

SATURDAY CROWDS GETTING TO BE BULKY

Nearly sixteen years ago when the Herald man landed in Brownfield, a village of perhaps 200 people, a little smile wreathed our face at the wide streets that had been laid off by the founders of Brownfield, and we wondered if these founders had any idea that these 100 foot thoroughfares would ever be crowded even during picnic times or upon visits of circuses. Yes, we smiled mightily to ourselves.

But Brownfield's founders were wiser men than we took them for. Perhaps, and we doubt it not, that the founders themselves never dreamed that horseless carriages would ever be a thing to be considered in controlling traffic, but these founders had seen narrow streets in moderate sized cities of that day jammed because of a double tracked car line, and they may have visioned such for Brownfield in the hazy future.

But a large town or city does not have to sport a street car system in these days of motor vehicles to have their streets jammed with traffic. In the good old days of old "Dobbin" that critter could be hitched in a back alley, vacant lot, or a less used street—but who wants to insult his "lizzy" with an obscure corner.

But back to the present. They were here Saturday from the four corners, and cars were parked two deep along some of the main streets, and one had to pick his or her way up the sidewalk like you do in real cities. In fact most of us old times elected to cut the corners jay-style or go round the back way rather than be pushed and jarred along the sidewalk.

Not all these people were along the sidewalks milling around either, for hundreds of them could be seen in the stores laying in table supplies, clothing, stoves, or furniture, and as a consequence, hundreds and thousands of dollars changed hands here Saturday.

Yes, we are glad that the people who layed out Brownfield were men of vision.

MAYFIELD WILL SUPPORT ALL THE NOMINEES

Senator Earle B. Mayfield will support Mrs. Miriam A. Ferguson for governor at the general election, he said here Friday. He expressed confidence of victory for Mrs. Ferguson.

"I am a Democratic Senator from Texas, and I am going to vote for the nominees of the party from John W. Davis down to constable," he declared.

"No, that is not an embarrassing question for me at all," he replied when asked whether he will vote for Mrs. Ferguson or Geo. C. Butte, the Republican nominee. Mrs. Ferguson's husband, former governor James E. Ferguson, was Mayfield's opponent in the senatorial contest.

Senator Mayfield will be in Fort Worth until Saturday night when he leaves for Austin.

"Texas voters should give their support to our presidential nominee and these Texas dyed-in-the-wool Democrats ought to open up their pocket-books a bit more liberally to carry on the fight in other states before the election," Mayfield said.

"I think all good democrats should support Davis and Bryan and when money is needed from the rank and file of the party the Democrats ought to come across."

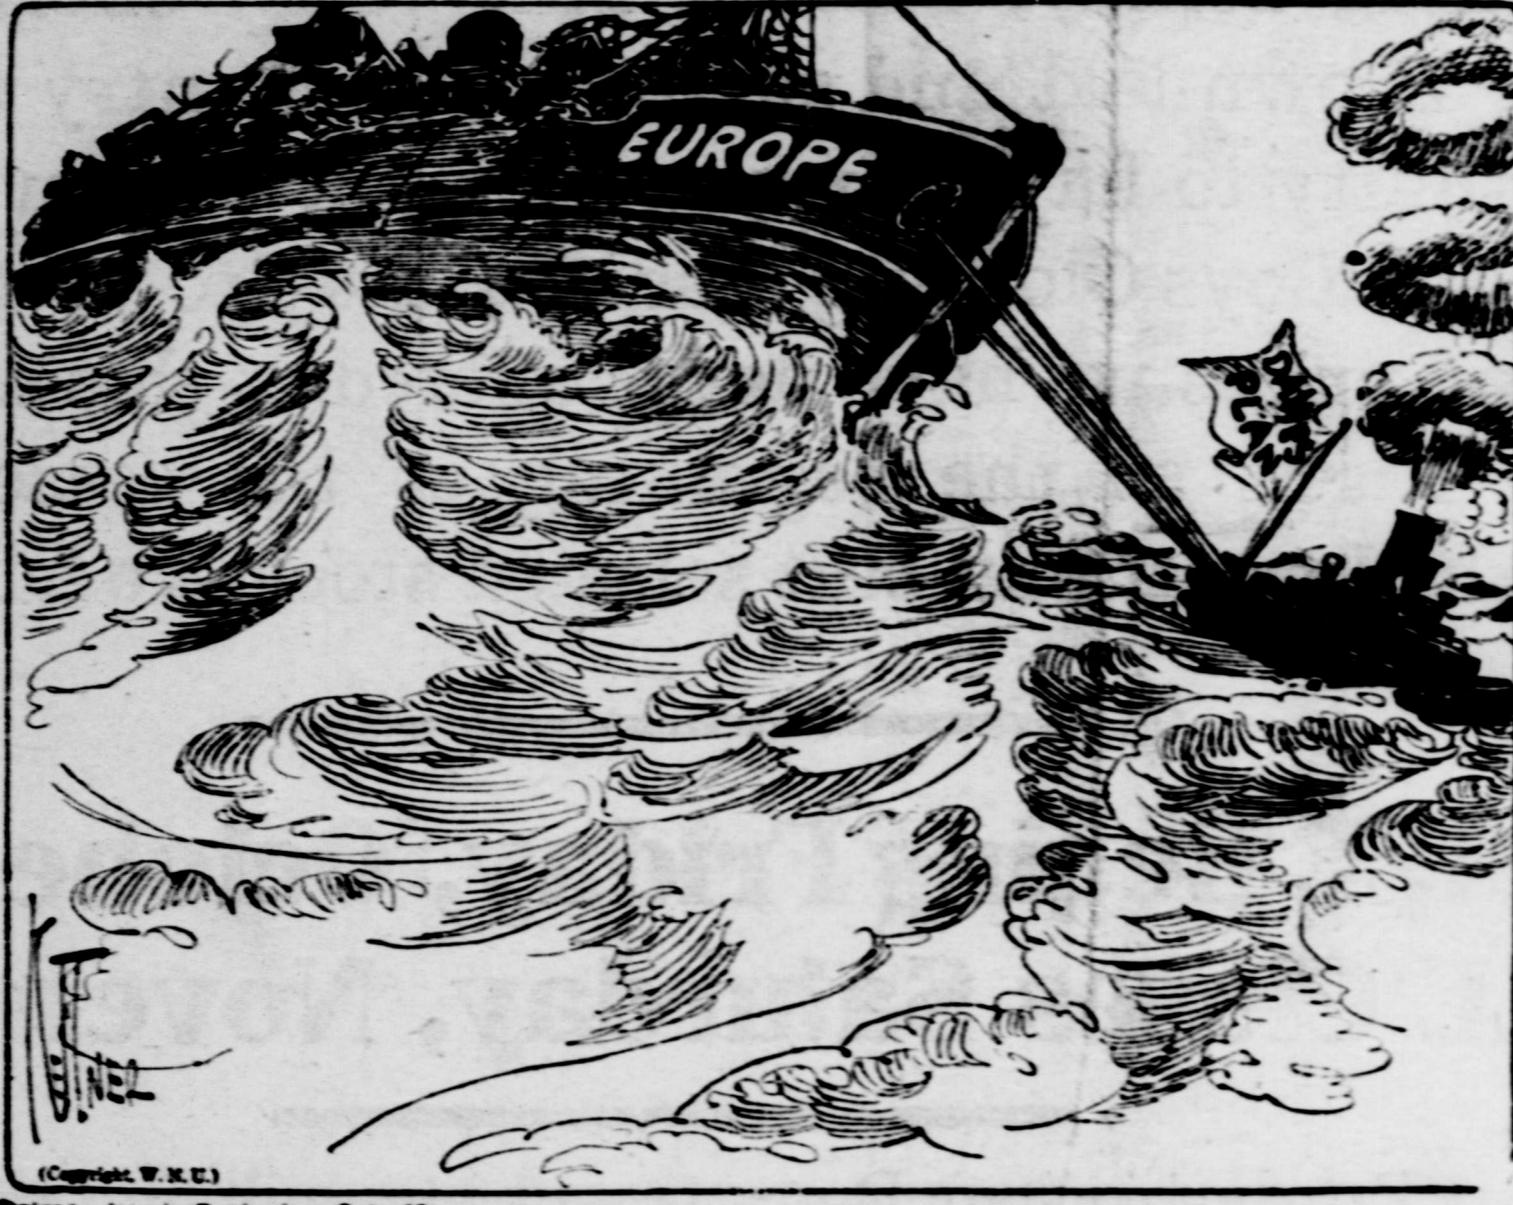

THE STORK ALSO IS HELPING TO PEOPLE TERRY

The real estate agents seem to be right busy of late, with lots of prospectors pouring into old Terry. A large per cent of them have the land agents burn a lot of gas hauling them around to see the country, who have no idea of buying land—just merely taking an outing. While quite a number have purchased land and will cast their lots with the good people of Terry county, the real estate men are not the only class endeavoring to settle the county. The records show that the doctors are doing their part.

In August and September, Dr. J.R. Lemmon reports 4 births; Dr. Treadway 12; Dr. Bell 2; Dr. Castleberry 14; Dr. Moorhead 1 and Dr. Bradford 2. So the real estate men will have to hustle or the stork route will beat them.

The only grafter the public honors is Luther Burbank.

Salvaging the Derelict

BIG BUSINESS MEN SEEKING SITES IN BROWNFIELD

Many deals have been consummated or are under way, wherein real big business men, seeing the importance of Brownfield, its huge virgin trade territory now developed and to be developed much further, are seeking sites for commercial and manufacturing purposes, some of them to be used for building sites in the immediate future.

One of these is the Gulf Refining Company, who although having a wholesale plant here for the past two years, have been in leased quarters with cramped conditions and no storage capacity outside of barrels. They understand are on a deal for a site just north of the Raifer-4 warehouse on the railroad tract, and if the trade goes through, will erect storage tanks and a wholesale house in the immediate future.

The other big business concern is the Texas Utilities Company with large ice manufacturing plants, as well as electric light and power plants at both Lubbock and Plainview. They too, have purchased two lots on the trackage north of the Raifer-4 warehouse, and intend to build an ice manufacturing and storage here in time to take care of the wants of the people of this territory by next season.

We have it on good authority that another ice manufacturing concern has closed a deal for trackage site, but we failed to learn just who it is.

We wish to state that the ice plant that was started here in late summer by Mr. Brownfield has been given up, as he did not want to be bothered with a business of this nature, but the building is being rushed to completion by the 1st of November, in order to be occupied by the Brownfield Produce Co., as the new hotel will be built on the site now occupied by this firm.

There are other deals in the making that are almost sure to be pulled but are not far enough along at this time to publish.

We have wondered at the progress of Brownfield and trade territory—at the rapid growth of the past two years, but to our notion the wonder of wonders are to come in the next few years. Watch us grow.

PARKE N. DALTON TO SIT AS SPECIAL JUDGE

Parke N. Dalton, of Crosbyton, district attorney elect, is acting in the capacity of special judge of the 72nd judicial district court at Lubbock this week.

The Lubbock bar unanimously elected him to the place at a meeting Monday.—Ralls Banner.

A Terry county citizen of the fair sect was hauled before the law here Sunday for cursing a man of the sterner sect. It isn't often the ladies excel at this game, but when they do they are some "cussers."

TERRY MADE POOR SHOWING AT THE STATE FAIR

Terry county stood away down the line, about 24th we believe at Dallas, according to the judges, there being a matter of only some five or six counties beneath us—but this is some consolation. The day has arrived when exhibits have to be handled with as much care as a young lady devotes to her toilet, and we may be wrong, but we have got the idea in our head that one must have a county agent and be lined-up with the A & M. College. Then too, you must have just so much of this or that fruit, grain or vegetables, no matter whether its growth is suitable to Norway or Cuba. The time has past—if you want to be in the judging contest—when you can put up an array of the choice productions of the county to suit your own fancy and for real advertising purposes.

Advertising, after all, is the main consideration of sending exhibits to the State Fair, and if the Herald had its way, it would send and exhibit just what it wanted to exhibit, if it was nothing but a bunch of prairie dogs, dog owls and jack rabbits, and when the judges came around, we'd tell them to march on as we had paid for and was running that booth.

Take for instance Hale county, they have a wealthy man whose hobby is to study and prepare exhibits, and right now he is busy preparing for the contest next year. No county, that depends on throwing an exhibit together in 24 hours can hope to compete with such a hobbyist, and we wouldn't give two bits to do so.

West Texas and the Panhandle in particular walked off as usual with the larger part of the swag, getting the first eleven prizes, and many more lesser ones. In fact the agricultural exhibits department at the State Fair has become known as Panhandle row.

EXTRA FREIGHT PUT ON LAMESA BRANCH

On account of the increased freight tonnage, the Santa Fe has put on an extra freight train, running from Lamesa to Slaton and return each day. This additional service was instituted Monday, and the towns along the line of the Santa Fe are assured of much better service hereafter.

The Western Union Telegraph Co. is preparing to run a wire and possibly two wires to Tahoka within the next week or two, according to a statement made to a representative of the News by L. C. Heare, the local agent. This means better wire service at this station.—Tahoka News.

R. L. Stanley, of Clarksville, came in Monday and will try to buy maize. He said however, that he found maize here about as high as at home. Mr. Stanley was formerly a newspaperman, having worked for several years on both the Clarksville Times and also the Gazette.

LUBBOCK EXPECTS BIG CROWD ARMISTICE DAY

Lubbock, Oct. 21.—(Special)—Lubbock will be host to another great throng of friends, on Armistice Day, November 11th, when the corner stone for the first building of the Texas Technological College will be laid here with appropriate ceremonies. Thousand of visitors from all over Texas, including many prominent state officials and educators will be present, according to a statement of Dr. Horn, following a recent meeting of the Tech Board.

Immediately following the announcement of the Board's plans for the corner stone laying, the Lubbock Chamber of Commerce appointed 12 committees to look after the city's part in the celebration.

Governor Pat M. Neff and Colonel Earnest Thompson of Amarillo, have already accepted invitations to appear on the program and many other prominent men will also take part.

All the officials of the State of Texas, including members of the legislature, Governors of adjoining states, and leading educators of the Southwest have been invited and every mail brings scores of acceptances. Henry T. Kimbro, chairman of the general committee states:

One of the big features of the day will be an encampment of ex-service men from all over West Texas, sponsored by the local post of American Legion in co-operation with the general committee. Over a thousand former soldiers are expected to be on hand and a special menu consisting of beans and "corn willie" will be served free to these visitors, who will aid in the day's celebration, which will feature also the signing of the Armistice.

The corner stone will be laid under the auspices of the Masonic Grand Lodge, and this will bring hundreds of other prominent visitors to the celebration.

All of the Tech's friends in this section are not only invited, but are cordially urged to be present and help make the occasion a success.

CHURCH OF CHRIST CALLS A MINISTER

As stated in these columns last week, Elder S. F. Vance was here from Chillicothe to preach Wednesday and Thursday nights with the prospect to come to Brownfield to work for the local church.

Elder Vance came well recommended, and such was his appearance and the impression he made on the local church that they made him an offer to come to Brownfield for full time.

Up to this time the elders have not heard from Elder Vance, as he was to let them know by wire.

If he comes, he will likely be here around the first of November to take up the work.

Let these "human flies" alone and they will finally swat themselves.

DEMOCRATS CALLED IN MASS MEETING OCTOBER 30TH

County Democratic Chairman has issued a call to all true and loyal Democrats to meet in mass meeting in the District Court room at the Courthouse, at 7:30 P.M., October 30th.

There are many things that are to be discussed at this meeting and a representative crowd is urged to be present. One thing in particular is said to be that of the much talk of pledge jumping that is now heard, and true blue Democrats are making an effort to spot all such and they will not be allowed to participate in Democratic primaries hereafter if it can be prevented by law.

Don't forget the date, and lets have a good representation from every voting precinct in the county.

The Terry county Democrats have no objections to anyone being a Republican if that is their convictions, but they want them to have their own primaries.

PENITENTIARY AGENT EXPECTED AT LUBBOCK

Commitment papers were gotten out by the District Clerk here this week and mailed to penitentiary authorities at Huntsville for the four prisoners convicted here during the August term of the District Court, which adjourned October 4th.

Will Word, Terry county cowboy gunman, sentenced for life imprisonment for murder; K. C. Jones, Sam Samuels, and Geo. Hamilton, negroes sentenced for burglary of the J. A. Hodges store for terms of two years for Jones and three years for the other two, were included in the report.

Bud Russell, penitentiary agent, or some other official of the penitentiary will doubtless arrive in Lubbock this week to take the prisoners to the penitentiary at Huntsville.—Lubbock Avalanche.

LOCAL DRY GOODS FIRMS HAVE ON BIG SALES

The readers of the Herald are greeted this week with an array of dry good bargains at two of our popular stores. In both they report having over bought and as a consequence, the goods must be moved at a great reduction from the regular retail price. These firms are the Jones Dry Goods Co., and the Winkler Dry Goods Store, and they promise the people some real bargains.

Besides these firms, the other dry goods men have an array of prices that are sure to please you, and none have a lot of old self worn goods to offer, but each have had buyers in the Dallas and St. Louis markets to purchase the very latest to be had in dry goods, and which are just as up-to-date as any found on Fifth Avenue.

You don't have to go anywhere to find what you want, and our merchants will match mail order prices, quality considered. You don't get real first class trade marked goods from mail order houses, and everybody knows this to be a fact.

OVER 4000 BALES OF COTTON WEIGHED IN TERRY WED.

Despite the cool cloudy weather of the first part of this week cotton was still coming in briskly, and we are glad to say the price has been on the up grade this week.

There had been 2,928 bales weighed in the local yard up to Wed. noon, and probably passed the 3,000 mark by Wednesday night. A phone call to the Bank of Meadow at 2 p.m. on Wednesday revealed that the last Meadow cotton yard ticket received there was No. 1,133.

Brownfield Yard	2928
Meadow Yard	1133

C. B. MARKHAM BUILDING DRIVE-IN STATION

B. J. Johnson has received the contract and started Monday upon the erection of a drive-in filling station and storage room for C. B. Markham. The storage proper is to be 25x75 feet with a roomy drive-in section to be in front, and will be equipped up-to-date in every way.

The building is situated one block north of the square at the corner of Sixth and Hill Street, and is to be equipped with a Gulf Refining latest style pump.

We failed to learn just who will conduct the business there when the building is complete.

HOCKLEY AND COCHRAN MAY SOON GET RAILROAD

Andy Wilson, well known real estate man, and who has been identified with this section a number of years, stated Friday morning that the railroad west from Lubbock, traversing Hockley and going west into Cochran county, would be under construction at this time but for the delay experienced in getting a half dozen big land owners to sign the bonus contract.

Mr. Wilson stated that it is absolutely up to the people of this section of the state to say whether or not the road will be built, and pointed out that every delay is a hindrance to the project.

"We would like to have it thoroughly understood that the railroad will be connected in no manner with the Roswell, Lubbock, Memphis short line company, an account of which was printed in a recent issue of the Avalanche, stating that the charter for the company had been granted."

Mr. Wilson is very eager to have all land owners to sign contracts in order that the much needed railroad west from Lubbock might be put under construction, and is hopeful that the half dozen land owners delaying the game will see the importance of their joining hands with the other land owners of the country to be served by the road.—Lubbock Avalanche.

HARLEY SADDLER SHOW GETTING GREAT CROWDS

While as stated in last week's Herald, this is Harley Saddler's first visit to Brownfield, if crowds are any indication it will not be his last, for the crowds are literally "pouring in on 'em" to use a popular expression.

One thing one can say of the Saddler Show that can be said of few others, the plays proper are not only clean and up-to-date, but the same thing can be said of their "between act" performances. These special act people are all artist in their lines, and this variety between acts give the show a real metropolitan appearance, and is much appreciated by the people.

Then too, the Saddler people are real folks. They were reared in the West and understand the people they are catering to, and if you happen to learn their first name, they take it as no insult to hail them by it if you care to do so. In return, they do not try to "Rub" you with an arms length aspect. Their handshake and greeting has the true western feeling and spirit.

OLD SCHOOL BUILDING AT CROSBYTON BURNED WED.

Fred Smith, district manager of the Cicero Smith Lumber Company received a phone call from the local yard man at Crosbyton Wednesday about 1 o'clock P.M., stating that the old school building in that city was on fire, and the new building, which was about ready to be turned over to the trustees, and standing about 30 feet from the old one, was endangered. A later call however, stated that the roof and floors of the old building had fallen in, and the new building was thought to be out of danger.

We were glad to learn that all the children were gotten out of the old building without anyone being hurt; also, there was no one hurt in fighting the fire. Crosbyton has a good water system, which probably accounts for the saving of the new school building.

BESSIE BANKS ENTERTAINERS PLEASE AUDIENCE

As per previous announcement in these columns and other notices, the Bessie Banks Entertainers came in as per schedule, and while the writer was unable to attend, we understand from all we have interviewed that the young ladies pleased their moderate sized audience immensely.

Those who attended assured the editor that it was hardly conceivable that three young ladies so highly talented could be gotten together in a single performance, and at the price of admission as low as was charged to hear these young ladies.

The next lyceum number is coming in November, when it is hoped that a much larger crowd will be on hand.

Ho—Have you fixed the status of the people who moved in next door? She—Yes, they have no car, no radio, no talking machine, no piano. I can't imagine what they have. He—May be they have a bank account.

JONES DRY GOODS Co's

IF YOU WANT TO BE SKINNED, SEE US FIRST

The New York Cotton Exchange has issued its annual warning to the people of the South to beware of irresponsibles in cotton deals. In other words, "Get an official skinning; don't let an amateur do it." Gambling on the New York Cotton Exchange is sanctioned by law. If you put your money up through a money broker and the market goes up, you are sure of drawing down your winnings. If you put it up in an outlawed bucket shop, some one will probably steal it no matter how the market goes. Therefore, if you are going to gamble, it is advisable to sit in the game in a recognized house. The exchange is honest in that it believes in abiding by the rules of the game. Hijacking and other rough and uncouth methods are strictly forbidden. The exchange is operated by gentlemen of high standing in their community, many of whom, no doubt, believe that the artificial market they create is essential to the welfare of both producers and consumers. It is supported by suckers.

Producers, no doubt, are interested in the announcement that the Chicago Board of Trade is adding another game to its layout. Patrons are getting tired of the same old things like wheat, another grains, provisions and foodstuffs in general. They are not content to gamble in the things we eat, and therefore they are introducing the great game of "cotton," to be conducted according to the rule, "Heads I win and Tails you lose." New York and New Orleans claim to be spot markets in close touch with the spinners, and therefore justify their future markets. Chicago's Board of Trade hasn't that flimsy excuse for gambling in cotton. The only visible excuse for adding cotton to the list of necessities to be gambled on in the windy city is found in the general prosperity of the South and their desire to pick up some of the easy money which might otherwise go to New York. In the old days when one became tired of roulette, he moved over to the crap table, and if he had anything left, he could try his hand at the faro-bank, keeno, fantan, blackjack, poker or other games. In Chicago, one can now gamble on grain, butter, stocks, and numerous other things, and also in cotton, all according to established rules and

under protection of the law.

Not many weeks ago cotton gamblers sold cotton down several cents a pound because it rained in Texas. The rains came at a time when the damage was estimated in millions. Rains at that time could not possibly have benefited the crop or increased the yield, but these wise "cotton" men fell over each other trying to get out from under because the drought was broken. That is only one illustration showing how little the average exchange member knows about the commodity in which he pretends to deal, the market price of which he influences.

If gambling is not the main business of the exchanges, then why are broker members flooding the mails with their market letters urging their clients to either buy or sell? Why are branch offices established all over the country in sections where there are no consumers of raw cotton except as consumers of cotton goods?

Cotton, grain, and produce exchanges have built up artificial markets for the commodities in which they deal. Established as legitimate channels of trade, they have grown into great gambling institutions which are reaching out and encouraging speculation by all classes of men. Efforts at reform have been made without success. The future business of a strictly gambling character in which no one intends to deliver or accept, notwithstanding the implied obligation to do so, continues to make up the bulk of transactions. If this is not remedied, exchanges are due for a good renovation.—Farm and Ranch.

Good Results From Use of Printer's Ink

A peddler knocked at great-grandmother's door, says the Poughkeepsie Press-Herald. "Want any nutmegs?" he asked, as he showed her his offering of beautiful, big nutmegs, at a price ridiculously low. Grandfather and all the then-little great-aunts and great-uncles loved the nutmeg's spicy flavor, so great-grandmother stocked up with a generous order. That night out of the oven came a glorious old-fashioned rice pudding, and out of the cupboard came the grater and one of the new nutmegs to give it the final touch of deliciousness. But the scrap of the nutmeg upon the grater did not produce the tasty flavor—the result was sawdust. Grandmother had bought a wooden nutmeg from the Connecticut peddler.

We do much better nowadays. Advertised merchandise protects great-grandmother's great-granddaughters. Today the manufacturer uses printer's ink to tell about his product and he signs his name to the statement. And then he makes his statement good, for advertising builds confidence, and confidence means trade. The continued patronage of the advertising columns shows that it pays the advertisers; the fact that no wooden nutmegs are sold today is one of the many signs that show how advertising helps readers.

W. C. T. U. WRANGLE OVER GUBERNATORIAL NOMINEES

Houston, Oct. 16.—Good will and tolerance tonight had apparently begun to smooth over the political rumpus which split the Women's Christian Temperance Union here today. The state union is in its 43rd convention here, and the delegates engaged in a hot revival of the Texas gubernatorial campaign of July and Aug.

Ten delegates from San Antonio, accompanied by delegates from Wichita Falls, Greenville, Bay City, Vernon, Robstown and Garwood, bolted the convention upon the re-election of Mrs. Claud De Van Watts of Austin, as president. Apparently the reason for the split was that Mrs. Van De Watts is a supporter of Mrs. Miriam A. Ferguson for governor, and the bolters favored Felix Robertson and now Dr. Butte for chief executive of the state.

Mrs. G. W. Jones of San Antonio, candidate for the union presidency and supported by the bolters, lost the office to Mrs. De Van Watts by a vote of 81 to 23.

Immediately following the balloting the defeated group attempted to set up a rival organization but so far have not developed the necessary strength to meet with marked success. While they were discussing their withdrawal and announcing their unqualified endorsement of Dr. Butte, the Republican nominee for governor, the main body was staging a "march of allegiance" through the city's main streets.

Get Beautiful Effects From Lighted Marble

When an official of the United States bureau of standards was making an inspection of indoor lighting arrangements as used in Europe he was surprised to find an old church in Italy in which the daylight was filtered through thin slabs of delicate tinted marble. The effect was a surprisingly beautiful one and one not easily duplicated by our makers of ornamental glassware, as there is a peculiar charm about the natural coloring of some of the Italian marbles, writes the Washington Star.

However, the marble must be so thin for such a purpose that it could not form a commercial substitute for window panes or for use in electric light fixtures. Now a French investigator has found that such marble slabs can be used in much greater thickness if they are polished on both sides and then saturated with paraffin or shellac. By giving them such a treatment he has been able to obtain beautiful effects in illuminating corridors by the light of tungsten lamps concealed behind the marble walls of the hallways. The loss of light is said to be only about 20 per cent (or no more than with most of the milky glassware used in fixtures), and as the whole plate of marble glows the effect is surprisingly charming and unusual.

Is Your Husband Slipping?

"Kiss me!" she demanded, holding up her pretty mouth to him. He gave her a quick, husbandly kiss, conveying just one meaning, "This is my duty."

Those "dry" Democrats who are thinking of lopping over into the LaFollette-Wheeler columns, will we believe find themselves more out of line with their convictions than if in the straight Republican columns. It is generally conceded that the former is an avowed "wet."

The Desdemona Gusher has moved its plants just across the street from the school building, it reported in its last issue. Now this might suit Editor Adams alright, but we would be afraid that it would have a depressing effect on us and we would constantly catch ourselves repeating that bit of old verse, "Make me a schoolboy again for tonight."

Now at last those old decrepit and needy editors and publishers are to have a home. Congressman Haines and wife of Florida have donated their beautiful country estate, "Alto monte," valued at \$200,000 for this purpose, and also gave a cash donation of \$10,000 besides. This splendid statesman and his sympathetic wife were recently made to see the need of such a home and responded with their wealth. Whether an editor or publisher ever intends to enter the portals of this house of refuge or not, they will always remember Mr. Haines and his loving wife as the man and woman who are doing so much for the down and out of the Fourth Estate.

Clarence S. Darrow may be a great attorney; he may be very popular with the home folks in the "windy city," but to us he is nothing short of an anarchist or communist if you please. We respect a "wet" who also respects our constitution and laws, but have the greatest of contempt for those who regard them as "scraps of paper." In a recent speech during a banquet in Chicago, he not only made light of the 18th amendment, but actually encouraged people to violate it. There are lots of people who do not believe in the Volstead act, yet believe in its rigid enforcement. These men are patriots and true Americans after our own heart and we respect them. But any man who belittles the least of our laws,

whether they may be right or wrong has only our contempt.

Those who think the klanmen are all going to desert the old democratic donkey at the coming election on the 4th of November, have another guess or think coming. Some of the most prominent klanmen in the state are coming out with the statement that they are going to support the Democratic ticket from constable to president, including "Ma" Ferguson, and not the least of these are Felix D. Robertson, of Dallas, late opponent of Mrs. Ferguson in the primaries, and endorsed by the klan, and also Earle B. Mayfield, U. S. Senator from Texas, and put in two years ago after receiving klan endorsement. A Democrat may occasionally threaten big fashion to "jump" the ticket and disregard his pledge, but generally when he is led up to a strange water trough, he shoots his ears forward, snorts and backs off.

SEAGRAVES SAYINGS
 From the Signal.

L. H. Plain, of Brownfield, owner of the Seagraves telephone exchange, accompanied by lineman Roberts, spent a day or two here the past week installing a number of new telephones.

John A. King, proprietor of the Hill Hotel at Brownfield, and also the operator of a daily stage line from Post to Roswell, became a reader of the Signal with this issue. Mr. King also placed an advertisement in the Signal columns—calling attention to his stage line.

The three cotton gins in Seagraves have turned out a total of 850 bales. Cotton weigher B. L. Waters reports he has weighed out 750 bales in the local yard. The fair weather we are now having makes it ideal for cotton picking and the farmers are beginning to bring in a lively clip.

M. J. Golden, who resides out on the Brownfield road a few miles dropped in at the Signal office Saturday and left a huge watermelon for the editor. The melon weighed in the neighborhood of 70 pounds. Mr. Golden stated that he had many more equally as large on his farm. Verdy Gaines has them all over-barreled when it comes to raising real melons. Mr. Golden has our thanks for this gift. On top of this generous gift he paid us the coin of the realm for renewal to the Signal one year. We appreciate such citizens as Mr. Golden.

Cattle inspector J. C. Sartin reports that more than 2,500 head of cattle have been shipped from the Seagraves station during the past two weeks. Most of the shipments were made by New Mexico cattlemen. Messrs. Andy and Jim Williams were the only stockmen on the Texas side of the line making shipments. Mr. Sartin also reported that as many as 68 cars had been ordered up to Monday of this week for shipments Friday and Saturday. As has been stated in the Signal, the Seagraves station is the largest cattle shipping point in the United States today.

RED CROSS YEAR'S COST \$21,366,255

Nearly \$12,000,000 Devoted to Helping Victims of Great Japanese Earthquake.

OVER 3,000 BUSY CHAPTERS

Aid to Disabled War Veterans Paramount and Reaches Nearly \$4,000,000.

Washington.—More than \$21,000,000 was the total of funds expended in all activities of the American Red Cross during the last fiscal year, ended June 30, says a statement issued by the National organization. This expenditure was almost one-sixth of the amount of money disbursed by the Red Cross in the war year, July, 1917, to June, 1918. Of this extraordinary sum \$11,631,303 was America's contribution to the Red Cross for relief of the Japanese earthquake victims. This was increased to \$11,708,803 by appropriations from general funds of the Red Cross and it represented probably the largest spontaneous outpouring of beneficence of a single nation in the history of the world.

Over 3,000 active Chapters expended during the year \$4,869,000. The National organization disbursed \$16,497,255.35, making the total \$21,366,255.35—all for humanitarian work which reached practically around the world.

In announcing the year's record of American Red Cross industry the executive officials at Washington emphasize the fact that the extensive and never-halting work of the Red Cross depends almost wholly upon the nationwide support of the organization from the memberships enrolled during the annual roll call which this year will be in progress from Nov. 11 to 27, when everyone is asked to join or renew their membership in the American Red Cross.

Soldier Service Paramount
 Service in behalf of the disabled veterans of the World War and their families is a paramount obligation of the Red Cross. The organization, through its Chapters, is constantly in touch with this duty in 2,699 communities throughout the United States—the Chapters alone during the year expending in service for veterans about \$2,600,000. The National organization expended \$1,735,825—a total of \$3,335,825 applied to assisting war sufferers toward recovery from disability and distress.

This work is constant in hospitals, sanitariums, camps, soldiers' homes, in the community. For example, in helping disabled men and women in places where they were transient residents \$173,076 from national funds alone was required to help solve their problems. Every Red Cross service is ever at hand ready to meet the individual need of these men and women.

The enlisted men in the Regular Army, the Navy, and the Marine Corps, with their home ties, mean a never-ending Red Cross service which figures cannot fully interpret. In this work a total of \$685,285 was applied in meeting an obligation under the Red Cross charter which has been fulfilled for over 20 years.

Domestic Operations Extensive

In the past year Red Cross operations were almost wholly confined to continental United States and the insular possessions. Relief work following disasters called for immediate activities in 192 places and a total of \$737,603.87 was spent in this service alone. In 33 major disasters trained workers were kept at the work of rehabilitation for many months.

In carrying on the health activities a total of \$144,886.66 from Red Cross national funds, and \$368,000 from Chapter treasuries—approximately \$1,252,886 in all—was applied, giving some idea of the extent of Red Cross service in the fields of public health nursing, nutrition instruction, and spreading knowledge of personal hygiene and care of the sick in the home.

For advancing the cause of human safety, the First Aid instruction, locally by Chapters and over extensive national territory by the Red Cross instruction car covering trunk line railroads, and in teaching water-safety and increasing the membership of the Red Cross Life-Saving Corps, the total cost was \$285,234.71, of which \$216,234.71 came out of national funds.

Army of Over 5,500,000
 The Junior Red Cross in the schools—with over 5,500,000 in its "I Serve" ranks—was aided with \$233,519.78 to which it is estimated the Chapters added some \$277,000—a total of \$510,519.78. In various other domestic activities the Red Cross spent \$252,472.19, and the Chapters in their numerous voluntary services expended an additional \$1,048,000 during the year.

Foreign obligations, aside from Japan, were met with national funds as follows: Relief of refugees in Greece, \$200,887.18; Junior Red Cross projects, \$99,579.75; League of Red Cross Societies, \$165,000; other insular and foreign work, \$221,855.31. The American Red Cross budget for 1924-25 is \$4,647,790.85, or \$368,256.96 less than the budget for the year ended last June 30.

In good deeds for all peoples in time of distress the American Red Cross never rests. Help this work with your membership dollar—join on Armistice Day.

**MEXICANS TAKING COURSES
IN UNIVERSITY OF TEXAS**

Austin, Oct. 20.—Mexican scholarships offered by the Board of Regents of the University of Texas are now being enjoyed by four students. Benito Longoria, of Matamoros and Brownsville, is a senior in the college of Art and Sciences. Enrique Brvao of Gaudalajara is a junior in the College of Business Administration. Alfreda Banos, of Mexico City is a Sophomore in the College of Engineering, and Ramira Estrado is a sophomore pre-medical student.

The awarding of the scholarships was begun in 1921, and there have already been four graduates among the holders of the scholarship. These are Rupert Le Leon, Ramon Beteta, Alejandro Cadgal and Luis Flores.

ADVERTISING PAYS

Dorothy had been praying each evening for a baby sister. The other day while reading the paper, her mother exclaimed: "I see Mrs. Smith has a little daughter."

"How do you know that, mama?" Dorothy inquired.

"It says so in the paper, dear."

"Read it to me."

Her mother read: "Born on July 2nd, to Mr. and Mrs. — Smith, a daughter."

Dorothy thought a moment and then said: "I know what I'm going to do. I am going to stop praying and begin advertising."

When a man sits down to wait for his ship to come in, it usually turns out to be a receivership.

The calendar is a success because it is up-to-date.

Lady at bargain counter—Is my face dirty, or is it imagination? Henpecked bundle carrier—I don't know about your imagination, but your face is clean.

The only people who ever achieved success by kicking are Russian dancers.

Eena, Meena, Mina, Mo—Catch a song on the radio; if it's squeaky, don't let it go; yune it in a little mo'.

Z. D. Lemons informed us Monday that he was putting a 22X30 addition in the shape of an "L" to the Harmony school building. Additions is certainly a question with trustees and patrons in Terry county these days, and to keep ahead of the incoming people is no little job. But the issue must be met with patience and patriotism.

Opportunity knocked at the business man's door. "You can't see him said the office boy. "He's in conference."

The little child of Mr. and Mrs. Clyde Teague died last Saturday night, death being expect for several days. After funeral services were conducted at the Baptist church Sunday afternoon, the little body was laid to rest in the Brownfield Cemetery.

According to some, happiness has to be cranked, while trouble has a self-starter.

Americans All: "She's a bear. "Some Chicken." Oh, what a peach." "Isn't she a bird." But when we got alongside we found her a lemon.

The statesman throws his shoulders back and straightens out his tie and says, "my friends unless it rains the weather will be try." And when this thought into our brains, has percolated through, we common people nod our heads and loudly cry, "how true."

Nice weather, isn't it?

She asked her papa for the car. She said she wouldn't drive it far. She tried to keep her promise sweet. And hit a tree across the street.

It heats a circus when a small town belle returns from the city wearing knickers.

The stock salesman, after painting a beautiful word picture, said: Now Mr. Jones, you know this company hasn't got a dollar's worth of watered stock in it. How much are you going to buy?" "Young man," said Jones, "the next stock I buy is going to have four legs, and I will water it myself."

PEOPLE OF OUR TOWN

The Helpless Hubby is trying to Duck out of Something he Hates to Do by Dragging his Wife into it. He uses her as an Alibi for Everything from his Failure to Make a Million, to Dodging unpleasant Duties, and thus acquires an Undeserved Reputation for being Henpecked. This Shifty Guy is a Direct Descendant of Adam.

Woman's Answer Ready

When a wife of a London solicitor was brought into court not long ago for allowing her auto to obstruct traffic in a fashionable shopping thoroughfare for more than the allotted time, she informed the bench that she did not think the time was unreasonable in view of what she accomplished in that time, for she had bought four dresses and three pairs of shoes, and tried all of them on during the period complained of. The chairman of the magistrates laughingly agreed with her and made her fine only 20 shillings and costs.

Why Automobiles Deteriorate

A factory machine is attached to a solid floor, which nearly prevents vibration. Yet it is constantly being adjusted and lubricated. Hence it wears for many years.

An automobile is constantly bumped over rough roads. Yet in spite of this terrible strain, the average car gets much less attention than the factory machine. Hence it depreciates much faster.

Bring your car to

THE BRICK GARAGE

and have it overhauled by our skilful mechanics. It will last longer. Also its resale value will remain higher.

THE NORTH GIN
W. B. English, Prop.

EVERY HERD MUST BE REDUCED IMMEDIATELY

Immediate reduction of the deer of the Kaibab National Forest northern Arizona is strongly urged by the special committee appointed by the Secretary of Agriculture to study and report on the conditions existing on the Grand Canyon Game Preserve, announces the Forest Service, United States Department of Agriculture.

The special committee is composed of John B. Burnham, representing the American Game Protective Association; Heyward Cutting, of the Game and Crockett Club; T. Gilbertson, of the Audubon Society and National Park Association; T. W. Minson, of the American National Stock Association.

The committee has made its report to the Secretary of Agriculture, following a personal inspection of the Kaibab Plateau on which the Grand Canyon Game Preserve was established in 1906 by President

of the Kaibab National Forest and is under the supervision of the Forest Service.

Upwards of 30,000 head of mule deer are now on the Kaibab Plateau, according to a report of the committee. This is fully twice as many deer as the vegetation can support and the entire herd is in imminent danger of extinction through starvation unless reduced to a safety number.

Moreover, the condition of what forage is still to be found on the area is far below normal and several years will be required to grow new forage crops before the region can support more than 15,000 head of deer in addition to the scattering small herds of domestic livestock owned by settlers living in and around the Kaibab Forest.

The Lynn county gins had turned out nearly 2,000 bales of cotton last week, and the Dawson county gins about 9,000 bales.

Mr. Optimist says Noah began to build the ark before the rain started

50,000 IN LIFE-SAVING SERVICE OF RED CROSS

Additional 50,000 Water Safety Experts Probable Gain of Summer Campaign.

A boy watched an expert give a class a lesson in the way to revive a person unconscious from water immersion. The next day the boy tried it on a bathing companion and saved his life. Such a boy justifies all the effort and the cost of the Life-Saving Service, American Red Cross officials declare. The Red Cross method of restoring partly drowned persons is so simple that the continual large sacrifice of life must decrease as an informed public insists upon general instruction in prone pressure practice to induce respiration.

The Red Cross Life-Saving Service in every part of the country, summer and winter, is engaged in teaching this method as an integral part of swimming and life-saving. This service has grown from a single expert in 1914 to a corps of almost 50,000 active life-savers. In this tenth year of the work it is predicted that fully 50,000 more experts will be eligible for membership in the corps. This large accession in a single year is confidently expected as the result of the campaign among 22,000 troops of Boy Scouts under a plan to qualify at least two life-guards in each troop. During the past year 4,746 men, 2,374 women, 2,371 boys and girls successfully passed the rigid tests of the Red Cross—an increase of 5,331 over 1923. Intensive instruction is developing hundreds of qualified examiners for the Red Cross Life-Saving Corps, who supplement the teaching staff maintained by the national organization. The cause of water safety is therefore penetrating to new sections and eventually will cover all American territory.

Recognition of this Red Cross service for humanity is growing apace. At the request of the War Department every military training camp had life-saving instruction last summer. Municipalities have adopted the Red Cross course, public and private schools are offering it to students, business, civic and athletic organizations are promoting campaigns, and police departments are making it a part of the conditioning process for their recruits.

Volunteer life-savers throughout the country, the American Red Cross reports, are eagerly advancing the cause of water safety, 288 volunteers receiving medals for giving from 200 to 300 hours' service in two or three years. In addition 56 rescue bars to medals were awarded members of the Red Cross Corps who saved one or more lives during the year.

It is for the work and extension of life-saving that continued support through memberships is sought, and the American Red Cross urges all persons to join or renew membership during the enrollment campaign opening Armistice Day, November 11.

Red Cross Invites All Into Neutral Army of Service

There are 3,639 counties in the United States and more than 3,500 Chapters of the American Red Cross. The Chapter is the local unit of the national organization, formed to carry out the program, services and policies of the Red Cross. The industry of these 3,500 local units is a voluntary and steady outpouring of well-doing and sympathy which softens human suffering and distress wherever it arises. This work is absolutely neutral, for the Red Cross knows no race, no creed, no color.

The strength of the American Red Cross being in its Chapters, the organization annually invites the people to join or renew their membership during a Roll Call which always begins on Armistice Day, November 11. "It is this annual enlistment of millions of Americans under the banner of the American Red Cross which makes possible the continued work of this great and democratic legion of mercy," says Judge John Barton Payne, head of the national organization. "Membership in the Red Cross is a privilege within the reach of everyone. The need for service grows more insistent each year. To keep pace with the demands which come from every section of our country, we must have the people's loyal support. Our capacity for service in the year to come will be limited only by the extent to which we receive support for our work in the coming Roll Call."

The invitation of the American Red Cross is unlimited. The enrollment period, Armistice Day to Thanksgiving, is everyone's opportunity to join.

Annual Summons to Service
The annual nationwide Roll Call of the American Red Cross to enroll members for 1925 will open on Nov. 11, the anniversary of that tense and never-to-be-forgotten Armistice Day six years ago, which silenced the crashing arms of the World War. The enrollment will continue for 17 days, through Thanksgiving Day, Nov. 27. Preliminary to the Roll Call period will come Red Cross Sunday, Nov. 9. During the 17 days set aside for the enrollment more than 3,500 Chapters of the Red Cross and their thousands of branches will invite the people to join the Red Cross or renew their membership.

PLAN TO PLANT TREES

The Brownfield Nursery can supply you with an excellent assortment of the very best trees, both shade and fruit trees, suitable to this climate. Our long experience in the business, and our ten years experimenting and testing out different varieties suitable to the Plains Country, will be to your advantage in selecting an orchard. Our prices as rule are less than trees shipped in here, and everyone must admit that the trees are better for this climate, so why order away from home when you can get better trees for less money, and be sure to get the varieties that will bear good fruit. COME AND SEE WHAT YOU ARE BUYING.

Call and see our Nursery and get one of our illustrated catalogue, or write

Ford
THE UNIVERSAL CAR

The Ford car delivers more useful, care-free, economical service per dollar invested than any other car. Its sturdy, rigid construction is striking evidence of enduring materials. Every minute operation is scientifically tested and accurately checked.

Control of natural resources and complete manufacture in large volume have made possible value that is the one standard by which every motor car must necessarily be judged.

The Ford car is the logical and necessary choice of the buyer who wants to get the utmost from every motoring dollar.

Ford Motor Company

ONE ARM AUTO DRIVING ENDANGERS OTHERS

Of all the cases of incapacitated drivers, aside from intoxication from alcoholic beverages, the "one arm" driver, so-called, is probably the most dangerous. No man can be expected to keep full possession of his car while he has one arm around a woman. We see a great deal of this kind of driving, and unless it ceases the day may come when such drivers will be dealt with as severely as those suffering from intoxication. These drivers are not only endangering the lives of the persons in their own cars but the lives of pedestrians and the lives of people riding in other cars.

The man who drives on our highways with one arm around a woman is a real menace and should be deprived of his privilege to operate a car. No self-respecting girl should permit such a breach of etiquette in public.—Exchange.

W. C. Franklin, one of our progressive farmers is now a regular reader of the Herald.

A. J. Eastham, hustling Lou farmer, was here on business Saturday and paid the Herald a short call.

EXECUTOR'S ANNUAL REPORT

The State of Texas,

To the Sheriff or any Constable of Terry County, Greeting:

You are hereby commanded to publish or cause to be published for twenty (20) days, exclusive of the first day of publication, before the return day hereof, in a newspaper of general circulation which is published in Terry County, Texas, copy of the following notice:

"The State of Texas: To all persons interested in the estate of Jno. W. Gordon:

"Joe Boyd, executor of said estate has filed in the County Court of Terry County, Texas, an annual exhibit or report of said estate, for the year ending October 1, 1924, which will be heard by said County Court on the 4th Monday in November, 1924, at the Court House of said county, in Brownfield, Texas, the same being the 24th day of November, 1924, at which time all persons interested in said estate may appear and contest said exhibit if they should desire to do so."

Herein fail not, but have you before said Court on said first day of the next term thereof this writ with your return thereon showing how you have executed the same.

Witness my hand and seal of said County Court of Terry County, Texas, this 15th day of October, 1924. (11-7) H. R. Winston, County Clerk, Terry County, Texas.

FROM DAVIS' SPEECHES

Common Honesty

We must have our government honest from top to bottom.

Unique Strategy

The Republican theory this year is that the way to win a battle before the people is to keep quiet about it.

The Two Roads

On the Republican road they will find the doctrine prevailing that it is right to so administer the government that some may be made rich and prosperous at the expense of their fellow citizens, hoping that their prosperity may filter down through all the masses.

On the Democratic road, the road of equality, the doctrine prevails of a government of, for and by all the people, equal rights to all and special privileges to none.

On account of the fact that a show was in town Tuesday night the Parent-Teacher Association did not meet as per advertisement last week. The date of the next meeting has not been set, yet.

Burglars get caught because they cannot hold conventions and study the latest methods.

Dante wrote parts of the "Divine Comedy" with a map spread out before him. So think scholars who have found brief descriptions of regions in that great poem extremely incisive and accurate. Certain passages in the "De Vulgari Eloquentia," a work in which the great poet lays down the rules of poetic composition, could hardly have been written without reference to a map. Though Dante wrote so tersely devoted specifically to geography, he had a clear understanding of the relative positions of places in Italy and its neighboring lands. His greatest poem is based on the most accurate geographical theories of his

Chess Tournament No Place for "Rooters"

Chess is one game, or sport, where the rooter is conspicuous by his absence. The stickler for golf etiquette, who frowns if a robin chirps while some one is attempting to putt, would be considered a noisy nuisance at a chess tournament. A gallery of silent spectators may stand at a respectful distance from two masters of the game, but those of the gallery must keep quiet. If an important move is made—one that appears to have peculiar significance in regard to the outcome of the contest—there must be no cheering. Even nodding approval is barred if the nod will cause the collar to rattle.

Chess masters regard their pieces by the hour. Minutes will pass while all of the possibilities and eventualities are considered from every angle. There must be absolute quiet, for chess is a game for thinkers, and thinkers cannot be disturbed without serious consequences to their train of thought. The escaping of a sigh seems as loud as the exhaust of a locomotive. The dropping of a pin would be regarded as an outright violation of the code of ethics. Chess is a game where concentration rises to sublime heights and where silence is obligatory if not golden. Municipal authorities who have established quiet zones and then been at a loss to know how to maintain quiet in them might learn something from a chess tournament. Place a group of chess players in each zone. —Washington Star.

Cause of Petrification

This process is called petrification. When wood or the carcass of an animal apparently turns to stone we say it petrifies. The word "petrify" itself means turning to or making into stone. It is from the Latin "petra," a rock or stone, and "facio," to make or to do. But the fact is, organic matter does not actually turn into stone. This is what really occurs: Water containing dissolved minerals, such as calcium carbonate and silica, infiltrates through the organic matter. Particle by particle, as time passes by, the calcium carbonate or silica takes the place of the organic matter. After many years, perhaps hundreds or thousands, it seems that the wood or animal has turned to stone, for often the original form and structure are retained in the process. The organic matter really acts as a mold while the stone is being formed from the minerals in the infiltrating water.

THE RETIREMENT OF GENERAL JOHN J. PERSHING

General John J. Pershing has been retired and his salary decreased several thousand dollars. His base salary was dropped from \$13,500 annually to \$10,125, and his "allowances of \$8,000 have been cut off. In other words his income has been reduced about one-half. Congress has decreed that he be dropped from the "active list" despite the fact that he is still keen in mind and body, physically fit and perhaps one of the most farseeing military minds in the world. When George Dewey received a rank of admiral his compensation, based upon this rank, continued until the day of his death. Congress did not retire Dewey when he reached the mythical age limit. He continued in a capacity of dignity on the General Board of the Navy.

Pershing's work in France earned him a place among the immortals. He stands out as the builder of the greatest fighting force the nation ever put in the field. It seems a piece of short sightedness that a man of Pershing's ability should be "dropped from the rolls" merely because he had reached an age limit which rightfully should prove no bar to active service. Of course he can live on the salary of a retired officer but it would have been a justifiable mark of respect to have continued him on the active list normally at least.

A GREAT VICTORY FOR THE AMERICAN NAVY

Two of the American aeroplanes of the squadron of four that started from California last spring on a flight around the globe have landed on the American continent, having circumnavigated the sphere. The two remaining planes completed the most dangerous part of their long voyage and have flown across the continent to their starting point, thus winning glory for the American navy of making the first circuit of the globe via the air route.

It is a remarkable achievement and will be so recorded in history, but it is likely to be a matter of only a few years until giant passenger ships will be making regular trips safely across the seas and continents. Man is rapidly conquering the air as a means of travel and transportation. After that what next?

God bless sales ladies who can keep a man from feeling embarrassed when he is shopping for his wife.

The Brownfield Produce Co.

It is remarkable how little the average congressman takes in agricultural matters except just prior to election day.

A Detroit man shot his wife because she did not have dinner ready when he got home. And he was probably half shot himself.

A letter was received by the Herald recently from Mrs. Lester McPherson, who recently moved to El Paso. She reports the family well pleased with everything there, but wants the Herald, just the same.

T. C. Hague, one of our old standbys, handed us the coin to keep for coming recently.

MEADOW MESSAGES

From the Messenger.

Andrew Copeland, banker of Brownfield, was a visitor in our city, Tuesday.

While standing on a cotton wagon this week, J. W. Peeler escaped what might have been a serious accident to him when the team started up, throwing him to the ground.

C. W. Easterwood purchased last Saturday near Rodgers, New Mexico, 600 acres of land and states that he is highly pleased with the possibilities of that part of New Mexico becoming one of the leading agricultural counties of the west.

Clarence Pigg, of Plainview, visited relatives in Meadow the first of the week. While here he purchased several dollars worth of dry goods and clothing from a local firm, stating that he found first class merchandise cheaper in Meadow than in his home town.

WEST TEXAS AT THE COTTON PALACE AGAIN

Long a favorite! Such might we term the Cotton Palace, and 1924 will be the 6th straight year that we have shown the All West Texas Exhibits at the Cotton Palace, and we have won first place four times, and the story of 1924 is yet to be written. Exhibit Manager Whitaker is working awfully hard to have the best ever assemble in West Texas for Waco this year.

Waco and Central Texas—strong cotton regions. It is indeed a good place to exhibit.

After Waco, we shall exhibit at the South Texas State Fair.

THE DISABILITIES OF LIVING

If you haven't an automobile, you are out of everything, including debt. If a friend presents you with a watermelon, you can't get it home conveniently. If you wish to go anywhere not on a railroad or street car line, you must call a taxi or depend upon a friend who has a car, and you and your car owning friends are seldom interested in going to the same place. If you walk you may be run over.

NOTICE OF ELECTION

State of Texas, County of Terry:

Whereas on the 13th day of October, 1924, a petition was presented to me for an election in Common School District No. 15, of this county on the question of issuing bonds to provide funds to be expended in payment of accounts legally contracted for the purpose of constructing permanent repairs and an addition to the existing school house, and equipping the same, in said district and to determine whether the Commissioners Court of said county shall be authorized to levy, assess and collect annually while said bonds or any of them are outstanding, a tax upon all taxable property within said district, sufficient to pay the current interest and provide a sinking fund sufficient to pay the principal at maturity, and

It appearing that said petition bears the requisite number of signatures of qualified property taxing voters of said district and is in every respect in conformity with law; and

It further appearing that Terry county contains a population of 2,236, according to the last United States Census; and

It further appearing that the said Common School District Number 15 has been heretofore on the 24th day of April 1920 properly established in accordance with Article 2817 Revised Statutes of Texas, 1911, as amended by Chapter 36 Regular Session of the 34th Legislature, 1915; and it further appearing that said district as so established contains an area of 25 square miles and that no other district has been reduced in area below 9 square miles by reason of the creation of this district, and (b) It further appearing that this district does not embrace any territory that was taken from any other school district (either common or independent) that had an outstanding issue of bonds at the date of such inclusion in this district.

Now, therefore, I, D. J. Broughton in my capacity as County Judge of Terry County, Texas, do hereby order that an election be held on the 15th day of November, 1924, at the school house in said Common School District Number 15 of this county as established by order of the county school trustees of date the 24th day of April, 1920, which is recorded in Book 1, Page 6 of the record of the school districts of said county, to determine whether a majority of the legally qualified property taxing voters of said common school district wish to issue bonds in the sum of \$2,500.00, the bonds to be of the denomination of \$500.00 each, numbered consecutively from one to five, both inclusive, payable, number one, five years from date; number 2, ten years after date; number 3, fifteen years after date; and numbers 4 and 5 twenty years after date, and bearing interest at the rate of six per cent per annum, payable annually on

April 10th of each year, to provide funds to be expended in payment of accounts legally contracted for the purpose of constructing permanent repairs and an addition to the existing school house and equipping same in said district, and to determine whether the Commissioners Court of said county shall be authorized to levy, assess and collect annually while said bonds or any of them are outstanding, a tax upon all taxable property within said district, sufficient to pay the current interest on said bonds and provide a sinking fund sufficient to pay the principal at maturity.

Irvin Oliver is hereby appointed presiding officers for said election and he shall select two judges and two clerks to assist him in holding the same and he shall within five days after the said election has been held, made due returns thereof to the Commissioners' Court of this county as required by law for holding a general election.

All persons who are legally qualified voters of this state and of this county, and who are resident property taxpayers in said district, shall be entitled to vote at said election and all voters desiring to support the proposition to issue bonds, shall have written or printed on their ballots the words: "For the Bonds;" and those who are opposed shall have written or printed on their ballots the words: "Against the Bonds;"

The Sheriff of this county shall give notice of said election by posting three notices in three public places in said district for three weeks before the election and it is further directed that he have said notices of election published for three weeks prior to said election in some newspaper of general circulation, that has been continuously and regularly published for more than one year previous to the date of this order in Terry County, Texas, the date of the first publication being not less than 20 full days prior to the date of the election.

Dated, this 15th day of October, 1924.

(11-7) D. J. Broughton
County Judge Terry County, Texas

CITATION ON APPLICATION IN PROBATE

The State of Texas.

To the Sheriff or any Constable of Terry County, Greeting:

You are hereby commanded to cause to be published once in each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Terry county, a copy of the following notice:

The State of Texas: To all persons interested in the Estate of J. W. Youngblood, deceased.

M. Virgil Brownfield, has filed in the County Court of Terry County, an application for probate of the will of J. W. Youngblood, deceased, and for letters testamentary which said application will be heard by said Court on the 24th day of November, 1924, at the Court House of said County, in Brownfield, at which time all persons interested in said estate are required to appear and answer said application, should they desire to do so.

Herein fail not, but have you before said Court on the first day of the next term thereof this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Brownfield, Texas, this 11th day of October, 1924.

H. R. Winston, Clerk
County Court, Terry County, Texas

CITATION BY PUBLICATION

The State of Texas,—

To the Sheriff or any Constable of Yoakum county—Greeting:

You are hereby commanded to summon L. M. Brown, by making publication of this Citation once in each week for four consecutive week previous to the return day hereof, in some paper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 72nd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said Judicial District, to appear at the next regular term of the District Court of Yoakum county, to be held at the Court House thereof, in Plains, on the 31st Monday in November A.D. 1924, the same being the 17th day of November, A.D. 1924, then and there to answer a petition filed in said Court on the 27th day of August, A. D. 1924, in a suit, numbered on the docket of said Court No. 182, wherein D. C. Aylesworth is Plaintiff, and L. M. Brown is Defendant, and said petition alleging (Copy of Petition):
State of Texas,
County of Yoakum:—In the District Court, Yoakum County, Texas, November Term, 1924.
To the Honorable District Court of said County:

Now comes D. C. Aylesworth, a resident of Hale county, Texas, hereinafter called Plaintiff, complaining of L. M. Brown, whose residence is unknown to the plaintiff, but here styled defendant, for cause of action, plaintiff represents to the Court that on or about the 1st day of August, A.

D. 1924, he was lawfully seized and possessed of the following described land and premises, situated in Yoakum county, Texas, holding and claiming the same in fee simple, said property described as follows:

Being the northeast one fourth of section No. 154, Block D, John H. Gibson original grantee, Certificate No. 242.

On the day and year aforesaid, defendant unlawfully entered upon said premises and ejected plaintiff therefrom, and now unlawfully withholds from him his possession thereof to his damage in the sum of \$1500.00.

The reasonable annual rental of said land and premises is \$1500.00.

Therefore the plaintiff prays judgment of the said Court that the defendant be cited to appear and answer this petition; that such citation be given as is required by law; and on final hearing of this case plaintiff have judgement for title and possession of said above described land and premises, and that the writ of execution issue, and judgment for his rents, damages and costs of suit; for equity and general relief.

D. C. Aylesworth, Plaintiff
By M. J. Baird.

The State of Texas.

County of Yoakum:—I, W. H. Hague, Clerk of the District Court, within and for the State and County aforesaid, hereby certify that the foregoing is a true and correct copy of the Plaintiff's original petition, in Cause No. 182 on the docket of said Court, wherein D. C. Aylesworth is Plaintiff and L. M. Brown is defendant, as said Original Petition now appears on file in my office.

To certify which, witness my hand and the seal of said Court, at office in Plains, this 25th day of September, 1924.

W. H. Hague, Clerk
District Court, Yoakum Co., Texas

Winter Clothes for Boys

Dress the boys warmly and let them spend the winter days outside where they can get plenty of good health-giving exercise. Cold weather will not hurt them if they are dressed for it—and here's the place to get the very things he needs.
