

The Terry County Herald

Printed in Terry County, on the South Plains; the last stand of the Cattleman and the future home of the most prosperous Farmers in the United States

VOLUME 23

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, JUNE 1, 1928

NUMBER 41

Chamber of Commerce

By the Secretary

This week the bankers of the county underwrote the cost of a carload of registered pigs, which are intended to supply the pig clubs that have recently been organized by county agent Davis. The stock was secured from the Lillard Stock Farm of Arlington, Texas, and the president of the company was here in person for the purpose of closing the sale.

In addition to the pigs that were purchased from Lillard, several will be used from the farm of one of our own breeders, who is said to have as good stock as can be found anywhere, but did not have a sufficient number to supply the entire membership. The new assistant agent in the person of Mr. Williams, who is teacher of agriculture in the Brownfield Schools, began his duties last Saturday. As is the case with Mr. Davis, Mr. Williams was raised on the farm and also got his education at the A. & M., from the proceeds of a pig, which he secured as a member of a boys club and is capable of advising in all affairs of county agent work. Terry county should consider itself as fortunate in being able to secure two practical farmers for our agricultural program as well as men who have had college training that is necessary to make it a success. One of them will probably be in the office at all times and will be glad to advise with our people at any time.

The last 15 bushels of Dawson Co. cotton seed, which was a small portion of a lot that had been shipped in here by a breeder for distribution to our farmers after Dawson county had been placed in the restricted district, was sent to Lamesa last week, and represented all that had been delivered and collected for by him. The man had shipped in 315 bushels of cotton seed and we prevailed upon him, with the assistance of the Pink Boll Worm Commission and got him to remove the 300 undelivered bushels, but he could not see his way clear to take the others out and refund the farmer's money. And on account of the fact that our "governor" had not acted officially upon placing the quarantine, no penalty was attached to the breeder for his act. There is a strong suspicion that another lot of Dawson county seed reached the county a few days ago, and the Commission has been notified and is investigating the origin, and if it is found that they did come out of Dawson, some one is likely to get his tail mashed and a heavy fine with a few months in the cooler, where he should be. Any person who will deliberately commit any act that would be likely to cause his neighbor county to be placed under quarantine for pink boll worms, is not the kind of a character that is needed here and the sooner he is placed where he belongs the better off the county will be. And this goes for the breeder who shipped the first seed from Dawson county to the Wellman community, or any one else who would commit a like offense.

The writer and Chris Quante have been shelling the woods in an effort to secure finances sufficient to put over the Fourth of July Barbecue, which is to be directed by the American Legion. It is not known at this time whether we will raise the amount or not. One more week of work without interruption will result in the completion of the cutoff in the State Highway to the west line of the county. In fact the work will likely be done by the time this is read by Herald subscribers. The Garza and Kent county sections of the Fort Worth-Roswell Grand Canyon route will be completed in the next four weeks and travel can then be directed to California from eastern sections of the county over the most direct highway crossing the state, and it passes thru our town.

MARRIED

Mr. R. A. Crews and Miss Estella Christopher, popular young people of the Wellman community, drove in last Saturday evening to the home of Elder A. L. Burnett, about 9 o'clock, and he said the words that united them for life's journey.

The ceremony was witnessed by a few select friends. The happy young couple will make their home at Wellman.

"If I stole fifty kisses from you, what kind of larceny would it be?" asked the young man.

"I should call it grand," sighed the sweet young thing, without a quiver of an eyelash.

Rotary Club Gives Rotary-Ann Banquet

On Friday evening May 28, the local Rotary Club held one of the prettiest banquets so far staged in Brownfield. The spacious dining room at the Hotel Brownfield was decorated appropriately and the tables were further ornamented with floral offerings. Covers were laid for about 60 attendants. Besides the Rotarians and the Rotary-Anns, there were some special guests.

The Brownfield Stringed Orchestra furnished beautiful old time music and it was difficult for some of the more sedate and calm natures ones to maintain silence with their feet.

It was the occasion of the fiscal ending of the Rotary year, and the retirement of the present officers and the installation of the officers elect for the ensuing year. Morgan L. Copeland having served as president since the club's organization, submitted a synopsis of the entire club work from organization to date, and covered the club's present plans and work in progress. J. L. Cruce having served as secretary during the same time, gave the club a complete secretarial report. There were some special home brew songs adjusted to the tunes of some old time melodies that the club joined in heartily in singing. Miss Faye Brown also rendered some special numbers, being accompanied by Mrs. Roy Herod.

The retiring president then gave the Chairman's Annual Message, being on the subject of Rotary Idealism. The new officers were then conducted to their posts and appropriate installation proceedings were enacted. Tom May accepted the tendered presidency of the club, Earl Alexander the vice presidency and W. R. McDuffie the secretaryship. The club presented Morgan L. Copeland, the retiring president with a Rotary lapel emblem, being a combination of white gold and Rotary colors and design. The club also voted to send him to the International Rotary Convention to be held in Minneapolis, Minn., from June 18 to 22, the Texas delegation leaving Fort Worth on the all Pullman Rotary Special on the morning of June 16.

The local Rotary Club has some good plans for civic activities in the future.

Prof. Toone Honored at Chapel Exercises

Wednesday morning in the chapel exercises at the high school building, in behalf of the senior class and the faculty, Prof. W. E. Whitten, in a few well chosen words, presented Supt. W. B. Toone with a genuine leather traveling case as a small evidence of their love and friendship for him. During his nine years stay in Lampassas, Mr. Toone has been a source of inspiration to every student and teacher in the school and in years to come his influence in this community will live on. Mr. Whitten stated that Mr. Toone was not of the braggadocio type, who boasted of what he had accomplished, but quietly and orderly built up the standards of the school and in adding courses to the curriculum, has made this one of the schools ranking first among those of its size. One may judge how the school has grown during his administration, for his first senior class numbered thirty-two and the classes for the last three years have numbered over sixty. From reports sent out by colleges in which these students enroll, they are considered among the most efficient in the school. One college president has said that when he gets a student from Lampassas, he knows he gets one who can do the work undertaken.

Everyone in school feels Mr. Toone is his personal friend and regrets to see him leave, but wishes for him and Mrs. Toone, the greatest success in their new field.—Lampassas Daily Leader.

Prof. Toone has been elected Superintendent of the Brownfield Schools, and will move up in the next few weeks to take charge.

Typical old maid: "Johnny, I am ashamed to have our visitors know that you cannot name all of the presidents. When I was your age I could name them and tell them when they served."

Johnny: "Yes'm but there were only three of 'em at that time."

County Agents Column

By R. B. Davis, Agent

ATTENTION PIG CLUBS

Brownfield, Texas

May 29, 1928

Dear Pig Club Members:

According to your card you wanted me to order your pig for you. Mr. Lillard of the Lillard Stock Farms at Arlington was here last week and made us the best offer that we have had, and we decided to buy all our pigs from him provided that the pigs are as good as he says they are.

Mr. Lillard is the biggest hog breeder in Texas and wins more prizes at the big fairs than any two other breeders in Texas. I am going to Arlington Thursday and look over his pigs, and if they are satisfactory they will be shipped Saturday and you can get your pig next Tuesday at Brownfield.

Since there will be a car load of pigs it will be necessary for each boy and girl to draw theirs and then the majority of the pig club members are going to borrow the money and will have to make a note with one of the banks. These pigs will be here Tuesday and must be distributed that day. So to avoid confusion and to make it so that no mistakes will be made we will have to go by the following rules:

1. Each boy and girl who told me to order their pig must be here to receive pig Tuesday, June 5th, and report not later than 11:00 A. M.

2. The first thing to do when you get to Brownfield is to report to my office in the courthouse and make arrangements about paying for your pig.

3. Lectures on caring for the pig will be given and there will be a free lunch.

4. Right after lunch we will meet in the district court room for a short while and then draw for the pigs.

5. When you have the number of the pig that is yours you will get your pig and record book and then you will be in the race for the best pig in Texas.

Remember that if you are going to borrow the money that it will be necessary that your father sign the note with you, so bring him along.

Don't forget the date is next Tuesday, June 5th. Come to the Court house and to my office which is on the third floor and everything will be fixed up. Don't fail to be here not later than 11:00 and try to get here by 9:00 that morning. We are going to have a big time and get started right.

Hoping to see you in Brownfield early Tuesday morning, I am,

Yours very truly,

R. B. Davis,
Co. Agent,
Club Leader.

New Dry Goods Store to Open Here Soon

Mr. M. G. Hargrave, of Ralls, Texas, called at the Herald office Monday of this week and announced that he had rented the old Copeland stand in the Hotel Brownfield building, and would in the near future open a complete line of dry goods and shoes. Mr. Hargrave has stores at Ralls and Quitaque also.

Mr. Hargrave is both corpulent and jovial, the combination that usually goes together, and the Herald takes this means of welcoming him to our city and community, and we are sure that he will do his share of the business to be done here.

Note his ad in this week's issue of the Herald, asking you to watch for his opening date.

Fire Early Yesterday Damages Residence

The fire alarm sounded about six o'clock Thursday morning when it was reported that the residence of L. F. Hudgens was on fire, but most people thought it was just a practice alarm and did not get up to see about it. Not so with the fire boys for they got on the job immediately and probably saved the residence from total destruction.

It is reported that the blaze caught from an oil stove, and damaged the building about \$800 and the furniture is said to be a total loss except in the living room. Mr. Hudgens carried insurance to cover all damages.

Unloading Compress Machinery This Week

Mr. Underwood, manager of the East Texas Compress Company for this section of West Texas, is having machinery unloaded here this week for their plant which they are building in the Santa Fe addition to the city. We understand that work will be rushed on both the buildings and installation of machinery in order to have the plant ready for the season's run.

Large platforms, buildings and sheds are to be constructed and the very latest machinery and methods will be used for the compress, and it will be large, sufficient to take care of all cotton produced in this section at the present time. They purchased these grounds last year and built in one corner of it a home for the superintendent, which will also be used for offices until other arrangements can be made.

This is one of the largest compress corporations in Texas, and they have sufficient capital to put up anything they may need now or in the near future to take care of the needs of this section. They are now operating successfully scores of compresses all over east, north and west Texas, a number of which are on the South Plains.

Another good thing that can be said about this big company is that they had the common decency to get out in the edge of town to put up their plant and did not stick it right in people's front yards who had for years been trying to establish a home, damaging them hundreds of dollars. The Herald welcomes the new establishment in Brownfield, and hopes for them much success.

Brownfield Section Gets More Rain Mon.

More of that glorious moisture visited Brownfield and community Friday afternoon of last week, which will be helpful to the crops that are now coming up, and keep the grass whopping along at a fast rate of speed. It was just a thunder shower, but there must have been something like a third of an inch fell here. Some fine hail was mixed with it, but did no damage here or any place in the county that we are aware of.

While the rain was heavier south of town, it became lighter as you went north, playing out entirely a few miles north of the city, we understand. Good showers fell in spots all the way to Plains, we understand, but were very light in spots. A good rain fell in and southwest of Plains.

This will help keep down any hot winds until our next rain period, when we hope to get another general rain like the one two weeks ago. June is usually considered to be a rainy month, but July is usually rather sparing with its moisture, but if we get our usual June quota it will put the section in nice condition to go through a sizable drought in July, and with the moisture that usually comes in August which makes the corn crop and finishes up the cotton crops, as well as all row feed crops.

Young Man Sent to Insane Hospital Friday

Friday of last week, a young man who has been staying at the King Hotel for some time, was tried by a jury in the County Court before Judge H. R. Winston, and after some questioning by County Attorney Geo. W. Neill was adjudged to be insane and will be sent to the State Hospital for the insane at Wichita Falls.

It seems that the young man had been sleeping most of the time of late, only getting out of bed occasionally to eat and pay his bills, and while he had bothered no one, he would take spells of laughing about nothing apparently, and to himself. He was given a cell and bed early last week at the jail, as the hotel did not care to keep him under this condition, as no one knew what time he might become violent.

One of the saddest things of life is for a person to lose their reasoning faculties, and get in a condition where they are no pleasure to themselves or friends.

Send the Herald to your friends.

Farmers Take Fights If No Rain Till June

Last year at this time, the farmers had begun to have the fights pretty bad, and by the 20th of June, when we really had our first rain that would do to plant on, they were like a worm in the fire—and they were not by themselves—for the merchants and other business men of the city were just as fitfully, if not more so. Some of the farmers (?) had deserted the country for better climes, but we imagine before the year was over that many of them wished that they had stood hitched right here, for the farmers—and we mean farmers—who had their lands well prepared for rain when they did come, gathered a crop that taxed the capacity of the people to handle. Indeed, much help was imported to gather the crop that was made, late as it was.

Of course we must take into consideration that frost came some 20 days later than usual, and this usually happens of dry years, for dry years are usually cold and unpleasant till late spring, and the clouds blow away with out rain, when they try to form. But did you ever notice that a kind Providence usually even matters one end of the year or the other, but humanity is very prone to neglect the part that an All Wise being plays in our lives, and we like to take all the credit to ourselves for what we accumulate.

In conversation with a prominent south side farmer Saturday, he informed us that he never had seen a country in his life that would do what Terry county did last year. He acknowledged that he got fitfully himself last year, but that he had a neighbor who had been here longer and advised him to "stay with it." This he did and as a consequence made all the corn and fed crops he could harvest all winter, and nine good bales of cotton. This farmer is a small man in stature, and the white hair that crowned his head showed that he was getting well up in years, and he did all the work himself he informed us. He also produced what was needed on the farm to feed the live stock as well as a great deal of what the family could consume, and sold a lot of farm products that met practically all the family expenses.

This farmer is an enthusiastic booster for this section and he wants the world to know it. He says we have the land, as fertile as any in the world; it lays well, therefore will suffer little erosion even if we get more and more rainfall, and if taken care of in the right way, will suffer little from blowing in early spring. It is, he said, the easiest place in the world to make a living and accumulate something if one manages like they should.

He is wholly right as regards erosion from spring sandstorms, which we always have more or less, for the farmers all put their lands up early this year, going deep and plowing the red clay formation or subsoil on top, and there was little complaint of land blowing made this year. In fact, it rather caught than lost soils. But this country can never suffer winter pasturing on the farm lands to any extent.

Come to old Terry.

FIRE DESTROYS WAREHOUSE AT SUDAN

On Tuesday night at about 10:30 the warehouse and contents belonging to the Sudan Grain and Elevator Co. and two box cars were completely destroyed by fire. Fire trucks from Muleshoe, Amherst and Littlefield were called but the fire had gained such headway that it could not be extinguished. However the fire fighters prevented it from spreading. It is not known how the fire started.—Sudan News.

SUMMER SCHOOL NOTICE

All students interested in school work for the summer are requested to meet at the high school building at 9:00 o'clock Monday morning, June 4. Courses will be offered in History, Economics and Civics only, unless there is sufficient demand to get another teacher for some other subject.

Dick R. Heath.

KNOW TEXAS

Though Texas leads the country in value of crops, agriculturists say her billion dollar farm output could be tripled by more extensive farming methods and increased acreage under cultivation.

A. L. Turner Improving Property in City

A. L. Turner, one of our old time citizens, who recently moved back here from Seagraves to take charge of his property just west of the depot is making extensive improvements in this property, and when he has finished, he will have not only a nice piece of property, but we believe a paying one for the business he intends to conduct.

In the early days of the railroad here this property was made into a wagon yard, but as wagon yards are seldom used, they are more of a liability than an asset, so he is converting his property from a wagon yard into a filling station and camp ground. The lumber formerly used for horse stalls and the pavilion around the yard, is being converted into nice stalls or bunks for campers to keep out of bad weather, should such occur, and the big shed in the center of the grounds will be used for the people to drive their cars under in order to keep them out of the weather. The whole place will be well lighted as a protection to the property of campers, as well as to make the place attractive and home like.

One of the two room dwellings has been turned catty-cornered across the corner of the property and a large shed erected in front, which will be used for a drive-in filling station, and the camphouse will be converted into storage room for supplies and auto accessories.

Mr. Turner has contracted with the county to begin at the Peter's corner at the end of the lane and grade a road straight up the section line past the rear of his property to the railroad, thus giving him a good chance at the traveling public. It is our opinion that some day, whether it might suit all or not, this road will be opened up across the railroad at this point and connect with the Lubbock and Tahoka roads at the northeast corner of the original town section. We know it will if it ever becomes a Federal-Highway, for they do not fancy any more turns than necessary, and as this is a section line, it can never be killed permanently for road purposes unless the laws of Texas are changed.

We hope Dad does well with his property, for owing to conditions, people living on the west side of the railroad have had to submit to many indignities and suffered heavy financial loss.

Local Boys Accused of Rifling Cash Drawer

Two young boys of the community, one almost a young man, and brothers, stand accused of rifling the cash drawers of a local lumber yard of some \$60. It is our understanding that the boys only acknowledge to having obtained forty odd dollars, but the firm reports some sixty dollars missing. The younger of the two boys is now in jail here, but the other has made a temporary escape, but officers think they will have him before very long.

It is our understanding that these boys now have a suspended sentence hanging over them, and if so, this offense means that they must be sent to the reformatory at Gatesville, where they will be confined under strict discipline and learned useful trades, as well as to be forced to go to school.

It makes one feel sad to hear of boys, especially those that we personally know going wrong and having to be confined like a wild beast, but people's property must be protected and respected if we are to have a community fit to live in. "Be sure your sins will find you out" was written by a holy prophet of God hundreds of years before the birth of Christ, but they are as true today as when written. In fact, they were not only written for the admonition of people at that time, but were just as truly intended for posterity.

Of the 254 counties in Texas, 196 produce cotton in sufficient quantity to be reported in the ginning figures of the United States department of commerce.

The production of the entire state in 1949, the year after annexation of Texas to the United States, was only 58,073 bales.

BELIEVE IT OR NOT— WE ARE DOING IT—WHAT?

Selling more merchandise each week and each month. We know the reason—do you? It is just simply this—we keep one ear to the ground for bargains, and we buy them. Not only this, but we pass them on to you. Get your list of groceries, come in and compare our entire line—not just one item. Each item is plainly price tagged. GREAT WEST MILL COMPLETES \$250,000 ADDITION

With the completion last week of the towering elevator and group of storage bins pictured on the left in the above sketch, the Great West Mill & Elevator Company's plant at Amarillo becomes one of the largest in the Southwest. This new addition increases the storage capacity of the mill from 500,000 to 1,300,000 bushels.

The original plant of the company was built in Amarillo in 1921 at a cost of approximately \$750,000. With this new addition, the mill represents an investment of about \$100,000. The manufacturing capacity is now 800 barrels of flour daily, with facilities for handling 110 cars every 24 hours. The necessity for this large addition to the original plant has been due largely to the phenomenal growth in the demand for two principal products of the mill—Amaryllis Brand and Great West Brand of finest

wheat flour. Both are widely sold throughout West Texas, New Mexico and the far Southwest; housewives in many communities expressing an almost 100 per cent preference for one or the other of the brands.

Mr. Sheldon has again taken charge of the Brownfield Steam Laundry, having taken it over again last Tuesday at noon.

R. V. Holden, of Iatan, Texas, passed through Monday on his way to Sudan, and spent the night with his sister, Mrs. Stricklin.

A joke is going the rounds that a splendid local citizen approached a merchant on the streets and offered to purchase a ten gallon pickle keg. Noticing that a by-stander kindly grinned, he returned after walking off some 20 feet, and clearing his throat, he informed the merchant he wanted the keg to carry water to the field. It is a pretty come off in this free country when a man has to explain himself every time he buys a keg, crock or glass jar.

W. GREGORY HATCHER ANNOUNCES FOR RE-ELECTION

I am asking re-election to the office of State Treasurer, first because I want the office, and secondly because I feel that I can render a service to the people of Texas and believe that they want me to continue as their State Treasurer.

My candidacy is based upon the record I have made and upon the principle that "a public office is a public trust and must not be used for private gain."

W. Gregory Hatcher.

Lence Price reports that his young cotton is dying and he cannot understand the trouble. The roots, he says, seem to be rotting.

M. B. Sawyer says that he is on the jump these days as he has to look after just 53 rent farms. Well, we imagine so.

Jack Stricklin Jr. left Tuesday afternoon in company with his uncle, R. V. Holden, for a visit with relatives at Coahoma, Texas.

Mr. and Mrs. A. Flache and daughter, Miss Nelle and niece, Miss Beatrice Mitchell visited relatives at Levelland Sunday.

Miss Beatrice Mitchell returned to her home at Winters, Texas, Monday, after completing a successful year at Harriss School near Tokio.

Mrs. Clarence George and little daughter, Billy Joe, of Midland, visited her friend, Mrs. C. B. Quante, and other friends here the latter part of last week and the first of this.

Harry Cornelius was here last week visiting his parents, Mr. and Mrs. R. L. Cornelius.

Col. Oscar Fogg of New York, president of the American Gas Association, says: "The cities of Texas are a living example of the day when all American cities will be smokeless because they can do it better with gas." Colonel Fogg was struck by the clear atmosphere of Dallas when he attended the recent gas convention.

About 52,000,000 acres of public lands of Texas have been appropriated for public schools purposes in this state.

The corn production of Texas ranges from 75,000,000 to 125,000,000 bushels annually.

Established 1896 SAN ANGELO

RIDING BOTH HORSES SELDOM PAYS

Governor Moody comes out of the Beaumont convention an ostensible victor. The delegation to the national convention at Houston is pledged to a dry plank in the platform and a dry candidate. The Governor will head the delegation, selected not by the district delegations, but by a convention committee as he finally said he wanted it done. Apparently, he has won at every stage of the proceedings.

But it is apt to prove not only a hollow but a very costly victory so far as the Governor is concerned. In its wake have been left political wounds that even time may not be able to heal. Close friends and wheel-horses in his campaign for Governor—men like John Boyle of San Antonio and Steve Pinckney of Houston—charged him openly with breaking a solemn agreement. The Love faction, to which he went in the final hours of the convention, earlier in the proceedings had said ugly things about him and at one stage its leader, Senator Love, had hurled at him the admonition that "crooked politics never pays." The Smith followers openly charged him with having "double crossed" them.

Thus the Governor, in his apparent victory, occupies the unique and unenviable position of playing with both sides. He is charged with having used the votes of the Smith contingent to defeat the Love proposal for instructions against Smith and any other wet candidate and this attained, then joining with the Love group to pick the delegates so that no Smith man or man of Smith leanings remained on the delegation. Worse still, he is charged with having delayed the report of the committee until sufficient Smith delegates had left to make his joining with the Love faction assure the desired victory. Thus playing with both sides, he was denounced by both sides and his own explanation to the convention, which he interrupted a roll call to make, made a bad matter worse. Declaring himself a believer in the principles of local self-government and the right of the districts to choose their delegates, he maintained nevertheless that the convention itself should pass upon or choose those selections. Though the convention had previously instructed its delegation for a dry plank and a dry platform, he demanded some additional safeguards to guarantee that the delegates so named would abide by the convention's instructions. Thus he placed himself in the light of impugning the integrity of the delegates to be chosen.

His position in this respect reminds one of the story of the man with the Puritanical wife. She didn't care what he did so long as he didn't have any fun. The Governor favored the right of the districts to select their own delegates and the right of local self-government, just so long as the delegates were hand-picked.

It was a situation, of course, that produced bitter feelings and called forth varied explanations and apologies. Those opposed to the Governor and his course, charged him with playing with both sides and his former friends and campaign leaders among the Smith contingent charged it to deliberate purpose and charac-

terized it as a bit of "double crossing." Others sought to explain it on the ground of the Governor's youth and inexperience in politics; to the fact that "Dan's a good boy and means well, but he doesn't know what it's all about." This, of course, is the easier and more gracious explanation of the two; but if it is correct, the campaign slogan, "We've had a woman for Governor; we've got a boy for Governor; let's have a man," would seem to have more merit than usually attaches to a campaign phrase.

But, regardless of what the true explanation may be, the spectacle at Beaumont was not only disgusting but regrettable. To have the Governor of the largest, and the greatest Democratic State in the Union, and the chairman of its own delegation to the national convention denounced by both factions and held up by one as a "double crosser" presents a shameful picture to the visitors we shall have at Houston. To say the least of it and irrespective of how one may feel toward Governor Moody, it is something that people with pride in their State and their party can not relish.—Ft. Worth Star-Telegram.

Hunter School Notes

Now that school is out the chances are that there will be some weed killing going on soon, as we believe most of the kids had rather work than go to school.

The program of our school last Tuesday night was a howling success. So many attended that we couldn't get into the house. We sincerely thank Mr. and Mrs. Fulton for their splendid teaching, and for rendering us such a fine program. The music was from Brownfield.

Mr. G. E. Zackery visited his father in the Forrester district Sunday.

Mr. Dema Montgomery visited Mr. Everett Woodall, Sunday.

Among those who attended the singing at Mr. G. D. Montgomery's Sunday night was Mr. Lonnie Retherford, Miss Creo Edwards, Maude Edwards, Elmer Edwards, and Mr. and Mrs. R. C. Hall.

Mr. George Jinkins visited Mr. Raymond Zackery, Sunday.

Mr. Lonnie Reatherford visited Mr. Elmer Edwards, Sunday.

Mrs. Virgie Pyeatt, of Brownfield, visited Mrs. Lee Lyon, Sunday.

Mr. and Mrs. H. L. Holleman had as their guest last week, Mr. Holleman's father, of Brownwood, Texas.

Mr. and Mrs. R. C. Hall visited in the home of O. M. Edwards, Sunday.

Mrs. Bennie McDonald visited her parents, Mr. and Mrs. Lyles Sunday.

Mr. and Mrs. Lloyd Simms visited his parents, Mr. and Mrs. L. L. Simms Sunday.

Mr. Deward Williams was a Brownfield visitor, Sunday.

The little son of Mr. and Mrs. E. L. Williams is quite sick.

The electric lights are now being installed in Mr. and Mrs. Lee Lyons' home.

Mrs. Jewel Zackery visited Mr. and Mrs. E. L. Williams, Tuesday.

Homer Scott of Lubbock and Luke Scott of Arizona, old timers of this section, were down this week and paid the Herald a pleasant call.

BLED SOE QUILTS IN SENATE CAMPAIGN; WILL REST

Injuries suffered in an automobile accident near Tulia on March 27, has caused W. H. Bledsoe, for twelve years state senator from the thirtieth district, and a candidate for the same office this year to withdraw from the campaign. Mr. Bledsoe yesterday announced this decision to quit the race and in so doing said that he con-

templated a temporary withdrawal from business. Mr. Bledsoe recommended to the voters the remaining candidate, Pink L. Parrish.

George Dupree of Hillsboro, is to join the law firm of Bledsoe and Crenshaw and thus allow Mr. Bledsoe to take the vacation which he needs. Mr. Bledsoe will probably go to points in the north and west to recuperate. Mr. Parrish, former county judge

of Crosby county, last month finished a term as mayor of Lubbock.

During Senator Bledsoe's twelve years in the state legislature he was an outstanding leader. His record, replete with constructive legislation and conscientious service shows that he was a profound supporter of the state prohibition law, that he advocated woman suffrage, that he was one of the main reasons why the bill providing for establishment of Texas

Tech was passed, and that he was a leader in other measures of importance to the state.—Lubbock Avalanche.

We call your attention to the big June Sale of Collins Dry Goods Co. featured in this issue. Come one, come all to this feast of bargains.

Prof. J. W. Casey, of Plains, was among the visitors here Monday.

**SIMMONS TO DRIVE FOR
ONE AND HALF MILLIONS**

ABILENE, May 28.—A drive for \$1,500,000.00 to be realized in the next year or two by Simmons University has been announced from the office of the president, Dr. J. D. Sandefer. This is the most extensive single program ever outlined for the West Texas University.

One million of this is to be added to the endowment which stands now at half a million and the other five hundred thousand will be used in constructing more buildings and adding equipment.

In his statement concerning the drive, President Sandefer said that the time had come when Simmons, to serve a growing West Texas, must have more endowment and have more buildings. The twelve buildings now on the campus are taking care of the activities of more than 1,400 students and are taxed to capacity.

The old bakery oven at the back of the Jack Head building, formerly used by the Bon Ton Bakery, is being dismantled and carried out in the country this week where it will be used for sheds.

Mrs. Earl Williams, of Iraan is visiting her parents, Mr. and Mrs. Simon Holgate.

**WAYLAND COLLEGE GRAD.
UATING CLASS OF 34**

PLAINVIEW, May 29.—May 24th completed another milestone in the history of Wayland Baptist College and by graduating a class of thirty-four seniors connected with other outstanding attainments of the past year makes it without doubt the most successful year the college has ever experienced.

Summer session opens June 4th, with special stress being made in Educational subjects. Inquiries received by dean Z. T. Huff indicate that a large teacher enrollment will constitute a majority of the enrollment. The administration building is now receiving a complete renovation and is to be in readiness for the Summer School. The Nunn library is receiving new equipment and with decorated walls and new oak floor will be one of the most attractive libraries in West Texas.

The Hardin-Burnett Auto Co., have recently added quite a lot of machinery for overhauling cars. Mr. John Scott is their mechanic.

We are sorry to report Miss Emma Jane Alexander as being ill.

Misses Bessie Thompson and Helen Jackson will leave Saturday for Baylor College at Belton, Texas.

**VALLEY FORGE PLANS TWO MEMORIALS
TO HONOR HEROIC SOLDIERS OF 1778**

Library and Non-Denominational Church Will Rise on Broad Acres Near Philadelphia — Celebration Arranged for June to Mark 150th Year.

Washington's Headquarters and Memorial Arch at Valley Forge. The Walk Approaching the Arch Has Been Chemically Treated.

for which will be laid June 19, 1928 as the closing feature of the Sesqui-Centennial observance.

History only will have a place on the library shelves. Each state will be represented by works dealing with the history of that state and the library will have, therefore, 48 alcoves.

Valley Forge continues to be the center of interest of thousands and thousands of visitors from every section of the country, as well as from abroad.

Railroads and automobile bus companies regularly run excursions to the famous old shrine of patriotism and on Sundays and holidays even the broad acres of Valley Forge are taxed for space by the huge throngs. In addition many visitors travel by private motor cars over the excellent roads, kept in splendid condition by the Commonwealth of Pennsylvania.

All roads to Valley Forge run through a landscape of remarkable beauty, artists agree, and these roads are treated, as necessity arises, with chemicals, especially calcium chloride, to lay the dust.

Only 32 miles from Philadelphia, the shrine has long been one of the favorite objectives for daily excursions for Philadelphians, as well as for visitors to that city who have combined the Valley Forge trip with a tour of other places of historic interest, such as Independence Hall, the Betsy Ross House and other relics of the Revolution.

That interest is expected to be stimulated by the forthcoming celebration

VALLEY FORGE, scene of the Continental Army's martyrdom and heroism in the depressing days of 1777 and 1778, will furnish the background for a great national observance of the 150th anniversary.

Imposing memorials are planned for the big cantonment outside of Philadelphia, chiefly a Washington Memorial Library and a Washington Memorial Church, non-denominational.

While the details for the celebration have not yet been announced, it is believed that they will be most comprehensive and picturesque, including participation first of all by the thirteen original states and then by all forty-eight states.

The Washington memorials will rise on the site of the Zulich mansion, destroyed last spring by fire. The Rev. W. Herbert Burk, founder and rector of the Washington Memorial Chapel, has received assurances of gifts that will make the memorials possible.

His congregation has bought a site covering 15 acres for the buildings and an unidentified donor has promised funds for the Library, the cornerstone

G. G. Gore of the Johnson community, was in Saturday after supplies.

Jim Smith, of Tatum, N. M., was a business visitor here the past week.

WELLMAN WILLING WORKERS

Mr. Davis, our county agent, was with us at our club Tuesday May 15 to see who all wanted him to get their pigs.

Everyone is anxious to get their pigs etc., to get started, and all the other clubs are going to have to work to beat the Wellman Willing Workers.

The following are club members: Elmo and Sam Adair, Dean and Curtis Griffith, Lometa and Nora Grigg, Roberta and Grady Story, Frank Wilson, George Little, Ruby Hefner and J. E. Spears.

The following are the club officers: President, Elmer Davis; Vice-Pres. Henry Wilson; Secretary, Ermine Hefner; Dorothy Garrison, Reporter.

W. A. Bell and wife returned last week from Marshall, Texas, where they visited relatives. Bell says they got water bound while down there between two rivers and like to have had to stay it seemed to them.

**SICKLY BOY, 7, GAINS
15 LBS.—FATHER HAPPY**

"My boy, 7, would not eat. I gave him Vinol and the way he eats and plays now makes me happy. He gained 15 pounds."—J. F. Andres.

Vinol is a delicious compound of cod liver peptone, iron, etc. The very FIRST bottle often adds several pounds weight to thin children or adults. Nervous, easily tired, anemic people are surprised how Vinol gives new pep, sound sleep and a BIG appetite. Tastes delicious. Palace Drug Store.

**RHEUMALAX
RELIEVES
RHEUMATISM**

Mrs. S. C. Lee, Parrottsville, Tenn. writes, that "for years I have been a sufferer from rheumatism and have found nothing that has brought greater relief or been more beneficial to me than RHEUMALAX, may the blessings of God go with RHEUMALAX on its mission to the suffering." Sold and guaranteed by Alexander Drug Store.

Shining Example of Art "Made to Order"

A painter in Raphael's or Rubens' time, must have been a singularly inartistic person, judged by modern standards. He generally began his career as an apprentice, grinding colors and stretching canvases or preparing panels for some eminent employer. Later, he was allowed to work on the less important portions of his master's works, and still later, he opened a studio of his own. But he didn't call it a studio. It was a shop, equipped to turn out art by the piece or on time. Its proprietor was ready and willing to furnish whatever was wanted, from a sign for another shop to the ceiling of a chapel. His main concern was to please his customers, make as much money as possible, and turn out a good job. And because self-expression, in its only true sense, is almost as involuntary a process as the growth of a man's hair or the coloring of his eyes, he managed, in the course of a busy life, to stamp his work with an individuality before which we still stand in admiration. Haydn ground out over a hundred symphonies because his chief job, under Prince Esterhazy, was to furnish symphonies; Bach wrote his church cantatas because he would have lost his job if he hadn't. Mozart wrote his Requiem mass because a customer came along who wanted one. Shakespeare wrote his plays because the stock company he was working for needed things to act.—Vanity Fair Magazine.

Embroidery Art Goes Far Back in History

The making of embroidery was an established industry in China centuries before the visit of Marco Polo. The earliest extant specimen is assigned to the Eighteenth century, but it is certain that this art was followed at a very much earlier date. The impermanence of the materials used is alone responsible for the non-existence of very ancient Chinese embroidery.

Embroidery made in China for the western market on European patterns is a recent development, having been first introduced and fostered by the missionaries about thirty years ago. Certain kinds of embroidery the Chinese have not as yet duplicated, such as those of Madeira and Cyprus, although reports from Madeira indicate that several houses there have turned their attention to China as a field for future production.—New York Times.

Checks for Small Amounts

There is a federal law stating that "no person shall make, issue, circulate, or pay out any note, check, memorandum, token, or other obligation for a less sum than \$1, intended to circulate as money or to be received or used in lieu of lawful money of the United States and every person so offending shall be fined not more than \$500 or imprisoned not more than six months, or both, at the discretion of the court." Many individuals, and even the government, make checks for an amount less than \$1, but they are not intended to circulate, but are only intended to pay the amount of the check to the person the check is made payable to. A check is not lawful money and consequently cannot be passed as lawful money. A check is a personal credit instrument used in place of money.

Won and Lost

Three young men were dining. After the meal one of them wagered another that the latter could not balance a glass of water on each hand. The challenge was accepted. Placing his hand palm down, flat on the table top the challenged one let his companions place a glass of water on each of his outstretched hands. "Easy," said he. "You win," replied the other two and they placed the meal checks in his coat pocket and departed. Amid the laughter of other diners, the hoaxed youth had to invoke the aid of a waitress before he could be relieved of his embarrassing burden.—Boston Globe.

Fault finding is an easy habit to acquire. No talent, no brains, no character, no education is needed to establish yourself as a grumbler, and the rewards are usually commensurate with the investment.—Grit.

CHAPMAN D. G. CO.

The fire boys were treated with a free show at the Rialto by the managers Monday night, Colleen Moore, in "Her Wild Oat" being on the screen. The fire boys deserve every treat offered them, and we are glad to see the citizenship awake to their importance to the community.

Mayor Joe J. McGowan and family returned this week from California, where they took their vacation.

SCIENCE SHOWS SLEUTHS OF FUTURE MAY OUTDO EVEN SHERLOCK HOLMES

Particles on Clothing May Show Man's Occupation and Home Town—French Investigator Paves Way With Microscopic Examination to Convict Slayer.

The Modern Sleuth Examines Suspect's Clothing With Microscope. Insert Shows Sir Arthur Conan Doyle, Creator of Sherlock Holmes.

WHEN Sherlock Holmes looked at a man's shoes and saw red on them, the great detective of fiction could tell instantly the locality from which the man came.

Detectives of the future will be able to go Holmes one better, if one may judge from some of the scientific studies now being made upon dust particles.

Physicists have long known that dust flying in the air may cause certain ailments and city officials have seen to it that children's health on city playgrounds is protected against dust by certain dust-laying chemicals, such as calcium chloride.

Researches show that a man's occupation may be determined from the dust particles found on his clothing and, further, in many cases, police may learn the name of the city in which he has his home.

The matter seems simple enough, too. A steel worker will have fine particles of steel clinging to his clothing, no matter how often he may brush them. Such particles might be removed by brooms, vacuum cleaners or even magnets, but a sufficient number remains for determination by a microscope.

FRESH VEGETABLES

You will find here a tempting array of fresh vegetables just a few hours out of the garden, such as cantaloupes, tomatoes, squash, cucumbers, beans, peas, corn, onions, lettuce and all kinds of fruits. Try our market department. It is complete in the choicest cuts of meat.

A true story: A Terry county citizen went to a neighboring town last week to attend the opening of a retail store of a big mail order concern, and after pricing goods there and other places in the town, he came back to Brownfield and bought his goods.—Moral: Trade at home and keep your money there and save at the same time on your purchases.

Teacher—"Now, as you all know, the law of gravitation explains why we stay on earth."

Pupil—"But how did people stay before the law was passed?"

Noah Bell, of the Needmore community was shopping here Saturday.

THE PROGRESSIVE SOUTH

Anyone desirous of keeping pace with the progress of the South should be the possessor of a copy of the "Blue Book of Southern Progress" issued by the Manufacturers' Record. This year's edition presents an amazing panorama of the achievements of a section of the United States which is becoming better appreciated as development proceeds. The remarkable advancement of the industrial, agricultural and commercial activities of the South are summarized and presented in readable and authentic form and a special feature which will appeal to users of the book is the topical index which enables the seeker of information to turn quickly to the particular subject in which he is interested. The rapid expansion of the varied industries of the South affords interesting reading not only to investors in other sections of the country, but to the citizens of the territory itself, thousands of whom do not realize what a splendid record is being made.—Southwest Plainmen.

All those that are going to raise chickens have the chickens or eggs, but one.

The boys will get their pigs next week.

We have learned a pig yell.

—Reporter.

THE HAND THAT ROCKS CRADLE STILL RULES

Electricity has taken over the age-old job of rocking baby's cradle, says the Texas Public Service Information Bureau.

No longer does little Willie or Sister Jane need to be impressed into service which perhaps down the centuries has been the bane of juvenile existence. Nor is the modern baby's tender person likely to be damaged when tipped out of his crib by too-vigorous a shove of a youthful hand.

Perfection of an attachment for a cradle or baby "buggy" permits rocking from side to side and also rolls either vehicle forward and backward by electrical power. Controls are provided for regulating the action, and, after the switch is snapped, there is no other attention necessary.

MARRIED

Mr. Bill Allmon, junior partner in the Sanitary Barber Shop, and Miss Vida Carr, charming daughter of Mr. and Mrs. Carr of this city, drove to Lubbock Tuesday night, where they were married. The happy young people will make their home in Brownfield, we are glad to state.

TO OUR FRIENDS AND PATRONS

We want to thank each of you for your patronage and ask that you continue to patronize our successor, Mr. Sheldon.

**CHEVROLET TO BUILD LARGE
PLANT IN KANSAS CITY**

DETROIT, May 29.—Marking the latest step in a movement to keep pace with the growing demand for its product, the Chevrolet Motor Company announced here today that construction will start shortly on a mammoth Chevrolet assembly plant in Kansas City. This follows closely on the opening of a similar plant in Atlanta to serve the Southeast.

When completed in October, the Kansas City plant will be the largest automobile factory in the Southwest and will represent an investment of more than \$2,250,000. Like the Atlanta plant, the Kansas city factory will have a capacity of 350 cars a day providing Chevrolet with facilities for the production of more than 1,250,000 cars annually. The new factory will serve Western Missouri, Kansas, North and South Dakota, Wyoming and Colorado.

W. S. Knudsen, president of the Chevrolet Motor Company, declared today that the opening of a plant in Kansas City has been made necessary to relieve the St. Louis and Janesville factories, where the demand has been taxing production facilities and making it necessary for both plants to work overtime for the last three months. It is a further step in the company's program to insure a regular flow of cars in line with the exceptional public demand, he said.

Twenty eight acres in the Leeds district have been taken over for the various buildings which will include the main Chevrolet-Fisher assembly unit, an office building, parts and service building, driveway shed, loading dock and power house. With the exception of the office building the units will all be of one story, monitor type roof construction, allowing for the maximum amount of light for workmen. Nearly one half of the huge Chevrolet-Fisher assembly unit will be occupied by the Fisher Body Corporation for the building of bodies for all Chevrolet closed cars. This close association of the world's largest and foremost automobile body builder will enable Chevrolet to provide the same type of service available in other Chevrolet assembly plants throughout the country. Buildings will have a total of 410,000 sq. ft. of floor space.

Work will be provided for 1,500 people and the payroll will exceed \$9,000 daily. Following the Chevrolet policy of recruiting workmen from the respective communities in which its plants are located, local help will be employed almost exclusively, with the exception of a few technically trained men heading the various departments. This plant will be equipped with the latest appliances for the efficient manufacturing of automobiles similar to those in use in other Chevrolet plants throughout the country. Edward Shaw, at present general superintendent of the Chevrolet assembly plant in Flint, will assume management of the plant.

The Sales Department, now operating in the Kansas City Zone location, 19th and Grand Avenue, Kansas City, Missouri, will be removed to the plant as soon as the plant is ready for occupancy, and Mr. Paul M. Seese will be in charge of the work of the Sales and Service Department. Appointment of a Resident Comptroller will be announced at a later date.

**AMERICA SHOULD KNOW
OLD FIDDLER TUNES**

"America has no more truly national music than the old fiddler tunes which were born of the mountain song birds, the chirping of the crickets and the murmur of mountain streams," declares Henry L. Bandy of Petroleum, Ky., and champion fiddler of that state.

"Every child should be taught these old songs first," he continues, "for these are the nation's folk songs and an expression of the rugged days upon which the country is founded."

Bandy had his first real fiddle at the age of twelve, and by the time he was eighteen he had fiddled all through the mountains of Kentucky and Tennessee and was rated as the best dance musician far and near. In his thirtieth year he bought a backwoodsman's fiddle which bore the date 1541, and with it he entered all the contests that were held for miles around and found that the tone of his instrument seldom fail to bring him blue ribbons.

When the Henry Ford contest came on and old time fiddlers sprung into popularity, Bandy was the foremost contestant in his state and since that time he has been in great demand, especially for radio concerts. He is often heard over stations WSM and WDAI of Nashville, Tenn.

"My great ambition," he writes, "is to tour the country and give my music to those who enjoy it and leave with the people the memory of those glorious old time pieces which made happy the fireplaces of those folks of former times."

Mr. and Mrs. Roland Brown of South Texas, are here visiting his parents, Mr. and Mrs. E. Brown.

**LEVIATHAN SKIPPER
HAS UNIQUE RECORD**

**Ran Away From Home as
Boy to Follow Sea.**

Brooklyn—From catboat to Leviathan is the record of Capt. Harold A. Cunningham, newly appointed skipper of the great United States liner, which is the largest ship afloat. Cunningham knew how to handle the little catboats and sharpies that the boys play with in Sag Harbor, L. I. soon after he had learned to walk.

When, during the war, he performed what was considered the most astounding navigation feat of all time his friends harked back to his days in Sag Harbor and later in Greenport, when, sailing tiny homemade vessels, he would brave the heavy tide currents that swept into narrow inlets.

The Leviathan, in the war days, arrived in New York during a strike of tugboat men. No pilots were available, either. Gray-headed officers on the Leviathan shook their heads. Thousands of troops were waiting to be transported. The Leviathan might have to wait at quarantine for days, perhaps for a week.

"To the blazes with all your tugboats," shouted Cunningham, who was then navigating officer of the Leviathan, at the age of thirty-five. "We'll take her in ourselves." And so Cunningham personally took charge of the great ship whose very size has baffled many a skilled pilot and took her into her pier without a pilot and without a tug.

Captain Cunningham had a birthday recently. His luck, he believes, arises from the fact that he was born on the leapest day of leap year.

On February 29 of this year he celebrated that anniversary that only occurs every four years.

Harry, at the age of eighteen, narrowly escaped the signal honor of becoming a conductor on the Long Island railroad.

"You should follow in the footsteps of your parent and become a railroad conductor—a rolling stone gathers no moss," his father, William Cunningham of Greenport, L. I., warned him when in his late teens he was considering a career.

But young Harry Cunningham had fooled around the sea too long to fall for any such advice. Born at Sag Harbor, L. I., he grew up breathing the tangy atmosphere of the sea. He watched fishermen bringing in their catches of flounders. Soon after he learned to talk he took his first successful breast stroke, and from then on the boys spent the whole of many of their days in the water, swimming sometimes and then diving in and out of their tiny boats, fearless of the heavy tides and seas on the south shore of Long Island.

The captain gives his orders briefly and to the point. He runs everything smoothly without the necessity of the long conferences in which some skipper indulge. His friends, on the other hand, are full of stories about his exploits, and report that when danger is at hand, or decision is needed, he turns out to be a two-fisted, determined individual.

Cunningham stole a sheet off his mother's bed to make the sail of his catboat at Sag Harbor. He lived at Sag Harbor until he was twelve, and then, his father being transferred by the Long Island railroad, he moved to Greenport, where at the foot of Cherry lane Cunningham continued to fool around with boats.

A senior in Greenport high school at the age of eighteen, Cunningham tired of dull books and tired also of the thought of becoming a Long Island railroad conductor when he graduated. He therefore ran away from school and got a job as pilot seaman on one of the little steamers of the Montauk Steamboat company that braved the waves on the run from Sag Harbor to Greenport to New York.

On the steamer Shinnecock, of which John Burns was skipper, Cunningham learned how to box the compass from Pilot Dennis Homan, now a prominent citizen of Riverhead, L. I. He progressed so rapidly that three years later, at the age of twenty-one, he became a captain—a full-fledged skipper three months after attaining his majority.

The Manhasset, Captain Cunningham's first command, bounded over the stormy seas between Sag Harbor and New London. Cunningham moved rapidly to posts on bigger ships. He joined the Southern Pacific line, running vessels between New York and New Orleans, then became second officer on one of the vessels of the Mallory line. The first officer on one of these trips was lost overboard and Cunningham brought the ship in.

He commanded the Monus, the first American ship to make the trip to France during the war. His masterful work on this vessel won him the post of navigating officer of the Leviathan.

**Relics of an Inland
Ocean in Oregon**

Bend, Ore.—Clam shells and fossilized remnants of creatures, thought to have lived in an ocean of cretaceous times, have been found in Crooked River canyon. Geology students believe the finds tend to establish that millions of years ago the sea swept this region before the mountains at the west rose from the ocean bed.

SEE CLOCK TWENTY MILES

The most brilliant clock in the world, on which the time can be told at a distance of twenty miles, has recently been set up in Baltimore.

The clock consists of a 10-foot copper octagon in which are set sixteen red and white electric lamps of 25,000 candlepower each.

The red lights flash once on the quarter hour, twice on the half, three times on three quarters and four times on the hour. After the red flashes, the white lights flash the number of the hour.

SOCIETY and Club

MRS. R. L. BOWERS, Editor
Phone 1-8-2

Weddings and parties for future brides have engrossed society the past week to the exclusion of other entertainments, but most of the clubs have again resumed their regular meetings this week.

MRS. MICHIE I-DEAL CLUB HOSTESS.

The I-Deal Club was delightfully entertained Wednesday afternoon at the home of Mrs. J. E. Michie.

Bridge was played with Mrs. Ike Bailey scoring high and receiving a pyrex casserole dish. The table cuts were given to Mrs. Du Bois, Mrs. Carter and Mrs. Wingerd and were pretty amber colored powder boxes. The house was prettily decorated with cut flowers.

A delicious plate containing tuna fish sandwiches, cheese straws, stuffed tomatoes, apricot sherbet, angel food cake and iced tea was served.

The guests were Mesdames Bailey, Collins, DuBois, Carter, May, Wingerd, Copeland, Shelton, King, Alexander, Bowers, Ralph Carter and Chester Quiet of Pecos.

MRS. DUBOIS ENTERTAINS

Mrs. B. D. DuBois was hostess to two clubs during the week. On Wednesday evening entertaining the Night Club and Friday the Luncheon Club.

The Night Club met at eight-thirty and Mrs. Ike Bailey received a dainty bridge set for high score among the ladies and Mr. Endersen a whisk broom in leather case high score among the men.

Caramel brick ice cream and angel food cake were served to Messrs. and Mesdames King, May, Miller, Bailey, Wingerd, Endersen, Michie, Bowers and Mrs. Shelton and Mrs. Quiet of Pecos and Mr. Leo Holmes.

On Friday the members of the Luncheon Club and others were guests of Mrs. DuBois at a one o'clock bridge luncheon. A delightful luncheon in four courses was served. The hostess was assisted in serving by Miss Mary Handley Endersen.

The table cuts were sachet powders and were given to Mrs. Endersen and Mrs. Michie. High score was won by Mrs. Endersen. A Japanese panel picture was given.

The guests were Mrs. Ike Bailey, Mrs. W. H. Collins, Mrs. Tom May, Mrs. Michie, Mrs. Earl Alexander, Mrs. Shelton, Mrs. Endersen and Mrs. John King.

PICNIC AND SLUMBER PARTY

Picnics are always very popular during the warm weather and none has been more enjoyed than the one given Wednesday evening by Mrs. Chris Quante for Mrs. C. George of Midland. Those enjoying this occasion were Mrs. C. George, Misses Irene Lindley, Jewel Graves, Lillie Mae Warren, Mary Kathryn Anthony, Lois Daniels, Marie Brown, Theba McPherson and Bebe Auburg and Messrs. Curtis Gassaway, Sy Tankersley and Vance Glover, and Mr. and Mrs. Quante.

After the picnic the young ladies spent the night with Mrs. Quante.

PRISCILLA CLUB ENJOYS MEETING.

The Priscilla Club had a pleasant meeting Wednesday afternoon with Mrs. Simon Holgate. After spending the time in doing needle work, sandwiches and iced tea were served to the following: Mesdames Honer Winston, H. W. McSpadden, Scudday, Brothers, Pounds, Dunn, Jackson and Kendrick.

Mr. and Mrs. R. L. Bowers and Mrs. Earle Anthony left Thursday night for Mineral Wells because of illness of Mrs. L. C. Wines. They returned Sunday night.

Mr. and Mrs. Tom May and family left Sunday morning on their summer vacation for California, Washington, Oregon, Canada and back by the Great Lakes. At El Paso they will get Miss Gladys Shinn who will accompany them on the trip.

LOUISE WILLIS CIRCLE

The Louise Willis circle met last Thursday afternoon, May 24, at the home of Mrs. Wayne Brown. Present were Mesdames Laurence Green, Clarence George, Chris Quante, J. C. Hunter, DuBois, Frank Ballard, Ike Bailey, Jack Holt, Jack Benton and Gladys Green.

The circle will meet next Thursday June 7th with Mrs. Ralph Carter.

METHODIST SOCIAL

The Missionary Society of the Methodist church had a social every 4th Monday. This week the social was at the home of Mrs. J. E. Michie. Miss Fay Brown, Mrs. Roy Herod and Mrs. Harry Longbrake entertained the society with pretty piano and vocal solos. Misses Eunice Michie and Caroline Chisholm gave entertaining readings. Angel food cake and sherbert were served to the following members: Messrs. Powell, Linville, Woolbridge, Longbrake, Cleve Williams, Chisholm, Downing, Herod, F. Smith, Weber and Miss Fay Brown.

BAPTIST WOMAN'S MISSIONARY UNION

All the circles met Monday afternoon at the church for a business meeting, and the Lottie Moon circle presented a missionary program on Africa, led by Mrs. Will Adams. Mrs. John Scudday and Mrs. Jackson gave interesting talks. A W. M. U. library was planned.

Church of Christ Bible Class

The Bible Class of the Church of Christ met Monday afternoon at four o'clock at the church for regular study. The lesson was led by Mrs. L. F. Hudgens with ten members present.

Christian Missionary Society

The Missionary Society of the Christian church met Monday afternoon at the church for regular lesson, which was led by Mrs. Walters. After the lesson the members watered the trees and tended the yard. Fruit was served to the five members present.

Presbyterian Missionary Society

Mrs. Roy Wingerd was hostess to the Presbyterian Missionary Society Monday afternoon. The lesson was led by Mrs. Shelton, after which sandwiches, salad and iced tea were served to Mesdames Dallas, H. W. McSpadden, Perkins, Shelton and Holmes.

FAREWELL SHOWER FOR MISS GARRISON

Mesdames L. R. Pounds and W. R. Lovelace entertained Wednesday afternoon at the home of Mrs. L. J. Dunn in honor of Miss Mabel Garrison who is leaving real soon for Canyon to enter school Miss Virgello Nan Dunn read "Baby's Logic," Miss Lenore Brownfield read, Miss Helen Jackson played a piano solo, Misses Francis Brownfield and Wilma Frank Dunn read, and Mrs. Pounds gave the class history. Miss Ora Ella Gray then presented the gifts, and Miss Garrison responded. Mrs. Pounds is the teacher of the class "Anoma" of which the honoree is a member.

Present besides the honoree, were Misses Ora Ella Gray, Ruby Tandy, Blanche Williamson, Vicie Mae Sears, Dora Dean Neill, Lou Ellen Brown, Anna Belle Scudday, Pholbia Johnson, Evarada Manas, Lois Ella Coe, Lenore Brownfield, Helen Jackson and Lola Belle Johnson; Mesdames John Scudday, Kendrick, Bandy, M. V. Brownfield, W. A. Tittle, Tandy, Flippin, K. W. Howell, McBurnett and Dunn.

Sandwiches, cake and iced tea were served. The plate favors were scripture readings on colored cards.

Presbyterian Missionary Society

The Presbyterian Missionary Society met in regular session May 21, at the home of Mrs. W. H. Dallas, with Mrs. H. G. Lees hostess. Lesson was in charge of Mrs. H. W. McSpadden, "The Call of Abraham." Mrs. Leez served sandwiches, olives, candy, and hot tea to Mesdames Alexander, McSadden, May, Shelton, Dallas and E. B. Surface. An interesting letter was read concerning the Buffalo Gap Encampment.

Mr. and Mrs. W. A. Cooper of Jordan, spent the week end with Mrs. Cooper's sister, Mrs. Simon Holgate.

Misses Martha and Caroline Spencer are visiting their grandparents, Mr. and Mrs. J. L. Randall.

Mr. and Mrs. J. T. Auburg and family attended the commencement exercises at the Tech, Monday. Pat Neff delivered the address.

Mrs. H. G. Lees and children, of Big Spring, guests for several days in the home of Mrs. Lees' parents, Mr. and Mrs. W. H. Dallas, returned recently to their home.

MEMORIAL DAY

Memorial day has just passed. It was observed by the American Legion as is customary by the boys by working the graves of the fallen heroes and placing flowers thereon. The business men displayed their flags.

There are thousands of hearts that ache with memory, and there are the white crosses in Flanders Field, each one marking blasted hopes and an aching heart at home. Then there are the men who came back ruined in body or mind. A liberty loving people should not let this day go by unobserved.

Mrs. Chester Quiet with her father, Mr. J. A. Miller, have returned to her home at Pecos.

Mr. and Mrs. S. L. McDonald have as their guests their daughter, Mrs. Ross Sams and baby of Waco.

THE HOUSEWIFE TRAVELS BUT GOES NOWHERE

A recent test in an average Iowa farm home revealed that the housewife walked over 41 miles as she did her ordinary household work for one week. This probably no surprise to many farmer's wives who feel they have walked across the state and back by the time the week is over.

Surveys have shown that on farms without water systems the housewife often travels as far as 150 miles or more per year with the water bucket alone, aside from the "chores," says the research department of the National Association of Farm Equipment Manufacturers. Kansas recently passed a law prohibiting marriage unless the couple has at least \$1,000, thus compelling prospective husbands to install "wife savers" in the form of electricity and water systems.

TOKIO TROPHY TAKERS CLUB

Mr. Davis was out May 17th and also made a visit and talked to the trustees of the School Board May 21.

While Mr. Davis was out here on the 17th he taught us a yell to say for our pigs as we have the largest pig club in Terry county. The yell is as follows:

Pig Pig, Pig Pig Pig,
Pig Pig, Pig Pig Pig,
Pig Pig, Pig Pig Pig,
Whoopee PIG!

If everyone has as good luck as we are all expecting to have we will soon have plenty of pigs to sell. Then if anybody wants a registered pig just come to Tokio Trophy Takers and we will sell you some—so please remember that.

We also had one new member the last meeting and believe he is going to like the work well.

—Reporter.

CANDIDATES MUST SOON FILE FOR PLACES

Candidates for office are now filing their names for places on the primary election ballots for use in the July primaries.

The law is that all candidates for state offices must file their names with the state chairman on or before June 4th.

All candidates for district offices must file with the district or county chairman on or before June 4th.

All county candidates must file with the county chairman on or before June 16th.

Candidates for office in Terry county will begin to file their names right soon in order not to overlook the filing date of June 16.

HOTEL TRANSFORMED INTO BIG ELECTRIC DISPLAY

An unusual illustration of the popularity of advertising by electric signs is shown in the purchase recently of a large hotel in the Times Square section of New York City to be used solely for electric advertising.

Two sides of the building are covered entirely by electric bulletin boards and the roof is surmounted by a huge electric sign. The income from the rental of this space is said to be tremendously larger than that which could be obtained by renting the rooms.

It is estimated that the number of electric displays in the United States approaches 500,000. New York City alone boasts 20,800. The average wattage consumed by the 22,000,000 sockets in these signs is approximately seventeen, which at five cents per kilowatt-hour, means a gross revenue of more than \$28,000,000 to central power sections.

A. Flache has dismantled his residence built in the early days by John C. Scudday, and is preparing to build a thoroughly modern brick veneer on the same site. The Herald is glad to see our citizens building modern homes.

Abilene—President Haynie of the WTCC has appointed members of the three standing committees of the Tenth Annual Convention, the Nominating, Credential, and Resolutions committees.

MEADOW BRIEFS

By Aesculapias.

The past week saw the closing of most of rural schools and also high schools in the large towns and cities. At Meadow the teachers have all left but one or two and they are preparing to get away.

I hear a few parents asking "What will we do with the children during the vacation." In fact in the cities and towns it is a real problem. Nothing for them to do but loiter about and get into meanness of one kind and another, it taxes the ingenuity of mothers, as fathers don't look after them anyway. Of course those residing in the country can find plenty to do, but it doesn't solve the problem of the towns. The idle boys should have something to do most of every day and parents should see that they work at something every day. If they don't the most of them will come out at the end of the summer proficient crap shooters and poker players.

The past week also found that aggregation of political misfits in session at Beaumont. It was indeed a love-feast? There has never been gathered in Texas as many discordant elements calling themselves democrats in the history of the State.

Constitutional Democrats, Harmony Democrats, Ferguson Democrats, Ku Klux, Butte Democrats, and a large sprinkling of plain Demagogues, with a representative of the Anti Saloon League.

Our flaxen haired governor seems to have gotten in badly, and with Hawkins and Wardlaw camping on his trail and gutting his record he is indeed in a bad way. I took the time to read Hawkins' animadversions delivered at Breckenridge, and can find nothing in his five column speech but personal abuse of Moody. Now Moody isn't an angel by any means and is strictly out for Moody, but no self respecting citizen would if he knew the facts swap him for this wind-jammer, who seems to have taken offense at Moody because he allowed Hawkins client to go to the electric chair. We may not need Moody for another term, but I am sure that Hawkins will not be his successor.

I didn't think that I wanted Al Smith for President but I have about come to the conclusion that if he is nominated we will be rid of so many that the Democrats don't need that it will be a decent crowd when Love Ku Klux and company leave the party. God hasten the day.

The President has put the farmers on notice, that however much they may need relief, that his administration will see that they don't get it. The insincerity of the whole republican and some democrats is apparent when other bills not near so important were promptly passed over his veto.

The little son of C. W. Avary had the misfortune to break an arm in a fall from the roof of the barn. An old lady living east of town, whose

name I don't remember, also fell down some steps and broke her arm. There were two births in the community the past week, both boys. One at the home of J. F. Lackey, the other at L. E. Andrews.

FORT WORTH READY FOR BIG CONVENTION

FORT WORTH, May 28.—When West Texans come to this city, June 18, 19, and 20, for the Tenth Annual Convention of the West Texas Chamber of Commerce, they may rightly expect the greatest convention in the history of the organization.

For more than two months, committees made up of approximately 200 of Fort Worth's leading business men have been engaged in making plans for the decadal meeting. Such a spirit of cooperation of business men has never been exemplified in Texas and the result is that plans are now practically complete.

There will be at least seventy-five sponsors to be presented at the pageant, an annual event on the opening night of the convention. More than one hundred entrants have registered for the "My Home Town Contest," while fifty-odd band masters have already signed entry blanks for as many squads of musicians.

There also will be other contests, details for which are in the making. Headquarters for more than fifty towns, planning to send large delegations have also been assigned. Fort Worth is sparing no expense to make the convention the greatest ever held by any organization in the United States.

The pageant, always an event looked forward to by all West Texas at this annual conclave, will excel in brilliance, beauty and grandeur anything of the kind ever staged in Texas.

It will be presented at the Texas Christian University Stadium, Monday evening, June 18, where the seating capacity is twenty-odd thousand. At this time, Miss West Texas and the more than seventy sponsors, chosen by as many cities in West Texas, will be presented.

The annual convention parade will be staged Tuesday afternoon, June 18. Already more than thirty cities and towns in West Texas have announced they will enter floats for this contest. This will be the annual delegation parade and because the attendance at the convention is expected to set all time record, this parade is expected to be one of the longest that ever passed in review before a Texas assemblage. It will march over Main and Houston Streets, after forming near the Texas & Pacific Railway passenger station.

Fort Worth's entertainment program is elaborate. Registration of delegates is expected to set new records because of this great entertainment program. Courtesy books will be presented each registered delegate. This will entitle free entrance to the pageant on Monday evening, one baseball game between the Fort Worth Cats and the Shreveport team, and will carry dance courtesies, as

well as entrance to a theatre and swimming pools. Numerous other features are yet to be added. Registration badges have already been received and in many places these badges are being sold in advance by chambers of commerce secretaries. Thus it will be seen that cooperation to make this the biggest convention West Texas has known has spread to every section of the great west.

The program in all of its detail will be announced within the next few days, according to Homer D. Wade,

general manager of the West Texas Chamber of Commerce who is now in Fort Worth.

LAHEY LIVELY LEADERS CLUB

As we failed to get the first report in the paper, we will make this report do for both meetings.

Mr. Davis visited the Lahey school on Friday, May 4th, and organized our club, receiving eighteen members.

We named our club "Lahey Lively Leaders" or the L. L. L. Club. The officers elected were Dan Hulse, Pres-

ident; R. J. Purtell, Vice-Pres.; Kenneth Partell, Sec.-Treas.; Leta Hulse, Reporter.

Mr. Davis visited us again last Friday and three new members were added to the club.

We are going to work hard from the beginning, for, "A good beginning is a good ending."

—Reporter.

John Burnett came in last week with his disc harrow and put the court house park in fine shape.

Years of Service in Model T Fords

Expenditure of few dollars may enable you to get thousands of miles from your old car

THE Model T Ford is still a great car. It led the motor industry for twenty years and it is used today by more people than any other automobile. More than eight million Model T Fords are in active service in city, town and country, and many of them can be driven for two, three and five years and even longer at very small up-keep expense.

The cost of Model T parts and of necessary labor is unusually low because of established Ford policies.

New fenders, for instance, cost from \$3.50 to \$5 each, with a labor charge of \$1 to \$2.50. Tuning up the motor and replacing commutator case, brush and vibrator points costs only \$1, with a small charge for material. Brake shoes can be installed and emergency brakes equalized for a labor charge of only \$1.25. A labor charge of \$4 to \$5 will cover the overhauling of the front axle, rebushing springs and spring perches, and straightening, aligning and adjusting wheels.

The labor charge for overhauling the average rear axle runs from \$5.75 to \$7. Grinding valves and cleaning carbon can be done for \$3 to \$4.

A set of four new pistons costs only \$7. For a labor charge of \$20 to \$25 you can have your motor and transmission completely overhauled. Parts are extra.

All of these prices are approximate, of course, because the cost of materials needed will depend on the condition of each car. They show, however, the low cost of putting the Model T Ford in shape for thousands of miles of additional service.

See the nearest Ford dealer, therefore, and have him estimate on the cost of re-conditioning your Model T Ford. He will tell you, in advance, exactly how much the complete job will cost.
