ARREST SUSPECTED 'SYNDICATE' MEMBERS

Smashing Texas Oil Theft Ring

BALLINGER, Tex. (AP) — Three men were in jail here today in connection with what authorities called a massive theft of crude oil by a suspected interstate gang of thieves.

Arrest warrants have been issued for at least three other men.

The FBI, Texas Rangers and the Texas Railroad Commission are conducting the investigation along with sheriff's departments in Rannels, Taylor and Jones counties.

A source close to the investigation said thousands of barrels of crude oil were stolen from tank farms throughout West Central Texas and trucked to a Texas City refinery where it was refined as gasoline.

Jailed here were Dennis T. Davis, 31, of Abilene; Clinton L. Wilkerson, 43, of Houston; and Jackie Clough, 20, of Winters, Tex. Davis and Wilkerson were each charged with two counts of felony theft and were being held under \$25,000 bonds.

Clough was held under \$5,000 bond on the same charges.

Rannels County Deputy Johnny Wilson said he became suspicious Aug. 12 of an oil tank truck here which bore the sign of a Houston firm.

An investigation led to arrest and jailing of the trio last Thursday. Warrants were issued for three other men.

Roy Payne, chief of field operations for the Texas Railroad Commission—which regulates

petroleum activities in the state—met today with Atty. Gen. John Hill. Also present were Hill's executive assistant, John Odum, and Jerry Carruth of the attorney general's organized crime division.

Hill said he had spoken by telephone with Dist. Atty. Royal Hart of San Angelo.

The attorney general said he had not yet talked with the FBI and did not know of the federal agency's involvement but planned to contact the FBI regarding

the possible Louisiana aspects of the case.

Hill said his information "involves allegations that an organized theft ring is involved in spotting oil in various spots of this state for truckers that can be confiscated or stolen and transported into the market. I do not know the dimensions of it... We do have reasons to believe it is an organized ring."

Payne said the alleged scheme might cross state lines. "We have information

to the effect that they are based in Louisiana but we don't have definite proof," Payne said.

"In my personal opinion it is a syndicate" formed specifically for the purpose of oil theft, he said.

As Payne described it, the alleged ring operated this way:

Spotters in the West Central Texas area around Abilene watched for oil leases with full tanks of crude. When they found one, they told a trucker who would go in between 2 a.m. and 4 a.m. and load trucks from the full tanks on the leases.

The truckers would drive the oil to Southeast Texas, selling much of it to Texas City Refining Co.

Since documentation is required, an independent oil operator whom Payne declined to identify supplied papers saying the oil came from wells on his leases in East Texas.

Payne said it appears that Texas City Refining "has been an unwitting purchaser of stolen oil." Payne said he does not believe the refinery knew it bought stolen oil, but the firm accepted papers that were not sufficient because more than a letter from an oil lease operator is required.

Payne said that Railroad Commission investigators were looking into the operator's properties in East Texas. The commission has the authority to impose \$1,000-a-day civil penalties as well as to shut off his pipeline connections.

The alleged scheme came to light, Payne said, when some oil operators in the West Central Texas area received a tip and passed it on to Texas Rangers who made the first arrests. The

three arrested are truckers and no spotters have been taken into custody, he said.

Texas City Refining may not have been the only recipient of the hot oil, Payne said, but it was the destination of at least 1,300 barrels in seven separate deliveries.

A source close to the probe

said at least two Dallas companies were victims of the thefts. One small operator said thieves took nearly \$12,000 in crude oil from his lease.

Much of the stolen crude is considered "old oil" and sells for close to \$10 a barrel.

The source said at least six tank trucks were involved.

SETTLEMENT LOOMS Cops, Firemen On Picket Lines

SAN FRANCISCO (AP) — Leaders of striking police and firemen agreed to a proposed settlement early today after marathon negotiations mediated by Mayor Joseph L. Alioto. But a member of the city's board of supervisors said the mayor's announcement was "premature."

"We're the ones who are going to have to take the action, not him," said Supervisor John L. Molinari.

Meanwhile, striking police and firemen remained on picket lines this morning.

Alioto announced acceptance of the proposed settlement by strike leaders at a news conference about three hours after the supervisors ended their meeting. The supervisors lambasted the mayor's actions in the pay dispute and appealed to the governor for help from the highway patrol.

Alioto declined to disclose details of the proposal but predicted that the board of supervisors would accept the tentative agreement.

But shortly after awakening this morning, Molinari said: "I think his announcement of a tentative proposal is totally premature."

Alioto said the tentative settlement would be offered to members of the Police Officers Association, Fire Fighters Local 798 and the board of supervisors "at the earliest possible moment."

Asked when he thought police and firemen would be back on the job, Alioto said, "We are going to leave the situation as it is at present."

About 90 per cent of the city's 1,935 policemen went on strike Monday after per cent salary increase, half of what police had demanded. Firemen, seeking the same wage boost, joined the strike Wednesday night.

Jerry Schreff, vice president of the firemen's union, estimated that of the 1,700 men on the force, only about 200 were on duty after an overwhelmingly favorable strike vote.

INFLATION RATE IN DOUBLE FIGURES Prices For Food, Gas, Used Cars Zip Higher

WASHINGTON (AP) — Soaring prices for food, gasoline and used cars pushed consumer prices up 1.2 per cent in July, the biggest monthly rise in inflation this year, the government reported today.

Computed annually at 14.4 per cent, the inflation rate is the first in double figures since last September.

Last month's increase compared with a rise of eight-tenths of a per cent in June, providing further evidence that inflation pressure remains a serious problem for the economy as it recovers from its worst recession since the 1930s.

At the same time, the government reported that the nation's total economic output showed its sharpest improvement in four years at midyear, indicating that the economy is snapping back from recession more strongly than administration officials had expected.

The Commerce Department said its revised estimates of the Gross National Product showed a growth in volume of 1.6 per cent at an annual rate in the three months ended in June. The department's initial estimate last month had

forecast a decline of three-tenths of one per cent at an annual rate.

In reporting consumer prices, the Labor Department said food prices rose 1.9 per cent in July, the biggest increase since a 2 per cent jump in August 1974. Gasoline prices jumped 4.3 per cent and used cars were up nearly 4 per cent. Officials said these increases accounted for three-fourths of the July increase.

Meanwhile, Agriculture Secretary Earl L. Butz said retail food prices this year could average about 9 per cent above last year's levels. That range would be in the middle of the department's "worst case" projections early last May when the growing season began.

The Federal Trade Commission said a special analysis of meat, milk, bread and beer costs found no evidence of profiteering.

TWO-WAY TRADE BANNED Partial Lifting Of U.S. Embargo Against Cuba

WASHINGTON (AP) — The United States will announce today a partial lifting of the American economic embargo against Cuba, State Department sources disclosed.

The sources said the announcement will permit American firms operating in third countries to sell goods to Cuba for the first time in well over a decade.

The move is more of a gesture toward third countries than toward Cuba, the sources said, but they acknowledged it probably will be interpreted as a softening of the American position toward the Havana regime.

The decision will not affect two-way trade with Cuba, which has been banned by law since 1962. The State Department has asked Congress not to repeal that legislation, reasoning that it should be subject to negotiations with Cuba once bilateral talks on a normalization of relations begin.

Foreign countries have long complained about the restraints on sales to Cuba by American corporations operating within their borders.

Argentina and Canada, for example, have argued that the United States has no business trying to regulate the sales of American firms incorporated under the laws of those countries.

In April 1974, the State Department, in a major departure from previous

policy, announced it would grant three U.S. auto manufacturers in Argentina licenses to export vehicles to Cuba.

Argentina had threatened the corporations with nationalization unless the deal were allowed to go through.

Early this year, a similar exception was made for a Canadian-based American firm which manufactures office furniture.

Viking On Way To Red Planet

ORLANDO, Fla. (AP) — America's Viking spaceship zipped across the orbit of the moon today on a 506-million-mile flight designed to determine if there is life on the planet Mars.

A Titan Centaur rocket launched the Viking on its 303-day chase around the sun at 5:22 p.m. Wednesday, and the letter-perfect performance of the spaceship spread smiles across the faces of space officials who had scowled through two blastoff delays last week.

First, the spacecraft was fired into a parking orbit 105 miles above earth so scientists could position the ship for insertion into a trans-Mars trajectory.

Then, 30 minutes later, another rocket blast sent the Viking streaking toward Mars at 24,000 miles an hour and, hopefully, a soft landing in time for the Bicentennial.

"It's really good to have a smile on my face," said John Neilson, the National Aeronautics and Space Administration's director for launch vehicles. "It was a trouble-free countdown."

The Titan Centaur launch vehicle forced the first delay on Aug. 11 when a guidance control valve in the first stage malfunctioned.

James Martin, project manager for the \$1-billion

mission, and other space officials have yet to offer a definite cause for the second delay, an errant switch that drained two batteries in the orbiter half of the spaceship.

A sister craft is to be launched Sept. 1.

Martin said officials were considering a long mid-course correction next Wednesday to improve shrinking chances for a landing on Mars July 4, 1976, the 200th anniversary of American independence.

The nine-day delay in the launch may push the touchdown date past the 4th of July.

BONE-CHILLING NIGHTS 25-Year-Old Nurse Lost In Grand Canyon

SUPAI VILLAGE, Ariz. (AP) — "If you had told me on day one that I would survive for three weeks here, I would have said, 'No way,'" says a woman lost for 20 days in the Grand Canyon.

Linda Forney of Pittsburgh was found Wednesday by searchers. She was taken to a Flagstaff, Ariz., hospital, where doctors said she was in good condition.

A nightmare of blazing hot days and bone-chilling nights for the 25-year-old nurse began Aug. 1, when she started hiking down to this remote Indian village at the bottom of the canyon.

"I never got to the village," she said. "I left my pack (with food) along the trail. It just started getting very dark. I laid down to go to sleep, but I was too scared to sleep."

Ranger Dick McClaren said Miss Forney made a wrong turn and went south instead of going into the village. She was found about 15 miles away in a side canyon.

"The only thing I had to eat were buds of cactus plants," she said. "They were pretty good."

Her water supply consisted of a trickle from a crack in the rocks.

Miss Forney, dressed only in blue jeans, a halter top and crepe-soled shoes, said she became very cold at

LINDA FORNEY

night, when temperatures dipped to the 50s. She said she had to seek shade during the day, when the temperatures topped 100 degrees.

Relatives reported her missing Monday and told the Coconino County sheriff's office her parents had received a postcard from her dated July 31 saying she was going to hike into the canyon.

Park officials found her car parked at the canyon rim.

Hardy Jones, a Supai Indian, and several other searchers located the woman after Jones said he found tracks in an area "where nobody should be."

FUND KEEPS MOMENTUM

The Bible Class Fund appeal had a little breather in numbers Thursday, but generous friends kept the momentum going as the fund edged within a hair of the \$3,000—or halfway mark.

Included were many staunch backers over the years. The class, while it carries high school credit, must be financed from private rather than tax sources. So please send or mail your gift to the Herald for acknowledgment. Latest donors are:

MILD

Winds from the south at 10-20 miles per hour today, diminishing to 5-10 mph tonight. High today and Friday in low 90s. Low tonight in upper 60s. Partly cloudy, and continued fair weather.

REUNITED — A spokesman for Elizabeth Taylor and Richard Burton said Wednesday that the couple had decided to reconcile permanently. "This is not a trial reconciliation, it is permanent," he quoted Burton as saying.

ONE MORE TIME Liz, Richard Will Marry?

GSTAAD, Switzerland (AP) — Elizabeth Taylor and Richard Burton were reported traveling together "somewhere in Switzerland" today after 14 months of divorce and another reconciliation. Burton was quoted as saying they might remarry in Israel.

"They are driving around in Switzerland and are expected to be back here before going to Israel next week," said Miss Taylor's secretary at the home the star maintains in Gstaad to reduce her taxes.

"The reconciliation is confirmed," she added. "They are now driving around together in her car, but I don't know where they are."

A spokesman for the couple in New York, John Springer, said Burton had told him: "This is not a trial reconciliation; it is permanent."

Springer said Burton also told him they might remarry during their visit to Israel because "after all, Elizabeth is Jewish."

Miss Taylor converted to Judaism in 1959, between her third and fourth husbands, producer Mike Todd and

singer Eddie Fisher, both Jews.

Burton, now 49, was Miss Taylor's fifth husband; she is 43 and was his second wife. Their marriage lasted 10 years, and for much of that time they were among the movies' biggest — and highest paid — attractions.

In the latter years, the marriage turned stormy, and last year a Swiss court awarded Miss Taylor an uncontested divorce on grounds of incompatibility.

Since their divorce, Miss Taylor has been the constant companion of a Los Angeles used car dealer named Henry Wynberg while Burton has had a string of girl friends. But Springer said they had been in communication by telephone for some time.

He said Miss Taylor returned to Switzerland last weekend from Leningrad, where she had been making the film "The Bluebird." Burton joined her, and they were reconciled, Springer reported.

"Whether they will get married immediately is not absolutely certain," he said, adding that it was probable they would remarry.

Policeman Shot Down

DALLAS (AP) — One policeman was shot to death and another wounded seriously today during an investigation and high speed chase that resulted in the shooting death of another man, officers said.

Officers said two policemen appeared at a South Dallas gas station at midmorning where the gunfire erupted, killing one patrolman. His partner was shot in the stomach but managed to radio for help, a police spokesman said.

"A hell of a lot of people" responded to the call and gave chase, the spokesman said.

A white Cadillac was chased into far South Dallas where the driver was shot to death, the spokesman said.

Details of the shootings and identities of the dead were not known at once, the spokesman said.

'Red Tide' Warning

AUSTIN, Tex. (AP) — The Texas Parks and Wildlife Department warned today with weekend plans today that the largest mass of "red tide" sighted in several years now extends from Galveston Island to Port O'Connor.

Department chemist Charles Belaire of Seabrook reported that about 90 miles of the Gulf coast are affected by the algae bloom, commonly called red tide because of the discoloration of the water.

"This is a different organism from those of the red tides which periodically hit the Florida coast," Belaire said. "Thus far only a few fish have been killed."

He said there have been reports of some speckled trout, sand trout, flounder and sharks killed by the toxin released from the algae or by oxygen depletion.

CHANGE MY SCHEDULE — John Talmadge, special education counselor; Joe Horton and Mrs. Janice Rosson, high school counselors, listen to a barrage of students ask for schedule changes at the high school this week. Over 200 requests for schedule changes were handled by the group. Harvey Rothell, vocational counselor, is shown in the back of the group, trying to get to his desk where he, too, can help make the changes.

JOHNSON'S DOUBLE GIVES VIRDON FIRST WIN

Cards, Phils Keep Pace With Pittsburgh

By the Associated Press
 San Francisco's Ed Halicki was displaying his knowledge of the Pittsburgh hitters again Wednesday night when they suddenly taught him a thing or two.
 "For a young guy, Halicki knows our club very well. His pitching pattern against us is excellent," said winning pitcher Jim Rooker after the Pirates rallied for three runs in the eighth inning and a 3-1 victory over the Giants.
 The victory was the Pirates' second in a row — the last time that happened was an Aug. 3 doubleheader — and kept them one game in front of Philadelphia in the National League's East Division. The Phillies defeated the Atlanta Braves 4-1.

Meanwhile, the St. Louis Cardinals remained 2 1/2 games back by blanking the Cincinnati Reds 4-0, the New York Mets dropped five games out by losing to Houston 5-4 in 10 innings and the San Diego Padres outlasted the Montreal Expos 8-6. The Los Angeles Dodgers and the Cubs were

raided out in Chicago. The speedy outfielder later greeted reliever Will McEnaney with an inside-the-park home run in the eighth.

Reed permitted singles in each of the first four innings, then set down 13 batters in a row following Tony Perez' leadoff hit in the fourth.

After an error by shortstop Mike Tyson, Reed retired the last five batters to end the game.
Phillies 4, Braves 1

Greg Luzinski drove in his 100th run of the season with a seventh-inning double and Dave Cash delivered a pair of runcoring singles. Larry Christenson was lifted for a pinch hitter in the seventh after allowing only three Atlanta runners to reach base, two on singles and one on a walk. **Astros 5, Mets 4**

Cesar Cedeno led off the 10th inning with a single off rookie Rick Baldwin and scored on Cliff Johnson's hit-and-run double for Bill Virdon's first triumph as manager of the Astros. Johnson hit his 12th home run in the sixth inning.
Padres 8, Expos 6
 Enzo Hernandez snapped a

5-5 tie with a three-run double in the seventh inning and Gene Locklear knocked in four runs, three with his fourth home run of the season.

But Richie Zisk got an infield hit with one out in the eighth, took second on Manny Sanguillen's single and scored the tying run. Rookie Craig Reynolds' double. Following an intentional walk to pinch hitter Bill Robinson, Randy Moffitt relieved Halicki and Rennie Stennett rapped a tie-breaking two-run single.

Ken Reitz' run-scoring single broke up a scoreless duel in the fourth following hits by Willie Davis and Reggie Smith. An inning later, Lou Brock singled and McBride drove the next pitch over the right field fence

HAWK MEMBER — Coahoma's Keith Stone, left, signs an athletic letter of intent with Howard College. Looking on are Leroy McClendon, center, assistant and Harold Wilder, right, head coach.

Cubs Pull 3 Ahead In TL

By the Associated Press
 Lafayette and Midland both fattened their Texas League division leads Wednesday night.
 The Lafayette Drillers, now 7 1/2 games ahead of runnerup Arkansas in the TL East, beat the Alexandria Aces 8-6 and 8-2. Midland's Cubs punted the San Antonio Brewers 11-3 and pulled to three games in front of Shreveport in the West.

In the seventh inning and Many Lantigua hit a solo shot for the Brewers in the third. The mound decision went to Danny Moore, 13-7, and the loss to Tom Linnert, 3-11.

Six straight singles by Jackson rocked Arkansas starter Randy Benson and produced four runs—all the Mets needed, although they added single tallies in the sixth and ninth frames. Lefthander Jeff Roce, 11-8, scattered seven Arkansas hits to claim the victory.

In the only other game played, the Jackson Mets defeated the Arkansas Travelers 6-2. An El Paso at Shreveport doubleheader was rained out.

A two-run double by Gary Alexander sparked a five-run Lafayette outburst which decided the first game at Alexandria in the sixth inning. Each club managed only five hits but the Drillers bunched theirs. Terry Cornutt, 6-4, was the mound victor in relief.

Scotty Wolfe hit a triple and a double to drive in four runs and pace Lafayette in the nightcap. Gene Lanthorn, 4-4, was the winning pitcher and Rich Troetsen, 7-8, the loser.

Midland simply outslugged San Antonio. Steve Conroy belted a home run with two on base for the Cubs

Lights Nearly Out For Suns

JACKSONVILLE, Fla. (AP) — The lights have nearly all gone out for the Suns.
 The Jacksonville Suns, a class AA club of the Southern League, have had troubles all season, spending most of it in the league's Eastern Division cellar.

Three weeks ago burglars stole \$900 worth of office equipment. Then high winds from a Wednesday afternoon thunderstorm blew over the 90-foot light pole which illuminates the right field of the Suns' home diamond, Wolfson Park.

General Manager Miles Wolff said the team would try to play the remaining nine games of the season in the afternoons or in the evening without the right field lights.
 Wolff said attendance has been so poor that revenues were unavailable for immediate repairs.

Lakewood returns Saturday to meet the winner of today's contest between Tampa, Fla., and Davenport, Iowa.
 This year's four-day tournament is divided between boys' baseball competition and girls' softball. In the opening softball game Wednesday, Medford, Ore., beat the defending champions from Tampa, Fla., 3-2.

Medford also plays a final game Saturday against the winner of today's softball contest between Dix Hills, N.Y., and Sturgeon Bay, Wis.
 This is the first time since 1956 that foreign teams have been excluded from the baseball competition.

BUFF FIELD GENERAL — Gary Hanson, No. 12, will be Stanton's starting quarterback against Iraan in a scrimmage at the Buff Stadium Friday. The JV game is listed for 6 p.m. and the varsity test at 9 p.m.

COAHOMA GRADUATE Stone Signs With Hawks

Keith Stone, who played two years on the Coahoma High varsity basketball team, signed an athletic letter of intent with Howard College as announced by Head Coach Harold Wilder and Assistant Leroy McClendon.
 Stone, 5-11 guard, was a

member of the squad who formed a 29-6 last season record, winning both district and bi-district, but losing out in the regional. The Bulldogs were 11-1 in district action.
 Stone averaged 14 points per game and was named all-district in 6-AA. His head coach was Jody Soy, one of the outstanding prep coaches in the West Texas area.

Grady, Sands Drill Friday

Coaches Jack Vining and Allan Wootan will take a look at their Grady football team Friday, hosting Sands of Ackerly Friday in a scrimmage.
 Game time is 3 p.m.
 Grady recently completed construction of a football field, complete with bleachers and press box.
 Last year, Grady had to play all of its games away from home.

MSA Meeting

Miss Softball America will hold election of officers tonight at 7:30 in the girls gym at Runnels Junior High.
 The meeting is open to parents and interested individuals.

George White Pleased With Buffalo Workouts

By CLARK LESHNER
 Seven starters return on offense and defense for Forsan who won 8 and lost 2 last season.
 They include: Offense — Ralph Miranda, junior quarterback; Brad Stephens, senior tackle; Mike Stoen, senior tackle; Gary Tidwell, junior halfback; John Medlin, junior end; and Alan Hollands-worth, sophomore guard.

George White assumed the Buff head coaching post vacated by Jack Woodley who resigned to become Forsan High School principal.
 White served four years as Buff varsity football and basketball assistant, the last two under Woodley. Assisting White are Ron Taylor and Bob Evans.

Thirty-six candidates started working out in shorts Aug. 11, being fitted with pads Aug. 15.
 Forsan has two scrimmages listed before opening the new year at home against Klondike, Sept. 12. Drills include Robert Lee, home, Friday at 6:30 p.m., and New Home, there, Aug. 29 at 4 p.m.

White so far is very pleased with Buffalo workouts. "We have a good nucleus back but we need more depth and defensive

Others lettermen back are: Mark Glass, senior guard; Darrin Crooks, junior center; Bobby Osburn, sophomore tackle; Dennis

Baggett, sophomore guard; Hank Adams, junior back; and A. J. Stanley, junior guard.
 The Buffs, a darkhorse contender in 1974, remained in District 3B title contention before losing out to Jayton and champion Bronte at the end.

White served four years as Buff varsity football and basketball assistant, the last two under Woodley. Assisting White are Ron Taylor and Bob Evans.

Batie Selected Thunder Mentor

SAN ANTONIO (AP) — Thunder officials said Don Batie has signed to coach in 1976 the San Antonio entry in the North American Soccer League.
 Batie took over the Thunder at mid season earlier this year after former mentor Alex Perolli mustered just one win in nine outings.
 Batie's record for the rest of the season was 5-8.

Offense Better

COLLEGE STATION, Tex. (AP) — Texas A&M University head football coach Emory Ballard spent last spring trying to create an offense of which the Aggie defense can be proud.
 There are signs he is succeeding.
 While the 1974 Aggie defensive unit ranked second nationally behind Notre Dame in total defense, the offense sputtered despite A&M's impressive 8-3 record.
 Before spring training, Ballard hired Texas Tech assistant coach Tom Wilson as his offensive coordinator, installed the Information and lit a fire under the offense. By spring's end, Ballard could see progress.
 "I think the defense will be about the same as it was last year," he said. "We'll be improved on offense, too. I think we'll be perhaps stronger at running back."
 Ballard doesn't even object to preseason polls that have picked his Aggies as the Southwest Conference favorites.
 "Actually, we're complimented at being picked No. 1," Ballard said.

Hogs Brush Up On Plays

FAYETTEVILLE, Ark. (AP) — Arkansas Coach Frank Broyles said he used Wednesday's workouts to familiarize his Razorbacks with the offensive and defensive plays they will use this fall.
 During kicking practice, sophomore Steve Little kicked field goals from 35 and 50 yards.

COLONIAL COUNTRY CLUB Fledgling Tourney Resumes Romance

FORT WORTH, Tex. (AP) — With the spotlight locked on Jack Nicklaus, the fledgling Tournament Players Golf Championship resumed its romance with the big time today on the scenic and sinister Colonial Country Club course.
 "We've done everything we can to make this the top golf tournament in the world," proclaimed PGA Czar Deane Beman as the game's elite launched the chase for a \$50,000 top prize.
 "The condition of the course is impeccable. We consider this as good a test of golf as there is. And this is as great a field as ever assembled.
 A purse of \$250,000 coupled with the tournament's "designated" status attracted all the super stars for the tour's second running of the touring pro own championship.
 "We're doing all we can to put the ingredients in to make this a major tournament... But these things must stand the test of time," said Beman, who won a new five-year pact as commissioner on the eve of the 72-hole event.
 The tournament players want their championship to rank alongside the so-called Big Four of golf—the U.S. and British Opens, the Masters and the PGA.
 But when and if it is to obtain such lofty credentials remains a matter of much debate.
 The TPC must first earn press and public acceptance, said Beman. But, quipped someone, only half joking, when Nicklaus announced he's set his sights on sweeping the "Big Five," it becomes major overnight.
 Nicklaus, smiling and relaxed and joking with newsmen, said Wednesday the TPC is indeed an important U.S. event but must gain worldwide recognition before becoming truly major.
 "It'll happen with time," he said.
 The Golden Bear's words carry special clout since he won the inaugural TPC last year at Atlanta and, with 16, holds more major titles than any golfer in history.

DETROIT DUMPED Ryan's Blazer Bops Brewers

By the Associated Press
 The California Angels have speed on the mound and speed on the basepaths; but in the home run derby, they're slower than a home run trot.
 "As goes the pitching, so goes the Angels," says California Manager Dick Williams, whose club has connected for a major league-low of 42 homers this season. "We're still trying to catch Roger Maris."
 The pitching went well Wednesday with fireballer Nolan Ryan blazing his high, hard ball once again after missing 11 days with a combination of a pulled groin muscle and control problems.
 Ryan gave up three hits before being relieved in the eighth inning as California beat the Milwaukee Brewers 6-1 for Ryan's 13th victory in 25 decisions.

Elsewhere in the American League, Oakland beat Detroit 2-1; the Chicago White Sox dumped the New York Yankees 5-3; Kansas City topped Boston 3-1, and Baltimore shaded Minnesota 3-2.

A's 2, Tigers 1

Prince Albert Visits College

WILLIAMSTOWN, Mass. (AP) — An admissions officer at Williams College has interviewed Prince Albert, son of Prince Ranier and Princess Grace of Monaco.

Albert, who is completing high school, visited the school Monday with his parents, his sister Caroline and a bodyguard. They took a two-hour tour of the campus Monday, being shown classrooms, dormitories and other facilities.

A college spokesman said Tuesday that the prince, 17, heir to Monaco's throne, had not formally applied for admission. He has until next Feb. 1 to seek admission as a freshman in the fall of 1976.

Princess Grace, once the movie actress Grace Kelly, said the family is vacationing at Nantucket Island.

Former Big Springer Heads Public Employees

J. Kenneth Huff, formerly of Big Spring, is stepping into the position of president of the Texas Public Employees Association. He will be installed to that position at the close of the 30th annual meeting of the association on Aug. 26, 1975. In addition to his post as president, Huff has served as treasurer and president-elect since being elected to the Board in 1972.

Charles M. Condray is president elect of the Big Spring chapter of the TPEA. Ms. Marie McDonald is past president. They will attend the meeting in San Antonio, along with Mrs. Cyneather Woodruff as the local representatives.

The incoming prexy, Huff became a state employe in June, 1962. Prior to that time, he had been employed

KENNETH HUFF

in the oil industry for a number of years, serving in several capacities as an accountant and finally as chief accountant and office manager of the Reef Corporation of Houston. He became a partner in a firm engaged in general insurance and finance and served as secretary-treasurer of the Reeder Insurance Company, Big Spring. He presently is director of revenue estimation for Bob Bullock, state comptroller of public accounts.

Huff is married and he and his wife, Zelma, are the parents of two children, Cathy Oliphant, 27, and Ken Jr., 22. The Huffs live in the University Hills area of Austin where they are members of the Windsor Park Baptist Church.

While in Big Spring, Huff was active in church and civic affairs.

If You Want Friendly Fox Just Whistle

OAK HILL, Tex. (AP) — A friendly fox who feasts on grapes and pizza, answers to a whistle and likes to laze around an hour or so after dinner on the patio is the star entertainer of a neighborhood in this Central Texas town.

The C.A. Reeves family spotted the female gray fox in their backyard six weeks ago and began putting food out for her.

"The fox apparently has a litter, Mrs. Reeves said, because she makes several trips hauling food. Friends show up most every night with fox delicacies.

"The price of admission is a package of wieners," said Mrs. Reeves, who added that the fox loves grapes best of all but also likes chicken, eggs, bread and pizza.

Despite the enjoyment the Reeves have gotten out of the fox—she even responds to Mrs. Reeves' whistle and relaxes on the patio with other pets after a meal—the Reeves worry that as civilization closes in the fox will fall victim to a car, dog or bullet.

"It started out as an innocent thing and now we feel responsible. We never knew she would get so friendly," said Mrs. Reeves.

The family wants someone to trap the fox and litter and take them to a safer place, such as Pedernales Falls State Park.

Texas Tax Takes Glitter Out Of Cheap Smokes From Mexico

HIDALGO, Tex. (AP) — Some of the lure has been taken from Mexico's bargain basement cigarette prices through a crackdown on tax collections by the Texas comptroller's office.

Cigarettes, both U.S. and Mexican brands, sell for as low as \$2.60 per carton just across the Texas border.

Rio Grande Valley residents and U.S. tourists visiting Mexico historically have taken advantage of the cheap smokes with only an occasional flurry of enforcement by Texas tax collectors.

Federal law allows a returning U.S. resident to bring in \$100 worth of goods from Mexico, including cigarettes, so there is no federal tax involved. Usually, the U.S. Customs inspectors would ask a tourist if the cigarettes were for his own use when the tourist said he was bringing back cigarettes from Mexico.

If the tourist replied 'yes,' that was it. No hassle. At least not until recently.

Texas allows a person to bring back two packages of untaxed cigarettes from Mexico if the seal is broken on each package. The state comptroller's office has started a crackdown on untaxed cigarettes brought across the International Bridge here.

A person can be charged \$1.85 per carton in Texas taxes. That brings the price up to \$4.45 per carton. A carton of king size cigarettes sells for \$4.71 at a chain grocery outlet near here, so the added Texas tax takes

most of the glitter out of Mexican bargain cigarettes. At the end of the first week of the crackdown, a spokesman at the comptroller's office in nearby Donna said agents had stamped 1,324 cartons of cigarettes and collected \$2,450.92 in taxes.

The spokesman said a study indicates an estimated 15,000 cartons of cigarettes cross the Rio Grande each week at Hidalgo. If all of those cigarettes got through untaxed, they would cost the state an estimated \$28,300 in lost revenue, the spokesman estimated.

Homero Avila, field manager for the Donna office, said Comptroller Bob Bullock is considering

establishing cigarette tax collection stations at border crossing points between Brownsville and El Paso which would operate like liquor tax collection stations now used at bridges crossing the Rio Grande.

Many persons involved in the situation do not believe there would be any strong reaction in Mexico to stricter

enforcement of Texas cigarette tax laws because most of the cigarettes are sold strictly as a sideline at curio shops and other tourist attractions on the border.

Avila said untaxed cigarettes can be confiscated and repeat violators can be prosecuted, especially if they are found bringing the cigarettes into Texas to sell them.

Will String His Highwire

NEW ORLEANS (AP) — French aerialist Philippe Petit will string his highwire across the inside of the Louisiana Superdome for a 200-foot-high walk.

Petit walked last year between the Twin Towers of the 110-story World Trade Center in New York. The interior of the Superdome is 273 feet high at its highest point.

Pneumonia Death Cause

Richard A. Camfield, 20, died of acute bronchial pneumonia, according to a preliminary autopsy report, his mother Mrs. Joyce Camfield, said today.

Richard was found dead in his bed Tuesday morning. Authorities said that there had been some pills on the table, but Mrs. Camfield said that she explained to investigators that these were her medications.

There was a mixup on the names and authorities reported the youth's name as Michael, which is the name of his brother. Identification had been made from a driver's license, which belonged to Michael. An autopsy report received by Justice of Peace Gus Ochotorena was incomplete today, but is expected to be filed soon. The Herald apologizes for any implication which might be drawn from quoting that pills were found on the table, which belonged to Mrs. Camfield and not her son.

Truth Test Pressure

DETROIT (AP) — Charles L. O'Brien was interviewed by investigators for five hours about the disappearance of Jimmy Hoffa, O'Brien's attorney says.

O'Brien, the foster son of the former Teamsters union boss, has been under pressure from the Hoffa family to take a lie detector test about his possible role in Hoffa's disappearance.

Attorney James Burdick said Wednesday that O'Brien spoke with a Michigan State Police officer and two FBI agents at the State Police office at Detroit Metropolitan Airport on Monday.

He said the question of a lie detector test was discussed but that O'Brien would not take one.

Burdick said the interview covered "very specific details on Mr. O'Brien's whereabouts" over a period of three or four days around July 30, the day Hoffa disappeared. He declined to elaborate.

The FBI refused all comment. Meanwhile, Robert Ozer, head of the U.S. Justice Department's Organized Crime Strike Force in Detroit, said preparations to take the case to a federal grand jury were on schedule. Federal officials hope the grand jury action will help them gain information from reluctant witnesses about Hoffa's fate.

\$2.25 Million Bank Suit Filed

PHILADELPHIA (AP) — First Pennsylvania Bank has been sued by a Texas building firm for allegedly renegeing on a contract to finance a housing development in Houston.

In a suit filed Wednesday in U.S. District Court here, Langson Bros. Construction Co. of Houston asked \$2.25 million in damages from the bank, the oldest and largest in the city.

Volunteer Worker Speaks To ABWA

Members of the Cactus Chapter, American Business Women's Association heard a talk by Mrs. Margaret Baum, coordinator of Volunteer Service, Big Spring State Hospital, on "The Importance of Volunteer Service," during the ABWA dinner meeting at Furr's Cafeteria Monday evening.

Mrs. Baum gave a brief history of the hospital which serves an area of 46 counties with an average patient load of 550.

"One of the most encouraging changes has been in the reduction of the patient load from about 1000 to the present 550. One of the reasons could be the establishment of the work village at the hospital. Most of the improvement was through the leadership of the late superintendent, Dr. Preston E. Harrison."

Mrs. Baum explained that volunteer service is very important at the hospital. It can take three forms, direct patient contact, group activities or special interest groups and administrative help.

Mrs. Evalena Studivart gave the vocational talk. She is a saleslady for Swartz. Mrs. Studivart told about the duties of each saleslady and the fashions found in the store.

Invocation was given by

Retired Teachers Hear Student

Martin Landers, president, welcomed members and guests of the Retired Teachers' Association at a noon luncheon Tuesday at the Downtown Tea Room.

Featured guest speaker was Miss Joni Avery, 11, daughter of Mr. and Mrs. Jerry Avery. She is a student at Kentwood Elementary School. Her mother is assistant to the president at Howard College and also chairman of the Bicentennial Commission of Big Spring. Miss Avery gave a brief history of our country and the advantages of living in America.

Landers announced that the regional RTA meeting will be in New Orleans, La. Nov. 17.

The president closed the meeting by giving the organization's goals for the year. They are "consistent attendance, get involved in something, help the world today to keep the lanes of hope alive, care for someone some way, everyday, and exercise gratitude to God, country and others."

The next meeting of the group will be Sept. 16 at the Downtown Tea Room.

Home League Met Tuesday

Mrs. Nella Stephens spoke on mental health at the Tuesday afternoon meeting of the Ladies Home League held at the Salvation Army Citadel. The devotional was given by Mrs. Carla Gates, entitled "Prayer in Higher Places."

Ms. Loretta Scott, Ms. Lahoma Clark, president, announced that the annual invitational dinner will be at the Officer's Club, Goodfellow Air Base, San Angelo on Sept. 22. Reservations should be made by Sept. 10 with Ms. Phyllis Sparks. Bus transportation will be provided.

The announcement was made at the meeting that a garage sale will be sponsored by the chapter Sept. 5-7 at the home of Ms. Cheryl Walker, 2508 Central.

An enrollment event will be held Sept. 12 in the home of Ms. Laura Duke, Gail Route. It will be a chuck wagon dinner.

Ms. Helen McDonald was elected as delegate to the ABWA national convention to be held Sept. 9-12 in Cincinnati, Ohio. Ms. Helen Stewart will be the alternate.

The next regular meeting will be Sept. 15.

Men Wanted For High Life

LOS ANGELES — Men wanted. Good pay. Excellent working conditions. Thirty-five thousand feet above the ground. No stairs.

Anita Elliott, Continental Airlines' recruitment and placement specialist, says she's always wanted to hang out a Help Wanted sign such as the above to welcome males to careers as flight attendants. "For two and a half years we've been recruiting men as members of our cabin crews," she reports. "Our last seven classes have been composed of a majority of men. Our next class will have a three-to-one male ratio."

What does the airline look for in evaluating male candidates for flight attendant positions? Communication skills, says Anita. "Ideally, they've had jobs with heavy public contact in sales positions or in the service industries. We want people who have enthusiasm, warmth and meet people well." Recent candidates have ranged in age from twenty to thirty-eight. Their backgrounds have included everything from skilled technicians to men seeking their first jobs.

Women flight attendants seem to welcome their male counterparts. "They try hard and do a fine job," said one air hostess.

Rebekah Lodge Holds Service

Mrs. Maudie Jones, noble grand of the Big Spring Rebekah Lodge No. 284, presided at the draping of the charter, a memorial service for Eugene Thomas. Mrs. Thomas and her three children attended the service.

A ceremony installing Mrs. Ruth McNew as junior past noble grand was also performed at the meeting. Mrs. Corynne Cunningham and Mrs. Ruth Wilson officiated with R. X. McNew presenting a pin to his wife.

Forsan News

FORSAN — Mrs. L. B. McElrath left Aug. 13 for Coleman where she visited relatives. She attended the McElrath reunion held at Lake Brownwood Aug. 15-17. Also attending the reunion were her son-in-law and daughter, Mr. and Mrs. Al White, Austin; her grandson's family, the Jimmy Tylers, Austin; and her daughter's family, the J. L. Overtons, Sterling City.

A recent guest of Mr. and Mrs. C. V. Wash was Mrs. Wash's sister, Mrs. Lura Booth, Austin. The Danny Washes spent a week with his parents and his wife's parents, Mr. and Mrs. Paul Gordon, at Lake J. B. Thomas.

Sawyers Leave For Las Vegas

Mr. and Mrs. Harold Sawyer will leave tomorrow for Las Vegas in celebration of their 25th wedding anniversary.

The Sawyers were married Aug. 25, 1950 in their hometown of Waco at the Highland Baptist Church. They moved to Big Spring in 1962 from Dallas and reside at 2713 Carol. The Sawyers have two children, Dianne, 23, and Jackie, 15.

NEW CHAIRPERSON — Asst. Attorney General Martha Smiley of Austin was recently elected chairperson of the Texas Women's Political Caucus. Ms. Smiley has been an assistant general for nearly two years. She said the caucus will be mainly occupied with activities relating to the 1975 elections during the next year.

Right Of Abortion Is Woman's

NEW ORLEANS (AP) — The right of a girl or a woman to have an abortion is strictly her own, says a federal appeals court. A wife doesn't have to ask her husband; a minor doesn't have to ask her parents.

In affirming the decision of U.S. District Court in Miami, the 5th U.S. Circuit Court of Appeals declared two Florida abortion statutes unconstitutional.

One of the statutes protected the rights of a husband. But the appeals court noted Monday that the statute dealt with the husband — not necessarily the fetus's father — and said: "The rights of the husband, which arguably

spring from his interest in the fetus, are of doubtful applicability in this case."

It added, however, that it may be paradoxical for the federal government to hold both that men have a right to beget and raise offspring and that women have a right to abort them.

"The state may secure the man's procreative rights by merely making unconsented abortion a grounds for divorce," it suggested. "The man may then enter into a new marriage relationship and the state may thereby protect his procreative interests without infringing upon the former wife's right to abortion."

The appeals court said a minor's right to an abortion must be upheld because teenage motherhood could seriously impair a girl's physical and psychological health.

"The magnitude of the minor's interest... suggests that the developmental differences between adults and minors do not warrant denying constitutional protection to the minor's abortions," the appeals court said.

It said most girls would normally consult their parents, but it added that the decision would prevent a hostile set of parents from forbidding an abortion without considering the best interests of their daughter.

"The requirement of parental permission is unlikely to achieve the state's aim of insuring the preservation of the family," the court said. "If a minor's pregnancy has fractured the family structure, imposition of a parental prohibition of abortion cannot reasonably be expected to restore the family's viability as a unit."

Pre-Marital Confession Still Haunts Marriage

DEAR ABBY: I am able to appreciate the wisdom of your advice to the girl who was reluctant to tell her fiancé that she had undergone an abortion before they met.

The adage "honesty is the best policy" can, in some cases, hold nothing but regret for the wide-eyed innocent who is eager to start married life with no secrets.

As a naive 19-year-old, I confessed to my fiancé that there had been another man in my life before I met him. And I foolishly told him who it was.

Thirty years and four adult children later, my husband

still throws this man in my face periodically, even though I have been a devoted and faithful wife.

How much better off we both would have been had I not made that confession.

I hope you will print this for others who might be inclined to tell all. Silence is indeed golden.

IDIOT WAR BRIDE DEAR BRIDE: Silence is not always golden. It is sometimes "guilt."

Everyone has a problem. What's yours? For a personal reply, write to ABBY: Box No. 6970, L.A., Calif. 90069. Enclose stamped, self-addressed envelope, please.

Ann Worthy Texas Tech

Kathy Perry SMU

Linda Little Texas Tech

Hello, I'm Ann Worthy. This year accessories are playing a big part in individualizing any wardrobe. Belts, scarves, even a simple bracelet can change the appearance of your outfit. So remember to compliment every ensemble with the right accessories.

I'm Kathy Perry. I'll be a freshman at SMU this Fall. I think that the new fashions on campus will be knee-length skirts, loose fitting blouses, and platform shoes. I find this style to be much more becoming on girls and women of all ages.

I think the denim look, including pre-washed jeans and jackets, will be popular on the Tech campus this Fall. Colorful scarves, in combination with the "big-look" dress and wide belt should also be a favorite.

Grand Opening Thursday, August 28th at 10:00 a.m. Fashion Show at 7:00 p.m. In the Rag Doll parking lot. Register for six \$25 gift certificates awarded on the spot. Shop after the show 'till 10:00 p.m.

The Blazer Suit has never looked so good!

A big part of any girl's wardrobe! Fully lined 2-button blazer in blue polyester twillgab, \$40, with matching pants, \$25. College-Town adds their tri-color short sleeve acrylic sweater in blue, rose, natural stripe, \$13.

HOWARD COUNTY COURTHOUSE ONE OF SYMBOLS OF GOVERNMENT Panel finds rising costs big problem, education leading the way

Government's Rising Cost One Of Problem Areas

(This is another in a series of digests on essays submitted by eight sub-panels on the Goals for Big Spring project. All citizens are urged next week to give their ideas — Ed.)

By TROY BRYANT
The rising cost of government, especially the schools, was one of the major problems facing Big Spring, according to the government sub-committee of Goals for Big Spring in its report to the planning conventions.

The study shows that government costs at all levels have risen sharply in the last decade and that these increases have been mandated to a considerable degree by state and federal laws on busing, minimum wages and by the effects of inflation.

The sub-committee found that property taxes have been increased to help meet the rising costs.

BIGGEST BITE
The Big Spring School District was found to take the biggest bite from the property owner and is more costly to the tax payer than schools in Snyder, Midland or Odessa. The reason was readily apparent, according to the report, because those schools mentioned encompass almost their entire counties and all the valuable oil production property while Big Spring shares the oil production property with Coahoma, Forsan, Sands, Borden and Stanton School Districts.

Further investigation revealed that only five of the ten largest taxpayers in Howard County contribute anything to Big Spring ISD.

One way to alleviate the problem would be to establish a countywide school district, but state legislation would be required to induce the small districts to relinquish their favored position, the panel concluded.

DUPLICATIONS

The sub-committee observed that statistics say that the sharing of certain costs of services by different governments could save as much as five per cent of collected taxes.

Cooperation is already being tested through joint hiring of tax appraisers.

The report suggested that cooperation might be extended to include law enforcement, fire fighting,

data processing, tax administration, street construction and maintenance.

An alternative of cooperation is the consolidation of city and county governments, with enabling acts of the Legislature.

The opinions of the people on this and other issues will be heard at the five planning conventions slated for next Monday, Tuesday and Thursday.

Meetings will be held at 7:30 p.m. each night with Washington and Lakeview Schools hosting the con-

Over 100 Register

More than 100 persons are enrolled in courses offered by Sul Ross University at the Webb AFB Education Center. Regular registration was Tuesday evening, but others may register until noon Sept. 5 at the education office, Building 603 Webb AFB.

Classes will begin Sept. 1, hence registration prior to that time is urged by Virginia Smith, Sul Ross coordinator, if possible.

Of the undergraduate offerings, Ed 3309 (early childhood education) and Ed 4310 (social studies in the grades) need additional students to assure that they will be offered. Likewise, graduate courses Ed. 7306 (administrative strategies) and Ed 5318 (personnel problems) need additional students.

All work completed through the classes which are held from 6:30 p.m. to 9:30 p.m., count as though taken on campus.

Trapped Turtle

FORT WORTH, Tex. (AP)—A tale of a trapped turtle that triumphed emerged from an East Fort Worth construction site Wednesday.

A builder and his employees freed a small green four-ounce turtle from beneath a 30-pound hunk of concrete under which the terrapin had been trapped for possibly a year.

Barnert Promoted

AUSTIN, Tex. (AP)—Doug Barnert, who was the State Insurance Board's chief liaison with this year's legislature, has been named the new assistant deputy commissioner of insurance.

He is a former campaign worker for board chairman Joe Christie.

Barnert, 32, has been administrative assistant to the board. Barnert is a native of Buffalo, N.Y., and a graduate of Columbia College in New York City.

I'm Super Fortunate, Says Astro

SPACE CENTER, Houston (AP) — Astronaut Donald Slayton, scheduled for surgery to see if a lesion on his left lung is cancerous, says "on balance, I'm super fortunate the way it worked out."

"I've got a problem but we know what to do about it," Slayton told a news conference Wednesday. A flight surgeon for the National Aeronautics and Space Agency, Dr. Arnold Nicogossian, said the dark spot — about the size of a pencil eraser — was found only because Slayton and two other astronauts were given close medical care after inhaling toxic fumes while landing during the Apollo-Soyuz space mission.

(AP WIREPHOTO)

CREEPING PROBLEM IN CHICAGO — It is not a giant spider crawling across the Wrigley Building in Chicago, but a normal sized spider outside a window facing the Chicago landmark. High-rise buildings near the lake in Chicago have been infested with spiders. Usually the spiders are on the outside of the buildings, but some have been getting into the buildings. Etomologists have not been able to solve the problem.

Kennedy Evidence Vanishes

LOS ANGELES (AP) — Several pieces of evidence in the investigation of the assassination of Sen. Robert F. Kennedy have disappeared and may have been destroyed, a city official has disclosed.

Dion Morrow, special counsel in the city attorney's office, said Wednesday that the missing evidence included the left sleeve of Kennedy's coat and bullet-riddled ceiling panels from the Ambassador Hotel pantry where he was fatally shot in 1968.

"There were no X rays made of the ceiling panels and the panels were destroyed in June of 1969. There was no place to keep them — you can't fit ceiling panels into a card file," Morrow said in an interview.

"The left sleeve of the senator's coat disappeared before the trial. But there was no significance to the sleeve — Kennedy's shirt is in the possession of the court, and there are no bullet holes in the left sleeve."

Those demanding a reopening of the assassination investigation contend the ceiling panels are of crucial importance in determining the trajectory and number of bullets fired in the Kennedy shooting.

Morrow said the decision to destroy the panels was made by police because the material had never been entered into evidence in the trial of the convicted assassin, Sirhan B. Sirhan.

Police Will Not Walk Off Jobs

IRVING, Tex. (AP) — Police here have halted plans to walk off their jobs at Texas Stadium after police officials issued an order

making stadium work mandatory. The walk-off was to have been in protest of the city's refusal to supply more men to the department.

Police Sgt. Travis Hall, president of the Irving Police Association, noted that there was a 34.5 per cent

increase in crime here in the first quarter of 1975. He said no new officers have been added to the force since Oct. 1, 1973.

IF REVENUE-SHARING 'KILLED' Local Governments In Texas Will Have To Increase Taxes

AUSTIN (AP) — Failure of Congress to renew the federal revenue sharing program, which expires Dec. 31, 1976, would impose substantial local tax increases in Texas, a state agency report concluded Wednesday.

A bill to extend the program is now at the congressional committee stage.

In fiscal 1974, cities received \$122.5 million, counties \$67.9 million and the

state \$95.2 million from revenue sharing, according to the report by the Texas Advisory Commission on Intergovernmental Relations.

The program began in the 1972 fiscal year with a massive infusion of what amounted to "new" money for virtually any state or local government purpose.

Revenue sharing provided cities in that year with almost twice as much additional money as their average annual tax revenue increases would have provided, the report said.

But, it said, the additional spending that revenue sharing enabled the cities and counties to do has become a standard part of their budgets.

"The impact of revenue sharing as 'new' money occurs only once, of course ..."

"The important point to consider is that if revenue sharing is not extended beyond its current expiration date of December 1976, the revenue lost from this source would be substantial. If city and county governments should desire to maintain the same expenditure levels without revenue sharing support, then a substantial tax increase by many of these local governments would probably be necessary," the report said.

At the state level, tax increases were avoided by revenue sharing, but that source was a much smaller percentage of total ex-

penditures, representing about \$170 million of the \$1.2 billion 1976-77 budget.

The legislature was able to spend only guaranteed sharing money through Dec. 31, 1976. That means, the report said, that the 1977 session might be able to spend a 2½-year allocation if the program is renewed.

When revenue sharing first became available, state officials said they hoped it could be spent on single shot items.

SNACKS CAN BE SMACKING GOOD..

"Where do those children get all that energy?"

Children at play never cease to amaze grown-ups. The constant activity so typical in young people is fueled by the foods they eat — at mealtime or as snacks.

Whether after school, Saturday's big game, or while awaiting the holiday meal, snacks are a must for most youngsters and the entire family. Snacking has become so popular with many people that 3-square meals are often replaced by 4 or 5 mini meals. The growing prevalence of this lifestyle means that more emphasis should be placed on choosing nutritious snacks. Looking to snacks for nutrition might be a new way of thinking for some people. You can enjoy a treat once in a while, but not at the expense of getting your daily requirements of needed nutrients. Snacks should carry their weight in food value.

A good nutritious way to satisfy a child's desire for something sweet is with a bowl of presweetened cereal and milk. Children like it, and it contains important nutrients.

Manufacturers add selected key vitamins to all presweetened cereals; read the labels for the specific nutritional content of your favorite. Also, while sugar is consumed in many foods and snacks during the day, it is rarely accompanied with the substantial level of nutrients provided by these fortified cereals.

These are the nutrition facts shown on the label of the most widely consumed presweetened cereal:

NUTRITION INFORMATION PER SERVING	
SERVING SIZE	ONE OUNCE (3/4 CUP)
SERVINGS PER CONTAINER 10	
(Brand name of the cereal)	
	1 oz. with 1/2 cup vitamin D whole milk
CALORIES	110
PROTEIN	1 gm 6 gm
CARBOHYDRATES	25 gm 31 gm
FAT	0 gm 5 gm
PERCENTAGE OF U.S. RECOMMENDED DAILY ALLOWANCE (U.S. RDA)	
PROTEIN	2% 10%
VITAMIN A	25% 25%
VITAMIN C	25% 25%
THIAMINE	25% 25%
RIBOFLAVIN	25% 35%
NIACIN	25% 25%
CALCIUM	10% 15%
IRON	10% 10%
VITAMIN D	10% 25%
VITAMIN B ₆	25% 25%
FOLIC ACID	25% 25%
PHOSPHORUS	4% 10%
MAGNESIUM	4%

*Contains less than 2 percent of the U.S. RDA of these nutrients.

This cereal-and-milk snack provides 25% or more of the recommended daily amount (U.S. RDA) of 8 vitamins and 10% or more of the U.S. RDA of protein, calcium, phosphorus and iron:

Nutritious Whole Wheat, Oatmeal & High Protein Cereal Snacks

Children like foods that are easy to eat with a spoon or in-hand, are served in small size portions, are mildly seasoned, look attractive and are colorful. Most moms prefer snacks that are quick to prepare on a moment's notice or are simple enough for the children to make themselves. In today's world, they also must be economical. The following snack recipes have low cost in mind. They omit expensive ingredients yet are nutritious foods that are fun to eat.

BAKED WHOLE WHEAT CINNAMON DOUGHNUTS

Doughnuts
 3-1/3 cups flour
 1/3 cup granulated sugar
 3 teaspoons baking powder
 1 teaspoon salt
 3/4 cup (packed) light brown sugar
 1/2 cup instant hot whole wheat cereal, uncooked

2/3 cup shortening, melted and cooled
 3 eggs, beaten
 1/4 cup milk
 2 teaspoons vanilla
Cinnamon Sugar Coating
 2/3 cup granulated sugar
 1/2 to 3/4 teaspoon cinnamon
 1/3 cup margarine, melted

Prepare doughnuts. Sift together flour, granulated sugar, baking powder and salt in mixing bowl. Stir in brown sugar and cereal. Add shortening, eggs, milk and vanilla; stir until moistened. Press down into a ball and roll out on lightly floured board to 1/2 inch thickness. Cut with floured doughnut cutter. Place on greased baking sheet 1 inch apart. Bake in 400°F oven until lightly browned, 12 to 15 minutes. Meanwhile, combine sugar and cinnamon. Brush warm doughnuts with margarine and roll in cinnamon sugar. If desired, unbaked doughnuts may be covered and chilled in refrigerator 1-1/2 hours or overnight and then baked. Or unsugared baked doughnuts may be frozen. To heat, brush with melted butter or margarine and arrange in heavy skillet and cover. Place over very low heat to warm, 12 to 15 minutes. Then brush with melted margarine and roll in cinnamon sugar. Yield: 20 to 22 doughnuts.

Cabbage With Dates, Honey

A sweet salad from "The Cabbage Cookbook" by Ann L. Haslinger (Arco).

MEDITERRANEAN SLAW
 4 cups shredded cabbage
 1/2 cup chopped dates
 1/2 cup mayonnaise
 1 tbs. prepared mustard
 1/4 cup honey
 1/4 cup sour cream

Mix cabbage with dates. Blend remaining ingredients well. Toss with the cabbage and allow to blend well for an hour or more. Serves 6.

BIG SPRING HERALD

SECTION B BIG SPRING, TEXAS, THURSDAY, AUGUST 21, 1975 SECTION B

SNACKS CAN SUPPLY QUICK ENERGY. They should also provide a substantial quantity of nutrients in addition to needed calories. We've combined the low cost and good nutrition of several cereals — whole wheat, oatmeal and protein-fortified — with other foods and created snacks any kid would like — from 5 to 85.

BRAN FLAKE MINCEMENT COOKIES

2 cups flour
 1/2 teaspoon baking soda
 1/2 teaspoon salt
 1/2 cup shortening or margarine
 1 cup sugar
 2 eggs
 1 package (9 ounce) condensed mincemeat, finely crumbled
 1/4 cup milk
 2 cups 40% bran flakes

Sift together flour, soda and salt. Cream shortening, sugar and eggs until light and fluffy. Beat in mincemeat. Add dry ingredients and milk alternately, mixing well. Stir in flakes. Drop by tablespoonfuls onto lightly greased baking sheets. Bake in 350°F oven until lightly browned, about 12 minutes. Yield: About 5 dozen cookies.

CEREAL BALLS

1 cup creamy or chunky style peanut butter
 3/4 cup honey
 2 cups non-fat dry milk
 1 to 1-1/4 cups 40% bran flakes

Combine peanut butter and honey; mix well. Add dry milk gradually and mix well. Shape mixture, 1 tablespoonful at a time, into a ball and roll in bran flakes. Repeat process until all peanut butter mixture is used. Arrange on tray; cover and refrigerate. Yield: About 3 dozen.

MOLASSES OAT BREAD

1/2 cup margarine
 1/4 cup (packed) light brown sugar
 1/4 cup light molasses
 2 teaspoons salt
 1 cup milk, scalded
 2 1/4-oz. pkgs. active dry yeast
 1/2 cup warm water (105-115°F.)
 2 eggs, beaten
 5 to 5-1/2 cups flour
 2 cups uncooked rolled oats, regular or quick
 Water
 Additional rolled oats

Combine margarine, brown sugar, molasses and salt in large mixing bowl. Add milk; stir until margarine is melted. Cool to lukewarm. Soften yeast in warm water. Add to milk mixture. Stir in eggs, 2 cups flour and rolled oats. Add flour as needed to make soft dough. Turn out onto lightly floured board; knead until smooth and elastic. Place in greased bowl; turn once to grease top. Cover and let rise in draft-free place until double in size. Punch down; let rest 10 minutes. Divide into 2 equal portions. Shape each into a loaf 9 inches long. Brush each loaf with water and roll in additional rolled oats. Place in greased 9x5x3-inch loaf pan. Let rise in warm area until double in size. Bake in 350°F oven about 50 minutes. Yield: 2 loaves.

FRUIT GELATIN and CEREAL SNACK

4 cups high protein cereal
 2 cups chilled fruit flavored gelatin cubes

Combine 1 cup cereal with 1/2 cup gelatin cubes in each serving dish, spooning a small amount of cereal and gelatin into dish at a time. Serve with spiced milk. Yield: 4 servings.

SPICED MILK

3 cups milk
 1/4 cup sugar
 1 teaspoon nutmeg
 1/2 teaspoon cinnamon
 1/2 teaspoon vanilla, optional

Combine ingredients; beat with rotary beater or whiz in the blender until well mixed. Stir just before pouring over cereal. Yield: About 3 cups, enough for 4 to 6 cereal servings.

GOVERNMENT TAKING OVER MORE AND MORE PRIVATE ENTERPRISES

Mexico Joining Socialist Camp?

By ALFONSO CHARDY
Associated Press Writer

MEXICO CITY (AP) — The Mexican government is taking over more and more private enterprises, raising claims among businessmen and opposition politicians that the country is heading full tilt into socialism.

A spokesman for the government denies this, contending that what it is doing is guiding economic development in a nation that still has a large population of poor.

The government says that the state operated 258 enterprises in 1974, but some leading Mexican businessmen say the state already owns or may have some participation in more than 1,000 companies valued at over \$5 billion which were formerly in private hands.

The government controls such basic industries as oil, electricity, mining, railroads, agriculture and petrochemicals. It also runs hotels, night clubs, bicycle factories and taco stands.

Because of this, some businessmen and opposition politicians think this country may be gradually joining the Socialist camp through what they called a creeping state takeover of free enterprise.

"I think we are heading to absolute state control of private enterprise," said leading industrialist Alberto Santos de Hoyos, a member of the so-called "Monterrey Group" of conservative businessmen.

Monterrey is Mexico's third largest city and its industrial hub 150 miles south of Laredo, Tex. Santos de Hoyos was supported in his views by auto executive Armando Fernandez, who is also president of the Mexican Employers Confederation, and Jorge Sanchez Mejorado, an industrialist and president of the National Chambers of Industry Confederation.

Leaders of the National Action party, the largest Mexican opposition body, also have voiced support for the business attitude.

Labor leaders estimate there are five million unemployed Mexicans, about 25 per cent of the work force compared to a U.S. unemployment rate of 8.4 per cent in July. The country has a population growth of 3.5 per cent annually, one of the largest in the world. Of

the 58 million Mexicans, an estimated 60 per cent live at subsistence levels. The per capita income is \$600 a year in contrast to about \$4,700 in the United States.

The government says it is not against foreign or private investment so long as it contributes to the country's development.

"Mexico is not heading toward socialism," commented Fausto Zapata, press spokesman for President Luis Echeverria and deputy minister of the presidency. "The state ... guides economic development."

Zapata said the government is trying to "modernize Mexican society" through what he termed new ways of ruling. He added that this has "surprised" private enterprise.

Foreign investment is estimated at \$3 billion, of which at least \$2 billion is American property. Most of

the rest comes from Japan and West Germany.

In the last few years, however, many foreign companies have been "Mexicanized," a process through which the government demands minority foreign ownership, usually on a 49-51 per cent basis.

Al Wichrich, executive vice president of the American Chamber of Commerce of Mexico, says there is no indication of a flight of foreign capital from Mexico although he conceded that private foreign investment has declined.

Private foreign investment remained at a steady \$200 million a year from the United States in the past five years, down from an estimated \$500 million a year in the 10 years before that, Wichrich said.

He said American capital here represents 5 per cent of all private and public

investment and 11 per cent of private investment.

The government has said it welcomes foreign investment so long as it is associated with Mexican capital to further development.

Some businessmen say the government may raise taxes to make private companies unprofitable and force the sale of companies to the government in the future.

Companies already have to pay a 5 per cent payroll tax for workers' housing and 3 per cent tax for rural education and are forced into compulsory annual profit-sharing with employees.

Government control of the Mexican economy started at the turn of the century when dictator Porfirio Diaz nationalized railroads and a coal firm.

The gradual control began in earnest during the Socialist regime of the late President Lazaro Cardenas

who nationalized U.S. and British oil companies in 1938.

A private study showed that a total of 34 companies were either purchased or established by the government in the 1940s.

The number of government companies declined between the late 1940s and the late 1950s during the term of pro-free enterprise presidents Miguel Aleman and Adolfo Ruiz Cortines.

But under the regime of liberal leftist Adolfo Lopez Mateos in the early 1960s, the government started taking over more companies, 52 in 1960 alone.

The government-backed Bank of Mexico says a sign of political and economic stability is the fact that U.S. residents have deposited more than \$1 billion in Mexican banks in the past two years. The bank said the reason was high deposit interest rates paid by Mexican banks.

A typical case of government takeover was the recent purchase of the Empresas Longoria, a consortium of banks, savings and loan associations, cotton and wheat mills, vegetable oil factories and pasta plants valued by the government at \$96 million.

The government said the property came under state control because the owner was deeply in debt and behind in his taxes. The owner, 70-year-old Octaviano Longoria, claimed the government confiscated his property and that he paid his debts. He said the value of the seized enterprises was several times the government's estimate of \$96 million.

All major banks are private but regulated strictly by the government in terms of interest rates and credit lines. The government, however, directly controls 46 banks, some formed by the

government itself to provide credit to peasant farmers and others acquired from private owners who are said to be in debt.

Some pro-government labor unions have demanded state control of banks. Although some businessmen believe this will be the government's next step in controlling the economy, Finance Minister Jose Lopez Portillo has denied it.

The government also controls newspaper distribution, the largest newspaper chain and the main national news agency. The major radio and television stations are private but are forced to give up 12 per cent of their air time a day to government broadcasts.

Western diplomats are at odds in their opinions on what Mexico will do about foreign concerns. Some say that if Mexico nationalizes foreign businesses, it will

frighten away badly needed foreign capital for development projects.

Others say that modern Mexico, with its roots in a constitution of more than 50 years ago that was perhaps the most leftist document up to Russia's Bolshevik revolution, has started something it cannot stop.

The last major nationalization of a foreign business occurred early in the Echeverria administration when the government took control of a leaf tobacco firm owned by the London-based British-American Tobacco Co.

Now the Mexican Workers Confederation, the largest pro-government labor union in the country, has demanded government expropriation of the food processing and pharmaceutical industries, mostly in the hands of American and West German investors.

\$500,000 Tanker Suit

GALVESTON, Tex. (AP) — Chevron Oil Co. has filed a \$500,000 damage suit to recover what it said were losses incurred last Friday when an oil tanker hit an offshore drilling platform.

Named defendants in the federal court suit, filed Tuesday, were Exxon Corp., the tanker Globtik Sun, Globtik Tankers Ltd., and Standard Tanker Co. Ltd. of the Bahamas.

Chevron, in the suit, said its platform under construction off the Louisiana coast "was damaged through the unseaworthiness of the Globtik Sun and the negligence of those in charge of her."

It said damages "cannot be stated but probably are in excess of the sum of \$500,000."

The tanker was carrying 14 million gallons of crude oil for Exxon, en route from the Bahamas to Houston, when the collision occurred.

Most of the 46-man crew abandoned ship when she caught fire. Forty were rescued and three bodies were found on board. Three crewmen remain missing.

Secretaries Out On Strike

PORT ARTHUR, Tex. (AP) — Four secretaries who set up a picket line in front of the union hall of Local 4-23 of the United Chemical, Oil and Atomic Workers Union (OCAW) are seeking a new contract from their employers—the OCAW local.

The secretaries, members of the Office and Professional Employees International Union, have been working on a day-to-day extension of their contract since it expired Jan. 7, an OCAW spokesman said. The OCAW people will not cross the picket line, he added.

Dystrophy Week Set For MD Appeals

Mayor Wade Choate has proclaimed the weekend of Aug. 31-Sept. 1 as Muscular

Dystrophy Weekend in conjunction with the national telethon conducted by Jerry Lewis. Choate said he encourages the citizens of Big Spring to make a sincere effort to ensure the continued success of this effort. KMMO-TV will carry the national telethon live and donations may be made through their facilities.

Nineteen Student Nurses To Receive Caps Friday

Chaplain Theodore Chumley of Webb AFB will address the graduating class of Vocational Nurses at the capping ceremony for 19 Vocational Nurses at Howard College Friday, 7:30 p.m.

The rites will be performed at 7:30 p.m. on the college auditorium. Johnnie Amos, RN, and Ramona Harris, RN, will present caps to the student nurses, and Mrs. Roy Hester, representing the auxiliary of the local Gideon encampment, will present Bibles.

Taking of the Florence Nightingale pledge will be one of the highlights. Jean Cantrell will play the professional, and Dr. Larry Key will introduce Chaplain Chumley. Student nurses in the class are: Sherri Bertran, Katy Bohannon, Bobbie Buckley, Cindy Bynum, Linda Gaydos, Pearl Green, Stormy Hale, Matilda Irvin, Troy Jones, Robyn Lewis, Becky Mills, Paul Payne, Colleen Silver, David

Amarillo Man Finds Diamond

MURFREESBORO, Ark. (AP) — W.W. Johnson of Amarillo, Tex., found a 16-carat, clear white diamond at Crater of Diamonds State Park Wednesday — the largest in the park's history, according to officials.

A spokesman for the state Parks and Tourism Department said the diamond was somewhat larger than the Star of Arkansas which is valued at between \$80,000 and \$100,000. He did not know the exact value of the diamond Johnson found.

The Star of Arkansas was found by a Dallas housewife about 10 years ago, before the state took over operation of the park.

Two Suspected Bandits Nabbed

POTEAU, Okla. (AP) — Authorities said charges would be filed today against two men captured in Arkansas Wednesday in connection with the robbery of \$3,600 and 16 guns from a Poteau, Okla., couple.

Donald Ray Sanders, 30, of Monroe, Okla., and Tommy Hutson, 23, of the Huntington, Ark., area were returned here after their capture by Scott County sheriff's officers.

The incident began Wednesday night about 9 p.m. when two men robbed and bound Charles Lyons, a druggist, and his wife. Assistant Poteau Police Chief Bob Caro said the two men took the cash, guns and the couple's auto and fled into Arkansas.

At 2 a.m. Wednesday, an Arkansas officer recovered the car near Waldron. The officer had just turned his car around to begin chasing the two men when they drove their auto into a long driveway ending at a barn.

The pair abandoned the car at the barn and eluded officers until they were nabbed about five miles away at 12:30 p.m.

School Financing Under Bill Is 'New Ball Game'

HB 1126, called a "compromise of a compromise, ad infinitum," has confronted Texas school administration with a "new ball game," assistant Supt. Lynne Hise said in a talk to Downtown Lions Wednesday noon at the Settles.

The many facets of this patched-up legislation, he said, are still being uncovered. One effect is to do away with teacher units (based on one for each 25 average daily attendance). In its place is the Personnel Unit (PU) based on 1-19 (but excepting special education and other categories) so that the effect is about the same. Units are pinned on a sliding scale from half a unit for aides to two for superintendents. The Big Spring district has 266 PU.

Nearly all personnel now is classified under state standards which take into account experience and training, plus tenure, and

state-based pay scales are spelled out. Vocational and special education now are funded separately from other programs, he reported.

Estimates now must be based on current ADA, not the previous year, and this creates critical problems, he said. State Revenue to the district will be \$4,270,052 for the next school year, up from the current \$3,684,213. However, most of this difference is wiped out by the \$1,400 state mandated teacher salary increase (\$372,000 for the BSISD), and comparable adjustments on other salaries, etc. When inflation is taken into account, the margin has evaporated, he noted.

On another front, the state set "fair market value" for local fund assignments. But the state blacksmithed its establishment of the "fair market value" by taking present assessed values and adding 20 per cent, plus

small factors. Consequently, districts which have been making a substantial local effort, as is the case here, were penalized in comparison to rich districts which have unreasonably low values. Although the assignment for this district now is \$798,000, the state boost of local values means that it costs the district about 22 per cent more.

Enrollment through the first three days of school is about the same as last year, he reported — a total of 6,193 as compared to 6,197 in 1974.

SEPTIC TANK-CESSPOOL CLOGGING CAN NOW BE PREVENTED!

FAIRFIELD, N. J. — An amazing bacterial discovery that prevents clogging of septic tanks and cesspools with a single, safe, easy-to-use yearly treatment, has been developed by FX-Lab, Fairfield, N. J. and is now available locally.

Available also is a free booklet, "The Story of Willie Bacteria, or How To Take Care of Your Septic Tank or Cesspool," from:

(AP WIREPHOTO) **PRIEST SLAIN** — Father William F. O'Neal, rector of an Episcopal church at Columbia, S.C., was found beaten and stabbed to death. Police have charged his widow with murder.

Bullets Shatter Window Of Car Owned By Judge

SAN DIEGO, Tex. (AP) — Someone has fired several shots, possibly with a high velocity rifle, through the right front window of a car belonging to suspended District Judge O.H. Carrillo.

Authorities were investigating the incident today. It apparently occurred late Tuesday night. The bullets, of an undetermined caliber, shattered the window. Investigators found some slugs and fragments in the dashboard and destroying system of the 1974 Cadillac. Sheriff Raul Serna said Carrillo notified him Wednesday morning about the gunfire, which took place in Carrillo's driveway at his Benavides home. No one was in the car at the time.

Elect Dr. Moak As Moderator

SAN ANTONIO, Tex. (AP) — The general assembly of the Christian Church in Kentucky has elected a moderator of the church. More than 8,000 delegates selected Dr. James A. Moak of Lexington to the two-year post.

The vote came during the beginning of a morning business session of the General Assembly of the Christian Church (Disciples of Christ).

Dr. James K. Hempstead of Dallas will serve the denomination as first vice moderator.

Susan Ford, Pals Rafting

VAIL, Colo. (AP) — Susan Ford and a party of friends were aboard rafts today on a trip on the Colorado River.

The President's daughter, 18, and her boyfriend, Brian McCartney, 26, a Vail ski patrolman, were in the group that left early Tuesday on a two-day down-river excursion.

Humphreys Stop Show

MINNEAPOLIS, Minn. (AP) — Sen. Hubert H. Humphrey and his wife, Muriel, attended a concert by Helen Reddy at Orchestra Hall and stopped the show. Midway through her Wednesday night performance, the singer stopped and acknowledged Humphrey's presence. She told the audience that the Mimesotan was her choice for the Democratic nomination for president in 1976.

FORCING U.S. INDUSTRY TO THINK SMALL

Shrinking Families Rekindle Table Stakes

By LOUISE COOK
AP Television Writer

The shrinking American family is forcing U.S. industry to "think small" to survive.

The Census Bureau reports that the size of the average U.S. household dipped below three persons in 1974 for the first time in history — the exact figure is 2.97 persons — and the trend toward small families is expected to continue.

Why?
—Women of child-bearing age claim they want smaller families. "When married women today are asked how many children they expect to have in their lifetime, those under 25 years old say they believe they will have just enough for zero population growth," the Census Bureau says.

—People are living longer and the elderly aren't moving in with their children. They keep their own homes or apartments.

—Young people are moving away from home after graduation from college. The child who used to stay home until marriage is leaving the nest earlier.

These people will still need the goods and services produced by industry. But they will need them in a different shape.

Smaller households mean smaller houses. Smaller automobiles. Smaller appliances. Different types of entertainment and amusement.

Some of the changes are apparent already, caused in part, by the pressure of recession. Rising gasoline prices and shrinking budgets have prompted Detroit to put new emphasis on the small car. "No-frills" houses provide a bright spot in an otherwise gloomy construction picture.

Investment counselor Jesse Siff says industry is going to have to change its thinking even further or get left behind.

Business and government spokesmen tend to discount reports of entire industries going out of business because of disappearing markets, particularly in the area of products designed for babies and children.

"There will be every bit as many infants, but they will be spread out over more households," said Herbert Zeltner, senior vice president of Kenyon & Eckhardt, Inc., a New York-based advertising agency.

The government has been studying changing buying habits in connection with its revision of the Consumer Price Index. The final index isn't due out until 1977, but a spokesman for the Bureau of Labor Statistics said preliminary findings indicate "people are buying the same things they always did, but in different proportions. It's a gradual change."

Here is a look at what that gradual change might mean to some key industries:

HOUSING
Most of the experts agree that houses will get smaller for several reasons. Building and land costs have skyrocketed. More women entering the work force have neither the time nor the desire to take care of a large house. Smaller families need less space.

Zeltner said the living space of the future may be the cluster home, with a group of individually owned houses sharing common walls and some appliances in an extension of the current townhouse facility. "Why should each family have the expense of a complete kitchen and laundry unit?" Zeltner said, suggesting instead that homes of the future might have small kitchen appliances, washers and dryers and share large ovens and cleaning facilities.

Siff said there will be an increasing use of new materials and new techniques — some of them adapted from research being done in connection with the space program to determine the effects of living at very close quarters.

Siff and others said they believed that the size of the average single-family home has peaked and will start to decline, but the American Homebuilders Association wasn't so sure.

Association economist Bob Sheehan said he believed the demand for the three-bedroom and larger home would continue. "Additional space is not all that expensive," he said. He said the people born in the postwar baby boom are just reaching their 30s. "They're getting married. They're having children."

AUTOMOBILES
Economists inside and outside the auto industry agree that the small car is here to stay. They are less certain about the fate of the large car.

Siff predicted that in 20 years, very large cars "will

be an anachronism, maybe even a collector's item." Norm Crandall, market research director of Ford Motor Co., said he believed large cars were here to stay. But he said that the cars would become "more fuel efficient and what we call more passenger efficient" by providing more interior space while cutting overall dimensions, a trend already apparent in some 1975 models.

While the smaller household will mean "the need for hauling bodies is reduced," rising incomes, due in part to more working wives and fewer family members to support, will increase the ability to pay, Crandall added.

Rising food prices, the growing consumer movement and demands for natural ingredients already have put a dent in the convenience food industry. Zeltner said he believes there will be even more changes.

Until 1973, he said, there was a trend toward "hyper-convenience," the fancier and more expensive the better. The recession changed all that, he said, "and my guess is that long

after the recession passes, the resistance will be built in. People won't spend huge amounts of money in return for a marginal increase in appeal." He said smaller households will require

smaller packages. "We need to develop a more flexible control of unitizing (enabling people to use enough of a product for one meal and save the rest) without overdoing package expense."

Attorney Free After Jail Time

RALEIGH, N.C. (AP) — Attorney Jerry Paul, who successfully defended Joan Little against murder charges and is appealing a contempt of court citation, is free after five days in the Wake County Jail.

Miss Little was there to greet Paul when he left jail Wednesday on an order from the North Carolina Court of Appeals, which is expected to hear the appeal about Oct. 24.

Last Friday, moments after the jury acquitted Miss Little, Paul was ordered jailed for 14 days by trial judge Hamilton Hobgood.

UNCONCERNED ABOUT PLAGUE — A Big Spring State Park prairie dog appears unworried by reports of bubonic plague which killed towns of the rodents northwest of Lubbock. A spokesman at the local park said prairie dogs here seem to be healthy.

Plague Germs Said To Pose No Human Threat

The Black Death, which wiped out human populations in the Middle Ages, has killed prairie dog towns in the Muleshoe National Wildlife Refuge northwest of Lubbock.

But the animals living in the Big Spring State Park are reported healthy. At the Muleshoe Refuge, bubonic plague has killed several thousand prairie dogs. The prairie dog town area is not to be reopened to the public until late this summer or early this fall.

"No self-respecting flea is going to come out into the sunshine," Blair said. "He's going to stay in the hole until a prairie dog or another rodent comes along."

SMU Prexy Pick Looms

DALLAS (AP) — Southern Methodist University (SMU) trustees have been asked to approve Dr. James H. Zumberge as president of the school. They will meet Sept. 5 to act on the recommendation of a committee that selected Zumberge.

Zumberge, 52, has been chancellor of the University of Nebraska since 1971. He was recommended Wednesday to fill the SMU post assumed by Chancellor Willis Tate a year ago when Dr. Paul Hardin resigned as president.

A geologist who has done research in polar regions, Zumberge was named to the National Science Board of the National Science Foundation by President Ford in 1974. He serves on the board's executive committee.

"I am pleased to have my name presented because I believe this will be an unusual opportunity to become involved in the further development of one of the Southwest's respected institutions," Zumberge said.

Cobra Back Inside Box

CORPUS CHRISTI, Tex. (AP) — A yellow spitting cobra, whose venom can blind or kill a victim, was found near the store from which a group of young boys took it, authorities said.

The snake, inside a transparent box, was taken from Tone Pecore's car in front of an aquarium store here Wednesday. She handles snakes for sale to retailers.

The store owner said the snake is one of the deadliest in the world. It can spit venom as far as 15 feet which could cause blindness if the eyes are touched. The snake's bite causes shock within 15 seconds, and the victim would die in about one minute, she said.

Series Of Shots Is Continuing

Little Michelle (Missy) Houghton, daughter of Mr. and Mrs. Roy Houghton, 3312 Drexel, was taking her third anti-rabies inoculation here today in a series of 21.

She was bitten by a cat while playing in the side yard at her home, according to her mother.

City officials were faced with the problem of capturing or destroying close to 35 cats in the neighborhood.

The cat that bit "Missy" died five days after the animal warden took it into the shelter to be watched and was in such bad condition at the time of death that the veterinarian said it could not be determined whether the cat had rabies. The shots are precautionary.

Hot, Sticky Weather

By the Associated Press
Hot, sticky weather enveloped Texas today, and it was expected to stay that way.

Skies were mostly clear although a few showers fell in early morning around Galveston on the coast and Greenville in North Texas. There also were occasional clouds in extreme West Texas and South Central Texas and over the coastal plains.

Scattered thunderstorms brought a little rain during the night around El Paso on the west tip of the state and in the northeast corner, but amounts were small. El Paso's .08 inch was the largest.

Temperatures soared again Wednesday, going as high as 100 degrees at Mineral Wells in North Central Texas. Readings near dawn ranged from 79 at Palacios on the coast and Waco in the middle of the state down to 68 at Midland-Odessa in the west.

Forecasts held out prospects for continuing heat and mostly clear skies except for scattered thundershowers developing again near the coast and in far West Texas.

Asking Meany For 'Advice' On Planting

OKLAHOMA CITY (AP) — Oklahoma Farm Bureau leaders said Wednesday they were sending AFL-CIO President George Meany a letter asking for "advice" on planning next year's wheat crop.

"It's almost time to sow next year's wheat crop in Oklahoma," Ken McFall, Farm Bureau executive secretary, said in the letter. "Before we know how much wheat to plant, we need to know how much grain you (Meany) are going to let other countries buy next year."

"There's no reason to wear out farm machinery to produce surplus grain you do not intend to let us export," McFall said.

The letter was drafted in the wake of longshoremen's refusal in Houston to load wheat shipments bound for the Soviet Union. The move was supported by Meany, who says he fears more wheat sales to the Soviet Union may hit consumers in the pocketbook.
