BROWNFIELD, TERRY COUNTY, TEXAS, JUNE 18, 1926

NUMBER 43

Chamber of Commerce CURRENTS By the Secretary

Several years ago it became evident that we were very much in need of a good hotel, and efforts were made to organize a stock company for the purpose of erecting and equipping a modern structure, but we always fell short on subscriptions, and the whole matter usually ended in talk. But about two years ago one of our good citizens decided that we had waited long enough, so he proceeded to meet the demand by erecting a neat structure which was sufficient for the needs of which we were very proud. Finally a stranger within our gates decided that an additional hotel would be a paying investment, so he purchased property and proceeded with the erection of a hotel building that when occupied will exceed in size any thing of its class in a town the size of Brownfield to be found in West Texas, and our Mr. Wines, who erected the first building is planning an addition to it that will make it equal in size and attractiveness to the new hotel now almost completed.

Neither of the above structures has cost the town a dime, which is most unusual, as they are almost always promoted by stock subscriptions.

The fact that we were fortunate in procuring adequate hotel facilities does not mean everything needed for the good of the town will be handed to us without a cent of outlay or subscription, and we are now up against a proposition which is going to cost some money either in stock subscriptions or donations, and talk is not going to put it over, because it will not be erected unless those able to do so can see their way clear to assist in financing the project, which all will agree is much needed.

The proposition referred to and which has been put up to us for some definite action, is a sanitarium, and it would seem that Brownfield has reached a point where it should not be necessary for our physicians to be compelled to transport serious surgical cases to Lubbock or other nearby cities for attention when they could and should be handled in our own town and our citizens would not be under the necessity of undergoing the tortures which they have to endure in being transported by automobile over rough roads a distance of more than forty miles, and any surgeon will testify that successful operations and the saving of lives are made possible by immediate attention, and we ourselves know that we have dear ones resting on the hillside west of town who would today be walking our streets if immediate attention could have been given them. Even our own county Judge came near indulging in his last drive to Lubbock, and a minor accident to the car in which he was being transported would have spelled his finish, as an immediate operation was necessary upon his arrival in that city.

The board of directors of the C. of C. has not yet taken any official action toward the procurement of this much needed institution, but it is likely that they will do so at the next regular meeting. But in the meantime, the secretary would be very glad to have any person indicate to him or any physician, the amount of stock they would be willing to subscribe, or if not subscribing that they voice their attitude toward the proposition. Let's put it over. We can't afford to pass it up.

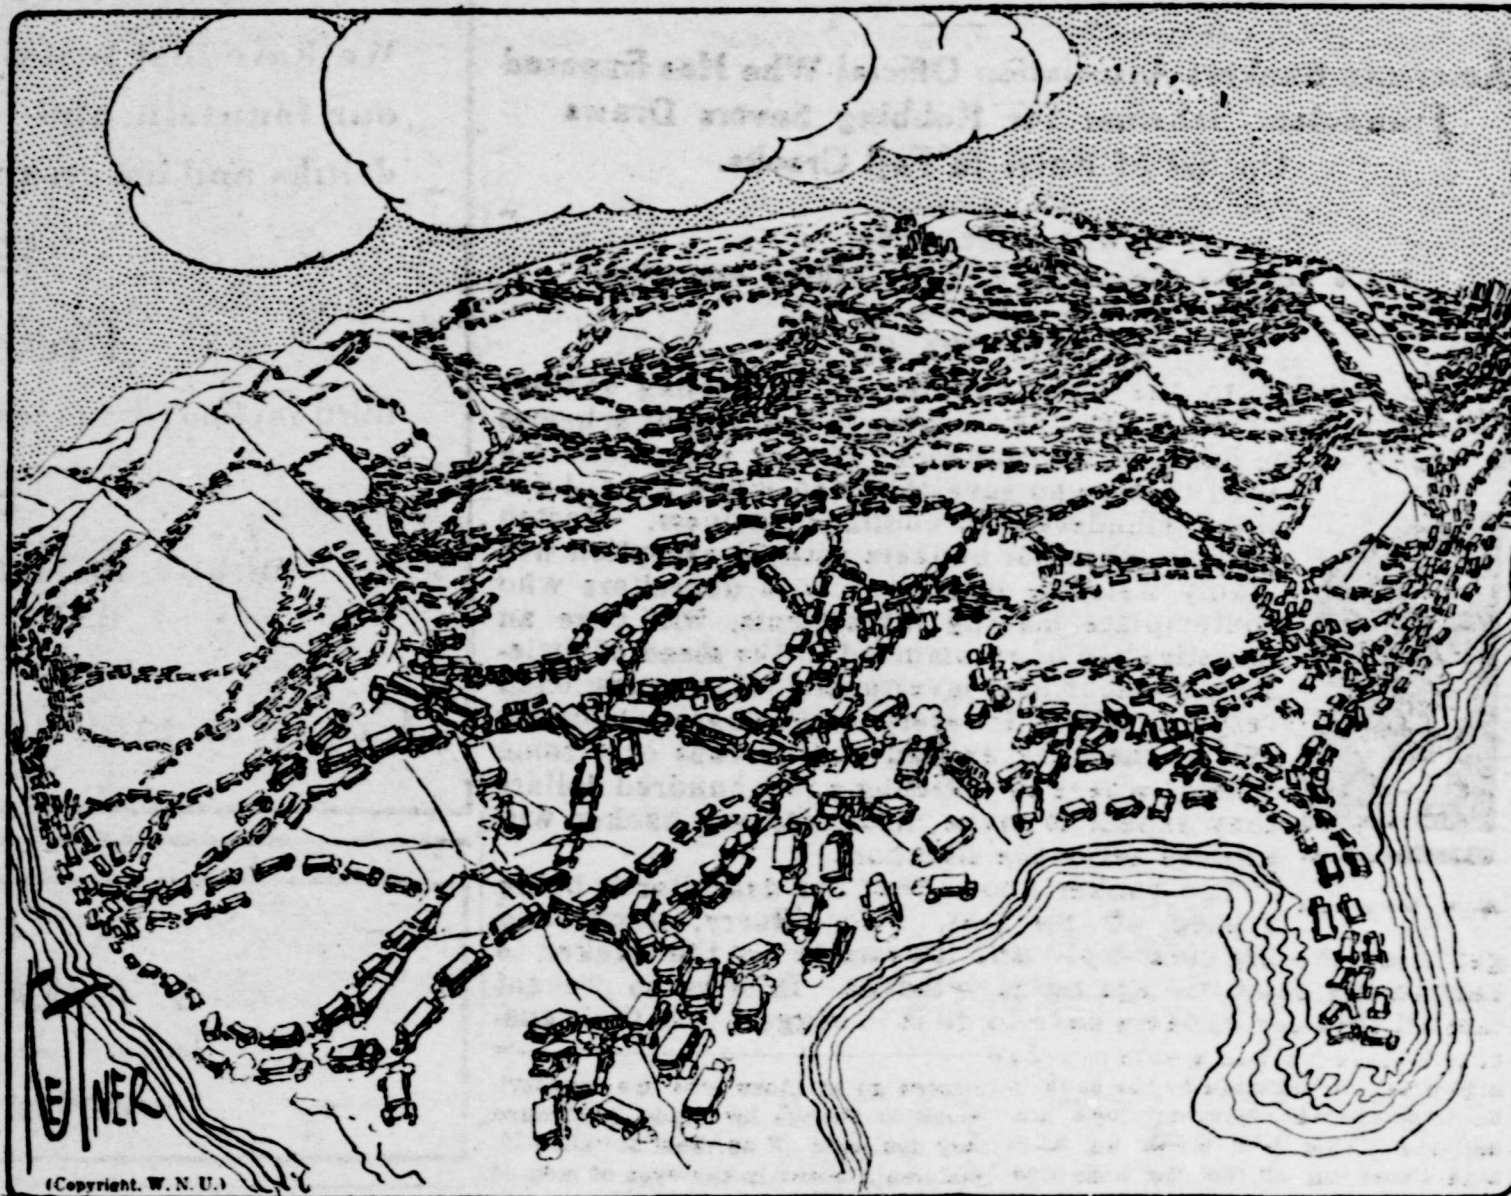

The weekly community trip will be made to Johnson on June 24; Meadow July 1st. Pleasant Valley July 8th. Other announcements made later.

We had a dandy crowd and a good time at Wellman, and believe we will have as good one at Union this week. But more of our merchants should arrange to make these trips, but the secretary cannot see all of you, but just consider that every citizen of the town is cordially invited to go with us. Don't forget the next monthly luncheon will be staged at the Baptist church on Monday night, June 28 at 8 o'clock.

All citizens, whether members of the Chamber of Commerce or not should attend these luncheons. You will then become acquainted with what is being attempted for the good of our town and will hear suggestions as to other activities that are contemplated.

Mrs. Forest McCracken is here from Pampa, visiting her parents, Dr. and Mrs. Treadaway for a few weeks.

June Bugs

EDITOR SEES SOME GOOD CROPS SUNDAY AFTERNOON

Our town folks have been blowing and painting and heaving for the past week or ten days, and each of us has a lot to say, generally very uncomplimentary concerning the hot weather, but it sure has put the pep in the growing crops, and we should keep our gills closed and roost near an electric fan if we want to.

We drove out the Tahoka road on Sunday afternoon and found that the crops, cotton, corn and feed were simply humming themselves, and now give promise of a bumper yield.

Right here, we guess is a good time to tell one on oneself. Out about two or three miles we discovered a large field, some 250 acres in cotton that was large enough to green the landscape, and appeared to be old enough to have squares. Well, K. W. Howell usually has about the best cotton in that section, but we thought he lived at the home place. So we saw that bird in town Monday morning and felt like we wanted to say something mean to him and guy him about his crop this year, when low and behold a little questioning revealed the fact that the fine cotton patch belonged to him. We could only ooze a small silly grin when he lamed us in the back and said that was his crop.

STATE HOME DEMONSTRATION AGENT COMING

Mrs. J. L. Randal, President of the County Federation, informed us this week that Mrs. Dora Russell Barnes, State Home Demonstrator, of Houston, will be here next Tuesday, and every lady in the county who is interested in any kind of club work is especially invited to be here. Mrs. Barnes, it will be remembered, was here a few years ago.

The meeting will be held at the First Baptist church, as there is a cook stove there, and lessons in cooking, canning and preserving will be given, as well as sewing.

Each lady is supposed to bring their lunch, and all will spread together at the noon hour.

The County Commissioners are especially invited and urged to attend the afternoon sessions.

MEMORIAL SERVICE SUNDAY

In memory of the life of Jessie Woodriddle, who was drowned a few days ago, there will be held a memorial service at the Methodist church, Sunday at the eleven o'clock hour.

The church will be beautifully decorated and special music will be rendered. The sermon will be preached by the pastor.

Places will be reserved for members of the family, members of Jessie's Sunday School class, and the Brownfield Boy Scouts.

Everybody is invited.

—J. G. Thomas, Pastor

EDITOR'S HAND CALLED ON IRISH POTATO PROPOSITION

The editor made a statement some few issues back that Irish potatoes would not grow here, and has had his hand called at least three times this week on the proposition. First, Felix Proctor, who is one of the carpenters engaged on the court house asked us who told us that people could not raise Irish potatoes here? Our answer was that we tried them ourself the first few years of our married life without success, and had seen others fail on them. He said his folks raised good ones.

Then Mrs. Jack Bryan was in from the ranch recently and informed the wife that they had been eating fresh potatoes, for some time, and had lots of them.

Then as if to cinch the whole business, F. M. Smith, of Gomez brought in a "bucket" this week with as nice spuds as one would want, and said he only had six rows some 60 feet long, but would make 200 pounds. He said he fertilized the ground with old cotton bollie hulls picked up around the gins here, which he would haul home when he came to town. He had also irrigated some.

Well, we wish we had said more to take back. Indeed, we are glad we made this mistake, for potatoes are good eatin'. But we note that they are mostly the white varieties, and we always tried the triumphs.

STANDARD OIL RIG BEING UNLOADED HER THIS WEEK

A representative of the Kueckendoll Trucking Co., of Wichita Falls, was in the Herald office Tuesday afternoon to order some printing done and informed a representative of the Herald that they were bringing via six large trucks a standard oil drilling rig from that city, which will be located in the Loop community about 20 miles miles south of Brownfield, where a test well will be put down. The rig, we understand, belongs jointly to C. P. Moran and Brown & Lucas, of Wichita Falls. We did not learn just how much acreage they have around Loop, or how deep the test is to be.

PALACE DRUG STORE TO OCCUPY ALL OF BUILDING

As soon as the Sanitary Barber Shop moves to their new location in the Hotel Brownfield building, the petition wall separating their present location in the State Bank building, and the Palace Drug Store will be removed, giving the Palace Drug some 1000 feet more of floor space.

Mr. J. C. Bond, one of the proprietors of the Palace Drug informed us that it give them sufficient space to better display their stock and take care of their increasing business. Both entrances will be used, and new fixtures secured to fit the rear of the building, or the part now used by the barber shop.

"DON Q." FAIRBANKS' GREATEST STUNT FILM

Douglas Fairbanks has never before produced a picture which offered him the latitude and scope of expression that is given in his new United Artists Corporation vehicle, "Don Q. Son of Zorro," scheduled for its initial showing in Brownfield at the Rialto Theatre.

To begin with this feature is replete with all the romantic dash and go of earlier productions, coupled with an unusual opportunity for histrionic work, due not only to the highly melodramatic nature of the story, but also to the fact that the star is called upon to carry a difficult dual role—difficult because he depicts youth as well as age. He will be seen as Zorro, a sedate Zorro, mellow and philosophical with the passing of years but a fighter for all that, his grim determination spelling indomitable courage. As the son, Don Q, he will reflect the dashing, devil-may-care spirit which made his Zorro interpretation famous.

Added to the opportunities for excellent acting are the hair-raising stunts which have always kept Fairbanks fans in a flutter between their seats and the ceiling, theoretically speaking. Doug performs feats in this picture that will seem incredible.

Besides the astounding he performs with a blacksnake whip which serves as his chief weapon, he accomplishes feats of swordsmanship that are remarkable. The ingenuity with which he escapes from his enemies will provoke both mirth and admiration. One scene shows him in a fifty-foot slide as he vaults from a window which is cornered by great odds in a sword fight. For the delectation of his audience he has dramatized the incident of "the bull in the china shop," only he captures the bull, all with a whip and a cape.

Add to this the master craftsmanship of perfect sets, superb direction and marvelous photography, and you have all the reasons why "Don Q. Son of Zorro" is Douglas Fairbanks' greatest photoplay.

COM. TOM MAY DOING SOME GOOD STREET WORK

The streets of Brownfield are new in shape to where our speeders can get as much out of their lizzies, as they can on the country roads, thanks to Com. Tom May and his grading and dragging crew that are almost constantly busy on some of our streets.

As all the streets have been pretty well graded now, as soon as a shower of rain comes, the crew is put on them with a drag, which keeps them in fur shape and free from chug holes. Mr. May has the thanks of our citizens in keeping the streets of the town in such excellent shape.

J. C. Bond will leave this week for Fort Worth and Dallas to purchase furniture for the Hotel Brownfield.

POTASH PROPOSITION HERE IS LOOKING ROSY

Mention was made in these columns some time past about a gentleman being here examining our potash possibilities. He hired a local well man to do some drilling near the big lake in the east Brownfield ranch, and the samples sent off for analysis. We understand the tests showed a percentage much higher than the mines now worked in Germany.

The gentleman, whose name we withhold for various reasons was asked if the percentage was high sufficient to be workable, and he informed them that it certainly was.

Reliable parties inform us that he said a two million dollar factory would be required to handle the business properly, and he informed them that his company had the money to build it with now.

For the benefit of our readers the Herald will state that while it got this information from reliable parties, it does not vouch for it, and there may be nothing to the man. On the other hand, we should not be surprised to see a great potash factory here or hereabouts in the next year or so.

GETTING POST ENCAMPMENT READY FOR BAPTISTS IN JULY

Rev. C. E. Ball, one of the directors of the Post Baptist Encampment, left Monday for Post city to help superintend the construction of some booths for the BYPU and Sunday school work, to be ready for the encampment in July.

Rev. Ball informed us that the encampment would be held from July 5 to 11th, inclusive, and that they were expecting a record crowd. This is the 2nd annual encampment, and the lake and ground belong to several of the south plains associations, as well as a number of associations just under the caprock. The grounds will be improved and beautified from time to time until they are the equal of any in the state.

MALJAMAR GOOD WELL WITHOUT DOSE OF NITRO

Artesia, N. M., June 12.—Spraying a steady stream of oil from a depth of 4012 feet, the Maljamar Oil and Gas Corporation No. 1, wildcat well, in Lea county, gives indication of making a good producer, regardless of a shot. Early Sunday, after the bit passed through a green shale at 3998 feet, the well started to spray, blowing a mist of oil over the sands surrounding the rig, for a quarter of a mile. At present there are 900 feet of oil in the hole, it being unable to raise above the gas, which continues to make about five million feet from the red sand at 3115 feet.

A change in the direction of the wind Tuesday afternoon during an electrical storm and cloudburst, is at that saved the rig from being destroyed as lightning struck the bleeder pipe, igniting the gas and slush pit, in which was about 25 barrels of oil. Quick action on the part of the crew brought the flames under control before great damage was done. Had the lightning struck 30 minutes sooner, there would have been a number of casualties, for in addition to the crew and production men of the Maljamar, representatives of the Continental, Humble, Teass, Mid-West Standard of California and Pure, Empire, Sun, Dancigas, Ohio, were grouped around the flow line and on the derrick floor.

Drilling will continue another 10 feet, when the various pays encountered from the 3600 to the present depth will be shot with 800 quarts of gelatin.

HIGHTOWER & WILLIAMS SELL 2150 HEAD OF STEERS

A \$100,000.00 steer deal was consummated here the past week when Messrs. Walter Hightower and Andy Williams, of Seagraves, sold to Frank Corn, of Crosbyton, 2150 head of 2 and 3 year old steers. They also subleased to Mr. Corn their pasture in Bailey county, consisting of 21,000 acres for a period of one year.

The steers were loaded from the Seagraves stock pens Sunday and shipped over the Santa Fe to Muleshoe and Crosbyton, where they will be delivered to the new owners.

The deal was made through Fred Snyder and Albert Taylor of Lubbock. —Seagraves Signal.

Editor Greer of the Meadow Review was in town Tuesday.

BOOSTERS HAVE GREAT TIME AT WELLMAN

The Brownfield Boosters and their splendid band certainly did receive a royal welcome at Wellman last Thursday night from a large crowd from the town of Wellman and the surrounding community, all of which the Boosters appreciated just as much or more than the people of Wellman.

A sizable crowd was on hand when the Brownfield bunch arrived, and kept coming until two school rooms were thrown together in order to accommodate the crowd with seats. And right here we might as well tell the public that Wellman has a splendid brick school building, but like the rest of us, are going to have to build more and that in the not great distant future, for the settlers are not going to stay away from that splendid country and they may depend on that.

After getting the stage well lighted, Pappy John got his band assembled and gave the audience a few selections, Secretary Shelton said a few words about the object of our visit, and then introduced Morgan Copeland who delivered the principal address of the evening, which was well punctuated with his usual words of encouragement and brim full and running over with an optimistic outlook.

The Moonlight Quartette was then called for, but Judge Price found that only two of their members were on hand, and he borrowed a member of the band, Jim Youree, and one of the Wellman boys to help him and Mr. Davis, our local laundryman. They then gave a typical negro camp meeting song, and the crowd was so well pleased that they were enored for another selection, which was equally as fine. We hope they will all be together on our next jaunt.

Mr. O. P. Smith of Wellman then delivered a short address of welcome and invited us back in the near future and ended by informing us that there was some eats in the room across the hall that we could consume as we left, all of which was received by loud acclaim by our crowd. Pappy John then gave another short concert, ending with the "Old Grey Mare" and the crowd almost lifted the rafters at its conclusion. Well, we certainly did find the refreshments, alright, sandwiches of various kinds, and takes and pies of all kinds, and many were heard to compliment the good cooks of the Wellman community.

The public road is graded up to within about three miles of Wellman, and from there on it is nothing more than a depression in the prairie. A concerted action should be made to see that Wellman gets a graded road this year some time during the summer whether the highway department takes it over or not.

TO PUT DOWN TEST WELL IN COCHRAN COUNTY

Lubbock, June 14.—Senator W. H. Bledsoe, of Lubbock, legal representative of the Wicker Land Company, of which H. W. Wicker, of Littlefield, is the owner, announced yesterday that a drilling contract for a test well for oil or gas to be sunk at a point three and a half miles south and east of Bledsoe in Cochran county, was let yesterday morning to Cornelius Bros. & Paggard, of Eastland.

The well will be drilled to a depth of 3,500 feet unless oil or gas in paying quantities has been found at a lesser depth, and rig equipment is already being hauled to the location, where actual drilling operations are to be started within 3 days, Mr. Bledsoe said.

A new standard rig will be used. The Wicker Land Company owns eight thousand acres of land surrounding the location and has taken lease on large holdings in that vicinity.

The well will be drilled at a cost of approximately \$50,000.

NAZARENE REVIVAL UNDER WAY AT TABERNACLE

Rev. James Atkinson and wife and Rev. and Mrs. G. S. Rodgers began a Revival at the City Tabernacle last Sunday to run until further notice.

The general public is cordially invited to attend by these people, and are promised gospel preaching and good singing.

Services begin each evening at 8:30 o'clock.

Dr. and Mrs. G. S. Webber returned this week from South Texas, where they have been visiting relatives.

FAMOUS LOBO THAT KILLED MUCH STOCK ON EXHIBIT

Breckenridge, June 12.—The black lobo of Brewster county famed as a destroyer and killer, is now on exhibition here. It is estimated that the animal killed \$40,000 worth of livestock. Two Mexicans were also included in its list of victims.

After having defied capture for years in its bloody career, it was finally brought to a stop by W. I. Evans, a Government trapper, after having lost its mate more than a year ago in a battle with cattlemen. Two Mexicans next inflicted many wounds on it when they raided its den with the object of capturing its pups, but it killed the Mexicans. Her mate weighed 142 pounds when captured. The female wolf knows as the Terror of Brewster county, weighed 92 lbs., and its pup captured at the same time weighed 87 pounds. It is almost coal

black with ferocious, pale green eyes. Evans won a prize for capturing the wolf of \$500 and has been offered \$1000 for the lobo by the Lincoln park zoo at Chicago, he said.

SPEED COP

It was an enraged traffic cop who addressed himself to a certain fellow who had held up a string of autos several blocks in length.

"Can't yer go any faster?" he roared.

"Yes," was the calm response of the driver of the antiquated flivver, "I can but I don't want to leave the car."

Misses Marie and Luellen Brown, of this city, and Miss Lois Daniels of Seminole, who has been visiting in the Brown home here for a fortnight, are visiting friends and relatives in Ballinger.

HIGGINBOTHAM--BARTLETT COMPANY

ARTICLE NO. IV GIVES PLAN TO PROTECT PEOPLE FROM WILD-CAT PROMOTERS

American Bankers Association Official Who Has Exposed Fraudulent Schemes for Robbing Savers Draws Up Set of Rules to Foil Crooks.

By W. R. MOREHOUSE,
Public Relations Commission, American Bankers Association.

ARTICLE NO. IV

THE solution to the great problem of protecting savings depositors from losing their money in fraudulent schemes is largely in the hands of our bankers. If they will co-operate with those who save they can make it hard for these plunderers to continue business. Hasten the day when our bankers without exception will gladly welcome interviews with depositors who contemplate making investments, will urge an investigation or recommend in the stead of little-known securities investments of unquestioned responsibility. In every case where customers call at the bank excited and nervous over some scheme where by investing a few hundred dollars they expect to make thousands any banker will at once sense the situation.

W. R. Morehouse

The banker knows that the depositor is being rushed off his feet, with "Hurry, hurry and get in on the big clean-up!" and it remains for the banker to caution the depositor against such tactics. In order to prevent this all that our bankers have to do is to suggest that their cus-

tomers make it a rule always to bring high-pressure salesmen to the bank to be interrogated regarding their promotions. This will break up sales nine times out of ten, for high-pressure salesmen invariably avoid being questioned too closely by bankers who know investments.

Rules to Follow

Our bankers should urge this investment slogan: "Investigate before you invest. Consult your banker first," and so indelibly impress it on the minds of their depositors that they will always be guided by their banker's advice in making investments. Salient points which should be kept before the investing depositor are:

(1) There are three cardinal points to all good investments, namely safety of principal, certainty of income and salability.

(2) Safety of principal is more important than a high yield; the promise of big returns is usually a sign of a risky speculation.

(3) It is like taking a leap in the dark to invest in promotions which are an unknown quantity and for this reason a thorough investigation should always be made.

(4) It is morally wrong, if not criminally so, for any person to invest in any proposition he feels is a skin-game, or which is tainted by trickery or fraud or opens the way for a favored few to "get in on the ground floor," clean up and get out from under before the scheme collapses. Usually the depositor finds he is not in on the ground floor, there is no chance for him to clean up before the scheme collapses and so he loses all that he has invested.

(5) If a promotion is as good as claimed, it would not be necessary for high-pressure salesmen to resort to all sorts of questionable methods, it would not be necessary to rush a victim off his feet and sign him up before he could interview his banker, but he could be given time to consult others before investing.

(6) The only reason high-pressure

pirates go to those who are inexperienced in finance for funds is because they can palm off on them so-called investments which in the eyes of men of experience are valueless.

(7) The glib-talking promoter is not a true friend of the savings depositor but is a wolf in sheep's clothing. He will resort to any kind of trickery to exchange a certificate of stock for the depositor's cash, his glittering promises are fictitious and he is planning how he can entrap his victims and relieve them of their savings and not how he can make good dividends for them.

(8) For every oil well that pays dividends there are many dry holes and abandoned drilling rigs, and for every profitable mine there are many abandoned shafts, and for every successful promotion there are a thousand failures, and because of these facts the savings depositor's chance of winning is too small to justify the great risk involved.

(9) Savers should steer clear of stock, shares or units in world-revolutionizing inventions which are peddled in front of empty stores or sold from house to house or through the mails.

(10) Every novice investor should remember that, as in all lines of business, black sheep have invaded the investment field. They must be shunned, while investment firms and salesmen of responsibility and integrity should be supported.

Let our banks unite in a movement designed to protect the depositor against the schemes of the wild-cat promoter—in a movement that will save our savings depositors from despair and from poverty as a result of having lost all—in a movement that will turn into legitimate investment channels the millions of dollars which are now wasted on fraudulent schemes of one kind or another. The best service a bank can render a novice investor is to keep him from making poor investments by helping him to make good ones.

REPORT OF THE YOAKUM COUNTY GRAND JURY

Plains, Texas, June 12.—To the Hon. Gordon B. McGuire, Judge of the District Court, Yoakum County, Texas.

We your Grand Jury empaneled at the June term of said Court, having completed our labors and having no other duties to perform, beg leave to submit to you the following report:

We have had and examined 45 witnesses and from their testimony and matters resting within our own knowledge, we have found, and caused to be filed in said court, 11 indictments, three of which are for felony and nine for misdemeanor.

It may occur to your Honor that this body has expended too much time and effort in the investigation of misdemeanors, but in this connection we beg to call your Honor's attention to the fact that there is no Justice Court organized in the County, and that this county is without a County Attorney, and that by and through bills of indictment is the only method by which misdemeanors committed in the county may be prosecuted.

We further beg to report that there seems to be a popular demand that the books of the various officers of the county, be audited, and in this connection we wish to say that in response to such demand, the Commis-

Hunter Drug Store

We have just installed frigid air circuit in our fountain and the best of fountain drinks and ice creams will be found here.

draying or transfer.

sioners Court of this county has heretofore passed an order directing such audits be made, and that the auditing of such books is being delayed for the sole and only reason that Yoakum county has no funds at the present time sufficient to pay the expense of such audit.

We wish to tender our sincere thanks to your Honor and to the Sheriff and his deputies, to the bailiffs, and to the District Attorney for the prompt and efficient assistance they have rendered to this body during its present session.

We take this opportunity to say to each and every officer of Yoakum county, to say that we believe it to be their first and paramount duty to fully discharge every duty imposed upon them by law, for detecting crime promptly, punishing the same as the law provides.

Having fully performed all the duties imposed upon us by law, and under your Honor's charge, we herewith respectfully request that we be admitted to adjourn.

F. M. Cox,

Foreman of the Grand Jury.

Mr. and Mrs. J. L. Cruce and son spent the past week end at Clovis, New Mexico.

Mr. and Mrs. Joe J. McGowan has as their guests last week, the former's brother and wife, of Paducah.

R. A. Crews
W. M. Green

The best advertising medium is the one that carries home news about the people you know and love along with the ads. Even though you have to pay for space in it it is better than an ad in a strictly advertising sheet which is free.

Most of the criticisms we have heard about Lynch Davidson is that he is a rich lumberman and is the trust himself. While a big company, there are others in Texas much larger than the Davidson company, some of which have yards in Brownfield. And if you don't think the yards in Brownfield will bid against each other, make up a large material bill and try it.

Of course the State Democratic Executive Committee charmingly resolved and recommended the administration of Ma. Who expected anything else? They would have been ungrateful mugwumps had they taken any other course. Wasn't it a Ferguson controlled State Convention that gave them their offices? Also, there is, we admit, some things to commend even in her administration. There is some good in the worst of us after all.

The politicians at Washington have never been fully able to control elections back in the States, and this is one sure sign that the people still are devoted in a great measure to state rights without any dictation from the national government, especially in their popular election. This was only recently demonstrated in the Republican primary in Iowa, and during the administration of President Wilson, as popular as he was with Texans they failed to follow his lead and recommendations in elections in Texas.

There was a very persistent outside accident insurance peddler in Brownfield a few weeks ago, that was a little harder to get rid of than usual, as he just knew he was going to sell you whether or not. We finally told him that we have several insurance men in Brownfield that were good customers, and we felt that we were due them any business we had. He then wanted to know our advertising rate, which when given him appeared to be satisfactory—but we have not heard from him since.

HER WONDERFUL AIM
A certain old lady always made it her business to visit the poor patients in the hospital.
On one occasion she approached a much bandaged individual, who was sitting up in bed, and after a little preliminary talk she said to him, very sympathetically, "I suppose your wife must miss you a great deal."
"No, mum," came the prompt reply: "She's got a wonderful aim for a woman."—Exchange.
Prosperity is the acid test of our character.

MY CANDIDATE
Here's to the man with the leather lung.
The flailing fists and the swivel tongue;
The guy who can throw the biggest bluff—
Who pulls the honest-to-goodness stuff;
The man with the iron underjaw,
Who speils religion and crops and law;
Who smites his mikes and who rings the bell,
Who pours it on 'em and gives 'em hell.

Here's to the man who hollers laud,
Who makes a monkey of any crowd;
Whose clarion tonsils rend the air,
Who paws the earth and tears his hair;
The baby who knows how to pull the wool—
Who's always ready to throw the ball;
Who cusses 'em in and cusses 'em out,
And always has something to cuss about.

Here's to the man—and I point with pride—
Who peels his opponent's measley hide
In language that sounds like red hot shot,
Who roars the facts—whether true or not;
Yes, here's to the guy who slaps his knees
And rips the lining right out of the breeze;
This kind of an egg may get your goat.
But take it from me he gets my vote!
—N. H. Crowell in Dallas News.

DOES ADVERTISING PAY? ASK THOSE WHO USE IT.
Wrigley uses \$3,500,000 a year to tell the public about chewing gum.
Ford spends \$6,000,000 to sell flivvers.
The electric light and power industry spends more than \$4,000,000 in advertising.
Campbells spend \$1,500,000 advertising soup.
Electric railway company's advertising appropriations total \$2,500,000.
The advertising budget for Colgate is \$1,185,000.
Some \$1,700,000 is spent by Procter & Gamble to sell soap.
Gas companies spent something more than \$2,000,000.
A total of \$1,142,000 is spent on Victor talking machines.
Telephone companies have busy advertising lines with an estimated total of \$1,500,000. Along each line sound the voice with the smile.
Does advertising pay? The answer is to be found in America's business, commercial and industrial trend.

We were sorry to learn that Editor Greer of the Meadow Review had lost his brother, who lived at Rochester, Texas by death.

ABSENT MINDED PROF.
"Where is the car demanded Mrs. Diggs.
Dear me! ejaculated the Professor Diggs. "Did I take the car out?"
"You certainly did. You drove it to town."
"How odd! I remember now that after I got out I turned around to thank the gentleman who gave me the lift and wondered where he had gone."—American Legion Weekly.

NOTICE OF TRUSTEE SALE
Whereas, by deed of trust dated the 1st day of March, A.D. 1921, and recorded in Book 6, pages 118-120 of the Deeds of Trust Records of Terry County, Texas, D. S. Cunningham conveyed to G. E. Lockhart, and his substitutes, as trustees, all the property hereinafter described in trust to secure the payment of one note of the principal sum of Eight Thousand and No-100 (\$8,000.00) Dollars, dated March 1, A.D. 1921, payable March 1, 1926, to the order of Otto Stolley with interest from date until maturity at the rate of 8 per cent per annum payable annually and providing for the usual Ten per cent attorney's fee if placed in the hands of an attorney for collection after maturity, and providing that all past due principal, interest and attorney's fees, shall bear interest from the time due until paid at the rate of ten per cent per annum and executed by the said D. S. Cunningham.

And, whereas, the said interest on said note amounting to Six Hundred and Forty (\$640.00) Dollars, due and payable on March 1, 1926, has not been paid, and there is now owing on said note said interest in the sum of \$1,280.00, together with ten per cent interest on this amount from the time due until paid.

And, whereas, the said Otto Stolley did, on the 5th day of May, A.D. 1922, transfer said above described note and deed of trust lien above described to Estelle Lewright, of Travis County, Texas, by transfer duly executed by the said Otto Stolley by his attorney in fact, Ed. H. Yeiser, which said transfer is recorded in Deed Records of Terry County, Texas, Volume 19, page 441.

And, whereas, Estelle Lewright, the holder of said note has demanded payment of said interest since the maturity thereof, and the payment thereof not having been made the holder of said note has heretofore requested the said G. E. Lockhart, the original trustee in said Deed of Trust, to advertise and sell the hereinafter described lands in accordance with the terms of the aforesaid Deed of Trust, but that the said G. E. Lockhart has declined and refused to do so.

And, whereas, the said holder of said note has demanded payment of said interest since maturity of same, and that payment thereof not having been made, the holder of said note has requested me, the said J. H. Edwards, as substitute trustee under said Deed of Trust to proceed to advertise for sale by posting notices, as required by law, and advertising same as required by law, the property hereinafter described and to sell said property in accordance with the provisions of said Deed of Trust for the payment of said note, the costs and expenses of executing this trust.

Therefore, I, the said J. H. Edwards, as substitute trustee under said deed of trust by virtue of and in accordance with the powers and provisions

of said deed of trust conferred upon me, and by such appointment as substitute trustee, will proceed to sell all of Sections Nos. 1 and 2 in Block C-37, Public School lands, containing six hundred and forty (640) acres each and situated in Terry County, Texas, about 13 miles south and 2 miles east of the town of Brownfield, and known as the D. S. Cunningham lands, at the courthouse door of the town of

Brownfield, Terry County, Texas, to the highest bidder for cash at public auction, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on the first Tuesday in July, A.D. 1926, the same being the 6th day of July, 1926.
Witness my hand, this 5th day of June, A.D. 1926.
(6-25) J. H. Edwards,
Substitute Trustee

Webster Definitions
"Abstract of Title (law): An epitome of the evidence of ownership.
The negative evidences are, in practice, even more important than the positive.
They show whether there are standing against the title, taxes, assessments, judgements, mortgages, liens—whether title has properly passed by will or administration, probate or heirship, etc.
The information about such things is widely scattered in the public records, but in our complete records every existing piece of evidence is gathered together and filed together under the individual piece of property concerned.
That's why we can furnish abstracts as firmly constructed as a steel building on a rock foundation.

Nervous hot flashes
"SOME time ago when in a very nervous, run-down condition," says Mrs. Martha F. Marlow, of Broken Bow, Okla., "I tried numerous remedies to try at least to keep going, but I could not. I was weak and tired—just no good at all. My back ached and I had hot flashes until I was so very nervous I smothered.
"I couldn't sleep and I was never hungry, and I kept getting weaker. I couldn't stand on my feet. This was an unusual condition for me as I had been pretty strong all along. I knew that I would have to do something, and that pretty soon.
"Some friend suggested that I take Cardui, and it certainly was a good suggestion, for after taking one bottle I could tell I was stronger and better. I didn't quit. I kept it up all through the change and did fine. I felt like a different person after I began taking Cardui."
Cardui has helped thousands of suffering women.
Sold by all druggists.

BARBERS AND MECHANICS PULL A BALL GAME SUNDAY

From reports gathered from numerous ball fans, the Barber-Mechanics game staged here Sunday afternoon took the cake by a long shot. The writer however, never did get an accurate report on the score, as the score keeper ran out of paper early in the game, but at that time the mechanics seemed to have a wide edge on the "butchers" which they seemed to hold, according to ringside observers.

It appeared to be mostly a case of toughness, and the hot rag boys with their tender pie-grabbers could not hold the hot liners driven by the boys who push the saws, hammers, drills, trowels, and watchmakers' "bickies." Both sides, however, who have to come-up for "air" every once in awhile during which time a flag of truce would be displayed, and after a time the battle would rage on.

The game will be the talk of the town for months, and those who went to Lamesa to see the Lamesa-Lubbock game are being told what they really missed.

SSS CLUB

The SSS Club met with Miss Ethel Cousineau, Monday afternoon, June 7th at the home of Mrs. M. H. Jordan. The afternoon passed off pleasantly in needle work and conversation. Many dainty and useful things are being made by the girls.

At the close of the meeting refreshments consisting of pimento sandwiches, iced tea, fruit salad and strawberry ice cream and angel food cake were served to the following members: Lois Adams, Mary Kathryn Anthony, Lillie Mae Bailey, Lou Ellen Brown, Joe Freda Duke, Madalene Elliott, Mildred Hudgens, Voncile Holgate, Gladys Kendrick, Christine Price and Ethel Cousineau, Mrs. M. H. Jordan, Mrs. A. C. Roberts and Mrs. Lewis.

The SSS Club met with Miss Lois Adams, Monday afternoon, June 14th, at 4 o'clock for the regular meeting. The club enjoyed the afternoon more than usual because of the long looked for reappearance of Miss Ruth Hill, in our circle after her accident. We are all glad indeed to see her out again. Although several of the members were out of town we had a very enjoyable afternoon.

Refreshments consisting of pimento sandwiches, iced tea, sliced pears with cherries, and cookies were served to the following: Misses Christine Price, Gladys Kendrick, Ruth Hill, Mildred Hudgens, Madalene Elliott, Ethel Cousineau, Lillie Mae Bailey, Mary Kathryn Anthony and Lois Adams.—Reporter.

MESDAMES HOLGATE AND HAMILTON ENTERTAIN

The new home of Mr. and Mrs. S. H. Holgate was the scene of a delightful party, Thursday evening last week, with Mrs. Chock Hamilton as joint hostess.

The guests were asked to come at 8:30 and and participate in a few 42 games. The home was prettily decorated with pot plants and lovely cut flowers of pink and red June roses. Guests played until a late hour when Mrs. Holgate, assisted by Misses Holgate and Bell, served most delicious sherbert and angel food cake to, Mr. and Mrs. Andersen, Mr. and Mrs. Pat Brothers, Mr. and Mrs. Ray Brownfield, Mr. and Mrs. J. D. Miller, Mr. and Mrs. Dallas, Mr. and Mrs. Kendrick, Mr. and Mrs. W. A. Bell, Mr. and Mrs. W. M. Adams, Mr. and Mrs. Baldwin, Mr. and Mrs. Glover, Mr. and Mrs. W. C. Smith, Mr. and Mrs. Harry Longbrake, Mr. and Mrs. A. A. Sawyer, Mr. and Mrs. Holgate, Mr. and Mrs. Chock Hamilton, Mr. and Mrs. Tiernan, Mesdames J. E. Michie, E. A. Graham and H. R. Winston; Messrs. Tom May and Robert Holgate, and Mr. and Mrs. Roy Wingerd.—Reporter.

WELLMAN NOTES

By Reporter.

The last week of school is always a busy time, but this year, it has been unusually so. Every minute has been filled with school work, ball games, parties and exercises.

Tuesday evening, in spite of the rain, a group of young people gathered at the home of Mr. and Mrs. W. M. Schroeder, and enjoyed the party given in honor of the eleventh and seventh grade graduating classes.

Our boys defeated the Forrester nine Wednesday afternoon, 11 to 2 on the Forrester diamond. The visit was to have been returned Friday, but the team failed to come. This makes the fourth team that has failed to meet us after the games have been matched. We have lost only three games during the whole season and two of them were hard fought.

Misses Thelma Kincaid and Mar Melton entertained in honor of the graduating classes Wednesday evening. Games and music, and late dancing, were the diversions of the evening. Ice cream and cake were served to the following: Misses Florence and Carrie Smith, Winnie and Vada Pace, Etella Christopher, Jessie Crews, Lucy and Georgia Stor, Grace King, Oleta Singletary, Will Yancy, Dorothy Garrison, Miss Tapp, Messrs. Thurman, Ray and Austi Ragsdill, Richard Crews, Clarence Welcher, Walter Eugene Fields Norton, Charley Ramey, Cecil Smith, Luck Pace, Bill and Bruce Story, Ir Cason, Rupert Coffey, Pete Orcutt, Emmet Curry, R. E. Christopher, Orval Garrison, Kemper Dunn, Mr. and Mrs. Baker, Mr. and Mrs. Frank Story, and Messrs. Story, Welcher and Schroeder.

Thursday evening, we were delighted to have the Brownfield Chamber of Commerce Boosters and their band attend by other Brownfield people, come out and give us a band concert. Speeches were made by representatives of the two towns, and following the concert, a lunch was served to all the visitors.

The culmination of all the work of the school year came Friday evening in the commencement exercises. The eleventh grade class had only one member to graduate, but the seventh had seven members. The program was as follows:

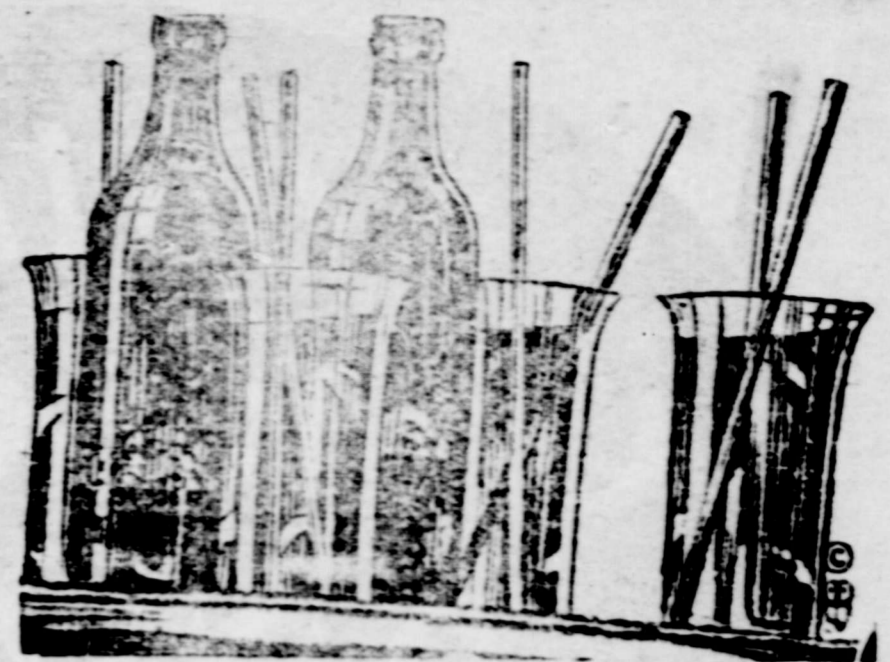

Processional.
Invocation.—Mr. O. P. Smith.
Salutation.—J. E. Spears.
Class History.—Jessie Crews.
High School Song.—Crimson and Gold.
Class Picture.—Austin Ragsdill.
Class Prophecy.—Estelle Christopher.
Piano Solo.—Florence Smith.
Seventh Grade Valedictory.—Annie Woodard.
Eleventh Grade Valedictory.—Florence Smith.
Commencement Address.—Judge H. R. Winston.
Presentation of Diplomas.—Jas. W. Baker.

President's Response.—Winnie Pace.
Benediction.—Mr. J. M. Story.
Recessional.

The next few days after the close of our school has seen our teachers scattered to various places for various purposes. Mr. and Mrs. Jas. W. Baker and small daughter, Gwendoline, have gone to Canyon where they will be in school. Miss Florence Jackson has gone to her home in Lubbock. She plans to attend Tech the last half of the summer. Miss Thelma Kincaid is also to be at home at Menard with her people, who have moved this year from California.

Miss Mary Melton's parents and brother, Mr. and Mrs. H. C. Melton and Thurman, of Haskell motored thru for her. She will remain at home for about three weeks, and will then take up her work in the post office at Abilene.

The school year has been a most successful one, and there is a regret on the part of teachers, pupils and patrons over the necessary partings.

**CARBON
KNOCK**

A CARBON KNOCK or motor detonation aside from being annoying greatly reduces power efficiency—combustion taking place before the complete rise of the piston. The mechanical method of correcting such knocks is to retard the spark which again reduces power efficiency. Many gasoline mixtures have been devised which in a way might eliminate the knock but oftimes the remedy is worse than the ailment. In NO-NOX Motor Fuel we have the remedy without a single harmful feature—it positively takes the carbon knock out of the motor, and any motorist knows that this means easier and quicker acceleration, smoother running motor and More Power, less gear shifts and generally a more satisfactory operation of the car at a lower repair cost.

The **ORANGE** gas
at the sign of the **ORANGE DISC**

NO-NOX is *Non-Noxious, Non-Poisonous* and no more harmful to man or motor than ordinary gasoline. We ask you to try it, after that be your own judge.

NO-NOX is priced only three cents per gallon higher than *That Good Gulf Gasoline*.

GULF REFINING COMPANY

Mrs. Lorena Hejl and children, of Breckenridge, are here visiting her parents, Mr. and Mrs. N. W. Jones of the Gomez community. They are now moving to the new oil town Borger, near Panhandle.

Modesty is virtue, but man seldom gets his salary raised on the strength of it.

Absence is to love what wind is to fire—it puts out the little and kindles the great.

Hon. A. W. Gibson, District Attorney was doing a little campaigning in Brownfield Wednesday on his way back home to Lamesa, after attending District Court at Plains.

Mr. and Mrs. T. B. Wood were called to Mountain View, Okla., this week on account of the death of her father. Mr. Woods is local telegrapher for Western Union.

Fabens.—E. D. Jackson building a filling station on Eubanks street.

We call your attention to the Jones Dry Goods sale in this issue. Be sure to get your share of these rare bargains. Get at them early.

Dad Wines said he found a man in southwest Terry this week that did not know who was running for governor, except Ma. He didn't take any newspaper whatever. We thought they were all dead.

Precedent cannot establish principles unless truth is the foundation.

MEADOW BRIEFS

B. Associations

I have "just received" a nicely printed postal from Ma Ferguson's manager to meet Jim at Midland, Texas, June 17th, at 3 P.M. and bring as many friends as possible.

If I could consistently do so, nothing would please me better. Eighteen months ago, I would probably have been there, and that to own and to bless, but not now. No Jim, dear Jim not just yet.

That "they" may be nominated seems probable at present, but I'll be daddawzelled if I can help to do it this time.

Davidson has gained ground rapidly in this community in the past two weeks, and I can see no reason why he should not continue to do so.

Jim's "Almanac"—The Forum—full of rich juicy items from the fork of the creek. There are so many short articles of glad acclaim that one keeps looking for "Try Ma's Soothing Syrup," "Take Some of Jim's Highway Pills," "Get a Supply of Moody Tonic for Lost Manhood," etc. The Pinkham Almanac can't beat it.

Many of these testimonials are from the aged, 81, 90 years are common. Most of them read like they have an ax to grind.

The spectre of the klan doesn't alarm me any more, and if it did, am sure that either Moody or Davidson can be trusted to attend to them. I will hail the day when I can mis their names from the front page of the morning paper.

Our "Better Half" came in Saturday evening with her tribe. She turned the car over in a ditch near Monroe, north of Lubbock, and but for the timely aid of the grading hands they might have fared badly. They smashed a car window, brole the windshield and got all muddy and wet. No bones broken. Speeding is a glorious pastime, but they were going about five miles an hour (?)—just slipped in.

The birth record for the past week shows four girls: H. T. Lewis and wife, one on the 9th; Mr. and Mrs. I. D. Martin; Mr. and Mrs. G. W. Swain; Mr. and Mrs. Dreyer, all came in on Saturday between 2 A. M. and 5 P.M. Not a bad record.

The farmers are all busy and the crops are looking fine. Most farmers are well pleased with the outlook.

Some little sickness. Mr. Mael Rickard has been in bed most of the time for the past three weeks. He went on a fishing trip and has been sick since his return. Must have swallowed a scale, or just the usual fisherman's luck.

UNION GRADUATING CLASS WERE ENTERTAINED

The graduating class of the seventh grade and their teacher, Mr. Carl Herod, were delightfully entertained on last Thursday evening at the home of Mr. and Mrs. L. L. Brock. Besides the class and their teacher, other guests were, Miss Elizabeth Dowling and the families of Messrs. Herod, Harred, Inman Owens, Willis and Copeland. Beautiful music was furnished by Miss Downing, and at a late hour, refreshments consisting of cake, ice cream, punch and lemonade were served.

Near the close of the evening the class surprised their teacher by each one presenting to him a little gift showing their love and appreciation for all he had done for them. They followed a talk by Mr. Carl. We believe that after hearing this inspiring and uplifting talk, no pupil could help but strive to be something worth while in life.

Although everyone seemed to enjoy the evening, there was just a tinge of sadness to it all. For we know not whether the class, their families, and teacher would ever meet again or not, yet let us hope that—

"When life's journey is ended,
And we come to the end of the way
We shall meet again in heaven,
On that great and happy day."

CLIFTON EDITOR HEADS TEXAS PRESS ASSOCIATION

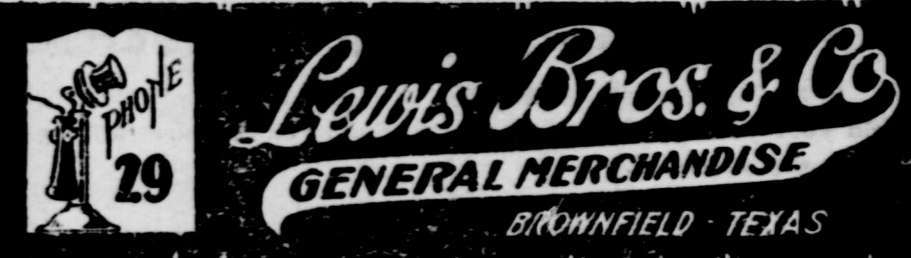

San Antonio June 12.—R. L. Baldrige, editor of the Clifton, Texas, Record, was elected president of the Texas Press Association at the closing session of the organization here today.

El Paso was unanimously selected as the 1927 convention site after spirited bidding by Texarkana, Falfurrias and Mineral Wells.

POST LAD SHOT IN NECK ACCIDENTLY

Orville Ferguson of Post, was accidentally shot in the neck yesterday. He was brought to Lubbock where Dr. Krueger of the Lubbeck sanitarium removed the bullet. His condition is not serious according to reports last night.—(Mon.) Morning Avalanche.

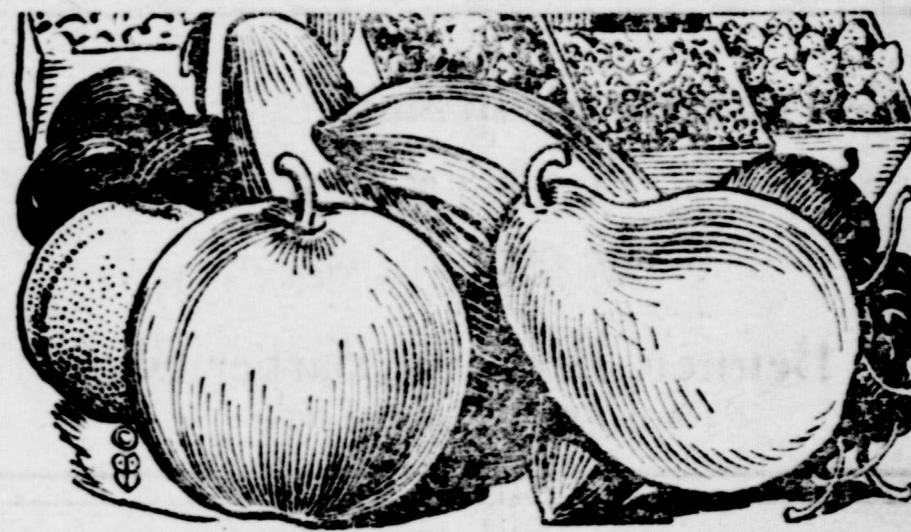

Miss Margaret Bell, who has been attending Tech College at Lubbock is home for the summer months.

POLITICAL CALENDAR—CANDIDATES TAKE NOTICE

June 19.—On or before this date candidates for party nominations for offices to be filled by votes of a single county or a portion thereof, or for county chairman, must file application for a place on primary ballot with county chairman. This request may be filed by 25 qualified voters.

June 21.—County executive committee meets to determine the order of names on primary ballot, estimate cost and apportion same and transact other business.

County chairman with approval of county committee appoints sub-committee of five with himself as chairman to meet on July 12 to make up ballots, etc.

June 28.—On or before this date candidates in primary election must pay ballot fees assessed against them.

July 12.—Sub-committee of the county committee meets to make up the primary ballot.

County executive committee has general supervision over primary in such county and is charged with full responsibility for the procuring and distribution to presiding judges of all election supplies.

July 19.—Before this date each Co. Chairman gets from tax-collector a complete list of voters in his county, arranged by precinct, paying \$5.00 for them. Such list to be used in primary election is not legal unless such lists are obtained and used for reference by election judges during the election.

July 20.—On or before this date

persons who have moved from one precinct to another or from one county to another and who desire to vote in the primary election, must apply to county tax-collector for and secure record of transfer. This applies only to those who have moved to cities of ten thousand or more.

July 24.—Primary Election Day—Polls open at 8 A.M. and close at 7 P.M. Returns of primary election are delivered to county chairman.

On this day there is also held in each precinct a convention to name delegates to the county convention to be held July 31, where delegates are elected to state and district conventions. The chairman of these precinct conventions certify to the county chairman the names of delegates elected to county convention.

July 31.—County Executive Committee meets to canvass returns from the primary election. County chairman certifies all results to County Clerk, and to state and district officers respectively. County chairman makes tabulated return and with county secretary, certifies number of votes cast for each office filed by voters of state or district comprising more than one county, to the president of the next state convention of the party and for district committee. This certificate is published in a newspaper of the county, if any. County chairman also certifies to the county clerk the name of person elected county chairman.

July 31.—County Convention to elect delegates to state and district conventions. Chairman and secretary of

NEW DIRECTORS ELECTED FOR P.A.N.D. S. P. FAIR

Lubbock, June 14.—Three new directors of the Panhandle South Plains Fair Association were elected last week to fill the shoes of the retiring workers from the board of directors. The new men are: I. E. Barr, Geo. R. Bean, and A. W. May. They will put their shoulders to the wheel together with R. W. Blair, S. E. Cone, W. A. Myrick, Jr., Norton Baker, E. E. Robertson, and H. W. Stanton, old directors to make the "Show Window of the Plains" the greatest exposition in the history of this section.

The board is going into this year's work with the greatest optimism due to the splendid crop and business conditions.

"We naturally believe the people of the entire Panhandle Plains section are going to gather up their choice agricultural products, stock, poultry, swine, home products, and other exhibit material and bring it into the fair to be shown with the merchants and industry displays to the thousands that will flock through the gates next fall," Walter Myrick said recently.

"Free attractions, shows, rides, football games, fire works and other entertaining features of the fair this year will be of the best, and we are expecting a record breaking crowd when the gates are thrown open and the turnstiles begin to click the thousands through to see the fair," Mr. Myrick said.

A number of the counties have already signified that they will exhibit again and are at work gathering the first products for the display to be shown here Sept. 29-30 and Oct. 1-2.

A large number of stock and swine breeders have signified their intention of entering the livestock division of the fair, while others are expected to line up in the next several weeks. Interest in poultry raising is on the increase over the entire section and a good show in this department is expected.

PREPARATIONS AT AMARILLO FOR W. T. C. OF C CONVENTION

Amarillo, June 14.—Fifty bands, a total of 2,000 musicians will take part in the band contests here during the West Texas Chamber of Commerce convention, June 21-23.

Three thousand coats have been ordered by the Chamber of Commerce to help take care of visitors to the convention.

Midland is bringing 1000 delegates to the convention.

Such celebrities as John B. Kieby, W. S. Farish, Gen. Paul B. Malone, J. W. Carpenter will attend the convention.

San Antonio will try to bring 5000 to the convention.

Two thousand musicians will play in unison during the massed band concerts of the W. T. C. C. convention here.

All West Texas Sheriffs are being invited to the convention by Sheriff Wiley Pollard of Potter county.

Between 75 and 100 towns will participate in the Spanish Fiesta to be given during the convention.

State Land Commissioner J. T. Robison, of Austin, was here the latter part of this week on business connected with his office. He left Friday afternoon for Plains and other points north.—Seminole Sentinel.

Miss Cornelia Ratliff, of Lubbock, is here visiting Rev. and Mrs. J. G. Thomas.

this convention immediately certify to state chairman list of delegates elected to state convention and to district chairman list of delegates that were elected to district convention.

STRAIGHT TALKS WITH AUNT EMMY

On How to Lose Your Inheritance

"It is so hard for me to get along on what John left me," complained Mrs. Norris to Aunt Emmy. "Junior wants to get a job, but I always wanted him to go to college—"

"Yes, yes, I know," interrupted Aunt Emmy, "but what about this mining stock?"

"I'm coming to that. You see I thought I could invest some of those bonds John left, they yield such a tiny income, in something that would bring real money. I needed more money, so when the telephone rang that day and a man, he had the nicest voice, said he had been referred to me by a friend and wanted to talk over some gilt-edged investments, I told him to come right up.

"His name was Mr. Stanhope. He was so nice. He told me all about the big money people are making in platinum mines. Platinum jewelry is so fashionable now. He said he could let me have some stock in a wonderful mine, and that the company would buy the stock back if I ever wanted my money."

"Have you a statement signed by one of the officers of the mining company to the effect that the company will repurchase your stock?" asked Aunt Emmy.

"Why no—"

"Well, you will have trouble getting your money back. A company cannot be compelled to buy its own stock back."

"Oh, I don't know. Anyhow, I got out my bonds and showed them to him—"

"What, you keep your bonds in the house instead of at the bank?" exclaimed Aunt Emmy.

"Why, yes, but in a box that locks—"

and Mr. Stanhope said that he was surprised that a woman with the good business judgment I had should be getting such a small income as those bonds paid—scarcely anything. He said that I should make my money work harder for me. He knew I must have good business judgment, he said, because I brought my children up so beautifully. He offered to take the bonds and change them for his stock."

"Oh, Lord!" exclaimed Aunt Emmy, "did he give you a receipt?"

"Why, of course, he was the nicest man. But Junior said after he left that he didn't like him. He said he looked slick. Boys are so funny. Well, I got the platinum stock but Mr. Barnes at the bank says it's no good. He must be mistaken. But I want my bonds back so I came to you for help. And you're always so lucky about your investments."

"Not lucky, just sensible," corrected Aunt Emmy. "Why, oh why, don't you consult your banker, who understands finance before you risk your money? This is not your first loss. Remember that piece of land you bought that was under water?"

"That was different," said Mrs. Norris blushing, "and anyway, Mr. Stanhope is honest, I can tell that."

"If he were honest, he would not have promised you the things he promised. Reputable houses don't send out representatives who make promises about repurchase of stock. Why don't you phone your Mr. Stanhope?"

"I did, but he's out of town. I've written, too, but I suppose I shall have to wait until he gets back. It's been several weeks now, so he should be back soon."

Just then the evening paper came. Aunt Emmy glanced at it, then read it attentively. Her expression grew serious. She handed the paper to Mrs. Norris. On the front page was an account of a financial scandal. The house that sold Mrs. Norris her mining stock was involved and the man who ran the business had been indicted for fraud.—A. B. Aymes.

Dangerous Indeed

A burglar, who broke into a house in Geneva, fell in love with a woman into whose room he had broken, and left without taking any of the valuables. This just shows the danger of allowing sentiment to creep into one's work.—London Punch.

Invented Pendulum Clock

Christian Huygen, the celebrated Dutch physicist and astronomer, who discovered the satellite of Saturn in 1655, and the ring of Saturn in 1659, is also the inventor of the pendulum clock, which he perfected in 1656.

Began in Lowly Position

Giuliano da Sangallo, the great Italian architect, contemporary and associate in the building of St. Peter's, Rome, of Michelangelo, Bramante and Raphael, entered the service of Paul II as a mason in the year 1465.

Use a McCormick-Deering Cultivator On Your Row Crops This Year!

We can supply one with beam and shovel equipment to suit your soil

Corn (cotton) and other tender, growing row crops demand careful, efficient cultivation. Neglect during the growing period will make itself known in reduced yield when the time comes to gather the crop. Surely it is poor economy to worry along without sufficient equipment or with cultivators that are badly worn when you can secure a new 1 or 2-row McCormick-Deering so easily. Remember that new tools that increase the yields or save labor are sure to be good investments. When you have gone over these McCormick-Deering Cultivators at our store you'll agree that they're winners.

Holgate-Enderson Hdw.

Brownfield, Texas

North Side Square

TOKIO PICK-UPS By Quindauc

The 24th of July is fast approaching with a slow but constant warming up of politics. Already one has but to go to the grocery store, or some other frequented place of rest, to hear the complete biographies and criminal records of our honorable office seekers. And though one may think he has lived a straight and upright life, when he comes out asking to serve the public, he is likely to find that he has really been a "bad" man.

It is really interesting to note what trifle and insignificant things are to be brought up against a man running for office: things that before, persons had never thought of and possibly never heard of. And even though some of them be true, they are entirely too unimportant to ruin the qualifications for office. If we were forced to have morally perfect men to fill our public place, I am thinking that some of them would go vacant. We do not need men to fill them altogether because they are morally perfect; because they have plenty of money; because they are good orators, or because they need the office as a means of livelihood, but we want them because they are qualified to fill the respective places.

to be very busy working out their crops. And I suppose there are none as yet to feel their work to be in vain. For, I believe, I never saw any better prospects, both cotton and feed, at this time of year.

There has been quite a bit of illness in our community for the past several weeks.

Mr. Homer Lasiter, proprietor of the garage at Tokio, is just now getting over a severe case of mumps.

Mrs. Homer Johnson has been in Lubbock at a sanitarium for quite a while undergoing an operation, but we are glad to hear she is getting on nicely.

Mrs. Bob Alsharding has been seriously ill for some time.

Miss Merle Green, of Sylvester, Texas, has been visiting her sister, Mrs. Walter Bryson, of this community.

RECKLESS DRIVING

Driving with one hand is risky, for sooner or later you are bound to run into a church.

First try your hand at something, and if you fail, try both hands. Then if unsuccessful, try using your head.—The Post and News.

Winter business of this place offer site for new hotel.

WORK STARTED ON NEW BOY SCOUT PARK

Work on the newly acquired Boy Scout Park in Garza county, donated by the heirs of the C. W. Post estate, is progressing rapidly. Already estimates have been completed for the size and cost of the dam across the canyon, below the Curry Comb ranch house. The cost of the dam has been estimated at \$1,000. This money, as is the entire \$5,000 to be raised for the work to be done on the camp this year, is to be secured through donations from citizens and firms who have the interest of the future citizens of this territory at heart. One donation for \$500 has been secured; a number of \$100 donations are already in the hands of R. J. Murray, chairman of the finance committee, and donations of larger denominations are expected.

The camp committee, headed by K. N. Clapp of Lubbock, has completed arrangements for the building of a large screened-in mess hall for the Boy Scouts to serve their meals in, while they are at the camp. The mess hall will have a seating capacity of 250; it is to be so constructed that it will be entirely sanitary.

The arrangements for the camp are being conducted with the object in view of making the most healthful, sanitary camp that could be made. No effort will be overlooked to make this camp an ideal place from a standpoint of hygiene. A 15,000 gallon reservoir is to be constructed above the lake at a cost of \$1,000 to insure abundant water supply.

"Since we hope to have the camp ready for occupancy within the next sixty days, we are being forced to work with the greatest haste in securing the finances for the project," said Mr. Murray. "The building committee has already started work, and we must have the cash on hand to take care of the bills incurred. Those who intend to contribute should do so at once."

Rev. J. G. Thomas is whipping a nice bunch of Scouts into shape here in Brownfield.

Judge Geo. W. Neill and family are visiting relatives in Austin. Mr. Neill's parents will accompany him back to Brownfield for a visit through the summer months.

100 MILES TO A GALLON OF GASOLINE

The automobile of 50 years from now probably will be an enclosed car, of extremely light weight, probably under 1000 pounds, and will run about 100 miles on a gallon of gasoline, according to Chas. F. Kettering, director of the General Motors research laboratory.

"It all depends on the progress we are able to make in developing a more efficient fuel for our automobile engines," says Mr. Kettering, "but we hope to increase the efficiency of our engines and liberate enough of waste so that we can drive 100 miles on one gallon of fuel."

"Until recently we have been utilizing only three per cent of the energy in a gallon of gasoline and throwing away the other 97 per cent. Within the last year we have found a material with which common gasoline can be 'doped' so that we can get 100 per cent more mileage out of it, and now we are utilizing six per cent of the energy and throwing away only 94 per cent. That is throwing away far too much and anyone can appreciate the possibilities which lie ahead of us in this direction alone."

"There's sufficient energy in a gallon of gasoline to carry a light car from St. Louis to Detroit, a distance of 450 miles, but the average light car is only making about 15 miles on a gallon."—Georgia Highway.

THE WICKED FLEE

The village parson's daughter eloped in her father's clothes. And the next day the village Bladder came out with an account of the elopement, headed: "Flees in father's pants."—New Hampshire Highway.

UNREQUITED AFFECTION

Teacher—"Johnny, I'm only punishing you because I love you."
Johnny—"Wish I was big enough to return your love."—Black and Blue Jay.

The reason courtesy is so efficient is because it produces such big results at so little expense.

Rev. C. E. Ball recently returned from Gordon, where he went after his father, who will visit with him for a few weeks.

CHEVROLET SETS ANOTHER RECORD BY ADVERTISING

For the first time in the history of the Chevrolet Motor Company sales during the month of May exceeded sales during April, according to figures just made public by the sales department of the company.

During May 70,935 Chevrolet cars were sold in the United States, making a total of 84,944, including Canada and export, the largest number of three-speed transmission cars ever sold in one month by any manufacturer. Sales increased by 23,650 over May, 1925, when 47,285 Chevrolet cars were sold in the domestic market.

For the first five months during 1926, up to June 1, 250,927 cars were sold in this country alone, an increase in sales of 84,138 over the same period in 1925, when 166,789 cars were sold in the United States.

R. D. Dodd, former agent of the Santa Fe here, was here last Sunday and filled the pulpit at the Baptist church at the morning hour. His family, he informed us, will remain in Abilene during the summer, while he will be at the call of the Santa Fe over this section as relief agent. He is now relieving at Meadow. Rev. Dodd informed us that he would return to Abilene in September and re-enter Simmons University where he is a ministerial student.

W. R. McDuffie, popular cashier of the First National Bank, and wife, returned this week from Ennis, where they have been visiting relatives. Mack informed us that if the crop prospects held up down there like they are at present, Ellis county will produce 140,000 bales of cotton, and the state will make six million bales. It they do, howdy Mr. Eight Cent Cotton. He says they have every hill side in cotton down there.

Born to Mr. and Mrs. J. C. Higgins, on the 3rd inst, twin girls. To Mr. and Mrs. J. M. Smith, on the 11th inst, a girl.

Miss Ann Hamilton, Jones Dry Goods employee, came in this week from her two weeks vacation, most of which she spent with friends at Breckenridge.

Rev. Douglas Carver and sister, Miss Jewel of Lamesa, came up this week to visit friends. They will continue their journey out into New Mexico to visit their sister, Mrs. Brazil.

Lum Whisenant has a small patch of everbearing strawberries not much larger than a house off which he has sold \$20 worth of berries already, besides some he gave away and what the family has consumed and canned. Everybody should have a small patch of these luscious berries.

Mrs. John Lynn is putting her fine blackberries on the market, and they are sure good.

Mrs. W. F. Scudday left last week for the sanitarium at Carlsbad, Texas, where she will take treatment. The Herald will keep her posted on the advancements in old Terry while she is away.

J. D. McCollough was in from Tokio recently and had us send the Herald to an old friend at Rochester, Texas, who owns a fine body of land near Tokio.

Our candidates are reporting good crowds and open handed receptions at most of their speaking appointments, and of course they are pulling a lot of huge jokes on one another on busts they are making.

According to the Leader, Lovington N. M. is soon to have an electric light and power plant. When one gets used to electricity, it is sure a hard go to do without it.

Miss Lelia Duke, one of the assistant cashiers of the State Bank is away on vacation. Miss Duke is a general favorite with the people of Brownfield, who hope she will enjoy her vacation.
