

# Pay Hike For Federal Employees 'Hot' Issue

WASHINGTON (AP) — One question before Congress members on their return today from a month's recess is whether they and other federal employees should get pay raises costing the taxpayers \$2 billion or \$3.5 billion.

President Ford urged last week that the salary increase be held to 5 per cent, instead of the 8.66 per cent his advisers said would make federal pay scales comparable with those in private industry.

If either the Senate or the House votes against his recommendation, the government's white collar employees and military personnel will receive the 8.66 per cent increase beginning next month.

This mechanism for annual adjustment of federal pay scales, in effect since

passage of the Pay Comparability Act in 1969, now has a new twist that gives Senate and House members a personal stake in it.

Just before recessing Aug. 1, Congress whisked through a bill putting the salaries of its own members and those of Cabinet officers, federal judges and other high-level government officials under this procedure for the first time.

None of these top officials has had a salary increase since 1969, but now they will get the same raises as the 3.4 million lower-ranking federal employees and members of the armed services.

For Congress members, acceptance of Ford's 5 per cent proposal would mean an increase of \$2,125 in their present salaries of \$42,500 a year. An increase of 8.66 per cent would give them a pay

boost of \$3,680.

Last year Ford tried to defer a 5.5 per cent civilian and military pay raise from Oct. 1 until January, but the Senate overwhelmingly rejected the delay.

Federal employe unions and members of the armed services swamped Congress with protests and the same

forces are expected to be at work against the President's effort to hold down this year's pay raise to 5 per cent.

"The size of the proposed pay raise must be temporarily restrained for the economic well-being of the nation as a whole," Ford said last week in his message

to Congress.

However, staff aides said they have no doubt a resolution of disapproval will be introduced in the Senate or the House, or both.

Congress has 30 days in which to act. If it does nothing, the President's 5 per cent proposal will go into effect.

**SOPHOMORES REGISTER AT HOWARD COLLEGE** — Mrs. Steve (Marjie) Baker (left) has her papers processed for registration at Howard College Tuesday, a day dedicated to the enrollment of second year students. Mrs. Baker was one of 550 students enrolled. College officials turn their attentions to freshmen today. This scene took place in the Anthony Hunt Library.

(U.S. Air Force photo by S. Sgt. Leon Alfano)

**CFC PLEDGES** — Wing Commander Col. Robert A. Owens (left) and Senior Airman Advisor, Chief Master Sergeant Walter Purgason (right) follow tradition of contributing first as they hand their pledge cards for the Combined Federal Campaign to Major Don W. Box, Webb AFB project officer for the drive. Ron McNeil, Big Spring United Way Chairman, looks on. Nearly 72 per cent of the CFC goal of \$34,500 will go to the United Way campaign.

## INTERNATIONAL WRANGLE Passenger Shot Dead On Kremlin Airliner

LONDON (AP) — A Soviet Aeroflot airliner landed here today from New York with a dead man aboard shot through the right temple, police said. A diplomatic wrangle appeared likely over investigation of the incident.

Sources close to the police said the dead man was a Russian and that Soviet crewmen on the aircraft claimed he had committed suicide.

British security men surrounded the jet, an Ilyushin 62, immediately after it touched down, and Scotland Yard officers raced on board.

Police said the victim was dressed in trousers and socks and his head was banded.

Police withheld an official statement until they had questioned the passengers and crew.

The 102 passengers were herded into an airport building and kept under wraps for more than five hours while they were questioned.

British government and Soviet Embassy officials met for talks on what to do next.

It appeared likely, according to sources close to the talks, that there could be an international wrangle over such questions as whether the plane and passengers could leave for Moscow, who would investigate the shooting and what would be done about the body.

A police spokesman said: "We are unable to make any comment at the present time. This is a diplomatic incident and we have to treat it very carefully."

## Oklahoma Fears Oil Schemers

OKLAHOMA CITY (AP) — Gov. David Boren said Tuesday he is concerned because he has "become aware that oil and gas promoters" who "fear prosecution" in Texas are moving into Oklahoma.

Boren said he met earlier Tuesday with Dick Hewitt of Fort Worth, Tex., regional director of the U. S. Securities and Exchange Commission, and Bruce Day, appointed by Boren Tuesday as director of the Oklahoma Securities Commission, to discuss the problems.

Oklahoma has no law to stop such promoters, Boren said, because they operate under "Schedule D" regulations and "these types of securities are not regulated at present."

The governor said he has asked Day to develop a proposed law for the legislature to consider when it reconvenes in January "to prevent Oklahoma from becoming a haven for such activity."

The firms, Boren said, are moving into Oklahoma because of "adverse publicity in Texas" and "fear of prosecution."

Boren and Day said the "Schedule D" regulations are designed to allow small independent oil and gas operators to raise investment capital with a minimum of federal regulation, but they said this has led to some unethical operators getting into the field.

Neither Boren nor Day would specify firms involved or the location of their headquarters, but other sources said "boiler room operations," involving 20 or more salesmen operating out of one-room offices, are in operation in Oklahoma City, Tulsa, Ardmore and Durant.

"I hate to tell you this, but these people are coming across the Red River like lemmings," one federal official reportedly told Oklahoma authorities.

The firms apparently are recruiting salesmen through classified ads in some major state newspapers, promising \$25,000 to \$75,000. One former salesman for one of the firms gave state officials a statement saying he was hired after answering such an advertisement.

In the affidavit, the former salesman said the firms employ salesmen who work only about 20 hours per week and earn high commissions. He said they sell only to prospects in other states.

A check on recent filings in Secretary of State Jerome Byrd's office revealed that one of the firms mentioned prominently in the Texas investigation recently incorporated in Oklahoma.

## Workers In UW Campaign Can Get Cards Thursday

Division chairmen and campaign workers in the 1975 Howard County United Way campaign will gather in the Reddy-Room of the Texas Electric Service Company building at 5:15 p.m., Thursday to pick the pledge cards they will work.

This is an extremely important meeting, according to the campaign chairman, Ron McNeil, and it is imperative that all participating in the drive be in attendance. The meeting will be brief, McNeil added.

The CFC phase of the drive got under way at Webb AFB Tuesday while the general campaign will be launched Friday on all other fronts.

## Utility Commissioners Elect Morris Chairman

AUSTIN, Tex. (AP) — Garrett Morris, a Fort Worth lawyer and veteran of service on two state agencies, has been elected chairman of the new Texas Public Utilities Commission.

As soon as the commission met Tuesday for its first meeting, commissioners Alan Erwin of Baytown and George Cowden of Dallas said they had conferred and decided Morris should be chairman.

Morris, who is closing down his legal practice in Fort Worth, also has served on the State Board of Public Welfare and the Texas Highway Commission.

The commissioners' salaries of \$40,500 per year began running the moment they were sworn in by State Supreme Court Justices Ruel Walker and Sam Johnson.

"I wish you clear vision, courageous hearts and an extremely tough hide," Walker said.

The commissioners are meeting temporarily in Atty. Gen. John Hill's conference room on the seventh floor of

the Supreme Court Building and planned to gather again this afternoon.

They declared they are officially open to job applicants, and their early order of business will be to hire an administrator, general counsel and other staff. They also need office space and planned to meet quickly with the State Board of Control to arrange that.

While the commission does not begin its ratemaking duties until next Sept. 1, Hill said its time after Jan. 1 will be taken up with other regulatory matters, including providing staff assistance to cities on utility rates.

The commission assumes all of its regulatory powers except ratemaking on Jan. 1. On Sept. 1, 1976, it acquires rate authority over telephone companies and most rural utilities, except for gas service and water provided by water districts and river authorities. It also will begin hearing appeals from municipal decisions on utility rates. On Sept. 1, 1977, city governments may—by either referendum or council decision—surrender their authority over electric, water and sewer utilities to the commission.

Gas ratemaking powers remain with city governments and the Texas Railroad Commission.

## Former Grand Dragon Innocent

HOUSTON (AP) — A former Texas grand dragon of the United Clans of America and an associate have been acquitted of charges of illegal possession of dynamite.

Jemison David Humber, 63, a one time grand dragon, and George William Branch, 49, both of Houston, were found innocent Tuesday by a federal court jury after a three-week trial.

They were indicted in January on charges of illegally possessing 98 sticks of dynamite and 10 blasting caps and storing them in a vacant building in 1974.

## Free Lunches

HOUSTON (AP) — Officials of the Houston Independent School District predict 73,000 children will be eligible to receive free lunches this year.

Mrs. Edna Womack and Mrs. Paul Guy are serving as co-chairpersons for the annual clean-up campaign now in progress.

## GAMBLING DISPUTE Gunman Frees Seven Hostages

SOUTH LAKE TAHOE, Calif. (AP) — A gunman who took seven hostages after a gambling dispute surrendered today after police fired tear gas into the apartment where he was holed up.

James Locklear, 24, with his hands in the air, walked out onto a balcony shortly after 8 a.m., ending an 18-hour siege during which four hostages escaped and another was fatally wounded.

Officers immediately took him into custody, removing three handguns that were tucked into his belt.

Locklear's surrender came shortly after passage of a dawn deadline set by police. Locklear earlier had freed the last two of seven

captives and told police he wanted "to do some writing" before turning himself in.

Authorities also reportedly agreed not to prosecute his brother, Wayne, in the incident arising from the gambling dispute.

One of the hostages held in the Kelmont Arms Apartments in this Sierra Nevada resort was killed when he attempted to escape. He was identified as George Staedler, 21, of Hayward, Calif. Police said it was not clear whether the fatal shots were fired by officers or the armed men inside the apartment.

Four other hostages, including one woman, escaped unharmed, authorities said.

## Total Of 558 Sign At HC

First day registration at Howard College showed a total of 558, which is comparable to the first day last year.

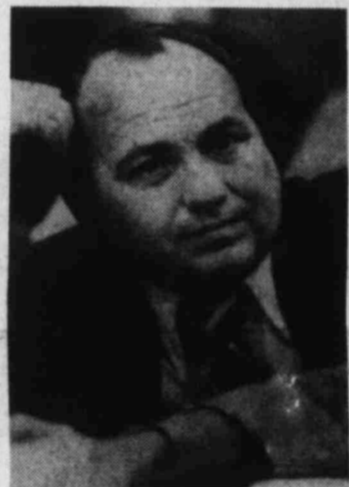

Registration continued today for freshmen students and evening classes. Registration for Howard College courses at the community college in Lamesa is reported to be up and the total is expected to be known by the end of the week.

## Nine Per Cent Boost Sought

The Texas Electric Service Company request for a rate increase throughout their system will be nine per cent across the state, according to information received by Mayor Wade Choate for the city council agenda next Tuesday.

However, this will reflect only a 6.4 increase for the average residence in Big Spring. Big users will bear the largest portion of the increase.

Midland and Odessa city councils will hear the same presentation, Tuesday in their respective city council meetings.

O. P. CARRILLO

## Carrillo On Trial

AUSTIN (AP) — The Senate met today to conduct the impeachment trial of District Judge O. P. Carrillo, but car trouble south of San Antonio kept the judge from appearing for the start of the proceedings.

Although the 31 senators handled preliminary business, such as notifying Gov. Dolph Briscoe that they had convened, the motion to resolve the Senate into a court of impeachment was delayed until Wednesday afternoon.

## BIBLE FUND STILL SHY

Although the Big Spring High School Bible Fund drive officially closed Monday, donations continued to pour into The Herald Tuesday.

Gifts for the 24-hour period ending at noon today amounted to \$180, which brought the grand total to \$5,854.70.

That leaves the Howard County Ministerial Association campaign less than \$150 short of its goal. The Herald, along with the ministerial group, will continue to accept donations for the next few days.

All money raised in the drive goes to underwrite expenses of the Bible Classes at the school. Under law, tax money cannot be used to defray such expenses.

Latest donations include:  
Mrs. Roy Moran, memory Roy Moran ..... \$5.00  
Mr. Mrs. F. W. Jarrett ..... 25.00  
Past Matrons Club, Chapter 47 ..... 10.00  
BHS Key Club ..... 10.00  
Mr. Mrs. K. H. McGibbon ..... 50.00  
Mr. Mrs. A. G. Rogers, memory Clay White, Eulens ..... 5.00  
Women's SS Class, Prairie View Baptist Church ..... 25.00  
Couples SS Class, First United Meth. Church ..... 50.00  
Previously acknowledged ..... 5,474.70  
TOTAL ..... \$5,854.70

## SHOWER

Showers a 20 per cent possibility tonight and Thursday and a 30 per cent possibility tonight. Highs today and Thursday in the upper 80s. Low tonight, upper 60s. Southeasterly wind 5-15 miles per hour.

## The World At-A-Glance

JERUSALEM (AP) — Approval of the new Israeli-Egyptian agreement by the Israeli parliament today appeared assured after the ruling labor party and two of its allies endorsed it. Observers said their acceptance of the pact promised Prime Minister Yitzhak Rabin the support of 69 or 70 of the 120 members of the Knesset, Israel's parliament. Tentative plans were being made for representatives of Israel and Egypt to sign the agreement in Geneva Thursday.

LISBON, Portugal (AP) — The drive to keep pro-Communist Gen. Vasco Goncalves from taking command of Portugal's armed forces appeared today to be getting more and more support. Unconfirmed reports said that despite a personal appeal from Goncalves, some 240 army officers ended a 15-hour emergency meeting at a barracks 80 miles north of Lisbon by voting against his installation as chief of staff of the armed forces. A showdown is expected Friday at a meeting of the officers responsible for the overthrow last year of the fascist dictatorship.

AMMAN, Jordan (AP) — Secretary of State Henry A. Kissinger is winding up his latest Middle East peace mission with visits to Saudi Arabia, Jordan and Syria. In Amman, he assured King Hussein that the Sinai accord was "only one step" toward an over-all Middle East peace settlement. Prime Minister Zaid Rifai warned him that Jordan is "anxiously awaiting" progress on further peace moves and on other issues between it and the United States.

WASHINGTON (AP) — AFL-CIO President George Meany, affirming continued support of a boycott of grain shipments to the Soviet Union, says critics of the boycott have tried to portray maritime unions as enemies of the American farmer. Meany said Tuesday the boycott "is aimed not at farmers but at government action and inaction that benefits only commodity speculators and the big grain dealers and that rips off the American consumer in the interest of so-called detente."

TRENTON, N.J. (AP) — Business came to a virtual standstill in New Jersey's capital today after a broken pump at a filtering plant left water in the city and surrounding communities in short supply. Mayor Arthur Holland declared a state of emergency Tuesday.

# Questions Still Persist

Sore beset, as usual, by nit-picking critics, Secretary of Agriculture Earl L. Butz recently wound up and took a roundhouse swing at a large, if somewhat improbable target—the Russians.

There was Butz at a farm electrification, food and energy symposium in Washington, letting fly at the Soviet Union for the misguided policies that have brought the Muscovites clamoring back to our grain elevators and docks.

"There is no greater folly," he declaimed, "than to try dictating agricultural policy from the political arena. Centralized decision-making for agriculture doesn't work. It never has, it never will."

With obvious satisfaction, Butz pointed out that twice in the last three years, the Russians have had to come, Lenin caps in hand, to "the greatest market-incentive agriculture the world has ever known" to compensate for the glaring awfulness of their own centralized system.

Fair enough: It probably did Butz some good to get it off his chest. But the lingering questions about American agriculture persist. For all its obvious

strengths, it continues to flail about like some myopic giant. We remain uncertain from one year to the next that crop allocations will meet demands—or exceed them; farmers continue to live in suspense as to whether they will clear enough to remain in business another year; and agriculture exports remain as volatile an issue as ever—as demonstrated by the

longshoremen's boycott. The secretary of agriculture has every right to pause now and then to congratulate himself, and us, on the accomplishments of agriculture in America. What is also needed, however, is some plain talk on what we can and should expect from the farm—and how we should go about getting it.

West Texas shouldn't be too surprised when and if State Comptroller Bob Bullock and his raiders descend upon the territory. In this instance, the words, "It's a raid!" should strike joy in the hearts of ordinary citizens.

What Bullock and his band are about is collecting delinquent sales taxes owed the city and state. These are sales taxes already paid by consumers, but not turned over by businesses. In other words, a ripoff of the taxpayer.

Those delinquents owe millions in state and city sales taxes they have collected and pocketed; the city sales taxes alone amount to hundreds of thousands of dollars.

If the comptroller and his men can collect a sizable portion of that amount, it will be a real boon to city budgets in the area. Best of all, Bullock's energetic enforcement should discourage future such sales tax ripoffs by businesses in the future. Raid away; we're waiting happily.

# Sandstorm!

## Around The Rim

Kathy Crawford

"Sandstorm!" The most devastating, terrifying and horrific disaster film of all!

PRODUCED AND DIRECTED BY Wind D. Day and Plow Ed Fields, this classic production is an annual spring event. In glorious sepia, with sound by Roar, Whistle, and Blow Sound Effects, Inc., this film is reminiscent of "True Grit."

The stark reality of real life torture, this production is guaranteed to put tears in your eyes, and a lump in your throat. Housewives will really clean up on it.

A cast of millions will titillate your skin until it's raw, make your hair stand on end and give your nerves a real blast.

The plot thickens slowly, tediously... on a still day. The ominous and oppressive air bears an evil weight. People are going about their everyday business—traffic

hums, offices are busy. Suddenly, groups of people clump together, searching the sky... a wind rumbles from the west (or north or east or south). Is it a bird... is it a plane? NO!! It's a Sandstorm!

TERROR LEAPS into the heart of every housewife with laundry on the line. Little children scurry blindly toward their houses. Car headlights peer murky through the unnatural dusk. Windows and doors are slammed shut, imprisoning their tormented, suffering inmates.

The action roars—trash can lids, toys and storerooms go thrashing by. Pressure builds—the houses creak, cars go barreling drunkenly across the roads... the city sways, bound together tightly by the monster Sandstorm!

Don't Miss It! Coming soon to your town! (Released in all West Texas areas.)

# My Answer

Billy Graham

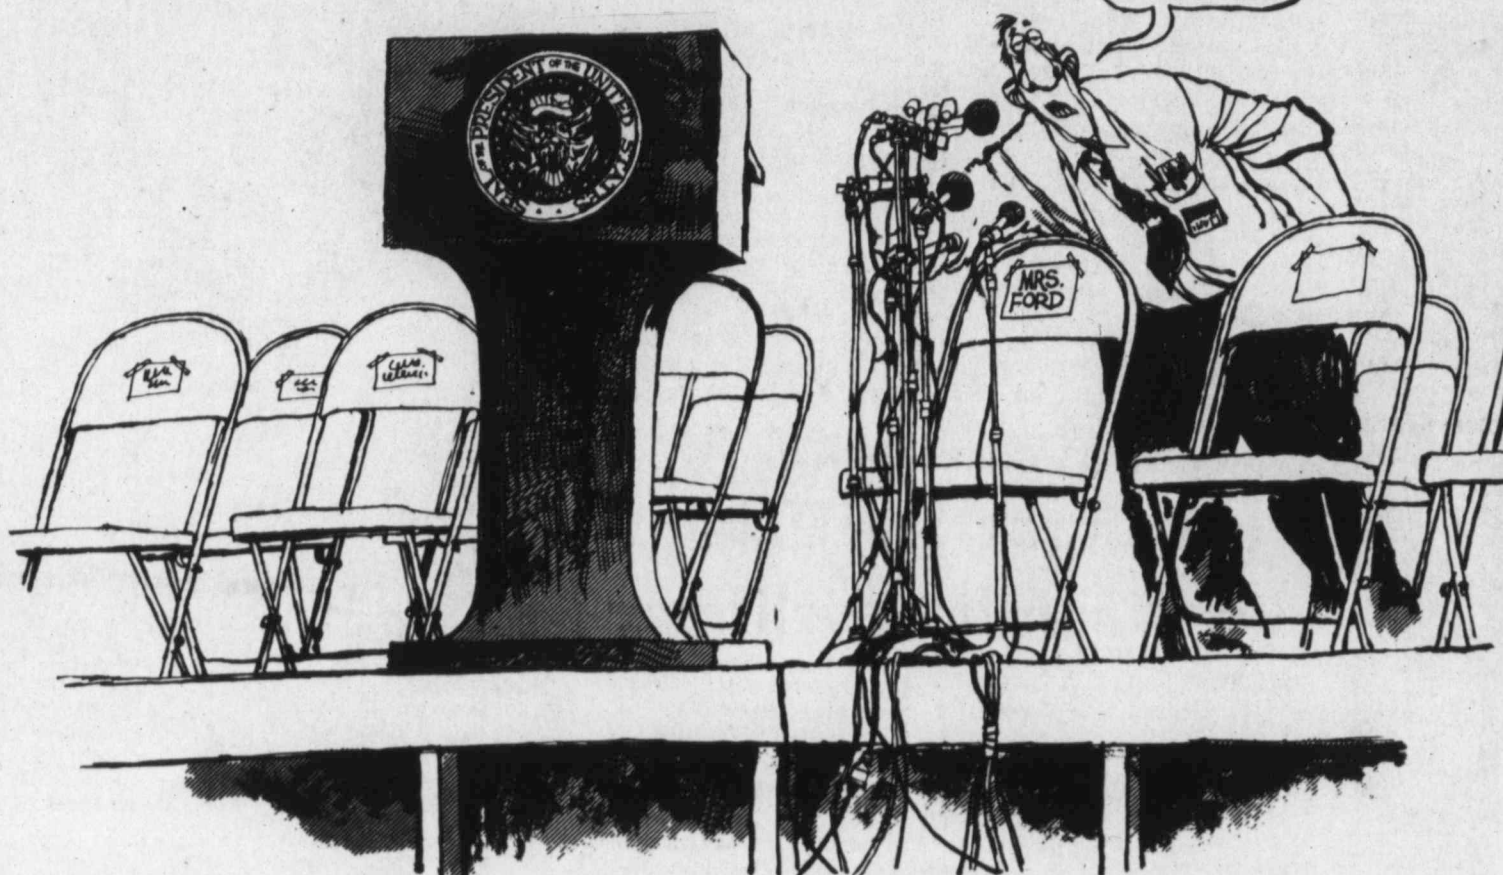

My life has been a sort of living hell. I mean it's been filled with pain, affliction and heartache. I really wonder why God allowed me to be born. Any ideas?

The Old Testament character Job said it even stronger than you did. He lamented, "Let the day of my birth be cursed, and the night when I was conceived. Let that day be forever forgotten. Let it be lost even to God." That's Job 3:1-4.

But the happy contrast comes in chapter 42, where it's reported "the Lord blessed Job at the end of his life more than at the beginning." So you see, the present condition need not necessarily be the way it will continue. God can change circumstances, or at least the way we react to them.

So many have proved that. Milton, plagued by blindness, became the great poet. Helen Keller, saddled by so many handicaps, taught the world a lesson in courage. Bunyan, imprisoned with filth and rats, wrote the immortal "Pilgrim's Progress." God regrets as much as you do the troubles of the past. But never lose sight that He's the Master Crafts-

MAN — able to remake life and give it the aura of hope.

# EDITORIALS / OPINIONS

## Letters To The Editor

Dear Editor: The Big Spring Steers 1975 football season begins at 8 p.m., Friday, when they meet the Andrews Mustangs here. The Steers and the coaches are working hard to make this the most successful year we have had for some time.

The Steers this year are young, but they are very aggressive and enthusiastic. One of the immeasurable quantities that help to make a season a successful one is what kind of POSITIVE support and enthusiasm they receive from local backers. They say 90 per cent of winning is attitude and heart. We, the local backers, can help give this POSITIVE ATTITUDE by giving POSITIVE BACKING.

(1) Give POSITIVE en-

couragement each time you see a player or a coach.

(2) Go to all the games in-and out of town.

(3) Wear your school colors to all of the games to show which you support and give vocal support at the games. Arrangements have been made to order gold windbreakers with a Steer emblem. These can be ordered from any of the tri-captains.

(4) Attend the Quarterback Club meetings each Tuesday night at the high school. The session starts at 7:30 p.m., in the cafeteria. The average program consists of a short business meeting, films of the preceding week's game and a scouting report.

We sincerely feel that the above list will help any team, so, if the local communities want winning teams, let us all give the same 100 per cent effort as fans that the players and coaches are giving, regardless of whether it is Big Spring, Forsan, Coahoma, Sands or any team.

JULIE SHIREY, DON REYNOLDS and PASCHAL ODUM Big Spring Quarterback Club tri-captains

## He's Stuck With Winner

TORONTO AP — Jarrold Organ, a university student with a job at Toronto's Greenway Raceway, was working the \$10 permutual window when a customer asked for an exactor ticket on the last race. Organ punched the ticket but made a mistake on the horses' numbers. The customer asked him for a new ticket and Organ was stuck with the original. The horses on his ticket came home first and second. His winnings: \$3,501.

# China Oil Boom

John Cuniff

NEW YORK (AP) — A mainland China oil boom is developing that holds prospects for vast world change within a decade, including an alternate energy source for the United States, a China authority and business negotiator believes.

The boom could also mean billions of dollars of trade and thousands of jobs for Americans, said Harned Pettus Hoose, who was born and raised in China and who represents a number of U.S. companies in business dealings there.

Discoveries and developments on the mainland, including completion of a long pipeline and the deepening of harbors, already portend the emergence of the People's Republic from an oil-scarce nation to one of huge surpluses.

Among the long-range effects foreseen by Hoose, who is a voluntary, nongovernmental adviser to U.S. government departments and who helped prepare President Richard M. Nixon for his trip to the People's Republic:

—A loosening of the Mideast oil monopoly power; a hastening of the industrial development of China; a massive economic challenge to the Soviet Union in Asia and the Pacific.

Of immediate significance, he believes, is that within a few years American, Japanese and European industries are likely to be heavily involved as sellers of technology, machinery, equipment, construction materials and advice.

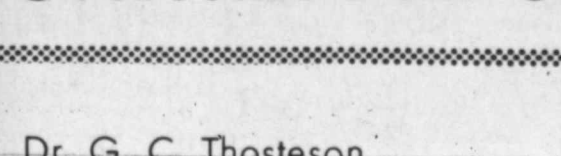

"When the oil boom breaks open upon world markets, probably in the very early 1980s, the People's Republic will be one of the 'world's great oil powers,' Hoose said in a brief visit here.

"China has enough petroleum and natural gas resources to floodlight Asia and more, and to export on a large scale," said Hoose, a Los Angeles attorney who spent 23 years on the mainland prior to the republic's formation in 1949.

In 10 trips to China since 1972 — he is there now — Hoose has developed sources at the highest level of Chinese industry, one of whom told him this summer that China's proved and probable reserves are larger than those now reported for the entire Mideast.

Although China's production of crude was negligible before 1957, and self-sufficiency was achieved only in the late 1960s, a serious export program began in 1972 with deliveries of oil to Japan.

# Overcome Fear Of Flying

Dr. G. C. Thosteson

Dear Dr. Thosteson: My problem is fear of flying. What can I do to lick this fear? I want so badly to take my dear wife to see Eruope, and we can't fulfill a dream because I lack guts.

Everyone tells me I should have a few drinks and a cigarette, and that will do the trick, but I neither smoke nor drink. Don't tell me to take a boat. The thought of being on the open ocean sends me into a state of panic. Can you help? — A. S.

Yours is a real problem shared by many, even by some businessmen who must fly often.

I have a friend who had a morbid fear of flying but his business required it. His company did not like the idea of his driving long distances.

On my suggestion, he prevailed on an experienced flying friend to accompany him on a short flight. He overcame the fear on that flight, and he saved himself the costly series of psychological counseling, which is often the alternative.

In one metropolitan area, the problem is handled by group therapy. A pilot and hostess talk to the groups prior to a short flight.

Sedative by alcohol or otherwise is used by some, but for many it can become a good excuse to overindulge.

Has your wife flown? She should be able to help. Perhaps she could become your "companion" on a test flight.

Most of the apprehension surrounds the take-off and landing. Once aloft you are hardly aware of movement. The fear of flight over water can likewise be overcome. I once wondered about being over water myself. Having done it, I have lost any anxiety.

Also, once you are at the airport and observe the thousands of fellow passengers scurrying to and from their planes, the psychological effect should be one of assurance.

Dear Dr. Thosteson: For some years I have been having a cocktail of scotch whisky before dinner each evening, finding it has helped my digestion. Also it helps me sleep.

Recently, I have thought it rather excited me more than calmed me. Would you comment? I'm in my 80's — T. E.

Alcohol is a sedative, even the ounce or two you get with your scotch. The "excitement" you experience is more apparent to you than real. Higher levels of alcohol in the blood may produce behavioral changes that seem to suggest stimulation of the brain. This usually results from depression of brain centers that inhibit such behavior normally.

There would be some cause other than alcohol involved in any true feeling of excitement.

If your evening cocktail is helpful to you, as you say it is, then I see no reason to discontinue it.

Dear Dr. Thosteson: What is macular degeneration? What causes it, and can anything be done for it? Does one go to some specialist for this condition? — Mrs. K. L.

The macula or fovea, as it is also called, is a specialized portion of the retina, that inner coating of light-sensitive cells which receives and transmits images from the eye to the brain. It is the macula that provides us our finest vision.

Degeneration is, of course, any disturbance in the functioning of this retinal area. Of the degenerative macula disorders, senile macular degeneration is probably the most common, being associated with the natural aging process.

However, other types can be associated with various diseases that can affect the eyes, diabetes, arteriosclerosis and others. Here, treatment of the underlying cause can often retard further degeneration. An ophthalmologist specializes in such disorders.

Is angina pectoris dangerous? Is there a cure? If you would like to learn more about this heart condition, write to Dr. Thosteson, in care of this newspaper, P.O. Box 3999, Elgin, Ill. 60120, for a copy of his booklet, "How to Handle Angina Pectoris." Enclose a long, self-addressed, stamped envelope and 25 cents.

# We Hold These Truths... A Chronicle of America

## Summer-Fall, 1775:

This is open season on royal governors. Among the fallen and falling: On June 2, North Carolina's Governor Josiah Martin takes refuge at Fort Johnson on Cape Fear, and escapes July 18 to HMS *Cruzier*; he finally departs the colony after the Battle of Moore's Creek Bridge in February, 1776. Virginia's Governor John Murray Dunmore flees to HMS *Fovey* at Yorktown on June 8, but awaits defeats at Great Bridge on December 9, and at Gwynn Island on July 10, 1776, before leaving for good. In July, Governor John Wentworth of New Hampshire takes refuge aboard a British man-o'-war; similarly with Sir William Campbell of South Carolina on September 15, and with William Tryon of New York on October 30. On November 7, the Rhode Island Provincial Congress deposes Governor Joseph Wanton. When the war begins, only Connecticut's Jonathan Trumbull — among all the royal governors — remains loyal to the colonial cause.

# A Devotion For Today

"I can do all things in him who strengthens me." (Philippians 4:13, RSV)

PRAYER: O Lord, help us to appreciate and follow the teachings of Jesus Christ so that we may become as You intended us to be. In the Master's name. Amen.

## Gambling Protection Scheme Investigated

HOUSTON (AP) — The Houston Post said today former Houston Police Chief Carrol Lynn, a business associate of Lynn and two other police officers are being investigated by a state grand jury concerning allegations of a gambling protection scheme.

The newspaper said Lynn, who resigned last June, was advised of the investigation and quoted him as saying, "I know I've done nothing wrong and I would welcome the opportunity to appear before the grand jury."

Asked to comment on the alleged protection scheme, Lynn replied, "I don't have the power to fix a traffic ticket. It's just ridiculous."

Lynn was transferred Friday from supervision of the vice and narcotics divisions to his present position as deputy chief over recruiting.

Acting Police Chief Joe Clark denied this move was a result of the grand jury probe.

The Post did not identify the Lynn business associate

and the other two police officers allegedly being investigated by the grand jury.

Dist. Atty. Carol Vance declined comment on the investigation.

The Post said it had learned that the allegations against the former chief came from uncorroborated testimony of that lease two bookies.

The newspaper said that according to its sources, the bookies claim that the business associate of Lynn told them they could have "protection" from police interference during the football betting season.

The price for the "protection" was to be \$2,000 plus an amount each week during the season, the Post quoted its sources as relating.

The sources gave no details as to how such "protection" could be provided, it said.

Defenders of the former chief have claimed that various accusations and allegations against him have been politically motivated.

## Instructional Program Enriched By Newspaper

Registration will get under way at 8 a.m. Saturday in the Howard College auditorium for the Big Spring Herald's Living Textbook Conference.

Mrs. Jamie Bilbo Boren, Snyder, heads the panel of discussion leaders. Others assigned to the task include Mrs. Rebecca Huchingson, Bryan; Mrs. Jan Edwards, Bryan; Mrs. Simon Terrazas Jr., Big Spring; Mrs. C. W. (Opal) Tanner, Big Spring; Mrs. Marjorie Mathis, Fluvanna; Roland Rose, Andrews; Mrs. Beverly Dickerson, Odessa; Mrs. Margaret McNair, Snyder; and Mrs. Bernice Parker, Snyder.

More than 60 educators and newsmen from around the area have already enrolled for the course. Following a morning meeting, a noon luncheon will be served at the college, courtesy of the Herald.

Objective of the Living Textbook Conference is to introduce teachers to the many possibilities of enriching their instructional program through the use of the daily newspaper.

Registration will continue until 9 a.m. Following a break

for coffee, welcomes will be extended by W. S. Pearson, publisher of the Herald; Dr. Charles Hays, president, Howard College; Dr. E. H. McKenzie Jr., superintendent of schools, Big Spring; and Charles Cook, Director, Educational Journal, Lubbock. From 9:40 until 10:30 a.m., Mrs. Boren will speak on "The Challenges of Using Today's History Today." Following a 10:30 a.m. coffee break, Mrs. Boren will resume her talk. At 11:50 a.m., Gene Kimble, circulation manager of the Herald, will talk on "How To Secure Newspapers For The Classroom."

Luncheon will be served at 12 noon. Those attending will separate into discussion groups at 1 p.m., and again at 2:15 p.m. Kimble will lead the group on a tour of the Herald plant at 3 p.m. Adjournalment is scheduled for 4 p.m.

Mrs. Boren, a one-time member of The Herald staff, is now an elementary school teacher in Lubbock. She has conducted similar conferences in other cities, among them Arlington.

Mrs. Boren says it is amazing how the newspaper can be used to teach a variety of subjects. Geography, spelling, science, history and current events — those are just some of the subjects which can be taught with the newspaper, Mrs. Boren says.

## Republican Women Meet

West Texas Republican Women will meet at 12 noon Thursday at Furr's Cafeteria for their monthly meeting.

All members and guests are invited to attend. A report will be heard on delegates who plan to attend the national convention.

## BS Man Jailed On Dope Count

MIDLAND — Charges of possession of heroin were filed Tuesday against Wilmer Lee Cobb, 25, and his wife, Regina, 21, both of Midland, and Antonio L. Perez, 26, Big Spring. The trio was arrested Sunday when their vehicle was stopped by city police on a traffic violation.

Detective Lieutenant Earl Luckey said about three grams of a substance thought to be heroin was found wrapped in foil in a matchbox reportedly thrown from the car.

The three remained in city jail Tuesday after justice of the peace Robert H. Pine set bond on Perez at \$25,000. The Midland couple's bond was not set Tuesday.

## THEFTS

Kent Brown reported a 12 gauge single shotgun stolen from his vehicle while parked at the 19th and Main Street Fire Station.

## Termination Is Affirmed

County Commissioners Court Tuesday heard from the road department union and a dismissed employee.

After about four hours of private discussion, the man's termination by County Engineer Neel Barnaby was affirmed.

County Judge Bill Tune was not present.

## Millwee Wins Reece Honor

Sgt. Billy Ray Millwee, an aeromedical specialist at Reese Air Force Base at Lubbock, was selected Non-Commissioned Officer of the Quarter for the second quarter of the year.

He is the son of Mr. and Mrs. W. J. Millwee, 608 Steakley St. He and his wife, the former Beverley Thomas, have one daughter, Elizabeth, 3.

Millwee is the NCO in charge of the hospital Flight Medicine Administration Section. He is responsible for screening and maintaining medical records for flight personnel.

He is a member of the Reece Honor Guard and was assigned as NCO in charge of the firing squad.

## DOWNTOWN AREA ROPED OFF Mayor Asks State Help For His Flooded City

RAYMONDVILLE, Tex. (AP) — Mayor Ralph Cisneros stood on the porch of his home, water lapping at the front door, and looked down a flooded street into a downtown section that was under at least two feet of water.

"We are declaring a state of emergency and we will call Austin to see what the state government can do to help us," said the mayor of the South Texas city hardest hit by the rains unleashed by Hurricane Caroline during the weekend.

"Pumps chugged away steadily Tuesday in an attempt to lower the water level, the result of 15 inches of rain, from downtown and the northwest section of town. Several inches of rain were reported inside some of the stores downtown."

The downtown area was roped off to keep sightseers from driving through and creating waves that would push more water into the stores.

A Red Cross spokesman said 57 families moved out of their homes into a Red Cross shelter and that incomplete surveys indicated that about 265 families had suffered flood damage to their homes.

City Secretary Mike Crowell said the city received an estimated 500 million gallons of water and that the flooding was caused by the rains in the area and by water pushing into the city from surrounding areas.

"We are built in a pothole," Crowell said explaining the city is at a lower elevation than the surrounding area and has no

natural drainage. As the waters began to recede Tuesday night, some showers fell in the area, but city officials said they did not make the situation any worse than it was.

"A little more is not going to hurt us," a city spokesman said.

Crowell and Civil Defense coordinator Felix Longoria said damage to city owned facilities alone will be at least \$31,000.

Crowell said it would take several days "to get

everything cleaned up." Then he pointed to another problem residents will face as the waters recede.

"The mosquitoes will eat us up in about ten days," he said.

Mosquitoes created serious problems in several cities last month after steady rains flooded sections of the mid-Valley.

Other cities in the Valley also received some rain as Hurricane Caroline spent itself, but there were no reports of severe damage.

## Foreman, Industrialist Trial Date Set Jan. 26

SAN ANGELO, Tex. (AP) — U.S. District Court Judge Hal O. Woodward has set a Jan. 26, 1976, trial date for Houston lawyer Percy Foreman and Houston industrialist Edward Hudson on charges of obstruction of justice and conspiracy to obstruct justice.

The two pleaded innocent Tuesday at their arraignment here on the charges, which grew out of a case involving two sons of the late multimillionaire H. L. Hunt.

Hudson and Foreman were indicted in July by a federal grand jury in Dallas along with W. Herbert Hunt, Nelson Bunker Hunt and three other Dallas men. The Hunts had been indicted in 1973 on federal wiretapping charges.

Woodward told lawyers in the case all briefs must be filed by Oct. 1.

Foreman and Hudson are scheduled to be tried in Dallas while the Hunt wiretapping trial has been moved to Lubbock on a change of venue. The Hunt trial is set to begin Sept. 15.

Foreman, Hudson and the two hunts are charged with two counts of obstruction of justice and one count of conspiracy to obstruct justice.

The indictment specifically alleges that Foreman was to have been paid \$100,000 to represent two Houston private investigators convicted of wiretapping in the case and also keep them quiet.

Hudson has said he was amazed at his indictment because his involvement was so remote. He has admitted he contacted Foreman on behalf of the Hunts.

The Hunts have claimed they are being prosecuted by the Justice Department because they refused to allow the CIA to operate within their businesses.

They are accused of hiring private investigators to tap the telephones of their father's aides.

The July indictment alleges there was a coverup by all defendants to keep the Hunts from being indicted on the wiretapping charges.

## Up To 80 May Enter

Washer pitching skills will be tested Sept. 17 and 18 during the third annual Howard County Fair.

From 60 to 80 contestants are expected to be vying for first (worth \$50), and second (\$30) and third (\$10) and a trophy.

Two contestants will take turns trying to sink washers in holes, Esco Hamlin, committee chairman, said.

The first one to sink five, or the one to drop in the most in 15 minutes will win.

Preliminaries are slated the first night; play-offs, the second. Competition starts at 7 p.m. both nights in the south show barn.

In connection with washer pitching, the tobacco spitting contest will be conducted.

All persons over 18 years of age may compete in washer pitching.

To enter washer pitching, contact Hamlin or M. A. Snell. Or stop by the booth which will be open from noon until 6 p.m. Sept. 17 at the fair grounds.

The entry fee is \$5.

## WWI Veterans Meet Saturday

Vets of Barracks 1474, World War I, members of the Ladies Auxiliary and special guests will gather at Kentwood Center at 10 a.m., Saturday, for their monthly meeting.

A Bicentennial talk will be offered as the program. A covered dish luncheon will be served at noon.

Daughters of veterans have been given a special invitation to be in attendance.

## Prospective Scouts Invited To Party

Cadette Troop 43 will hold a salad supper and get-acquainted party for all girls interested in joining the cadette or senior scouting program.

Girls and their mothers are invited to bring a salad and join the fun at 7 p.m. Thursday in the Fellowship Hall of the First Methodist Church at Fourth and Scurry.

Past activities of the troop will be shared through skits,

displays and slides. Several members will speak about the national and international Girl Scout events they attended this summer.

Girls need not be current scouts to join cadett or senior scouting. They may renew their membership or join for the first time.

Reservations may be made by contacting Mrs. Rick Mowrer at 263-2040 or Mrs. Tom Stephenson at 263-0972.

Dear Abby

## Old-Timer Wants To Go Dancing Without Wife

DEAR ABBY: I am 62 and the wife is 59. I like old-time dancing, polkas, schottisches and square dancing. My wife never did care much for dancing so she quit going with me about 15 years ago. She is not handicapped in any way and could dance if she wanted to.

My problem: I would like to go stag to a public dance once a week. It's great fun and good exercise. My wife is very much opposed to my

going to a dance without her — yet she refuses to go. Is that fair?

To me, going to a dance once a week is no more wrong than playing poker or bowling. Old-time dancing is not the romantic kind where partners hang on each other in close embrace. I maintain that it's healthier to dance than sit around playing cards.

I do not intend to get involved with other women. Am I being unreasonable?

C. IN MINNEAPOLIS

DEAR C.: No! I'm convinced. Now all you have to do is convince your wife.

DEAR ABBY: How does a happily married 35-year-old woman handle flirtations initiated by a married man in the presence of both spouses?

I find myself very much embarrassed, and needless to say, his wife and my husband are not exactly overjoyed.

How can such a man be put in his place in a nice but firm manner? We run into this couple fairly often, and I am dreading the next encounter.

FLUSTERED

DEAR FLUSTERED: When next you meet, give Casanova an impersonal hello, then promptly launch into small talk with his wife. Keep it a two-way conversation until you depart. No man can "flirt" without a partner.

## Miss Turner Honored At Gift Shower

A bridal luncheon honoring Miss Cheri Turner, bride-elect of John Richard Sparks, was given Saturday at the Big Spring Country Club. Mrs. Karl Kutch of Abilene and Mrs. Bill Estes of Big Spring hosted the noon luncheon.

The honoree and her mother, Mrs. C. B. Turner, were presented yellow daisy corsages. The hostess gift was a silver bread tray.

The tables were laid with yellow linen cloths, centered with arrangements of yellow daisies, bronze mums and yellow spider mums.

Miss Lynn Hieth of Lubbock was a special guest.

The couple plan a Sept. 20 wedding in the First United Methodist Church.

## Bride-Elect Honored At Kitchen Shower

A kitchen shower and brunch was given recently to honor Miss Patty Peugh, bride-elect of Kenneth Schuelke, in the home of the Jack Hoppers of Knott.

Hostesses for the party were Miss Lynn Hopper and Miss Connie Hughes. They presented the bride-elect with a pressure cooker.

During the shower, the guests made flower-shaped rice bags to be used at the wedding reception.

## Bridal Shower Held For Miss Peugh

A come-and-go bridal shower was held the afternoon of Aug. 22 in the home of Mrs. Joe Mac Gaskins of Knott, honoring Miss Patty Peugh, bride-elect of Kenneth Schuelke.

Assisting the hostess in receiving guests were Miss Kayla Gaskins, Mrs. Jack Hopper and Mrs. Jerry Hall.

The honoree was attired in a white eyelet, sleeveless, floor-length dress, featuring a shirred bodice, ruffled neckline and helmine. She was presented with a corsage of blue daisies. Similar corsages were presented to the mothers of the couple, Mrs. J. E. Peugh and Mrs. Fred Schuelke.

Mrs. Keith Nichols and Mrs. Johnny Peugh presided at the registry table covered with a blue ruffle-trimmed cloth with a white eyelet overlay. A silver candelabrum centered the table.

Guests were served from an oval refreshment table covered with a white lace cloth. Blue satin runners depicting the couple's names centered the table complemented by an arrangement of blue daisies and honeysuckle flanked by milk glass candelabra. Milk glass and silver appointments were used.

Serving at the refreshment table were Mrs. Billy Reed, Mrs. Richie Tubb, Miss Elaine Martin and Miss Marsha Dyer.

The hostesses presented the honoree with the serving pieces of her pottery selection.

Out-of-town guests were the honoree's grandmother, Mrs. Angeline Shaw of Big

## Country Club Tournament Has Winners

The Big Spring Country Club sponsored a Labor Day Tournament this holiday weekend. After the various tournaments were played, winners were announced.

Ms. Cliffla Slate and Ms. Maudine Kasch placed first in the North-South division of the bridge competition. Winners of the East-West category were Ms. Sue Stripling and Ms. Helen McCrary.

Winners of the women's gin competition were Ms. Sandra Jones, first, and Ms. Jane Thomas, second. Jackie Thomas took first place and Paul Meek took second place in the men's gin competition.

Lefty Reynolds and Hack Wright placed first in the domino match with Earle Reynolds and J.R. Farmer placing second.

## Shower Given For Bride-Elect

Miss Robbie Gray, bride-elect of Tony Stewart, was honored at a bridal shower Aug. 23 in the Texas Electric Reddy Room.

The couple will be married Sept. 13 in the First Baptist Church.

Yellow daisy corsages were presented to the honoree and the couple's mothers.

Refreshments were served from a table laid with a white linen cloth centered with an arrangement of roses. Crystal appointments were used.

Miss Gray was presented a Spice-of-Life Corning Ware electric skillet by the hostesses. Serving as hostesses were Mrs. Jo Ann Bradbury, Mrs. Willis Burchett, Mrs. Sidney Clark, Mrs. Leonard Coker, Mrs. A. J. Dean, Mrs. Bob Dean, Mrs. Bill Irwin, Mrs. Victor Jackson, Mrs. T. H. McCann, Mrs. Melvin Newton, Mrs. S. M. Smith, Mrs. Charles Sweeney, Mrs. Dee Thomas, Mrs. Garrison Walker and Mrs. Avery Willis.

PROVIDE YOUTHS WITH CAR, ALLOWANCE, APARTMENT

# If Promise To Finish High School

DALLAS (AP) — There was a time when rebellious youths received extra chores around the house interspersed with a few whacks out behind the wood shed.

But there is a growing tendency here to provide the rebel with his or her own apartment, car, and allowance.

In return for this unusual

paternalism, mom and pop receive a promise from the teenager to finish high school.

Many parents experimenting with this new form of "control" feel it is their only alternative to having runaway children.

"From about the time my daughter Nancy was 13 it was just impossible to live in the same house with her. Our

children are very worldly. She was also unbearable. She'd been everywhere so she thought she knew everything. It got so I couldn't stand coming home at night."

This is the confession of a prominent Dallas lawyer who with his wife decided to set up their daughter in a \$160-a-month apartment, along with a car and an

allowance.

In return they received a promise that Nancy would finish high school and check in with them once a week.

According to social worker Mary Daniels such arrangements are now "getting to be the chic thing to do. The parents promise them anything if they finish school and stay out of their hair."

Mark, a suburban high school senior, has been living on his own since he was 15.

"I was miserable at home. My father never stopped screaming at me. When my father told me to leave I think we were both relieved," Mark said.

One teacher at Hillcrest High School said there are 50 to 60 pupils who live in their own apartments.

# You'll be paying the bill, so let Congress know your choice!

Congress is about to make an important decision that could affect the cost and gas mileage of your car for years to come.

Since you will be paying the bill, we thought you should be aware of two major alternatives being considered by Congress right now. They concern the control of emissions from cars. Should the standards governing automotive emissions be made even stricter than they are today? Or are they strict enough now? Take your choice.

## Choice 1

The President and his Administration have evaluated the pros and cons of current law governing emissions and recommend that the standards for today's cars be extended for five years.

## Results

- There will be continued improvement of air quality as new cars replace old cars. (Compared to pre-controlled cars, today's standards result in reductions of over 80% for hydrocarbons and for carbon monoxide and about 40% for oxides of nitrogen according to industry data.)
- Working with current standards, automakers can meet their individual commitments to the President and improve industry-wide gas mileage between 1974 and 1980 by an average of at least 40%.

## Choice 2

Present Federal Law calls for even stricter emissions standards for 1977-1978 model cars than those required today. Some members of Congress favor these stricter standards.

## Results

- Stricter standards would add only marginal improvement to air quality. (California is an exception. It has a special air quality problem and has its own special standards.)
- To our knowledge no auto manufacturer yet knows how to meet the 1978 standards on a mass production basis. Current "best effort" experimental systems however indicate the following fuel economy and cost penalties:
  - your gas mileage could be reduced by 5% to as much as 30% according to publicly stated company estimates
  - the cost of your car could increase by an estimated \$150 to \$400 according to company estimates in statements to Congress.

# Where do you stand?

These are the choices. We thought you ought to know what they are, and what they will mean to you as a customer. Your United States Senators and Representative should know what you think. Write to them.

TWO VIETNAMESE PHYSICIANS ARRIVE; THERE ARE STILL PROBLEMS

# Shortage Of Docs Loomed Like Headache

CLARKSVILLE, Tex. (AP) — An acute shortage of physicians in this Northeast Texas cattle and farming center loomed over Red River County residents like a dull but persistent headache.

The litany of reasons for the rural doctor shortage is familiar: death, relocation to greener medical pastures, and the inevitable byproduct of summer, the vacation.

Earlier this year, two of Clarksville's physicians died within days of each other. Now, two others are on vacation, and a third has moved away where opportunities seemed better.

It left Dr. Rex Edwards, hospital chief of staff, looking at long days and nights punctuated by anything but sleep.

And it left Clarksville's residents concerned about their doctorless dilemma.

They found their remedy at Ft. Chaffee, Ark., the temporary home of Viet-

namese refugees, including doctors who were looking for a place to practice.

After cutting through months of red tape, Clarksville now has two

### Job Openings Are Available

Residents of Howard and Glasscock Counties are reminded that the title VI program of the Comprehensive Employment and Training Act has openings for public service jobs at this time.

Nabar Martinez, at the CETA office in City Hall, said the only requirement is that a person has not been employed for the past 30 days. There is no income level requirement.

More information can be obtained by calling the human resource center at City Hall at 3-8311, Ext. 54.

Vietnamese doctors, Do Xuan Giu and Thai Minh Hong. Two more have moved to the smaller country towns of Detroit and Avery.

But the struggle isn't over yet—for Clarksville or its new physicians.

"The task is formidable," says Dr. Edwards, a Clarksville native who has practiced for 19 years in Red River County. "These doctors should be at a teaching center and under the tutelage of a language expert. Placing them in a small Texas town may be the

### 'Perfidia' Composer Dies

worst place they could be."

The chairman of the board of Clarksville's new \$5 million hospital, Clifton Kay, says well-meaning citizens got excited and acted

### Officials Plan For Meeting

City officials will attend a Water Quality Board meeting in Austin Sept. 23.

Purpose of the meeting will be to request relief on a demand by the board in connection with the water infiltration plant due to the high cost to the city.

Those who plan to attend will include Mayor Wade Choate, Bill Brown, Harry Nagel and Roy Crim. A copy of Crim's engineering report as to cost estimate on requirements will be taken to the meeting.

hurriedly in bringing the doctors in.

"I feel genuinely sorry for these Vietnamese doctors," he said. "It is really doing them an injustice, and I know it wasn't planned that way. If they had gone to a larger hospital, maybe Baylor or Parkland (in Dallas), it would have been much better."

But hospital planning committee members see the situation in another light. Fred Landry, who runs an

### THEFTS

Bill Steagald, 805 E. 16th, reported a .38 revolver, holster and carrying case stolen from under the bed at this residence.

auto supply firm, summed it up: "We woke up one morning and didn't have any

### HUD Meeting Lures Locals

Tom Ferguson, city finance director and Paul Feazelle, administrative assistant to the city manager, will go to Lubbock Sept. 10-11 to meet with officials from the Housing and Urban Development regional office.

They will be given information on implementation of the \$200,000 community development grant which will go for water and sewer line improvements in lower income areas of the city. Some \$15,000 of the funds will go toward demolition of vacated and rundown buildings.

doctors—and none in sight."

Dr. Giu, former surgeon general of the Vietnamese Air Force, and Dr. Hong, who has extensive experience in military and civilian medicine, must take a federal test for foreign born doctors after the first of the year. And then, they will receive a temporary license

### Accused Killer Of Aged Woman

BEAUMONT, Tex. (AP) — A Beaumont man was in custody here today on charges of murder and arson in connection with the death of a 71-year-old woman whose body was found Sunday outside her burning residence.

Police said that charges of capital murder and arson were filed against L. J. Dotson, 34.

from the state of Texas until their backgrounds can be documented by hospitals where they intend to practice.

Getting the information out of Vietnam might take months or even years.

In the meantime, the families have been taken under the wings of Clarksville families, and the town has applied for funds from the \$1.3 million authorized by Congress to help Vietnamese doctors and their families.

### \$18.8 Million In MD Pledges

LAS VEGAS, Nev. (AP) — "I can't believe it, but it's true," comedian Jerry Lewis said as his Muscular Dystrophy Telethon ended with \$18.8 million in pledges, the largest sum ever for such an event.

**REFUSED COMMENT** — Joseph "Joey" Giacalone, 22, son of reputed Mafia chieftain Anthony "Tony Jack" Giacalone leaves Detroit federal grand jury Tuesday afternoon. Giacalone is the owner of a 1975 Mercury which the FBI seized in connection with the disappearance of ex-Teamsters boss James Riddle Hoffa, 62, who was last seen on July 30. "Joey" refused comment and left the grand jury room 21 times during his 33-minute appearance.

## Hoffa's Adopted Son To Testify

DETROIT (AP) — Jimmy Hoffa's foster son appears before a federal grand jury today to answer questions on his whereabouts July 30 when the former Teamsters Union president disappeared.

Charles L. "Chuckie" O'Brien has acknowledged to the FBI that he was driving a car owned by the son of a reputed Mafia leader near a suburban Detroit restaurant where Hoffa was last seen.

FBI special agent James Esposito said in an affidavit filed with federal court he has probable cause to believe "O'Brien has used Joseph Giacalone's automobile to facilitate an abduction of Hoffa."

Giacalone, son of reputed Mafia chieftain Anthony "Tony Jack" Giacalone, was the lead-off witness before the grand jury which launched its probe on Tuesday.

Attorneys for the federal government questioned young Giacalone for half an hour and followed with 10 minutes of questions for young Giacalone's uncle, Vito, another alleged Mafia figure in Detroit.

Hoffa's family said Hoffa told them that on the day he vanished he was on his way to meet Anthony Giacalone. The elder Giacalone has denied he was to meet Hoffa.

After his grand jury appearance, young Giacalone and his attorney, Deday LaRene, asked U.S. District Court Judge Robert DeMascio to order the FBI to

return the auto. LaRene characterized the FBI's seizure of the car as "no more than a fishing expedition" and contended there is "no showing that a federal crime was committed."

But a statement filed with the court by U.S. Atty. Ralph B. Guy Jr. said hair found in the car is similar in color to that of the missing Hoffa, although hair cannot be used in a courtroom to establish identity.

Guy's statement, also signed by special U.S. Justice Department Atty. Stanley Hunterton, verified earlier reports that trained dogs detected Jimmy Hoffa's scent in the back seat and trunk of the car.

Hunterton, arguing in court against young Giacalone's attempt to regain possession of his car, said O'Brien has aligned himself with Teamsters President Frank E. Fitzsimmons "who, as everyone knows, is Mr. Hoffa's arch-rival for the union leadership."

The sworn FBI affidavit said Hoffa's son, James P. Hoffa, told the FBI his father feared violence at the hands of opposing factions within the Teamsters because of his bid to regain union power.

In a statement signed by Guy, the government said that giving the car back now "would seriously impair the government's ability to follow through on a major lead in this investigation."

## Okie Governor Doesn't Plan To Support Harris

OKLAHOMA CITY (AP) — Gov. David Boren wasn't giving many hints Tuesday about his preference for the Democratic presidential nomination, but he did make it very clear that he doesn't plan to support former Oklahoma Sen. Fred R. Harris.

"I haven't made any decision at all," Boren said. "It's much too early to tell who will be a viable candidate."

But the governor said 1976 will "be a disaster" if his fellow Democrats don't nominate someone who can "halt the runaway growth of government," spark a loosening of investment capital and "get a handle on

the bureaucracy." He mentioned former Georgia Gov. Jimmy Carter, Texas Sen. Lloyd Bentsen and Minnesota Sen. Hubert Humphrey as good candidates.

Earlier this year, Boren indicated he was leaning toward Carter, but he said Tuesday he believes state Democratic leaders should be cautious in getting behind anyone until they hear all candidates' programs.

Asked if there was any reason he did not mention Harris or Alabama Gov. George Wallace, Boren said, "I do not support Sen. Harris. Regarding Gov. Wallace, there are some grave doubts his health will permit him to run."

## Unwelcome Rains Stop In Flooded RGV Areas

By The Associated Press  
Unwelcome rains stopped in flooded areas of the Lower Rio Grande Valley and skies cleared across most of Texas today.

Residents were particularly heartened at Raymondville, where two feet of water or more covered part of the downtown district and rose several inches in some stores after 15 inches of rain poured down. The deluge, set off in the weekend death throes of Hurricane Caroline, drove 57 families from their homes.

Thunderstorms dotted all of South Texas at times during the night. There also were showers for a time along the Rio Grande in Southwest Texas, in the Big Bend country of far West Texas and at some points in the Texas Panhandle. Moisture amounts were small.

By this morning, however, clouds had disappeared nearly everywhere across

the state except in West Texas west of the Pecos River.

Before the turbulence died down, the National Weather Service relayed word from a pilot about a tornado touching down briefly Tuesday evening about 12 miles south of Beeville in South Texas. No damage was reported.

Official observers said funnel clouds also spun across the sky about five miles from the Corpus Christi airport Tuesday afternoon.

Temperatures dipped into the 50s in the Big Bend mountains this morning while staying as warm as 77 degrees at Corpus Christi on the coast. The top marks Tuesday afternoon ranged up to 99 at Waco.

Fair and hot weather was forecast throughout the state except for the usual round of scattered thunderstorms in prospect again by evening in all but the northern sections.

## 'ANYBODY CAN DO IT IF THEY'LL TRY' One-Arm Dove Hunt At Olney

OLNEY, Tex. (AP) — Jack Northrup says there's no reason to quit hunting simply because you lost a limb. He expects some 40 entrants to prove his point at the Olney One-Arm Dove Hunt this week.

Contestants must have an arm or a hand missing. They will be judged on how many shots it takes to get the limit of 10 doves.

The idea was conceived by Northrup, who lost his right arm in a traffic accident in 1956, and Jack Bishop, whose left arm was removed as an infant because of a bone disease.

Bishop is a Young County commissioner and Northrup is executive director of the Olney Community Development Agency.

Northrup, in a telephone interview, said, "We ap-

proach this with humor, and we also hope it is inspirational to amputees, proving that they can con-

### Detox Center Sign Is OKed

Word was received here this week by Ed Mitchell, director of the city's detoxification center, that the Texas Commission on Alcoholism plans to erect a sign at the edge of Big Spring.

The sign will include the phone number of the center. The highly successful center is being used as a pattern by other cities in Texas. A peak of 41 admissions was reached during the month of August.

tinue to hunt, or to fish, or to do anything they desire."

Entries this year will come from Texas, Oklahoma, Indiana, and Colorado. In addition to the shooting, they can enter a cow chip chunkin' contest and get a prehunt breakfast at a cost of 10 cents for each finger they show. Discounts will be considered where fingers are off at a certain joint.

Hunting awards will be presented for the two-day event, beginning Friday, to the amputee above the elbow and the amputee below the elbow.

Last year's winners were L. R. Tarver of Kermit for the above the elbow category, hitting 10 birds with 17 shells; and Jim McCarsen of Olney, in the below section, 10 birds with 18 shells.

Northrup said once you get the hang of swinging the shotgun into firing position with one arm, there's no big problem.

"The toughest thing for me," he said, "was to change my shooting eye. I had been sighting with the right and had to change to the left. Anybody can do it if they'll try."

## Paris Teen Shot, Killed

WILBURTON, Okla. (AP) — An 18-year-old Paris, Tex., youth was shot and killed by police following a high speed chase near this southeastern Oklahoma city early Monday, officials said today.

James Christopher Jr. was shot by Wilburton city of-

ficers Jim Moore and Glenn Kendrick at about 3:30 a.m., according to a statement.

Police reported a pickup truck belonging to the city had been stolen earlier and that officers pursued it about 2.5 miles outside the city limits, where Christopher ran it into a ditch. Kendrick arrested Christopher and, according to the statement, was attempting to place him in a police vehicle when Christopher ran.

They are in Atlantic City for a week of competition with Miss America 1976 being crowned Saturday night.

## Step To Stop State Agencies From Having Rein With Money

AUSTIN, Tex. (AP) — Legislative budget writers took the first step Tuesday to stop state agencies from having a free rein with money appropriated by the legislature for specific purposes.

Much of the Legislative Budget Board's first session of the state's new business year was spent sounding off against an attorney general's opinion they said would let state agencies

consider any appropriation as a "lump sum" to be spent any way the agency chooses. "This is flying in the face of just what we tried to do last session," complained Speaker Bill Clayton at a meeting of the new Legislative Budget Board, which makes fiscal recommendations to both houses.

"This means they can transfer any money we give them from one program to another just as they please," said Sen. A.M. Aikin, D-Paris. "I don't agree with it one minute."

The board discussed at length an opinion from Atty. Gen. John Hill which told the Public Welfare Department that it could "transfer appropriated funds among programs," without specific authorization from the general appropriations bill passed by the legislature.

"This just means we are making a lump sum appropriation and they can do what they want with it," said Sen. Tom Creighton, D-Mineral Wells.

The board unanimously

adopted a motion that the Legislative Budget Board sent Public Welfare Commissioner Raymond Vowell, who asked the opinion, a letter instructing him to "let us know before he makes any transfers of funds and why he needs to do it."

The staff of the board also was instructed to prepare a proposed bill that will be presented the next legislative session which would allow transfers of appropriated funds within a program but not from one program to another.

In other action the board authorized the staff to go ahead with a survey requested by both houses of the 64th Legislature to determine how much the proposed constitution would cost Texas tax payers, if adopted. The study will be presented to the Legislative Budget Board in late September for approval before being released publicly.

## Doris Moten Sentenced

Prison sentences were assessed for three defendants in 118th District Court Tuesday afternoon.

Doris Louise Moten, 41, 409 N. Bell St., pleaded guilty to sale of heroin on April 8, 1973, and to sale of marijuana on May 2, 1973. She was given two concurrent five-year terms.

Her daughter, Doris Jean Henry, 29, of the same address, saw probation revoked last week on a check forgery case because of shoplifting.

Robert Edwin Westbrook, 18, Stanton, drew 10 years in prison when District Judge Ralph W. Caton revoked his probation.

Westbrook pleaded guilty to possession of cocaine on Jan. 7, 1975. He is accused of burglary on Jan. 24 and possession of less than two ounces of marijuana on Aug. 15.

Scott A. Fowler, 18, Coahoma, was serving a 10-year probation sentence for burglary of the Coahoma Pool Hall on May 28. His probation was revoked because of evidence he broke into the Blue-Top Liquor Store on July 12. But Judge Caton reduced the sentence to six years.

## WEATHER

NORTHWEST AND SOUTHWEST TEXAS: Partly cloudy through Thursday. Scattered, mainly afternoon and night showers and thunderstorms, most numerous south portions. Low tonight 63 north to 75 south except 57 mountains. High Thursday 86 north to 95 south except near 80 mountains.

**WEATHER FORECAST** — There will be showers today in the Midwest and in scattered portions of the nation. It will be cooler in most of the northern sections of the country and warmer elsewhere.

## District Office Sent \$8,624.29 By Chapter

The Howard-Glasscock unit of the American Cancer Society sent \$8,624.29 in funds to the district office at the end of the unit's year in mid-August, according to an announcement by Dr. James Cave, unit president, at the board meeting here Tuesday.

This included \$5,174.79 from the crusade and \$3,449.50 from memorial gifts. Jerry Yarbrough headed the crusade last year and Mrs. Joe Pickle was in charge of memorials.

Memorials are now being mailed to Mrs. Merle Stewart, Box 2121.

Jerry Alexander, new staff member from Midland and Mr. James Lacey, district volunteer, presented the official certification for the coming year to the unit. They also listed qualifications for the unit and announced projects at a district level.

The unit agreed to hold the annual Bike-A-Thon in the fall instead of the spring, with Nov. 8 set as a tentative date and Mrs. F. Bordsfke was named chairman of the event.

Dr. Maurice Bercier discussed plans for the

"Reach for Recovery" program and said that the medical committee will hold a meeting at 7:30 a.m. Sept. 9, at Hogan-Malone dining hall. The regular board meeting was also scheduled to be held at that location on October 7 at 12 noon.

Dr. Bruce Bilder added details to Dr. Bercier's report. Other reports were heard on education and service.

Board members present included Mrs. Ben Boadle, Mrs. Clyde Thomas, Mrs. Ann Fairchild, Forsan; Dr. J. W. Cowan, Mrs. Stewart, Mrs. Marj Carpenter, Rev. Yarbrough, Dr. Bercier, Dr. Bilder, Dr. Cave, Mrs. Bordsfke, Mrs. Lacey and Alexander.

## Fire Probe Under Way

The state fire marshal was contacted by local Fire Marshal Howard Dodd in connection with the blaze which burned a moving van and its contents around 11:30 p.m., Sept. 1.

Allied Van Lines at 100 Johnson requested an investigation of the fire which destroyed the van and contents at estimated damages of close to \$10,000.

The police report shows that an inventory of the contents shows three ten-speed bicycles, a grandfather clock and an antique ship model apparently missing.

Chief Alvie Harrison said following a discussion with the state fire marshal, it was decided to conduct the investigation locally since he could not get here for approximately three weeks.

## Crime Rate Skyrockets

AUSTIN, Tex. (AP) — The Texas Department of Safety says the state's crime rate in the first six months of this year was 17.4 per cent higher than it was during the comparable period of 1974.

Comparing the six-month periods, the DPS found the murder rate was up 10.7 per cent, rape 13.1 per cent, robbery 14.3 per cent, burglary 18.8 per cent, aggravated assault 3.6 per cent, theft 19.2 per cent and auto theft 8.3 per cent.

Rural areas had a much higher increase in major crimes than cities, 24.7 per cent compared with 16.7 per cent.

The percentage increases are in the rate per 100,000 people, not in the absolute number of offenses.

During the first half of this year, 310,929 major crimes were committed, or 5,160.6 per 100,000 population. The comparable figures for January-June 1974 were 259,267 offenses, for a rate of 4,396.6 per 100,000.

The percentage of crimes cleared by arrest were up considerably for each category of crime. Overall, 25 per cent of all crimes were cleared, compared with 22 per cent a year ago. Eighty-five per cent of all murders were solved, compared with 77 per cent in the first half of 1974. Sixty-one per cent of all rapes were cleared by arrest, compared with 51 per cent.

But solution rates on property crimes, while rising, remained low, including 20 per cent of all burglaries, compared with 17 per cent last year.

The biggest crime rate increase was posted by rural areas with more than 50 people per square mile, where the murder rate increased by 123.8 per cent and the total crime rate went up by 50.7 per cent.

## Challenging Bob Bullock

AUSTIN, Tex. (AP) — Interstate Theaters Inc. have sued Comptroller Bob Bullock, challenging his authority to collect theater admission taxes.

A hearing date has not been set.

The suit seeks to recover \$230,905 in admission taxes paid to the state during April, May and June. The tax was paid under protest but the protest was denied by Bullock following an administrative hearing.

The petition filed by the theater chain claims a 1962 ruling of the Texas Supreme Court held that the admissions tax was unconstitutional.

A similar suit against the state by Paramount Theaters, Austin, is still pending.

## MISHAPS

## DEATHS

### Nesta Gibson

LAMESA — Services for Mrs. J. B. (Nesta) Gibson of Lamesa will be 4 p.m. today at Second Baptist Church of Lamesa with the Rev. Abe Hester, pastor, officiating.

Burial will be in Lamesa Memorial Park under direction of Branon Funeral Home of Lamesa.

Mrs. Gibson died at 5 a.m. Tuesday in Medical Arts Hospital here after a brief illness.

Mrs. Gibson was a native of Love County, Okla. She had lived in Dawson County for 42 years. She was a housewife and a Baptist for 43 years.

Survivors include two sons, Don Gibson of Welch and Dale Gibson of Brownfield; four sisters, Mrs. Julia Allen, Mrs. Lee Norman and Mrs. Estell Karr, all of Lamesa, and Mrs. Bertie Lambert of Show Low, Ariz.; one brother, Mancil Barton of Lamesa; and four grandchildren.

### Anna Atchley

Anna M. Atchley, 87, was discovered dead in bed at her home at 1310 Virginia here this morning. Death was believed due to natural causes.

Services will be at 3 p.m., Thursday in Nalley-Pickle Rosewood Chapel, with the Rev. Herbert McPherson, interim pastor of the Westside Baptist Church, officiating. Burial will be in Cove, Ark.

Mrs. Atchley was born Sept. 9, 1887, in Missouri. She

### Oletha Barron

LAMESA — Graveside services for Oletha Claire Barron, the 2-day-old daughter of and Mrs. R. C. Barron of Lamesa, will be 10:30 a.m. today in Lamesa Memorial Park with the Rev. Bill Hardage, pastor of First Baptist Church of Lamesa, officiating.

The Barron infant died Tuesday in Medical Arts Hospital here. Arrangements are being handled by Branon Funeral Home of Lamesa.

The infant is survived by her parents; a brother, Neal Barron of the home; her maternal grandparents, Mr. and Mrs. H. N. Edwards of Lubbock; and her paternal grandparents, Mr. and Mrs. Earl Barron of Lamesa.

**ARRESTS MUSIC FAIR DEMONSTRATOR** — A New York State trooper holds the head of a demonstrator to the trunk of a car after arresting the would-be gate crasher at the "Great American Music Fair" at the State Fair grounds in Syracuse Tuesday. At least 80 persons were arrested and charged with disorderly conduct and trespassing after an afternoon melee with rock-throwing and a tear gas exchange.

## Bicentennial Panel Selection

AUSTIN, Tex. (AP) — Gov. Dolph Briscoe appointed James W. Gorman

Jr. of San Antonio Tuesday to the American Revolution Bicentennial Commission of Texas.

He replaces Mrs. H.K. Allen of Temple, whose term expired.

Briscoe also named Juan

D. Nichols of Quitman to the Sabine River Authority to replace Malcolm J. Henley of Tyler, whose term expired.

Benjamin B. Pegues, Mineola, and Charles Wickersham, Orange, were reappointed.

Buy either of these and Charles of the Ritz gives you the \$5.00 bottle of Firmessence 770® Daytime Wrinkle Lotion, which goes on under your makeup to help smooth out dry lines, help soften skin, and maintain a fresh appearance for hours.

Which makeup should you choose? VEILESCENCE® MOISTURE-CREME MAKEUP for complete coverage which doesn't look heavy and masky \$15.00. LIQUI-CREME® SOFT-FINISH MAKEUP if you like a flowing creamy liquid which gives medium coverage, yet appears light and delicate on the skin \$10.00.

An extraordinary opportunity to get both a wonderful foundation and what you need to put on under it for the price of the foundation alone. But do hurry in—the offer is, of course, limited.

## MARKETBASKET Higher Costs For Basics

By LOUISE COOK  
Associated Press Writer

Americans who have been paying attention to food price predictions found few surprises at the grocery store during August. An Associated Press market-basket survey showed higher costs for basics like butter and eggs and a new surge in sugar prices.

On the plus side, there were signs that beef prices are beginning their expected decline although most of the savings are limited to hamburger.

The AP drew up a random list of 15 commonly purchased food and nonfood items, checked the price at one supermarket in each of 13 cities on March 1, 1973 and has rechecked on or about the start of each succeeding month. The latest check was made just before the Labor Day weekend, but there were few signs of holiday bargains.

The increases had been anticipated: sugar refiners have been slowly upping their prices; dairy products are on the rise as supplies decline; poultry farmers had been arguing that they were losing money because egg prices were too low.

The trends generally reflect prices at the farm level. The Crop Reporting Board of the U.S. Department of Agriculture said that prices paid to farmers for wheat, milk, hogs, corn and eggs, for example, increased during June and July, while prices for beef cattle decreased.

On an over-all basis, the AP survey showed the marketbasket total went up during August at the checklist store in 10 of the 13 cities covered, with an average increase of almost 3 per cent. In the remaining three cities, the market-basket bill at the checklist store declined by an average of just under 1 per cent.

Comparing prices at the beginning of September with those at the start of the year, the AP found the market-basket total at the checklist store declined in 10 cities and increased in three.

The USDA has estimated food prices will go up about 9

per cent this year compared to a 14.5 per cent increase last year. That estimate is higher than anticipated earlier in the year, partly because of grain sales to the Soviet Union and partly because of bad weather that trimmed the size of U.S. crops.

The AP survey found that the price of chopped chuck, which rose earlier in the summer, declined at the checklist store in seven cities and was unchanged in six. The decrease reflected increased supplies of cattle, particularly those fed on grass. Pork prices remain high with supplies running 20 per cent below last year's levels.

Egg prices were up at the checklist store in 10 of the cities surveyed, but things may improve slightly in coming months. The USDA has estimated that egg production for the fourth quarter is expected to be up slightly from the third quarter, although it will still be behind 1974 levels.

The price of a pound of butter, which had remained steady for most of the year, went up at the checklist store in 11 of the cities surveyed, with increases ranging from 1 per cent in Salt Lake City to 4 1/2 per cent in Dallas.

Sugar prices also went up in 11 of the checklist stores although they remained well below the record levels of 1974.

The items on the AP checklist were: chopped chuck, center cut pork chops, frozen orange juice concentrate, coffee, paper towels, butter, Grade-A medium white eggs, creamy peanut butter, laundry detergent, fabric softener, tomato sauce, chocolate chip cookies, milk, all-beef frankfurters and granulated sugar.

The cities checked were: Albuquerque, N.M., Atlanta, Ga., Boston, Chicago, Dallas, Detroit, Los Angeles, Miami, New York, Philadelphia, Providence, Salt Lake City and Seattle.

**IN COLORADO CITY MUSICAL**—George Womack and Coleen Palmer play husband and wife in "I Do! I Do!", which opens next Monday night in a dinner theater program at Colorado City's new Civic Center. Dinner will be served at 6:30 p.m., while the show follows at 8 o'clock in the Opera House. Charge for the gala night affair is \$7. Performances for Tuesday through Saturday, Sept. 9-13, get under way at 8 o'clock. Admission price on those nights will be \$3. Box office number in Colorado City is 915-728-3491. "I Do! I Do!" is a musical based upon the play "The Fourposter," a long-running hit on Broadway.

## Hunt For Killer Of Photo Clerk

DALLAS (AP) — Police say they are looking for a man in his late thirties in connection with the slaying of Joni Barnes, whose body was found under a wooden bridge on a rural road near Cooper, Tex., about 80 miles northeast of here.

Officials said Mrs. Barnes, 18, was identified through dental records.

Mrs. Barnes, who disappeared last Thursday from a Dallas drive-in photo booth, was clad only in a pullover red sweatshirt, police said. She had been shot once in the head.

Mrs. Barnes was last seen leaving the booth in a late model car accompanied by what witnesses described as "a neatly dressed man in his late thirties."

Earlier, Mrs. Barnes telephoned a friend, Vicki South, 20, and said she had been ordered to leave her booth by a man who identified himself as a company

executive. Miss South said she had urged her friend not to leave and heard a man's voice in the background saying, "Come on."

Mrs. Barnes' family said she had received several obscene telephone calls prior to her disappearance.

## 'Bill Moore Day' Booked Oct. 14

AUSTIN, Tex. (AP) — An old fashioned barbecue and a general entertainment program will mark "Bill Moore Day" Oct. 14 at Washington-on-the-Brazos, sponsors said Tuesday.

Sen. William T. (Bill) Moore, D-Bryan, will be honored at the tribute to Moore's 26 years in the Texas Senate.

General chairman for the event will be Dr. George J. Beto of Huntsville and general chairwoman is Dr. Florence Low of Bryan.

## 25% OFF SALE Polyglas Whites

**2 for \$50**

*B78-13 Cushion Belt Polyglas*

During this sale, we're reducing the price of all "Cushion Belt Polyglas" tires by 25%. This tire has two fiberglass cord belts to tame wear-producing squirm and help keep tread grooves open for good wet traction. Double polyester cord-body plies add strength and resilience. For real belted performance, plus an extra measure of value during this sale period — the time to buy "Polyglas" is now.

WHITEWALL SIZE	REGULAR PRICE 2 FOR	25% OFF PRICE 2 FOR	WHITEWALL SIZE	REGULAR PRICE 2 FOR	25% OFF PRICE 2 FOR

# Home Team Rated

NEW YORK (AP) — The first score of the college football is hereby forecast on the nose... 60-48 in favor of the home team.

That's because the National Collegiate Athletic Association, in an effort to curtail expenses, has decreed that only 48 players may go on road trips while the home side can dress no more than 60.

Wonder how Missouri will like traveling to Alabama knowing the second-ranked Crimson Tide won't even be allowed to dress a full third team? And how about Villanova, coming off a 3-8 season, visiting Maryland's defending Atlantic Coast Conference champs or East Carolina playing at North Carolina State with the same numbers?

And what about the Penn State-Temple game, which has Penn State as the home team — it originally was scheduled for State College — even though the site has been switched to Philadelphia? Will the Nittany Lions be permitted to bring 60 players more than 150 miles from central Pennsylvania while Temple, located in Philly, can only dress 48? The savings to Temple should be all of \$3.60, based on 12 players at 30 cents a head, which is the trolley-bus fare from the campus to Franklin Field.

Last year's crystal ball produced a mark of 519 right, 203 wrong and 18 ties for a .719 percentage.

East Carolina at North Carolina State: Wolfpack won't be taking the Pirates lightly after last year's 24-20 squeaker. With Dave Buckley pitching and Don Buckley catching... N.C. State 28-7.

## JV, Frosh Scheduled

Big Spring High's junior varsity and ninth grade football teams will open the season a day before the varsity moves into high gear.

The JV's, coached by Larry Horton, Mike Carraway and Ben Neel, will take approximately 40 players to Andrews for a game there Thursday at 7 p.m.

Local fans will be able to get a glimpse at the rough and tumble sport here Thursday at 7:30 p.m., at Blankenship Field.

The Toros, under the direction of Ron Stump, assisted by Sonny Monroe, Ronnie Jones and Dickie Lepard, will take to the field opposing Andrews' frosh.

## League Deadline Is Next Tuesday

By The Associated Press

Eventually, even The Turk himself will run out of time. The landscape was littered with battered bodies and broken dreams as 26 National Football League teams hurried Tuesday to meet the Terrible Turk's unsentimental deadline: a limit of 49 players per.

Before pro football's version of the Grim Reaper is done, all NFL teams must further reduce their rosters to 46 players by next Tuesday and a final 43 on Sept. 16.

In the meantime, the litany of the released and the reserved contained the usual autumnal assortment of has-beens and also-rans, plus the inconveniently injured and those simply unneeded.

Four players, for instance, were cut from the New York Jets: fourth-year center Warren Koegel, safety Jerry Bond and rookie backs Jon Bradford and Garry Bacaus — not exactly household words, and they probably never will be if the NFL has anything to say about it.

The Atlanta Falcons placed Mialik on the injured reserve list and released four other players.

The New York Giants slimmed down to 52 players, shedding linebacker Jess Hudson and tight end Elmore Stephens. They were expected to announce their other cuts Wednesday, pending waiver claims.

The Green Bay Packers released veteran wide receiver Jeff Baker and a rookie, and placed end Mike Fanucci on the disabled list with a sore ankle. The Packers also claimed rookie linebacker Ken Bernich on waivers from the San Diego Chargers.

The Cincinnati Bengals reduced their roster to the required amount, plus

SHORT BREAK — Big Spring's Mark Moore, left, quarterback and Jesse Doss, right, fullback, take a brief pause during one of this week's drills. The Steers open the 1975 football season here Friday night against Andrews at Memorial Stadium at 8 p.m.

### QUARTERBACK CLUB

## Big Spring Positive Support Encouraged

By CLARK LESHER  
"We welcome any positive ideas from anyone to help benefit the Steer athletic program," said Paschal Odom, Don "Lefty" Reynolds and Julie Shirey, replacing Judy Robinson, who moved to Dallas as her husband, Frosty, was transferred there by Cosden.

### Big Spring Top Choice

Big Spring, though rated no better than 146th statewide in the Harris Football Rating System, is listed as a five-point favorite over Andrews by the system.

The two teams clash Friday night in Memorial Stadium here.

San Angelo and Midland Lee were included in the Harris system's top ten teams — San Angelo fourth and Lee fifth. Longview headed the list.

Cochoma was rated 43rd in Class AA ratings but is a one-point underdog to Reagan County. Colorado City is listed no better than 129th by Harris and is a seven-point underdog to Stamford.

In Class B, Forsan is ranked 70th. The Buffaloes have an open date this week.

meeting Tuesday night at the high school cafeteria.

Also in attendance included two other newly elected club officers besides Odom, Don "Lefty" Reynolds and Julie Shirey, replacing Judy Robinson, who moved to Dallas as her husband, Frosty, was transferred there by Cosden.

Bob Burris, Steer head football coach, ready to jump into another year, introduced all members of his coaching staff and cheerleaders.

The selected yell section of Big Spring High brought a "positive" thinking approval from the small crowd in attendance with their performance shout of "at peak of a winning streak."

Burris showed film on last week's scrimmage against Carlsbad as well as a report on the seasonal opener with Andrews here Friday night.

Tommy Moss, varsity assistant coach, also gave an evaluation of Andrews.

Moss, a graduate of Andrews High, scouted the Mustangs in previous scrimmages conducted. "They have a lot of tradition going after experiencing three long dry years, besides being big, strong and quick," he added.

Burris said it will take hard work to solve Andrews' Veer-T offense pattern, especially it being the first Steer contest of 1975. "I hope I have an idea of what to expect from Andrews," he added.

The Quarterback Club will meet each Tuesday at 7:30 p.m., at the high school cafeteria for the entire football season. A film of the previous game played along with a scouting report of the next Steer test will be shown each week.

## Landry Trying To Plug Holes

DALLAS (AP) — With the departures of running back Calvin Hill, fullback Walt Garrison, defensive tackle Bob Lilly, center Dave Manders, and wide receiver Bob Hayes, the onepowerful Dallas Cowboys are in a massive rebuilding campaign.

And Coach Tom Landry is trying to get the holes in the dike plugged quickly, because the Cowboys open their National Football League season against supercharged Los Angeles Sept. 21.

Hill defected to the World Football League, where he suffered a knee injury playing for Hawaii that knocked him out for the season.

Garrison, who injured his leg bulldozing a steer on the rodeo circuit, Lilly and Manders all retired. Hayes, who didn't block enough to suit Landry, was traded to the San Francisco 49ers.

Landry has replaced Hill a perennial 1,000-yard gainer, with Charles Young and Doug Dennison. The results during the exhibition season have been spotty with neither runner consistently impressive. Both are second-year players.

Defensive end Larry Cole and Bill Gregory who have been vying for Lilly's right tackle spot and the Dallas defense has been woeful against the run.

Manders was replaced by John Fitzgerald, who ac-

tually beat him out last year. Manders was used mostly on center snaps to punters and placekickers.

Golden Richards took away Hayes' job last season with spectacular results.

Robert Newhouse has been moved from halfback into Garrison's spot. Newhouse has proved he can catch the ball coming out of the backfield in the Cowboy's new spread formation and can squirt through tiny holes in the line for yardage. However, he doesn't run over people like Garrison, and Dallas is without a big blaster on short yardage situations.

If things weren't confusing enough, there is a new twist to the Cowboy offense this year.

### COUNTRY CLUB

## Thomas' 74 Card Wins Him Title

Jackie Thomas shot a 74 Monday in the Country Club Membership Tournament to take the annual championship.

His score outdistanced Pat Weaver and Wally Slat who turned in 75s. Weaver won the playoff for second place on the fifth extra hole.

L. V. Morgan won the Championship flight consolation with a score of 73. Mike Hall also shot a 73, but

## PHILS SUFFER FOURTH STRAIGHT LOSS Pirates Find Breathing Room In National East

By The Associated Press

Pittsburgh slugger Willie Stargell says consistency will determine the outcome of the four-team pennant scramble in the National League East, but the Philadelphia Phillies are developing the kind of consistency that could take them right out of the race.

Philadelphia suffered its fourth consecutive loss and ninth in the last 12 games Tuesday night, dropping a 4-3 squeaker to the Montreal Expos. First-place Pittsburgh, meanwhile, opened up some breathing room by pounding out an 8-4 triumph over the New York Mets.

"Going down the stretch you need all the consistency you can get," said Stargell, the leader of the Pirates. "The team that is the most consistent this month is going to win it."

But Philadelphia has been displaying the wrong kind of consistency.

"I don't think it's pressure,"

we just haven't played well," said Phils Manager Danny Ozark after his club's latest loss. "We're not swinging the bats any differently. It beats me what's happening."

Elsewhere in the National

League, the Chicago Cubs beat the St. Louis Cardinals 5-3, the Cincinnati Reds whipped the San Diego Padres 10-4, the San Francisco giants shaded the Los Angeles Dodgers 7-3 and the

Atlanta Braves defeated the Houston Astros 4-1.

Pirates 8, Mets 4  
The Pirates' belted six extra base hits, including home runs by Bill Robinson, Manny Sanguillen and Rennie Stennett, in beating the Mets, sparked by 3 1-3 innings of one-hit relief work by Kent Tekulve. They now lead St. Louis by four games, the Mets and Phils by five.

Cubs 5, Cards 3  
St. Louis failed to keep pace with the Pirates when two errors by Larry Lintz helped Chicago snap a 1-1 tie with two runs in the seventh, then Manny Trillo rapped a two-run single in the eighth.

Reds 10, Padres 4  
Don Gullett, 12-3, won his ninth straight game and Tony Perez became Cincinnati's alltime leader in runs batted in as Cincinnati reduced its pennant-clinching magic number to seven.

Cincinnati broke the game open with seven runs in the fifth inning. Perez had a runscoring single in the rally, giving him 1,010 for his career and breaking the Reds record held by Frank Robinson.

Braves 4, Astros 1  
Carl Morton, 16-15, posted his fifth victory over Houston this season without a loss. He had relief help from Bruce Dal Canton, who bailed him out of a bases-loaded, none-out jam in the eighth without giving up a run.

### More or Lesh

By CLARK LESHER

If the weather holds true to form, warm and dry, Big Spring's seasonal opener against Andrews Friday night at 8 p.m., at Memorial Stadium, could just maybe, like a broken record, crack last year's home opener of 4,958 in the Hobbs contest.

Oh, yes, to boost the Big Spring ego, the Steers won, 13-6.

Don Green, Big Spring school district assistant business manager, reports single game tickets for the upcoming contest are on sale today through Friday, closing that day at 2 p.m.

Steer prices are \$2.50 for adults and 75c for students. Tickets may be obtained at the school's business office, 708 11th Place, Big Spring High and various other local school locations.

The Hi-Noon Optimist Club Moto-Cross races return Sunday. Practice runs start at 11 a.m., with the first green flag to be waved at 12:30 p.m.

Registration is \$7 for expert riders, thrown in with a \$450 guaranteed purse and \$4 for novice cyclists, four trophies per class.

Ray Weir is director.

Plenty of coverage was given in Monday's 17th running of the \$1 million All-American Futurity at Ruidoso Downs.

Besides the TV coverage, among the few of the long list on hand included: Associated Press, Big Spring being a member, including reporter Bob Green out of New York, who I believe More or Lesh worked with in the PIO office at Fort Bliss, in the late 50s, before getting orders for Frankfurt, Germany; Dave Taylor, chief of the Dallas photo division; photographer George Brich out of the Los Angeles office; and Howard Graves, New Mexico bureau chief.

Lane Stewart, staff photographer for Sports Illustrated, who shot pictures for a two-page color layout scheduled to appear next year.

Time Magazine assigned Roland Flamini of the Los Angeles Bureau.

David Clyde, the once-celebrated hero of the Texas Rangers, is back with the club after spending the summer pitching for Pittsfield, Mass., of the Eastern League.

WHAT'S IT WORTH DEPARTMENT — Big Spring's Joe Mathews attended his first recent meeting with the Midwestern University of Wichita Falls baseball team.

## Red Sox Snap Losing Streak

By The Associated Press

The Boston Red Sox won't be the Boston Red Faces this year, if they can help it. No embarrassment, a la 1974.

"We'll be all right now," Carl Yastzremski said Tuesday night after the Red Sox whipped the New York Yankees 7-4. "We're going to hit and our pitching looks good. All we need is a little pitching, and that's the big part of the game, and we'll do all right."

The Red Sox, mindful of last year's flop, when they blew a big lead in September, begin an eight-game road trip tonight against their chief antagonists — the Baltimore Orioles.

The Orioles, the ones who caught the Red Sox in last year's stretch run in the American League East, can cut off some of Boston's six-game lead in their two-game series.

Orioles 3-1, Indians 2-2  
Bobby Grich singled home a run with two out in the 10th inning, giving Baltimore its first game victory over Cleveland. Rico Carty's home run in the eighth inning gave the Indians the second game.

Twenty-game winner Jim Palmer will pitch tonight against Rick Wise, Boston's fine 17-game winner.

Frank 4, A's 1  
Frank Tanana struck out 14 batters and pitched a five-hitter, leading California over Oakland. The Angels broke a scoreless tie with a four-run eighth keyed by Mickey Rivers' two-run double.

Tanana, 14-6, outdueled Ken Holtzman, 15-12, with an overpowering performance that included two strikeouts in each of the first six innings.

Royals 4, White Sox 1  
George Brett's two-out single in the 12th inning triggered Kansas City over Chicago. Amos Otis doubled and came home with the deciding run as Brett lashed a single to right. Al Cowens came through with a two-run single to cap the rally.

The teams scored unearned runs in the fourth inning to bring about a 1-1 tie. Twins 5, Rangers 3  
Dan Ford, Rod Carew and John Briggs hit home runs as

Minnesota defeated Texas. Ford gave winner Jim Hughes a 1-0 lead in the second when he hit his 15th homer of the season against Rangers starter Steve Hargan.

In the Minnesota fourth, Jerry Terrell led off with a walk and Carew walloped his 13th homer to tie the game at 3-3. Briggs followed with a solo shot to spring the Twins into a 4-3 lead and their eventual winning run.

Brewers 6, Tigers 5  
George Scott collected five hits and drove in two runs to lead Milwaukee past Detroit. Scott had two doubles and three singles in a 5-for-5 night and raised his season RBI count to 86 — 19 against Detroit. Jim Colborn, with relief help from Ed Rodriguez, won his 10th game against nine losses.

MINNESOTA... TEXAS...  
Boston 7, New York 4  
Pittsburgh 5, New York 4  
Cincinnati 10, San Diego 4  
Chicago 5, St. Louis 3

## Meeting To Tackle Oil Theft Ring

HOUSTON (AP) — Investigators from Texas and Louisiana were scheduled to meet today with Texas Atty. Gen. John Hill in Austin to discuss an alleged interstate oil theft ring.

Among those due to attend were David Gensler of the organized crime unit in the Louisiana attorney general's office, and Richard Camerata of the Louisiana State Police special investigations unit.

Royal Hart, district attorney from San Angelo who handed the original arrests in connection with the alleged oil thefts, also was expected to be present.

Eight men are in custody or have been freed under bond after being charged in the case. Four men remained in custody at Ballinger.

Hart has described the alleged theft ring's method of operation as locating full oil storage tanks in the West Central Texas and removing the oil into tank trucks for movement to other areas for sale.

Meanwhile, the Houston Post said it had learned that felony theft charges have been filed in Taylor County

against Dennis Davis, 31, and Jackie Clough 20, both of Abilene, and Clinton L. Wilkerson, 43, believed to be from Houston.

Felony charges were filed earlier against the trio in Rannels County, where they are in custody.

The new charges involve a theft of about 400 barrels of crude oil taken on two different occasions, said Taylor County Sheriff's Capt. Otis Wiley.

## Five Physicians Are On Board

NASHVILLE — Hospital Corporation of America has appointed five prominent physicians to its Board of Governors, President John C. Neff announced today.

The Board of Governors is a national group of outstanding physicians who advise HCA management on a variety of professional, medical and technical subjects relative to the Company's hospital system.

Elected to the Board were Dr. Tom Nesbitt, a Nashville urologist who is currently speaker of the House of the American Medical Association; Dr. Ralph Morton, a Kingsport, Tenn. cardiologist; Dr. Jack Fleming, a Pensacola, Fla. cardiologist; Dr. John Hedrick, a family practitioner in Beckley, W. Va.; and Dr. Milford Hatcher, a Macon, Ga. surgeon.

The five physicians filled vacancies of members whose terms on the Board expired this year.

HCA is the nation's leading hospital management company, with 70 hospitals and more than 10,000 beds in 16 states and foreign countries, four others under development contracts, and several others under construction.

The Company's common stock is listed on the New York Stock Exchange.

## Plane Crash Dead Listed

DAVIS, Okla. (AP)—Four of the five persons who were killed in a plane crash Sunday, and a small boy who received only minor bruises, have been identified as a Texas family.

The Oklahoma Highway Patrol listed the dead as Jerelyn Jannine Vance, 27, of Richardson, Tex.; Jane Marie Janning, 15, Dallas, her sister; Andrew Vance, 2 months, and Debra Ann Vance, 3, Jerelyn Vance's children.

Pat Vance, 6-year-old son of Jerelyn Vance, was admitted to an Oklahoma City hospital with bruises.

The pilot was identified as Michael A. Rand, 33, of Dallas.

The patrol reported the plane was attempted a forced landing after having a power failure and struck a tree.

The plane plowed into a field on the W.H. Drake ranch north of the Arbuckle Mountains and then cart-wheeled.

Investigators from the Federal Aviation Administration sealed the area shortly after the crash and began scouring the wreckage for the cause of the crash.

Rand had radioed to the airport at nearby Ardmore at 8:01 p.m. Sunday that the plane was having a power failure. Contact was then lost.

Two ranch hands making a routine cattle check discovered the wreckage and notified the highway patrol.

## Hospital Stay Behind Wayne

NEWPORT BEACH, Calif. (AP)—Actor John Wayne has been released from a hospital here, minus a staph infection and 14 pounds.

Wayne's son, Michael, said here, "The infection is cleared up. And he's 14 pounds lighter. They put him on a diet, too."

DIGNITARIES ATTEND DE VALERA FUNERAL — Princess Grace of Monaco and Lord Killian, president of the International Olympic Committee, stand at

graveside during burial of former President Eamon de Valera in Dublin Tuesday. (AP WIREPHOTO)

# Laid To Rest In Ireland's Sacred Field Of Heroes

DUBLIN, Ireland (AP)—Eamon de Valera was laid to rest Tuesday just a few graves away from Charles Stewart Parnell and the other great Irish heroes.

The gray granite rows of Glasnevin Cemetery, where the ordinary people of Dublin climbed up Celtic crosses and perched on headstones for a look at the dignitaries around the chief's grave, took in almost the entire sweep of Ireland's fight for freedom down the years.

Now the man whom many regard as the father of modern Ireland joined that select company, attended by a few tottering survivors of the 1916 uprising who stood at the graveside, their medals glittering in the late summer sunshine.

An Irish-American mourner, Princess Grace of Monaco, an old friend of the De Valera family, stood out in the ring of official mourners that included U.S. Secretary of Labor John Dunlop and Sen. James L.

Buckley, Con-R, N.Y.

Also at graveside, their rifles held upside down in tribute to the commandant at Boland's Bakery, the last to surrender in the Easter Monday rising, was an honor guard of army cadets from the same unit De Valera sent to Washington for President John F. Kennedy's funeral.

His coffin draped in the tricolor of the Irish republic that he helped bring about, De Valera on his last ride through Dublin was taken past the general post office, where the silent crowds were 15 deep. Here in 1916 the republic was proclaimed by rebels who came out on bicycles and by street car to take on the British army.

There were cries of "Up Dev" as the cortege led by the army band playing "Wrap the Green Flag Round Me" slow-marched along the banks of the Liffey. Hundreds, swelling to thousands, joined the procession in the teeming slums of north Dublin, where

pubs were shut and every drab tenement flew the Irish flag.

Prime minister of Ireland for 21 years and president for 13, De Valera in his 92 years had also been a country

## Data Will Go Into Book

OZONA — A committee is at work in Crockett County compiling a history of the county.

All former residents of the county are being asked to help, in order for the history to be as complete as possible. Biographical material is needed.

The project will record Crockett County family histories as written by family members. The use of pictures, old contracts, documents and interesting photographs will serve to make the book a collector's item.

The book will be printed by Newsfoto Yearbooks of San Angelo and will have up to 500 pages. Price of the book will be \$15.00, including tax. If the book is to be mailed, an extra \$1 should be included in the order. Prepaid orders are requested.

The book is the Bicentennial project of the Crockett County Historical Society, which has Mrs. P. L. Childress as its president.

school master, a professor of mathematics, actor at the Abbey Theatre, guerrilla chief, gun runner, jail breaker, member of both British and Irish parliaments, president of the League of Nations and the foremost exponent of the motto "England's difficulty is Ireland's opportunity."

An immigrant who went the other way, De Valera was born in New York, which probably saved his life and propelled him to the forefront of Irish rebel politics when the other 15 leaders of the Easter Monday rebellion were shot by a British firing squad.

No tombstone yet has been raised to De Valera, but his monument already is atop Dublin castle, the tri-color of the Irish republic; green for Ireland, orange for Ulster, white for the principle of the unity of purpose that would some day reunite them, but alas, not in his long lifetime.

## On Probation

BALTIMORE (AP)—Former Vice President Spiro T. Agnew's son has been placed on probation after being convicted of a trespass charge that stemmed from an alleged peeping tom incident.

After finding James Rand Agnew, 28, guilty on Friday, District Judge Sol Friedman ordered the verdict stricken.

# Four More Suspected Cases Of St. Louis Encephalitis

HOUSTON (AP)—Four new suspected cases of St. Louis encephalitis, a sometimes-fatal disease, have been identified here, health officials said Tuesday.

The four included a 10-year-old boy, the first youth possible victim of the disease during the outbreak that started last month.

There were five confirmed cases of encephalitis in the city. The four new possible victims brought to eight the number of suspected cases.

Eight of the victims were in Houston hospitals for treatment.

All of the victims live in the central and eastern part of the city, officials said, and mosquito spraying has been stepped up in those areas.

The St. Louis strain of encephalitis is spread by the Culex quinquefasciatus mosquito. Wild birds act as a reservoir of the virus and the mosquitoes spread it from bird to bird. The insects occasionally bite humans, transmitting the disease.

John Morrison, chief biologist with the mosquito control district here, said there were signs that control efforts were paying off.

He said there was a drop in the population of the Culex mosquito and that specimens were becoming difficult to find.

Evidence of encephalitis infection in wild birds also was declining, he said.

Morrison said spraying was being increased in parts of south and southwest Houston where several cases of encephalitis were reported during a 1964

epidemic that killed 32 persons.

All the cases so far this year have been mild, officials said, and the disease was not considered to be an epidemic stage.

The St. Louis strain of encephalitis symptoms include fever, headaches, stiff neck, nausea, vomiting, drowsiness and irritability. Severe cases of the disease can cause a degeneration of the central nervous system.

# EMERGENCY RESEARCH Bean Flavor Complaints

PULLMAN, Wash. (AP)—Complaints about musty or moldy flavors in processed dry beans—in products such as chili and pork and beans—have caused the West Coast industry to begin an emergency research program, officials say.

Professors at Washington State University and the University of Idaho are seven months into studies they hope will reveal why some processed beans don't taste or smell good, despite normal cooking and handling.

Some persons estimate that up to 10 per cent of the 1972 and 1973 crops were afflicted by the off-flavor problem. Up to 5 per cent of the 1974 crop has been rejected in some places, one of the professors said, though it is still too early to tell whether the mysterious problem lingers.

"If this problem continued into the 1974 crop, the threat to all segments of the dry bean industry was indeed

serious," said John Sacklin, food science director of Nalley's Fine Foods and an organizer of the research effort. "The economic implications to our own Pacific Northwest agribusiness is extensive."

Some estimates of the loss have ranged as high as \$10 million in Washington and Idaho last year. Michigan and California are the two top bean states, but in Idaho, the 1974 crop was 2.5 million hundredweight, mainly of pinto beans. They are valued at \$63.8 million.

Washington's 1974 production was 494,000 hundredweight, worth an estimated \$12.66 million.

Heading the research are Dr. Barry Swanson at WSU and Dr. John Montoure at UI Moscow. Swanson is examining dried beans for mold content and Montoure is cooking up batches of dry beans in a commercial process to see if handling methods result in musty flavors.

They say that harvest-time moisture may be the cause, though nothing is known yet for sure.

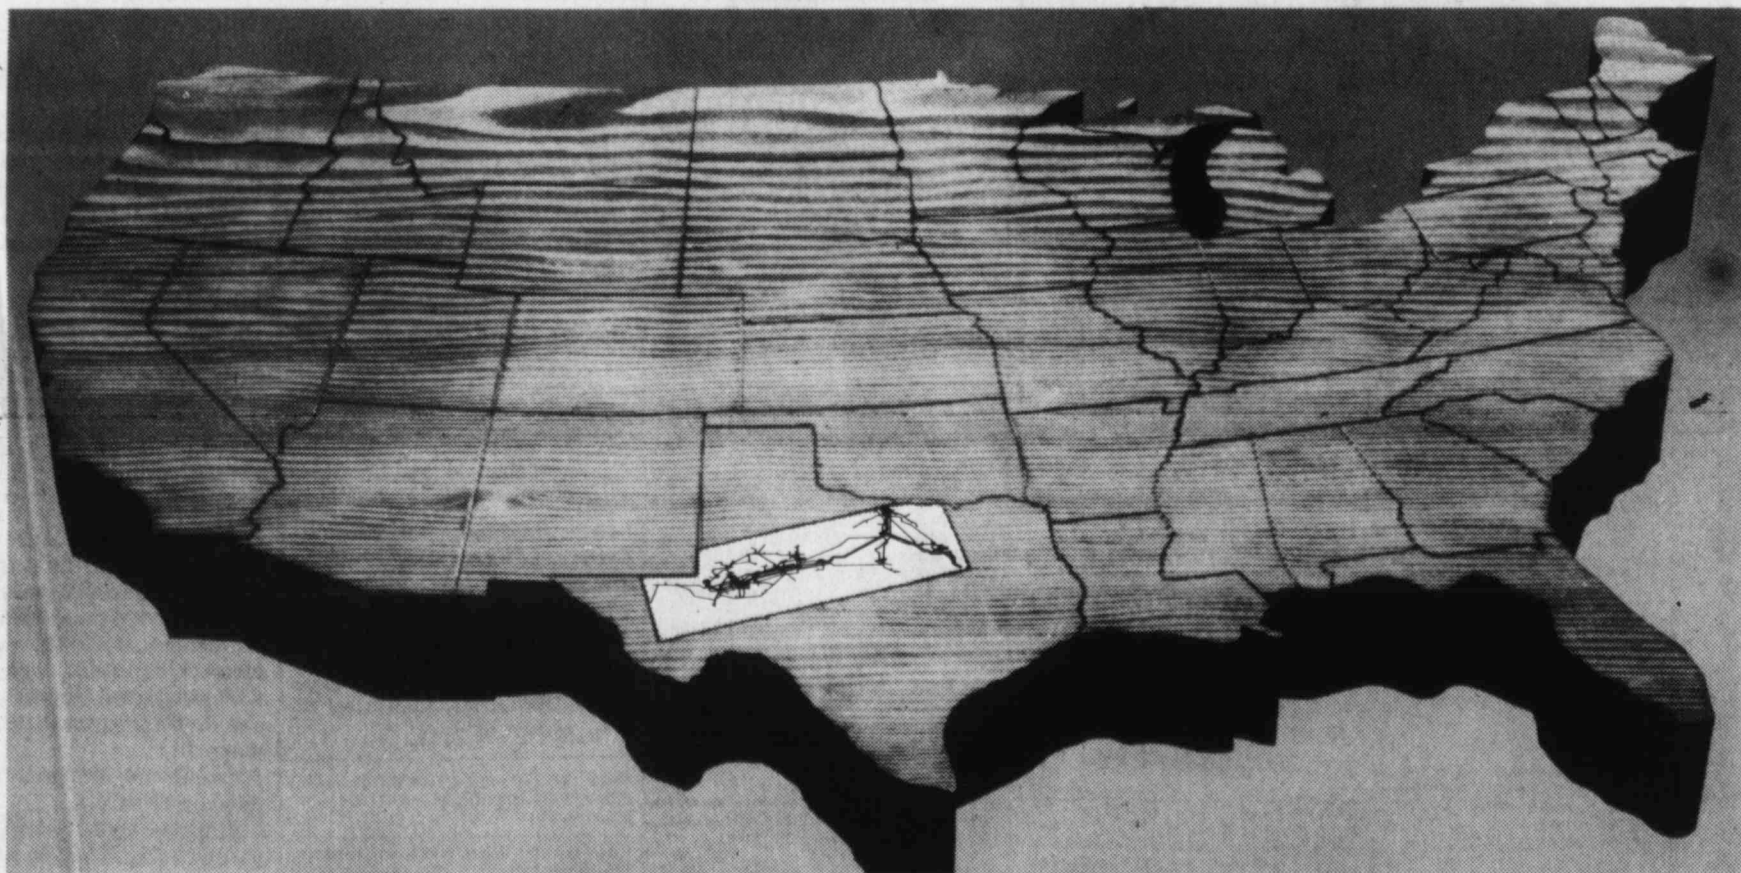

Most of those involved say the off-flavor problem has been found throughout the nation, wherever beans are grown.

Various tests, Sacklin said, show that there is nothing wrong with the beans from a health or safety standpoint. He said the tests showed that insecticides and herbicides were not responsible.

# Based on latest FPC figures, Texas Electric's residential rates are 27% below the national average.

The average family uses about 750 kilowatt hours of electricity per month. Based on the latest Federal Power Commission figures, Texas Electric's rates for this much electricity are about 27% below the national average.

But the costs of producing your electricity are going up.

New supplies of Texas Electric's major generating fuel — natural gas — are harder to get and much more costly.

So we're turning to lignite coal and nuclear fuels. While these fuels cost less

than new supplies of natural gas, plants that use them are considerably more expensive to build than gas-fired plants.

This means electricity will have to cost you more.

But we're working to keep your rates reasonable by using fuels that will keep costs lowest in the long run.
