Ten Tennessee Inmates Shot During Upheaval

NASHVILLE, Tenn. (AP) — Ten inmates were shot and 28 persons injured during a six-hour upheaval at the Tennessee State Prison that began when an inmate complained about the substitution of cold bologna for pork chops for dinner, officials reported today.

Prison officials earlier today had said one prisoner suffered gunshot wounds in the disturbance that included looting of supplies and several fires. They later said the earlier estimate was made before they had time to check all the inmates for injuries.

Acting Warden Robert Morford said up to 350 prisoners of the institution's 2,200 inmates were involved in the melee that was quelled during the early morning hours. The gunshot wounds were from shotguns used by officers, prison officials said.

"When you have sufficient force, or indeed slightly more than what is sufficient that is what is necessary to keep your casualty rate at a low figure," Morford said. "It's when the forces, that is the forces trying to overcome the inmates, are outmanned, that you have panic and fear and sometimes overreaction," said Morford in explaining the need for the shooting.

At least 300 riot equipped city police officers and a small contingent of state troopers went to the 75-year-old facility to restore order. James Gilchrist, a spokesman for the Corrections Department, said 36 of the injured were inmates. Two prison guards suffered minor injuries, he

said. Three of the inmates who were shot were admitted to city hospitals. Terry Shumate, 25, was listed in serious condition with gunshot wounds to the mouth, brain and heart. Napoleon Pollard, 22, was in stable condition with gunshot wounds in the abdomen. Bobby R. Smith, age unknown, was in fair condition with shotgun pellets in his chest and knee.

Two other prisoners were in hospitals for treatment of bites inflicted by guard dogs. A sixth, Jerry Duncan, 36, was being treated for a fractured skull, which prison officials said he suffered in a fall while trying to escape from a cell block that was burning.

The other injured prisoners were treated at the prison hospital and the ex-

BULLETIN

The military construction bill, including \$4,382,000 for Webb Air Force Base, was approved by the U.S. Senate-House conference committee, Sen. Lloyd Bentsen notified Mayor Wade Choate today.

The house had originally approved \$4,436,000 for Webb AFB.

Sen. Bentsen said the bill will be sent back to the Senate floor for final approval next week.

tent of their injuries was not immediately known, said Gilchrist.

Morford said the guard

involved in the dining room fight was placed on administrative leave pending completion of an in-

vestigation. He said the "preliminary finding is the guard did act improperly in the dining hall."

Vance Chisum Resigns Post As Police Chief

"It is with a great deal of regret that we announce the resignation of Police Chief Vance Chisum who is returning to Uvalde as police chief there effective Oct. 1," City Manager Harry Nagel stated here this morning.

"Chief Chisum took over as chief here on Nov. 1, 1971, following a very difficult time in the police department. He has upgraded the department in many ways, including the quality of officers hired, requirements of education and training for the officers, addition of a juvenile department, improvements in the record keeping and procedures, improvements in equipment, and the overall status of the department," Nagel added.

DIFFICULT DECISION Chief Chisum, who will return to a town which he served in law enforcement for 17 years, said "It was an extremely difficult decision for me. I have worked hard to be of service during my four years here and am very proud of the condition of the department at this time. With deep regret, I leave my Big Spring friends and fellow law officers and wish the very best in the future for the City of Big Spring and the

VANCE CHISUM

police department."

Nagel said that a called meeting of the council will be held at 9 a.m. Monday in a closed executive session to name a new chief. The meeting will open following the closed session to make an official announcement of the selection. It was indicated that the recommendation of the city manager will come from within the department.

REGRETS OF MAYOR Mayor Wade Choate said here this morning, "Chief Chisum has done a

tremendous job as chief of police. It is with extreme regret that I accept his resignation. He will be very hard to replace, but I understand his desire to go back to an area that he considers home."

Mrs. Polly Mays, mayor pro-tem, who is in Dallas at the National Republican women's meeting, stated prior to leaving, "I understand that he might lose Chief Vance Chisum. I wish there was some way to persuade him to stay. He has done such a good job."

APPRECIATE SERVICE Harold Hall, councilman, stated this week, "I just wish we could talk Chisum into staying in Big Spring. He's really done us a great job. I just wish everybody had appreciated how hard he worked and how much had done for Big Spring."

Charles Tompkins, who learned of Chisum's resignation today, said, "Vance, is there some way we could get you to change your mind and stay here? We certainly appreciate your service here."

Councilman Eddie Acri, when contacted today stated, "I knew about it. I had heard this was going to happen. I would like to say that the chief of police was a good honest man and his leaving will be a loss to the city."

Protective Vest Worn By President

PORTSMOUTH, N.H. (AP) — President Ford's security agents appear to have outfitted him with a protective vest to wear on ventures into crowds after a woman aimed a gun at him at close range last week.

Aside from that, security procedures were changed little Thursday as the President campaigned through southern New Hampshire, making 22 stops on a day-long tour to boost Republican Louis C. Wyman's chances in next Tuesday's special U.S. Senate election.

Ford displayed the same zest for shaking hands and mixing with crowds as he has on previous trips, and the cordon of a half-dozen agents around him was the same as in the past.

However, the outlines of what appeared to be a protective vest were visible clearly through the back of Ford's jacket and his shirt front was stretched tautly across his chest.

White House officials and Secret Service agents in the presidential party refused to confirm or deny that Ford was wearing a vest. It was his first extended trip since the arrest last Friday in Sacramento, Calif., of Lynette A. Fromme, a follower of convicted mass murderer Charles Manson, after she pointed a pistol at Ford at close range.

But several aides stressed that, if such a security procedure had been instituted, they would not be free to talk about it.

Odessa Route Is Suggested

For football fans going to Hobbs tonight, the highway department stated at noon that there was water on both North 87 to Lamesa and State 175 to Andrews, but both roads were both passable if there is not more rain this afternoon.

The driest route is IS 20 to Odessa and up through either Andrews to Eunice or Seminole, then over to Hobbs.

Hobbs school officials stated that they have had a drizzle since 5 p.m. Thursday but no hard rain or flooding conditions in that area and it looked like it might clear off by game time.

COLD

Rain, sometimes heavy, and cold through Saturday. Highs today and Saturday, near 60. Low tonight, low 50s. Northeasterly wind 10-20 miles per hour this afternoon. Decreasing to 5-15 m.p.h. tonight. Rain chances: 90 per cent today, 80 per cent tonight and 70 per cent Saturday.

SAYS SPEAKER AT WORKSHOP

Energy In Effluent Is Increasingly Valuable

"As natural gas prices rise, institutions, industrial and commercial buildings will be turning increasingly to reclaiming the heat energy locked in their own solid waste effluent, and saving thousands of dollars in the process."

This prediction was made today by Herbert T. Ruehl, manager, incineration division, Kelley Company, Inc., in a Heat Recovery Workshop held for the Texas Association of Hospital Engineers at the Malone-Hogan Hospital here.

"The problems of hospital waste-handling, separation and disposal can be solved with the new pyrolysis form of incineration, which is designed to handle it all. Contaminated, pathological and general wastes can be disposed of and sterilized in a single piece of equipment. At the same time, the pyrolytic process offers the potential for turning that waste into usable energy," he said.

"In fact," he added, "the nation's growing crisis in natural gas supplies can be eased by industry if it treats trash as a natural energy resource, and recaptures the enormous quantity of heat available from its combustion."

\$50,000 SAVINGS Ruehl described a heat-recovery pyrolysis installation, now being made at a plant manufacturing lawn-care and recreational equipment, where savings from reduced gas and hauling costs will be over \$50,000 a year on a total investment of \$110,000, completely installed.

COMING SUNDAY

IT CAN'T BE THAT SAD

FAIR PREVIEW — A Circus, carnival, pet show, livestock exhibits and many other facets of the third annual Howard County Fair will be spotlighted. One of the attractions of the fair is the Suez Temple Shrine Circus scheduled for two performances Monday. Shown is "Patches", a clown with the Clyde Brothers Circus.

CAMPAIGNING

MIDLAND BOUND — President Ford will be in Midland Saturday afternoon for the official opening of the Permian Basin Petroleum Museum. Photographer Danny Valdes and Reporter Marj Carpenter will provide details of the President's visit to West Texas.

Large Crowd Expected For President's Visit

Officials of the Permian Basin Petroleum Museum, Library and Hall of Fame in Midland said this week that every effort is being made to accommodate the largest crowd possible for Saturday's 5 p.m. opening day ceremonies.

The attraction of having the President of the United States as the dedication speaker, and the museum itself, are certain to draw one of the largest crowds ever to Midland, Russell Ramsland, president of the museum's board of trustees, stated.

The city of Midland has agreed to cut an access road from State 349 (Big Spring Street) to the north east parking lot provided by the city.

After landing at Midland Air Terminal, the President will drive directly to the museum. An eight-foot-high chain link fence at the airport will prevent any handshaking. "The best place to see the President will be at 5 p.m. at the museum," Homer Fort, museum director, stated.

Fort said that 75 press people will be in the President's party and 125 regional news people have requested admittance credentials.

Rainfall Total Mounts To 23.35 Inches In HC

A cold front brought record low temperatures and record rainfall for the Howard County area Thursday night, sending the total rainfall for the year to 23.35 inches, better than the entire rainfall in 63 of the past 74 years. The normal for this time of year is 13.56 inches. It was still raining in many areas at noon.

The Experiment Station measured 1.45 inches as of 8 a.m. Friday, bringing the total for the month to 1.83 and the total for the year to the 23.35 mark. The 1.45 inches was the most rainfall ever measured on Sept. 11. The previous high was .91 inch measured in 1963.

The cold front sent the temperatures dropping from a high of 92 degrees Thursday to a low of 45 Thursday night and Friday morning. That topped a 53-year record set in 1922 when the low temperature was 47 degrees.

Between Big Spring and Gail, along the highway, the average rainfall up to 8 a.m., today was three inches, but Snyder had only 1.2 inches up to that time.

A total of 4.25 inches had been trapped at one gauge located six miles northwest of Vealmoor. Of that amount three inches fell in the period of one hour last night.

The Colorado River was running three feet deep and 100 feet wide at the Big Spring-Gail bridge but very little of that had reached Lake Thomas yet.

Twenty miles east of Big Spring at the Welsh-Watts filtration plant, one inch had fallen at 8 a.m. Moss Creek

Lake reported .9 inch at that hour. At the Big Spring CRMWD pump station in northeast Big Spring, the fall was measured at 1.2 inches at 8 a.m. The Odessa filter plant reported 1.41 inches measurement.

Heavier rains were reported at Fluvanna and at Grady in Martin County where four inches had fallen this morning, and more was coming down. The rain caused the football game scheduled for Grady tonight to be moved to Loop.

In east Big Spring, the fall at 7:45 a.m., today totaled 1.50 inches and it has rained steadily since that time.

Other reports include two inches at Forsan, Coahoma, Sand Springs and Elbow, with rain continuing to fall in those areas.

Fire Kills Five In San Angelo

SAN ANGELO (AP) — Five members of an Air Force family died today when fire raged through their apartment at Goodfellow Air Force Base near San Angelo.

Firemen said the blaze erupted around 7 a.m. in the apartment complex but was confined to the one apartment where a mother and three of her children died in the fire. A fourth child died a short time later at Shannon Memorial Hospital.

Authorities said the woman's husband was away on military duty. Names of the victims were not learned at once.

Boyce Hale, south of Big Spring, measured 2.5 inches this morning with rain still falling and 2.5 inches had also fallen at Luther and 1.5 was measured at Lake J. B. Thomas. The Lake Spence area was relatively dry, however.

The cold front also touched off heavy thunderstorms in El Paso, where 50 mile-an-hour winds complicated flooding of low-lying areas there. Some homes on the east side were threatened by rising water.

The Big Spring low temperature of 45 degrees was even lower than those measured in Amarillo and Dalhart.

Amarillo had a low of 48 and Dalhart had a low of 49.

Forecasts called for the cool and wet weather to linger across most of the state through the weekend.

Chappaquiddick Files Involving Ted Missing

WASHINGTON (AP) — Original police records on the Chappaquiddick incident involving Sen. Edward M. Kennedy are still missing, despite assertions by two former police chiefs that they were returned to the files last April.

Officials of the Edgartown police department at Martha's Vineyard, Mass., say they cannot find the documents. "We've looked everywhere. We honestly don't know where they are," Patricia McLeod, a special police officer, said in a telephone interview.

The mystery of the vanished records was raised recently in a book by Carl Gottlieb, a script writer for the movie "Jaws" which was filmed at Martha's Vineyard last summer.

Gottlieb said he had been

told by Jesse Oliver II, then the chief of the 12-member Edgartown department, that the records of the 1969 auto accident that cost the life of Mary Jo Kopechne had disappeared from the files.

However, between the time that Gottlieb talked with Oliver and the book was published, the missing documents—including the original accident report and a copy of Kennedy's first statement to police—were said to have been returned to the department.

Dominick J. Arena, who was Edgartown's police chief at the time of the Chappaquiddick incident, said in another interview that when he quit the department in 1973, he took some of the records with him.

A Popular Cudgel

President Ford has taken up an age-old but popular cudgel, that of reducing the federal payroll and cutting down on federal paperwork.

He pointed with pride, in a recent address, to a reduction of 52,000 in the federal work force under the current authorized strength — but this doesn't necessarily mean 52,000 cut from the federal family. Far from it.

He also said he had high hopes of cutting out some 5,000 different forms which various government agencies demand that citizens and businesses fill out and return. This would be commendable, indeed, but a mere drop in the bucket.

According to Murray L. Weidenbaum, in the August issue of Texas Tax Foundation Review, there are 63,000 bureau employees involved in current control programs which cost in excess of \$2 billion a year. This, however, is but the tip of the iceberg, with the body of the iceberg being the 130 million manhours a year to fill out 5,164 different forms, or to seek adjudication, or pursue the cause of justice in the courts.

Anyone who has filled out a government form has a

personal experience in frustration. Most of the information sought is unwarranted or unnecessary, and much of the volume of questions are vague and if fully answered often lead to contradictory information.

Mr. Ford, however, will win many friends and voters

if he can demonstrate in 1976 that he has shrunk the army of federal employees to any appreciable degree and abolished a legion of forms (and jobs that issue from them). But it will take more than well placed and pleasing rhetoric.

Lacking Zip In Bounce

John Cuniff, the Associated Press economic news analyst, put his finger on a weak link in the chain of glowing recovery predictions.

It is, namely, the crazy pattern of uncertainty which has accompanied the current period of "stagflation." Translated, that means inflation keeping pace with stagnation.

For examples, the index of leading indicators has gained 11.5 per cent since January this year, making the fastest rate of any recovery since 1958. But wait: consumer and wholesale prices are rising rapidly, too.

That means that retail sales haven't bounded upwards as predicted. This consumer resistance also is

reflected in other areas, but nowhere so much as in housing, where higher labor and material costs are compounded by a suffocating 10 per cent annual mortgage rate. Businessmen are getting the message, too, because the 1,000 largest manufacturers cut capital appropriations by 17.7 per cent in the second quarter of the year. Moreover, this was the third straight quarterly decline. In fact, it was the steepest three-quarter decline since 1953.

It may well be true we have hit bottom, but our bounce isn't altogether something to cheer about. Too many things are pricing themselves out of the market, including the money market.

Schmidt's Nightmare

Robert Novak

BONN — A private letter from Gerald R. Ford to Helmut Schmidt last May politely informed the West German chancellor that the U.S. wants to renew the expired "offset" agreement under which the Germans help defray the cost of American troops here in Germany.

WHAT IS odd about that letter is not Mr. Ford's request, because an offset agreement in one form or another has been part of the Washington-Bonn household arrangements for years. What is odd is that, four months later, Chancellor Schmidt has not yet answered the President's letter.

The case of the unanswered letter points up the single most dangerous set of problems confronting Schmidt and West Germany today.

nightmare that conflicting and contradictory economic strategies of the Western democracies, all staggering under recession and inflation, threaten the capitalist West with disaster and feed Moscow's line that capitalism is marked for extinction.

Thus, the true explanation of Schmidt's long delay in answering Mr. Ford's letter is political pressure on the U.S. to take a much stronger lead in coordinating and strengthening Western economic strategy before it is too late. Although the high unemployment here has not yet led to any form of political extremism, officials point with alarm to left-wing student activists now asking such questions as this: "Why is there no unemployment in the Soviet Union?"

THE SCHMIDT government is terrified of getting caught in the kind of runaway inflation that savaged the last Social Democratic government and led to Adolph Hitler. That explains the heavy emphasis in Schmidt's new four-year program on budget-cutting, tax-raising, anti-inflation measures and its lack of anti-recession stimulants. ("This is a recovery program?" opposition leader Helmut Kohl, head of the Christian Democrats, exclaimed to us.)

Schmidt is accordingly taking a large gamble on rescue from an unlikely pair of anti-inflationist rescuers — Secretary of the Treasury William Simon and Federal Reserve chairman Arthur Burns. He wants them to do in the U.S. what he is unwilling to do in West Germany: hypo the U.S. economy enough to fully restore U.S. purchasing power in the German export market.

ONE OF EVERY four workers here is directly working for that market, the most dynamic engine of the flustering West Germany economy. The U.S. share of German exports was about 11 per cent until the U.S. recession. It is now only little more than half that much.

PROBLEM NO. 1: Schmidt's new economic program concentrates far more heavily on reducing the record \$17 billion budget deficit than on stimulating the country's worsening economy. By severely limiting government spending, pruning government payrolls and raising taxes (including employe contributions to social security) the chancellor's economic program leaves little room for a new offset agreement.

Indeed, Schmidt's economic advisers are indignant that the U.S. is even pushing for one, since the original offset was designed to help solve the U.S. balance of payments deficit, now a non-problem for the U.S. but a growing problem for West Germany.

PROBLEM NO. 2: Schmidt wants the U.S. to help handle the recession-ending part of his economic crisis by reviving Germany's flattened export trade. That means injecting new cash into U.S. consumer pockets to be spent on West German automobiles and other production, no matter what the inflationary impact on the U.S.

PROBLEM NO. 3: Dwarfing both these questions is Schmidt's

My Answer

Billy Graham

I asked you to please contact the National Council on Alcoholism, listed in your yellow pages. You and other clergymen need to be briefed on alcoholism as a disease. My husband would have achieved sobriety ten years before he did, if somebody had realized treatment was available. You have such power to help people, Mr. Graham, and there's a tremendous need in this area.

Let me just qualify your definition a bit. I believe drinking was a sin first, and a disease later. You see, anything that abuses the body is wrong, and here I include gluttony, and related self-indulgence.

Oh, I grant you that clergymen need to be informed as to the nature

of alcoholism. And I do not underestimate the good done by the Council, the AA, and other agencies. But my business is to introduce people to the saving grace of Christ. That's the only real power to change men spiritually. And, of course, right living and moral behavior start there.

Two years ago, American consumers spent an average of more than \$3.1 million an hour on alcoholic beverages. To the extent we become a people with an alcohol dependency, to that extent we cripple both the present and the future. I'm for getting all the facts we can on alcoholism, but America's greatest need is a spiritual regeneration, not just a medical rejuvenation.

Map of the Sinai Peninsula, circa 1975

Who Killed 'Gold Boom'?

John Cuniff

NEW YORK (AP) — It was as if a great gong were struck and firework no sound, or some fireworks were lofted into the sky and no bursting kaleidoscope showered down.

The "great gold rush of 1975" turned out to be a creep, said an important gold dealer. There was no rush, no eagerness to own the precious metal that in bullion form had been banned to Americans for 41 years.

Rescinding of that ban last Dec. 31 was accompanied by great excitement and expectations of a rush to gold dealers. Many had expected people even would draw money from savings accounts to buy gold. Hucksters forecast big price rises.

The peak price, around \$190 an ounce, was reached just about the time the public was permitted to buy bullion, which is the metal in its rather plain, unfabricated, bar or wafer form. The price

this week was around \$150. Some boom!

What killed the "gold boom?"

Herbert Coyne and Irwin Shisko, vice presidents of J. Aron & Co., an old-line merchant banking firm, which puts industrial and commercial buyers and sellers together — they are more or less disinterested observers of retail markets — gives this assessment:

There was a lack of tradition of gold ownership in the United States. Americans apparently are unlike Europeans, who tend to place great faith in the ability of gold to retain its value during inflation or collapse.

But even before the lifting on the ban on bullion, Americans were permitted to own certain gold coins. Many smart people already had satisfied their longing for gold by purchasing these coins. They didn't have to wait until Dec. 31.

Thirdly, the price of gold

kept rising, and Americans are wary of buying items on the rise. Sometimes they might conclude that prices, though high, might continue rising. This time they didn't think so. They were correct.

Finally, there were too many "anxiety elements" to owning gold. "There was a carnival atmosphere, a feeling that flamboyant operators would bilk the public." There was a fear of financially weak dealers going bankrupt.

There were fears also that bars of alloys would be plated to look like gold, and there were fears that some dealers would make extraordinary profits.

Finally, they said, Americans became aware of the difficulties and costs in returning gold bars to the market. They realized that maybe gold wasn't always negotiable. And they eventually realized they would have to pay \$25 to \$50 an ounce to obtain an assay prior to sale.

Little Math In Reducing

Dr. G. C. Thosteson

Dear Dr. Thosteson: I will soon be done with my diet. I want to know whether, if my daily caloric intake is 2,500 calories, that means my body can keep 2,500 calories, or does it mean I must burn up these calories to maintain my desired weight?

Say I burn off 1,000 of those calories each day. Does this mean I can have 1,000 more that day and keep my weight?

I hope you understand my question. I guess what I'm asking is whether, once I quit my diet, I can start eating normally again right away.

I'm a healthy girl. — M.M. I sometimes wish the word calories had never been coined. One can visualize you and others like you sitting there with slide rules trying to work out caloric equations that might puzzle a chemical engineer.

Let's just say you will never be "done with" your

diet. This is one of the "lost secrets" I speak about in my booklet on the subject.

I think you would do better thinking in terms of pounds that register on your bathroom scale than in things as sophisticated as calories. But I can answer your question.

If you take in 2,500 calories, then, of course, you must "burn up" 2,500 calories to stay even. That is elemental. If you use only 1,000 of those calories, then the remaining 1,500 will turn up as extra tissue somewhere in your body.

You apparently have lost weight with your restricted food intake. You don't give me your statistics (before or after your dieting) nor do you give your height.

But let's say that you are now a lonesome young lady, and that you turn eyes at the beach. Great. But remember. You had a weight problem, and you still have it

to some extent.

The first order of business is to get a reliable scale, keep it adjusted, and use it frequently — at least a couple of times a week. If you detect a gain of a pound or two, you know what must be done. Reduce consumption of weight-building items such as desserts, fatty foods and sugars (pastries and candy).

It is easier to lose two or three pounds now than to try to lose eight or ten pounds later.

You can lose weight if you really want to! Dr. Thosteson's booklet, "Lost Secrets of Reducing," tells you how — naturally and without gimmicks — to the level best suited to your individual needs. For a copy write to him in care of the Big Spring Herald, P.O. Box 3999, Elgin, Ill. 60120, enclosing a long, self-addressed, stamped envelope and 35 cents.

Ratio Is High

Around The Rim

John Edwards

The number of divorces, compared to the number of marriages in Howard County, exceeded the national average during 1974.

And, this year, even more couples in Howard county are splitting.

THE NATIONAL AVERAGE last year was 440 divorces for every 1,000 marriages, a ratio of 4.4 to 10. Locally, the ratio was 4.7 to 10.

The ratio here so far this year is 6.5 divorces to 10 marriages.

As of Aug. 31, 1975, District Judge Ralph W. Caton had granted 224 divorces in Howard County and the county clerk's office had issued 346 marriage licenses.

With four months remaining, the court had divorced only 21 less than the 245 couples divorced last year. During 1974, there were 518 marriages here.

Asked about the rapid divorce rate, Judge Caton related it to other

changes in society. "Starting in the Sixties you had a total erosion of the moral fiber of the American people, which manifests itself in all kinds of things," Judge Caton said.

Permissiveness, lack of respect for police and the courts and a "paternalistic" government were among the other symptoms he noted.

MARRIAGE IS a casual thing, Judge Caton said. "You want to go to the movies, or get married? Well, there's not anything good showing."

The state legislature made "incompatibility" a ground for divorce several years ago. "That opened Pandora's box," Judge Caton said.

Divorce, child custody and other domestic relation suits take "more of the court's time than any other part of the court's jurisdiction," Judge Caton said.

EDITORIALS / OPINIONS

Visit To Yosemite

Marquis Childs

YOSEMITE NATIONAL PARK, Calif. — In the high Sierras, temperatures have already begun to drop so low at night that the camper finds a thick coating of ice in his water bucket in the morning. It is the end of a phenomenal summer and the post-holiday exodus clogged the mountain roads with home-going vacationers.

FOR FIVE YEARS attendance at Yosemite has held at 2,200,000. By midseason this year it had increased 20 per cent. Every campsite, every hotel bed, every room in every lodge was filled almost without letup.

This has put strains on those who try to maintain the balance between preserving a fragile natural resource and the demands of the great American public. For a variety of reasons, this is a "see America first" year.

ONE REASON is the fall-off in foreign travel with costs abroad reaching heights that discourage all but the very rich. There is also the vague fear that this could be the last free-wheeling summer. While gas is 60 to 70 cents a gallon today, it could go, with all the rumors of controls and unrestrained prices, to \$1.

That would mean more in California than in any other state. Every Californian is born with a rudimentary set of wheels that develop with adolescence into one form or another of a motor-driven vehicle. They roar along the skillfully engineered highways in search of scenery, sport and even, among the young, solitude and communion with nature.

OF THE 2,500,000 visitors to Yosemite, 80 to 90 per cent are Californians. They come for the magnificent granite cliffs, the redwoods and the conifers, the rushing mountain streams and tumbling falls. They cook over fires

in their own campsites or they stay at the Ahwahnee, that massive caravansary out of another era.

To the quick tripper, the park seems, for all the crowding, scrupulously kept. The winding highway to White Wolf Lodge and Lake Tenaya at 9,000 feet is a scenic wonder: The absence of road signs a dividend, the general effect of green at the curbside rising to the tall trees against the clear blue sky.

THAT IS THE complaint of the environmentalists — too manicured, too many people. At one extreme these ardent young hikers with their backpacks would like to see it revert to the state it was in when President Lincoln in 1864 ceded this part of the federal domain, about the size of the state of Rhode Island, to California for a park.

In 1970 rebel environmentalists fought a pitched battle with the park rangers over the restraints they imposed.

PARK SUPERINTENDENT Leslie Aramberger takes a sensible view. Concerned about overcrowding and the threat to Yosemite, he recognizes the right of the public to enjoy the natural beauty saved from the exploiters, the sub-dividers and the timberbers. More rangers and more protective measures on roads and campsites are essential. But Washington and the Department of Interior are a long way off. Interior has been adrift for months as Congress and the President quarrel of leadership.

PRESIDENT FORD has just been in this state seeking friends and appealing for help in the energy dilemma. Rhetoric about free enterprise will not be a satisfying answer for his audience here. They want to be reassured that the price brake will not be applied to their freedom.

We Hold These Truths... A Chronicle of America

September 18, 1775:

After a five-week recess, Congress reconvenes on the 13th. For the first time, delegates from Georgia are seated: They are John Houstoun, the Rev. John Zubly, and Archibald Bullock. Georgia has delayed joining the other colonies essentially because of (1) the constant threat of backcountry war with the Creek Indians, and (2) the potentially ruinous effects adherence to the ban on trade with Britain could have on Georgia's rice-based economy. But war with the Creeks does not occur, and the hostilities at Lexington and Concord push waverers into the anti-British camp. On the 18th, Congress forms the nine-member Committee of Secret Correspondence, which is charged with finding foreign economic and munitions assistance. The Committee is responsible for sending Silas Deane to Paris as the first official American diplomatic representative abroad.

A Devotion For Today

"Is it a fast like this that I require? . . . Is it not sharing your food with the hungry?" (Isaiah 58:5, 7, NEB)

PRAYER: O God, may we grow in Thy knowledge so as to accomplish good works useful to others and pleasing in Thy sight. Amen.

Demands Justice For Redwoods

SACRAMENTO, Calif. (AP) — Lynette "Squeaky" Fromme's bizarre arraignment suggests her eventual trial on a charge of trying to kill President Ford could feature scenes reminiscent of the 1970 Charles Manson trial.

Miss Fromme's court appearance Thursday featured the defendant in a red hooded costume demanding justice for redwood trees and issuing an ominous warning that "the gun is pointed."

U.S. District Court Judge Thomas J. MacBride tried to prevent Miss Fromme from making statements in court, saying it might prejudice her right to a fair trial. But she insisted.

"This is more important to me at this time," she said. "I'm the one that has to sit in the cell and worry about it."

Miss Fromme, 26, is the first person ever indicted under the 1965 federal law covering attempted assassinations of U.S. presidents. She has not yet entered a plea. If convicted, she could draw a maximum sentence of life imprisonment.

Secret Service agents say

E. RICHARD WALKER
Public Defender

a loaded gun was wrested from her hand when she was seized within two feet from President Ford in Sacramento's Capitol Park.

Since then, her friends have said that Miss Fromme may have been seeking attention for the Manson clan's campaign against pollution, which advocates killing the polluters.

"There is an army of young people and children who want to clean up this earth, the redwood trees," she said in court Thursday. The judge said her

statements weren't relevant to the case. But she rambled on in a calm voice.

"I want you to order the corps of government engineers to buy up the parks," she said. "...You have jurisdiction over the redwood trees...The important part is the redwood trees."

As the judge tried to silence her, she declared, "The gun is pointed, your honor. The gun is pointed. Whether it goes off is up to you."

As she was escorted from court by a deputy U.S. marshal, she remarked, "I hope I wasn't rude." MacBride assured her she wasn't.

Miss Fromme's next court appearance is set for Tuesday when Federal Public Defender E. Richard Walker will argue for reduction of her million bail. He also will seek cancellation of a gag order which prevents Miss Fromme from talking to news media.

Her plea hearing is set for Sept. 19. The judge has said he will make every effort to bring Miss Fromme to trial within 60 to 90 days.

Sheep, Baby Shows Today

LAMESA — The Sheep Show, Baby Contest and Goat Show are being held today at the Dawson County Fair.

All exhibits are to remain in place until 9:00 p.m. Saturday in order that one may view the exhibits which have been judged previously while attending the Friday and Saturday activities.

There will be the Dawson County Fair Association Open Horse Show in the Lamesa Rodeo Arena. Entries will be accepted beginning at 8:00 a.m. The show secretary is LaFrae Sharp, Route B, Box 215, Lamesa, telephone number area code 806-497-5373. Horses do not have to be registered. Entries are advised to bring papers or proof of age or veterinarian verification. This show is open to single youths through age 18. The show will be held according to AQHA rules. Entry fees are \$4. per class per horse or \$20 total for all entries by an individual.

There will be halter classes for stallions, mares and geldings with grand and reserve champion awards for each. Other classes are: Youth showmanship, open western pleasure, youth western pleasure, youth western horsemanship, open reining, open pole bending, youth pole bending, open barrel racing — jackpot optional, youth barrel racing and jackpot calf roping which is limited to Dawson County Youth. Jackpot Calf Roping will not count towards All-Around.

SURVEY SHOWS Speed Limit Laws Ignored

By The Associated Press

The nation's drivers are still whizzing along highways above the 55 mile per hour limit designed to conserve energy despite recent increases in gasoline prices, an Associated Press survey shows.

In the survey, AP reporters drove at 55 m.p.h. for an hour during a weekday noontime this week on highways across the country. The test showed that in only one state was the reporter, while driving at the legal limit, able to pass more cars than passed him.

And in that state, West Virginia, the reporter said he believed the test was thrown off by drivers from the opposite direction blinking their lights to warn of a radar speed trap.

The survey also showed: —The number of speeding tickets is up considerably over the period before the 55 m.p.h. limit was put into effect in March of last year. In some cases the number is more than double or triple what it was in the pre-55 m.p.h. period.

Police have increased attempts to trap speeders, in some cases adding radar units and unmarked patrol cars. Some of these efforts are apparently aimed at preventing loss of federal highway funds, which can be taken away from states not enforcing the 55 m.p.h. limit.

Earlier this week, the U.S. Transportation Department ordered all states to furnish data showing they were enforcing the lower speed limit.

Police officials in most states believe that drivers, if not following the 55 m.p.h. limit, are at least driving at speeds below what they did before it went into effect. Many police also said they thought lowered speed limits had lowered traffic fatalities, though safety officials say figures do not necessarily substantiate this.

Opinions of police varied on whether drivers were complying with the lower speed limit more now than when it first went into effect.

The highest incidence of speeding was reported in New Jersey, where the test driver reported he was passed by more than 200 vehicles on the New Jersey Turnpike and passed only two vehicles.

On the opposite end of the spectrum was New Mexico, where the reporter said he was passed by five vehicles and passed four. But he noted one of the cars passing him was a state patrol car with its lights flashing.

The reporter in New Jersey noted that the biggest

Tenneco Exec Says He'll Ignore Threat To His Life

HOUSTON (AP) — Wilton E. Scott, president and chief executive of Tenneco, Inc., says he will ignore a threat on his life contained in an alleged assassination list revealed by a former roommate of Lynette "Squeaky" Fromme.

Fromme, a member of the Charles Manson family, is charged in California with trying to shoot President Ford. Sandra Good, a former roommate, said the list contains more than 100 pages of names of employees of companies which her group believes are spoiling the Earth.

Scott was one of eight Houston residents whose names allegedly are included on the death list. Six of the eight are connected in some way with Tenneco or its subsidiaries.

"I will completely ignore the threats," Scott said. "I won't take any additional protection measures, because although I have a lot of worries, it (fear of assassination) is not one of them."

Scott scoffed at the threats saying, he has received several threats on his life in the past and considers them "a part of business life."

Other Houston residents on the list are: Simon Askin, executive vice president of Tenneco; Harold Daniels, another Tenneco vice president; Conrad Collier, former director of public relations and advertising for Tenneco Realty, Inc., a subsidiary of Tenneco; Omar Simonds Jr., president of Tenneco Realty, Inc.; Charles Webb, senior vice president of Tenneco Realty;

Phyllis Blanchard, with the General Foods office here; and Richard Davis, identified only as a Houston oilman.

Webb said he couldn't understand why he was included on the list.

"I can understand why Mr. Scott's on the list, he's the president, but I'm only a real estate man," Webb said.

"Collier said 'Those people (Manson family) are getting nuttier every day. I can't think of any statement I ever made concerning them.'"

A General Foods spokesman said Blanchard has not been to California and has no relatives there. The company has warehouses in California and Blanchard's job involves routing shipments there, the spokesman said.

Capt. B.G. Bond, head of the Houston police criminal intelligence division, said there is no evidence that any

of the Manson group is operating in this area.

Bond said he has been in contact with company representatives concerning those named on the death list, but he declined to comment on the investigation of the case.

Jeweler Joins Chaney Firm

J. D. King, a watch repairman with 35 years of experience, has started work with Chaney's Jewelers, 1706 Gregg St., Robert Chaney announced.

A native of Plainview, King recently sold his own jewelry store there. In 1940 he was the first graduate of Hardin Junior College in Wichita Falls.

King said he repairs all types and makes of watches. He is a member of the Baptist Church.

MC Financial Seminar Set

COLORADO CITY — A financial management seminar for Mitchell County farm producers will be held in the C. C. Thompson Meeting Room at the City National Bank in Colorado City beginning at 9 a.m. Monday, according to Bob Benson, Mitchell County Extension Agent.

Topics to be discussed include: Developing a Cash Flow, Developing Unit Cost Estimates, Whole Farm Budget, Use of Financial Statements, Income Tax Management and Tips and Alternate Marketing Techniques.

Appearing on the program will be Dr. Wayne Hayenga, Economist from College Station, Robert Kensing, Economist from San Angelo, and Marvin Sartlin, Economist from Lubbock.

The meeting is sponsored by the Texas Agricultural Extension Service and Mitchell County Program Building Committee, states Benson.

COUNCILWOMAN SAYS: 'Freedom' Schools Might Be Answer

DALLAS (AP) — City Councilwoman Rose Renfroe, one of the most vocal opponents of busing of school children, says that "Freedom" schools, similar to those established in Georgia, may be the answer for parents who oppose busing.

Mrs. Renfroe said here Thursday she is studying the feasibility of introducing the private school concept in the Dallas area and plans to seek private funds to pay for a trip to Georgia where she will visit several of the schools.

Mrs. Renfroe said the idea of the "Freedom" schools is to preserve the neighborhood school concept.

The schools are funded by parents who also provide a reserve for those who cannot afford tuition costs, she said, and are comparable in quality to most public schools.

She said that the need for the schools became even more apparent in light of the busing plan submitted Wednesday by the school board to U.S. District Court Judge William M. Taylor. The plan calls for the busing of 16,000 pupils in the school district.

Mrs. Renfroe said she was misled by school officials.

"It was my initial understanding that no Oak Cliff students would be bused," she said. "But I've learned since their presentation that what they meant was that there will be no new busing."

Some Oak Cliff pupils are being bused under a 1971 plan.

"I feel like I've really restrained myself on this issue up to now," she said. "But I am so mad that I'm taking the gloves off and I'm going to start telling it like it is."

Special Week Is Proclaimed

AUSTIN — Governor Dolph Briscoe has signed an official memorandum proclaiming Sept. 21-27 as Highway and Transportation Week in Texas.

By that action, Texas joins with the other 49 states in a national observance, the theme of which will be "Transportation, America's Lifelines."

"Transportation services and facilities are vital to the social and economic well-being of all citizens and their institutions in the State of Texas," the memorandum noted.

"Maintenance and development of transportation facilities we now possess and which we plan in the future provide the framework for our ultimate and continuing progress," it continued.

The governor noted that the new State Department of Highways and Public Transportation — a merger of two state agencies — faced "great challenges... for providing good transportation to the people of Texas."

Spade Ranches Conduct Sale

COLORADO CITY — Spade Ranches of Colorado City and Tumcumcari, N.M., held their annual Simmental production sale last Saturday at the Rennerbrook-Spade Ranch south of the city with 75 lots selling for \$67,065.

Highest seller was a bred pureblood Simmental sold to the Alexander Ranch of Trinidad for \$5,800.

Alcoholism Seminar Is Under Way

The fifth in a series of monthly alcoholism seminars began today at the Allred Auditorium, Big Spring State Hospital. The seminars, made possible through a contract with the Texas Commission on Alcoholism, are held in conjunction with the Big Spring VA Hospital and Howard College. Registration for the seminar began at 8 p.m. and the general session began at 9 a.m. The program will continue until 4 p.m. There is a \$1 fee for the seminar and an additional \$1 fee for those who wish to receive continuing education units. Persons interested in the field of alcoholism were invited to attend the seminar. Lester R. Bellwood, Th.D., Ph.D., is the consultant for the seminar.

Topics covered include: "The Need for Alcoholics to do Grief Work." "The Difference Between Psychological Types of Drug Abusers Compared to Alcoholics." "The Psychodynamics of Spiritual and Alcoholics Anonymous Approaches to Treatment Compared to Psychotherapy." "Transference and Countertransference Phenomena in the Treatment of Alcoholics."

James Crossnoe Is Arrested

James Crossnoe was arrested Thursday at the Big Spring State Hospital, where he was an employee, by U.S. Marshal J. Sisson of Fort Worth on charges of giving a false statement when purchasing a firearm. He was taken into federal custody and was to be arraigned before a U.S. commissioner in Abilene.

Budget OKed

MIDLAND — Midland County commissioners have approved the proposed \$4 million budget for fiscal year 1976, which calls for increased expenditures of 6.6 per cent.

DEATHS

J. C. Niblett

Funeral for J. C. Niblett, 74, who died at 10:30 p.m., Wednesday in a Lubbock hospital, will be at 2:30 p.m., today at the Ackerly Church of Christ. Burial will occur in Mount Olive Memorial Park here under the direction of Nalley-Pickle Funeral Home.

Lamar Green Has Surgery

Lamar Green, local businessman, underwent his fifth major surgery since January when he had a kidney removed in an operation Tuesday.

Man Is Cleared Of All Charges

Mark Stroud has been cleared of all charges of auto burglary, according to a report at the police department. He was arrested along with a companion in the parking lot of Barcelona Apartments in the early morning hours Wednesday.

Mrs. Riddle

Mrs. Garlon Riddle, 58, died at 12:33 p.m., Thursday in a local hospital. Graveside services will be at 2 p.m., Monday at Mount Olive Memorial Park under the direction of Nalley-Pickle Funeral Home.

C. P. Altom

ODESSA — Chester Payton Altom, 66, father of Mrs. D. R. Bates and Melvin Lee Altom, both of Big Spring, died Thursday morning in an Odessa hospital following an extended illness. Services will be at 2 p.m., Saturday in the Galbreath-Pickard Funeral Home in Weatherford. Burial will be in a Weatherford Cemetery.

Mr. Altom, a resident of Weatherford, was visiting a daughter, Mrs. R. A. Carrell, in Odessa at the time of his death.

Other survivors include two step-sons, a step-daughter, a sister, 15 grandchildren and four great-grandchildren.

AWARD RECIPIENTS — Honor graduates of Class 76-03 who received their awards at ceremonies Monday at Webb AFB are shown with guest speaker, Brig. Gen. Thomas E. Clifford (third from left) and Col. Robert A. Owens, wing commander (second from right). Honorees are: (from left) 2nd Lt. Merrill L. Beyer (academic award), 2nd Lt. Ralph E. Bower III (military training award), Capt. John P. Marty (ATC commander's trophy and distinguished graduate) and 2nd Lt. Gailon L. Gentry (flying training award and distinguished graduate).

GUERRILLAS KILLED Demolish Hideout Near Buenos Aires

BUENOS AIRES, Argentina (AP) — The Argentine army demolished a terrorist hideout with one blast from a 90mm mortar Friday, killing three leftist guerrillas inside the house who had battled security forces for six hours with hand grenades and Molotov cocktails, police said. On the political front, the Argentine foreign minister announced that President Isabel Peron will start a month's leave of absence Saturday because she is "very tired and her doctors have recommended a rest." He said Senate President Italo Luder will be acting president. Political violence raged unabated across the country and police reported at least eight new deaths. Police reports said one shell from a 90mm mortar virtually destroyed the terrorist house in the Florencia Varela suburb 15 miles south of here. Three guerrillas were found dead in the wreckage but police said other terrorists may have escaped. The police said they called on the army for support after the leftist Montonero terrorists, hiding in a home,

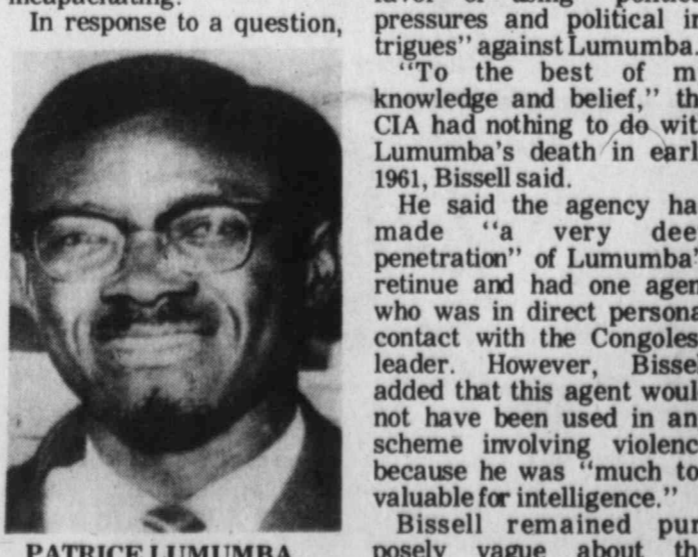

FROM FILMLAND TO FARMYARD Favorite Tax Shelters Marked For Closing

WASHINGTON (AP) — From filmland to the farmyard, many favorite tax shelters used by wealthy investors to hide from the tax collector are being marked for closing by Congress. The House Ways and Means Committee, drafting a tax revision bill, is taking aim at assorted legal devices by which some higher-income Americans are managing to earn a lot but pay little or nothing in taxes. In four working days, the committee has given tentative approval to tax-law changes which would bring about \$5.7 billion more into the federal treasury over the coming six years. "The End" would come, effective immediately, for major tax shelters in movies, including horror and pornographic films as well as general box-office attractions, if the committee's 25 to 0 decision Thursday eventually becomes law. "Doubtless some successful, and perhaps significant, films have been financed through shelters. But not every film which is shelter-backed necessarily falls in this category. The staff understands that a large number of shelter-backed films include horror and pornographic films," congressional tax staff experts told the panel. Next week, the committee turns to tax shelters in professional sports franchises. "Because tax losses may be generated which can be used to offset other income, professional sports franchises have become increasingly attractive tax shelter investments for individuals in high marginal tax brackets," the congressional experts said. So far, the committee has voted to knock down major kinds of tax shelters in the real estate area, farming, equipment-leasing and in oil and gas drilling when developing an already-tapped field. The panel left shelters available for investing in exploratory wells. Equipment-leasing practices, growing substantially in recent years, cover such items as airplanes, computers, railroad rolling stock and ships. Tax shelters are used chiefly by persons with high income to invest some money in a project to build up accounting losses. These losses wipe out their regular income for purposes of computing taxes. For example, cases from Internal Revenue Service files include a dentist with \$156,000 in income who invested in a movie tax shelter and a lawyer with \$151,000 in income who invested in a cattle-feeding tax shelter. Both paid no federal income tax. An executive earning \$448,000 paid \$1,200 because he had a real estate tax shelter. The committee is coming up with various proposed changes in complicated tax rules. The panel's aim is to chiefly limit the use of artificial kinds of losses, and thereby deal with elements which show up in shelter after shelter.

Ex-CIA Man Says Poison Considered For Lumumba

WASHINGTON (AP) — Bissell, who left the agency after the 1961 Bay of Pigs fiasco, said he could not recall the operational details of the proposal to poison Lumumba. He said he did not know what kind of poison would have been used or "whether it was lethal or incapacitating." In response to a question,

he said he had no idea whether there was any connection between plans to poison Lumumba and the cache of deadly poisons recently discovered at a CIA laboratory. Bissell said he personally vetoed the poison plot in favor of using "political pressures and political intrigues" against Lumumba. "To the best of my knowledge and belief," the CIA had nothing to do with Lumumba's death in early 1961, Bissell said. He said the agency had made "a very deep penetration" of Lumumba's retinue and had one agent who was in direct personal contact with the Congolese leader. However, Bissell added that this agent would not have been used in any scheme involving violence because he was "much too valuable for intelligence." Bissell remained purposely vague about the

PATRICE LUMUMBA

Dr. Browers At Meeting

Dr. Browers of Big Spring was among more than 90 new United Methodist district superintendents and conference directors from across the nation who attended an orientation and training consultation at Scarritt College in Nashville, Tenn., Sept. 2-5. The event was sponsored by the Council of Bishops, The General Council on Ministries, and the Board of Higher Education and Ministry. Dr. Browers and the other newly appointed church leaders attended workshops on "The Charge Conference," "Pastor Parish Relations Committee," "Legal and Fiscal Responsibilities and Benevolence Promotion," "Evaluation and Appraisal of Ministers" and a "Conference Directors Workshop." Dr. Jameson Jones, President of United Methodist Theological Seminary in Denver Colorado, offered a series of daily theological reflections on the training and ministry themes and issues of the consultation. Other featured speakers and workshop leaders included Bishop R. Marvin Stuart, Dr. Alvin J. Lindgren, Dr. Ronald Sunderland, Rev. Willard J. Rand, Jr., Dr. M. Stanford Strosahl, Dr. R. Bryan Brawner, Dr. Curtis Chambers, Dr. Glenn E. Matthew, Dr. Leroy C. Hodapp and Dr. Frank L. McRae. Also attending the sessions were more than 30 representatives of United Methodist program boards and agencies who made presentations about their agencies to the group.

THEFTS

Don Addy reported a stereo tape deck taken from his vehicle during the night. Mike Johnson, 1506 State, reported theft of a tape player and speakers out of his vehicle parked at a parking lot on Birdwell Lane. The security officer at the VA Hospital reported a CB radio stolen from a vehicle parked in their parking lot.

Victim Picks Out Ramirez

A 19-year-old Lubbock roustabout, who gave himself up in Big Spring, is now in the Odessa city jail in lieu of \$20,000 bond charged with the early Monday robbery of an Odessa 7-11 store. Heberto Martinez Ramirez was placed in a police lineup in Odessa and police said the store clerk picked Ramirez as the robber. He told police here when he gave himself up that he pulled a robbery in Odessa early Monday at a 7-11 store "near the Bamboo room."

Allen Returns After Surgery

Two local civic leaders underwent open heart surgery at Lubbock Methodist Hospital a week apart. Dr. Glenn Allen, local dentist and a lay leader in the First Presbyterian Church, underwent surgery there last week and was due to come home for rest and recuperation today. Johnie Walker, longtime resident and agricultural and civil leader, underwent surgery Tuesday and was reported to be doing "very well" late Thursday.

Rig Count Is Down Sharply

The number of rotary rigs at work in Texas decreased sharply last week, but that number still was higher than the figure a month ago and a year ago. A total of 644 rigs were at work last week, but only 628 were turning this week. A month ago, 627 rigs were turning and 537 rigs were turning a year ago. The nationwide total increased from 1684 to 1704 from last week to this week, showing steady increases since 1958 were turning a month ago and 1517 were turning a year ago.

Labels Moratorium 'Serious Blow' To Agriculture

WACO, Tex. (AP) — The president of the Texas Farm Bureau says that the moratorium on U.S. grain sales to the Soviet Union ordered by President Ford is a "serious blow to agriculture." Ford ordered a moratorium on further sales of U.S. grain until the final reports on the year's crop are in next month. His announcement came after a meeting with leaders of labor unions that have refused to load U.S. grain aboard Soviet Union bound ships. "Farmers resent being used as pawns in a political chess game," bureau president Carrol Chaloupka said in a message to Ford. "When agricultural markets are involved, we feel you should consult farmers not the AFL-CIO. Labor unions do not feed this nation-farmers and ranchers do." Chaloupka said that farmers had answered with bumper crops to the government's request for all-out agricultural production to help fight inflation and earn dollars abroad. He said that now the government was stepping in to "shortchange" the farmers by keeping them from reaching foreign markets. Chaloupka added that Texas wheat farmers are getting ready to plant their 1976 wheat crop and, "if they feel they cannot count on normal export sales, they may cut back on their acreage, or not plant wheat at all." He said the President's decision to impose the moratorium while negotiating with the unions "could have results not

Bond Suit Is Filed

A suit on behalf of State National Bank, Big Spring, was filed in 118th District Court Thursday over \$233,585 paid for Puerto Rico improvement bonds. The petition relates this story: Hibbard, O'Connor & Weeks Inc. and Vining Tower Reynolds Jr. had been broker for State National for "a number of years." Reynolds, Houston, was identified as a representative of the firm, which, in Texas, also has headquarters in Houston. On Feb. 24, 1975, the local bank received from the defendants a "confirmation slip" for sale of \$300,000 of 7.3 per cent Commonwealth of Puerto Rico Improvement Bonds due July 1, 1987. "Acknowledging that plaintiff had not ordered or agreed to purchase such bonds," the defendants told bank president John Currie that the "confirmation slip" should have been issued to another bank. On March 5, the defendants asked State National to purchase the bonds. The broker then would sell the bonds to a third party within 10 days. State National claims to have returned the bonds for the purchase price, "but that said tender has been refused." Actual damages are not known according to the petition. Exemplary damages of \$100,000 are mentioned.

Horse Show Is Set Sept. 20

SWEETWATER — The Nolan County 4-H Horse Club will sponsor a two-day event in the Nolan County Coliseum here Saturday and Sunday, Sept. 20-21. An open horse show is scheduled Saturday, with registration due to get under way at 9 a.m. Judge of the show will be Gary Freeman, assistant county agent at Cleburne. Entry fee is \$2 per class. A Miss Softball America throwing contest will be held in conjunction with the Saturday program. The Sunday program will include barrel racing, pole bending, calf roping and other event and gets under way at 2 p.m. Those desiring additional information can call Mrs. James Sherrill at 235-2068 or Mrs. Pat Lanier at 235-3946.

Smith Named To Tech Post

LUBBOCK — Preston Smith, former governor of the state of Texas, now a Lubbock businessman, will join Texas Tech's Complex staff on a part-time basis as a special consultant to the vice president for development and university relations. The position becomes effective immediately. The former governor will receive a salary of \$12,500 annually. Smith, a native of Lamesa, graduated from Tech in 1934. He worked his way through college.

Kiwanis Hears Margaret Baum

Margaret Baum traced the history of America through music in a piano program offered at the Kiwanis Club luncheon Thursday at the Settles Hotel. Mrs. Baum offered selections of tunes from 1775 through 1975. It was announced that new officers of the club will be installed at a banquet the evening of Sept. 25 in the High School Cafeteria. At that time, Dub Moore will formally be sworn in as club president, succeeding Don Greene.

Old Courthouse Will Be Razed

SWEETWATER — Nolan County commissioners authorized demolition of the present courthouse, approved construction of a new courthouse and hired an architect to direct the project at a called meeting here Thursday. The new courthouse will be designed by Don Hampton of the architectural firm of Welch and Hampton.

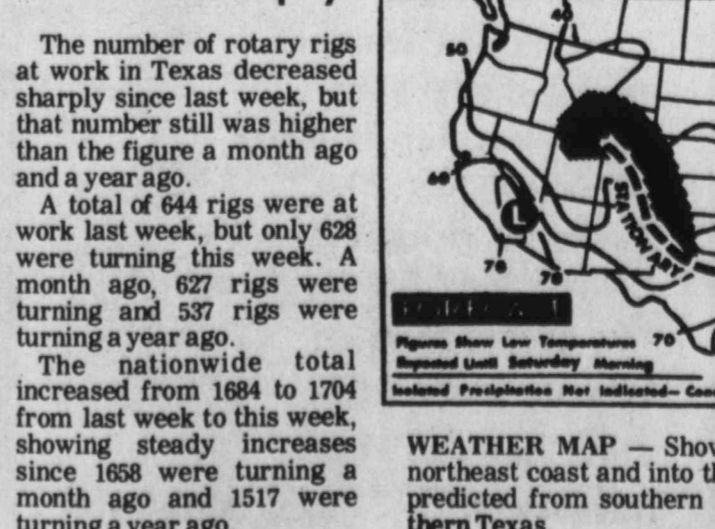

ASCS Still Has Funds To Control Erosion

The Howard County Agricultural Stabilization and Conservation Service still has about \$15,151 unappropriated for the Agricultural Conservation Program to help control wind, water, soil and land erosion, according to Executive Director Tim Hall. Originally \$27,151 was delegated for the program, but \$6,000 has already been spent on the program and another \$6,000 obligated. Practices available to Howard County farmers and ranchers include the establishment of permanent vegetative cover, improvement of pasture (root plowing, mesquite spray), construction of earthen tanks, construction of terraces, construction of diversion terraces, construction of waterways, construction of wells, storage tanks, and casing, and pipeline installation for livestock water and storage facility. More information on participating in the Agricultural Conservation Program can be obtained from the County ASCS office in the Federal Building.

WEATHER

NORTHWEST AND SOUTHWEST TEXAS: Mostly cloudy and continued cool tonight and Saturday. Occasionally rain and showers through Saturday, possibly mixed with thundershowers south portion. Low tonight of northwest, north to 55 extreme south. Sun sets today at 7:56 p.m. Sun rises Saturday at 7:28 a.m. Highest temperature this date 105 in 1930. Lowest temperature 47 in 1922. Most precipitation 0.91 in 1922. Precipitation for the 24-hour period ending at 8 a.m. today, 1.45.

WEATHER MAP — Showers are forecast along the northeast coast and into the central Southeast. Rain is predicted from southern Montana southward to northern Texas.

Big Spring Delegates Attend Republican Women's Meeting

Four delegates from the West Texas Republican Women's Club, Big Spring, are attending the National Federation of Republican Women's convention this weekend in Dallas. They are Mrs. Roscoe Cowper, Mrs. Polly Mays and Mr. and Mrs. Winston Wrinkle.

DALLAS (AP) — The National Federation of Republican Women opened their 18th biennial convention today with some 2,500 delegates on hand to hear all the GOP bigwigs, including President Ford, Vice President Nelson Rockefeller, former California Gov. Ronald Reagan, and Sen. Barry Goldwater, R-Ariz.

The delegates also were to consider resolutions on the energy problem, welfare reform, the food stamp program, and the Panama Canal.

Rockefeller, who is attempting to mend some political fences in the Southern states, gets the show rolling with a Friday morning speech. That night Reagan, whose supporters say will announce his candidacy for the GOP presidential nomination in

November, will be in the spotlight.

Ford, off and running for the nomination, will address convention at 11 a.m. Saturday, attend a \$1,000-a-couple luncheon at the home of Dallas developer Trammell Crow, speak that afternoon at Southern Methodist University and then fly to Midland for the dedication of an oil museum.

His appearance in Midland comes only a few days after his veto of a bill to extend oil-price controls for six months.

Ford and possibly Reagan will be forced to enter a May primary if they expect to get any of the big Texas delegation to the national convention in Kansas City.

The legislature has passed a bill requiring the first presidential primaries in Texas history, with 75 per cent of the delegates to be selected by voters and 25 per cent by the traditional convention method.

Ford apparently will be laying the groundwork for his primary campaign and Reagan, who does have strong support in some sections of the state, especially the populous Houston area, will be testing the political winds to determine his chances of grabbing off a large hunk of the big Texas delegation.

Last week Sen. John Tower, R-Tex., and Howard "Bo" Callaway, Ford's national campaign chairman, announced a Texas steering committee to back the president. This leaves Reagan with some catching up to do.

Dottie de la Garza, an official of the federation, said the convention will be a "dress rehearsal for the 1976 national convention. Every potential presidential candidate and spokesman for the party have chosen to come here and speak before the backbone of the campaigns—the women."

Husband's Dinner Joke Needs Clever Retort

DEAR ABBY: My problem is a husband who thinks he's funny. I had a very nice dinner party at home the other night and was especially proud of the way everything turned out. Well, when the guests were leaving, my husband said, "Come back soon because the only time I get a decent meal around here is when we have company." Everybody laughed, but I wanted to crawl into a hole.

He said that once before, and it got a big laugh, so he pulled it again. In the first place, Abby, it's not true. I pride myself on always feeding my family very well. I told him later I didn't think that crack was very funny, but he said, "I

was only kidding."

Is there a clever retort I could use in case my husband, the comic, says that again?

TICKED OFF IN TULSA DEAR ABBY: You could say, (only kidding of course) "The only time my ever lovin' Scrooge gives me money for fancy groceries is when we have company."

DEAR ABBY: Twelve years ago when my brother died, his death wish was that I watch over his wife and children, which I have.

Millie (his wife) never remarried due to some bad experiences with men.

She is ill now, and the doctors have given her about six months to live.

Yesterday, I stopped to see Millie and the kids, and I mentioned a business trip I was going on.

Millie said, "Take me with you. I'm starved for a little love."

Abby, I love my wife and have never cheated on her, but I hate to turn Millie down.

What do I say to this beautiful, sensitive, love-starved woman who has now turned to me for help in the last days of her life?

TENDER CONSCIENCE DEAR TENDER: Tell her the truth—that you'd like to take her, but you've never cheated on your wife, and your conscience won't permit it now.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212. Please enclose a long, self-addressed, stamped (20c) envelope.

ABWA To Hold Enrollment Event

In conjunction with International Women's Year, the Scenic chapter of the American Business Women's Association will hold its fall enrollment event from 2-4 p.m. on Sept. 14 at the First Federal Community Room, according to Mrs. Opal Wooten, chapter president.

The enrollment event theme, "Our Half of The Apple," will highlight the common goals and objectives of both ABWA and International Women's Year. The program will focus on the professional, educational, cultural and social advancement of women in business.

This event is held semi-annually to introduce ABWA and the local chapter to business women in this area.

Last year, ABWA chapters throughout the United States and Puerto Rico awarded more than \$600,000 in scholarships to women students. In addition, the ABWA national scholarship fund, SBMEF, awarded another \$140,000 in scholarships during the same period. The Scenic chapter has awarded three scholarships to worthy recipients.

Membership is by invitation only. For further information, interested business women may contact Mrs. Lou Orenbaum at 267-2823.

Past Matrons Have Meeting

Mrs. Drew Dyer presided at the Tuesday evening meeting of the Past Matrons of the Order of Eastern Star, No. 67. It was held at the Downtown Tea Room with Mrs. Albert Davis, Mrs. Dorothy Hall and Mrs. Archie Secrest acting as hostesses.

Mrs. O. C. Mason was honored for her birthday. The next meeting will be at 7 p.m. Oct. 14 at the Downtown Tea Room.

B&PW Club Hears District Meeting Report

The Business and Professional Women's Club met at Furr's Cafeteria Tuesday evening with Mrs. Garland Morrison presiding at the business meeting.

Five local B & PW members attended the district meeting at Midland on Sept. 6-7. Miss Edith Gay reported on the workshop given by the local club on civic participation. She also reported on the other workshops at the meeting.

Speakers at the Midland workshop were Mrs. Marie Affleck of Big Spring who spoke on "Equality — Its Dollar Value," Ms. Kathryn Kelly of El Paso Trans-Mountain B & PW, "The Right of Privacy," and Ms. Pat Tatum of Seminole, "Freedom To Grow."

Mrs. Affleck reported club members have made good progress in sales of bi-centennial pendants.

New crop pecans will be ordered in November for members to sell.

Mrs. Mamie Roberts has adjusted and coordinated plans for B & PW members participation in providing work and food necessary for the Monday picnic outing at Comanche Trail Park for patients at Big Spring State Hospital.

The next meeting will be at 7 p.m. Sept. 23 at Coker's Restaurant.

Mrs. Angel Gives Review

Mrs. Clyde Angel presented a bi-centennial program entitled "Come to the Birthday Party of a Loveable America" to the En Amie Review Club in Midland at the Women's Club Wednesday afternoon.

A luncheon was also given using bi-centennial decorations.

Rainbow Girls Elect Officers

The Big Spring Assembly No. 60, Order of the Rainbow for Girls met Thursday evening with Miss Mary Jane Wright presiding as worthy advisor.

Officers for the term beginning in October were elected. They are Miss Kerrie Sue Knox, worthy advisor; Miss Beverly Beil, worthy associate advisor; Miss Pam Parmenter, charity chairman; Miss Phyllis Hart, hope chairman; and Miss Tracy Egan, faith chairman.

The Rainbow order will hold a garage sale Sept. 20 in the home of Mrs. W. C. Fryar, 606 Baylor. Miss Knox will be chairman.

Miss Hart asked the group for donations of ruined hose to be given to the Big Spring State Hospital to be used in the patient's handi-craft projects.

All Rainbow members are invited to a picnic at 11 a.m. Saturday at the home of Mrs. Fryar. Girls should bring their contributions to the garage sale as work on pricing will be done at that time. A study class will also be held that afternoon.

The next meeting will be at 7 p.m. Sept. 30 at the Masonic Hall.

Secretaries To Host Area Forum

The Big Spring chapter National Secretaries Association will host the area forum of the Texas-Louisiana division on Saturday at the Ramada Inn. Mrs. Adelynn Moyer, first vice president of the division, will conduct the seminar which will place emphasis on education, the certified professional secretary program, and the conducting of seminars and workshops.

Mrs. Ozella Long, CPS, President of the Local Chapter, will welcome the guests from Lubbock, El Paso, Midland, Odessa, San Angelo, and Big Spring, and will be the mistress of ceremonies at the noon luncheon also at the Ramada Inn. The highlight of the day will be the presentation of certified professional secretary certificates to Ms. Lois Hearne, Ms. Irmalee Ingraham, and Ms. Kim Kunkel of Midland, and to Ms. Lonna Hornbeak of Odessa.

Area forum coordinator will be Mrs. China Long, CPS, Big Spring chapter.

Belle's Patterns With A Western Flair

Ladies' Squaredance Dress with Three Versions

Step into the swing of things with this squaredance dress in three versions. Emergency Care Is Discussed

The Texas Nurses Association, District 24, met Tuesday evening at the Big Spring State Hospital for a business meeting and program on emergency care by Sgt. Stanley Love and Sgt. Jim Perry, physician's assistants at Webb Air Force Base Hospital.

They spoke on some of the newest aspects of emergency room care in relation to military responsibilities. They explained procedures in pediatric, respiratory, cardiac, injury and snake or insect bites emergencies.

Sgt. Love emphasized, "If in an emergency situation you are the most experienced person there, take command and use any and all resources available."

During the business meeting several committee reports were given and the announcement was made that dues were raised as of July 1, 1975 to \$80.50 for a full membership.

Mrs. Lee Butler was nominated to serve on the Cerp committee, a group encouraging continued education.

Ms. Lucille McCoy, director of the Association Degree Nursing program in Odessa, will be the guest speaker at the next meeting scheduled for Oct. 14.

Parents Club Meets Tuesday

The Immaculate Heart of Mary Parents Club met Tuesday evening in the school cafeteria with Capt. Neil Henn presiding. Father Louis Moeller led the opening prayer.

The announcement was made by Capt. Henn that all the scout leaders had been contacted and the Parents Club agreed to supply soft drinks for the monthly pack meetings.

Father Moeller and Capt. Henn expressed their thanks to all members who participated in the Fall Festival. A financial report from the festival was given.

Capt. Neil Henn wishes for anyone wanting to help finish painting the teachers' lounge to contact him at 3-3971.

The club voted to provide reading master sheets for the school's reading series to aid the teachers in lesson preparation.

Donations of towels are needed for the school kitchen.

Mrs. Robert Kaiser presented the school with a flag.

Mrs. Joseph Brown closed the meeting with a special prayer.

The next meeting will be at 7:30 p.m. Oct. 7 in the school cafeteria.

Birth Of Son Is Announced

Mr. and Mrs. Wayne Edward Saylor, 107 1/2 E. 21st, wish to announce the birth of their son, Wayne Edward II, at 11:07 p.m. Sept. 8 in Malone-Hogan Hospital.

The baby weighed 6 pounds, 13 1/2 ounces.

Grandparents are Mr. and Mrs. Leroy Statham, Big Spring, and Mr. and Mrs. LeRoy Saylor, Vernal, Utah. Maternal great grandparents are Mr. and Mrs. Carl Young, Big Spring. The great-great grandfather is W. R. Young, Fort Worth.

PATSY invites all her former Patrons and friends to call her for an appointment

Full Schedule On Tap For Area Grid Squads

All area high school football teams will throw the pigskin around tonight.

Big Spring crosses the New Mexico line, going against Hobbs. The two teams will be playing the rubber game, each winning one piece.

The Eagles have appeared in the state playoffs six years in a row. Five of those years, Hobbs finished as either state titlist or runnerup.

With Hobbs on the Mountain Daylight time clock, kickoff is 7:30 p.m. The Steers opened their last week with a 14-6 defensive win over Andrews.

Coahoma faces probably one of the best teams it will encounter all season long, traveling to Post. Game time is 8 p.m.

This will be Post's first game of the season. Denver City edged Post in the final game of the 1974 season to win the 5-AA crown.

Bryan Davis of Post is considered the top quarterback in West Texas by the Top-O-Texas magazine.

Coahoma started off the season last week, nipping Reagan County, 13-6.

Forsan puts its season in motion at home with speed-demon Klondike at 8 p.m.

George White will be directing the Buffs for the first time, replacing veteran Jack Woodley, who resigned to become Forsan High School principal.

Seven starters return on offense and defense for Forsan. Lamesa of 3-AAA motors to Denver City of 5-AA at 8 p.m.

The Golden Tornadoes got off to a good seasonal debut last week, tying rugged Carlsbad, 13-13.

Colorado City hosts 3-AAA Sweetwater at 8 p.m. The Wolves won their seasonal opener with Slaton last week, 14-13.

If the Wolves can trip up Sweetwater, they will equal last year's final win record.

Sands, thumping Garden City, 60-6, last week, travels to Buena Vista at 8 p.m. The Ponies' Frosty Floyd shows prominence as a skilled runner, scoring seven TDs against the Bearkats.

Borden County ushers in the new season at Southland at 8 p.m. The Coyotes have 12 lettermen back, including eight returning starters, three on offense and five on defense.

Sterling City kicks off the 1975 season at home at 8 p.m. with Garden City. The host eleven has 11 returning lettermen on hand, six on offense and five on defense.

With four inches of rain thus far reported at Grady, the scheduled home game for Grady has been shifted to Loop.

More or Lesh

By CLARK LESHER

The television broadcast of the Dallas-Oakland football contest last Friday night seemingly had an adverse attendance effect at Memorial Stadium.

Paid gate figures of Andrews vs. Big Spring totaled 13,957 compared to last year's home opener of 4,958. With 500 reserve seats available for the Hobbs game, only 29 individuals so far said they plan to make the trip.

Lewis Heflin reports that the Annual Grand Golf Tournament sponsored by the Big Spring Association will be held Sunday as well as the following Sunday, Sept. 21 at the Comanche Trail course.

Eighteen holes will be played each day. Approximately 42 golfers are eligible to compete.

Big Spring's Jerry Knoepfel, positioned at strong safety at University of Texas-El Paso, was credited with five unassisted and three assisted tackles in the opening game last week at San Diego State.

All-America candidate Craig Penrose proved too much for the young Miner defense in losing 31-10. Knoepfel, who started the San Diego go, is cast in the same role with New Mexico State Saturday.

In the pre-season finale for both clubs, Dallas Cowboys (1-4) host World Champion Pittsburgh Steelers Saturday at 8 p.m. at Texas Stadium.

The Cowboys were defeated by Oakland last Friday in Dallas, 31-20, while the Steelers won at home over New Orleans, 24-13.

Broadcast will be by radio only by KRLD (1080 in Dallas), KFJZ (1270 in Fort Worth) and the seven-state Cowboys Network.

A crowd of more than 40,000 is expected to be on hand for the Texas Tech football opener against Florida State Saturday at Lubbock. Kickoff is 7:30 p.m. at Jones Stadium.

Tech has yet to beat the Seminoles in two previous meetings. Florida State beat the Red Raiders 42-33 in 1966 and 28-12 in 1967 in Tallahassee.

New Tech Coach Steve Sloan has fared well in openers himself, winning two straight while head master at Vanderbilt. Florida State is alma mater of movie star Burt Reynolds.

WHAT'S IT WORTH DEPARTMENT - Conversation heard from a sportscaster at a football game, "It's time out on the field with the two-minute warning and four minutes left in the game."

Toros Fall

Despite good ground yardage and a 75-yard touchdown run, the Big Spring Toros came out on the short end of a 16-8 score when they played the Snyder Kittens at Blankenship Field Thursday night.

Downfall for the Toros was the inability to return a punt. The defense would hold the Kittens, and then when the Toros would get ready to receive a punt, disaster would strike. They fumbled four punt returns and rushed the kicker on two more.

Bright spot for the Big Spring freshmen was a 75-yard run to the goal line by Mark Burris in the third quarter.

Snyder's Richard Creighton scored late in the first quarter when he ran around the left end on an option. He dropped the ball, scooped it up off the ground and still went in to score. David Lee then ran into the same corner for two points.

In the second quarter, on a long punt by Ricky Cluck, the Toros backed the Kittens down to their own goal line and Steve Tipton nailed a frustrated Kitten for a safety.

The halftime score was 8-2 in favor of Snyder. In the third period, Burris' 75-yard scamper tied the ballgame.

The Big Spring freshman defense held the Kittens. The Toros then put together a drive that included three straight completed passes from Ricky Gutierrez to Danny Crosby and Burris followed by a 12-yard run by Eddie Puga, only to lose the football on a fumble.

In the fourth quarter, Snyder took advantage of good field position after a roughing the kicker penalty and marched down to the 15 where Mark Davis bulled in for a score. Lee iced the cake with two more points.

Billy Ray Johnson ran back the kickoff 35 yards for one last good chance for the Toros. Byron Harris caught a pass that netted them a first down, but time ran out for the freshmen and they left the field with a 1-1 record.

Goliad Shuts Out Snyder-T

Goliad, coached by Rudy Montez, showed its strength in the seasonal opener here Thursday afternoon at Blankenship Field, shutting out Snyder Travis, 38-0.

Quarterback Jimmy

JV's Lose To Snyder

The junior varsity of Big Spring lost its second game of the young football season to Snyder, 13-3, there, Thursday night.

Big Spring's only score was a 30-yard field goal by Don Stump, son of Toros head coach.

Snyder banded across the visitors' end zone in the second and fourth on identical two-yard runs.

Big Spring's Kenneth Coffey and Lloyd Jones, though, caught several passes thrown by Wade Cobb.

Scoring: Goliad 0-14-16-8-38; Snyder T 0-0-0-0-3

SWC SCHEDULE

All Games At Night Except 1

A lot of preseason question marks will be answered for good or bad Saturday in a flurry of Southwest Conference jousts against inter-sectional foes including whether preseason favorite Texas A&M will continue to be its own worst enemy.

The Aggies, owning the second best defense in the nation last year, fumbled their way to an 8-3 season good for second place in the SWC.

Mississippi comes calling for the first time in 61 years Saturday afternoon and Aggie alumni will have all eyes on quarterback David Shipman, who has bordered on the sensational in the spring and fall after coming back from a knee injury.

The Aggie first team scored 109 points in three quarters last week in a scrimmage against the No. 3 team defense.

"Shipman looked great," said new A&M assistant

coach Tom Wilson, who will be calling the plays from the press box—a job he held at Texas Tech under the departed Jim Carlen. "I'm anxious to see what he can do against some different colored uniforms."

Ole Miss took a 20-10 thumping from Baylor last week and the Rebel-Aggie matchup should offer an early indication of strength

Sold Out

BUFFALO (AP) — The Buffalo Bills said Thursday their National Football League season-opening game against the New York Jets Sept. 21 has been sold out.

That means Buffalo-area fans will be able to watch the game on local television since all 80,020 seats in Rich Stadium in suburban Orchard Park were sold well in advance of the 72-hour deadline before kickoff.

between the preseason picks and the defending champion Bears.

The 8th-ranked Aggies are 19-point picks over Ole Miss in the 4 p.m. game at Kyle Field which is expected to draw a near-sellout 48,000 fans. A&M has beaten Mississippi in two previous games—17-0 in 1911 and 14-7 in 1914.

The SWC jumped to a 3-0 ledger last week with Baylor's victory, Southern Methodist's 14-7 survival of Wake Forest and Houston's 20-6 nod over Lamar.

In other games this week, 12th-ranked Texas is a three-touchdown choice over Colorado State in Austin, Arkansas is a 16-point pick over Air Force at Little Rock, Texas Tech is a 12-point favorite over Florida State in Lubbock in Coach Sloan's debut, SMU is a 12-point underdog on the road against Florida, Houston is an 11-point nod over Rice, and Texas

Christian is a 10-point pick tonight over Texas-Arlington in Amon Carter Stadium in Fort Worth.

All games are at night except the A&M-Ole Miss clash.

Praise is still filtering down from Mississippi about Baylor and Rebel defensive back Gary Turner says: "Baylor was as good as I've seen. And A&M is ranked high nationally. That makes it double tough."

A&M has installed the I formation to open up the air lines should an opponent stack against the Wishbone T with a nine-man line like Kansas did against the Aggies last year and Missouri did against Alabama in Monday night's stunning upset.

"It gives our opponents a little something more to think about," said Aggie Coach Emory Bellard.

The optimist award before kickoff goes to Colorado State Coach Sark Arslanian.

(AP WIREPHOTO)

LAST NEW YORK APPEARANCE? — Henry Aaron of the Milwaukee Brewers leans on a bat in the Shea Stadium dugout prior to the game with the New York Yankees Thursday night. Attendance was sparse as Aaron made what could be his last appearance in New York as an active ballplayer. Aaron did not enter the game. The home run king may retire at the end of the season.

HUNTER SHINES

Tiant Withstands Eastern Pressure

By The Associated Press

Luis Tiant and Jim Palmer. Neither would be bad in a pinch—but in the pressure of a pennant race, they're simply great.

The Boston Red Sox, behind Tiant's gorgeous three-hitter, defeated the Detroit Tigers 3-1 to stay five games in front of the Orioles.

Baltimore kept up with the Red Sox by beating the Cleveland Indians 10-2 as Palmer scattered nine hits for his 21st victory.

Tiant, especially, was impressive. He had a no-hitter for 7 and 2-3 innings before Auerlio Rodriguez lined a 3-2 pitch through the middle for a single.

"After going that far, you want a no-hitter, but there's nothing you can do about it," said Tiant after winning his 16th game. "The main thing was to win."

In the only other American League game, the New York Yankees whipped the Milwaukee Brewers 10-2.

After Tiant lost his no-hitter, the Fenway Park crowd of 9,508 gave him a standing ovation.

Joe Willie Jones hit paydirt first for Runnels at 2:06 of the first period, racing 50-yards after hauling in a 35-yard pass from Nathan Lemon.

In the second, requiring two plays to complete, Rubio passed to Carlos Castaneda for 36-yards and a TD. This drive involved 50 yards. Time left: 6:51. Gerald Adams ran over the two

Baltimore first baseman Lee May whacked his 20th home run to make it easy for Palmer to beat Cleveland.

The game was spiced by a bench-clearing incident in the eighth inning. Baltimore's Ken Singleton took a few menacing steps toward rookie Larry Andersen on the mound after the youngster let go with a wild pitch inside with the score 10-1.

"I just thought he (plate umpire Bill Deegan) should have gone out there and warned the pitcher," explained Singleton. "I don't

like that, because it's like inviting us to throw at them. He wouldn't go out and warn him."

Yankees 10, Brewers 2

Graig Nettles drove in four runs with two homers to power Catfish Hunter and New York past Milwaukee. Nettles smashed a two-run shot to cap a three-run rally in the first inning, then walloped a two-run blast, his 21st, in the third to give Hunter, 21-13, a 5-0 cushion on the way to his fifth straight victory and 28th complete game of the season.

Runnels Runs By Snyder-L

Gilbert Rubio passed for two touchdowns and ran one over as Runnels coached by Bob Zellars started off the season pounding hot Snyder Lamar, 28-0, Thursday night.

Joe Willie Jones hit paydirt first for Runnels at 2:06 of the first period, racing 50-yards after hauling in a 35-yard pass from Nathan Lemon.

In the second, requiring two plays to complete, Rubio passed to Carlos Castaneda for 36-yards and a TD. This drive involved 50 yards. Time left: 6:51. Gerald Adams ran over the two

extra points. Snyder scored its only TD at 2:03 of the second on a eight yard run, completing a 55-yard drive in 10 plays. The host team ran over the two extra points.

Runnels completed its scoring in the third. Rubio passed to James Hayes for 15 yards at 6:16 and Rubio collected six points on a nine-yard run at 2:52. The first TD took 10 plays on a 55-yard drive and the second, a 70-yard drive, requiring five plays to complete. Rubio passed to Jones for the extra two points following the Hayes score.

Runnels next faces Andrews Sept. 18 at 5:30 p.m., at Blankenship Field.

First-Round Golf Scores

Phils Gain Full Game

By The Associated Press

"Jerry Kosman pitched to me better tonight than any pitcher ever in the major leagues," said Pittsburgh's Al Oliver, who had one of those nights: three strikeouts and a double play in four trips to the plate.

Kosman, who had lost four of his last five decisions, stifled the Pirates on six hits Thursday night, pitching the New York Mets to a 7-0 whitewash that cut Pittsburgh's lead over Philadelphia in the National League's East Division to five games.

Elsewhere in the National League, Chicago beat St. Louis 12-6, Houston nipped San Francisco 4-3 in 12 innings, San Diego edged Atlanta 4-3 and Los Angeles defeated Cincinnati 5-2.

Dodgers 5, Reds 2

Steve Garvey's 15th homer backed the seven-hit pitching of rookie Rick Rhoden and allowed the Dodgers to win their season series from Cincinnati 10-8.

But that was small consolation for Los Angeles, which was expected to battle for the pennant in the NL West but instead finds itself 17 1/2 games behind the Reds, who clinched first place last week.

Cubs 12, Cards 6

Two-run singles by Manny

Trillo and pitcher Rick Reuschel highlighted a six-run first inning for the Cubs, and St. Louis never caught up. It was the 11th loss in the last 15 games for the slumping Cards, who got home runs from Lou Brock and Keith Hernandez.

Astros 4, Giants 3

Rob Andrews' tie-breaking single in the 12th inning drove in pinch-hitter Roger Metzger with the winning run for Houston. Metzger had walked and moved to second on Skip Jutze's sacrifice. After Ken Boswell walked, Andrews singled up the middle.

DANGERS AMERICAN CIVILIANS MAY FACE IN MIDDLE EAST

Landmine Blasts, Scorpion Bites, Terrorist Bullets

BUFFER ZONE, Sinai (AP) — Landmine explosions and terrorist bullets — these are some of the dangers American civilians may face when they

come to the Middle East to help enforce the latest Israeli-Egyptian truce pact. Under the accord worked out by Secretary of State Henry A. Kissinger, still to

be approved by the U.S. Congress, up to 200 American technicians are to operate electronic listening posts in the Sinai Desert in a new United Nations buffer

zone. Five hundred Swedish U.N. soldiers have been manning part of the old buffer zone a few miles away for more than a year. The Swedish desert veterans say life might be tough for the U.S. civilians.

"There are landmines all over the place," says a Swedish captain, bouncing through the sand and heat in a desert patrol car. Rows of deadly explosive charges, Israeli and Egyptian, lie a

yard on each side of the car and stretch as far as the eye can see.

At least five U.N. soldiers were killed in the Sinai last year by exploding mines, despite safety paths cleared by Polish army sappers. "Nobody knows how many mines there are in the buffer zone," says Lt. Col. Nils Goran Staf of the Royal Guards, deputy commander of the Swedish contingent. "But there are millions of them."

Organization, whose newspaper has urged Arab patriots to shoot the Americans as "an enemy target."

It would be difficult for a Palestinian terrorist to penetrate the remote truce pact zone, and U.S. officials say the Americans will be

out of guerrilla gun range. But the technicians likely will be sightseeing and living off duty in Egypt, where they would not be immune to sniper bullets, or in Israel, where Arab raiders have staged nine bloodbaths.

The Swedes live in tents in the sand, with no air conditioning, drinking water bottled in Lebanon, or hauled by truck across the Suez Canal from Egypt. Officers wash their own laundry in plastic buckets.

They watch the cease-fire lines with German shepherd guard dogs, and with binoculars from 15 oven-like tin lookout posts, some of them 100 yards from the Egyptians or Israelis.

U.N. troops from Finland, Ghana, Indonesia and Senegal guard the buffer zone to the south under the same conditions.

The Americans — Kissinger says no more than 75 at a time — won't work with dogs or binoculars. They will keep watch on military movements from sophisticated stations full of secret electronic gadgetry.

Israeli Warplanes Rocket Palestinian Refugee Camp

Israeli warplanes strafed and rocketed a Palestinian refugee camp in southern Lebanon Thursday, killing two persons and wounding five, Lebanese officials said.

They said the attack was on the Borgholieh camp eight miles north of the port city of Tyre, and that it was the third Israeli air raid on the teeming settlement in the last two weeks.

The Tel Aviv command gave no details of the raid except to say it was directed against suspected guerrilla targets and that all planes returned safely to their bases in Israel.

The Lebanese Defense Ministry said the attack lasted 20 minutes. Earlier in the day Lebanese gunners fired bazookas at an Israeli patrol across the border. The fire was returned and there were no reported Israeli casualties.

In another development, Egypt shut down the Voice of Palestine in Cairo. On Wednesday, the network's Baghdad station claimed there had been an assassination attempt on Egyptian President Anwar Sadat, a claim refuted by the Egyptians as a lie.

In northern Lebanon, meanwhile, Lebanese soldiers began manning a buffer zone between Moslems and Christians in an attempt to end week-long bloody clashes.

The major fighting has been between Moslems from Tripoli, 50 miles north of Beirut, and the Christian town of Zagharta, five miles from Tripoli.

Moslem irregulars attacked the Christian hill village of Beit Mallat earlier Thursday, and police said two persons were killed.

Casualties in the week-long clashes stood at more than 100 killed and 250 wounded. The clashes reflect traditional tension between

Moslem and Christian factions in Lebanon, heated up by the presence of 250,000 Palestinian refugees. The Moslems support the guerrillas. Many Christians do not.

In Geneva, the United Nations congress on crime prevention adopted a report expressly dropping political

terrorism from the list of crimes requiring stricter international control.

The report was passed without vote by the 99-nation plenary meeting. Israel dropped out of the meeting after Yasir Arafat's Palestine Liberation Organization was invited to attend as an observer.

France Fires First Tax Shot In Wine War

PARIS (AP) — France slapped an import tax on Italian wine Thursday, a unilateral action running against the Common Market's free trade covenants. The move threatened to disrupt European unity.

The tax, announced by Premier Jacques Chirac, followed a meeting of Common Market agricultural officials in Brussels Wednesday which ended in deadlock.

Italy, West Germany, the Netherlands and Ireland indicated they were opposed to the French action, with the Italians calling the tax illegal.

The French protective levy is being imposed because Italian wines, notably vin ordinaire or inexpensive table wine, have become markedly cheaper on the French market through a 34 per cent depreciation of the Italian lire against the French franc over the last 12 months.

The French tax is based on a sliding formula of 1.13 francs (26 cents) for 100 litres (26.4 gallons) of wine, depending on its alcohol content. Since most Italian wine imported into France has 12 per cent alcohol, the tax is 13.56 per cent. It would be greater or correspondingly less, however, for stronger or weaker wines.

The decrease of French sales led to violent protests

by growers in the southern region called Le Midi. They have dumped Italian wines from tanker trucks, burned cars, disrupted traffic and shouldered rifles in continuing displays of anger.

The French asked the Common Market for a compensatory arrangement that would level off Italy's price advantage and other steps to decrease production. But some Market members, notably West Germany, have said that these measures mean taxing other Europeans to pay for excess French wine production.

Chirac asserted that the "tax on Italian wine imports conforms to the spirit of (European Economic Community). France has no aggressive intentions towards Italy."

But under normal circumstances, France would have had to consult the European Commission made up of the nine Common Market countries' permanent representatives in Brussels to get permission to invoke a safeguard clause, releasing it from Market rules. The French did not seek the commission's approval.

Astronomers Like High Mauna Kea

HILO, Hawaii (AP) — The observatory of the University of Hawaii's Institute for Astronomy is located at the top of Mauna Kea, at 13,976 feet the highest mountain in the Hawaiian Islands. It has one communications link with the rest of the world.

"Despite the great altitude, frequently harsh climate and the site's degree of remoteness, the Hawaiian Telephone Company's system has a very dependable service record," says J. Stanley Hodgins, who heads operations there which provide the communications link.

"The only problem developed a little over two years ago during a snow storm when the protective cover for the observatory's microwave antenna was blown away, allowing the unprotected equipment to become coated with snow and ice," Hodgins recalled. "The high winds were so severe that the missing cover was never found and we had to put on a new one."

The site has so many advantages for astronomers that the French and Canadian governments, in a joint project with the University of Hawaii, are constructing a \$21-million, 144-inch telescope that is scheduled to be operating by 1978. The National Aeronautics and Space Administration and the United Kingdom are also planning observatories for the Mauna Kea location.

Sandar Shadi Grows His Rugs

EL CERRITO, Cal (AP) — Colorful flowers make the designs in three Persian rugs and one old-fashioned quilt in the hillside garden of Sandar Shadi. More than 8,000 plants were used to create living rugs and a quilt. There are 35 different plant varieties and the quilt has five kinds of marigolds. The Persian rugs all have different borders and designs.

"We can avoid the mines — they are marked on maps," says a Swedish private. "But we can't map the scorpions or mice, and we have a lot of both." The Swedes haven't lost a man yet to a scorpion bite, but they keep their first aid kits handy.

The Americans will be stationed seven to 11 miles east of the present buffer, in the bleak Gidi and Mitla mountain passes, but the passes have their minefields, too, and scorpions abound all over the Sinai.

A deadlier danger could be the Palestine Liberation

Approve Four Bank Charters

AUSTIN (AP) — The State Banking Board said today it has approved charters for four new state banks, but has denied nine other applications.

The charters were denied on the ground of lack of public necessity for the proposed banks and lack of indications that the proposed banks would be profitable operations.

The new banks approved were San Pedro State Bank, San Antonio; Liberty Eylau State Bank, Texarkana; Texas Bank of Vidor, and Garrera New Bank, Houston.

The Monticello choo-choo. A little train that's helping fight the rising cost of electricity.

You're looking at what may be the shortest railroad in Texas.

The Monticello choo-choo runs only 12 miles from start to finish, but it's doing a big job hauling lignite coal to Texas Electric's Monticello power plant near Mount Pleasant.

The diesel-electric locomotive pulls seven to 15 cars. And each car is loaded with 100 tons of lignite per trip.

After unloading at the plant, the train is "backed" the 12 miles to the mining area. This saves the expense of a turn-around facility. On the trip back the engineer drives the train using controls in a special caboose.

Monticello is our second lignite-fired generating plant. We're building these plants because new supplies of natural gas and oil — the primary fuels we use to generate electricity —

are harder to get and more costly.

Lignite plants cost much more to build, which means electricity is going to have to cost you more. But the increase won't be as much, because lignite fuel is available and more economical than new supplies of natural gas and oil.

At Texas Electric we're continuing the orderly development of our power system so that you'll continue having the electricity you need.

About 20% of your electricity this year will be produced using lignite coal.

And the Monticello choo-choo is a mighty fine line that's helping do the job.

Dorchester Exploration Reports Good Showing

Dorchester Exploration No. 1-18-11 Spade, 25 miles southwest of Colorado City, recovered 2,460 feet of gas, 940 feet of free oil and 120 feet of salt water on a drillstem test in an unidentified zone, possibly the Clearfork.

The tool was open 60 minutes from 3,560-557. The sample chamber contained gas and some oil, and no water; flowing pressure was 251-400, initial shutin pressure 1,674, final shutin pressure 1,643. The test is five miles north of the Ellwood (Yates and Mississippian) field and 3 1/2 miles northeast of the Ray Albaugh (Wolfcamp) field. It is in section 11-18, SPRR, Mitchell County.

In northwest Glasscock, Hanson Production No. 1 Glen W. Hilger seven miles northwest of Garden City, flowed 99.36 barrels of 40-gravity oil and no water, with gas-oil ratio of 1,157-1 from perforations 7,88-796. Location is 660 from the south and west lines of section 12-35-3s, T&P, and is a location north and east of production in the Blalock East (Wolfcamp) Field.

Swine Outlook Is Talk Topic

COLORADO CITY — A swine production meeting will be held in the C. C. Thompson Meeting Room of the City National Bank at 7:30 p.m., Tuesday, according to Bob Benson, Mitchell County Extension Agent.

Dr. Gilbert Hollis, area swine specialist from Lubbock will present the program on the general swine situation, outlook and alternate marketing procedures, according to Benson.

WTCC Takes Firm Stand

The West Texas Chamber of Commerce has called for immediate action by the executive, legislative and judicial branches of government to prevent future loading bans on agriculture products for foreign export.

On Nov. 19, 1971, the West Texas Chamber of Commerce adopted a position calling for Congressional Action that would assure the continuous flow of farm commodities exported from U.S. ports. This action was perpetrated by the loss of sales of agriculture products to foreign markets because U.S. producers could not assure foreign countries of a continuous supply of products being moved through U.S. ports without stoppage due to dock strikes.

"Recent work stoppages by longshoremen, supported by George Meany, President of the AFL-CIO, have halted grain shipments and jeopardized future sales to Russia," says Dick Yeager of Vernon, chairman of WTCC's Agriculture and Ranching Committee. "The WTCC again restates its previous position and registers stringent objections to such highly questionable dock strikes."

In its position paper WTCC states that the longshoremen cited as one justification for a ban on the loading of wheat destined for the Soviet Union the protection of U.S. interests; contending that the sales negotiated by private business, utilizing the free market system and the free enterprise concept, will be unfair to the American consumer by causing a drastic rise in domestic food prices.

Precinct Lines May Be Changed

LAMESA — Dawson County commissioners are being petitioned to readjust the boundary lines or create a whole new justice of the peace precinct.

Israel Ybanez presented the petition with the petition which bears around 300 signatures of individuals living on the east side of the railroad tracks.

The petition maintains the current JP setup, which places all of the city of Lamesa and a major part of the county in Justice Precinct No. 2 violates voter rights because of inequities in population among the four Dawson County Justice precincts.

It also maintains the 14th amendment of the U.S. Constitution "imposes the duty that division of county precincts be made with sufficient mathematical equality so as not to dilute, minimize or cancel out the impact of the voter's vote."

The petition also apparently lays the ground work for another liquor election as that is the only issue which has recently been submitted to voters on the basis of justice precincts.

Sterling County, 14 miles northwest of Sterling City. It will be 727 feet from the south and 467 from the west lines section 19-22, H&TC, with target depth of 8,000.

Stoltz, Wagner & Brown, No. 1-14-D Glass, will be 1 3/4 miles southeast of the Big Slauter field and will be 660 from the south and east lines section 14-31-5s, T&P, contracted to 8,300.

Adobe Oil No. 1-A Conger, three-fourths of a mile southwest to Canyon gas production in the Conger multipay field of Sterling

County, 12 miles southeast of Sterling City, flowed gas at the rate of 1.1 million cubic feet daily in an unreported time. Production was through 20-64th choke from perforations 7,017-82.

In central eastern Howard County C & K Garrett drilled below 5,000 feet in lime and sand.

Coquina No. 2 Holton, Dawson County wildcat, was bottomed at 8,119, waiting on orders. On a drillstem test from 7,990-8,019 feet, it recovered 40 feet of drilling mud.

MexFair Success

SAN ANTONIO, Tex. (AP) — Mexican businessmen say this year's export exposition — MexFair '75 — was so successful that they'd like to set up a permanent Mexican-U.S. trade center.

A yearlong study will determine the site for the permanent center.

Southwest cities under consideration are San Antonio, where MexFair has been held for the past three years; Dallas and El Paso, Tex., and Yuma and Tucson, Ariz.

San Antonio city council members, meanwhile, are exploring the possibility of expanding their convention center to accommodate a larger MexFair in 1976.

FEW Meeting Is Thursday

The next meeting for the Federally Employed Women (FEW) will be at 7 p.m. Thursday, in the Officers' Open Mess at Webb AFB. FEW is a national organization whose purpose is to promote equality and opportunity for women in the Federal government.

Col. Robert F. Brodman and Ina Anderson, publicity committee, invite "those interested or just curious about what FEW can do for you, come out and join us." For further information call Ext. 2142 or 2149.

Speaker of the evening will be Mrs. J. B. Apple of the Retail Merchants Association. Her topic is "Give credit to women."

THINK SAFETY...
...Think Sunday

We can't miss them — these signs along the intersections of our streets. They protect our school children from physical harm. We see the sign . . . and slow down.

Most of us are deeply concerned about the safety of our youngsters . . . and these signs can be a reminder of a further obligation our society has to its youth. There are dangers in life for which only religious training and faith can prepare us.

Boys and girls approaching maturity deserve the spiritual protection which Christian education provides.

Whenever you approach a school crossing, slow down! But, just don't think safety — think SUNDAY!

Chaplaincy Fills Patient Needs

The need of spiritual help is important in the life of each of us regardless of financial, educational, or physical status and the need for an on-the-grounds chaplain had long been felt for our patients at Big Spring State Hospital, even though pastors from Big Spring—both Protestant and Catholic—had given unselfishly of their time and services there since its beginning.

The first full-time chaplain of the Big Spring State Hospital was Chaplain Marvin Berkland, who served in that capacity from Sept. 1957 to February, 1961.

At that time services were held in a ward day-room, with the men sitting on one side of the room and the women on the other. Services were later held in the gymnasium of the Allred Building after it was built.

In 1958 Chaplain Berkland provided a 12 week course in clinical pastoral training for three students under the auspices of the Council for Clinical Training of the U.S. and Canada, Big Spring State having been chosen as one of five hospitals in Texas to provide this training.

One of the students, Keith Wright, remained at the

hospital for a time and began the Industrial Therapy program for patients; and his wife, June, joined the staff and organized the Social Services Department of the hospital.

Chaplain Max Maguire served as director of the department from September, 1961 to December, 1964; he offered a summer quarter of clinical pastoral training for theological students. Chaplain R. E. Johnson succeeded him and served from September, 1965 to February, 1967.

Dr. Lee Butler became the department's director in June 1967 and still serves in that capacity. In 1968 he began introductory courses in clinical pastoral education as a forerunner of the current program.

Chaplain Foy Richey joined the staff in September, 1975 to be full-time supervisor of the clinical pastoral educational program. The staff has increased since 1967 from one person to ten.

At present, Sister Virginia Dusey, Catholic; Wayne Welch, Methodist; and Haskell Wilson, Baptist, are here for a full intern year. They are placed on regular staffs, do individual and group counseling and conduct regular chapel services.

Another four persons from nearby towns are doing extended intern work on a one day a week basis, while still another trainee, who is now business manager of the Catholic Hospital in San Angelo, is working her full 40 hours per week for one quarter.

Thus, these interested and dedicated persons are learning under Dr. Butler and Chaplain Foy Richey to be able to take their places as institutional chaplains, and in return are benefitting the hospital here by giving their services and thereby extending the amount of help which the chaplaincy can give to the patients in Big Spring State Hospital.

DR. ELBERT PEAK

Grace Baptist To Hear Dr. Peak

Dr. Elbert Peak, pastor of the Faith Baptist Church in Abilene will be guest evangelist at Grace Baptist Church starting Wednesday Sept. 17 through Sunday, Sept. 21.

Grace Baptist is located at 2000 FM 700 across the street from the National Guard Armory.

Services will be held at 7:30 p.m. each evening.

Dr. Peak has been pastor of the Faith Baptist Church for some 20 years. He has also served as vice president of the Arlington Baptist Schools, in Arlington, for several years. He is now on the board of directors of Arlington Baptist Schools and also is serving on other boards of the World Baptist Fellowship.

Primitive Baptist Church Local History Recalled

The Philadelphia Primitive Baptist Church of Big Spring, Texas was constituted on October 31, 1943, with 19 members. They were as follows: Elder and Mrs. B. R. Howze and son Kenneth, Mr. and Mrs. M. M. Fairchild, Mrs. R. B. Hood, Mrs. Mary Adams, Mrs. Carrie Clark, Mr. and Mrs. R. V. Cobb, Mrs. Betty Huggins, S. H. Hallford, Mr. and Mrs. R. L. Burt, Mr. and Mrs. C. E. Campbell, and Mr. and Mrs. S. L. Lockhart.

At the time of constitution, M.M. Fairchild was the only deacon and also served as treasurer of the church.

Elder Howze was called as pastor and has served continually since. Ann Fairchild was elected church clerk and also serves as clerk at present.

Other clerks that served during the years were R. B. Hood, S. L. Newsom, Mrs. Elvie Sides, A. V. Brown, Alton Lewis, Wayne Allen and Junior W. Gasin.

Deacons serving, beside Mr. Fairchild, are as follows: R. B. Hood, W. J. Jackson, S. L. Lockhart, J. E. Redden, R. V. Cobb, Lee Hazen, Alton Lewis, Lee Newsom, Floyd Sides, Grady Gaskin, Wayne Allen, Landis Powell, Hudson Boss, W. B. Bingham, Carl Banks, Rueban Covington and Jeff Chenaunt.

The present membership is 115. At one time there were 145.

The church was constituted in a little rented building west of town, and services were held there for several months before and after constitution.

The congregation struggled to get the original building on Willa Street, on a lot given by the late Mrs. W. R. Settles. Later Mrs. Dora Roberts retired the remaining indebtedness on the church, which was constructed largely by the hands of members.

In 1959, it was replaced with a modern brick building, including a fellowship dining area, kitchen, etc.

Movie Is Scheduled At Knott Baptist Church

"Time To Run," a film that is a mixture of problems and solutions will be shown at the First Baptist Church of Knott on Sunday September 21. The feature, filmed in Eastmancolor by World Wide Pictures, will be shown once beginning at 5:30 p.m.

Filmed on location in the Southern California area, "Time To Run" stars Ed Nelson, Randall Carver, Barbara Sigel, Joan Winnmill and Gordon Rigsby. Nelson plays Warren Cole, a hard driving success-oriented industrial and scientific engineer, who, because of over-involvement with his work, has failed to communicate with his wife, Fran, played by Jean Winnmill, or their son Jeff, played by Randall Carver.

"Time To Run" allows the viewer to become involved on any one or more of the

three different levels. Viewed purely as entertainment, it's the suspenseful story of Jeff's attempts at sabotage in the nuclear generating plant conceived, designed, and managed by his father. Jeff strongly feels that the plant is a threat to the environment, and he puts his feelings in action.

Viewed on an emotional level, the movie is the deeply moving drama of the conflicts that are tearing a family apart—conflicts that develop between husband and wife, and between father and son. In an attempt to find freedom from the evergrowing hostilities, Jeff takes to the road, hoping to discover some meaning in his confused life.

Approached from a religious perspective, the film is also a story of friction between Jeff and his

girlfriend, Michelle, played by Barbara Sigel. Michelle has discovered a spiritual dimension in her life, and this aspect is very confusing to Jeff, who has little time for "a God who would allow war, hatred, and suffering on earth." But his life is shattered by an avalanche of personal problems, and he finds himself at a Jesus people gathering with Michelle, where he glimpses the possibility of a new life-style based on love and understanding.

The film is one that can help strengthen love relationships between people. It's a film that was made for families to attend—together.

"Admission is free and everyone is invited to come and join with us during this showing," according to the Rev. Bob Hamilton, Pastor.

'Snakes Alive' Priest Exclaims

SAN ANGELO — Penitents and sins are to be expected in the confessional, but snakes are something else! The Rev. Russell Schultz, pastor of St. Margaret's Catholic Church reported a Texas rattle snake occupying the confessional in this West Texas City.

Waiting in the confessional for those wishing the Sacrament of Penance on Friday evening, Fr. Schultz said he heard a swishing sound. He noticed a movement at the slight opening at the bottom of the confessional door. He waited, anticipating a confession.

"Nothing happened," he said. "Finally I looked into the penitents side of the confessional, and there it was! A real Texas rattlesnake about a foot-long."

School Lunch Bill Sent To President

WASHINGTON (AP) — House and Senate conferees have reached agreement on a school lunch bill that keeps the current school lunch program essentially intact and continues a free breakfast program for poverty-level students.

The measure, approved Thursday, also continues federally sponsored summer child care programs and year-round day care centers, but drops a controversial \$75 million subsidy for children from middle-income families.

The \$2.8 billion bill was sent to a conference with the House by the Senate last Friday after a bipartisan group of Senate leaders said it would add \$362 million to the congressionally sanctioned budget deficit.

Senators were reluctant to approve a proposed subsidy for children who now pay full price for the school lunches. Food cost increases have caused the lunch costs to reach 80 cents in some cities.

Schools receive government funds to meet the costs of lunches of children whose parents are within federal poverty guidelines. The government partly subsidizes the meals of those whose families earn less than \$8,770. These children pay 20 cents for lunch.

Schools must provide free lunches to all eligible children but offer the reduced-price lunches at their option.

'MOBILE ONE' Ace Reporter Busy, Busy, Busy

By JAY SHARBUTT
 AP Television Writer

NEW YORK (AP) — ABC did a rotten thing to journalism last season when it pink-slipped Carl Kolchak, the great Chicago wire service reporter, just because his Friday night show had no audience.

Tonight, ABC is trying to make amends with a television news reporter in a series called "Mobile One." Jackie Cooper plays the ace reporter. He works for KONE-TV, which has a busy newsroom.

You know it's busy because there's a guy running around saying, "I want to bump the wheat deal off the five o'clock and use it as the lead on the six o'clock."

Jackie Cooper is also busy. In an hour tonight, you'll see him: —Violate union rules by working without a unionman. —Help rescue a child from a cliff with KONE's helicopter. —Get shot at while covering a holdup. —Give moral support to a crippled cowboy friend. —Save an old movie actor's

mansion from the evil tax collector. —Help free an innocent murder defendant, even though he himself is jailed for refusing to reveal his news source in the case.

—Miss a brushfire story. He's sent to cover stories by news producer Maggie Spencer — Julie Gregg — who wants each story covered right now. She says things like, "You'd have it yesterday for Barbara Walters."

He says things like, "I protect my sources. Every reporter does." This is to a scared woman, an ex-convict who on a confidential basis gives him information that could clear the murder defendant.

He gives the information to the district attorney, but refuses to identify his source unless she wants this done and will testify in the case. The D.A. says he doesn't like Cooper's attitude.

Cooper says, "You don't like my attitude? Well, you won't like it any better on the 11 o'clock news tonight" when he breaks the big story.

DAVs To Hear O'Neal Talk Hunts Lose Fight In Federal Court

The Big Spring Chapter, Disabled American Veterans and Auxiliary will meet Monday at 7:30 p.m. to hear a report on the National DAV Convention.

Mr. and Mrs. Carliss (Buck) O'Neal, Region I Commanders attended the convention, held in Hawaii, and will report on the convention.

The meeting will take place in the VFW Hall on Driver Road.

DALLAS (AP) — U.S. District Court Judge Halbert Woodward today denied a motion to dismiss the federal wiretapping indictment against W. Herbert Hunt and his brother, Nelson Bunker Hunt.

Hunt lawyers moved for dismissal of the indictment, citing a technicality—that an unauthorized Justice Department official questioned witnesses before the grand jury which indicted the brothers.

BILLY JACK
 Starring TOM LAUGHLIN · DELORES TAYLOR

PLUS The Trial of Billy Jack
 It takes up where Billy Jack left off.

Woodward said the pair had not been denied due process of law.

Defense lawyers Travis Shelton and Phillip Hirschkop said they would seek dismissal on yet another technicality. They said the grand jury which indicted the brothers was not appropriately convened.

The Hunts are scheduled to stand trial Tuesday in Lubbock.

Woodward handed out rules today governing news reports on the trial and asked that lawyers abide by them.

Hirschkop called the rules a "gag order."

Woodward said: "Now, Mr. Hirschkop, I don't think you can call it a gag order."

The judge said he simply wanted no lawyer to give information to reporters that the lawyer knew would influence jurors.

Woodward said there was nothing unconstitutional about his rules because he was not asking the news media to abide by them.

Cranked Her Last Call

VIRGINIA CITY, Nev. (AP) — Mrs. Kate Tannehill, 80, Virginia City's oldest native still living in this one-time Comstock boom town, is losing her telephone and it's not because she hasn't paid her monthly bill.

The phone company has phased out all its old hand-cranked, magneto-type telephones and Mrs. Tannehill's is one of the last to go. The crank-type phones were installed in Virginia City in 1882.

Mrs. Tannehill made the last magneto call from the Sundance Hotel on Main Street to the Opera House. There were no wreaths, but a local musician played taps in the background.

Japanese Ships Aren't Cheaper

NEW YORK (AP) — Ships "Made in Japan" are no longer launched with bargain basement price tags, reports The Compass, a publication of MOAC, marine insurance underwriter.

"In the past, Japanese ships were being offered at 10 per cent or more below prices quoted by European shippers," The Compass notes. This provided a major saving on an oil tanker which might cost \$20 to \$30 million and helps to explain the past popularity of Japan's ship exports.

But the costs of marine equipment and materials have gone up 30 to 40 per cent in Japan in the last two years.

"Japanese industry officials now admit that the rising prices have put Japanese and European ships on a price par," says The Compass.

Trial Delayed

GARDEN CITY — A jury trial of a civil suit set here Thursday was postponed, because one of the attorneys was still in trial elsewhere, District Judge Ralph W. Caton said.
