

Rocky Asks Help During Nations' 'Tough Times'

AUSTIN, Tex. (AP) — Vice President Nelson Rockefeller asked official spokesmen and the public from five Southwest states today to help pull the nation out of a "tough period."

"A healthy, growing economy is required if our nation is to prosper and if all Americans are to have the opportunity to achieve an improved standard of living on a basis of equality," the vice president told a one-day forum designed to give President Ford information on domestic issues.

"The President recognizes that decisions that affect the destiny of every American cannot be confined to the limited perspective of Washington, for Washington has no monopoly on ideas or wisdom," Rockefeller said.

"The President wants to tap the common sense, the wisdom, the practical experience and the imagination of the people of every part of this country," he added.

Texas Gov. Dolph Briscoe, first witness before the Rockefeller forum, said, "This part of the country is concerned to the point of alarm over the lack of progress in addressing the energy problem."

He said, "I believe the first element in a national energy policy must be the removal of price controls on oil and gas at the wellhead ... There is not a man or woman — in or out of

government—who is smart enough to make price controls work."

Briscoe added that he believed a "truly effective energy policy will be impossible to achieve until we all agree to divorce it from partisan politics. I believe the time has come to say that the energy issue will not be an issue in the 1976 campaign at any level—local, state, congressional or presidential."

On completion of Briscoe's testimony, Rockefeller remarked, concerning the bipartisan approach to the energy crisis, "I think the President of the United States agrees with every word you said. The problem is how to get going and do it."

Peter McDonald, chairman of the Navajo Nation, Window Rock, Ariz., said the main problem the Navajos find is federal bureaucracy. He cited figures to show that oil and gas reserves on Navajo lands could meet the energy requirements of Arizona and New Mexico for 15 years.

"We may have an energy crisis now, but if America had responded to Pearl Harbor the way we are responding to the energy crisis, we might all be speaking Japanese today," McDonald said.

During Rockefeller's opening remarks, a young man near the rear of the room held up a large paper sign reading "Remember

Attica." Rockefeller did not indicate that he had seen the sign, and it was lowered a few minutes later without disturbance.

In the afternoon session four separate sessions will be manned by Secretary of Interior Thomas Kleppe, Secretary of Transportation William T. Coleman Jr., Secretary of Health, Education and Welfare F. David

and Paul MacAvoy, a member of the President's Council on Economic Advisors.

Rockefeller, who last week took himself out of a 1976 race for re-nomination because of "political squabbling," arrived Monday night and immediately visited a "Women in Public Life" conference of more than 1,000 women at the University of Texas.

ROCKEFELLER PRESIDES AT FORUM ON DOMESTIC POLICY — Vice President Nelson Rockefeller called for help from five Southwest states to help the nation through "tough times" at the White House Forum on Domestic Policy in Austin, Texas today. He presided over the meeting.

BIG SPRING, TEXAS (79720) TUESDAY, NOVEMBER 11, 1975

\$3,937,000 For BOQ Restored In Measure

The \$3,937,000 appropriation for bachelor officer quarters at Webb AFB was restored to the military construction bill today.

The action came from a joint conference committee which is working out the version of the measure which will go back to the Senate and House. If the bill is affirmed, then it will go to President Ford for final action.

Sen. John Tower and Rep. Omar Burleson notified the Herald today that the BOQ outlay, which had been pared from the military construction bill Nov. 3 by a Senate appropriations subcommittee, had been approved by the conference committee. This was possible through the efforts of Rep. George Mahon, chairman of the House appropriations committee, Rep. Robert L. F. Sikes of Florida, and Sen. Tower, said Rep. Burleson, who coordinated efforts to restore the funds for Webb. Mahon, Sikes and Tower all were on the conference committee.

"I am delighted that the appropriation has been restored," said Sen. Tower. The current quarters are dilapidated and very expensive to maintain. They were built over 20 years ago and built with a life expectancy of only 10 years."

Rep. Burleson also was pleased with results.

Sen. Lloyd Bentsen of Texas also assisted in obtaining backing from AF officials to have the funds

restored.

Mayor Wade Choate arrived in Washington, D.C. Monday evening with data supporting need of the BOQ project, which had been shoved back for several

years.

Also included in the military construction bill is \$445,000 for a fuel maintenance dock at Webb, making the overall construction total \$4,382,000.

The World At-A-Glance

UNITED NATIONS, N.Y. (AP) — The U.N. General Assembly's adoption of a resolution declaring Zionism a form of racism and racial discrimination raised the threat today of U.S. financial retaliation against the United Nations and the supporters of the resolution. Sen. Henry Jackson, D-Wash., suggested withholding American aid from nations that voted for the resolution Monday. Rep. Morris Udall, D-Ariz., said the 72-35 vote may result in a "full reappraisal of the United States' participation and its role in funding the U.N."

LUANDA, Angola (AP) — Rival guerrilla armies threatened the capital of Angola today on its first day of independence following the withdrawal of Portugal from its last African colony. Ending five centuries of colonial rule, the last Portuguese troops sailed for Lisbon Monday night, leaving Luanda and central Angola under control of the Soviet-backed MPLA, the Popular Movement for the Liberation of Angola. Troops of the rival FNLA, or National Front, which is supported by China and Zaire, were reported 12 miles north of the city.

SAN FRANCISCO (AP) — Patricia Hearst, her thoughts still wrapped in silence, was ordered to stand trial Dec. 15 on bank robbery charges while her attorneys launched a fight for more time to cure the mental traumas they say she suffered while a captive of the Symbionese Liberation Army. Insisting that Miss Hearst is incompetent to stand trial — despite a judge's ruling to the contrary — attorney Albert Johnson prepared to summon psychiatric experts to tell of their secret proings of Miss Hearst's psyche. He also began drafting on Monday an appeal to a higher court on the question of how soon the law requires the Hearst trial to begin.

NEW YORK (AP) — Gov. Hugh Carey has stitched together a complex new proposal — involving new state and city taxes, and help from banks and the federal government — to keep New York City from default and stabilize the state's own shaky finances. New York City residents, who already have the highest sales taxes in the country, would be faced with a one-cent sales tax increase, to nine cents on the dollar. As state officials worked on the plan Monday, Deputy White House Press Secretary William Greener repeated President Ford's promise to veto what the President has termed a "bail-out" of New York City.

North Side Patrons Rap Possible School 'Moves'

By MARJ CARPENTER

A routine school board meeting Monday evening produced a room full of school patrons objecting to a possible decision by the school board in relation to three schools on the north side of town.

Parents objected strenuously to the possibility

of sending students from grades 1-6 to Bauer Elementary from Lakeview, or placing the Head Start program, currently housed at Kate Morrison, in the Lakeview building.

There were 51 persons present, and they filled all the available chairs in the small board meeting room and stood around the walls to voice their opinions.

There were about 10 fewer persons present than appeared last spring when a discussion of eventual closing of Boydston Elementary was heard. That meeting was held in a larger room and the crowd appeared to be smaller.

SOME MUST CLOSE

The school board said it is faced with the eventual responsibility of having to close two or three elementary buildings in order to keep the cost of the rising budget within resources.

The chairman, Sen. Frank Church, D-Idaho, also warned his colleagues that excessive criticism of the CIA could destroy its role as a counterbalance to the "frightening forecasts" sometimes made by the Pentagon in an effort to justify larger military budgets or new weapons systems.

"One must view with some alarm the prospect of a silenced CIA succumbing to an increasingly dominant military voice in calculating the foreign threat to our nation," Church said in remarks prepared for delivery on the Senate floor.

"However," Church added, "it is not only a matter of standing up to the Pentagon. We need a CIA that can resist all the partisan pressures which may be brought to bear by various groups inside the government — including partisan pressures from the White House itself."

Noting Bush's background as a former chairman of the Republican National Committee, Church asked, "If CIA assessments should collide with a favored course of action at the White House, would a dedicated party man like Mr. Bush be able to stand up to pressures from a Republican President in an election year?"

He asks: What Greater Honor?

Veterans Day was observed with ceremonies at the Big Spring Veterans Hospital beginning at 10:30 a.m. today.

Highlights of the affair included a presentation from the Big Spring Chamber of Commerce of a certificate commemorating 25 years of dedicated service from the hospital and an address by Colonel Robert F. Brodman, commander of the 78th Air Base Group at Webb Air Force Base.

Col. Brodman began his address by saying, "What greater honor could an individual have bestowed upon him than to be asked to address an audience of

A study was begun last year by a Staff and Facilities Utilization Committee of 35 persons representing all school campuses and the community.

Suggestions have run into opposition and the board may be left in the position of determining which to close.

Saul Marquez, chairman of the Head Start Parents Group, spoke first, listing reasons to maintain the status quo of the Head Start building. Putting one minority with another minority is wrong, he said, adding that Bauer is crowded already, that the Head Start children are too small to eat at Lakeview, that the parents have worked hard on the Head Start program. Parents do not want their children bused or crossing the Lamesa highway on foot, he asserted.

DEMAND RIGHTS

"We are the people, and we demand to be entitled to our rights," he declared. Roy Watkins, board president, told Marquez that "we have no intention of making a hasty decision. We placed this on the agenda tonight so that people could voice their opinion and we know better than anyone how much work the parents have put in at Head Start."

Don Crockett, assistant superintendent of business, told the group that the Kate Morrison School eventually will have to have major repairs if it continued to be used.

Nabar Martinez, who is director of the CETA program at City Hall, voiced an objection to Head Start children having to eat at Lakeview, saying that they would not be given enough time to eat. Another parent objected saying "For many children, that is the only good meal they get."

ALSO LEARN

Steve Morgan, elementary principal at Lakeview, told the group that "All children are allowed sufficient time to eat. Of course, we don't let them eat all day. We don't just come to school to eat."

"I don't understand what in the world where they are going to eat has to do with anything," said board member, Delnor Poss. "I am glad to see so many people

dedicated Americans, like yourselves, on Veterans Day in the year of our country's Bicentennial Anniversary?"

Col. Brodman then went on to give a brief summary of America's conflicts and the actions of brave veterans through our country's history.

Taps was played by John J. Shuler, a veteran of the Korean War, as benediction and any end to the ceremonies. Refreshments provided by the American Legion Auxiliary, Disabled American Veterans Auxiliary, Veterans of Foreign Wars Auxiliary and World War I Auxiliary, were then served.

NORTH WINDS

Northerly breezes pushing temperature down to the mid 30s tonight. High today in the mid 70s. High Wednesday, upper 50s. Mostly fair. Northwesterly wind 15-25 miles per hour this afternoon.

population who now have front yard pickup but have to pay an increase to help finance continued alley pickup," Mrs. Mays stated.

She added, "Nor is it fair to the persons on fixed incomes who really cannot afford the increase. We have no choice if we are going to try to improve the present system and continue to maintain expensive equipment for alley pickup."

Harold Hall, councilman, told the group at one point, "You ought to be up here thanking Harry Nagel, the city manager who has fought so hard to maintain an efficient operation of our city and has still kept the tax rate down. We are all against a tax increase, and will continue to be."

NOTHING FOR NOTHING

"We have to charge for services to pay for the cost of the services. The only services you get for nothing are those of the council."

Jack Watkins, speaking against a proposed garbage rate increase, pointed out that the sanitation department shows a balance which is used to subsidize departments without revenue.

Tompkins pointed out "If this is bad, it was bad when you were on the council and there was \$131,311 more coming in than was spent in comparison to \$129,000 now. That money was used to pay for other city services then and it is now. If it was bad, why didn't you stop it then?"

Watkins also spoke in opposition to pro-rating other expenses into the garbage department budget.

NOT REALLY FAIR

"This really is not fair to the 40 per cent of the

Supreme Court Opens Pecos River Probe

WASHINGTON (AP) — The Supreme Court today appointed a special master to consider a dispute between Texas and New Mexico over the waters of the Pecos River.

The court named U.S. Circuit Judge Jean Sala Breitenstein of Denver to take testimony on a complaint by Texas that New Mexico has violated the Pecos River Compact.

Texas Atty. Gen. John L. Hill asked the court in August to appoint a special master to take evidence and submit recommended findings.

City Manager Of Stanton Selected Martin Judge

STANTON — Jimmy Mathis, city manager of Stanton, was appointed the new Martin County judge by commissioners in their regular meeting Monday.

Mathis will assume duties immediately and will serve until the 1976 election. He can also run

for re-election if he files the first of the year.

Mathis replaces Judge Carroll Yater, who resigned, due to personal commitments.

Mathis tendered his resignation as city manager to the mayor pro-tem.

'FIGHTING WOODEN WINDMILLS'

Trash Costs Still 'Hot' Issue In Big Spring

Trash Costs Still 'Hot' Issue In Big Spring

plimented the city on deciding to keep alley pickup, but objected to the type of equipment being purchased. Mrs. Thelma Montgomery, Mrs. Marian Snelson and Mrs. J. C. Dunlap objected to the type of service of the present sanitation workers. They also objected to front yard pickup.

NOW THERE'RE ALLEYS

John Burgess, attorney representing the group who have wanted to keep trash pickup in the alleys, spoke last and told the group, "It seems to me that we suddenly woke up this morning and had alleys. If they needed maintaining now, they needed maintaining before this date."

Burgess outlined several other questions concerning the recommendations of expenses in the department and concluded his remarks with, "I have decided this morning that I don't want to be either a city councilman or a garbage collector."

Paul Shaffer told the council that "We the citizens elect you people to represent us and I challenge you to do what you think is best and ignore all of the hollering."

In other action, the city approved zoning board minutes and a requested change by Bill Guinn for lots on 4th Street in the Earle Addition to be changed to heavy commercial for construction of a warehouse type building.

They also accepted bids on street sweepers, but tabled awarding the bid until a new

LOOK AT BUDGET

Watkins then took up a discussion of the sanitation budget and items it included, citing reasons for his belief that the rate should not be raised.

The recommendation of the city administration in regard to the new plan includes purchase of two three-quarter ton trucks and two trailers to be used in areas close to the landfill and for backup during inclement weather when heavy trucks cannot get down the alleys.

The suggestion also includes moving a maintainer to the sanitation department with two workers and a driver assigned to keep the alleys maintained. It also recommended immediate maintaining of all alleys in the city to try to get them in better condition.

DON'T BE FUELISH

County officials hope it's an error in reporting mileage.

County Commissioner Jack Buchanan noted while reading a report Monday that one road department pickup was getting only 2.1 miles per gallon.

County Auditor Virginia Black today figured the new man driving the pickup must have failed to report all the miles he had driven the vehicle.

OUTSTANDING SERVICE — Col. Robert F. Brodman, base commander-Webb Air Force Base, Ken Perry, president of Big Spring Chamber of Commerce, Jack D. Powell, director of VA Hospital, and Marion B. Irland, commander District 19 World War Veterans, left to right, attended today's ceremonies at the Big Spring Veterans Hospital. At the affair, Perry presented the hospital with a certificate from the chamber commemorating 25 years of dedicated service to veterans throughout Texas and New Mexico.

11 NOV 11 1975

Candor Has Its Pitfalls

Texas is losing the services of one of its water experts at the end of the year, a development possibly hastened by candor.

Burleigh, director of the Texas Water Development Board, has submitted his resignation, saying that he and his wife have been wanting to travel while they can still enjoy it. This undoubtedly is true, but it is true also that Burleigh had been running into flak because in recent weeks he has been saying that the dream of major water import for water-scarce West Texas is no longer in the picture.

The reason, he said, was basically economic, and that means principally the cost of energy, to which could be added the cost of money. At the time the grand plan of a system of pumps and canals was conceived as a means of lifting surplus water from Louisiana (or other surplus areas) to the High Plains, fuel for producing energy was relatively cheap. Now, in some cases, this cost has tripled or even multiplied five times. Interest rates have about doubled.

If the idea was marginal at the outset, (and reality dictates that it was), then it is less feasible now because even increased agricultural prices have not nearly kept pace with cost factors. No matter if the

governor wants the importation study as part of his water plan, or that Water Development Board members should bridle at Burleigh's frank appraisal, the fact is that the proposal now is on the back burner

unless and until some cheaper and more abundant source of energy can be found. All of which makes weather modification studies assume increased stature in this area.

Premature Boasting

Chicago's boosters never tire of hailing their metropolis as "The City That Works." Contrast prosperous, orderly Chicago, they say, with New York City: While the Big Apple teeters on the brink of insolvency, the Windy City just keeps humming along.

None of this can be denied; however, it is well to remember that one reason Chicago runs like a well-oiled machine is that it is run by a well-oiled machine. The strength and reach of that machine were dramatically illustrated last month when it was learned that the Justice Department had inexplicably dropped a probe into the campaign finances of Mayor Richard Daley's party organization.

An investigator for the U.S. Senate, performing a routine check of an unsuccessful Congressional can-

didate's finances early in 1974, turned up the startling discovery that the Cook County Democratic Party was filing no federal or state reports indicating where its money comes from or how it is spent.

This was in direct violation of federal statutes which specify that any group collecting or spending over \$1,000 for a candidate must submit such reports. One might have thought that the Justice Department — particularly under a Republican administration — would be delighted to follow up on such a lead, but a funny thing happened: The department found it had pressing business elsewhere. Couldn't be bothered.

The people of Chicago, and of the country at large, need a Justice Department That Works.

Tougher Foes

Around The Rim

Tech 20-13.

I SOMETIMES have to take a little ribbing because I root for the Texas Tech Red Raiders, mainly because they "never play anybody".

Taking a glance at the Red Raider football schedule for the next couple of years, I notice that in addition to conference foes Texas, Arkansas and Texas A&M (not just anybody) the Raiders will play Big Eight power Colorado and the University of Southern California. Colorado joins the schedule as the Red Raiders' opener next season, while Tech travels to Los Angeles to play USC in 1978.

In addition to those teams, Tech continues its series with Arizona and New Mexico University (Western Athletic Conference). Houston is added to the conference schedule, and the conference schedule is juggled so that Tech doesn't have to play Texas in the third game of the season. It just has to play A&M the third game of the season. (Thanks a lot, J.T.)

Tech has played Colorado only once in its history, beating them 21-12 in 1962. Tech's only win in a 1-9 season that year. Tech has never played USC.

WHILE RUMMAGING further through the press-book, I noticed that Tech HAS played in the Cotton Bowl. In the third Cotton Bowl Classic in 1939. St. Mary's defeated

I also noticed that Oklahoma University was a member of the Southwest Conference from 1916 to 1919.

NEXT WEEK will wind up my coverage of area football teams, and the only new press box I will see since I rated them a couple of weeks ago is the Sands box, which would be alright if you didn't risk your life trying to get to it. It is a good 30 or 40 feet above ground and is accessible only by a narrow ladder with no guard rails. To make things worse, down near the bottom (where you would wind up if you fell) there is a sharp metal rod about a foot long sticking out. Otherwise the box is adequate except for the lack of glass in the front. This rating, on a one to ten scale, is four.

THE PONTIAC Lions vs. the Orchard Park Bills? That's what the NFL is coming to with a lot of teams opting for new stadiums in the suburbs.

So, don't be surprised if you see a headliner, Irving Cowboys vs. the Hoboken Giants, or the Littleton Broncos vs. the Pasadena Oilers, or the Pasadena Rams, or the Arlington Redskins or the Arlington Cowboys. It could go so far as Super Bowl XXI, the Tijuana Chargers vs. the Selma Sinats.

Schlesinger Sacking

Rowland Evans

WASHINGTON — The terminal disagreement over budget policy between Gerald R. Ford and James R. Schlesinger not only reflected underlying incompatibility but stripped bare some harsh realities about this President and his administration.

AS SECRETARY OF Defense, Schlesinger simply refused to rubber-stamp deep military spending cuts essential to President Ford's political package of tax and budget reductions. That he should place his highly-informed view of national security above Mr. Ford's political imperatives was intolerable to the President.

But that was only the last straw. Equally intolerable were Schlesinger's prickly insistence on dissent, his semi-public airings of disagreements, his lack of congressional cloakroom good-ole-boy conviviality, his refusal to be a team player.

When repeatedly asked at Monday night's press conference why he had summarily fired perhaps the nation's best-qualified and best-performing Secretary of Defense, Mr. Ford refused his reasons. This suggests that the Ford White House, which advertises openness and candor, closely resembles the Nixon White House in abhorring dissent and diversity.

SCHLESINGER'S RUMPLED appearance and superior professional tone displeased Mr. Ford even in his congressional days. But while the White House has been spreading the story that Schlesinger was doomed by poor congressional

relations, the truth is that probably nobody in the Ford administration stands higher with Congress. Schlesinger's problem was not getting along with Congress but getting along with Jerry Ford.

But Mr. Ford might have tolerated Schlesinger's uncongeniality had he kept his views to himself. That the Secretary of Defense should suggest the President's detente policy — as structured by Secretary of State Henry A. Kissinger — was less than perfect was no more tolerable to Mr. Ford than it would have been to Richard M. Nixon.

THE FINAL straw did not involve Schlesinger's serious objections to detente policy but, ironically, support for Gerald Ford's old congressional speciality: strong national preparedness.

Under constant attack from the Kremlin and American liberals for his insistence on adequate defense, Schlesinger was ill-prepared for the White House request that he slash \$7 billion in defense as part of the President's \$28 billion tax-budget reduction. Although this mirage-like package is an election-year gimmick which will never be enacted, Schlesinger feared voluntarily cutting back Pentagon spending would have long implications. So, he said, he would not do it.

SCHLESINGER was outraged that budget director James Lynn wanted \$7 billion cut from the defense budget for the next fiscal year below the level already set by Congress. So, Schlesinger asked for an appointment with the President last Saturday.

Comeback Trail

Art Buchwald

WASHINGTON — The New Nixon was sitting on the porch of La Casa Pacifica at San Clemente slumped in his chair staring out at the sea. The Old Nixon carrying a golf bag came out jauntily whistling "Hail to the Chief."

"Where are you going?" the New Nixon asked bitterly.

"I'M GOING to play golf with the Teamsters at La Costa," the Old Nixon said. "What a day."

"How can you play golf after what we've been through?" the New Nixon asked.

"Cheer up, Dicky boy," the Old Nixon said. "We're on the comeback trail. Look at this. We're on the cover of Newsweek magazine. Did you ever dream we'd ever make the cover of Newsweek again?"

The New Nixon shook his head. "I don't get it. You never give up, do you?"

The Old Nixon said, "You're damn right I never give up. They had me counted out after the presidential election in 1960. They said I couldn't get elected dogcatcher after I lost for governor in 1962. But I fooled them, Dicky, and I'm going to fool them again. They haven't heard the last of Richard Milhaus Nixon."

"I wouldn't believe it if I didn't see it with my own eyes," the New Nixon said.

"WAIT UNTIL our book comes out," the Old Nixon said. "Just wait until they hear our side of the story. There will be more than Teamsters wanting to play golf with me then."

"Richard," said the New Nixon, "do you really think we can make a comeback? Or are you just saying that to make me feel better?"

But we won't hate them for saying that.

"We won't?" the New Nixon said. "No," replied the Old Nixon, "but we'll keep their names on file cards and someday when we're back in power they're going to be sorry they ever made an issue of Watergate."

"What are we going to say about Watergate in our book?"

"IT WAS a mistake, and we should have taken more of an interest in what our staff was doing. They let us down. But we're not going to blame them. We're taking full responsibility for their actions, no matter how contemptible they were and no matter how much we disapproved of the illegal manner in which they carried out our orders. As President it was our job to see that they did not violate the trust we had given them, in spite of all the other things we had on our mind during that momentous period in American history."

"I think Peoria will buy it," the New Nixon said.

"It will just be a matter of time, Dicky, before we're on top again," the Old Nixon said. "We'll take a trip to China, then to the Soviet Union and then to the Middle East. They love us over there, not like the creeps in this country who always had it in for us."

The New Nixon was suddenly coming out of his lethargy.

"You know, you might just possibly swing it," he said. "Six months ago I wouldn't have given 18½ minutes of tape for our chances of making a comeback. But now with the book and the TV and the Teamsters I'm starting to feel like a new man."

The Old Nixon slapped him on the back. "Atta boy, Dicky. Don't forget what they tried to do to Patton."

"Richard," the New Nixon said, "do you think they'll invite us to the Republican National convention?"

"Invite us?" chuckled the Old Nixon. "Would you believe the keynote speaker?"

My Answer

Billy Graham

I am sixteen years old and in deep trouble. I have become pregnant through a relationship with an older married man. I know it would hurt his family deeply if they knew what happened. I have prayed and asked God what He wants me to do. Could you show me something in the Bible about the sin I have committed so I can find peace with God and with myself? M.R.

Yes, you have committed a sin — a grievous sin — which affects not only your life but the lives of many others as well. We never hurt only ourselves when we sin. But it is important for you to remember that God is merciful and still loves you, and with Him there is forgiveness.

Several of the greatest Psalms in the Old Testament (Psalm 32, Psalm 51) were written by King David after he had committed sin with another man's wife. Let David's prayer be yours: "Create in me a clean heart, O God; and renew a right spirit within me." (Psalm 51:10. God forgave David, and He can do this for you, because Jesus Christ took all your sins upon Himself and died in your place on the cross.

Regarding the future, I would advise you for the sake of yourself and all others involved that you prayerfully consider going to a home where your child can be born and placed for adoption. There must be hundreds of thousands of Christian families who deeply want a child, and would raise a child to love

Christ. I suggest you consult a Christian doctor or minister who can guide you to such a home.

It is important for you to begin now to walk closely with Christ, so you can resist temptation in the future and become a useful disciple of Him.

Family Can't Afford Home

John Cunniff

MIAMI BEACH, Fla. (AP) — The savings and loan people, who like to remind you how much they've done to finance the houses of America, feel they need some understanding and perhaps some aid.

They are deeply concerned, for example, that the typical American family no longer can afford to purchase the typical new single-family home. They are worried about the deep social implications of this.

More to the point, they are concerned about the decisions this thrusts upon them. Their business is lending money to finance home ownership, but their first responsibility is to protect their customers' savings.

Builders, however, seem unable to bring housing costs down. Attempts to do so have been frustrated by rising prices of land, labor and materials, and often by old-fashioned, restrictive building codes.

There's another complicating factor: the American dream of a single-

family home on its own green quarter-acre lives on. More than one financial institution was convinced it could change this aspiration, and failed.

That is, they tried to move young families into modern town house-style dwellings, but the young moderns interpreted modern to mean less.

They observed that town houses were connected, that they shared "party walls" and that above all, they were not distinctly separate houses on their own grassy plots.

The head of one savings and loan association relates how his company still owns a town house development in which it managed to reduce the price of a two-bedroom unit to about \$20,000. There was little demand. It now rents, instead.

"Young couples still want the old-fashioned, single-family unit on its own plot," said the frustrated president of the association, which is situated in the Pacific Northwest. "They want what mom and dad had," he said.

Pressure Part Of Test

Dr. G. C. Thosteson

Dear Dr. Thosteson: I have heard that a person going in for an eye test should have a blood pressure check first.

Although I've had several eye tests I was never given a preliminary blood pressure examination. Do you recommend this test, and if so, why? — R.J.

There are a lot of good reasons why the pressure should be tested, and usually by eye specialists.

From the 40s on, glaucoma, cataracts and vascular disorders of the eyes become more prevalent. It just makes sense to check the blood pressure in this age group, no matter what the reason for the examination is. There need be no direct relationship between hypertension and eye disorders, but the two problems can coexist.

There is a campaign on to detect hypertension early in routine examinations, since the condition can occur without any dramatic outward symptoms. Physicians in various specialty fields are being advised to conduct such tests routinely, and what you have heard may be a part of that campaign.

It is important, and I am in favor of it.

Dear Dr. Thosteson: I am a grandmother of 55, athletic, and in good health. Your column on gout recently alerted me to some symptoms I had. I went to a doctor, who found my uric acid level had jumped since my last physical six months before.

What made it jump? I am now taking allopurinol, but it makes my eyes dry. Can I take anything else? What does purine mean? What are the dangers without taking the medication? Is arthritis the same thing as gout? I am sending 25 cents to you in care of this newspaper for your booklet on gout, and am enclosing the long, stamped, self-addressed envelope for return mailing. — Mrs. J.B.

You are a wise grandmother for having periodic blood chemistry profiles. In your case this may have saved you much misery in the years ahead. Incidentally, it is not unusual for such a radical change in readings to occur over a six-month period.

The allopurinol interrupts the metabolism of purines (the culprit in gout), and it is the most commonly used drug. But there are others available that you may be able to tolerate.

Dangers without medication? More attacks and the risk of complications, such as kidney problems (stones), or crippling build-up of uric acid crystals in joints.

Gout is a form of arthritis, but unlike other forms it usually affects only one joint at a time. Die restriction doesn't play the role it once did in gout treatment. This was mainly to avoid purine-containing foods.

Your alertness in recognizing your symptoms and following through is gratifying to me personally.

Dear Dr. Thosteson: My 14-year-old son is beginning to mature physically. My question relates to "wet dreams." I realize that this is normal, but I wonder why the stain would be a dark yellow. It takes two washings, using bleach and detergent to remove one. Aren't these emissions supposed to be light colored? — Mrs. M.G.

Chemical changes in the fluid can produce a darker color. No cause for concern. And you are correct in saying that these nocturnal emissions are perfectly normal in the healthy, developing youngster.

Snake Oil

William F. Buckley, Jr.

Old Hubert Horatio is, they say, running for President again, and even with only 21 percent of the vote in the preference poll, is probably the leading contender. So once more we need to fasten our seat belts and anticipate a protracted period of turbulence as reasonable thought is buffeted by the senator's antique liberalism, the main characteristic of which is populist illogic. Like the other day, when he said: Not one cent of foreign aid to Zaire (the Congo) as long as no money is voted for New York City. What's wrong with that statement?

IT'S LIKE the one about, How come we voted aid to Lockheed? If you say: If we help A, why should we not help B, it is required by the laws of logic that A and B be generically identical, or at least similar; and that it be generally conceded that helping A was a good idea in the first place. I have previously divulged the difference between Lockheed and New York City, giving also the reasons why the Democrats who prevailed in the House of Representatives in the matter of Lockheed made a mistake in doing so. It is now required that we explain to Senator Humphrey the difference between aid to Zaire and aid to New York City:

1. The purpose of foreign aid is to help backward states victimized by the vicissitudes of history, or industrialized states laid waste by war, to effect modernization, usually through industrialization. New York escaped colonization 199 years ago, and has not yet been bombed.

2. A second purpose of foreign aid is to appeal to a people, or to a

government, for friendship, and for cooperation in matters of common concern. Broadly speaking, in the past generation, this has meant appealing to a country to side with us in resisting Communist exploitation and colonization. Zaire has behaved imperfectly in these matters, and indeed in its votes in the United Nations, most unsatisfactorily. But it has rejected Communist colonization, which is a contribution to the stability of the world and to the prospects for the Congolese people.

Parenthetically, Senator Humphrey is an old hand at threatening Zaire. Two years ago, he sent word through our ambassador to the United Nations that if Zaire cut off relations with Israel, Zaire would cut off by the Senate without a cent. Zaire went ahead anyway, and the Senate, blushing, went ahead with its aid anyway. New York City, although its record of friendship for the rest of America is spotty, is not yet in danger of being colonized by the Communists.

3. THE PURPOSE of giving aid is to help, not to hurt. One does not give alcohol to an alcoholic if one is seeking to help. It is the general conviction of those opposed to federal aid that New York City has got to work its way out of its own problems — cold turkey is the phrase being used.

Assuming that five billion dollars could be doctored from the air over our heads, it would still be open to question whether five billion dollars raised down upon New York City would hurt or help the city strategically.

Should Forget One Dollar Gas

CHICAGO (AP) — The chairman of the American Petroleum Institute says motorists should forget about reports gasoline prices will climb to \$1 a gallon.

Charles E. Spahr, who also is chairman of Standard Oil Co. (Ohio), says the \$1 speculation is irresponsible and without foundation.

Spahr said prices might increase two to three cents a gallon if crude oil prices are decontrolled but that competition will maintain reasonable and realistic levels.

Such controls are to end Saturday night unless Congress and President Ford agree upon an extension.

Spahr suggested Ford veto a conference bill now under consideration in that "it is far from objective. The bill would cause greater dependency on foreign oil supplies in that it fails to include any incentives to raise the capital needed for boosting domestic supplies," Spahr said.

Spahr spoke at Monday's concluding session of the annual meeting of oil's largest trade group. His report concluded two years as head of the group. He is to be succeeded by Maurice F.

Granville, chairman of Texaco Inc.

Spahr said competition among refiners and marketers has caused recent gasoline price reductions in Chicago and across the nation.

"You are seeing the effects of current excess refining capacity compared with demand," he said, adding that refiners and retailers are sacrificing prices while trying to sustain sales volumes.

"There is plenty of refining capacity and plenty of dispensing capacity under today's conditions," he said. "Those facts are the kind that lead to price competition that benefits the public."

He said prices, in the longer run, will have to increase as costs go up.

"But the industry has demonstrated that competition exists to such a degree the public is not going to be gouged by having to pay prices that represent undue margins for the seller," he said. "So I think you ought to forget about those reports of a dollar a gallon."

The energy bill Ford was asked to veto would roll back crude prices to an average of \$7.55 a barrel, compared with the current \$8.75 average.

Spahr said the bill would be disastrous to the industry and to the energy independence objectives of the Ford administration.

Frank N. Ikard, the Institute's president, said the bill would make it impossible to develop alternate or synthetic sources of energy.

COMFORTS HUSBAND AT PLANE CRASH — Phyllis Goetz of Glen Moore, Pa., keeps her husband, John, warm with a blanket after he was discovered Monday morning with his crashed single-engine airplane in a field near Coatesville, Pa. He was pilot of the plane that crashed Sunday night but was not found until Monday because of fog. His wife, not in the plane, went to the scene with rescue workers. Goetz was reported to have multiple injuries and cuts.

Sarah T. Hughes Addresses Forum

AUSTIN, Tex. (AP) — U.S. District Court Judge Sarah T. Hughes of Dallas addresses the "Women in Public Life" conference this morning at the Lyndon B. Johnson Library.

The three-day conference concludes today.

Monday, Rep. Barbara Jordan, D-Tex., told the conference women must think they are equal before men will accept them as equal.

"The problem is we fail to define ourselves in terms of whole human beings," she said. "Somewhere in the back of our minds is the thought that we really aren't quite equal."

"What are we going to do about it? How are we going to reverse the trend?" she asked. "It will take long, hard, tedious work, and we begin with ourselves."

"I'm delighted I could come to this conference, which is dedicated to the liberation of men," she said. Much liberation needs to be done in the nation's capital, she said, where men "are imprisoned by their 18th century thought patterns."

Despite recent advances, "women remain in the sub-basement" of most governmental agencies, she said.

"All women want is to 'make the government honest,'" she said. She recited phrases from the pledge of allegiance, stressing "with liberty and justice for all."

"All we want, when we place our hands over our hearts and repeat those words, is to know that they're true," she concluded to a standing ovation and stormy applause.

Two From Here Attend Parley

Drs. J. E. Hogan and William Allensworth were among the more than 500 registrants attending the 26th annual meeting of the American Group Practice Association at Honolulu's Sheraton Waikiki, Oct. 27-31. Founded in 1949, the American Group Practice Association (AGPA) is the national organization representing all forms of the group practice of medicine. Its 14,000 physicians and dentists account for more than 55 million patient visits a year.

Arizona Man 'Vanishes In A Ray Of Bluish Light'

HOLBROOK, Ariz. (AP) — The mother of a man who reportedly vanished "in a ray of bluish light" after chasing an unidentified flying object says her son was carried off in a spacecraft.

Mary Kellet said Monday night that further search for her son, Travis Walton, 22, would be futile.

Her views were given to reporters by another son, Duane.

Walton, who lived in nearby Snowflake, disappeared last Wednesday after leaving work with six other woodcutters in the Sitgreaves-Apache National Forest. His six companions

said Walton jumped from their truck when he saw a light overhead and followed it down the forest road.

Moments later, the men said, the light ray struck him and he vanished.

Navajo County Sheriff Marlin Gillespie said all six men told the same story. All were undergoing voluntary lie detector tests given by the State Department of Public Safety, and Gillespie said they should be completed today. But Gillespie said he doubted that the results would be made public "at least for now."

One woodcutter who took the test Monday said he was told "unofficially" that he passed it.

Gillespie said a ground search aided by a helicopter combed the forest but found no trace of the missing man.

Kenneth Peterson, 25, one of Walton's companions, said all the men were frightened by what they saw.

"It kind of lifted him up off the ground," said Peterson. "His arms were outstretched and he was knocked to the

ground." Peterson said he and the others sped away in fear, but returned 15 minutes later and found Walton and the hovering object gone.

Gillespie, who describes himself as an UFO skeptic, conceded there's a chance the story might be true.

"We have not been able to find anything to discount their story," he said.

The men all came voluntarily to Holbrook, in Northeast Arizona, to take the test.

at least for now."

Corley Is Sentenced To Die

WACO, Tex. (AP) — Convicted murderer Edward Eldon Corley, a 31-year-old Tyler construction worker, has been sentenced to die in the electric chair for the slaying of Vicki Lynn Morris.

A state district court jury here deliberated for one hour and 15 minutes Monday evening before deciding the sentence in the punishment phase of Corley's capital murder trial.

The same jury found Corley guilty last Friday in the kidnaping, rape and shotgun slaying of the 20-year-old Mrs. Morris, a Chapel Hill housewife.

Defense attorneys filed notice that the conviction will be appealed.

The prosecution called 10 witnesses to the stand in Monday's punishment phase, the defense only one.

Mrs. Morris was abducted from the Hebron Baptist Church near Tyler on Sept. 14, 1974. She was at the church practicing church music on the organ.

Her body was found later on a dirt road a few miles from the church. Authorities said she had been raped and shot twice in the head with a shotgun.

Corley also is charged in three other East Texas slayings.

22 Lines Warn Of Flash Floods HONOLULU (AP) — Can a telephone call outrace a surging, destructive flash flood? Yes. "Hawaii has recorded an average of five serious flash floods a year since 1965," says Edward M. Carlstead, meteorologist in charge of the National Weather Service's office here.

The Hawaiian Telephone Co. provides 22 special telephone lines to remote rain gauges in the island chain to gather detailed reports on rainfall for the Weather Service. Timely, accurate readings provide warnings of possible dangerous flash floods.

Evacuate Homes After Train Wreck

LAKE CHARLES, La. (AP) — About 1,000 persons returned to their homes today after being forced to evacuate by a three-car railroad derailment that included a tanker of poisonous chlorine gas.

"There is no gas leaking. Everything is secure," policeman Kevin Fournet said afterward. "We felt the evacuation was a necessary precaution in case something happened while the crews worked on the car," said.

But by midnight Monday, the tanker with the chlorine gas has been lifted back onto the tracks and moved out of the heavily populated residential area. No leak developed.

Workers expected to have the other two cars — an empty tanker and a loaded lumber carrier — returned to the tracks a short time later.

Officials said they believe a faulty track may have caused the derailment of the Kansas City Southern freight.

No injuries were reported.

KINDERGARTEN ROYALTY — Robbie Wilbanks (left) and Patsy Dominguez were crowned King and Queen of the Lakeview Kindergarten classes here the past weekend. Robbie is the son of Mr. and Mrs. Bob L. Wilbanks of 1206 Harding. Patsy is the daughter of Mr. and Mrs. Manuel Dominguez, 1501 W. Cherokee.

Your cost for electricity is below the national average. And the gap is widening. Today your electric bill is much lower than it would be in most other parts of the country. And while electricity costs are rising everywhere, your cost isn't rising as fast. That's because Texas Electric is doing everything possible to keep the price of electricity down. For one thing, we're using the supplies of low-cost natural gas we acquired many years ago for fuel. And as our cost for gas goes up, we're building power plants to use cheaper lignite and nuclear fuels. At Texas Electric, we're working to supply the electricity you need — at the lowest possible cost. TEXAS ELECTRIC SERVICE COMPANY T. R. LOCKE, Manager, Phone 267-4383

'Express' Wasn't Really Accurate

AUSTIN, Tex. (AP) — "Sugarland Express," a critically acclaimed film shown Saturday on NBC, is a good yarn but shouldn't be taken as an accurate account of the events on which it was based.

And the Texas Department of Public Safety is upset, to put it mildly, over the way in which it and its officers were portrayed in the movie.

Evidently a number of Texans took the film as a factual account of the kidnaping of a state trooper in 1969. Col. Wilson Speir, DPS director, said his agency had been "flooded with phone calls." The callers, he said, criticized the DPS for things that happened in the movie.

"It is my belief that NBC did law enforcement in general, and the DPS in particular, a serious disservice by broadcasting this film without noting before and after that it was fiction," Speir said in a statement.

The "Poplins" of the movie, shown by NBC stations Saturday night, were Robert Samuel Dent, 22, and his wife, Ila Faye, 21. They abducted Highway Patrolman J. Kenneth Crone on May 2, 1969, and used his car for a meandering six-hour, 300-mile drive through East Texas.

According to newspaper stories and DPS records, Capt. Jerry Miller of Beaumont—the "Capt. Tanner" of the movie—used patrol car radios to urge Dent to surrender.

Dent refused, but at one point said he would free Crone unharmed if given a 15-minute head start so he could visit his children at his father-in-law's house in Wheelock, near Bryan.

Officers were waiting in the father-in-law's house, into which Dent marched Crone with a shotgun at his back. As Crone passed a doorway, he saw someone, and ducked and rolled away.

Robertson County Sheriff E. T. Elliott and FBI Agent Bob Wiatt of Bryan opened fire. Elliott used a shotgun, and Wiatt used a pistol, the records show, and Dent was not wounded with a shot from a rifle with a telescopic sight from a distance of about 40 feet as depicted in the movie.

Dent died in a Bryan hospital shortly after he was shot; not behind the wheel in a continuation of the chase.

Records show the incident began when Dent fled from a Port Arthur police unit that had attempted to stop him for a traffic violation. Other officers joined the pursuit, but Dent's car was lost near Winnie.

Crone later answered a call from a ranch, saying two persons had been beaten by hitchhikers and needed help. When he arrived, Dent pulled a pistol and disarmed Crone.

Miller located the car after it passed through Beaumont. With Crone driving, Dent fired three shots at Miller, DPS records show.

The Dents and Crane, trailed by about 50 carloads of police and reporters wound through Beaumont, Houston, Dayton, Cleveland, Conroe, Navasota and Bryan before ending their flight in Wheelock.

A helicopter kept track of the fugitives' position and radioed ahead that Dent was going to his father-in-law's home.

Nothing in the record supports the film version that Dent had escaped from Huntsville State Prison with help from his wife, that the couple spent a night of the chase in a motor home on a used car lot, where they were attacked by rifle-toting civilians, or that their whole object was to remove their baby from a foster home.

A DPS spokesman said the film's makers once showed the script to agency officials, who said it was inaccurate. "They changed the script somewhat, but never came back," he said.

The DPS cars shown in the film were surplus clunkers that the producers of the movie obtained by bidding high when the vehicles were auctioned off, the spokesman said.

Miller is now a major and regional commander of the highway patrol at Houston.

Crone, 27 at the time of his abduction, remains on the force as a highway patrolman stationed at Winnie, near Beaumont.

Mrs. Dent was sent to prison Sept. 10, 1969, after being convicted on charges of forgery and armed robbery. She was paroled on Aug. 19, 1970, and was discharged from supervision on June 13, 1973, a spokesman for the State Board of Pardons and Paroles said.

News of Big Spring Business and Industry

NALLEY PICKLE for considerate service

When You Need Them, Call On Nalley-Pickle

When you need a funeral home, you need a service that will express compassion and concern as they efficiently take care of the necessary details. Such a funeral home is Nalley-Pickle Funeral Home in Big Spring. They offer service that comes through many years of experience. They also offer a chapel with the proper atmosphere, a parking area and other topnotch facilities. Their trained personnel are willing to help the family down to the last detail at the time of sorrow when concern can be so much help. They have a tradition in Big Spring of helping families when they are in need of their help and concern.

Nalley-Pickle is located at 906 Gregg and they are as close as your telephone. Call 267-6331 for their services. The Nalley-Pickle Rosewood Chapel is air conditioned in the summer and centrally heated in winter and is a serene spot for a funeral service, if desired. The many details which are necessary at a time of sorrow are often staggering to bereaved members of the family. But the staff at Nalley-Pickle can be a great comfort at that time as they efficiently handle each detail.

USDA Wants Packers To Make Nitrite Safe

WASHINGTON (AP) — The Agriculture Department today proposed to give the processors of bacon at least another year to solve the problems of formation of a compound in its product that causes cancer in animals.

At the same time, the department proposed a total ban on the use of both nitrate and nitrite in baby foods.

Metcalf Has Big Mission

NEW YORK (AP) — Ralph Metcalf, the old Olympic sprinter, is letting his cushioned seat get cold in the House of Representatives down in Washington, D.C., but he's making no apologies.

He feels he is on a more important mission. "The President called us together and said he wanted us to get our Olympic home in order for the 1976 Games," the Illinois congressman said Monday. "I think the job I am doing here is very important."

"After all, sports and life are the same. They involve respect for one another. They teach us to learn to accept defeat with dignity and victory with humility."

Bus Driver Is 'Captain'

FORT WORTH, Tex. (AP) — The school bus driver, as the "captain of the ship," should be given the primary responsibility for teaching children how to ride school buses safely, the president of the National Association for Pupil Transportation said here Monday.

The driver, not the school administrator, is the one who sees the children day in and day out, so he should be involved in their training as much as possible, said Robert A. Larsen, a school transportation director from Minneapolis, Minn.

Larsen spoke on "child control" during a workshop at the association's first conference at the Tarrant County Convention Center. "We tell our drivers to greet every kid as he gets on the bus," Larsen said.

He also added that for many children (from broken or troubled homes) the kindest words they receive in the morning may be from the bus driver.

"junior foods" for young children and meat ingredients processed with such substances. Officials said the baby food industry has been banning both substances voluntarily for some time.

While extending the time for final regulations on the level of the nitrite preservative allowed in bacon, the department did propose to reduce the level of nitrite from about 200 parts per million to an average of 125 parts per million and make mandatory the use of the current maximum permitted levels of ascorbates and erythorbate.

Government and industry scientists have found that bacon fried rapidly at 325 degrees contains nitrosamines, chemical compounds which have been found to cause cancer in laboratory animals in doses above a certain level.

Dr. Harry C. Mussman, associate administrator of the Animal and Plant Health Inspection Service, said that the levels of nitrosamines in bacon — which has not been positively linked to the nitrites — have been decreasing and are now in the range of 10 to 20 parts per billion, down from a range of 50 to 100 parts per billion found 18 months ago.

The problem that government and industry scientists will try to resolve in the next year, he said, is how to reduce the amount of nitrite used in processing bacon to a level where the nitrosamines are negligible, while at the same time having enough preservative in the bacon to prevent deadly botulism.

Abandon Hunt For 'Copter

NEW ORLEANS (AP) — Search operations have been suspended for a helicopter that crashed in the Gulf of Mexico Monday with nine men aboard.

The Petroleum Helicopters, Inc., chopper went down in a thunderstorm about 70 miles south of Intracoastal City as it was ferrying workers from a Tenneco oil rig to shore.

Searchers have picked up pieces of the helicopter fuselage and rotor blades, personal effects and work clothes of the passengers.

SERVICE CHIEFS — The chiefs of the many services offered at Big Spring VA Hospital are prepared to accept the challenges and meet the anticipated need for greatly extended and improved services in the hospital's next 25 years. Shown above, seated left to right, Ray Reed M.D., laboratory services, Richard H. Stagers, veterans benefits counselor, J. D. Henderson, veterans affairs commission, Jangayya Challapalli M.D., surgical services (filling vacancy created by retirement of H. J.

Zin M.D.), James R. Ford, personnel, Jack D. Powell, hospital director, H. C. Ernsting M.D., chief of staff, Joe H. Rountree M.D., outpatient services, Lisetta S. Brickman, dietetic services, Ralph Johnson, fiscal services, William W. Ayer, Jr., engineering services, standing left to right, Dene Sheppard, voluntary services, Peter Pegan, medical administration services, Donald Griffin, canteen services, Stanley Lagourney, building management services.

VA Hospital Is Averaging 309 Admissions Per Month

The Big Spring Veterans Hospital has been meeting the needs of veterans from Texas and New Mexico for over 25 years now. At this time the hospital serves veterans from 57 counties in Texas and two counties in New Mexico. The first patient was admitted Sept. 17, 1950 and, as of Oct. 31, 1975, 74,718 patients had been admitted to the hospital.

The 275-bed general medical and surgical facility was opened in 1950 and is presently operating 235 general medical and surgical beds, a 40-bed Nursing Home Care Unit, and a 10-bed Substance Abuse Unit. The main

hospital building is a vertical six story structure, located on a 31 acre reservation overlooking the city. The hospital is equipped with the most modern facilities and services to provide the best medical care to veterans.

During the current fiscal year, the hospital has averaged 309 admissions per month with an average of 186 hospitalized patients remaining per day.

Operating this modern medical facility are approximately 355 employees. This includes 18 full-time doctors, three full-time dentists, and 56 registered nurses. Also available are 39 consultants which include outstanding physicians in many of the medical specialties.

Cost per patient at this hospital is approximately \$70.09 per day, which includes salaries for all employees, food, room, x-rays, laboratory tests, transportation, utilities and ancillary care.

Civic, welfare, service and veteran organizations participate in providing excellent support to the hospital through the volunteer programs. At

present, there are 295 regularly scheduled volunteers on the rolls, rendering approximately 36,000 hours of service per year.

The VA Hospital has a significant economic impact on the community, as well as providing a vital service to veterans.

Total operating expenses for the facility for fiscal year

1975 came to \$6,350,679 of which \$4,880,372 is in payroll. Itemized costs are: new equipment, \$81,485, drugs, \$215,612, gas, water and electric, \$88,176, maintenance and repairs, \$91,579, and other operating costs, \$993,455.

The original plant cost was \$5,756,879 and the equipment was valued at \$99,648. But in the 25 years of the hospital's operation, improvements to the plant and equipment have boosted these figures to \$1,089,153 for medical, scientific, and operating equipment, and \$7,067,862 for land and building.

In addition, employees of the hospital take an active part in the community, doing their part as good citizens. Although many of them are local natives, others move here within the VA system and like it so well they stay and make their homes.

The Big Spring VA Hospital is now affiliated with the Texas Tech University School of Medicine, Lubbock. With the support of the community, the hospital will continue to serve veterans in Big Spring and throughout the state for years to come.

Enrollment Gains Nine

School enrollment gained nine last week to reach 6,485, only 20 under the comparable figure a year ago. This is the smallest margin of decline in years.

The increase was registered in the face of a loss of 10 students at senior high, which had 1,988 enrolled. During the week, junior highs offset this some so that secondary total of 3,114 was down only six.

Led by gains of four each at Marcy and Bauer, elementary totals reached 3,257, up 14. The hospital and homebound program had 114, up one.

Director Of VA Hospital Once Flier In Air Force

Jack D. Powell has been Director of the Big Spring Veterans Hospital since July, 1968, and has dedicated much of his life to the service of the veteran population.

Powell is a native Oklahoman and a graduate of the University of Oklahoma with a degree in Business Administration and graduate work in the University's Law School.

He entered the U.S. Air Force as a flying cadet in Oct. 1940, graduating as a lieutenant in 1941. He was stationed at several bases in the United States before becoming director of training for the 42nd Wing, 8th Air Force, in England until V-E Day.

Immediately after the war he served at Colorado Springs, Colo., with the 20th Air Force, retiring as a lieutenant colonel in August 1946.

JACK D. POWELL

He was manager of the Veterans Administration Regional Office in Houston

for 20 years, and took his hospital management training at the hospital there before going to the VA Center at Bonham. He remained at that assignment until moving to Big Spring in 1968.

He was awarded a Length of Service pin and certificate for 35 years of service in October 1975. He is a member of the Advisory Committee on Alcoholism for the Permian Basin, Steering and Advisory Board of the Detoxification Center, Big Spring, State Commission on Alcoholism, Clinical Pastoral Education Committee, Big Spring State Hospital, Human Assurance Committee, BSSH, Allied Health Advisory Committee, Howard College, Institutional Representative for Explorer Post, Boy Scouts of America, and Rotary International.

Army's Elite Old Guard Shields Tomb

ARLINGTON, Va. (AP) — The stiff-backed soldier in Arlington National Cemetery paces for perhaps the thousandth time past someone unknown he has vowed to protect.

He is a member of the Army's elite Old Guard, hand-picked to defend the Tomb of the Unknown Soldier on 24-hour watch.

Remembrances across the nation Tuesday will focus on the men the tomb represents, for Tuesday is the traditional Veterans Day which many states observe. Congress changed the date several years ago to the last Monday in October, but is returning to Nov. 11 in 1978.

Some four million persons visit the Tomb of the Unknown Soldier each year. Sgt. William Brown, 23, of Augusta, Ark., one of 21 tomb guards, said it takes a special kind of soldier to seek the duty.

Tomb sentinels are "the world's best in ceremonial performance and self-discipline," according to S. Sgt. W. D. Wade, who makes sure the guards' Army dress blues are wrinkle-free, shoes are shined, and weapons cleaned before allowing them to relieve fellow officers on the 63 foot walkway before the tomb. Only the best make it as tomb guards, he said, because the screening process is one of the toughest in the Army.

Before a soldier is assigned to tomb duty, Wade said, he must first complete two to six months' training at nearby Ft. Myer Old Guard headquarters. He must also endure an extensive interviewing process, two weeks of temporary duty at the tomb, a three month training period, written and performance tests, and a nine-month probationary period.

Tomb guards are on duty for 24 hours at a time with 48 hours off following the tour. They work in seven man shifts.

Brown said a lot of things go through a guard's mind as he paces back and forth, but he dare not daydream.

"You strain every muscle in your back and body as you step 21 paces south, left face, stand 21 seconds, left face, left shoulder arms, stand 21 seconds, 21 paces north, right face, stand 21 seconds, right face, right shoulder arms, stand 21 seconds, 21 paces south and so on," described Brown.

He said the "21" measure was chosen to symbolize the 21-gun salute.

Jobless Rate Declines

FORT WORTH, Tex. (AP) — The Texas Employment Commission reports a slight drop in the jobless rate in the Dallas-Fort Worth metropolitan area in September, to 5.6 per cent in August, but TEC said the change was not significant.

The slight drop "was believed to be seasonal and tied to reopening of area schools," TEC said in its monthly report. "Many students who failed to find summer jobs returned to classrooms."

The labor force was up only 2,800 at mid-September, to 1,182,800. Resident employment rose by 4,300 and there was an addition of 10,200 in wage and salary jobs reducing the number of idle workers to 66,600, TEC said.

The slight improvement in the unemployment rate, however "compared poorly" with 3.4 per cent rate of September, 1974, the commission said.

And TEC said the forecast for the next three months offers little evidence of marked improvement.

STRESS TEST — Ben Anderson, 4E, and Jo Ford, Supervisor for Pulmonary Care, show tread-mill equipment used for testing stress factors that may lead to heart disease.

Providing Specialized Care For Acutely Ill

The Intensive Care and Pulmonary Unit at the Big Spring VA Hospital is one of its newest and most modern. The facility, which was formed in June, 1973, provides comprehensive and specialized care for the acutely ill.

Any critically ill or seriously ill medical or surgical patient who would benefit from the nursing care in the Intensive Care Unit may be admitted or

transferred to the unit. The six bed facility is equipped and designed with all emergency equipment, supplies and drugs to enable the staff to render the most comprehensive care and treatment available to selected patients.

A continuous heart monitor provides the means of intensive respiratory care and prolonged mechanical breathing by machine. Equipment also provides means for the rapid detection and treatment of life threatening arrhythmias.

Graduate nurses and nursing assistants highly trained in medical, surgical and coronary care offer round-the-clock service in the unit.

Also, piped oxygen, suction and air are readily

Andrews Teen Dies In Jail

ANDREWS — Roy Sellers, 15, of Andrews was found dead in his Andrews County jail cell here Monday morning.

According to Peace Justice G.A. Ragsdale, the youth died of self-inflicted strangulation. He apparently tied his boot laces together to make a rope, attaching one end of the laces to a wall coat hanger before tying the other end around his neck. His feet never left the floor, however.

The Sellers youth was placed in custody Oct. 24, following an incident at an Andrews restaurant.

available for each of the six specially designed beds. In order to maintain the highest standards and keep up with the latest developments in intensive care, a continuous education program is carried on for the staff of the unit.

The Intensive Care and Pulmonary Unit at the Big Spring VA Hospital is just one of the many specialized, up-to-date services offered at the hospital.

Man's Best Friend, Dig?

BAKERSFIELD, Calif. (AP) — Trent Luttrell, Bakersfield printer, was plowing his yard when his billfold, containing his driver's license and other valuable papers, fell out of his back pocket and was buried in the dirt.

"I dug in the yard three or four days trying to find it, but never could," Luttrell said. "I thought I would never see it again."

"I hated the idea of having to go into Bakersfield to renew all the papers lost with the wallet. But just before I was ready to take off," Luttrell said, "my part Australian Shepherd went on a digging spree and of course you know what happened. He dug up the wallet. It was a little dirty, but otherwise in good shape."

PACKS A WALLOP — Greg Sorrentino takes a left to the jaw of his handler Carmen Basilio in New York, Monday. Sorrentino, who hails from Liverpool, N.Y., couldn't have a better teacher. Basilio is a former world welterweight and middleweight champion. Sorrentino will box in the all-heavyweight competition between the U.S. and the U.S.S.R. in New York's Madison Square Garden, Friday night.

Alert Chiefs Tip Pokes, 34 To 31

DALLAS (AP) — The Kansas City Chiefs may not be Super Bowl material, as their rookie coach Paul W. Wiggin claims, but they were All-National Football League recovering fumbles Monday night. Kansas City and Dallas fumbled 12 times in their nationally televised stumble. The Chiefs got back three of their mistakes and pocketed all five of Dallas' gifts, cashing three of them into touchdowns.

The result was a 34-31 victory over the Cowboys and crewcut Wiggin found it all a little difficult to believe. "We beat Dallas! ... God darn ... we beat Dallas! ... We beat Dallas! ... he kept repeating. Wiggin, acting at times almost like he had caught the winning touchdown pass himself instead of Ed Podolak, gushed, "I'm really excited about being part of this football team. This win probably is exciting as our win over Oakland."

Kansas City is now 4-4 and still alive in the American Conference Western Division, trailing Oakland by two games. Dallas, 5-3 for the year, sank a game behind Washington and St. Louis in the National Conference East.

Wiggin, who was handicapped by owner Lamar Hunt to succeed veteran Hank Stram, said earlier in the week that Kansas City wasn't Super Bowl material or "I wouldn't have been hired."

However, Podolak shouted above the din of the Kansas City dressing room, "I don't think we're rebuilding! ... we're contenders now."

Podolak scored touchdowns on runs of 1 and 11 yards in a 43-second span just before halftime and snared a five-yard scoring pass from Mike Livingston with 10:07 left to play for the game winner.

The lead changed hands like a National Basketball Association game with the ball caroming about on a perfectly dry night as though the players were soaked by a rain storm.

FINKS THINKS — Chicago Bears General Manager Jim Finks ponders a newsmen's question in Oct., 1975. Finks, who built the Minnesota Vikings machine before joining the Bears, won't set a timetable for the present team, or even rate the team.

OU Drops To Sixth In Poll

By The Associated Press. That Ohio State is still the No. 1 college football team in the nation isn't exactly a shocker. It's who's chasing the Buckeyes that makes the news.

It's not Oklahoma, that's for sure. Fate, hard luck, time ... call it what you wish ... finally caught up with the defending national champion Sooners last Saturday and dropped them from the runner-up role.

Now it's the Nebraska Cornhuskers who own second place. And what was a tight battle for first place in The Associated Press poll has become a comfortable cushion for Ohio State.

A week ago, Coach Woody Hayes' troops held a slender 49-point edge over Oklahoma in the balloting. Now, owing 49 of the 58 first-place votes cast by the nationwide panel of sports writers and broadcasters and a holding total of 1,138 points, the margin over Nebraska is a more secure 84 points.

OSU's 40-3 rout of Illinois helped — but more help came from Kansas' 23-3 upset of the Sooners. That dropped Oklahoma down from second to sixth place in the poll. And it enabled the Jayhawks to sneak into 17th place in the poll, the first time all season they've been in the Top Twenty.

Nebraska, which received eight first-place votes and 1,054 points, moved from third to second by virtue of its 12-0 whitewash of Kansas State. Texas A&M's Aggies, who received the other first-place vote, also moved up a notch to third with 875 points following a 36-3 romp over Southern Methodist.

Michigan's Wolverines, sixth a week ago, clawed their way into fourth by ripping Purdue 28-0 and, for their efforts, receiving 721 votes.

Five All-Pros Still Active

DALLAS (AP) — Most of them are well past their playing days, but few would argue that in their prime the 25 players of the Texas All-Pro football team would make a pretty good nucleus for a Super Bowl squad.

The team, made up of professional stars who once played college football in Texas, was chosen by fans in statewide balloting and was introduced at halftime of the Kansas City-Dallas game here Monday night.

Five of the players still are active. All of them, as well as current Cleveland Browns Coach and former Green Bay and Southern Methodist lineman Forrest Gregg, were present although their respective teams are in the middle of their seasons.

The five are offensive lineman Gene Upshaw of Oakland and Texas A&I, defensive lineman Joe Greene of Pittsburgh and North Texas State, linebacker Tommie Nobis of Atlanta and Texas and

defensive backs Bill Bradley of Philadelphia and Texas and Ken Houston of Prairie View and Washington.

The only Texas All-Pro player missing the festivities was defensive end Bill Glass of Baylor and Cleveland, who was preaching at a religious crusade in Hawaii.

For the active players, it was a chance to be honored alongside players who were their childhood heroes. For the old-timers, it was a chance to reminisce.

"You take O.J. Simpson and you take Bobby Layne," said former quarterback Layne, of Texas and Detroit. "You take them all and that man right there is the all-time greatest. He's got more class than any of them."

Many Bowl Spots Are Still Up For Grabs

By The Associated Press. Now that the National Collegiate Athletic Association has reinstated its restriction on bowl invitations, very few bids are likely to be handed out at the first opportunity anyway.

The respective bowl committees will fan out to college football games across the country Saturday. But instead of bearing invitations, in most cases they'll be traveling empty-handed.

However, one week later there may be a stampede to line up the best possible postseason attractions.

"It's very confused," one bowl spokesman told The Associated Press Monday. "The same teams are in the Orange, Cotton and Sugar Bowl pictures. And there are so many things to be decided."

Like the Big Eight championship between Nebraska and Oklahoma on Nov. 22, with the winner going to the Orange Bowl; the Southwest Conference race to determine whether Texas A&M, Texas or Arkansas will be the host team in the Cotton Bowl; and the Big Ten (Ohio State-Michigan) and Pacific-8 scrambles to decide which all-rans will be grabbed by someone other than the Rose Bowl.

Out in Pasadena, the Rose Bowl is sitting pretty. They don't have to scout anyone since they automatically get the Big Ten and Pac-8 champs.

The other bowls are considering the following teams: Orange: Big Eight champion (Nebraska or Oklahoma) vs. Alabama, Florida, Georgia, Michigan, Notre Dame, Ohio State, Penn State, Southern California, Texas, Texas A&M.

Stanton — Scott Church of Stanton qualified for National semi-final competition in the Punt, Pass and Kick competition by winning the ten-year-old division in Texas Stadium at Dallas Monday night.

Scott, a fifth-grade student in the Stanton Elementary School, reached the semifinals and won a trip to Washington a year ago.

The youngster is the son of Mr. and Mrs. Douglas Church. His father is a farmer and manager of the Farmer's Co-Op Gin in Stanton.

QUARTERBACK CORNER It's Last Time Around For 20 BSHS Seniors

By PASCIAL ODOM, QB Co-Captain. Let us all be in San Angelo Friday night to watch the Steers take San Angelo. This support will help to show them, in our opinion, they are still Number One.

The Quarterback Club has not had as much support as we would have liked but we have had a lot of fun. We would like to thank The Herald for letting us put these articles in the paper each week.

Let us continue supporting the BSHS sports program. The volleyball team ends its season in San Angelo tonight. Let's congratulate the girls for their fantastic 17-2 season, with one game remaining. Basketball starts soon and the spring sports are just around the corner. See you at the Quarterback Club meeting tonight and anywhere the Steers are playing.

The saying, "It does not matter if you win or lose, only how you play the game," should still be valid. This saying helps little when so much emphasis is placed on winning.

The game of football should be for character building and not just for the final score.

The seniors will be playing extra hard to have a good win to remember their final game and to reminisce for years to come. The juniors and sophomores will be putting out something extra to have a win when they practice and start their 1976 season.

Others chosen for the squad are receivers Raymond Berry and Kyle Rote of SMU and Del Shofner of Baylor; offensive linemen Jim Ray Smith of Baylor and Harley Sewell of Texas; running backs Doak Walker of SMU and John Crow of Texas A&M; defensive linemen Bud McFadin of Texas and Charlie Krueger of Texas A&M; linebackers Bill Forester of SMU, E.J. Holub of Texas Tech and Jack Pardee of Texas A&M; and defensive backs Yale Lary of Texas A&M and Bobby Dillon of Texas.

Bass Club To Meet On Friday

The Big Spring Bass Club will have its November meeting Friday at 7:30 p.m., in the Flame Room of the Pioneer Natural Gas Company building.

Guest speaker will be J. L. McBride, professional representative of the Garcia Company and Fenwick Company. McBride holds the Texas record for the five biggest bass caught in one day.

With the growing interest in bass fishing, both for pleasure and competitive fishing, the officers of the BSBC are extending an invitation to the public to attend this meeting. Any person wishing to become a member or seeking information can contact Ken Sprinkle at 267-7195, Charles Burdette at 263-2079, Vic Keyes at 263-3543 or Johnny Ward at 263-3334.

Results in the Brady Bass Tournament: Husband and Wife Division — 1. Bill and Joyce Grigg; 2. Jackie and Luan Touchstone; 3. Jerry and Johnny Lou Avery.

Individual Division — 1. Johnny Palmer; 2. Jackie Touchstone; 3. Wayne Henry.

Biggest Bass for the month of October was reeled in by Ken Sprinkle. It weighed 6 pounds 7 ounces.

Members of the Big Spring Bass Club have been doing well in area invitational tournaments. Placing in the Concho Tournament were Vic Keyes, Johnny Ward and Macey Ware.

Larry Layman and Ward also placed in the Sweetwater Invitational.

The November Tournament will be a one-day event at Lake Colorado City Nov. 22 Saturday only. Competitive hours will be from 6:30 a.m. until 6 p.m.

Prizes will consist of: First place — A Coleman Catatytic Heater; 2. Super 2-Beam spotlight; 3. Safari Fluorescent lamp; 4. Playmate cooler; 5. Spinner box.

Special rules for this tournament will be announced at the Friday meeting.

Dawson, Smyer Vie Thursday

WELCH — Dawson and Smyer clash here at 7 p.m., Thursday to determine the District 1-B eight-man football championship.

Dawson, undefeated this year, won the South Zone title while Smyer, with seven victories in nine starts, captured the North Zone crown.

Winner of the game will oppose Follett, the 2-B king, in bi-district competition.

Elect Nelson President Of Big Spring Chamber

J. D. Nelson was formally elected president of the Big Spring Chamber of Commerce, along with five new directors who will serve a

J. D. NELSON

Replacing Ken Perry

J. D. Nelson, president of Security State Bank, Big Spring, was formally elected president of the Big Spring Chamber of Commerce for 1976 by the chamber board of directors at their meeting Monday. He will become active president, replacing Ken Perry, effective Jan. 1, 1976.

Prior to moving to Big Spring, Nelson was president of the Stonewall Bank, Corpus Christi, for approximately six years. He moved from Corpus Christi to Fort Worth as president of Tarrant State Bank before joining Security State Bank here.

He has been active in civic activities as past president of the United Way, and past president of the Big Spring Country Club, as well as a member of the Chamber of Commerce, Kiwanis, YMCA, and Boy Scouts of America.

His wife, Pauline, and two children, Sandra, 14, and Scott, 10, reside at 704 Belvedere.

three year term starting Jan. 1, at a meeting of the chamber board of directors, noon, Monday.

Those named by the nominating committee, and approved by the board as new directors were Al Stephens, Gibson's Discount, Temple Kern, Furr's Cafeterias, Andy Swartz, Swartz Inc., John Arrick, State National Bank, and Ray Don Williams, Big Spring Savings.

The board also accepted the resignation of Ron Mercer, chief executive officer of Big Spring Industrial Growth and Development and executive vice president of the chamber. Ken Perry, chamber president, extended thanks and warm wishes to Mercer for his service to the community. Mercer's resignation will become effective Nov. 30.

Darley Hohertz reported at the meeting that goals have been finalized in the "Goals For Progress" program, sponsored by the Community Development Council. There will be a town meeting Nov. 20, 7:30 p.m., at Howard College Auditorium, to discuss the goals with the community.

Also at the meeting, Terry Hanson, director of the chamber, outlined plans for the "Shop Big Spring First" promotional drive, sponsored by the chamber's Retail Committee. As part of the program, local ladies' clubs will be asked to select an employee of the week to be endorsed by the chamber board. The winning employee will receive a \$25 cash prize. The program is expected to run for approximately eight weeks starting within the next week.

In the Industrial Report from Roger Brown, board members learned that Big Spring is leading the pack among towns of its size in the "Texas First Program" sponsored by the governor's office in Austin. "We have come up with at least 80 jobs in Big Spring, and are expecting four certificates of commendation from the Texas Industrial Commission," said Brown.

Rap School Moves

(Continued from Page 1)

here and we are glad to have your opinions. This is the only way we can determine what you think. The board has not yet made a decision.

Several mothers voiced strong objections to "busing our kids." "Bus those kids on the other side of town," one mother said. "If my children have to walk across that Lamesa highway, I'll just keep them at home."

Jose Banks voiced a strong objection to what he thought was going to be a "closing of the Lakeview schools." The school is not to be closed but possibly may be utilized for the Head Start program and the kindergarten unit now presently set up at the school, he was told.

EYE COSTS

Tony Ortiz asked if the board planned to expand Bauer for more children. Dr. Emmett McKenzie, school superintendent, said that plans are to move present portable buildings. The question was raised if the money used to move buildings could not be used to keep Kate Morrison open. The same question of cost of busing was also brought up. "Would there be some way to move the Head Start program to Bauer if it must be moved and leave the Lakeview school alone?" asked Mrs. Venita Jackson.

One parent asked "why can't you bus kids from Cedar Crest over to the north side and close that school." Another asked "why couldn't children from the other side of town be bused over there instead of us having to be moved around?"

One parent brought up the HEW injunction and asked if anything should be moved while we are under injunction." One asked that taxes be raised to keep Kate Morrison open.

CHANGED VIEWS

Nabar Martinez interjected a second comment on the unsuitability of

Says Snowcroft Should Resign

WASHINGTON (AP) — The White House has advised Lt. Gen. Brent Snowcroft he should resign from the Air Force before becoming President Ford's special assistant for national security affairs.

William J. Greener Jr., a deputy White House press secretary, said Monday that Snowcroft had not been directed to resign.

Greener said Snowcroft already has made plans to retire from the military.

Lakeview for the Head Start program.

Dr. McKenzie, at this point, said, "Mr. Martinez, you came to the board last year and asked us if the Kate Morrison could be used for a Day Care Center when the Head Start program moved here. We labored under the impression that this is what you wanted. I want to apologize for not knowing that the feelings of the Head Start Parents had changed."

Frank Martinez asked the board if it would take under consideration the feelings of the parents represented.

The board reiterated to consider all information when it makes its final decision on the matter. Persons attending the meeting were thanked by the board for attending the meeting.

NEED ASKS

The board asked for more information on the number of students involved, the number of students now being bused to those schools and other facts before reaching a decision.

In other business, the board heard the audit by George Thorburn and employed him as auditor again for the next school year.

Among the facts he pointed out was that the excess of revenue over expenditures was down \$42,000 from the previous year. Thorburn also discussed tax collection which is between 97 and 99 per cent.

The board also adopted a policy statement of the Texas Family Code which outlines that it is now a misdemeanor in Texas to fail to report a case of known child abuse.

The board announced its support for reporting suspected cases of child abuse and neglect by school employees to the county juvenile officer or any local or state law enforcement agency.

Board members granted permission to purchase two additional classroom television receivers. They tabled a request from College Heights PTA for window-type air conditioning, but agreed to study the possibility of installing duct work air conditioning in that building.

Board members present included Jim Bill Little, Jerry Jenkins, Al Valdes, Tom Fetters, Watkins and Poss with Don Reynolds unable to attend.

Administrators present included Lynn Hise, Harold Bentley, Don Green, Keith Swin, Steve Morgan, Harlan Huibregtse, Dr. McKenzie and Crockett.

In other business, board members:

— Were introduced to the new Big Spring Student Involvement Council members who were elected as voting members of the board, John Allensworth and Karla Small.

— Learned that the chamber will present a certificate of recognition to the Big Spring Veterans Administration Hospital today, for 25 years of community service.

— Heard that the Century Club still has 10 vacancies. — Received an optimistic report from the chamber agricultural committee about excellent cotton production and prices this year. The committee reported an estimate of 70,000 bales of cotton for this year.

Trash

(Cont. from Page 1)

type vacuum sweeper could be seen in a demonstration Wednesday.

City Days approved the resignation of Haley Hanes from the plumbing ordinance appeals board with regret. The council expressed appreciation for his years of service. They appointed Roy Hester, upon the recommendation of Mayor Wade Choate, to serve in his place.

The council approved the parks and recreation minutes with the exception of the final item which included a discussion of several possible needs. These three included a discussion of paving the golf cart trails, the possibility of building steps at one of the tee boxes and the possibility of raising the rates at the tennis center. These were not approved.

NEED SIGNS — They also approved the minutes of the tourism council who were discussing the need for signs on highways advertising Big Spring.

The council approved advertising for bids for the Roy Anderson Baseball complex with bids to be opened at 10 a.m. Dec. 2 and awarded at the regular council meeting Dec. 9.

The council approved allowing a permanent payment of 40 per cent of the value of the cemetery lot for perpetual care of lots at Mt. Olive Memorial Park.

They also approved a holiday for city employees on Friday after Christmas at the recommendation of the city manager. The manager stated, however, that there would be garbage pickup the day after Christmas with the crews to receive overtime payment who work that day. Police and fire personnel working that day will also receive overtime.

The council went into closed executive session for a personnel discussion.

Astronaut Will Peddle Coors Beer

GOLDEN, Colo. (AP) — Former astronaut Alan B. Shepard and major league baseball figures Bob and Ken Aspromonte are among 14 persons awarded seven new Coors Beer distributorships in southeastern Texas, the company has announced.

Coors markets beer in 11 western states and last August began an expansion in the Houston and Beaumont area. The company said it plans to establish 29 new distributorships there by next June.

Shepard, 51, a retired rear admiral in the Navy, was the first American in space, aboard Freedom 7 in 1961. He was commander of Apollo 14 in 1971 and became the fifth man to walk on the moon.

The Aspromonte brothers' professional baseball experience totaled 34 years. They are obtaining a Coors distributorship with Houston businessman Richard W. Krajciek.

Ken Aspromonte, 44, ended his major league playing career with the Houston Astros, but most recently he was manager of the Cleveland Indians.

His younger brother Bob, 37, retired from the Astros in 1971 after 14 years in baseball and organized a real estate firm in Houston.

Burt Placed On Probation

Virgil Dillard Burt, 56, Hamlin, pleaded guilty in 118th District Court Monday afternoon to second-offense driving while intoxicated. He was placed on five years of probation.

LOST IN STORM — Coast Guard officials said Tuesday that lifejackets and floating debris have been found near the last reported position of the Great Lakes freighter Edmund Fitzgerald which disappeared in a storm on Lake Superior Monday night. The Fitzgerald, with a crew of 28 to 30 men, was carrying a load of 26,216 tons of taconite pellets.

Ore Carrier Lost, 29 Feared Dead

SAULT STE. MARIE, Mich. (AP) — An oil slick, two empty lifeboats and debris were spotted today on Lake Superior near where the ore carrier Edmund Fitzgerald was believed sunk in a storm with 29 crewmen aboard, the Coast Guard said.

A flare was seen about 1 a.m. some 16 miles northeast of the last known location of the Fitzgerald, according to Coast Guard officials here.

However, the flare could have been dropped by searching aircraft planes to illuminate the area, sources said.

Conditions in the lake remained rough today, with winds reported up to 30 m.p.h. and waves to 15 feet.

The Anderson heard the Fitzgerald radio she was taking on water Monday night and followed the Fitzgerald for about 10 miles, keeping the vessel in sight, Coast Guard officials said.

The Anderson, a U.S. Steel vessel, also tracked the Fitzgerald on its radar scope, the Coast Guard said.

No distress call was reported from the Fitzgerald. It told the Anderson it was not in danger as its pumps were working, officials said.

The Fitzgerald is owned and operated by the Oglebay-Norton Co. of Cleveland, Ohio. The ship was chartered by Northwestern Mutual Life Insurance Co. of Milwaukee, Wis., and operated by the Columbia Transportation Division, according to the Coast Guard.

The Fitzgerald left Silver Bay, Minn., on Sunday en route to Detroit with a 26,216-ton load of taconite pellets, the Coast Guard said.

Debris began turning up after 5 a.m. about 13 miles north of Whitefish Point, some 45 miles northwest of here. None of the recovered items could be definitely linked to the 729-foot-long Fitzgerald, however, the Coast Guard said.

Waves in the area today diminished to four to seven feet after mounting to as high as 25 feet Monday night in winds gusting to 75 miles per hour. The water temperature was 51 degrees.

A spokesman for the Coast Guard regional headquarters in Cleveland, Lt. Dan Shotwell, said there was "a remote possibility" that the Fitzgerald could be anchored somewhere and unable to use its radio.

"It sure looks like she sank," he said.

The Fitzgerald was last heard from about 7:10 p.m. Monday when it said it was taking on water but had turned on working pumps.

Radio reports from the Anderson indicated crewmen were trying to determine whether the oar

Apparel Mart Gate Is Up

DALLAS — Spring '76 fashion openings in the Dallas Apparel Mart broke all records in sales and attendance during the recent women's and children's spring apparel market.

Attendance was up 28 per cent over October '74, passing the 15,000 mark for the first time in the 11-year history of the Mart, one of the six buildings in the Dallas Market Center complex, the world's largest wholesale merchandising complex on one site. A spot check among exhibitors of the lines shown at the market pointed up individual gains, ranging from 15 per cent to 46 per cent ahead of October a year ago.

Board To Mull Tax 'Personnel'

The Tax Appraisal Board plans to discuss "personnel matters" in a private session Thursday afternoon. At the meeting, which starts at 3 p.m. in the county courtroom, the board will consider appointing an attorney, handle some "routine business" and miscellaneous items.

DEATHS

Mrs. Cornett

LAMESA — Services for Electa Cornett, 79, a 59-year resident of Dawson County will be at 4 p.m. Wednesday in the First Baptist Church here with the Rev. Bill Hardage, pastor, officiating.

Burial will follow in Lamesa Memorial Park with Bronson Funeral Home of Lamesa handling the arrangements.

Mrs. Cornett died at 11 a.m. Monday in Medical Arts Hospital here after a brief illness.

A native of Rannels County, Mrs. Cornett moved to Dawson County in 1916. She was a Baptist.

She is survived by two daughters, Mrs. Agnes Brown of Lamesa and Mrs. Glynis Kidd of Lovington, N.M.; a son, Henry of Lamesa; a sister, Mrs. Ira Clary of Visalia, Calif.; two brothers, Allen Coulson of Lincoln, Calif.; and L. J. Coulson of Martinez, Calif.; and six grandchildren.

Schlesinger Applauded

WASHINGTON (AP) — James R. Schlesinger, fired last week by President Ford as defense secretary, got a round of applause from 4,000 people who worked under him as he left the Pentagon for the last time.

Schlesinger reviewed a military honor guard Monday and was honored with the applause of the military officers, civilian officials and other Defense Department workers at the ceremony.

In taking his leave, Schlesinger reaffirmed his belief in U.S. military strength as the underpinning of American foreign policy. "Only the United States can serve as a counterweight to the power of the Soviet Union," he said in a speech on the lawn in front of the Pentagon. "There is no one else waiting in the wings."

Man Attacked With Tire Tool

Charles L. Turner complained to police at 8:15 p.m. Monday that he had been attacked by a man with a tire tool. The alleged assault occurred at 1804 Donley.

Mrs. Sheila Knight also reported to police that clothing valued at \$300 was stolen at that address.

Hay Barn Fire

Fire trucks from Coahoma and Sands Springs and a deputy sheriff were dispatched to a hay barn fire on the Lee Read Ranch northeast of Coahoma Monday afternoon.

Gobbledegook Of Ambulance Report Labeled 'Wonderful'

BY JOHN EDWARDS \$1,491 in unpaid ambulance bills. "Well, this is a wonderful report," County Commissioner Simon (Cy) Terrazas said Monday afternoon. "You can't tell a darn thing about it."

Terrazas and other members of commissioners court felt a quarterly financial report from L. A. (Red) Hiltbrunner, owner of Alert Ambulance, was not complete or clear.

Hiltbrunner, who was not present, is asking the county to increase its financial assistance from \$400 monthly to \$600. The owner also wants more from the City of Big Spring, which now provides \$600 monthly.

County Judge Bill Tume said the report carried information about rural runs, only, as requested. It showed 85 accounts for July through September and

Blood Donor Program Begins

Big Spring's new community-wide volunteer blood donor program began today at noon in the emergency room of Malone and Hogan Hospital.

Experienced personnel from San Angelo Blood Services will be there to coordinate activities during the noon to 6 p.m. donation period. Members of the women's auxiliary will also be on hand to learn their role as non-technical staffers of the donor room.

People interested in donating blood are urged to

call the donor room (263-1211 ext. 124), or after 6 p.m., the hospital laboratory (263-1211 ext. 125), to make an appointment. Since the entire process including the pre-donation check and rest and refreshment period takes about 30 minutes, four donors can be accommodated in the two donor chairs every hour.

In order to make Big Spring self-supporting, volunteers will have to donate at least 20 units of blood per week. Every donation is important.

ELECTION TIME HEADLINE? 'Howard County Worse Than New York City'

"Howard County Worse Than New York City" might be the headline about election time next fall, County Commissioner Simon (Cy) Terrazas warned Monday.

"If we don't get this revenue sharing extended, we better look for places to

Completed As Reopener

Dorchester Exploration No.1-6 Terry has been completed as a reopener in the Montoya zone of the WAM (Fusselman Oil) field 13 miles southwest of Sterling City.

The venture flowed 105 barrels of 49.2-gravity oil with gas-oil ratio of 1,448-1. Production was through a 6-6/16 choke from perforations 8,703-13, acidized with 2,500 gallons.

Originally scheduled to 8,700 as a Fusselman test, it was drilled to 8,760 and plugged back to 8,756 with 4 1/2-in casing set at that point. Location is 990 from the most southerly south line and the most southerly east line of J.B. Hiller No.6. The field was opened by Pennzoil United No.1-18 Foster in January 1970 for 648 barrels of 52-gravity oil and gas-oil ratio of 1,213 through perforations at 8,459-463. The hole was re-entered this year in an attempt to recomplete as a canyon gas producer in the Conger field.

Also in Sterling, Cities service No.1-a-b Ferguson was at 6,967 in shale. Magnatex No.1-49 Reed was shut in for pressure buildup. Barron Kidd No.1 Mary Womack, two miles east of Uthbert in northwest Mitchell County, has been completed for pumping potential of 50 barrels of 43-gravity oil, plus 70 barrels of water and gas-oil ratio of 165-1. Perforations at 2,139-169 were treated with 3,000 gallons of acid and 40,000 gallons of frac. It is in the Westbrook East (3,210 Clearfork) field and is 467 from the west lines section 67-97, H&T. The completion is a 1 1/2 mile northwest extension.

Other Mitchell tests included Dorchester No.3-A Space at 7,791 in shale, and Dorchester No.4-A Spade at 1,964 in colomite.

Charles L. Turner complained to police at 8:15 p.m. Monday that he had been attacked by a man with a tire tool. The alleged assault occurred at 1804 Donley.

Burton Has 'Dry' Party

LONDON (AP) — Richard Burton, sticking to a pledge that helped him win back Elizabeth Taylor, has celebrated his birthday by drinking mineral water. It was champagne for everyone else.

The Burtons flew in from Johannesburg, South Africa, for the party Monday in Dorchester. They were remarried last month in Botswana, in southern Africa.

Completed As Reopener

Dorchester Exploration No.1-6 Terry has been completed as a reopener in the Montoya zone of the WAM (Fusselman Oil) field 13 miles southwest of Sterling City.

The venture flowed 105 barrels of 49.2-gravity oil with gas-oil ratio of 1,448-1. Production was through a 6-6/16 choke from perforations 8,703-13, acidized with 2,500 gallons.

BY JOHN EDWARDS \$1,491 in unpaid ambulance bills. "Well, this is a wonderful report," County Commissioner Simon (Cy) Terrazas said Monday afternoon. "You can't tell a darn thing about it."

Terrazas and other members of commissioners court felt a quarterly financial report from L. A. (Red) Hiltbrunner, owner of Alert Ambulance, was not complete or clear.

Hiltbrunner, who was not present, is asking the county to increase its financial assistance from \$400 monthly to \$600. The owner also wants more from the City of Big Spring, which now provides \$600 monthly.

County Judge Bill Tume said the report carried information about rural runs, only, as requested. It showed 85 accounts for July through September and

Neel Barnaby explain plans to construct about one mile of new ditching for draining water from Knot Lake. A cotton farmer did not want the county to continue pumping water along the route used previous to the last heavy rain.

Amended the 1975 county budget to accommodate unanticipated expenditures. County officials also noted revenues of several offices exceeded anticipations.

In a separately listed item, the court approved increasing the stock show expense account for county agents to \$900 for 1975.

Awarded contracts for wiring in the new computer room and providing an air conditioner to the lowest of two bidders on each item.

Resco Service & Supply Co. will sell the county an air conditioner for \$2,981. Boss-

Linam Electric Inc. will wire the room for \$1,875.

By rejecting earlier bids and changing specifications, the court saved several thousand dollars on these expenditures.

Authorized paying \$315 through Howard College to Don Box for helping computerize the county tax roll. In addition, the county will pay the college \$1,684 for use of a computer while awaiting delivery of an NCR computer at the courthouse.

Okayed purchase of up to \$100 in work clothes each for two courthouse and lawn maintenance employees. Also, the county will pay for the uniforms laundered in lieu of work clothes rental.

And instructed the county auditor to advertise for bids on cooling tower repair.

And instructed the county auditor to advertise for bids on cooling tower repair.

DIVORCED FATHERS WANT THEIR CHILDREN

Fathers Clamor For Equal Rights

DALLAS (AP) — When Bill Shelton's marriage broke up three years ago, he felt everyone involved in the divorce proceeding knew

what should be done with his children, but no one bothered to ask him. "They all expected me to give the children to their

mother, walk away and send a check once a month," Shelton said. "I think a father is more than just a source of economic support."

After a jury granted custody of his daughter and son to his wife, Shelton placed an advertisement in a local newspaper asking other divorced fathers with similar feelings to contact him.

Shelton's efforts led to the formation of the Texas Fathers for Equal Rights (TFER). Recently TFER and six individual plaintiffs, including Shelton, filed a federal class action suit here challenging Texas child custody procedures.

Ed Cullum, president of the TFER chapter here, said, "Divorce courts in Texas and across the country still consistently award the custody of children in divorce proceedings to the mother."

"No court has more impact on society than the divorce courts," Cullum said, "and judges are very reluctant to change legal precedents that have been set for 75 years."

Now, TFER has about 500 members, including single, married and divorced persons of both sexes, across the state.

"We are open to anyone concerned about the effects of divorce on children," said Cullum, TFER's only salaried employee.

MEN POWER — In a day of emphasized women's rights, some Texas divorced fathers have banded together to fight for the right to the custody of their children. One of the fathers, Ed Cullum, states, "Divorce courts in Texas and across the country still consistently award the custody of children in divorce proceedings to the mothers." Here the group is shown picketing outside the Dallas County Courthouse.

TFER's main objective is to change the Texas family code so that all parties in a divorce proceeding are afforded equal rights.

Texas law says a court in awarding the custody of a child "shall consider the qualifications of the respective parents without regard to the sex of the child."

"The key issue in the suit is the effect on the children who grow up without a father," Cullum said. "Studies have shown, for example, there is a high correlation between juvenile delinquency and the absence of a father."

"If both parents have equal custody of the child, he would not necessarily be confused by dividing time between two homes," he said.

"Some experts have said this may even be good for him because he will be exposed to different points of view."

"Besides I can do everything a mother can do for a child except breast feed him and not many mothers do that anymore," Cullum said.

What the TFER wants is to replace today's adversary court proceedings in divorce cases with a panel of qualified experts, with an attorney as a legal advisor, so that the interests of all parties, especially the children's are protected.

Both Cullum and Shelton are critical of the role of most attorneys in divorce proceedings today. Cullum said attorneys bring out "childish, immature antics" on the parts of both parents during a divorce.

"Attorneys by and large do not take a personal interest in the cases. They look at them as easy money," said Cullum, who claimed divorce was a \$15 million a year business for lawyers just in Dallas county.

"Neither the attorney nor the judge is qualified to determine what is best for the child," he said.

Shelton said, "Divorces represent big business for lawyers and their outlook is harmful to the people involved and society as a whole."

Shelton said, "Divorces represent big business for lawyers and their outlook is harmful to the people involved and society as a whole."

Shelton said, "Divorces represent big business for lawyers and their outlook is harmful to the people involved and society as a whole."

Lubbock Robbery Thwarted

LUBBOCK, Tex. (AP) — An alert security guard thwarted a robbery Friday at the Texas Commerce Bank and officers seized a 26-year-old Hobbs, N.M., man after he demanded money from a bank teller. He held the gunman until detectives and police, responding to a silent alarm triggered by a bank secretary, converged on the downtown bank.

Extended Coverage

By Jerry E. Mancill, C.U., CPCU
Archaeologists recently found, in Massachusetts, indications that sailors from Carthage came to America before Columbus OR Leif Eriksson. Inscription on stone said, "Do not deface. Hanno takes possession." Can you imagine what Hanno could've done with an electric pen? Police departments are lending this identification tool to residents, who make a special mark on their possessions. Reports show the system is a great help in identifying stolen property. Manufacturers are predicting that in five years all apparel will be made of flame-resistant materials. Initial use of the flame-resistant process is in children's clothes. Dollar value of property destroyed by fire hit a new high last year. Fire losses in the U.S. were up 21 percent, to \$3.2 billion. Mini book review: "How to Hide Almost Anything," by David Krotz, is chockful of ideas for finding and building hiding places in the home, from phony electrical outlets to false ceilings. Try it — and hope your friendly neighborhood burglar hasn't read it. Protect your home from burglars — but in case all the deterrents don't work, be sure you have adequate insurance. Millions To Be Fed By Crusade

DALLAS — The holiday season CARE Food Crusade is seeking \$8,000,000 to provide nourishing food during the coming year to 27 million people, mostly children, in developing countries where hunger and malnutrition are the chief crippers and killers of the young.

"Half the world's children lack the nourishment they need," said Marjorie H. Pinschmidt, Southwest director. For millions of these helpless children the road of life is short and desolate. The continuing world hunger crisis is the most widespread in all recorded history. Help is needed now more urgently than ever to give these children life, growth and a chance for a productive future.

Feeding sites include preschool and nutrition centers and primary schools, many of which CARE helped build. U.S. Government donations of commodities, CARE's purchase of food at special low prices, plus overseas governments covering operating costs, multiply the value of public contributions. Last year each donor dollar provided nearly \$5.13 of aid.

But observers say the feathered population of Graceham is on the rise this year. Paul Beale of the Frederick County Air Quality Control Bureau estimates more than a million birds are here, while Bud Halla of the state Department of Natural Resources puts the figure at 800,000.

"They take off and head south in a long black stream that stretches for miles across the sky," Halla says. The number of birds is growing every day and residents fear that continued mild weather will be an open invitation for the flock to stick around rather than fly further south.

Halla, who helped clear the grove two years ago, says there's currently no need for alarm and predicts the birds will continue their migration when the temperatures drop.

Representatives from local businesses and colleges will speak at a "Small Business Conference" at Hardin-Simmons University next Monday.

The conference, which is focused on helping prospective or small businessmen begin and run a successful business, will be held in Moody Center, Room 208, at 6:30 p.m. It is sponsored by the Small Business Administration, headquartered in Lubbock and the Small Business Institute at H-SU.

"We're trying to reach the person who is thinking of going into a small business before he invests his money," said Dr. Theodore Halatin, assistant professor in management at H-SU and coordinator of the conference. Dr. Halatin urges interested persons to call him at extensions 696 or 210 or write Box "C" at Hardin-Simmons since there is a limited registration. A registration fee of \$2 will be charged.

The three-hour conference is designed to give a presentation of the total field of business management and problems that a small business owner faces. The project is free.

WACO — Texas Farm Bureau has shown an increase in membership for the 23rd consecutive year, according to Carol Chaloupka, president of the state's largest general farm organization. Official tabulations just completed show that the TFB now has 180,470 member families in the organization, an increase of 14,254 over last year.

The ten largest counties in the state membership size are Harris — 2,811; McLennan — 2,632; Fayette — 2,456; Fort Bend — 2,452; Ellis — 2,441; Van Zandt — 2,632; Wharton — 2,319; Bell — 2,014; Nacogdoches — 1,918; and Hidalgo — 1,887.

Airport HD Club Has Meeting

The Airport Home Demonstration Club met Tuesday afternoon in the home of Mrs. Roy Spivey, Mrs. J. L. Metcalf presided.

Mrs. Richard Boberg was welcomed as a guest. Members approved the resolutions of the HD Council.

A leaders' training session will be held at 2 p.m. Nov. 17 in the County Extension Office. Miss Sherry Mullin will conduct the seminar on carpet buying and care.

Mrs. Vern Vigar presented a program on the danger of home remedies and aerosol cans.

Mrs. Ray Parker announced that a Thanksgiving luncheon will be held at 12:30 p.m. Nov. 18 at Furr's Cafeteria. Members will have a business meeting after the luncheon in the home of Mrs. Parker, 1405 Mt. Vernon.

Parish Workers Will Attend Rally

The St. Paul Lutheran Parish Workers met Thursday evening in the home of Mrs. H. T. Hansen, 621 Tulane.

Plans were finalized for the Lutheran Hour Rally to be held Nov. 23 in Andrews. The Rev. Oswald Hoffman, Lutheran Hour speaker, will give the sermon. Choirs from area churches will be singing in a Mass choir at the special rally service. A supper will be served to all those attending the rally.

Gil Jones spoke on "Legal Rights of Women." He gave an account of the history of women's legal rights and explained that women will

continue to gain legal rights through legislation.

Mrs. Carroll Kohl gave the devotional.

Guests welcomed were Mrs. Thomas Skinner and Mrs. Douglas Smith.

Members made plans for a progressive supper to be held Dec. 14.

A church clean-up day was slated for Dec. 7. The work day will begin at 3 p.m. and a supper will be served.

Mrs. Hansen, Mrs. George Von Hassell and Mrs. Harold Bentley were appointed to the nominating committee.

Refreshments were served at the meeting by Mrs. Kohl and Mrs. Hansen.

Dear Abby

Wife Takes Back Seat While Mom Sits With Son

DEAR ABBY: I have a problem with my mother-in-law. She and my husband believe that it is a matter of "respect" to let her sit in the front next to her son when we're in the car together. Of course that means I have to sit in the back.

I have tried to tell my husband that this has nothing to do with respect and that I should sit next to him. It burns me up, and they both know it.

His mother is 47 and has no disabilities, so there is no good reason for her to sit next to my husband.

I always thought that once married, your spouse becomes the most important person in your life and his family comes next.

It's gotten to the point where if my mother is going along, I just refuse to go. She doesn't drive and won't learn, so you can see that this poses a big problem.

There is no use talking to her because she already knows how I feel. She just thinks I should show her respect and get in the back.

What do you think is the respectable and proper thing to do?

MISERABLE IN BACK
DEAR MISERABLE: When push comes to shove, you should defer to her, not because your husband wants you to, but because she is your elder. Even though she should excuse myself and give Donna and her guest privacy. This house is half mine.

Abby, when people reach a certain age, don't they belong to the human race any longer?

WITHHOLD MY NAME
DEAR WITHHOLD: The issue is not age — it's privacy.

You need not disappear the moment Donna has company and remain out of sight until the guest leaves, but neither should you join the party the whole time.

Use some judgment. Mother, your older daughter has a point.

DEAR ABBY: My 14-year-old daughter recently spent a month with her father in Colorado. He and I have been divorced since she was 6 years old.

She closed a recent letter to me with the following words:

"When I was born it was a wonderful thing because I grew up and you were there. I just want you to know that I couldn't ask for a better friend than you, Mommy. I love you!"

Abby, I am a witness to the fact that all children who grow up with only one parent do not go bad.

I would like to tell mothers all over the world that if they treat their children with respect and love, they will almost always make you proud of them.

YOUNG BLACK MOM
DEAR MOM: Thank you for a beautiful letter. It made my day.

Everyone has a problem. What's yours? For a personal reply, write to ABBY: Box No. 69706, L.A., Calif. 90069. Enclose stamped, self-addressed envelope, please.

New HD Club Slates Meeting

An organizational meeting for a new Home Demonstration Club designed for young women will be held tonight at 7:30 p.m. in the Reddy Room of the Texas Electric Company located at 409 Turners.

There will be a demonstration on holiday candle making following the business meeting.

Everyone is invited to this first meeting.

Bazaar Held By Garden Club

Members of the Rosebud Garden Club held a bazaar and bake sale Saturday in the Highland South Shopping Mall. Members took shifts during the day for the sale which began at 9 a.m. and concluded at 5 p.m.

Items for sale were crafted by members of the club. Members also baked cookies and cupcakes to sell to passersby.

A drawing for a terrarium was held at 5 p.m. Mrs. C. Y. Clinkscales, 705 W. 18th, was the winner.

'Woman Alive' TV Series Lacks Impact

NEW YORK (AP) — "Woman Alive!" is a new public TV series transmitted Tuesday nights by the public Broadcasting Service. Its aim is to "illustrate what defines the women's movement, who is affected by it and how."

A tall order, but Ronnie Eldridge, executive producer of the WNET series here, is trying to fill it on a \$550,000 budget for 10 half-hour programs.

Unfortunately, the series' good intent comes to naught in its fourth edition tonight. The show contains:

—Three tunes, one a funny job at the idea that women need men to get by, all performed by Malvina Reynolds, a 75-year-old singer and composer primarily known in folk music circles.

—A documentary about three teen-aged Minnesota girls.

—A brief commentary by historian Judith Papachristou, who sharply disagrees with those who feel the women's movement is a passing fad that began in the 1960s and now is running out of steam.

Tonight's effort doesn't back it because its major segment, the documentary

LGA Elects New Officers

A new slate of officers submitted by the nominating committee was approved by members of the Ladies Golf Association at a meeting held Friday afternoon in the Big Spring Country Club.

The new officers are Mrs. Garner McAdams, president; Mrs. Sid Harslick, vice president; Mrs. Jerry Snodgrass, secretary; and Mrs. Sam Anderson, treasurer.

Hostesses for the meeting were Mrs. C. R. Wiley and Mrs. R. F. Dorsey.

Mrs. Hayes Stripling Sr. presided during the business meeting.

The LGA will hold a punch party at the next meeting slated for Dec. 5 at the Country Club.

Elbow HD Club Meets Thursday

The Elbow Home Demonstration Club met Thursday morning in the home of Mrs. R. W. Dolan.

Guests welcomed during the meeting included Mrs. Rufus Rogers, Mrs. Chester Fought, Mrs. Jenny Sugars, Mrs. J. F. Skalicky and Mrs. Philip Riddle.

Mrs. Skalicky demonstrated how to make print cloth flowers. Mrs. L. M. Duffer showed the members how to make decorative tissue boxes.

Mrs. E. R. Patton won the attendance prize.

The next meeting will be at 9:30 a.m. Nov. 20 in the home of Mrs. Joe Evans.
