howard County Library.

## 007 Doffs His Toupee

MONTE URBASA, Spain (AP) — "Now I've done three films in a row with a gray beard and my own thinning hair. Do you think that means something?"

The self-deprecating remark was unactorlike and therefore characteristic of Sean Connery.

An actor by accident — he happened on a job in the "South Pacific" chorus in London — he resists the artifice of his profession. He prefers to appear in films with his own sparse hairline, rather than the toupee he wore as James Bond.

"Once you establish a character, you have to continue the same appearance," he said. "But when you're playing new roles, I think it's better to appear as yourself."

"With the 'fast' film that is used nowadays, the camera easily detects anything that is phony. Most of all, I think audiences demand reality today — reality with make-believe."

Connery's theories seem to be working. His three latest films — "The Wind and the Lion," "The Man Who Would Be King" and "Robin and Marian" — appear certain to achieve Connery's long-time ambition: to shake the image of Agent 007.

The three new films establish him in a new guise, as a bravura player who can swash buckles in the manner of the elder Fairbanks and Errol Flynn.

Sean Connery at 45 has changed his personal life as well.

He has a new wife, Micheline Roquebrune, a French-Moroccan artist.

He has also changed his residence from a Thames flat to a house at Marbella on Spain's Costa del Sol.

"When I knew that I was going to do 'The Wind and the Lion' and 'The Man Who Would Be King' out of England back-to-back, it made sense to change my base of operations," said the actor, who will enjoy tax benefits thereby.

"Robin and Marian" followed the other two, so I haven't seen much of Marbella. But I will. The place is perfect for me; I am right next door to a championship golf course, and there are eight others in the vicinity."

Three epics in a row have further enriched Connery but have damaged his golf game. Golf is the great passion of his life, and he grumbled because the remoteness of the location did not permit radio reports of tournament scores.

DRENCHED IN SKYLINE SUNSHINE — Patti Myers, 17, finds the highest point in Big Spring a good place to tan. She is overlooking the city from a patio of the Settles Hotel penthouse, 14 floors up. Patti is the daughter of Mr. and Mrs. Robert Myers, 2206 Cecilia St.

# You Can't Go And See Live TV, Too

NEW YORK (AP) — New Orleans' huge new Superdome has a \$1.3 million super-TV set hanging from its ceiling. The idea is to give fans in the stadium a super view of live action on the field.

But when the New Orleans Saints go marching into their first exhibition game Saturday at the Superdome, the only definite show on the super-set will be instant replays and stadium-only commercials.

Fans won't see massive pictures of live action in that game or any of the Saints' 10 other home games this season, according to Superdome officials.

The reason: Despite two efforts by Superdome of-

officials, the National Football League still won't permit live stadium-only TV views of the kind the Superdome's six 22-foot-high screens could show.

NFL spokesman Jim Kensil says the ban is for a variety of reasons, ranging from possible distraction of players to fears it somehow could greatly help the home team spot weaknesses in the opposition.

He said in-stadium TV hasn't been much of an issue until now because only a few stadiums have it and their pictures don't compare in clarity to those of the Superdome.

However, he said, the NFL for the past two seasons has allowed taped highlights of a

game-in-progress to be shown on stadium TV at half-time and at two other periods in the game.

This season, he said, the NFL is letting stadiums show instant replays of action on their own turf, but only as a one-year test "so if it doesn't work or causes problems it can be reconsidered."

If no snags develop, it's possible that the NFL would authorize stadium screen showing of live action next season, he added.

In that event, the Superdome could get its live-action TV pictures from two sources — its own crews or the TV network covering a Saints home game. But even then, one major issue still has to be settled.

Kensil says the NFL has sold the TV rights of its games to CBS, NBC and ABC, he explained, there's a question of whether these rights involve the live stadium-only telecasts sought by the Superdome.

"We'd have to get into the legal side of it, who has the right to do what," he said.

So this season, Superdome officials say, the big screens will show only replays and commercials.

## Foon Finds Fun At Camp Rerun

By JAY SHARBUTT  
(AP Television Writer)

NEW YORK (AP) — Snidely Foon, the noted TV critic, is at Camp Rerun this summer, taking a course on serious criticism of television. His editor has told him a simple "this show stinks" no longer will do.

While Snidely has been terribly busy with classes called "How to Define the Dance" and "Is Masterpiece Theater a Bore?," he still finds time to write about life at Camp Rerun, located in upstate Manhattan.

He says the camp, established in 1956 with a grant from the Tommy Sands Foundation for the Performing Arts, recently opened a TV museum filled with artifacts of major moments in television.

The museum is run by a group of chuckling retirees who used to tape ho-hos for the laugh machines of many well-known situation comedies.

"Few make a living from laugh tracks now because their laughter is old," Snidely writes. "This is a

shame, but that's 'show biz.'"

He says a major draw at the recently-opened museum is a Nattering Nabob of Negativism, a lifelike machine donated by the three networks by a Mr. S.T. Agnew of Maryland.

"For a quarter, the Nabob will natter for two minutes," Snidely says. "For 50 cents, he won't."

Other treasures from the TV museum include a blown fuse from The Electric Company, a pound of tacle from the Doris Day Show and a searing 1969 political joke from the Smothers Brothers.

Also on display are Gomer Pyle's old liberty card, an ounce of guano from the Batcave, a portable riposte from Firing Line, and, from Route 66, a speeding ticket issued in Thunderbolt, Ga.

Snidely's list of artifacts boggles the mind. It includes a used scowl from Ben Casey, five boogie lessons from American Bandstand and a clear-cut moral issue from Gunsmoke.

From Mission Impossible, there's a rare edition of the only three speaking lines ever assigned Peter Lupas. For war buffs, a special treat: A destroyed Japanese battleship from Victory at Sea.

"The TV museum is a bargain for vacationers," Snidely said in closing. "You get a three-hour guided tour, lunch and a free picture of Gale Storm. And it only costs \$3 to get in."

"There is one drawback, though."

"It costs \$4 to get out."

ABOUT THE MOVIE  
7:00 & 9:30  
PG  
"Bite the Bullet," new motion picture written and directed by Richard Brooks for Columbia Pictures release, is an action-adventure drama inspired by accounts of endurance horse races over the rugged terrain of the western United States in the years from 1880 to 1910. Starred as contestants in a marathon race across Wyoming and Colorado in 1906 are Gene Hackman, Candice Bergen, James Coburn, Ben Johnson, Ian Bannen and Jan-Michael Vincent. The motion picture was filmed on locations in Nevada, New Mexico and Colorado.  
**KID SHOW** Wednesday 12:30 and 3:00

## How to select the right nursing home.

We Americans are not just living longer, we're living more useful, productive lives.  
But an increasing number of the chronically ill, the old, the convalescent, need some place other than the hospital and their home where they can receive personal health care, round-the-clock attention and the opportunity to continue to live their lives with meaning.  
As your community extended health care facility we want to help you make the right decision. Here are some guidelines: see your family physician to determine the kind of care needed; feel free to visit our facility; ask us for our costs in writing and financial advice about Medicaid; examine all of our facilities; check our food quality; verify our safety features; and finally, observe how our residents spend their time.  
There's a lot more to selecting the right nursing home. We want to help. If you have any questions, please call or visit us.

Allen refused to make any public statement on foreign telephone monitoring that eavesdrops on American citizens.

**HARVESTING SUNFLOWERS**

**Insects Increasing In Cotton Fields**

COLLEGE STATION, Tex. (AP) — Harvest operations generally made good progress in south and central areas of the state last week although scattered rains caused some interruptions. Dr. John Hutchison, director of the Texas Agricultural Extension Service, said. Insects are beginning to build up in cotton in Southeast and Central Texas and in the Rolling Plains, he said. The cotton crop in the Plains is in need of hot weather for proper development since much of it is late. Most vegetable activity is

now focusing on preparing land for fall crops, and some fall crops have been planted in the San Antonio-Winter Garden area, Hutchison said. Good forage on pastures and ranges is continuing to help livestock in the state although market prices remain low, he said. Lambs and calves are making good weight gains. District agricultural agents gave these reports: Panhandle: Greenbugs are damaging some sorghum. Cornborers are infesting corn in northern counties. Sunflowers and soybeans are making good

growth. Powdery mildew is developing in sugar beets. Ranges have improved with recent rains. South Plains: Insects are increasing in sorghum, corn and sunflowers. All crops are making good progress. Alfalfa is producing a third cutting. Range and cattle conditions are good to excellent. Rolling Plains: Insects are increasing in sorghum, cotton and home vegetable gardens. Cotton is squaring and blooming. Some early sorghum will be ready to harvest soon. Guar and sunflowers are making good growth. Broomweed is

becoming a problem on some ranges.

North Central: Five per cent of the sorghum harvest is in. Boll weevils are damaging some cotton fields. Farmers are preparing land for fall small grain plantings.

Northeast: Vegetable harvesting is about complete. The peach harvest also is winding down. Most pastures and ranges need rain.

Far West: Insects are increasing in some cotton fields. Harvesting of sunflowers and safflowers is under way. Alfalfa is producing a fifth cutting in El Paso County. Calves and lambs are making good weight gains. Some ranges need rain.

West Central: Cotton is maturing and insect infestations are heavy. Insects also are heavy in some sorghum fields. Peanuts are being irrigated where water is available. Broomweed is abundant on ranges. Most ranges need rain.

The Big Spring Herald Educational Services Department and Howard College invite educators from all areas and levels of education to attend the 1975 "Living Textbook" Conference. The "Living Textbook" program is considered by many to be one of the most effective innovations in education.

The objective of the "Living Textbook" conference is to introduce classroom teachers to the many possibilities of enriching their instructional program through the use of the daily newspaper.

Registration for the conference is from 8:00 to 9:00 a.m. in the College Auditorium on the campus of Howard College. The program will start here in the Auditorium at 9:00 a.m. with Mrs. Jamie Bilbo Boren of Snyder, Texas. A noon luncheon will be served and panel discussions will be featured in the afternoon session. There will be no fee charged to the educators who attend this conference.

Please mail the reservation below today or contact Mrs. Johnnie Lou Avery, Asst. to the President, Howard College.
