Printed in Terry County, on the South Plains; the last stand of the Cattleman and the future home of the most prosperous Farmers in the United States

VOLUME 22

BROWNFIELD, TERRY COUNTY, TEXAS, OCTOBER 8, 1926

NUMBER 7

## BROWNFIELD 6—O'DONNELL 0

History almost repeated itself but failed by a score of 6 to 0 for the Brownfield boys.

Friday at noon the High School football team started for O'Donnell and returned about nine o'clock through water and mud with the second victory of the season. The teams were well matched. The locals boys more light, but fast to off set the O'Donnell heavy weights. Both teams showed some real football.

The touchdown came in the last three minutes of the game after a series of six first downs and the touchdown. Ballard making the counter. The outstanding stars of the game were, Uless Graham, at end, Tannery and Ballard at half back, and Dallas at quarter.

Friday, October 8th, the locals will meet Abernathy on the home High School court. We wish to ask the support of the town. The boys need it. They have defeated the visitors once, and wish to do so again. Let everyone come, to see and learn the game. Show the boys you are for them and they will put Brownfield on the map on the south Plains.

Reporter.

Mrs. G.S. Webber and Miss Elizabeth Downing were Lubbock visitors Monday.

W. H. Collins made a flying business trip to Tahoka one day this week.

(Copyright, W. N. O.)

## TERRY GETS SIXTH PRIZE AT SOUTH PLAINS FAIR

Terry just lacked one, Lamb Co., of being at the end of the row of prize winning counties at the South Plains Fair, and for this she has no excuse to offer, for considering everything, this is fully as well as the most of us expected.

In the first place two or three people in the town and county took sufficient interest in the matter to help gather exhibits, and these men and women had their own axes to grind as they went along as well as the rest of us.

All fairs are alike these days since having been turned over to the farm demonstrators, who in turn are under the direction of the A. & M. College, and have put the exhibits upon a strictly scientific basis, and now you comply with a card instead of trying to show your products for advertising purposes. It isn't how fine the products are, but how many and how uniform. As a consequence you cannot load your booth with many and varied products, for if you have one too many, you are out of luck as well as lacking one. There-

fore the fair as an advertising medium is not worth the trouble and expense of carrying the products to them.

And in saying which we are not disparaging farm demonstrators for they are worth much, nor the A. & M., for it is fine, and we do not blame either for advertising themselves, but the county without one had just as well be a one-legged man at a kicking spree for the good a contest with counties with them, for the good it will do them. Fairs are great things if brought back to the real purpose originally intended of them of advertising just what the communities can produce.

It has been the contention of the Herald for some time that the best way to get results from the display of farm products and plenty of advertising matter, and send it in the charge of some live wire to Central West Texas, from whence we draw the bulk of our people, would be worth more to us than any exhibit at any fair under present conditions especially.

## REAL WORK FOR OUR CHAMBER OF COMMERCE

We believe that there is now before the Brownfield Chamber of Commerce the greatest work they have ever undertaken, much greater in fact than the mere idea of getting more people to locate here, yet we fully realize that worthiness. It is we believe even greater than carrying the exhibits to the several fairs for the purpose of advertising to the world the productivity of the county. In fact the Herald is of the opinion that since all fairs have gone in for the score card route, they have lost much of their influence as an advertising proposition, but we will discuss that elsewhere.

We now have hundreds of farmers that seem to be stranded—even as drowning men catching at straws—since the big drop in the price of cotton. They do not seem to know which way to turn or go. Indeed, there seems to be little remedy for this unfortunate circumstance except to make the best of the matter by picking—not pulling—just as much of their cotton as they can themselves, and pay their debts just as far as possible.

But as for the future, the only rainbow on the cloud is for the farmers to take the diversification route. That route has been traveled by enough people, and has been tried

so many times that there is no question of its value to those who practice it. We do not mean that our farmers must or can produce sufficient extra on the farm to pay all accounts and provide food and the clothing for the family, but it has been done right here this year. But it can be made to provide many of the necessities of life, as well as food for the family and with a small cotton that can be handled by the family can take care of the balance of the debts contracted by the family.

However, with reports of early freezes in the northern states, together with destructive floods, our farmers can expect at least reasonable prices for their feeds stuffs, which with the cotton crop self-harvested, ought to tide them over very handsomely.

Let each farmer think these matters over seriously, for they come from one who wishes them well and wants to see them succeed in life. You have no brood sows, get in touch with the secretary of the local chamber of commerce and see what can be done. And if possible see that the farm is well stocked with poultry and obtain two or three good cows—more if you have plenty of pasturage.

## TERRY COUNTY POTASH YIELD THOUGHT GOOD

AMARILLO, Oct. 2.—The greatest discovery of the age!

Potash. Potash in such paying quantities and over such a vast area that much of the world's great need can be supplied from there.

These are declarations of officials of the Kingsland Oil and Potash company of Amarillo recently chartered to develop 17,420 acres in Terry county, which they say contains the highest percentage of potash at the highest depth yet uncovered in the world.

This acreage lies on the Brownfield land, 12 miles from Brownfield and 43 miles southeast of Lubbock. Officers of the company are W. L. Kingsland, president; Martin Jarrett and J. Levy, vice-presidents; Sam Huggins, secretary, and Dr. H. S. Gerson, director.

## Tests 9:19 Per Cent

The lease lies in Block A-1 and contains seven lakes and a lost river.

The potash is found in both liquid and solid forms. Samples have been sent to chemists at Washington, Texas Tech at Lubbock and W. T. C. at Canyon, and the reports received show it to test 9:19 per cent, it was said.

The samples were obtained from depths ranging from 8 to 39 feet. It being stated that while the chemical is known to exist even deeper, a bed

this depth alone is no less than wonderful.

When this is compared with the beds of Germany and France, which have so long been supplying the potash of the world it was said to test 4 per cent higher than the German beds and 2 per cent higher than those of France.

## Many Offers Made

Messrs. Jarrett and Levy said that for seven years a British Syndicate held the lease in question, paying annually \$7,500, but released it during the war period.

"We have had offers of various kinds since we took up the proposition they added. These offers have ranged from those of developing the property to purchasing our interest outright. Sums as high as half a million dollars have been named. But we intend to develop it both for potash and for oil," they said.

Letters exhibited from interested parties at Washington were seeking more samples like those presented and included that a representative would be sent at once to further investigate, if the local company wished.

Dr. Gerson, it was said, will leave within a few days for New York, to comply with the above request.

Messrs. West and West and G. A. Cresswell, of Abilene, are here auditing the county books. They will audit the city books after completing the county job.

## BATTERY AND RADIATOR SHOP OPENED

Mr. F. C. McSpadden and wife, who recently moved here from Lubbock have opened an up-to-date battery and radiator shop in the new Moore building.

Mr. McSpadden does not come to our city a total stranger, as he made many acquaintances here last spring while installing the new city light and power machinery.

He is recommended as an expert electrician, having been in the employ of the Lubbock Light Plant seven and a half years before deciding to make Brownfield his future home.

A formal opening of the shop will be announced later. Read their ads in this issue.

## Extreme Conscientiousness

A Philadelphia man called up a bird-store the other day and said: "Send me 30,000 cockroaches at once."

"What in heaven's name do you want with 30,000 cockroaches?"

"Well replied the householder, "I am moving today and my lease says I must leave the premises here in exactly the same condition in which I found them."

## SIMMONS COWBOY BAND TO APPEAR HERE

The famous Simmons University Cowboy Band, of Abilene will be here Tuesday, October 12, for one engagement at the Rialto Theatre.

In presenting the Cowboy Band to the public, the management has secured something different to the usual run of bands. When one hears a concert by this famous organization, he goes away with the feeling that he has heard and seen something out of the ordinary. The uniqueness of the uniform (this is the ONLY Cowboy Band) the precision of the playing, the beauty of the ensemble, the tonal coloring and expression; all of these combine to make the Cowboy Band one of the finest university bands in the country.

## EDITOR CALLED TO WACO

Editor Jess Mitchell left Monday for Waco to join Mrs. Mitchell, who has been at the bedside of her father, T. J. Andrews, who succumbed to blood poison Tuesday morning at seven o'clock following confinement to his bed for the past six weeks.

Funeral services were held there Tuesday.—Littlefield Leader.

## "THE MERRY WIDOW" FINE ROMANTIC COMEDY DRAMA

"The Merry Widow" the Metro-Goldwyn-Mayer which will be at the Rialto Theatre, Monday for one day only is as exhilarating as champagne, its beauty breath-taking, and its drama not relieved, but intensified by the most human comedy ever seen on the screen.

Von Stroheim has produced in the "Merry Widow" a milestone in screen entertainment. The picture as all the Continental mien of his "Foolish Wives," all the realism for which he is noted, and a sense of humor which is delightful.

Mae Murray, always a favorite,

has doubled her claim to immortality in the hearts of picture goers by her portrayal of the title role, and while Miss Murray has always been considered a vital personality and a capable actress, as the "Merry Widow" she rises to emotional heights that have seldom been equaled on the screen. She lends to the role all the charm for which the part has so long been remembered, and gives to it her own personality.

Will be shown one day only in view of the fact that the Simmons Band is to be here Tuesday.

With a good deal of satisfaction the proprietor of the Terry County Herald announces the installation of a new Model 14 Linotype. This mechanical marvel, especially equipped with a complement of type faces which enables us to serve efficiently the large number of persons who look to our publication for enlightenment and entertainment, and who patronize our job-printing department.

The rapidly increasing circulation of the Terry County Herald together with our desire to place at the command of our advertisers and others the highest grade of typography, induced us to add to our mechanical equipment a multiple-magazine Linotype for the quick and accurate and pleasing presentation of the news of the day, and the production of superior job work.

Our new Linotype enables us to set by machine virtually all forms of composition that previously necessitated tedious work by hand. Our plant is now capable of turning out composition consisting of correct type faces in many different sizes, and the change from one size to another is made by a "twist of the wrist." In the flicker of an eyelash the versatile operator—whose hand is made famous by the Mergenthaler Linotype Company as "the hand that keeps the world informed"—on the versatile machine sets type of the following faces and sizes:

## SPECIMEN OF 30 POINT

This is a SPECIMEN of our 24 point type

This is a SPECIMEN of our 14 point type

This is a SPECIMEN of our 14 point type

This is a SPECIMEN of 10 point both light and black face.

This is a SPECIMEN of our news type both light and black face type

This installation is a testimonial to the prosperity of Brownfield and vicinity. And that the good people of the community are duly appreciative of our efforts to serve them in all departments of the printing business is manifested by the many compliments received from individual patrons since the arrival of our new machine.

The accompanying illustration will give our readers some idea of the marvelous mechanism of the Linotype, a composing machine on which are assembled matrices (or little brass molds) and lines of type cast—lines such as you are now reading. The particular model of machine which we have just installed carries at one time four sets of matrices—controlled from a standard keyboard of ninety keys and gives the operator instant command of 568 different characters.

Besides enabling the operator to set various faces and sizes of type, our new Linotype makes it possible for him to produce the rules, dashes and borders which are used in various advertisements in each issue of our publication. When employed in the composing of advertisements, newspaper headings, booklets, catalogs, and various other kinds of printed matter, our new Model 14 enables one operator to do in the same time more type than ordinarily could be produced by four or six men or women doing the work by hand—and the composition is incomparably better.

While for a long time we have received the patronage of a host of subscribers, advertisers and printing buyers in general, we look forward to the handling of an even greater volume of business now that we are so well qualified to render the sort of service most to be desired.

It has been our aim to present the news of the day without fear or favor, and to reflect faithfully the ideals and interests of our constituents; and we shall continue to devote our talents and resources to the fulfilling of this aim. And of great help to us in carrying out of our purpose will be our new Model 14 Linotype.

### NOTICE OF ELECTION

#### "ELECTION ORDER"

Whereas, the City Council of the City of Brownfield, Texas, deems it advisable to issue bonds of the said City for the purpose hereinafter mentioned:

Therefore, be it ordained by the City Council of the City of Brownfield, Texas:

That an election be held on the 26th day of October 1926, at which election the following proposition shall be submitted:

"Shall the City Council of the City of Brownfield, Texas, be authorized to issue bonds of the City of Brownfield, Texas, in the sum of \$60,000.00, payable serially within forty years from the date thereof, bearing interest at the rate of six per cent per annum payable semi-annually, and to levy a tax sufficient to pay the interest on said bonds and create a sinking fund sufficient to redeem them at maturity, for the purpose of constructing street improvements, in the City of Brownfield, Texas, as authorized by the Constitution and General Laws of the State of Texas, with reference to cities and towns."

The said election shall be held at the Courthouse in the City of Brownfield, Texas, and the following named persons are hereby appointed managers of said election to-wit:

A. M. Brownfield, Presiding officer.  
Jack Head, J. C. Bond, Judges.  
Glenn Harris, A. W. Endersten, Clerks.

The said election shall be held under the provisions of the Constitution and General Laws of the State of Texas, now in force with reference to such elections and bond issues governing cities and towns and only qualified voters, who are property tax payers of said City, shall be allowed to vote.

All voters who favor the proposition to issue the bonds shall have written or printed upon their ballots the words:

"FOR THE ISSUANCE OF BONDS AND THE LEVY OF TAX THEREFOR."

And those opposed shall have written or printed on their ballots the words:

"AGAINST THE ISSUANCE OF BONDS AND THE LEVY OF TAX THEREFOR."

The manner of holding said election shall be governed by the laws of the State regulating general elections.

A copy of this order, signed by the Mayor of the City of Brownfield, Texas, attested by the City Secretary of the said City shall serve proper notice of said election.

The Mayor is authorized and directed to cause said notice of the election to be posted up at the City Hall, and at one public place in each of the voting places in the City of Brownfield, Texas, for at least thirty full days prior to the date of the said election.

The Mayor is further authorized and directed to have said notice of election published in some newspaper of general circulation published in said City, to-wit: Terry County Herald, which notice shall be published once each week until the date of said election, the date of the first publication being not less than thirty full days prior to the date of the election.

Joe J. McGowan, Mayor,  
(Seal) (10-22)  
City of Brownfield, Texas.

ATTEST:  
W. R. McDuffie, City Secretary.

### S. S. CLASS MEETING

The Philathea Sunday School class of the Baptist church, had a very enthusiastic business meeting at the home of their teacher, Mrs. S. L. McDonald, Tuesday evening. Mrs. H. M. Oehler was elected secretary, Miss Nellie Flache, second vice-president. The office of third vice-president still remains vacant.

They selected for their colors pale blue and white; Motto: "We Do Things"; Aim: "Every member of the class a Christian; Verse: Phil. 4-13; Song: "I'll Live for Him."

The class cordially invites all the young ladies past 17 years to come and be with them as some interesting programs and social entertainments are being planned.—Reporter.

### WHAT IS MAN?

"What is man, that thou art mindful of him." These are days when it is "Big man, little God." These are days when it is gigantic "I" and pigmy "God." These are days when it is "Ponderous man, and infinitesimal God."

There are about 1,400,000,000 people on earth. You are one of that number, so am I. If I could take an auger and bore a hole in the top of the sun, I could pour into the sun 1,400,000,000 worlds the size of the planet upon which we live, and there would be room in the sun for more.

Then think of the world, its size, shape, composition, and God made that world, the God that you curse, the God that wants to keep you out of hell, the God whose son you have trampled beneath your feet.

If you take 1,400,000,000, and multiply it by 1,400,000 and multiply that by 1,000,000 and multiply that by millions, and multiply that by infinity. That's God. If you take that 1,400,000,000, and subtract 1,400,000 and subtract on down, that is you.

If man ever looks like a consummate fool, it is when he says that he does not believe in a God, or tries to suggest to God that His plan of redemption is inadequate. "The fool hath said in his heart, there is no God."

You are all on a journey to eternity. Oh! What will be the end.

"What though no real voice, nor sound, Amid the radiant erbs be found? In reason's ear they all rejoice, and utter forth a glorious voice, Forever singing as they shine: The hand that made us divine."—Sudan News.

Miss Lucile Blackstock entered Tech College at Lubbock, Monday, for the fall term. She is one of the efficient teachers in the Gomez schools. Gomez school is dismissed for awhile on account of cotton picking.

J. L. Cruce was a business visitor at Slaton Monday. He reports the roads from here to Wilson in good condition despite all the heavy rains.

Clyde C. Coleman, oil man, of Artesia, N. M., was here this week getting up an oil contract.

C. H. Hester, of Frost, Texas, and his son, Rev. J. W. Hester, Methodist pastor at Proctor, Texas, were here last week looking after Mr. Hester's fine place in the Harmony community. Mr. Hester informed the Herald that he was tired of renting and was preparing to build on his place and move here this winter in time to put in a crop next year. His son is also endeavoring to get a transfer to this district at the fall conference. We welcome these good people.

Bob Richardson, of Sherman, was registered at the Brownfield Hotel, Tuesday night.

### SHERIFF'S SALE

The State of Texas,  
County of Yoakum.

Whereas, by virtue of an order of sale issued out of the District Court of Terry County, Texas, on a judgment rendered in said Court on the first day of September A. D. 1926, in favor of I. C. Burgess and against R. W. Headstream and R. W. Collum; No. 878 on the Docket of said Court, and to me as Sheriff, directed and delivered, I did on the 29th day of September, A. D. 1926 at 2 o'clock P. M., levy upon the following described tracts and parcels of land situated in Terry County, Texas, and belonging to R. W. Collum to-wit: All of the east one-half of section number four hundred ninety two (492) in Block "D," Cert. No forty (40), John H. Gibson, original grantee, in Yoakum County, Texas, and on the 2nd day of November, A. D. 1926, being the first Tuesday of said month, between the hours of 10 o'clock A. M. and 4 P. M. on said day at the courthouse door of Yoakum County, Texas, in the town of Plains, I will offer for sale and sell at public auction, for cash, all the right, title, and interest of the said R. W. Collum in and to said property.

Witness my hand, this the 29th day of September, A. D. 1926.

J. C. Keller,  
Sheriff of Yoakum County, Texas.

## Quality Counts In Groceries

It is not economy to buy any thing except the first quality when supplying your table. There is less waste and more nourishment value in good Groceries --- and we have Only the Best.

Bob Lovelace

### HOW TO PREPARE FOR A PUBLIC SALE

Have everything nicely arranged and in tip-top shape. Have your stock all graded and show to the best advantage. Have your horses broke to lead and show them under the whip; employ the auctioneer who is successful in his work and a good judge of stock. Have a good clerk who understands his business thoroughly. Be prepared to feed the crowd well. It will cost you very little and make you money. Don't be afraid of a dollar or two. Advertise the sale thoroughly and get the best auctioneer you can find and he'll make you money. Notify your auctioneer in plenty of time so you will not be disappointed in a date. Don't print your bills until you consult your auctioneer. If you don't let us cry your sale we will all lose money. When you get our prices we'll get the job. If not, who will you blame?

LUBBOCK, TEXAS  
W. E. JOHNSON, Auctioneers P. O. 804 E. E. GRAY

### TEN COMMANDMENTS FOR MERE MAN

Frau Ida Bock, Austrin writer has just taken a cue from Moses and has drawn up a decalogue—for husbands. Here are the commandments.

1. Flirt with your wife as you do with other women.
2. Don't assume she knows it, but tell her often, "I love you."
3. Thank her occasionally for the beauty and comforts that surround you.
4. Don't assume she is your's, woo her always.
5. Don't be superior, let her share your inner life.
6. If you respect not her beauty or intellect, at least consider that she is the mother of your children and treat her accordingly.
7. Pay attention to her sacrifices, self-forgetfulness is her life.
8. Be faithful.
9. Don't overpraise other women or hold them up as models.
10. If you can't obey all nine of these, at least obey one—and you will still be unique.

### EX-SHERIFF WANTED FOR EMBEZZLEMENT, ARRESTED

Sheriff Len Irvin returned Friday from Celeste, Texas, bringing with him Hugh J. Carter, ex-sheriff of Lamb county, wanted on several charges, and placed him in jail at Plainview.

It is understood that Carter, who left the county some time in July of last year has been charged with misappropriation of county and state funds in an amount of \$3,000, according to auditor's report after checking the books of the sheriff, and that a warrant was sworn out for his arrest, charging him with drunkenness, disorderly conduct and misappropriation of such funds.—Littlefield Leader.

H. T. Timmons, of Roby, Texas, had the misfortune to get his Chrysler car burned at Tatum, N. M., Saturday night. He reports that he saved all his grips.

### M. AND M. CLUB

Mrs. E. G. Alexander was the charming hostess to the Maids and Matrons Club last Tuesday. A very interesting lesson was had on "the Life of the Ancient East. Mrs. W. A. Bell was leader for the afternoon in the absence of Mrs. Winston, and gave a most interesting talk on the new science of archeology, its work and methods. The club has a real treat when Mrs. Bell is on the program. Mrs. Fagala also had a very appropriate paper on the rise of the early religions, and the Egyptian view of the future life.

Mrs. Jim Miller having visited at Pompeii, Italy, favored them with a vivid description of the excavations at that place, and of the wonderful finds that have been unearthed. Mrs. Miller's descriptive ability is so great that one almost sees the places as she talks, and the club is fortunate in having Mrs. Miller as a member.

The club has secured the services of Mrs. H. O. Longbrake as librarian, and feel she is a very capable woman for the place, and will be found on duty at the library in the courthouse on Saturday afternoons from four to six, and on Wednesday afternoons from four to five. Mrs. Longbrake will be glad to be of any help she can in selecting your book.

Two new members were taken into the club; Mrs. McKinney and Miss Margaret Bell. The club is delighted to have them and feel they will be a great help during the club year.

The hostess served dainty pink and white marshmallow whip with whipped cream and pink and white angel food cake, to the following club members, Mesdames Bowers, Morgan Copeland, Arthur Sawyer, Jno. Randal, Roy Wingrod, W. H. Dallas, Dalton Lewis, W. A. Bell, Joe McGowan, Jim Miller, O. W. Fagala, Jack Stricklin, Misses Ethel Jeffries, Elizabeth and Nancy Dumas, and the hostess Mrs. Alexander.—Reporter.

## Let These Machines Handle Your Corn Crop

McCormick and Deering  
Corn Binders

Five to seven acres a day with one-man outfit, and the one man does the work of half-dozen men with corn knives. McCormick and Deering Corn Binders are light, strong, and substantial. Roller bearings insure light draft. Both types do clean work, have ample adjustments for tall and short stalks, pick up the down and leaning stalks, and make neat, easily handled bundles. McCormick and Deering Corn Binders are equipped with a smooth working bundle carrier and they can be fitted with wagon elevator, tongue truck, etc. These two binders have been standard for years. The McCormick binds the bundles vertically and the Deering binds them horizontally.

**Holgate--Enderson Hdw.**  
Brownfield, Texas North Side Square

Mr. Shaw, prominent citizen of last Saturday afternoon, and was the Seagraves vicinity, happened to be brought to Brownfield where he received the painful accident getting his ceived surgical attention. It is heel string cut into by a row binder thought he will get along fine now.

### ONE DIVISION OF CHEVROLET SPENDING HALF MILLION

The Chevrolet Motor company, in one division of its Service Department, is spending over half a million annually on a Service Promotion Program. This program consists of aiding its Dealer Organization in improving its shop methods and equipment as well as its personnel, in order to give Chevrolet owners better and more efficient service.

Service Promotion deals with the efficient layout, equipping, and operating of the Dealer's Service Station. It offers a standardized plan of shop layout, making available special Chevrolet tool equipment, and provides assistance to the Dealer Organization in properly installing these methods. The Flat Rate method of charging for repair work is suggested in this plan as it insures an equitable charge for both the owner and the dealer.

The proper training of the dealer's personnel is taken care of by the operation of twenty-two permanently located Service Schools in different parts of the United States. These schools are attended by Chevrolet Dealers, their Service Managers, Shop Foreman, and Mechanics who receive an intensive training course in the proper methods and tools to use in repairing Chevrolet cars. Special courses are provided for Dealers, their Service Managers, and Shop Foreman, on the subject of Shop Management.

As a result of this increased efficiency in its Dealer's service, Chevrolet is achieving widespread recognition and the quality of its service is becoming more and more a factor in promoting new car sales.

### AVALANCHE EMPLOYEE MARRIES THURSDAY

Ray B. McCorkle, of the Avalanche Journal, and Mrs. Rose Hulme, of this city, were quietly married Thursday morning in the office of Justice of the Peace W. E. Johnson, with Justice Johnson officiating. Only one or two close friends of the high contracting parties witnessed the ceremony.

Mr. and Mrs. McCorkle will remain in Lubbock, and he will continue with the firm with which he has been connected for over a year.—Lubbock Avalanche.

### WORLD'S FASTEST TYPISTS PREPARE FOR TITLE CONTEST

Albert Tangora, world's fastest typewriter operator, and George I. Hossfield, former holder of the title, will be the chief contenders for the crown at the world's championship contest to be staged at the Sesqui-Centennial International Exposition, now being held in Philadelphia.

The two speedy typists practice daily at the exhibit of the Underwood Typewriting Company, in the Palace of Liberal Arts and Manufactures. Both men talk and listen to conversation while they operate the machines. Tangora has been champion for three years. His record is 147 words a minute net, from unfamiliar copy. Ten words are deducted for every mistake made. Hossfield, who was champion in 1918, 1920, 1921 and 1922, has a record of 146 words a minute. More than 100 entries are expected in the contest, which will be held in October.

Ted Pore, of Levelland, was a visitor to our city this week. He formerly resided in Brownfield.

### GOOD SCHOOL LUNCHEES

Here are some things you may not have tried in the school lunches: sliced meat loaf; rolls hollowed out and filled with chopped meat or fish, moistened with salad dressing and seasoned; salad; cheese straws; stuffed eggs; tomatoes and whole fresh fruits; cut up fruit; brown sugar or maple sugar sandwiches, made with crackers or hot biscuit so as to melt the sugar; sausage turnovers; stuffed prunes or dates or figs; cup custard; a small box of raisins; a cake of chocolate; little tarts, cookies or frosted cakes; sandwiches of two kinds of bread; a bottle of orange or grape juice; lemon juice sweetened ready to make into lemonade at school.

See that sandwiches, cookies and in fact, everything that goes into the lunch box are wrapped separately in wax paper. This not only prevents crushing, but keeps them moister and crisper, as they happen to require. Provide paper napkins, to keep hands and clothing clean, and to spread on the desk under the lunch.—Exchange.

If the entire world were proportionately as well served from a telephone standpoint as the United States it would have ten times as many telephones as at present.

In 1895 there were exactly 815 telephones in the city of Dallas, Texas. Thirty years later there are over 60,000 telephones in Dallas and all automatic in operation, the first large city in America to be so equipped.

Texas has 520,000 telephones which is an increase of 1,700 per cent since 1900.

We understand that local farmers are petitioning the Brownfield gin men to cut the price of ginning. We failed to learn just how much they want, or whether they succeeded in getting any cut or not at the time this was written.

O. E. Johnson, local government crop reporter, both for Terry and Hockley counties reports that he was in a considerable auto wreck at Lubbock Saturday. He and another man was in a Ford car, and in turning a narrow street corner at which place two cars were parked, they ran head on with a Dodge car. Both cars were badly damaged, but neither felt the other to blame as the two parked cars obscured the view of both drivers.

J. C. Whisenant has leased the Rex House, having taken charge the first of the month. He ran a hotel here in the early days, and was considered efficient at the business.

"Red" Tudor and "Bulldog" Stinson left Monday afternoon for Dallas where they go on business for the local Ford agency of which Mr. Tudor is owner. They will drive two sport model coupes back home.

We learned this that Dick Heath, who taught in the public schools here last year, has entered Baylor Medical College at Dallas to study medicine. We understand that it is his ambition to make both a physician and druggist in time.

Mr. Forrest of the Forrest Lumber Company was in Brownfield Tuesday.

Harry O'Harran and wife got in last week from California, where they have been since last winter. Mr. O'Harran has not decided just where he will locate at this time.

The farmers are not going to take any advice from anyone unless they want to, but we maintain the Chamber of Commerce has before it a great work in stressing diversification so strong that every farmer in Terry county will see it and want to practice it.

Sam Braswell, editor of the Clarendon News has been elected chairman of the publicity committee of the West Texas Chamber of Commerce. This is the first time a paper man has ever held any distinguished positions on this organization, but we'll bet a ginger cake they find "Sam the Man."

What most of us lay members can't understand is why the government estimate is so high and the ginners' report so low, and yet South Texas is ginning far more cotton than last year. There is a difference of 200,000 bales of cotton in the ginners report of last year and the same time this year.

The Ralls Banner says that the city of Ralls is the largest town in West Texas that is not paved. We dislike to take or try to take any honors from whom honors are due, but the Herald maintains that the city of Brownfield reserves that distinct honor all for itself, for we believe an actual count will give our city the larger population.

One of our printers recently had a call from a lady who wanted to know if he could make finger prints. We have been called upon to print everything from stamps to dollar bills, but this is the first time we have heard of a call of this kind. Who can supply the equipment to do this work? We hate to see any profitable work turned down.—Iowa Press Bulletin.

Rev. A. D. Jameson, of Seagraves was up Monday and informed us that he had purchased the Seagraves Signal of R. B. Haynes, and had taken charge of the same. Mr. Stockton Henry is helping him this month, after which Mr. Jameson will try to run the paper himself, and knowing Almus Jameson as we do, we know he will succeed and give the people of Seagraves a real paper.

It is said that in Lamesa they are strictly opposed to women and girls staging a revue, and showing their shapeliness, but think it alright for

the men to stage one for the admiration of the women and girls. In fact they did stage a male revue recently for raising of funds of some kind and thought they did a cute trick. We still think that what is sauce for the goose is sauce for the gander.

There are some farmers in Terry county this year, we are told that came here last winter without funds and were neither able to borrow at the banks, or obtain credit from merchants, and it was up to them to get by. As a consequence these farmers sold poultry products and cream to supply the family with actual necessities, and as a consequence they will be free from debt when the cotton is picked, and aside from land notes and interest, ought to be some ahead.

There is not a banker or merchant in Terry county but are ready to encourage and boost any farmer who is practicing to any extent diversification of crops. Then seeing that his friends are with him on such a course why don't he practice it more. If the results were nothing more than providing their own table and cutting down the grocery purchases, then the idea is worth a lot. The person, farmer or otherwise that spends his sustenances before they are produced is bound to always be in debt.

No movement in the history of Mexico has been fraught with more of significance both to this nation and to the Latin-speaking peoples of the world than the present revolt against Catholicism which has plunged the Mexican government into a death-grapple with Rome. Thus far President Calles has been unyielding in his determination to free Mexico from Catholic domination. The hardships which our missionaries and evangelical native Christians have undergone are almost past belief, but the reaction will ultimately be favorable to Protestant work.—West Texas Baptist.

**BYPU PLANS SOME INTERESTING PROGRAMS**

As a result of an institute held here last week for the BYPU's by Miss Ethel Hudson and Miss Mary Taylor, the BYPU met again Sunday night and reorganized, with a new vigor and determination to keep on keeping on.

They have planned some delightful entertainments for the winter months and cordially invite all the young people to come and be with us. Entertaining programs have also been mapped out for each Sunday night meeting, and we are sure you will enjoy them. Each Sunday evening at 7 o'clock.—Reporter.

Service Quality Satisfaction

### TEXAS CROP REPORT

Cotton is the only Texas crop which failed to make good on mid-summer prospects. Root rot and insects cut it from a condition of 72 per cent in July to 62 per cent in September. The losses mainly are in the eastern and central sections, but some damage is also reported in the west. It is now estimated that the yield for the state will fall short of 5,000,000 bales. Picking has been started.

September estimates of other crops made by the Texas department of agriculture, are:

Corn, 80,781,000 bushels, compared with 26,809,000 bushels last year, and 63,888,000 bushels in 1924.

Wheat, 32,436,000 bushels, compared with 6,552,000 bushels last year and 25,252,000 bushels in 1924.

Oats, 83,662,000 bushels, compared with 13,418,000 bushels last year, and 49,470,000 bushels in 1924.

Harvesting of several other crops has lately been finished, or is in progress; condition from 10 to 20 per cent better than last year, as follows:

Peanuts, 82 per cent; grain sorghums, 91 per cent; hay, 93 per cent; ribbon cane, 71 per cent; sweet potatoes, 88 per cent.

The condition of the livestock industry is reported from fair to good, the more encouraging reports being from those who operate with sheep, dairy cattle and poultry. The final returns will show that the greatest per cent of gain has been made by poultry producers. Few livestock losses will be recorded this year. Ranges have held up remarkably well.

Reports indicate that good progress is being made with wheat planting in West Texas, and that the acreage will exceed that of last year.

### WAR WEDDINGS FAIL TO HOLD TOGETHER

PARIS, Sept. 30.—Nearly 100 divorce suits brought either by war brides or by their husbands who were members of the American expeditionary forces are now before the French courts.

Desertion takes first place among the charges given in the pleas; incompatibility of temper is a close second. While their parents separate, several hundred children who were born as the result of these war time marriages are in dire need of help.

The divorce claims awaiting action call attention to the records which show that 80 percent of the hasty marriages, many of them made while the A. E. F. was packing up to leave France for the United States, have been failures. Girls from France, Belgium and Germany were the happy and hasty brides of those days and many of them along with their husbands have regretted the step they took.

### PIGS-PER-SOW MARKETED TELL PROFIT

Twenty-two Iowa farms were studied by the state agricultural college authorities to get at the cost of hog production. The range in cost per hundred pounds of pork was from \$7.07 to \$15.23, but about half the farms ranged from \$9 to \$11. There, says the Research Department of the National Association of Farm Equipment Manufacturers, is the answer to why some farmers make money and others go broke. Every farmer raising hogs, ought to have some checkup like the cow testing association in dairying to monthly give him costs, feeding advice and points on management to insure profit all the time from hogs. The ton litters have proved that the sow raising a big litter of pigs makes money, and if she raises two big litters a year she makes a lot of money. The main thing is to equip the farmer with central house for sanitary and winter protection so that he may handle as many sows as possible with a given amount of labor. The feed grinder for the handling of home grown feeds to cut feed costs is a big factor. An abundant and pure water supply from windmills, gas engines and automatic water systems is also essential. Hog oilers, dripping tanks, and sprayers keep down pests and aid gains.

### CARD OF THANKS

We take means of thanking our many friends in Brownfield and vicinity for their help and words of comfort in the last sickness and the death of our beloved father and grandfather. We also wish to express our thanks to the local Masonic body for their beautiful work and words of cheer.

Mrs. J. N. Markham  
J. C. Markham, Tatum, N. M.  
W. M. Markham, Dallas, Texas  
C. B. Markham and family, city.

It is reported that the new oil well on the Brownfield ranch is now a little more than 100 feet deep. The drillers, we understand are seeking more water just now for drilling purposes.

### BROWNFIELD SIXTH GRADE ORGANIZE CLASS

The sixth grade organized last week and elected the following officers:

R. W. Rambo, Pres., Martha Graves, vice-president; Jaunita Nations, secretary and treasurer; Nettie Thompson, reporter.

We have selected "Win or Bust" for our motto. Have chosen purple and gold for class colors, and selected the for-get-me-not for our class flower.—Reporter.

### ROPEVILLE CASE FINALLY SETTLED

The Ropes School Trustee war was finally settled yesterday in the 72nd District Court by an agreement of modification to hold back \$7500 to take care of the teachers employed by the old board. The case has been up in the courts for several months and has attracted state wide interest. Final injunctions in the Supreme court will be settled at the hearing of that court in Austin.

The old school board was represented by Attorneys Bean and Klett the new by Bledsoe and Crenshaw while Roscoe Wilson represented the bank in the case.

### WOMAN MANAGES BIG HOG FARM

Mrs. G. A. Muth of Illinois is one of several women who last year won gold medals for high achievement in hog production. Mrs. A. F. Huser of Colorado, Mrs. B. C. Green and Miss Helma Seymour of Minnesota, Mrs. Andrew Jackson of Iowa, Mrs. C. C. Perry of Oklahoma, Miss Veva Di van of Wisconsin and Miss Ruby Randall of Georgia were other ladies who won recognition in producing aristocratic porkers in the "Ton Litter" contests in their states. No only did they beat the ton marks for official recognition from their agricultural colleges, but several of them were champions of their states, beating every hog raiser of the other sex in the business. Mrs. Muth is a well known writer for swine publications; advocating clean salesmanship. She signs her ads, "Mrs. Muth, Business Manager, The Muths," which indicates a big field for farm women of real ability who are equipped to handle correspondence, advertising etc. The Muth farm is equipped with tractor, home water system, gas engine, feed grinder, tank heater, manure spreader, truck, 3 wagons, and two windmills, as well as an up-to-date line of general farm machinery for the fields.

Glen Noble Webber, who is attending High School in Hereford, spent the week end here with his parents, Mr. and Mrs. G. S. Webber.

Magnolia—Contract for \$150,000 street improvements, awarded.

We are authorized to announce that Elder Liff Sanders of Lubbock, will preach for the church of Christ here Sunday morning and night. He is already well and favorably known to the people here and needs no introduction from us. He is an able Bible scholar and interesting speaker.

R. A. Locker has opened a domino parlor in his building just south of the Hunter Drug Store.

O. E. Johnson, special cotton agent reports 38 bales of cotton ginned in Terry county up to September 16 1926. The round bales were counted as half bales.

Exports through the port of Galveston in 1925 were valued at \$455,358,451.

### SHERIFF'S SALE

The State of Texas:  
County of Terry:

By virtue of an order of sale issued out of the District Court of Terry county, Texas, September 23, 1926, on a judgement rendered in said court on the 24th day of August, 1926, in favor of Nelson W. Willard against E. W. Jones for \$3,223.91, with interest from the 24th day of August, 1926, at the rate of ten per cent per annum and costs of suit, together with foreclosure of a vendor's lien and deed of trust lien on the southeast quarter of Section No. 34, Block DD, less the railroad right of way, containing 155.4 acres of land situated in Terry County, Texas, the said suit being numbered 851 on the docket of said court, I did on the 4th day of October, 1926, at 9 o'clock A. M., levy on the said property, and will, on the 2nd day of November, 1926, the first Tuesday of the said month, between the hours of ten o'clock a. m. and four o'clock, p. m., at the Court House door of Terry County, Texas, in the City of Brownfield, Texas, sell the same at public auction to the highest bidder for cash.

Witness my hand this 4th day of October, 1926.

F. M. Ellington,  
Sheriff of Terry County, Texas.

## Merchandise and Apparel

### For The Working Man

Men who earn their livelihood by "sweat of their brow"---so to speak---go in for comfort and convenience rather than style in working apparel. And, as every merchant knows, those workers constitute a class worth catering to. So in response to numerous requests "Give us More---Lee's---Work Clothes."

#### THOMAS NELSON, JR., SIGNER

The statue of Thomas Nelson, Jr., is one of the six which compose the Washington Monument at Richmond, Virginia. Nelson was one of the distinguished group of seven Colonial patriots who signed the Declaration of Independence, the 150th anniversary of which is being celebrated by Exposition in Philadelphia.

Nelson was another of the early Americans to assume political responsibility while very young and rose to eminence in statecraft and in military circles.

He was educated at Cambridge, England, and upon returning home when not twenty-one years of age, was elected to the House of Burgesses. He was a member of the popular convention at Williamsburg in 1774 and 1775, and was conspicuous in the Virginia convention which framed a State Constitution in 1776. He was then a member of the Continental Congress in which he signed the Declaration of Independence.

The marauding expedition of Matthews in 1779 caused him to organize the militia to withstand it. A call for a \$2,000,000 loan having been made by the State, Nelson raised the greater portion of it on his personal property. His patriotic sacrifices so impaired his ample fortune that he suffered pecuniary embarrassment in the later years of his life.

When General Nelson commanded the militia at the siege of Yorktown he directed the artillery to bombard his own fine stone mansion which stood within the British lines. The building was the supposed headquarters of Cornwallis.

After the surrender Nelson passed the rest of his days in retirement suffering from the impairment of his health. He died at Yorktown in January, 1789, so poor that his remaining possessions were sold to pay his debts.

#### CHANNEL SWIMMERS

##### ARE ABSTAINERS

In a recently published list of ten rules for swimmers, Dr. Robert T. Legge, University of California physician, has put in the following: "Don't drink liquor and then go in swimming."

Evidently some of the conquerors of the English Channel are believers in his advice. It is reported that Miss Gertrude Ederle, the first woman to swim the channel is an abstainer.

In an article on "Channel Swimmers" the "Son of Temperance," published in Manchester, England, says: "The first to swim the channel was Captain Webb, in 1875, who abandoned spirits, and took as his staple drink hot coffee. His former experience had shown him that spirituous liquors abstracted heat and reduced strength, and quite unfitted him for an arduous swim. He gave a piece of advice to all who are wishful to become expert swimmers: 'If you are total abstainers—keep so.' Thomas W. Burgess, the second man to swim the channel, was a life abstainer."

#### PLUCKY BLIND MAN

Dan Carroll lives in Parker county and is blind. He has a family to support. He was recently nominated for tax collector of Parker county which in itself shows that his neighbors believe in him. "There is a reason," Dan Carroll doesn't believe in sitting down and bewailing his affliction. There will be no taxes to collect until January 1, so he has gone to the cotton patch to pick cotton.

He can pick 250 pounds a day, locating his bolls by running his hands up and down the branches of the stalks. He picks the cotton pretty clean, but has a small boy to go with him to gather that he may miss. Men of the Dan Carroll type are few and they can always find a way to take care of themselves.—Herford Brand.

#### TEN COMMANDMENTS OF AGRICULTURE

I. "Thou shalt not sow thy fields with mingled seed." Lev. 19:19.

II. "When he hath made plain (smooth) the face (of the ground) thereof doth he not cast abroad the fitches (vetch) . . . and cast in the principal wheat?" Is. 28:25.

III. "For thus sayeth the Lord to the men of Judah and Jerusalem: Break up your fallow ground and sow not among thorns (weeds)." Jere. 4:3

IV. "The whole land is made desolate because no man layeth it to heart. The spoilers have come upon all high places through the wilderness." Jere. 12:11-12.

V. "He that tilleth his land shall have plenty of bread." Prov. 28:29.

VI. "And Abel was a keeper of the sheep, but Cain was a tiller of the ground." "And it shall come to pass in that day that a man shall nourish a young cow and two sheep." Gen. 4:2—Is. 7:21.

VII. "And behold, seven ears came upon one stalk, full and good, and behold, seven ears withered, blasted . . . sprang up after them; and the thin ears devoured the seven good ears." "Therefore thus sayeth the Lord God unto them: Behold I, even I, will judge between the fat cattle and between the lean cattle." Gen. 41:22-23-24, Eze. 34:20.

VIII. " . . . and if ye say, what shall we eat the seventh year—Eat yet of the old fruit until the ninth year, until her fruits come in ye shall eat of the old store." Lev. 25:20-22.

IX. "Thou shalt not plow the ox and the ass together." Deut. 22:10.

X. "And Joseph opened storehouses and sold to the Egyptians . . . and all the countries came into Egypt to Joseph to buy corn." Gen. 41:50-57.

"But if ye will not harken unto me and will not do all these commandments . . . your strength shall be spent in vain for your land shall not yield her increase, neither shall the trees of the land yield their fruit, and I will bring the land into desolation." Lev. 26:14-20-32.

The laws of good farming given to us in the Bible hold good today just as they did in ancient times.

#### INTELLIGENT USE OF TELEPHONE AIDS SERVICE

Telephone service is unique among commonly used public services in that the user himself participates in the actual service operations. He lifts the receiver from its hook, asks for the desired number, sends his voice over the wires. His intelligent co-operation is essential to the rendition of satisfactory service.

The more he knows of the telephone instrument and of the system of which it forms a part, the better both can serve him. The more he learns of the equipment required to make his telephone function properly—a vast mechanism of wires and cables and central office—the more valuable that telephone becomes to him as a piece of individual equipment. The better he knows the men and women who endow this gigantic machine with personality, the more personal his own instrument becomes to him.

#### STATEMENT

Of the ownership, etc., of The Terry County Herald, as required by act of Congress of August 24, 1912.

Publisher, editor, business manager and owner, A. J. Stricklin.

Indebtedness, Mergenthaler Linotype Co., Brooklyn, N. Y. Sworn to Oct. 4th, 1926.

LUMP COAL \$12.75 FOB railroad cars, \$13.75 FOB yard, and nut coal \$1.00 less than lump.

HIGGINBOTHAM--BARTLETT COMPANY

#### MA INDORSES COTTON CONFERENCE FOR SOUTH

Austin, Oct. 1.—Although she has yet to receive the communication from Gov. Henry L. Whitfield of Mississippi relative to the calling of the Southwide cotton conference, Gov. Miriam A. Ferguson said Friday that she thought it was a good idea and that the farmers should get a better price for their cotton. She said she believed in selling cotton when the price was right.

Governor Ferguson will decide upon a representative to be appointed for the conference after she receives Governor Whitfield's communication, she said.

J. S. Siddons was in this week from the farm making inquiry about the ear load of hogs to be distributed here in the near future. We certainly hope that more farmers will follow his course.

### PROMISE OF FUTURE IN "GOLDEN YOUTH"

Time of High Ideals, Hopes and Roseate Dreams.

"It is well to have been young in youth," says Robert Louis Stevenson, "and, as years go on, to grow older. To travel deliberately through one's ages is to get the good out of a liberal education."

There spoke the man whose keenest impressions had been those of boyhood. Like old John Treboulan, who saluted with a raised cap the lads whom he saw playing in the roads, because he recognized in them the burgomasters, chancellors and magistrates of the future, so Stevenson smiled on every unburned urchin, recognizing in him the future manhood of Great Britain. And manhood is none the less virtue because of the long delays of youth; it is none the less sound because many blunders have taught it understanding. The boy lives in a world whose horizon is not yet bounded by facts. He has no sense of proportion, because he has taken no measurements. If he would accept the measurements correctly defined by those who have walked their way before him,

If he would let, as none will do, Another's heartbreak serve for two, he would of course save himself, and save his family and friends, a vast deal of trouble. But he would have lost his youth, and it may be that with it he would have lost the noblest strain in his nature.

The temerity of the boy is not only full of glee—it has in it the qualities that make for manhood. We know now that Sir Walter Scott was learning his best lessons when as a lad he limped bravely over the Scottish hills, fed like a young raven at cottage doors, making friends wherever he set his foot, forgetful of work, indifferent to hardships, absorbed wholly in the love of adventure and the passionate joy of life.

"The pride of youth is in strength and beauty; the pride of maturity is in wisdom," said Democritus, who, as the most cheerful of philosophers, found something good in every stage of existence. Indeed, the Greeks, who saw life clearly and saw it whole, were content to accept serenely and mentally as some compensation for the departed joys of youth. If they sighed wistfully, as all men must, when the shadows deepen, they looked with cheerful tolerance upon their sons and grandsons, radiant with the promise of the future.

The one god that these Athenian youths were never taught to worship was mammon; the one virtue they failed to respect was worldly prudence; the one ambition foreign to their souls was the desire to outstrip their comrades in the race for wealth. The Greeks knew that preoccupation with money is incompatible with the mental ease, the high ideals, the generous citizenship they coveted for their sons.

And if boys ever grow practical and pennywise before their time, if success and not achievement is their aim, if their dreams are vulgar and their standards low, whose fault is it? Not theirs, of a certainty! The talk that young Americans constantly hear about vast fortunes quickly made; the glowing manner in which life today dwells upon wealth and breathes the names of millionaires into their ears—these things tame the soul before it takes its first flight; and of all wastes none is so pitiful as the wasted glory of youth.

If we are ever to be foolish, youth is the time appointed for folly. If we are ever to cherish noble ideals, youth is the period for their expansion. If we are ever to aim high, we fix the shining mark in youth.—Agnes Repplier in the Youth's Companion.

#### Bell Saved Cherry Crop

Mrs. Clark Hunt of Cottonwood Falls, Kan., developed a novel plan to save her 1926 cherry crop, according to the Pathfinder Magazine. As her cherries began to ripen the birds and crows became fond of them. At first she tried to keep the birds away by covering the trees with table cloths, etc., but had little success. Then she hit upon the idea of hanging an old cowbell in one of the trees. To the bell she tied a rope which reached to her back porch. In order to save her cherry crop then all she had to do was to sit on her porch in her rocker and give the rope an occasional jerk. When the bell rang, away went the crows and birds.

#### Aqueduct on Historic Spot

Over the same route taken by the famous marathon runner when he hastened to inform the Athenians of the Hellenic victory over the Persian hordes, American engineers are building a great aqueduct to supply the ever-growing population of Athens and Piraeus with water. The new system, costing \$10,000,000, replaces the antiquated Hadrian aqueduct, built by the famous emperor of that name 140 years after the death of Christ.

#### Pluvius Sheds Red Tears

Recently after a light rainfall the inhabitants of Cattara were astonished to see the houses and streets turn red. Even the white walls took on a red hue. The superstitious among the Montenegri thought it was raining blood, and many of them hurried to church to seek pardon for their sins. In the evening the sunset was gorgeously colored with deep red. It is thought a distant volcanic eruption had filled the sky with fine red dust, and the precipitation brought the dust to the earth, coloring the countryside.—Chicago Daily News.

#### METHODIST W.M.S. HAVE DISTRICT VISITORS

A most helpful and entertaining meeting of the Woman's Missionary Society of the Methodist Church was held in Brownfield, Tuesday. There were visitors and speakers from several towns in the Lubbock District. And some of the District and Conference officers had a part on the program.

The service began at eleven o'clock consisting of devotional Bible reading by Mrs. Lee Thompson. After which a special solo was rendered by Mrs. Harry Longbrake. Mrs. Glen Webber introduced the visitors, after which Mrs. Evans of Lubbock spoke on "The Bell Bennett Memorial Fund", followed by a Round Table discussion.

Lunch was then served in the church.

The afternoon services began promptly at one o'clock at which time Miss Ruth Dowling rendered a beautiful solo. Which was followed by talks from Mrs. Camp, of Lubbock, also Mrs. Moore of Seagraves, and Mrs. Adams of Slaton. Miss Elizabeth Downing sang a most beautiful song after which Mrs. Evans spoke. Mrs. Woolridge gave a most interesting reading, to the delight of all.

The visiting delegates and friends were Mrs. A. B. Davidson and Mrs. Adams from Slaton. Mrs. Evans, Mrs. Talley, Mrs. Camp and Mrs. Royalty from Lubbock. Rev. A. D. Jameson and wife and Mrs. Smith from Seagraves were the visitors.

#### FIVE NEGROES HURT IN SHALLOWATER TWISTER

LUBBOCK, Oct. 3.—Five negroes were injured, two of them rather seriously, when a house on the Myrick farms, west of Shallowater, was destroyed by a cyclone shortly after 7 o'clock Friday evening. There were 12 negroes in the building at the time the storm struck, though seven of them escaped injury.

The twister preceded the rain which started Friday night and continuing over Saturday, was still falling last night, deluging the already drenched South Plains.

The Shallowater twister destroyed several other buildings and out-houses in the community, farm machinery was scattered to the four winds. Heavy timbers were driven four feet into the ground while wire fences were rolled into large balls.

The storm came without warning though dark clouds had been forming for several hours. A heavy gale passed over the community shortly before the tornado struck, but as it spent itself citizens of the community felt the worst was over and many of them were at their tables enjoying the evening meal when the crash came.

The wind was traveling at a rate of 70 miles an hour and smaller houses could not have withstood it even had it been straight. It came from the southwest and moved in a north-easterly direction.

Cyclones in this section are not unknown, though they are uncommon.

#### SOMETHING IN A NAME

A barber by the name of Terrell flipped a coin to see for what state office, he would announce in the July Primary. The office of State Land Commissioner won, and the barber without a moments preparation, and without spending a penny, writing a letter or making a speech, lacked only 35,000 of defeating a man well known in the state and probably the best qualified man for his position who has recently held office in Austin. That is certainly a fine comment upon the efficiency of the primary system, and of the intelligence of 300,000 voters who voted merely for the name without knowing a single thing about the man for whom they cast a vote.—Randall County News.

In the primary election there were four Terrells running for as many different state offices. Three of these were holding offices and so far as we know were making good ones. Anyway the name had been pretty lucky, and the one The News has reference to came near defeating the most popular Candidate in the past decade.—Crosbyton Review.

#### 90,000 ACRES GO ON MARKET NEAR LEVELLAND

Announcement was made Wednesday that 90,000 acres of the Spade Ranch, located from six to eight miles east of Levelland has been subdivided into labors and will be sold to actual settlers on easy terms.

About 100,000 acres of this ranch has already been sold to actual farmers.—Levelland Herald.

Circle A. of the Baptist church, quilted two quilts for the Buchner Orphans Home, Tuesday.

Dee Elliott and Cy Tankersley made a business trip to Levelland, Tuesday.

#### DAILY SERVICE FOR MEADOW RURAL ROUTE

Postmaster Harvey Blackstone informs us that he received a telegram from the department at Washington, Saturday that Route One out of Meadow would receive daily service beginning October 16th. This route has been a tri-weekly service heretofore, and really has been in opera-

tion only a few months. With the concentrated efforts of Postmaster Blackstone and one Mr. Retman, the carrier, and the co-operation of people living on the route has it been made possible that this added service be established.

Mr. Blackstone says he certainly appreciates the help given him by the people, and promises them the very best possible service.

The contemplated route for the second route was gone over again and the improvement is expected to be here soon to show the situation and it is believed before very long Meadow will have two routes, the latter being a tri-weekly service for awhile of course.—Crosbyton Review.

#### NOTICE OF SALE OF REAL ESTATE

State of Texas  
County of Terry  
In District Court of Terry County, Texas.

D. B. Watson, Plaintiff vs. L. A. Jungman, Defendant.

Whereas, by virtue of an order of sale issued out of the District Court of Terry County, Texas, on a judgment rendered in said court on the 1st day of August, 1926, in favor of D. B. Watson against L. A. Jungman, No. 926 on the Docket of said court, I did, on the 28th day of September 1926, at 9 o'clock A. M., levy upon the following described tract of land situated in Terry County, Texas, and belonging to the said L. A. Jungman, to-wit: Being the West one-half of Section number 78 in Block 4-X, E. L. & R. R. R. Co. Certificate number 1273; and on the second day of November, 1926, same being the first Tuesday in said month, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on said day, at the court house door of said Terry County, I will offer for sale and sell at public auction, for cash all the right, title and interest of the said L. A. Jungman in and to said property.

Dated at Brownfield, Texas, this 28th day of September, 1926.

F. M. Ellington,  
Sheriff of Terry Co., Texas

#### BALLARD-BROTHERS

The marriage of Mr. Frank Ballard and Miss Blanche Brothers was quietly solemnized last Sunday afternoon at 3:00 o'clock in the county courthouse by Judge H. R. Winston. Misses Geneva Brothers, Jewel Graves, Irene Lindley and Messrs Fred Youree and Howard Swan were attending witnesses.

The charming bride is the daughter of Mr. and Mrs. Pat Brothers, of this city, and is a popular member of the younger social set of the town.

The groom is the son of Mr. and Mrs. E. D. Ballard, also of this city, and is a young man of sterling qualities. He is in the employ of the Burks Plumbing Co.

A beautiful shower was given in their honor Wednesday afternoon at the home of Mr. and Mrs. W. B. Downing.

#### ANTHONY-DUKE

Mr. Earl Anthony Jr. and Miss Jo Freda Duke quietly stole a march on their many friends when they motored to Levelland, Texas, on Friday Sept. 24th, and were married. Rev. B. W. Taylor officiating.

The groom is a promising young man, the son of Mr. and Mrs. Earl Anthony Sr., proprietor of the Enterprise Market & Grocery.

The bride, a charming and popular young lady among her social set, is the daughter of Mr. C. D. Duke, of Meadow. She was spending the winter here with her sisters, Misses Lela and Kate, attending High School.

The S. S. S. Club, of which she is a member, honored them with a shower Monday night at the home of Mr. and Mrs. R. L. Bowers. The club members and invited guests, comprised a goodly crowd and a pleasant evening was spent. They were the happy recipients of many pretty and useful gifts.

This article should have been in last week's paper and the Herald is sorry it was overlooked.

S. W. Ragland, of Wichita Falls, general manager of the Shamburger Lumber Co., was a business visitor here this week.

#### PERFECT MEAL HAS NO GRAVY, OR NO SPUDS

CHICAGO, Sept. 24.—With a noted dietitian lecturing them before each course of the efficiency of the food they were about to eat, delegates to the 15th annual convention of the American Association for Medical-Physical Research sat down Friday night to what was said to be the first "perfect banquet." There was no ice cream, no potatoes, no olives and no gravy.

Mrs. M. Lewellen and wife, of Brownfield were here Friday on their way to Lubbock. They spent the night at the Brownfield Hotel.

Mrs. H. M. Collough and daughter, of Levelland, were waterbound here Friday night.

**TIME TO CHECK  
IMPERIAL MOVEMENT**

The continued breaking down of the restraints of the constitution on federal government; the continued usurpation of state powers, rights and functions by the federal government; the continued impairment of local self-government must result inevitably in federal empire and a vast bureaucratic establishment regulating all the affairs of the American people.

The American people probably do not fully realize what is happening, but they are beginning to realize it. They are beginning to understand what federal expansion and federal interference with business and personal conduct mean in the destruction of initiative, hampering of industrial and commercial activities and impairment of individual rights and liberties. We have gone far on that road, and there are signs of popular revolt. They are gratifying signs.

It is high time for the American people to check the imperial movement. It is high time to decide once and for all whether we shall retain the republic, or undertake empire; whether we shall have constitutional government, or government from Washington by Federal bureaus. That is the big issue, and includes all the lesser issues.—St. Louis Post-Dispatch.

**TECH TALKS**

By a Student.

The Schrieners from Kerville and the Tech Matadors battled to a scoreless tie Saturday afternoon on the sodden water covered field.

By Sept. 27, one thousand two hundred and eighty seven students were enrolled in the Tech.

A total of 725 students are enrolled in the school of Liberal Arts. The remainder are divided among other departments, the schools of Home Economics, Agriculture and Engineering.

A fair number of the 48 states are represented at Tech.

The college now has a full fledged postoffice department, which is located in the east wing of the administration building.

The Hemphill-Price Co., of Lubbock, recently presented the Matadors with twenty fine athletic blankets with the Tech colors of crimson and black, and the design of the bull fighter in the center.

Friday Oct. 8th, the Matadors will have the opportunity of trouncing the St. Edwards football eleven at Lubbock.

Mr. and Mrs. John S. Powell were Lubbock visitors, Monday. They were accompanied by Mrs. C. R. Baldwin's mother, who was on her way home at Clarendon after a visit here with her daughter.

Mr. and Mrs. Rusk, of Midway, on the Brownfield-Tahoka road, were in our city, shopping, Tuesday.

The Biggest Picture Sensation in Years!  
ERICH VON STROHEIM'S  
*The MERRY WIDOW*

Pathe News and "Fighting Hearts" Adm. 10 & 35c

Note: On account of an engagement with The Cowboy Band of Simmons University for Tuesday night, "The Merry Widow" will be here

## One Day Only

## The Famous "Cowboy Band" of Simmons University

Besides the program of the classics, the old Southern songs, and a sprinkling of popular numbers, the Cowboy Band is offering this season a group of the old time COWBOY songs. There is a genuine appeal in these old songs, both to the musician and the general public. Most of these Cowboy songs originated in West Texas and the Plains country, and along the Mexican border.

With the Cowboy Male Quartette, the Saxophone Sextet, the Whistling Cowboy, and the Trombone Soloist, the management is offering an hour and a half of real entertainment that appeals both to the musician and the public in general.

On the screen  
"The Road To Glory"

Adults 50c Children 10c

No seats will be reserved. All Children Occupying Seats Must Have Tickets.

**4 1-2 MILLION MORE  
BARRELS APPLES**

The commercial apple crop of the U. S. this year is 4 1-2 million barrels larger than last year, according to U. S. Department of Agriculture estimates. Apples are the most important of our fruit exports, western states leading in box and eastern states in barrelled apples. Canada is the chief export rival of the U. S. The United Kingdom and Germany are the heaviest buyers, Europe buying \$23,000,000 of our apples last year. Special washing machines are being

used this year by growers in the northwest to get all spraying material off the fruit after picking, as English growers hurt the trade with considerable newspaper propaganda last year on this angle of spray material. Yet the sprayer has made possible the development of this huge business, built on No. 1 fruit without a wormy apple in a box. Sub-soiling, cultivation, irrigation, dusting, and disking are also practiced.

The value of railroads in Texas is more than \$700,000,000.

**ONLY ONE MONTH TILL  
ANNUAL CONFERENCE**

As the Annual Conference for the Methodist Conference is coming to its close, and there remains much yet to be done, the pastor, Rev. J. G. Thomas is putting on an intensive campaign for church attendance and Sunday School attendance.

With the opening of the fall term of school many new faces are to be seen in the church. But many more who are not availing themselves of the religious environments which is being created in the church should by all means be present. The church cannot come to a glorious conclusion of its year's work with any members either tardy in attendance or in financial support.

A heavy burden of debt is hanging over the church building as well as other benevolents which are very urgent in their claims. It is too much to expect that every member of the church will put a consecrated heart into the work of the Kingdom of our Lord? We think not.

The pastor is planning for a special program next Sunday. A program that will encourage and uplift to greater things. May we not expect every Methodist to be present? And we most earnestly invite any and all who are not in religious services in the other churches of Brownfield to at least visit with us Sunday.

J. G. Thomas.

**CATALOGUE SEASON**

Overheard in a department store: Clerk: "Something for you, madam?" Farmers wife. "No, I just received my catalogue and we order everything." This woman and two children were in the store resting, occupying the seat that should accommodate those wishing to try on shoes. The other three children were running around the store and getting in the way of customers. Is this fair way to treat your home-town merchants? You accept their courtesies but refuse to give them an opportunity to sell you a part of your needs.—The Plainview News.

This kind of a situation does not apply, except perhaps in an extremely small way, in Rotan. People do not order very much. They buy all their needs in Rotan, because the Rotan merchants have what they want at prices as cheap as they can order them, and the merchants advertise in the Advance, which offsets the advertisements of the mail-order catalogue. Look over the Advance each week, and you will see the "store news" of practically every business firm in town that makes any pretense of really merchandising.—Rotan Advance.

**TIME RIPE FOR AD-  
VERTISING FAKIRS**

There will be a thousand and one foreign advertising schemes presented to our merchants this fall. In fact it has already started and numerous kinds of out of town advertising propositions are being proposed to our merchants. Of course you are going to advertise, this is a necessary part of your business life, but the most far reaching and advantageous medium you have is your home town paper. It shares your sorrows and your joys, it is with you through thin years and through prosperous years. It pays heavy taxes into the school, the city and county treasury. It reports your church affairs and your building program. It boosts your fair, your good roads, your productive lands and searches the vocabulary for further and more convincing expressions and emphasis. It rejoices when you rejoice. Don't you think that the home town paper is the place to advertise?—Crosbyton Review.

Alpine—\$150,000 new building planned for State Teachers College.

**NEARLY NINE INCHES OF  
RAIN IN TWO WEEKS**

In conversation this week with Mr. Jno. B. King, who keeps the local rain gauge, he informed us we have had nearly nine inches of rain in the past two weeks, which is the record probably for two weeks, and stands next to August 1914 when we had nearly eight inches for the month.

There was so blamed much rain for the past two weeks and especially the latter part of last week, when we had about four inches Saturday and Saturday night, that people began grumbling more than we ever heard about dry weather in this man's country.

We hope it is done for at least the next six months.

A. M. McBurnett, made a trip to San Antonio the last of the week to secure cotton pickers, but failed in his attempt.

The last vestage of the old court house was removed this week by the purchaser, Will Adams. He is going to build farm houses with the lumber.
