WITHOUT FIRING A SHOT

Portuguese Leftists Seize Air Bases

LISBON, Portugal (AP) — Leftist troops took over four air force bases around Lisbon today without firing a shot and seized a top air force commander in what appeared to be a concerted rebellion against civil and military leaders.

President Francisco de Costa Gomes, acting as chief of staff of the armed forces, proclaimed a state of alert and banned all street demonstrations, including one called for Thursday by left-wing troops and sailors of the Lisbon area.

A leftist radio station said dissident paratroopers had captured Gen. Anibal Pinho Freire, a member of the Revolutionary Council and commander of the central air region around Lisbon.

Majors Jaime Costa Neves and Jose Canto e Castro — were ousted.

The officers are supporters of the beleaguered government of Premier Jose Pinheiro de Azevedo.

Portuguese military police, also a leftwing group, occupied the Lisbon offices of the official Portuguese news agency ANOP.

They did not appear to be interfering in its operations.

Other units had earlier moved in on the national television and radio stations, apparently to keep them

from being taken over by moderate forces.

There were also unconfirmed reports that militant leftists of a light artillery regiment stationed at Beiroles, in the Lisbon area, had begun handing out arms to civilian leftists.

A communiqué from the general staff of the armed forces said dissident paratroopers first took over an air base, 35 miles up the Tagus River from Lisbon.

An air force officer said leftist troops then occupied the Monte Real air base 60 miles north of the capital, the Montijo base just across the Tagus River from Lisbon and the Monsanto base in Lisbon, which is the air force's regional headquarters and communication center.

The government radio said there had been no fighting at any of the bases.

The communiqué was sent urgently to the state radio chain with an order that it should be broadcast immediately "to inform the Portuguese people of the situation."

The assaults were reportedly carried out just before dawn by former members of a recently disbanded paratroop regiment and leftist elements in the air force.

The air force has often been described by Communists and other left-wing groups as "reactionary."

Informed sources said the paratroopers, who have been openly defiant of their officers, leaders of the armed forces and the government, moved into the bases in helicopters and in trucks.

The seizure was in reply to another attempt by the ruling military Revolutionary Council to oust leftist Gen. Otelo

Saraiva de Carvalho from command of the Lisbon military region.

The council announced after a 10-hour meeting that it had again nominated Capt. Vasco Lourenco to replace Carvalho. The council named Lourenco, a moderate, to the post last Friday, but President Francisco de Costa Gomes withdrew the nomination in a few hours.

Several newspapers reported that commanders of 11 of the 13 military units in the region said their men refused to serve under Lourenco.

Meanwhile, anti-Communist farmers started removing barricades from the roads leading north and northeast from Lisbon after Costa Gomes promised to consider their demands for an end to Communist dominance of farm policy.

had promised a point-by-point reply to the demands within six days. A crowd of several hundred people at one of a dozen barricades shouted "Victory! Victory!"

The roadblocks were set up Monday evening after a meeting of 25,000 farmers at Rio Maior, 50 miles north of Lisbon. The farmers drew up a list of demands, including assurances against expropriation of their lands.

The roadblocks, which were set up without warning, created traffic jams that stretched for miles. The demonstrators also claimed to have blocked the main rail line.

The Communist party appealed to its supporters to assemble at meeting places and maintain "active vigilance." The statement, which was broadcast, charged that "reactionary elements" were mounting a campaign of "the gravest subversion."

The World At-A-Glance

SACRAMENTO, Calif. (AP) — With her own attorney conceding she is guilty of assault for pointing a gun at President Ford, jurors weighing the fate of Lynette Fromme must decide what she intended by that act. The eight-woman, four-man jury enters its second day of deliberations today. The panel deliberated three hours Monday and reviewed the testimony of two college students who gave conflicting accounts of what Miss Fromme said after her arrest Sept. 5. Miss Fromme, a follower of convicted mass murderer Charles Manson, is charged with attempting to assassinate President Ford in Sacramento that day.

ALBANY, N.Y. (AP) — After a week of political haggling, the legislature appeared ready today to approve a \$200 million New York City tax increase it hopes will impress President Ford and pry loose federal aid for the city. Democratic Gov. Hugh Carey secured what he called "a broad understanding" on the tax package Monday night, with largely symbolic concessions to minority-group legislators and Republicans who had been withholding their support from it.

WASHINGTON (AP) — Real income of the average American family should increase between \$1,400 and \$2,000 by 1980, leading to a significantly higher standard of living, says a Brookings Institution economist. Real income means the money left after adjustment for inflation and measures the true buying-power of income. The economist, Charles L. Schultze, said Monday his calculations assume a continuation of the historical rate of increase in the U.S. standard of living of 2 to 3 per cent a year since World War II.

PARAMARIBO, Surinam (AP) — Thousands of cheering Surinamese greeted their country's first moments as an independent republic early today with a midnight flag-raising ceremony at Paramaribo's sports stadium. Crown Princess Beatrix of The Netherlands and her husband, Prince Claus, were the guests of honor as the red and green flag of the new republic replaced the old Surinam and Dutch flags.

WAR STORIES, GOSSIP County Fathers Keep Reporter Guessing

Sometimes, it's hard to know whether meetings of County Commissioners Court have ended. Toward the end of its usual Monday afternoon session, talk often starts to wander. The group discusses the weather, business, war stories and gossip. Monday afternoon this week, the county clerk, county auditor and county judge had left the room when

the four commissioners voted to adjourn. The commissioners stayed, though, and County Judge Bill Tune appeared once at the door and left.

After a while, this reporter left. A few minutes later, the reporter returned, and Mrs. Zilah L. Bednar, county tax collector-assessor, was talking to commissioners court.

COLDER Mercury falling. High today in the mid 60s. Low tonight, mid 30s. High Wednesday, low 46s. Southeast wind 10-20 miles per hour and gusty this afternoon. Northerly tonight.

CUSTOMS DIE HARD — Old customs die hard for elderly Vietnamese refugees such as this woman at Indiantown Gap, Pa. who has donned military Winter clothing over her own coat because of the cold weather. However, she cannot bring herself to force her sandal-acustomed feet into shoes. (AP WIREPHOTO)

Fire Nears Containment

LOS ANGELES (AP) — Firemen moved today toward containing fires that have destroyed more than 57,000 acres of rural woodlands, forcing thousands to flee their homes and sending a thick pall of smoke over Los Angeles. No major injuries have been reported. More than 20 homes were destroyed, more than 30 others damaged. The largest blaze, in the Big Tujunga Canyon in Angeles National Forest about 20 miles north of downtown Los Angeles, was reported about 50 per cent surrounded, mostly on the crucial residential front. Officials expressed optimism that the 1,800 fire fighters from throughout the West fighting the fire could surround it by nightfall, when menacing gusts are forecast to resume. The Tujunga fire had charred 45,500 acres of valuable chaparral watershed, dried to near explosive flammability by six months of hot, nearly rainless weather.

TRASH RATES INCREASED Direct Route Nixed By City Dads Today

By MARJ CARPENTER Although a majority of persons at the first hearing in connection with an extension of Eleventh Place to Gregg preferred the direct route, the city council today voted to back the route that would come out at 10th and Gregg.

The council took this action after a discussion at the regular meeting at City Hall this morning. At an earlier meeting with highway department officials, a majority of people who attended, voiced preference for the direct route to Gregg Street.

At the meeting today, Joe Pickle, speaking personally and also expressing what he considered the opinions of the Malone-Hogan Hospital advisory board, requested, "Let's not zig and zag, but take the direct route. This is a project for 50 years in the future and every consideration needs to be given to the best route."

The difference is right of way costs, which must be purchased by the city, are \$78,500 for the direct route and an estimated \$27,500 for the 10th Street route.

Minutes of the Traffic Commission were discussed. The council named Sam Robertson to the Plumbing Ordinance Appeals board. The citizen named at the last meeting lived outside the city limits.

The council awarded low bid on 30 sanitation containers to Ebeling Co. Plainview, on a total bid of \$5,355. Four other bids ranged up to as high as \$7,222.80.

The bids on the street sweeper were taken off the table. The recommendation of the city staff was for the second low bid by Billy Goat Supply. It was for a cost of \$28,390 in comparison to \$28,320 by Plains Machinery and \$31,768 by West Texas Equipment.

The staff told the council that it would take less maintenance than the old type sweeper. Also, Billy Goat Supply allowed \$2,800 on the old sweeper but permitted the council to keep it. The city manager said they had a buyer for the old sweeper.

SANTA DUE HERE DEC. 5

Santa Claus sends greetings to Big Spring and Howard County children and says that he will plan his schedule so that he can rush from the North Pole to Big Spring on Friday, Dec. 5. Old Saint Nick says that he will be at the east steps of the courthouse from 3:30-5 p.m. although "I may have to turn left to get there from the North Pole."

The council turned down the one bid on re-roofing the Potton House as too high and agreed to advertise for bids a second time.

'I'D LIKE TO KNOW JUST WHAT IT TAKES TO DO BUSINESS IN THIS COUNTY'

Commissioners' 'Holding Pattern' Triggers Flak

By JOHN EDWARDS Hostilities were barefaced Monday when R. E. McClure Jr. vice-president of Trans Regional Airlines, again confronted County Commissioners Court with his request for a second lease of Howard County Airport.

McClure has been so persistent in his efforts to obtain the lease, County Judge Bill Tune said he had a nightmare about McClure. County Commissioner Simon (Cy) Terrazas said the issue was probably the most important decision this commissioners court will make. Big Spring Aircraft Inc. already has a lease as fixed-based operator. A Federal Aviation Administration (FAA) official said federal funds will be denied the airport if it is determined the county discriminated against Trans

Regional, a property of El Paso Air Transport Inc. 'KNOCKED DOWN' 'I'd like to know just what it takes to do business in this county,' McClure told commissioners court.

"Every time, we open our mouth we get knocked down for it," the airline executive said. "Is the county that much against any business going in here of any kind?"

After the conference, Commissioner Ike Rupard recalled several things the county had done to help the commuter airline establish itself here. He mentioned waiving landing fees, granting the firm permission to buy fuel wholesale and remodeling a hangar.

Commissioner William B. Crocker Jr. said the court was following an FAA manual in studying the request for a second lease. The "economic feasibility" of two fixed-based operators at the airport cannot be used as a basic for denying the lease, Crocker said.

But the court could refuse the second lease because of space or safety reasons and not lose future federal funds.

NOTENOUGH County Attorney W. H. (Bill) Eysen Jr. had studied a financial statement from Louis Rosenbaum, president of El Paso Air Transport, and reported to commissioners court Monday.

"The thrust of the memo is that I don't believe you have sufficient information to make a decision yes or nay at this time," Eysen concluded. Rosenbaum's financial statement "should contain far greater detail," Eysen wrote. Rosenbaum, Eysen was told, owns one-fourth of El

Paso Air Transport. Rosenbaum's wife owns another part, McClure said.

"(Joe) Bailey did own some of it that's in the court going away with it (Bailey's share)," McClure said.

"DON'T JIVE" Eysen noted some facts about airplane insurance "that don't seem to completely jive."

None of the aircraft being operated by El Paso Air Transport Inc. doing business as Trans Regional are registered in either name, Eysen observed in the memo. They are registered in Rosenbaum's name, the county attorney wrote. He continued: "This fact leads to another problem. It is readily apparent the confusion that arises, not only by virtue of these two (insurance) certificates, but by the fact

the insured aircraft are not owned or at least not registered in the name of the party to which, or in favor of which, the insurance is issued."

"There's no sense in paying the premium on the insurance until we're sure they can operate," Robert Miller, attorney for the airline, said.

"REASONABLE" "I further point out that the proposal for the fixed-based operation gives no detailed information as to the space availability. . ."

Eysen wrote. McClure said the space the airlines is using now would be sufficient for fixed-base operations. The firm itself will build any future buildings needed with the prior approval of commissioners court, McClure said. "I don't think there's anything in here (his memo) that I've asked for that is unrealistic or unreasonable," Eysen said.

The county attorney said he had no personal feelings about the lease request.

"WASTE" McClure said the investigation of his firm was a waste of taxpayers' money.

McClure listed a number of national airlines which have "inter-line agreements" with Trans Regional. These airlines thoroughly investigated Trans Regional, McClure said. So had the U.S. Civil Aeronautics Board, Texas Aeronautics Commission and the FAA, McClure added. "If American Airlines and the American government says we're legitimate, I can't see this big investigation to see if we can pay our bills,"

attorney are to prepare a list of questions for the airline. Miller asked the court not to concern themselves with operation of the airline, only the fixed-based operation proposal.

"TIGER'S TAIL" After the conference, Crocker said: "We don't have any contract with Trans Regional to operate an airline."

The contract between the county and Trans Regional covers fuel use. Ralph McLaughlin, past president of the Chamber of Commerce; Terry Hanson, chamber manager; and McClure's parents, Mr. and Mrs. R. E. McClure Sr., listened to the discussion. Tape recorder microphones bristled. "I think we've got a tiger by the tail, haven't we?" Terrazas said.

24 NOV 24

Whose Side Are We On?

Before we deplore the astonishing increase in the national crime rate, it might be well to look at the peculiar situation.

In the first 10 months of 1975, we had five murder cases — five times the number of last year.

We had 10 reported rapes against six for last year, up 66.6 per cent.

We had 606 burglaries, against 305, up 86.9 per cent.

We had 705 general thefts, against 632, up 11.55 per cent.

We had 64 car thefts against 33, up 93.9 per cent.

Disgraceful, that's what it is.

Now don't howl at law enforcement personnel. Except in the rarest of instances, they don't commit crimes. Criminals do.

And criminals do because it is profitable or self-satisfying and unaccountable for them to do so.

Whose side are we on, anyway?

If we are on the side of the law-abiding and the law enforcers, then we need to help to the extent that we will report the suspicious actions or things we see to our officers.

We will never buy anything from a stranger or at a price that makes it obvious that questions should be asked about its source. We will resolve that when we are called to sit on juries, and the evidence warrants

convictions, we will be unsentimental in our verdicts.

And in our homes, we will teach and re-teach that it is written. "Thou shalt not steal . . . Thou shalt not kill

Oil For The Lamps

drilling and developing oil resources on land or in shallow water, some geologists forecast that the most prolific reservoirs probably lie offshore, in an area where Chinese experience and expertise is lacking.

Their hopes rest on a call for Western expertise when exploration moves to deeper offshore waters.

China needs only modest amounts of oil for its industries, though. Furthermore, much of the Chinese oil suffers from an excess of paraffin, requiring special refining techniques.

The prospect of China as a major producer of oil by the year 2,000, with the great international leverage that possibility implies, is something to conjure with.

Doesn't Work

Around The Rim

Troy Bryant

NOW WE learn, through an AP story which crossed my desk, that since World War II, American servicemen have been supplied with "shark repellent" which is merely black dye and copper acetate and does nothing to keep away sharks.

All armed services life jackets for more than 25 years have included the ineffective chemical and the Air Force has discontinued its use and the Navy plans to do so.

That shoots down those old World War II movies where the pilot is dumped into the ocean after he successfully sinks the Jap ship by aiming his burning plane for the midships and bailing out at the last minute.

The pilot, a John Wayne or Jimmy Stewart type, is being held afloat with his "Mae West" and blood is streaming from a wound in his leg.

Just to make the story better, he is unconscious, but wakes up just in time to see a few shark fins circling around him, opens the pack of shark repellent and keeps them away until it begins to disperse.

Spicing it up some more, the sharks begin to move in again, and he hits one over the snout just as the rescue boat pulls him in.

In a real situation, the pilot probably would find the sharks eating the repellent, according to the story. Tests showed that the sharks actually ate the material on some occasions.

Maybe the reason was that if the sharks ate enough dye, they would lose their appetites.

WE TECH fans, much maligned by fans of some other schools in the state, have something to cheer about this week, although the Red Raider gridgers lost to Arkansas. (I keep telling them, it's not whether you win or lose, it's how you run onto the field that counts.)

The Red Raider cage team was installed as favorites in the South-west Conference, which for some reason is like being called the best hockey player in Brazil.

But, maybe with a little luck, the SWC winner can get out of Texas when the NCAA playoffs come around and make a name for the conference.

The Raiders will be able to see just what kind of team they have put together this year in its season opener this weekend against 14th ranked Kansas State.

My Answer

Billy Graham

I am a new Christian, and have just started to read through the Bible. However, I am getting bogged down in Genesis with some of the things I don't understand very clearly. I know the Bible is important, but I wonder if I'm going about it in the right way.

R.D. I commend you for reading and studying your Bible. As a young Christian, it is important for you to realize that it is your spiritual food for each day. I urge you to develop the habit of daily Bible study and prayer.

Genesis is a majestic survey of God's creation of the world and man, and the way in which sin entered the world. As such, it is a vital backdrop to the rest of the Bible.

However, I think it might be more valuable for you to start at the "center" of the Bible, rather than the beginning. The center of the Bible — the focal point — is Jesus Christ. You should perhaps begin by studying carefully the life of Jesus Christ as found in one of the Gospels such as Mark or John. Some of the letters of Paul will give you insight into how God wants you to live as a believer. You might balance your Scriptural "diet" by reading some of the Psalms of the Old Testament.

When you approach the Bible, always ask God to guide you as you

read it, and especially ask Him to show you the ways in which it applies to your daily life. And don't worry too much about parts you may not understand right now. Seek instead to learn and apply those things you can understand.

John Cunniff

NEW YORK (AP) — The energy for the economic expansion being forecast for 1976 "will come" from an improvement in consumer spending, residential construction and probably from business capital investment.

This is a typical explanation offered by the army of forecasters who regularly, if not profitably and accurately, put their reputations on the line at this time of the year.

On the surface, the explanation appears perfectly innocuous and hardly newsworthy, and it is by and large being accepted that way. Few critics seem concerned that the premise is itself a forecast.

At last reading, consumer spending was hardly enthusiastic, and consumer confidence was said to be declining. Personal income, which supports that confidence, was rising, but the rate of rise was slowing.

Consumer prices, meanwhile, were rising — and that is hardly a condition that encourages people to go out and spend. The improvement in retail sales, said a Commerce Department spokesman, has "slowed substantially."

It still seems a bit early to feel relaxed and assured about the level of retail sales in 1976. They could very well improve, as the forecasters expect, but the energy doesn't seem to be there right now.

Housing seems to offer more hope. Or does it? At first glance the 15 per cent month-to-month increase to a 1,458,000 annual rate in October seems to indicate a vigorous advance. Some housing officials doubt it.

They concede that the improvement is a substantial one but they question whether it can be maintained. Some call it an aberration. The number of permits issued for new construction demonstrate, they say, that it cannot be maintained.

The Department of Housing and Urban Development forecasts a range of between 1.4 million and 1.6 million housing units being built in 1976, compared with a 1975 figure that will probably total a bit more than 1.1 million.

No well-defined upward trend has yet been observed in capital spending plans either. In fact, through much of this year manufacturers actually lowered their own estimates.

To some extent you might say that consumers, in curtailing their retail buying, and manufacturers, in holding back on plant expansion and improvement, demonstrate the same lack of confidence.

Manufacturers have been through a period of many months during which their facilities operated at only 60 per cent to 80 per cent of capacity, and they need a lot of convincing before they make plans to enlarge.

All three — housing, consumer spending and business capital investment — are being counted on to push the economy ahead in 1976, but it looks now as if they themselves could use a push.

I AM NOT in Appalachia, but I gasp for air — at such stuff, which obscures the question. The fact is that Karen Ann Quinlan is not to be confused with a coal miner or a ghetto resident, whatever hardships they suffer. Efforts to say the contrary can succeed only in causing resistance to the subtle distinctions made by such as Dr. Milton Heifetz in his book, "The Right to Die." Dr. Heifetz is talking about medical problems that are clinically definable. His assumptions are that 1) the law is on your side on the question of whether you desire medical treatment; and therefore 2) with forethought, you can anticipate such quandaries as the Quinlan family faces.

I reproduce, with here and there an interpolation, the form recommended by Dr. Heifetz, completed copies of which should be sent to the next of kin, to the family attorney, and to the family doctor.

A DIRECTIVE to my physician: This directive is written while I am of sound mind and fully competent. I insist (Dr. Heifetz is here pleading with an imaginary court of law) that I have complete right of self-determination. That includes complete right of refusal of any medical or surgical treatment unless a court order affirms that my decision would bring undue or unexpected hardship on my family or society (I do not know why this last clause is there: I cannot

imagine its relevance). THEREFORE: In consideration of my legal rights to refuse medical or surgical treatment regardless of the consequences to my health and life, I hereby direct and order my physician, or any physician in charge of my care, to cease and refrain from any medical or surgical treatment which would prolong my life if I am in a condition of:

1) unconsciousness from which I cannot recover, 2) unconsciousness over a period of six months, 3) mental incompetency which is irreversible.

HOWEVER, ALTHOUGH mentally incompetent, I must be informed of the situation (he means, "a ritual effort should be made to inform me of my situation"), and if I wish to be treated, I am to be treated in spite of my original request made while competent (fair enough; and this safety clause should satisfy many doubters).

If there is any reasonable doubt of the diagnosis of my illness and prognosis, then consultation with available specialists is suggested but need not be considered mandatory.

THIS DIRECTIVE to my physician also applies to any hospital or sanitarium in which I may be at the time of my illness and relieves them of any and all responsibility in the action or lack of action of any physician acting according to my demands.

If any action is taken contrary to these expressed demands, I hereby request my next of kin or legal representative to consider — and if necessary, to take — legal action against the involved.

If any of my next of kin oppose this directive, their opposition is to be considered without legal grounds since I remove any right of my next of kin who oppose me in this directive to speak for me.

I HEREBY absolve my physician or any physician taking care of me from any legal liability pertaining to the fulfillment of my demands.

Signed: (in this case) Wm. F. Buckley, Jr.

The Great Leap

Art Buchwald

WASHINGTON — The power struggle in Washington goes on unabated and foreign ambassadors stationed in Washington are sending long cables back to their countries trying to explain it.

HERE IS one of the cables sent by a representative of the People's Republic of China who is living in D.C.

"Momentous historical events are taking place here in Washington with the opening salvo of President Ford's Great Cultural Revolution. At first it was believed that Henry Kissinger was behind the cultural revolution to bring disgrace on Defense Minister James Schlesinger. But now Kissinger is in disgrace himself and has been demoted to only an inconsequential post as Secretary of State. He has also been cited for contempt by the People's Congressional Subcommittee. Official American newspapers are predicting he will soon be sent to North Dakota to harvest grain at a state farm run by Agriculture Minister Earl Butz.

"KISSINGER IS now called a revisionist and counter-revolutionary by a majority of the People's Congress for advocating detente with the Soviet lackeys in the Kremlin.

"Defense Minister Schlesinger has been exiled to the John Hopkins School of International Affairs in the purge, and has been replaced by Donald Rumsfeld, a young member of the Ford clique who has been involved in a power struggle with the Kissinger loyalists for over a year.

"RUMSFELD has denied he was the instigator of the palace revolt, but his picture with Ford has been plastered on posters all over the outside walls of the Pentagon.

"Another victim of the purge was William Colby, director of the People's Central Intelligence Committee. Colby's main crime was that he publicly confessed to the People's Congress about anti-government activities committed by his cadres in the name of national security.

"HE IS being replaced by another Ford disciple, George Bush, formerly Chairman of the People's Republican Party. He was sent to China when the party fell into disgrace after Nixon's fall from power after the August 1974 revolution.

"The biggest shock was the demotion of President Ford's Vice President, Nelson Rockefeller, who still remains in his job, but only as a figurehead with no power.

"ROCKEFELLER, with no dissent from Ford, was accused by conservative elements of the People's Republican Party, of being a counter-revolutionary bourgeois radical revisionist arrogant dog. The conservative faction led by Ronald Reagan, a former Governor of the province of California, threatened that unless Rockefeller and his ilk were brought to their knees, they would see that Ford was removed from the Presidency at the next People's Republican Congress in Kansas City.

"The Reagan Guard still does not seem to be satisfied with the purge. There is now a power struggle going on in the People's Republican Party over the leadership, which may be fought out between the factions in the province of New Hampshire. Be advised when President Ford comes to the People's Republic of China next month he will be constantly looking over his shoulder to see if Reagan is standing there.

Diet Vital After Colostomy

Dr. G. C. Thostleson

Dear Dr. Thostleson: Here is my problem. Three years ago I had a colostomy. Everything is fine, except for one problem. I get gassy after eating. I try eating mostly starches, and I eat very little during the day. Occasionally I'll get the runs. They will last a few days. Perhaps there is a special diet you can suggest.

Mrs. D.F. The type of food eaten by the colostomate is usually a factor in his three major problems — gasousness, diarrhea or constipation.

You may go from one of these problems to the other very easily, which seems to be your problem.

Treatment is a matter of experimentation, of learning your tolerances.

You mention eating mostly starches. This could well be one cause of your flatulence because of resulting high levels of fermentation in the bowel. Avoid candy, sugar, and pastries, for this reason. Try more protein: lean meat, fish, fowl, eggs, and cheese.

Vegetables such as beans, peas, cabbage should be avoided because they tend to create gas. Eat more slowly to avoid gulping air. Most large hospitals have dieticians who can advise

about specific diets. Some have nurses who are expert advisers on colostomy problems.

You seem to have adjusted positively to your colostomy, a major factor in learning how to live with this often troublesome procedure.

Dear Dr. Thostleson: Eight months ago I had a complete physical, and other than finding of a marked hearing loss in my left ear I was told I was in good physical condition for a 55-year-old woman.

Then about four months ago I started experiencing dizzy spells upon getting out of my car after driving short distances. The sensation lasts about 10 to 15 seconds and I feel a little woozy for a few minutes. It even happens at home when I get up from a sitting position. Would you kindly explain? Also, please send me your booklet, "Ear Noises — Their Causes and Cures." I am sending the 15 cents to you, and enclosing the long, stamped, self-addressed envelope. — J.I.V.

I can only speculate on possible causes, although your earlier report of hearing loss strongly suggests an infection or other disorder in the inner ear, which has caused disturbance in the balance mechanism located there.

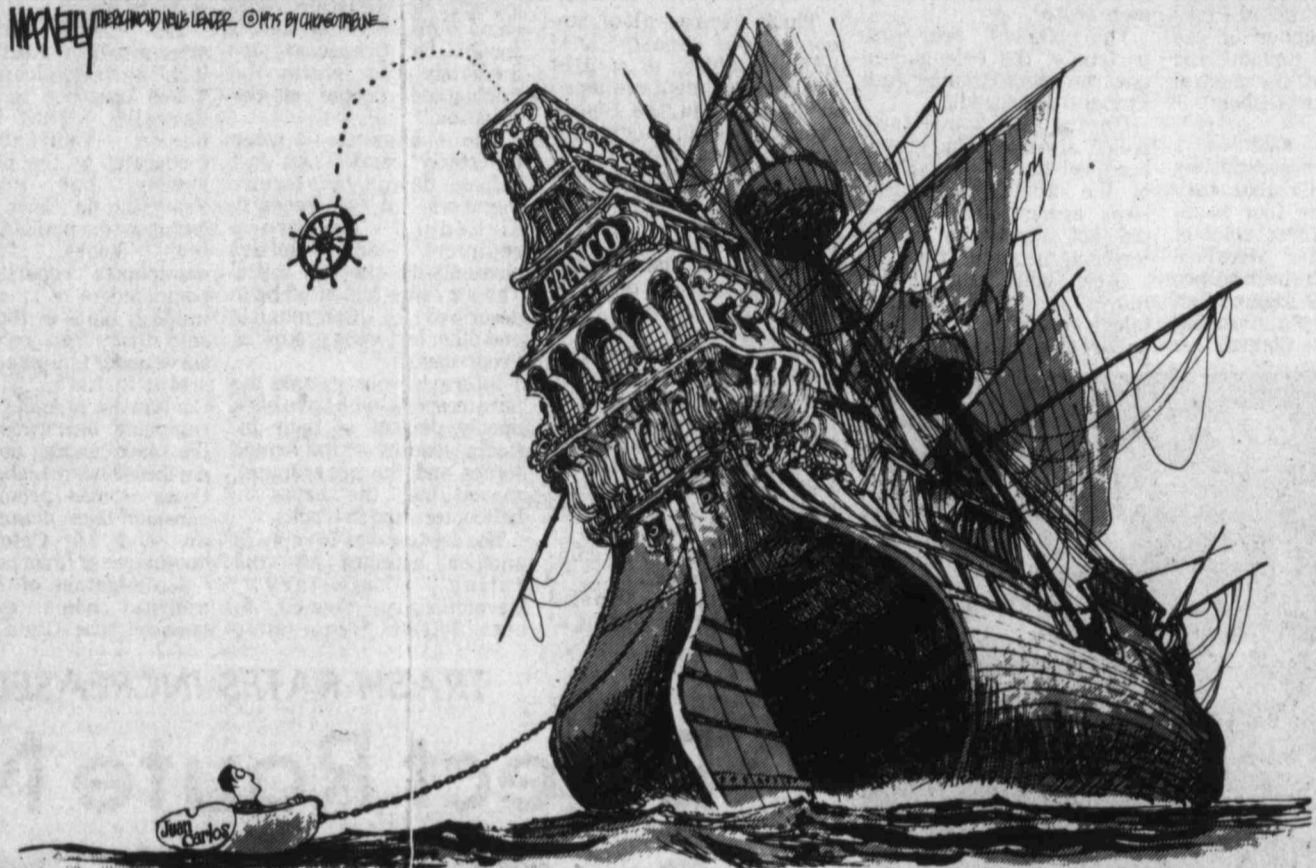

Without such a history, one would suspect postural hypotension, a matter of a drop in blood pressure when you adjust from a sitting to a standing position.

After eight months it is time to return to your physician or specialist and ask him to investigate further the hearing problem.

Dear Dr. Thostleson: I had a mole which has disappeared. Is this dangerous? What makes a mole grow? Is it unusual to have moles on your breasts? What makes some people have more than others? If they grow, should they be removed? — M.B.

The common mole, known as a "nevus" is a benign growth which usually appears in the first few years of life. It is not unusual for them to disappear or have them on breasts. But a mole that grows in size is dangerous and needs prompt examination.

For a better understanding of colitis and other intestinal ailments, their causes and treatment, write to Dr. Thostleson in care of The Herald, P.O. Box 3999, Elgin, Ill. 60120, for a copy of his booklet, "Colitis and Kindred Complaints." Enclose a long, self-addressed, stamped envelope and 25 cents.

Art Buchwald

WASHINGTON — The power struggle in Washington goes on unabated and foreign ambassadors stationed in Washington are sending long cables back to their countries trying to explain it.

HERE IS one of the cables sent by a representative of the People's Republic of China who is living in D.C.

"Momentous historical events are taking place here in Washington with the opening salvo of President Ford's Great Cultural Revolution. At first it was believed that Henry Kissinger was behind the cultural revolution to bring disgrace on Defense Minister James Schlesinger. But now Kissinger is in disgrace himself and has been demoted to only an inconsequential post as Secretary of State. He has also been cited for contempt by the People's Congressional Subcommittee. Official American newspapers are predicting he will soon be sent to North Dakota to harvest grain at a state farm run by Agriculture Minister Earl Butz.

"KISSINGER IS now called a revisionist and counter-revolutionary by a majority of the People's Congress for advocating detente with the Soviet lackeys in the Kremlin.

"Defense Minister Schlesinger has been exiled to the John Hopkins School of International Affairs in the purge, and has been replaced by Donald Rumsfeld, a young member of the Ford clique who has been involved in a power struggle with the Kissinger loyalists for over a year.

"RUMSFELD has denied he was the instigator of the palace revolt, but his picture with Ford has been plastered on posters all over the outside walls of the Pentagon.

We Hold These Truths... A Chronicle of America

November 29, 1775:

In the first Continental naval seizure that yields important military bounty, Captain John Manley in the 14-gun schooner *Lee* captures the British ordnance brig *Nancy* at the entrance to Boston harbor. The *Nancy* yields 2,000 muskets, 100,000 flints, 30,000 round shot, 30 tons of musket shot, and one 2,700-pound brass mortar — later dubbed "Congress" by Manley. In December, he takes several other prizes, and in January General Washington names him commander of "Washington's Navy" of converted merchant ships. Manley goes on to a rather successful career as a naval officer and as a privateer. In January, 1783, he has the ironic distinction of making the war's last important capture, of the *Braille* in the West Indies.

Use Of HUD Funds Aired At Meeting

A small crowd in a cold fire station on the North Side weathered the elements Monday night to attend the first of two public hearings to consider possible funds for Big Spring from the Housing Urban Development Act.

A second meeting will be held at 7:30 p.m. today in the council room at City Hall. The public is invited to attend and to outline for what purpose they would like the funds to be used if they are obtained.

The city still has to make the pre-application for the funds, but Mayor Wade Choate told the group, "This time HUD is letting us say what we want before we apply. Last year, they told us what the funds could be used for and then we had the public hearings."

Tsgt. DENNIS GAYDOS

The funds approved last year were for \$300,000 and were designated to be used for sewer and water lines in underdeveloped areas with \$15,000 of the amount set aside for demolition of abandoned homes and buildings.

These funds are just now arriving, with work to begin within the next few weeks on sewer and water lines to new areas, according to Harry Nagel, city manager.

The law has changed since last year, and this year, if the funds are obtained, they

Airmen Honored At Webb

Capt. David N. Lopez is the Instructor Pilot of the Month for November in the 3389th Flying Training Squadron. His additional duties include: assistant flight commander, flight safety officer, cost center monitor and equipment custodian.

He also originated an IFR-VFR navigation route profile to go in a wing regulation. He routinely displays the ability to effectively cope with the unique problems associated with foreign student training. His in-depth knowledge of all facets of training has enabled him to guide each student toward attaining his maximum potential," said his squadron commander.

MSgt. John Kilpatrick, NCOIC of Radar Maintenance in Communications, received the first oak leaf cluster to the Air Force Commendation Medal.

Tsgt. Dennis Gaydos of the flight simulator section, is the Airman Instructor of the Quarter in Operations. Col. Robert A. Meisenheimer, deputy commander for operations, presented a certificate to him this week.

The 78th Organizational Maintenance Squadron's honorees for October are: Sgt. Michael D. Haynes, NCO of the Month; A1C Marc H. Schiele, Airman of the Month; Sgt. Thomas G. Lennox, T-37 Crew Chief of the Month; Sgt. Winston S. Johnson, T-38 Crew Chief of the Month; T-37 Dock 2 and T-38 Dock 1, Docks of the Month; T-37 Delta and T-38 Golf, Honor Flights for September.

Leaders Seeking Building 'Gift'

Northside Day Care Center leaders are hunting a building. They are not hunting a location, since they have a lot at 6th and N. Goliad made available by the City of Big Spring.

They have also been donated the services of a house mover. What is needed, according to Mrs. J. Porras when she spoke at the city public hearing Monday night, is a building.

The group is seeking an old house or building that someone no longer wants and will donate to be used as a Day Care Center on the

Northside. State Welfare funds are available if leaders can obtain matching funds and are presently in the process of raising funds for equipment and toys.

Anyone desiring to donate funds may do so by placing them in a fund at First National Bank in care of Mrs. Herbie Smith. Donations may be mailed to Box 2231.

COW-COW BOOGIE

Big Spring police responded to a loose cow alert at 9:08 p.m. Monday at the corner of FM 700 and 11th Place. Unable to locate the black and white dairy cow's owner, officers chased the cow off the road.

Police again responded to a loose cow alert, 32 minutes later at the same location, and advised that they again had chased the cow off the road.

Another cow was reported running loose at the corner of 11th Place and Birdwell at 11:44 p.m. An officer responded but was unable to locate the four legged offender.

Two Die In Houston Fire

HOUSTON (AP) — Two persons died Monday night in apartment fire in north-east Houston.

The dead were identified tentatively as Paul Sedel about 55, and Veola Morgan, about 60.

DEATHS

T. B. Franklin

LAMESA — Funeral services will be held at 4 p.m. today at Northside Baptist Church for Theodore Benjamin Franklin, 66, who died early Monday in Medical Arts Hospital.

The Rev. Cecil Foster, pastor of the church, will officiate and burial will be in Lamesa Memorial Park with Brannan Funeral Home in charge.

A resident of Rt. 2, O'Donnell for the past 25 years, he was a native of Coahoma and lived many years in Howard County. He has been a member of the Baptist church for 47 years.

Survivors include his wife, Marjorie Marie, two daughters, Mrs. Van (Sharon) Carr, Wech and Mrs. Gary (Cathie) Scott. Lubbock and a step-mother, Mrs. Faye Franklin, O'Donnell.

Other survivors include six sisters, Mrs. Vera Hill, Seminole; Mrs. Lillian Kountz, and Mrs. Wilda Nobis, both of Lubbock; Mrs. Nancy Stinett, Aransas Pass; Mrs. Ann McKenzie, Seagraves, and Mrs. Katherine Wilson, Canyon and three brothers, Harold Franklin, Lubbock; J. O. Franklin, Denver City and David Franklin, O'Donnell. Three grandchildren also survive.

Catholic Church and the St. Joseph Society. He was a veteran of World War II.

Survivors include his wife: two daughters, Mrs. Mary Tobar, Mrs. Placida Regalado, both of Big Spring; two sons, Juan Ayala, stationed with the U.S. Navy in Spain, Adrain Ayala, Big Spring; one brother, Augustine Ayala, Big Spring; two sisters, Gloria Hilario, Petra Miramontes, both of Big Spring; and five grandchildren.

Infant Boy

LAMESA — Graveside services for Johnny Salinas Jr., the five-month-old son of Mr. and Mrs. Johnny Salinas Sr. of Lamesa, will be at 10 a.m. Wednesday in Lamesa Cemetery with the Rt. Rev. Msgr. Jerome Vitek, pastor of St. Margaret Mary's Catholic Church here, officiating.

The Salinas child died at 7 a.m. Monday in Medical Arts Hospital here.

Survivors include his parents, and his grandparents, Mr. and Mrs. Jesus Salinas of Lamesa and Mr. and Mrs. Roman Salinas of Lamesa.

Juan Ayala

Juan Ayala, 62, died 2 p.m. Monday in a local hospital. Rosary will be said at 8 p.m. today.

Mass will be celebrated 2 p.m. Wednesday at St. Thomas Catholic Church with the Rev. Leo St. John, pastor of St. Thomas, officiating.

Military graveside rites will be observed at Trinity Memorial Park.

Mr. Ayala was born Dec. 27, 1912, Leon Guanajuato, Mexico. He was a resident of Big Spring since 1949. He married Concepcion Rodriguez, May 26, 1948 in Big Spring. He was a member of St. Thomas

CRMWD Bonds Gain 'A' Rating

Bonds of the Colorado River Municipal Water District have been given an "A" rating by Moody's Investors Service, Inc.

This, together with Standard and Poore's similar service, is regarded as the basis of desirability of bonds. Standard and Poore in 1969 raised its rating on the CRMWD bonds from B to A.

Although the district has nothing in immediate sight that would indicate the issuance of more bonds, the change of rating normally would indicate a more advantageous rate for bonds

Worth said the prices he quoted might change after Jan. 1. He was promised a decision before then.

The court wanted to talk to others holding elections and see if they would be interested in renting the equipment if the county owned it.

HIGH NOTE The discussion started on a different note.

The 3,100 ballots cast on punch-card ballots election day, Nov. 4, were counted one and one-half hours after the polls closed, County Clerk Margaret Ray said.

(Almost 200 absentee ballots were on old-fashioned paper ballots and in addition to the 3,100.)

The majority of your election judges were highly in favor of it," Judge Tuna said of punch-card ballots.

COST SAME "It will not cost you more" than holding elections with paper ballots, Eschberger said. "You'll save enough money to pay for the system over a 10-year period."

Including \$1,600 for lease of punch-card voting equipment, the Nov. 4 election cost Howard County \$2,494, County Auditor Virginia Black said. The \$1,600 would apply to purchase, which could be made

Fee For Fund-Raising Dance At Barns Waived

County Commissioners Court waived a \$75 registration fee for a fund-raising dance scheduled at the fair barns Saturday night.

Don Grissim of the West Wind Band said dance proceeds will go to the Family Counseling Center.

"They're literally to the point of closing up shop," Grissim said.

"It's a service that Howard County, and Webb (Air Force Base) can't afford to lose," the performer added.

In other business Monday, the court: Approved the 1975 tax roll.

Authorized installation of a teletype machine in the tax office. Installation will cost \$100, and the monthly bill will run \$90.

The tax office will use the machine to get vehicle title information. The charge for this service will be \$2.

Discussed selling an addressograph machine purchased in 1955 for \$6,500.

Learned that new legislation changed the law

which previously provided for "permanent" voter registration. The computer will replace the machine used to indent plastic cards. Future registration certificates will be on paper.

And heard about plans of

Mrs. Viba Cormas to retire Dec. 16 as chief of the motor vehicle registration office. Mrs. Zillah L. Bednar, county tax collector, said coffee and punch will be served in Mrs. Cormas' honor on her last day.

Councilmen Deny Traffic Count

The city council denied a possible traffic count for the possibility of removing the traffic lights at FM 700 and Highway 80 at this time, because the count would not reflect the true picture of the area, which is expected to build up in the near future.

Members of the city staff indicated that the highway department should not be out of the cost of a traffic count.

when the entire area may change in the near future. The count was a request of the traffic commission after they received a petition by Ted Griffin. The council said they were interested in the intersection, but lights are hard to replace if the area grows considerably in the future near the hospital complex.

In other items approved by the traffic commission, the council backed them up. One is a request to lower the speed limit on FM 700 from 45 miles per hour to 35 miles per hour around the curve near the intersection of Wasson Road and Westover. This request is due to many accidents at that location.

They also approved studying the 20 mile per hour speed limit between Hall-Bennett and the Nursing Inn and begin to enforce it if the sign is to remain at that location.

They approved stop signs on Runnels, Johnson and Nolan at the intersection of 24th and a stop sign on 24th where it intersects with Goliad.

They also approved stop signs on 16th at Pennsylvania and stop signs on Tulsa at Ridgeway. Yield signs will be placed on Ann and Lynn at their intersection with Merrill.

Woman Hurt In Accident

A major, one-car accident occurred at the intersection of West Hwy. 80 and FM 700, 2:35 a.m. Monday. Violet Marie Johnson, 2909 Old West Hwy. 80 was traveling west on US 80 when she attempted a left turn on to FM 700. Ms. Johnson "fainted" during the turn and lost control of her car, striking a traffic light pole, police said.

An ambulance was alerted 2:41 a.m. and Ms. Johnson was taken to Malone and Hogan Hospital.

Four More 'Ears' Gone

There were four more CB radios stolen from parked cars Monday.

Two of the thefts occurred at Medical Arts Hospital. Johnny Holt reported the theft of a CB radio valued at \$160 and a \$30 jacket there 5:25 p.m. Monday. Benny Pickett reported that his CB radio valued at \$116 was stolen at the hospital an hour and a half later.

Thelma Fry reported the theft of a CB radio and \$15 damage to her car at the Inandale Grain Co., and Roy Burklow lost his \$150 CB radio at his home, 6:06 p.m. Monday.

Enrollment Up

Big Spring Senior High School reversed the trend and added 10 pupils during the past week. This helped the schools show an enrollment of 6,489, a gain of 14 for the week, only 45 under a year ago. Elementary schools had 3,258 pupils, a gain of four (with Marcy leading with five more pupils). Secondary schools showed 3,118, a gain of 12, but hospital and homebound enrollment of 113 was down two.

County Dads' Enthusiasm For New Computer Wanes

Until the salesman started talking about computers, County Commissioners Court Monday appeared enthusiastic about buying 112 punch-card voting booths.

Tom Eschberger of Computer Election Systems suggested the court also purchase an expensive "mini-computer" to count the ballots.

What's wrong with using the new computer the county has contracted to lease for the tax roll, voting and other functions?

"WORST?" The NCR model 50 "is probably the worst" computer available for counting ballots, Eschberger said.

"It will count the ballots," Eschberger explained. "It does it extra slow."

That means counting a box in minutes instead of seconds, County Judge Bill Tuna said with relief.

Yes, but the NCR machine also will jam frequently, Eschberger said. Folded, crumpled and twisted ballots, which the "mini-computer" counts, will stop the NCR machine, Eschberger said.

No. Eschberger did not know what kind of computer Ector County used for the Nov. 4 constitutional election, but Ector officials were not using NCR previously.

The 100, as it name implies, has twice the capacity of the model 50, Eschberger said.

Joseph Turcotte of Gamco Industries Inc. is "pretty well up" on the NCR 50 computer, Judge Tuna said. "He says that it'll (the NCR 50) work excellently."

TRY BANK "There are other systems (computers) in town that are 10-times better," Eschberger said. He suggested, for example, one at "the bank across the street."

Even the bank computer will not count the ballots as well as the "mini-computer" did, Eschberger said. Also, with another computer, a special program costing from \$50 to \$1,200 will be required for each election.

"It (the 'mini-computer') requires no special programming for the election," Eschberger said. Eschberger said one other firm also sold punch-card voting devices. He offered to provide its name and address so bids could be entertained.

Judge Criticized For Vigil Action

MENA, Ark. (AP) — The executive director of the American Civil Liberties Union of Arkansas has criticized Polk County Juvenile Judge J. B. Stevenson who has tried to end a vigil by 25 persons waiting in isolation near here for the second coming of Christ.

The letter from Nan Brown of Little Rock said the people were exercising their right of freedom of religion as guaranteed by the First Amendment to the U.S. Constitution.

Stevenson said Monday that he had received Mrs. Brown's letter, but that he wouldn't answer it. "I'm just like a baseball umpire — I call them like I see them," he said.

Stevenson recently ordered the sheriff to remove six school-age children from the vigil site and see that they returned to school to comply with Arkansas' mandatory school attendance law.

At Stevenson's suggestion, county health officers inspected the small brick house where the vigil is being held in hopes of finding violations that could force an end to what Stevenson has

called this "nonsense." However, no violations were found.

Mrs. Brown's letter said the ACLU viewed Stevenson's statement characterizing the vigil as "nonsense" and his suggestions about the health inspection as a "threat of harassment against these individuals who are practicing their sincere religious convictions."

Stevenson said he didn't mean to "hurt anybody's feelings" by his public statements, but he said he had the official responsibility of enforcing the state's laws.

"I don't think I've done anything wrong," the judge said, "and for that reason, I'm not answering it (the letter.) I haven't said anything that I'm sorry for."

The vigil began Sept. 29 after one member of the group said he had a vision from God that the second coming of Christ was about to occur. The vision told the group to stay together in isolation until Christ came. Most of the vigil members are relatives.

Vigil members have refused to talk to reporters except to say the vigil is "God's will."

(AP Wirephoto)

INJURED IN COLLISION — David Orcutt of Galveston, Texas, a crewman from the missile cruiser USS Belknap, rests in a Naples hospital bed Monday. Orcutt was among the injured Saturday night when his ship collided in the Mediterranean with the aircraft carrier John F. Kennedy.

'Mailmen' Heist Truck, \$1 Million Diamonds

NEW YORK (AP) — Professional thieves disguised as mailmen made off with a glittering haul of up to \$1 million in diamonds and other gems after hijacking a truck in an underground garage in Rockefeller Center.

The well-planned heist began Monday morning when mail truck driver Wayne Johnson, 45, was approached in the cavernous lot by one of the armed, bogus mailmen. He was ordered into the back of the truck and bound.

Johnson told police that the truck made five or six stops before it came to a final stop on Manhattan's East Side. When he freed himself, both the fake

mailmen and six mail bags containing \$500,000 to \$1 million in gems were gone.

The jewels were headed either to or from swank shops in the mid-Manhattan Rockefeller Center area or the neighboring diamond district, police said.

Russians Watched U.S. Ships Collide, Burn

NAPLES, Italy (AP) — A Soviet warship was within camera range when the aircraft carrier John F. Kennedy and the missile cruiser Belknap collided in the Mediterranean, a U.S. Navy source said today.

The Soviet vessel, a destroyer of the Kotlin class, may have photographed the collision last Saturday, the ensuing fire and the entire rescue operation, the source said.

"If I were there, I would have done the same myself," he added.

The Soviet warship was keeping tabs on a routine night flight exercise of a seven-ship task force from the U.S. 6th Fleet when the 1,047-foot carrier and the 547-foot cruiser collided about 70 miles east of Sicily.

Fifty-five of the Belknap's crew were swept overboard, but most of them were rescued. The Navy revised the casualty toll today, announcing that five men were killed, two were missing and presumed dead and 21 were injured and still hospitalized. It said another 26 men were injured but had returned to duty after treatment.

Earlier the Navy announced that four men were killed and four were missing. Ten of the injured had

serious burns and were flown to the U.S. Army hospital in Landstuhl, West Germany, which has special facilities for treatment of burns.

The cruiser was badly damaged by explosions and fires that followed the collision. She was towed to Augusta, Sicily. The Kennedy was only slightly damaged and remained at sea.

Soviet and U.S. warships often shadow each other in the Mediterranean, and this time the Soviet destroyer was close enough for sailors in the American force to read its number. The U.S. Navy said it did not ask any help from the Soviet ship and none was offered.

The Navy said it would have no information concerning the cause of the collision until after completion of its investigation. But one of the injured sailors from the Belknap, Mack Leonard, 25, of Boston, Mass., said the cruiser was ordered to move from ahead of the carrier to astern of it and "about one minute before the collision we had a course change to avoid a worse disaster."

Farmers Union Will Elect

The Howard County Farmers Union holds its regular monthly meeting today, at 7:30 p.m., in the Texas Electric Service Company Reddy Room. Delegates for the state convention will be elected.

Easley Convicted For Second Time

DALLAS (AP) — Charles Dennis Easley has been convicted for the second time in the slaying of a 7-year-old Sherman girl six years ago.

The verdict was handed down Monday by State District Court Judge James Zimmerman, who took the case under advisement when Easley waived a second jury trial. Zimmerman set Dec. 5 for sentencing.

Plan Early Holiday For Dying Son

KANSAS CITY (AP) — The Cecil Hearts plan to pick out a tree, buy presents and celebrate an early Christmas later this week while other families are observing Thanksgiving.

Doctors fear Carl Heart, 10, ravaged by leukemia, will not live another month.

Carl is to return this week to the family's home in Salina, Kan., from a Wichita hospital, one of four he has been in since being stricken a 1 1/2 years ago.

"The poor little guy is getting worse every day that goes by," his father said in a telephone conversation Monday night. "But it could be that he will (live until Christmas)...it could be that he will."

A McKinney jury found Easley guilty of the death of Donna Marie Golish in 1971 but a new trial was ordered by the presiding judge. The case was moved to Victoria earlier this year on a change of venue.

The child's half-clad body was found in September 1969.

The Texas Court of Criminal Appeals dismissed other charges against Easley, 23, when it overturned his second conviction in the 1970 slaying of Laurie Stevens, 11, of Denison. A Wichita Falls jury had assessed Easley a 100-year prison term in the Stevens case.

His first trial in 1970 had resulted in a 300-year prison term that was overturned on appeal in 1973.

Rate Boost Is Sought

COLORADO CITY — An application for an increase in telephone rates will be filed by Southwestern Bell Telephone Co., before the city council Tuesday night.

New rates requested by the company include a monthly increase in business one party from \$13 to \$14.50;

in residence one party from \$6.25 to \$8.75 and in residence two party from \$4.95 to \$5.15.

Present Colorado City exchange rates were established in 1972. Bill Gilliland, telephone company manager said, "The company has done all it can to keep expenses as low as possible. We hope the request for higher rates will receive prompt and favorable action from the city council."

Hunting Mishap Injures Coach

Ray Martin, 26, of Jonesboro, grandson of Mrs. Ollie Attaway of Big Spring, was injured in a hunting accident over the weekend.

Martin is in Correll Memorial Hospital in Gatesville being treated for gunshot wound to his left hand. He lost part of his index finger, his thumb and part of the palm of his hand when his rifle discharged as he was getting it out of the car at the home of his parents in Jonesboro.

Martin is a football coach at Oglesby High School.

Kennedy Library To Be Near Sea

BOSTON (AP) — residents scuttled those plans.

Sen. Edward M. Kennedy, D-Mass., told a news conference Monday the University of Massachusetts site was the unanimous choice of the Kennedy family and trustees of the library corporation.

"President Kennedy was very much a public man and a public figure, he said. "It is appropriate that the museum and archives that bear his name be housed in a public place."

He said the school's site on Boston Harbor was important to the family and the trustees in view of John F. Kennedy's close association with the sea during his lifetime. One requirement, he said, was the building be "as close to the water as possible."

The decision ended 12 years of squabbling and threatened legal action. Kennedy said the trustees abandoned the Cambridge, Mass., site near Harvard because "a small and vociferous group was prepared to entangle the corporation ad infinitum in the courts."

Community groups in Cambridge, across the Charles River from Boston, had complained the museum would draw up to one million persons annually into the already congested area.

COLLISION — This photo shows firemen moving through the wreckage of two Illinois Central Gulf freight engines which collided head on near Coahoma, Miss., Sunday night. A brakeman aboard one train was killed. Three other crewmen were injured, including brothers David Coopwood and Billy Coopwood of Holly Springs, Miss., engineers on the respective trains.

Five Persons Sentenced Quinlan Asks Court For New Guardian

COLORADO CITY — Five persons were sentenced to the state prison in 32nd District Court last week, with Judge Weldon Kirk presiding.

Selverio Guerrero had his probation revoked on a sentence for burglary. Melvin Ray Scarberry was sentenced to two years for driving while intoxicated, a felony.

MORRISTOWN, N.J. (AP)— Joseph T. Quinlan has asked the court to replace his comatose daughter's legal guardian because the attorney is "hostile to myself and my family."

Quinlan filed a motion here Monday asking state Superior Court Judge Robert Muir Jr. to stay a Nov. 10 decision that denied Quinlan's request that he be named guardian of his daughter, Karen Anne, with permission to order her life-sustaining respirator shut off.

medical treatment. Joseph Quinlan's statement attached to the motion said: "By his statements in connection with the trial, both in court and to the news media, Mr. Coburn has assumed a posture which I feel and believe to be hostile to myself and my family."

A hearing on the motion was scheduled for Dec. 12.

Ifran Molina was sentenced to four years for aggravated assault in connection with a shooting in the Sands area.

Carrie Caswell Thomas was sentenced to two years for criminal mischief in connection with damages to stores with B-B pellets.

Hollis Wayne Thomas was sentenced three years for criminal mischief in connection with damages to stores with B-B pellets.

The motion asked Muir to grant the stay or remove as Karen's guardian Daniel R. Coburn, a public defender.

In rejecting Quinlan's request to be named guardian, Muir named Coburn guardian with power to decide what changes, if any, should be made in her

During the trial last month, Quinlan's request was opposed by the doctors treating Miss Quinlan and by St. Clare's Hospital, where she has been maintained in a "persistent vegetative state" for seven months with the help of a respirator in the intensive care unit.

The Quinlan family had sought a ruling that they said would allow their daughter "to die with dignity." Muir rejected their request, saying in part that there was no constitutional right to die.

Want Grid Death Investigation

AUSTIN, Tex. (AP) — Two legislators have recommended an investigation into reasons why a non-profit rehabilitation center delayed accepting an injured football player and ultimately rejected his case altogether.

Jake Whetstone Jr., 16, of Kildare died at the Linden Municipal Hospital on Sunday of lung complications after being hospitalized on Nov. 14. He was paralyzed from the neck down after making a tackle during the Linden-Kildare vs. DeKalb football game.

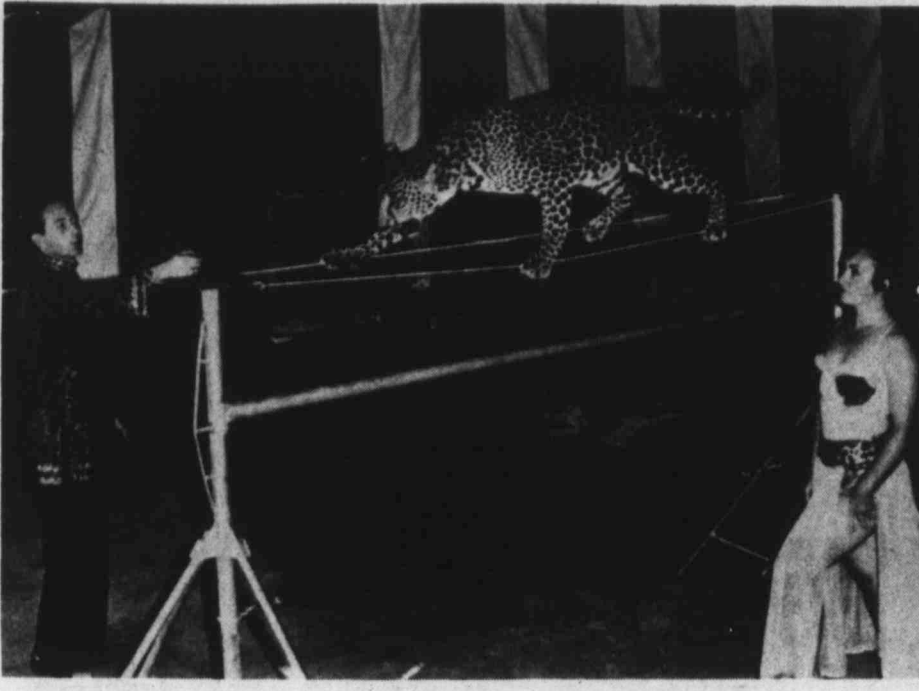

Reps. Buck Florence, D-Hughes Springs, and Mickey Leland, D-Houston, held a

news conference Monday to discuss the case.

Whetstone was hospitalized at Linden while his family tried to get him into the Texas Institute of Research and Rehabilitation in Houston, they said.

Money was no problem, they said, because \$60,000 in insurance was available, and the Texas Crippled Children's Foundation was willing to pay for expenses above that amount.

At one point, they said, TIRR said a bed was available, but when Whetstone was about to be moved, the institute said that bed had gone to a "walk-in patient."

NIMBLE LEOPARD — Targa, the Wire-Walking leopard, scheduled to appear in Big Spring Wednesday, with the International All-Star Circus. The show, scheduled for 7:30 p.m. at the City Auditorium, is sponsored by the Civitan Club.

Circus Due Wednesday

Circus day, traditionally, second only to Christmas in the hearts of children of all ages, is almost here. The International All-Star Circus will be making its annual appearance here Wednesday in the city auditorium with the performance scheduled for 7:30 p.m. The Civitan Club is the local sponsor.

Just a few hours before showtime a crew of highly skilled stage-hands will begin the task of transforming the show building into a gleaming, glittering, sequin covered, chrome plated fantasyland suitable for the presentation of the 1975 edition of the International All-Star Circus. It's a childhood dream come true and an enjoyable trip into a land of pleasant memories for adults.

White Accused Of Stalling Compliance

AUSTIN, Tex. (AP) — Comptroller Bob Bullock today accused Secretary of State Mark White of stalling compliance with the U.S. Voting Rights Act "to make all his gloomy predictions come true."

Bullock held a news conference with Lt. Gov. Zell Miller of Georgia and Peter Petkas of the Southern Governmental Monitoring Project to denounce White's pronouncements against the act.

He said that he had learned from federal authorities that as of Oct. 22, White still had not submitted the state's new voter registration law to the Justice Department for approval under the act. The law, under attack in federal courts, called for a purge of the voter rolls to begin Nov. 5.

Betty Wants Four More In White House

NEW YORK (AP) — First Lady Betty Ford says she does not agree with her husband on every issue, but there's one they definitely agree on — the desire to spend four more years in the White House.

"There's so much I want to do to build interest in all the performing arts and for retarded citizens. Another four years would give time to plan so much more," Mrs. Ford said in an interview with Time magazine.

"I see more of Jerry than I ever did before," she added.

Mrs. Ford also said she will campaign for her husband's election, but she won't "talk issues."

Builders Busy In Midland

MIDLAND — With the issuance of 24 permits costing \$1,108,700 last week, 1975 building permits in the City of Midland now total \$27,405,058.

Five applications were granted for commercial property, with total cost listed at \$950,190.

Play Cancelled

MIDLAND — "Give 'Em Hell, Harry!", a stage show scheduled here for Saturday, has been cancelled.

The touring actors will not venture into Texas, since ticket sales have proved disappointing.

The show features Ed Nelson, who replaced James Whitmore in the role of Harry S. Truman.

White Accused Of Stalling Compliance

over us provided the secretary of state adopts a 'can do' attitude and encourages cooperation instead of resistance," Bullock said.

Bullock suggested White was "trying to make all his gloomy predictions come true... He said there will be massive confusion over compliance with the act, and there will be if he doesn't offer local officials some guidance."

Miller said it was a simple matter to submit election law changes to the Justice Department, and Georgia had had no problems with it.

Petkas said Georgia's experience was typical of the South, which has been under the act since it first was passed in 1965.

Sabine Carpenters End 283-Day Contract Strike

BEAUMONT, Tex. (AP) — The longest strike in Southeast Texas history has come to an end, bringing about 7,000 building craftsmen back to work on industrial construction jobs worth about \$1.5 billion.

Members of the Sabine District Council of Carpenters ended the 283-day stoppage Monday when they voted by a substantial majority to accept a three-year contract with industrial contractors represented by the Sabine Area Construction Committee.

Auvie Wheeler, business agent of the district council, said members of Carpenters

Locals 753 in Beaumont, 610 in Port Arthur and 2007 in Orange, and Pile Drivers Local 1347 accepted an agreement amounting to some \$3 per hour more in wages over the life of the contract.

The deal finally accepted was \$0.17 per hour more than the contractors had last put on the bargaining table, but was \$0.07 an hour less than union members had hoped for. It was proposed Nov. 17 by a national officer of the Federal Mediation and Conciliation Service in what was termed an extraordinary move for the FMCS, which ordinarily

functions only as a mediating counsel to both sides.

The contract calls for \$1.10 per hour for journeymen — a scale that will be made retroactive on several jobs where national construction firms signed letters of agreement to get work started several weeks ago; another \$1 next April 1, and \$0.90 an hour more on April 1, 1977, with additional increases for foremen and apprentices.

Wheeler said the agreement will bring the scale for pile drivers to \$10.96 per hour and the rate for journeymen carpenters to \$10.83.

Hawks Seek To Improve Upon 7-1 Cage Record

Fresh from winning the Odessa Tournament last weekend, Howard College turns attention to three home games in a row. The Hawks now own a flashy 7-1 won-lost record.

HC catches McMurry JV for the second time in round at 8 tonight at the Hawk gym, followed by Hardin-Simmons JV Friday and the Western Conference opener with New Mexico Military Institute, Dec. 1. The Hawks opened the 1975-76 season at home by pasting the same McMurry five, 106-70.

At Odessa, the Hawks after first being scratched from the entry list, brought to close a long tournament drought title bid going back to 1964, defeating Odessa College, 107-97, in the Saturday night finals.

HC climbed into the Odessa finals by stopping Temple, 80-72. Both Odessa and Temple had undefeated records at 3-0 and 2-0, respectively, before encountering the Hawks. The Odessa championship was

coach Harold Wilder's first since becoming Hawk director six years ago. Marvin "Cowboy" Johnson continues his

JIMMY PAYE

master of the net. He tops the Hawks in scoring. He hit 31 or more points in four games, dipping to 28 in the fifth match and 26 in the sixth, then banged away for 35 points in both the Temple and Odessa tests.

Johnson and Erves are the only two Hawk returnees. Paye was red-shirted last season. Johnson's game high was 45 points in the one-point loss to college of the mainland.

In their second game of the season, the Hawks set a school scoring record by blasting Bay Ridge Christian College, 178-86. HC has gone over the 100 mark five times.

Coahoma Girls Win 2 Games

COAHOMA — The Coahoma Junior High girls cagers swept two games from the San Angelo Lincoln teams Monday night, with the eighth grade winning, 38-20, and the seventh grade winning, 59-40.

Andrea Fowler led the Coahoma seventh graders with 39 points, followed by team mate Karen Wolverton who scored 12 points. Lincoln was led by Follis, who canned 18 points.

Julie Higgins and Lilly Baker each scored 12 points to lead the Coahoma eighth graders, followed by Rhonda Griffin, who scored 10. For Lincoln Braddock scored 10 points.

The wins left the eighth grade with a 2-0 record and the seventh grade with a 1-1 record.

Both teams will see action again Monday when they travel to Greenwood for a pair of games.

Bearcats Split Two

GARDEN CITY — Garden City's girls battered Westbrook, 56-34, but the Westbrook boys won the second half of the twin bill here Monday night, 42-38.

The Garden City girls are currently 4-2. The boys have yet to win in two assignments. The boys return to play Monday in Big Spring against the Big Spring Sophomores. Tipoff time is 4:15 p.m.

Becky Hirt had a hot hand in the girls' game, scoring 19 points. Westbrook's P. Moore paced all scorers, however, with 24.

Matlock and P. Rich were standouts for Westbrook in the boys' contest, counting 19 and 14 points, respectively. Bobby Doe led Garden City with 12.

The Garden City teams will host area schools in a tournament scheduled Dec. 4-5-6.

GARDEN CITY (56) — Becky Hirt 19, 1-19; Denise Jans 5-0-10; Patsy Blizard 4-2-10; Donna Plegens 3-1-7; Mary Kay Schwartz 1-0-2; Linda Chandler 1-0-2; Tina Bednar 0-3-3; Linda Schwartz 0-1-1; Yvette Coffman 1-0-2. Totals 23-8-56.

WESTBROOK (34) — P. Moore 4-16; 2-4; T. Brooker 0-1-1; D. Dorn 4-1-9. Totals 18-34.

Garden City 13 25 45 56

Westbrook 9 14 26 34

Boys' game:

GARDEN CITY (38) — Juan Garza 4-8; Bobby Doe 5-2-12; Amado Delapina 3-2-8; Greg Frerich 1-1-3; Steve Smith 3-1-7. Totals 16-6-38.

WESTBROOK (42) — P. Rich 5-4-14; Matlock 9-1-19; Anderson 1-4-4; Rich 1-1-3. Totals 16-10-42.

Garden City 10 20 30 38

Aggies Moving Up In AP Grid Poll

By The Associated Press
Ohio State, which slipped past Michigan on a wing and a prayer 21-14 Saturday, was a near unanimous choice as the nation's top-ranked college football team in this week's Associated Press poll.

All of which impressed the AP's national panel of sports writers and broadcasters enough to give the Buckeyes 56 of 59 first-place votes and a total 1,168 points.

SCAMPERING QUARTERBACK GROUNDED — Bob Griese, Miami Dolphin quarterback, is shown as he scampered in Sunday's game against the Baltimore Colts in Miami. Griese injured a tendon in his toe and is to undergo surgery, only after carefully considering the odds. Surgery is the safest and surest way, said coach Don Shula after a day of consultations with doctors and Griese.

Fates Are Frowning On Teaff And Bears

WACO, Tex. (AP) — Grant Teaff walked across in the bitter cold at dusk across the now deserted field in Baylor Stadium.

came back the next year to win the title. Teaff wrote a book along with Sam Blair of the Dallas Morning News called "I Believe" about life and football.

It sold 10,000 copies the first month and the season started well with a victory over Mississippi and ties with Auburn and powerful Michigan.

Then the wheels came off, starting with a loss to South Carolina. A team that had appeared most capable of defending the conference crown became entangled in a bog of fumbles.

When Baylor had that trouble in 1973, Teaff fixed up a machine where his runners had to plunge through a maze of rubber ties. It cured the problem in 1974.

"I really don't have an answer for our fumbles this year," said Teaff.

He added "I'll say this—our program is maturing. I haven't heard any discouraging words. Everything is very positive. We had high aspirations as we will every year but nothing can take away from the program we have established. I think our recruiting is good."

"We've really got to recruit well now to be competitive next year," he added. "Do you gentlemen need anything else?"

Teaff got up to leave and started toward the elevator. He turned and smiled "There's got to be a reason for everything."

Then the man who was on the top of his profession a year ago walked away back down the stairs, searching for that reason.

Stealers Batter Oilers

HOUSTON (AP) — The Houston Oilers, sworn to "hold the rope," came unraveled on nationwide television Monday night under the aerial assault of pressure-proof Terry Bradshaw and Pittsburgh's Steel Curtain defense.

Bradshaw flawlessly threaded 13 of 16 passes through the porous Houston Oilers defense to lead the Steelers to a 33-9 victory and give Pittsburgh a one-game lead over Cincinnati in the American Football Conference's Central Division chase.

Coach Chuck Noll was so impressed with his Steelers' handiwork that he pronounced them playoff ready. "Our offense is where it was at the end of last season, moving the ball well and taking the pressure off the defense," Noll said after Bradshaw whipped the Oilers to two touchdowns in a 1:28 span of the second quarter for a commanding 15-3 halftime lead.

"When you get the protection and the blocking from the offensive line that we did tonight, you're bound to move the ball," Noll said.

Despite the motto of "hold the rope" and 49,947 fans cheering them on, the Oilers wilted under the pinpoint passing of Bradshaw and the unflappable runs of Franco Harris, who gained 149 yards and scored two touchdowns.

The Oilers, who dropped to a 7-3 record and third place in the AFC's Central Division, took a 3-2 lead in the second quarter on a 27-yard field goal by Skip Butler but Bradshaw had the Oilers ahead 15-3 by the half with a pair of lightning-quick touchdowns in the second quarter.

The Steelers got a safety in the first quarter when Houston quarterback Dan Pastorini was tackled in the end zone after losing the ball from a shotgun formation.

Bradshaw keyed the first of two touchdowns runs by Harris with passes of 18 and 10 yards to Lynn Swann in the second quarter. Harris, the first runner to gain 100 yards against Houston's defense this season, bulled four yards for a touchdown with 2:23 to go in the half for a 9-0 Steelers lead.

Cornerback J. T. Thomas returned an interception 11 yards on Houston's next series and Bradshaw again went to the air with four straight completions, the last one 18 yards to Swann for a touchdown and the 15-3 halftime lead.

Four Coahoma Players On All-District 6-AA

Four members of the Coahoma team won first team berths on the All-District 6-AA football team chosen Monday by coaches. Three of the Bulldogs picked were defensive players.

The lone Coahoma player on offense was Tim Higgins, a 140-pound receiver. Picked on the defensive unit from Coahoma were Bobby Fryar and Bill Jennings, down linemen; and Gary Roberts, back.

Named coach of the Year was Dick Rogers of Anson, whose team finished with an overall record of 8-2-1.

Anamorphic picks were down lineman Jerry Vaughn, a 195-pound senior from Anson, and running back Don Earl, 170-pound junior, on offense; and Mathew Torres, 195-pound senior down lineman from Anson, and linebacker Bill Everett, 190-pound Colorado City senior, on defense.

Coaches could not vote for their own players, according to an agreement reached by the district committee.

First team quarterback was Anson's Tony Waits, a 185-pound senior who beat out Coahoma's Charles Tindol for the honor.

Coahoma players who were second team choices included down lineman Joe Wright on offense and down lineman Rickey Patterson and back Oscar Padron on defense.

defense. Colorado City first team selections included

linebacker Bill Everett and back Wayne McKee, both on defense.

Hoosiers, UCLA Vie Saturday

Those old smoothies from UCLA and several pretenders to the throne open the annual college basketball show this week. "New Faces of 1975-76" has all the hoopla and could have all the magic of a brilliant season.

The curtain opens with a big act as the defending champions from Los Angeles meet critically acclaimed Indiana in a game that could be a preview of the NCAA championship game.

Indiana and UCLA are ranked 1-2 in the country and they meet Saturday night in St. Louis.

Minus Coach John Wooden, who retired after last year's championship season, and two of the starters from that title-winning club, the Bruins are as bullish as ever. They've got Richard Washington, one of the best centers in the country, and guard Marques Johnson among a basketful of talent.

"I suppose they're going to jump all over me when I lose two games," says Gene Bartow, an easy-going Missourian who is the Bruins' new coach.

He is, of course, referring to Wooden's nearly impeccable record at UCLA. From 1963 until 1975, Wooden's great teams only lost 22 times, capturing 10 national titles. And the Bruins don't figure to do too much losing this year, despite the presence of a strong Southern Cal team and other imposing squads in the Pac-8.

At Indiana, the bulls of the Big 10 present a big problem for their colleagues, as well as other teams around the nation. Scott May and Quinn Buckner take charge of a monster club that had the longest winning streak in basketball last season—31 games.

The Hoosiers' only loss came by two points in the NCAA regional playoffs and prevented them from competing in the championship round at San Diego.

Along with the star-studded casts of UCLA and Indiana teams such as Kentucky, Oregon, San Francisco, Louisville, North Carolina, Maryland, Arizona, Marquette, Notre Dame and Alabama must rate top billing this season.

Shark Chaser Said Ineffective

ORLANDO, Fla. (AP) — Experts say a "shark chaser" chemical that has been standard issue with all armed services life jackets for more than 25 years doesn't work exactly as planned. In some cases, the "repellent" is eaten by the sharks.

"It was never really effective, but it helped psychologically because the people who used it didn't know it wasn't effective," Dr. C. Scott Johnson of the Naval Undersea Center told a weekend conference of shark experts.

The packets of black dye and copper acetate have been used by the armed forces since World War II. But Johnson said the Air Force has stopped buying the substance and the Navy soon will discontinue its use.

Officials said tests proved that the so-called repellent not only didn't chase away sharks but was sometimes

eaten by the predators.

"But at least the dye kept the person in the water from seeing any approaching sharks," said Dr. Stewart Springer, one of the creators of the "shark chaser" and now senior research associate at the Mote Marine Laboratory in Sarasota, Fla.

Antishark devices now in use around the world include sticks with explosive charges, electrical shocks and floating bags or shark screens that surround a person in the water.

Dr. H. David Baldrige said there is little hope that a useful chemical repellent ever will be developed. Even highly toxic substances such as cyanide and nicotine work too slowly to affect an attacking shark and are too easily dispersed, he said.

"And a shark repellent that works only part of the time is about as valuable as a parachute that only opens sometimes," he added.

Postal Service Must Cut Services To Save

WASHINGTON (AP) — If current efforts to cut the U.S. Postal Service's almost \$7-million-a-day deficit do not succeed, the agency may halt Saturday deliveries or curtail special delivery service, a spokesman says.

The spokesman said Sunday that those cutbacks may come if a program of reduced spending — that so far this year has meant the loss of about 7,000 postal positions through attrition — is not successful.

He quoted earlier statements by Postmaster General Benjamin F. Bailar that new curtailments, "might have to be considered if we can't turn it around with other economy measures."

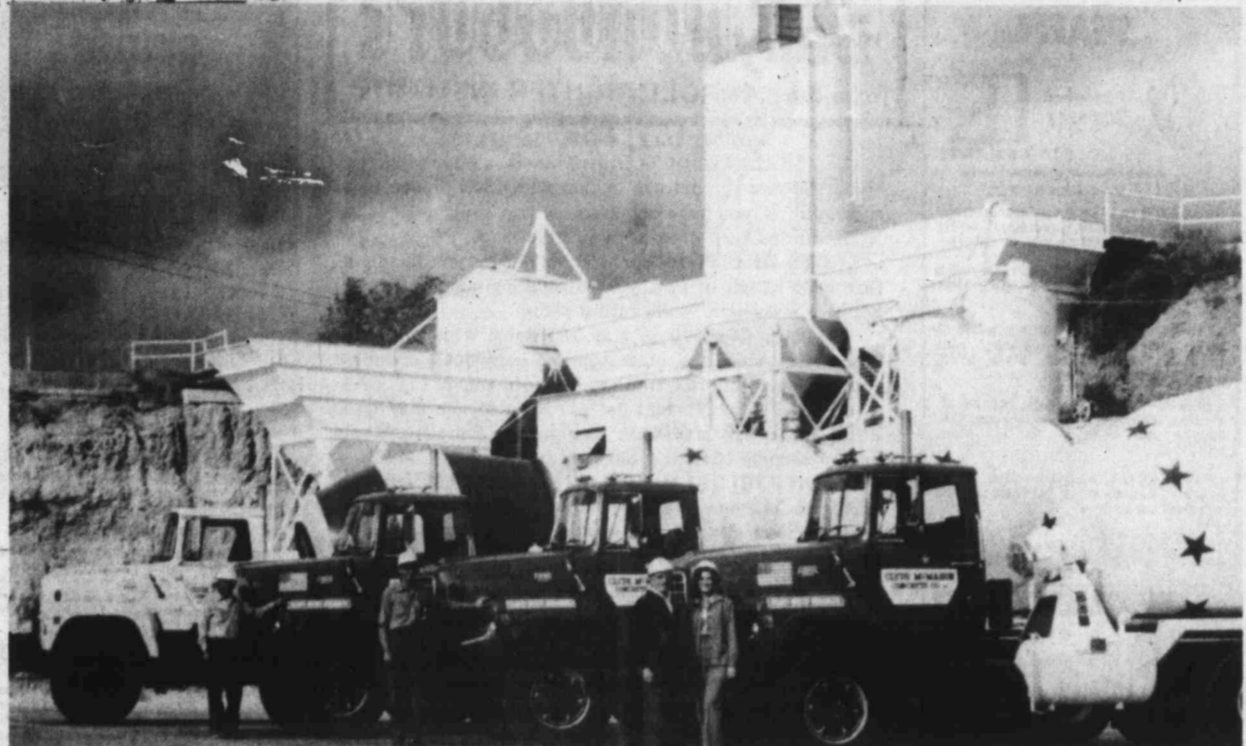

In a statement last week, Bailar said, "I cannot emphasize too strongly the severity of our financial situation. It calls for strong measures but ones which

must be taken."

Bailar said then the Postal Service is speeding up its process of closing rural post offices as an economy move.

The General Accounting Office recommended last June that 12,000 rural post offices serving two million families be closed. It said that would save the Postal Service \$100 million a year without hurting service.

Full implementation of that plan, however, is expected to arouse controversy in Congress and in rural areas.

For Concrete Needs, Check With McMahon's

For concrete needs, call Clyde McMahon. McMahon means concrete to Big Spring and the Big Spring area where for many years, McMahon Concrete and Supply has provided the needs for concrete whether it be a big project or a little one.

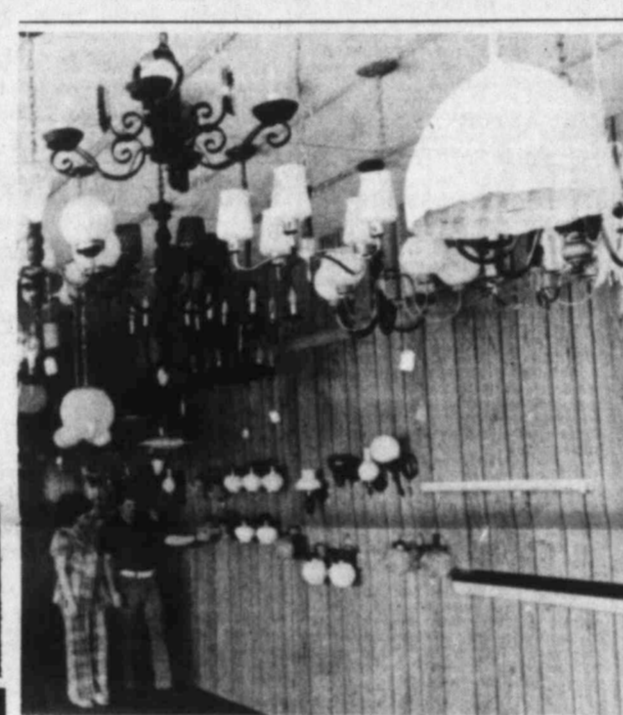

They recently added three new cement trucks to their line. "It is the first time we have ever purchased that many new ones at once," McMahon stated, "and we are really up to date right now. We painted stars and patriotic colors on them to dress them up a little bit."

McMahon's will cement your driveway or patio, build a foundation for a large building or simply build concrete patio furniture to dress up your home.

They build troughs and other concrete implements needed on farms and ranches.

They also have all of the items necessary to put a fireplace in your home. Don't sit around Christmas and wish you had a fireplace. Start planning now and by the following year you will have a fireplace in your home to enjoy on those long winter evenings.

Talk to McMahaons for concrete needs. Call Clyde at 267-6348.

M & E Lighting Offers Selection

M & E Lighting is ready to answer all of your lighting problems. They are always on hand to take care of your electrical needs.

But they offer something more than just top-notch electrical service. They have a selection of lighting fixtures like nobody else in Big Spring has at this time.

If you're wanting to brighten up somebody's Christmas in a very special way, select a new lighting fixture for them at this time.

Do you have a dining room fixture? Do you have a family room or den that could use more light and a little fancy decorating through a unique light fixture?

Do you have bedrooms that could be enhanced by delicate lighting or a kitchen that needs a cheery light fixture?

These are good ideas for holiday giving and when you start to look around for the kind you want, drop by M & E Lighting.

Ask Mr. and Mrs. Richard Brackeen to help you with your selections. Or call them at 267-6751.

Extended Coverage

By Jerry E. Mancill, CLU, CPCU

What does your life insurance REALLY cost? New consumer protection provides an index of the "interest-adjusted" cost, which will help you compare costs of different policies. Of course, cost is only ONE factor you will consider.

Old-fashioned "net-cost" method simply subtracted the dividends from the total premiums and then subtracted the cash value from that net. Sometimes it seemed you were making a profit.

The new method applies an interest factor to the premiums you paid. The total premiums figure includes what the premiums would have collected in interest if they had been invested conservatively (say, at 4 per cent). Dividends are treated the same way.

Actual cost of the insurance is divided by the amount to which \$1 deposited annually will accumulate at 4 per cent. For a twenty-year time-span the index is \$30.97.

These costs refer only to those policies which have a cash value. Term insurance is figured entirely differently.

Bring your questions to Stripling-Mancill Insurance Agency, 102 Caylor Office Building, 600 Main. We're equipped to handle all your insurance needs.

Dear Abby

Tune Out Mother-In-Law When Offering Suggestions

DEAR ABBY: Can you stand one more mother-in-law letter? I hope so, because that's my problem. My mother-in-law lives quite close to me and is always popping in, which I don't mind because she never stays long. But when she gets home, she phones me, and here is a partial list of her comments and questions:

"Are you sure Albert (he's my husband) is feeling all right? He looks constipated to me."

"I think you are keeping your house too warm. The

Mrs. Thomas Reviews Book

Mrs. Clyde Thomas Jr. reviewed a book written by her mother-in-law, Mrs. Clyde Thomas Sr., at the Friday afternoon meeting of the Woman's Forum.

The members met in the home of Mrs. Paul Kionka with Mrs. Omar Jones as cohostess.

Mrs. Thomas Jr. entitled the review "Giving Thanks for the Early Church Women." She included a story of how the author's father moved the family from Garden City to Big Spring for the children to attend Big Spring schools.

Mrs. Kionka presided during the business meeting.

Members approved plans to assist with a Christmas party for the residents of Unit IX of the Big Spring State Hospital.

Mrs. Arnold Marshall, 700 Highland Drive, will be the hostess for the Christmas luncheon at 12:30 p.m., Dec. 19.

Swartz Style Show Salutes Bicentennial

A salute to the bicentennial year was featured in the Swartz Style Show held Friday evening in the Webb Officers' Club.

Models from the Officers' Wives Charitable Association showed the latest designs in furs, evening wear, sports wear and swim wear.

The five and drum players and the flag bearer of the Spirit of '76 were outlined in lights against the backdrop of the modeling ramp. Banners proclaiming the Spirit of '76 and other bicentennial decorations enhanced the setting for the fashion show.

The fashion preview opened with dresses of the past eras modeled by several members of the OWCA.

All types of furs from the traditional to the boldy

GLIMPSES OF '76 FASHION — The Swartz Shops and Webb Officers Wives Charitable Association worked together to present the Swartz Bicentennial Fashion Salute to base and area residents. The style show was held Friday evening in the Officers' Club.

Mr. and Mrs. Adolph Swartz and Col. and Mrs. Robert A. Owens pose in front of the entry way decorations that added to the bicentennial theme of the fashion show.

Westbrook News

Mrs. Earl (Dutch) Doss, Mr. and Mrs. Jerry Putman, and Johnny Daniels of Westbrook and Thomas Daniels of Post were in Flagstaff, Ariz. to attend funeral services for Mrs. Doss' brother, Albert Daniels. The service was held Nov. 15.

Johnny Douglas remained in Douglas, Ariz. with his father, Jay Daniels.

Mrs. Steve Thompson and Mike Thompson of Lamesa spent the weekend with her parents, the Rev. and Mrs. Bob Manning.

"Facing Tension in the Middle East" was the title of the program for the Women's Missionary Union meeting held at the First Baptist Church. Mrs. Floyd Rice was the program chairman, assisted by Mrs. Gerald Rollins and Mrs. Lee Shaw.

Members made plans to attend the Mitchell-Scurry Association meeting on Nov. 24, at Green Hill Baptist Church. Donald K. Laing, missionary to South Brazil, is the speaker.

A "Mission Fair" on Dec. 7 will conclude the Week of Prayer for foreign missions. The fair will be held in the First Baptist Church.

The goal for the "Lottie Moon Christmas" offering was set at \$800.

The men of the First Baptist Church sponsored a family gathering on Thursday evening. C. E. Ranne welcomed members and guests.

The Rev. Jim Mosley entitled the program "What Will Tomorrow's Church Be?" He said that the local church should develop projects to involve young people in the church.

The Rev. Mosley is the pastor of the Oak Street Baptist Church in Colorado City.

Preceding the program, dinner was served by the Baptist men.

Woman Inducted Into Sorority

Mrs. Sue Robertson of Lubbock, daughter of Mr. and Mrs. Luke Fortenberry of Big Spring, was inducted into the Omega chapter of Phi Upsilon Omicron in a Sunday morning ceremony.

Phi Upsilon Omicron is an honorary professional fraternity in home economics. The Omega chapter is the branch at Texas Tech.

Mrs. Robertson is a senior home management major at Texas Tech.

Baby Born To Bunns

Mr. and Mrs. Allen Bunn of Roseville, Calif. announce the birth of their son, Drew Allen, at 7 p.m., Nov. 21 in Roseville.

The baby weighed 7 pounds.

Grandparents are Mr. and Mrs. Bill Bunn of Big Spring and Mr. and Mrs. Loyd Wolf of Coahoma.

Couple Plans To Be Married

Mr. and Mrs. R. M. Kirshenall of Ackerly announce the approaching marriage of their daughter, Jacquie Marie, to Joseph August Wirges III.

He is the son of Mr. and Mrs. Joseph A. Wirges of Petersburg, Neb.

The wedding will be held in the Immaculate Heart of Mary Catholic Church on Saturday morning.

A reception, dinner and dance will be held at the Non-commissioned Officers' Club at Webb Air Force Base.

Violet Heredity Program Given At Club Meeting

The Texas Bouquet African Violet Club met Wednesday afternoon in the home of Mrs. Charles Sweeney.

Mrs. O. S. Womack presented a program on the heritage and heredity of the African violet.

The violet is a Gesneriad and in the family of the santpaula.

The wild African violet, originally found in east Africa, was cross hybridized to form bi-sexual plants, the Blue Boy and the Blue Girl. The many domesticated African violets are continually cross-bred to improve and strengthen the strains.

HD Club Attends Stanton Meeting

Members of the Coahoma Home Demonstration Club met in the home of Mrs. Ray Swann on Wednesday morning prior to attending the HD achievement day meeting in the Stanton Community Center.

Mrs. Lena Heaton of South Dakota was a guest.

Guests at the achievement day meeting viewed booths of HD Clubs and 4-H Clubs of the area. A noon luncheon and a historical style show were featured.

A Christmas party will highlight the next meeting of the Coahoma HD Club, slated at 2 p.m., Dec. 10 in the home of Mrs. D. S. Phillips.

Recital Given By Area Youth

Area piano students participated in a Sunday afternoon recital held in the Howard College auditorium.

The monthly recitals are sponsored by the Big Spring Piano Teacher's Forum.

Students performing Sunday included Debra Shortes, Catherine Jones, Jamie Phillips, Robin Wilson, Janie Phillips, Karen Crandall, Jimmy Bradley, Andrea Burns, Jennifer Shirey, Kerrie Morrow, Lisa Caldwell, Tonya Shortes, Jaylene Saunders, Shauna Henry, Beverly Nichols and Laurie Bethel.

The next recital will be on Jan. 25.

You Are Cordially Invited To An Open House And Christmas Showing Sunday, Nov. 30 1 P.M.—5 P.M.

Holiday cheer in Flowers and Plants, Gift ideas, imaginative decorations...plus! That's what we've got waiting for you. Please stop by...We're looking forward to seeing you.

These bright lighting ideas can help you save energy.

We all need to use adequate lighting for reading, working, and security, but we also need to use it wisely. These ideas can help.

- Don't leave security lights on during the day. A photoelectric cell or a timer can control them for you.
- Use low-watt bulbs where you can. The lower the wattage, the less energy the bulb uses.
- Use fluorescent lights where possible. They produce about 2 1/2 times more light per watt than incandescent bulbs.
- Leave three-way bulbs on the lowest setting until more light is needed.
- Use light colors in lamp shades, walls, and floors to get the most reflectivity from light.

For more details, call us. We'd like to help.
