BROWNFIELD, TERRY COUNTY, TEXAS, NOVEMBER 2, 1923

NUMBER 13

WHERE ARE WE ANYWAY?

YES WE HAVE SOME RAIN TODAY. WONDER HOW FAR IT IS TO SHREVEPORT.

Gosh! hang old hemlocks; didja ever see the beat. Is it possible that the weatherman has played a joke on the great South Plains section, and whirled us around next the "Louseana" line.

Reckon the sun is mildewed? These are the questions being propounded right and left and no one can or seems to want to answer. Folks, it bad weather all right, and the new comers who have been lured here with the promise of 300 days of sunshine per year are staring at us old times like they though we had put one bye 'em.

A joke is going the rounds that a Lubbock real estate man had a nice display of farm products in his show window along with a placard bearing this message: "Raised without rain." It is stated that the other day when the streets were running like rivers, the real estate man was given just a few minutes to remove that placard. He complied.

While the bad weather is hindering the gather of both cotton and feed crops greatly, little wind is accompanying the rains, and with a few days

of sunshine—if we can get it—everything will come out at the big end of the horn. Last week, despite weather conditions cotton came in at an unbelievable rate, and brought a good price on the local market.

Of course, we are not going into the predicting business in the face of what has already happened this year, but usually—usually mind you—we do have open winters after abundant autumn rains. Now while we make no rash promises, we hope this winter will be no exception to the general rule. With open winter, and the fact that not much old land is ever broke sooner than April, there is still lots of time to gather the crop.

Another trouble about the feed in the fields is that farmers cannot get the wagons and harvesters in the fields, it is so muddy, and it is feared that a frost will damage some of the feed. However, much feed has been cut lately, and will likely mildew unless sunshine comes to its relief right away.

Anyway, we are all hoping for the best.

NEW DRY GOODS STORE COMING TO BROWNFIELD

Some two weeks ago we mentioned the fact that Messrs. W. H. Boswell and W. S. Collins were here from Durant, Okla., prospecting. They at that time were in search of a location for an up-to-date dry goods establishment, but at the time of the interview, even though they were well pleased with prospects at Brownfield, had not secured a building.

They informed us however, that if they came, they would carry an up-to-minute stock, and that they were real printers' ink merchants.

We had a word from them last week stating they had leased a building here and would soon be on the ground. They also have a dry goods store at Boswell, Okla., which will be continued also.

SENIOR PARTY

The Senior class was given a fine Halloween party by the Junior class, at the home of Mr. and Mrs. H. H. Copeland, Tuesday evening, Oct. 30.

A very interesting time was enjoyed by everyone present; in fact the occasion was the acme of the season, with no exception. The goodly crowd was well entertained and a feeling of good will permeated the whole occasion.

The Seniors appreciate the splendid co-operation of the Juniors and hope that this same spirit of co-operation will be prevalent throughout the year. Further, the Seniors are at the service of the Junior class whenever it is their pleasure to call on the Senior class.

JONES DRY GOODS CO. OPEN STORE AT LORENZO

Goods for the new store of Jones Dry Goods Co., Inc., have been arriving all this week and Mr. Baldwin, the manager, says that he expects to be open for business by Saturday.

The firm invites you to visit their store and inspect their goods and get acquainted with them.

This new store locating here is another indication that Lorenzo is growing every day. Show us another town on the entire Plains that has made the growth and progress that Lorenzo has during the past year—Lorenzo Enterprise.

YOUNGEST INSTRUCTOR IN UNIVERSITY OF TEXAS

Austin, Oct. 30.—The youngest instructor in the University of Texas is Miss Coraie Garza, of Rio Grande City, who was appointed instructor in Spanish at the age of 18.

She has broken several records, for she has made the highest scholastic record ever attained having received the B. A. degree in three years and making 59 A's and one B.

W. H. Castleberry was in from the Meadow country after supplies one day the past week and paid the Herald a call.

ONE TEACHER SCHOOLS GRADUALLY DISAPPEARING

Recent State reports show an encouraging growth in the number of consolidated schools in the United States and the amount of money that is spent for the transportation of pupils. The little one-room schools are gradually disappearing. The movement to centralize rural schools went forward rapidly in the later part of the decade 1910-20, and it seems now to be continuing with unabated strength. Not all of the State departments of education have compiled the figures on centralization but the data available point to the general trend.

Thirty-seven states abandoned 7,359 one-room schools in the biennium 1920-22, which means a decrease of approximately 5 per cent in the number of such schools in those states. Thirty-two states report 1,180 more consolidated schools in 1922 than in 1920. Campaigns for consolidation, county surveys, and better methods of handling pupil transportation are all helping to increase the larger, stronger, country schools. At least 20 colleges and normal schools are offering teachers special courses in consolidation and transportation. The amount of money spent for transportation in 34 states totaled \$18,343,020 in 1921-22. This represents an increase over the amount reported by the same States in 1920 of \$4,978,514.

AT THE METHODIST CHURCH

Sunday night, Oct. 28th, was the closing service of the four years pastorate of Rev. J. W. Baughman for the local congregation. The other churches dismissed their services in honor of Rev. Baughman's last service, and after one hundred were turned away, standing room was at a premium in the building. After a short and appreciative program rendered by the Woman's Missionary Society, the pastor preached from Joshua 14: 23.

An interesting feature of the service was the presentation to the pastor of a large envelope, containing a letter of praise for his fine stand on morals and religion. The letter also contained \$100.50 as an offering from the Knights of the Ku Klux Klan of the county. The presentation speech was made by Mr. A. V. Brownfield, to which the pastor responded with a five minute speech, mentioning the ideals and purposes of the hooded crusaders.

Mrs. Bynum made a short talk, an appreciation of the services of Rev. and Mrs. Baughman since they have been among us.

Notwithstanding the inclemency of the weather, there was a good attendance, morning and evening. So were the collections, which amounted all told to \$234.85.—Contributed

THIRTY CARS ENTERED IN THE LUBBOCK RACES

Lubbock, Oct. 30.—Thirty cars have been entered in the "Rattling Hoopie race" of wrecked or near wrecked cars" for the 15th and 16th of November.

The provisions of this race is that the entrants contract to sell their automobile they enter for \$100 cash at any time during the two days races. \$500 in cash is being offered to the winners and more than \$250 in merchandise premiums.

The track at the Panhandle South Plains Fair grounds is being put in excellent condition and some good speed is expected to be developed in spite of the handicap of low value of the cars entered. Already one or two of the cars have claimed fifty miles per hour on the track while it is not yet finished on one side.

The Lubbock Morning Avalanche, together with the merchants of the city are staging the race and all profits are to go to the Fair Association to be applied on the new industrial building.

We note that W. V. Chapman and family have moved back to Terry from Johnson county. W. V. said when he left he was cutting no bridges behind him.

FRESH VEGETABLES always on hand at Brothers & Brothers.

W. C. Smith was around one day recently and reported that this spell was putting by anything he had ever seen in his thirteen years stay here.

Wanted:—Cotton pickers; bolls pulled \$1.50 and picked at \$2.00. Apply to O. L. Jones, American Tailor Shop.

STATEMENT OF FINANCES OF PANHANDLE S. P. FAIR

The Panhandle South Plains Fair was a financial success in spite of the bad weather, according to a statement recently given out by the secretary. During the four days of the fair a total of \$13,561.64 was taken in from all sources, including gate receipts, concessions, exhibit space in the industrial building and other sources. Of this amount \$1,750.00 was spent for free acts; \$3,317 in premiums; \$1,557.00 for advertising; \$2,674.00 for labor connected with the fair, \$61,300 for freight, \$2,814.00 general expense and the balance was paid for minor improvements, watchmen, flags and other incidentals.

This does not include the \$6,350.00 worth of permanent improvements, added during the past year to care for the growth of the fair. An average of \$5,000.00 per year has been put into the fair buildings and equipment since the organization of the fair four years ago and this amount is raised in Lubbock each year. This year \$3,250.00 is left to be paid by the business men of the city for permanent improvements and at least five thousand dollars worth of new buildings, are already being planned for the fair next year.

It is interesting to note that all three of the three first winners of the State Fair last year showed at the Panhandle South Plains Fair this year, and out of 31 counties at the State Fair this year, ten of them came from the Panhandle South Plains Fair. While this district fair is only four years old, it had half as many counties exhibiting this year as did the State Fair at Dallas which is 47 years old.

"Say—this Panhandle South Plains Fair idea is the best thing that ever happened," said the big Scotchman from Post City, in charge of the Garza county exhibit. We find out what is the matter with us here and have a week to get it fixed up before the State Fair at Dallas, and believe me, I am learning something here this year. Next year the judges will conduct a class in preparation of county exhibits for the exhibitors who may be interested in the State Fair at Dallas, and the winners at the State Fair will sound like a Panhandle South Plains Fair roll call.

"We are showing the rest of the world what the Plains will do," said the secretary of the fair in commenting upon the development of the Panhandle South Plains and its growth. "Rather we are showing OURSELVES what we really can do and the rest of the world is looking on and finding it out for themselves. It is our own fault if this section does not build up. Folks are watching and it is up to us to hold together and show them what is what and why. Fair-like cities—do not happen. They are built—and it takes a lot of work and money and cooperation to build a truly great sectional fair such as we want to represent the Panhandle South Plains section of Texas.

A SQUARE DEAL FOR THE COUNTRY BOY AND GIRL

Who remembers the Friday afternoon exercises at the country school of 30 or 50 years ago?

This year, Friday, November 23rd, many thousands of people will be reminded of the "old times" when they assembled at the country school houses for "Community Day" exercises. This day of "Education Week" will be the big day in the rural schools when the community will discuss matters of vital interest. "Equality of opportunity for every American boy or girl is the first subject suggested, to be followed by the discussion of the rural school in particular, the slogan being: "A square deal for the country boy and girl." In some communities the exercises will be continued Friday night.

Saturday, November 24, has been designated as "Physical Education Day" and most of the subjects suggested are of special importance in rural communities. In many places exercises will be held Saturday night.

WANTED:—Direct from owner, good improved Plains land. Give full description, lowest price, and the best terms you can make. Might handle tract of several sections, a well located, and suitable for colonization, and priced right.—Box 204, Abilene, Tex. (11-9)

VALUE OF FARM CLUBS

BOYS AND GIRLS' CLUBS ARE WORTH UNTOLD VALUES TO OUR NATION AGRICULTURALLY.

Editor's Note: Having no communication from any farmer and business man this week relative to a County Agent for Terry County, we take the opportunity of printing the following from the pen of Harmon Benton, as it appeared in a recent issue of the Southwest Plainsman, Amarillo. Mr. Benton is County Agent for Potter and Oldham counties; has a job, and is not looking for one. The article is as follows:

It is a nation wide movement that gives rural boys and girls an opportunity to develop themselves educationally, financially and socially. It is a movement which demonstrates the better practice in agriculture and some economics. It promotes thrift and industry. It applies business methods to farming. It develops self-reliance, ambition and aggressiveness. It encourages individual ownership, a love of nature, and makes farm life more attractive. It stands for the fourfold development of the head, heart, hands and health. Its slogan is "Make the Best Better." And most important, it develops the highest type of manhood and womanhood and American citizenship.

How Club Work Started

The origin of Boys and Girls' Club Work is not definitely recorded. As early as 1900 small groups of boys and girls took up crop production projects under agriculturists' and public spirited citizens.

In 1904 the Smith-Lever Law was passed by Congress. This law provided Federal funds for agricultural extension work when matched by state funds. The extension division through co-operation between agricultural colleges and the United States Department of Agriculture supervise the work. From a membership of less than 23,000 in 1914, there are now about 600,000 regular club members in the United States, with leaders at every agricultural college. The co-operation is represented in a majority of the counties by the county and home demonstration agents.

Should Be Encouraged

Club work is laying the basis of general prosperity which will be felt by every citizen of the commonwealth. Club work is doing three very specific things: First—it gives each boy and girl member a new and valuable practice which they can apply at home. Second—Club work is demonstrating better practices to whole communities. Third—Club work is developing leadership, initiative, business ability in men and in women.

The 600,000 club members in 1921 produced over \$7,000,000 worth of products at a cost of \$4,500,000, which includes the cost of leadership in addition to actual cost of production. It is reasonable to assume that most of this wealth would never have been produced had it not been for club work.

Kind of Clubs

The scope of the boys and girls' club work is broad enough to include almost any phase of farm or home life. At present boys are organized into:

First—Crop production clubs, in-

cluding corn, sweet corn, sugar beets, potato, sweet potato, bean, wheat, kaffir, milo, feterita, cotton, peanuts, and crop rotation clubs. Second—Animal production clubs, including pig, dairy calf, cow and calf, cow testing, baby beef, sheep rabbit and bee clubs. Third—Miscellaneous clubs such as crop rotation, farm management etc.

Girls are organized into: First—Production clubs, gardening, poultry, home improvement. Second—Food preservation, cooking, school lunches, canning and food preparation clubs. Third—Handicraft clubs, including basketry, pottery, sealing wax work, sewing and embroidery.

Results of Club Work

Warren W. Simpson, Northfield, Minn., a cripple from infantile paralysis, crawled on his hands and knees while cultivating his acre of corn in 1912. He attained a yield of 165 bushels to the acre. He is now teaching agriculture in one of the schools of his state.

In Clay County, Indiana, the number of pure bred herds of hogs were increased from six to two hundred due to the organization of three large pig clubs.

Kathryn Bolibaugh and Beulah Rodgers, canning club members of Eddyville, Iowa, were declared America's champion canners in the national canning contest at the 1922 International Livestock Exposition. Their reward is a free trip to Europe.

The grand champion barrow over all breeds at the International Livestock Exposition was fitted by Felix Roy the champion pig club member of Oklahoma for three successive years.

Frank Fraser, Hawthorn, Fla., was in pig club work seven years. During that time he sold 63 pork hogs and two breeding animals for \$1,145. For five successive years he won a scholarship in the boys' short course at the university; also \$100 scholarship to the agricultural college.

Virginia Scanlan, Bellevue, Minn., saved \$1040 during three years club work in the calf and poultry clubs. She is using this to secure a college education.

Near Pueblo, Colo., a corn club boy grew 113 bushels of corn per acre. Old inhabitants once thought that corn could not be grown there because of the cool nights. Now the country is growing about 25,000 bushels of corn each year, or about as many acres of corn as alfalfa.

The future development of club work is well expressed in the following couplets, taken from the report of the National Committee on Boys and Girls' Club Work:

A Nation's Hope.

Who are the men of the tomorrow?
Seek ye the boy of today!
Follow the plow and the harrow;
Look where they rake the hay.
Walk with the cows from the pasture
Seen 'mid the tasseled corn;
Try where you hear the thrasher
Humming in the early morn.
Who are the men of the tomorrow?
Look at your sturdy arm!
A nation's hope for the future
Lives with the boy on the farm.

AND SHE WASN'T FROM TEXAS EITHER

Canadian Record: This talk about the wild and woolly west is all twosome stuff. The west is cultured and refined as compared to the effete east. The New Concord, Ohio, Enterprise tells of a woman detective appearing in that town and after horrifying the city marshal of her authority requested permission to go to the oil camp near and get a man of desperate character. The marshal went along with the lady to watch her do her work. She went into a big tent where a bunch of workmen were sleeping, picked out one of the roughnecks, woke him up and told him she wanted him.

When he was a little slow about complying, she shoved the business end of a blue nosed automatic under his red nose and told him to throw his get-up action into high. He was glad to accede to her wishes. She

took him before a notary public and after getting some evidence from him in legal form, released him and asked the marshal to drive here back to town.

On the way back to town the woman detective asked the marshal if he objected to tobacco smoke. On receiving a negative reply, she crossed one leg over the other and in true comfortable man style, lit up a cigarette and proceeded to smoke and reflect on the good work she had done in the interest of the law that night.

If that woman had told she was from Arizona or Texas, the Saturday Evening Blade would have featured the stunt, but being from the east, it was a mere incident in a day's work.

Mr. J. S. Webber left one day last week for his former home at Waxahatchie, on business.

L. L. Cobb, of Seminole send in \$2 recently and said he could not do without the Terry Herald.

THE FARMERS FRIEND.

In times when you have funds on hand that have been realized by a years hard work and which you earnestly desired cared for with all SAFETY—then the BROWNFIELD STATE BANK offers you the complete GUARANTEEING POWER of the GUARANTY FUND OF TEXAS, plus other usual forms of customary bank protection. A PERFECT OIL FOR FORDS

Magnolia has spent four years testing and perfecting a motor oil for Ford cars. It is now on the market and known as MAGNOLENE FORD OIL and is guaranteed to eliminate grabbing of transmission bands which is so noticeable in Ford Cars when brakes are applied and when in reverse. And it will be more economical because it is specially made for Ford cars only. The motor will run cooler, easier riding, roll better with practically no vibration. If you have a Ford drain your crank case and fill with the MAGNOLENE FORD OIL—a special oil for your car at the same price. Our stock is complete with high grade oils and greases. Phone No. 10 for good oils and service.

Insist On An Expert Opinion

There are plenty of folks that know something about titles. But the only opinion that is worth anything is the opinion of the man who knows EVERYTHING ABOUT land titles.

One flaw overlooked leaves the title just as hazy as before. In fact, an incomplete abstract, a shallow search, leaves things worse than before; for trusting the incorrect opinion has deceived one into a false sense of security.

This Company offers you the services and the verdict of an EXPERT. Our exhaustive records, our systematized methods, our complete knowledge of the subject, our THOROUGHNESS which lets no facts slip—these are your guarantees. When you have our opinion, you know there is no more to be said.

Before you buy, insist upon an Abstract of Title made by this Company. It will be your guarantee of future security in your property.

Insist On An Expert Opinion

There are plenty of folks that know something about titles. But the only opinion that is worth anything is the opinion of the man who knows EVERYTHING ABOUT land titles.

One flaw overlooked leaves the title just as hazy as before. In fact, an incomplete abstract, a shallow search, leaves things worse than before; for trusting the incorrect opinion has deceived one into a false sense of security.

This Company offers you the services and the verdict of an EXPERT. Our exhaustive records, our systematized methods, our complete knowledge of the subject, our THOROUGHNESS which lets no facts slip—these are your guarantees. When you have our opinion, you know there is no more to be said.

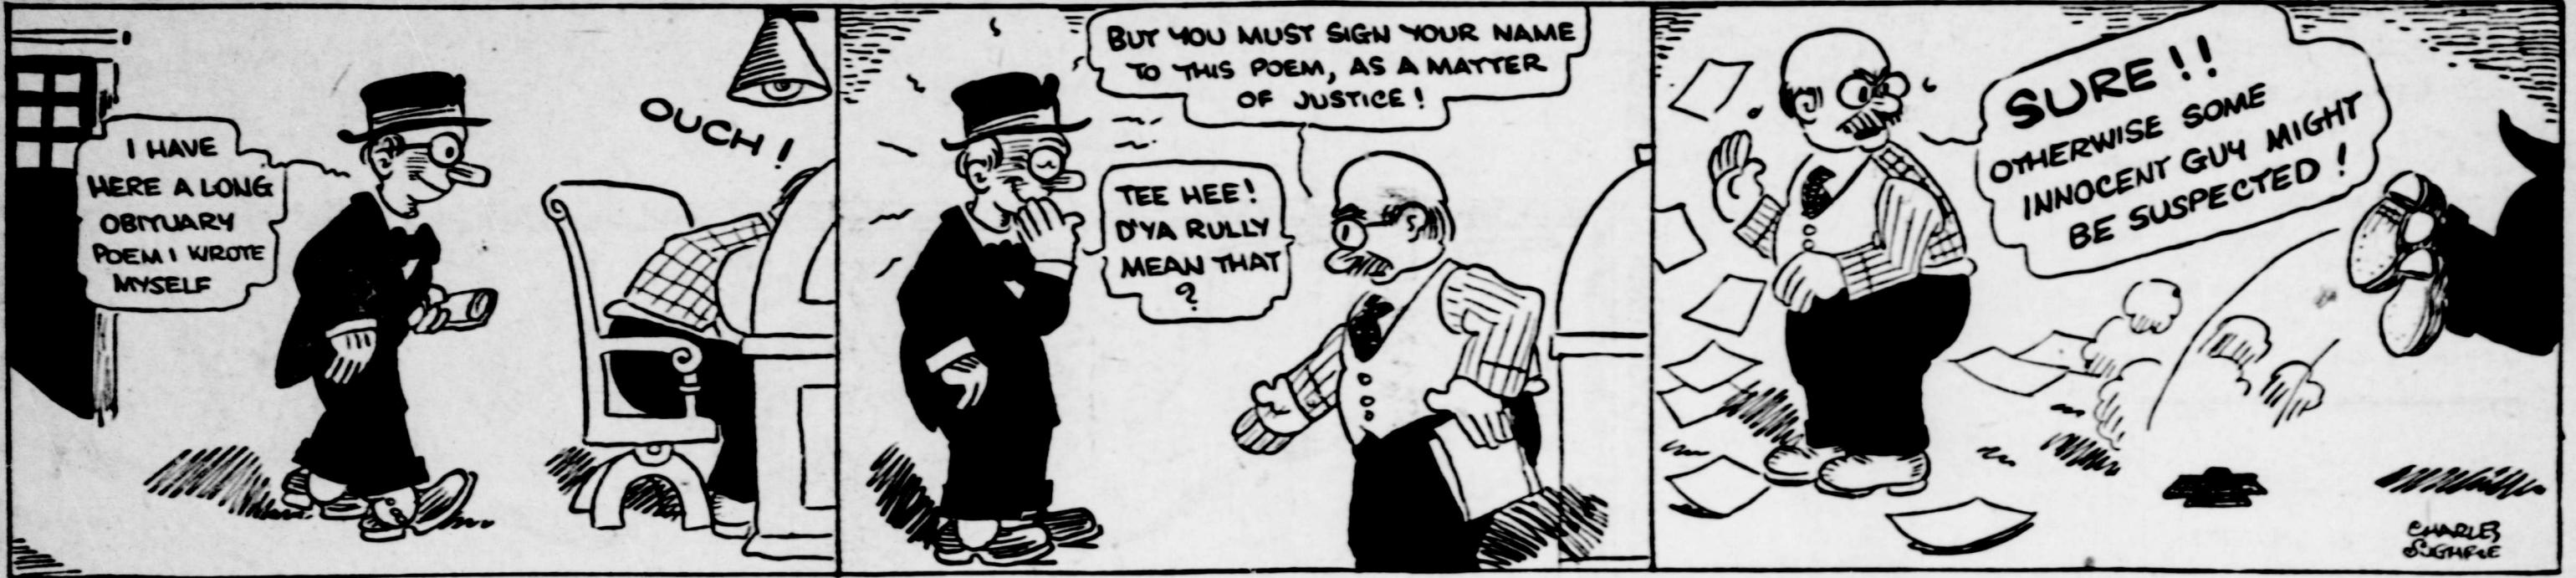

Before you buy, insist upon an Abstract of Title made by this Company. It will be your guarantee of future security in your property.

MEADOW BRIEFS

By Aesculapias

It has been two weeks since this berg was represented in print. The reporter was down in his back and had other ills that kept him jumping in many directions, and this everlasting weather is not the least. We were assured before arrival here that 300 days of sunshine went as a lag-nappe with the South Plains weather, each year. Today and the past two weeks bring back visions of the Gulf Coast of Louisiana, where I journeyed for a couple of winters in the long ago.

That old would be profit, Dr. Nobles, who warned us of earthquakes this year and also prophesies that the polarity of the earth is changing and that in ten years the greater part of the earth will again be submerged, leaving all of north and south America high and dry—thanks for that part of the prophesy—and that our climate would be like Florida; is leaving some confirmation in the way of weather. Add to this the imminence of Christ's second coming, now being preached from so many pulpits, and it is enough to give the old sinners and recent ones the shivers.

Our town and country is full of strangers, hunting work and cotton picking and there is plenty of both if the wet weather would suspend operations.

It seems settled that we are to have a new hotel across from the drug store. A new garage opposite the bank and a new barber shop somewhere in town, and we would be ever so thankful if we had any kind of an agent down at the depot.

It is a little strange that men who pretend to regard their promises as something to be lived up to in private life do not hesitate to commit themselves to any kind of proposition when dealing with the public.

The Santa Fe was sure to put an agent here during the fall and winter while cotton and other stuff was being moved, but he has never materialized, and it would be a safe bet that they don't, and that they had no intention of doing so when the promise was made. Should it astonish anyone that people have small use for railroad officials and regard them pretty much as a christian would Judas Iscariot.

Our school is to open Nov. 5th, but the new building is far from completion. The continued bad weather has delayed the work until it will be along toward the new year before it will be ready for occupancy.

Mr. and Mrs. Pierce Warren have a brand new boy at their house, and both appear extremely proud of him.

CHALLIS BUDGET

By Cotton Picker.

The Challis people are blue over the continued bad weather.

Josephine Hoffman was on the sick list several days, but is improving.

Mrs. Duncan's baby is gaining two pounds a week. We are rejoicing with the parents since it has been so low.

Several Challisites were at the Meadow sale Saturday.

Mr. and Mrs. Tongate were trying out their new model Ford recently.

Ansie and Newell O'Neal spent some of their turkey money at the sale; each buying a jersey calf. That is right boys, they will be cows some day.

News is scarce.

YOUNG man and wife desire job on farm or ranch. Address box 573, Brownfield, Texas. (11-9)

B. H. Brannon of Gomez, pleased us last Saturday with \$200 on subscription.

PECANS:—Halbert's papershells: two pounds same dollars. Cheaper in quantities. H. A. Halbert, Coleman, Texas. (11-23)

G. R. Day was in recently and subscribed for the Herald for himself, and had us send it six months to a friend back east. He believes in letting others know of a good thing.

CHARLES STEINMETZ EXPIRES SUDDENLY

END COMES TO ELECTRICAL WIZARD WHO USED LIGHTNING AS TOY

FIXED HIS OWN SALARY

He Was Responsible For Many of the Most Noted Improvements in the Electrical Field

Schenectady, N. Y.—In a modest house on Wendell avenue lies the remains of one of the world's greatest electrical wizards.

Charles P. Steinmetz, who played with lightning and electricity as a child plays with toys, slipped out of life at his home here when his physicians, nurse and family thought he was rapidly recovering from physical exhaustion entailed by a six weeks' lecture tour to the coast.

Not essentially an inventor, Steinmetz was responsible for many of the most noted improvements in the electrical field. All his patents were owned by the General Electric Company, of which company he was chief consulting engineer.

He had no salary with the company, although it was reported he received \$100,000 a year. This can be denied emphatically. Every six months he informed the board of directors how much money he would need to carry on his experiments. Included in this figure was the amount he estimated he would need for "salary" and it can be said this figure varied with each budget.

One of the most interesting experiments of Prof. Steinmetz dealt not with electricity or mathematics but with politics, and the intelligence of voters. Admittedly one of the greatest practical scientists his field has ever produced, he ran for the office of State Engineer in the last election on the Socialist ticket. In the landslide which carried Gov. Al Smith and the Democratic ticket into office the wizard's offer to serve the State for the comparatively paltry salary of the office was rejected by the voters.

New York.—Vigilant immigration officials who boarded a German liner one afternoon in 1889 quickly fixed their critical glances on a little, hunch-backed, pop-eyed dwarf with swollen cheeks.

"Back to Germany for you," they told him. "A fine American you'd make!"

Only the impassioned appeal of an American student who had known the dwarf at a Swiss university browbeat the authorities at Castle Garden into admitting him. Within five years he was an American citizen.

That dwarf was Charles Steinmetz, the dominant electrical genius of the world when he died.

BERLIN IS SATISFIED WITH HUGHES' PLAN

Official Quarters Pleased With Premier Baldwin's Plymouth Speech

Berlin.—Much satisfaction was expressed in government circles over the report that the plan of Secretary of State Hughes for the appointment of an international commission to ascertain Germany's capacity to pay reparations had been accepted as the basis of a proposal for a discussion of the subject. It was pointed out that Germany has been a consistent supporter of the program of Secretary Hughes from the moment it was put forward by him in his speech in New Haven last December.

Notwithstanding what was deemed the caution manifested in the American reply to the British Government's "feelers" regarding the conference, official quarters evinced satisfaction over Premier Baldwin's speech at Plymouth recently and what were termed the frank utterances of Gen. Jan Christian Smuts, the South African Premier, in his two recent talks on the subject of reparations. The speeches of both statesmen were characterized as material contributions to the attempt to revive discussion of the question of Germany's ability to pay reparations.

Three Killed on Ship Philadelphia, Pa.—Three firemen on the British steamship Daghild were killed, and several others of the crew were injured in the explosion of a boiler while the ship was proceeding down the Delaware River, bound from this city to Sydney, N. S., in ballast.

Six-Inch Snow at Perryton Perryton, Texas.—A six-inch snow which further delay wheat planting and new crop harvesting.

Large Turkey Crop Reported Brownwood, Texas.—Reports from many parts of Brown County indicate a much larger turkey crop than last year. People who have not raised turkeys before have large droves and old-timers have increased their production.

REPARATIONS PLEA MADE TO AMERICA

Britain Wants United States to Help, Whether or Not There is Allied Unanimity.

London.—Britain has made a striking appeal to the United States to join in an international reparations conference which Britain declares is imperative for the salvation of Europe.

"Europe is drifting toward economic disaster. Co-operation of the United States is an essential condition of any real advance toward a settlement," Marquis Curzon declared in a note addressed to Washington on Oct. 12.

Marquis Curzon asks the United States to help settle the European crisis, whether or not there is allied unanimity in accepting the project. This obviously refers to France's opposition in the past to conference which would investigate Germany's capacity to pay reparations and fix the indemnity figure.

The note points out that the acute development of the economic situation in Europe is coincident with the daily increasing turmoil in Germany.

This, it declares, is due to failure to solve the reparations situation, resulting from a lack of unanimity among the powers. Britain has a number of proposals for solution, but none of them have been accepted, Curzon pointed out in his note, to which Secretary Hughes replied on Oct. 15.

"America, by reason of her position and history, is more disinterested than any European power," Curzon said. "At the same time she is directly and vitally concerned in the solution of the European problem, if for no other reason than because the question of interallied debts is involved in it."

He recalled Secretary Hughes' declarations last December and pointed out that both Germany and Britain would welcome action under the Hughes plan, for fixation of the reparations figure.

"So far the French have taken a different view," Curzon said. "This lack of unanimity is, as far as His Majesty's Government is concerned, the sole reason, why the plan was not carried out."

Britain, the Foreign Minister said, was already formulating an inquiry to the United States regarding the manner in which America thought united action could best be effected when President Coolidge's speech of Oct. 11 reiterated the Hughes proposition.

"His Majesty's Government warmly welcomes the declaration, and hopes they are justified in deducing that if the powers join in such an inquiry America will render the promised co-operation."

"It is the firm belief that the American Government has it in its power to render a great service to the security and peace of the world that His Majesty's Government, speaking in the name of the imperial conference, desire to associate themselves with the President's renewed proposal, and they will gladly receive from the American Government any suggestions the latter may be disposed to offer."

DRAMATIC REUNION HELD IN WASHINGTON

Wilson and Lloyd George Meet in Former President's Home.

Washington.—Two veterans of the World War sat together in a peaceful, cozy library, before a blazing log fire, and turned back the hands of time to the hour just five years ago when they stood at the threshold of victory after the most grueling war of history.

It was a dramatic reunion—this forty-five-minute visit which Lloyd George paid at the S street home of Woodrow Wilson, and so far as sentiment is concerned, it was the climax of the little Welshman's pilgrimage to the United States.

They sat facing each other, just as they had sat so many times at the Paris peace conference. Only now there was a pitiful contrast. One was ruddy with health, still eager to smell powder, and perhaps nourishing an ambition to sail back to his country a few days hence and stage a dramatic return from Elba. The other was pale, spent and broken, his life's work done, viewing the world's chaotic scene from the lonely mountain peak of a philosopher.

Lloyd George said afterward he found Wilson's mind "alert, fresh and witty." They talked over the Versailles peace conference and exchanged views on the "general situation" at the present time. That is all that any of those present would divulge.

Nobel Prize for Insulin Discovery Stockholm.—The Nobel prize for medicine for 1923 has been awarded to Dr. F. G. Banting and Dr. J. J. R. MacLeod of Toronto for their discovery of insulin.

Relief Fund for Veterans. Chicago, Ill.—The American League has set aside a \$50,000 fund for the relief of veteran players in need of assistance. President Johnson announced. The fund will be available to players in broken health.

WALTON TURNS DEAF EAR TO SUSPENSION

Attorney General's Plea for Prohibition Against Judge Chambers Set for Thursday

Oklahoma City, Ok.—With seven counts against him in the impeachment bill being perfected by the Lower House of the Oklahoma Legislature, Gov. J. C. Walton continued his refusal to recognize the authority of a Senate resolution to suspend him and awaited a hearing in State Supreme Court to determine whether he or Lieut. Gov. M. E. Trapp is the legally empowered chief executive of the State.

When the House adjourned it wound up a day that had been replete with feverish preparations for the impending trial of the chief executive.

At that time the court will rule on an application to make permanent its writ of prohibition which restrains Gov. Walton from interfering with the duties of Lieut. Gov. M. E. Trapp as acting Governor.

The Governor stands accused of: Division of public funds to his private use; prohibiting the convening of a legally ordered grand jury; use of his official influence to acquire private credit and property; accepting a bribe to approve a legislative bill; suspension of the writ of habeas corpus; unlawfully preventing a meeting of the State Legislature; attempted prevention of a special State election in violation of law.

Earlier in the day a message from the Governor was read in the House, asking an inquiry into rumors that a large amount of money now in deposit in a local bank to be used in influencing the impeachment vote of the legislators.

The Governor referred to a recent newspaper article which quoted local law officials as saying that \$250,000 "to be used in the Senate" already had reached here.

The House did not act on the executive's message.

Ten pardons and one commutation of sentence, signed by Gov. J. C. Walton before the Senate resolution suspending him from office was passed, were accepted for filing by the Secretary of State.

The Secretary received the documents only after obtaining an opinion from the Attorney General, which held, in effect, that such orders issued by the Governor while the Senate resolution is in effect are not legal, but that those promulgated prior to the passage of the measure are valid.

Those who received pardons include three men convicted of manslaughter.

One of the charges brought against Gov. Walton by a committee of impeachment from the lower house of the State Legislature is that he misused the pardon and parole power "to provide lucrative fees for his friends and associates."

GERMANS SEEKING CAPACITY TO PAY

Hearing Before Reparations Body Asked—New Crisis is Seen

Paris.—Germany's formal application for a hearing before the reparations commission on the subject of her capacity to pay is considered in authoritative circles as having brought the whole reparations problem to a new crisis. The German request was contained in a note presented to the commission by Dr. Mayer, head of the German reparations delegation in Paris.

It is expected that it will bring up an issue between the French delegates on one side and the British, Belgian and Italian representatives on the other, the three latter being known to favor a hearing for the Germans. The British and Italians have been inclined in this direction for some time and the Belgians now are said to believe that the time has come when the Germans should be allowed to state their case.

Motor Vehicles Increase. Austin, Texas.—Registrations of motor vehicles in Texas increased 5,711 during the past week, bringing the grand total up to 647,394, according to figures compiled by the State Highway Department. Transfers number 123,753; chauffeurs' licenses 14,342; motorcycle registrations 3,249 and dealers' licenses 2,662.

Pecan Crop a Failure. Smithville, Texas.—The pecan crop in this section, which, up to a few weeks ago, promised to be a fair yield, now seems to be almost an entire failure, and the nuts that are being marketed are of an inferior quality and size. The sweet potato and turkey crops will be very large.

Gobelin Tapestries Stolen Paris.—Two great Gobelin tapestries, each valued at 1,000,000 francs, were stolen recently from the walls of the Versailles Palace.

Boll Weevils Near Kaufman Terrell, Texas.—Mathew Cartwright of this city, who owns a ranch of 4,500 acres near Kaufman, reports 50 per cent of the cotton bolls on his crop have been punctured by boll worms and boll weevils are plentiful in the bolls eaten by worms.

Texas News

A contract has been let for the grading of 6.59 miles of state highway, leading from the Angleton road district toward Houston.

The Rio Grande Valley of Texas will produce approximately 300 carloads of citrus this year.

Indications are that approximately 2,500 acres will be planted to spinach in Travis County during the coming season. About the same amount of acreage was planted last year.

An average crop will be made and marketed by farmers of Lavaca County this year and the condition of the farmers will be considerably improved. Farmers are increasing their diversification and improving of seeds.

Scientific manufacture of ice cream, together with its transportation and sale will be discussed in Galveston November 26-28 when approximately 200 leading manufacturers from various sections of the state gather for the annual convention of the Texas Ice Cream Manufacturers' association.

About 125,000 head of live stock are believed to be on the ranges of Brazoria County. Stockmen are crossing Brahma cattle and black bulls with native stock with splendid results. There is no increase reported in this industry for the last year, largely due to the compulsory cattle dipping laws, it is said.

Texas still ranks sixth among the states in lumber production, figures obtained at the department of commerce show. A total of 240 Texas mills cut 1,542,798,000 cubic feet of lumber in 1922. In 1921, 301 mills cut 1,502,333,000 feet. Washington, Louisiana, Oregon, Mississippi and California are the five leading lumber producing states.

Since the attorney general has decided in favor of the Smithville Independent in the case of the city of Smithville deeding the 10-acre tract to the school, the school board will now go ahead with the building, the plans of which already have been accepted. The new building will cost approximately \$75,000 and the bonds for it have been sold.

Most of the dairies in Galveston county are along the line of the Santa Fe Railroad, in and near the towns of Hitchcock, Alta Loma, Arcadia and Algoa. All these dairies ship their product into Galveston by motor truck. There are large dairies, however, at La Marque, Dickinson and League City, most of which ship their milk in by interurban.

The old trail drivers of Texas—and some from even beyond the state—will gather in San Antonio for their ninth annual reunion Nov. 2. About 500 are expected to attend the meeting, according to George Saunders, president of the Old Trail Drivers' Association, an organization composed of men who drove cattle overland from Texas ranges to the Northwest and elsewhere in pioneer days.

The principal crops produced in Jasper county are potatoes, ribbon cane, corn, peanuts, cotton and velvet beans. The cotton acreage this year represents nearly 200 per cent increase over that of 1922 and farmers are making about a third of a bale to the acre. The corn crop will average about fifteen bushels to the acre, while potatoes are good for 150 bushels and peanuts twenty-six bushels.

Payment was completed for the 2000 acres of land selected by the Texas Technological locating committee as the site at Lubbock for the new technological college when all deeds and abstracts and releases were accepted by Assistant Attorney General W. W. Caves Monday for the State of Texas. A total of \$241,000 was included in the settlement. The city of Lubbock paid \$91,000 in addition to the \$150,000 payment by the State.

The old Spanish trail is being improved in Liberty County. A section of twenty-eight miles will be built of concrete at a cost of \$40,000 a mile, making it one of the finest stretches of road in this part of the state. Other roads being constructed in the county include sixty miles of hard-surface roads at a cost of from \$6,000 to \$12,000 a mile. These roads are being built from money realized by the sale of a \$2,000,000 bond issue voted in 1922.

Exports from ports in the Galveston district No. 22 during the month of August, were valued at \$27,771,773, according to a report received at the Galveston customs house this week from the bureau of customs statistics at New York.

The issuing of 150,000 in good roads bonds by the Plantersville road district of Grimes County was authorized by a substantial majority in an election held in that road district last week. The vote in favor of the bond issue was 203, with 86 votes cast against the proposition.

Major Arthur A. Stiles, state reclamation engineer, has advised the Colorado River Flood Control Association that within the next ten days he will send to Wharton to begin the work of surveying the Colorado River from Wharton to the mouth Engineer Floore, who has been on the Red River boudry job for several months. A force of assistants will be sent along and the necessary work on this project will be expedited to the fullest extent. This work is already far advanced by data, maps, aerial photographs, etc.

Homemade Articles Nice for Christmas Presents

Shoe Trees as Gifts

Among the gifts that are sure of a welcome every Christmas are shoe trees, furnished up with various pretty, and sometimes amusing, decorations. The trees pictured have funny little faces cleverly painted on the round ends. The toes are painted in two colors and the shanks wound with narrow satin ribbon ending in bows below the faces.

Yuletide Candles

Christmas without candles would be as disappointing as summer without flowers and every home-maker knows their charm and decorative value. A candlestick of paper rope, carrying a tall candle decorated with sealing wax paint, is a lovely homemade gift for either men or women friends. The rope may be bought ready for weaving and it is an easy matter to paint the candle with sealing wax paints.

For the Christmas Tree

Here are some new, homemade ornaments for the Christmas tree. They include a gay painted parakeet, with a peanut body, fastened to a wooden standard by wire. Crepe paper in bright colors, makes his crest, wings and tail. A wooden skewer, with a paper doll face fastened at one end and a sleigh bell at the other, is dressed up in strips of bright crepe paper. Mosquito netting, yarn and a paper face make the boy with stick candy in his arms and legs and small candies in his body. Colored gum drops fastened on small wire make tiny bouquets and plants.

Painted Toilet Sets

Plain white brushes and combs for gifts are enhanced by pretty designs of flowers done in sealing wax paints, and small tin boxes are made decorative by covering them with the colored wax in varied colors, blended into one another while they are soft.

Collar and Cuff Sets

Everybody goes about the ordinary business of life, in plain dresses of dark woolen cloth, that depend upon collar and cuff sets to lend them variety and a jaunty flavor. Therefore these sets are among the most acceptable of Christmas gifts. An endless variety of embroideries in white or in bright colors, comes by the yard, in straight or curved sections. One has only to stitch these sections to bands of lawn, to make a set like that pictured. Other sets are made of net, lace and sheer fabrics—the last finished with needlework in embroidery or fancy stitches.

Lace Dance Hats

Gold or silver lace and a bit of gay chiffon or malines will serve to make the pretty dance cap, with soft crown and up-rolling brim, as shown here. Tiny flowers at the front and a ribbon sash adorn it. The brim is supported by two fine wires.

Telephone Screen

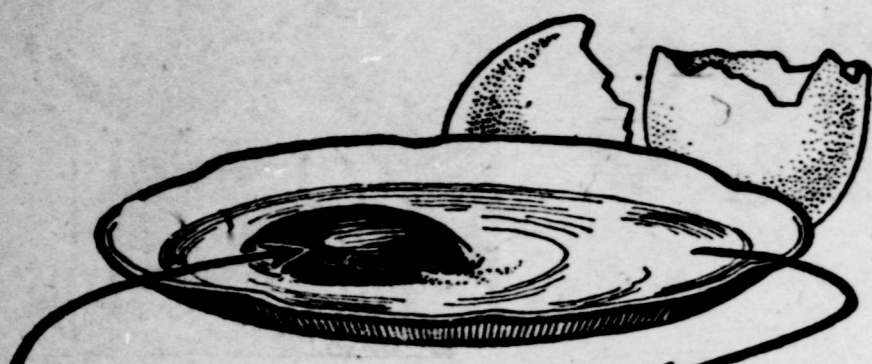

Either men or women friends will appreciate a pretty telephone screen for a gift. Here is one with a foundation of cardboard, covered with satin and ornamented with triangles of tapestry or figured ribbon, finished with gold braid. The reverse side is lined with plain silk.

Will Please Housewives

Housewives will appreciate holders for handling hot dishes and kitchen utensils. They are simply square, made of bright cretonne, padded with woolen cloth. A container for them is provided with a hanger, so that they can be hung up near the kitchen stove.

YOLKS + WHITES = EGGS

For every egg yolk in a hen's body she must have enough white to complete and lay an egg. If her feed lacks material for whites she absorbs the excess yolks and gets too fat to lay. "Boarders" don't even pay for the feed they eat.

Purina Makes Hens Pay

Purina Hen Chow and Chicken Chowder, fed together, make more eggs because they contain plenty of both white and yolk elements. They will get more eggs for you or your money paid for the Chows will be refunded. Start feeding now.

BOWERS BROTHERS

Located on track east of depot.

PURE DRUGS

We buy and sell the world Standard Drugs as well as the proven proprietary remedies and our **COLD DRINKS** are served as we would have them served to us.

J. L. RANDAL, Druggist
Brownfield, Texas

Mrs. S. A. Daugherty and daughter, Miss Dolores, and grand-daughter, Miss Robla Marion Hardin, attended the State Fair at Dallas.

OUR COLD STORAGE facilities are the very best, and we keep all our perishables ice cold—Enterprise Market and Grocery.

G. M. Thomason was in one day this week and reports somebody's horses getting in his field, and requests that they get them away.

I. H. Hudson is on business this morning.

A. P. Moore has not sold out as reported in the Herald.

Cotton picking at a standstill on account of wet weather.

Call on Moore for groceries. His house is full and he wants help to move them.

All knowing themselves to be indebted to Moore will please settle as fast as you can.

Dry goods cheap.

Just received a nice lot of jewelry. Call and see the stock.

NOTICE IN PROBATE

The State of Texas:—

To the Sheriff or any Constable of Terry County, Greeting:

You are hereby commanded to cause to be published once each week for ten days, exclusive of first day of publishing, before the return day hereof, in a newspaper of general circulation, which is now being published and circulated in Terry County, Texas, and which said newspaper has been regularly and continuously published and circulated in Terry County, Texas, for more than one year before this date, copy of the following notice:

The State of Texas:

To all persons interested in the estate and will of John William Gordon, deceased: Joe Boyd has filed an application in the County Court of Terry County, on the 11th day of October, 1923, for the probate of the last will and testament of John William Gordon, said will being dated October 13, 1922, and witnessed by Fayette F. Fanning and Joseph E. Foster, and to be appointed executor of said will and estate, which said application will be heard on the 26th day of November, 1923, at the Court-house of said County, in Brownfield, Texas, at which time all persons interested in said estate are required to appear and contest said application, should they desire to do so.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at Brownfield, Texas, on this 11th day of October 1923.

H. R. Winston, Clerk,
County Court, Terry County, Texas
By Lillian Webb, Deputy. (11-2)

INSULATORS A TARGET

Now that the hunting season is at hand it is observed that glass and porcelain insulators on transmission and telephone lines are used by some for target practice. This is an extremely dangerous and expensive thing to do.

Insulators are vital in preventing short circuiting of electric currents. If one is broken, a slight moisture is sufficient to cause electricity at high voltage to travel downward and burn a wooden pole, or put an entire transmission line out of service.

When this happens, homes and factories and stores being served perhaps hundreds of miles away must suffer. It often takes days for the linemen to locate the trouble and replace the broken insulator. This is frequently done in the most severe weather and under working conditions of the greatest danger to human life. All the electric maintenance man knows is that the line is not working well and he must usually travel many miles to locate the damage.

YOUR BUSINESS

You can look on this business as yours, as your representative in buying the kind of quality material you ought to have at your calling. Our function is to serve YOU with our knowledge of material, providing what is right, and seeing that you get it as reasonable as possible.

 \$1.50 Bouquet Ramee Toilet Water 2 for \$1.51

WHAT IS A ONE CENT SALE? It is where you buy one item at the regular price—then another item of the same kind for 1c. As an illustration: The standard price of Arbutus Complexion Cream is 50c. You buy a jar at this price and pay 1c more or 51c, you get two jars. Every article in this sale is a high class standard piece of merchandise, just the same as we sell you every day at regular prices and have sold you for years.

A NEW WAY OF ADVERTISING. This sale was developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you a full sized package of high standard merchandise for 1c. It costs money to get customers. The loss taken on this sale will be well spent if the goods please you.
