KILLER WINDS Hurricane Hits Florida Coast

PANAMA CITY, Fla. (AP) — Hurricane Eloise slammed into Florida's central panhandle with raging surf and lashing rains today, then rushed inland, spawning tornadoes and carrying with it the threat of flooding.

With punishing winds up to 130 miles per hour, Eloise thundered ashore between Fort Walton Beach and Panama City before sunrise, wreaking havoc in both cities and in a 40-mile stretch between.

But as its vanguard crossed land, winds began to wane.

"With the hurricane over land, its strength should weaken rapidly," said Neil Frank, director of the National Hurricane Center in Miami. "The major threat now is tornadoes, heavy thunderstorms and the flooding they can cause."

At 10 a.m. EDT, Eloise's still-dangerous winds had dropped to 100 m.p.h. The hurricane's center was located about 45 miles southwest of Dothan, Ala., near latitude 31.0 north and longitude 86.2 west.

Trees, power lines and billboards toppled before the onslaught, and the area was plunged into darkness in the gray dawn as power transformers exploded in brilliant showers of blue-green sparks.

Thousands of people along a 100-mile stretch of shoreline had fled in a last-minute rush to escape the oncoming fury of the storm in the darkness of early morning.

In Panama City, a truss manufacturing plant caught fire, from what officials said was either a leaking gas line or a downed electrical circuit. Firemen tried to fight the blaze in screaming winds and rain.

Bells Herald Next Mexican President

MEXICO CITY (AP) — The clamor of cowbells and rattle of wooden drums, announced that Finance Minister Jose Lopez Portillo will be Mexico's next president.

Three dozen lottery ticket salesmen, some in their Sunday best and others wearing pants held up by rope, invaded the treasury building plaza Monday with a huge banner bearing Lopez Portillo's name.

The ticket sellers, each armed with at least 10 big cow clangers, began chanting the treasury chief's name and working themselves into a frenzy.

Word spread from the plaza that the 55-year-old

Advise Mental Test For Patricia Hearst

SAN FRANCISCO (AP) — A federal judge suggested today that Patty Hearst be examined by psychiatrists to determine if she is mentally competent to be cross-examined as a witness.

Miss Hearst's own attorneys said they would agree to such an examination only if it is done by a psychiatrist they have chosen.

"We have made these arrangements rather than subject this young lady to examination by strangers," said attorney James Martin MacInnis.

U.S. District Court Judge Oliver J. Carter raised the psychiatric question after receiving an affidavit from Miss Hearst in support of her request to be released on bail.

Miss Hearst has been held without bail since last Friday, when it was revoked by a judge who cited her taped statements and revolutionary rhetoric.

At that time, U.S. Attorney James L. Browning revealed

Candidates May Get Protection

WASHINGTON (AP) — Congressional leaders are considering asking the Treasury Department for immediate Secret Service protection for all residential candidates in the wake of Monday's unsuccessful assassination attempt against President Ford.

Senate Democratic Leader Mike Mansfield said that top congressional leaders would meet with Asst. Secretary of the Treasury David R. MacDonald later today to discuss the matter.

Under a 1968 law that extended the Secret Service protection to candidates seeking presidential nomination, a five-member board consisting of each party's Senate and House leader plus an outside representative picked by them would serve as the authority to designate who should receive the protection.

Mansfield said the board decided about two weeks ago to begin protecting candidates on or by Jan. 1, but that now he thinks the protection should be launched "as soon as possible."

Today's meeting was called after Republican Leader Hugh Scott reacted to an assassination attempt against Ford in San Francisco by calling for immediate action to protect presidential candidates.

Mansfield said the group has asked former Secretary of Defense Melvin R. Laird to be the fifth member for the 1976 campaign, along with himself, House Speaker Carl Albert and Senate and House Republican leaders Hugh Scott and John J. Rhodes.

Mansfield said new criteria will be established for the 1976 election to decide who gets Secret Service protection. In 1972, Secret Service protection was given after the initial two presidential primaries to candidates, with more than five per cent in either the Gallup or Harris polls.

Water Pressure Pressure Builds

By MARJ CARPENTER

Some fourteen persons bearing petitions with 174 signatures sought relief from water pressure problems in the Highland South addition when they appeared at the city council meeting this morning in City Hall.

Jerry Jenkins acted as spokesman for the group, requesting relief from chronic low pressure in that residential area. The longtime complaint was pointed up by a fire in the area Saturday morning.

Mayor Wade Choate called on City Manager Harry Nagel for a report. Nagel told the group that the money had been included in last year's budget for a paddle pump, hoping it would solve the problem. In the spring, the city engineer advised the council that the pump would not work in Highland South.

NEW STUDY

The engineer is currently in the process of preparing a study to build a storage tank on the mountain with a line down and pressure maintenance equipment in order to increase the pressure in the area. This would also allow for future development.

The item would call for around \$80,000 in expenditures and the city does not have that much allotted. They also plan to confer with the land developer in regard to contributing to the system in order to have future development in the area.

The city manager stated "Back when that area was taken into the city limits originally, there should have been a requirement of a water main from the water plant. Since there was not, the city is now responsible for the developed area, but not for future development."

The manager also told the group that the fire hydrant pressure was adequate on that street to fight fires, but that a human error of a fire truck driver caused a temporary shortage of water when they first arrived at the fire.

The group was told that they would be contacted through a representative as to the status of the water pressure project.

APPROVE ZONE CHANGE

In other action, the council quickly approved a low bid on damages to a car belonging to Mrs. Judy Puga which a city garbage truck had backed into, gave second

HOUSING SHORTAGE Base Community Council Post Goes To HC Prexy

Members of the Base Community Council met at Coker's Restaurant Monday for their regular bi-monthly session.

Dr. Charles Hays, president of Howard College, has accepted the civilian chairmanship of the Recreation-Education-Religious Welfare committee, replacing the Rev. Earl Price.

Various committee reports were given. Included was one by Lt. Col. Donald Coleman of the Police, Health and Safety committee.

It was revealed Webb sponsored a bicycle rodeo on base Monday, primarily for children attending Marcy School. Safe bicycling was stressed.

The sheriff's department has issued a warning to motorists who are passing school buses, reminding them they are in violation if the buses' lights are flashing. The problem seems particularly bad around Marcy School.

A report on the decrease of rabies cases was given, attributed in part to the fact that more pets are being inoculated against the disease. Potential accident sites were discussed.

It was also revealed that the incidence of difficulties between base personnel and civilians at some drive-in restaurants had subsided, perhaps because of an education program carried on through the Base Com-

OH YES, IT WAS COLD

In 60 years here, temperature has fallen as low as it did last night only one other time on Sept. 22.

The temperature dropped to 41 degrees, the same recorded for Sept. 22, 1924, at the U.S. Big Spring Experiment Station.

Although the low was for the 24 hours ending at 8 a.m. today, the reading is recorded for the previous day.

HERITAGE MUSEUM Works Of Celebrated Artists To Be Displayed

The Country Store, a collection of the works of celebrated artists, will be the next display at the Heritage Museum.

The museum will be closed until 10 a.m., next Tuesday. The new exhibits will then be shown daily until 7 p.m., until 12 noon Friday, Oct. 3.

The Texas Ranger exhibits, one of the most popular displays ever at the local museum, is now being disassembled to be set up at a public school in Beville.

Mrs. Toots Mansfield will serve as chairman of the Country Store exhibits here. Jerry Crawford of Austin is the Country Store director and the person responsible for assembling the variety of art.

Included in the special showing will be original oil paintings by such noted western artists as Charles M. Russell, Frederic Remington, Albert Bierstadt, Frank Tenney Johnson, Joseph Henry Sharp and many others.

The works of great masters like Renoir, Salvador Dali, Degas and Picasso will also be displayed, along with samples of art created by Porfirio Salinas, Jerry Ruthven, Robert Wood, Latour, C. N. Maas and many others.

Bronzes fashioned by Charles Russell, Frank Hoffman, Melvin C. Warren and others can also be seen in the exhibit.

Geri Atwell, museum curator, says this may be the biggest and most ambitious exhibit ever undertaken by the museum.

A more detailed list of artists will be released for publication later.

(AP WIREPHOTO) SARAH JANE MOORE Shooting Suspect

BULLETIN

WASHINGTON (AP) — The woman who allegedly attempted to assassinate President Ford in San Francisco Monday night asked a San Francisco police inspector a day earlier to place her in custody because she might start "testing the system," Sen. Joseph M. Montoya said today.

The New Mexico Democrat, who heads the Senate appropriations subcommittee which handles Secret Service funds, said it was this information that prompted the Secret Service to interview Sara Jane Moore Sunday night but that she was neither held in custody nor placed under surveillance.

NO VEST

Presidential adviser Donald Rumsfeld said later in Washington that Ford was not wearing a bullet proof vest. He first appeared in one during a public appearance in New Hampshire, a few days after Lynette "Squeaky" Fromme pulled a gun two feet from him in Sacramento, Calif., on Sept. 5. The gun did not fire.

U. S. Magistrate Owen Woodruff ordered Mrs. Moore to appear at the hearing today. She was arraigned Monday evening and ordered held on \$500,000 bond.

Woodruff set today's hearing after U.S. Atty. James L. Browning asked Mrs. Moore be given a mental examination "in consideration of the bizarre nature of the offense and in view of the response she made to agents."

She faces a possible life sentence if convicted on the federal charge of trying to assassinate the President.

CLEAR SHOT

"She said that when the President came out she had a clear shot and a clear view and she was astounded she had so much time," said Patrolman William Taylor, who was present when Mrs. Moore was questioned in the hotel.

whether her sanity should be tested. A Marine veteran deflected the gun and the President was not hurt.

Sara Jane Moore, 45, a one-time paid informer for the FBI with connections to various Bay Area radical groups, was seized Monday after she fired a 38-calibre revolver at Ford. It was the second attempt on Ford's life in 17 days.

ARRESTED EARLIER

Police said Mrs. Moore, a plump, greying brunette, had been picked up by officers with a 44-calibre revolver in her handbag Sunday and interrogated by the Secret Service because her name appeared on a "questionable list" of persons believed possible threats to the President. The gun was confiscated and she was released.

The President had been waving to thousands of cheering spectators outside the St. Francis Hotel when the shot rang out like a firecracker about 35 feet away.

Secret Service agents quickly pushed him into his bullet-proof limousine, where he crouched below window level as the motorcade raced off at top speed for the airport with sirens wailing.

bullet to ricochet and strike another spectator, John M. Ludwig. Ludwig, a 41-year-old San Francisco cab driver, was treated at a local hospital for a superficial groin wound and released.

"She said she fired and realized she had aimed high," Taylor said. "She said she didn't get a chance for a second shot because she was immediately set upon. She said if she had had a .44-calibre gun she would have hit him."

Police said Oliver Sipple, a 33-year-old ex-Marine from San Francisco, struck the chrome-plated revolver just as it discharged, causing the

Not Always Easy To Take

The history of the United States, in matters agricultural, will probably find some niche for the name of Earl Butz, the current Secretary of Agriculture.

He will be given credit for persuading Congress to dismantle a 35-year-old system of subsidies and production controls for farming, a system that cost the taxpayers more than \$4 million a year.

Whatever history does for Butz, he's not easy to like today. He predicted that food prices would level off last year. Instead they soared by 14 per cent. Three years ago he said the first Russian wheat deal would have no effect on domestic prices, but wheat prices quadrupled in two years. He said that cheese was a good buy, just as the price of cheese began climbing. He said more foodstuffs could be released for hungry people throughout the world if we would just reduce our dog and cat population by 50 per cent.

Then in Peoria, Ill., not long ago he delivered this judgment:

My Answer

Billy Graham

I don't mean to be cynical, but I have a feeling that the escalating emphasis on the Bicentennial has an ulterior motive. It is perhaps to get our mind off present problems. You see, when we look back at the supposed "good," we can't see the "bad" in the here and now. What do you think?

C.M. Jeremiah has an interesting statement in this regard. He wrote: "The Lord pleads with you still: ask where the good road is, the good paths you used to walk in, in the days of long ago. Travel there, and you will find rest for your souls" (6:16).

It so happens that the way we humans are built, we do little remembering unless some special anniversary celebration brings it all to mind. No, I don't feel the Bicentennial is some diversionary tactic to avoid present problems. I'm glad it has come. It'll be an occasion for tracing the great roots of freedom and faith that started our nation.

Of course, it depends on how we celebrate it. If by total citizen involvement we can discern and learn those qualities that catapulted our forefathers into their concept of self-government, then we can make our land a better place in which to begin

"I think food is a terrific bargain. Mrs. Housewife is unaware that Americans spend only about 17 per cent of their take-home pay for food. No place else on earth is so little of the working day spent on (earning money for) food."

This at a time when food prices are rising at an indicated annual rate of 20 per cent, and when poorer families must spend much more than 17 per cent of their income on food.

It isn't fun playing Job with Butz as straight-man. Most housewives and consumers generally must wish that history would take Butz now, instead of waiting.

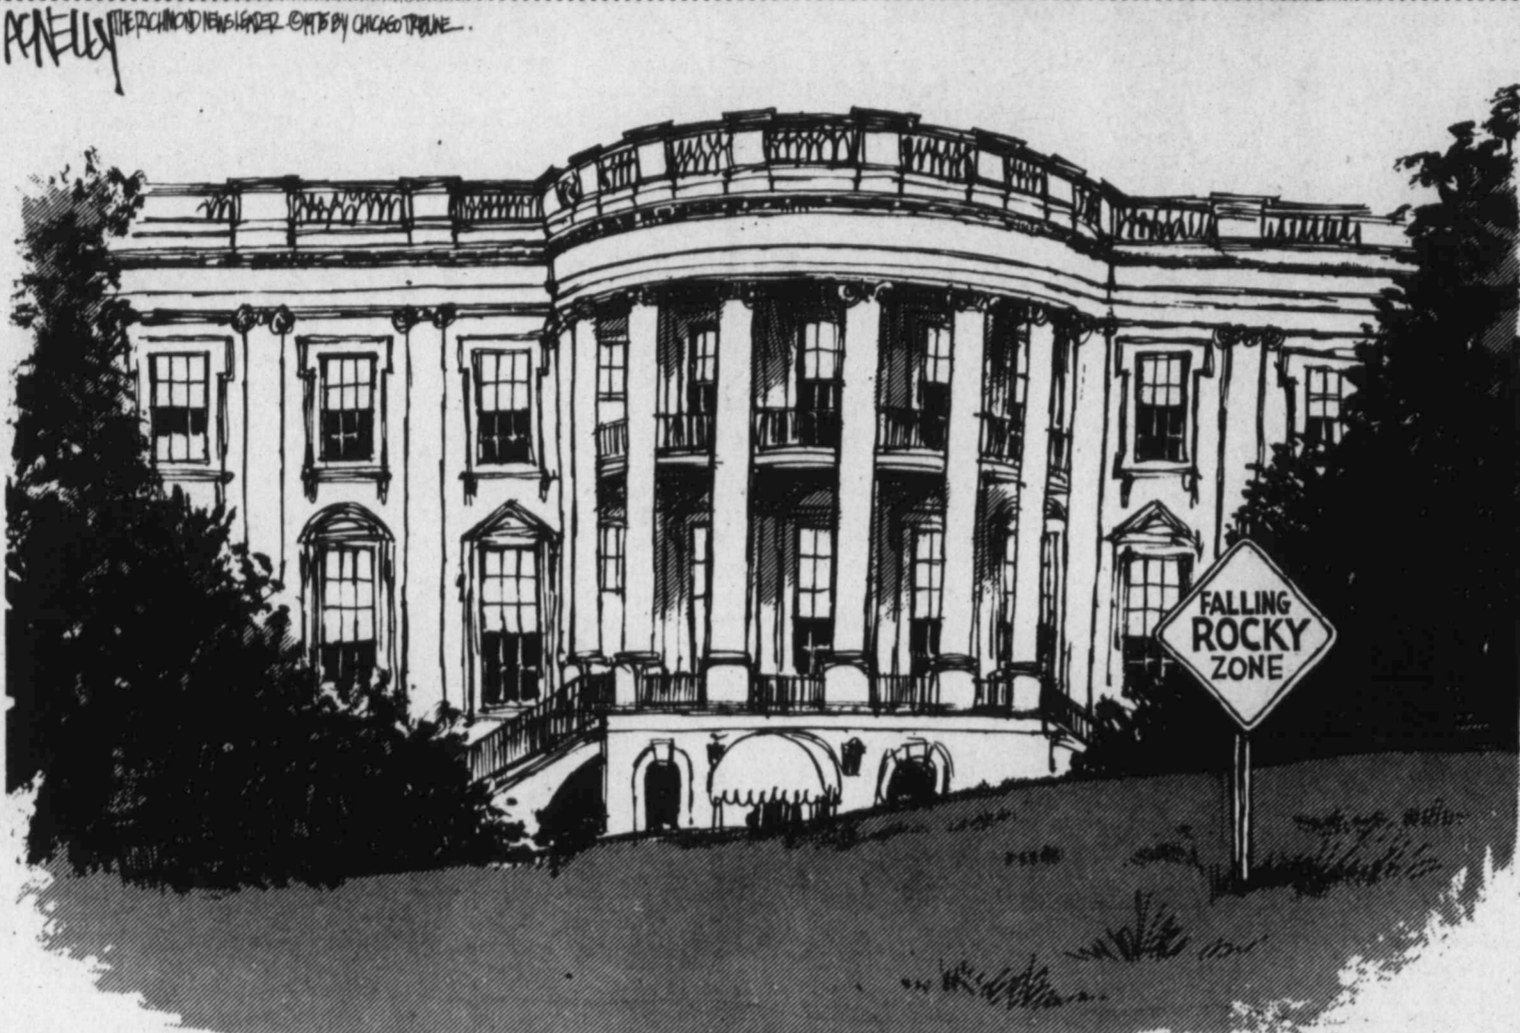

Rain Presents Some Problems

More rain has confronted the City of Big Spring with a set of problems. It now is apparent that there will be no late-summer wave of residential irrigation, thus boosting water consumption and minimizing operational losses under budget projections. It means that its unit prices for water will be higher than estimated, although this will be overcome in subsequent years when consumption is greater than estimated.

Another problem is that of mosquitoes and various insects. We may expect yet another wave before the

weather gets too cold for these creatures to propagate. In fact, we go right down to the frost wire in combatting this nuisance.

Also, nothing has so uncovered the flaws in paving surfaces as has the continuous rain. Tiny cracks or holes have, under the flow of heavy traffic, grown into sizeable pathologies. Some of these are dangerously big; and deep others are more of a nuisance or inconvenience, but with the potential of growing more serious. The street department has its work cut out in the next few weeks.

Moynihan Right

William F. Buckley, Jr.

The combination of dignity, ebullience, and purpose shown by Daniel Patrick Moynihan at the United Nations is the nearest thing to a jolt of pleasure we have taken since the formation of that Tower of Babel. One associates the UN, in memory, as the place where American representatives regularly apologize for Thomas Jefferson's having owned slaves, which ends up being the direct cause of poverty in Liberia. And yet as the years went on it became clear that the United Nations would never be used, and probably never could be used, as a genuine pulpit for right-minded reform.

No American ambassador would ever go to the General Assembly, address the distinguished leaders of the so-called 77 indigent nations of the Third World, and say, "Gentlemen: My government recommends that you go home and tell your people to get off their backs and start to work. That your politicians cut down the level of their conspicuous consumption — that, for instance, requires General Mobutu to travel here with 66 personal attendants — and while you're at it, we suggest you give a few moments each day to the contemplation of your everlasting souls." Ixnay.

THE ONLY thing you can get away with is flashes of genuine spirit, on those few issues in which the United States has only two alternatives: total moral capitulation, or — fight.

Moynihan did this recently and, as expected, he was taxed for it on Meet the Press, by Mr. Paul Hoffman of the New York Times. The exchange is as bracing as a speech by Patrick Henry.

Mr. Hoffman began by saying that he had been in Lima, Peru, a few

the 3rd century of freedom. The best place to start is to become again what we were in 1776 — a nation "under God."

John Cuniff

Exciting Experiment

NEW YORK (AP) — The gripe of the disgruntled worker is as familiar a sound as the factory whistle: "If only I ran this place, things would be a lot different."

It's an ancient gripe that predates industrial society and probably written history as well, but the management response is new: "Okay, buddy, let's see what you can do."

Throughout the industrial world today management and labor are experimenting with various concepts and techniques designed to enlarge the area in which they can cooperate.

To date, the idea of joint management has been carried a lot further in Europe than in the United States. Six nations there require labor representation on the boards of major companies.

American unions aren't sure they want board representation. Perhaps better organized than their European counterparts, they feel able to accomplish just

as much under existing arrangements. To join boards, some union officials fear, is to compromise their effectiveness.

In many companies workers and management are cooperating in so-called job enrichment programs whose goals are to improve working conditions and reduce costs.

To some extent, the assembly line is suspect. Various substitutes, such as cluster assembly, in which groups of workers perform not one specific chore but are allowed to exercise skills and judgment by constructing entire units.

Prof. Edward Lawler and Stanley Seashore of the University of Michigan are in the midst of a three-year, on-the-job study of the possibilities and implications of involving lower level workers in management decisions.

They report that all the experiments, conducted at various sites, show "some

indication of improved performance for the organization and the people in it." Later this year they will have more conclusive results.

One of these experiments, they state, already has shown promising results. It began late in 1973, involving workers and management of the Rushton Mining Co., Rushton, Pa. Prof. Eric Trist of the University of Pennsylvania, was consultant.

The experiment began with establishment of a joint steering committee composed of representatives of the United Mine Workers and management. An experimental work group of 27 volunteers was set up from the regular work force, nine to a shift.

All the workers were put on top pay, and all were trained to rotate to any job on the team. Each shift foreman had sole responsibility for the safety of the crew, and responsibility for coal production rested with the crew itself.

Dr. G. C. Thosteson

Dad Scolds Silent Child

Dear Dr. Thosteson: We have a three-year-old grandson (3 years, 3 months) who can't talk. His or her daughter's child. Her husband is very strict with the boy. Could this cause an emotional problem? It is an unhappy marriage.

The father threatens the boy to make him eat. He gets so upset he vomits. Other-fellow who seems to understand what you say to him. But he just grunts — E.A.

You have reason for concern, no matter what the cause is of his silence. A child this age should be using words in meaningful phrases, however brief.

An emotional problem could well cause his failure to talk, but so could a hearing disorder. From your description of the father and the home environment, I have to suspect an emotional factor. You and I know that grandparents do tend at times to color accounts of such things as the status of home environments.

However, I can only take your description at face value.

The father scolds the child and badgers him into eating at the table. He should be made to understand what he might be doing to the boy.

The inability to talk (or unwillingness to) should be investigated. If it is not corrected, it could lead to serious problems ahead.

I suggest that the boy be seen by a speech therapist to evaluate matters.

Dear Dr. Thosteson: I read a lot about the importance of early detection of arthritis. How can one know the early signs? I have a sister who is 60 and who has developed rheumatoid arthritis. — Mrs. V.D.

About three fourths of arthritis victims have an onset lasting over months or years. It is difficult to detect through symptoms, because they may be minimal. They include fatigue, tingling sensations in fingers and toes, stiffness, weight loss. They may be present in various combinations and degrees.

Feet are often the first joints to present signs. The onset can, in some cases, be abrupt, with fever and hot, painful joints. The symptoms are usually symmetrical, that is occurring in the same joints on opposite limbs.

X-ray is of little use in diagnosing arthritis in early stages, but it can be helpful in diagnosis as the disease becomes a bit more established. Certain blood

tests are helpful in confirming rheumatoid arthritis (not osteoarthritis). Examination of the fluid that typically accumulates in the swollen joints is another means. I will discuss this in more detail in some future column.

For now, you might want to read my booklet, "How You Can Control Arthritis," which goes into the matter. Send 35 cents to me in care of the Big Spring Herald, and enclose a long, stamped, self-addressed envelope. It takes a skilled rheumatologist to identify arthritis, especially in the early stages. Early detection, when possible, is a boon, because there are ways to deal with it rather effectively.

But not every ache and pain is arthritis. It can be muscle strain from overuse. So it's not a simple thing.

To find out what causes high blood pressure and what can be done to treat it, end for a copy of "Controlling Your Blood Pressure (Hypertension)" by Dr. Thosteson. Write to him in care of the Big Spring Herald, P.O. Box 3999, Elgin, Ill. 60120, enclosing a long, self-addressed, stamped envelope and 25 cents.

Fair's High Point

Around The Rim

Troy Bryant

The high point of the recent night when the Oakland Raiders showed Howard Cosell's biased viewpoint down his throat and beat the Dolphins.

Old Cosell is adding a new facet to his career, trying to become an entertainer. I wish him so much success that he leaves sports (at least football) alone for awhile.

COSSELL WAS always sickeningly obvious in his admiration for the Dolphins, a bias which shouldn't be detectible in any professional sports reporter.

*** I wonder if the police know about this? I should leave the bumper stickers to Walt and Paul Harvey, but I saw one the other day that warranted some second glances.

It wasn't big and fancy or parked colored, but it was there on a bright car in downtown Big Spring. It said: "I'm Pushing."

*** Maybe it was a little drastic. A northern state in 1885 paid a 50 cent bounty for all owls and hawks and paid out \$90,000 within 18 months.

They estimated that the extermination of 180,000 birds saved 7,500 chickens, worth about 25 cents each. So, they paid out \$90,000 to save \$1,875 worth of chickens.

But that's not all. It was further estimated that each of the birds could have saved \$30 during the 18 months by eating rats, insects, and mice, and further loss of \$5.4 million in crop damage.

Guns Of Autumn

Art Buchwald

WASHINGTON — I'd never seen Remington, my gun-loving friend, so angry.

"Did you see that show they did on CBS called the 'Guns of Autumn' about hunting in the United States?"

"YES, I DID and it left a deep impression on me," I said. "The thought of those helpless hunters setting out to shoot ferocious deer and man-eating rabbits was almost too much to bear. I was on the side of the hunter. All he had to protect himself with was a shotgun or a rifle while the animals had the protection of their speed, their claws, their teeth and their intimate knowledge of the forest. You would think a country as great as ours would find ways of killing animals without stacking the odds against the poor guy with a gun."

Remington said, "The show made us look like damn fools. They showed all the worst aspects of hunting animals and none of the good things that go with the sport."

"I noticed that," I agreed. "It seems to me CBS went out of its way to depict how cruel game shooting was. I wrote them a letter and told them I thought that if they show what a man can do to a bear, they should also show what a bear can do to a man. It would have been much more balanced if there were a few scenes showing a bear tearing a hunter limb from limb. I would have enjoyed that."

"Well, we fixed them," Remington said. "We scared every advertiser from sponsoring the show. When you mess with the hunters in America, you're messing with the National Rifle Assn. And when they start putting pressure on advertisers, there isn't a company in the United States that will defy the gun lobby."

"THANK GOD for the NRA," I said. "If it weren't for their members, you would now have buffalo herds grazing on Fifth Avenue."

"What got me," said Remington, "was how biased the documentary was. They didn't show any of the pleasure people get out of hunting — the camaraderie and fellowship that the sport produces, the joy of walking in the woods early in the morning stalking an elk or sitting in a blind waiting to blast away at a flock of ducks. That's what hunting is all about. All they emphasized was the slaughter of the birds and animals. I don't call that balanced journalism."

"IT ISN'T," I assured Remington. "If I were doing such a show, I would film the human side of hunting. I would show the love of man for his gun; a love greater than he has for even his own family. I would depict the sacrifices a hunter has to make to pursue this age-old sport where a man must pit his wits against the wildest animals in the forest. I would show the patience and perseverance that it takes to shoot just one

pheasant in the back or one doe in the head. What people don't realize who watch such a show is it takes more than the desire to kill wildlife. It takes skill and brains and heart. That, to me, is where the show failed."

"You know we're asking for equal time to answer the documentary," Remington said. "We're going to state our side of the case in no uncertain terms."

"I hope you've sold it to sponsors," I said.

"We will. There isn't a company in America that would refuse to advertise on a program giving the hunters' side of the story."

"You know something," Remington said, "I think the Commies are behind the whole thing."

"But Tito hunts," I said.

"SURE, THE Commie big shots hunt, but they would love to see hunting stopped in the United States. If they could turn Americans against hunting game, it would be the first step in a Red takeover of the United States."

"I guess you're right," I told Remington. "In a few years there wouldn't be a marksman left in America, and we'd all be left naked."

Remington looked at me suspiciously. "I thought you were against hunting."

"I am not," I replied. "As long as something gives people pleasure and you don't hurt anything, I say shoot."

WHAT OTHERS SAY

In this era of unprecedented nationwide gunplay, it may seem strange to find a congressional subcommittee unanimously approving a bill mandating the spending of \$9 million a year for a national network of target-practice ranges. But never underestimate the chutzpah of the National Rifle Assn., which has lobbied hard for the bill.

The federal money would be spent by the various states for "hunter education" projects, principally firing ranges. Some 40 such ranges already exist; these would be improved.

We can't see how the government could be certain whether the users of the range were hunters trying to improve their efficacy or professionals with mayhem in mind, but the idea of palming off this program as environment-related is plain silly. In these times anything that promotes or extends the use of guns is of dubious propriety. Congress should spike this program.

Award TV Sets, Floor Tile Bids

Approval of a vocational building trades project, awarding of bids on floor tile, television receivers and a progress report on health insurance were among the items handled by the Big Spring Independent School District board meeting at noon Monday.

The bid on tile went to the low bid within specifications, which was S&H Tile Company of Big Spring at a bid of \$5,120.22. There was a total of five bids. The bids are for replacement of tile at locations at three elementary schools and a junior high.

The board awarded the bid on colored TV sets with 19

inch screens to RCA Service Company of Fort Worth on a unit bid of \$318.75, which was the lowest of three bids.

The board approved a vocational building trades project for a private residence financed by the owner, John Beasley, to be constructed at Lot 1, Block 4, Allendale Road.

The board heard a report by John Bagnall and studied plans for the proposed building project.

The group also heard a report from Don Crockett, school business manager, on progress in the Flato Realty suit.

A lengthy report on the progress in obtaining a new

carrier for school health insurance was heard. The board agreed to go along with the recommendations of the school insurance committee, which includes administrators, teachers and representatives for other school employees.

Dr. Emmett McKenzie suggested that the board members visit Lake View campus with the idea of possible changeover at a later date to a citywide kindergarten and head start unit. A date was set for the visitation on Oct. 6.

Board members present included Roy Watkins, president of the board; Jerry Jenkins, Al Valdes, Don Reynolds, and Thomas Fetters. Delnor Poss and Jim Bill Little were not present.

Administrators attending included Dr. McKenzie, Lynn Hise, Don Green, Harold Bentley, Crockett and Bagnell.

Camfield Death Ruling Made Cafe In Lamesa Closed By Bullock's Raiders

Justice of the Peace Gus Ochotorena Jr. has ruled in the death of Richard Allen Camfield.

Camfield, 20, 9 October Cove, died Aug. 19 from broncopneumonia due to an apparent overdose of methadone, Ochotorena said.

Symptoms, the preliminary pathological report and other evidence pointed toward this conclusion, Ochotorena said. A urine and blood analysis report has not been received from the state. Ochotorena said these tests could not, in themselves, disprove his ruling.

LAMESA — Promising more strikes to come, State Comptroller Bob Bullock's raiders closed Lamesa's Coffee Times Cafe Friday afternoon.

The 24-hour cafe, owned by Mr. and Mrs. Nelse Bowers, is the first local firm to be seized by the state because of non-payment of the state sales tax.

The crew of about eight raiders, a Texas Ranger, a Lubbock locksmith and Deputy Jim Nance, converged on the cafe located on

the Big Spring Highway around 5:30 p.m.

Mrs. Bowers was summoned to the scene and confronted with the firm's \$3,132 delinquent sales tax bill. After explaining the situation and allowing her time to store perishables, the business was officially seized by the state.

Around \$40 in the cash register was confiscated to be applied to her delinquent tax bill. Locks were changed, warnings posted and plywood secured to a glass side door and to air conditioning vents.

Bullock's raiders were led by Harriet Buckle, staff attorney for the Austin based seizure task force of the Comptroller's Department.

Monte Carlo Invitation Will Be Needed

Admission to Monte Carlo night Oct. 3 will be by invitation only, a spokesman for the Permian Chapter of the Noncommissioned Officers Association (NCOA) said.

The decision not to open the event to the public, as previously announced, was made because of limited space in the NCO Club.

The Country Corporation, a versatile band, will provide music. And games played with "funny money" will proceed an auction of merchandise donated by Big Spring merchants.

Scheduled from 6 p.m. to 1 a.m., Monte Carlo night was planned to raise money for underprivileged children.

Fraud Sentences Stayed By Judge

DALLAS (AP) — Penalties of two former aides of the late billionaire H.L. Hunt convicted of defrauding his HLH Products Co. were stayed temporarily Monday by U.S. District Court Judge William A. Steger.

The two men are John W. Curington and John H. Brown. They were found guilty of setting up a dummy corporation to collect brokerage charges on sales of HLH products, and Steger assessed them three-year probation sentences plus fines of \$1,000 each last April. In addition the jurist ordered them to pay back \$2,501.40 apiece to the firm.

Steger, from Beaumont, delayed the effect of these penalties pending the outcome of their appeals to the 5th U.S. Circuit Court of Appeals.

Group Protests Judge Selection

SAN ANGELO, Tex. (AP) — A San Angelo women's group says it is preparing to file a complaint with the federal Equal Employment Opportunities Commission over the recent action of the city commission in appointing one of its members as a municipal judge.

Leaders of a movement to recall commission members say, however, they have stopped their plans after the commission voted in public last Friday to appoint Commissioner Allen Gilbert as the new municipal judge.

The San Angelo Women's Caucus said Monday it was preparing a complaint to file with the EEOC.

LETTER WRITTEN BY DEAD SON

I Will Love You For The Rest Of My Life

ROSEAU, Minn. (AP) — "I will love you for the rest of my life," Jon Lynn Bergland told his parents in a letter that was still unmailed when the teenager died in a auto accident.

Roseau, Minn. His parents, Rep. Robert Bergland, D-Minn., and his wife, Helen, call it "the most prized possession" they have.

The letter was written sometime the past year. The parents, who have six other children, said they released it because they wanted it to serve as a testimonial to their son and to inspire other parents who have suffered a similar loss.

The singled-spaced, typewritten letter to "Dearest Mom and Dad" includes a reference to a childhood accident in which Jon, who was 19 when he was killed, was severely burned at age 6. He had extensive surgery.

Excerpts, with the misspellings, include: "I know it may seem that I was not always grateful for my mother and father, but, I, after looking at all of the other lucky's parents, I realize how lucky I was for having you two as parents. There were times when I could not see your logic you used in raising me. But I now see I must have been the richest guy on earth to have you two as parents."

"Mom, I know there were times when I tried my hardest to get under your skin, but you have always treated me right. Dad, hang on to Mom, I know there are a lot of people who search all of their lives for someone like her."

"Mom, I would like to thank you very, very much, for loving me enough, and caring for me enough to work with me when I was burnt. For straightening my legs out so I would not be a cripple all of my life."

"If I ever get married and have kids, I hope I can raise them half as good as you raised me. "Thank you for everything!!! I am happy that I realized how lucky I really am before I left home, so now I have this opportunity to thank you, an opportunity not all children have."

"Thank you Mom and Dad for being so loving. "Jon."

In a P.S. he said "I will love you for the rest of my life, no matter what may come up in the future."

Grand Jury Accuses Ag Dept. Of Cover-Up

DES MOINES, Iowa (AP) — A federal grand jury was told last week that Agriculture Department inspectors have regularly covered up evidence of irregularities in port grain inspection, the Des Moines Register reported Tuesday.

In a copyrighted article, the Register said the grand jury also received documents from federal officials working on the New Orleans based grain inspection scandal implicating USDA's Office of Investigation (OI).

"I can't say what our investigation shows about any cover-up," said John V. Graziano, the recently named director of OI. He said he is taking the allegations seriously and has launched "an exhaustive investigation" of the agency's performance.

sources as telling the grand jury in New Orleans that OI officials soft-pedaled and whitewashed complaints that grain exporters and grain inspection agencies were misgrading and misweighing grain, exporting grain without inspection and committing other offenses.

The testimony included cases where government personnel who brought important irregularities to OI's attention were themselves reprimanded for minor infractions of USDA regulations while the major offenders went unpunished, the newspaper reported.

USDA employees who were concerned about suspected corruption in the grain trade were discouraged by OI officials from conducting investigations, the grand jury was told.

The evidence of negligence on the part of the investigation office is aimed particularly at the OI regional office in Temple, Tex., and at OI headquarters in Washington, the newspaper reported.

DEATHS

Joe Crews

Funeral for Joe Crews, 68, long-time resident of Big Spring who died at 9:45 a.m. Sunday at his home, will be Sunday at 2 p.m. at Nalley-Pickle Rosewood Chapel, with the Rev. Herbert McPherson, Westside Baptist Church, officiating. Burial will be in Mount Olive Memorial Park.

J. B. Harvey

COLORADO CITY — John Burton Harvey, 43, of Colorado City, a disabled veteran, died at 11:30 p.m. Sunday at his home here. Although a ruling on Harvey's death by Justice of the Peace Henry Doss is pending the results of an autopsy,

Mitchell County Sheriff Bill McGuire said he does not suspect foul play.

Sheriff Deputies L. M. Newby and Randy Wilkins, both of Colorado City, are continuing their investigation of Harvey's death.

Services for Harvey are pending at Kiker-Seale Funeral Home.

Born Nov. 7, 1931, in Colorado City, Mr. Harvey married Betty Banta April 7, 1971, in Big Spring. He was a Korean War veteran.

Survivors include his widow; three daughters, Denise Harvey, Shelly Harvey, and Lisa Harvey all of the home; four sons, David Harvey and Ernest Harvey both of the home, John Carlton Harvey of Tennessee, and Royce Warren Harvey of Maryland; and a sister, Mrs. Hubert Moore of Graham.

Records Show Funds Given To Carrillo

CORPUS CHRISTI (AP) — An Internal Revenue Service agent testified today that Zertuche's General Store transferred more than \$139,000 to the bank account of a store owned by suspended District Court Judge O.P. Carrillo and Duval County Commissioner Ramiro Carrillo between 1968 and 1970.

Gerald T. Culver of Houston gave the testimony as a summary witness in the income tax trial of the two South Texas political figures.

Culver testified that records of the First State Bank of San Diego, Tex., showed that the store at Benavides transferred \$139,382.93 to the Farm and Ranch Supply Store, a Benavides firm owned by the Carrillo brothers.

Culver said this represented more than one-half of the \$235,982.08 total deposits made to the Zertuche store account during the three-year period.

Earlier, Thomas E. Fontecchio of the IRS office in Dallas testified the store was set up to conceal illegal, conflict of interest sales to Duval County agencies.

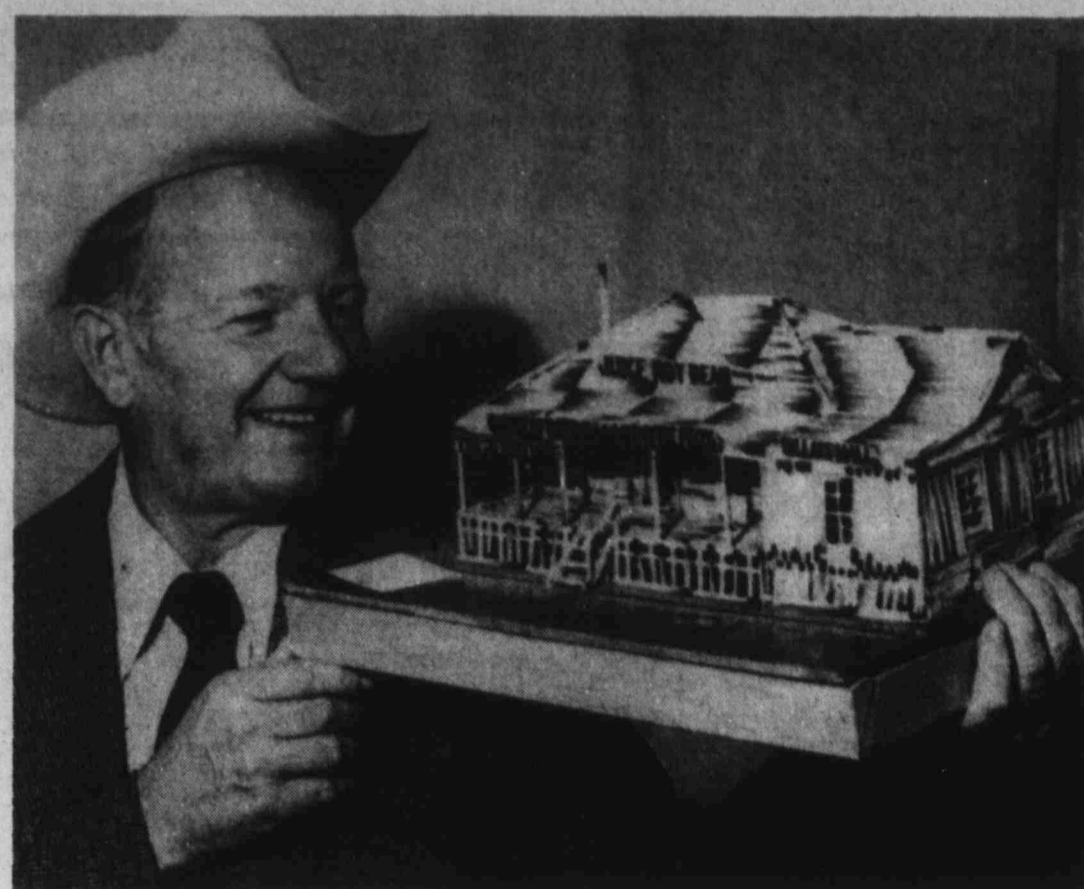

Rock Singer Not Welcome In Kentucky

LOUISVILLE, Ky. (AP) — Drug charges against Charles Negron, lead singer for the Three Dog Night group, have been dropped, but the court official in the case suggested Negron not return to Kentucky.

Veterans Day Reset Nov. 11

LOS ANGELES (AP) — President Ford has signed legislation returning Veterans Day to Nov. 11 beginning in 1978.

The new law, which a White House spokesman said Ford signed last weekend, ends the practice established by Congress of celebrating the holiday on the last Monday of October.

MATCHSTICK ART — Roy Boren, of Midland, Tex. has taken up matchstick art after retiring from 13 years of law enforcement. His replica of Judge Roy Bean's famed courthouse at Langtry, Tex., required 1,088 matches and 72 hours to glue them together. Boren served as a police officer in Texas and New Mexico cities.

AIRPORT LEASE COMPLAINT Insurance On County Properties Reviewed

By JOHN EDWARDS Insurance on county properties was reviewed and a letter from a Federal Aviation Administration official was read in County Commissioners Court Monday afternoon.

Commissioner William B. Crooker Jr. suggested eliminating insurance on county properties worth less than \$5,000. And the court talked about increasing insurance on the courthouse from \$1 million to \$1.6 million.

Michael Patterson and Joe Parks of the Big Spring Insurance Association told the court about a discount available when 80 per cent of a building's replacement value is insured.

In the early 1950s, the courthouse was built for \$800,000, County Auditor Virginia Black said. Furniture originally cost \$104,000; office equipment, \$15,938.

Increasing coverage on courthouse office machines and furniture from \$80,000 to \$160,000 was proposed.

Also, the court considered insuring the library building for \$175,000 instead of the \$130,000.

McClure failed to make arrangements to be included on commissioners court agendas in the past, Howard said Judge Tune had advised him.

McClure must provide the court and the FAA with a detailed report in writing, Howard said. Then, an FAA representative, McClure and commissioners court can meet.

The application should tell about the type of operations planned, size of buildings and land to be leased, personnel, "authorized factory or subleasehold," insurance coverage, financial ability to perform services and various other facts.

In other business, the court: Voted to accept bids on two smaller typewriters for the county clerk's office after hearing an IBM representative for bids opened Monday, 20-inch cartridges were specified.

Also, the court is seeking bids on two typewriters for the library.

Saw Georgia Leach of IBM demonstrate a new typewriter which allows quick correction of mistakes.

Authorized contracting W. N. McClanahan to construct a sidewalk on the north side of the library for \$450. For square footage, this bid was considered the lowest of two.

Postponed a conference with NCR representatives about computer room air conditioning until next Monday.

Told a man the county was not interested in buying the Wyoming Hotel and

present \$130,000 and library contents for \$100,000, compared to the \$80,000 presently covered.

The policy, which protects the county against losses due to fire, wind, weather, accident and riot contains numerous exceptions.

The insurance representatives are to meet with the court again later.

Through a pooling arrangement, members of the association share insurance premiums from the county, Mrs. Black explained after the meeting.

County Judge Bill Tune read a copy of a letter from the airport district FAA office at Albuquerque, N.M.

Howard wrote concerning a complaint from R. E. McClure, vice president of Trans Regional Airlines, about efforts to obtain designation as a second fixed-base operator at Howard County Airport.

Field Day At Pecos Set Oct. 2

PECOS — Date of the annual Field Day of the Texas Agricultural Experiment Station at Pecos has been changed to Oct. 2, reminds Dr. James D. Hefner, associate professor in charge. Original date for the program was Sept. 25.

"Reducing Costs in Trans-Pecos Cropping Systems" will be the theme for the field day, Hefner adds. The tour program is set from 9 a.m. to noon.

"Agricultural producers are faced with a five-fold increase in natural gas costs for irrigation in this area, so the program will deal with various management systems for economizing on such major crops as cotton and sorghum that are grown under irrigation," the scientist explains.

Field day visitors will also have an opportunity to observe results of the utilization of feedlot wastes on major crops of the area. Experiment Station scientists have found that annual manure applications of 10 tons per acre provided maximum crop yields in research plots at Pecos.

"Additionally, no ground-water pollution problems, surface water pollution from runoff or soil salinity problems occurred when manure was applied at this rate. The field studies also showed that manure should be applied from four to six months prior to planting a crop," Hefner adds.

On the field tours, groups will observe alfalfa yield results from various fertility treatments, harvest weights and yield data from forage sorghums produced for green chop and grazing, see three variety trials of grapes, and study principles of trickle irrigation, the researcher emphasizes.

All interested persons are invited to the field day activities at the Texas A&M University Agricultural Research Station, located 12 miles southwest of Pecos on Highway 869. The Reeves County Experiment Station facility, a part of the Texas A&M University System, was established in 1958 and contains 160 acres.

West Texas Industrial Tour To NYC Scheduled

Bill Clayton, speaker of the Texas House of Representatives, will lead the first West Texas Industrial Tour to New York City Nov. 30-Dec. 3, Ron Mercer, chief executive officer of the Big Spring Industrial Growth and Development, announced today.

Sponsored by several West Texas Chamber of Commerce and the Texas Industrial Commission, the tour will include 40 to 75 West Texas business leaders. Its purpose is to attract new industry and business expansion to West Texas.

A series of three luncheon meetings is scheduled with executives of national corporations in the New Jersey, New York and Connecticut area. The meetings will feature an audio-visual presentation on the advantages of West Texas as a business location.

"This is the first such effort by a West Texas group," Mercer said. "These industrial tours have been extremely successful in East Texas for over 13 years."

"We are convinced that West Texas is an exceptionally attractive place for business growth. We intend to begin advertising this fact with the tour," Mercer said.

In describing the tour, Mercer lists other benefits it is expected to bring West Texas.

"In New York we will strengthen ties with businesses that have already located in our area. This can mean business expansion with more jobs for West Texans," Mercer said.

Mercer adds that the tour obviously builds a regional "esprit de corps" as business leaders throughout West Texas work together to develop the area's industrial potential.

"The results of this tour probably will not be immediate. However, similar activity in East Texas has brought strong, long-range accomplishments and solid business growth," Mercer said.

Inheritance Murder Conviction Upheld

AUSTIN (AP) - The Texas Court of Criminal Appeals today upheld the life sentence assessed. A Lewisville man who stood to inherit more than \$400,000 worth of property from his victim.

Former airline pilot James McNeill Bailey, alias James McNeill Bailey, was convicted in the Feb. 11, 1974 bludgeoning death of Imogene McNeill Apple, 71.

Mrs. Apple's lawyer testified that she had made an appointment with him for later that day to execute a new will.

According to prosecutors in the case, Bailey, formerly of Atlanta, Ga., was a first or second cousin of the slain woman.

The will in existence at the time of Mrs. Apple's death left Bailey 21 acres of land valued at more than \$400,000 along Interstate 35.

The dead woman's lawyer said Bailey had once tried to persuade her to transfer title before her death but she had refused to do so.

Other witnesses said Bailey was developing plans to build a tennis club in the Lewisville area and had borrowed \$20,000 from a Virginia bank for that purpose. A Sherman bank official said Bailey had discussed a loan for the club with him and listed 22 acres of property, worth \$400,000, in the name of Apple-Bailey, on his financial statement.

Bailey's lawyers contended the trial court in Denton erred in admitting testimony concerning the will and the property.

But the appeals court said that in circumstantial evidence cases the rules of evidence are not as strictly applied as in other trials.

"The deceased's plan to alter her will was a link in the chain of proof that appellant (Bailey) murdered her to inherit her property," the court said.

Bailey's lawyers also complained of the admission of his oral statement to police investigators that he had hid the murder weapon, gloves and jacket. The court said, however, that the statement was admissible because Bailey initiated the conversation at a time when he was under no restraint.

Brownsville College Sold Fake Diplomas

RALEIGH, N.C. (AP) - A state court hearing has been set here in a complaint against a Brownsville, Tex., college accused of selling phony college diplomas to military personnel at an army base south of here.

A restraining order has been issued against Trinity Christian College.

The state Justice Department alleged the school sold the diplomas for \$500 to Ft. Bragg area servicemen who needed college degrees for advancement.

For their money, they also were supplied with transcripts showing they had completed four years of college credit, the complaint said.

The attorney general's office says an investigation revealed that no study courses were conducted. It said the college is located in an abandoned church in Brownsville.

In July, a Texas court ordered the same principals named in the complaint to cease operation in violation of state law.

The hearing has been set for Sept. 29 in Wake County Superior Court.

WINNERS SMILES — Pirates manager Danny Murtaugh, left, smiles as he gets doused with champagne by team president Dan Galbreath during a clubhouse celebration in Pittsburgh Monday night. The Pirates had just defeated the Philadelphia Phillies to clinch their fifth National League East title in six years.

Danny Ozark Unaware Phils Out Of Race

Philadelphia Manager Danny Ozark may not have been the only man in Three Rivers Stadium that didn't know his team was eliminated from the National League East race but he was the only one who admitted it.

"We aren't out of it if we win every game and they lose every game," insisted Ozark after Pittsburgh walloped the Phils 11-3. Told that his team was seven games back with just six to play, Ozark said, "That's news to me ... it's disheartening."

If Ozark wanted more confirmation he could have dropped by the Pirate clubhouse where the champagne was flowing and

congratulations being exchanged all around.

"This is a great way to win a championship, beating the team that has been chasing you," said Pittsburgh Manager Danny Murtaugh who knows a division title when he wins one.

"We're used to winning," said outfielder Dave Parker. "Even when we went bad this year the Phillies didn't gain any ground on us and we just felt 'Hey, it's meant for us.'"

"I haven't been on a championship team since I was 14," added reliever Kent Tekulve. "We won the Babe Ruth League or something."

It was the fifth division crown in the last six years for the Bucs.

Elsewhere in the NL, Houston beat Cincinnati 5-1, San Diego edged Los Angeles 6-5 in 11 innings and St. Louis and Montreal split a doubleheader, the Cardinals winning the first game 6-4 in 12 innings and the Expos taking the second one 8-5.

The Bucs brought out the big bats Monday night to end Phillie hopes of a miracle comeback. Pittsburgh built a 6-3 lead over the first seven innings, then wrapped it up with five runs in the eighth.

Dave Parker and Richie Zisk drove in four runs each, Parker with two singles and his 23rd home run and Zisk with two singles and a double. Ozark tried to stem the tide with seven pitchers and the first one, Tom Underwood, 14-13, took the loss.

Bruce Kison, 12-11, and Tekulve teamed for a seven-hitter for Pittsburgh.

Next stop for the Bucs will be the NL pennant series against the Reds, who clinched the West Division weeks ago.

Variety Of Events Planned For Garden City This Week

With Garden City's Homecoming Friday, a variety of events are scheduled.

Bearkats will host Loraine at 8 p.m. In previous homeing football contests, Garden City has split even. Last year, the Bearkats won over Wellman.

A Queen will be named. Candidates include Jacque Frerick, Becky Hirt and Jan Hirt, all seniors.

A Mr. Bearkat will be named, selected from the list of Stuart Wooten, Ronnie Hendricks and Norwin Bingham, all seniors.

All honors will be bestowed at halftime.

Garden City seniors are to sponsor a chicken supper at the high school cafeteria at 5 p.m.

For the homecoming game, the Garden City stadium will be enlarged from its customary 1,000 seating arrangement to 1,500.

Steerettes Oppose Abilene Tonight

The Big Spring High School girls' volleyball team will play host to Abilene High this evening in a District 5-AAAA volleyball game.

The junior varsity squads tangle at 6:30 p.m. The A teams square off an hour later.

Midland High is the defending champion in the race but lost most of its varsity players. The Bulldogs had an undefeated JV team, however.

Abilene brings a 4-3 record here, having shaded Sweetwater twice and

Monahans and Breckenridge once each. The Eagles have dropped decisions to Arlington High School, Arlington Lamar and Midland High.

Big Spring rates as one of the favorites in the race, along with the two Abilene schools, and Midland can't be counted out.

San Angelo, Odessa and Odessa Permian are fielding teams for the first time.

Robinson Rehired

CLEVELAND (AP) — Frank Robinson, major league baseball's first black manager, will manage the Cleveland Indians for a second year. General Manager Phil Seghi made the announcement today.

With six games to go to the end of his first season, Robinson has piloted the Tribe to a current fourth place finish in the American League's Eastern Division with a record of 76 victories against 77 losses.

The Indians face two more games here with Milwaukee after Monday night's 7-6 victory, then wind up play in a fourgame series at Boston.

Robinson said recently he'd like to return as manager but without his playing role. He was active as designated hitter early in the current season, but he dropped out under a combination of a muscle injury and improved hitting by other Tribesmen.

Details of the new contract weren't disclosed.

Athlete Is Back

ABILENE — Donnel Bladwin has rejoined the Abilene High School football team after he had been suspended for one game.

Baldwin rejoined the club following a favorable vote taken by the Eagle Council of Coaches.

Baldwin's future became clouded after he was charged in Taylor County court with misdemeanor theft.

"We have voted to reinstate Donnel on the squad," Bill Shipman, head football coach, announced. "His status is subject to a condition of behavior. We will outline that code for him."

Asked if possible court action might imperil Baldwin's position on the squad, Shipman replied: "We made our decision and they (the court) will make theirs."

In the two games in which he had appeared this year, Baldwin averaged 100 yards a game as a ball carrier. Without him last week, Abilene lost to Temple, 17-6.

Rangers Beaten

KANSAS CITY (AP) — Tony Solaita stroked a tie-breaking double and Cookie Rojas pinch hit a sacrifice fly as the Kansas City Royals rallied for two eight-inning runs and nipped the Texas Rangers 2-1, stalling the Oakland A's from clinching the American League East title.

Any Kansas City loss or Oakland victory would give the A's their fifth straight division flag.

Texas' Stan Perzanowski came into the eighth with a three-hitter and a 1-0 lead after the Rangers scored an unearned run in the fifth inning.

But George Brett hit a leadoff single and came home on Solaita's RBI double to right. Al Cowens singled to set up Rojas' game-winning sacrifice fly.

Al Fitzmorris pitched an eight-hitter to raise his record to 16-11.

HARD TO HOLD — Pete Banaszak (40) of the Oakland Raiders gets away from the clutches of line backer Steve Towle of the Miami Dolphins during action in Miami's Orange Bowl Monday night. The Raiders defeated the Dolphins in the season's first game 31-21.

Raiders Pay Big Price For Win

MIAMI (AP) — Oakland Coach John Madden finally found out what it's like to win a National Football League season opener. But injuries have cooled his excitement over the Raiders' convincing 31-21 conquest of the Miami Dolphins.

Madden apparently lost defensive tackle Kelvin Kover for the season with knee ligament damage in Monday night's victory. Oakland's first opening success in six years. A team spokesman also said fullback Marv Hubbard was probably lost for three weeks with a shoulder injury.

On the bright side was a defensive effort that thoroughly dominated Miami in the first half and quarterback Ken Stabler's

expert dissecting of a Dolphin defense, a defense noticeably missing injured veterans Nick Buoniconti, Dick Anderson and Manny Fernandez.

"We got off to a good jump ... then in the second half, it seemed something would always happen to give Miami a little lift," said Madden after breaking Miami's 31-game winning streak at home.

"They proved they're still a fine team. They kept coming back at us," Madden said of the Dolphins, whose offense was without World Football League defectors Larry Csonka, Paul Warfield and Jim Kick.

The Raiders jumped on top 17-0 on plunges of two and

one yards by Pete Banaszak and a 25-yard field goal by George Blanda. Oakland upped the lead to 24-7 on Mark van Eeghen's yard run in the third period.

But it took a 102-yard kickoff return and three interceptions, all in the fourth quarter, to kill the Dolphins.

"There wasn't any excuse for the runback," said Dolphins' Coach Don Shula of Harold Hart's return which came after Norm Bulaich had ended an 80-yard drive with a yard plunge to cut the lead to 24-14.

"We relaxed when it looked like he was going to down the ball in the end zone and then the lane opened up," added Shula.

Hart explained, "I thought about downing it because I wasn't sure how deep I was in the end zone. But when I saw Jesse Phillips wave me on, I just took off. I knew I had it once I cut toward the sidelines."

Miami cut the lead to 31-21 when Mercury Morris added to his second period touchdown run of four yards with a oneyard plunge. And the Dolphins, with over five minutes to get back in the game, were on Oakland's 38 when Art Thoms blocked and then caught a Bob Griese pass.

Hurts Fail To Sideline Baylor Ace

WACO — Baylor noseguard John Oliver only played one year of varsity ball in high school, but in his three plus years with the Green and Gold has proven to be one of the best, if not the lightest, men at a key defense position, noseguard.

The 6-2, 205 pound three-year letterman nearly didn't make this season following knee surgery in the spring. Coaches felt that the knee would not recover in time for full-time action, and thought about redshirting the genial Houston Smiley performer.

However, Oliver came back with a sound knee, improved speed and a desire to help the Bruins prove that last year's Southwest Conference championship was no fluke. To date, he's done very well, playing one of his best games against the Ole Miss Rebels with six solo tackles, one assist and one quarterback sack.

Oliver hasn't gained much weight since he was a 200-pound all-state offensive guard in high school. He only played one year of varsity ball, being relegated to the JV unit as a junior because "I just couldn't cope with it."

He joined another Smiley performer, fullback Mike Ebow, at Baylor in the fall of 1973 where he was backup nose guard for the first eight games and then played behind All-American defensive end Roger Goree the remaining three.

As a sophomore Oliver stayed at defensive end until midseason then returned to bolster up the noseguard position behind Joe Johnson. Last year he started at noseguard for the SWC champions until injuring an ankle against TCU but came through in the Cotton Bowl for the champions.

QBC Conclave Set Tonight

The High School Cafeteria will be the scene of the weekly Big Spring Quarterback Club meeting at 7:30 o'clock this evening.

Films of the Big Spring-Snyder game will be shown. Local scouts will make only brief reference to the Steers' next foe, Abilene High, since the Longhorn take the week off from plunging into District 5-AAAA competition.

Despite the loss to Snyder last week, the Steers played a very respectable game against the Tigers and Coach Bob Burris is offering praise where he feels it is merited.

SHUTOUT WAS AIM Aggies Unhappy With LSU Score

COLLEGE STATION — A Texas A&M player heartbroken? After a 39-8 rout of LSU in Baton Rouge?

But that's the way Aggie linebacker Garth Ten Napel described his feelings, at least about the "8" part of the score. "We were heartbroken," Ten Napel said of the defense in the jubilant Aggie dressing room. "We felt like we could get a shutout. The offense did such a great job, and we wanted to match it. But I guess eight points isn't so bad. There was just one person on defense tonight. Every guy out there did a great job. And the players who came in to give us a rest played just as well. And everything Coach Robertson called worked perfect. It sure was a great way to closeout the series. I'm sure they will remember us."

Last year Ten Napel earned National Defensive Player of the Week honors for his play in a 21-14 Aggie win. This year he was the leading Aggie tackler in a defense which limited LSU to 38 yards rushing in 44 plays and a total offense of 114 yards. He led the team in

tackles last year on a defense which ranked No. 2 in the nation, and he is the leading tackler this year on a defense which ranks No. 1.

And yet ... and yet ... The 6-2, 216-pound senior from Euleess (Trinity) is still considered the "other" linebacker by some observers. You see, A&M has this other guy named Ed Simonini. Ah, if there were only a way of talking about Ten Napel without talking about Simonini. But there is not, for each has made the other what he is — one of the outstanding linebackers in the nation.

"There is no doubt in my mind," says linebacker coach John Paul Young, "that Ed would not be as good as he is if we didn't have Garth, and vice versa. They are the two finest linebackers I've ever coached, and that includes a couple of All-Americans (John LaGrone at SMU and Cleveland Vann at Oklahoma State). They are extremely quick, hit very hard, and are exceptionally intelligent. They make very, very few mistakes. Garth has a natural instinct for the ball. He made three great saves against LSU on reverses, and he made a nice run after that interception. And Ed had an interception, too. Those two are the best of friends, but there is definitely something competitive between them."

In his career, Ten Napel has recovered six fumbles, caused numerous others, and intercepted two passes. Until this year, he spent the summer drag racing, but he went into temporary retirement this summer to try to add some weight. He played at 195 last year, but came back 20 pounds heavier without any loss of speed.

Texas A&M is fortunate to be blessed with two such great linebackers as Simonini and Ten Napel, but there seems to be an unwritten rule about two All-Americans on one team. Young challenges anybody to find even one better.

Degree Will Be Awarded

GEORGETOWN — U.S. Representative Barbara Jordan will be honored by Southwestern University at Georgetown Monday when the Doctor of Humanities degree is conferred on the Houston lawmaker.

"Congresswoman Jordan's degree was to have been awarded at the time of our Spring Convocation on May 4, but her schedule would not permit her presence at that time," explained University President Dr. Durwood Fleming. "Our opening Convocation was the first date we could work out that is mutually satisfactory."

Southwestern's opening Convocation will mark the 136th year of classes held by the state's oldest university.

"We look forward to the events of the day, and to the singular opportunity to honor this distinguished Texan and stateswoman," President Fleming said.

Representative Jordan, who has served the 18th Congressional District in Texas since Jan., 1973, was described recently by the Wall Street Journal as a person who has achieved in one congressional term, "more honors and perhaps more power than most members of Congress can look forward to in a lifetime."

Club Gives Scholarship

Midland Palette Club has presented a \$150 scholarship to the art department of Midland College, according to Marjorie Keyes, club president.

The scholarship grant is available to a freshman or sophomore art major at Midland College on the basis of financial need.

"We appreciate this gift and the interest which the Midland Palette Club has shown in our art program at Midland College," commented Stan Jacobs, art department chairman.

The scholarship will be awarded for the spring semester. Persons currently enrolled or who plan to enroll for the spring semester, may apply.

Those interested in making application for the scholarship grant should contact Stan Jacobs or Bill Burns, financial aids officer.

First Meeting Of Fall Set

New representatives from local clubs to Big Spring State Hospital's Volunteer Services Council will be introduced at 9:30 a.m. Wednesday when the auxiliary holds its first fall meeting in the Staff Development Building on the hospital campus.

Mrs. Margaret Baum, volunteer coordinator, will explain the volunteer program and discuss current needs of hospital residents, placing emphasis on the role played by the community in helping the hospital achieve its goals.

"Refreshments will be served during an informal period following the showing of a documentary film made at the hospital.

Clubs which may not have yet named a representative to attend the meeting are urged to do so. Also, Mrs. Baum stressed that anyone who would like to be of service to the hospital, either on or off campus, is welcome to attend.

Dear Abby

Abby Criticized For Ann Landers' Slip

DEAR ABBY: I read in your column where someone said gentlemen used to prefer blondes, but today it seems that gentlemen prefer brunettes. And you said, "No, I think most gentlemen still prefer blondes, brunettes and redheads."

Abby, I am greatly disappointed in you. Don't you realize that you have a lot of black readers who don't happen to be blondes, redheads or brunettes?

DEAR ABBY: I hear so much criticism of young couples who live together first and then have lovely church weddings. I hope you'll be fair and let an opposing point of view be heard:

After living together for five years, Bill and I were married last June. We had 65 guests at a lovely church wedding, followed by a garden reception in the backyard of our home. (We paid for everything ourselves.)

DEAR LOLLIE: The letter to which you refer appeared in Ann Landers' column, not mine.

And Lollie, dear, please don't be too hard on my twin sister because I have seen black women with beautiful red and even blonde hair. Of course, it's not their natural color, but then, neither is mine.

We both wore white to symbolize the purity of our first and only marriage. We waited for five years to be sure that what God had joined together no man could tear asunder. Standing at that altar in the presence of God, our families and friends was a spiritual experience we shall cherish all our lives at the ultimate commitment.

Everyone present said it was the most meaningful and beautiful wedding they had ever attended.

Some would say that Bill and I had lived in "sin." We think it's a greater sin for married couples to live together in a loveless union, while committing adultery with others.

Violet Club Sets Meeting

Hog History

Domestic hogs arrived in the United States not too long after the settlers from Europe landed on our shores. In 1608, domestic hogs were brought to the Jamestown settlement. By 1617, these hogs had survived and bred so well that census takers simply noted "innumerable number of swine," rather than attempting to count the animals.

HAPPILY WED

DEAR ABBY: I have a problem that I am sure is shared by thousands. In fact, I have been on both sides recently.

In the case of overnight guests, who should make the first suggestion that they retire for the night? The host or the other couple?

A MATTER OF ETIQUETTE

DEAR MATTER: It's more a matter of common sense than etiquette. Whether you are the host or the guest, when you're ready to retire, simply say, "Let's call it a night, shall we?"
