Between and Between

DISTRICT COURT CASES AND THEIR DISPOSITION

Three indictments were returned by the grand jury against William Word, alleged slayer of Dr. S. H. Windham early this spring. One for murder, and two for assault with the intent to murder.

Word will be tried at the next term of District Court in Lubbock county, we understand.

Perry Crowley was also indicted for the alleged slaying of Alex Hock, and his trial will likely come up in Lynn county in the next two weeks.

E. E. Proctor vs the unknown heirs of C. M. Lyon. Judgement rendered for plaintiff.

Ella C. Shaffer vs Fred O. Wickham. Verdict for plaintiff.

Oil Field Lumber Co. vs J. P. Crowley. Plaintiff got judgement for the sum of \$1,020.88.

Mrs. Ida Thomas vs Craig Thomas. Divorce granted.

Mrs. Winnie Price vs T. G. Price. Divorce granted.

W. B. Snodgrass vs Frances Snodgrass. Divorce granted.

Union Independent School District vs. the following defendants in suits for taxes: A. A. Sawyer, H. P. Saunders, M. B. Sawyer, W. L. Groves, Ame Flache, W. W. Newsom, E. J. Hendrick, J. E. Bryant, E. M. Davis, L. E. Hewett, E. M. Groves and C. C. Rose. Verdict for plaintiff in each case.

Mrs. Ethel Hogue vs W. M. Doss. Verdict for plaintiff.

James Goss vs John W. Rickel. Judgement for plaintiff.

The next jury commission was composed of A. J. Nelson, J. E. Shelton and H. H. Longbrake.

AND NOW HE GETS A "FROST"

Editor Hoard, of the Jefferson Union, Fort Atkinson, Wis., in discussing the subject of customer and employee ownership of securities of the public utilities, says: "It will be seen at once that this way of financing a corporation, while involving vastly more labor, is tremendously safer because it fortifies a corporation against vicious attacks.

"How can the soap box orator arouse his audience against a corporation when half of his listeners are on the inside and drawing good interest on their money. This is a new hurdle for communists to jump.

"Once the class hatred spouter got hot support. Now he gets a 'frost'.

Constable (Brownfield) E. Brown 129

Justice of Peace (Meadow) T. C. Malloch

Constable, (Meadow) Leslie Brooks

Total vote cast in county 1414

It is reported that some 100 qualified voters at Meadow alone failed to cast a vote. It is said that the northeast box at Brownfield east its entire strength of Democratic votes.

HENDERSON MAN TAKES HIS OWN LIFE

El Paso, Aug. 1.—M. G. Langhorne, of Henderson, Texas, ended his life in a sensational manner Friday night, when he shot himself with a pistol which he had wanted to purchase in the United Loan and Jewelry company store in the heart of the city.

Langhorne asked to look at a .44 calibre pistol, and then asked for cartridges. He placed one cartridge in the pistol, raised it to his head and pulled the trigger, according to Felix Dilger, the clerk who was waiting on him. The dead man's identity was learned from papers on him.—Lubbock Morning Avalanche.

The dead man is a brother to Mrs. E. G. Alexander of this city, and he comes of one of the best families in East Texas, and little is known here why he committed this rash act.

Mrs. Alexander was unable to attend the funeral at Henderson, but Mr. Alexander went instead. Herald deeply sympathizes with the bereaved family in their hour of trial.

COUNTY RACE RESULTS IN LYNN COUNTY

County Judge
J. B. Walker, 114.
Geo. E. Halliday, 701.

WORRLD RECORD WHEAT TRAIN LEAVES KANSAS

Our good friend, F. E. Walters, who is visiting in Kansas, sends us the following clipping of date of July 30, with a Newton, Kans. date line.

"All records were shattered when a Santa Fe train of wheat two miles long pulled out of here last night. The train had 300 cars of Kansas hard winter wheat. Four locomotives were required to pull the train, which moved in two sections, each with two engines.

The train carried approximately 360,000 bushels for which the farmers received \$396,000.

CARD OF THANKS

I want to thank those who stayed with me so faithfully in the primary. While I was not nominated, if the other man was the people's choice, I am satisfied.

R. E. Burnett.

DEMOCRAT AND REPUBLICAN CONVENTIONS SATURDAY

The Republicans held their convention first in the district court room, which was the first or second ever held in the county. The following are the Republican officials of the county:

L. H. Plain, chairman; Mrs. J. D. Miller, Secretary. Executive Committee: T. M. Flippin, chairman of precinct No. 4. H. H. Longbrake, chairman of Precinct No. 2. I. N. Newberry, chairman of Precinct No. 1. W. S. Crowder, chairman of precinct No. 3.

A. M. McBurnett was elected delegate to the Republican state convention to be held in Fort Worth, August 12th.

We understand there was another Republican convention held in some store and claiming to be the regulars also, but we got no report from it.

Right on the heels of the Republican convention, the County Democratic convention was held with the County Chairman, R. M. Kendrick, presiding. A motion was made and carried that the State Convention be asked to pass a resolution asking that the Klan issue be taken out of the party politics.

Geo. W. Neill, Ed Moore and J. N. Lewis were elected delegates to the State Convention.

MRS. FERGUSON TO STUMP THE STATE FOR JIM

Temple, July 31.—Virtually assured of participating in the run-off primary for the democratic gubernatorial nomination on August 23, Mrs. Miriam Ferguson will stump Texas to tell the folks what a fine man her husband, "Farmer Jim" really is.

As the returns from Saturday's primary showed her leading Lynch Davidson, her nearest opponent by nearly 5,000 votes, and the count practically completed, the woman candidate said her fight would be waged for lower taxes and an unwavering opposition to the Ku Klux Klan.

"High taxes," said Mrs. Ferguson, "dissipate the people's sustenance; the Ku Klux Klan threaten their religious liberty."

"I have just begun to fight. Although I cannot say just now what my plans are, you may rest assured that I am going to work hard for the vote, and what's more—I'm going to get it.

"I got into this fight to purge the family name, when my husband was impeached in office while governor. He did not get a fair deal. He is a good man and I am going to tell the people so when I make my little talks."

Felix D. Robertson, of Dallas, Mrs. Ferguson's opponent in the run-off primary, is the endorsed K.K.K. candidate.—Lubbock Avalanche.

J. H. King is among the new readers of the Herald.

FINE RAINS VISIT OLD TERRY LAST WEEK

One of the finest rains of the season, excepting the hail that accompanied it in a few places over the county, visited Terry and adjoining counties last Thursday afternoon. The gauge at Brownfield registered 80-100 inch, but most of the county got much more rain than this. However, the rain just east of town was lighter than here.

As stated above, there was some hail over the west side of the county J. W. Lasiter and a neighbor seeming to have received the worst part of it, although G. W. Chisholm reported quite a lot of damage on his farm north of town. There was some damage around Tokio reported, also.

The Herald has interviewed farmers from nearly every section of the county, and some from adjoining counties the past ten days, and taking their statements as a whole, we believe Terry county and the trade territory of Brownfield is in for the best general crop since 1920, and the number of bales of cotton that will be ginned in the county this year is placed as high as 20,000 by the most conservative.

The three gins in Brownfield that were here last year are being overhauled and new machinery added, if needed, and the three new gins that were built this year are now busy installing their machinery. The engine and boiler for the last gin was received this week and is being installed, so that all six of or big gins will be ready to grind out the fleecy staple when it is ready.

Another thing we are thankful for, and that is the fact that we are going to have a good feed crop this year, which means that our farmers will not have to put out all their surplus cotton money next spring for feed for their stock. Most of them will not only make enough feed to do them but have some to sell the hundreds of new comers that are sure to rush us again this fall and winter.

You people who have failed on a crop from one cause or another this year can find work on the Plains his fall and winter. Come.

HIGHLIGHTS IN THE CAREER OF JOHN W. DAVIS

Is 51 years old, one of the ablest lawyers in the United States, considered a man of intellectual strength and courage of the Woodrow Wilson type.

Born April 13, 1873, in Clarksburg, W. Va.

Graduated in law from the Washington and Lee University.

Two years assistant professor at Washington and Lee.

In 1897 began the practice of law at Clarksburg.

Elected two terms as congressman from that district.

In 1913 appointed solicitor general of the United States by Woodrow Wilson.

In 1918 appointed by Woodrow Wilson as ambassador to Great Britain.

Resigned in 1921 as ambassador to resume the practice of law in order to build up his fortune which he had greatly depleted while serving the government.

Married in 1899 to Julia T. McDonald, who died the following year. Remarried in 1912 to Ellen G. Bassell.—Exchange.

TO VOTERS AND CITIZENS OF TERRY COUNTY

I take this means to thank all those who supported me in the recent primary election. As the returns of the election show, I will be in the run-off to be held on the 23rd day of August, and I will appreciate your support again. And to those of you who did not support me in the first primary, I will appreciate it very much if you will give me due consideration before making up your ballot on the 23rd day of August.

Sincerely,
Lillian Webb

BARRETT THANKS VOTERS

I wish to thank those who voted for me in the recent primary, and solicit you and others to repeat it in the run off. I greatly appreciate your support so far, and assure you all that if elected you will have no cause to regret it.

Very Respectfully,
Jay Barrett.

John Peters came in last week and renewed for the Herald going to his son, Williant, at Waco.

FORREST LUMBER COMPANY MAKING IMPROVEMENTS

The Forrest Lumber Company has recently completed a deal for the 1-4 block on which the yard is situated, and are now putting in permanent improvements on their property. For the reason they did not own the lots kept them from putting in substantial improments in the beginning.

They are now building a string of 3-deck sheds on the east side of the property 110 feet in length, on good concrete foundations, which they are filling with new stock as fast as they are made ready.

Mr. Homer Hall, local manager, also informed us that they were going to double the capacity of the office and putting in scales as they aimed to handle coal.

We are glad to note this big improvement with this popular firm.

LOCAL GIN MAN LOSING MIND IT IS FEARED

For the past week or two it has been noticed that B. D. Milburn has been acting peculiar to those who are better acquainted with him, and his mental condition became such Tuesday night that his wife called in the officers to take charge of him, we understand, and he was confined that night.

The Milburn family have made a lot of close friends since they came here from Tuscola about three years ago, who regret to hear of this unfortunate turn of affairs, and they are hoping that he will soon regain his usual good health.

TRI-STATE FAIR TO HAVE GOOD HORSE RACES

Amarillo, Aug. 4.—Do your pulses tingle as the barrier drops and the prancing horses lunge forward in a wild scramble to gain the rail? Do you revel in the conflict as the challenger comes rfrom behind and two young demons ply the whip and spur in a desperate effort to bring their mounts first under the wire? Do you glory in deeds of nerve and skill; in the sight of whirling chariots of steel, thundering abreast, fighting for every inch, skidding the turns to gain a foot, hurtling through openings which look only a hand's breadth wide to take the lead? Then you'll enjoy the Tri-State Exposition, Sept. 22-28.

Officials of this great fair are of the opinion that Panhandle-Plains people enjoy spectacles filled with action, conflict, speed and color. They have arranged the race program accordingly, and it will be one of both quality and variety. There will be horse races, cowboy races, auto races and motorcycle races, and with a different program each day. Large purses insure a high quality of competition. All of the five-eighths mile track is visible from every seat in the new grand stand.

TEXAS HAS THE BILLION DOLLAR HABIT

The Texas cotton crop, according to July estimates will be about 4,400,000 bales from 15,200,000 acres—a slight increase in yield and acreage over 1923. The growers have the boll weevil under better control than they have had it for several years. There has been a considerable acreage decrease in the south and eastern sections of the state and heavy increases in the northwest, the cotton area there having been extended to the Colorado line. The boll weevil has not yet invaded the northwest.

The 25 major crops of Texas likely will cross the billion dollar value line this year for the third time, giving the state the billion dollar habit. Cotton is the leading crop. Corn, the second crop, will yield 100,000,000 bushels; if nothing happens before maturing time. Other crops: Oats, 50,000,000 bushels; wheat, 20,000,000 bushels; grain sorghums, 42,000,000 bushels; watermelons, 10,000 cars; cantaloupes, 200,000 crates; peanuts, 90,000,000 pounds; onions, 1,750,000 bushels; sugar cane syrup, 2,500,000 gallons; peaches, 2,000,000 bushels; cabbage, 25,000 tons; hay, 2,500,000 tons; lettuce, 250,000 crates; Irish potatoes, 2,000,000 bushels; sweet potatoes, 7,000,000 bushels; rice, 7,000,000 bushels.

Livestock, including dairy and poultry products, on which no estimates have yet been made, will doubtless put Texas far beyond the billion dollar mark.—The Earth.

Geo. Smith, and little son, at Falls, are the guests of Mrs. C. F. Holt.

THE TERRY COUNTY HERALD

A. J. STRICKLIN, Editor and Prop

Subscription Rates
One year: In Terry county, \$1.00; rest of Texas, Oklahoma and New Mexico, \$1.25; all other states, \$1.50.
The six month rate on the above will be 50c; 65c and 75c.
The three month rate will be 25c; 35c and 40c.

Advertising Rates on Application.

There aint no such animal as a blue farmer in Terry county.

We have another election the 23rd of this month, which we do not believe will be as hot as the one just past, although we expect a heavier vote than the other. The Herald will be glad when its over and forgotten.

Since the election and its unfortunate termination, our people seem to be settling down to business and each side seems to be willing to attend their own business. We can never expect to advertise our town and county as we should unless we let the past be forgotten and behave ourselves in the future.

An editor or reporter that are so biased in their opinions that they can meet justice only to their own friends in reporting an affair has no business trying to run a newspaper. A newspaper should be the mouth-piece of the community in which it is printed, and no matter what the personal feeling of the editor may be in

any issue, he should remember that the other side are due some justice and should at least continue what he has to say about them to the truth.

Peculiar circumstances confront the voters of Texas for August 23rd election. They have two candidates for governor of Texas to choose between. The man, Judge Felix Robertson, of Dallas, so far as we personally know, is a good man and citizen, but he is the admitted caucus choice of a clique, and that don't lay well with lots of folks. The woman, Mrs. Miriam Ferguson, is the wife of a man once impeached by our State Senate, and no bones are being made that he will have a hand in the administration if she is elected, but she has not been endorsed by any society or group and promises if elected to be a governor of all the people. Also, there are people who say they cannot stand petticoat government. The Herald, however, always had a peculiar liking for the ladies, and it has no objection to women in any office. So the woman will likely get the Herald vote.

W. J. Shepherd, manager of the Jones dry goods store at this place, left Monday for St. Louis to purchase their fall and winter stock. He will be gone about two weeks.

DO THE FARMERS STICK TOGETHER?

It was not many years ago when one would frequently hear the statement that "it is alright for the farmers to organize, but they won't stick together." Well, farmers have organized, and although they have made many mistakes, they are sticking together. In the South there are over 1,000 farmers' organizations transacting business of over one billion dollars annually. Their numbers are increasing and their business is growing. Farmers have called the turn on those who did not believe

they could successfully conduct co-operative organizations, and now, instead of sneering at their efforts their business and their influence are much in demand.

Co-operative marketing is growing in favor of the producers. It is taking time to iron out the rough places. Managers had to learn by experience and for a time the overhead more than consumed the profits of pooling. Today, organizations are running more smoothly. Office forces have been reduced and cost of operation brought down to reasonable figures. Co-operative marketing associations are winning the respect of the business world, and channels of trade are now opening to them that were closed during the earlier years of their existence. They are now recognized as important wheels in the business machinery of the country. Farmers are sticking together.—Farm and Ranch.

Composer's Comedy

The book of Richard Strauss' new comic opera, "Intermezzo," has been based by its librettist upon an incident in the composer's life. One day Strauss was playing cards when he was advised of his wife's intention to sue for a divorce. He at once made inquiries and discovered that he was accused of being over-friendly with a pretty girl, who alleged to the lawyers that she had arranged to meet the composer in a cafe the next afternoon. Strauss denied the appointment, but turned up at the cafe, where he learned that a young musical conductor had been impersonating him. Domestic harmony was restored, and Hermann Bahr, the librettist, utilized the story for the new opera.—Cleveland Plain Dealer.

Smoke and Sunlight

Recent tests in Paris with an instrument that measures accurately the amount of sunlight received from moment to moment have shown that when the smoke of the city blows over the place of observation the intensity of the sunlight is cut down more than 25 per cent below its value when the wind blows the smoke in the other direction. Sunlight is so valuable to health that this is a matter of considerable importance to city communities. It is another argument, possibly the best one, for careful attention to smoke prevention.

Call for War on Rat

Seldom do people realize the danger of the rat as being the destroyer of food and property and spreader of disease. Certain it is they must eat to live and they are very vicious when unable to obtain food. Although during the winter months, due no doubt to the fact that the severe weather drives hungry rats into the homes, the spring is usually the worst time for these pests. They sometimes attack children and even grownups. Rats can and should be killed by all citizens co-operating in the necessary work of extermination.

Embarrassing Moment.

One day I was late in leaving the gymnasium. I didn't notice how I had my skirt and rushed into the hall. If I had not been in such a hurry perhaps I would have noticed that the students were all laughing. One of the teachers took me by the arm, saying, "Young lady, we cannot allow you to walk in the hall dressed in such fashion." I looked down and, behold, I was carrying my skirt upon my arm and rushing through the halls in my bloomers.—Exchange.

HAVE YOUR ABSTRACT MADE BY MEN
Who not only have the will to serve you well, but the equipment also. The smartest man in this State could not draw abstracts of title with our promptness, accuracy and certainty—unless he had first experience in the business, and second, an adequate system of records.

We have a system for compiling, filing, systematizing, checking and verifying information about titles which gives us an immense advantage over any one who has a less complete equipment. This system is not available to others—it is our property and used exclusively for the service of our customers.

It gives us an immense advantage over the man who abstracts titles "on the side"—as an appendage to a general law or real estate business.

We will not only take pains to serve you—in addition we have the equipment to serve you. When we draw your abstract it tells the unassailable truth about the title; and that's the only kind of an abstract that is any good to you. Come in and we will show you in detail.

U.S. Royal Cords

BALLOON - BALLOON-TYPE - HIGH PRESSURE
Built of Latex-treated Cords

RIGHT now the user of Royal Cords is profiting by a development in tire building that is anywhere from three to five years ahead of the industry as a whole—
Latex-treated cords.

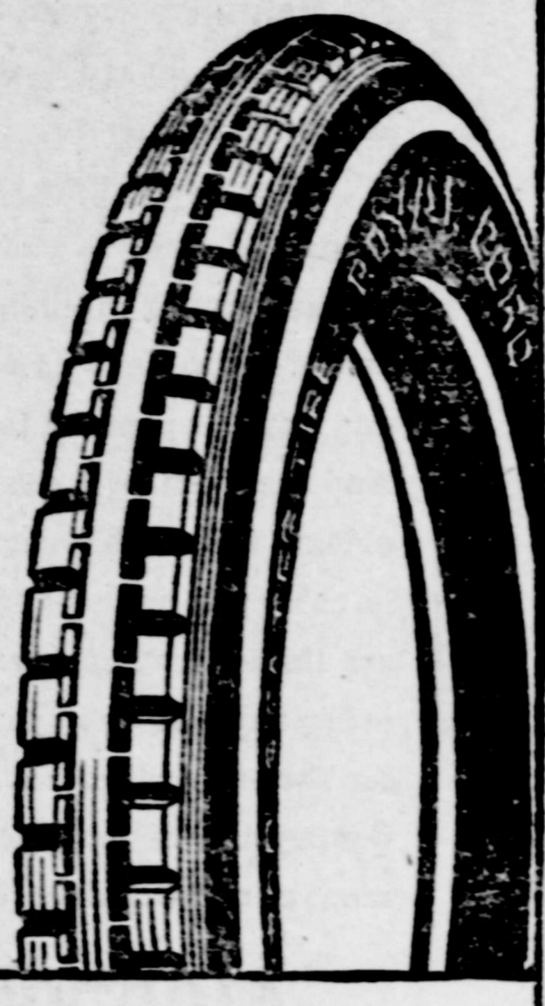

The Latex Process, which gives so much added strength and wearing quality to Royal Cords, was invented and patented by the makers of United States Tires.

It will undoubtedly supersede all other methods.

You can get the benefit in Royal Cord High Pressure Tires of all sizes from 30 x 3 1/2 inches up, in Royal Cord Balloon Tires for 20 and 21 inch rims, and Royal Cord Balloon-Type Tires that fit your present wheels and rims.

And you can get it now.

BE A BOOSTER AND HELP ADVERTISE THE COUNTY

The Chamber of Commerce has just had several thousand pieces of Terry county descriptive literature printed and would be glad to give them out to any citizen of the county who has some friends who are interested in this section of the South Plains.

Call on Morgan L. Copeland at the Brownfield State Bank, or J.E. Shelton, either of whom will be glad to furnish it.

W. R. Farmer, proprietor of the Farmer Poultry Farm just south of the city returned one day last week from Lamesa, where he went to vaccinate several thousand birds for the Dawson county poultry farm. He informed us that the man they had as manager let roup get into the flock and then departed for parts unknown. The stockholders then wired the A. & M. College for help in the dilemma and they wired them that they had a poultry expert near them at Brownfield. Mr. J. E. Garland, a lawyer, and a banker, whose name we failed to get, came over after Mr. Farmer, who reported that he left the flock in good shape.

John Jackson and children of Knowles, N. M., and J. J. Hines and family, of Hamlin, were here last week the guest of their nephew, W. L. Bandy and family.

Tom Raymer is here from Fort Worth, the guest of his sister, Mrs. Noah Bell of the Needmore community, and sister-in-law, Mrs. John Raymer.

M. L. Copeland and wife and Bob Bowers and family, left Tuesday for the New Mexico and Colorado mts., for their vacation. We hope them an excellent trip and a nice time.

H. R. Winston and family, accompanied by his mother, Mrs. J. F. Winston, left Sunday for Abilene and Dallas, where the former will seek medical aid for their baby.

Bob Snodgrass started in to farm on a large scale this year for the first time in his life, and got about half of his cotton hauled out last week. He says now: "never again."

D. T. Collins and family were here this week from Blooming Grove to look after their property purchased from Mr. Haddock, of Mississippi.

W. B. Snodgrass was up this week from Fluvanna, attending court. He reports everything on the ranch doing well.

Want Ads

WANTED: A few clean cotton rags at Herald office.

FRIDAY FORTY-TWO CLUB

Mrs. Stricklin was hostess to the Friday Forty-two club, August 1st. A majority of the members were present. The visitors were, Mmes. A. M. Brownfield, W. A. Bynum, McCracken, Bowers, Snodgrass, McGowan, Collins, and Miss Daugherty. After several interesting games were enjoyed, the club was served with frozen pineapples, whipped cream and cake. Miss Ditto assisted the hostess.

The reporter did not get to attend the last party in July, which met with Mrs. Dalton Lewis. Am told that a majority of the members were present and 42 enjoyed. A salad and ice cream courses were served, and all had a nice time.

We enjoy these parties while we visit our neighbors and friends.—Reporter.

Claims Jap Has Found Food to Add to Stature

Tokyo.—Victor Heiser, director of the Far East Rockefeller foundation, said that Doctor Saika of the Japanese Institute of Nutrition is about to start the medical world with a discovery of a fish powder to increase human stature.

"He has proved it in animals, and is now demonstrating it in humans," Mr. Heiser said. "I am convinced it is genuine and practical."

The American, who is consulting the authorities regarding establishing a research hospital financed by the foundation, says the anti-American agitation does not affect the plan.

"National questions do not concern us," Mr. Heiser declared. "We are now working in 37 countries, showing that we have no preference for races or nations."

The main work of the foundation in Japan will be to demonstrate that the annual death rate is unnecessary, due solely to the unbalanced diet and the lack of the use of preventatives.

Eleven Years in Mail

Springfield, Mass.—A Christmas greeting card mailed on December 23, 1912, in the neighboring village of Feeding Hills, was received a few days ago by Miss Olive H. Causey, eleven and a half years after it was mailed and more than six years after the death of the sender, George Hudson. Miss Causey has announced where the card has spent the interval postal officials do not know.

To Take Baby and Goat on Voyage

Anacortes, Wash.—A married couple with their baby and a cat and a goat will soon be adrift and northward bound from here to Skagway, Alaska. The goat will supply milk for the baby, who is going along with Mr. and Mrs. Linden R. Penz, its parents, on the 1,000-mile trip in a small catboat. According to their plans, they will arrive in the North just about time for the babe to cut his teeth on a piece of grizzly bear hide or mountain goat steak. Each night the tiny motor boat will be beached and the goat permitted to forage while the family enjoys sleep in a tent.

Purina makes heavy laying Pullets

It's not too soon to start right now to feed your chicks for more eggs! Purina Poultry Chows contain just the materials needed for bringing chicks to rapid and profitable maturity.

Early maturing pullets are heavy fall and winter layers. And, because Purina Poultry Chows bring pullets to maturity quickly, it pays handsomely to feed them. An ironbound guarantee comes with these Chows. Phone us.

SIMMONS PRESIDENT TO HAVE NEW RESIDENCE

Abilene, August 1.—Contract for erection of a home for President J. D. Sandifer of Simmons College has been awarded by the college to Darnell and Suggs, local contractors, the home to be completed within two months.

The building which will be located on the Simmons Campus, will be two stories high and constructed of face brick. The interior finish will be of colonial design with stone trimmings.

Plans for the home were drawn by David S. Castle, local architect of the college. The latest and most modern arrangements were included in the design, and these will be followed out completely in the construction of the new building. Four bed rooms, a large reception room, a solarium and two bath rooms on the upper floor are included.

Editor and Mrs. W. J. Wade, of the Jayton Chronicle, were here this week, accompanied by their two sons Eugene and Matt, to visit their daughter and sister, Mrs. H. W. McSpadden, Jr. Editor Wade paid the Herald a pleasant call while here and we had the pleasure of talking shop with him for the first time.

AMERICAN LEGION DOING COMMENDABLE WORK

The whole country will endorse the latest move of the American Legion. The intent to consecrate their full efforts and resources to the care of disabled soldiers and war orphans. This is splendid work and one in which the Legion can exert its powerful influence. Now that the bonus question is settled, there is no more commendable work for this American organization than the aid of disabled "buddies" and the children who have suffered from the World War.—Desdemonia Gusher.

J. H. Hamell, of the Challis community brought in the first load of Terry county water melons of the season, last Saturday.

A Littlefield lady being treated at a sanitarium at Lubbock, jumped out of a three story window one day this week which killed her almost immediately.

Ramond Champion, local Santa Fe agent, received a phone message this week that his sister had undergone an operation of a serious nature at her home in Pine Bluff, Ark., and was not doing as well as they had hoped for.

I CAN furnish you breeding cockrels now. S. C. W. L., 260 egg strain. Farmer's Poultry Farm. 8-8f

FIRST FLOATING FAIR SENT OUT BY GERMANY

Pilgrimage to Ports of Eu-
rope, Asia and Africa.

Hamburg, Germany.—The first Ger-
man floating fair will leave Hamburg
July 30 on a voyage which will occupy
ten months and take the fairship, "In-
dustria L." as far east as Yokohama.

The ship is to give testimony to
postwar German enterprise, and is to
carry the "Made in Germany" label to
distant points of Europe, and to
Asia and Africa. If the experiment
proves successful a second ship is to
be outfitted for a trip to North and
South America.

There will be room for 750 exhibi-
tors on this floating fair ground, and
in addition to a printing shop, banking
facilities, stenographic rooms, post
and telegraph, film and magic lantern
service and a news bureau. The film
service is to show German places of
interest, especially industrial towns
and industrial processes.

It is planned that the floating fair
shall stop from three to eight days in
every harbor visited. The route is
as follows: Helsingfors, Stockholm,
Copenhagen, Southampton, Lisbon,
Malaga, Barcelona, Palermo, Naples,
Piræus, Constantinople, Smyrna,
Jaffa, Alexandria, Port Said, Aden,
Karachi, Bombay, Colombo, Madras,
Calcutta, Rangoon, Penang, Delhi, Sin-
gapore, Batavia, Soerabaya, Macas-
sar, Bangkok, Manila, Canton, Shang-
hai, Tsingtau, Kobe, Vladivostok, Osa-
ka and Yokohama.

Hungry Jellyfish Drive Herring From North Sea

Bremerhaven.—European ichthyolo-
gists have become greatly exercised by
the diminished numbers of haddock
and herring in the North sea, from
which various other countries obtain
their principal fish supplies.

Several conferences have been held
by those interested in the fish industry
to consider what steps may be taken
to remedy the situation. The herring
began to disappear three years ago,
and the haddock some months later.

Fish experts attribute the dimi-
nished numbers to incredibly large
schools of jellyfish and various forms
of sea nettle which were swept in
from the Atlantic ocean in 1920, when
several changes were reported in the
different Atlantic currents.

The jellyfish came in a food of
warm water and made themselves at
home at once, consuming the food of
the herring in such great amounts that
the herring were unable to subsist.
When they began to disappear the
haddock, too, began gradually to di-
minish, as it is upon the eggs of the
herring that the haddock exists during
a great part of the year.

German Scientists Find Hoof-and-Mouth Germ

Berlin, Germany.—Bacteriologists
throughout Europe have been inter-
ested in the recent announcement here
of the discovery of a bacillus capable
of reproducing the hoof-and-mouth
disease in animals. Specialists have
come to Berlin to investigate further,
while there have been many letters
and cablegrams from the United
States and England, where there have
been epidemics this spring. News of
the discovery came from Prof. Paul
Frosch of the Royal Veterinary col-
lege, who has been working on the
problem several years in conjunction
with Professor Dohner.

The new bacillus has not yet been
subjected to sufficient confirmatory
tests to make it possible to say posi-
tively that it is the final solution of
the difficulty, but medical journals in
Germany and England have written
enthusiastic articles about it, and var-
ious authorities have ventured to pre-
dict that this enthusiasm has not been
misplaced.

According to writers on veterinary
subjects in these periodicals, the hoof-
and-mouth disease is supposed to have
been a European malady for more
than 2,000 years, though it was not
until the Seventeenth and Eighteenth
centuries that positive proof of its
presence was found.

YE EDITOR BACKS DOWN

A Kansas editor got gay and made
caustic criticism of the practice of
bobbing hair. The poor editor soon
found his patronage gone and him-
self scorned by the women of the
town. In hunger and despair, the ed-
itor tried to regain the patronage
and good will of the women by apol-
ogizing, and this is what he said:
"We like bobbed hair. Bobbed hair
is sanitary. Bobbed hair looks cute.
Bobbed hair makes business good for
the barbers, and we love the barbers.
Bobbed hair makes old women look
older, giving them that good, girlish,
grandmother appearance. Biscuits
with hair in them are not as numer-
ous as they were before the hair
craze. If there are any, they are
shorter and easier to get out. There-
fore, we apologize for what we said
in the past about bobbed hair."
Gandoloupe Gazette-Bulletin.

Over 300 new telephone directories
for Brownfield exchange, was deliv-
ered to the South Plains Telephone
Co. last week, and Mr. Plain ex-
pressed himself as well pleased with
the work. As soon as they are all
delivered to the subscribers, when
you want the Herald office, for in-
stance, you will be expected to tell
the operator "No. 1, please," instead
of "I want the Herald office, please."

Mrs. Stella McCracken, of Amaril-
lo, is here visiting her parents, Dr.
and Mrs. T. L. Treadaway.

Mr. and Mrs. F. Anthony and son,
of Palmer, Texas, are here visiting
their son, Earl Anthony and family.

Little Wy Vaughan Estep, of Sem-
inole, is visiting her aunt, Mrs. Al-
bert O'Quin.

C. Sears was in Tuesday and says
he has the best prospects for both
cotton, corn and feed crops he has
ever had. He made 50 bales of cot-
ton last year and says if nothing
happens to his crop from now on he
will just as easily get 75 bales this
year. Come to Terry. You will be
needed to help gather the bumper
crop.

Through the courtesy of Judge W.
W. Price, County Attorney John B.
Rhea, of Graham, is now a reader
of the Herald.

Jim Smith, prominent rancher of
the Needmore community, is now a
regular reader of the Herald.

Northwest to hunt America's biggest
flesh-eating animal.

The Alaska peninsula is, without
doubt, the best big bear country in
the world today, although in sections
where a hunter, five years ago, would
get from twenty to fifty pelts in a
season, these animals are extinct. In
secluded areas on the Bering sea side
the brown grizzlies are found in great
numbers. Trappers arriving here tell
of having sighted twenty to forty bears
in a single day's march.

The range and distribution of the
Alaskan grizzly is for the most part
through the coastal country from Icy
straits, bear here, along Prince Wil-
liam sound, Kodiak and other islands,
the entire Alaskan peninsula and along
Bristol bay and Bering sea. In fact,
the big brown bears are found where
salmon abound.

The results of the de luxe bear
chase are the finest pelts for rugs,
robes or coats. Attractive trophies
of mounted heads and claws are
brought home to adorn offices and
smoking dens. The short season
when the hides are well tanned se-
cures the crop for many generations,
provided, of course, that salmon and
other food for the animals continues
abundant.

Water Pumps Itself

An Oregon mine, well up in the
mountains, has taken advantage of its
location to pump the water out of its
galleries, though its mean depth is
about 600 feet, without any cost save
that of installation. The water liter-
ally pumps itself. The secret lies in
the fact that the mine location is such
as to make possible the construction of
a power flume, carrying the water off
into one of the nearby valleys and driv-
ing a 1,500-foot head. Once the thing
is started, it runs on indefinitely, the
power from the flume being ample to
run the mine pump.—Scientific Ameri-
can.

Far Sighted

Customer—But surely you don't
really sell these watches at a dollar
each?

Shopman—Oh, yes, madam.

"But they must cost that to make."

"They do, madam."

"Then how do you make your
profit?"

"Repairing them, madam."—London

ers, of Lubbock, came down Sunday,
accompanied by his wife and filled
his father's shoes as president of the local
Church of Christ. Prof. Sanders is
principal of the Sabbath schools.

PLAINS END OF NEW COVERED WAGON TRAIL

"The New Covered Wagon Trail," by E. H. Taylor, leading article in last week's Country Gentleman deals with the influx of cotton growers to the staked Plains of West Texas and the passing of the ranches for which this country has so long been famed. "Farmers have long been sitting into the Panhandle and Plains for twenty years. But the great cotton rush really begin about a year and a half ago, reaching its climax last spring," says Mr. Taylor in his story, which is a conservative and unbiased narration of the recent changes that have occurred on the Plains. Mr. Taylor quotes a number of old timers of West Texas and others who have studied conditions here enough to offer opinions unprejudiced thru familiarity with conditions peculiar to this section of the West. Among those men are Curtis A. Keen, editor of the Plains Journal, who Mr. Taylor speaks of as one "who knows the Plains as few do," and R. E. Karper, superintendent of the State college Experiment Station here.

6000 New Families

"A complete estimate by bankers, by county clerks who record deeds, by railroad traffic men and by supply merchants is that somewhere between five and six thousand new families have arrived since last Oct. 1st. That is not counting the various exploiters, small merchants, salesmen and one sort or another of human tumbling weeds that are carried along with such movements," comments the writer on the extensive immigration into the Plains country. This country is made up of every type of individual, but many of them are farmers from East Texas, cotton farmers mostly, and farmers from the other states in the old cotton belt, for as Mr. Taylor states, "the policies of the land agents, have been to seek real farmers." Less than half the settlers came by rail, estimates Mr. Taylor, the rest took the covered wagon route of the pioneers, or as he expressed it, "the covered-car route."

Ranches Broken Up

Ranches long famous are being broken up into blocks of 10,000 to 40,000 acres each, and going on the market, according to this story. New towns are being born, new railroads lines projected, county seat fights taking place, along with the other colorful episodes that attend the opening of a new country. The shined boarded little houses along the roadways, the air of haste to realize the golden opportunity, bespeaks the necessity of clearing the land and putting in the crop while the year promises to be good, for there is always the possibility of a drouth sometimes, although there has not been a really bad one since 1918, is the opinion of the writer, arrived at after talking with people here and seeing conditions as they exist.

No Boll Weevils

The boll weevil is responsible chiefly for the great covered wagon movement, thinks, Mr. Taylor. There has been a shortage of cotton recently caused by the boll weevil's destructiveness of the cotton belt, and the fact that the Plains is free from the weevil, has hastened the breaking up of the ranches.

Even some of the ranchers have turned to farming. It's one way for the cattleman to get out of the hole the depression put them in, B. B. Curry, banker a Seminole, is quoted as saying. Some of them are doing cotton farming with success.

Millions of Acres Ready

Mr. Taylor cites a number of well known ranches that are being sold in small pieces to immigrants and others, saying that there are really millions of acres of ranch land ready to pass into the hands of the settlers. In conclusion the writer quotes an agricultural worker as saying: "Everything now points to a good season in the Plains, which means a continuation of the immigration movement and the probable bigger plunge next year. But sometime it isn't going to happen. Those who survive will have learned what it takes to stick. And then the Plains will have the beginning of a permanent agriculture."—Plains Journal.

ANOTHER POLITICAL CONFERENCE CALLED

A special meeting of the State Farm Labor political conference, is called for Monday, August 11th, to be held in the Railway Clerks Hall, 1502 1/2 Main Street, Fort Worth.

The purpose of the meeting is to arrange for an aggressive campaign to be made in behalf of the candidates that were endorsed at our last conference, March 4th, whose names will appear on the ballot in the second primary.

A vote of the conference will also decide whether or not an endorsement will be made in the race for Governor.

Mrs. J. O. Smart, Sec.-Treas.

MEADOW BRIEFS

By Accotlapias

There has been quite a number of visitors in and around Meadow the past week. Among them Mrs. Herrington and granddaughter, Mrs. Little. Mrs. Herrington is the mother of our druggist, Luther Herrington. This is her first trip to the Plains, and she expresses herself as well pleased with the country.

We have another old friend, Mr. Littlefield, from Pendleton, Texas. We have not seen him for twenty years. He was on his way to visit a brother in Chaves county, N. M.

Our friend, Robert Welch has a new assistant at the lumber yard. He is a rather nice looking young fellow and will perhaps give satisfaction to all who patronize that institution.

Mr. Thos. Morgan, who lives just west of town was taken to the Lubbock Sanitarium this week for a mastoid operation. At last accounts he was getting on well.

Four of our young men were visitors to the Justice of the Peace this week for disturbing public worship. This is indeed bad and we deplore the fact that some of our young people will so far forget themselves as to indulge in laughing and talking in church, or for that matter at any other public function where people go to listen. It is an offense against those who go to listen as also the preacher or speaker as it diverts his mind from his theme. We should keep quiet, although some preachers excite our risibilities and occasionally our disgust. However, we should not forget that it is God's house, in spite of the fact that the subject being discussed is putrescent, needs disinfected, and if discussed at all should be on the outside of the house and then only with those afflicted with pruriency.

The pulpit is not the place to discuss sexual sins, past nor present. "For as he thinketh in his heart so is he." Prov. 23-7.

Some two years ago an old man from Canyon, Texas, preached a series of sermons here. His discussions were an inspiration. His language was chaste and of course his thoughts were. Not once did he call up the Lots, David and Bath-she-ba, the Magdalines of Cleopatria, nor any of the modern sexual delinquents. His appeals were all that is best in man and woman. "Blessed is the pure in heart for they shall see God."

The Methodist meeting which has been in progress the past ten days closed Sunday night, with several additions to the church. The meeting was well attended and much good, we hope was accomplished.

The Church of Christ opened services Saturday night with the Rev. Nichols in charge. He is an earnest forceful speaker, and has his subject well in hand. The meeting will continue through the week.

Dr. Moorhead and family will leave Wednesday for Austin, Texas, where he will visit his son, Edwin and from there to Stephenville. Mrs. A. L. Moorhead will go with them.

HARRIS HAPPENINGS

By Sand Bur

Mr. and Mrs. M. E. Elington and children spent Thursday with Mr. and Mrs. Geo. Alexander.

Charley Jones and family and S. T. Murphey and family, attended the ball game and picnic at Plains, Saturday.

Mrs. F. M. Ellington and children visited Mrs. A. M. McDunnitt, Saturday afternoon.

Dorothy Helen Murphey has contracted the dreaded disease called whooping cough. She is getting on as well as could be expected.

Little Miss Elsie Lucile Clare, during her earthly existence thus far, has gained a half pound.

Sam Murphey and Frosty Ellington helped Coy Maroney windmill one day this week.

R. C. Cox and family are off this week to Oklahoma. Mr. Marway accompanied them with a view of prospecting. Mr. Maroney isn't accustomed to living in a country where he doesn't get his feet wet except when he puts them in a tub of water.

Did you notice the article by T. W. Moss in last week's paper. Read it and heed it, farmers and farmers' wives.

Mr. and Mrs. S. T. Murphey and daughters, Jaunita and Dorothy, spent Saturday with F. M. Elington and family.

L. R. Fitzgerald and family were Plains visitors, Saturday. Our rain continues to fall elsewhere.

Music is a moral law. It gives a soul to the universe; wings to the mind, flight to the imagination, a charm to sadness, gaiety and life to everything. It is the essence to ardor and leads to all that is just, good and beautiful. Let us have more music both vocal and instrumental.

Jay Barrett, candidate in the Aug. 23 primary for nomination as County and District Clerk, renewed for his Herald this week.

TOKIO TALKINGS

By Reporter.

Some of the farmers got some hail last Wednesday afternoon that damaged some of the crops pretty bad, while others got a good rain that will help the crops for a good while.

Mr. J. A. Parks and wife left this week for Tahoka to take treatment from a doctor at that place.

Miss Maggie Jowers went with the Parks' to take treatment for awhile. Wilburn Pippin spent the week end with home folks.

Miss Annie Taylor who has been visiting relatives for some time, came home last week, accompanied by her sister and family and Miss Carmichael.

Rev. Johnson is holding a meeting here this week.

Mr. and Mrs. Cobren, of Rochester, is visiting her parents, Mr. and Mrs. W. J. Smith.

Mr. and Mrs. B. M. Wade left Saturday to attend a revival near Post. Mr. and Mrs. W. B. Martin's children are suffering with scarlet fever. We hope they will soon be well once more.

Mr. and Mrs. W. R. Patterson and children visited with J. T. Pippin and family, Sunday, and also attended church and Sunday School.

Mr. and Mrs. Butler and a brother of Mrs. Winkler, are visiting with the Winkler family, this week.

Mr. and Mrs. Floyd Johnson have been spending a few days with Mr. Johnson's brothers, Homer and Clifford.

M. V. Brownfield returned this week from Dallas where he went on business.

J. M. Brown was down from the Meadow country Monday. He reports a very good crop of both cotton and corn.

Fall Footwear

In these shoes you will see that every slightest detail has been given the most careful attention by expert workmen, resulting in footwear pleasing in style and comfortable in fitting. Our stock of shoes is complete, you can find what you want for any member of the family in this department.

Dresses

You may choose your fall ready-to-wear dresses from our stock or if you prefer fashioning them from the latest in fall fabrics we have whatever material you are intending to use, in an ample choice of weaves, patterns and colors.

Gloves, Handkerchiefs Etc.

Gloves are very essential to a complete wardrobe, we have a nice line in silks such as we are showing but if you wish to wear others, they are here in ample variety.

We carry hundreds of little articles to numerous to mention here; if you need Handkerchiefs, collars, sox; anything in the dry goods line we have it.
