BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY SEPTEMBER 3, 1920

NO. 7

THE ELECTION IS OVER— NOW FORGET IT

In nearly every election ever held some one has said something that had better been unsaid, and in some cases there have been words that were the regret of after life, and especially in a heated battle such as Texas has just gone through.

We are glad to say that the Herald has absolutely refused to be peeved at any of his neighbors, for it granted them the same right to be for Mr. Bailey that it took in supporting Mr. Neff, and we do not believe that we have knowingly put in print anything that could not be sustained, yet we did all we could to carry old Terry for the Neff side of the controversy.

Now that it is over and settled and all of us aim to have Neff for our governor for the next two years at least, and if Bailey had been the choice of the second primary, we Neff folks would have considered that we had the same governor and as good one as you.

If you had out your hatchet, now is the time to bury it, and lets all unite again on the one great principal that we can always unite upon and that is making TERRY THE BEST FARMED AND THE MOST PROSPEROUS COUNTY IN WEST TEXAS.

To the Voters of Terry County

Again I wish to use this method to thank you for your much appreciated and valuable support given me in the campaign I have made, and in the recent second primary election, in which you have nominated me to be your Sheriff and Tax-Collector.

Yours truly,
Wood E. Johnson

Card of Thanks

I take this method of expressing my sincere thanks to those who supported me in the recent primary.

Although defeated, I am satisfied and hold no malice against those who voted against me. I will assist Mr. Johnson in any way I can to make a good Sheriff.

Very Respt.

COUNTY CENSUS IS GIVEN BY BOARD

BY LEO R. SACK.

Staff Correspondent.

Fort Worth Star-Telegram.

WASHINGTON, Aug. 23.—Despite losses here and there, the census enumerations of Texas Counties continue to show a healthy growth for Texas.

The count of twenty-nine additional counties has been completed by the Census Bureau. These counties—Castro, Crane, Cherokee, Hood, King Loving, Menard, Randall, Real, Terry Upton, Wheeler, Hansford, Lamb, Cisco, Cochran, Gaines, Hays, Martin, Morris, Motley, Oldham, Runnels, Brewster, Gonzales, Jeff Davis, Reagan, Rockwall and Wharton—totalled 195,440, against 175,855 ten years ago. Thirteen of these counties, too, showed losses.

Small, but Large

The count disclosed that Cochran County, which adjoins the New Mexico border, probably is the smallest County in population in the United States. But at that, it is growing as it had sixty-five persons ten years ago and sixty-seven folks this year, a gain of more than 3 per cent. With an area of 869 square miles, Cochran County has one person to every thirteen square miles.

In all, the Census Bureau has enumerated eighty-three Texas counties. These counties show a total population of 792,459, again 689,469 ten yrs. ago a gain of 102,990, and a percentage increase of more than 17 per cent.

Considering that with but one exception, Jefferson county, all of the big counties of Texas have yet to be announced, and likewise, the majority of populated counties, Census Bureau statisticians say that Texas rural growth is more than keeping pace with that in other states.

The percentage of rural growth is expected to take a decided increase when the bureau begins announcing the populous counties.

Terry county had 1474 in 1910 and 2236 by the present census, or a gain of 51.7 percent. Gaines county or neighbor to the southwest had a population of 1255 in 1910, but had only 1,018 by the present count, or a loss of 18.9 percent. This looks strange when both counties got a railroad the same year.

Practically all the counties bordering the T. & P. railroad showed a loss in population, but nearly all of what is known as the south plains counties show good gains. Perhaps Lamb county showed the biggest increase, for they had only 540 people in 1910, whereas the present census gives them 1,175 people, or a gain of 117.6 percent.

Of course it was the great drouth that knocked these counties, and if the census had been taken in 1917, the loss would have been much the

BROWNFIELD PUTS ON GOOD BARBECUE

Of course we knew that the annual picnic or barbecue of Brownfield did not need much advertising, for it has been so long an annual affair that people will just as naturally come to it as they will the Dallas Fair without it. And we must say that this barbecue was little advertised. In fact no advertising committee was ever appointed. Then the weather was decidedly against us. It had been raining all week, and the evening before better than 4-10ths of an inch had fallen, and the morning of the barbecue opened cloudy and dull. As a consequence of the weather, the evening before, only 8 of the beeves, together with some goats and pork were slaughtered.

By ten o'clock Thursday the clouds begin to break and a good crowd was on hand at the lunch hour, many, many more than the most optimistic expected, and they were here from every adjoining county and eastern New Mexico, and the trains from the east for several days were packed with folks who had relatives here, and as a consequence the meat end of the affair ran a mighty close race with its capacity of feeding the crowd.

There was the usual catch penny devices on the ground that make a picnic, and good speaking in the afternoon by those favoring both Neff and Bailey. All speakers were given close and respectful hearings.

Also, there was goat roping and baseball at the fair grounds. Pete city, won first and second money on goat roping, respectively.

Tahoka and Brownfield teams played a good game of ball resulting in a shut out of 6 to 0 in favor of Brownfield. In this connection we might say that in the last four games or 36 ending the local team has played, they have not allowed a man to cross the home plate, and if the home team can keep their present line up, they are going to make some of the big boys hops and skip.

There was two butcher, or meat knives lost that day, and a new zinc tub belonging to the Brownfield Hardware Co., and those who have these things will please return to the owners.

Mr. J. H. Hollingsworth, district manager of the sales departments of the Genco light, was here this week looking after placing some of the plants in this county. His headquarters are in Sweetwater.

greater, and on the other hand, if the census could have been delayed another year or two, every county would have showed substantial gains and many of them doubled in population, with the present increase.

ELECTION RESULTS

The election went off quietly here Saturday as usual, but there was a heavier vote than the primary vote in July, and a big interest was shown especially in the governor's and the sheriff's race. The following is the result in Terry county according to the official count which occurred Monday afternoon of this week.

For Governor	
Pat Neff	378
Joe Bailey	180
For Lieu. Governor	
W. A. Johnson	362
Lynch Davidson	129
For Supreme Court	
William Pierson	262
William E. Hawkins	202
For Sheriff and Tax-Col.	
R. E. Burnett	251
Wood E. Johnson	314

The highest number of votes was cast in the sheriff's race, 565.

BROWNFIELD PEOPLE EN- TERTAIN THEIR TEACHERS

The entertainment given the teachers of the Brownfield public school at the school auditorium last Monday night was a success in every way. The building was comfortably full and everyone seemed to have come the same intent, that of showing the teachers that they were more than welcome to Brownfield, and that the people were going to stand behind them in this school term.

All the songs were good, all the speeches were good and all the instrumental selections were good, and refreshments were especially good.

Yes Brownfield is going to have a humdinger term of school. There was just lacking a few of being 300 scholastics there the first day.

SANITARIUM NOW SURE

The two story building formerly occupied by the Brownfield State Bank is being remodeled this week for a sanitarium, which when completed will be under the charge of Drs. Lemmon & Lemmon.

The building is to be thoroughly remodeled and renovated, and when the carpenters and painters are done, it will be the equal of many sanitarium in towns much larger than Brownfield.

When finished the building will contain sixteen rooms in all. This is an institution much in need here.

BROTHERS & Brothers will pay the highest market price for your poultry, eggs and cream.

Nearly nine inches of rain fell in the local rain gauge during the mo. of August. This is the record of the local station for one month since it was established in 1914.

Mart Key Dead

Earley last Friday morning, a shock came to the whole country in the form of a telegram to Mr. S. H. Key, stating that his son, Mart had died suddenly.

Mart had left Tatum New Mexico Wednesday, in perfect health, to accompany Mr. Lee Williams to the mountains in New Mexico for Mr. Williams' health. On Thursday night they had camped about seven miles from Tulosa N. M. and Mart had laughed and talked until late bedtime, and then went to bed with Garland Miller, who was with them.

On Friday morning, Garland got up to cook breakfast, and Mr. Williams called Mart when breakfast was nearly ready, he did not answer so Mr. Williams went to his bed and took hold of him to wake him and found he was dead but still warm, he then hurried for a doctor and got him back as soon as he could. The examination showed that Mart had died of apoplexy of the brain.

On account of bad railroad connections the remains did not get here until Monday. Funeral services were conducted at the cemetery by the Rev. H. D. Heath, pastor of the Baptist church at this place, of which he was a member. Mart was born June 2nd, 1882 in Eastland County, Texas, married Miss Martha Lindley on December 25th, 1902. He leaves a wife and one child, his father, six brothers and one sister, all of whom were present at his funeral.

LOW GRADE COTTON THREATENS MARKET

Dallas, Texas, Aug. 21—Col. W. B. Thompson, a well known cotton factor of New Orleans, and a life long friend to the cotton industry, sounds a note of warning in the Manufacturer's Record of August 12, of the danger that threatens the marketing of the present crop, and points out a specific remedy within the band of every grower.

"During the past three years low-grade cotton has been a grievous burden upon the cotton industry," says Col. Thompson. "During this period the supply of these damaged grades has been abnormally large and small. The over-supply condition was caused by bad weather after the cotton had opened, and the lack of demand has been due to the fact

that the normal low grade markets have closed and to the additional fact that during the war the United States government in formulating its contracts rangly discriminated against the lower grades. As the result of these conditions the grades below middling have declined to preposterous discounts. Low middling is quoted at 10½c per pound less than middling, the next grade above, and good ordinary at 18½ cents per pound less than middling, and even at these discounts all the grades in question have been and are still practically unsalable.

"It costs more to produce these low grade than the higher grades. Even when they can be sold at all they are sold at an enormous loss. Worse than that, the presence of an accumulation of unmerchantable stock

in the market is a depressing factor in so far as the merchantable grades are concerned. The conclusion is that the cotton farmer simply cannot afford to produce and market the lower grades. These grades not only represent an unbearable difference between the production cost, and the sale price, but they constitute a weapon with which the producer's antagonists may assault him. Low-grade cotton under the present conditions is not an asset, but an infectious liability.

Therefore, the plan proposed is simply this: Do not harvest any grades lower than middling.

But it will be objected that the weather makes the grades and that the farmer cannot control the weather. This is true but the farmer can regulate the grades he picks and puts

upon the markets.

As soon as cotton is open pick it as rapidly and as carefully as possible; have it ginned gradually; and when ginned, store it in a warehouse if the same is available, take the cotton home, build a shelter for it otherwise, put it on skids and from time to time turn the bale over in order that all sides may be exposed to the air; sell when demand calls for it at satisfactory prices.

Do not pick any rain or weather-damaged cotton. When the weather get bad, turn the cattle in the fields. Do not let the damaged cotton stay to be picked latter and sold at ruinous discounts, and in the meantime to be used by your adversaries in beating down the price of your good grades. Destroy the low grade cotton and through such destruction fat ten your own cattle and pocketbook.

If this plan is carried out—and it will be carried out by every sensible farmer who considers the same—the coming crop will be reduced several million bales in quantity, will be increased by many million dollars in value, and at the same time the producer will save the loss incurred in the production of an unmerchantable commodity and will rout his would-be despoilers horse, foot and dragon.

SEAGRAVES SAYINGS

By Reporter

We have had lots of rain here lately and the crops are looking fine. The grasshoppers are about all gone and there will be a lot of good feed also cotton made, if nothing else happens to it.

Mr. W. B. Newsom and daughter, Miss Mattie, from Bomarton, Texas, returned home last Wed. after visiting Mrs. Newsom's sister, Mrs. J. W. R. Bachman.

Mr. Charley Sherrill, who has been away visiting, returned a few days ago to visit his brother, Mr. T. W. Sherrill.

Sam Tinker has been off working in the harvest fields, came home on Saturday.

Mrs. I. M. Sartin, and children, who have been visiting her parents,

Rev. and Mrs. J. W. R. Bachman, returned to her home near Tatum, N. W., Monday.

The Legion of Honor Sunday School class, of the Methodist Sunday school, entertained the other young people of the town with an ice cream supper at the home of the Misses Birdie and Annie Bachman, last Tuesday night. We had some delicious ice cream and cake and all present reported an enjoyable evening.

Miss Minnie Carlton, who has been visiting her grandmother, Mrs. S. J. Tinker for the past few months returned to her home at Idalou, on Thursday.

Miss Reva Newsom, of near Gomez, attended the ice cream supper Tuesday night.

The Ladies Home Mission Society is getting along fine. They gave a recital at the hotel Texan last Wednesday night. Mrs. Dallas accompanied by Miss Mary Shelton, of Brownfield, rendered some beautiful pieces on the piano. Miss Shelton recited some readings which were very good. The proceeds were about \$30, half of which goes to Mrs. Dallas and Miss Shelton, and the other will go to help pay for our church house. On account of it looking so much like rain, there was not as large a crowd present as we expected.

Miss Lois Black, who has been visiting her aunt in Oklahoma, returned home last Tuesday.

Seagraves is sure on the boom lately. The town is full of prospectors and we understand there were 14 sections of land sold one day last week.

If you need a good gasoline engine about the farm, see the horse and a half Emmerson at the Herald office, cheap and good shape.

Mrs. Homer Ingle and children left Monday for Snyder, to visit relatives

TOKIO TALKINGS

By Grasshopper.

We are glad to report that the diphtheria patients are improving; some were able to be back at Sunday School Sunday.

Quite a number of the Tokio people attended the picnic at Brownfield Thursday, and on account of the rain most of them stayed over till Friday morning.

Mr. U. D. Smith returned Thursday from Haskell county, where he has been on a visit.

A large crowd gathered at Mr. Norman Lovelace's Friday night for a fish fry, but as they failed to catch as many fish as was expected, it was mostly a chicken fry. Everybody had a splendid time and a fine supper.

Mr. Hoyt Gray and family and Mrs. Howard King left Monday for Munday, Texas, for a short visit.

A good singing at the school house Sunday night was enjoyed by all present.

Arthur Scudday returned Thursday from a visit with his sisters.

Misses Roxie and Winnie Campbell left Monday morning for their home near Crosbyton after a short visit here.

Tokio school will open Sept. 6th with Misses Webelle Hargett and Ellen McMaster as teachers.

A number of Harris people enjoyed the barbecue at Brownfield last Thursday. We hadn't intended to spend the night in Brownfield, but because of the rain most of us did.

We are very sorry to report that Mr. and Mrs. Roy Fitzgerald's little son, Raymond, is seriously sick with diphtheria. He was thought to be some better when last heard from.

Misses Lorene and Mattie Cotten returned home from Brownfield last Friday. Miss Mattie had been having her throat treated for tonsillitis.

Misses Olie and Vergie Fitzgerald are visiting in Lubbock now, and have been for some time.

MILLION DOLLAR ROAD SYSTEM

By Pheba K. Warner in Star-Telegram.

Everybody and everything except a hog, abhors a mudhole. Men will drive miles out of their way to miss a mudhole, and tourist will go hundreds of miles out of their way to strike a good road on a long trip. But that's the least of it. Mudholes do not hurt the folks that avoid them; turn from them and pass some other way.

It is the same folks that live in the same community with the mudholes, year after year, that finally partake of the nature of a mudhole and become sluggish, repulsive and stagnant, sticky, unattractive, offensive, repulsive. They get in the way of progress. Nobody wants to live in their town. Nobody wants to move to their community. Nobody wants to go their way in life. Nobody wants to stick and stay in their way of life. Left alone they eventually dry up, rough and rutty. The busy ambitious world will throw itself into "high" take the long smooth way around and go on to success, while the mudhole class sit and wait for the mud to dry up. Just a few more years and the people of this nation will be judged by the kind of roads they travel every day. In this day of highways as well as byways whole counties are already being judged by the condition of their public roads.

There is something about a good road that just naturally puts pep and pride into you. By the same law the road that is blazed by mudholes takes the pep and pride out of you and sometimes the bad road effect goes down deeper than our pep and pride and even touches our religious if we have such a nerve.

But a system of good roads means more than pep and pride to the citizenship of a county. There is no one thing more essential to the social, educational and commercial devel-

opment of a county than good roads. Is there a meeting of any kind in the county? Good roads make it possible for anyone who has an automobile (and who has not?) to be there. Is there a lecture course chautauqua, revival, political rally, county fair, picnic, or a good show anywhere in the county, everybody can go. Everybody learns the same lesson. Everybody learns to enjoy the class of entertainment. There is no combination of agents doing more to draw the town and country together and obliterate the imaginary line between rural and urban people like the automobile and good roads combination. It is only a question of time when there will be no such people as country folks and city folks. We will all be just folks, and our nation will be either one big beautiful city or one big beautiful country, for the good roads and the automobile will educate us all alike in a few more generations.

But this transformation, great as it is will have to come county by county. That it will come we fully believe, because it has come and is coming in a few counties already.

Dickens County, down on the south Plains, scarcely ten years removed from a cattle range, already has a million-dollar road system, consisting of more than seventy-five miles of paved roads, reaching out in every direction from the county seat, linking together the most thriving communities in the county into one large community and placing every community in the county within a few miles of a paved road market. This wonderful road system was made possible by the issuing of \$412,000 in bonds, plus the aid provided by the State and Federal Funds, and the thousands of dollars worth of Dickens county materials that were donated by the Swenson Company, and the residents of the county. Good roads have made it possible for the people of Dickens County to get together whenever they want it. It is one of their first

big undertakings as a county and so thoroughly has the work been done that every man, woman and child is a happier, better, prouder person for it. Who can estimate the value of such roads to the people of a County?

FOOD FOR CHILDREN

Austin, Texas.—Most children of today do not get enough variety of food, do not take enough time to eat their meals, and do not get enough sleep. This is the statement by Miss Pearl N. Hyer, R. N. public health nurse of the Texas Public Health Service.

In her physical examinations in the public schools Miss Hyer has discovered that these three things are responsible for fifty percent of Texas children being underweight, to help remedy this defect among the children, the Texas Public Health Association recently sent an article by the public health nurse to a number of Texas mothers.

"Children should eat a variety of food," said Miss Hyer, "not so much at one meal, but it must be seen to that the meals of the day are balanced. Three things, and not over four, at a meal are all that are necessary.

The following foods give the elements of nourishment necessary for almost any age, work or climate. I advise that all mothers should see that their children eat daily: (1) cereal whole grain, well cooked (2) eggs once a day when no meat is used; (3) milk, one pint to one qt.; (4) potatoes and leafy vegetables, such as spinach, onions and lettuce; (5) fruits; (6) meat, not more than once a day—avoid fried meats; (7) bread and butter with every meal—whole wheat bread is best.

Diet for the children should be up-

building," declared the nurse, and should give reserve strength and energy. Any kind of food which will not do this is not worth eating regardless of whether it taste good or not. Beware of too much candy. It is hard on the teeth and not good for the system. Children crave the sweets when they are not eating right—there is a lack of some element of nourishment. If they MUST have sweets, they are best eaten at the end of the meal, not between meals. Sweet fruits like raisins, figs and dates are good; while honey is an excellent sweet.

Miss Hyer declares that a child needs food that will supply building material, such as milk, eggs and cereals; and those that give energy, such as cereals, fats, green vegetables and fruits. The nurse tells the mothers of Texas that these rules, if followed, lessen the cases of underweight among Texas children, and build up bodies strong enough to throw off disease.

Eight Texans Sail For Foreign Fields On Southern Baptist Missionary Ship

The Empress of Japan, the Canadian Pacific Liner (2), on which practically 100 Southern Baptist missionaries sailed from Vancouver, B. C., August 17, for China and Japan. Eight new missionaries from Texas were in the group, as follows: Miss Zemina Hare, of Orange (1), who will do educational work at Kaifeng, China; Miss Laura Helen Coupland, of Longview (3), who goes to Chengchow; Rev. Joseph T. Fielder, of Abilene (4), who will do educational work at Chengchow; Mrs. Joseph T. Fielder, of Abilene (5), who likewise goes to Chengchow; Miss Blanche Groves, of Bridgeport (6), who goes to Sookhow; Miss Eva Sullivan, of Garner (7), who will do medical work at Yangchow; Miss May Morton, of Dallas (8), who will do educational work at Wuchow, and Miss Cecile Lancaster, of Brownwood, who will teach in the Girls' School at Kumamoto, Japan.

A number of other young Texans are under appointment of the board to go to other fields. Mr. and Mrs. R. A. Clifton, New Boston, will do evangelistic work in Brazil; Miss Bertha Lee Hunt, of Hillsboro, and Miss Essie Fuller of Fort Worth, will do educational work in Pernambuco, Brazil; Miss Mildred Mihills, of Austin, goes to the Girl's School at Rosario, Brazil; Miss Agnes Graham, of Yoakum, goes to the Girls' School at Temuco, Chile; Rev. and Mrs. B. W. Orrick, of Madisonville, will do evangelistic work in Argentina; Miss Alice Bagby, Fort Worth, goes to the Girls' School at Sao Paulo, Brazil; Rex, and Mrs. J. L. Cowser, of Milford, to Port Algere Field, Brazil, and Rev. and Mrs. E. G. Wilcox, of Fort Worth, to North Brazil.

When approximately one hundred Southern Baptist missionaries sailed on the Canadian Pacific liner, the Empress of Japan, from Vancouver, British Columbia, Tuesday, August 17, for fields in the Orient, they formed the largest group of evangelists of the Christian religion that has ever been sent to foreign fields at a single time by a single denomination since the beginning of Christian missions.

The majority of the appointees of the Foreign Mission Board are new workers, recently come from the various educational institutions of the South where they have spent years in preparation for the duties they are about to assume in other lands.

Appointment and sending forward of so large a number of workers at a single time was made possible by the larger proceeds for missions from the Baptist 75 Million Campaign, from which \$20,000,000 will be realized for foreign missions during the five years covered by the campaign. Not all of this fund will be used in employing new workers, though approximately 500 additional men and women will be sent out during the five years. Other sums will go to providing more church buildings, schools and hospitals, homes for the missionaries and improvements of that character, including publishing houses for turning out the Bible and other religious literature. Many improvements will be made in missionary institutions already in operation on the foreign fields.

Missionary Operations Enlarged. In the new appointees of the Foreign Mission Board—and a new record was established when sixty-six were named

by it this summer—are a number of Christian doctors, nurses, teachers, scientists and women workers, and one expert in farming and stock raising. These will supplement the work of the evangelists in that they will seek to relieve bodily suffering, teach the boys and girls, pave the way for more efficient homes by interesting mothers in sanitary housekeeping, and by their good work create in the minds of the people a favorable attitude toward the Christian religion. The instructor in agriculture and stock raising will undertake to reach many Chinese farmers with better methods of production and thus prove that the Christian missionary is the farmer's friend. The majority of the missionaries were born on the farm.

While the majority of the new appointees are going to China and Japan, others will sail in September for work in Africa, Brazil, Argentina and Chile. World Program Is Planned.

Ten foreign fields are occupied by Southern Baptists today in Africa, Asia, Europe, South America and Mexico. The work in all these fields will be strengthened and enlarged as a result of the larger funds made available for foreign missions through the Baptist 75 Million Campaign. New fields have been opened in Europe and the Near East and a million dollars has been appropriated for launching an intensive work in Russia the moment the doors of opportunity are opened there. The Board is greatly strengthening its work in Palestine and hopes ultimately to give the gospel to hundreds of thousands of people in the land which witnessed the earthly labors of Jesus Christ.

Dr. J. B. Gambrell, of Fort Worth, Texas, president of the Southern Baptist Convention, and Dr. E. Y. Mullins, of Louisville, Ky., president of the Southern Baptist Theological Seminary, are now on a visit to all the Baptist families of the world, conveying to them the greetings of good will from Southern Baptists and laying the foundation for a fuller Baptist program for the evangelization of the world. Money Appropriated to Mission Fields.

In the distribution of funds to new work among the various mission fields occupied by Southern Baptists the following appropriations have been made by the Foreign Mission Board: Africa, \$233,925, calling for 31 new missionaries; Argentina, \$263,550, calling for 17 new missionaries; Brazil, \$1,339,100, calling for 54 new missionaries; Chile, \$58,900, calling for six new missionaries; China, \$3,279,125, calling for 331 new missionaries; Europe and the Near East, \$3,558,950; Japan \$819,000, calling for 40 new missionaries, and Mexico, \$420,000, calling for eight new missionaries.

Work in Homeland Fostered. While a large sum from the campaign is appropriated to foreign missions, home interests have not been overlooked. Appropriations to home objects include \$12,000,000 for home missions; \$11,000,000 to state missions; \$20,000,000 to Christian education, or the better equipment and partial endowment of the 114 educational institutions owned by Southern Baptists; \$4,800,000 for the thirteen Baptist hospitals in the South; \$4,039,688 for the sixteen orphanages, and \$2,500,000 for the relief of aged ministers and their dependent families.

Mr. and Mrs. C. W. Roberts returned last Tuesday from Canyon. They have both been employed to teach in the school again this term. The school will start next Monday.

The most astonishing Drama ever conceived by the mind of man in which CARL LAEMMLE presents

Locklear The Daredevil of the Skies

GENTLEMEN:—Universal has done it again? Has made a picture for you about which the whole world will be talking in less than three weeks!

Never before in the history of the industry has any cameraman made such pictures as these.

YOU! A mile high in the air—and only fifty feet from Locklear when he climbs from one plane to another and rescues the woman he loves from the clutches of a bandit of the skies!

Make up your mind to see this picture if you don't do anything else for a week. It is a Thriller in which the sky's the limit! All true and still unbelievable!

This Liniment is a Perfect Cure

Published by request:

One-half pint of faith, half pint of virtue, half pint of knowledge, half pint of patience, half pint of temperance, half pint of godliness, half pint of brotherly love, half pint of charity and one good resolution, all well shaken together three times a day with prayer, will cure the devils rheumatism, evil eye, blasphemy, and grumbling, backbiting, tobacco habit, deceit; kills the nerves of prejudice, purifies the blood; and if you can get the worst man there is to use this prescription, it will restore him back to manhood and respectability with God and man. It will make him love his own wife and children better and he will want to put them under the same treatment.

Now, if we can get this remedy used in the homes of this country, it will cause the ladies to wear full dresses, stop theatre going, cleanse your heart from inbred sin and preserve your soul blameless. It will stop men's wives from joy riding with other men.

Shake well before using and rub until it effects the heart. Keep this up 365 days in the year and if it does not cure you you can bankrupt heaven.

GOOD Emerson buggy harness and pony for sale at the O. K. wagon Yard.

If the editor's wife was just well we would be very happy these days, for we are certainly getting our share of the good eats of glorious old Terry these days. Before we had hadly got to the printing office Monday morning, Mrs. J. Alberding and daughter drove up in a car and called us out and handed us a heavy paper sack and when we peeked in found that she had given us seven pounds of lucious grapes, some red and some clear ones. Now this was a treat indeed, and Mrs. Alberding has our hearty thanks. Tuesday a man walked into the printing office and poured out a big gunny sack of fine roasting ears, and remarked that he wanted us to withhold his name but they (the corn) was a present to us for having the guts to stand by our convictions whether it was pleasing to everybody or not, having reference of course, to the late lamented political campaign. We also heartily thank him.

Etiquette of Walking.

When in the street, especially in daytime, a lady is not supposed to take a gentleman's arm, unless she is infirm or elderly, though she may properly do so at night. When walking with two ladies a gentleman may walk on the outside, or the inside, or, rather, the side from which he can best guard his companion or companions from obstacles or danger. It is not good form to take a lady's arm, unless to assist her in some way.

She Had a Different Ambition.

When William Wilberforce, the reformer, was a candidate for parliament his sister, an amiable and witty young lady, offered the compliment of a new gown to each of the wives of those freemen who voted for her brother, on which she was saluted with a cry of "Miss Wilberforce forever!" when she pleasantly observed: "I thank you, gentlemen, but I cannot agree with you; for really I do not wish to be Miss Wilberforce forever!" —Boston Post.

Curious Collection of Pens.

In the prison at Lyons, France, there is a curious collection of pens. They are the pens with which the executioners signed the regulation receipts for the prisoners handed over to them to be guillotined. At each execution a fresh pen is used for the purpose and the ink is left to dry upon it.

Buck Hares in Combat.

An Australian correspondent describes "a dinkum stand-up fight" between buck hares. "They prop upright on their hind legs and box with their front paws, sparring, ducking, uppercutting in pugilistic fashion, fur flying in all directions. When one pugilist gets winded or passed out he falls on his back and skies his tail."

THE STATE OF TEXAS; County of Terry:

Notice is hereby given that an election will be held on the 11th day of September, 1920, (a) at A. W. Adair's residence at Challis, in common school district No. 20 of this county, as established by order of the County Trustees of Terry County on the 2nd day of June 1920, which order is recorded in book 1, at page 7 of the minutes of the County Trustees of Terry County, (b) to determine whether a majority of the legally qualified property owning, tax-paying voter of said district desire the issuance of bonds on the faith and credit of said Common School District in the amount of \$6000.00, the bonds to be of the denomination of \$100 each, numbered consecutively from one to sixty, inclusive, payable twenty years from their date, with option of redemption at any time after fifteen years from their date and bearing five (5) per cent interest per annum, payable annually on the 15th of September of each year to provide funds to be expended in payment of accounts legally contracted in (c) building and equipping a wooden school building in said district, and to determine whether the Commissioners Court of this county shall be authorized to levy, assess and collect annually while said bonds or any of them are outstanding a tax upon all taxable property within said district sufficient to pay the current interest on said bonds and to provide a sinking fund sufficient to pay the principal at maturity.

All persons who are legally qualified voters of this State and county and who are resident property taxpayers in said district shall be entitled to vote at said election, and all voters desiring to support the proposition to issue the bonds shall have written or printed on their ballots the words—

"For the Bonds"

And those opposed shall have written or printed on their ballots the words—

"Against the Bonds"

A. W. Adair has been appointed presiding officer for said election, and he shall select two judges and two clerks to assist him in holding the same and he shall within five days after said election has been held make due return thereof to the Commissioners Court of this county as required by law for holding a general election.

Said election was ordered by R. L. Graves, County Judge of this County by order made the 10th day of August, 1920, and this notice is given in pursuance of said order.

Dated this the 10th day of August, 1920.

citizen here is interested in enough to give it a second thought.

I have spent the summer at the New Mexico Normal at Los Vegas, and will teach the coming nine months at Trementina, N. M. in San Miguel county, north of Vaughan. Teachers salaries here run from \$1,200 to \$2,000 a year for a 1st grade certificate. But listen, my friend, the same knowledge that is required here to get a 1st grade certificate would get that salary anywhere, for my 20 years experience of Texas examinations, (I always had a 1st grade Texas certificate) I never went thru as hard an examination as I did this summer. In fact the idea here seems to be, not to find out what a teacher does know, but what they don't, and a general average of 90 with no subject below 80, is required in 14 subjects to get a first grade certificate. No wonder that fully one-half of applicants fail to pass the required test. So teachers will be needed in New Mexico this winter. I have a first grade certificate.

lute and complete independence. They have no fear of Japan. Philippine independence, in our opinion, is not inimical to Japanese interests. The Japanese are now free to come to the Philippines, but at the present time there are less than 10,000 Japanese in the islands. There are six times as many Japanese in California as there are in the entire Philippine Archipelago.

The Filipinos are willing to take their chance as a nation. Smaller nations beset by graver problems and dangers have taken a more hazardous chance at freedom, and have succeeded.

So He Pursues 'Em.

The chap who follows the fashions is usually behind with his studies.

The weather was dry enough last Sunday that one could get out and see a few of the good crops of old Terry, and we saw three good ones, those of E. Brown, Messrs. Franklin and Watts, yea, four of them for we also saw M. B. Sawyer's crop for it was on his land that we saw the other crops. We saw maize that will head aton to the acre, easy, corn that will go from 25 to 30 bushels per acre and cotton that will go from one-third to one-half if there is nothing more put on. We saw cane that will cut and dress more than we want to fool with—get us. But with the scarcity of labor, these and all other farmers are up against the real thing, and unless they get help from the outside, we do not see how they are going to begin gathering their crops. Come to Terry, though.

Joe Warren, formerly editor of the Clarendon News, of Clarendon, Texas, bought five sections of land last week out of the Spearman tracts, and left for his home Monday. This deal was for purely speculative purposes, but we bet Joe puts some actual settlers on this land before next spring.

ALL KINDS of fruit and vegetables in season, at Bros. & Bros.

Mr. Walter Hill, and family, brother to Joe Hill of this place, together with Mr. Joe Gist and Alfred Meek and three sons, all of Roswell, N. M., are visiting Joe and family, and looking out a location, all of them being farmers. Joe B. spent a day and a half showing them the crops of his

neighborhood, and they all agreed that the corn was as good as the irrigated corn is in New Mexico. The Herald would be glad to locate these good people.

SEE WILLIAMS & BOWERS for Cotton Seed Meal, Bran, Shorts, Oats, Chops, Alfalfa Hay, Peanut Cake and Meal.

The Herald man went out just to the south edge of town Saturday morning to see the 20 acre melon patch of S. V. Wheeler, and if you have no idea what a 20 acre melon patch looks like, just think of a big herd of hogs scattered out and grazing. Messrs. Wheeler, Condra and I. M. Smith were loading a car for a gentleman at Coleman, Texas, who

was here looking at the best country in the world, and seeing the big melons of Terry, he decided to take two birds and carry a car home to sell home folks, and give them a taste of our good melons. S. V. could have loaded the car easily by himself, but the melon farmers are co-operating, and are therefore playing the right spirit, for there may come a time during the season that no one of them can load a car by themselves. Mr. Wheeler will have anywhere from five to seven cars himself during the season, and they are as good as they look, for they grew on the famous sandy soil of old Terry. The average weight of these melons will go close to 40 pounds, and they are the Tom Watson variety.

CAMPAIGN ITEMS SHOW SILK HOSE FOR PLUMP WIDOW

Chicago.—Face cream for a "fascinating blonde" and a "charming brunette" showing that he was playing no favorites, silk hose for a plump widow who helped him and other unusual items are listed in the campaign expense account of G. H. Force, recently defeated for the Democratic Congressional nomination in the tenth Missouri district.

Force had just filed his statement of primary campaign expenditures as required by law, with the Clerk of the House of Representatives. It is a model of frankness and devotion to intimate details.

"Note carefully item on page 2" wrote Force to the clerk of the House, to make sure that the official would not overlook such expense entries, incident to the losing campaign of the Congressional aspirant as the following:

"Aug. 1.—Postage on 25 letters I sent to influential men in my district telling them that I was trusting to the kindness of the people and the mercy of God to elect me. Both failed. Fifty cents.

"Aug. 1.—Photograph of myself that resembles Jec's partner, Mutt, \$1.50.

"Aug. 3.—One jar of face cream to fascinating blonde for passing out my cards, 35 cents.

"Aug. 3.—Another jar of face cream to a charming brunette for passing out my cards, 35 cents.

"Aug. 3.—For her work and influence among her many friends and admirers, a pair of openwork hose for a plump widow—the less said about this the better—special \$1.00.

AT EVENTIDE

When my legs grow weary at the end of the road, and I stop to rest in the shadows till the break of Eternity's morn, I want to leave great wealth behind.

Silver and gold? Ah, no! To others wiser in the ways of the world such gifts must go. They were not intended for me and I despair not at the failure I have made in their pursuit. Neither do I envy those who have valiantly fought and won them.

The riches I want to leave, kind friends, if strong enough and true enough to earn them, are unselfish thoughts and deeds such as lie within easy reach of all. I wish to have gathered about me there at the dusk of Life's Day Pearls of consciousness that I did not break faith with duty as I passed along the roadway. I want to cling to the jewels of memory glittering with a real and a serving love for mankind.

If none can say of me then that I won a battle in the industrial or political arena, I will be satisfied to know that somewhere there is a boy who remembers that I stooped to pull a thorn from his wounded foot, or that I answered the call for a friend made by one out in the dark night of need, or took the part of an innocent party against whom the black wings of slander were beating.

I want to be rich as I wait in the belief that back in the world there is no one who can say that I wronged him, no one poorer or no one unhappier because of any act of mine. I want my fortune to be the knowledge that many honest efforts to serve usefully those I have a chance to do something for. And when the boatman takes my hand and for the last time I look upon earthly things, if there are no material goods that will help, I want to be sure that there are no scars that hurt.—Ex.

IF—YOU could buy a car that looks like an automobile, rides like an automobile, and is so easily handled that anyone without previous experience can drive it—and yet requires no more care or cost of upkeep than a flivver—wouldn't you drop right down in your pockets and lose no time in buying one? We'll say you would. Then tell J. F. Winston to get you a new model Overland!

Sheriff's Notice of Election

THE STATE OF TEXAS; County of Terry:

Notice is hereby given that an election will be held on the 11th day of September, 1920, (a) at A. W. Adair's residence at Challis in common school district No. 20 of this county, as established by order of the County Trustees of Terry County on the 2nd day of June 1920, which order is recorded in book 1, at page 7 of the minutes of the County Trustees of Terry County, (b) to determine whether a majority of the legally qualified property owning, tax-paying voter of said district desire the issuance of bonds on the faith and credit of said Common School District in the amount of \$6000.00, the bonds to be of the denomination of \$100 each, numbered consecutively from one to sixty, inclusive, payable twenty years from their date, with option of redemption at any time after fifteen years from their date and bearing five (5) per cent interest per annum, payable annually on the 15th of September of each year to provide funds to be expended in payment of accounts legally contracted in (c) building and equipping a wooden school building in said district, and to determine whether the Commissioners Court of this county shall be authorized to levy, assess and collect annually while said bonds or any of them are outstanding a tax upon all taxable property within said district sufficient to pay the current interest on said bonds and to provide a sinking fund sufficient to pay the principal at maturity.

All persons who are legally qualified voters of this State and county and who are resident property taxpayers in said district shall be entitled to vote at said election, and all voters desiring to support the proposition to issue the bonds shall have written or printed on their ballots the words:—

"For the Bonds"

And those opposed shall have written or printed on their ballots the words:—

"Against the Bonds"

A. W. Adair has been appointed presiding officer for said election, and he shall select two judges and two clerks to assist him in holding the same and he shall within five days after said election has been held make due return thereof to the Commissioners Court of this county as required by law for holding a general election.

Said election was ordered by R. L. Graves, County Judge of this County by order made the 10th day of August, 1920, and this notice is given in pursuance of said order.

Dated this the 16th day of August, 1920.

MARTIN & SON

Brownfield, Texas

There is always some one wanting the Herald to rap the land agents. Well, in the first place we having nothing against them for they are all good friends of ours and they are good customers besides. Another thing, they are doing all they can to bring people here and help build up the county, and when a petition for the betterment of the town and the county is stuck under their noses, no class of citizens are more willing or donate more liberally. Nay, we say, let the land agents remain at their old job, and our good wishes go with them.

The Brownfield Herald and the Lynn County News and one or two others have been nibbling the Reporter lately. Gentlemen, as soon as we get through with larger fish and time for the minnows, we will try to look after you fellows.—Lamesa Reporter.

The Herald is quite willing for the Reporter to go fishing, but he will only be taking a friend's advice if he tries to catch everything but "top waters" for awhile. You know a light weight is easy jerked in. Let Kalamity have the whales for a few more years, Bro. Smith. You'd best hang your clothes on a "simmern" bush and not go near the water.

AS A BAILEY PAPER SEES IT

In the run-off primary last Saturday the voters by about one hundred thousand majority selected Pat Neff of Waco, as the Democratic nominee for governor. We were opposed to Neff and still believe that Bailey would have made the better governor. But the majority of the people wanted Neff and we are glad to submit to the will of the majority. In November we are going to support the nominees of the primary into which we entered last Saturday. We took an oath to the effect that we would support the nominee or we would not have been permitted to vote, and though we do not claim to be over virtuous we regard an oath as something to be held sacred. During the campaign we heard many ardent Neff supporters declare that if Bailey were nominated they would not go to the polls on general election day. They were then declaring their oath was not good—that they had no intention of living up to that oath—yet some of these men are ministers of the Gospel, though what gospel teaches a man to violate that oath, we have not learned. Thus, the evil effect of mixing politics and religion becomes more apparent. Politics has not been bettered, but the doctor of devinity has already dropped to the lower depth of politics by publicly announcing that he will go into the primaries, take oath to support the nominees, but that if the man he votes for is not nominated he will repudiate his oath, and stay out of the general election, when such action is not only not supporting the nominees, but really working

against them. There is somewhere recorded a statement with which such men should be familiar, that is to the general effect that whoever is not with you is against you.—Taylor County Times.

FROM A NEFF PAPER

Whether his name was Weldon or Edward before, it is now Well Done—and it is hopeful that he will take the hint given him in no uncertain terms at the polls last Saturday.

For Texas has again repudiated Joe Bailey. The ax which he had expected Texans to grind for him will not be ground. The Democratic party of Texas has chosen to go its own gait and refused to listen to the self styled "only living Democrat."

It was not because Texans do not think Bailey a brilliant man or a against him and the majority felt that he was not to be trusted. Also it was never satisfactorily explained why he had just now chosen to come back and "butt in."

However, Pat Neff has little to brag about in securing the highest office in the gift of the people of this great State. There are thousands of voters who cast their ballots for him merely because it was a case of choosing the least of two evils. Many believe him a "weak sister" who will be dominated by the East Texas politicians and cowed by the labor element whose votes helped to put him in office because he refused to declare his position on the open shop question.

Mr. Neff has been given the opportunity to prove himself and one of the things in which West Texas and the Panhandle are greatly interested is his promise to see that the State is redistricted and this section is given a "square deal"—which doesn't mean that it is redistricted to suit those east Texas politicians. South-west Plainsman (Amarillo).

REPUBLICAN AND AMERICAN PARTIES FAIL AT FUSION

Dallas, Aug. 31.—A conference held yesterday between the Republican and American party leaders in the city of Houston, adjourned without perfecting the proposed fusion on Presidential electors, according to Vance Muse, secretary of the Dallas county Republican council.

John W. Philip, of Dallas was named general manager of the Republican activities in Texas. It was announced that a strenuous effort will be made to elect Republican Congressmen in three districts.

It is expected that J. G. Culbertson, nominee for Governor, will open his campaign early in October with an address at Dallas. He has announced that he will hold strictly to issues and will refuse to wage a campaign of personalities.

WATCH for Ormer Locklear, the great air robber. He is coming to play at the Liberty Theatre some time soon.

Why Printing Comes High

That the price of printing had to be advanced is evident from the price of paper quoted below: Railroad manillas selling in 1913 for four cents new sells for 16 cents—increase 300 percent. Ordinary cover paper selling in 1913 for 8 cents now sells for 16 3/4 cents—increase 109 per cent. Medium grade bond papers selling at 11 cents in 1913, now sell for 39 cents—increase 254 per cent. Wood pulp bonds selling for 7 cents in 1913 now sell for 21 cents—increase 200 percent. Ordinary coated paper selling in 1913 for 7 to 8 cents now sell for 23 cents—increase 233 per cent. Machine finished book paper selling in 1913 for 5 cents now sells for 17 cents—increase 340 percent, and this is to say nothing about the increase in labor and machinery, cost of living etc.

Indiana Lady Had Something Like Indigestion Until She Took Black-Draught, Then Got All Right.

Seymour, Ind.—"Some time ago I had a sick spell, something like indigestion," writes Mrs. Clara Peacock, of Route 6, this place. "I would get very sick at the stomach, and spit or vomit, especially in the mornings."

"Then I began the use of Thedford's Black-Draught, after I had tried other medicines. The Black-Draught relieved me more than anything that I took, and I got all right."

"I haven't found anything better than Black-Draught when suffering from trouble caused by constipation. It is easy and sure. Can be taken in small doses or large as the case calls for."

When you have sick stomach, indigestion, headache, constipation, or other disagreeable symptoms, take Black-Draught to help keep your system free from poison.

Thedford's Black-Draught is made from purely vegetable ingredients, acts in a gentle, natural way, and has no bad after-effects. It may be safely taken by young or old.

Elder J. P. Kimbrell will preach his farewell sermons at the Church of Christ Sunday and Sunday night, and it is hoped that all the members and other who can will give him a good hearing on that occasion. After holding a meeting for a congregation in New Mexico, he will likely make his home either in El Paso or Arizona.

NOTICE Cotton Farmers: We have installed a private electric light plant and will be prepared this year to handle your cotton day or night. Bring it in. West Texas Gin Co.

Plasterers are busy this week on the new barber shop building to the rear of the State Bank. When this building is finished the Sanitary Barber shop is going to occupy the neatest quarters in town to our notion, and we congratulate Bynum Brothers in procuring these new quarters.

NOTICE: Business picked up so the picture man didn't, so you have until the 15th Sept. to have that picture taken. I. Walpole

As per their notice elsewhere in this paper, the West Texas Gin Co. has installed a private electric light plant and this season they are going to be prepared to gin your cotton even if you do get here a little late. They have one of the best systems to be gotten, and will pull it with the big turbine, and have 1200 feet of copper wire over the plant and a light anywhere and everywhere one will ever be needed.

J. M. Shields, former local agent for the Santa Fe at this place, was here this week looking after business matters, being accompanied by his daughter, Mrs. Smith, of Littlefield. He informed us that he was going into the mercantile business at Abernathy, the place he was agent for a long time before he came here. His many friends here wish him success in his new business.

Hot Stuff

A preacher was describing the "bad place" to a congregation of naval cadets.

"Friends" he said, "you've seen molten iron running out of a furnace, haven't you. It come out white hot, sizzling and hissing. Well—" "Well" he continued, "they use that stuff for ice cream in the place I have just been speaking of.—Ex.

Sir Hiram Maxim, the great inventor said of the English measuring method: "I cannot understand why we stick to these weights and measures. There was only one man who knew the English weights and measures; he studied them for 30 years and just knew them all when the poor fellow went mad and died."

Mr. H. T. Sefton, of Crest, Texas, will be here in the next few days to take the place of Mr. Lamm, the relief agent, who goes to Lamesa for awhile. F. R. Ramsey, of Amarillo, came in this week and took charge of the express business, vice Mrs. Shields.

TOKIO TALKINGS

By Grasshopper.

After a long rainy spell, the Tokio farmers are wanting to see the sun shine until crops are matured and harvested.

Mr. and Mrs. J. V. Jones took their daughter, Allyne to Brownfield Friday to have her tonsils removed.

A crowd of young people enjoyed the candy breaking at the home of Mrs. S. Johnson, Friday night.

J. V. Jones left Friday for Post, where he will attend school this term.

Very few missed the singing at Mr. Norman Lovelace's Sunday night, and those who did missed a mighty good singing and a fine time.

A. V. Taylor and his mother-in-law, Mrs. S. L. Jones, returned on Monday from Ranger, Texas where they have been visiting relatives.

Several patrons were present at the opening of school Monday, and brought their lunch and had a good time all day. We are expecting the best term the Tokio school has ever had.

Joe Venum came in Wednesday from his home in New Mexico for a short visit with relatives and friends.

Sam Cates Appeals Case to Higher Courts

Last Saturday, Sam Cates, who is now in the Lubbock County jail under conviction for the murder of Attorney J. W. Burton, of Crosbyton, last March, filed appeal to the Court of Criminal Appeals, in Austin. Mr. Cates was convicted and sentenced to 99 years in the penitentiary.—Lubbock Avalanche.

We never suspected that the erudite poet laureate of the Panhandle Press Association aspired to political honors, but such appears to be the case—or perhaps it was a case of having honors thrust upon him. At any rate it will have to be acknowledged that the Republicans picked a mighty good man when they selected L. P. Loomis, of the Canadian Record, for Congressman from the 18th district. It is a good thing that he happens to be on the wrong ticket to get elected in Texas or there'd be another perfectly good newspaper man gone to the bow wows.—Southwestern Plainsman

FILIPINOS WANT AMERICA TO GIVE INDEPENDENCE

Maximo M. Kalaw Declares U. S. Cannot Consistently Refuse "Self-Determination."

By MAXIMO M. KALAW,
Secretary of the Philippine Mission, Author "The Case for the Filipinos," "Self-Government in the Philippines," etc.

Maximo M. Kalaw.

"When they show sufficient capacity," "When they are able to govern themselves," "When they are educated enough." Thus run the answers of many Americans pressed with the question as to when the Filipinos should be granted their independence. Now, "ability," "capacity" and "sufficient education"—What do they mean in black and white?

Senator Shogun may think no people is capable of self-government that does not establish the judicial recall, or that has no Billy Sunday. John Smith of Somerville may think no people is capable of self-government that does not vote his democratic ticket, or go to church on Sundays.

"Capacity for self-government" is as broad and elastic as the world, and if that should be the criterion for the granting of Philippine independence, America might as well say to the Filipinos, "I will give you independence when it pleases me to do so."

Fortunately, the American promise to the Philippines is not based on such obscure and abstract conditions. It is based on a definite, tangible thing. When America, through her Congress, officially told the Filipino people that they would be granted their independence as soon as they could establish a stable government, no abstract or obscure condition was meant. Stable government, according to American usage, means a certain, definite thing.

The United States promised the Cubans the same thing, that "when they have established a stable government, then American troops would be withdrawn." As soon as the Cuban people elected a government suited to themselves, capable of maintaining order and fulfilling all international obligations, there was a stable government in Cuba, and American troops were withdrawn.

When Congress passed the Jones law, it simply borrowed the phrase "stable government" from the Cuban history and applied it to the Philippines. The history of Philippine legislation shows that in black and white. With full knowledge of what it meant, the Filipino people accepted the Jones law and immediately began setting up the stable government required by Congress as a pre-requisite to independence. The stable government is now a fact. It is indeed more than that; it is an undisputed fact.

The official representative of the United States in the Philippine Islands, the Governor General, reported to the American Congress and the administration that "the Filipino people have established the stable government demanded by Congress as a pre-requisite for the granting of independence—namely, a government elected by the suffrage of the people, which is supported by the people, which is capable of maintaining order and of fulfilling its international obligations."

The Philippine question is therefore no longer a question of politics, argument or supposition. To the Philippine mind, at least, it is now a question of whether the United States is ready to discharge its own obligations fully and completely. America went before the world in the recent war as the avowed champion of "self-determination" and Filipinos cannot see how America can consistently refuse to act.

The Filipino people, however, have no grudge or grievance against the American people. There is a message of friendship and gratitude. They seek independence as the natural and logical outcome of America's policy in the Islands and of America's solemn promise to them. They come willing to give privileges and concessions not incompatible with their national welfare.

The Filipino people are willing to accept independence under any of the following conditions: Under a League of Nations, guaranteeing its territorial integrity; under the protectorateship of the United States for the first few years; under a treaty of neutrality between the United States, England, Japan, France and other powers, or ever without any condition whatever—abs-

asked the credit man.

"I DO": replied the man who was asking for an account.

"All right, sir, we are always glad to open accounts with property owners. This is the best reference you could give. It is proof of good citizenship and labels you as one who could ill afford to be a dead-beat"

And the customer added another credit to the already overpaid account of Home-ownership.

A. B. COOK & SON

There was a gentleman here from Lubbock the first of the week trying to buy the boot shop of Martin & Son. He offered what some might have considered a good price for the shop, but was turned down. He returned before he left town and offered the Messrs. Martin another thousand on top of that and was

again turned down. There are lots of boot shops on the plains that do want this shop closed for it is a hard competitor. But you had better read their ad this week and heed it.

BROTHERS & Brothers will pay the highest market price for your poultry, eggs and cream.

Maury Lewis and family came in Tuesday of this week from Gallupe, N. M. to visit his parents, Mr. and R. R. Lewis.

HOGVILLE HOWLINGS

By Dunk Botts

Dan Hocks, local blacksmith during the week and barber on Saturday's at the same old stand, is preparing to dispose of a full barrel of horse and mule hoof clippings. He is trying to get into correspondence with a large concern engaged in the manufacture of tortoise shell spectacles.

Gape Allsop found a crank for a Ford automobile yesterday. He will keep it and as soon as he can find enough for a set he will put them on his big fiddle to use in tightening up the strings. Gape has always been considered somewhat of a genius.

Sile Sims has been excluded from membership in the Hogville Loafers' club. It was learned that he occasionally goes so far as to ask his wife's advice on matters, and the club felt that a member of this kind would sooner or latter prove detrimental to the best interests of the organization.

Miss Petuna Belcher put all her old love letters out of sin yesterday. She kept a very close watch on them and during the day caught Gape Allsop peeping through the fence at them. Gape says they are beginning to look mighty old.

Zero Peck and the old Miser traded calves yesterday. It is generally believed that the old Miser got the best of the trade as he was not seen to smile a smile more than three-quarters of an inch long after the trade was closed. Since then Zero has been watching his new calf very close to see what develops. He is anxious to know what is wrong with it.

The mole on the back of Miss Pe-

tuna Belcher's neck is getting larger. She does not let on that she is all alarmed, but the widow of the Bear Ford section knows that the knowledge of its growth must be very painful to her.

Alexander Mosley's shoes are getting run down at the heels and he cannot get in a crowd without his treading on other people's feet.

Alexander Mosley has missed a lot of hay from his stack on Petuna Ridge. Suspicion rests on Miss Lydia E. Peck, as she looked much larger at church Sunday than she did the last time anybody saw he dressed up.

They Get The Liquor

Harrodsburg, Ky., Aug. 26th.—Ten men, armed and wearing masks, held up two night watchmen at the Van Arsdell distillery, nine miles north of Harrodsburg, early yesterday, rolled fifteen barrels of whiskey out of the warehouse to a waiting truck and sped away. The truck was trailed to this city where the trail was lost.
