

GRAHAM • CRACKERS

—WHG

A couple of notes from local citizens this week prove the editor is not very observant. At least in some cases. In reply to an editorial in last week's Star wherein we complained that few, if any, people in town know a motto for Friona, we received the following:

"Biggest Little City in the Panhandle— This slogan is now used on the two signs east and west of the city limits. So reports Joe Brummett.

And Vic Krueger also points out this slogan. It is even printed on a business letterhead he uses.

Well, fellas, after all, you could hardly expect a newspaperman to pay much attention to billboard advertising!

The editor, his wife and his mother, made a flying trip to Kentucky last week to attend the convention of the National Editorial Association. We had an enjoyable trip and saw a lot of interesting things.

The country was beautiful and the people hospitable, but we didn't see anything that looked good enough to make us forget the glory of the Plains once they came in sight on our return trip.

One thing which made it possible for us to travel about 2700 miles in five days in reasonable comfort was the "pullman department" of our station wagon.

We laid the seats down in the back and after loading up our baggage and supplies, still had enough room for a couple of pneumatic camping mattresses we borrowed off of Loyde Brewer.

Since Loyde was nice enough to loan us these, we are glad to recommend them as the greatest thing yet for travel-weary folks. After a spell of several hours under the wheel, it was really restful to pile into the back and let someone else drive while we took a little snooze.

We recommend this little trick of gadgetry to all station wagon owners.

The wife liked Louisville, and while there, we did a little hobnobbing at some fancy restaurants. Her favorite was a dank cellar about three blocks from downtown Louisville wherein dwelled an exotic cafe over 50 years old.

That dated it back to the prohibition era, and we can imagine the history that those old walls must have. No fooling, it was one of those spooky affairs where you walk down a flight of stone stairs from street level, into a couple of rooms which are so dimly lit you can hardly read the menus.

As a matter of fact, the menus proved to be in French, and we couldn't have read them anyway.

After fumbling around with our orders for a few minutes, we finally got through to the waiter what we thought we wanted to try, and while the order was being handled, it seemed like a nice time to chat with the wife.

Those who know Jeanne very well can testify to the fastidious reserve she has for eating places. She is "picky," and a spider crawling down a wall, lipstick on a coffee cup or smudged and wrinkled napkins can ruin her entire meal.

After brushing a collection of ashes off the tablecloth and glancing at the cement floor of the cafe which didn't show signs of having been swept for months, we asked her cautiously, "Well, how do you like it?"

"Oh," she sighed ecstatically, "It's wonderful!"

And as our comic strip friend, Suffy Smith, would have commented: female wemmin!

When it comes time to brag on ourselves, we hardly ever turn shy. And we're proud that some people have been complaining to us that The Star isn't giving the Indians, our local amateur baseball team, the publicity they deserve.

That the local fans are concerned about getting their team written up properly in the local newspaper is evidence that The Star is being read. Through the years, newspaper people have come to find out that it isn't so much how the public curses you or praises you—being read is the important thing. When folks are quiet: watch out, veterans have told us.

To the Indians, then, we apologize. Your leading the Central Plains amateur ball league for so many weeks has given Friona lots of favorable advertising.

The Bulls from Bovina are sneaking up on the Indians; in fact, they are neck-and-neck right now, but our street corner informant tells us the home team can take 'em come next month when the playoff will probably be staged.

It had to happen. In our first try at commenting on fashion news for the ladies in last week's paper, we quoted Andy Hurst as predicting the coming dress length will be

Total Hospital Cost Estimated \$201,234

The estimated final cost on the new building for the Parmer County Community Hospital going up in northwestern Friona has been set at \$201,234, according to Jimmy Baxter, hospital manager.

"The end is in sight," he said, indicating that hospital boosters have been working with rough guesses for the many months the hospital has been under construction.

Elmo Jones, Littlefield contractor, was hired by the hospital when building began, as supervisor, and erection of the new facilities has proceeded under his direction. In this way, many changes have been made while the building actually was being built that would have been impossible under contracted conditions, says Baxter.

A summary of the hospital's building program, and the amounts paid:

Subcontracts and material, \$64,222, all of which is paid.

Materials part complete, \$83,187, leaving \$45,612 to be paid (because the building is still in the construction stage).

Construction materials, \$4,275, all of which has been paid. Materials not paid for total \$22,217.

Labor, \$10,931, all of which has been paid.

Supervision, \$4,650, all of which has been paid.

The total paid out by the hospital through May 25 amounted to \$121,654. Not paid-for total is \$67,829, and onto this must be added another \$10,750 which is estimated for materials and labor to complete the building.

Baxter said that the \$200,000 estimated total cost is coming very near to equalling the early estimates which were submitted by contractors before construction got underway some time ago.

Bids at that time ranged from \$195,375 to \$239,880.

Legion Sets Dance Next Saturday

A fund-raising benefit in the form of a dance—open to the public—has been announced by the Friona American Legion Post. Joe Brummett, commander, says that the dance will be Saturday night, June 23.

To be held in the Legion hall, the dance will feature the music of local talent. Getting the musicians together is the job of a committee composed of Russell Massey, L. A. Jones, and Lloyd Mingus.

No advance ticket sales are being made, and admission at the door will be \$1 per person.

Martha Ann and Larry Martin were Sunday dinner guests in the home of their grandparents, Mr. and Mrs. Calvin Martin.

ANCHORS AWEIGH!—These six Friona young men are joining the navy. Left-to-right, back row, they include Charles Kirk, Billy Dennis, Donald Petty; front row, Delmer Renner, Richard Morrison, and Jerry Houlette. With them is Chief Phil Van Dusen of the Clovis recruiting station.

Bulls Gore Indians To Tie Up League

Friona's Indians were gored 7-5 in Bovina Sunday by the improving Bovina Bulls, who apparently had been nursing a grudge against the home nine ever since they were nudged out of a chance at first place in the league earlier in the season when Friona won 18-16.

The win by the host team again tied the Central Plains league in a knot for first place. If neither Bovina nor Friona are beaten by other teams of the circuit, the victor of the next Indian-Bull match will decide the league championship.

Scoring first in the game were the Bulls, who got one run in the initial inning, plus another in the third. The next inning, however, saw the Indians get into the fray with a score of their own.

Bovina added two runs in the fifth and Friona two in the sixth to make the score 4-2. The Bulls ended their scoring in the sixth with three

more, and the Indians' big inning came in the seventh when they added five runs.

The winners collected their seven runs from seven hits and five errors, and the Indians collected eight hits and three errors.

Darrell Read was winning pitcher, while Lindley Davis hurled for the Indians. Read struck out 10, Davis 2, and Stan Barrett 3 for the losers.

Jimmy Oliver of Friona hit the only home run of the game.

Mrs. Dixon Buried In Dimmitt

Mrs. W. S. Dixon, pioneer resident of Castro County, was buried at Dimmitt Thursday. Mrs. Dixon, who was the mother of C. W. Dixon of Friona, died June 5, 1956, at the age of 83 years, 10 months, and 6 days.

She came to Castro County in 1902. Other survivors are four sons, Emmett, Clarence, Harvey and Ollie;

Also, 13 grandchildren and 25 great grandchildren.

Mother Of Local Man Dies

Mrs. Olive Smith, mother of Ray Smith of Friona, died at Eaten Town, N. J., last week. Funeral services were conducted at the Gilliland Funeral Home in Hereford Tuesday, May 29, and burial was in West Park cemetery. Mrs. Smith had been a resident of the Hereford area since 1900. Other survivors include David Smith and Mrs. Glen Mingus of Friona who are grandchildren.

\$189,000 Dividend At Co-Op

Dividends returned to stockholders of the Friona Wheat Growers Cooperative at the annual meeting Tuesday night at the school cafeteria totaled \$189,351.11.

Checks will be mailed to recipients late this month or early next month, announces Arthur Drake, Wheat Growers manager.

At the barbecue and meeting to hear Frank Pharris, assistant manager of Producers Grain Association, were 1080 persons. Pharris talked concerning agricultural problems and farm cooperatives.

In the business session, an election was held which retained A. W. Anthony Sr., as president and Ralph Wilson to replace Lewis Smith as a board member. The men will serve three-year terms.

An audit report was given by Bob Zenner, representative of an Amarillo firm.

USGS Engineer Says More Wells Under Observation

Responding to an editorial in The Star two weeks ago which maintained that in Parmer County, insufficient statistics are being kept on the water table, James G. Cronin visited The Star office last week.

"This year there have been between 40 and 50 additional observation wells set up in Parmer County," he says. "They will be measured annually and comparisons will be made in 1957. The lack of work done in Parmer County has been due to lack of personnel."

"Some other counties have received no more data than has Parmer County."

"Other counties" mentioned included Gaines, Yoakum, and Cochran Counties to the south.

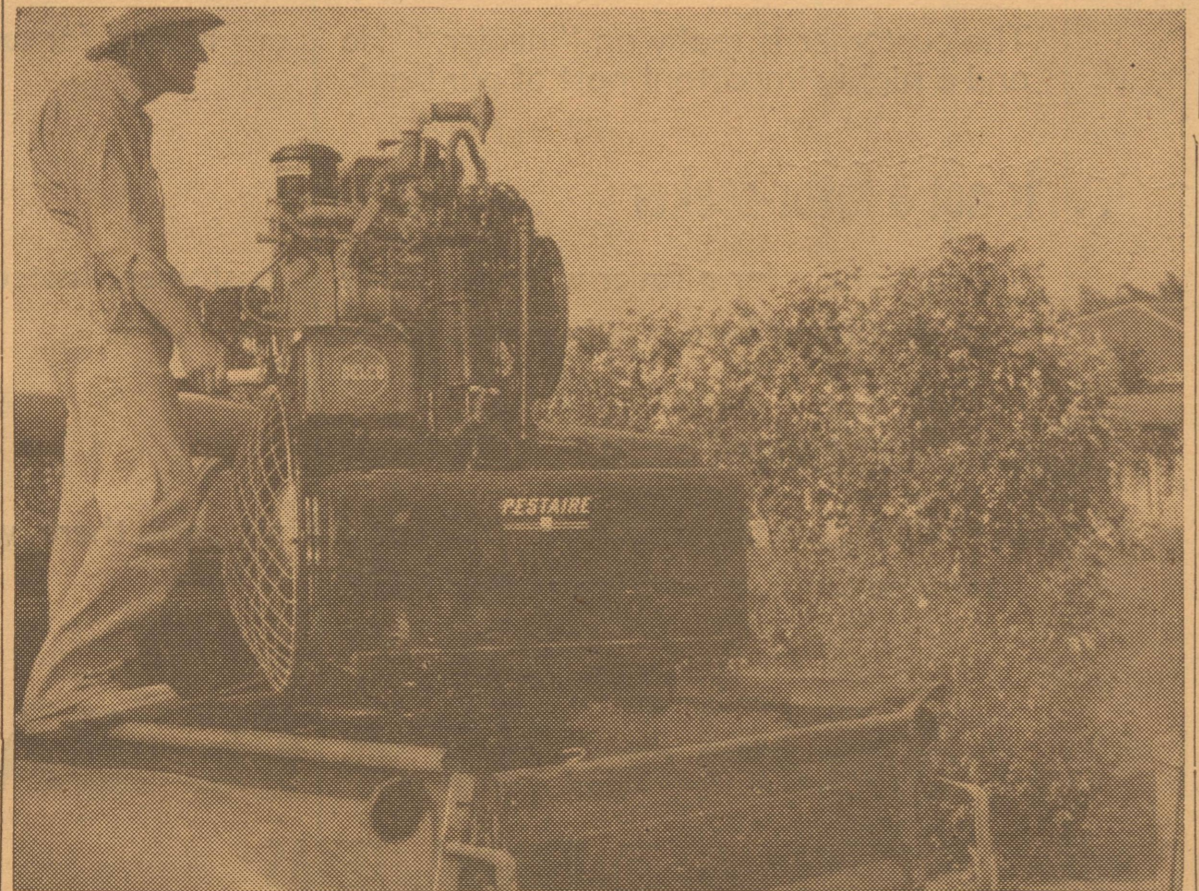

Cronin is an area engineer with the U. S. Department of the Interior, Geological Survey, Water Resources Branch. The official offered to supply The Star with maps showing locations of observation wells in the county, and W. H. Graham Jr., Star editor, said this week that the maps will be obtained and stories run concerning them in the immediate future.

City Makes Purchase Of Rotary Broom

A rotary broom to be used in the maintenance of paved streets has been purchased by the City of Friona. It was bought last week after warm weather caused many of the newly-paved city streets to begin to "bleed" base asphalt faster than city employees could keep it covered.

The broom, purchased from Plains Machinery Company at Lubbock at a cost of \$960, will be used behind a small motor grader owned by the city. It will sweep gravel from the gutters and distribute it evenly over the streets.

The machine was put into use Saturday morning.

SCRAM, SKEETERS—This new power spray unit will now serve the city in helping rid streets and alleys of flies and mosquitoes. Operating the unit is Howard Love, city employee. The sprayer mounts on the back of a pickup, but a trailer is being built for future use. The unit is powered by a 5-horsepower gasoline engine.

Six Friona Youths Leave for Navy

Six Friona young men, just out of high school, packed their bags and signed up for hitches in the navy this week.

They are Charles Miller Kirk, 19, son of Mrs. Cleola Kirk; Billy Wayne Dennis, 17, son of Mr. and Mrs. Fred Dennis; Donald Gene Petty, 19, son of Mrs. Iva Petty; Delmar Earl Renner, 18, son of Mr. and Mrs. Rudolph Renner; Jerry William Houlette, 18, son of Mr. and Mrs. Ernest E. Houlette; and Richard Alan Morrison, 18, son of Mr. and Mrs. E. L. Morrison.

The sextette was in good spirits Monday afternoon in downtown Friona, awaiting the arrival of a bus. Friends of the boys milled around the streets, and parents showed the strain of seeing their boys leave home, although there were smiles everywhere.

There were some girl friends on hand, too. They weren't hard to pick out.

All of the boys graduated together from Friona High School just two weeks ago, and they have

Black To Receive Contest Awards

Sam Whitlow of Farmers-Stockman magazine will be in the Black community Monday night of next week to present citizens with district and state awards won in a recent "rural neighborhood progress" contest.

The meeting is to begin at 7:30. This Saturday, Black will receive publicity from the cameras of KGNV-TV when "Cotton John" Smith will program the community at 5 o'clock.

Residents have reorganized their workers and are already headed toward participation in the contest again next year. They won second in Texas this year.

Early Season Work Urged to Control Cotton Plant Insects

Parmer County farmers, who this year more than ever before are interested in obtaining the maximum yield from their reduced cotton allotments, are being urged to investigate the advantages of early season insect control.

The gross yield from cotton was increased over \$50 per acre in tests at the Lubbock Experiment Station last year. However, this figure is subject to wide variation, depending on insect conditions. Some years it might go higher—some years lower.

At any rate, many farmers are beginning to look on early season control programs as "insurance" that their young plants will set fruit properly, thus giving all the cotton a chance to mature before frost.

Early season control work differs in many respects from conventional poisoning procedures. First, the farmer who embarks on an early season control program in the proper manner does away with examining his field to determine when to spray.

Instead, he plots his work according to the calendar, and sprays at 7-day intervals with the recommended insecticides and rates.

This type of control is aimed primarily at the control of thrips and fleahoppers, both of which can result in cotton getting off to a late start because they destroy the

decided to stick with one another as far as navy life will let them.

The idea of joining the navy as a group came from Dick Morrison, say the boys. "None of us had nerve enough to do it alone—but we decided we all would go in together," was the remark of one boy.

It is unusual enough for a town the size of Friona to produce six navy recruits at once, but a further twist of this uncommon occurrence is that the boys will be sworn in by Roy V. Miller, former resident of Friona, who is now a navy recruiter at Albuquerque.

Chief Phil Van Dusen of the Clovis recruiting station was on

Sessums Funeral Held in Hereford

Funeral services for Mrs. Elmer Sessums, of Route 4 Hereford, were conducted Friday, June 8, at 2 p. m. at the First Christian Church in Hereford. Rev. Don Root, pastor, officiated. Pallbearers were J. L. Collins, R. G. Blue, Bob Cape, George Gabbert, Taft McGee and Troyce Biddle.

Velva Vada Sessums was born June 30, 1908, and died June 5, 1956, after she had received injuries in a car-pickup collision Saturday evening, June 3, about 8 p. m. at the intersection of farm-to-market road 1731 and Highway 60.

Besides her husband, immediate survivors are four children, Richard of Charlottesville, Va.; Mrs. Johnny White of Calif.; Marie Moore of Oklahoma City and Bobby of the home.

Interment was in the West Lawn Memorial Park at Hereford under the direction of Marcum-Claborn Funeral home of Friona.

THE STAR'S EDITORIAL COMMENT

Organize and Supervise?

Friona, it seems to us, has more than its share of "hot rodders"—that lusty class of drivers, comprised mostly of young men, who delight in beefing up stock car engines with supercharger equipment, gutting the mufflers, and daring pedestrians to get in their way as they rip down the town's streets.

On occasion, they convert what ordinarily ought to be a peaceful city thoroughfare into a miniature Indianapolis, complete with screaming tires, roaring exhausts, and clouds of dust.

"We ought to do something about it, before somebody's kid gets killed," is a commonly heard expression on Main Street these days from folks who worry about reckless driving.

The Star fully agrees that cutting up in powerful autos on city streets is a menace to the public welfare, but we are not so sure that the three-cell city jail which is about to be built will be the most satisfactory answer. To be sure, it will be the best solution for a certain percentage of toughies, and wise-guys.

But we believe that most of the hazardous drivers, not only here in Friona, but in most cities of our circumstances, are youngsters who have not been properly educated to the necessity of safe driving.

Member Texas Press Association

In Parmer County.....\$3 Per Yr.
Elsewhere.....\$4 Per Yr.

Entered as second class mail matter July 31, 1925, at the post office in Friona, Texas, under the Act of March 3, 1897. Published each Thursday.

To them, the auto is a machine for competition instead of transportation. Another car on the road is a challenge to them. The safety of the public is unthought-of.

Most drivers of this type are simply over-energetic persons who use racing tactics in their personal car to consume nervous energy. We are not psychoanalysts, but we know from observation that this is true.

One effort which might be helpful in remedying this situation is the organization of such youth who are interested in power and speed into a group of self-disciplined but outside-controlled drivers. In other areas, law enforcement officials have played important parts in controlling this element of modern living. Instead of suppressing these desires, officials have attempted to guide them into constructive channels.

The mechanical experience of tinkering with automobiles is educationally beneficial to Friona's young men, but uncontrolled exercise of these automobiles on the public streets is not.

4-H Club Meets At Church Annex

The junior and senior 4-H Club girls had a joint meeting at the Sixth Street Church of Christ annex Tuesday afternoon. The business meeting was presided over by Pat Cranfill, president. Margaret Mabry and Pat Cranfill gave a demonstration on selection of patterns, and Erma Lou Drake demonstrated correct sewing accessories.

Summer projects were discussed and four committees were appointed to study the projects further. Jacquelyn Magness was appointed chairman of the committee on aid to Spanish families.

The new hospital will be studied by the committee headed by Janie Parker. Margaret Mabry will head the committee on a summer recreation project. The Ground Observer Corps will be the subject of study for the committee of which Janet Snead is chairman. All chairmen are to report at the next regular meeting. Those present were Janet Whitten, Dolores Elmore, Janie Parker, Erma Lou Drake, Margaret Mabry, Janet Snead, Pat Cranfill and Rose Ann Greeson; and the leader, Mrs. James Mabry. HD Agent Jimmie Lou Wainscott will conduct a sewing workshop at the next meeting of the club.

Break in Main Interrupts Service

A motor grader excavating for the new four-lane highway through Friona cut into a four-inch water main last Wednesday, interrupting service to customers in a four-block area.

The break, which occurred at 11:45, knocked a 3x6-inch hole in the main. While repairs were being made, service was discontinued to the surrounding area, including Mary's Cafe and Tasty-Creme Drive-In.

Service was restored at 2:40.

Cobb Returns Home

Jay Cobb returned home Tuesday from Seattle, Washington, where he was discharged from the navy recently. Cobb, who is the son of Mr. and Mrs. Giles Cobb, had been in the navy four years.

Chitwoods to Arkansas

Mr. and Mrs. E. C. Chitwood are visiting in Hot Springs, Ark. Mr. and Mrs. Frank Snyder and children of Muleshoe and Mrs. Lucy Jones of Friona accompanied the Chitwoods to Bowie and Dallas and visited relatives over the weekend.

Local Boy Makes Honor Roll

Word has been received in Friona that Don Lewis, son of Mr. and Mrs. Henry Lewis, made an A-average at Midwestern University at Wichita Falls last school term. He made a grade point of 2.5. Lewis, who is employed as choir director of the Friona Methodist Church this summer, is studying voice under Ira Shauntz at Texas Tech. He will be a sophomore at Midwestern this fall.

Blaylock To Iceland

Leroy Blaylock, son of Rev. Hugh Blaylock of Friona, will start a 30-day leave June 14. Blaylock, who is a jet mechanic with the U. S. Army Air Force, will be assigned to a station in Iceland at the end of his leave.

Called to California

Mrs. J. Ray Scott was called to Brawley, Calif., to the bedside of her mother, Mrs. Donia Smith, Thursday. She was accompanied by her daughter, Mrs. C. L. Lillard, and her son Scott of Friona; and a sister, Mrs. H. A. Staggs of Erick, Okla.

Mr. and Mrs. Bert Shackelford were weekend guests in the home of Mr. and Mrs. Ray Hurst of Midland. Mrs. Hurst is the daughter of the Shackelfords.

Former Residents Move to Philadelphia

Mr. and Mrs. Rex Johnston and son, Mark, left Monday after having been guests of Mrs. Johnston's mother, Mrs. F. N. Welch, and other relatives and friends here one week.

The Johnstons, who are former Friona residents, were en route from Los Angeles to Philadelphia. Johnston will be the president of a newly established Christian college in Philadelphia.

From Friona, the Johnstons were going to Midland to visit Mr. and Mrs. Joe Brown and daughters, to San Angelo to visit Mr. and Mrs. France Welch and children, and to Austin to visit Mr. and Mrs. Jack Miller and son. Then they were going to Dallas to spend one week.

Mrs. F. N. Welch plans to meet them in Dallas and make the journey East with them. The group will arrive in Philadelphia June 29, and Mrs. Welch plans to return to Friona sometime in July.

Mrs. Jimmy Cox and daughter, Vicky Jo, of Lubbock spent last week visiting Mr. and Mrs. Waymon Wilkins and children and Mr. and Mrs. Sonny Weaks. Wilkins and Weaks took them back to Lubbock Sunday.

LETTERS To The Editor

Editor THE FRIONA STAR Friona, Texas Dear Sir:

Please accept our compliments on your conservation section of the FRIONA STAR of Thursday, May 10. With its good conservation stories, illustrations, and advertisements I have no doubt but that this will help to further the objectives of your soil conservation district. Very truly yours, Paul H. Walser Deputy State Conservationist Temple, Texas

New Baby Girl

Mr. and Mrs. Dalton Mimms became the parents of a baby girl June 9 at the Parmer County Community Hospital. She weighed 8 lbs. 4 ozs. and has been named Karen Lorraine.

Three hundred constitutes a perfect score in bowling.

New Farm Section For Star Next Week

Initiation of a special farm and home news supplement for The Friona Star, to begin with next week's paper, has been announced by W. H. Graham, Star editor.

The special department will be aimed at coverage of agricultural news of interest to High Plains farmers and homemakers, and especially to those who live in Parmer County.

"We have long felt the need for a unified system of covering the Parmer County farming area," commented Graham, "and this idea has been worked on by us for many months."

"Farming is 'big business' to

the people of this area, and the interest of the men and women who are connected with this industry justifies the expense and trouble of our preparing a special part of the paper for them."

"We intend to grow into this type of reporting, and believe that in time, our farm and home section will become one of the most widely-read departments of the paper."

Rain Falls Again In Friona Area

Another dashing spring shower pelted Friona and surrounding area Tuesday night. Whipping down from the north, the moisture-laden clouds dropped .4 inch of rain in town.

Reports varied from .1 to a full inch on surrounding farms, with most of the heavier reports coming from west of town.

High winds and lightning accompanied the rain, but no damage to property has been reported.

Weekend guests in the Truett Pool home were Mrs. Dorman Clanton and Donnie of Channing and Mrs. John Hazel and Sheryl Ann of Cactus.

Designed to make your life easier
Naturally . . . It's GAS
SAFE . . . DEPENDABLE . . . ECONOMICAL

The National Fire Protection Association has compiled documented proof that shows Natural Gas as the safest fuel. Safety is just one of many reasons why homeowners prefer automatic Gas water heaters. Two other good reasons for this preference are dependable performance and economy of operation.

Be sure that your next water heater is safe, dependable and economical to operate . . . naturally, it's Gas.

The chart illustrated below was designed by the American Gas Association to help you select the automatic Gas water heater best sized to serve the hot water needs of your family. Check this chart, call your plumber and have him install an automatic Gas water heater . . . sized to the needs of your family.

Illustrated above is a Bryant automatic Gas water heater. This water heater features a glass lined tank.

MINIMUM RECOMMENDATIONS FOR NORMAL HOT WATER REQUIREMENTS		
Number Bathrooms	Number Bedrooms	Storage Cap'y. Gallons
1	1 or 2	30
1	3 or 4	40
2	2 or 3	40
2	4 or 5	50
3	3	50
3 or 4	4 or 5	75

*NOTE: Use next larger size with automatic clothes washer or automatic dishwasher.

Housewarming Honors Local Residents

Mr. and Mrs. Marvin Mimms were honored with a surprise housewarming in their new home in the Lakeside Addition Monday evening. Hosts were Mr. and Mrs. John Blackburn and Mr. and Mrs. J. B. Taylor.

Guests attending were Mr. and Mrs. David Carson and Linda; Mr. and Mrs. John T. Wilson, Mr. and Mrs. John Hays, Reggie and Debbie, Mr. and Mrs. Hollis Horton, Jr., Mr. and Mrs. Ansel Renner, Mr. and Mrs. James Proctor, Mr. and Mrs. Louis Welch and Mr. and Mrs. Floyd Crume.

The M. B. McKinneys, who were unable to attend, sent a gift. Refreshments of pops and cookies were served by the hosts.

TRACTORS CAN BE KILLERS

Farm tractor accidents now take more than 1,000 lives annually. Operate the tractor with care and foresight, says W. L. Ulich, extension ag engineer, for it can become a killer. Excessive speed is the number one cause of tractor accidents. Don't carry extra passengers on the tractor and don't take it on the highway or public roads after dark without proper lighting on the front and rear.

RHEUMATIC VICTIM THROWS AWAY CANE

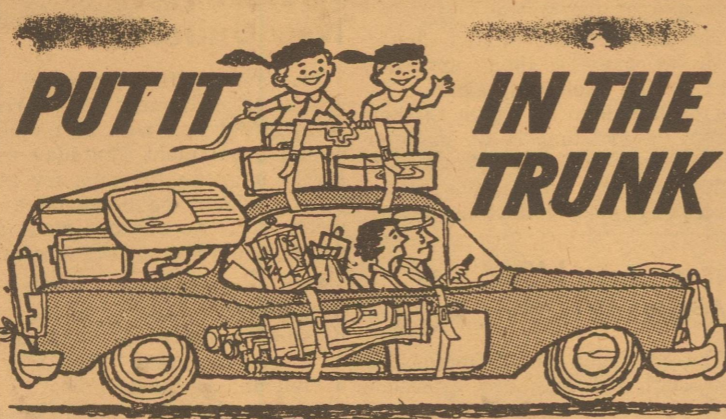

Thanks to AR-PAN-EX Tablets "I have had terrible pains in my knees for over two years and couldn't walk without a cane," writes Mrs. Mary Creamer, St. Louis, Mo., "About two months ago a friend suggested AR-PAN-EX Tablets. I took a bottle and the pains left my legs and by the time I finished my third bottle I was walking without any pains at all."

The big reason why AR-PAN-EX works best, is because it contains seven special ingredients — works seven ways at once — speeds long-lasting relief to chronic deep-seated agony; increases energy and resistance; and tones system. Sensational new formula of a prominent Eastern Scientist, scientifically "film-coated" to prevent useless, distressing action in the stomach. "Film-coating" dissolves in the small intestine where all pain-relieving medicine is quickly released into the bloodstream — speeds fullest possible relief.

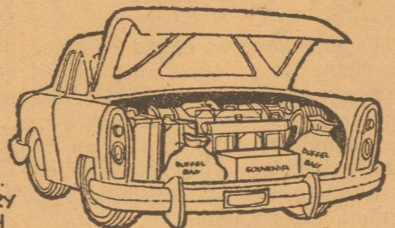

Positively Nothing Like AR-PAN-EX
Thousands of men and women suffering from crippling torture of deep-seated rheumatic, arthritic pains get surer, faster, relief, by taking AR-PAN-EX Tablets. Be guided by them. If your druggist is out of AR-PAN-EX he will be glad to order it for you.

WOMEN'S TRAVEL DIRECTOR
SHELL OIL COMPANY

MODERN CARS HAVE ROOMY TRUNKS. THEREFORE YOU DON'T HAVE TO LEAVE ON YOUR MOTORING VACATION LOOKING LIKE A SELF-PROPELLED RUMMAGE SALE. BEFORE PACKING YOUR BAGS, TRY A "TEST RUN" TO SEE HOW MUCH TRUNK SPACE THEY USE AND HOW MUCH IS LEFT OVER FOR OTHER EQUIPMENT.

WHILE TRUNK SPACE VARIES, THE AVERAGE NEW CAR CAN HANDLE ONE 26-INCH SUITCASE, A TWO SUITER, THREE 21-INCH BAGS, TWO LARGE DUFFEL BAGS, A SET OF GOLF CLUBS, FISHING TACKLE AND A SOUVENIR BOX FOR THE CHILDREN. HERE'S HOW TO DO IT:

1. PUT SPORTS EQUIPMENT IN FIRST, AT THE REAR OF THE TRUNK. PLACE ITEMS YOU'LL USE EN ROUTE ALONGSIDE SPARE TIRE.
2. LINE UP THE SUITCASES, SIDE BY SIDE—HANDLES UP. (ONE 21-INCH BAG CAN HOLD THE FAMILY'S OVERNIGHT ESSENTIALS.)
3. FIT DUFFELS IN FRONT OF SUITCASES. THEY'LL SQUASH DOWN WHEN YOU CLOSE THE TRUNK. (USE ONE FOR SWIM SUITS, TOWELS, ETC. THE OTHER MAKES A FINE LAUNDRY BAG.)
4. LAST COMES THE CARDBOARD SOUVENIR BOX. (THE YOUNGSTERS WILL USE IT FOR SOUVENIRS PICKED UP EN ROUTE WITHOUT DISTURBING THE OTHER BAGGAGE.)

Visitors From Fort Worth

Mr. and Mrs. Buckie Dixon and family of Fort Worth recently visited their father and mother, Mr. and Mrs. C. W. Dixon.

They attended funeral services for Mrs. W. S. Dixon of Dimmitt. The Ray Landrums of Gruver also visited in the Dixon home. Eugenia Rea Landrum, who has been visiting her grandparents, returned to Gruver with her parents.

There will be a stockholders meeting of the Farmer's Co-op Elevator at Muleshoe Friday evening, June 15 at 8:30 p. m., in the county courtroom.

HAS FIRE RUN

The Friona Fire Department made a call to the residence of Mary Sudderth in the West Loop Drive area Tuesday night during the storm. No damage was reported.

Mr. and Mrs. Truell Hyde and son of Lubbock were weekend guests of Hyde's parents, Mr. and Mrs. H. A. Hyde.

Mrs. C. D. Carter, Mrs. Carol Dean Dunn and children and Mrs. Clarence Martin and children visited in the home of Mr. and Mrs. O. B. Deatherage of Happy Monday. Donna Dunn remained in the Deatherage home for a visit.

Large Enrollment At Bible School

According to Valoris Osborn, one of the co-directors of the Vacation Bible School at the Friona Methodist Church, the attendance is good. A total of 115 registered and there are 35 instructors. Classes will meet each day from 9 to 11 and closing exercises will be held Sunday evening.

New Grandson For Hydes

Word has been received of the birth of another grandson for Mr. and Mrs. H. A. Hyde. He is Mark Bolding, young son of Rev. and Mrs. Haskell Bolding of Knoxville, Tennessee. Mark arrived June 7 and weighed about seven pounds. Mrs. Bolding was formerly Maxine Hyde.

Weldon Minchew attended the funeral of Lee Poteet at Olton Wednesday afternoon. Poteet was killed during a thunderstorm Monday afternoon. Minchew served as one of the pallbearers.

Mary Ann Stacy, daughter of Mr. and Mrs. M. J. Stacy, went by train from Muleshoe to Houston Saturday. She will be the guest of her great aunt, Mrs. A. F. Benfield, of that city for several weeks.

The first battle of the Mexican War took place at Palo Alto, Texas, in 1836, between General Zachary Taylor and General Arista.

30 County Men At Weed Meeting

About 30 Parmer County men and boys met in the Bovina Legion Hall last Thursday night. They were members of, and workers with, the Farm Bureau weed committee. Instructions for mapping bindweed plots and reporting them to the proper places were discussed and handed to the workers.

Bruce Parr, chairman, in charge of the meeting, explained plans for cutting the county map into sections for each team to carry in making its survey. He also had some bindweed plants to help impress the appearance of the weed upon the minds of the workers. County Agent Joe Jones discussed recommended amounts of sodium chlorate and method of applying it to infested areas. Five pounds per square rod was the minimum recommended volume, and the SCD has acquired three five-foot spreaders to be rented to farmers for application of chemicals. It had not been determined where the spreaders would be kept available from at the time of the meeting.

James Whitfield, ASC office manager, was also present and explained procedure for farmers to follow in getting ACP financial assistance in treating bindweed on farm land. He emphasized two points: application must be made at the ASC office before treatment is begun; assistance is available for bindweed only, and plots reported for assistance will be checked by the ASC office.

ed by the ASC office.

Parr said that instruction sheets for obtaining assistance from commissioners on county rights-of-way, ASC for farm land, and other details would be available in the next few days from either the Farm Bureau office or the county agent's office.

Workers besides the committee include another farmer, an FFA boy and a 4-H boy for each half of a commissioner's precinct.

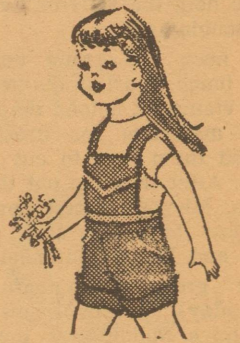

All Steamed Up Over 2-Year Test

A high-viscosity oil field in southern Illinois was recently the proving ground for a new method of oil recovery that may mean the addition of millions of barrels to our available oil reserves. The technique employs hot combustion gases and steam to warm up the oil and drive it from the producing formation. Hot air is used as the oxidizer for underground combustion. After a two year test, it was determined that 80 per cent of the oil content of the field can be recovered by this method. Previously, oil men considered the oil unrecoverable because the temperature of the field was too low to allow the heavy oil to flow or be expelled from the rock. Research on methods of recovering additional oil from underground reservoirs is one way that the oil industry keeps the nation's needs supplied.

Pins were not invented until the 14th century.

CATTLE GRUBS COSTLY

Cattle grubs cost the livestock industry an estimated \$100 million a year in losses of meat, milk and damaged hides. Now for the first time U. S. Department of Agriculture research workers have experimentally, prevented the development of grubs within cattle. They did it with a new systemic known as Dow ET-57. Tests are continuing.

NEWS FROM LAZBUDDIE

BY MRS. BERT GORDON

Lazbuddie 4-H Girls Have All Day Meeting

Lazbuddie 4-H Club girls met at the school lunchroom on Friday, June 8, for an all day meeting with the new home demonstration agent, Miss Jimmie Lou Wainscott, present to help the girls on basic sewing problems.

At noon the group enjoyed a sack lunch. During the afternoon, Miss Wainscott helped the girls lay their materials for dresses and showed them how to cut the material. After they cut out their garments, Miss Wainscott demonstrated how to make stay stitches, darts and bound buttonholes.

The group met again today (Thursday) at the new home economics building at the school at 9:30 a. m. Present for Friday's meeting were Pat Chitwood, Janice Darling, Beverly Smith, Carolyn Scott, Sharron Thorn, Katherine Smith, Miss Wainscott, Mrs. Garvin Thorn, Mrs. Duane Darling and Evelyn Kay.

Delmar Clifton is in Oklahoma at the bedside of his father who suffered a heart attack on Saturday.

Wayne and Sue Hudnall of House, N. M., are visiting their grandparents, Mr. and Mrs. Claud Heath, and Mr. and Mrs. Delbert Hudnall.

Leonard Haught of Pampa is visiting in the home of Mr. and Mrs. Ted Treider.

Mrs. Truman Taylor, Joe Bob and Susan are visiting Mrs. Taylor's parents, Rev. and Mrs. C. K. Roberts. The Taylors are from Houston.

Wilma Hill, small daughter of Mr. and Mrs. Bob Gandy, underwent an appendectomy in West Plains Hospital-Clinic last Wednesday. She is recovering nicely.

Kirby Wayne Carrell, son of Mr. and Mrs. Thomas Carrell, was dismissed from West Plains hospital on Sunday after a severe stomach upset.

Jimmy Frank Carpenter, a student at Tech in Lubbock, is at Camp Kiwanis near Amarillo, where she is acting as counselor at the Girl Scout camp.

Pearl Jesko To Wed James Acker

Mr. and Mrs. Joe Jesko of Star Route, Friona, are announcing the engagement and approaching marriage of their daughter, Pearl, to James Acker, son of Mr. and Mrs. Andrew Acker of Nazareth.

The wedding will take place at 9:30 a. m. on Tuesday, July 10, in St. Anthony's Catholic Church, Hereford. There will be a reception from 5:30 to 8 p. m. in the Parish Hall. Friends and relatives of the families are invited to attend.

To Start Monday

Mrs. Diane Reed, homemaking teacher at Lazbuddie, announces that she will start adult homemaking classes on Monday, June 18, at 3 p. m. in the homemaking building. She urges that all women interested in attending these classes be there for the first class.

Enjoy Picnic

After church Sunday, Mrs. Perry Barnes and four of her children and their families enjoyed an old fashioned picnic in the park at Clovis. Those present were Mrs. Barnes, Mr. and Mrs. Wesley Barnes and children, Mr. and Mrs. Jimmy Seaton and children from Lazbuddie, Mr. and Mrs. J. S. Menefee and children from Corpus Christi, and Mr. and Mrs. Perry Barnes and children of Clovis. Also attending were Mrs. Barnes' sister and family, Mr. and Mrs. Lawson Edwards of Clovis.

Mrs. R. C. West of Dimmitt visited Sunday in the Thomas Carrell home. Peggy Ann Carrell went home with her to visit this week.

Mr. and Mrs. Rudolph Pyritz had as their guests over the weekend their daughter and family, Mr. and Mrs. James E. Haran and daughter of El Paso. Also visiting in the Pyritz home on Sunday were Mr. and Mrs. Ed Steinbock.

Louise Ham is in Odessa attending summer school at Odessa Junior College.

Mr. and Mrs. C. H. Carpenter of Houston spent the weekend in the H. W. Carpenter home.

Barbara Hinkson, daughter of Mr. and Mrs. Frank Hinkson, is working at the Methodist camp in Ceta Canyon this summer.

Mr. and Mrs. John Agee and children were in Lubbock Sunday.

Commencement exercises for the Vacation Bible School held at the Methodist Church last week were held Sunday night. They report 80 children enrolled with an average daily attendance of 60. Mrs. Calvin Embry acted as principal of the school.

Jamie Delmar of Coleman is visiting his grandparents, Mr. and Mrs. Luther Ham.

Mrs. A. P. Ingram is visiting her granddaughters this week in Lorenzo and Plainview.

Carolyn Hinkson left Sunday for Houston to attend the Grand Assembly of Rainbow. The girls traveled by chartered bus with 22 girls going from Muleshoe.

Commencement exercises for Vacation Bible School will be at the Baptist Church on Friday night at 8:30, with each department having a part on the program. The average daily attendance has been 115.

Rev. C. K. Roberts has acted as principal of the school.

The people of the Baptist Church wish to express their appreciation to the Methodist Church for permitting them to tie on to their water line so that the Vacation Bible School could be held as scheduled while the well at the Baptist Church is being drilled deeper.

Northside HD Club Meets with Mrs. Paul

The Northside Home Demonstration Club met Thursday afternoon with Druscilla Paul. There were ten members and five visitors present.

The meeting was called to order by Nellie Ray, president. Each member stood and repeated the club creed and prayer. A report on the council meeting was given by Gladys Wright. The program on jury service was presented by Thelma Ruth Shelton.

Two new members, Alice Whaley and Louise LeFavers, were accepted into the club. Other members present were Gladys Wright, Ruby Robards, Thelma Ruth Shelton, Faye McMahan, Dorothy Hough, Zonah Bass, Inez Shirley, Nellie Ray, and Lorena Johnson.

Guests were Sue Proctor, Daisy Miller and Joe Faye Brooks. Refreshments were served by the hostess.

The next meeting will be June 20, in the home of Velma Lovett. A demonstration of a meal from the freezer will be given by Gladys Wright and Inez Shirley.

Local Legionnaires To Zone Meeting

Attending a Legion meeting of Zone 1 in Vega Tuesday evening were several local persons, including Mr. and Mrs. Lloyd Mingsus, Mr. and Mrs. Joe Brummett, Mr. and Mrs. Casey Adams, Loyde Brewer, and L. A. Jones.

Election of officers was the main order of business. Brummett has served as vice-commander of the zone the past year.

Firemen Have New Uniforms

The new uniforms for the Friona Fire Department have arrived. Andy Hurst met with 24 members of the department Thursday evening to measure the men for alterations, which are being done this week. It is hoped that each man will be fitted by the July meeting.

Plans are being made for the fire department to assist in any way possible in the event of tornadoes or other disasters. This will be a civil defense project.

Visitors present Thursday night were J. W. Roberts, E. G. Phipps, Roy Wilson and Andy Hurst. The next meeting night will feature a steak dinner with the firemen as hosts.

FHA Girls Assist In Making Flags

A letter of acknowledgment was received this week by the local FHA chapter from the Texas state historical survey committee of the Texas Historical Foundation. The service flags, which had been made by local girls, had been received and will be distributed to American

Service units. The committee in charge of the flag making was presided over by Geraldine Phipps. She was assisted by Charlotte Bails, Patsy Anthony, Phyllis Hinds and several other members of the chapter.

Legion Auxiliary To Award Trophies

The Friona Legion Post and Auxiliary are sponsoring the purchase of four trophies to be presented to local little league baseball teams.

Trophies will be handed out to first and second place winners in the season's play, and in addition, a trophy will be awarded for sportsmanship and another for the best individual player.

Judges in the latter two categories will be from outside of the Legion Post, says Joe Brummett, commander. The awards will be made after the end of baseball season later in the summer, but they already have been put on order.

The cost of the awards is \$37.50.

Jack Johnson was the last Negro Heavyweight Boxing Champion before Joe Louis.

Union Congregational Women Meet

The Women's Fellowship of the Union Congregational Church had an all-day meeting Wednesday at the church. A covered dish luncheon was served at noon.

During the business meeting, plans were made to entertain the Friona Church women at the next joint meeting of this group. The meeting will be held in the Union Congregational Church at 3:30 p.m. Wednesday, June 20.

Those present for the luncheon were Mesdames Elmo Dean, Floyd Schlenker, Floyd Reeve, L. F. Lillard, Bert Shackelford, O. F. Lange, Carl Maurer and C. G. Nelson. Mesdames Charley Wise, Otho Whitefield and Fred Helmke were present for the afternoon session.

FOR MORE PROFIT

Egg producers can realize more net profit year in and out by selling their products on known grade standards and to a buyer who will pay the highest average price each year in relation to cost, selling, says F. Z. Beanblossom, extension poultry marketing specialist.

"GET MOST FOR LEAST"

"With most of agricultural prices down from a year ago and acreage allotments on a more restrictive basis, the need for getting the most for the least cost per unit is more urgent than ever before," says C. H. Bates, extension farm management specialist. Fertilizers may provide part of the answer on many farms and ranches.

Captain Matthew Webb was the first person to swim the English Channel from Dover to Calais in August 1875.

**Parmer Water Sands
3 Times Lubbock's**

Lubbock County in January 1956 contained about 4,630,000 acre-feet of ground water available for pumping. In 1938 Lubbock County contained about 7,350,000 acre-feet of ground water available for pumping and about 2,720,000 acre-feet or 37 percent of the water was pumped from 1938 to 1956.

According to inventory taken in the fall of 1955, Parmer County's ground water storage (available for pumping) totals 13,600,000 acre-feet. This is more than any other county in the High Plains District.

All of Lubbock County, about 570,000 acres, is within the boundary of the Water District. The accompanying maps were prepared from data compiled from a study of about 1,600 logs of water wells and about 400 measurements of water levels in wells.

The map in plate one shows the thickness of the water-bearing strata in the Ogallala formation in 1938 before an appreciable amount of water had been pumped from the reservoir. The map in plate two shows the decline of the water table from the spring of 1938 to January 1956.

The volume of water remaining in the underground reservoir was determined by subtracting the volume of material unwatered since 1938 from the total volume of saturated material in 1938 and multiplying the remainder by the coefficient of storage of 15 percent.

Some of the irrigation wells in the north central part of Lubbock County draw water from crevices and solution channels in limestone

strata in the Cretaceous rocks which underlie the Ogallala formation in that area. Pumping from the so-called "crevice wells" causes a decline of the water table in the Ogallala formation; therefore, it is evident that the water in the crevices and solution channels is derived from water in storage in the Ogallala formation.

The thickness of the water-bearing material in the Ogallala formation underlying any particular farm, therefore, is a practical measure for the determination of the quantity of water in storage available for pumping.

Some areas in the eastern part of Lubbock County have a hundred or more feet of water-bearing material. However, some of the irrigation wells have rather meager yields in gallons per minute. Logs of many of the wells in the eastern part of the county show that the Ogallala formation consists mainly of very fine-grained sandy clay and clay. These fine-grained materials reduce the permeability of the water-bearing strata, and are responsible for the meager yields of the wells.

The approximate quantity of underground water in storage, available for pumping, beneath an individual farm may be determined by multiplying the number of acres in the farm by the thickness of the water-bearing strata underlying the farm and then multiplying by the storage coefficient of 15 percent.

A penny and a cannon ball, dropped from a high place, would reach the ground at the same time.

*Worry Free
and
Wonderful!*

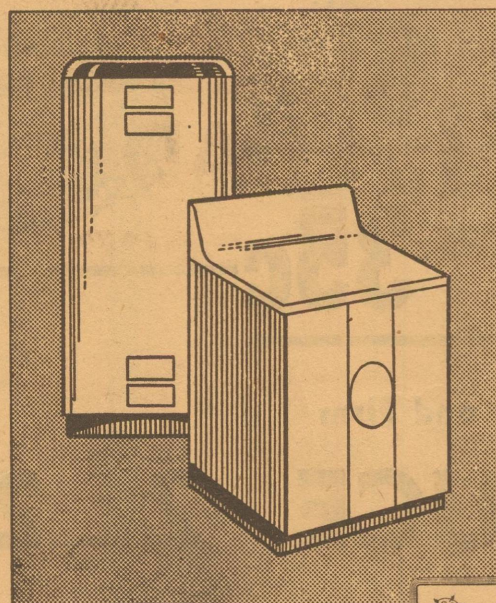

... that's life with an electric water heater.

The matchless, flameless electric water heater is fast, safe, clean, and, although it gets the water hot, it keeps your house cool.

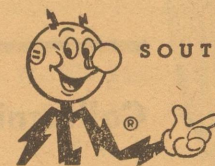

You can leave home for a two-hour picnic or a two-week vacation and be worry-free and have a wonderful time, for your electric water heater is safe — and your home will be safe, too.

Come and See Us

The BIBLE Says

It means more than simply to assent to the fact that Jesus is the divine son of God. It means that we acknowledge him in our every word and deed. It means that we are enthroning him in our hearts as Lord and King over our lives. We are willing to let him rule our hearts and order our lives when we ascribe to him the praise and honor that is rightly his.

It is a wonderful feeling to have the Lord's promise that if we will acknowledge him in all our ways here that he will confess us unto the father in heaven. To have our name mentioned around the great throne of God is joy unspeakable. To anticipate eternity with God, his son, Jesus, the angels, and all the redeemed makes one desirous of humbling himself to the role of an

obedient child here in order that he might enjoy all after life here is over.

THAT CONFESSION IS UNTO (in the direction of, toward) SALVATION. (Romans 10:10). Jesus said, "Every one therefore who shall confess me before men, him will I also confess before my father who is in heaven." (Matthew 10:32).

Two men were riding in a chariot. One was preaching "Jesus" unto the other. One, having heard the preaching, said, "Behold, here is water; what doth hinder me to be baptized?" The preacher said, "If thou believest thou mayest." Whereupon the learner answered, "I believe that Jesus Christ is the son of God." (Acts 8:26-40).

To confess Christ is much more than mere lip service.

BLACK

MRS. DICK ROCKEY

Black Makes Plans For Awards Day

A community meeting was called at the Community House Monday evening. About 35 were present.

They made plans for the meeting Monday evening at 7:30, June 18, when Sam Whitlow, agricultural editor of the Farmers-Stockman, will be here to present the Black community with their state and district awards in the rural neighborhood progress contest.

Black is looking forward to a big day Saturday, when the community will be on Cotton John's program on TV at 5. The farmers are all busy, but we hope as many as possibly can, will be there to help support those that will be on the program.

The community has reorganized for 1956-57 and will enter the Rural Neighborhood Progress Contest again.

New officers are president, Pete Braxton; vice-president, Mrs. Lloyd Lookingbill; sec.-treas., Mrs. John Bengner.

They will meet in the next few weeks and appoint their committees and get organized for the new year.

Mr. and Mrs. Lester Dean and family visited in Friona Sunday with Mrs. Merler Shirley.

Visitors in the Ellis Tatum home this week are Mrs. Ben Shelton of Albany, Mrs. Eddith Ruff, Mrs. Bertha Dalton of Littlefield, Mr. and Mrs. Walker Tatum and family from Santa Anna, Texas.

Jim Greeson went fishing last week at Lake Pauline with Mr. Gibson and Tommie of Friona.

Farmers at Work In Black Area

Farmers are cultivating their crops right now and a few have started cutting wheat. Soon it will all be ready for harvest.

The first load to arrive in Black was Tuesday of last week. It was brought in by J. M. Wright. He received the \$25 premium from the Tri-County Elevator.

Mr. and Mrs. Ira Miller of Friona were dinner guests of Mr. and Mrs. Bruce Parr and family Sunday. The group went to the Claud Millers in the evening for an ice cream social and swimming.

Dinner guests of Mr. and Mrs. Johnie Bengner Friday evening were Dr. and Mrs. Paul Spring and Susie.

Mrs. R. E. Barnett, has been on the sick list, but at present is feeling much better.

The Dick Rockeys spent Sunday afternoon and evening at Muleshoe visiting relatives and friends.

Mr. and Mrs. Pete Braxton, Jimmie and Ray Gene, were Sunday dinner guests of Mr. and Mrs. Gene Southhall of Amarillo.

Mrs. Ellis Tatum, Mary and Tommie returned home Saturday from Albany, where they had been visiting for a few days.

Mrs. T. J. Presley and Mrs. Beatrice Brady were shopping in Hereford Saturday.

A World of Oil

Can you put a world in good shape by blowing it up? Yes, if you have one of the new, inflatable world globes now on the market. The globes are made of oil-based plastic, and can be kept folded in a small package until needed. A few hearty puffs on a valve will blow the globe up to its full size, and it can be mounted on a stand and rotated on its axis. In more ways than one, we live in a world of oil.

The "Isle of Skye" is off the west coast of Scotland.

ROCKWAY-HURST

NATIONALLY ADVERTISED MERCHANDISE FOR THE ENTIRE FAMILY

NICE "HARDWARE"—These two bronze plaques were awarded The State Line Tribune, Farwell, in national newspaper contests last week. On the right is an award signifying first place in the service to agriculture contest. On the left is a second place award for excellence in typography. Not shown is a certificate for honorable mention in news writing.

State Line Tribune Wins National Award

The State Line Tribune of Farwell last week was awarded first place in a nation-wide service to agriculture contest. The award was made by the National Editorial Association at the national convention in Louisville, Kentucky.

Present to receive the recognition was W. H. Graham Jr., publisher of The Tribune, who also is editor of The Star. He and his wife and mother attended the NEA meeting.

Seniors Had Wonderful Trip

"It was wonderful." That's the way most of the seniors describe their just completed trip to Eureka Springs, Ark. Twenty-eight mem-

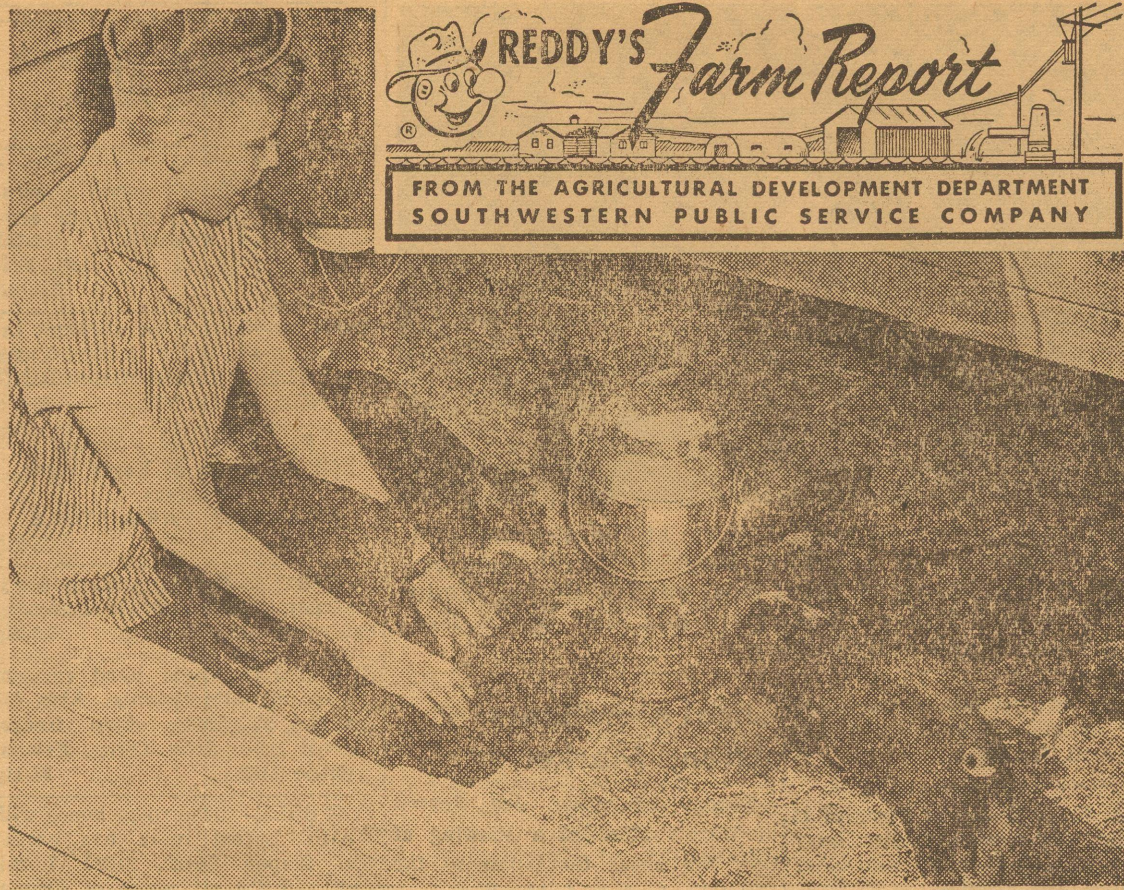

bers of the class, four parents, two teachers and the bus driver left Friona about 6 Thursday morning and drove to Oklahoma City.

There they visited an amusement park and spent the night. The following day they drove to Fayetteville, Ark., for lunch then drove on to Eureka Springs. They spent five days at Lake Lucerne where they enjoyed swimming, fishing, boating, horseback riding, playing tennis and other outdoor games and sightseeing.

On Wednesday morning, they started home and stopped at Oklahoma City and spent the night. The group arrived home about 3:30 p. m. Thursday after having been gone a week.

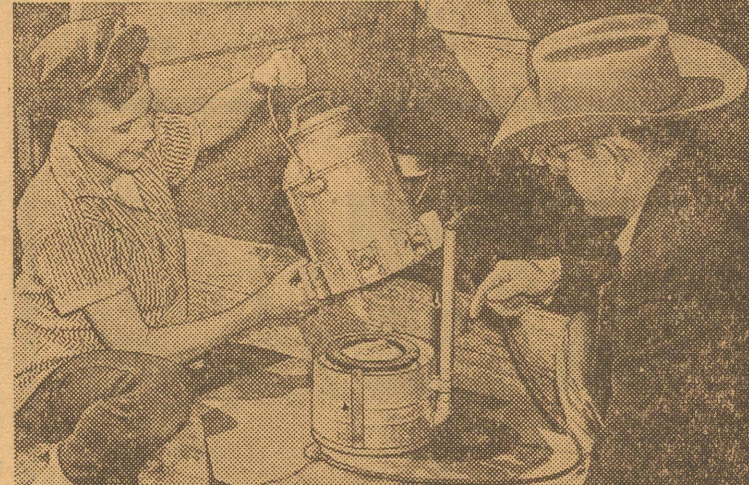

Those making the trip were Mr. and Mrs. Hardy May and Arlen, Mr. and Mrs. A. S. Grubbs, Dempsey Watkins, Vera Ann Jones, C. P. Ready, Sandra Brock, Shirley Hogue, Marilyn Fairchild, Loretta O'Brian, Sally Osborn, Nelda May, Linda Miller, Phyllis Fairchild, Marie White, Ann McKee, Eugenia Landrum, Sue Cranfill, Shirley Whitten, Jerry Belle Norwood, Elizabeth Grubbs, Mary Tatum, Morris Bruns, Kenneth Ferguson, Jarrell Wright, Billy Hodgson, Jerry Houlette, Donald Petty, Delmar Renner, Mickey Ready, Harold Taylor, Dick Morrison, Charles Kirk and Lester Burnett.

Thursday evening dinner guests of Mrs. Ethel Adams and Mrs. Lela Gilmer were Mrs. Waymon Wilkins and children and Mrs. Sonny Weaks of Friona and Mrs. Jimmy Cox and Vicky Jo of Lubbock.

REDDY'S Farm Report
FROM THE AGRICULTURAL DEVELOPMENT DEPARTMENT
SOUTHWESTERN PUBLIC SERVICE COMPANY

These seven orphaned pigs are being successfully raised by "Butch" Collard, son of F. G. Collard, farm manager for the Bush Estate, near Amarillo. Sow was stricken with incurable disease and so could not nurse the litter. "Butch" is a Potter County 4-H Club Member.

Gives Every Baby Pig A Chance To Grow Up...

Every baby pig that cannot nurse or which doesn't get his proper share of "mama's" feed now has a chance to live out his early days at definite profit to the pig raiser. A relatively new artificial pig feeder heated by a 330-watt thermostatically controlled electric heating element substitutes for the warm milk normally provided by nature.

This new feeding unit may put an additional \$40.00 per litter in the pockets of pig raisers by keeping alive pigs that are often lost during the nursing stage. When something goes wrong with the

mother sow, the entire litter is often lost.

Experience has shown that, under good management, the pig feeder makes an ideal "mother" for orphaned pigs, runt pigs, pigs from oversized litters and pigs from sows who just don't provide enough milk.

While the unit does an excellent job of imitating "mother," it has other advantages. Danger of the sow stepping or lying on a baby pig is eliminated. Baby pigs are

kept fully contented, healthy and clean. Many unexpected emergencies that take place at farrowing time are lessened in intensity.

One hog producer had a sow which farrowed 16 pigs. He placed eight of the litter on the artificial unit and eight with the sow. The sow rolled over on one, reducing her share to seven. At weaning time, the eight pigs on the artificial unit were heavier than the pigs which had been naturally fed by the sow... and all were still alive.

Methodist Board Adopts New Budget

The official board of the Friona Methodist Church met Thursday evening for adoption of the budget for the coming year.

The commission on finance presented the budget which set forth the following items: ministerial support and local salaries \$9,018; other local expenses, \$9,380 (which includes repayment of \$5,000 on the

building debt); and benevolences, \$2541.75.

Members of the commission on finance are C. L. Mercer, C. L. Vestal, Mrs. I. T. Graves, Sloan Osborn, Bill Stewart and Arthur Drake.

Legion to Raise Money with Prizes

Sales of tickets on two prizes valued at \$50 each will be started by the American Legion Post No. 206, announces Joe Brummett, commander, who says the selling will start this weekend or the first of next week.

The raffle is a contest sponsored by the Legion for the purpose of raising money to furnish a nurses' room at the new Parmer County Community Hospital now under construction.

A fishing outfit including rod and spinning reel, tackle box, and other angler's necessities will be one prize, and the other will consist of a golf cart and bag.

Both are on display at Vestal-Brewer Hardware in Friona.

The prizes will be awarded July 14, and will not be necessary for purchasers of the 50-cent tickets to be present to win, emphasizes Brummett.

PERMIT ISSUED

A permit was issued last week to Eric Rushing to move three units of the Nu Court tourist cabins to a location at 4th and Prospect. They will be converted into residences.

Six Friona Boys Leave for Navy

(Continued From Page 1)

hand Monday to see that the boys didn't miss the bus which was due to leave at 2 o'clock.

After being sworn in at Albuquerque, the boys will start a nine-week recruit training session, and then move into airman basic school at Norman, Okla., where they will spend another eight weeks.

After that, they may part ways in navy service.

CRACKERS

(Continued From Page 1)

14 1/2 inches from the floor. It's to be 16 1/2. And we should have known better than to even bring up the subject.

Local Students Are in Austin

Phyllis Treider and Gerald Floyd are in Austin this week representing the Friona American Legion and Auxiliary at Girls' State and Boys' State. Phyllis left Wednesday and Gerald left Saturday, and they will return Saturday of this week. They will both be seniors in Friona High School this fall.

Phyllis, who is the daughter of Mr. and Mrs. George Treider, entered school here in the first grade. Gerald, whose parents are Mr. and Mrs. Glenn Floyd, started to school at Abernathy, then entered Friona grade school in the third grade.

Phyllis and Gerald have both been active in band and other outside activities of the school.

The three branches of government in the U. S. are the Legislative, Executive and Judicial.

in & around
FRIONA
With June

Sometime ago we read in The Hopper what a newspaper reporter was supposed to do with unsigned mail. Unfortunately, we failed to remember what the correct procedure is. One day last week we received a very interesting piece of mail signed "anon." Some of the contents were very amusing and showed that the writer had at one time been acquainted with Friona people.

If, by any chance, the writer reads this, it will be greatly appreciated if he or she will write again and sign the letter. When the editor returns, we know he will know what should be done with the communication, but until then our curiosity will mount higher and higher.

A very amusing incident happened at our house Saturday afternoon. Perhaps "over our house" would be a better way of saying it. A private plane flew over and buzzed around several times. The girls

insisted that we investigate, which we did.

After explaining to them that the pilot was probably looking for a field to dust for something or other, we dismissed the incident from our mind. Then early Sunday morning Albert Rolen, our neighbor on the east, drove up with a note which had been dropped near where he was plowing down in the flat. It was a greeting to us from one of our favorite cousins, Dub Wooley, who lives at Odessa.

Next time we see him, we will reprimand him for not landing in the pasture and visiting with us a few minutes at least.

The question we have heard asked more times than any other this week has been "Do you have any weeds?" From our observations, not any farmer has a monopoly on them right now. We are beginning to wonder if there are some species of weeds that are not affected by irrigation water.

It seems that all of them grow better when watered by rain and we have noticed some that we had not noticed following spring watering. If there is any value in weeds as a fertilizer, we know at least one farmer who has plowed under a good green cover crop.

The H. A. Hydes may be trying

to set a record of some sort. If there was a contest to see who acquired the most grandsons in the shortest time, the Hydes would surely win. Within the past nine weeks, they have added four names to their grandson list. Their son, Truell Hyde of Lubbock, became father to a baby boy nine weeks ago; then on May 12, a daughter, Mrs. Donald Kimbrough, became mother to twin boys and last week, another daughter, Mrs. Haskell Bolding, added number four to the list.

What has happened to the Ground Observer Corps organization for Friona? Several months ago there was a meeting in the interest of this organization, but nothing more has been heard about it. Maybe someone is working on it that we do not know about, but we would sure like to know.

Several of our weekly exchange papers have carried stories about Ground Observer Corps being organized and at least one local group of young people have made plans to volunteer to work in it. Do hope someone will give us some information in the near future. If you know anything about it, please call us.

A fellow from Brownwood was in the office one day this week. He asked if we knew L. M. Crow. Surely he didn't think anyone could be a resident of Friona very long without knowing Mr. Crow.

He said, "If Friona's 50th anniversary party has a contest for the man who has done the most work, I want you to nominate Milt Crow for me."

**Friends Gather
In Rhodes Home**

Guests in the home of Mr. and Mrs. Aubrey Rhodes for several days of last week were Mr. and Mrs. Manford Wham and daughter of Marlow, Okla., and Mrs. A. B. Loke of Duncan, Okla. Arriving Sunday to visit with the Oklahoma guests were Mr. and Mrs. Lawrence Starr and Miss Viola Leonard, all of Friona; and Mr. and Mrs. Charles Gray and Laverna Gray, all of Bovina.

Mrs. Wham and Mrs. Rhodes taught school together and were roommates in Duncan. Mrs. Starr and Lawrence Gray are former students of Mrs. Leonard, who also taught in Oklahoma. The Oklahoma friends returned to their home Monday afternoon.

**Return Home
From Missouri**

Mrs. R. A. Hartsell, Dal and Mary, returned early last week from Purdy, Mo., where they had been visiting in the home of Mrs. Hartsell's parents, Mr. and Mrs. W. F. Akin. While in Purdy, they also visited with her sister, Mrs. Freddie Hemphill. On their way home, the local family visited Monday night in Oklahoma City, Okla., with her son and family, Mr. and Mrs. Eugene Hartsell, and arrived home Tuesday evening. They were gone about a week.

**Workday At
Church of Christ**

Five of the ladies of the Church of Christ met Monday, June 4, in the parsonage of the Church to do some redecorating. They spent the day painting walls and refinishing the woodwork as a surprise for Mrs. Hartsell and family, who were on vacation.

Those present for the work day were Mrs. Frank Ayres, Mrs. Buck Ellison, Mrs. Tom Rhodes Sr., Mrs. Tom Rhodes, Jr. and Mrs. Mel Gunn.

Frionans Go Fishing

Mr. and Mrs. Joe Collier, Mrs. Bertie Stowers and Floyd Stowers of Friona recently spent several days fishing at Lake Kemp. They were accompanied by Mrs. Collier's son, Cecil Foster, of El Paso. Tom Gibson took his sons, Thomas and Lee, and Jim Greeson fishing at Lake Pauline near Quannah Sunday. The group returned to Friona late Wednesday.

Mrs. Welch Returns

Mrs. Nora Welch, of LuNora's Children's shop, returned to Friona Tuesday. She accompanied her son, Louie Welch and his wife, from Houston, to Abilene Saturday. Then went by train to Dallas where she attended market and a style show. She visited briefly in the Louis Welch home before returning.

Mr. and Mrs. Bud England and family of Phoenix, Ariz., spent Monday night in the home of Mr. and Mrs. Raymond Fleming and children.

OH, THE SHAME OF IT ALL—It's bad enough for anybody to run out of gas while driving in town, but it's much worse when the unlucky person happens to run a service station. Here is Alvin Gaines of Gaines & Smith Texaco station, who Monday afternoon sputtered to an embarrassing stop east of the city park. To add mortification to this face-reddening incident, the closest service station proved to be a Phillips 66—run by Cliff Coffman—who sold him the needed gas.

The Taj Mahal in India was built for the favorite wife of the Emperor of India, She Jahan. Mr. and Mrs. E. L. Fairchild and Mr. and Mrs. Leonard Gonsler spent the weekend at Ruidoso, N. M.

SECTION II
THE FRIONA STAR

**Missionary Circle
Has All Day Meet**

The Women's Missionary circle of the United Pentecostal Church had an all day meeting Tuesday. In the morning, the group gave the church building a thorough cleaning. A covered dish luncheon was served at noon at the home of Mrs. W. C. McKeehan.

The business and social meeting was held in the afternoon. Those present were Mrs. W. C. McKeehan and Stevie, Mrs. Kenneth Houlette, Mrs. Frank Griffith, Mrs. J. B. Buske, Mrs. W. O. Thompson, Mrs. Roy Lee Jones and Mrs. Joe Riley, who was a guest.

**Visitors Here
From Oregon**

Mr. and Mrs. O. W. Nichols, Gary and Sondra of Klamath Falls, Ore., left Tuesday morning for Colorado Springs. They had been guests in the home of Mrs. Florence Buske one week. They also visited in the

homes of Mr. and Mrs. G. B. Buske, Mr. and Mrs. J. B. Buske and Mr. and Mrs. J. F. Buske. Mrs. Nichols is the daughter of Mrs. Florence Buske.

**Holts Return
To Oklahoma**

Mr. and Mrs. Ira Holt and daughter, Reba June, returned to their home at Grant, Okla., early last week. They had been here two weeks visiting in the home of Mrs. Holt's parents, Mr. and Mrs. V. M. Ferguson, and other relatives and friends. The Holts are former Friona residents.

Mr. and Mrs. Sam Williams were Sunday dinner guests in the home of her parents, Mr. and Mrs. Otis Massey.

Mrs. Bomar Moore of McAllen and Levelland was a weekend guest in the M. J. Stacy home. Mrs. Moore is Mrs. Stacy's mother. Glenn E. Reeve Sr., local Chevrolet dealer, attended a dealer's meeting at Oklahoma City Monday and Tuesday of last week.

THE TEST OF TIME!

Hardly a day passes when the farmer doesn't have someone tell him of another way to make "easy money" by doing this or that. Making this money nearly always involves spending some while doing it.

However, every so often there comes along a practice that proves itself in the test of time, and becomes a part of better farming.

The most recent innovation in cost-saving on the farm—that has really been proved—is converting tractors, pickups, and trucks to LPG operation. The initial investment is low, and is quickly repaid time and again by savings in fuel and maintenance costs.

June Is the Month of Brides . . . And Here's Your Chance, Gals

By Jeanne Graham

After three long ordinary years—it's leap year, girls—and open season has been declared on bachelors. Significant is the fact that only seven months remain in 1956. And although this area isn't over-running with bachelors—there are still many eligible men if you just know where to look.

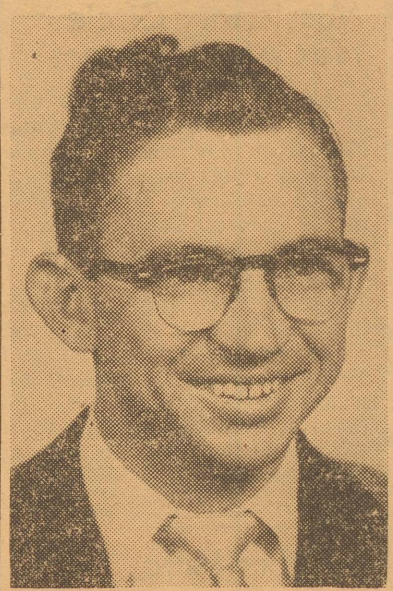

Because of the large area which this paper serves, this reporter could not interview bachelors from all communities, but to obtain a cross-section of opinion from this particular group of the male species, one person was interviewed from each town in the area—Texico, Farwell, Bovina and Friona—and the Oklahoma Lane community.

One of the most significant facts gained from the interviews was that the typical bachelor from this area is generally a good sport. Since he permitted a leap year interview, that is apparent. And it was learned that these men aren't looking for a certain type girl.

But if you are wondering how to meet the "most eligible" in your home town, here are a few suggestions.

1. Go to the county clerk's office in Farwell. Surely, somewhere in the far recesses of your mind,

you realize that you need to check

HUGH MOSELEY
COUNTY CLERK

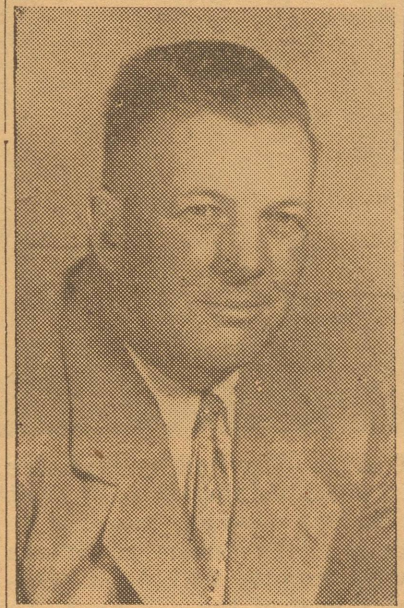

back on some records at the courthouse. Naturally, you would need the assistance of the gentleman in charge.

There are many things you could talk about, other than back dated records. Items of discussion could

be Friona, where this personable young man lived until a year ago, when he assumed his present position. You might brush up on your golf terminology, since that is one of his hobbies. He also has a farm south of Friona.

He attended Friona High School and received his degree from Texas Tech in Lubbock in 1953. He enjoys movies and artist series such as brought by Clovis Community Concert Association.

He is a member of Phi Kappa Alpha, national fraternity; Khiva Temple of Amarillo; Scottish Rite Bodies of El Paso; York Rite Bodies of Lubbock; Masonic Lodge; BPOE at Clovis; and Scottish Rite Club at Hereford.

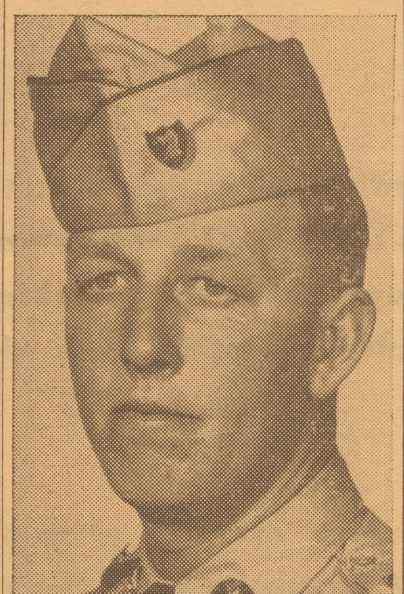

PAUL FREDERICK
TEACHER

2. Develop an interest in school problems, or perhaps you want to check up on the qualifications of some Texico School graduate, for some reason. The principal of the high school is the one to see. He is in his fourth year as instructor at Texico.

Develop an interest in sports, for this teacher is basketball coach for the junior high and senior girls, and also likes baseball as a spectator sport. He doesn't miss very many home games, whether it's baseball or basketball, and is one of the staunch supporters of Texico.

But his chief interest is education. He holds an AB degree from Highlands in Las Vegas and has an MA from the University of New Mexico.

He is a member of Curry County Schoolmasters, National Association of Secondary Principals, Lions Club, Texico Education Association, New Mexico Education Association and National Education Association.

SCOOTER QUEEN
BUTCHER

3. If you are in Bovina, and just happen to need a beef quartered or some other little job on that order—the blonde young man who fills the order might be one that you'd like to know. There is only one requirement for the girl he's looking for. She must be single. The young man resides with his folks in Bovina, and is a butcher with the slaughtering plant there.

He likes exciting hobbies—water skiing and flying. After attending Bovina Schools, he served two years in the Army. Other than that, he has lived in Bovina all his life. He is a member of the Methodist Church.

He is also a member of Elks Lodge.

LEE SPRING
DOCTOR

4. The best way to meet a certain young man from Friona, might be to go to the hospital, for as a doctor he is a very busy person. He was born in Bovina, was graduated from high school at Friona, received his BBA degree from Texas Tech in Lubbock in 1942, and served 39 months in the Air Force.

He took pre-med courses at Tech, East Texas State Teacher's College and spent one year at the University of Houston before entering University of Texas Medical Branch at Galveston, receiving his M. D. in 1952. He interned at Little Rock, Ark., and spent one year residency in General Practice and Surgery at Huey P. Long Charity Hospital in Pineville, Ark.

Dr. Lee has been at Farmer County Community Hospital since July, 1954.

His hobbies include tennis and photography, and his favorite food is chocolate pie. At present, he is busy just keeping up with "what's new in the medical field." He is on call every other night.

Dr. Lee was stationed in England during the war and desires to return there and to visit some other European countries.

5. Living in an agricultural area, it is always well to know a little about farming. And while learning about this occupation, you might have an opportunity to meet an Oklahoma Lane farmer, who resides with his father, John Payne, and a brother, Harley, on a farm 3/4 mile north and 2 miles east of the Oklahoma Lane churches.

He came here with his parents in November of 1925, from Duncan, Okla., where he was born, and has become a part of the community in which he lives.

He has been a member of the Baptist Church for many years, and does not belong to any social group. Farming is the only occupation he has ever known.

If you are a quiet person and interested in a farm, you might have many things in common. And in listing the qualifications that he

HUBERT PAYNE
FARMER

would note in the girl he would like to meet, he prefers that she be feminine and not possess the smoking habit.

As for the career girl, he feels that it is fine for the young lady to work while she is single, but he truly feels that a woman's place is in the home, after marriage.

School To Begin At Mexican Mission

The WMU of the First Baptist Church in Friona has made plans to conduct classes for all interested Spanish speaking people in the area. Anyone who is interested is invited to attend a meeting at the Mexican Mission Saturday, June 16, at 3 p. m.

There will be classes arranged for all ages from pre-school through adults, says Mrs. Bill Sheehan. Everyone who is interested is invited to attend. There will be no religious training in the school and it will be open to persons of any faith.

The following invitation should be handed to any Spanish speak-

ing people in the city and surrounding communities, Mrs. Sheehan says.

El Sabado que viene, 16 de Junio, vamos a haber clases para toda la gente que quiere aprender el Ingles or quiere aprender como leer Ingles major or mas rapido. Las clases va a ser en el edificio del Mission Bautista. Si ud. no puede hablar minguna palabra in Ingles puede aprender. Vamas a tener clases para todas las edades, para minos para prepararles pare las escuela. Las clases van a commender a las tres en punto. Toda es gratis y vienen todos.

Weekend guests in the J. M. Bradley home were Mr. and Mrs. Jack Carter and Sandra of Hobbs, N. M.

NEWS FROM THE

FARM BUREAU

By RAYMOND EULER

We made a mistake when telling you that Mrs. Rickerd would be out of the office several weeks ago. We are right this time in telling you that she will be gone to Waco Monday through Wednesday, attending secretary's school.

Your directors urge you to watch with diligence any news items relating to minimum wage legislation. We have been prone to say that organized labor does not bother the farmer, but reading of the present proposals for new legislation, and a look at the powerful groups supporting them, gives a different view of the situation. We have yet to talk to a farmer who says he could operate on a minimum scale of \$1 or more per hour for any and every man he hires, particularly if he could only work him eight hours before going up to time and a half. If you think this is important to you, you will have ample opportunity, at the right time, to express yourself to the right person in opposition to any such imposition upon your freedom. Watch your local papers.

Farm Bureau Roundup is, in our opinion, one of the best statewide farm report radio programs on the air. If you have not been listening to it, look at your Texas Agriculture paper to select one of the 107 stations that carry it each Saturday. You can get it early in the morning or at noon. It is entirely non-commercial.

If you 60 new Farm Bureau mem-

bers have been wondering when you would get your metal gate signs, we believe you will have them within the next two weeks.

We plan to devote this column to a write-up about Gilbert Kaltwasser, county president, sometime soon. We believe that you will agree that if 100 farmers in the county devoted as much time to working on farm problems and seeking a solution to them as he, there would be fewer problems.

Consider this: Seest thou a man diligent in his business? He shall stand before kings; he shall not stand before mean men. Proverbs 22:29.

Bureau Directors Have Meeting

Farm Bureau directors, in their regular meeting June 4, voted to provide financial assistance to 4-H girls attending the Roundup at College Station from Parmer County. This is the second year Farm Bureau has contributed to the girls' trip.

President Kaltwasser read for approval a letter he had prepared to send to senators opposing increases in Social Security benefits to an extent that the cost to taxpayers would be increased.

Minutes of the last Farm Bureau weed committee meeting were read and approved. Bruce Parr, chairman, was present to explain progress of the program to date. He reported that about 50 workers, 4-H and FFA boys among them, were lined up to assist in spotting and marking on maps plots of bindweed on road and railroad rights-of-way and adjoining farm lands. He also said that SCD had ordered three five-foot spreaders which would be available to farmers for spreading sterilants.

The directors agreed to buy lapel

pins for presentation to the president and past presidents of the county. It was also agreed to conduct the fourth annual Farm Bureau queen contest, probably sometime in August.

Ways and means were discussed for keeping county farmers better informed on farm legislation and gaining their participation in efforts to influence legislators on important bills under consideration.

Present at the meeting were Gilbert Kaltwasser, Ralph Miller, J. T. Jones, A. R. McCutchan, E. T. Ford, Jack Patterson, T. L. Kent, Harry Hamilton, Roy V. Miller, and F. L. Bruns, directors, and Raymond Euler and A. J. Ellison, service agents. Roy Crawford, vocational agriculture teacher of Bovina, was present as a guest. Bruce Parr was present as chairman of the weed committee.

SCOUT NEWS

At the May meeting of the Girl Scout Council it was decided to have the annual court of awards in the individual troops. In the past, there has been one such court for the entire membership. Several court of awards programs have been held.

Brownie Troop I met at the club house for their court of awards on Monday afternoon with 24 Brownies and the four leaders, Valoris Osborn, Willard Steward, Ruth Terry and Billie Long, present. During the business session, each Brownie told of doing something which she enjoyed during the year. Some of the accomplishments of the troop are as follows:

Business meetings were conducted at each session, new officers were elected twice during the year, good grooming was studied, a demonstration on care of the hair and nails was given by a licensed operator, the girls kept charts on personal care, also the girls did several kinds of handicraft. Copper pictures and decorative plates were made as well as several leather-craft articles. Sewing and baking was also done by the group, and during the year, they had three parties. Two times the mothers were guests and one time all members of Troop IX were entertained.

The group also went hiking and learned new songs and games. Mothers present for the awards ceremony were Mesdames Estis Bass, S. V. Chitwood, Frances Davis, E. T. Jennings, Neal Fulks, Granville England, Carol Dean Dunn, John Lamb, Meryle Massie, E. G. Phipps, Reaford Shirley, Ralph Taylor and Bill Woodley. Each girl received a membership star and world association pin.

Brownie Troop IX met in the back yard of the E. T. Jennings home for an outdoor picnic and court of awards Wednesday evening. For the awards ceremony a bridge was constructed. Each Brownie crossed the bridge, gave her Girl Scout laws and promise and was presented a Girl Scout pin by Mrs. Meryle Massie. Then the entire group sang "Girl Scouts Together."

The ceremony was followed by a wiener roast. Marshmallows, pops and candy were also served. All parents were invited. Those attending were Mr. and Mrs. Leonard Coffey, Mr. and Mrs. D. C. Herring, Mr. and Mrs. Meryle Massie, Mr. and Mrs. Buster Elliott, Mr. and Mrs. Fred Helmke and the hosts, Mr. and Mrs. E. T. Jennings.

Girl Scout Troop VIII met at the Seamount Ranch northeast of town Friday evening for an overnight camp. The court of awards was held outdoors. Several songs were sung and after the program was presented, each girl in the troop received second class badges.

The evening meal was prepared on a camp fire and the gingerbread, which was served for des-

sert, was cooked on buddy burners. The rain washed away all plans for the overnight camp. When it started raining, the group moved into a large tin barn.

The two leaders, Helen Potts and Ann McKee; Mrs. Herschel Johnson, Gayle and Vicky Knight, and Jan Wells were present. Also the following scouts, Patricia Barker, Willene Baxter, LaVoyce Burroughs, Linda Gay Gibson, Cynthia Guinn, Joy Ann Ingram, Linda Kay Johnson, Mary and Martha Knight, Iva Ben Parr and Sharon Reeve.

SOIL CONSERVATION DISTRICT NEWS

The principle of soil and water conservation measures are complicated in application, and call for thorough technical knowledge of their purposes, and how to apply them. They are generally used in combination with one another, and each must fit the need of a particular piece of land. Their application must conform with the principles of hydrology, engineering, and agronomy. Both training and experience is necessary here. No amount of indoor training can take the place of actual experience on the land. Under the varying conditions of topography, and drainage, the wrong thing done, or the right thing left undone, on any farm can cause serious damage to the entire farm.

Under the program of the Soil Conservation Service in assisting farmers of the Parmer County Soil Conservation District many conservation measures are being used to get the job done scientifically. Not all conservation measures are used on each farm, but are used in accordance with each acre's needs to protect and improve it.

By signing a conservation agreement with the Parmer County SCD, a farmer becomes a district co-operator and will be eligible to receive technical help on his farm. This is simply a statement of the farmer's intention to use the land within its capabilities.

The technical assistance that is available includes a land capability inventory, and a farm conservation plan. The land capability inventory will help determine the capabilities of each acre of the farm. It also tells the difficulty or risk involved in operating a particular farm.

Some land is suited for intense cultivation and requires only good farming methods. Other land requires much more intense treatment to produce crops. Still other land is best suited for grazing. Each acre has its capability.

Land capabilities are determined by the kind of soil (fine, medium, or coarse texture,) the slope of the land, the amount and kind of erosion and the climate. Land capabilities determine the best method of handling a piece of land, whether it can safely be farmed intensively as under irrigation or if it should be left or put back into grass for grazing.

The land capability map also determines the intensity with which a piece of land can be farmed without using conservation practices such as soil improving crops in a crop rotation, and the best method for planting crops.

After the land capability inventory is completed, a complete conservation plan can be made to fit the land and to suit the needs of the farmer. The plan will be a guide to use in farming a piece of land. Some plans will be simple, others more complicated because of different land capabilities.

A conservation plan can greatly aid in carrying on good sound farming. To obtain a conservation plan, contact one of the five SCD supervisors or the local SCS office in Friona.

Local Residents Attend Wedding

Mrs. Charles Schlenker, Mrs. Mabelle Hartwell, Mr. and Mrs. Ralph Wilson, Mrs. Floyd Schlenker, Mr. and Mrs. Billy Sifford, Mrs. Elmo Dean, Mr. and Mrs. Cordie Potts and children, Mr. and Mrs. Carl Schlenker and children, Mr. and Mrs. Louis Welch, Gladys and Lindy Dean and Bill Hartwell attended the wedding of Miss Jo Day Schlenker and Ray Cope at Portales Sunday afternoon.

Miss Schlenker is the daughter of Mr. and Mrs. J. R. Schlenker, former Friona residents.

Key Board Club Presents Recital

Mrs. Eva Miller, local music instructor, presented the senior members of the Keyboard Club in a recital at the Friona High School auditorium Thursday evening at 8.

Don Lewis, guest artist, sang "On the Road to Mandalay" and "The Living God."

Members of the club who appeared on the program with voice or piano numbers were Doris McFarland, Deniese Bender, Phila May Buske, Luann Hardesty, Helen Hamilton, Betty Agee, Nelda May, LaVon Fleming, Lila Gay Buske, Nancy Outland, Arlene Stowers, Sandra Brock, Johnnie Hand, Jacquelyn Magness, Eva Nell Thomas, Sally Osborn, Linda Miller and Janice Miller.

The Millerettes, Johnnie Hand, LaVon Fleming and Nancy Outland; the Blue Notes, Doris McFarland, Betty Agee and Jacquelyn Magness; and the Lorelis, Sandra Brock, Phila May Buske, Sally Osborn, Janice Miller, Eva Nell Thomas and Linda Miller presented the concluding numbers, "Whispering" and "The Lord's Prayer."

They were accompanied by Arlene Stowers.

LEGAL

THE STATE OF TEXAS To any Sheriff or any Constable within the State of Texas—GREETING:

You are hereby commanded to cause to be published once each week for four consecutive weeks, the first publication to be at least twenty-eight days before the return day thereof, in a newspaper printed in Parmer County, Texas, the accompanying citation, of which the herein below following is a true copy.

CITATION BY PUBLICATION THE STATE OF TEXAS TO: William H. Potts, and should

he have ever married, to his unknown wife or wives, and should any of said persons be deceased, then their heirs or legal representatives, Defendants, Greeting:

YOU ARE HEREBY COMMANDED to appear before the Honorable District Court of Parmer County at the Courthouse thereof, in Farwell, Texas, by filing a written answer at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 23rd day of July A. D. 1956, to Plaintiff's Petition filed in said court, on the 8th day of June A. D. 1956, in this cause, numbered 1856 on the docket of said court and styled ERNEST KUBE, Plaintiff, vs. WILLIAM H. POTTS, and should he have ever married, then his unknown wife or wives, Defendants.

A brief statement of the nature of this suit is as follows, to wit: A suit to try title, as well as for damages, to Lots 1, 2, and 3 in Block 48, Original town of Farwell,

Parmer County, Texas, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said court at Farwell Texas, this the 8th day of June A. D. 1956.

Attest: Hugh Moseley Clerk, District Court Parmer County, Texas. (SEAL) Star 36-4tc

Sunday dinner guests in the home of Mr. and Mrs. C. S. Crow were Mr. and Mrs. Jack Carter and Sandra of Hobbs, N. M., Mr. and Mrs. Dallas Earl Coldiron and sons of Amarillo, and Mr. and Mrs. J. M. Bradley of Friona.

assisted by Mrs. J. F. Buske. Other guests were Mrs. Florence Buske, Mr. and Mrs. Thomas Irvin Akens, Mrs. G. B. Buske and children, Mr. and Mrs. Cecil Bass and Adelle Smith.

LEGAL NOTICE

NOTICE TO BIDDERS

Sealed proposals addressed to the Honorable Mayor and City Commission of the City of Friona, Texas, will be received at the office of Roy Wilson, City Manager until 1:30 p. m., June 18, 1956, at which time said proposals will be publicly opened and read aloud, for furnishing all of the materials, machinery, equipment, superintendence and labor for the construction of a city hall, jail, and fire station improvements, to be constructed of brick and tile and containing approximately 2750 square feet and includes all plumbing, air-conditioning, heating and electrical. Any bids received after closing time will be returned unopened.

Bidders must submit a cashier's or certified check issued by a bank satisfactory to the owner or a

proposal bond from a reliable surety company authorized to do business in Texas, payable without recourse to the order of the City of Friona, Texas, in an amount not less than five percent (5%) of the largest possible bid submitted as a guaranty that the bidder will enter into a contract and execute a bond and guaranty in the forms provided within ten (10) days of notice of award of contract to him. Bids without the required check or proposal bond will not be considered.

The successful bidder must furnish bond in the amount of (100%) One Hundred Per Cent of the total contract price from a surety company holding a permit from the State of Texas to act as surety or other surety or sureties acceptable to the owner.

All lump sum and unit prices must be stated in both script and figures.

The Owner reserves the right to reject any or all bids and to waive all informalities.

Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions under which the work is to be done.

Plans and specifications and proposal forms are on file in the office of Roy Wilson, City Manager, Friona, Texas, and are available upon receipt of Twenty-five Dollars (\$25.00) as a guarantee of the safe return of the plans and specifications, the full amount of the deposit will be returned to the contractor on submitting of a bona fide bid on the work with such plans and specifications or upon returning the plans and specifications immediately after examining same and advising the City Manager that a bid will not be submitted, other-

Shift this worry

Don't try to carry the load of financial risks against loss by fire, windstorm, theft, burglary, accidents, liability, suits, etc.

When you have a loss, you want the matter cleaned up in a jiffy, with a minimum mental anguish to you. You want to shift the burden to broader shoulders than your own. Let us anticipate this possibility for you by writing the right America Fore policies to cover you against all such losses.

Your losses may be months or years away, but, meanwhile, insurance will give you mental peace that is worth far more than it costs you.
