VOLUME 20

BROWNFIELD, TERRY COUNTY, TEXAS, OCTOBER 31, 1924

NUMBER 12

## BALLOTS READY FOR THE GENERAL ELECTION TUES.

The Herald job department turned out some 2600 ballots this week which is of course according to law, there having to be one-third more ballots than voters, but we are guessing that probably 500 or 600 votes will cover the vote cast here Tuesday if it runs true to the general run of fall elections.

However, this is not as it should be, and the man or woman that fails to express their approval at the polls any time there is a question to be settled, is a "slacker citizen." Don't think for a moment your duty as a citizen has been fulfilled and your services to your state and nation are done for two years. In most states the summer primaries are only nominating affairs for the several parties, but heretofore the Democratic primary in Texas was equivalent to election, and the average voter has not time or inclination to waste on a mere formality in the fall.

But this year, especially in the race for governor, as in the senatorial race two years ago, there is a well organized body of Republicans with plenty of money supported by some fusion or disgruntled Democrats and other riff-rafs that threaten to seriously contest that particular office with Dr. Butte's candidacy.

Now we have no objections to anyone voting anyway they want to, if they can do so with a clear conscience, but our idea is that if just a few, say one out of every three voters in Texas go to the polls, we will probably have a minority government for the next two years.

Therefore, it behoves true blue Democrats of both anti-klan and the klan persuasion to go to the polls on next Tuesday and show the world that Texas has not forgotten the Carpetbagger rule following the civil war to this day. One of the biggest and most cherished principles of the klan is white supremacy, and they know which party has stood for this one thing throughout the south, and we are persuaded that no great multitude of klansmen in the South are going to jump their pledge.

## A REAL GOOD SHOW HERE NEXT FRIDAY

Cole Bros. Shows will visit Brownfield Friday, Nov. 7th for two performances. With each successive season one looks forward to the visit of the various tented aggregations that travel the country for the amusement of the people and no show is ever more heartily welcome than Cole Bros. They have made a reputation for themselves by giving the people a good high class entertainment that appeals to all as interesting, amusing and instructive. Everybody loves horses and ponies. More especially does this apply to the ladies who with the little ones are the most loyal patrons. They are assured of the highest form of entertainment free from everything at all calculated to offend the most sensitive.

In addition to the trained animal features, Cole Bros. have the very best of lady and gentlemen performers. The performing elephants are rare wild beasts. Banty Bunny, the cute little baby elephant, the good night pony, together with the many prancing ponies in military drills and marches are especially pleasing to the little ones. The funny clowns, the many beautiful lady artists, the feature act by the world's greatest gymnast, Mlle. Roberts, in her death-defying act in mid-air, the like of which has never been witnessed, will live long in the memory when many other shows have faded away into forgetfulness. Don't fail to see the grand free street review. Two complete performances daily.

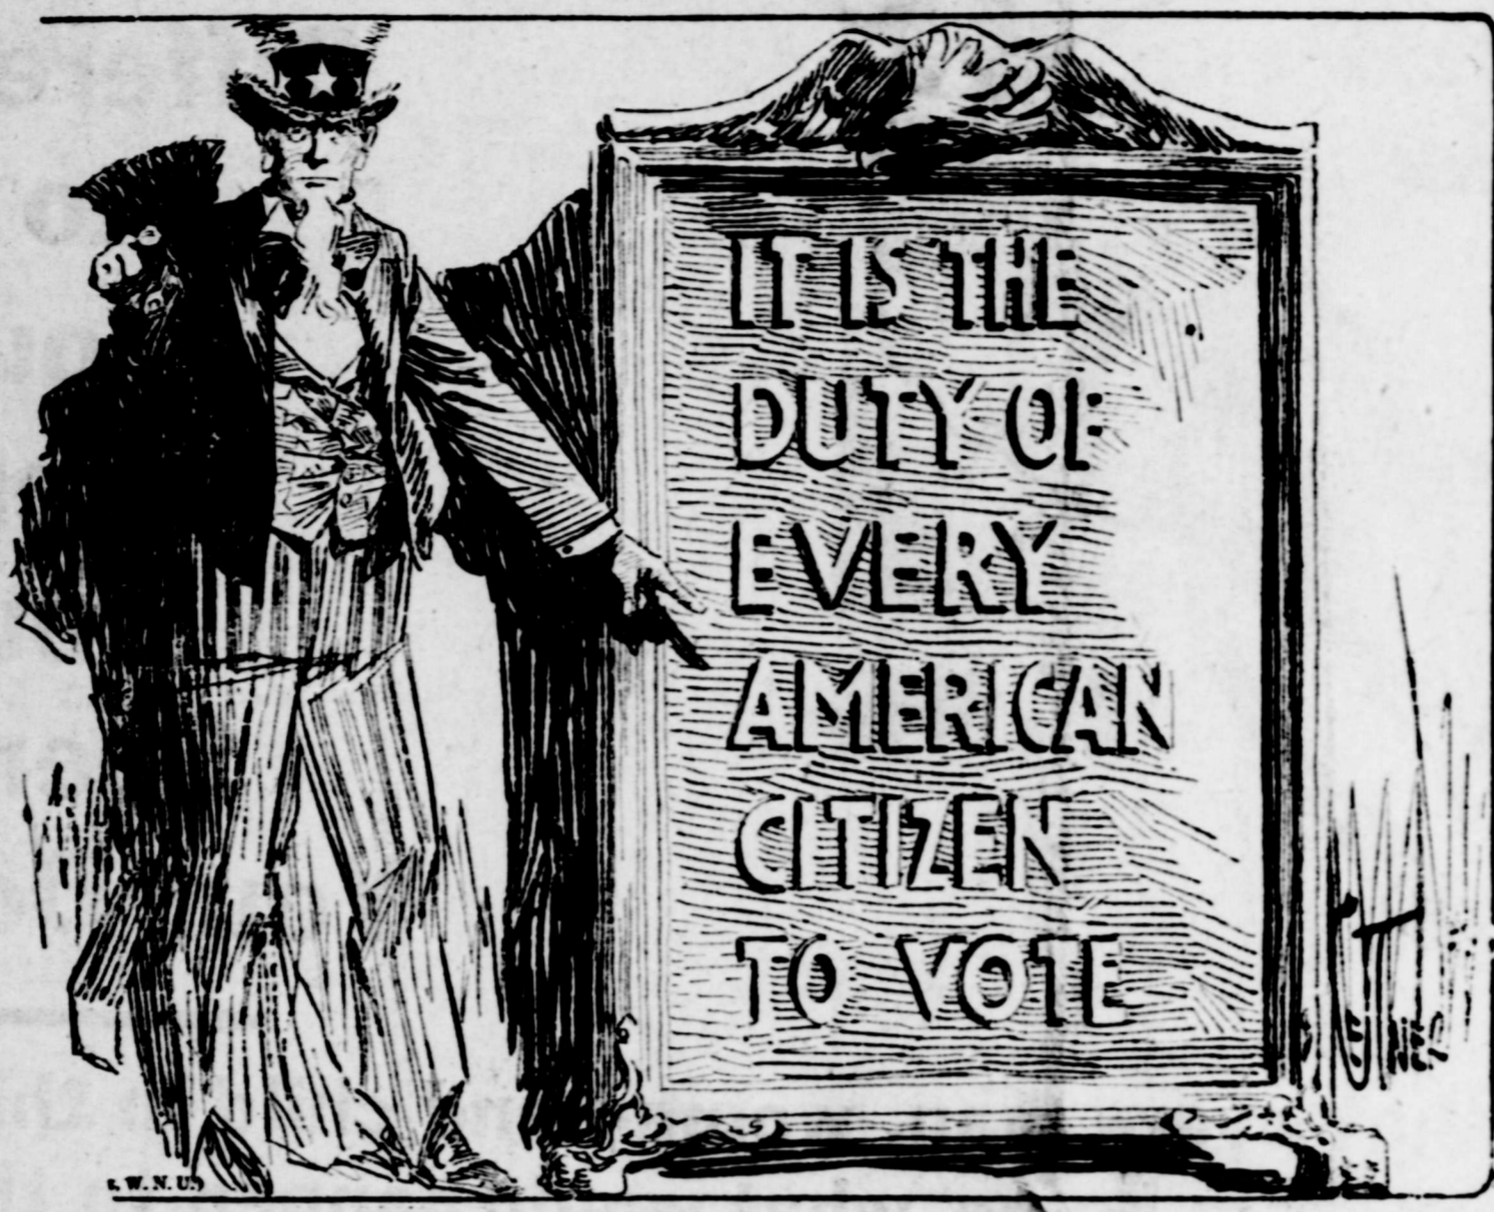

## MARRIAGE

Mr. Chester Quiet, prominent young business man of Sweetwater, and Miss Emily Miller of this city, were married here last Thursday morning at 7:30 at the home of the bride, and the young couple left immediately for their future home at Sweetwater. The affair was a quiet home wedding with only near relatives present. The ceremony was performed by Rev. J. C. Lewis.

Miss Emily is the daughter of J. A. Miller of this city, and was one of the most popular young ladies in the town, and her many friends wish for her a happy married life.

It is customary to say "I don't like to blow my own horn," just before blowing it.

## Don't Be a Shirker

## BIG LIGHT PLANT ENGINE CAME IN SATURDAY

Everybody was pleased when it was learned that the big 100 horse power engine had arrived for the light plant and would be installed as soon as possible.

The electricians and engineers were glad because of the reserve power in case of accidents. The citizens who already enjoy light and power were glad because of the fact that the city council had forbid them to run motors at night, and the days were becoming so short that often they had need of them at night. Also, dozens of others who were not permitted to tie on because of the overloaded condition of the 75 horse power engine, are now rejoicing that they are to get lights and power.

An additional car load of poles have also recently been received, and all additional extensions under contemplation can now be done. Also, there is plenty of wire on hand, together with other supplies.

When the new engine is tied in, we will have one of the best equipped plants for the size of the town in the state, and when our \$50,000 waterworks system is finished, we will also be heeled in that direction.

## BRIEF SUMMARY OF METH-ODIST CONFERENCE YEAR.

Our conference year has come to a close and in order that the public may know of our progress, we will give a brief summary of the work done the past year:

We came here with the intention of building a church, and although opposition and the Doubting Thomases, the task has been completed, and we have a building that the town as a whole is proud of. Our Sunday School and church attendance has thrived in numbers. A splendid Epworth League has been organized this year. The Woman's Missionary Society has done a great work—rebuilt the parsonage and had it furnished throughout. Seventy-two members have been received into the church, of which we are thankful, and last but not least, what some said could not be done has gone over the top.

In the way of finances, we have raised in cash \$8,700.00. The pastor's salary has been paid in full and over. Words cannot express our thanks to the faithful board of stewards and all who assisted in this great work. We know that God has ever been our guide amid the conflicts of life, and should we remain here another year, we will press forward with the great work begun.

J. P. Watson

An item from a Texas newspaper: "Charley White, formerly a good citizen of this place, but now a traveling salesman, was in town Monday." If we must have death scenes in plays, it should be arranged to kill off the poorest actors first.

## LUBBOCK EXPECTS BIG CROWD ARMISTICE DAY

Lubbock, Oct. 30.—(Special) With the acceptance of Governor Neff and Colonel Earnest Thompson of Amarillo to be the principal speakers at the corner stone laying of the Texas Tech here on November 11th, Armistice Day, arrangements are rounding into shape for one of the biggest celebrations ever staged in Western Texas.

Senator Guinn Williams, Deputy Grand Master, Decatur, and Judge E. R. Bryan, Grand Senior Warden of Texas, Midland, are two of the Masonic state officers who are known will be present, who with 1,000 or more Masons of this section will have actual charge of the laying of the corner stone.

The President of the local chamber of commerce, has been asked to act on the reception committee for that day, with the Presidents of all the Chambers of Commerce of this section. While this school belongs to all of Texas it is especially important to this entire section and the citizenship of this section and the citizenship of this section is getting behind the corner stone laying celebration as they have never gotten behind anything of a sectional nature before.

Every town and county in this section has been asked to enter the parade preceding the ceremonies as a unit, and each town and county will be given a designated place in the parade where they may carry their own banners and other appropriate advertising matter.

All the Plains bands are being offered places in the days' program and the ex-service men are especially invited to take part as this is their own day.

A special program for ex-service men will be staged by the Lubbock Legion at night, and all ex-service men are invited to register at headquarters on the courthouse lawn during the day and get tickets for the evening's feed and entertainment program.

## OVER 5000 BALES GINNED IN COUNTY TO DATE

Up to noon Wednesday 3,760 bales of cotton had been weighed at the local cotton yard, according to Weigher W. A. Bynum.

Despite the fact that approximately one million bales more of cotton had been ginned up to the 25th than was ginned at the same time last year in the United States, and also the government report showing a little better condition than last report, cotton has taken a decided upward trend. This is thought due to the fact that most of Europe is getting on their feet and are mixing matters with American spinners. There also is very little if any carry-over.

Brownfield yard	3,760
Meadow yard	1,500
Total	5,260

## LOCAL MAN BADLY HURT WHILE UNLOADING ENGINE

While helping to unload the big 100 horse-power light engine Tuesday afternoon, Sam Pyeatt, local drayman, had the misfortune of getting his leg badly hurt.

They had the engine jacked up and fixed to slide it onto the eight wheel heavy dray wagon belonging to the dry firm of Eicke & Pyeatt, when one of the jacks began to slip, and in jumping to safety, he passed over a large cross-bar that flew up and hit Mr. Pyeatt on the inner side of the thigh, about half way between the knee and hip, which pierced the flesh about three inches.

The shock and loss of blood made him deathly sick for awhile, but he was reported resting easy Wednesday morning.

## MONSTER PUMPKIN ON DISPLAY AT LOCAL DRUG STORE

The largest pumpkin we ever beheld, and we have seen some hefty ones produced in the Mississippi river valley, is now on display at the Randal Drug store. It is not only a huge critter, but is well shaped and in perfect condition.

This huge eatable that would probably make enough pies to supply the city of Brownfield a day or two tips the scales at 95 pounds; is 4 feet and ten inches in circumference on way and five feet 8 1/2 inches around the long way. It was grown on sod land without irrigation by C. F. Rickles on the J. L. Randal farm five miles east of Brownfield. Many people are admiring this pumpkin, and we have yet to hear the first man say he had seen one larger, and we have some people here that have been around some.

In connection with this big pumpkin, Mr. Randal and clerks have originated a very unique Halloween display in the show window. There is your shock of corn with melon vines around, and to one side is another pumpkin, much smaller than the center piece, with the usual eyes, nose and mouth of the witch night, which glows from an electric light bulb at night. Then the borders are decorated with paper bunting of the owl, black cats and witches.

## EXTRA SERVICE AT BAPTIST CHURCH NEXT SUNDAY NIGHT

We will have with us next Sunday night brethren E. L. Hill, B. N. Shepherd and W. K. Horn. All these men will appear upon the program to be given in the interest of the 75 Million Campaign. The above speakers will be assisted by the Brownfield Male Quartet. The speakers will use about thirty minutes each, and the quartet will render at least three numbers.

Come and hear this program. It will be a rare treat whether you are interested in the campaign or not.

C. E. Ball, Pastor.

## HOME TRADE CAMPAIGN IS NOW ON HERE

With this issue of the Herald we are inaugurating a "Trade at Home" campaign, and we expect to have at least one of these ads once a month. The time was when merchants in the old home town came to the editor with a long clipping from some trade paper asking him to publish it gratis. These clippings invariably took the big mail order concerns to task—but the editor had to do all the fighting. The home merchant has now learned his lesson, and he knows he must fight the mail order house with his own weapon—printers ink. He has also learned that to fight the mail order house he must use reason. He must refrain from harsh language for harsh words and sentences only makes the mail order fellow a martyr in the eyes of those he wishes to reach with the argument.

We are glad to say that with the modern methods of fighting out of town or city mail order house, the home merchant is making a telling count, and especially in towns like Brownfield where the merchants are consistent and reasonable advertisers. We know that nothing like the business is done here now per capita by mail order concerns that was done a few years ago. Through comparison of prices, and counting postage or freight and express, people have learned that they get greater values at home than anywhere else. People have also come to realize that there is a vast difference in the quality of "trade marked" goods and goods that no manufacturer dared put his brand on—seconds if you please. People are now calling for what they want by name like for instance "Arrow" brand collars. Everybody knows just what Arrow brand collars stand for, and we could mention many other "trade marked" brands of suits, shoes, overalls and hats, but the reader is familiar with all of them. The buyer is becoming as wise to this as the merchant himself, and it is hard to sell him stuff with no manufacturer's mark on it.

Mr. Reader, we want you to go over this ad carefully and reflect what it means to buy at home and what it would mean if there was no Brownfield with its progressive merchants near you. To the progressive merchants and business men who have underwritten this ad, we want to thank you for the spirit of co-operation you have shown, and if we have overlooked seeing any firm in town that would like to have his firm name under this ad next month, please call No. 1, or see us on the street in your store about the matter.

In conclusion, we want to give just this one thought: "We must hang together or hang apart."

## LAMESA MAN GIVEN YEAR ON LIQUOR CHARGE

Henry Willman charged with manufacturing whiskey, plead guilty to the indictment in district court at Lamesa this week and was sentenced to one year in prison.

Court has recessed until next week and the Dawson county grand jury is investigating the condition of the county and will report to District Judge Clark Mullican next week.

Considering the number of people that are coming into this county and the other conditions that are prevailing, there is very little law-breaking. Local officers keep close watch on all conditions and there is very little rowdyism.—Lubbock Avalanche.

## O'DONNELL MAN ARRESTED FOR COTTON THEFT

On Wednesday night a bale of cotton was stolen from Mr. Wright, live in a few miles northwest of O'Donnell. It was taken from the field in a truck, and as soon as the theft was discovered officers were notified. An investigation was immediately instituted, and by tracking the truck it was found that a young man who resides at O'Donnell, who raised no cotton this year, had a bale ginned at Lubbock where he afterwards sold it. He was arrested and taken to Lubbock Friday by Sheriff Sam Sanford and upon being questioned made a confession to the officers, it is stated.

Reports of other cotton thefts are current on the streets, which would indicate that somebody is doing considerable night work.—Tahoka News.

Men are more convincing liars than women, declared a Danish professor, who attributes this to the fact that men have had more practice.

## ST. LOUIS CAPITALISTS VISIT BROWNFIELD.

Among the most prominent men to ever visit our city, were here Friday of last week. Besides owning great block of stock in the city of Saint Louis and Southeast Missouri, they are interested heavily as stockholders, and officials of the Texas Utilities Co., of Plainview and Lubbock, and who are branching out in several of the nearby towns and cities, having only recently acquired property in Brownfield, on which they stated an ice plant will soon be constructed.

The personnel of the party consisted of: I. R. Kelso, St. Louis, General Council of the Texas Utilities Co.

H. Murdock, St. Louis, President and General Manager, Texas Utilities Company.

E. S. Billings, St. Louis, Chief Engineer, Texas Utilities Co.

H. L. Allen, manager of the Lubbock plant, Texas Utilities Co.

They were piloted to the Herald office by Mr. W. A. Bell, cashier of the First National Bank, who introduced the gentlemen, and then Mr. Kelso did the talking of course, being a lawyer. Mr. Kelso paid a high tribute to the press, and we know that his praise and belief in the press is not all talk, for the Utilities Co. do a lot of wholesome advertising wherever they have a plant. He also stated that he had a lot of confidence in the future progress of the South Plains, and that his company was backing their judgement with cash. In telling of their recent purchase of property here, he said he believed that Brownfield had a great future, and they were going to put in an ice plant in this city. We might also state just here that it is generally understood that they are quietly seeking to purchase the city light and power plant here, and like the high line from Lubbock to Idalton, Ralls, Lorenzo and Crosbyton, and also the one from Plainview to Lockney and Floydada. Brownfield my have just this kind of service some day with a high line down this branch of the Santa Fe from Lubbock through the towns of Ropes, Meadow and Brownfield, and maybe on to Seagraves. Who knows but that this will be a substation or maybe a main one on this branch?

We might also state just here that Mr. Kelso is quite prominent in politics in Missouri, having recently been offered the nomination as candidate for governor of that state on the Democratic ticket, but declined the honor for business reasons. We found this a splendid, open and frank set of business men with never an indication that they were men of big affairs, for boasting is very conspicuous by its absence from their actions and conversation, and we are glad they saw fit to favor Brownfield by both the visit and the joint property ownership with us.

## TERRY COUNTY SINGING CONVENTION MET AT JOHNSON

Sunday morning, Oct. 19, the Terry County Singing Convention met at the Johnson school house with an attendance estimated at about 500.

The program was opened at 10:30 o'clock with a class song led by Mr. Burnett and followed by many other good ones. Several quartets and solos were enjoyed during the morning program. Singing closed for a time after 12 o'clock, when Mr. Ray of the Johnson community invited the visitors to a basket dinner which had been prepared for them.

The evening program began at one o'clock and was even more entertaining than the morning program.

A number of special songs were sung by the Stamps quartet, which were enjoyed very much by the people. The selections sung by the Lubbock quartet, composed of T. Q. Dyess, Ruben Dyess, J. W. Williams and Claud Peck, were very good also. Two other entertaining specials were arranged, one by the Tokio class and the other by the Plains class. Another number liked very much by everyone was a solo by Mr. Mooney.

At four o'clock the people were dismissed, well satisfied with a day well spent. It was decided that the next convention would be held at the Forrester school house.

A phone message to John Berry, local barber, came in Friday from his wife at Stanton, who is at the home of her sister, stating that he was the father of another daughter. John Berry immediately for Stanton.

Today is defense day with...

### YEARLY FRAUDS AMOUNT TO TWO MILLION DOLLARS

Almost beyond belief, yet undoubtedly true, is a statement made in a recent report that \$2,000,000,000 was literally stolen from the people of the United States during the past year, thru embezzlement, forgeries, credit frauds and the sale of worthless stock.

The report made by the American Institute of Accountants, the highest possible authority, after a painstaking and elaborate survey. This two billion does not include losses by burglary, robbery or any violent means of separating the victim from their money. It only embraces the result of misplaced confidence.

Of this staggering sum approximately two hundred million was obtained by embezzlement and forgery; six hundred million represents credit frauds, while the stock frauds reached one billion dollars.

Add to these figures the vast sums wrestled from our people through other forms of dishonesty, and the

total would be utterly beyond human comprehension. It is a serious indictment of both the honesty and the intelligence of a large portion of our citizenship.

Those who are induced to contribute to the billion dollar pot cleaned up by the fake stock jobbers have some claim to sympathy, no doubt, yet practically every newspaper and periodical in the land has repeatedly warned its readers against investing in wildcat schemes.

It appears that as soon as one crop of "suckers" is skinned a new and larger bunch comes to meet the same fate.

Another prominent couple from an adjoining state secured license here and were wedded, recently, but they were secretly married and asked the county clerk not to have it published as they wanted to put one by on their friends.

Rev. Johnson, pastor of the local Presbyterian church filled his pulpit here Sunday.

## RED CROSS IS URGING BETTER-HEALTH BATTLE

Tireless in Services Advancing  
Cause of Freedom from  
Human Suffering.

Not alone in preparedness for emergencies, but in a tireless offensive battle for better health is the American Red Cross nurse maintaining in peace time the high tradition of her war service. As in war, the same self-effacing service for humanity goes on its quiet, effective way content in its accomplishments, seeking no public acclaim. Enrolled in the Red Cross Nursing Service are 40,632 of these missionaries of health, nearly 1,000 carrying the message of a finer public health to as many communities and 1,100 teaching large classes in home hygiene and care of the sick. Exactly 100 Red Cross nurses are still on duty overseas, helping the struggle forward toward the high standard of American nurse efficiency in many countries.

In the Government services 3,117 enrolled Red Cross nurses are on duty with the Army, Navy, Public Health Service and the Veterans Bureau while the entire active enrollment is maintained as a reserve for the Army Nurse Corps and available to the Navy in a national defense emergency. Nine hundred nurses were added to the roll the last year.

Red Cross nursing, however, has perhaps its finest expression out in the places laid waste by fire, flood and storm, and in the back reaches far from the centers of population. In every disaster the Red Cross nurse is first called for, first to respond, and the last to leave her post of duty among the suffering victims. In the isolated sections of Alaska, North Carolina, Virginia, Idaho, and among the bleak islands of Penobscott Bay, Me., her ministrations are making hard lives easier and working for a brighter future for the children. Her part in the human drama of the time is increasingly important, although it is subdued by the very nature of her work.

The policy of the American Red Cross to establish under Chapter control public health nursing services in communities lacking such facilities has been justified and this pioneering work is everywhere endorsed by authorities who are quick to take it over as a proper municipal function and a duty of taxpayers. The Home Hygiene and Care of the Sick program has further penetrated into the schools as a definite part of curriculum. During the year 25,000 school pupils took this Red Cross course. Three telephone corporations adopted it and graduated 560 employe students.

As good health depends upon right eating the Red Cross Nutrition Service continued to promote individual and community health, particularly the health of mothers and children. The service reached nearly 150,000 persons during the year and found work to do for several thousand Red Cross volunteer workers.

## Red Cross Fighting First Aid Battle To Conserve Life

Reliable records establish the fact that more than 75,000 accidental deaths occur every year in the United States. The records show that 208 American citizens are killed every day; that 33 of these deaths are due to automobiles, 15 to falls, 19 to drownings, 16 to burns.

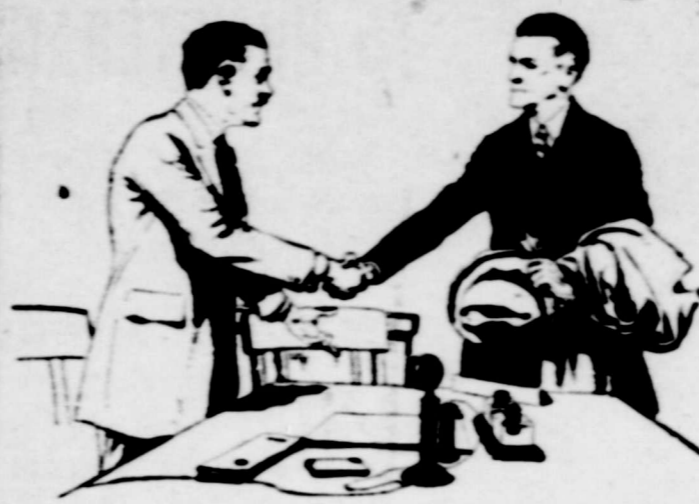

Facing such distressing sacrifice of life is the First Aid Service of the American Red Cross, fighting through education and demonstration to instill a consciousness of safety in the public mind and teaching approved methods which assure that competent hands will care for injured persons until the arrival of doctors. Trained service in the first few minutes is vital in serious accidents and saves many precious lives.

One of the most encouraging signs of the past year is the record of the Red Cross First Aid Insurance Car No. 1 which traveled 3,700 miles along trunk lines, stopping at 157 places. The car's staff of surgeons gave 911 demonstrations to audiences composed of 42,150 railroad men, 71,000 high school and college students, 13,000 industrial workers, 2,000 members of clubs, and nearly 13,000 policemen, firemen, and other municipal employes, a total of 147,000.

Red Cross First Aid certificates were conferred upon 13,805 persons who took the course last year, an increase of 4,000 over 1923. Telephone, gas and electric companies, public service corporations and other large employers of the country adopted the Red Cross course, and their train contests everywhere were witnessed by huge crowds with as much interest as develops at popular athletic games.

In the industrial field the growth of First Aid practice to fight to reduce preventable accidents and unnecessary loss of life has received wide recognition. The promise of an unprecedented advance in this line came in the evidence of the great strides systematic instruction in First Aid has made throughout the country through the Red Cross Chapters and the work of the experts in this service under direction of the national organization.

Sign the American Red Cross and this year for humanity's sake.

### TEXAS BALLOT NARROWEST IN FORTY YEARS

With all the data mailed from the Department of State for compiling the tickets to be used in the November election, it has been found that the Texas ballot of this year will be the narrowest in forty years. In the past several elections they were so wide as to be variable bed blankets, carrying names of candidates.

There will be two state tickets carrying candidates for State officers—Democratic and Republican. A third column will contain electors only for the Independent Progressive Party, headed by LaFollette. That party has no candidates for State offices in Texas.

As a result of the foregoing there will be but two complete columns of electors and state offices, the Democratic and Republican, and in most of the counties there are no candidates for district, county or precinct officers except Democrats.

Besides the limited number of candidates to be carried on the ballot for the November election, there is one other additional subject, the question of an amendment to the state constitution to increase the state pension tax from 5 to 7c on the \$100 assessed valuations.

There will be little to confuse the voters and the election officials will be able to return a quick count of the votes.

### Want Ads

FIFTY white Leghorn hens and pullets for sale. R. M. Goodposture.

IF YOU HAVE TO WEAR GLASSES, you can get just what you want from R. B. Robinson at Alexander's Drug Store.

Editor E. I. Hill has recently installed a model 8 linotype, the latest word in typesetting machines, and is now just about as happy as you make a country editor. May Hill and the Tahoka News grow on together.

A Lubbock man this week spent several hard earned dollars to tell the readers of the Morning Avalanche how he was going to vote and why. We paid \$1.75 for this privilege and considered it high at that price. Besides, who gives a care how the Lubbock citizen or the Herald votes?

R. B. Haynes, editor and publisher of the Seagraves Signal spent Sunday night in Brownfield the result of a stubborn jitters. He showed up at the Herald office Monday morning and chatted awhile before leaving for Seagraves. He says Seagraves is making rapid progress in every way and that he is pleased with the future outlook.

The hotel men in recent convention went on record condemning the practice of towns and cities in erecting, often a great cost, camping sites for tourists. Most people of course think these tourists camps are great things for towns, but the hotel men absolutely refuse to see the matter in that light, and it don't take a blind man to see why. Every man for his own trade, and a poor one who cannot see and take care of his own interests. You may say they are selfish in this. No more so, dear reader, than any other profession.

Dr. Butte, the Republican candidate for Governor of Texas, is going up and down the State preaching that there is no moral harm in breaking a pledge. If by any miracle Butte was elected, and takes the oath of office, which is nothing more or less than a pledge to uphold the constitution of Texas and the United States, would he regard that oath or pledge in the same light? We are just like we were two years ago when politicians were ranting up and down the state trying to get Democrats to jump the pledge and vote for Peddy instead of Earle B. Mayfield. We refused to

disregard our pledge then, and also now.

When one candidate begins to flinch another one and thinks there are no possible come-backs, he is treading on shaky ground. This was the case with Dr. Butte the Republican nominee for governor of Texas. He had been pictured from platform and pulpit as an ideal Christian gentleman and we imagine he is a very good man, but he had many hard things to say about Jim Ferguson, and Jimmie is some campaigner himself. So Jim just proceeded to open his gun on Butte in which he not only told about pardoning a brother of Butte's wife while governor of Texas, but also exposed a very shady transaction in Oklahoma in which he alleged Butte's law partner embezzled quite a sum of money from clients, and he—Jim—further said that the Dr. immediately left for Europe and stayed there until the matter blew over. He that lives in glass houses better not cast any stones.

A bit of Jack Frost visited Brownfield and vicinity last Friday night that kindly bit tender vegetation and will likely aid cotton in opening.

**WHY NOT MAKE IT "FIRE PREVENTION WEEK"**

Editors of the country are coming to understand that Fire Prevention week, which has become an annual event, is essentially a matter of public welfare. By their comment they have shown that they are squarely behind the movement.

During fire prevention week wide publicity is given to the appalling loss of life which averages more than 1250 fatalities a month in the United States and to startling fire wastage which last year was a little short of \$1,400,000 worth of property per day, not to mention interruption of business and many other attendant ills.

Fire prevention should become a daily practice and fire prevention week should, as time goes by, be used as a period for recording the activities of various communities which have cut down their fire losses and thus bettered their condition compared with communities which continue the old wasteful practice of killing their people and burning their property through fire carelessness.

Let the lessons taught during Fire Prevention Week emphasize the necessity for fire carefulness every day of the year.

**BAPTIST INSTITUTE HELD AT TAHOKA LAST WEEK.**

A Sunday school and B. Y. P. U. institute is being held at the Baptist church this week, with quite a number of Sunday School and B. Y. P. U. workers in attendance. Rev. B. N. Shepherd, the pastor, is teaching the class in B. Y. P. U. work, while Rev. C. E. Ball, pastor of the Brownfield church, is giving the Sunday School work. The purpose is to train officers and teachers and leaders in these activities of the church.—Tahoka News.

**RED CROSS DUTY TO AID VETERANS**

Spends Nearly Four Millions in Year to Lessen Burdens of Disabled Soldiers.

SERVES 63,700 IN HOSPITALS

Every Case Is Given Individual Service—Assists Families of These Men Everywhere.

Washington.—The need of individual assistance by ex-service men and their families from the Red Cross is as pressing today as it was immediately after the end of the World War. For six years this work has been foremost of all Red Cross services, and in emphasizing the steady public support of this work the Red Cross National Headquarters urges the largest enrollment this year during the membership campaign opening on Armistice Day, November 11. Nearly four million dollars of Red Cross funds spent for disabled veterans and their dependents during the year ended June 30 last presents some idea of the magnitude of this work. The current year, it is estimated, will call for still further disbursements of funds for the reason that the Red Cross, through more than 2,500 Chapters in as many communities in the United States, has been called upon to help the ex-service men in making out their applications for the adjusted compensation granted in the so-called bonus law.

**58,767 Soldier Cases a Month**

The Red Cross work for the disabled soldier is designated "home service," for it gives individual attention to the man and his family approximating the interest and loving care of the home. Such service in the hospitals, camps, soldiers' homes and sanatoria, averaged 32,931 cases a month during the year. Assistance to ex-service men and their dependents averaged 58,767 cases a month. In addition, the Red Cross in the last twelve months provided 32,000 recreation and entertainment events in the hospitals and camps.

Thus the Red Cross, symbolized as the "Greatest Mother," still watches over these many thousands of men, comforts them, helps to lighten the tedium of their physical reconstruction, and in their homes lifts some of the burdens from their "own people."

**Work in Communities Increases**

The home service of the Red Cross was the most pressing duty of 2,699 Chapters, an increase of 182 communities where problems affected by the war veteran's condition required solution through immediate and intelligent assistance. The Chapters alone expended some \$2,000,000 in this work.

The transient disabled soldier, usually suffering from disability or tuberculosis, is almost everywhere a grave problem. From national funds the past year \$172,976.36 was expended in helping the Chapters to care for these wandering men.

According to government report there are 4,800 veterans in civilian institutions, and in the national homes for soldiers the complications are increasing. The large groups of patients whose claims have been disallowed, of veterans of foreign wars, and the great number of men permanently resident in these institutions call for Red Cross work which cannot be avoided nor denied.

**Definite Service to 73,700**

Of a total of 84,500 ex-service men in hospitals and other institutions 73,700 were rendered a definite and specialized service by the Red Cross. In a single month 4,135 new cases were presented and a total of 20,125 was acted upon—figures which serve to illustrate the magnitude of the information and claims service engaging the attention of Red Cross workers. New veteran legislation amending the War Risk act which extends many additional rights to disabled ex-service men will reopen thousands of cases and require still greater Red Cross service.

When Congress granted a charter to the American Red Cross it charged the organization with the duty to act as "the medium of communication between the American people and their Army and Navy." This responsibility to the enlisted men and their families is met every year without restriction.

**Serves Men on Active Service**

The extent of this Red Cross activity during the last year embraced a total of 195,246 cases. There were 36,995 separate soldiers' and sailors' claims; 29,316 investigations of home conditions; 11,421 cases related to discharges, furloughs, etc. Assistance was given in 28,638 instances for personal, business or family problems; 744,220 visits were made to the sick or disabled, and nearly 46,000 letters and telegrams dispatched to the homes of enlisted men.

From June to September at the numerous military training camps the Red Cross provided information and home service to the trainees, also instruction in First Aid and Life-Saving. The entertainment and recreation events at the various Army and Navy hospitals reached nearly 9,500 during the year, and occupational therapy in nine Naval hospitals gave constructive and beneficial results and occupied the time of patients in the making of useful and ornamental things.

## Norns in Mythology Woove Fabric of Fate

Norns were the fates of Scandinavian mythology. They were three young women, by name Urth, Verdandi and Skuld—past, present and future. They sat by the well of Urdarbrunnr under the ash tree Yggdrasil, and there determined the fate of gods and men. Every day they drew water from a spring and with it sprinkled the tree, that its branches might not rot and wither away, says the Detroit News.

Originally there appears to have been but one norn—Urth—and her character was conceived in a gloomy night, making her often equivalent to death doom. Later two others were added. Two of these gave the blessings, the third the ill of life. In the legend of "Sleeping Beauty" the norns are represented as thirteen women. Usually they were conceived as spinners, weaving the fabric of fate.

Besides these great norns there were many inferior ones, both good and bad; for, says the Norse Edda, when a man is born there is a norn to determine his fate, and the same authority tells us that the unequal destinies of men in the world are attributable to the different dispositions of the norns. These lesser norns correspond to the genii of classic mythology. Women who possessed the power of prediction or magic also bore this name.

## Busy Ant by No Means a Nuisance in Burma

Most people regard ants as a nuisance, especially in a garden or at a picnic, but the natives of Burma have found a use for them.

This country grows and exports sandal-wood, one of the most valuable and beautiful timbers in the world. The greater part of every tree felled is useless, however, for only the fragrant scented heart has any commercial value, and to transport the whole log would make even that not worth the cost of removal.

So the trees, after being stripped of their branches, are allowed to lie where they have fallen. The soft, sappy wood, which is useless in commerce, attracts the billions of ants who infest the forest, and to whom it is a tit-bit. In helping themselves the ants help the sandal-wood merchant, for they leave the hard heart of the trunk stripped of all its worthless integument, and thus do for nothing the work of many human laborers.

## YOU CAN SAVE First Annual Reduced Rates Offer The Dallas Morning News

The announcement of The News' first annual reduced rates offer is the best news of 1924 to those who in the past have felt they must compromise on quality in order to save money. Now it isn't necessary to compromise. The Dallas News is the big State newspaper. It prints the most news—the most pages. Some newspapers merely entertain. The News informs and educates as well as entertains.

### A Few Points Worth Knowing About The Dallas News

- Gives its subscribers the most pages.
- Maintains the highest priced news gathering organization of any single newspaper in the Southwest. Its pay roll for this class of service is 53% higher than the next largest Texas newspaper.
- Prints the most news.
- Has the most complete market section.
- Is the oldest newspaper organization in Texas.
- Is a Texas product.
- Is one of the big successful institutions of the Southwest.
- Prints the news without coloring. Its opinions are limited strictly to its editorial columns.
- Stands for all that is right—against all that is wrong.
- Rightfully deserves the title it carries—

COME TO SEE US

Your real diplomat looks on while the other fellow spills the beans.

A very interesting feature was on at the Pastime Theatre Monday and Tuesday nights, entitled, "Why Men Leave Home." From what we could get from the moral, the title could just have easily and appropriately have been "Why Women Leave Home," as we could see no difference in the excuses offered by either sex for their differences or for chafing around the city nights with other women's husbands or other men's wives.

Mr. and Mrs. A. L. Turner, of Seagraves, accompanied by their son-in-law, Ennis Ware and family, were visitors in Brownfield Sunday. Mr. Turner said he had a good grocery business, and was especially selling lots of flour, as he had what he and his customers considered one of the best brands of flour to be had at any price.

### April Fool

Many attempts have been made to account for "All Fool's day" or "April Fool day." The most satisfactory explanation seems to be as follows: Before the English changed their calendar in 1752 the legal year began March 25 instead of January 1. Most all of the feast days and festivals were originally celebrated eight days. April 1 was the octave or eighth day after New Year's day, March 25. It was therefore the day on which the New Year festivals reached the highest point and ended. The Roman festival known as the "Feast of Fools" on February 17 may have influenced April Fool, because on that day the Romans also played tricks and practical jokes. The Hindus have a spring festival on March 31. Some have tried to connect "All Fool's day" with the mock trial of Christ, but the connection is probably only imaginary.

### Playtime Important

It is only for the sake of the free life that material competence and knowledge of fact are worth attaining. Facts for a living creature are only instruments; his play-life is his true life. On his working days, when he is attentive to matter, he is only his own servant, preparing the feast. He becomes his own master in his holidays and in his sportive passions. Among these must be counted literature and philosophy, and so much of love, religion and patriotism as is not an effort to survive materially. In such enthusiasms there is much asseveration; but what they attest is really not the character of the external facts concerned, but only the spiritual uses to which the spirit turns them.—G. Santayana in Yale Review.

### Sheep in America

Sheep were unknown in the domesticated state in America until after the Spanish conquest. The beginning of the sheep industry in the New World dates back to the time of Cortez and his conquest of Mexico in the early part of the sixteenth century. Nearly all Mexican sheep can be traced to early Castile breeds. This is also the source of the early sheep in the western part of the United States. It is believed that the English colonists first brought sheep to Virginia in 1609, originally all sheep probably came from Asia, but American breeds all sprang from stock imported from Europe.

Leslie Green, prominent young Union community farmer, paid the Herald a short call one day recently.

The bravest editor has been found. He declares his paper does not print poetry of any kind at any time.

Scandal mongers have no union rules and never object to working overtime.

A Georgia court has decided that being legally hanged does not invalidate a man's insurance. Policy holders are thus relieved of some source of worry.

Sometimes the upper hand comes from the bottom of the deck.

C. D. Hanes, hustling farmer of the Pride country, was in Monday and paid the Herald a short call.

There is always lots of unemployment and most of it is on somebody's payroll.

The Parent-Teacher Association met at the school building again on Tuesday night and got the organization under good headway.

### THE LITERARY DIGEST POLL

The Literary Digest is making an alleged poll of the voters of the country to indicate the choice for president. This poll shows Coolidge way in the lead, with LaFollette second and Davis third. The Attorney General of Nebraska has investigated the operation of this poll and finds it is a farce and that large quantities of these cards for voting never get beyond the local postmasters.

The postmasters instead of returning the undelivered cards, checks 'em off himself in the Republican column and mails them to the Literary Digest as the expression of the voter. They are not signed, so one voter can send in 1000 cards if he likes. As 99 per cent of the postmasters are Republicans, it will be readily seen and understood why Coolidge is getting so many votes.—Ward County News.

Mount Shasta's glacier has been throwing mud lately, probably taking its cue from the politicians.

A local football fan gave us the details of a very thrilling football game here last Friday, when the Seniors and Juniors met on the local gridiron. The game went the full time without either side scoring and the time keeper began turning his watch back five minutes at a time until the game was fifteen minutes over time without either side scoring.

Harley Sadler show had a great run here last week, seats being at a premium almost every night, and on Saturday night the late arrivals had to be turned away. Mr. Sadler stated that he was a little afraid of this city, never having been here, when he billed the town, but stated that he was highly pleased with results and would return next year.

A letter was received recently from Judge O. W. Gillespie in Fort Worth stating that he had been put in bed for three months at the advice of his physician. We hope after this long confinement he will emerge much rejuvenated in health.

### Wild Duck Unable to Fly

Catching birds by running after them and sprinkling salt on their tails is proverbially difficult. On one of those lonely island specks in the largest of oceans, known as the Hawaiian bird reservation, is a peculiar species of teal which has lost the power of flight. This wild duck can be easily run down by a man on foot. But as men do not come to this island except in a blue moon it would seem safe. However, it has to have fresh water and the only fresh water on the almost barren island is a small pool. Should the encroaching sands cover the pool, which seems likely, this rare flightless duck must die.

### Good Qualities of Bass

Bass have proved themselves to be good fathers, according to a report made by a state conservation commission. The black variety will guard its young after hatching and will defend its shoal against big odds, having been known to attack the pickerel and gibe when they swim too close to its swarm.—Popular Mechanics Magazine.

### Famous Pleasure Spot of English Monarchs

Many kings have done their part; to make Hampton court what it is today, asserts a writer in John O'London's Weekly. Wolsey began it all, and it is interesting to learn that when he walked in his park he liked to be left to his meditations. He would allow no servant to come near him; his order was that they should keep as far from him "as one might shoot an arrow." When Henry came into possession he at once extended the gardens, planted quickset hedges, and bought apple and pear saplings.

Hentzner described the gardens in Elizabeth's reign as "most pleasant," adding that he "saw rosemary, so planted and nailed to the walls as to cover them entirely, which is a method exceedingly common in England." Charles I formed lakes. Charles II planted more than two hundred elms and as many lime trees. William III in his turn, brought in the note of Dutch formality with yew, box, and holly sculptured into bird and animal shapes or arranged to represent his royal initials; he formed rectilinear canals and did strange things with terrace and balcony, and fountain better designed (said Horace Walpole) "to wet the unwary than to refresh the panting spectator." Happily, nearly everything he did was afterward undone.

### Tools of Insect World Surpass Those of Man

Most of the articles in that great chest of tools that man's inventive genius has contrived were invented by the insect world before he fashioned the first, writes Ernest Bate, Ph. D., in Popular Science Monthly. Moreover, man's tools are usually inferior in precision and versatility.

Saw, pliers, brushes, augers, hooks, hammers, knives, lancets—all of these and yet other tools are in the insects' remarkable chest. Nature attached them to the insects' bodies—to the legs, to the head, to the abdomen, wherever they were needed. They are made of chitin, a material that, unlike the metal tools of man, resists the action of water and the milder acids. The insect tool chest is truly complete, one of its wonders being the closeness of the resemblance of the articles it contains to the tools that man has been so long in fashioning.

### The Word "Jovial"

The word "jovial" conceals the name of Jupiter, or Jove, according to the Washington Post. A "jovial" person is theoretically, at least, a person born under the influence of the planet Jupiter, or Jove.

The planet was supposed to be the most joyful of all the planets to be born under, just as Saturn is the least joyful.

Gradually the word "jovial" became dissociated from the astrological significance, and was generally applied to persons who indicated the quality of joyfulness ascribed to birth under a joyful planet.

Thus many a word in the English language in common use, traces its origin to mystic beginnings and beliefs in the darkness of the past ages.

### Famous Ancient Tapestry

During the year 1748 a quantity of beautifully executed tapestry was discovered in the cathedral of Bayeux, near Cannes, France. It is said to be of the Eleventh century, the work of Matilda, wife of William the Conqueror, and ladies of her court. The tapestry, which is 214 feet long and 20 inches wide, contains 72 sections, each of which represents a scene in the life of the Saxon King Harold from the time of his visit to the Norman court to his tragic death in the battle of Hastings. In these scenes are 1,522 figures. In 1863 Napoleon, contemplating an early invasion of England, had the tapestry removed to Paris, where it was exhibited at the National museum. The following year it was returned to Bayeux.

### Frisky Filly

Miss Sarah is "getting along in years," a fact she is unwilling to admit. She wears very youthful clothes; she has been described by a facetious neighbor as "sheep dressed lamb-fashion." And sometimes when the world pushes her into a niche where it thinks she belongs, Miss Sarah rebels.

One day she was talking merrily to a party of young girls. Her cheeks were pink and her little eyes glittering. She laughed a great deal.

"Oh, Miss Sarah," at last exclaimed one of the girls innocently, "how gay you must have been in those days!"

"Have been?" repeated the lady, indignantly. "Have been? Well, I've have you know I'm not a centenarian yet!"—Los Angeles Times.

### Tracing Surnames

Surnames offer a most convenient method of recalling forgotten trades. Who would guess that Thacker or Thackeray was the man who thatched the roof with straw; that Tyler was the one who tiled it, or Slater, he who roofed with slate? A few other names, as Collier, the charcoal burner; Chandler, the candle maker, and Fuller, the cloth cleaner, will show how numerous were the ancient crafts. Blacksmith has no equivalent among English names, unless it be the abbreviated Smith, though in German there is Klingensmith, the "clanging smith." But the horseshoer was a Farrier, dropped in our dictionaries but retained in the directories.

### Gorilla Not Ferocious Animal Long Pictured

Apparently the gorilla has been a much maligned beast. The old stories of his ferocity must have been all wrong, for now we are told on what seems to be indubitable authority that these biggest of apes are most sensitive creatures, and that the difficulty hitherto experienced in keeping them alive when captives was due to failure to treat them with the delicate consideration, without which they soon die of broken hearts.

What they really want is to be loved. Without that they fall into a lethargy of despair that passes for stupidity, but when the recipients of tender and delicate attentions they reveal the intelligence to be expected of man's nearest relations.

As Dr. Hornaday countenances these new characteristics of the gorilla nature, they cannot be ascribed to the ingenuity of overzealous press agents, as they are tempted to suspect who rather enjoyed—when at a safe distance—bearing about gun barrels broken over hairy arms, the threatening flash of monstrous teeth in preparation for attacks on lions and the beating of resonant breasts in the working of thunderous rage.

But perhaps gorillas have changed and deteriorated since Du Chaillu's day. That bold traveler and fine writer did not see them as pretty pets for ladies or as sufferers from any angonouses.—New York Times.

### Rhinoceros Can Scent Enemy Two Miles Off

Many animals give off scent through their feet. The bloodhound can "scent" his object many hours after it has passed.

Scent depends a great deal on atmospheric condition; on a sharp, dry day it does not "lay." On a muggy, still day, however, even human beings will scent a fox, as their odor sticks to surrounding objects, such as bushes and hedges.

Elephants have a wonderful sense of smell, either from breath or body, but the keenest-scented animal is undoubtedly the rhinoceros. One big game hunter has stated that in favorable conditions this animal can "wind" a man for two miles. This may be considered a tall order, but in Africa the atmosphere is wonderfully clear.

What is the explanation of dogs and cats finding their way back to their original homes after being taken many miles away? The explanation is believed to be "ether." Scent is conveyed to animals "on the wind" by this means.—Exchange.

### When Forks Were New

The present-day fork, with its four prongs, was not developed until after 1725, and as late as the period of George III the wife of a gentleman in waiting to the king, about 1788, wrote that silver forks were used only by the nobility and foreign ambassadors, and that, since they had but three prongs, the knives were made broad-ended, so that one might use them to eat peas and catch fruit juices. It seems that the use of the dessert spoon was unknown at that time.

### GOOD COMPANY

If you have a little fairy in your home, or a big one for that matter, that's just the place a subscription to the Youth's Companion will fit in. When the young folks bring new acquaintances to the house you are mighty careful to find out about them; before admitting them to intimacy in the same way you should make sure that the mental friends they make through reading are the kind to inspire them or to destroy all the ideals you have been at so much pains to implant. Try the Youth's Companion for a year. See how quickly it becomes an indispensable member of the household, one of un-fading charm and constant inspiration.

The 52 issues of 1925 are crowded with serial stories, editorials, poetry, facts and fun. Subscribe now and receive:

1. The Youth's Companion—52 issues in 1925.
2. All the remaining issues of 1924.
3. The Companion Home Calendar for 1925. (Sent on request, all for \$2.50.)
4. Or include McCall's Magazine, the monthly authority on fashions. Both publications only \$3.00.

The Youth's Companion, Commonwealth Ave. & St. Paul St., Boston, Mass.

Subscriptions received at this office

E. T. Dodd and son and the later's family, arrived here last Saturday from Southland, and are occupying the railroad agent's home. The later is our new depot agent.

Rev. J. P. Watson, pastor of the local Methodist church, left Tuesday for Abilene to attend the Northwest Texas annual conference. As to Rev. Watson's year's work here, we refer you to his statement elsewhere in this issue, and is better than any report we would be able to give the readers.

Rev. C. E. Ball, accompanied by W. W. Price and the Brownfield Quartet, were on the program at Scroggins last Sunday morning boosting the 75 Million Dollar final drive.

J. W. May and two sons, H. D. and C. F., also Mr. May's half brother, C. W. Simmons, of Peacock, were here this week prospecting. They will locate here about the first part of 1925 if Mr. May can find a location.

Elder S. F. Vance, whom the paper reported last week as likely to locate here, wrote members of the Church of Christ here last week that he could not accept the call, but would go to Sentinel, Okla., instead.

Mr. Bob Epperson came in from Ryan, Okla., Monday, to visit his sister, Mrs. J. F. Holden, who is visiting here from California, and whom he had not seen in about 20 years. Mr. Epperson was accompanied Mr. W. H. Seale, also a citizen of that town.

# PUBLIC SALE

**Thursday, November 6th**

Beginning promptly at 10:30 O'clock in the morning I will offer for sale at public auction at the M. E. Kinard place five miles N. E. of Brownfield, the following described property to wit:

**--20 HEAD of LIVESTOCK--**

- |   |                            |
|---|----------------------------|
| Milk Cow and Heifer Calf  | One Dort Truck             |
| 7 Head Mules  | Two Oliver Planters        |

J. B. KING, Owner

BROWNFIELD . . . . . TEXAS

### SPANISH LEADS IN THE UNIVERSITY OF TEXAS

Spanish leads all other foreign languages in the University of Texas in the number of students enrolled with more than 2,000 this year. The great size of the department is remarkable in comparison with the enrollment in French, also a popular language, but having a registration of only 900. The enrollment in German is steadily increasing, with more than 300 registered this year, as compared with 150 students of German in 1919-20. Prior to the war, however, there had been an enrollment of 750 students in the German classes.

Chief among the reasons given for the large enrollment in the Spanish classes is the proximity of the University of Texas to Mexico and South America. Many students are interested in the language for commercial reasons, although other embrace the study for its educational value and its importance to the world of literature.

The annual crop of stores about squirrels gathering golf balls is now due.

### EXECUTOR'S ANNUAL REPORT

The State of Texas,  
To the Sheriff or any Constable of Terry County, Greeting:

You are hereby commanded to publish or cause to be published for twenty (20) days, exclusive of the first day of publication, before the return day hereof, in a newspaper of general circulation which is published in Terry County, Texas, copy of the following notice:

"The State of Texas: To all persons interested in the estate of Jno. W. Gordon:

"Joe Boyd, executor of said estate, has filed in the County Court of Terry County, Texas, an annual exhibit or report of said estate, for the year ending October 1, 1924, which will be heard by said County Court on the 4th Monday in November, 1924, at the Court House of said county, in Brownfield, Texas, the same being the 24th day of November, 1924, at which time all persons interested in said estate may appear and contest said exhibit if they should desire to do so."

Herein fail not, but have you before said Court on said first day of the next term thereof this writ with your return thereon showing how you have executed the same.

Witness my hand and seal of said County Court of Terry County, Texas, this 15th day of October, 1924.

(11-7) H. R. Winston,  
County Clerk, Terry County, Texas

### WEST TEXTS WEEKLY INDUSTRIAL REVIEW

Lamesa.—40 room hotel building rapidly nearing completion.

Panhandle.—J. D. Rathor to build a 2,000 barrel oil refinery.

Brownfield.—New water system to be installed at a cost of \$50,000.

Lamesa.—Building construction active.

ALEXANDER DRUG STORE

### HOCKLEY COUNTY MAN TAKES HIS OWN LIFE

W. S. Puryear, janitor in the Levelland public school and resident of the town for two months, ended his own life by sending a bullet from a large calibre revolver crashing thru his brain. The act was done about one o'clock Tuesday night, but death did not come until four o'clock Wednesday morning. The physicians called were unable to be of assistance as the bullet entered near the right ear and came out at the back of the head, tearing away a portion of the brain.

No cause was given for the act other than failing health. Puryear was said to be for a long time a sufferer from lung trouble and is said to have told friends at one time that he'd be better off dead. However, he was reported to have been in a splendid mood just before the shooting. He was forty-five years of age and has one son, W. S. Puryear, who is employed at the Lubbock cotton compress and two daughters, one of them teaching in the Levelland school at which place her father was employed as janitor.

The remains were shipped to Weatherford, Texas.—Lubbock Avalanche.

### HOLDING FOOT AND MOUTH DISEASE IN CHECK

Reports to the United States Department of Agriculture from Dr. Marion Imes, in charge of the State and Federal Forces engaged in eradicating foot-and-mouth diseases from southeastern Texas, show the effectiveness of control measures. Although nearly a month has passed since the announcement of Sept. 27, of the outbreak, the infection has not spread from the area originally mapped out as dangerous territory. The last infected herd was found by veterinary inspectors October 15 and was slaughtered and buried the same day. The toll of the disease thus far has been limited to six herds containing about 2,700 animals, and in addition about 4,600 stray cattle rounded up

**Terry County FARM LABOR UNION**  
T. W. MOSS

While a large number of states have promulgated regulations prohibiting entry of livestock and other specified commodities from Texas, the regulations are more reasonable and more in accordance with carefully drafted Federal restrictions than those promulgated during the California outbreak. Great Britain, which imposed restrictions on importation of livestock and animal products from the United States when the Texas outbreak was reported, has modified her regulations. Those in force now restrict only import shipments originating in the Western and the Southern States.

**COTTON CROP MAY BE  
LARGER THAN IN 1923**

Washington, Oct. 25.—The condition of the cotton crop in the United States on Oct. 18th, indicates a total production this year of 12,675,000 bales of 500 pounds gross, compared with 10,139,671 bales in 1923, the Department of Agriculture announced today.

The condition on October 18 was 54.7 per cent of normal, compared with 53.5 on Oct. 1, 1924; 55.4 on Sep. 16 and 47.8 on October 25, 1923.

At the same time the Census Bureau announced that 7,600,826 running bales (counting round as half bales) were ginned from the crop of 1924, previous to Oct. 18, compared with 6,409,391 for 1923.

The forecast gave Texas a crop of 4,350,000 bales.

**LAMESA MAN STRUCK BY  
CAR AND INSTANTLY KILLED**

"Skeets" Embody, an employe of the Lamesa Motor Co., about 25 years of age, died in a local hospital last night about 10:30 o'clock as a result of injuries received by him a few minutes previously when he was run over on the highway about three miles this side of Roundup, by a car driven by M. T. Lewis, of the Whaley Lumber Co., of this city.

Embody apparently had fallen into sleep by the roadside by his truck while waiting for his motor to cool, and was struck by the passing car. He was picked up unconscious by Mr. Lewis and rushed to the hospital here, where he died a few minutes after arrival, without gaining consciousness.—Lubbock Avalanche.

G. W. Chisholm, local merchant, had business in Lubbock, Tuesday.

**Couldn't Blame Barnum  
for Elephant's Color**

Old circus men are fond of relating how the white elephant of the Barnum & Bailey Greatest was brought into the country. The coming of the same elephant had been heralded for days. Finally the ship was sighted and the press department took a bunch of newspaper writers down the bay to meet the great card of next season's show. P. T. Barnum himself was in the party. All hands were taken aboard and then down into the dim light of the hold to look at the pure white specimen from India. Then a dinner followed at which the grape was a feature. Then another look at the elephant to see if he was still white. While this was going on a doubting newspaper man remarked to Mr. Barnum that he did not think the elephant was so darned white.

"Well," replied the circus man, "I'll tell you. This reminds me of the times up Bridgeport way when I was sparking. I noticed at a surprise party one night a very pretty girl who had remarkable color in her cheeks, and I said to my boy friend: 'I wonder if that peach bloom is real.'

"To my dismay, the girl heard the remark and turning on me she said with a snap, 'Phineas Barnum, God made that color in my cheeks.'

Continuing, Mr. Barnum said: "Boys, God made this white elephant. I assure you had he been made by Mr. Bailey and myself he would be as white as the driven snow."—Wells Hawks in Collier's.

**Famous London Streets**

Fleet street is mainly devoted to the newspaper trade; Paternoster row is the headquarters of the book business; Downing street contains the government offices; Bow street has the celebrated police court; Holborn viaduct and Regent street are lined with fine shops; the Haymarket has many theaters and hotels; Bond street is the center of the jeweler's trade, while Pall Mall is noted for its handsome buildings and club life.

**New Mexico Boasts Four  
Stages of Civilization**

Four stages of civilization have existed in New Mexico. The present or American; back of this the Spanish, which came with the Spaniards in 1540. When they came they found the civilization of the Pueblo Indian, with at least seventy villages, cultivated fields and extensive irrigation. Co-existent with them were a prehistoric race, living in well-built cities, with houses of stone, some of them four stories high, and they were cultivating irrigated fields. Their ditches and irrigated works were as well laid out as if run by modern engineers. They have entirely disappeared and we know only that they were here for an unknown period, beginning at least 1,000 years ago.

All that remains are the mighty ruins, some are in cities down on the plains and others are cliff dwellings, where houses are built on the cliffs, and some were cave dwellings. One building at Pueblo Bonito, which is one of the earliest apartment houses, had four stories and covered a greater area than the capitol at Washington.

Today, remarks Adventure magazine, the traveler can see at one time the nomadic Indian, the pueblo dweller, the Spanish occupation and the present Anglo-American development.

**Desert Showers Count**

The effect of a single shower on the southern margin of the Chilean desert is noted by Charles Darwin: "The farmers, who plant corn near the sea coast, where the atmosphere is more humid, taking advantage of this shower, would break up the ground; after a second they would put the seed in; and if a third shower should fall, they would reap a good harvest in the spring. It was interesting to watch the effect of this trifling amount of moisture. Twelve hours afterward the ground appeared as dry as ever; yet, after an interval of ten days all the hills were faintly tinged with green patches; the grass being sparingly scattered in hairlike fibers a full inch in length. Before this shower every part of the surface was bare as on a high road."—From Desert Trails of Atacama, by Isaiah Bowman.

**Egyptian Water Clocks**

Casts of two ancient Egyptian water clocks have just been presented by the Egyptian government to the Science museum, South Kensington, London, England. One of the clocks comes from Karnak, and dates from the reign of Amenhotep II, 1,400 years before Christ. The other is from Edfu in the Ptolemaic epoch. From an examination of these clocks and the scale of measurements recorded on each, it appears that the "hour" of that remote period was a variable length, being one-twelfth of the length of the day or night of the particular time of the year. A study of these ancient timepieces is regarded as important in the comparison of astronomical observations.

**Our Wills**

Our wills are queer things. They are like plaster of paris; for after they have been melted into liquid form they tend to "set." They do thus preserve the contour of that about which they have been molded. If it is a good cast, well enough; we make a cast for a permanent possession. Here it is—fixed and final. Is the lethargy of a standard pattern, no matter how excellent it may have been at one time, to prevent any future change and growth?—The Living Church.

**ECZEMA!**

THIS isn't one of those fake free treatment offers you have seen so many times. We don't offer to give you something for nothing—but we do guarantee that you can try this wonderful treatment, entirely at our risk, and this guarantee is backed by your local druggist.

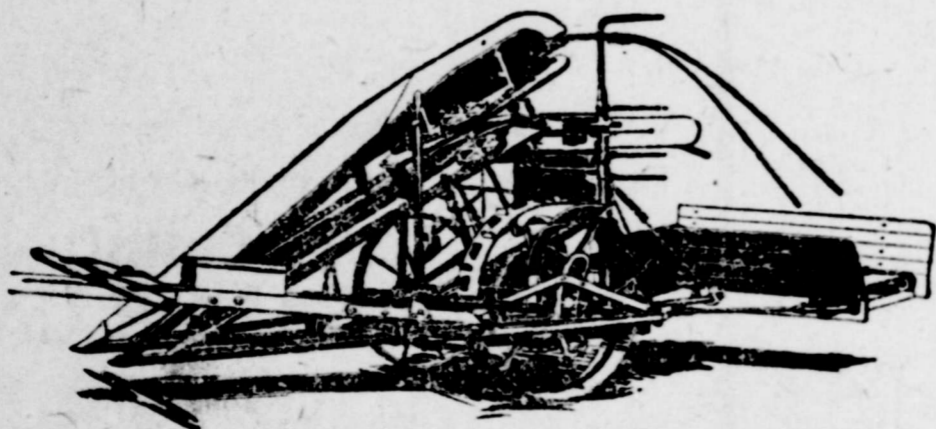

"HUNT'S GUARANTEED SKIN DISEASE REMEDIES" (Hunt's Salve and Soap) has been sold under absolute money back guarantee for more than thirty years. They are especially compounded for the treatment of Eczema, Itch, Ring Worm, Tetter, and other itching skin diseases.

Thousands of letters testify to their curative properties. M. Timberlin, a reputable dry goods dealer in Durant, Oklahoma, says: "I suffered with Eczema for ten years, and spent \$1,000.00 for doctors' treatments, without result. One box of Hunt's Care entirely cured me."

Don't fail to give HUNT'S GUARANTEED SKIN DISEASE REMEDIES (Hunt's Salve and Soap) a trial. All druggists handle.

J. L. RANDAL, Druggist

**ANOTHER WARNING ABOUT  
THE PINK BOLL WORM**

The General offices of the West Texas Chamber of Commerce has had quite an extensive correspondence with R. E. McDonald, Division of Entomology, Department of Agriculture of the State of Texas; W. D. Hunter, Federal Horticultural Board, U. S. Department of Agriculture, of Houston; E. R. Sasser, entomologist and executive officer, Federal Horticultural Board of Washington; K. R. Reppert, entomologist, College Station, Texas, and others in connection with the pink boll worm situation in Texas.

It is a very interesting thing to note that very few people can be made to believe the dangers that are ahead in insect infestation and other ravages of this type. The fact of the matter is that a part of West Texas is infested with the pink boll worm, and to an extent of approximately 100,000 acres in the Laguna districts of Eastern Mexico. The Federal Horticultural Board is taking extraordinary steps, not only to hold the infestation where it is in the Big Bend district of Texas, but also to wipe it out there. To do this it has been necessary to put into effect rigid quarantine regulations. In our judgment, therefore, it will be well worth your while to take this matter up with your cotton buyers and gins and request them to be on guard against importing any cottonseed from the infested district, and if you live in any part of West Texas, from which any appreciable travel from the Big Bend district enters, your people may well afford to co-operate closely in seeing that persons from that region coming into your territory, do not bring any cotton lint or other stuff that might tend to bring the infestation into that territory.

Mrs. Floyd Stark and brother, Travis Bynum, were here Sunday visiting their parents, Mr. and Mrs. A. B. Bynum. Travis is staying with his father and attending school in Sem-

**RECORD DISASTER YEAR KEPT RED CROSS BUSY**

In 1922 Places in United States Its Relief Operations Cost \$737,603.

One hundred and ninety-two disasters resulting in 735 deaths and injury to 1,922 persons, rendering nearly 44,000 homeless and causing property losses estimated at more than \$44,750,000, established a new record in the United States in the year ended last June 30, according to reports of the American Red Cross. In all of these disasters immediately relief activity was applied by the Red Cross, which expended \$737,603.37 through the national organization and the local chapters in assisting stricken communities.

As the nation's chief relief agency whose service covers over 42 years, the Red Cross is expected to be on duty almost as soon as disaster strikes any locality. This trust and confidence is amply justified by the increasing equipment of the Red Cross, which recently organized a mobile disaster unit of experienced workers ready in all parts of the country to respond on the instant to a call for active duty. This unit is capable of operating in several disaster areas under one general direction, and recently was at work in seven communities in five states at the same time.

Ability, alertness and increasing skill of volunteer workers in more than 1,500 chapters are reasons for the preparedness of Red Cross for disaster operations, be the call for a disturbance in a restricted local area or for millions in relief funds for a staggering catastrophe such as the earthquake in Japan.

The Red Cross, however, is far from being self-satisfied, for the organization is giving the most serious consideration to measures for preventing disasters. Its relief administration and rehabilitation policies have won for it nation-wide regard. That this important work can always measure up to every demand needs the continued support of the American people through Red Cross membership. The annual enrollment will begin Armistice Day, November 11, and every American is urged to join or renew membership in the Red Cross.

Help yourself by helping others with your dollar Red Cross membership. The dividend in good works is guaranteed.

TELEPHONE, DAY 25, NIGHT 148

**JUNIOR AMERICAN RED CROSS ARMY 5,596,663**

Children of 29,942 Schools Now Enrolled in Movement of Service to Humanity.

The American Junior Red Cross, which was organized as a children's auxiliary during war-times especially to help the young refugees in Europe, and to exemplify in peace-time the Red Cross ideal of service, has now a membership of 5,596,663 in the schools of the United States and the insular possessions.

This Junior movement gives opportunity for the children to share in Red Cross effort parallel to that of the parent organization. Juniors are therefore identified in varying degree with the health services, disaster relief work, salvage and other suitable activities of value to the operations of the Red Cross.

It is a valiant host marching on under its "I Serve" banner in the cause of happier childhood everywhere and particularly wherever the American flag flies. The enrollment embraces 29,942 schools and 147,456 school rooms, a gain over 1922 of 5,653 schools and 22,414 school rooms. The year's gain in membership was 769,402 children, or nearly 50,000 for each month of the school year.

The educational and social values of the Junior Red Cross movement is thus evidencing the firm and cordial endorsement of school authorities. The government has added the weight of recognition by extending the Junior Red Cross in the schools for American Indian children. The American Red Cross is also planning to develop the Junior program in 600 rural schools in isolated sections.

There is no abatement of the exchange of correspondence between schools in the United States and schools in the insular possessions and foreign lands. During the year the Junior Red Cross in part supported operations in twelve European countries. It is a potent influence for the cultivation of international goodwill and its example has been the means of stimulating the formation of Junior Red Cross societies in more than thirty countries.

**Told in an Epitaph**

There had been a motor car accident resulting in injury to the driver and two passengers. The magistrate conducting an investigation of the matter summoned several witnesses, among them a farmer living near the scene of the accident. There was a great deal of testimony offered regarding the high speed at which the car had traveled. Witnesses, moreover, said that the road was in bad repair. The magistrate finally reached the farmer, who lived near the scene.

"What would you say about this accident, Mr. Gately?" he asked.

"Well, if I was writin' the driver's epitaph," drawled the witness, "I'd say he died tryin' to get 60 miles out of a 10-mile road."

### HARRIS HAPPENINGS

By Sand Bgr.

Several from this community attended the Singing Convention at the Johnson school house, Sunday. The singing was the best we have heard in a long time. Johnson furnished the dinner which was very good and there was plenty of it for the large crowd which attended the convention.

W. H. Harris and son, Glenn and family, from Brownfield, attended the musicale given by Mr. and Mrs. S. T. Murphy last Friday night.

Mrs. W. H. Harris from Brownfield, visited her daughter, Mrs. M. E. Ellington and family, last week.

S. T. Murphy's cotton picking force is hard to beat. They picked a bale a day this week, keeping Sam on the road to the gin most of the time, especially as the gin hasn't learned to quit breaking down.

### FRIDAY FORTY-TWO CLUB

October 24 found Mrs. H. R. Winston hostess for the Friday Forty-two Club. The club members with a few invited guests met at the appointed hour and began their favorite pastime, and enjoyed some lively games. We were then stopped and the most delicious and artistic luncheon was placed before us with beautiful little baskets of candy as plate favors.

Those present were Mesdames, McBurnett, Bragg, Dallas, R. Brownfield, E. Jones, Stricklin, Lewis, Holgate, Tiernan, Harris, Graham, Kendrick, Collier, Ditto, and Misses Faye Brown, Irene Ditto.

The president called the house to order and a little business was mentioned, and the club adjourned until Nov. 7th, when it will meet with Mrs. Collier.—Reporter.

### ABOUT WOMEN

Mrs. Augusta Evans Ing of Corinth, Miss, poet laureate of the Sons of Confederate Veterans, recently wrote a beautiful "Ode to Stone Mountain" at the age of 91.

Mrs. Mary Langley, an English woman, by heroic efforts supported a heavy beam for half an hour until help came, thus preventing her two children from being crushed when their home collapsed.

Mrs. Henry M. Pendell has succeeded her late husband as president of the Peoria Daily Journal Company.

Mrs. Grace Porterfield Polk has organized the grandmothers of Miami, Florida, into a club which now has 25 members. To be eligible one must be a grandmother and at least 70 years old.

Miss Maud Lindsey, nationally known kindergartner and writer of children's stories, was elected president of the Alabama Writers Conclave at its recent meeting in Florence.

Miss Helen Schultz, aged 23, of Mason City, Ia., has built up a motor bus business representing an investment of \$150,000 for vehicles, starting with one bus which she drove herself two years ago.

Mrs. Frank Scott, of Jewell, Iowa, is the mother of 19 children, there being five sets of triplets and two pairs of twins, according to a recent press dispatch.

J. L. Lyon, one of our hustling young farmers was in one day recently to renew his own subscription and also that of two relatives in the state of Oklahoma.

### NOTICE OF ELECTION

State of Texas, County of Terry:

Whereas on the 13th day of October, 1924, a petition was presented to me for an election in Common School District No. 15, of this county on the question of issuing bonds to provide funds to be expended in payment of accounts legally contracted for the purpose of constructing permanent repairs and an addition to the existing school house, and equipping the same, in said district and to determine whether the Commissioners Court of said County shall be authorized to levy, assess and collect annually while said bonds or any of them are outstanding, a tax upon all taxable property within said district, sufficient to pay the current interest and provide a sinking fund sufficient to pay the principal at maturity, and

It appearing that said petition bears the requisite number of signatures of qualified property taxing voters of said district and is in every respect in conformity with law; and

It further appearing that Terry county contains a population of 229, according to the last United States Census; and

It further appearing that the said Common School District Number 15 has been heretofore on the 24th day of April 1920 properly established in accordance with Article 2817 Revised Statutes of Texas, 1911, as amended by Chapter 36 Regular Session of the 34th Legislature, 1915; and it further appearing that said district as so established contains an area of 25 square miles and that no other district has been reduced in area below 9 square miles by reason of the creation of this district, and (b) It further

er appearing that this district does not embrace any territory that was taken from any other school district (either common or independent) that had an outstanding issue of bonds at the date of such inclusion in this district.

Now, therefore, I, D. J. Broughton in my capacity as County Judge of Terry County, Texas, do hereby order that an election be held on the 15th day of November, 1924, at the school house in said Common School District Number 15 of this county as established by order of the county school trustees of date the 24th day of April, 1920, which is recorded in Book 1, Page 6 of the record of the school districts of said county, to determine whether a majority of the legally qualified property taxing voters of said common school district wish to issue bonds in the sum of \$2,500.00, the bonds to be of the denomination of \$500.00 each, numbered consecutively from one to five, both inclusive, payable, number one, five years from date; number 2, ten years after date; number 3, fifteen years after date; and numbers 4 and 5 twenty years after date, and bearing interest at the rate of six percent per annum, payable annually on April 10th of each year, to provide funds to be expended in payment of accounts legally contracted for the purpose of constructing permanent repairs and an addition to the existing school house and equipping same in said district, and to determine whether the Commissioners Court of said county shall be authorized to levy, assess and collect annually while said bonds or any of them are outstanding, a tax upon all taxable property within said district, sufficient to pay the current interest on said bonds and provide a sinking fund sufficient to pay the principal at maturity.

Irvin Oliver is hereby appointed presiding officer for said election and he shall select two judges and two clerks to assist him in holding the same and he shall within five days after the said election has been held, make due returns thereof to the Commissioners' Court of this county as required by law for holding a general election.

All persons who are legally qualified voters of this state and of this county, and who are resident property taxpayers in said district, shall be entitled to vote at said election and all voters desiring to support the proposition to issue bonds, shall have written or printed on their ballots the words: "For the Bonds;" and those who are opposed shall have written or printed on their ballots the words: "Against the Bonds."

The Sheriff of this county shall give notice of said election by posting three notices in three public places in said district for three weeks before the election and it is further directed that he have said notices of election published for three weeks prior to said election in some newspaper of general circulation, that has been continuously and regularly published for more than one year previous to the date of this order in Terry County, Texas, the date of the first publication being not less than 20 full days prior to the date of the election.

Dated, this 15th day of October, 1924.

D. J. Broughton  
County Judge Terry County, Texas

### CITATION BY PUBLICATION

The State of Texas.—  
To the Sheriff or any Constable of Yoakum county—Greeting:

You are hereby commanded to summon L. M. Brown, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some paper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 22nd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said Judicial District, so appear at the next regular term of the District Court of Yoakum county, to be holden at the Court House thereof, in Plains, on the 3rd Monday in November A.D. 1924, the same being the 17th day of November, A.D. 1924, then and there to answer a petition filed in said Court on the 27th day of August, A. D. 1924, in a suit numbered on the docket of said Court No. 182, wherein D. C. Aylesworth is Plaintiff, and L. M. Brown is Defendant, and said petition alleging (Copy of Petition):  
State of Texas,  
County of Yoakum:—In the District Court, Yoakum County, Texas, November Term, 1924.  
To the Honorable District Court of said County:

Now comes D. C. Aylesworth, a resident of Hale county, Texas, hereinafter called Plaintiff, complaining of L. M. Brown, whose residence is unknown to the plaintiff, but here styled defendant, for cause of action, plaintiff represents to the Court that on or about the 1st day of August, A.

D. 1924, he was lawfully seized and possessed of the following described land and premises, situated in Yoakum county, Texas, holding and claiming the same in fee simple, said property described as follows:

Being the northeast one fourth of section No. 154, Block D, John H. Gibson original grantee, Certificate No. 242.

On the day and year aforesaid, defendant unlawfully entered upon said premises and ejected plaintiff therefrom, and now unlawfully withholds from him his possession thereof to his damage in the sum of \$1500.00.

The reasonable annual rental of said land and premises is \$150.00.

Therefore the plaintiff prays judgment of the said Court that the defendant be cited to appear and answer this petition; that such citation be given as is required by law; and on final hearing of this case plaintiff have judgement for title and possession of said above described land and premises, and that the writ of execution issue, and judgment for his repairs, damages and costs of suit; for equity and general relief.

D. C. Aylesworth, Plaintiff  
By M. J. Baird.

The State of Texas,  
County of Yoakum:—I, W. H. Hagne, Clerk of the District Court within and for the State and County aforesaid, hereby certify that the foregoing is a true and correct copy of the Plaintiff's original petition, in Cause No. 182 on the docket of said Court, wherein D. C. Aylesworth is Plaintiff and L. M. Brown is defendant, as said Original Petition now appears on file in my office.

To certify which, witness my hand and the seal of said Court, at office in Plains, this 25th day of September, 1924.

10-31 W. H. Hagne, Clerk  
District Court, Yoakum Co., Texas.

### NOTICE:

To the Stockholders of the South Plains and Santa Fe Railway Company.

You are hereby notified that the Board of Directors have called a meeting of the stockholders to be held in the City of Lubbock, County of Lubbock, State of Texas, at the principal office of the Company or the 18th day of November, 1924, between the hours of 10 o'clock A.M. and 4 o'clock P.M., to consider and act upon a proposition to authorize the execution by the Company of a mortgage or deed of trust to be called "first mortgage" or by such other name as may be determined, on all its railroad properties now owned or hereafter acquired, to secure bonds to be hereafter issued in series, so much of such bonds as may be necessary to be used from time to time in paying or exchange for the indebtedness of the Company, other bonds to be issued to be used for the acquisition, construction or extension of railroads, additions and betterments to such railroads and properties now or hereafter owned, and for other lawful corporate purposes, each series of bonds to be issued to mature at such time and provide for the payment of such lawful rate of interest, to be tax free or not tax free, to be convertible or not convertible into shares of capital stock as may be determined by the Board of Directors, and to contain such other terms and conditions as may be determined or prescribed by said Board, and such mortgage to contain such terms and conditions as may be prescribed or authorized by the stockholder at said meeting.

W. S. POSEY,
