By the Secretary

Every few weeks, some sucker blows into the country and gets a bunch of farmers together and offers them from fifty cents to one dollar per acre oil lease on their land and a drilling contract, but before they can get a block up to take advantage of the offer, he blows out and within a short time another one takes his place and puts out the same kind of bunk. I have devoted considerable thought to the matter trying to think why this was done and believe that I have it figured out.

Not within recent years has any new oil field been opened up by one of what is termed the 'BIG OIL COMPANIES' it is always done by an Independent and the large companies have all of the territory in proven fields that they will be able to develop within the next twenty years and do not care to see any new fields, so for that reason they either lease up alternate sections in a county in order that it is not possible for owners to block for a test or they use other methods of prevention, and it is practically certain that they are back of the fellows that come into the county and offer to pay for leases and give drilling contract. The owners become confused by this and refuse to block for tests unless paid for use of the land. Now fellows it just simply is not done in wildcat territory. If this was a proven or semi-proven field, it would then be salable but it is not and the sooner our land holders realize this the earlier drilling tests will be made in this county. Now here is what is liable to occur: If the present Brownfield test should come in dry (and there is no certainty that it will not) it will be next to impossible to get a drilling contract for the next few years and men that are expecting riches this year are likely to be badly fooled. At this time however considerable interest is being manifested by wildcatters and if acreage in sufficient quantities is placed at their disposal, we should have at least three more tests drilling by the early summer months. This office has letters from three different companies and individuals who desire to secure acreage for drilling and agree to begin for 3,500 foot tests within four months from time that contract is signed but up to this date we fall short of the required acreage.

Six weeks ago the writer predicted that Terry county would sell 200,000 bushels of corn and that by the time that all cotton was marketed and all corn sold that we would be in better financial condition than we were at the beginning of 1926. I think that statement has been verified. But we are going to sell more than 200,000 bushels of corn and as cotton has taken a substantial raise, times are going to be even better than we had any reason to hope for. Several merchants who have been interviewed, report a better business for January and February than they had in the same months last year. Now lets all get busy and forget the sandstorms of last November, plant plenty of cotton, corn and other feed stuff and don't forget the cow, sow and hen and we will come out on top for 1927.

Those who attended the dairy meeting last Saturday at the Brownfield Hardware Company show rooms were well repaid for their time and those who did not go, missed an interesting and instructive lecture on modern methods of dairying. As most of you know, the Tahoka and Brownfield bands combined in a concert in our district court room Sunday afternoon and it was the first of a series that will be staged during the spring and summer months. Next Sunday, they will play at Tahoka. Lets get up a BIG crowd and go over and meet our friends of Lynn County.

Following is a list of bulletins just received from the United States Department of Agriculture: Popcorn for the home. Grape Propagation, pruning and training. Orchard bark beetles and pin hole borers and how to control. Apple bitter rot and its control. Leaf blister mite on pear and apple. Apple orchard renovation. Apple scab. Pruning. Management of sandy land farms. Diseases, ailments and abnormal conditions of swine. Hog cholera. Pork killing, curing and canning. Feeding of dairy cows. Capons and caponizing.

METHODIST REVIVAL ANNOUNCED

Beginning July 31st there will be a revival meeting under the public Tabernacle at Brownfield. The meeting will embrace a two weeks campaign, and we most earnestly invite the co-operation and attendance of all the people of the community. On account of so many revivals last summer the Brownfield Methodist church did not have a summer meeting. But this time we feel that if there is not room for all denominations to have a summer campaign without conflicts, that others should do as we did during the past summer. As pastor, it has been a pleasure to serve the Brownfield community, and we hope and pray that our stay in Brownfield may continue pleasant and profitable to all until we shall have finished our work here.

Please don't forget the above announcement, and make your plans to attend the revival.

J. G. Thomas, Pastor.

More Weather—Also It Was Worse Too

It began to look ugly again Saturday, and by Sunday it was rather cold and disagreeable generally. Sunday night the clouds began to bank and everybody looked for snow on the ground Monday morning. But as usual the Plains weatherman got the better of the argument, for by midnight it was thundering and lightning to beat the band, with occasional showers. Even we old timers could hardly believe our ears, but just the same it was so.

Monday opened with a murky sky with a mist all day. March 1st opened fair, but with plenty of ice, which despite green grass and weeds everywhere showed that winter is not over. Fair and warmer is predicted for the next few days.

NATURAL GAS AT MULESHOE FIRED

MULESHOE, Feb. 28.—A "show" of natural gas, ignited due to unknown causes, early today started a fire which resulted in the demolishing of the rig and engine house of the Humble Refining Company's Capital Syndicate Number 1 oil and gas test well reports reaching here late this afternoon said.

First reports coming to Muleshoe said that the conflagration had its start in the fuel tank, from which it spread to the derrick and engine house. Later reports, however, stated that the fire started from a showing of natural gas in the hole while the morning tower was drilling at approximately 1,500 feet.

Immediate steps will be taken to replace the damaged machinery and to rebuild the standard derrick. The test will be drilled at least to its contract depth of 3,500 feet, it is stated. It is going down on land owned by the Capital Cattle Syndicate, and is located approximately eleven miles north of here.

REV. MARKHAM GETS SHAD- OW IN BAPTIST PAPER

The Herald was hardly prepared this week to view the likeness of one of our most prominent local ministers in the West Texas Baptist, printed at Abilene, but there it was just the same.

Under the picture was quite some complimentary pen pictures of Rev. Markham, and the work he had accomplished as missionary of the Brownfield Baptist Association. We also learned that he has resigned as missionary, and is looking for pastoral work for the present. We hope he may find such work near Brownfield, and that it will not be necessary for him to leave our city.

Saturday a Great Day In Brownfield

Great crowds surged around our streets Saturday, and they did not come to see and be seen either for they were packing away some goods for future use. A number of our merchants had put out some specials for the day, and the people were buying to beat the band. One grocery merchant reported sales of more than \$1,000 Saturday.

We tried to make the rounds of all the stores, and everywhere we found them busy, no matter what their line, especially those who were offering specials. This is but another demonstration that farm people read ads. If you don't believe it, just try it one week and be convinced. If you are overstocked on some line, put on some real bargains for one week, and you will be a regular advertiser thereafter.

At the Brownfield Hardware store a goodly crowd of both men and women from the farms surrounding Brownfield listened to Mr. O. C. Rose representing the DeLaval Separator Co. lecture on the use and care as well as the profits to be derived from the separator on farms where five or six or more cows are kept. He also had on exhibition a milkster, the first many had seen in this section. His talks were more as man to man, but were real interesting even to those who have no cows nor expect to have any. The benefits of his visit here may not show up this year or even next to a great extent, but for years to come, his talk was beneficial to those who contemplate the required number of cows as they grow them in the future. In other words, cream separators may be sold here on the strength of his visit for four or five years in the future.

The time of year has arrived when spring apparel, especially for ladies is in demand. You know they shed winter togs sooner than the male persuasion. Therefore, the dry goods and millinery sections were doing a good business as well as the grocery-men and hardware men. Even the garages felt the call of travel in replacing old tires and tubes now that spring is opening. Also at the bank, there was not much time for keeping books, as it kept all hands and the big bosses at the windows to wait on the multitude. With cotton (bollies) back to nine cents and above, and corn bringing better than 40c, some money is still rolling in gradually, but surely.

With the opening of spring with the greatest deep season in many years, he who cannot see a rosy year ahead is a hopeless one. Therefore it behooves us to forget the early fall with its telling price drop in cotton, and look to the future when we expect to sow, reap and sell just a bit of most everything to bring in new dollars.

MRS. DR. SCHOFIELD DEMONSTRATES COFFEE

Mrs. Dr. A. F. Schofield, wife of one of our local dentists, who is keeping the children in Lubbock for the benefit of the Tech College, was here Saturday at Bailey Bros. store demonstrating Morning Joy Coffee, which by the way is a rather new brand in Brownfield. The coffee is manufactured in New Orleans, which for more than a century has been noted for its good coffee.

The coffee was of fine flavor and deliciously fresh, but we did not depend altogether on our own taste, but stood around long enough to catch the comment of others. These comments were freely given to us apart from the demonstrator, and as such were not intended to flatter the demonstrator. They were all favorable.

CHINESE ELM IS THE BEST SHADE TREE

According to information received from the County Agent C. B. Martin the Chinese Elm is one of the best trees to plant in this section for quick shade. He states the tree is adapted peculiarly in this section, is one of the prettiest shade trees and is very durable.

Mr. Martin states that these trees can be had from Experiment station at Lubbock at 50 cents each.

Plant trees and more trees make Lamesa the shady spot of the Plains.—Lamesa Reporter.

The backbone counts for more than the wishbone.

Prominent Farmer Says Too Much Knocking

We listened attentively to one of the most highly respected and influential farmers of Terry county last week while he was telling a few of us business men what knocking was doing for the country, and needless to say, all of us felt the force of the rebuke, and not an untruth did he utter.

He said that he could get out on the streets, and on an average about the sixth to tenth man was a booster; the rest were knocking the country and the people to beat the band. He inferred that there would be much less knocking among the farmers if business men would close up awhile and give us a rest. He said he knew that lots of people were so constituted that they could never see the silver lining in the dark cloud, but he never had at any place where he had ever lived seen them go in droves like they do here.

This farmer, whose name we have no right to disclose, went on to say if some of these business men and farmers would stop knocking long enough to take invoice of the conditions here and compare them to other sections, they would find us far from the brink of ruin as some point it, and we could then take another hit in our suspenders or belt as the case might be, and go along fine. He said there was nothing the matter with the country. It had produced a bumper crop of all kinds, but the trouble was the people in blaming the country for low prices when that was a condition no one can help without extra acreage reduction.

He also gave his opinion on advertising, one feature that not many farmers ever offer any suggestions about, but let us say that from what we could gather from his conversation, he was a firm believer in advertising and himself makes them pay him in getting what he wants of the brand he wants and at prices that suit him in getting what he wants of the brand he wants and at prices that suit him. He cited a number of people and firms that are growing in financial giants by the use of legitimate advertising, and others who are losing ground without the use of it.

To say the least, it was refreshing to hear the other side of conditions discussed by a real intelligent farmer.

IT PAYS TO STAGE A POLICE RAID

"The Captive," "Sex," and "The Virgin Man," branded as so many carloads of assorted obscenity by a Pollyanna public which has supported them for several months, were raided by New York police last week and the entire casts hustled into police court and placed under bond. The higher court immediately responded by granting an injunction against further interference. "The Virgin Man," on the verge of financial failure for the last three weeks due to light attendance, was forced to move to a bigger theatre in order to accommodate the enthusiastic crowds drawn by the publicity resulting from the police raid on the show.

Mr. John S. Sumner, head of the New York Society for the suppression of vice, is given the credit by theatre managers for saving "The Virgin Man" from being a total flop.

PECANS CAN BE GROWN ON THE PLAINS

By Wm. A. Wilson

John D. Hogg, at Key, South East of Lamesa, declares that pecans will grow and produce well in Dawson county.

He has a tree that is 10 years old produces a good crop of excellent pecans each year. The pecans are large and as well flavored as any pecan sold on the markets here.

They say pecans won't grow here but when we see a thing with our own eyes we know it. They will grow here and not only make an excellent shade but produce fruit.

Everybody plant pecans and "kill two birds with one stone." "Make Dawson county the home of the fruit bearing shade." Plant a Tree!—Lamesa Reporter.

Prof. J. B. Jackson dropped in on us Saturday to renew for his paper. Some folks say teachers as a rule are slow pay, but this one always gets in on the date or just before his paper expires.

Rotary Club Organized In Brownfield

Some two or three weeks ago Neil Wright of Lubbock came to Brownfield with a Rotary bug in his head and sold the idea to Tom May and Earl Alexander who composed a committee to investigate and see if Brownfield citizenship was interested in forming a Rotary Club for Brownfield and through the efforts of this committee a supper was served at the Hotel Brownfield on Thursday night February 21st with the following present:

Glen Harris Morgan Copeland
Tom May W. G. Harris
J. E. Michie Jim Thomas
Bob Bowers Luther Cruce
Arnett Bynum Homer Winston
Albert Endersen J. F. Winston
Henry Alexander Chris Quante
Ben Hilyard Flem McSpadden
Clyde Lewis Claude Hudgins
Ed Shelton Clint Rambo
Dr. Schofield Will Alf Bell
Earl Alexander

After the most enjoyable and best prepared supper to be had any where the meeting was called to order by Neil Wright who acted as toastmaster for the evening.

The first talk came from Roscoe Wilson who raised the curtain so those present might have more light.

Paul Horn, President of the Texas Tech at Lubbock, was the next speaker of the evening. He gave us in a brief manner some of the things for which a Rotary stands, what it is and who may become members.

The Chair then called upon Jed Rix who told us something of the entertainment for the club while in session.

Judge Kilpatrick gave some of his experiences as a Rotarian. Then came A. B. Davis and with his usual pep and originality told why the Rotary Club would not interfere with the Chamber of Commerce work or any other connection of similar nature.

We finally arrived at a point to organize or suspend for the present and Tom May moved that we go into permanent organization which prevailed without a dissenting vote.

Will Alf Bell, Glen Harris and Albert Endersen were appointed as a committee on constitution and by-laws.

The Chair appointed a nominating committee composed of J. F. Winston, Dr. Schofield and Rev. J. G. Thomas. Those nominated and elected to serve as directors for the first year are as follows: Tom May, Bob Bowers, Morgan Copeland, Homer Winston, Earl Alexander, Will Alf Bell and Luther Cruce. The directors met immediately and elected Morgan Copeland, President, Tom May, Vice-President, and Luther Cruce, secretary.

A number of other citizens who for one reason or another were unable to attend the banquet have become charter members since the above was written.

District Telephone Manager Visits Our City

Mr. E. L. Curb, district manager of the State Telephone Co., who is now making Tahoka his headquarters, dropped in to see us last week, and became a regular reader of the Herald. We found Mr. Curb a very, nice and sociable gentleman, seemingly with the interests of their patrons at heart as well as the company. He seems to want to give the very best service possible to the people of this vicinity.

One of the main things he outlined for the advancement of the system here was the building or rather promoting of rural lines, as the company is very shy on such here, and they intend trying to interest communities in building their own lines, and charge only a minimum price for connection with central. If these rural people do not care to purchase their own phones, the company will lease them a phone at attractive prices.

Mr. Curb also informed us that the company was in the near future going to undertake an advertising campaign for the purpose of educating the public to the necessity of and usefulness of the telephone as a public utility, a share of which he said would be given the Herald for Terry county people.

There is no time like the present.

Ford Mileage Test Proves Very Interesting

With a cold damp northeast wind blowing a thick mist, and the roads rather sticky Monday morning, it was thought for awhile that the Ford Mileage Contest would consist of only three or four at the best, but as the hour arrived for the start, the new models began to show up, and an even dozen drove away from Tudor Sales Co. building to compete in the contest, each with hopes of winning the preliminary and be entitled to enter the grand finals at Lamesa on Wednesday. As this is being written before the Lamesa event, will try to get results by phone in time to supplement this article.

Some time was consumed in draining the tanks and priming up for the run, many of which had new oil put in as well as the gallon of gas, and our wholesale oil men vied with each other in a good humored way to test their products on the run. The last car left here well on toward eleven o'clock. They were followed by a supply tank for return gasoline, as well as the car containing Mr. Tudor and the judges, Messrs Will Adams and J. W. Lasiter. Quite a large crowd breasted the northeast to jolly the drivers before they left.

The following is a result of the preliminary here, including name of driver and mileage:

Name	Miles
Anna Lois Easley	20 7-10
Jim Bell	22 8-10
Ben Hurst	23 5-10
Tom May	24 5-10
A. A. Sawyer	24 5-10
Slim Black	26
L. P. Price	26 2-10
A. Stipe	27 6-10
Dr. Bell	28 1-10
T. E. McClish	33 3-10
Bob McDonald	33 8-10
George Green	36 4-10

Average 27 3-10

Mr. T. E. McClish and Mr. Geo. Green will represent Brownfield at the grand final test at Lamesa. Mr. McClish will drive a roadster and Mr. Green a closed car.

Of course some of the boys went five or six miles beyond Tahoka and some ran out of gas about ten miles this side, but considering the roads and the fact that they were pulling a stiff wind, we consider they did mighty well, and are going to give somebody a run for their money at Lamesa.

SAYS TOBACCO KIND TO HER THROAT

Tobacco companies, long planning an appeal to women, summoned their nerve last week and did it. Madame Schumann Heink was their particular vehicle for this occasion, appearing in a 40-inch spread in papers all over the nation, and quoted as saying: "I like Lucky Strikes because they are kind to my throat." The psychology is obvious, at first thought, and not quite so plain after a second. "Perhaps," reasoned the tobacco companies, "if the public finds that Schumann Heink smokes cigarettes and is solidly respectable and virtuous at 65, then no woman need conceal her smoking."

Will Rogers also wrote advertisements for tobacco companies, but he was good enough to get it over without saying he smoked that kind of tobacco. Fact is, Will Rogers stated flatly that he didn't smoke. Madame Schumann Heink was lured, just as was Rogers, by a check probably equal to two year's ordinary income.—Canyon Normal Prairie.

SOUTH PLAINS HATCHERY TAKES OFF FIRST BATCH

The Plains Electric Hatchery, Albert Neuschwander, manager, took off its first hatch from 4,000 eggs the first of the week. The hatching was very successful, yielding a high percentage of White Leghorn, Rhode Island Red and Buff Orpington chicks.

The management is this week making a setting of 12,000 eggs of various breeds. He says he has a large number of orders on hand now and orders for custom hatching are now being turned in every day.—Littlefield Leader.

E. L. McDonald of the Farmers Gin informed us that he ginned 50 bales of cotton last Saturday, and that it appeared that all the gins were busy. This sounds like mid November instead of the last Saturday in Feb.

A certain sea captain and his chief engineer, tired of endlessly debating which the ship could more easily dispense with, decided to swap places for a day. The chief ascended to the bridge and the skipper dived into the engine room. After a couple of hours the captain suddenly appeared on deck covered with oil and soot, bruised as to one eye and generally

the worse for wear. "Chief!" he called, wildly beckoning with a monkey-wrench. "You'll have to come down here at once. I can't seem to make her go." "Of course you can't," said the chief, calmly removing his pipe from his mouth. "She's ashore."

SENATOR HEFLIN ON MEXICO

"When Congress adjourns and the people's representatives have gone home, as I said before, something will happen here at Washington, or down there, and the matter will have proceeded so far that probably there will be nothing to do but go to war with Mexico, as the Knights of Columbus planned in Philadelphia," said Senator Heflin recently in the Senate.

The Senator also asserted and introduced much proof to show that he had not injected the religious question in the Mexican issue but that this had been done by the Knights of Columbus in their demand for intervention in the affairs of Mexico by the United States at their meeting in Philadelphia.

He read statements from the pamphlets entitled Red Mexico which are being broadcasted by the Knights of Columbus, and from Catholic papers purporting to show that they desired war in Mexico, and he also stated that they had bitterly attacked him for his stand in Congress.

Mr. Heflin continued, "Why, Mr. President, have I raised a religious issue? Who started this move to involve us in war with Mexico? Who introduced that House resolution? A Catholic Member of Congress. Who sent their messages of support by telegrams to be presented to the House committee? Catholic religious societies. Who wrote the resolution at Philadelphia? The Knights of Columbus, a Roman Catholic organization. Who raised a million dollars to carry on their propaganda against the announced course of this Government with regard to Mexico? The Catholic Knights of Columbus. Who is flooding the country now with pamphlets on Red Mexico assailing and contradicting the Government's position and its information on the subject? The Knights of Columbus."

G. W. Webb of the Johnson community was in Saturday and informed us that he was moving to Abernathy country to make that his home for the future. He had us change his paper to that place.

K. Sears was in Saturday and informed us that he had recently sold another fine baby beef, and was now fattening another for canning purposes to run them through the summer.

Work on the Electric Light Plant building is going right ahead and it will soon be completed. It is a brick-tile building and will add much beauty to our town. The engine arrived the first part of this week and we understand that everything will soon be ready for operation.—Seagraves Signal.

3 Tests for — good gasoline

MAKE sure that your gasoline isn't "one-sided." Perhaps it's a good starter, but it may also be a poor finisher. Good gasoline has endurance.

For real efficiency your gasoline should check three ways: (1) for ready starting, (2) for rapid pick-up and (3) for power and mileage.

Conoco, the Triple-Test Gasoline, meets these three requirements. It passes the efficiency test on every count. It is the real motor fuel for year 'round economy and satisfaction.

The long experience back of Conoco Gasoline and the high reputation which it has won for itself in fifteen states are your assurance that it will deliver more and better miles of motoring satisfaction.

To get it, make sure that you deal only at those pumps where the Conoco sign is displayed.

OWN YOUR OWN HOME

The San Francisco Chronicle, in its campaign for home ownership, recently ran the following editorial:

"When a primeval woman first found a drier and safer cave in which to keep her young, and persuaded her savage mate to defend it against intruders, there began the Own Your Own Home movement. There also was laid the foundation of stable human society, of the arts, sciences, and all that goes to make up civilization.

"The principle is no less potent today than it was in the beginning. In proportion to the ownership of homes, society is stable. The more homes that are owned, the more persons have a stake in the community and the greater the number working for the common good.

"And the rule works both ways, for the accumulated benefits of civilized society are shared first by the home owners. They have a permanent lien on the blessings of peace and order and permanency.

"Home ownership is a stimulus to thrift, and a material assurance of security in old age. It is a practical training in good business methods for the children of the family. It cannot help but be an aid to the commandment, 'Honor thy father and thy mother.'"

You would be a heap more popular if you spent as much time boosting your friends as you do knocking your enemies.

OVERLOOKING A BET

When a marriage occurs in one's family he likes to see mention of it in the local paper. When his folks are visiting or visited, he expects to see it in the paper. But when, by sending to some city, he can get printing done a little cheaper, he frequently overlooks the fact that his home paper is employing help and paying them money every week, part of which is pretty sure to be spent in his place of business, deposited in his bank, paying taxes to support the town, keeping the community around informed as to home news, inducing trade to come to town, etc., while he ignores home efforts and for a few paltry cents sends to some other city where a press run by a twenty-five-cent boy gets out bills, noteheads, etc., on inferior paper and inferior work for only a few pennies less than he would pay for a good job at home. —Russell (Kans.) Record.

According to Capt. Billy, Deacon Miller bought a horse and buggy and took his wife out on Sunday for a drive. They came to our neighboring town of Osseo and saw a sign which read: "Speed limit 15 miles per hour."

"Here, ma," said the deacon, excitedly, "you take the lines and drive, and I'll use the whip. Maybe we can make it!"

MARIE HEARD FROM

BUCHAREST.—In Queen Marie's opinion the low price of Henry Ford's product permits American workmen to enjoy their Sundays in the country. Apparently she did not notice that many of those workmen have other kinds of cars.

Farwell—State line road out of here being graded.

Every life is its own excuse for being, and to deny or refute the untrue things that are said of you is an error in judgment. All wrong recoils upon the doer, and the man who makes wrong statements about others is himself to be pitied, not the man he vilifies. It is better to be lied about than to lie. At the last no one can harm us but ourselves.

After all, perhaps, it is better to remain silent and be thought a fool, than to speak out and remove all doubt.

Somebody is always finding out something new and good as well as evil. Now comes some one saying that freshly popped pop-corn served with sugar and cream is better than any of the other so-called breakfast foods, and it can be manufactured in any kitchen. Why not try it. Pop-corn can be raised here easily.

The Littlefield city council and school board seem to be getting real hard boiled with the younger generation of that city, and in a recent meeting instructed the nightwatchman to get into any cars and rush them in home found parked after eleven P. M. For the third offense, both boys and girls go to the hoosgow without any further preliminaries.

Rev. J. W. Wade announced in the last issue of the Jayton Chronicle that he was retiring as editor and publisher of that paper, and that L. F. Wade, whether relative or not, was not stated, is taking his place. Mr. Wade is a good writer as well as a splendid manager of a country paper, and we regret to see him retire from the work, but perhaps the ministry suits Mr. Wade better.

The Tahoka News recently paid the sand storm a tribute, after the reading of which, one almost wants to see and experience a good one. He gets real oratorical, and says among other things that our sandstorms are in keeping with other big things of West Texas, and come with great awe inspiring power, majesty and might. Pretty good, but we had never thought of it that way before.

Just as was expected, Mr. Coolidge vetoed the farm relief measure giving as his reason unconstitutionality as well as class legislation as it would have been a direct handout to a class. The Herald could never very well distinguish between a direct and an indirect handout for that matter, and for more than three quarter centuries the manufacturing class has been receiving an indirect handout. So is our beet and cane sugar growers. Why not the cotton and corn grower and the potato and wheat grower.

A. C. White, former publisher of

the defunct Meadow Messenger, but now publishing the Roosevelt County (N. M.) Herald at Portales, was recently victimized of \$158 by an employee, who quit one Saturday night with a pocket full of White's checks and wrote a number of them forging Mr. White's signature. Mr. White promises to make all checks good, but so far all trace has been lost of the former employee. Printers as a general rule are almost to a man trustworthy, and this is the first instance of this kind we have heard of. Occasionally, one comes along that will beg, but he confines his begging to the trade.

Thomas L. Blanton has several times been termed the watchdog of the national treasury, but he is sincerely hated by the grafter of every ilk and color. He has lately been censured, scored and victimized by the Washington press and officials because he tries to keep them from robbing the national treasury to keep their city going instead of paying its own way like other cities. Tom Blanton may be hot-headed and in some ways a little unreasonable, but he can ill be spared at Washington, and it seems there is no likelihood that he will be spared for some time to come. There is some talk of elevating him to the United States Senate, and even if he is not, there is no man in any neck of the 17th district that has ever held him a light to run by in a race for congress.

A JEW CAME TO TOWN

A Jew there was and he came to town. He brought a nice stock of goods with him and opened up a store. But he refused to tell the people about his "bargains" through the columns of the local newspaper. About the only advertising he did was to scrawl a few unsightly letters week after week on his windows or above his door spelling out the words "Sale" or "Bargains." And week after week, business refused to come his way. Today, his house is closed, his stock of goods has been hauled away to another city, and the Jew has left town. Moral: Not even a Jew can get by long without advertising. —Tahoka News.

ELABORATE SPRINGTIME LUNCHEON GIVEN LAST WED.

The beautiful home of Mrs. J. E. Michie was the scene of a most brilliant and elaborate party on Wednesday, February twenty third. The entertaining hostess being Mesdames Collins, Michie and Dallas. This group of entertainers united efforts resulted in an exceedingly lovely high-noon luncheon.

"Springtime" suggestions and motifs were apparent throughout, and predominated in the table decorations and luncheon dishes. The center pieces and place cards and stick-ups were lovely colored pansies and apple blossoms. Tallies were the old fashioned fans in colors to harmonize. Linens used were handsomely embroidered, also in "springtime" colorings. The luncheon was served at high noon with the following menu, in two courses: Spring fried chicken, asparagus and toast, creme carrots, celery curls, ripe olives cheese puffs, hot buttered rolls, cream gravy, petalied beets, pineapple salad, iced tea, orange sherbet, angel food cake and mints. Covers were removed and tables made ready for bridge, which was played an hour or more with the usual interest and enthusiasm. Top card was drawn by Mrs. Winston; low card, Mrs. Griffin. High favor was a gorgeous bouquet of fragrant carnations in pink and white. Vari-colored sweet peas was given for low cut. Both bouquets were tied with pink and green maline.

MRS. HURST CHARMINGLY ENTERTAINS FRIDAY 42 CLUB

One of the happiest gatherings for many a day was on Friday afternoon, February twenty fifth, when Mrs. Hurst was the charming hostess to the members of the Friday Forty-Two Club. "Sunshine" friends were remembered at this time when place cards identified names of guests present. Lovely and useful remembrances were opened before the game. The mystery friend remains unsolved for many months.

Forty Two was enjoyed for the usual time. The hostess was assisted by her sister Mrs. Dee Hunter and Miss Pauline Hunter in extending the many pleasantries of the afternoon.

JUNIOR CLASS CLEVERLY ENTERTAIN AT CHAPEL

Perhaps the most clever and amusing program of the year was planned and performed by members of the Junior class of High School, on last Friday morning at the Grade School auditorium, 9 o'clock. "A Mock Faculty Meeting" was most unique and the characterizations were well played. Bill Collins was Supt. O. W. Fagala, carrying an immense life-like doll as little Patsy Sue Fagala; Miss Ola Franklin was Mrs. Fagala; Fay Brown impersonated Miss Perkins; Mary Ann Bell played Miss Castleberry; Vonelle Holgate as Miss Lawlis; Helen Jackson was voted the greatest success as Miss Sue Crawford; Robbie Marion Hardin played very cleverly the part of Miss Phillips; Eddie Ballard assumed the part of Mr. J. B. Jackson, principal; Uyleas Graham as Mr. Tannery; Luther Tannery was Mr. E. G. Lewis; Vivian Winston played as Miss Birdie Fogle; Adolphus Smith's part was to impersonate Mr. J. Y. Taylor. The Junior feel complimented in having quite a number of good impersonators. Miss Helen Jackson and Mr. Bill Collins were the chief entertainers and delighted every one with their wit and cleverness.

F. A. S. CLUB ENTERTAINED SATURDAY AFTERNOON

Miss Rebecca May was hostess to the F. A. S. Club of young girls, on Saturday afternoon at her home at four o'clock. Six new members were added to the membership, since the organization a short time ago. Games were played and the next meeting will be taken up in sewing. TAHOKA BAND COMBINE WITH LOCALS IN CONCERT

Conductor Monte Barron of Tahoka with his band visited our city on Sunday afternoon and a band concert was given in the court room of the Terry county court house at four o'clock. Mr. John S. Powell, conductor of the local band joined efforts with Mr. Barron and the large building resounded with many stirring numbers, including a variety of selections and forms. The spacious room was well filled as the program began. The conductors alternately wielding the baton, brought forth much applause and appreciation on the part of the vast audience. Brownfield Band will return the visit on March sixth. An invitation is extended to citizens of our town to accompany the band. Mr. Powell with his usual courtesy thanked the Tahoka Band for the wonderful music and good neighborly feeling existing between them.

MRS. L. J. DUNN ENTERTAINS B.W.M.S. THURS. AFTERNOON

Possibly the greatest pleasure for many a season was given the ladies of the B. W. M. S. on Thursday afternoon, when Mrs. L. J. Dunn entertained a majority of the membership at her home in the country, east of town. The hostess always capable in all church and social life was especially gracious on this occasion. Novel entertainment was enjoyed equally as much as the lovely refreshments which followed the social hour. An old time spelling match was held using Books of the Bible as a spelling list. Exam questions on the Bible were given, promiscuously, in this. Mrs. Ivy Savage and Mrs. L. S. Pounds were highest in grades made. Extremely delicious refreshments were served of chicken sandwiches, hot chocolate, strawberry pie and creme whip, to Reverend and Mrs. C. E. Ball, Mrs. L. S. Pounds, Mrs. R. W. Rambo, Mrs. J. T. Auburg, Mrs. Ivy Savage, Mrs. R. C. Graves, Mrs. Gay Price, Mrs. K. W. Howell, Mrs. C. Hamilton, Mrs. Arch Fowler, Mrs. Curtis Huckabee, Mrs. W. W. Price.

The Maids and Matrons Club began the study of H. VanBuren Magongie's "Nature, Practice and History of Art" in the Club's first meeting in March. Mrs. A. A. Sawyer was hostess to the Club, with Mrs. Alexander leader of the lesson. Program as outlined follows:

2. What is Art.—Mrs. King.
3. Education of an Artist—Mrs. Bowers.
4. Art as an index of races and nations.—Mrs. Leo Holmes.

Review questions on primitive signs of stone and bronze ages, etc. A fair representation of the membership were in attendance. Mrs. Sawyer served Angel Food cake and pineapple mousse to the Club ladies.

LITTLE MISS ZELICA HOLGATE CELEBRATES BIRTHDAY

On Friday twenty-fifth at 3 o'clock the few invited friends enjoyed the fourth anniversary of little Zellica Holgate, baby daughter of Mr. Robert Holgate, at the home of Mr. and Mrs. S. H. Holgate. Miss Vonelle Holgate hostess, was assisted by Miss Mary Ann Bell. Suitable games and contests for the young guests were supervised by the charming hostesses. The happiest of all, perhaps, was the little honoree, a dear, sweet and lovable little girl, who has been a member of the Uncles family since babyhood and has received every care and in return has been sunshine in the hearts of everyone near and dear to her.

Hostesses served lovely refreshments to Eulee McPherson, Aubrey Wayne Brothers, Hall Wilson, Shelby Holgate, Charles Baldwin, LaVerne Cook, Rudelle and Ross Glover, Twilla Graham, Beth Hamilton, Mary Lena Winston, Grady Karr, Archibald Karr, Elray Scudday and Mary Nell Adams.

SCOUTS HAVE INCREASE IN MEMBERSHIP FRIDAY NIGHT

The organization of our local Scouts has been on the increase, and recently added several new names to their list. The boys met on Friday night at the Methodist church. In charge was the Scout Master, Rev. J. G. Thomas, and the assistant, Otho Flippin. A short business period was held, followed by the initiation of the

new members, viz, Jim Neill, Ray Brownfield, Jr., Jack Baker, Dell Smith and Mitchell Flache, making a total of thirty-seven Scouts. Drilling and wrestling occupied the balance of their allotted time. The Scouts are making a trip by motor, to Rich Lake, Friday afternoon, for an outing, but will hike home late in the evening.

ESCATE SUERTE

The Spanish Club composed of High School students, under the direction of the Spanish Instructor, Miss Ruth Lawlis, met February twenty fourth, at the home of Miss Mary Thelma Copeland, at 8 o'clock. As a prelude to the interesting program a number of selections were enjoyed on the Player piano.

Miss Helen Jackson's subject was "The Spanish Heritage in America." Miss Fay Brown contributed a piano solo. "What the Spanish eat and wear" was given by Miss Mary Thelma Copeland. "Love Making in Spain," Vivian Winston.

Members of the Club and guests were served Pimento sandwiches and cookies.

PUPILS OF HIGH SEVENTH GRADE ENTERTAIN

The Parent-Teachers Association was called together Wednesday afternoon of February twenty-third in a most interesting business session. Matters of importance were briefly acted upon and reports to be heard March ninth, concerning work to be done in caring for the school premises.

Eileen Ellington presided over the program given by the pupils of the high seventh grade, which the audience enjoyed. A full attendance is urged for the next meeting March 9, that plans may be formulated to prepare and serve dinner during the County Meet in March.

MRS. DUBOIS AND MISS NELLE FLACHE ENTERTAIN

On Monday night, February 28th, the home of Dr. and Mrs. DuBois was the scene of a happy gathering of young people, the major part being members of Mrs. S. L. McDonald's Sunday School class, which bears the name of Philaetha. In this charming party, Mrs. DuBois and Miss Nelle Flache were joint hostesses. Washington suggestions in games and in decorations were carried out beautifully. The class, of which Mrs. DuBois is a part, made this event even more enjoyable, by having a "Kitchen Shower" for Dr. and Mrs. DuBois, which proved a complete surprise to them. Many useful utensils were displayed with the kindest and best wishes from the donors.

Guests were served brick cream of red, white and blue, with Angel Food cake.

MISS EASLEY COMPLIMENTED IN CHARMING PARTY

One of the most charming events enjoyed, socially, was Wednesday night, February 23rd, in the home of Mr. and Mrs. J. L. Randal, when Mrs. Randal and Mrs. Dalton Lewis were hostesses; honoring Miss Ann Lois Easley. The decorations were suggestive of the George Washington day. Flags were gracefully hung in an artistic setting. Forty Two was the amusement for the evenings entertainment. Concluding the game high cut was made by Miss Marie Bell. An exquisite boudoir pillow was presented Miss Bell, who in compliment to the honoree, gave it to Miss Easley. Low cut was made by Miss Lawlis, who received a small vanity pillow in shades of pink and white. Mr. Leo Holmes drew high for gentlemen, reward was a dutel silver ash tray. R. L. Lewis was given a "Memo pad" for low cut. A beautifully decorated cake was placed and each guest cut their own slice of cake. Each slice had a pretty flag as a stick up, wrapped around the flag was a fortune. Great merriment followed the revealed fortunes of the guests. Refreshments were apple sauce, cake and brick cream, served daintily to the following:

BREAKING UP THE CRIME WAVE

There is an old saying that "The Government is just as good as the people want it." This is proving true in the suppression of the crime wave. For a long time citizens would pick up their daily paper and read of the numerous hold-ups, bank robberies and other crimes of like nature without being visibly affected. But finally crimes of this nature became so frequent and the criminals so bold that the heretofore indifferent citizens began to wonder just when their turn would come. When they began to be afraid to go from the house to the garage, then they began to clamor for strict enforcement of the law and took an active part in stirring up other indifferent citizens to action. As a result, men who had always found some excuse to keep off the jury or who, if called, let their sympathies control their judgment, became hard-boiled. "You can just bet I'll serve on the jury," became a common expression and some of them were given an opportunity. The result was that hi-jackers were given little sympathy. The old excuse of being out of employment or being drunk did not serve to secure mercy for the fellows who took a gun and went out to rob and kill. Nine-nine years in the penitentiary was no answer. Some considered themselves fortunate if they escaped the electric chair. Thus was the crime wave met, and it began to subside immediately.

If the law-abiding citizens want a law enforced, all they have got to do is to give their support to officers and the courts and to reform their duty as citizens. The law-abiding citizens are in the majority. Why let a minority control?—Farm & Ranch.

"The Extra Cream that either Goes into the Cream can or into the skimmilk"

THERE is a question whether or not you are getting all the cream from your milk. You can answer it easily and without cost. Just ask us to bring out a new De Laval Separator and run your skim-milk through it. You may be surprised at the cream recovered. Hundreds have tried this plan and have found they were losing from \$25 to \$200 per year.

The new De Laval is the best separator ever made, since Dr. De Laval invented the first centrifugal separator 48 years ago. It has the wonderful "floating" bowl—the greatest separator improvement in 25 years. It is guaranteed to skim cleaner. It also runs easier and lasts longer.

Liberal trade allowances made on old separators.

NEEDMORE

By Sand Devil.

Needmore is located in the north central part of the county, contrary to the Paydo, we believe this to be the best portion of the United States, and especially that of Terry county. We have good land, good people, a good school with a large enrollment of sturdy boys and girls, eagerly sipping at the fount of knowledge. On Sabbath afternoons we have Sunday School with a large attendance. Our only real need is for a few more bonifide families to move within our confines and help to enjoy the propinquity and sociability of our settlers.

Farmers in general are practically through gathering cotton and are now turning their attention to the disposal of surplus feed crops, and preparing the soil for another harvest.

Mr. and Mrs. J. F. Cook of Brownfield visited in the home of J. H. Martin and family Sunday afternoon. C. L. Gatewood of Sudan, was a business visitor here the latter part of the week.

Mr. Pray, of Lubbock, came down Sunday to visit his son, Clifford, and incidentally see after his holdings here. Upon viewing his sons wheat crop he remarked that he had toured the North Plains country and saw no grain that would surpass that growing on his farm.

Just another boost for old Terry.

\$50 FOR IMMORTALITY

A suave salesman was in Wellington the other day securing biographies for a book concerning Texas history. The fore of the book, books, rather, for it will be printed in five volumes—will be devoted to Texas history. The latter part will be devoted to biographies. If you were a person of distinguished record, your biography would be written up. Now comes the interesting part. After you gave the sketch of your life, you sign, or at least you are supposed to sign, an order blank subscription for a set of these books, the cost of which is \$50. Of course if you don't have the fifty dollars, then you are not important enough to go down as one of the prominent people of Texas. In other words, pay \$50 and get statewide recognition.—Wellington Leader.

IN RESPONSE

Upon hearing a lady remark, "Brownfield contains the world's ugliest men."

Dear lady friends pray what's your worry.

That you should single from away the throng,

And say with a twist of your dainty chin

Brownfield contains, "the world's ugliest men."

Of course we know you make mistakes,

And should at times put on the brakes;

For we believe with all our hearts

That we are as sweet as apple tarts.

No we are not mad—don't hold you to blame,

We only hope you will love us the same.

But feel that now, it becomes our duty,

To point you out a few of our Beauties.

First comes Doc Powell our favorite somehow;

We imagined you thought him a perfect wow—

But one thing wrong that we can see,

When but a child his diet was tea.

Bill Adams and, "Head great gobs of fat"

Are handsome as an old cravat.

To Com. Stewart, real pulchritude clings;

These three make a trio of beautiful things.

Next comes Mr. Bynum and Judson Cook,

Who are just as pretty as a picture book.

With them we now shall proudly page

The outstanding beauty of Bob Gage.

There is young McDonald, tho' a wee bit vain,

And Martin who lives on a Meadow lane.

These chaps are as cute as a jaybird shin;

I tell you girls they're the possum grin.

Then land office Graves and Mr. Cade,

From fairy hearts this twain was made;

Always jolly and very clever,

A source of pleasure, "a joy forever."

Ah!—Prof. Fagala, so full of vim,

His pate is that of a cherubim—With Rev. Thomas' gorgeous smile, Dear ladies you missed the mark a mile.

Oh, what's the use of mentioning more,

Good looking men haunt every door.

But to appreciate these noble plugs—

Just steal a peep at the Editor's mug.

MEADOW BRIEFS

By Aesculapius.

February is leaving us with the assurance that she can be ugly when she wishes—and she usually does a plenty.

If appearances are worth anything, we will have an early spring. Already trees are budding and weeds and grass springing up and the hens are singing and laying to beat the band.

Farmers are busy putting their lands in condition for planting. We hear several say that they are about done bedding, and a few talk of planting corn right away.

Really I can see no good reason for waiting. One of the best corn raisers this neighborhood had, while he lived, always planted in the early part of March, and he invariably made abundance of corn. He said that corn was usually killed if killed late in April or May by late frost hence it was useless to wait if you intended to raise early corn. I believe he is correct.

The farmers this season are at sea. Just what to plant and how much is a problem. The necessary cattle and hogs to eat the feed that will be raised and no money to procure such livestock is quite a problem, and as a result we will undoubtedly have again this year a very large average of cotton.

North of us however there is a large acreage of small grain and it looks fine, and with a small amount of rainfall will insure an average crop.

Unfortunately our section is not fit for the growing of grain on account of the sandy nature of the soil. We may therefore expect quite as large acreage of cotton as last year.

Our girls are still at work. However they have given notice that only

two days of the week will be used.

Mrs. Earl Cadenhead returned Sunday from Lubbock where she has been the past two weeks under treatment. She declares she is feeling much improved.

We hear a few farmers criticize the action of the President for his action in vetoing the Farm Relief Bill. Just how much relief they would have gotten from the measure is problematical but the President could have shown a willingness to try. He could have allowed a small amount of wisdom resident in the brain of others charged with the conduct of public affairs.

The government has always been ready to fly to the assistance of other industries, manufacturers, finance and railroads. He has even gotten us quite a mess both in Mexico and Nicaragua trying to protect the various industrial interests of the nation.

It seems that our own legislature will adjourn without passing a Gasoline Tax. The present rate of one cent per gallon isn't enough. Texas and Rhode Island are the only ones that levy a one cent rate. New York and Illinois have none at all; while all the others levy from two to four and a half, except Kentucky collects five.

The schools and highways need the money it would bring in, and it is perhaps the fairest tax that could be levied; forcing those who use the most to pay for it. The cry that industrial use an immense amount and that it would be unfair to them isn't worth considering. All or nearly so use trucks and autos.

Mr. and Mrs. F. P. Mitchell have a new girl at their home. She arrived early Monday morning.
