## Holiday Meals Can Be Low-Cal

By **CARLA McKEOWN**  
For as long as I can remember, holidays have meant food--lots of food. And, for as long as I can remember, most of the people I know have been trying to lose weight.

Although I doubt our family get togethers will ever have less food, they can have less fattening food. With a few simple changes, we can serve basically the same foods but with less calories.

For a lower-calorie Thanksgiving meal, try the following:

\*Substitute low-calorie margarine (preferably the type that comes in a tub) for butter or regular margarine.

\*Use skim milk instead of whole milk.

\*Use frozen egg substitute instead of real eggs.

\*Use less sugar or use a sugar substitute in appropriate recipes.

\*Substitute "lite" bread for regular bread.

\*Offer more fresh fruit and less heavy desserts.

\*Serve cider-based punch and bottled water in place of higher calorie soft drinks and alcohol-based drinks.

\*Offer a selection of fat-free salad dressings.

\*Put out large bowls of air-popped pop corn and fresh vegetables with a bowl of chunky salsa rather than the more fattening mixed nuts, and chips and dip.

Try the following lower-calorie versions of your holiday favorites:

### LITE STUFFING

- 1/4 cup low-calorie margarine, divided
- 2 cups chopped onion
- 1/2 pound apples, cored, pared and chopped
- 1/2 cup chopped celery
- 1/2 cup chopped green bell pepper
- 1 small garlic clove, minced
- 1/4 cup golden raisins, plumped by soaking in warm water
- 1 teaspoon poultry seasoning
- 4 ounces seasoned croutons
- 1/4 pound cooked turkey sausage, crumbled
- 1/2 cup thawed frozen egg substitute

In a 9-inch non-stick skillet, melt 1 tablespoon margarine. Add onions, apples, celery, pepper and garlic; cook over medium heat, stirring frequently, until celery is tender. Stir in raisins and poultry seasoning and set aside. In a medium mixing bowl, combine croutons, sausage and egg substitute. Add vegetable-fruit mixture and stir to combine. Stir in remaining margarine. Spray a 2-quart casserole dish with non-stick cooking spray; add stuffing mixture and bake at 375 degrees for 30 minutes or until browned. Makes 8 servings.

## Fund Is Established

A fund has been established at Citizens Bank of Texico for the benefit of the Keith Winders family of Elida, N.M.

Mr. Winders, formerly of Lazbuddie, has been diagnosed with M.S. For more information, call (505) 482-9339 between 6-8 p.m.

### WILD RICE PILAF

- 2 teaspoons low-calorie margarine
- 1/2 cup sliced white mushrooms
- 1/2 cup diced red bell pepper
- 1/4 cup water
- 1 cup cooked long-grain white rice
- 1 cup cooked wild rice

In a 9-inch non-stick skillet, melt the margarine, and saute the mushrooms and pepper over medium-high heat, stirring frequently, until mushrooms are lightly browned, about 1 to 2 minutes. Add water and cook, stirring frequently, until liquid is reduced by half, about 3 to 4 minutes. Add rice, the mushrooms and pepper, and stir to combine. Reduce heat to low; cover and cook, stirring frequently, until rice is thoroughly heated, about 2 to 3 minutes. Makes 4 servings.

### CIDER-GLAZED CARROTS

- 1 tablespoon low-calorie margarine
- 1 cup apple cider, no sugar added
- 1 pound carrots, peeled and cut in half

1 teaspoon sugar  
Salt and pepper, to taste  
Melt the margarine in a large saucepan. Add carrots and toss to coat with margarine. Add cider, salt and pepper. Cover pan and allow to cook on medium heat until carrots are tender. Sprinkle with sugar and toss to coat before serving.

### LITE PUMPKIN PIE

- 1-9 inch pastry pie crust, uncooked, in pie plate
- 2 cups canned pumpkin (or 2 cups cooked fresh pumpkin)
- 1 cup plain low-fat yogurt
- 1/2 cup thawed frozen egg substitute
- 1/4 cup reduced-calorie pancake syrup
- 2 tablespoons sugar
- 1 teaspoon pumpkin pie spice
- 1/2 cup thawed frozen dairy whipped topping (reduced calorie version, if available)

In a medium bowl, combine pumpkin, yogurt, egg substitute, syrup, sugar and pumpkin pie spice; stir until well blended. Spread the mixture evenly in the pie crust, and bake, in the center oven rack, at 400 degrees for 35 to 40 minutes or until a knife inserted in the center comes out dry. Remove to a wire rack to cool. Serve at room temperature or cover and refrigerate until ready to serve. To serve, top each portion with 1 tablespoon whipped topping. Makes 8 servings.

**AMBUSH -- A HIGHLY SUCCESSFUL METHOD!**

IN THE PRACTICE OF WAR THE ANCIENT ISRAELITES LEANED HEAVILY ON VARIOUS STRATAGEMS, SUCH AS SURPRISE, AMBUSH, PRETENDED RETREAT, AND SUCH CIRCUMVENTIONS AS WOULD KEEP THEIR ENEMIES IN A DISTRAUGHT STATE OF HELPLESSNESS. WE LEARN IN GENESIS 14 THAT WHEN ABRAHAM WENT TO RESCUE HIS NEPHEW LOT, HE DIVIDED HIS FORCES, WHICH CERTAINLY SUGGESTS AMBUSH AND, SUCCESSFULLY ATTACKED AND VANQUISHED THE ENEMY. ALSO NOTED IN THE BOOK OF JOSHUA, CHAPTER 8, ARE PLANS FOR A VERY SUCCESSFUL AMBUSH BY WHICH JOSHUA AND THE ISRAELITES HOPED TO DEFEAT THE SOLDIERS OF THE CITY OF AI. A MUCH USED FORM OF AMBUSH WAS TO DRAW THE OPPOSING FORCES INTO A LARGE GULLY OR RAVINE BY MAKING THEM BELIEVE THEY WERE PURSUING A SMALL NUMBER OF MEN. WHEN THE PREY WAS SUCCESSFULLY LURED INTO THE CHASM, THE MAJOR FORCE, HIDDEN UP ABOVE, WOULD THEN ATTACK--MUCH TO THE ENEMY'S CHAGRIN!

# Did You Know?

By GEORGE RUSHING

Twenty years ago I was given a pamphlet written by a well known preacher. The title was "The Party's Over." He told of the things that he believed were coming upon our nation because we were turning our back on God. One of the things he wrote about was the filth and pornography that he said would pour into our homes on prime-time T.V.

Today, it is just as he said.

For those of you who don't know, I farm and pasture cattle. In this business, I listen to those who study charts, cycles, volume of contracts, etc., etc., to try and determine what the price of cattle and grains are going to do. I have never known anyone who has been able to tell exactly what the price of commodities is going to do. But they can tell us with some reliability, the direction the market is taking. Either up or down. So I believe we can look at the lives and history of others through the grid of God's Word and find direction for ourselves.

Today there is a sense of uneasiness in our nation, and I believe rightfully so. Some of the obvious signs of trouble are drugs, divorce, violence, pornography,

crime, etc.

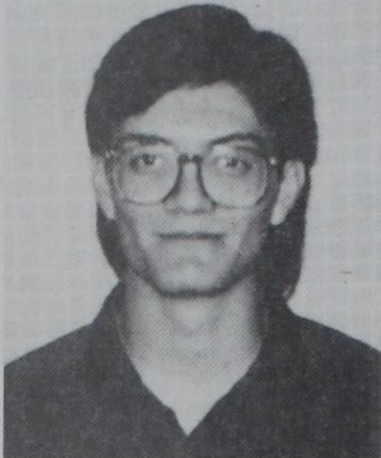

Another sign that I believe tells of just how far down the road we have traveled is the acceptance of the homosexual lifestyle. One year ago, we went to the polls as a nation to elect a president. The man elected to that office supports homosexual rights.

When I look at scripture and then study the history of previous nations, the acceptance of the homosexual lifestyle is a critical stage in the life of that nation. Romans 1:18-32 tells of the movement of a people toward that lifestyle. (Read it) Verse 32 says, "and although they know the ordinance of God that those who practice such things are worthy of death, they not only do the same, but also give hearty approval to those who practice them." Did we

give hearty approval? I hope not.

But across our nation it is happening. Churches are ordaining homosexuals. Some universities are requiring students to take orientation courses promoting tolerance for the lifestyle. It's politically correct. Textbooks are being written for our public schools where "Daddy has a new roommate."

Twenty years ago as I read that pamphlet, God was bringing me to a point of decision. Joshua 24:15--choose for yourselves today whom you will serve--. The call is still going out today. Revelation 22:17--"and the Spirit and the Bride say come. And let him that heareth say, come. And let him that is athirst come. And whosoever will, let him take the water of life freely."

### IKE STEVENS Understanding Retirement Withdrawal Options

(Editor's note: the second of two columns on the 20 Per Cent Withholding Rule)

Any employee who plans to take a lump-sum distribution from an employer-sponsored retirement plan may be in for a costly surprise unless he or she knows about the 20 Per Cent Withholding Rule, which became effective January 1, 1993.

The law states that if you take possession of a lump-sum distribution from your employer's retirement plan: (1) your employer is required to withhold 20 per cent of the distribution for taxes; (2) any amount not rolled into an IRA or another qualified retirement plan within 60 days is taxed as ordinary income; and (3) if you are under age 59-1/2, an additional ten per cent penalty applies to any portion of the distribution not rolled over. (One exception: if you are between 55 and 59-1/2, and no longer employed, the ten per cent penalty will not apply to the qualified plan distribution.)

Following are three examples of the effects of the 20 Per Cent Withholding Rule:

**Example #1: no rollover--Jane Doe, age 45, decides to change jobs after ten years with her employer. She has accumulated \$50,000 in her employer's qualified retirement plan. Jane decides to take her \$50,000 in a lump-sum distribution to help launch a new career. Because she does not roll the distribution into an IRA or other qualified retirement plan, her employer will withhold 20 per cent, or \$10,000, immediately, and she must pay income taxes on the entire amount.**

Assuming a 28 per cent income tax bracket, Jane will owe the Internal Revenue Service an

additional eight per cent, or \$4,000, in taxes, for a total of \$14,000. Because she is not yet 55, the total distribution is subject to an additional ten per cent penalty, or \$5,000, for early withdrawal. After taxes and penalties, Jane has only \$31,000 left from her original \$50,000 nest egg. What is left also has lost its tax-sheltered status, so any future earnings are subject to income tax.

**Example #2: rollover--what happens if Jane takes possession of her \$50,000 retirement fund in a lump-sum distribution and rolls it over into an IRA?** Because she took possession of the funds, her employer must withhold 20 per cent, or \$10,000. Jane now has only \$40,000 to roll over into her IRA. Since \$10,000 was not rolled over, Jane owes a ten per cent early withdrawal penalty and income taxes on the \$10,000 withheld. The only way for Jane to avoid this tax and penalty is to come up with \$10,000 from another source to make a total rollover of \$50,000. She can recoup the \$10,000 her employer withheld only when she files her tax return for that year.

**Example #3: direct rollover--Jane decides that rather than taking possession of the funds, she will instruct her employer to make a direct rollover to her IRA.** Jane's employer makes the \$50,000 check payable to "XYZ Trustee for the IRA of Jane Doe." The funds go from the former employer directly into the IRA--Jane never takes possession of the funds. There is no 20 per cent withholding or penalties, and the entire \$50,000 continues to grow tax-sheltered.

These examples illustrate the importance of understanding your retirement withdrawal options under the new 20 Per Cent Withholding Rule. Consult a professional before you withdraw any retirement funds. A little caution may save you thousands of dollars in taxes and penalties.

## SOCIAL SECURITY TAXES ARE GOING UP.

Under the new tax law, millions of retirees are going to pay more taxes on their Social Security benefits. If you're among them, you could be taxed on as much as 85 percent of your Social Security income.

Don't take chances with your retirement income. I'll be happy to provide a free computerized report that will help you determine what portion of your benefits may be subject to taxation. We can also look at strategies to help reduce your tax burden.

## YOUR EYES

### Diabetes And Your Eyes

Diabetes is more than out-of-control blood sugar. It can affect the heart, the kidneys, the skin, the blood vessels and, most especially, the eyes. That's why a diabetic's eyes should be examined on a regular schedule, ranging from every three months to every year.

Temporary blurring may be caused by a blood sugar imbalance and usually clears up when blood sugar returns to normal, though temporary glasses may be needed.

The optometrist pays particular attention to the special vision risks--such as diabetic retinopathy--that accompany advanced or long-term diabetes. Sometimes, the leaking of retinal blood vessels will cause changes that permanently affect vision. In order to spot any changes before the patient even notices blurring or other symptoms, the eye doctor may dilate the patient's pupils in order to view the retina fully. Where vision is severely affected, a wide variety of low-vision aids can help.
