

NEW SIGN PLANNED — This is a drawing of a new entranceway sign to be erected at Howard College. The sign is being donated by Dr. P. W. Malone, longtime member of the college board of directors. It will be constructed in the near future and will be the first step toward a landscape plan for the campus.

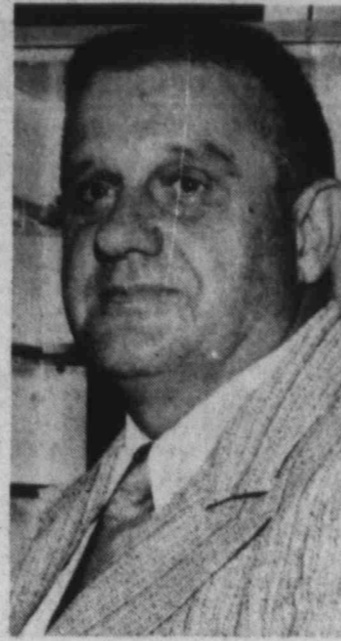

John Gee Selected

John Gee was named Optimist of the Year at their annual installations and awards banquet Saturday night. He was presented a lifetime membership in Optimist International.

Larry Willard, past president of the organization, has been presented a plaque in appreciation for his work with the Big Spring Optimist Club. Willard is also lieutenant governor of Zone II.

A delegation from the club plans to attend the district board meeting in Denton this weekend.

New officers installed at the banquet include James Moss, Roger Goertz, James Ballios and John Gee. The club also held their regular breakfast meeting Wednesday morning at Coker's Restaurant. Mrs. Marj Carpenter, Big Spring Herald reporter, spoke to the club on "Freedom of the Press" in keeping with national newspaper month.

IRS Considers Change In Tax Filing Dates

SAN ANTONIO, Tex. (AP) — Internal Revenue Service Commissioner Donald Alexander says the IRS is considering alternatives to the current Jan. 1 to April 15 income tax filing period.

The 3½ month filing period puts a strain on the taxpayers, the IRS and accountants, he told members of the American Institute of Certified Public Accountants here Tuesday for their 88th annual convention.

The IRS is considering two basic approaches, although both would create many problems, Alexander said.

The first idea would be to allow taxpayers to file their returns any time during the year, rather than just the three-month current period.

Alexander said some form of incentive would have to be offered to induce taxpayers to depart from present filing patterns.

The other approach being considered involves man-

datory staggered filing, with specific groups filing at different times throughout the year.

The staggered approach presents problems of serious inequities which some taxpayers would have to bear in the first year of such a system, Alexander said.

Alexander called on the CPA's and other groups to present ideas on the subject to the IRS.

Alexander also promised that the IRS will not violate the law to enforce tax laws.

He called for the congressional oversight of the commission.

Alexander said he came under attack by a small minority in law enforcement for his stand on controlling information the IRS gathers.

He said he has been called 27 times to testify before various congressional committees and feels their examination of the IRS has generally been constructive.

Top Conference Medal Of Honor Winner Opens Friday

An array of the world's leading specialists in the field of cardiovascular health will be on hand at the National YMCA Consultation on Cardiovascular Health to be held in Chicago, Oct. 17-19.

The event, which is truly historic, will be the largest sports medicine, physical fitness, nutrition, stress reduction conference of the decade.

Making presentations at the conference will be many leading national and international authorities in such fields as: cardiac rehabilitation; therapy and education; stress testing; nutrition; fitness and exercise. Dr. Per-Olaf Astrand, Swedish authority on physical medicine, Dr. Kenneth Cooper of the Dallas Aerobics Center, Dr. Jesse Steinfield, former U.S. Surgeon General, and R. Hans Kraus, fitness authority.

The conference marks the launching of one of the YMCA's most ambitious undertakings: to deliver health service to the people of every town in America.

Dr. Clayton R. Myers, director of physical fitness for the National Council of YMCA's, recently stated that "when other ailments involving blood circulation are added — stroke, arteriosclerosis, hypertension — every second death in the United States is cardiovascular in origin."

Medal Of Honor Winner To Enter School Shrine

George O'Brien Jr., of Midland, and formerly of Big Spring, will be inducted into the high school Hall of Fame at 2 p.m., Saturday.

He was awarded the Congressional Medal of Honor during the Korean Conflict. Through all of the wars, there have been only 65 winners of this highest medal in the state of Texas.

The entire Homecoming this year will be built around a patriotic theme. A plaque will be dedicated Saturday afternoon honoring all war dead who at one time attended Big Spring High School.

Their families are invited to be special guests. The three-day event kicks off Thursday night with a torchlight parade and includes a full parade Friday as well as patriotic assemblies at the high school Friday morning. Gene Currie will direct the stage band at these assemblies and present special patriotic music.

One of five senior girls, Laura Bickford, Chris Davis, Angela Hodnett, Janet Ivory, or Paige Little, will be crowned homecoming queen prior to the big game between the Big Spring Steers and the Permian Panthers.

At the half, the Big Spring High School band, directed by Bill Bradley, will present a special fireworks demonstration and fire

GEORGE O'BRIEN
during Korean conflict.

twirling act.

Class receptions will be held in various locations to be announced Thursday following the game. Other activities will continue on Saturday culminating with two big dances.

The student dance Saturday night will be at the high school cafeteria and the exes dance will be at the Fair Barn.

FIRES

Grass fire at 5th and Abrams, 9:26 p.m. Monday. Quickly extinguished.

Motorcycle fire at 1001 NW 1st at 7:04 p.m. Monday. Extinguished and out before arrival of the unit from the fire department.

Fire department extinguished a fire at the Chevron Station on Wasson Road and also a vehicle parked at the station which was on fire, 10:05 a.m. Monday.

Traffic Signs Pose Problems

A recent federal highway regulation forced traffic coordinators to change signs in school zones from "Stop" to "Stop When Occupied."

Several school officials have expressed concern about motorists failure to recognize the signs.

"We have had some close calls recently and do not think that anybody wants to strike down a child," one PTA spokesman said this morning.

Motorists are requested to slow down near schools on school days and watch for children, stopping when necessary.

Beta Omicron Receives Award

Beta Omicron chapter of Beta Sigma Phi of Big Spring received the outstanding chapter of the year designation in the form of an Achievement Award trophy at the West Texas area convention held Oct. 10-12 at the Inn of the Golden West in Odessa.

Mrs. Jean Denton, 1974-75 president of Beta Omicron, accepted the award during the Saturday afternoon assembly.

Other members present at the general assembly from Big Spring were Mrs. Jo Ogle, Mrs. Jeanne Ann Gafford, Mrs. Karen Frette, Mrs. Debra Wilson, Mrs. Mary Brooks and Mrs. Genie Carroll from Alpha Beta Omicron. Representing Alpha Kappa Omicron were Mrs. Lou LaRochelle, Mrs. Charla Huckabay, Mrs. De Tucker, Mrs. Donna Carlile

and Mrs. Debbie Larson. Members attending from Beta Omicron were Mrs. Ruth Penner, Mrs. Mary Adams, Mrs. Linda Witten, Mrs. Kathie Bartholomew, Mrs. Pat Radcliffe, Mrs. Lillie Curry and Ms. Kathy Crawford.

A varied slate of activities filled the three-day convention attended by more than 500 members and guests. Mrs. Vivian Argubright and Mrs. Susan Pettit from International Beta Sigma Phi headed the forums. Convention chairman Doris Russel presided at all the meetings and various events.

Fridays' activities included a theatre production at the Permian Playhouse, a western dance at Exhibit Hall A of the Ector Coliseum and a midnight breakfast.

An exhibition of yearbooks and scrapbooks of the area chapters highlighted the activities on Saturday. The Saturday forum was led by Mrs. Pettit, editor of "The Torch", the official Beta Sigma Phi magazine. She discussed proper presentation of materials for publication and appropriate photographs which could accompany stories of chapter activities.

During a noon luncheon at the Inn of the Golden West ballroom, Willie Hubbard, Odessa City councilman, read a proclamation honoring Beta Sigma Phi from Mayor Dan Hemphill.

A lingerie style show was presented by the Odessa Junior Service League. The evening fashions were provided by The Model Shop of Odessa.

Scrapbook and yearbook judgments were featured at a general assembly Saturday afternoon. In the scrapbook competition, the judges' first place award went to Gamma Beta of Odessa. The most popular scrapbook, as judged by members of the sorority, was by Eta Sigma of Odessa. Their scrapbook had won first place in state competition in San Antonio last June.

The yearbook first place award was won by Keta Delta of Lubbock. Sorority members judged Xi Alpha Epsilon's yearbook as the most popular. Xi Alpha Epsilon is located in Lubbock.

A formal dance was held for the members and their guests Saturday evening at the Ector County Coliseum Exhibit Hall A.

A Sunday morning devotional followed by a brunch at the Inn of the Golden West ended the convention activities.

Twelve Odessa chapters hosted this year's convention, assisted by chapters from Andrews. Del Rio has been tentatively slated as the convention site for next year's West Texas area convention.

La Gallina Announces Bridge Results

La Gallina Bridge Club held a Play Day on Friday at the Big Spring Country Club Friday with guests and members participating with 9½ tables in competition.

Winners for the bridge play were Mrs. Inez Malone and Mrs. Peggy Davis, first; Mrs. Vernon Kooser and Mrs. Mary Tokar, second; Mrs. Paul Meek and Mrs. George McAlister, third; Mrs. Kelley Lawrence and Mrs. L. B. Edwards, fourth; Mrs. Mavis Jones and Mrs. Alta Lee Underwood, fifth; Mrs. Lucy Odum and Mrs. Ann Griffin, sixth; and Mrs. Louise McAdams and Mrs. Martha Paul, seventh; and tied for eighth place, Mrs. Bernie Brown and Mrs. Sharon Simica and Mrs. Judy Snell and Mrs. Janelle Davis.

La Gallina will meet at 10 a.m. Friday at the Country Club.

HELPING EACH OTHER — Two women at the Women's Correctional Institution help a preschool child out of a play ball at the center's school. The women help the children in their learning, but they are also learning from the children how to take better care of their own families when they leave prison.

Inmates Staff Nursery School As Rehabilitation Experiment

PURDY, Wash. (AP) — The teachers at 4-year-old Raymond Cantwell's nursery school are convicts, and the classroom is behind locked prison doors.

Raymond is one of 12 youngsters, aged 3 to 5, in a preschool program that is part of an experimental prisoner rehabilitation project at the Women's Treatment Center, a minimum security prison in this community near Tacoma.

"Other people sort of give me weird looks when I tell them about the school, but it doesn't bother me." The program started last week. Two inmates serve as daily supervisors for the playing children, and a professional teacher, Bobbie Chapman, oversees their activities.

DEAR ABBY: Please help me settle an argument. A few nights ago, I was out with the same gal I always date. We're pretty close. She's very independent

about a lot of things, such as opening doors for herself and things like that. Well, I learned to live with that until the following incident occurred:

We stopped at a garage to have something fixed on my car, and because she's a pretty good-looking girl, the mechanic began flirting with her. To start with, this annoyed both of us. When his talk became offensive, I spoke up and straightened him out.

Potpourri Club Plans Party

The Potpourri Club met in the home of Mrs. Clyde E. Thomas Jr. on Monday, with Mrs. Ray Thomas serving as co-hostess.

Afterwards, my girl became upset with me, saying it was HER place to straighten the mechanic out if she thought he was out of line.

Club members and guests will be entertained with an "After the Game" party Friday in the home of Mr. and Mrs. Jimmy Ray Smith.

Granted, if she were alone, it would have been her place. But since she was with me, I thought it was MY place.

Cohostesses will be: Mrs. John Currie, Mrs. Garrison Walker and Mrs. John Coffee.

The club will again furnish cakes for the Big Spring State Hospital Christmas Party for patients.

Mrs. Polly Mays presented a slide review of "Early Homes of Big Spring and Howard County" which included exterior and interior views of twenty homes in this area built by early settlers in the community.

What do you think? CHIVALRY LIVES

Some of the homes shown have been destroyed, but many are still in use and Mrs. Mays showed versions of these homes as they are today. Her collection included a particularly interesting group of slides of the Potton home which will be restored by the City of Big Spring and will soon be open to the public for viewing.

In any case, now that you know she prefers to fight her own battles, either give her that privilege or find a less militantly independent girl.

The next meeting will be held in the home of Mrs. Tippy Anderson Jr. on Nov. 10.

Country Club To Sponsor Seafood Night

A Seafood Night will be sponsored by the Big Spring Country Club at 7:30 p.m. Saturday before Homecoming activities scheduled for that evening.

Fresh seafood will be flown in from the Gulf Coast for the dinner. A choice of shrimp, oysters and fish fillets will be offered for \$10 per couple for members and guests.

The host couples for the dinner are Mr. and Mrs. G. A. McAlister, Mr. and Mrs. Auriel LaFond and Mr. and Mrs. Sam Hunnicutt.

Event Planned For 40's Exes

The 40's exes will have a slate of activities planned for the Big Spring Homecoming this weekend, according to Mrs. Pat Simmons, decade chairman.

Immediately following the Steers football game Friday, a reception will be held at the Big Spring High School Cafeteria.

A noon luncheon will be held Saturday at La Posada, followed by an open house at BSHS, at 2 p.m.

A ceremony will be held during the open house to induct George O'Brien into the BSHS Hall of Fame. O'Brien is a Congressional Medal of Honor recipient.

Airport PTA Schedules Harvest Carnival Saturday

Parents, teachers and students will stroll from room to room this Saturday to participate in the various activities planned by each home room during the Harvest Carnival sponsored by the Airport Parent-Teacher Association.

A chili supper will begin at 6:30 p.m. with room activities, games and cake walks starting at 7 p.m.

Workers in different home rooms will compete for championship honors after tallying the receipts from the "goodie sales," door prizes and other fund-raising activities.

Recognition and prizes will be awarded to the winning class at 9:15 p.m.

In the past years, Airport PTA has succeeded in accomplishing many worthwhile projects through fund-raising efforts.

Through the efforts of PTA in 1970-71, Airport was one of the first schools to get a park-playground area.

Workers in different home rooms will compete for championship honors after tallying the receipts from the "goodie sales," door prizes and other fund-raising activities.

A chili supper will begin at 6:30 p.m. with room activities, games and cake walks starting at 7 p.m.

Try their noon lunch or fine evening meal.

New Car Reception Best In Two Years

DETROIT (AP) — Strong initial sales of 1976 cars helped the nation's auto makers launch the new-model year in October with their best performance for the first 10 days of a month in nearly two years. Deliveries of 243,642 cars during Oct. 1-10 were up 13 per cent from 216,110 last year, marking only the second time this year that sales have outpaced those of the same year-earlier period. The sales figures, released Tuesday, provide the most convincing evidence yet that the industry was pulling out of its longest and deepest slump since the Great Depression. The daily sales rate of 27,071 — there were nine

selling days in the span — was the highest for an early-month period since November 1973, when the energy crisis sent sales topping. Auto executives credited the industry's showing to strong initial sales of the higher-priced 1976 cars, the first positive consumer response to new-model introductions in three years. Meanwhile, Chrysler Corp., the last of the companies to put its 1976 cars on sale, debuted its 1976 lineup today, with formal introduction of most models slated for Thursday. Company officials predicted the industry, including imports, would sell 10 million cars and 2.8 million trucks in the model year. The forecast was in line with sales estimates by other auto makers.

CU Office Has Open House

Open house is being held today at the School Employees' Credit Union office until 5:30 p.m. Bill Schaffner, manager of the credit union, invited members and friends to visit them today at 1110 Benton. This is the 20th anniversary of the credit union in Big Spring. It has been at its present headquarters for about two years.

Chrysler, hardest hit by the industry's slump, is offering a new lineup of compact cars which the firm is counting on heavily to regain some of market share it has lost to the competition in the past year. The new Plymouth Volare and Dodge Aspen will not go on sale until early December. Chrysler was the only company to report a decline in the latest period, with sales off 14 per cent from last year and its traditional 15 per cent market share down to 9.7 per cent. Analysts attributed the decline to the firm's late introduction of 1976 models. GM sales were up 17 per cent in the period, partly due to strong sales of the new mini Chevette, the smallest U.S.-built car. GM said it sold 6,100 Chevettas in the first eight days after the car's introduction and has orders for another 14,300. Ford was up 16 per cent and AMC was up 25 per cent.

'NEVER KNOW WE'RE COMING' Use Plane To Check Air Over Factories

HOUSTON (AP) — The Harris County pollution control department has started using a radio-controlled model airplane to detect industrial polluters. Dr. Walter A. Quebedeaux, county pollution control director, said Tuesday the plane, about a year in development, is equipped with special air sampling equipment. He said it can fly almost unnoticed over a suspected industrial plant gathering pollution samples for laboratory analysis and, if necessary, can even fly directly through a smokesack plume. "They'll never know when we're coming and never know when we've been there until they wind up in court," said James D. Joseph. The plane was developed by Joseph, a chemist and

heavy metals analyst on Quebedeaux's staff, and John W. Eaton, operator of a Pasadena model shop. They said they believe theirs is the first model plane being used anywhere to check pollution from industrial plants. Joseph said the California highway department operates a model plane to check pollution over the freeways in Los Angeles "but they don't use it over industries because of the liability problem in case it crashes." Eaton said "We don't expect to have any crashes unless somebody jams our radio." They said the plane has a 69-inch wing span and a 1.25 horsepower engine, and it weighs 10 pounds, including two pounds of sampling equipment. It has a top air

speed of 70 to 80 miles per hour. It carries a specially built, battery-powered miniature vacuum pump which sucks a pollution sample through either a small millipore filter case or a tube inserted in the wings. "In a heavily industrialized area like the Houston Ship Channel," Joseph said, "the plane can not only pinpoint which plant a pollutant is coming from, but which stack it is coming from in that particular plant." Quebedeaux said he is convinced the plane can produce scientifically acceptable evidence for court convictions. He said that a recent international monitoring conference he attended in Las Vegas, Nev., a panel of legal experts agreed that "air pollution is in the public jurisdiction once it leaves a stack, and that is the best place to sample it."

Rate Increase Is Approved
SWEETWATER — City commissioners here have approved a rate increase for Lone Star Gas Co. The cost of gas to consumers will now be \$2.556 for the first 1,000 cubic feet and \$1.7376 for over 1,000 cubic feet. The increase becomes effective in 30 days. The commissioners also approved the first reading of a 6.4 per cent request by Texas Electric Service Company. A typical monthly residential bill of \$15 would increase by 96 cents a month.

Taylor, Burton Rewed In Africa

JOHANNESBURG, South Africa (AP) — Elizabeth Taylor and Richard Burton were remarried last Friday afternoon at Kasane, in northern Botswana, in the district commissioner's office in Chobe, Botswana, reported today. The office said the actor and actress were married by District Commissioner Ambrose Masalila and that the marriage was officially registered in his office. The office said Burton registered as Richard Walter Burton and Miss

Taylor as Elizabeth Rosamund Taylor. Miss Taylor, 43, and Burton, 49, were reconciled in Switzerland in August after 14 months of divorce. He is her fifth husband, she his second wife. They were married in 1964 after a romance that began when they were costarring in the movie "Cleopatra" in Rome. They went to Botswana, north of South Africa, on Oct. 6 after a visit to Johannesburg for a celebrity tennis tournament for charity.

Waco Grants TP&L 9.6 Pct. Rate Hike

WACO, Tex. (AP) — The Waco City Council will vote next week on a method for implementing a 9.6 per cent rate electric increase approved for Texas Power & Light Co. The council approved the rate hike Tuesday after a

more than four-hour meeting attended by about 170 persons. Many of those attending were from other cities and towns where TP&L is seeking similar rate hikes. Councilman J. Leigh Brooks, who introduced the motion for the rate hike, said the 9.6 per cent increase was a compromise between the 10.6 per cent hike sought by TP&L and an 8.2 per cent increase recommended by the Dallas consulting firm of Touche Ross and Co. Waco City Manager David Smith said five sample schedules for implementing the higher rates have been turned over to the city. He said a Touche Ross consultant will study these and report back to the council. Smith said the council will vote next week on which rate structure will be authorized for Waco, the biggest city in the TP&L system. The rate structures are of various types and apply in different amounts to residential, commercial and industrial users. The council, at the same time it approved the rate hike, also accepted without change three other recommendations from the consulting firm. They were: —To adopt a forecasted fuel-adjustment charge which will allow TP&L to base the fuel charge on what it predicts fuel costs will be in the coming month rather than what it was in the past month. —To maintain the current tax adjustment clause which allowed TP&L to pass through any new increased taxes other than and valorem or income taxes. —And, to eliminate the current all-commodities clause which allows a pass through of variations from the wholesale prices compiled by the U.S. Department of Labor. This clause was never used by TP&L but the Touche Ross recommendation was that it was inappropriate.

ABC's Morning Show Revamped

By JAY SHARBUTT
AP Television Writer

NEW YORK (AP) — Last Jan. 6, ABC started "AM America," a two-hour morning show it described as in the "information-entertainment" bag and as an "alternative" to NBC's "Today" show and the CBS "Morning News."

On Nov. 3, "AM America," a consistent third in the dawn ratings races, is being replaced by yet another "alternative" in the "information-entertainment" vein. The new show is called "Good Morning, America."

It will have a new host, new contributors, a new executive producer, a new staff, a new stage set and even a new theme song composed by Oscar-winning tunesmith Marvin Hamlisch.

Rumors of the Big Change have been rife for weeks, but the only real surprise in ABC's announcement of it Tuesday was ABC's choice of actor David Hartman, 40, as host of the new show.

Advance speculation, which had named everyone but Judge Crater as the new host, generally missed Hartman, who starred in "The Bold Ones" series and last year played a schoolteacher in NBC's "Lucas Tanner."

ABC newsman Bill Beutel, who anchored "AM America" from the start, is out of the new venture and will return to reporting for ABC.

ABC said it still is considering replacements for newsman Peter Jennings, who anchored the half-hourly news segments of "AM America" and is going back to field reporting at his own request.

Network officials who described the new show as "people-oriented" (they also called the old show that) say they don't know yet if "Good Morning, America" will have a female cohost eventually.

The old show had one, Stephanie Edwards, but she quit last May to resume her acting career. Various guest

cohosts replaced her. In addition to two holdover contributors — columnist Jack Anderson and former New York mayor John Lindsay — four new contributors will regularly appear on "Good Morning, America" on tape and film.

One may set "serious" critics to harrumphing. He's comedian Jonathan Winters, who'll appear thrice a week as a critic of movies, television shows and whatever else strikes his fancy, ABC says.

Other newcomers are roving reporter Geraldo Rivera, whom ABC says will try to find the human side of the big story; Hollywood watcher Rona Barrett, and syndicated columnist Erma Bombeck.

As with "AM America," ABC officials say the new show will try to be light in tone, avoid "an alarmist approach" and emphasize light and serious features as well as reports of interest to consumers.

Even though the new show will continue to originate from New York and its news segments from Washington, ABC said more effort will go into getting feature stories from ABC affiliates across the nation.

Before "AM America" began, executives in charge of that show said it cost \$5 million a year and that ABC was willing to support it at that level for up to three years, even if it didn't turn a profit.

However, Edward Vane, an ABC Entertainment vice-president, declined to say Tuesday if this still held true. He only would say ABC is making a "long-term" commitment to the new show and that network executives feel "it is going to be successful and continue for years and years."

Located at 308 NW 3rd and operated by David Gomez, Carlos' has a reputation for their delicious Mexican food as well as choice steaks and other foods for your selection, served with your favorite beverages.

Good Diet Is No Answer

Heavy drinkers should be aware that even good diet is no answer to alcoholism, according to a Veterans

Administration report appearing in the September 8 issue of the Journal of the American Medical Association.

Good nutrition will not prevent alcoholics from developing liver damage unless they cut down their alcohol consumption, said Dr. Charles S. Lieber, Chief of the Section of Liver Disease and Nutrition at the Bronx, N.Y., VA Hospital and Professor of Medicine at Mt. Sinai School of Medicine.

"Traditionally, the disorders affecting the liver in alcoholics have been attributed exclusively to nutritional deficiencies accompanying alcoholism,"

Dr. Lieber said, "but recent studies indicate that in addition to dietary deficiencies alcohol itself is a factor in producing alcoholic liver disease."

Old Uniforms Being Sought

Anybody willing to donate old Scout uniforms, either for Cub Scouts or Boy Scouts, is being asked to contact Art

Hyman at 263-4176. These uniforms will be given to boys who cannot afford to purchase new uniforms. Not only uniforms are needed, but any Scouting item which can no longer be used is desired so that it can be passed along to some Pack of Troop or youngster in Scouting. This includes hats, belts, neckerchiefs, packs or any other camping items. Items will be picked up at the donor's convenience.

'FORM OF SOCIAL WORK' College Girls Beat Recession

BOSTON (AP) — Out of work and down on their luck, college-educated women here are riding out the recession atop bar counters as night club strippers.

"This happens to be a really relevant form of social work," says Pamela, 22, a 1975 Boston University graduate with a bachelor's degree in psychology. "It gives you an understanding of people in an unusual social context."

Pamela needed cash two months ago to pay off her college loan. She answered a newspaper ad for go-go girls, got the job and now wants to continue stripping to save money for graduate school.

Four months ago, Elaine, 26, stopped searching for a job where she could use her psychology degree from Indiana University. Tired of working as a waitress or sales clerk, she walked into the Two O'Clock Lounge, asked for a job and got it.

She works seven days a week and does not want to quit.

"The pay is excellent and you meet people ranging

from bank presidents to Harvard professors," she says. "I've gained a lot of sophistication."

Pauline, 20, a student of Oriental culture, said she needed money and asked for an audition at the Two O'Clock. "It's a good job," she says. "It's something you can always fall back on."

Debra Beckerman, publicist for the Combat Zone, Boston's adult entertainment district, says some 15 of 40 strippers have college educations. They earn between \$250 and \$1,000 per week, averaging six days or nights of work.

"It started in July when colleges got out," Miss Beckerman says. "The women have educations, but they can't get jobs. I thought it would change in the fall, but it hasn't."

She says many women find they like stripping more than they thought they would. "It changes their income from poverty city to the point where they have some cash in their back pockets," she says.

Club owners, according to Miss Beckerman, used to pick performers by rifling through piles of publicity photos. Now, young women with art, music and general liberal arts training walk in off the street.

(AP WIREPHOTO) STILL GRADED ON CURVES — College-educated strippers Pauline, left, and Pamela leave their place of employment in Boston's Combat Zone. Many of the Zone's strippers have college educations but were unable to find other jobs. They say the pay is excellent.

Same Constitution, But Different Interpretations

AUSTIN (AP) — It's the same proposed constitution, but the "fiscal implications," seen by the Legislative Budget Board are considerably different from—and more favorable than—those predicted by

Comptroller Bob Bullock. Lt. Gov. Bill Hobby and Speaker Bill Clayton, chairman and vice-chairman of the board, strongly favor the new constitution.

Collection Fee Will Be \$1.50

Mayor Wade Choate and City Manager Harry Nagel this morning announced that the recommended fee for those who wish to keep alley garbage pickup will be an additional \$1.50 per month.

This will only be recommended in blocks where everybody in the block on both sides of the alley agrees to pay the extra charge. This was a follow-up to the announcement Tuesday that the city is recommending streetside pickup.

Nagel asked the public to drive out on South Highland and on Washington Blvd., which presently have curbside pickup, and see if they think these areas look bad.

by Bullock, the LBB's statement does not estimate the total net cost or savings that might result from the proposed new constitution.

Since these depend on future legislative or local government actions, "to try to get a bottom line total and say, 'This is the cost of the new constitution,' would be virtually meaningless," said Jim Oliver, the board's assistant director.

Where Bullock saw a \$20 million per year added burden on the state's general tax revenue from buying

"instructional materials" with the textbook fund, the LBB visualized a saving.

Bullock, on the other hand, stressed the fact that more bonds would mean more interest payments, and the general fund would get stuck for the difference.

Notices Read By Burglars

It's possible that somebody was reading the close-out sale notices at Cunningham Philips Drug Store.

On Tuesday morning, the manager discovered a burglary with \$250 worth of electric razors, \$150 worth of hair dryers, a movie camera, cosmetics and \$150 in cash reported missing.

In other thefts, two more CB radios were stolen Tuesday night. One was from a vehicle belonging to Marvin Standafer, Hall Bennett parking lot and the other was from Davis Wilson's vehicle at 107 Goliad.

Armed Youths Apprehended

The assistant principal at the high school called law officials when he discovered two 15-year-old youths and a 16-year-old youth in possession of a pistol on the school grounds.

The three youths were turned over to the county juvenile officer.

Ex-RR Employees Meet Thursday

Big Spring Unit Number 130, National Association of Retired and Veteran Railway Employees, will meet in Kentwood Adult Activity Center, located at 2805 Lynn Drive, at 7 p.m., Thursday.

Speaker at this meeting will be Billy Hendrix, administrator of Mountain View Lodge. He is a member of Texas Nursing Home Association.
